Modestly Priced OVERCOATS

It's not every man that cares to invest a very large sum of money in a winter overcoat.

For the man who gives his Overcoat hard service and yet wants style, fit and durability at a moderate cost, we have lines of Overcoats at

\$6.00, \$8.00, \$9.50, \$10.00 and \$12.50

These coats are difficult to distinguish from their higher priced relatives.

They are well-tailored from good fabrics, nicely lined, and carry all the styles of the more expensive coats.

For a good overcoat—a satisfactory overcoat at a moderate price—we're at your service

Quebec Attorney General
Sues Fifteen Prominent
Campbellton Men.

ILLEGAL FISHING.

Campbellton men Will stand
Together and Fight
Vigorously.

As mentioned in Events of last week the Attorney General of the Province of Quebec has issued a number of actions against people of the town of Campbellton. The Quebec Daily Telegraph of September 9th, published the following article concerning the same:—

"Mr. J. A. Bellisle, Inspector of Fish and Game for the Province of Quebec, has taken several actions against residents of Campbellton, under the statutes forbidding the fishing in the waters of the Province without taking out a license.

This statute is one passed many years ago, and has been applied in a very general way. In several provinces of the Dominion, there are enactments of the same nature and the same may be said of a large number of the States in the Union.

Considerable trouble has been caused in the past by non-residents fishing without a license in the waters lying near the boundaries of New Brunswick. The difficulty in the way of the enforcement of the law consisted in the fact that the violators of the statute only made brief excursions into the province of Quebec, thus rendering it impossible for our provincial officers to arrest them.

This matter gave rise to a lengthy correspondence with the persons interested in the game and fishing law and also with the Government of the Province in which the poachers resided.

Fifteen of the most prominent men of the town of Campbellton have been sued up to date. They are the following:—Eustace Ellis Asker, Alexander McKenzie, Robt. Boyle, Wm. Murray, Wm. Glover, Wm. Sprule, Charles Frederick Clare, S. Laughlan, H. S. Alexander, Edward Alexander, A. E. Alexander, F. F. Matheson, L. T. Joudry, Alexander Mowat and Fred G. Kerr.

Some of these parties who have been sued were fishing in their own waters in the province of Quebec. Others were fishing in waters that they have leased from proprietors in said province. The question now raised is whether the law, under which the said actions are issued is constitutional or not. Was the Government of the Province of Quebec the power to confiscate by imposing an enormous tax, the privileges they once possessed and which they sold to the people when selling them the land in question. In some instances \$2.00 per acre was paid for which the Government especially included the fishing rights.

If this law is constitutional then anybody who lives outside of the Province of Quebec, and who owns land therein is liable to see a special tax imposed upon him if he wishes to farm his land in said province. And for those who do not own fishing rights in the Province of Quebec and who have been sued their position is fully interesting. They were not fishing, it is true, on their own waters, but on waters that they have leased from the

OLIVER PETERS FATALLY SHOT DURING CARD GAME AT LILY LAKE ON SUNDAY

His Companion, Ben Beattie, Had Just Finished Loading
a Rifle When It Accidentally Discharged

BOYS HAD BEEN DRINKING VERY HEAVILY

Oliver Peters, the seventeen year old son of Edmund Peters lost his life at Lily Lake on Sunday, as the result of the accidental discharge of a rifle in the hands of a companion, Ben Beattie. Late Saturday night young Peters, accompanied by Ben Beattie, Chas Beattie, Joseph Doiron, Eddie Doucett, started for Lily Lake to shoot partridge. About three o'clock Sunday afternoon Ben Beattie held a rifle in his hand, which he had just loaded and turned to his brother Chas Beattie, and asked him for another cartridge. As he did so, his arm touched the trigger snapping it and discharging the rifle. The bullet entered the chin of Oliver Peters who was sitting only a foot or two away and came out about two inches below the shoulder blade, piercing the heart and causing instant death. The remains were brought into town by Peters' companion, and Coroner Doherty notified.

The inquest recreated a shocking condition of affairs. According to the evidence of young Peters' companions boys, sixteen and seventeen years of age were accustomed to buy liquor in the town at any and all times. He and some others used to buy it by the bottle Saturday nights and go back in the woods on Sundays, play cards "for the drinks" and hold high carnival generally. On these occasions they would carry guns with which to shoot partridge, although it is illegal to shoot partridge now. It seems they cared not a rap for any law and the tragedy of Sunday was exactly what might have been expected.

The inquest commenced at 2:30 o'clock, Monday afternoon, before Coroner Doherty. A. E. G. McKenzie attended in the interests of the crown. The following comprised the jury:—William Doherty, foreman; Edward Alexander, Sylvester Martin, F. C. B. McIsaac, Thomas Ellsworth, Neil Smith and James Malcolm.

Joseph Doiron, one of Peters' companions was the first witness called. Sworn, he said:—"I reside at Slab-town and work at Purves mill. I have known Ollie Peters for ten years. We came up to town Saturday evening Eddie Doucett, Charlie Beattie and Oliver Peters went to Alex Diotte's and I went to Clare's for cartridges. Eddie Doucett, Charlie Beattie and I went down as far as Fortan's Crossing. Ben Beattie and Oliver Peters came down after.

Matt St Onge came down with six bottles of gin which we bought. We got canned goods at Fortan's store; then got our rifles and started back to the lake. That was all night at Henry Shaw's where we were drinking liquor. We got to the lake about daybreak Sunday morning and started looking for partridge. We then went to Pat Henry's old house where there was a square stove which we sat round and began playing cards for the drinks. Ben Beattie and I made up our minds to go for a hunt. Ben Beattie had bullets in his gun and asked Charlie for a short cartridge which Charlie gave him. Ben put the cartridge in the rifle and then put the bullet in. He was just about to ask for another cartridge, when the gun went off striking Oliver Peters. I told Ben Beattie I was going to get a horse and I met Jerome Doucett. I told him to go over and take him down.

"The boy was shot about half past two in the afternoon. Eddie Doucett was the only one who was drunk. There was no quarrelling among the boys."

Eddie Doucett called and on being sworn said:—"My name is Edward Doucett. I reside at Slabtown. About half past six Oliver Peters, Charlie Beattie, Joseph Doiron and I went and got our pay. Then we got some cartridges. Matt St Onge came down with liquor, which we bought. We then bought some canned goods and started for the lake. We camped over night at Big Hill and at daylight started for the lake. When we got there we started playing cards. I fell asleep and don't know how deceased was shot. I did not hear the report of the rifle. They woke me up and told me how it happened. Joseph Doiron had to drive Peters out.

To juryman Alexander: I told St Onge to get me the liquor that day. He was at Richard's mill. He delivered the whiskey at Fortan's Crossing and walked down the track.

To Mr. McKenzie: I never knew of Ollie Peters having a fight with Ben Beattie. We were in the habit of going back on Sunday's with liquor, but never had any fights.

Chas Beattie called and on being sworn, said:—"My name is Chas Beattie. I live at Slabtown and work at Richard's mill. Eddie Doucett, Ben Beattie, Ollie Peters, Jos Doiron and myself went to town to get our pay. We bought cartridges at D's and then came down to Fortan's crossing where we met Mat St Onge, who had six bottles of gin. We got ready and started back. We camped at the Big Hill and at daylight started for the lake. We went to Pat Henry's house and started playing cards for drinks. We then started on a hunt. Ben took all the bullets out of his gun. I gave him a short cartridge which he put in the gun and shoved four bullets in behind it. He then asked for another cartridge and the gun went off and struck Peters. The deceased tried to say his prayers. When they arrived with the horse Ollie was dead. We had an understanding with Mat St Onge to bring us liquor. If we had not been drinking we would have been more careful."

Benjamin Beattie called. Sworn he said:—"My name is Benjamin Beattie. I reside in Slabtown. I knew Ollie Peters ten years. I left him at seven o'clock to get my pay. I then went to Diotte's and got cartridges. The other

Council Instructs Manager
of Water Works Dept. to
Call on Residents,

NEW DOG TAX COLLECTOR.

Will hereafter Charge \$2.00
a day for use of Council
Chamber.

A meeting of the town Council was held on Tuesday evening, the full board in attendance.

The first business dealt with was the consideration of by-laws, the Council going into committee of the whole, with Councillor Miller in the chair. By-laws Nos. 7, 8, 9, 10, and 11 were reported favorably for third reading.

A communication was read from W. Savidant, complaining of damage to his property by reason of defect in sewer. Referred to Water and Sewerage Com.

S. W. Dimock made application for exemption from payment of license fee for opening night of opera house. Request not granted.

The Mayor read communication from O. S. Crockett, barrister of Fredericton, stating that he had been retained by Chas. S. O. Crockett in an action for damages against the town for stopping supply of water to his motor. The communication was ordered to be filed.

Accounts of the different departments were passed. W. H. Wallace's account of \$25.00 was referred back to committee for the engineer's report. The account of J. B. Christopher for \$100 was ordered paid, after some discussion, he to release the town of all claims in respect to the use of land for the pest house during smallpox epidemic. The Board of Health of that time were sharply criticised for the manner in which this matter was handled by them and their failure to remove the pest house when notified to do so.

