Lord Francis Hope's Prodigality Lands Him in Bankruptcy.

Resignation of the Home Rule Mem. ber for Leicester.

Reports of a Chinese Victory Over the Japs.

The Pope Was in a Serious Condition on Sunday-Herr Dow's Cuirass Pierced by a Bullet,

Pierced His Bullet-Proof Jacket. BERLIN, Aug. 21 .- It is reported Herr Dow, inventor of the builet-proof coat, was wounded during a performance at Aachen last evening, a bullet having pierced his

Resignation of a Home Ruler. London, Aug. 21.-James Allanson Picton, M. P. for Leicester, has resigned

his seat in the House of Commons on account of ill-health. He has sat for Leicester since 1884, and has been a valued member of the Liberal party, and an earnest supporter of home rule for Ireland. Sir Richard Dilkes' Tour.

London, Aug. 21 .- The Central News announces: Sir Richard Dilks is said to have planned a tour of France's eastern frontier fortresses. He will make the tour during the Parliamentary recess. He is not expected to publish anything concerning the results of his inspection.

Squandered Millions. LONDON, Aug. 21.-Lord Francis Hope's career has led him finally into the bankruptcy court, the plebeian process of whitewashing. He is now 28 years of age. It is seven years since he attained his majority, and in that brief period he has contrived to run up debts to the amount of £650,000. Debts which exceed half a million may be her holidays. regarded as a pretty good performance, and when we consider that Lord Francis Hope, in addition, contrived to get through a very considerable income annually, we shall probably not be overestimating it if we credit him of having got through a million of money since he came to man's estate (for it would be a contradiction in terms to attribute to him years of discretion in the

face of this record). The cause of this expenditure is officially attributed to "extravagance in living, betting and gambling, losses incurred in connection with and on behalf of other persons, and a theatrical speculation." It is probable that everybody knows what the meaning of the latter words is. The debtor offered 7 shilling 6 pence in the pound, but the creditors would not hear of accepting it, and so Lord Francis Hope Pelham-Clinton Hope, the brother and heir of the Duke of Newcastle, who may one day be a duke and a hereditary legislator, has to go through the court just like any petty tradesman who has "gone bust."

The Seat of War.

London, Aug. 21. - Dispatches received from China this evening say that communication with Corea has been stopped completely and that correspondents who started recently for the peninsula have returned, as they found it would be useless

to proceed to the seat of war. The Shanghai correspondent of the Times telegraphs: Gen. Tio, commander of the Feng Tien division, telegraphs that on Friday the Chinese attacked the Japanese at Ping Yang and drove them with heavy loss to Chungho, a distance of eleven miles. The Chinese reattacked on Saturday and drove them out of Chungho. The Japanese

losses were again heavy.
Chungo is now in the hands of the Chinese. It is expected that another great battle will be fought today.

The Chinese fleet is in full possession of the gulf of Pe Che Li. The Japanese are re-embarking a large number troops at

Fusan. In Parliament.

LONDON, Aug. 21.-In the House of Commons James Henry Dalziel (Radical) moved that the House of Lords appropriation be reduced. He complained that the Government had not stated their attitude towards the proposal to withdraw the power of veto from the Upper House.

He was called to order by the Speaker, who admonished him that he must adhere to the subject of the appropriation. After several Radicals had spoken in sup-

port of the motion John Morley, Chief Secretary for Ireland, undertook-in Sir Wm. Harcourt's absence to reply for the Government. The Ministers, Mr. Morley said, wereso

fully sensible of the gravity and magnitude of the movement against the Lords, that they refused to raise the issue on a trumpery question of salaries. During the recess they would consider the problem carefully.

Thomas Sexton said that the Government had not risen to the emergency and did not seem to treat earnestly the demands of the people for a change in the House of

Mr. Dalziel's motion was rejected by s vote of 76 to 45.

IN THE POLITICAL FIELD.

Reeve W. S. Calvert Nominated by

West Middlesex Liberals GLENCOE, Oat., Aug. 21 .- The Liberal party of West Middlesex as constituted for Deminion purposes met in convention at Glencoe for the purpose of organization and the nomination of a candidate. Mr. A. P. McDougald, the president, was in the chair. The candidates nominated were: W. S. Calvert, Alex. Stuart, A. P. Mo-Dougald, George C. Elliott. They all retired in favor of Mr. W. S. Calvert, warden of the county of Middlesex, who was made

the unanimous choice of the convention.

Grand Lodge, K. of P. WINDSOR, Aug. 21.—The Grand Lodge of Knights of Pythias of Ontario met this morning in this city. The grand officers were in their places and 60 lodges were represented. Col. Beattie, mayor of Windsor, on behalf of the city, gave the Grand Lodge a hearty welcome, which was acknowledged by Grand Chancellor Rispin. The morning session was occupied in con-ferring the Grand Lodge rank of past chancellor on nineteen delegates, following which the grand officers' reports were pre-

sented and referred to the various standing ommittees. Notwithstanding the dull times the membership in Ontario has increased, and the Grand Lodge balance of cash on hand has increased about \$900.

TRACEDY IN LAMBTON!

