The very nature of Newspapers prevents their affording to readers spach interesting matter, connected with politics and the daily occurrences of life; and more especially are they unadapted for the indiscriminate perusal of yourn. The writer has had repeated opportunities of discovering, that something of a different naturalis very desirable: many parents wish for the establishment of a small publication, exclusively composed of such instructive and ntertaining matter, as they may calely fur-nish for the regular perusal of their children; while country residents, by whom a frequent accession of books is unattainable, greatly desire an opportunity of obtaining a periodical supply of useful and amusing in-formation, at a cheap rate. To accomplish this desideratum, and thus to afford an agree-Lather Gent's and Children's Beaver able companion for the leisure hours of such persons, it has been determined to commence he publication above named.