The Street Committee were instructed to look up Engineer Fish's report re extra work on concrete sidewalk built last year and to instruct Treasurer to collect amounts due for same. The committee were also authorized while building permanent sidewalks to do extra work for abutters when requested to do so and place accounts for same in Treasurer's hands for collection as soon as work was completed.

On motion the manager of the Water works was instructed to visit each house or consumer of town water and notify said consumers that they must take some steps to make the water pipe entering their buildings frost-proof and that

Telegraphic Ticks

Peru is considering the advisability of building a 75 mile railroad from the rich rubber district of the Putus to a point on the Ucayali river, so that the big traffic in rubber would be diverted to Iquitos and so kept out of Brazil, which now gets it.

Honorable Senator McKee seen the other day said that he had resigned from the directorate of the Dominion Coal Company, advancing as a reason that he thought it was a mistake for men to occupy positions on the directorate of both companies.

Lewis Sells, aged 65 years, died at Columbus, Ohio the other day of bright's disease. He was the last of the four Sells brothers, who owned the circus which in 1899 was united with Adam Fourpaugh's show. The combined shows were sold three years ago to the late James A. Bailey and Kingling Bros.

Mrs Isabella Munro, widow of the late Douglas Munro, of Southwold, Ont., fell down stairs at the home of her son, Dr. Munro, Jackson, Michigan, whom she was visiting, and died later of a fractured skull. She was 72 years old and leaves seven sons and two daughters. Donald McNish, ex-M. P. F. for West Elgin, is a brother.

Sidney K. Preble, aged 15 years of Bowdoinham, was the other day found guilty of the murder of his chum, Norris W. Heath, at Bowdoinham, on the 11th of May last, by a jury in the Supreme Judicial Court. Under the Maine law the penalty is life imprisonment. The trial commenced Monday and the jury was out three hours and a half.

In Southern Manitoba considerable cutting has been done and a fair idea of the yield can now be secured. During the past two weeks there was a marked improvement, and the farmers now expect to harvest about twelve bushels per acre instead of eight. All reports from the north and west continue to be pessimistic owing to the extreme lateness of the season and the damage from frost.

At midnight Tuesday three armed robbers rode into the village of Tohousha, Mich., in wild west style and held up the night watchman. The citizens who chanced along were likewise held up at the muzzle of revolvers. Then the robbers broke into the post office and blew up the safe, securing \$300 in stamps and money. They remounted their horses and rode out of town, firing their revolvers to intimidate citizens who had been aroused by the explosion.

The Lord Chancellor, Lord Loreburn, sailed for Canada on the Empress of Britain, Friday. He will visit Niagara and possibly New York. This is the first occasion on which a lord chancellor has left the United Kingdom. The law forbids that the great seal, of which he is the custodian, be taken out of the country. It is supposed to be constantly kept in his personal custody, but Lord Loreburn has arranged for safe-guarding the seal during his absence.

The army of the grand Lama of Tibet is to be modernized. This may mean that it is to be given a new uniform and a six-shooter, but it is going to have a real army surgeon to take care of it anyway. Recently the army got sick and the surgeon wrote a prescription on a board with a piece of chalk. The army washed off the marks, drank the water, but didn't get much better. Now the surgeon is going to write all prescriptions on paper so the army can eat them and get immediate relief.

New York Press. Originally the capital stock of the Pullman company was \$1,250,000. It has been increased at various times, until now it is \$100,000,000. In 1898, after having paid 8 per cent dividends annually for years it de-

clared an extra dividend of 20 per cent. It is still paying 8 per cent a year, but this and the multiplication of the capital stock do not represent the full measure of the favored monopoly's profits. On July 31, 1906, the company's total surplus was no less than \$27,122,020.

James Connelly, a miner of Avelia, near Washington is dying from treatment received at the hands of several fellow-workmen. Connelly remonstrated with his companions, who were playing poker. It is alleged they threw him to the floor, tied him and pouring turpentine in his eyes, nose and over his body, turned him loose. Connelly was found frantic with pain, running wildly in the woods several hours later. Informations have been made against Connelly's companions, all of whom have disappeared.

It is announced in a special despatch to the Star from Sydney in an interview with a director of the Dominion Iron and Steel Company that as a result of the meeting of directors held at Sydney the company will proceed to develop their ore areas at Wabana and sell ore for export in the open market. As the company has practically an inexhaustible supply estimated at 200,000,000 tons, enough to last for three or four hundred years, this is regarded as having an important bearing on the future finances of the company.

The secret marriage of Mrs. Sumner Lapworth, son of a wealthy manufacturer of Hopedale to Margaret Phillips, the daughter of a farm laborer and until her marriage, an employee in the weaving room of her father-in-law's plant, became known to the public on Friday. The bridegroom is 25 and the bride is 17. Lapworth is working in his father's plant to learn the business thoroughly. Some months ago, he repaired Miss Phillips' loom and since then he has paid her attention to his family was much opposed to the match but they have now forgiven. William followed in the footsteps of his brother Clarence H. Lapworth who secretly married Miss Lillian Spicer, a milliner, a few months ago.

A Lacrosse, Wis., despatch says:—The ministers' union, organized only a few weeks ago, and soon after affiliated with the Trades and Labor Assembly, the supreme labor body of Lacrosse, was officially cast out by that body and refused permission to march in the labor day parade. This action was the result of complaints by the brewery workers, who claimed that the recent agitation against the saloons had resulted in an injury to the Brewery Workers' Union. After a hearing it was decided that the crusade by the religious workers was to the harm of their fellow unionists and the official casting out followed.

Becoming unmanageable, a big automobile plunged through the forward gates of the ferry boat Maine, as she was entering her slip Friday night and dived overboard, carrying with it the driver and a passenger on the ferry-boat. A half dozen persons were knocked down by the wild car. The chauffeur, William Nolan, and the passenger were fished out of the water, but the auto is still at the bottom of the East River. The police could not learn the name of the owner of the car. There were three men besides the chauffeur in the car when it boarded the ferry boat. The engines in the car were kept going. When the machine bumped into the pier at the end of the slip, the power was evidently turned to the running gear, for the car shot forward and overboard. The three men in the car jumped to safety.

Dr. Edw. Glasgow, a physician, is dead from three bullet holes through his head, and his wife is slightly wounded in the left breast as a result of a mysterious shooting last night. Glasgow applying for a divorce. Mrs. Glasgow, accompanied by Attorney Charles Whitlock of Terre Haute drove to a brick plant, where Glasgow was to try to arrange a settlement of alimony. Whitlock got out of the buggy and Glasgow got in and started to drive back to the city when the shooting occurred. When physicians reached the scene Glasgow was unconscious in the buggy and soon died. Mrs. Glasgow refused to talk of the shooting. A revolver with five chambers empty was found near the buggy. The woman was placed under arrest, charged with murdering her husband. Attorney Whitlock also is being held by the police. Mrs. Glasgow says her husband tried to shoot her and then shot himself. Glasgow's wounds are such that physicians say he could not have inflicted them himself.

Sarah Bernhardt has spent part of her vacation at her summer house on

Belleisle, in the Bay of Biscay, writing a four-act play for production next season in her own theatre in Paris. She says the success of her "Adrienne Lecouvreur" last season encouraged her to persevere in the path of dramatic authorship especially as it would be a distinct waste of money to pay other people to write plays for her if she can supply them herself to say nothing of the additional advantages of avoiding friction between author and manager. Mme. Bernhardt keeps her own counsel regarding the nature of her latest achievement, but says the play is strictly modern. Pending the publication of the first volume of her memoirs simultaneously in New York, London and Paris, she has written the greater part of the second volume, and contemplates writing a third volume. She says she is brimming over with reminiscences and anecdotes. Though professing a fervent desire to spend her whole existence in the country, Mme. Bernhardt is preparing to start for Paris early in September for a few days, at the expiration of which she will leave for a long European tour. She is in excellent health and is as full of life and vigor as ever.

CHARLES DANA GIBSON TALKS OF HIS NEW WORK

Continued from page 3.

In his enthusiasm, "which is worthy of a place in Venice on the Grand Canal—a building which is good enough to be a doge's palace.

"Well, this is what will happen here all along the line. The American people want good illustrations. They get them. The illustrators of American magazines and periodicals do as good work as is done anywhere in the world today. And when the American people show that they want good painting they will get it.

"And they are beginning to show very decidedly that they do want good painting. The situation is very encouraging. Of course, hints have to be given to the people—they have to be told, now and then what they want. To foster interest here associations must be formed and artists must co-operate. But there is no question in my mind that the change will come just as it is coming already in architecture.

"The work of American illustrators, I assure you, is followed with close interest abroad, and is looked upon with marked favor. In fact, all things American arouse a greater interest nowadays than ever before.

Mr. Gibson was then asked what he thought of the recent secession of eight artists, who felt themselves cramped by convention in art, and struck out in a path for themselves, to interpret things as they saw them.

"Such a secession," he replied, "certainly shows enthusiasm, and nothing is better for art than that. When artists have the courage of their convictions to such an extent it is certainly a most encouraging sign."