An Accident to a Thresher Sets a Barn on Fire.

Two Highly Respected Farmers Caught in the Flames and Cremated.

Forest, Ont., Aug. 21.—One of the most horrible tragedies in the history of Lambton took place today on the farm of Wm. Hayward, in Plympton township, eight miles from Forest. Threshing was in progress, and shortly after starting the cylinder shaft broke and caused a friction which set fire to the straw, and in an instant the interior of the barn was a mass of

Neil McPhedran, Stephen Searle and Wm. Greer were at work and their escape was cut off by the flames which filled the man hole to the mow. McPhedran

JUMPED THROUGH THE FIRE and escaped alive, having his hair, whiskers and shirt burned off him. Neither Searle er Greer were ever seen alive again. In a short time the barn was smouldering ruin, and soon after the charred trunks of the

TWO VICTIMS were dug out of the still blazing ruins. Heads, arms and legs were completely burned off. The only means of identifica

tion were Greer's brace buckles. Both men leave a wife and family, and were highly respectable farmers. The double funeral takes place tomorrow to

Wyoming. Hayward's loss on barn and contents is over \$1,000, on which there is \$500 insurance. The sad affair has cast a gloom over the entire neighborhood.

THE CAPTURED SPEAK.

Say of the London Liberal Five More Cotton Mills at Fall River,

At Lebanon, Pa., the Rolling Mills Are Rushed With Work.

Mass., Shut Down.

Latest Charge Against the Pullman System-Rev. Mr. Wickham's Testimony Before the Commission.

FALL RIVER, Mass., Aug. 21.-The carders and spinners' executive committee held a meeting last night, and there is been made in the brief four hours of their every indication of a strike on the part of stay. At 8:30 the band mustered, but the the unions represented against reduction in | cadets who fell in and marched to the M.

count of the strike, and there is a decrease of fully 1,500 looms in the looms yet running. LEBANON, Pa., Aug. 21.-The East Lebanon rolling mills have started up double turn, with orders sufficient to keep

A OUT. A cut of 12½ per cent has been accepted by employes of the Oregon Railway and Transportation Company drawing \$100 per month or over, and 10 per cent on salaries of from \$50 to \$100 per month.

LABOR DAY AT OTTAWA. OTTAWA, Aug. 21 .- The Labor Day parade, which takes place on Sept. 3, will probably be the largest and best ever seen here. Three thousand five hundred people are to take part.

GOV. ALTGELD STIRS UP PULLMAN. CHICAGO, Aug. 21 .- Gov. Altgeld today sent a letter to George M. Pullman in which he outlined the desperate state of affairs among the strikers at Pullman, and invited Mr. Pullman to call on him and advise means of relief for the 1,600 starving families in his town. As yet the Governor has received no reply from Mr. Pullman. The Pullman relief company was informed by the Governor that immediate relief was at hand for the sufferers, but he declined to name its source.

BEFORE THE LABOR COMMISSION. States Labor Commission today Thos. W. Bruce avenue to Quellette, thence to Pitt Heathcote, chairman of the Pullman strike street. The street from Quellette to committee, was recalled. He declared that the Pullman strike employes had no other accommodation of the corps. Fully 4,000 alternative but to strike.

Rev. M. H. Wickman, the Swedish minister at Pullman, told of the reduction of frequently accorded them rounds of his parishioners' wages. He said the Swed- applause. ish laborers at Pullman were made to pay more rent at Pullman than at Roseland or other places in the neighborhood.

"Why, then," asked Chairman Wright, "do the men not live in Roseland or vicinity?" "They are commanded to live in Pullman on pain of dismissal. Even where men own homes outside Pullman, if work becomes slack these men are the first laid off," said Mr. Wickman. Witness told of the case of an employe who was injured in the Pullman shops and obliged to stay in the hospital for nine weeks. During this time the company charged him rent for his house in Pullman, refused to pay him any damages, and cut down his wages when he returned from the hospital because his injury prevented his doing as much work as formerly. Some of the men have attempted to buy houses on the installment plan, but this is discouraged, as such men are always the first to be laid up when the force is cut down. The men are unfairly

treated in various ways. One of the worst features of the Pullman system of house renting is the immorality which it encourages. Many of the workmen are compelled to rent rooms to help out their meager incomes. The houses are so arranged that the roomers must pass through the family sleeping apartments, and as a result the immorality of Pullman is much below that of surrounding towns. There is no way for the workmen to avoid this, as many of them are practically compelled to live in the company's houses.

