**BEAVER BOARD**  
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.  
We carry a large stock in assorted sizes.

**MAIL ORDERS**  
We collect out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

### HIGH SCHOOL PARTY FRIDAY EVENING

**Splendid Program Given in the Assembly Hall.—Proceeds to go to Fence Fund**

Last Friday evening the Assembly Hall at the Grammar School was filled with scholars, graduates and friends on the occasion of the High School Party, given by the teachers and pupils of the High school, to raise funds to have the school grounds suitably fenced. The decorations in the hall and on the platform were most artistic and pleasing and the whole entertainment was carried out in a creditable manner. During the evening Mr. F. McCallum's orchestra provided music which was much enjoyed by the promenaders. His Worship Mayor Andrew presided and the chaplains were Mrs. F. F. Matheson, Mrs. A. A. Andrew and Miss Duffy. A novel and pleasing program was introduced consisting of seven topics and the guests were instructed to procure to discuss these. The topics were:—  
(1) Salutations and Salutations.  
(2) Soldier Boys.  
(3) "If you speak of love, speak low."  
(4) Knitting.  
(5) The Fence.  
(6) Dramatic Art.  
(7) England expects every man to do his duty.

### COUNCIL MEETING ON TUESDAY EVENING

**Assessment is Taken up and the Same Amount \$37,000 Will be Levied as Last Year**

A meeting of the Town Council was held on Tuesday evening, His Worship Mayor Andrew presiding, the following Councillors being present, Messrs. Quinn, Patterson, Miller, Goss, McLean, Ellsworth, Alexander and Evans. The minutes of the previous meeting were read and confirmed. Communication read from the Board of School Trustees notifying the Council to assess the sum of \$8000 for school purposes. This was laid on the table. Communication read from M. A. Kelly with regard to assessments paid by Miss Minnie Adams, and Mr. Charles Adams under protest. Referred to Assessment and Appeals Committee. Communication read from Mr. F. M. Anderson regarding assessment on property on Aberdeen Street for 1912 and 1913, a small balance still standing against this property. Referred to Assessment and Appeals Committee. Communication read from H. E. Berry asking permission to burn brush on property on Lily Lake Road. This was granted subject to the control of the Fire Committee. Petitions were received from L. Gaudreau for one pool table, and John Tannier for three horse livery stable, and referred to Police and License Committee. An agreement was received from the Town Solicitor regarding supply of power to the G. N. W. Telegraph Co., which after discussion was laid on the table. Another agreement was received from the Town Solicitor regarding lease of ground from Mrs. Nelson for a dumping ground, which the Mayor and Town Clerk were authorized to sign. This is a lease of six years and calls for an annual payment of \$100. The following reports recommending payment of accounts were on motion received and adopted.

### WORST FOREST FIRE KNOWN FOR YEARS

**Large Tract of Land on the International Line Laid Waste.—Heavy Loss**

During the past week forest fires have been raging along the line of the International Railway, doing enormous damage and causing large losses to the various lumbering concerns operating in this part of the county. The first notice of the conflagration came last Wednesday, when word was received of a bad fire at Anderson, where in addition to a large amount of lumber three houses were burned. In quick succession came the news of fires at Jardine Brook and Five Fingers, which working quickly down the line destroyed all the lumber at the Arsenault Siding and Ross Siding. The conflagration by this time had reached enormous proportions and swept a clean path from Ross Siding to Richards, a distance of nine miles, destroying in its march the poles and ties at the Y. At Richards the damage was greatest and the effects of the fire most felt. Here Boulay's mill and four houses were destroyed, but by herculean efforts the men of the Richards Co. saved a big pile of lumber containing over four million feet. This lumber had a narrow escape, notwithstanding the efforts of the mill men, the ends of the boards were burned and browned by the heat, but the pile was saved. The fire has been burning practically for over a week and a statement of the approximate loss cannot yet be obtained until the reports of the fire wardens are received, but it is felt that a heavy loss cannot but have been incurred in the large amount of lumber and property destroyed. It would be interesting to have the reports of the fire wardens as to who is responsible for the setting of the fires. One thing is certain at this period of the year the utmost care should be observed and every precaution taken to guard against fire. Wanton destruction like this of our national resources can only spell ruin to our county and province if allowed to go on unchecked.

### ENTHUSIASTIC SEND-OFF TO VOLUNTEERS

**Great Crowd at I. C. R. Depot on Tuesday Night When Soldiers Passed Through**

On Tuesday evening when the news got spread abroad that the 6th Mtd. Rifles would pass through here that evening, large crowds assembled at the I. C. R. station to welcome them. Long before the arrival of the train the platform was black with interested spectators and the tedious waiting was beguiled by selections from the Campbellton Brass Band. Fully an hour late, the train pulled in and the Campbellton boys in the draft received a great welcome. The men under the command of Col. Ryan looked fit and well, and were in the best of spirits. Their destination is ostensibly Valcartier, but some reports have been heard that the regiment 647 strong will sail direct to the Old Country from Quebec.

### MEETING OF THE BOARD OF HEALTH

**Regulations Adopted Regarding Sale of Milk for Human Consumption**

A meeting of the local Board of Health was held last evening, Dr. L. G. Pinault, chairman presiding. There was a good attendance of members. Mr. A. McG. MacDonald was appointed secretary for the ensuing year, and Chief Hughes was appointed Sanitary Inspector. A number of bills were passed and ordered to be paid. It was resolved that the Inspector notify the owners of each building on every street provided with a common sewer that the owner must connect his building with the common sewer on or before August 1st, 1915, according to rule 19 of the Public Health act of 1911. For non-compliance with this order proceedings will be taken in a court of summary jurisdiction. In the discussion which ensued on this resolution the Board very strongly desired to have it made known that the former laxity done away with. The provisions of the act will be strongly enforced. The meeting then took up the matter of the regulations governing the sale of milk. These regulations, which appear in this issue, were adopted according to the act of 1911. The Board then adjourned.