As to the difference between the methods of American and foreign artists and their relative merits, Mr. Gibson would not go into details.

"I will tell you, however," he said, "that a man's nationality shows in his drawing or painting. As the Gilbert and Sullivan song has it:

"In spite of all temptations To belong to other nations, He remained an Englishman."

"Well, an artist remains an Englishman or an American or a German in spite of the methods he uses, and goes on drawing English or American or German people and scenes.

"And it's greatly to his credit," added Mr. Gibson, again reverting to Gilbert and Sullivan.

Then he returned to his own work and his experiences in Paris.

"I worked entirely in my own studio," he said, "but I had plenty of criticism from other artists. You see, I got to know pretty nearly all the artists over there and they used to come in and make comments on my work. My work was in oils the whole time—no pen-and-ink drawing at all. I travelled extensively through France, England, Spain and Holland, painting all the time."

"For my third and last year of study abroad I shall devote my time entirely to portrait painting. In spite of the fact that I had intended during my first two years to study—to learn the grammar,

so to speak, of oil painting—I must confess that sometimes the temptation to do portraits was too strong and I succumbed. But portrait painting is study, of course. However, I have done little in that line so far. Next year I shall turn seriously to portraiture.

"If I get painting portraits, it will be a realization of a dream which I have had ever since I was so high." The artist indicated with his hand a diminutive child's height.

"For all I know, I shall get back again to doing pen-and-ink work. That will depend on how the spirit moves me. I really have no set purpose. When a hen starts to hatch out an egg, she may, for all she knows, hatch a chicken or a duck or a swan. She can't tell.

"That's the way with me. When I get started painting in oils I may take up one line and I may take up another.

"Shall I apply to painting in oils the same methods that I have used in pen-and-ink drawing? Perhaps. If they constitute my method of expression, I suppose that they will crop out in oils just as they have done in my work heretofore. I can't tell.

"And then again I may get enthusiastic about my old medium of expression and revert to it.

after completing my three years of study in the other medium.

"In that case, of course, my three years of study in painting in oils will be of the greatest advantage to me. You see, there are certain values—"

Here the artist, noticing a look of worry on his questioner's face, began to go slowly.

"There are certain values which in pen-and-ink drawing cannot be expressed at all. Others can be suggested in it, but not without a knowledge of painting in oils, in which such values may be expressed absolutely.

"Now, by devoting myself to getting hold of the grammar of painting in oils, as I have been doing for the past two years and intend to do next year, I shall be able, I hope, to express those values in oils. Then, equipped with that new knowledge, I can, if I wish, return to my old medium of pen and ink and be able to suggest those values in it—a thing that would be impossible without a knowledge of painting in oils."

"In fact, I may almost say that I could express myself in drawing—which may be called the shorthand of art—before I knew the longhand writing. What I am doing now is to devote myself to longhand and grammar."

(Continued on page 8)

Notice

At a meeting of the Council of the Municipality of New Richmond, held on the seventeenth day of August, in the year 1907, there being present John Fallow, Esq., Mayor, Messrs. Alphonse Bassinault, Edmund Gilker, Angus Campbell, and Thomas Fairweather, Councillors, under the presidency of the Mayor it was resolved as follows:—

WHEREAS it is in the interest of this Municipality that a certain encouragement should be offered to the Casapedia Manufacturing and Trading Company, a body corporate and politic, having its principal office and place of business at New Richmond, in the County of Bonaventure, in the District of Gaspé, in order to have the said Casapedia Manufacturing and Trading Company build, erect, maintain and operate its mills within the limits of this Municipality, it was therefore resolved by a by-law No. 17 upon the motion of Mr. Angus Campbell, seconded by Mr. Alphonse Bassinault, that this Corporation by and in virtue of the powers conferred by Article 480 of the Municipal Code of the Province of Quebec, do give to the said Manufacturing and Trading Company, aforesaid, the sum of \$5000.00 in order to purchase and buy in the Taylor and LeBlanc properties, the said properties to be used by the said Company for a mill site.

That this by-law will have force and effect only on its having been approved by the electors being proprietors of practical real estate within the limits of this Municipality as the whole is by law provided:

That in order to provide for the said sum of \$5000.00 that this Municipal Council by this by-law be authorized to issue, sell and negotiate in the name of this Municipality debentures for a sum not exceeding \$5000.00; That the said debentures will bear interest at the rate of five per cent per annum;

That the said debentures thus issued will be signed by the Mayor of this Municipality and countersigned by the Secretary Treasurer of the said Municipality and sealed with the seal of this Municipality, and the said debentures will be payable to the bearer thereof in ten, fifteen, twenty and twenty-five years from date of their issue at the office of the Bank of Nova Scotia at New Richmond; That each debenture will be for the sum of one hundred dollars;

That there will be attached to each debenture coupon for the amount of the yearly interest, which said coupons will be signed by the Mayor and countersigned by the Secretary Treasurer of this Municipality, and the said coupons will be payable to the bearer thereof when the interest will become due each year, and on payment of the said interest the said coupons will be handed over to the said Casapedia Manufacturing and Trading Company for the redemption thereof;

That each year a sum of \$4500.00 will be raised by direct taxation on the holders of real estate in this municipality, which said sum will be to pay the interest on the said debentures each year as they become due and the revenues of this Municipality are by these presents effected and made liable to the said sum;

That there will also be established by this by-law for the buying back of the said debentures, a sinking fund, said sinking fund to be for the sum of three hundred dollars, and shall be collected yearly from the holders of real estate in this municipality by direct taxation, which said sum will be yearly paid to the Secretary Treasurer of this municipality;

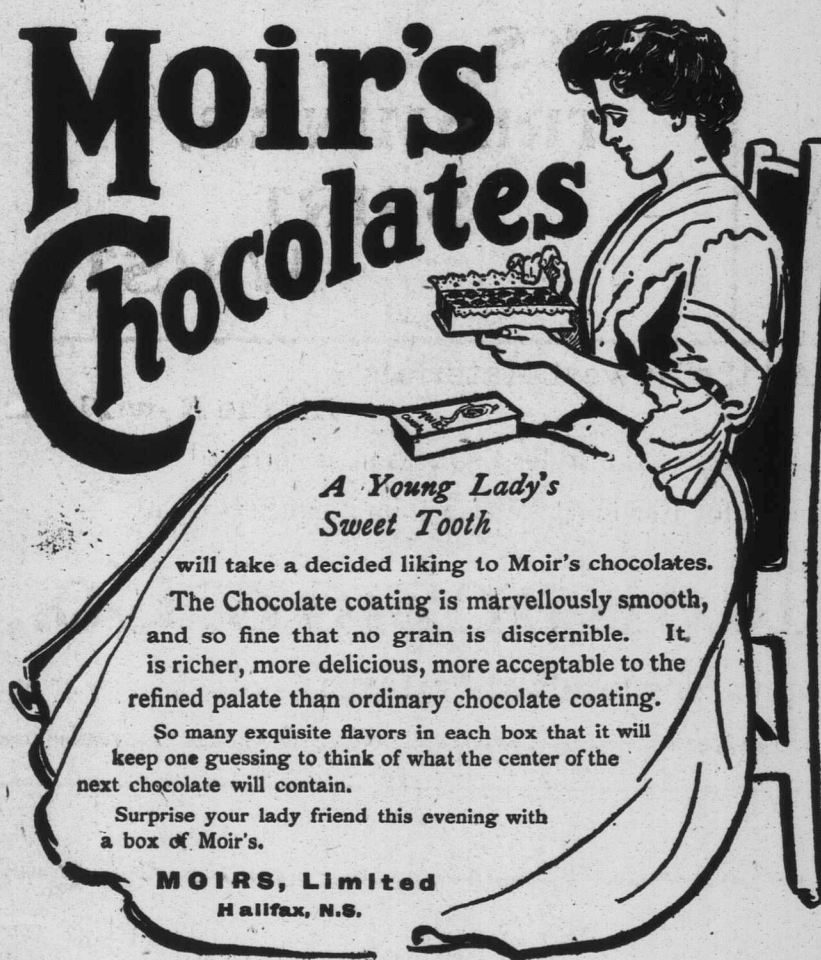

That the issue of the said debentures, principal and interest fixed upon or by these presents, be also guaranteed and secured on the general funds of this Municipality;

That the aforesaid sum will be handed over to the said Casapedia Manufacturing and Trading Company for the redemption thereof, and subject also to the following conditions: That the said Company will build, establish, erect, maintain and operate yearly in this Municipality, their plant consisting of a pulp mill, shingle mill and long lumber mill with an annual capacity of twenty-five million feet, the whole to cost about one million dollars; said 25 million feet to be cut yearly. That the said Company will build within a year, and operate every year.

That this by-law will only have force and effect after having been sanctioned as provided by Article 480 and others of the Municipal Code of the Province of Quebec; Given under the seal of this municipality on the 17th day of the month of August, in the year and on the day first above written.

John Fallow, Mayor.

John Campbell, Secretary Treasurer.