DEBS' SCHEME. .CHICAGO, Aug. 21.—The statement made by President Debs, of the American Railway Union, before the Government railway committee yesterday that within three leaders of all railroad labor organizations that they resign their positions, and railway labor be permitted to form one grand organization under one name and leader, is with friends. thus explained: "I had reference only to the railway unions. I mean to say that within three days we-meaning the officers of the A. R. U.—would submit a proposition to the officers of all other railway labor bodies that they resign their positions, thus leaving their organizations without a head, and that these various bodies elect representatives to meet together in one convention for the purpose of deciding on a plan of union, and then elect entirely new officers and start out on a basis of common

What Windsor and Detroit Papers

Unstinted Praise of the Unique Organ-

The Windsor Record, in its report of the visit of the London Young Liberal Fleet to that city, says that "They came-they saw-they conquered. For a few hours they took possession of the city." Of the bands the Record says they delighted the citizens with their excellent music. The

same paper closes its report as follows: "Up to the time of leaving the tars had possession of the town, and many sudden but warm acquaintances seemed to have C. R. would not have made a corporal's guard. The rest of the heroes had either proceeded on the street cars or were scattered about town, absorbed in and led captive by their new friendships. As the band moved off to the familiar strains of "Should auld acquaintance be forgot?" there was a lively scamper from all quarters, but quite a number who found it impossible to tear themselves away from the pleasant associations of Windsor were left and went east on the 2. a.m. train. Officers and men alike spoke in enthusiastic terms of their reception and of Windthe other hand Windsor was no less pleased with the tars and their friends, and the city has henceforth a standing invitation week. The mill employs 8,000 operatives, and welcome for their return.

(From the Detroit Free Press.) The Young Liberal Association Fleet, of London, Ont., the only organization of the kind in Canada, arrived in Detroit by a special train on the Michigan Central at 10:54 yesterday morning. The organization is unique in nature and comprises nine companies, each 26 strong. They are attired in marine costume, the officers being distinguished by gold-embroidered coats. On their arrival the marines formed for parade with two standard bearers in the van, bearing the Stars and Stripes and the Union Jack, the latter being of blue silk, having the national emblems, and a golden

beaver surmounted the staff. Shortly before 5 o'clock the Liberal Jack Tars and their friends from London, in all 700 strong, arrived in Windsor on the ferry Victoria. They formed in three columns at the foot of Ouellette avenue. The band, captained by F. L. Evans, and the drum corps, directed by Capt. Clarke, occupied a position in the lead. The line of march proceeded from Ouellette avenue to CHICAGO, Aug. 21 .- Before the United | Windsor avenue, to Chatham street, and on Windsor avenues was cleared for the spectators thronged the streets and as they viewed the maneuvers of the tars they

Admiral Wanless rode a spirited charger and directed the maneuvers in true marine style, over 25 of which were performed. The band and drum corps played enlivening music, each playing alternately. Proceeding from the scene of drill, they marched to the British-American Hotel, where a lunch was provided.

(From the Detroit News.) The city of London, Ont., has the distinction of having the first uniformed political organization in the history of Canada, but from the success which it has attained many more will be likely to follow. When the train arrived in Detroit 250 young men in naval uniform, headed by a couple of marine bands, marched to Woodward avenue, where an exhibition drill was given. All were neatly dressed, and the different movements were gone through in a manner that would do credit to a military organization. After they broke ranks the men made their way to the different restaurants, and few of those who saw them eat doubted that they were sailor men. John D. Clark, editor of the ADVES-

TISER, was one of the party. (From the Detroit Journal.)

Windsor Young Liberals are entertaining a crowd of honored guests today, and this evening the club will show their visitors what it can do in the way of entertainment. The Young Liberals of London haveing or ganized a novelty in the shape of a marine command of nine companies, decided to give the boys an outing and show their Windsor brethren a point or two on how to keep up a political organization, and this morning the marines, accompanied by about 350 friends, embarked on a Michigan days a proposition would be made to the Central train and sailed away for Windsor and Detroit. The train arrived in Windson at 10:30, and many of the excursionists left the train to spend the day in Windsor

The marines accompanied the train to Detroit, arriving at 10:54 and forming in at once for parade. The column was a pretty sight, as the 250 cadets in eight companies marched to the tune of a brass band of 30 pieces and a drum corps of 20 members, and as every man in the line wore the regulation uniform of the British marines, the parade was a treat to the Detroiters.

The Journal sent a special photographer to take a picture of the stalwart Admiral Wanless, and had a good portrait of him in an edition issued three hours after the advent of the Fleet in Detroit.

IVES COMMITTED FOR TRIAL.

For the Attempted Blackmail of Gus May.

Apparently of Unsound Mind - Frank Rourks and His Record.

Wm. H. Ives has not apparently improved mentally since his remand from the police court a week ago. He was up again this morning and appeared in the court before opening with his hat on sideways. His face was deathly white and he had a weird look in his eyes. Ives was placed in the dock and marched up and down in front of the other prisoners talking about his army and endeavoring to get them to enlist. He also heard a voice from above giving him instructions about his soldiers. It was necessary to remove him when the court opened, but when the attempted blackmailing of Gus May was called Ives was brought up again. He acted as before, and when told to sit down informed the chief that Napoleon never sat down and he was not going to. Standing up on the seat, Ives tore a strip of canvas from his coat sleeve, and, waving it above his head, informed the onlookers that it was Napoleon's flag. It was a pitiful sight, though the actions of the man caused many to smile. Ives was again removed, as it was impossible to hear the witnesses on acwas not present.

Gus May, the plaintiff, said he had only been in the city since May 15. On Aug. 1 he received the first letter, and recognized the handwriting of Ives on one of Mc-Clary's billheads as similar to that of the note. May never saw the prisoner until a

week ago. week ago.