### ROLL OF HONOR

The Roll of Honor consisting of the names of those who have gone from the congregation and church to military service was unveiled at the Baptist church on Sunday evening. This Roll of Honor, which was prepared by Mr. Price Dekie, was nicely framed and mounted. The Union Jack covered it at the first of the service and the unveiling was done by Tristram White, a member of the Cadets. The Boy Scouts and Cadets, who were present, then stood up and sang the National Anthem after which prayer was offered. Following this was a very eloquent address given by Dr. Bosworth of Montreal, Secretary of the Grande Ligne Mission of Quebec.

Recruiting for the 55th Battalion still continues good in this district. Lieut. O. J. Larzen has just finished a successful tour covering the Kedgewick, Five Fingers, Anderson and New Mills, during the past week. Enthusiastic meetings have been the rule and many recruits are in sight as a result. At the meeting in Anderson, Mr. Chas. Daigle occupied the chair and gave a great deal of help to Lieut. Larzen during his visit there. Today other twelve men were despatched to Sussex, making a total of 38 men for the three weeks recruiting.

# TEMPERANCE REFORM IN SASKATCHEWAN

## Second Reading of New "Sales of Liquor Act" Has Enthusias- tic Reception

Regina, Sask., June 4.—With the singing of the National Anthem by members of the House and spectators, one of the most memorable sittings of the Saskatchewan legislature was held yesterday afternoon, on the occasion of the second reading of the "New sales of liquor" act.

In moving the second reading, Premier Scott said he was in hopes from some of the remarks of the leader of the opposition, that this measure might pass unanimously in the house.

The premier went at length into the details of the measure, showing that every precaution had been taken to ensure that the will of the people should be given effect. When a vote shall be put to the people in 1919, there shall neither be a strongly entrenched liquor interest in the provinces to fight on its own behalf, nor will there be at that time any revenue coming to the government from the sale of liquor to prejudice the people, for the profits of the system by that time will have been devoted to other objects. In the first year the government will lose in revenue \$50,000. Our revenues from licenses hitherto has been \$300,000. The first year, under the new system, profits to the government will be restricted to \$250,000. These profits will be annually reduced until in 1919 they will be altogether abolished.

Referring to the threat of the licensed victuallers to close all the hotels of the province on June 30, Premier Scott said:

"I may say this, if there is an opening left in the coffin, in which the bars are to be placed, for another nail, the carrying out of such an announcement will drive that nail home. There will be such a revulsion of feeling among thinking people that nobody will ever dare again to suggest that the bar business be revised."

Closing his speech Mr. Scott said:—"It is a happy coincidence that the motion for the second reading of this bill should be made on King George's Birthday. The King is the chief bond of the Empire, and he has set an example to the whole world by becoming an abstainer and thereby endorsing the temperance movement. I am proud that upon the King's birthday this bill comes before the legislative assembly of Saskatchewan. I believe that this bill will have for all time to come a beneficial effect upon the people of this my own province of Saskatchewan."

The debate was adjourned by W. B. Willoughby, leader of the opposition.

## WHOLE FAMILY USES THEM

### "Fruit-a-lives" Keeps Young And Old In Splendid Health

J. W. HAMMOND ESQ.

SCOTLAND, ONT., Aug. 25th, 1913  
"Fruit-a-lives" are the only pills manufactured, to my way of thinking. They work completely, no gripping whatever, and one is plenty for any ordinary person at a dose. My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money until we happened on "Fruit-a-lives". I cannot say too much in their favor.

We have used them in the family for about two years and we would not use anything else as long as we can get "Fruit-a-lives".

Their action is mild, and no distress at all. I have recommended them to many other people, and our whole family uses them."

Those who have been cured by "Fruit-a-lives" are proud and happy to tell a sick or ailing friend about these wonderful tablets made from fruit juices. Box, a box, 6 for \$2.50, trial size 5c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

## ARE ORGANISED TO CRUSH GREAT BRITAIN

### Says Germans in West are Ready to Rise and Damage West- ern Canada

Calgary, Alta., June 2.—Thousands of Germans in Canada and hundreds of thousands in the States are but waiting the word to rise and help in the final crushing of Britain about the end of July or the beginning of August, according to confidences unsuspectingly made to a German speaking Scotchman, by a naturalised German farmer of the Calgary district, Reynold Hordan, who was arrested tonight by the city police on a charge of sedition.

Hordan who was in the city on business connected with his farm, entered into conversation in an hotel rotunda with the Scotchman whom he saw looking over a German paper and who has a distinctly Teutonic appearance.

In the exchange of sentences that followed Hordan boasted that the final blow would be struck against Britain, which must be crushed at all hazards, towards mid-summer. Germans all over the States and Canada were organising with a view to helping in making that blow decisive. "Getting naturalised is just part of the game," he said, "we are instructed to do that."

He said that the Germans in Canada could do great deal of damage, observing that 250 men could wipe out Calgary.

Hordan made further boasts as to his personal skill at shooting and his ability to handle a bayonet.

He has been in the country for nine years, his farm being at Aberdeen, 60 miles north of Calgary and his hitherto apalled himself off as a Finlander. He will be arraigned tomorrow morning.

Prince Albert. A large number of the school children there are Germans, and when a British adaptation of Der Tag was sung, objections were made by the German parents. The Deputy Minister of Education, who was appealed to, directed the school teacher to desist from singing such songs on the ground that they made trouble. He was threatened with the cancellation of his license. It appears, however, that the school superintendent has not taken back water or eliminated the song from the list of those taught the pupils. Much local excitement is reported over the incident, and the department is coming in for a lot of criticism.

