EVENING EDITION

VOL. XXVII, NO. 134.

THURSDAY, MARCH 27, 1890

WHOLE NO. 8386

## TOPICS OF TODAY.

The ladies will be interested to know that sleeves are very fanciful, but they are all more or less enlarged at the top by puffs, platings or slappings of another material. A revival of an old fashion is to make them of a different fabric to the rest of the gown. For ball dresses sleeves are small and are sometimes replaced by a band of close-set flowers.

Bishop Ridley, who recently arrived in London from his diocese in Vancouver's Island, brought to the Queen a gift of \$100 from the chief of the tribe among whom he has been at work. The bishop offered it in such a way that the Queen could not refuse it without giving her five orders, but he is afraid to offer it to the Queen as he would have been refused to take it from the chief, and can't help himself what to do with it.

Women have started in London a paper called the Women's Penny Paper, and are making a fuss because their representative, a woman, was denied admission to the press gallery of the House of Commons. The Sergeant-at-Arms refused the admission upon the literally true ground that there was no room, but the women assert that she would not have been admitted even had there been room, and that she saw the fight is fought.

Paris officers going to see the goods of a woman against whom a judgment had been obtained found her being openly and prepared for burial in a room. They were about to retire when one of them could not resist the temptation to pinch the plump arm of the woman. The supposed corpse promptly sat up on her side and gave the impertinent officer a rather dressing down before she remembered that she was dead to her creditors if not to the world. The execution was made at once on the goods.

Mr. J. R. Pigott, who is in the service of the British East African Company, has recently made a journey further up the Tana River than any previous explorer ever had traveled. While far up the river, and suffering to some extent from difficulties of procuring sufficient food supplies, 45 of his porters deserted him. He learned later that on their way back to the coast, having no goods with which to buy food, they were compelled to sell some of their number into slavery to supply the rest of the party with provisions. In this way they gave up seven men, selected by lot, who lost their liberty among savage tribes in the interior, while the others might be able to reach the coast.

M. Baudry d'Asson, a Bonapartist deputy, a few days ago introduced into the galleries of the French Chamber a constituent who was a blonde, and that dress not being according to the regulations for admission there, the constituent was put out. M. Baudry d'Asson promptly appealed to the Chamber where a labor deputy elected last fall had been expelled from the floor or his constituent be admitted to the gallery. The constituent went back after the Bonapartist with his contents, was ordered to swap clothes with his constituent if it were necessary, and wear the blouse on the floor, while his coat did the honors in the gallery.

Frank Hales, the woman's husband, was arrested at Hamilton yesterday and \$50 of the stolen money found on him.

A Rome special says a large section of the cardinals are advocating the idea that the future Pope, to be elected to succeed Leo XIII., shall leave Italy immediately after he is elected. They declare that the position of the Pope there is untenable. Pope Leo is very strongly opposed to this scheme, and he has appealed to the cardinals that his last days on earth shall be contented by the assurance that such a course shall be definitely abandoned.

VIENNA, March 27.—The Emperor of Austria gave an audience yesterday to Prince Reuss, the German Ambassador at Vienna, who explained to His Majesty the views connected with Bismarck's resignation, and assured him Emperor William's friendly sentiments toward Austria remain unchanged. Dispatches received at Vienna from Berlin say Emperor William, in a conversation, declared the change in the Chancellorship would not affect the friendly relations between Austria and Ger-

many, and that an intimate connection between the two countries in the future, as in the past, would form the basis of Germany's policy.

The Queen's Luggage.  
LONDON, March 27.—Among the impediments with which the Queen started on her continental tour on Monday may be mentioned three coachmen, nine grooms, eight horses, one donkey, three carriages, 72 trunks, three special beds, a special cooking stove, wine, two doctors, one surgeon, one surgeon-acoucher for the Princess Beatrice, three ladies-in-waiting, nine women servants, one lady, two squires and seven dogs. Her Majesty was in an unusually gracious mood, and on the Dover train smiled sweetly on Prince Battenberg, now completely restored to royal favor. Bismarck's Popularity.  
BERLIN, March 27.—The Reichsanzeiger, in announcing Bismarck's farewell interview with the Emperor, retains for the Prince the title of Duke of Lauenburg. Bismarck's passage through the streets on his way to visit the Emperor was a veritable triumph procession. The people wanted to unharness the horses and drag the carriage themselves. Those nearest the carriage thrust in their hands to grasp the hands of Bismarck, and were wipied the utmost difficulty. The passage could be made through the crowd. It was the pressure of the throng upon the carriage that caused the accident which delayed the Prince's progress.

The Pope, in his reply, congratulates Emperor William upon taking the field for a resolute effort in a worthy cause, which meets the Pope's heartiest wishes. After referring to the encyclical dealing with the social question, the Pope says he recognizes the high value of an attempt to settle questions by an international conference; appreciates the Emperor's acknowledgment of the great efficacy of religion and the church in the solution of social questions; hopes the Emperor's servants will be supported by the authorities in the exercise of their functions in connection with social questions; warmly wishes the conference success; expresses gratification at the appointment of Bishop Kopp, and concludes with cordial wishes for the welfare of the Emperor and his family.