John Marshall, of Westminster, an employe at McClary's, made a similar statement to May's regarding the handwriting.

Detective Thomas Nickle arrested Ives on the night of Aug. 10 at the address given in the letter to May—564 Horton street. The prisoner said nothing to the officer at first, but afterwards confessed to having written the note, thinking it would be the best method of settlement. This concluded the case for the

Mr. Love, for the defense, stated that owing to the condition of the prisoner he was at present unable to offer any evidence. Ives was committed for trial and will in the meantime be examined as to his con-

"Not lately. I have years ago; just once," said the old man, with tears in his eyes. 'You used to whip her, though. "No; I have a big boy at home, 22 years old, who will not work. Last Saturday he jumped upon me and choked me." and Hammond showed how he had been treated.

"Been drinking?" asked the court. "No; I have been working," and Hammond pleaded for his liberty. "You will have to give sureties to keep the peace. Your wife says you do not support her," rejoined the police magistrate. Hammond-Well, I give her all my money, and I have worked hard to raise a

FIRST AID TO THE DROWNED.

Rhythmical Pulling of the Tongue Has Proved Marvelously Userul. A young Italian doctor has published a pamphlet, recommending the operation of firmly holding the tongue of persons taken with syncope as a sure means of restoring life. The tongue can be held fast by means of wrapping a cloth around it, and must then be drawn backward and forward with a rhythmical motion. The doctor describes a case in which he thus suo-

ceeded in restoring life. A young man while bathing was sur-prised by a wave and drowned. After a quarter of an hour he was taken out of the water and every effort make to revive him. Two doctors for more than an hour used all their resources in vain. The young man seemed to be dead. Then the doctor arrived who reports the facts, and, asking for a spoon, thrust it into the back of mouth, seized the tongue and worked it wiolently. Shortly after the patient gave a deep breath, and a little later vomited water. The operation was continued; the breaths became gradually more frequent. Meanwhile cloths dipped in almost boiling waper had been placed over the chest of the patient, and the extremities were rubbed vigorously. After half an hour thus em-ployed, the heart began to beat, the face gained a little color, and the patient brightened. But the patient still needed careful attention four hours more to com-

pletely recover from his long syncope. The doctor hopes that this simple mode of restoring life should be adopted at all places on the sea where life-saving apparatus is used. But even when no such arrangements are ready, anyone can try the tengue-pulling process and procure hot water for the application of heat.—[London

SHORT TALKS ON ADVERTISING.

(By Charles Austin Bates.) There is a theory that advertising pays.

There are facts which prove the theory All men who advertise are not successful, but, with rare exceptions, all successful men have been advertised. Advertising is the greatest of all modern

engines for facilitating business. Beside it the telegraph, the telephone, the locomotive and steamboat are dwarfed. If it were not for advertising, these would not R. station on a charge of drunkenness and be used. Business would not be of sufficient volume to justify their employment.

The man in Chicago advertises and the man in St. Paul buys-by telegraph, perhaps—and has his purchase delivered by the locomotive. But the advertising comes

first. It always does. It conveys information and an invitation

to buy at the same time. An advertisement in a paper like the Ap-VERTISER places this information before thousands of buyers, either present or prospective. Count the cost of a suitable advertisement against the possible number Chief Williams-He has been loafing of those who will need some special thing on any day. The chances will always be

found on the side of the profitability of the advertisement. Nine times in ten a good ad. will bring more than enough in direct profit to pay for itself, leaving its great cumulative value as our gain. Half the time a good ad. will pay an actual direct profit; but to do this it must be carefully tended.

Treat the newspaper fairly and it will pay every time. Rev. Dr. Potts' Grand Audience, OCEAN GROVE, N. J., Aug 21 .- Fifteen thousand people attended the opening of the great 10-days camp meeting at the new anditorium here today. Among the worshipers were representatives from nearly every State and Territory in the Union. The opening sermon was preached by Rev. John Potts, D.D., of Toronto, Canada.

This was Mr. Potts' first sermon in this section of the country and he was congratulated by thousands. Rubbing It In. The farmer with the hemp whiskers was

talking to the drummer on an accommodation train, which was banging along over an Ohio railroad.

"How did you like it?" "Not much. "What was the matter?"

"Cyclones and grasshoppers and things." "I should think if you had cyclones and grasshoppers together they would offset each other.'

"You mean, I reckon, that the cyclones would blow the grasshoppers away?"
"Yes," and the drummer smiled. "Well, they did some. You see, when I first got there I was always scared of cyclones till the hoppers came, then I wanted a cyclone; but I never had much luck no-

how, and I was pretty sure I wouldn't git it, but, by hokey, it come, and it come atearin'. "Did it blow the hoppers away?" "Yes, but it blowed the farm along with them, and landed me and the hoppers and the farm all over the next county. It shook the hoppers up a great deal, and I thought I was having fair luck, when I found out that the taxes badn't been paid in that county fer ten years, and when they come round to me fer back taxes I begun to think it was kind of rubbin' it in, so I said, says, I, 'Dern Kansas,' and I come

"May I ask," continued the stranger, "how rich you are?" "Well, if it will do you any good to know," was the reply, "I suppose I have several hundred thousand pounds." "Well," went on the stranger, "if I were as rich as you, and snored as loudly as you

SENSATIONAL SUICIDE.