Moir's Chocolates

A Young Lady's Sweet Tooth

will take a decided liking to Moir's chocolates.

The Chocolate coating is marvellously smooth, and so fine that no grain is discernible. It is richer, more delicious, more acceptable to the refined palate than ordinary chocolate coating.

So many exquisite flavors in each box that it will keep one guessing to think of what the center of the next chocolate will contain.

Surprise your lady friend this evening with a box of Moir's.

Goldfield Topic.

GOLDFIELD NEVADA

Is near some of the sensational producers of the Diamondfield district and will soon be classed as one of the prominent properties of the great Gold Camp

The TOPIC consists of 20 acres, from the surface and location shaft of which rich specimens of gold ore have been taken. The property will bear close inspection by mining men familiar with the outcroppings of the district and will be found to possess the "ear marks" of a producing mine

Such properties as the

Great Bend, Daisy, Diamondfield, Black Butte

Black Ants, Vernal, Etc.,

Whose stocks are selling at from 50c to \$3.50 per share, that started at a few cents per share, are in close proximity to the TOPIC, and we firmly believe that the TOPIC WILL EQUAL any of them

It is your opportunity to make money with us by helping develop this property. BUY A LIBERAL BLOCK of this stock while you can get it at the present price and so share in the advance which is bound to come. SEVEN AND ONE-HALF CENTS per share is the price today, cash or installment. Ten per cent. Additional stock given FREE when full amount of cash is sent with the order. Act quickly. Things are doing in Goldfield these days!

REMEMBER, We own 35 acres adjoining the \$10,000,000.00 Stevens Mine in Clear Creek County, Colorado, and the present price of the stock is now 7 1/2 cents per share; buy now, tomorrow may be too late.

Indigestion

Stomach trouble is not a symptom of, and not in itself a true disease. We think of dyspepsia, flatulency and indigestion as real diseases, yet they are symptoms only of a certain specific cause.

It was this fact that first correctly led Dr. Shoop to the discovery of his now very popular Stomach Restorative. Dr. Shoop's Restorative, going direct to the stomach, corrects the cause of the trouble, and favors the action of the stomach. With such original and highly vital principle, no such lasting accomplishments were ever to be had.

For women's distress, bloating, biliousness, bad breath, and slow complexion, try Dr. Shoop's Restorative—Takes or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative

A. McG. McDONALD.

Driven to Drink

Many a good man has been by home laundry work, with lumps of starch and waves of blueing decoating his shirt front, and saw edges on his collar to annoy him. It makes his heart glad when he can see his linen immaculate and find with a snow white color and artistic finish that he can have put on by extending only a few cents. It is worth dollars in comfort and satisfaction to have your linen laundered at the

Campbellton Steam Laundry

WOMAN'S WORLD

THE PRETTIEST GIRL IN THE WHOLE WORLD

The London, Eng., Daily Mirror has started a contest for the most beautiful woman in the world, and promises its announcement by asking: Is there a more beautiful woman in the world than Miss Marguerite Frey, of Colorado, whose photograph appeared in the Daily Mirror on August 27?

She was chosen from 200,000 other beautiful Americans, and the United States has challenged the world over to find her equal.

The Daily Mirror has taken up this challenge on behalf of the English women. Its example has been followed by leading newspapers in Australia, Argentina, Denmark, France, Japan, Mexico, Norway, Scotland, Spain and Sweden, on behalf of the womanhood of those countries.

HOW THE COMPETITION STARTED

A competition, which started a few months ago in a friendly wager between a New York and Chicago man as to which city possessed the most beautiful woman, has spread until now it is a great international contest.

Cut of this first wager, made in December last year, grew a contest to find the most beautiful woman in the United States. She was found in Miss Frey.

Then America challenged the world to find a more beautiful woman, and the world has accepted the challenge.

The jury is composed of ten famous painters, whose names and whose works are well-known. They are:—John Lavery, R. S. A.; Arthur Hacker, A. R. A.; George Henry, A. R. A.; Sir James Linton, R. B. A.; Richard Jack, G. P. Jacob-Hood, R. L.; John Hassall, R. L.; Miss Maud Porter, Charles Lewis.

Owing to a stipulation made by the United States in issuing the challenge no professional theatrical performer or model is eligible.

ENGLAND IS AROUSED

According to the Daily Mirror, not only to the rural districts are up in arms against the American challenge. Some of the photographs already sent in come from remote parts of the west of England, where live some of the most perfect types of English-women-fair country girls, the descendants of a long line of sturdy country-folks, to whom the fresh air is life.

When the most beautiful woman has been found the Daily Mirror proposes to pay the highest tribute that can be paid to any mortal—to perpetuate her name and beauty.

The woman judged by the committee to be the fairest in England shall have her portrait painted by a well-known British artist. This portrait will be offered to the most important picture gallery in the neighborhood in which the lady lives as a permanent record of the most beautiful English woman in 1907.

The Daily Mirror is championing the cause of England. In this week's issue of the People's Friend, of Dundee, the cause of Scotland's fair daughters is being taken up.

CHARLES DANA GIBSON TALKS OF HIS NEW WORK

NEW YORK, Sept. 3rd.

People in this country are so busy all the time that they rarely stop to put in a complete new plant of machinery to do their work, although their old plant is frequently driven so hard that it gets all worn out. For a man to do good work and keep on improving, it is just as necessary that he provide himself with new tools as it is for a manufacturer to install new machinery in his factory.

And a man should equip himself with new tools even if, to do so, he be obliged to shut down the works for a while.

"Well, when I gave up pen-and-ink drawing for a while and went to Europe to study painting in oils," continued Charles Dana Gibson the other day to an American reporter. "I had worked my pen-and-ink plant until it was old. If I was to go on improving on my work, I must have a new set of tools. The only way to obtain these was to shut down the works and get out. That is exactly what I did when I went to Paris. And during the two years that I have been pegging away at oil painting there I have not done a stroke of work in the illustrating line. I have done nothing but constant hard work in oils, in order that I may learn, if possible, to express myself in a new medium. I've simply been installing a new plant; that is what it amounts to."

As Mr. Gibson spoke he glanced about the Waldorf corridor, where he was sitting, as if the sights it presented were somewhat strange to him after his two years' absence in foreign countries. Back and forth glided the tall, stately Gibson girls, passing all unconsciously before the man whose pencil has given them immortality.

WOMEN'S NEGLECT SUFFERING THE SURE PENALTY

Health Thus Lost is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Clara Beaubien, of Beaufort, Quebec, writes:

"For several years I have suffered with a female weakness which proved a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was much better and stronger, and in four months I was well; no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it without equal for the health of women."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address: Lynn, Mass.

Attack of Diarrhoea cured by one Dose of Chamberlain's colic, cholera and diarrhoea Remedy.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicines for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro., Greenville, Ala. For sale by all druggists.

Mr. Gibson though seated at ease in a chair, had many, many things to do. It was his last day in town. In a few hours he must gather his children and take the boat to Boston, thence to continue his journey to Dark Harbor, Me., where he intends to spend the next three months far away from the cares entailed by pen and ink and oil.

"My wife has already gone to Maine" he remarked, "and she has left me with heavens knows how many errands to run and things to do before I may follow her. Why I have to hire a cook-lady," said the famous creator of the Gibson girl, with awe and apprehension in his voice. "I have to hire her and take her along with me to Maine, too."

He had certainly come back from America and the vicissitudes of an American summer vacation with a vengeance after his two

years of Paris atelier life. But in spite of children and errands—in spite even of fierce prospective "cook ladies"—Mr. Gibson was willing to sit still for a while in Peacock alley and chat delightfully about his plans and about life in Paris and "the future of art in America," and all the other things about which famous artists are supposed to have opinions when they are waylaid in their haunts.

"There is plenty of good material for art in America," he went on. "There are excellent artists here, and they are doing excellent work. All that is needed for the art of a country to grow is encouragement from the people. Whatever the people wants it can get."

"Look at the improvement in architecture in this city. Why, after my arrival here I took a stroll along Fifth avenue and was amazed at the beauty of the new buildings which have been built during my short absence, or which are now going up."

"Not so very long ago the only thing that a great New York dry goods merchant thought about was to sell his merchandise. He wast-

ed no thought whatever on his building; any old shack would do. "But look at the change that has been brought about in the last few years. Nowadays a great

merchant not only thinks about his sales—he must sell his goods in a building which—"

Mr. Gibson paused for a moment (Continued on page two)

DIGEST YOUR FOOD

and you will be healthy, strong, and active. Headache, Wind, Distress, Constipation, and impurities in your blood resulting from indigestion will quickly disappear if you take

MOTHER SEIGELS SYRUP.

Price 25 cents per bottle. Sold everywhere. A. J. WHITE & CO., Montreal.

THAT PROHIBITARY TAX.