## LEADS PROCESSION DOWN NORTH SHORE

### Union Jack Perched on Pilot of Engine Arouses Great Enthusia- sm Along I. C. R.

(Transcript)

A small silk Union Jack, travel stained but gay, fluttering proudly from the pilot of the giant 445, attracted much attention among the spectators on the platform as No. 200 Ocean Limited from Montreal rolled slowly to a stop in the Moncton Union Depot Thursday afternoon. The little flag was one of a pair put out at Campbellton, by Engineer John Stewart and Fireman Jack Mahoney in honor of the King's birthday, and its reception as the limited dashed along the North Shore was as flattering as it was unexpected.

Farmers in the fields beside the track paused in their work to wave their hands at the train, and section crews threw their hats in the air and cheered madly as the huge locomotive raced past. At every stop along the line the patriotic emblems were heartily applauded and later in the day every lonely flag station served as a nucleus for the gathering of interested knots of spectators, who turned out to see the decorated locomotive whose fame had flashed ahead over the wires. There were originally two flags, a Jack and a Canadian Ensign, one on either side of the pilot, but near Berry's Mills, the ensign came off the staff and was lost, but the Jack defied the battle and breeze and led the procession right into Moncton, where its appearance was greeted with deserved applause.

At 1.40, No. 1 express, locomotive 637, similarly decorated by Engineer A. M. Stevens and Fireman George Miles of Truro, pulled into the Union Depot from the east, and by all accounts their demonstration was as well received down east as were the decorations of the Limited on the North Shore.

Many "old rails" were reminded by the flag bedecked engines of the "good (?) old days" when bright brass and paint were in their glory, before the advent of the "Black Maria" which rule the roost at the present time.

The incident related above is illustrative of the unprecedented spirit of patriotism and determination which has gripped the whole country. A year ago the King's birthday would have passed almost unnoticed and most people would have had to think twice to discover why the locomotives were showing the colors.

Rexall Orderlies are a safe laxative even for the most delicate woman or child. Sold only by Thos. Wran. The Rexall Store, 10c, 25c, & 50c. boxes.

## LETTERS FROM THE FRONT

The following letter has been received from Pte. R. J. Steves.

War Zone,  
May 1st, 1915.

Dear Sister:  
I received your welcome letter; you will have to pardon me for not answering your other letters, but it is hard to write very often.

I suppose by this time you have the news of the big battle we took part in. I cannot tell you all that took place, but will try to tell you some of the things that happened. We were in the trenches when they started the fray, but they did not return with them when they came against the Canadians.

We were in the front line of trenches for six days and had to work every night building our trench, and getting what sleep we could in the daytime, which was about 2 hours. The second day we had the trench nearly fixed up, when the Germans took great delight in blowing it to pieces. We had to work hard that night to get it rebuilt to be able to resist an attack. The next day we were shelled again, but there was no damage done to our part of the trench.

They were shelling us continually for six days. We had orders to retire on the fifth day, then orders to hold the trench at all cost. We did so until the next day, when the Germans broke through and forced us to retire to save ourselves from being cut off. Our trenches were retaken later. Considering the position we were in we had very few casualties.

One can never describe the state of ruin this country is in. Cities, towns and villages laid in ruins. The pictures of the ruins of Pompeii are nothing compared to the desolate waste of this country. I for one believe in having the pure "sublimity" of our Lord on the day when the work is finished until this country is brought to the same state.

I hope mother is not worrying about me, as I am in the best of health, and so far have escaped without a scratch.

I do not know how much of this letter will get through, I have tried to tell nothing that would be of any use to the enemy. Of course I do not know what the censor may think it, but I hope this gets to you all right. I am keeping notes of what takes place so I will be able to give you quite a story when I get home, which I expect sooner than some people think. We have started the beginning of end, which cannot be very far off.

Well, as I am going to write as in a few days, will close for now. member me to all the folks. I love from

**GERMAN MOVIES.**

One of the latest moves of the Germans to win sympathy in the United States is via the moving picture route. A newspaper representative points out that he recently visited a New York movie show where "Thrilling Pictures of the War" were being shown, and though notices were frequently reflected on the screen that no partial sentiment was to be shown in the interests of U. S. neutrality, most of the pictures had a decided pro-German trend, such as "Good German Soldiers Feeding Refugees," "Brave Bavarians Returning from Firing Line," "Good German Soldiers Comforting Children of their Enemies," etc., etc. The audience, however, was hostile, and frequently showed its disapproval. As a result of this German campaign, the French authorities will, it is said, undertake to put truthful films made.

**WESTERN CROPS**

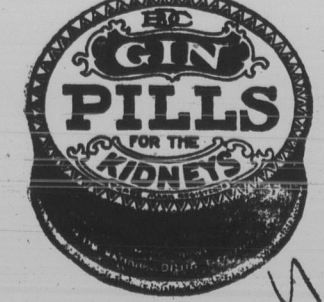

The western grain crop is said to be ten days ahead of last year in growth, and that only a moderate rainfall is now needed to insure an early and heavy crop all over the West. This will be good news, not only for Canada, but for the world. The prosperity of Eastern Canada is linked with that of the Canadian Northwest, and we have long passed the period when good crops in the Eastern Provinces are sufficient to assure our general prosperity. Our industries are in excess of the needs of the Eastern Provinces, and through their development now depend upon a large consumption of products in the Canadian Northwest. If the latter lacks crops and a bountiful harvest, it lacks the ability to purchase the products of the East, and therefore the re-action is keenly felt by us.

**NO MORE SCRUPLES**

The decision of three great American manufacturing concerns which had steadfastly refused to permit the manufacture of war munitions in their plants, now to do all in their power to aid the Allies, is one important result of the Lusitania outrage. Another practical result is a further stimulus to recruiting in Great Britain. What ever may be the outcome of the diplomatic correspondence between Germany and the United States, the Allies will get in steadily increasing measure material and moral support from the American people.—Quebec Telegraph.