Deliberate Self-Murder of a Couple in Central Park, New York.

NEW YORK, July 21 .- Julius De Marcus, aged 30, of this city, and Juliette Fournier, aged 17, of Brooklyn, committed suicide by agreement in Central Park last night. Marcus had a bullet wound through the center of his forehead. He was lying prostrate across the woman, who was shot directly in the center of the breast. Marcus had a revolver in his band. Two of the chambers were empty and three still loaded. The blood from the man's head had run down and stained the woman's face and clothing.

A letter in French, written by the dead woman to her father, read as follows: "Dear Papa,-I make bold to give you this letter once more, because it is the last

time you will hear from me. When this reaches you I shall be dead. I die happy. It is no one's fault. Forgive me the misery I have caused you, also the last blow. Your little daughter, who loves you, "JULIETTE FOURNIER."

A precisely similar letter was written by the suicide to his mother, dated Brook lyn, Aug. 20, 1894.

A letter addressed to the authorities of the city of New York, which was evidently written by Marcus and was signed by both, requested that no inquest be held on their bodies and that both be buried in one

Dr. E. A. Rose Disappoints the Doubters-He Once Had Diabetes, But Has It No More-Attending to His Big Practice.

PORTLAND, Ont., Aug. 20 .- The account which appeared in many Canadian papers a few months ago of Dr. E. A. Rose having been cured of diabetes by Dodd's Kidney Pills, attracted widespread attention at the time. Many doubters, though, protested that the cure was not a permanent one. The best proof that these doubters were wrong is the fact that for a year back, Dr. Rose has been attending to his practice, which was always a large one, in this village and the surrounding country, and has never had any return of the disease. His health is first-class, and the doctor is not compelled to take any of the precautionous as to diet or otherwise, that are always ordered for people threatened or troubled with dia-

The City

For Rental of Polling Booths Fixed by the Sheriff.

The Fair Board and Labor People at Loggerheads

Over the Use of Queen's Park on Labor Day-The Council Will Try to Effect an Agreement-An Insubordinate

Inmate of the Aged Woman's Home.

The City Council held a special meeting last night and managed to get through a great deal of general business. The members present were: Mayor Essery, Ald. Taylor, John Heaman, S. O'Mears, W. C. Coo, Wm. Heaman, Thomas Jones, Maurice Scarrow, James Fitzgerald, Joshua Garratt, F. Fitzgerald, H. Dreaney, George Shaw and City Clerk Kingston.

The city solicitor handed down his opinion of the city's Hability for the pay-ment of the rental of the recent polling booths fixed by Sheriff Cameron. The document was lengthy, and among other things the solicitor stated that the provisions of the Election Act affecting the question were very badly drawn and observely worded, and it was very difficult on that account to reconcile the readings of the act. In conclusion he wrote: "The whole question is by no means free from doubt, and it is impossible to say with any certainty what view the courts may take, but I am inclined to think that the courts may hold that the city is bound to pay for the polling places fixed by the returning officer."

WHO OWNS THE RACE TRACK ? J. M. Johnston, of the trades and labor demonstration committee, wrote stating that the executive committee of the fair board had refused to allow hose reel competition on the track at the coming Labor Day demonstration. This event had been advertised, and if they were not to be allowed to carry out their programme they would be charged with breach of faith. Mr. Johnston was heard, and said that the fair board had refused on the principle that they had not allowed others to cut up the track, and it would not be fair to allow them to. He said that the committee had offered to guarantee that the track would be left in

good repair.

Ald. Taylor said that the city had no control of the track. They might pass a resolution requesting the board to grant its use. Even then they might ignore the request.

Crippied for some time as a result of a sovere cut inflicted on his leg while using a knife carelessly. The blade penetrated quite deep. Several stitches were taken in dressing the wound.

John H. Moore, for the last 25 years a resident of Windsor, is dangerously ill at his home.

Mayor Essery said that he was willing that the city should make good any damage to the track. The Western Fair board did not own the ground, and he wanted to know if the members were jealous of the labor people, or if they had descended to the level of a jockey club. The hose reel tires were wide and would do no damage.

Ald. Garratt moved that the council ask answer is awaited. the fair board to grant the request. Ald.

Whiskard's and chairmen of the various committees be a committee to wait on the executive of the fair board and try and induce the members The W. C. T. U., Chatham, fair board and try and induce the members to change their minds. Ald. Thos. Jones seconded.

Before the question was put Ald. Dreaney arose to impress on the aldermen the fact that a thousand hose reels could not make the track worse than it is at present. It was worse than a concession road.

Then Ald. O'Meara poked fun at Ald. Dreaney by saying that it was no wonder the track was cut up from the number of 'plugs" that were driven over it.