Unquestionably the demand from the United States for our pulpwood is caused by a depletion of the supply there. It is quite obvious that this is the situation. One cannot very well come to any other conclusion once he looks into it. At the present time the eyes of the paper-consuming world are turned Canada-ward for their pulp and paper supply. There are other paper-producing countries Germany and Scandinavia for example, but the vast storehouse for the raw material for the paper-making of the whole universe is Canada. At present we have not touched the fringe. The opening up of other parts of Canada by the Grand Trunk Pacific and Transcontinental railways will bring within reach still vaster supplies than those now available and that being the case there is no time like the present for taking steps to assure the retaining of our wood supply for Canada and for its proper and complete manufacture in the country. What is the sense of sending our wood to build up a foreign country and furnish it with weapons to fight Canada in the commercial world? We do not think there would be much danger of retaliation by the United States, in the event of Canada prohibiting the export of pulpwood. The interested influences in the States would be too powerful to allow of any government preventing them from getting paper from Canada. Nor do we imagine for an instant that the farmer and the small holder of Canadian pulpwood lands would suffer. They would get their price for their wood just the same as now and eventually a better price than they are getting at the present time. As one indication of some of the difficulties Canadians have to suffer because of the demand from the Americans for pulpwood. An Ontario lumberman furnishes the Toronto Globe with a letter from an Eastern Canadian paper-maker, which reads in part as follows:—

"Can't your firm make a move to get a meeting of the pulp and paper firms in Canada to make a strong protest against this whole-sale export of pulpwood to the United States, or at least get a strong move on regarding the export duty on pulpwood? It is vexing to us, sitting here looking at the large loads of pulpwood passing up daily from Quebec to the American mills, and we here cannot get sufficient pulp to keep us running full. Kindly let us know what you think of the matter."

We ought to make the cry "Canada for Canadians" mean something. We ought to manufacture our own raw materials into the finished product in this country. Markets enough will be found for them without difficulty.

Says an esteemed exchange—The St John Times and Telegraph are now owned by the Conservative machine. But, having rather uncomfortable doubts about the outcome of the next elections, the owners prefer to masquerade, as independents." Not so, brother. They have just about as good an idea about the outcome of the next elections as you and we. It isn't that; their new owner expects to be the Conservative candidate in Northumberland, and is working a boom on his own account.

The sarcasm of the St John Globe cuts little ice today. It sounds too much like the spiteful wall of a turncoat.

The Toronto News, a paper which masquerades as independent, declares that the selection of Mr.

Pugsley is unwelcome to many of the old school of Liberals. The only old school of Liberals that we know of in this province is the one whose principal mouth pieces are the St John Telegraph, Times and Globe. Undoubtedly Mr Pugsley's selection is unwelcome to these "old timers," but who cares.

Cause of the Collapse.

Quebec, Sept. 4.—At the coroners inquest on victims of the bridge accident, Chief Engineer Hoare said that on Tuesday, Aug. 27th, Mr. McClure reported to him verbally and to Mr. Cooper in writing or a telegram that No. 9 lower chord at the west truss showed a slight curvating inwards towards the centre of the bridge. They did not consider it a serious thing, but the witness visited the bridge early the next morning and went over the whole structure with Mr. McClure and Mr. Kinlock, the government inspector, as well as the Phoenix Company engineer. The engineers had also checked all the levels, and the alignment posts, and tested the deflection, finding everything in perfect condition. He then sent Mr. McClure to New York to describe the condition of that chord. Mr. McClure left on the morning of the 28th and interviewed Mr. Cooper the next morning and reached Phoenixville the next afternoon, during which time the accident happened. Mr. Hoare said that he never thought the condition of that chord was serious enough to cause an accident to the bridge, but for the reason previously stated he thought it was sufficiently important to necessitate Mr. McClure himself going to New York. The witness stated that since the accident he had not had time to make a thorough examination of the bridge, nor to come to a definite conclusion. At present he had no opinion to give as to the cause of the accident.

Inspector McClure testified that Mr. Cooper did not make any recommendations or offer any suggestions to him at all, and didn't tell him that they should not put any load on the bridge. The witness thought that Mr. Cooper was to some extent worried about the curvature. Mr. Dean, the Phoenix Co's chief engineer at Phoenixville, expressed the opinion that this chord had always been in the same condition. The witness said that he was of a different opinion and told Mr. Dean so, but that did not change the latter's mind.

Four actions for damages, aggregating \$25,000, have been entered in the Superior Court at Montreal against the Phoenix Bridge Company of Pennsylvania, as a result of the Quebec bridge disaster. The damages claimed range from \$10,000 to \$6,000, and the actions are all taken by Indians living in Caughnawaga.

Quebec, Sept. 5.—At the opening of the coroners inquest this morning on the subject of the unfortunate bridge disaster, the coroner, addressing the newspaper correspondents present requested that they report accurately as some reports to which publicity had been given were not in accordance with the facts. The evidence of workman Alex. Ouimet, who began his testimony yesterday was continued.

He declared that some time ago he noticed a large crack in the plate of the steel pier shoe. The plate was three-quarters of an inch thick and about six square and the crack was twenty inches long. Asked as to whether he could state positively, whether this damaged plate was replaced between time he last saw it and the accident he replied that he could not, but it was his opinion, that it was still in the pier when the disaster happened. Witness was painting steel work, when he saw this defect at the end of July last and he worked for three days in the immediate vicinity. This damaged plate did not support any weight. There were three other workmen to witness's knowledge who saw this crack, but two of them were killed. R. LaFrance being the only survivor of the three. The crack went through and through.

BATHURST, N. B.

Bathurst, Sept. 5.—Mrs. Storer and Miss Storer of Montreal are the guests of the Robertson House. Mrs. R. G. Duncan returned during the week from a visit to her mother in Rexton.

Miss G. Malone, of Stanley, York county, at present teacher at Matapedia, made a few days' visit to friends here this week.

Mrs. C. P. Hickey, after a visit of a couple of months here, returned to Chatham this week.

Mrs. Hugh Sienagreen has returned from a visit to her sister, Mrs. Watts, Dalhousie.

Mr. James McGinley and Mrs. K. T. McGinley went on Saturday last to Boston, having been called there by the death of Mr. John S. G. McGinley. Mr. McGinley, who was about 30 years of age, left Bathurst some ten years ago and was well and favorably known here. His bereaved relatives have the sympathy of all in their affliction.

The many friends of Rev. James Wheeler learn with delight of his intention to remain in charge of St. Luke's church for some time longer.

Mr. Hector Poirier made a visit to his sister, Mrs. J. N. Michaud, this week. He went from here to resume his studies at St. Francis College, Antigonish.

Mrs. S. Williamson made a short stay in Chatham last week.

Mr. Pearl Morton, of Campbellton, is visiting friends in town.

Mr. Michael Leahy, of Winnipeg, is making a visit to his home people here.

Mr. J. Mullins, who made a short stay at his home here, returned to Winnipeg during the week.

Miss Kathleen Sutton returned to Chatham Academy this week.

Miss Kathleen Power has gone to Fredericton to attend Normal School.

Mr. E. LeBlanc, of Moncton, spent some days here recently.

Mr. and W. A. Cragg and little son, of Dalhousie, visited Mrs. Cragg's home on the holiday.

Miss Gertrude Meahan has returned from a visit to Dalhousie.

Miss Jessie Carter is in St. John this week.

Edmund White, Leonard Lordon, Frank Meahan and Amos Hall left this morning for Charlotte-town, where they will attend St. Dunstan's College.

Miss Maud Bourgeois left on Saturday for New Bedford, Mass., after a pleasant vacation spent with friends here.

Mr. James Buttimer has returned from Europe, where he spent ten weeks visiting. His many friends are delighted to welcome him.

Mr. and Mrs. A. G. Berry, of Campbellton, visited Mrs. Berry's mother, Mrs. R. Ramsay, this week.

Miss Mabel Windsor has gone to Chatham to attend St. Michael's Academy.

Miss Bessie Melvin returns to Boston this week.

Miss Olive Doherty has gone to Sackville to attend Mount Allison Ladies' college.

TOWN TOPICS

Wm. Storey is now using compressed air in his barber shop, Water street. Up to the present time Mr Storey has been using fans, etc., but he is now enabled to do his work quicker and better.

About twenty Italians arrived here from St John Saturday morning and were immediately taken out on the line of the I. N. R. for construction work. Yesterday about 200 left Boston to work on the same line. Some of these will work on the St. Leonard's end of the road and the balance on this end.

A. J. Vibert, travelling missionary for the Matapedia Valley intends visiting and holding services next week as follows—Black Cape, Tuesday, 7 p. m., New Richmond, Wednesday, 7 p. m., Oak Bay, Thursday, 7 p. m., Matapedia or Runnymede; Friday, 7 p. m., returning to Riviere du Loup for Sunday.

Homer Hachey, aged fifteen years, was recently arrested at Campbellton for throwing stones at an I. C. R. locomotive, one of the missiles painfully injuring the fireman. The boy was fined \$9.50 when brought before the court, three dollars of which went to pay for the damages to the locomotive. C. P. Atkinson of Moncton, was the driver on the engine and John Stronach, fireman.

A special train will leave Dalhousie tomorrow evening for Campbellton. This will give the people of the shire town a chance to attend the New Opera House and see the Stoddard Stock Company present East Lynn, in which play they excel. The train will leave Dalhousie at 7.15, returning after the play. About 75 of the best seats in the house have been reserved for the visitors on that evening. 65 tickets must be sold otherwise the special will be cancelled.