**WILLIAM THE MURDERER**

In ancient times there lived a ruler who went down into history as William the Conqueror. In modern times there is a ruler who evidently has aspired to the title of conqueror, but who must go into the world's history as William the Murderer. History will be searched in vain for the record of any ruler, claiming to be civilized, who manifested the disregard to all the laws of warfare that is found from day to day in the acts of William of Germany. One wonders what punishment can at the end of the war—the only ending that is possible—be meted out to the man who is not only responsible for the making of the war, but who must be held responsible for the horrible methods against which all civilization is crying out to-day.—Ex.

Up to the first of the month the five great belligerent countries have made war loans totalling \$8,618,400,000. This is divided as follows: Great Britain, \$2,525,000,000, France \$1,802,400,000, Russia \$1,065,000,000, Germany \$849,000,000, and Austria-Hungary \$730,000,000. Germany and Austria will have to do considerable more borrowing before they pay for this war.

**OBITUARY**

The funeral of the late Daniel Court, who died here last Thursday, was held on Saturday afternoon, from the residence of Mr. Charles Watson, the Rev. J. E. Purdie and Rev. C. W. Squires conducting the services. Interment was made in the Rural Cemetery, the pall bearers being, Messrs. E. A. LeGallais, Archd. Ferguson, Thos. Dickie, Peter Gerrard, A. McG. McDonald and Henry Gouden.

The late Daniel Court, who was 38 years of age was a native of Escuminac. He was married three years ago to Eva, the third oldest daughter of Charles Watson of this town, and leaves a widow and one child to mourn. For some time he had been working at St. Hyacinthe at which place he became seriously ill from typhoid.

**REGULATIONS OF THE LOCAL BOARD OF HEALTH FOR THE TOWN OF CAMPBELLTON**

Concerning the Production and Sale of Milk Destined for Human Consumption in the Town of Campbellton, New Brunswick.

Under the authority of the General Assembly of the Province of New Brunswick, 11 George V, Chapter 55, the following regulations with regard to the sale of Milk have been adopted by the local Board of Health for the Town of Campbellton:—

(1) No milk intended for human consumption in the Town of Campbellton shall be sold, or offered, or kept for sale, in said Town of Campbellton, unless and until it shall be certified to by the Milk and Dairy Inspector of said Board, that the cows, barns, stables, the food and water supply of said cows, the implements used in the handling of the milk, and, in general, the whole dairy plant of the producer of such milk are in a condition satisfactory to said Inspector.

(2) Every producer of milk destined for human consumption in said Town shall submit his dairy herd and complete dairy plant to the inspection of the Board, or any official appointed by it for that purpose, as often as may be deemed necessary by said Board or officer. Such producer shall submit once a year, or oftener if deemed necessary by said Board of officer, a statement containing his name and address, the number of cows in his possession, the average quantity of milk disposed of, daily, either to distributors or milkmen, and the names thereof, to milk shops and the owners thereof, and to individual customers, and such other information as the Board or its officers may deem necessary.

(3) No person shall distribute or vend milk in the Town of Campbellton without a license, so to do from the said Board, which license shall be for a period not extending beyond the first day of June next following the date of the license, and which shall be granted only upon the following conditions:—

(a) That such vendor shall satisfy the Board that the place of storage of his milk shall be at least ten feet from any barn or place where animals are kept, and shall not be under the same roof.

(b) That such places shall be at least thirty feet from any collection of manure, privy, filth, or other decomposable matter.

(c) That such places shall be thoroughly drained and ventilated; not be liable to any gaseous or microbic emanations, and be kept clean and altogether in a sanitary condition.

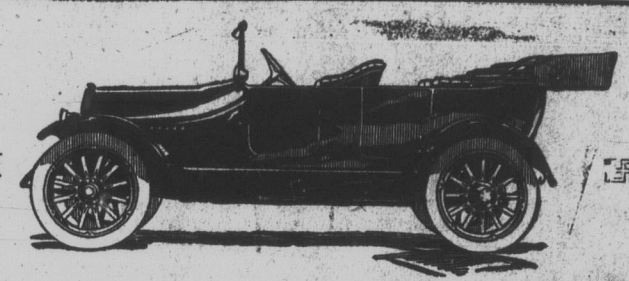

(d) That no milk shall be sold or distributed or otherwise disposed of for ordinary uses after forty-eight hours of its receipt, and in no case, if any trace of souring has made its appearance.

(e) That the vehicles and other articles used in the distribution of milk shall be kept thoroughly clean, and in a sanitary condition, and shall not be used for any other purpose whatsoever.

(f) That it shall be the duty of each vendor of milk to thoroughly wash all milk containers of whatever kind, after being emptied of their contents, in water containing a proper amount of non-poisonous alkaline antiseptic—then to well wash out in pure water and immediately thereafter to sterilize by live steam or boiling water.

(g) That on or before the first day of June in each year he shall furnish to the Board a complete list of the names and addresses of the producers supplying him with milk, and that he shall from time to time thereafter revise such list as additions to it or omissions from it, may occur.

(h) That he shall, under no conditions or circumstances whatever, receive milk for sale or distribution in the Town of Campbellton from any producer of milk directly or indirectly, who shall not have had his premises and dairy-plant inspected and approved of by the milk and dairy inspector of the Board as provided for in paragraphs one and two of these regulations, and that upon the infraction of this rule, his license may be at once revoked.

necessary in the interest of the public health they can order any vendor or dealer in milk to have his herd or any animal of such herd from which milk is supplied to such vendor or dealer to be tested with tuberculin by a veterinary surgeon approved by the Local Board, and such test shall be made within one month from the date of such notice being given such vendor or dealer.