Ald. Dreaney arose in his place and gravely stated that he had a colt he would not trade for Ald. O'Meara's team. Ald. O'Meara would have nothing to do with a colt that would let a bicycle beat it

in a race, and so the horse dickering dropped. Ald. Wm. Heaman's amendment carried,

and the committee will wait on the fair marshes along the Detroit River and Lake board at a special meeting on Thursday afternoon at 2:30.

MIDDLESEX. The annual union picnic of the Sunday schools of Florence and adjacent parts came off on Wednesday last and was attended by between 3,000 and 4,000 people, assembled in Mr. Gunn's grove, just outside the village limits. A happy feature of the event was the march of the children of the various schools and their officers and teachers from the village to the grove, headed by the Florence brass band. With banners and streamlets flung to the breeze it was indeed a novel sight to the many interested spectators along the route. Excellent addresses were delivered at the grounds for those who sought "the feat of reason and flow of soul," by Revs. Fansher, Iler, Davison and Holmes respectively, while others patronized the merry-go-rounds, swings, booths, etc. Rev. J. H. Hector, the Black Knight, was expected but failed to connect. A great many were disappointed consequently.

The country needs a change.

-Are watermelons also doomed to disaster from fungue? Prof. E. F. Smith, of the United States Department of Agriculsure, says that he has discovered a fungus that is ravaging Georgia melons. FAIR PLAY FOR ALL.

The large majority of the manufacturers of Brantford support Mr. Paterson, M.P., who is himself a manufacturer. These men de not take stock in the monopolist organ's cry that they could not exist under a revenue tariff, as demanded by the platform of the Liberal party, of the Patrons of Industry, and by the working men of the land. The same views are held by the progressive manufacturers of London and of other centers of industry in Canada. They agree with Mr. Leurier that the taxation of this country could be reduced by several millions of dollars a year if the Administration honestly collected the taxes, without any discrimination in favor of one class ci the community and against another, and at the same time spent the money thus collected from the people with a single eye

to the public good. This view of the duty of a government, tration between the heart and soul.

we feel convinced will be upheld at the polls. If the country is to progress, if the cople are to attain that prosperity which they have a right to expect in a land blessed with so many natural advantages, there must be a fair play tariff and an honest administration of the money so collected. For the past fifteen years we have had neither the one nor the other, but it is a long lane that has no turning, and we believe that, despite the questionable methods adopted to prevent a sweeping verdict of the populace, a change of methods will be decreed as soon as the electors are afforded opportunity to let their views be known.

WEST MIDDLESEX AROUSED. In selecting the warden of Middlesex as their candidate for the Dominion House of Commons, the Liberals of West Middlesex have made an unexceptional choice. Mr. Calvert is a man yet in the prime of life, who for years has been reeve of the township of Metcalf. He is known throughout the length and breadth of the county as a progressive farmer and as a competent business man, and his services in the County

Council have been such as to commend him to the goodwell and esteem of the large majority of the members, embracing adherents of all shades of political opinion. Recognition of his merits as a representative man alone prompted his fellowmembers to select him for the highest position in the gift of the large and representative body. The same spirit undoubtedly actuated the West Liberal convention when it chose him as their standard-bearer of Liberalism in the coming con-

The West Middlesex Liberals have set a good example to other western constituencies in thus early putting a good candidate in the field. They have but to follow up their good work by at once arranging for having the voters' lists properly purged and every legitimate name added, and vicassured, will prove a model and a winning candidate.

THE SLUM POPULATION.

A valuable and suggestive report regarding the slum population of four of the great American cities has just been issued by Carrol D. Wright, United States commissioner of labor. The investigation into the nature, extent and causes of this submerged population seems to have been very careful and intelligent, and the facts furnish much food for thoughtful people. We are not aware that any similar reports have been made regarding our Canadian cities, but the matter is well worth the careful study of our statesmen. The people of that class are alarmingly on the increase in Canada, as in the States, and the question worthy of the most careful consideration. To many readers of this journal the accompanying facts from the commis-

sioner's official report will be of interest. As to the extent of the slum population in the four cities referred to in the investigation, it is stated that the figures given only include those of what are popularly known as "the slum districts" in each city. The figures given are as follows: In Baltimore, about 25,000; in Chicago, 162,000; New York, 360,000; Philadelphia, 35,000. Statistics are also given to show that the slum population is made up of persons of foreign birth to a much larger extent than is that element to the total population of these cities. The males of this class are more numerous, too, in proportion to the whole population. The number of illiterate persons is also much greater.

As to the effect of the number of salcons of them bred by Dr. Smith, having been out returning any equivalent of either food, accommodated on the point of a needle. clothing or comfort, no doubt, largely acplained of. The True Trade Policy for Canada.

Take No Mere Money From the People Than is Needed to Honestly Govern.

How to Extend the Markets for Our People and Build Up Their Industries.

(From speech by Hen. Wilfrid Laurier at Brantford.)

ALL DUTIES FOR PUBLIC REVENUE. Ve must continue to raise our revenue by a customs tariff, but so long as we raise our revenue by a customs tariff we raise it upon the cardinal principle that all duties shall be levied for revenue first, and not, as has been stated many a time, in order to develop certain industries, because the experience of the last fifteen years has shown that under the pretense of developing certain industries we are only developing monopolies and combines which sap the best substance of the country.