The Land Purchase Bill.  
LONDON, March 27.—The bulk of Conservative and Unionist members of Parliament who have been interviewed approve the Land Purchase Bill. Mr. Chamberlain and Lord Randolph Churchill reserved their opinions. Mr. Sexton, Home Rule member for Belfast, and Mr. Russell, who has believed the Coercion Act, preventing as it does the combining of tenants, would enable landlords to secure the maximum twenty years' price, especially as they could insist upon two years' arrears of rent. Balfour himself admitted that the true price of money was 3 1/2, therefore his charging 4 in order to retain one quarter to provide against default was most absolutely just. The bill, he said, would provide for the purchase of the land, would provide for the purchase of the land, would provide for the purchase of the land.

Dr. Tanner (Home Rule) says the bill is clearly drafted in the interests of landlords. Other Parliam. members hold similar views.

The ex-Ministers withheld their opinions. The bulk of the Gladstonians disapproved the bill, the Radicals objecting on the ground that the guarantees are worse than those of Mr. Gladstone's scheme.

Mr. Shaw Lefevre, in an address to the Home Rule Union, last evening, said the more the Land Purchase Bill was looked at the more he was convinced that it was the more sound it appeared. It possessed no finality, and would lead to fresh difficulties and further agitation.

Herbert Gladstone said the proposed guarantees were absolutely worthless.

Emigration Discussed—A Bonus of \$5 per Head Paid to Steamship Agents for Each Emigrant Sent to Canada from Europe.

(Special to ADVERTISER.)  
OTTAWA, Thursday, March 27.—The House has been in session all night and is still in session. Mr. Sproule having relieved Deputy Speaker Wood in the chair. This prolonged sitting is the protest of the Opposition against the attempt of the Government to press through votes for immigration without furnishing the slightest information as to their object. The House reached the immigration items last night at 8, and discussed the question in the usual way until after 1 this morning. Then there came an item of \$5,900 for European agents, about which the Liberals desired some information. The Minister of Agriculture replied that this information was in the report of Sir Charles Tupper, which was in the hands of the Printing Bureau. The Opposition asked that this item stand until the report was printed.

Sir Hector Langevin, who was leading the House in the absence of the Premier, dictatorially declared that all these immigration items must pass before the House rose. It was to him a minor thing that over \$60,000 should be voted for immigration expenses in Europe without the House having the least information as to how these sums had been expended in the past.

The Liberals refused to allow such an outrage on an over-taxed people, and prepared to force an adjournment until information be secured. Mr. Casey moved that the committee rise about 3 a. m. and the discussion went cheerily on. The House emptied, leaving a band on each side to hold the fort. The Liberals who stayed were Messrs. Mulock, Ellis, Casey, Dr. Wilson, McMillan, Jones, Patterson, Davies, Weldon and Campbell, while Messrs. Bowell, Carling, Langevin and Thompson led the Government. There were three especially objectionable items: one for the Winnipeg office, which is presided over by J. H. Metcalfe, M.P.P., who drew a salary at a rate of \$150 per month for a month and a half when he was in the Winnipeg office; the other was \$5,900 for European immigration agents, and \$55,000 for accompanying expenses, about which no information can be obtained until Sir Charles Tupper's report is ready.

The committee rise about 3 a. m. and the discussion went cheerily on. The House emptied, leaving a band on each side to hold the fort. The Liberals who stayed were Messrs. Mulock, Ellis, Casey, Dr. Wilson, McMillan, Jones, Patterson, Davies, Weldon and Campbell, while Messrs. Bowell, Carling, Langevin and Thompson led the Government. There were three especially objectionable items: one for the Winnipeg office, which is presided over by J. H. Metcalfe, M.P.P., who drew a salary at a rate of \$150 per month for a month and a half when he was in the Winnipeg office; the other was \$5,900 for European immigration agents, and \$55,000 for accompanying expenses, about which no information can be obtained until Sir Charles Tupper's report is ready.

persons even twenty years absent on the wings expressed by parents that their children would some day return. He renewed his suggestion of 1881, and the enumerators' returns should contain a column of all those who were absent but counted as temporarily absent.

Mr. Carling said he thought the suggestion a good one and would consider it.

On the item of \$5,000 for the extension of the dairying in Canada, the Minister stated to Mr. Innes that this sum was for Prof. Robertson's salary and expenses as dairy commissioner and for the salary and expenses of an assistant commissioner. Mr. Innes said that the question of continuing the grant of last year to the Dominion Dairymen's Association was under consideration.

Mr. McMillan, of Huron, believed that if Prof. Robertson could go round and visit the creameries where farmers and dairymen could be assembled to receive instruction from the Professor, this would be preferable to establishing a dairy at the Central Farm.

On immigration items, Mr. Mulock read from an official pamphlet published in England, a copy of which he held in his hand, that men were required in Canada in the household goods. This was under the head of Ontario. He pointed out that a number of our mechanics, such as this pamphlet for employment of skilled labor to find employment. It was, he contended, due to our own citizens to protest against such an appeal as this, asking others to come and divide the limited demand for employment of immigrants with their own people. The Government ought to correct the statement he had read.

Sir John Macdonald admitted that these inducements did not apply to Ontario, but claimed that they did to the Dominion generally, and particularly to Manitoba and the Northwest.