(5) No person shall sell or deliver milk from a shop or dairy in the Town of Campbellton, unless duly licensed so to do by the Board, which license shall not extend beyond the first day of June next following the date of the license, and which shall be granted only upon the following conditions:—

(a) That each licensee shall keep his milk when received in bulk, in containers, well glazed upon the inner surfaces, and covered so as to be thoroughly protected from insects and dust.

(b) That the immediate place of storage, whether the milk be in bulk or bottles, shall at no time exceed in temperature 50 deg. F., and that all dippers, glasses, or other utensils used in handling such milk, shall be kept constantly and thoroughly clean and wholesome.

(c) Each person permitted to sell milk, or licensed under these regulations, whether producer, vendor, or shop or dairy keeper, shall give immediate notice, or cause such notice to be given, to the board, or to the chief health officer of any cause of contagious disease in his family, or in the person or family of any one in his employment, or in the farm house or shop, at which, from which or in which the milk is either received or sent, and shall at once carry out the instructions laid upon him and obey the instructions of the board or its chief health officer, consequent upon the outbreak of such disease.

(6) No person shall sell, or keep, or offer for sale in the Town of Campbellton any milk which is unfit or unwholesome for human food, or which has been adulterated, or which has had preservative or coloring matter added thereto, or has been reduced or changed by the addition of water or other substance, or by the removal of cream, or milk from cows fed upon decaying garbage or other like substance, or from diseased animals, or from animals within twenty days previous to expected parturition, or within six days after parturition.

No person shall sell skimmed milk or buttermilk unless such quality of milk is specifically asked for by the purchaser. The foregoing regulations with respect to the production, distribution, storage and sale of milk shall apply with equal force to skimmed milk and buttermilk.

(7) Each person, whether producer, vendor, or keeper of shop or dairy, affected by these Regulations, shall permit his herd, barns, premises, general dairy plant, his methods of operating, his transportation and distributing vehicles and utensils, his place of storage, and his place and methods of cleaning and sterilization, in short, all his places and operations concerned in the production, distribution and sale of milk to be inspected by the health officer appointed by or attached to the board, at all reasonable hours and whenever such officer may desire to do so.

(8) Each person, indicated in paragraph seven, whenever so requested shall on payment of the value thereof, furnish the inspector of the board with such samples of milk as the latter may require from time to time, and at such places as the samples may be demanded.

(9) The inspector shall attach a label to each vessel containing such sample, which shall have written thereon at the time of collecting it, the number of the sample, date and hour of collection and the initials of the health officer receiving it, who shall at once enter in a book (carried for this purpose) for further reference, a corresponding number with the name of the owner or driver from whom the sample was taken.

(10) Each sample shall be examined separately, according to its number, by the Chief Health Officer or other person appointed by the proper authority for the purpose, which officer shall register specific gravity, temperature and percentage of butter-fat and other information bearing upon the purity and wholesomeness of the milk opposite a corresponding number in a book kept for that purpose, the name of the owner to be subsequently inserted, and the health officers and sanitary inspectors are authorized and required, whether upon the street, public places or shops of the town, to seize and destroy all such milk as may thus, or in any other way, found unwholesome or unfit for human food.

(11) No one shall receive, purchase, sell or offer for sale within the Town of Campbellton milk from a house or farm in which there is or has recently been any contagious or infectious disease, or milk which has recently been handled by any person who is, or has recently been, exposed to or who lives in a house in which there is, or has recently been, a case of contagious or infectious disease.

(12) In these regulations the singular shall include the plural and the word "person" shall include a female as well as a male individual.

(13) Any person who shall wilfully violate any of the foregoing Regulations, or who neglects or refuses to comply with such Regulations, shall be liable for every such offence to the penalty not exceeding Two Hundred Dollars as provided for by the Public Health Act of 1911.

The above Regulations were adopted by the Town of Campbellton Board of Health on the ninth day of June A. D. 1915.

## THE DOCTOR'S PRIVATE SECRETARY TONIGHT

At the Opera House for the Benefit of the Red Cross Committee

What promises to be one of the best shows ever given here will be seen at the Opera House tonight, (Thursday), and Friday evening, with a big matinee on Saturday afternoon, when Mr. T. H. Bird, assisted by local talent will stage the four act comedy drama "The Doctor's Private Secretary". Three big spectacular specialties will also be given between the acts.

Notwithstanding the fact that Mr. Bird has not had the same opportunity for rehearsal as on previous occasions, owing to the number of other engagements intervening, the principals and chorus have been well drilled and a most successful entertainment is looked forward to.

The play on this occasion will be given for the benefit of the Red Cross Committee of the Women's Institute, and as Mr. Bird at this time is receiving a smaller percentage of the net proceeds than on former occasions, it is expected that every one will endeavor to be present at this entertainment thereby swelling the fund for the benefit of the Red Cross work.

The principals in the play are all well-known to Campbellton people and their work in this production will be even better than their previous performances.

The full cast is as follows:  
Flossie Glenwood, Miss Jean McLatchy  
Kate Paxton, Miss H. G. Gillis  
Milly Merton, Miss Ethel Hogan  
Meg Sylvester, Miss Helen Davidson  
Mott Street Mull, Miss Hazel Lingley  
Doctor Leslie, Mr. Harold Conrad  
Richard Glenwood, Mr. J. J. Bernier  
Bill Sykes, Mr. B. O. Bates  
Noah, Mr. Edmund Gallagher  
Ned Archer, Mr. Theodore H. Bird

**SYNOPSIS**  
ACT I—Doctor Leslie's Office and Reception Hall on River Side Drive, New York City. The new Secretary arrives.

