RUSSIA'S SECRET PLANS ARE MAIN FACTOR IN THE CRISIS

The Bear Gives No Sign of Intentions in Far East.

EVACUATION SIMPLY A BLUFF

The "Open Door" Will Be Declared, But Will Be Barred by Various Regulations.

London, May 18 .- No definite indication has come as yet of what the effect will be of important recent developments in the complicated situation, which is best described as a general political crisis. There is not the slightest sign of what Russia will do in the Far East, and it is impossible to estimate how serious will be the spread of the Balkan troubles.

The American suspicion, which is reflected in two or three telegrams from Washington, that Great Britain has way and Sixty-eighth street, whereby the latter will retain Manfinds no ecno in English paohe opinion. On the other hand, it would he resented more strongly than any mistake of foreign policy that the Government could commit.

The position taken by the American Government in regard to the enforcement of Russia's predges in Manchuria has the heartiest support in this country, officially as well as popularly.

certain countries, even the greatest, have been weak enough to submit to impositions because they dreaded the danger of enforcing their simple rights. This has so encouraged one or two powers to profit by chicanery that they actually feel aggrieved when caned to account.

It is sate to prophesy that the powers will not be compened to graw the sword to support the demand for the execution of Russia's plain predges in regard to Manchuria. It may be asserted with equal confidence that the powers will secure the promised trade rights in that province only with infinite difficulty and by stern and re-peated insistence. There will be no still living. genuine evacuation of Manchuria by Russia. She has abandoned for the time being the policy of bluff. It is probable that she will presently make a virtuously indignant declaration in regard to the open door at all ports, but her "open door" will be found with bars across it in the shape of sanitary regulations customs rules etc. which will make trading impracticable.

The resignation of the Bulgarian Cabinet raises another serious difficulty for Russia in the Balkan sicua-The Daneff ministry has acted virtually under Russian orders. It has certainly shown great skill in holding the principality well in check, although the population is overwhelmingly in favor of open co-operation with the Macedonian insurgents. Prince Ferdinand, whose position is most difficult, is consulting the leaders of the Stambouloff party, which strongly resents Russian domination. It would not be possible to avert for a long time an open breach between Turkey and Bulgaria with such a ministry in power. Russia declares that she would not raise a finger in behalf of Bulgaria

under such circumstances. It is certain that she would not allow the Sultan to annex the province if it conquered it, as it certainly would do. The whole situation in Macedonia, Bulgaria and Turkey is well nigh intoler able and unless the strain is quickly relieved serious bloodshed cannot be

The decisive element in the crisis is Russia's secret design, and, as said at the outset, there is nothing to indicat what this may be. It is possible that Russia herself does not know. The distracting conditions of her internal affairs may well give her pause. The massacre of the Jews, which was without effectual interference, seems to be regarded by the Government as a convenient escape valve for popular passions, which might otherwise explode

St. Petersburg, May 18.-The Russian officials express themselves as being deeply hurt at the criticisms of the American press on the subject of Manchuria, and say that, "Considering the friendship extended 40 years ago, when needed friends, America might at least inquire whether the Anglo-Japanese news was not colored in Anglo-Japanese interests."

The Manchurian incident threatened a long time to cause serious trouble on the Bourse. When the excitement was at its height Finance Minister Witte visited Foreign Minister Lamsdorf and informed him that "under the influence of American representations. Japanese truculency and American newspaper attacks," in addition to the Balkan troubles, the Bourse was dangerously weak. The Finance Minister British System Doesn't Pay Interest also declared that a continuance of the foreign attacks would threaten Russia's credit.

Tolstoi's Faith.

Paris, May 18. - In a letter written during his recent illness Count Tolstoi expresses the belief that the human is merged in the spiritual. Here is his present profession or faith: "I have reached the conviction-not by reflection, but by experience in a long life—that the human life is a spiritual one. Man is a spirit, a portion of God shut up in certain limits whose boundaries we do not know, but the human soul is not submitted to any disfigurement, even less to suffering. It develops everywhere equally, enlarging the frontiers which it is contained."

A Picture Romance.