The following is a new departure in the coastwise trade. Messrs. Stetson, Cutler & Co., manufacturers of lumber have chartered the Norwegian steamship Garibaldi, in command of Captain Edge, for the coastwise lumber trade to carry lumber, etc., to the United States. The steamer which has just arrived, delivered a large cargo of laths at New York from Campbellton. This will doubtless have a tendency to reduce coastwise freights and no doubt steamers will be engaged to a great extent in the coastwise lumber trade, as in all other trades.

Frank Savoy, 26 years of age, son of Alexander Savoy of Dalhousie lost his life here at an early hour Saturday morning. Savoy, with Duncan Love was engaged in scowing for the Hill yards. About three o'clock they started to put a scow through Hillyards boom. Love got off the scow and on to the boom in order to close the latter. He left Savoy on the scow to bring her in. Love on suddenly turning around failed to see Savoy. He called but got no answer. He hastened from the boom to the scow but found no trace of Savoy. Love then climbed up on the catwalk and hastened to Hillyard's cook-house. The men there turned out and grappled for the body with the result that they secured it about 7 o'clock.

A Fredericton despatch to a Moncton paper says:—A prominent Miramichi lumberman who was in the city today says that the lumber cut on the Miramichi and tributaries during the coming winter will be quite up to that of last year. He thinks that the total cut on the Southwest branches will not be less than 120,000,000 feet. Last year's cut totalled 110,000,000 feet. 80,000,000 of which was cut on Southwest Miramichi and tributaries. He estimates that there will be 80,000,000 feet cut on Southwest and 40,000,000 on Northwest. The Miramichi Lumber Company, which will cut about 35,000,000 is the largest operator. The recent wet weather has caused quite a rise of water in the river here and has facilitated rafting operations of St John River Log Driving Company. Up to Sept 7, 117,000,000 feet had been rafted, leaving about 73,000,000 yet to be disposed of. The total for the season is estimated at 130,000,000 feet.

GASPE GOSSIP

Last week passed very quietly in the Basin.

On Thursday night Mr and Mrs Veit entertained a few friends at their house.

U. S. S. Sandoval, one of the gun boats captured by the Americans during the war with Spain; called here this week for coal and water on her way to the Lakes where she is to be put into service as a training ship.

C. E. Garneau left here this week on

The Ocean Limited trains were discontinued on Tuesday last

MANY A man has been heard to say—the only girl I care for is the only one which won't look at me.

A B Curtis, the genial manager of the Telephone Company received a handsome motor-cycle today which he will use in future in making his trips to different points in the county.

Senator Edwards writes Events that as soon as his engineer, Mr Turner returns to Ottawa the directors will meet to consider the advisability of establishing mills at Dalhousie and Petit Rocher.

On Saturday, the 31st of June, the J. B. Snowball Company, of Chatham, N. B., sawed at their mill 218,419 superficial feet. They have three gangs with an edge to each. This is pretty good sawing, and beats by 9,000 the best day they had last year.

Campbellton Division, S of T will pay a fraternal visit to Dalhousie Division next Monday evening. It has been decided to go by the evening freight train, leaving here about 7.30. An effort is being made to arrange for a special train for the return trip.

The voters' list for 1907 is now out and can be seen at the stores of A. McNeil, McDonald, Jas. Alexander and Moores Bros. Now is the time for our citizens to ascertain whether or not their names are on the list in the proper ward and that their names are properly spelled.

The Atlantic and Lake Superior Railway Co. will run their train for passengers and freight traffic through to Port Daniel on and after Sept. 16th, leaving New Carlisle at 1.25 p. m., Eastern Standard time, and leaving Port Daniel on and after Sept. 17th at 9 a. m. Eastern Standard time.

Carver Doherty received an enquiry this morning from Mrs. Wm. Garrett, Little Pabos, P. Q., in reference to the body found at New Mills last week. Mrs. Garrett's husband, along with two others, was drowned on July 27th last and the widow asked the coroner for a description of the clothing. The remains found at New Mills were those of a young man, probably 35 years of age, height 5 feet 10 inches, while the late Wm. Garrett was an elderly man something over 6 feet tall.

A very interesting and pretty wedding took place at Harcourt on Tuesday afternoon, when Miss Kate M Keswick was united in marriage to Mr Woodville M. Ingram, I. C. R. travelling fireman, both of the place. The bride was becomingly gowned in white, brocade silk, wearing a bridal veil with orange blossoms and carried a beautiful bouquet. The church was very prettily adorned, the friends of the bride and groom having arranged the decorations. The bride entered the church leaning on the arm of her uncle, W. F. Keswick, to the familiar music of Mendelssohn's Wedding March which was played by Miss S. Wilson. Rev C. H. Manaton performed the wedding ceremony, after which the young couple received the congratulations and greetings of their friends under an arch of evergreens and flowers. The bride's going away dress was a smart tailor-made suit of Mulberry broadcloth, with white trimmings and hat to match. Miss Keswick was well known having taught school for a number of years in Harcourt, Rexton and other places. The groom has many friends in this place and along the I. C. R. He resided in Moncton for some time and has a large circle of friends in the place. Mr Ingram has been travelling fireman of the I. C. R. for some time past. Immediately after the ceremony, the happy couple left on the Ocean Limited for an extended trip to New York and Boston, via Montreal. Mr. and Mrs. Ingram received many useful presents. The groom's gift to the bride was a handsome fur-lined coat. Many other useful and costly gifts indicated the esteem in which the young couple are held.

A short visit to his home in Perce, and expects to return on Monday.

Schooner "Alliance" Capt. Lewis is now ready for sea and is bound for the Labrador Coast, laden with lumber and general cargo.

The Lady Eileen met with a slight mishap in entering the harbor here last Thursday morning. In trying to pass the schooner White Cloud which ran aground on the bar just below the Catholic church, the Lady Eileen ran aground and remained fast until early next morning when she was helped off by H. M. S. Princess.

Social And Personal

Farm Facts and Fancies

The crop situation shows little change. Canadians will have to be satisfied this year with a below the average yield in most cereals. Prices, however, are likely to rule higher than last year, so that the value of the 1907 crop may not be much below that of 1906. This will apply specially to the West, where farmers will probably receive as much money for this year's crop as they did last year for a larger yield.

No where in the world perhaps are the fall exhibitions of so much educational value to the people who attend them as in Canada. The Canadian National Exhibition

"Baby's Own" Soap

—keeps its delicate fragrance to the very last fragment, and it is so well made that it will wear to the thinnest wafer.

now in progress in Toronto stands almost without a peer in this respect. It is a happy combination of the useful and the entertaining. Every class of sightseer, if he looks for it, can learn something of value and have all the recreation he desires thrown in. In manufactures, in agriculture, in live stock, in horticulture, in poultry, in the dairy, etc., the best that this country produces will be found and displayed so as to present the greatest amount of educational value. Interspersed with these are wholesome forms of amusement, all calculated to make the outing both pleasant and profitable to every visitor.

The combination of the useful and the entertaining is as it should be. "All work and no play makes Jack a dull boy" is a maxim that will apply to people of older years as well as to those on the threshold of life. The fall fair is the annual outing for a great many people. Though eager to learn as much as possible they appreciate a little wholesome amusement in addition. The managers of exhibitions should therefore endeavor to provide such educational features and amusements as will best conduce to the building up of the districts in which these fairs are held. This will benefit the exhibitions financially and otherwise.

Those responsible for the enforcement of the Seed Control Act this season are endeavoring to make good the promise that this Act would greatly help in ridding the country of impure seeds. In 1906, there were several persons detected deliberately breaking the act. These were let go unpunished and the Seed Branch came in

MINARD'S LINIMENT CO., LTD.

GENTLEMEN—I had a bleeding tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT and after using several bottles it made a complete cure and it healed all up and disappeared altogether.

DAVID HENDERSON.

Belleisle Station, King's Co., Sept. 17, 1904.

for some criticism for its leniency in not having those parties punished. This year the law is being enforced, and a couple of seed merchants have been up before the courts for breaking the Act, and fined. Considering the nature of the offence and injury to any community by the distribution of impure seed, the fines imposed were small. Magistrates will do a great injustice to the farming community if they do not mete out punishment to fit the crime upon everyone who deliberately contravenes the Act and offers impure seeds for sale.

Was Weak and Run Down

WOULD VERY OFTEN FAINT AWAY

Mrs. J. H. Armstrong, Port Elmsley, Ont., tells of her experience with

MILBURN'S HEART AND NERVE PILLS.

She writes: "It is with gratitude I tell how your Heart and Nerve Pills benefited me."

"I was very weak and run down, had headaches nearly every day and very often would faint away, in fact, my doctor said that sometime I would never come out of the faint. It was through one of your travelling agents that I was induced to try Milburn's Heart and Nerve Pills and after taking three boxes I am glad to relate it has been a number of years since I had a fainting spell and scarcely ever have a headache. Too much cannot be said in praise of Milburn's Heart and Nerve Pills, for in me they have effected a perfect cure."