"Yes sir, you will get more for your money in service and satisfaction, by using

**Brandram-Henderson's "English" Paint**

than you can get with other paint:

**Longer Protection**, because B-H "English" is primarily an endurance paint and will successfully withstand the effects of weather longer than others;

**Greater Economy**, because you will not have to repaint nearly as soon as with other paints; and

**Greater Satisfaction**, because B-H Paints retain their beauty and weather resistance for years.

**The Reason**, for this is that all B-H "English" Paints that can be made on a white base contain

70% Brandram's B. B. Genuine White Lead

30% Pure White Zinc.

A combination that produces paints unexcelled in covering capacity, beauty, brilliancy and durability.

This formula is positively guaranteed by the makers."

## A Woman's Sympathy

Are you discouraged? In your doctor's bill a heavy financial load? In your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but I learned how to cure myself. I will so relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 3c. (the cost of postage only). Your letters held confidentially. Write to-day for my free treatment. MRS. F. E. CURRAH, Windsor, Ont.

## TWO NERVOUS WOMEN

Made Well By Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I had a severe case of nervous prostration, with palpitation of the heart, constipation, headaches, dizziness, noise in my ears, fluid, nervous, restless feelings, and sleeplessness. I read in the paper where a young woman had been cured of the same troubles by taking Lydia E. Pinkham's Vegetable Compound so I threw away the medicines the doctor left me and began taking the Compound. Before I had taken half a bottle I was able to sit up and in a short time I was able to do all my work. Your medicine has proved itself able to do all you say it will and I have recommended it in every household I have visited."—Mrs. MARY JOHNSTON, 210 Siegel Street, Philadelphia, Pa.

Another Bad Case. Ephrata, Pa.—"About a year ago I was down with nervous prostration. I was pale and weak and would have hysterical spells, sick headaches and a bad pain under my shoulder-blade. I was under the care of different doctors but did not improve. I then took I could hardly stand long enough to eat my dishes. Lydia E. Pinkham's Vegetable Compound has made me well and happy and I have begun to gain in weight and my face looks healthy now."—Mrs. J. W. HORNBERGER, R. No. 3, Ephrata, Pa.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### SCOTT-ROBB.

An interesting social event took place at 7 o'clock last Wednesday evening in St. Paul's Reformed Episcopal Church, Moncton. The Rev. T. Porter Drummond, pastor of St. John's Presbyterian Church who officiated at the ceremony.

Cut flowers, plants and evergreen were used in decorating the church. Mrs. W. F. Wheeler played the wedding march. A double quartette, composed of Mrs. F. L. Thompson, Mrs. Irvine Malcom, Mrs. John Russell, Mrs. Donald Cummings, Dr. H. S. Thomson, Messrs. Thos. Stenhouse, W. C. Knight and J. McDonald, rendered very sweetly "The Voice that Breathed O'er Eden."

The bride was given away by her brother, Mr. P. Blair Robb, while the groom was supported by his brother, Mr. Charles Scott, of St. John. Miss Jennie Price was bridesmaid. Messrs. Len Price and John Price ushered.

In addition to fifty invited guests, the church was filled with interested well-wishers of the happy principals.

The bride looked charming in a dress of white charmeuse, trimmed with Chantilly lace, caught with lilies of the valley, Juliet cap, and carried a shower bouquet of bride's roses and lilies of the valley. Her going-away gown was of blue silk with hat to match. Mrs. Robb wore a dress of amethyst satin charmeuse with white lace trimmings and beautiful hat to match. Mrs. Scott, mother of the groom, was gowned in a dress of black crepe de chene, trimmed with lace, and wore a black and white hat. Miss Price wore very pretty dress of pink charmeuse, draped in pink nixon, and pink rose-buds, with hat to match. Miss Scott, sister of the groom, wore a dress of silver corded silk, trimmed with white lace, and picture hat to match.

After the ceremony the bridal party repaired to the Robb home on Weldon street, where the guests were received and a dainty luncheon served.

## WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the medicinal food and building tonic, free from any harmful drugs. Try it.

### CANADIENNE.

MID-SUMMER SALE  
Of all trimmed millinery at Miss Barthe's.

Referring to the British munition supply, a London despatch says: Meanwhile every attempt is being made here to increase the output. The Clyde armament committee, representing munition makers and men, has telegraphed the last once from the Clyde at the earliest possible time. A large number of Canadians above enlistment age have arrived at Barrow this week for war munition work. Some hundreds of gifts from France are arriving. Everywhere one finds the utmost enthusiasm among the workers.

### "ABEGWEIT"

The Indian "Abegweit"—cradled on the waves; the early French explorer's "La baffe et belle Ile"—low and beautiful Island; and the Islander's "Garden of the Gulf" are sobriquets as eloquently descriptive of Prince Edward Island today as when they were first bestowed on this province surrounded by the sea.

Situated in the Gulf of St. Lawrence, Prince Edward Island is separated from the shores of New Brunswick and Nova Scotia by the Straits of Northumberland. From tip to tip, the island is one hundred and thirty miles, while the width varies from two to thirty miles. The surface is gently undulating. There are no mountains and no forests to speak of, but the lack of forest does not mean that the country is bare; for copses and clumps of trees are visible on every hand, giving a charming variety to the agricultural scene, and wild bits of woodland are still to be found.

The "Island" as its people love to call it—for where else in all America can be found its duplicate—is in summer a garden of perfect beauty fanned by cooling breezes from the Ocean, with music after miles of sandy beaches. Invading the land and moulding the red cliffs into fantastic shapes are the ever restless sea. Everywhere are verdant fields, prosperous farms and comfortable homes. Arms of the sea cut into the land in all directions, forming bays and peninsulas of surpassing loveliness.

The north shore of the Island has a character of its own. For many miles high sand-dunes act as a barrier to the sea. This combined with an unbroken beach of hard white sand permits of surf bathing that would be hard to equal elsewhere.

Numberless trout streams furnish sport for the angler, and deep sea fishing is easily obtainable. In season brant, wild geese, snipe, woodcock and other game birds are plentiful, and good bags are not difficult to secure.