London, May 18 .- A curious romance of a famous picture has just come to light. For many years a picture entitled "The Holy Family," hung on the walls of the Bristol Young Men's Association. But the association thought it had more important demands for its money and declined to buy it. Lately the owner died and the executors took charge of the picture and sent it to London to be Judge of their surprise when they got \$50,000 for it from an expert who identified it as a famous picture from the brush of Pietro Da Cortano, a great Italian painter of the seventeenth century. The prince was so great a favorite with Queen Victoria that she insisted upon teaching him his alphabet and supervising his studies generally so long as she lived, except arithmetic, which he abominates, and for neglect which he has frequently been made of which he has frequently been made to stand in a corner. A few days ago, according to my informant, the prince revolted when he saw the hated slates coming on and said:

Their tutor, Mr. Hansell, an oxford man, who formerly taught Prince Arthur of Connaught and the present Duke of Marlborough, has adsolute authority over his royal pupils. He travels with them, usually, as his authority is not strictly limited to school hours. He makes them study two hours a day to the minute, outside the time he and the assistant tutors are hearing lessons. The princes enjoy several things about \$St. James Palace that their elders are not partial to. If the Prince of Wales and his uncle, the Duke of Connaught, who lives at Clarence House, adjoining \$St. James Palace, were not abnormally good-natured, they would have rebelled long against the stream of typists, shop assistants, clerks of one kind or another, day laborers, and so forth, who make the palace courtyard a morning and evening thoroughfare. CATARRH IS A GERM DISEASE—Science, armed with the microscope, has established it a fact, and this conclusion renders obsolete the practice of treating asthma, catarrh and bronchitis by stomach drugging, sprays, snuffs, etc. Such treatments are an utter failure, because they cannot penetrate the delicate air cells of the lungs, or permeate the air passages of the nose and bronchial tubes where the germs of catarrh have their stronghold. Catarrhozone is the only certain remedy. It is inhaled by the mouth and after spreading through all the respiratory organs is exhaled through the nostrils, Catarrhozone kills the germs, heals the inflamed tissues, clears the head and throat in two minutes, and cures in a few hours. Mr. J. G. Kirkby, head miller in the large flour mills of Munro & Roantree, Thorold, Ont., settes: "I can scarcely say too much in praise of Dr. Chase's Kidney-Liver Pills. Some years ago I was laid up by a severe attack of kidney disease, which was later complicated with other bad symptoms, such as headache, lumbago, backache, constipation, indigestion and insomnia. I became reduced in flesh and was very much discouraged. Pro-fessional medical treatment was of no avail; other remedies were resorted to, with no purpose. My appetite diminished, and I was losing hope of re-

covery.
"Fortunately my attention was called to Dr. Chase's Kidney-Liver Pills, and I derived much benefit from the first box. By the time I had used four then able to resume work. The reception committee of the city council met this morning and passed accounts amounting to \$355, being a portion of the expense incurred in the reception tendered the Governor-General and Lady Minto here last week. Before the committee "squares" itself it will in all likelihood find that its appropriation of \$400 has been largely overdrawn. The members were somewhat astonished when they found that the accounts already in amounted to over \$500. They could not understand it, and they set to work immediately to find out how it all happened.

One of the first accounts they came across in the pite contained extras of Jolly, and as all of it had been ordered

When the accounts go before the council the members of the committee anticipate that there will be a hot time. for Ald. Cooper is only waiting the opportunity to make himself heard. He was a member of one of the sub-committees, and claims that he did not receive a notice to attend one of the meetings. "There will be a row," one alderman said, "for Cooper has blood in his eye."

Despite the overdraft which stares it

in the face, the committee was inclined to be generous to the members of the mounted escort, and the two coachmen who drove the rigs occupied by their excellencies and the other prominent visitors. Timely Work of Junior Branch of Daughters of Empire.

The junior branch, Imperial Order Daughters of the Empire has issued a programme full of suggestions for Empire Day and for the meetings during June. The suggestions for talks and short papers are so good that, no doubt. they will be adopted, as well in many of the public schools. In order that they may be seen by the pupils and teachers they are herewith reproduced:

EMPIRE DAY.

Suggestions for Talks and Short Papers: (a) The Empire—What it is and what it stands for; (b) What has made the empire? (c) Why are we proud to belong to it? (d) How can we help to build it? (e) The meaning of the flag. (See "The Story of the Union Jack," by Barlow Cumberland, and Mrs. Fessenden's leaflet, "Our Union Jack." For younger chapters a flag drill is suggested. Songs: "Rule, Britannia," "The Red, White and Blue," "God Save