Price 50 cents per box or 3 boxes for \$1.25, at all dealers, or The T. Milburn Co., Limited, Toronto, Ont.

These are only a few examples;

there are thousands of others.

While success cannot rightly be

judged by money standards, the

fact remains that in the eyes

of the world the extent of a man's

success is the extent of his capital.

The worth has no use for a poor

man or a loser.

The person who has reached

middle age, wholly dependent upon

his individual efforts for his livelihood, is accounted a failure. He

no longer commands the respect

of the multitude but receives instead their scorn or pity.

Have you ever thought of these things?

What are you doing to make yourself independent?

Your hand or brain devoted to another man's cause can never

make you wealthy.

Nor can your dollars.

The man who only saves is at best a plodder.

He should invest his dollars.

Look about you.

There are successful people on every side.

Why don't you ever wondered how they made money while others

have not?

Excluding those rich by inheritance, and those rich by fraud,

there remains countless thousands of men and women who, starting

practically without a dollar, have built up for themselves

wealth or a handsome competence, and are no longer dependent

on their hands for support.

These people have made money

first by working for and earning

dollars, and then by putting their

dollars to work.

You are cheating yourself and

your family when you do not save

from your earnings and put your

earnings to work.

Suppose you put your savings in

a bank. The bank pays 3 per

cent. How can it? Because it invests

your money so that it will

bring much more than 3 per cent—

enough more so that most bankers

become very wealthy on the

difference between your interest

and theirs.

And what if they invest unwisely

and lose all, as they sometimes

do? Why, it's your money and

your loss—not theirs.

You have not the control of your

own capital—do not even know

they are doing with your money.

You are making your dollars

work for others. Why don't you

make them work for you?

The banker invests your dollars;

pockets their earning power, and

gives you 3 per cent.

Why don't you do your own

Notice of Sale

To the Heirs of William Bastin, late
of the Town of Campbellton in the
County of Restigouche and Province
of New Brunswick, Locomotive En-
gineer, and all others whom it doth,
shall or may concern.

NOTICE is hereby given that under
and by virtue of a power of Sale con-
tained in certain Indenture of Mort-
gage bearing date the twenty-first day
of October, A. D. 1891, made be-
tween the said William Bastin in
his lifetime, of the first part,
and William Mott of the Town
of Campbellton aforesaid, Esquire,
of the second part, and duly recorded
in the office of the Registrar of Deeds in
and for the County of Restigouche
aforesaid, as No. 4216 on pages 336,
337, 338, 339, 340, and 341 of Book
"K" of said Records, which said In-
denture of Mortgage was duly assigned
to James Reid of Charlottetown in the
County of Restigouche, Merchant;

there will, for the purpose of satisfy-
ing the moneys, both principal and
interest, secured by the said Indenture
of Mortgage (default having been made
in the payment thereof) be sold at
Public Auction in front of the Post
Office in the Town of Campbellton
aforesaid, on Monday the sixteenth day
of September next, at eleven o'clock
in the forenoon, all of certain Lease-
hold Lot of land and premises situate
lying and being in the Town of Camp-
bellton aforesaid, and bounded and
described in said Indenture of Mort-
gage as follows:—

"On the 'East' by
lands leased to and occupied by Hugh
Graham, beginning at the North-west
corner of the boundary line of said
lands and running South along the
Western boundary line of said lands
one hundred feet, on the South by
lands owned and occupied by the heirs
of the said John D. Gerrard, thence
westerly running along the boundary
line of said last mentioned lands fifty
feet, on the west by lands owned and
occupied by the heirs of the said John
D. Gerrard, thence North running along
the boundary of the said lands one
hundred feet to the Public Highway
thence East running along the Southern
boundary line of said Highway fifty
feet to the place of beginning, together
with all buildings and improvements
thereon standing and being, privileges
and appurtenances thereto belonging
or in any manner appertaining, subject
however to the payment of the rents
and performance of the covenants in
the original Indenture of Lease contain-
ed."

A Grand Cure
FOR
SUMMER COMPLAINT
AND CRAMPS

DR. FOWLER'S
EXTRACT OF
WILD STRAWBERRY

It is nature's specific for Diarrhoea,
Dysentery, Cramps, Colic, Pain in the
Stomach, Cholera Morbus, Cholera In-
fantum, Sea Sickness, Summer Com-
plaint, etc.

Rapid and reliable in its action.
Its effects are marvelous, and it is
pleasant and harmless to take.
It has been a household remedy for
sixty-two years.

Refuse substitutes. They are danger-
ous.

Mrs. Wm. Flewelling, Arthur, Ont.,
writes: "I find it much pleasure to
recommend Dr. Fowler's Extract of
Wild Strawberry as a grand cure for
Summer Complaint. My little boy, one
year old, was very bad with it, and a few
doses cured him. I also used it on my
other six children for cramps and still
have half the bottle left. I cannot praise
it too much."

FINE NEW OPERA HOUSE HAD A MOST AUSPICIOUS OPENING FRIDAY NIGHT

*Madame Harrison Captivates Her Audience and is Ably
Assisted by Local Talent*

STODDART STOCK COMPANY MAKES BIG HIT

Mr. Dimock could not have possibly done better than secure the services of such a talented artist as Madame Yulise Harrison for the opening of his splendid opera house. An audience which almost filled the spacious auditorium, Friday evening, paid homage to the distinguished Canadian prima donna in round after round of applause. It must have been very gratifying to Madame Harrison, likewise to Mr. Dimock who has expended considerable money and energy in order to give the people of Campbellton a model place of amusement.

The audience was not only large but representative as well—representative of the leading social and business interests of the community. Mr. Dimock had a very capable staff of ushers, the hall was well lighted, the scenery tastefully arranged, the program sufficiently varied and everything possible done to insure the comfort and pleasure of those present.

Madame Harrison's singing was of a very high order and was listened to with the greatest pleasure. A dramatic soprano rather than a lyrical one, her rendering of such selections as "The Indian Bell Song" from Lakme, and "Scenes That Are Brightest" from Maritana, was most effective. Madame Harrison has won the good-will and admiration of the music-loving people of Campbellton and whenever she returns will be accorded a most enthusiastic reception, and we trust that she will return and at no distant date either.

Madame Harrison, however, was not the only big attraction at Mr. Dimock's new opera house Friday evening. The local talent which was in evidence there demonstrated to us that we possess dramatic and musical ability second to no other town in the province.

The reading entitled "Helene Thamié," rendered by Miss Mary Richards, was delightful. Miss Richards has rare elocutionary ability and we will doubtless hear more of her in the future. Miss Richards is a graduate of the Ladies' College at Wolfville, N.S.

One of the most pleasing numbers on the programme was the violin selection of Miss May Redden. Miss Redden's playing is far above that of the average amateur and reflects great credit upon her Alma Mater, Mount Allison.

Prof. Williamson's rendering of "The Bandolero" was another feature of the evening's entertainment. Prof. Williamson possesses a splendid voice and his singing was greatly appreciated.

Miss Winnie Harper, the accompanist, had a great deal to do and it is needless to say what she did was exceptionally well done. On the platform were several of our prominent citizens. A. Murray (who presided), John McAlister, ex-M. P., Wm. Currie, M. P. P., W. A. Trueman, Town Solicitor, Theodosius Botkin,

BATHURST Branch
J. M. AITKEN, Man.

American Consul, J. S. Benedict, Campbellton's ex-American Consul, all of whom gave short addresses in which the opera house was favorably spoken of. A telegram was received by the manager, S. W. Dimock, from Hon. C. H. LaBrosse, Dalhousie, wishing him every success in the opening and regretting that he and a party of forty from Dalhousie were unable to attend owing to the inclemency of the weather. Another message was also received from James Reid, M. P., regretting that he was unable to be present and extending his heart-felt wishes for the success of the new opera house and management. W. A. Mott also regretted that he was unable to be present, owing to illness in his family.

The people of Campbellton are the possessors of an opera house which will meet the demands of the town for many years to come, and one which cannot fail to please all performers.

The Stoddart Stock Co. was the first dramatic attraction to appear in Campbellton's new Opera House and Mr. Dimock could not have made a happier selection. The company is one of the best repertoire organizations that has ever visited the province. They opened here Monday evening in a piece called "The Counterfeiters."

It was their intention to make a more elaborate production for the opening night, but owing to the non arrival of their luggage they were compelled to put in the piece which they did. "The Counterfeiters" while rather melodramatic gave Miss Leah Stoddart and her support an opportunity to display their ability. It remained, however, for David Belasco's famous play "The Girl of the Golden West," produced on Tuesday evening to show the full strength of the company to advantage. Miss Stoddart is an exceptionally talented actress and as the Girl of the Golden West won the hearts of the audience. Miss Stoddart is well supported by Mr. Stewart, Mr. Tucker and others, and should be greeted by crowded houses for the remainder of the engagement.

Mr. Dimock is to be congratulated on the success attending his efforts to provide opening attractions for his Opera House. We trust that he will continue to be able to give us good, wholesome plays, well acted, such as he is giving us this week.