The summer climate is perfect. Singularly free from extremes, the days are never hot and the nights are always cool; while the glorious fresh air, excellent food, and a good appetite induced by the breath of the sea, are factors in making a happy frame of mind and a comfortable bodily state.

The Island has 274 miles of railway owned and operated by the Canadian Government under the name of Prince Edward Island Railway. The high-ways have a reputation for general excellence and a driving tour of the island is one of the most pleasant experiences and an enjoyable means of thoroughly appreciating its many attractions.

Accommodation for summer visitors is provided by numerous hotels, bungalows, private homes, and farm houses at surprisingly reasonable rates. The hospitality of the Islanders is proverbial. There is an absence of social

### W. C. T. U.

This department is conducted by the Local Union, and is under the charge of an editor appointed by them. This Editor assumes the responsibility for the statements and articles which appear in this column.

The members are reminded that the next meeting June 25th, is the annual meeting. Superintendents are asked to have their reports ready. A full attendance is urged, that there may be no difficulty in finding heads of departments for the ensuing year. The programme committee will also be elected. The committee in charge of the Pledge work asked permission to hold over their final report until the 25th, as the returns from the various churches were not yet complete. The fact that the 11th was Flower Mission Day also left very little time for discussion of other work. Bouquets were prepared for sick and shut-ins, under the direction of Mrs. Blackhall and Mrs. Morton.

The following lines contain a plea for the Bulletin which is worth considering. Mrs. A. G. Adams will receive subscriptions, new or renewal.

### Press Report

After speaking of work done, Mrs. Mitchell says: If each Union would from time to time put an item about your work in the County papers, it would be of interest and encouragement to others and keep our work before the public which means more than we realize oftentimes. Also, if you would send reports of your work—a special social or meeting held, a copy of some paper read at one of the meetings, etc., to our "White Ribbon Bulletin," it would encourage the Editor and give added interest in the paper to our local membership.

Sisters, you are missing more than you know if you are not taking the "White Ribbon Bulletin." It is a little gem. I always sit right down and look through mine as soon as it comes into the home. Then when I have plenty of time and quiet I sit down and digest it. It is something you owe the Executive, something you owe your own society, something you owe yourself.

None of us want to be dummies, mere figure-heads; unless we read on current topics, how can we be otherwise? How anxiously we scan the daily papers for the war news. One sister said to me, "my eyes are giving out. I read two or three daily papers, every word, yet that same sister does not take the Bulletin," a monthly paper, has not time to read it. How can we talk intelligently, much less vote intelligently on questions that come up before our Unions from time to time. I wish every society would adopt the \$1 membership fee. Then the Bulletin would be in every home where there is a White Ribboner.

### Reasons—Pro and Con.

At a recent State Convention,

With the very best intention,

Each a statement was asked to make

Why "The Bulletin" she didn't take.

If perchance she didn't!

Though 'twill hardly be believed,

Why she didn't!

"So much to read, I have no need.

Take so many, don't read any.

Too much to do, I can't get through.

I move around from town to town.

I take the 'News' is my excuse.

My window flowers employ my hours.

To much for pills and doctor's bills.

Such heavy tax that won't relax.

My church dues make me refuse.

Prefer to dress, why, I guess.

I can't get it, I do regret.

I know 'tis good, and wish I could.

Would like to, dear, but not this year.

I simply won't, that's why I don't."

Why She Did:

Then turning to the ladies dear,

What think you of the Bulletin?

What think you of the Bulletin's great?

And why you take it, please relate.

election is so soon to take place, the following lines are commended to the earnest study of Union members; of all Union members. They were printed in a child's paper, but the idea is worthy the attention of older people as well.

### Somebody Else

Who is Somebody Else? I should like to know.

Does he live in the North or the South?

Or is it a lady fair to see,

Whose name is in everyone's mouth?

For Meg says "Somebody Else will sing."

Or "Somebody Else can play."

And Jack says, "Please let Somebody Else

Do some of the errands to-day."

If there's any hard or unpleasant task,

Or difficult thing to do,

'Tis always offered to Somebody Else;

Now, isn't this very true?

But if some fruit or a pleasant trip

Is offered to Dick or Jess,

We hear not a word about Somebody Else.

Why? I will leave you to guess.

The words of cheer for a stranger lad,

This Somebody Else will speak;

And the poor and helpless who need a friend

Good Somebody Else must seek.

The cup of cold water in Jesus' name,

Oh! Somebody Else must offer;

And brave words of love for a broken heart

Brave Somebody Else will proffer.

There are battles in life only we can fight,

And victories, too, to win,

And Somebody Else cannot take our place

When we shall have entered in.

But if Somebody Else has done his work,

While we for our ease have striven,

'Twill be only fair if the blessed reward

To Somebody Else is given.

### GERMANS OVERCONFIDENT

No Secret That German Soldiers and Russian Prisoners Are Sowing Wheat on Invaded Territory

What will the harvest be when the ripe heavy russet heads of the full-grained wheat hang in the August sun?

Unmindful of the ominous grinding forward of the Allies the Germans are actually sowing the fields behind their lines of entrenchment, and with all the assurance of peace times that they will harvest the grain despite the grim lines wearing them backward, inch by inch, towards those green fields upon which many of these farming soldiers will later hear the last reveille, perhaps before the grain is grown.

The British flag will not stop this side of the Rhine, nor may it stop there if wisdom dictates its further advance, for the Union Jack's import on European soil today is to make the state of the unbidden guests in France and Belgium as brief as the lavish expenditures of treasure and the courage of its battalions can accomplish.

In France and Belgium the Union Jack is held in as reverent esteem as their own national banners, for British colors backed by British courage, in which Canadians are playing a most meritorious part, stand as a bulwark between them and the monstrous foe to liberty.