ADVANTAGES TO THE MANUFACTURER. Under a revenue tariff there is far more advantage for the manufacturer than under protection, for under a revenue tariff the nanufacturers always get an equal chance. The tariff is stable, it cannot much deviate because the necessities of the country cannot much deviate. But not so with the system of protection. Under the protective system we are at the mercy of the few. We have seen the Government going from place to place in order to meet their friends, and even being followed to Ottawa by their friends and the interests of the people forgotten in the interests of the few. EQUAL RIGHTS IN ALL THINGS.

The system of protection is unjust to the people, as has been said by Mr. Mulock, and all we want is equality-equality of civil rights, equality of religion, equality of taxation. (Cheers.) I do not want that anybody should be taxed in my favor; I do not want to be taxed in favor of anybody eise. I say that Government has no righ to take a cent from me except for the necessities of revenue. Does anybody in this audience believe to the contrary, that the Government has a right to take a cent from me or you in order to put it into the pocket of somebody else? I denounce, for my part, any such system as an outrage, as a robbery upon the people. (Applause.) THE PARENT OF CORRUPTION.

I believe in equality of taxation, and there is this more to be said against protection, that it never fails to engender corruption. Look at what has taken place in the United States. We have there evidence of the nation brought down from a high position by the system of protection. If there is a noble page in the history of the United States it is the history of the civil war. When the slave-owners of the South declared war upon the North they threatened to rend the Union. You know that at the call of Abraham Lincoln the North rose as one man to defend the Union, to defend the life of their nation. They spent their money by millions and their ds. In the latter blood by rivers and of what we ought to do about it is one well years of the war it is a matter of record that the American Government was spending every day \$1,000,000, or \$365,000,000 in the year, to carry on the war. After the war

was over the war tariff was maintained under the name of protection. Then the condition was such that the treasury was so flooded with money as to create a danger to the commercial life of the nation. This money, which was taken from the people, had to be returned to the people. One way to do it was to reduce the taxation, but some classes of men wanted protection; and then, to get rid of the money what did the American Congress do? They established the pension fund. Man after man was pensioned. Certainly it was a fine thing for the American Government to provide for those who had borne the brunt of the battle; for the orphans and the widows. But it was not only the orphans and widows of those who had fought in the war who were pensioned. And now it has came to pass that almost everyone over 50 years of age who belongs to a certain party has been a pensioner of the American Govern-

PRUIT OF OUR TAXATION IN CANADA. What has been done in our country? Is it not a fact, and I put it to the Conservatives in this audience, that the system of government we have had in the last fifteen years has developed such an amount of corruption in this country that the name of Canada has become a word of shame among civilized nations? Is it not a fact that money has been spent right and left without any pretense of right, simply to get rid of it? Is it not a fact that the names of the Connollys and the Mc-Greevys and the St. Louises are names that stink in the nostrils of all the honest man in Canada? (Hear, hear, and cheers.) This is what I charge against the system. And, gentlemen, let me tell you this, that in order to have an honest Government we must not allow that Government to take from the people of Canada one cent more than is necessary to carry on the administration. (Hear, hear.) I am glad to say that the manufacturers of the city of Brantford have for twenty years been represented on the floor of Parliament by my friend Mr. Paterson, himself a manufacturer, who has always advocated a tariff for revenue against a protection

TRADE WITH THE GREAT NATION. Sir, the policy of the Liberal party is to extend markets everywhere, but, above all things, in Great Britain and in the United States. (Loud Cheers.) With Great Britain what have we to do to develop our trade! We do not fear hostile tariffs Her market is open to all the What we want to do to send our products to Great Britain is to lessen the cost of transportation. But what we want to do to extend our markets in the United States, which is a protection nation, as we are, is to have a reciprocity of trade with them. (Hear, hear.) We have been told again and again by the Conservative Government, who do not want reciprocity with the United States, and it is a pet argument of theirs, that our manufacturers could not compete with the American manufacturers. Is that the opinion of the Brantford manufacturers? ("No.") No, certainly not the opinion of those manufacturers who, besides having an establishment in Brantford, have erected one on the other side of the line. (Hear, hear.) Certainly not the opinion of the manufacturers of Brantford. if I am to believe the statement of their representative on the floor of Parliamedt that the Canadian manufacturer is the equal of the American manufacturer if he has a fair field and no favor. (Loud cheers.)

BRITAIN'S EXAMPLE THE BEST. The greatest race in the world is the English race, and I am willing, for my part, to extend our trade with all the Englishspeaking world wherever it is to be found in England, in Australia, or in America.
I submit now for your consideration that if

there is a future for the Canadian people it is the future of trade based on what? Based not upon the policy which is advocated by the Canadian Government, but on the example of the motherland. England is the country which has given us the example for which we should stand. But our Government do not go to England for an example; they go to the United States. If they go there for an example, they do not go for a market. I want to go there for a market and not for an example,

Always Sere. Face Burned Like Fire. Ashamed to be Seen. Four Doctors but Little Benefit. Cured by Cuticura.