Must have Frost-proof Pipes (Continued from page 1.)

Each consumer be further notified that if said request is not complied with the water will be shut off and the Manager is hereby given power to shut off water in such cases.

The Com. were instructed to ascertain cost of widening street leading from Prince William St. to Angus Dewar's residence and report to Council.

On motion of Coun. Jardine, seconded by Coun. Mowat, Angus Stevens was appointed Collector of Dog Taxes, his remuneration to be 25 per cent of amount received. If after giving one week's notice to the owner of the dog the tax is not paid, the Collector is authorized to shoot the dog on sight and bury it at his own expense.

On motion it was ordered that a regular fee of \$2.00 a day be charged all parties except the Board of Trade for use of the Council chamber.

J. A. P. Bulman, architect, submitted plans of proposed building for storing town property to be erected on lot near Council chamber. The plans were approved and an estimate of cost will be submitted to Council.

"Wall Street Afloat" is a New York Herald headline. Always knew there was water enough there for a yacht squadron, and now the cruise has started.

HERE'S A FUNNY ONE.
(St. Louis Globe-Democrat.)
Even the Almanach de Gotha has a joke tucked away in its statesman-like pages. It says the Russian government is a constitutional monarchy under an autocratic czar.

THAT'S SO.
(Quebec Telegraph)
When a man picks up a pair of pants he has not worn in a long time, he always feels in the pockets to see if he has left any money in them.

NO THEY DON'T.
(Cleveland Leader)
As the summer wears on the pessimists who thought they saw business drifting into the doldrums talk less and presumably do more cheerful thinking.

Oliver Peters Fatally Shot. (Continued from page one)

boys started down to meet Matt St. Onge to get some gin. Ollie Peters and I went to Richard's office. We then went to Fernan's crossing. We met Eddie Doucet, Joseph Doiron, Charlie Beattie here and we waited till St. Onge came with the gin. We bought some canned goods at Fernan's and Bellisle's and then started in to Lily Lake. We went to Pat Henry's house where we found an old stone which we sat round and began to play cards for the drinks. We had our dinner and Eddie Doucet laid down and went to sleep. We had another game of cards, then Joseph Doiron said "Let's see if we can get a part-ridge." Charlie and Ollie Peters agreed to have a game for money. I asked Charlie for a short cartridge, which I put in the rifle and put the bullets in after. I turned to ask for another cartridge and the gun went off. I was standing and they were sitting down.

I could not say whether my hand was on the trigger or not. I thought the shot would come out first. I am not accustomed to this rifle. This is the first time I ever had the gun in my hands. I was not very drunk. That was about half past two Sunday.

Coroner: "I do not know how many drinks I had. I might have drunk a half a bottle of gin up to time of accident. This is the first time I have ever been on the lake this summer."

To foreman: "I had no quarrell at any time with Ollie Peters. I swear the occurrence was an accident."

Edmund Peter: "The deceased was my son. He was seventeen years of age. I first saw him alive Saturday morning. He was not drinking then. The boys were always good friends. I think the shooting was accidental."

After deliberating a few minutes the jury returned the following verdict:—

That the deceased came to his death by a bullet through the heart delivered by a rifle, held in the hands of Benjamin Beattie and that said shot was accidental and blame cannot be directly attached to anyone. We, the said jury strongly recommend that the four young men connected with this tragic affair be fined according to law. We also condemn the practise of liquor being peddled on the streets.

A prominent Miramichi lumberman says that the lumber cut on the Miramichi and tributaries during the coming winter will be quite up to that of last year. He thinks that the total cut on the Southwest and Northwest branches will not be less than 120,000,000 feet. Last year's cut totalled 110,000,000 feet, 80,000,000 of which was cut on the Southwest Miramichi and tributaries. He estimates that there will be 80,000,000 feet cut on the Southwest and 40,000,000 on the Northwest. The Miramichi Lumber Company which will cut about 35,000,000 is the largest operator.

Duncan Maguire left on Monday for Laval University, Quebec.

Charles Dana Gibson Talks of his new Work. (Continued from page 2.)

That must necessarily help me in doing shorthand, mustn't it? "Yes, I find work in oils quite congenial. But, I repeat I can't say at all what will come of my work in it. I shall certainly do some portraits in oil—have done some, in fact. I already have some more orders for more of them, which I hope to do next winter, after my return to Paris for my last year over there."

At this point Mr. Gibson stopped talking and glanced for a moment uneasily at his watch.

"I must be off now," he remarked. "You see, I have to collect my children and get them under way and do all the things I promised my wife, and"—Mr. Gibson's expression became solemn and worried—"really must hire that book-lady."

ADDRESS TO MRS. BENEDICT

The following is the text of the address presented to Mr. Benedict by the W. C. T. U.:

Dear Mrs. Benedict:—Your friends, the members of the W. C. T. U., could not permit you to leave without expressing to you their high appreciation of the valuable assistance you have rendered during the four years you have been a member of our union. We can truly say "We thank our God upon every remembrance of you." Your bright, genial countenance has cheered us, your business-like methods and the calm persistence of the even tenor of your way in spite of difficulties and discouragements has often been an inspiration to us.

We will miss you, but we trust that in the new home to which you go, the many gifts and graces of heart and mind so generously bestowed upon you may still continue to be unselfishly used in the cause of temperance. We thought it fitting that the token of our appreciation should be such as would often remind you of your white ribbon friends, and one of the objects of our meeting this afternoon is to ask you to accept this pen from your fellow workers.

We wish to bid you Godspeed and to assure you of our continued interest and desires for your highest happiness. We pray that the God of all good may bless you more and more with his own power for service and may the shapers of your home life participate with you in all the fullness of blessing that we desire for you.

C. McLean, President.
M. Gerrard, Secretary.

Signed on behalf of the Woman's Christian Temperance Union.
Halifax, Sept. 4.—The arrangements for the operation of the technical education scheme in Nova Scotia have been about completed. This winter there will be local technical schools in four industrial centres—Halifax, Sydney, New Glasgow and Amherst. The schools will open early in November. The idea is that there shall be six or seven teachers in each school.

A moderate fee will be charged, not so much for the purpose of deriving a revenue from the school but because it is considered that a man will appreciate more highly something he pays for more than something he gets for nothing. But the fees will not be high and they will be largely returned to those who show a determination to work. He who makes the best of the opportunities presented to him will, under the system that it is proposed to adopt, get back all or the major part of the money he gave or paid in.

We are pleased to see Miss Lizzie Caldwell back again from Oregon, where she has been living for some time past.

Miss Clara Gale arrived home Saturday from Stillwater, Minn., where she has been spending her vacation.

J. H. Kelly left Saturday on the Lady Eileen for Gascons and other places.

School opened here on Monday the 9th inst, Miss Gale being in charge of the elementary grades and Miss Crozier the primary department. We have been unable, as yet, to secure a Model School teacher, there being no applications, but we hope to get one later.

Proceeding With his Prosecutions. (Continued from page one)

Quebec owners, or they were fishing there with the consent of the said owners. The question is one of prime importance from every standpoint to the people of the town of Campbellton who own anything in the province of Quebec and these cases will be followed with much interest by the people of this Province. Mr. John Hall Kelly and W. A. Mott have been retained for the defence.

EMPLOYEES RELIEF ASS.

At a recent meeting of the Employees Relief and Insurance Association the following resolutions were passed:—"That whereas, the members of this General Executive Committee of the Intercolonial Railway Employees' Relief and Insurance Association, have heard with deep regret of the demise of Mr. James Rafferty, who for a number of years past has been one of the representatives from the St. John district of the Association."

"And whereas, this Committee desires to place on record its appreciation of the great interest, and the untiring efforts of the deceased, in matters pertaining to the Association, and its members, during the time he sat at this Board, and the great loss which it has sustained by his removal from among us,

Therefore Resolved, that we express to the widow and family of the deceased our heartfelt sympathy in this time of bereavement, and to assure them that the work of the deceased in the interest of his fellow employees will not soon be forgotten."

The resignation of Mr. J. J. Wallace, as Vice President of the Association, an office which he has held for the past 14 years, was received, and the following resolution was unanimously adopted:—"Whereas, this Committee has learned with deep regret of Mr. Wallace, our vice president, being about to sever his connection with this General Executive Committee, with which he has been connected ever since the inception of the Association in May, 1890 during the first three years as a member of the committee, and subsequently as its Vice President."

"Therefore Resolved, that this Committee, as the representatives of the employees of the Intercolonial Railway, take the present opportunity of expressing to Mr. Wallace, its great appreciation of the services which he has rendered the Association, for the fair and impartial manner in which he has presided at its meetings, and for the many hours of his valuable time which he has so unselfishly devoted to the administration of the affairs of the Association, and of sincerely wishing him and family, health, happiness and prosperity in their new home."

Appropriate remarks were made in this connection, by the members of the committee present, and by the President of the Association, to which Mr. Wallace responded, thanking the members for their kind words, and wishing them every possible success in carrying on the work of the Association in future.

The meeting adjourned about 17 o'clock.