Mr. McMullen said some Ontario factories were now working half time. What Canada wanted were tenant farmers. Mr. Mulock regretted that the Premier applied these inducements to any part of the Dominion to the prejudice of skilled labor.

Mr. McMillan asserted there was a superabundance of even farm labor in Western Ontario, and what was wanted was immigration of persons with some capital.

Mr. Carling said no aid had been granted to the various channels of child immigration.

In reply to Mr. Mulock, Mr. Carling stated that the prospects of immigration this year could not be stated in terms, because of the keen competition in Europe for the Argentine Republic and Australia. Last year, up to Dec. 31, 1889, the immigration into Canada amounted to a total of 170,000, of which 90,000 were estimated to have come from this country; 35,000, he asserted, came into Canada from the United States.

Royal assent was given this afternoon to a large number of bills. Seventeen bills that were sent down to the House for the Governor's signature were not returned for assent. These included the Orange Incorporated Bill and the Toronto Board of Trade Bill. Among those assented to were the following:

An act respecting the Goderich and Canadian Pacific Junction Railway Company, and to change the name of the company to "The Goderich and Windermere Railway Company."

An act to incorporate the Timiskaming, Lake Umbagog and Windermere Railway Company.

Third Reading of the London South Amalgamation Bill. Deferred-Debate on the School Question Continued.

Toronto, Wednesday, March 26. The separate school debate again occupied the House all day, the speakers being Messrs. Clancy, H. E. Clarke and French on the Conservative side, and Messrs. Balfour and Avey on the Liberal side.

The following bills among others were read a third time and passed: To amend the Ontario Insurance Act—Hon. Mr. Gibson; to enable the city of Brantford to issue debentures for drainage, water, school and park purposes—Hon. Mr. Hardy; to provide means of extinguishing forest fires—Hon. Mr. Drury; to amend the act respecting the Amherstburg, Lake Shore and St. Catharines Railway—Mr. Balfour.

The third reading of the act respecting the city of London was postponed until Thursday at the request of the Attorney-General, Mr. Meredith, who introduced a bill, giving way to allow of the introduction of an amendment by the Government.

[From the Good Templar of Canada.] "The Government deserve great praise for their pluck in bringing forward the foregoing amendments, and we feel confident that every temperance man will give them due credit for their efforts in checking as far as in their power the baneful effects of the liquor traffic."

London, Thursday, March 27.

It is evident that whether a European war comes soon or late, some of the Powers are determined to keep their hand in the business by carving up the natives of Africa who oppose their desires.

It is understood that the Ontario Legislature will endeavor to finish its business by Thursday afternoon next at the latest. An adjournment then will enable the M.P.'s to get home for the Easter holidays.

MARRIAGE is undoubtedly a failure in many cases in Boston. Last year, according to municipal statistics just published, 129 licenses to marry in the city were taken out and yet were never used. "There's many a slip," it seems.

The United States Congress has decreed that Columbus was a trifle too previous in discovering this continent. It has resolved that the 400th anniversary of the event shall not be celebrated till 401 years after the date when the mariner first set foot on American soil. The Congressional laxity will be Chicago's opportunity. There will be no excuse for the windy city if she does not get up a first-class exposition by 1893.

PRESIDENT HARRISON has decreed that hereafter all applications for the privilege of taking groups of Indians from the reservations in the West for purposes of exhibitions in this country and Europe will be refused. From this announcement, one is led to suspect that the United States Government is afraid that the red men are becoming too scarce to trust around loose in Europe, but on reference to the statistics of the States it is found that there are a few hundred thousand in the country yet. It will be a long time before the aboriginal inhabitant is as scarce as the buffalo, though a mixture of one grade of "civilization" and bad whisky has demoralized him pretty thoroughly in some localities.

MR. MEREDITH concluded his latest speech in the Legislature in a tone of despair. He said he had occupied the post of leader of the Opposition with great disadvantage to himself; that he had no personal ambition to replace Mr. Mowat, and that any laudable desire which he had for advancement elsewhere would be deferred by his position in the Legislature. With such a following and such a cause as Mr. Meredith represents—with the knowledge that even if, by accident, he reached the Government benches, he would have to shape his course to please the Ottawa centralizers—is it any wonder that the Tory leader at Toronto speaks with a bitterness that betokens weariness and despair?

The poor hard worked Dominion Senators! They no sooner assemble at Ottawa and investigate the details of a divorce suit or two than they get terribly tired, and long for an opportunity to pack their boxes of Government stationery, and collection of scissors and knives, and tie them to their homes. Just now one would think they could find something to do in molding legislation, if ever they could, but our Ottawa correspondent informs us that when the House adjourns tonight, Senator Parley, who comes from the wild West, will move that it do not again meet until 8:30 p.m. on Tuesday, April 16. Then the Senators will meet and listen to their clerk reading the bills rushed through at the end of the session by the House of Commons. Is not the alleged Upper Chamber a huge, expensive and unnecessary farce?

Those people who thought that Premier Mercier was joking when he proposed to grant 100 acres of land as a bonus to the heads of all families of twelve living children, resident within the Province of Quebec, must now be convinced that it is no joking matter, and that the French-Canadians are indeed the prolific patriots that they have been represented to be. Already nearly 200 applications from fathers or mothers of a round dozen or more have been filed with the Government, and there seems to be many more to follow, as such dispatches as these from Quebec city go to show:

Mr. Tremblar, a notary of the parish of Eboulements, county of Charlevoix, is here to press the claims of seven families to the grant of 100 acres of land. Three families of the seven are composed of sixteen children. The applicants propose to settle sons on the lands granted. The population of Eboulements is only 2,000.