Every home in Canada should show the Union Jack from their front.

The Graphic's generous offer to supply Flag Outfits on practically gift terms is set forth fully on another page of to-day's issue. ### AMERICAN REPLY BRIEF AND POINTED

Kaiser Must Say Whether or not He Will Obey International Law

Washington, June 4.—The American government's rejoinder to the recent German note concerning the sinking of the Lusitania was ready to be laid before the cabinet today. President Wilson drafted the communication itself. It is short and to the point.

It asks definitely whether Germany intends to be guided in the future by the humane principles embodied in international law for the conduct of maritime warfare.

The dispatch of the note to Berlin only awaits cabinet approval. With its transmission, a personal representative of Count Von Bernstorff the German ambassador will leave for Berlin to personally outline to the German government officials, the situation in the United States as respecting public opinion towards the German government, and to explain the American point of view on submarine warfare, as gleaned by the ambassador from his conference on Wednesday with President Wilson.

Foreign governments have given assurances of safe conduct for the emigrant at the request of President Wilson. Vera Cruz, June 4.—President Wilson's note to General Carranza and the leaders of other Mexican factions was published without comment in the newspapers here last night. It was received calmly by the public and apparently was regarded with indifference by groups of persons who gathered in cafes to discuss its contents.

### FLEET EQUIPPED FOR ALL REPAIRING

One of the largest ships in the British navy does not fight, but it always accompanies the fleet in actual warfare. This ship is the Ark Royal and the most unique in the world. She is the last word in special units, and is the present time located off the Dardanelles. She is a floating aeroplane factory, and carries spare propellers, wings, floats, and every conceivable part of a hydroplane or seaplane. Great Britain is the first navy in the world to possess such a ship. These flying machines accompanying the fleet, can be repaired and practically re-built right on the ground, by means of this mother ship.

Another famous ship, and which does not fight, attached to the navy, is H.M.S. Cyclops. She is nothing more or less than a huge dockyard foundry, employing three hundred skilled mechanics, in addition to the crew necessary to sail the ship. She does not carry a gun, because every inch of room is required for machinery. Every battleship has a small workshop, but it cannot do big repairs or casting as a battleship's propeller can be made. In the ship are huge cupolas or domes for smelting and casting, stretched away above the deck like huge mushrooms. Over the bow of this ship hangs a huge anchor, made of wood. This is a template for casting a complete anchor should one of the war ships lose one. In addition to her huge repairing plant, the Cyclops carries a vast distilling apparatus to supply fresh water to all the ships in the fleet. She is fitted up with ice-making machines and refrigerating rooms in which fresh meat is stored for the crews of those small craft, like submarines, torpedo boats and destroyers and small cruisers, which can not be so fitted. The Cyclops is five hundred feet long, and at the time she was built was the first of her type and size in the world.

There is also another ship of the same class, called the "Assistance," but she is not so large.

There is still another called the Vulcan, of 7,000 tons displacement,

which has ability to cruise 10,000 miles without re-coaling. This latter ship has two huge cranes, worked by hydraulic, which are large enough to lift a small vessel clean out of the water on to the dock within half a minute. These cranes are fastened to the keel of the repair ship, to prevent her tipping over when lifting a large vessel. These facts possibly throw light for the general reader upon many matters connected with the royal navy, which must have suggested thought at times.

### INTERESTING LETTER FROM ENGLAND

#### Showing the Kindness Which the Canadian Wounded Soldiers Are Receiving

Mr. and Mrs. M. E. Comeau, of Moncton, have received from Mrs. J. H. Merritt, of Lavington, Wiltshire, England; two letters relative to their son, Arthur, who died in Netley Hospital.

As mentioned in the letters, Mrs. Merritt, became acquainted with the young man when he was billeted at her home, prior to his going to the front. With such acquaintance and from the contents of the letters, it will be seen how very thoughtful and kind the English ladies are disposed toward our Canadian soldiers. The letter follows:

Church Street, Market Lavington, Wiltshire, England, May 19, 1915.

Dear Mr. and Mrs. Comeau:— I think you know by now that your dear son Arthur was seriously wounded on May 3rd, and brought to Netley Hospital on May 13th.

On that date we received a telegram just as we were going to bed, to say how very ill he was. I wired as early as possible the next morning to know how he was, and if he was conscious. They wired back to me to come at once, which I did, and I have taken a lodge here for a few days.

I saw him for a few minutes that night, May 14th, and he recognized me. On Saturday and Sunday he was about the same, but on Monday he talked to a little, and I asked him if there was anything I could get him. He begged for some ice cream and oranges, and I am pleased to say I was able to get these for him. I fed him with the juice of two oranges, and I asked nurse if she thought he was any better. She replied "just a very little bit".

I am allowed to sit with him from two o'clock until eight o'clock unless the pain is too bad.

He has twelve wounds about his body, but they are not so bad. The wound on the top of his brain is the worst. I told him I would write to you and send a post card of the Hospital, and he was so pleased. It is a lovely place and the sea runs along quite close to it. I feel sure they are doing their very best for him.

I have no doubt you are wondering how I know him, but the Canadians were billeted in our village for six weeks before they left for France, and your son was with us for the latter part of their stay here.

We got very fond of them all, and have written to them and sent them parcels since they have been at the front, so I felt when I received the wire from the doctor saying "Come" and knowing he had no one else in England, that I must go to him. He was so glad to see me.

Of course when he gets well enough, he must come back to Market Lavington with us, and I will feed him up, and get him strong again, before he comes home to you. I do feel most truly sorry for you both, and I hope and trust that it will please God to make him quite strong and well again.

Before leaving Netley I will see the doctor again, and write you what he says of your son.

I do wish with my whole heart that this dreadful war would end for everyone's sake.

I remain, Very sincerely yours, (Mrs.) J. H. MERRITT.