A few thousand parents with the enterprise of these sons of the soil scattered over the Northwest Territories would settle the prairies in a decade or two, and save a big bill for immigration agents. What say the C. P. R. Company?

A good deal of talk has taken place in consequence of Mr. Meredith's attack on Detective Murray in the Ontario Legislature. The Woodstock Standard says that the criticisms of the member for London were quite unfeeling. Mr. Murray, it says, "is unlike the village constable who

thinks he knows it all and can do it all. This Provincial officer believes in the press as a valuable auxiliary in detecting crime, and all through his connection with the Princeton tragedy he has freely given to the reporters information the publication of which was in the interests of justice. The fact that some statements have been attributed to him by American interviewers which he never uttered should not be used against him. The newspaper men of Canada who have come in contact with Mr. Murray can bear testimony to his uniform courtesy and fairness. He treats all alike in the matter of giving information, and only gives that which will add him in unearthing crime."

This puts the matter in a new light. No one can have any objection to a detective taking the newspapers into his confidence sufficiently far to enable them to become most useful allies in getting at the bottom of a crime. Indeed the detective is very foolish who fails to co-operate with the reporters. The one thing that he has to guard against is to avoid falling into the error of taking it for granted that an untried man is guilty because the case against him appears to be strong, and so declaring to an impressionable public, by a portion of whom, in the capacity of jurymen, the case must eventually be tried.

ARMED, BUT OPPRESSED. One does not need to agree with the Pope's theological ideas to endorse his views regarding the influence which the huge armaments of Europe have on the labor problem, which is now occupying the best minds of the old world. The Pope pleads for a big reduction of the vast armaments of the European Powers, as calculated to greatly ameliorate the condition of the working people. The head of the Roman Catholic Church entertains sound views on this point. It is indeed most difficult for the workmen of Europe to support the millions of non-producers who constantly rest on their arms awaiting the orders of other non-producers—the professional politicians—to fly at each other's throats.

The objection to the proposition to greatly reduce the standing armies of Europe comes from those who suggest that no one of the great Powers dares to take the initiative in such a step. That should not be an insurmountable barrier to action. The nations have before now met through the agency of delegates, for the purpose of settling matters in which all were more or less interested. They have given orders for the partition of more than one nation because they believed it was in the interest of the continent, as a whole, that the changes should be made. At the present moment, an international congress on labor, called under royal auspices, is sitting at Berlin, and though its decisions are not to be regarded as binding, there is some prospect that they will not be without good effect in improving the condition of the masses. Why should it be so very difficult, therefore, to establish a tribunal looking to a reduction in the armed forces of every debt-oppressed nation in Europe?

RASCAL RECIPROCITY. The new extradition treaty between Great Britain and the United States has been formally ratified by the contracting parties, and is now law. Several years have been occupied in reaching a conclusion as to what agreement shall or shall not come under the treaty, and the final result is that several offenses not included in the old treaty are embraced in this instrument. For Canadians the principal provision of importance is that governing crimes which may be classed under the general head of "theft." For some unaccountable reason in the old treaty the man who stole by means of a forged document or a fraudulent entry could be extradited from either country, but the criminal charged with stealing by simple embezzlement of moneys entrusted to his care could not be returned to the country in which the crime was committed. If perchance he was caught with the stolen property in his possession, he could be sent to jail there and then under the law punishing those who convey stolen goods into the territory in which he was found; but on no other condition was punishment possible. Under the new treaty, the United States will not form a refuge for the Canadian embezzler, and Canada will no longer supply cities of refuge for the United States defrauders. There will be a reciprocity in rascals, and there is reason to believe that the change will do a little towards the suppression of crime. The knowledge that an unscrupulous person hitherto possessed that he needed but to seize his employer's pile and get safely over the border, to be reasonably sure of immunity from punishment, has no doubt been a great incentive to crime of this embezzlement order. The new law will reach all such characters, and will prove a wholesome deterrent.

LONG DELAYED, COME AT LAST. To-night, unless the Dominion Finance Minister once more fanks and fails to bring down his long-postponed budget propositions, the Dominion Parliament will be informed just how much additional taxes the Tory managers have deemed it advisable to lay on that long-suffering animal, the consumer. For weeks past the members of the Government and the newspapers which support them have been stating and re-stating the intention of the Minister to make radical changes in the tax list, and the announcement, it is scarcely necessary to add, has had the reverse of a beneficial effect on the business interests of the country. We are among those who hold that it is not advisable for the Government of a country to make suggestive advance statements regarding their intentions of meeting with the tariff, and that when the ministers deem it necessary to execute themselves for inaction in the public interest, they should not lose a moment in bringing down their taxation propositions.

Why the unparalleled delay in this instance? We have been told that there is really no disposition on the part of the Tory leaders to "look to Washington" for hints as to how they should

arrange their fiscal policy, but there cannot be a doubt that one of the chief reasons for the delay in bringing down the Canadian budget is to be found in the anxiety of Sir John Macdonald and his associates to obtain a glimpse at the hand of the United States Government before showing their own. It is well known that there is a disposition on the part of the Ottawa Tory leaders to still further retard commercial intercourse between Canada and the United States, by the placing of higher taxes on articles imported from that country; but, on the other hand, Sir John Macdonald fears the policy of retaliation, and he hesitates to be the first to take steps to hamper the intercourse between the two countries. He has been hoping that the Ways and Means Committee of the United States Congress would bring down its tariff propositions at an earlier date than it feels disposed to do, and he has kept back the speech of his financial factotum in the hope that the tariff propositions made by the Congressional Committee would give the Canadian Tory party some excuse for the increased taxes which they seem determined to levy on the unfortunate consumer. These United States propositions have not, at the time of writing, been submitted to Congress, and it may happen that Mr. Foster will have to arrange his budget without reference to them, as he should have done in any case. A man who is possessed of enough intelligence to be a member of Parliament, let alone being a Minister of the Crown, should know that no matter what the United States Congress may decree in its tariff law, the mass of the Canadian people will be injured by any attempt on the part of the Dominion Government to curtail the extent of the trade relations between the United States and Canada. It may be argued, and no doubt will be argued, that the intention is simply to curtail our imports from the border. Is it possible to decrease our imports without curtailing our exports? We do not see how so, at least, unless we are forced to the conclusion that the proposed legislation is not conceived for the benefit of the great body of the Canadian people.

NEW PUBLICATIONS. There seems to be no end to the wonders of instantaneous photography. The Illustrated American (New York) gives this week a large plate showing a projectile leaving the gun. This was photographed for this enterprising journal by its naval correspondent with the United States squadron of evolution in Europe, and is a curious incident which will occasion much scientific remark.

Murat Halstead has begun in the April number of the Cosmopolitan (New York) the conduct of a new department called "Review of Current Events," in which he discusses the leading topics of the day with his own pen. The first number contains the first article by Miss Bland upon her "Flying Trip Around the World;" "The Fighting Forces of Germany," by Poutney Rigelow; "Princeton College," by Professor Marquand; and several other important articles, all elaborately illustrated. The novelette of the number will be "George Washington's Last Duel," by Thomas Nelson. The Cosmopolitan Magazine has taken a front rank in the magazines of the world and is building up an enormous circulation.

BISMARCK has been dubbed the man of "blood and iron." The phrase is found again and again in his speeches in 1872. He then said: "The great questions of the day are not settled by speeches and decisions of majorities—that was the mistake of 1848 and 1849—but by blood and iron. The Prussian time will be the time of blood and iron." The novelists of the number will be "George Washington's Last Duel," by Thomas Nelson. The Cosmopolitan Magazine has taken a front rank in the magazines of the world and is building up an enormous circulation.

Rheumatism, BEING due to the presence of uric acid in the blood, is most effectively cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and no other, and take it till the poisonous acid is thoroughly expelled from this system. We challenge attention to this testimony: "About two years ago, after suffering for nearly two years from rheumatism, got, being able to walk only with great discomfort, and having various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of his distressing complaint after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 110 West 125th st., New York.

"One year ago I was taken ill with rheumatism, rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no energy left. I commenced using Ayer's Sarsaparilla and began to improve at once, and in a few days was able to resume my usual health. I cannot say too much in praise of this well-known medicine."—Mrs. L. A. Stark, Nashua, N. H.

Is better than any soap; handier, finer, more effective, more for the money, and in the form of a powder for your convenience. Takes, as it were, the dirt in one hand, the dirt in the other, and lays them apart—comparatively speaking, washing with little work. As it saves the worst of the work, so it saves the worst of the wear. It isn't the use of clothes that makes them old before their time; it is rubbing and straining, getting the dirt out by main strength. For scrubbing, house-cleaning, washing dishes, windows and glassware, Pearlina has no equal. Over One Million Families Use it. Beware. Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearlina, or the "same as Pearlina." IT'S FALSE—they are no, and besides are dangerous. PEARLINA is never peddled, but sold by all good grocers. Manufactured only by JAMES PYLE, New York.

London has no reason to kick at the management of its games at home for the coming international season.

Introduction. Saginaw-Bay City men will be here, and Buffalo will stand in two defeats from the Tecumseh on Decoration Day.

THE INTERNATIONAL TEAMS. London, Hamilton and Detroit are now ready to play ball, and have their teams under contract.

London men will report to Manager Fessenden at New Haven, April 10. They will play in Hartford, Jersey City, Baltimore, Albany and Troy on the way to open at Buffalo on the 1st of May.

Under contract are: Pitchers, Jones, DeMaris and Maguire; catchers, Sweeney and Murphy; first base, Luttenberg; second base, Wright; shortstop, Parker; left field, Friel; center field, Leighton; right field, Hiland. It is quite likely that Pete Wood, who is staying in London, will also join the team.

Hamilton's team, managed by Right-felder Abner Powell, who had charge of the club in the latter part of last season, will report at Richmond, Virginia, next Tuesday. The players are: Pitchers, Betty, Latoche, Sprague, Holson; catchers, Spies, Fulmer, Twoby, Roche; first base, Carter; second base, Sales; shortstop, Folklor; third base, Dowie; left field, Miller; center field, Casey; right field, Powell. "We have left the arrangements entirely to Manager Powell," says President Dixon. "He has dates in Richmond, Baltimore, Washington, Wilmington, Harrisburg, Brooklyn, Jersey City, New Haven, Hartford and other places, and we expect to have a strong team in good condition before the regular season opens."

Detroit has retained its champion team of last year, and will put these players on the field: Pitchers, Knauer, Smith, Zent, McCarthy; catchers, Banning, Goodfellow, Wells; first base, Virtue; second base, Higgins; third base, Donnelly; shortstop, Wiselock; left field, Company; center field, Howard; right field, Rodas.

The make-up of the other teams is not yet decided, but they will no doubt be up to the standard of the league.

THE COURTS

A Breach of Promise Case at Brockville. Seven Years for Bigamy—"Rolly" Moffatt, the Ontario Bank Crook.

BROCKVILLE, March 27.—At the Assizes the case of Brownbridge vs. Lawrence, an action for breach of promise of marriage was tried yesterday. The plaintiff alleged that she met the defendant, a farmer's son, at the home of a mutual friend, where the engagement was made, and that after she returned home he visited at his sister's house, where she lived; that he suddenly ceased to call on her, and in the course of a few days she received the following letter from the defendant:

MISS MARY BROWNBRIDGE: I have thought it better to quit keeping company with you, as every time I went to see you you were always thinking of me as if I were going to be married, and I think you were too good for me to be married to me. I am sorry to hear that you are going to be married to another man. I am glad to hear that you are going to be married to a good man. I am glad to hear that you are going to be married to a good man. I am glad to hear that you are going to be married to a good man.

After this letter the defendant called no more on the plaintiff, but commenced to pay attention to another lady, whom he shortly after married. The defendant admitted making an offer of marriage, but denied that there was any acceptance on the plaintiff's part. While in the box he treated the whole affair in a peculiar manner, and apparently looked upon it as a good joke. The jury awarded \$250 damages.

WALKERTON, March 27.—At the Assizes the non-jury case of Watson vs. Watson was taken up. The plaintiff is the widow of John Watson, of Bentinck, and under the provisions of her husband's will was to receive \$500, the residue of the executor out of the proceeds of the sale of a farm of 100 acres belonging to the deceased. The executor sold 50 acres for the purpose of paying debts, but when an account was taken some years later it was found that the estate was indebted to him, and in order to raise money it was arranged between the executor, Mr. Watson, and her son, Wm. Watson, that the mother should release the property, the son agreeing to allow her an annuity of \$25, giving a bond to do so. The bond was drawn by a solicitor, but did not contain a charge upon the land for the amount. The son, William Watson, afterwards gave a guarantee to Marshall & Co., of London, for \$500. Judgment was rendered against him on the guarantee, and Marshall & Co. were about to sell the land under their judgment when this action was brought to have it declared void. Mrs. Watson was entitled to a lien on the land for \$25, and the court ordered the bond rectified according to the law. Judgment was reserved.

Julius Koch and Philip Herman were convicted of having committed a violent assault upon an Italian woman from the Saugenz Reserve, and sentenced to two months' imprisonment in the county jail. The business of the sitting being concluded the court adjourned.

SEVEN YEARS FOR BIGAMY. MONTREAL, March 27.—John E. Vaughan, the Philadelphia bigamist, was sentenced to seven years' imprisonment in the County of Queen's Bench yesterday morning by Justice Bay, who said that the maximum penalty was imposed because of the scandalous intrigues between him and associates to blast Miss Davies' character by means of forged letters.

"ROLLY" MOFFATT SENTENCED. TORONTO, March 27.—Mr. Justice Macmahon yesterday sentenced the prisoners tried at the Criminal Assizes. "Rolly" Moffatt, convicted of the larceny of money from the Ontario Bank, where he was employed as an accountant, was sentenced to the penitentiary for three years. The other prisoners, Frank Piloe and Henry Gloster, convicted of perjury, were sent to the Central Prison for nine months.

CAUGHT IN BUFFALO. VICKSBURG, Miss., March 27.—The levee in front of Skippith, Miss., 70 miles above Vicksburg, broke, and the crevasse is said to be 400 feet wide and cutting rapidly. The water in the town is up to the eaves of houses and the people are reported as panicking for their lives. The water from the crevasse will flood an immense tract of country south and east of it, including a great number of fine plantations. None but the highest land on Deer Creek and the river front can escape a deluge of a line drawn from Skippith to Rolling Fork.

THE COURTS

THE ROMANTIC STORY OF GENERAL CROOK'S COURTSHIP OF A FAIR REBEL.

PITTSBURGH, March 26.—The story of the courtship of Gen. Crook is romantic. Early in the war Crook, then a captain, was stopping at the Queen City Hotel, Cumberland. He was there assisting Gen. Kelly in organizing regiments and defending the State of West Virginia from invasion. Gen. Kelly was at the same hotel. The proprietor of the house was John Daily, who was also proprietor of Glade's Hotel at Oakland, Md., a famous resort. Mr. Daily had two daughters, the eldest of whom, Miss Mary, was a charming and pretty girl. She had Southern sympathies, and her mother was a member of a notable old Virginia family, who lived at Moorfield.

General Crook's stay at the hotel he was much attracted by the young lady, but she was a spirited girl, and refused to be gracious to the Yankee, although at heart she liked him.

The eldest of Gen. Crook's children was a son James, who was devoted to the cause of the Confederacy. He took offense at the persistent and open attentions of Crook to his sister, and finally organized a band of about 50 young and daring spirits like himself, and saw that they were well mounted and armed. When everything was ready about a dozen of Daily's band crept into the hotel one midnight, seized Gen. Kelly and Capt. Crook, gagged them, and in a few moments they were all on their way to Richmond. The Federal lines were passed without detection, and the prisoners were safely landed in the Confederate capital. Afterwards they were exchanged.

General Crook went into active service and was badly wounded. He was sent to Oakland with other wounded officers, and singularly enough was quartered at Glade's Hotel. Miss Mary then showed her true feelings, and nursed her father-in-law through what at one time was thought to be a fatal illness. When he recovered he proposed, but was refused, her political opinions still being in the defendant's mind. Twice after that the conqueror of Cocher and Genorino attacked the fair fortress, and at last it surrendered. The General has been happy in his married life.

**DR. HOKNAGEL'S STRANGE STORY.**  
LONDON, THURSDAY, MARCH 27.

BY JULIAN HAWTHORNE.  
The Doctor, with his immense shaggy head, glowing eyes, and small, thin body, was an extraordinary object at the time of his arrival. He sat in a rich and gloomy study, with a hanging lamp throwing its light down on his shock of grizzled hair, and casting cavernous shadows from his bushy brows, beneath which those eyes of his gave forth a real sparkle; and his big irregular nose dividing his visage like a spur of a mountain between two valleys; and the lips of his great mouth working and puckering as he sucked at his black pipe—was there in his high-backed wooden chair, besides a table in front of him with a few books, a pair of strange ornaments from Ceylon and India, and with a small but finely-formed skull cap on a stand, and a small clock in the corner of the room, and a small clock in the corner of the room, and a small clock in the corner of the room.

A man's wife should always be the same especially to her husband, but if she is weak and nervous and uses Carter's Iron Pills, she cannot be, for they will make her feel like a different person, as they all say, and their husbands say so too.  
Given to drink—water.  
Mending comes under the head of Sewing, but this is a different matter.  
Carter's Little Liver Pills must not be confounded with common Cathartic or Purgative Pills, as they are entirely unlike them in every respect. One trial will prove their superiority.

A Dinner Pill—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the system. Dr. Parmentier's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the bowels, and cover the stomach with a healthy mucus. They are just the medicine to take if troubled with indigestion or Dyspepsia.

The dog may have his day, but the cat certainly takes the cake so far as the night is concerned.  
Among the pains and aches cured with Dr. Thomas' Electric Oil, is ear-ache. The young and especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which it is especially adapted.

Everything he took hold of went well. His wife and a million to her dowry, so there was no need for him to work; but he did work, and it was thought greatly to his credit that he did so. He went into all sorts of schemes; they all turned to gold as soon as he touched them. He kept a fine house in town, another at the seaside, another in California. He and his wife were always on top in society, always stirring, always entertaining; and yet Daventry never lost his grip on any of his schemes. People said there never was such a man; wonderful head! astounding genius! They fashionable—but people sometimes asked where all those millions were going. Never mind; they kept piling up—railroads, telegraphs, coal, iron, silver—all contributing to make Daventry rich. No skeletons in a closet; no room for one—two full of gold! Lucky man! happy man, Daventry!—devious happy!  
Here the doctor paused and wreathed his great lips into so sardonic a grin, at the same time gathering his shaggy brows together in a frown so portentous, that I really felt amazed.  
"The happiest men sometimes make mistakes. Daventry made one—he overworked himself. One day he came to consult me. I examined him; told him to let his hair grow; he wouldn't do it. I asked him if he wanted softening of the brain? That startled him; threw him off his guard. He began to talk about himself; said he was the most miserable wretch on earth. He hated his wife; he hated him. Fought together like a couple of scorpions. No children, no peace, no rest. Wanted to kill her and himself; but was afraid to die. I asked him why? He gave me a look—a gasky look—and went out.  
"The seventh anniversary of their wedding came round. To show how happy they were they arranged to give a great reception and ball. Such preparations never were known. Invitations went out two months in advance. Preparations going on in the house for three weeks. It was in winter, but the halls, staircase and rooms were filled up with rare and choice furniture, and all the things nicest to eat and drink, and the hardest to get. Favors for the dance cost enough to buy a city lot—gold, silver and diamonds. Eight hundred people came; the best in New York, and only the best. Until 12 o'clock Daventry and his wife stood under a great marriage bell of their own; there they stood, smiling, bowing and shaking hands, the type of blessed and prosperous wedlock. Ah! a fine sight!  
(To be Continued.)

**MICHIGAN MATTERS.**  
The alcohol house at the Elk Rapids chemical works burned Friday. Loss over \$20,000.  
Allen Leonard, of Casnovia, died Friday from diphtheria, his baby 2 weeks old, died two days before and his widow is insane from the trouble.  
The big hydraulic boring machine that is cutting the St. Clair tunnel is now working under the water, and driving toward Canada at the rate of 128 inches a day.  
Nearly all the lumber camps back of Alpena have broken up for the season, and the city is swarming with woodsmen. The out of logs has been ample for all the mills in the place.  
An extraordinary Scandinavian tonnage to the upper peninsula will occur this spring, according to the tonnage gleaned from Scandinavian who are already located in the State.  
The big sawmill of Best Bros. & Co., Bay City, was destroyed by fire Tuesday morning at a loss of \$25,000, fully insured. The mill will not be rebuilt unless the insurance companies insist upon rebuilding it.  
The Internal Revenue Bill reported to Congress by the committee on Ways and Means would reduce collections in Detroit district about \$700,000. The total collections last year were about \$1,850,000.  
The coroner's jury at Hancock in the Trudeau poisoning case found Brewartha came to his death from pains given administered by Napoleon Trudeau. Trudeau was acquitted and was committed to jail without bail.  
Triplets, a boy and two girls, were born Friday to Mrs. Miller, corner of Crawford and Brigham streets, Detroit. The boy, but the two girls live. Mother and girls are doing well. The little ones weighed about five pounds each.  
Tom Connors, car inspector, who was found dead in his room at Orvosa on Thursday with his head nearly blown off by a shotgun, reported to have committed suicide, it is now thought met his death accidentally, as there was no cause for self-destruction.  
Aug. 22 Little Clarke, the 27-year-old son of J. M. Ford, of Saginaw, fell into an abandoned well slightly covered with dirt and was drowned. Ford has now commenced suit against the owner of the property on which the well is located, claiming \$10,000 damages.  
The general opinion of fruit growers around Allegan is that the season for a dead failure again this year. Because of the forward condition of the buds the sudden drop to 10° and 12° below zero killed them all. The condition of the wheat crop has been much improved lately.  
Frank Brigham, who recently left Holly and purchased the livery business of L. D. Goss, at Morrice, shot himself twice in the left breast and once in the right temple Thursday morning. He leaves a widow and a son. Brigham was about 60 years old, and despondency caused his suicide.  
There is a famine of school teachers in Oscoda county. The examiner says he got married as soon as he has then started, or else go back to logging. He talks of importing some unmarriageable school teachers, but in a country where there is so scarce, even old maids are at a premium.  
The Stonecutters, Masons and Bricklayers' Union of Marquette, has, by unanimous resolution, made nine hours a day's work, and notice to be given to all contractors to that effect. Last year they worked ten hours a day, with eight on Saturday, making 58 hours a week, against 54 this year. This reduction in working hours is not a demand for more pay, but they believe more men can be employed.  
L. L. Homedick, cashier for the Michigan Central at Owego, was found \$800 short in his cash and was ordered by President Ledyard at Detroit, but went south instead. All trace of him is lost. He had been living in the upper circles of society and was reputed to be wealthy. The case makes a great sensation. His brother holds a \$20,000 position as superintendent of the Michigan Central.  
A young man named Lewis Niles, of Allen, Hillsdale county, while coupling cars at the Lake Shore depot in Coldwater on Thursday, was struck on the head by a projecting bar, and carefully severed one ear and cut his head badly. He was at the same time caught between the bumpers and crushed below the elbow. Dr. Woodward in the car and set the broken bones, and hopes to save both for him.  
A brand new bank has been organized in Detroit and will open its doors at the foot of Woodward avenue under the name of "The Detroit River Savings Bank" is capitalized for \$100,000. President, A. A. Parker; vice-president, Frank W. Eddy; secretary, Cameron Currier; cashier, George S. Robinson; directors, Charles H. W. Dyer, Wm. Daily and the president, vice-president and secretary.  
A telephonist at the Detroit River was struck on Monday from Sanilac County says that a man named Dames was shot and killed at Melvin on Saturday by one Van Slack. It appears that the latter, who had been drinking, entered a saloon where Dames and a few companions were and shot him dead. Another man was also wounded. Van Slack was placed under arrest, and taken to Peck for his examination. It is believed that between the parties for some time Van Slack has heretofore borne a good reputation.  
A man about 20 years old, a tramp, name unknown, was found in a wooded area woods half a mile east of Battle Creek on Saturday. He had a large scar on the side of the head, and an iron kettle was found on his head. A man in a drunken stupor with his face and head badly cut and bruised was found lying across the dead body, but claims to know nothing of the affair. The man found with the corpse gives his name as James Quinn, and his home at Grand Rapids, Mich.  
A "fanny" young sport in Grand Rapids went into the County Clerk's office and lied out a marriage license for himself and a pretty variety actress. Then he went home late, and laughed after he went to bed to think how fully he had sold the reporters. It was funny until his sister read the notice at the breakfast table in the morning. Then, according to the Leader, his father rushed upstairs, matched his offspring out of bed by the nose of the neck and threatened a paternal blessing in the shape of horsewhipping upon the "debauched alliance," while the actress' friends are talking "rawhide."

MONTREAL, SEPT. 9, 1887.  
To the Canada Sugar Refining Co., Montreal.  
GENTLEMEN.—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscopes, and I find these samples to be as pure as absolute purity can be obtained by any process of Sugar Refining. The test by the Polariscopes showed in yesterday's yield 98.20 per cent. of Pure Cane Sugar, which may be considered commercially as absolutely PURE SUGAR.