Fer about ten or twelve years I have been troubled with screfuls. My head was always core, my face was dry and scaly, and burned like fire most of the time. My body had big red spots on it, and I did not know what to do. I went to four different doctors and they helped me at first. In the tall I get worse again; then I tried other remacies, but they did me no good. I was assumed to go into public. I was a sight to look at. Every one would say, "What is the matter, why don't yeu take something?" Even at my daily labor I had to wear a sort of cap to keep the dirt from getting into the sores. After I would wash, I would be covered with big red pimples all over my neck and face. Some two or three people advised me to try the Curicura Remedies. I did try them, and am glad I have done so. Glad to say I am a well man, and in the best of health since. I cannot praise the Curicura Remedies to highly. I enclose my portrait.

double figures.

LONDON DEFEATS CHICAGO. An eleven, playing under the colors of the Wanderers' Cricket Club, of Chicago, suffered defeat at the hands of the London Club yesterday on the Asylum grounds. Capt. Hyman, winning the toss, sent the Perkepelis team to the field, and with Walker faced the bowling of Cummings and Henderson. Cummings, who bowls very fast, took four wickets for nine runs before he had been trundling an hour, and the first five wickets went down for 35 runs, Terry being the only one of the first half dozon batsmen to obtain double figures. Patterson and Becher making a short stand and playing carefully for their runs, and the inning closed for a total of Chicago then went to bat and were all retired before lunch for 84. J. Dairs contributed 31 in nice style. Henderson and Phillips were the only others to make

An hour was then deveted to a pleasant

lunch under the trees, and at 3 o'clock London went again to bat. Terry and Walker soon got together and made things lively for the fielders by putting on 104 runs before Terry succumbed to a slow one of Fraser's. He put together 69 runs in his characteristic style in an hour and five minutes, and made 12 fours. Walker's batting was the feature of the day, his weise play and driving being as near perfection as ever seen on the grounds. His score of 90 included 17 fours, 2 doubles, 1 triple examination it was found that the bullet san is singles. Local cricketers regret that had gone through the body of the bird, and, this gentleman's name does not appear on without deviation, had bucied itself in the the list of the international eleven, as he certainly deserves a place. Passerson again scored and batted in good form for his 33. The tail meeting with some hard luck failed to wag as it usually does, and the tenth wicket fell for the respectable score of 234, made in two hours and ten minutes, leaving Chingo with 243 rung to win and sale a little over an hour to make them. However, they succeeded in making 74 of sham for the loss of three wickets, the veteran Phillips and J. Davis being the chief scorers. They both showed excellent form for their runs and were not out when time was ap. London thus won on the first inning. The fielding of the Londoners was very sharp and clean, every chance being accepted. The Chicagos leave this marning for Hamilton, where they play today. The following is the

Organization. NEW YORK, Aug. 21 .- Over the gateway of the Sixteenth Street Baptist Church is a sign on which is inscribed: "Wanted, 500 boys, between the ages of 10 and 21 years, as recruits in the Baptist Bays' Brigade. Apply here, Monday evening, between 8 and 9 o'clock."

The sign represented a great work which is going on among the boys in the Baptist Sunday schools all over the country. The boys are organized into companies and put under strict military discipline. They are instructed in the school of the soldier, and taught self-control and obedience to orders. At the same time personal loyalty to God and country, reverence, purity, economy and benevolence are taught them. Every boy joining the brigade takes a pledge to met with the approval of the medical abstain from all intoxicating drinks, tobacco in every form and hurtful drugs, and from using profane or vulgar language.

Efforts are being made at the Sixteenth Street Church, of which the Rev. Mr. Hodder is pastor, to bring into operation all the auxiliaries which will aid in forming an attractive and efficient military company, If enough boys are enlisted a band, or fife and drum corps, and a cavalry division and gun squad will be organized.

Fatalities at Halifax, Three Rivers, Fremont Lake and Other Points.

Halifax, Aug. 21.—A sad drawning socident occurred at Magdalen Islands, by which five men were drowned from three boate. Valentine Petipos and his son, aged 10 years, and Charles Vignean, aged 18 years, were drowned from one boat. Simon Cyr, aged 12, and Nelson Cumming, aged 20, were drowned from the other two boats. They went fishing, and the wind sprang up quickly, while the sea rose, and when they got near shore the sea was so heavy that they could neither retreat nor advance. They tried to land, with the above result.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not

accept any substitute if offered. BUTCHER,

WEEKLY REVIEW.
London, Wednsday, Aug. 22.
Taken as a whole the trade done on this
market this week has been good. There were some lines that were disappointing and others that exceeded expectation. Among the former we find wheat, oats, hay, and in the provision that exceeded expectation. Among the former we find wheat oats, hay, and in the provision list, eggs; among the fruits and vegetables, peaches, tomatoes and potatoes.

The offerings of wheat were small, and were it not for the tight demand for home consumption there would be scarcely enough to bread the city; there was no change in the price—a feature now controlled by smaller markets outside, a strange thing, but nevertheless true. We cannot hear of any market near us that is paying anything like the price for wheat that London is. In Toronto we find the dealers buying wheat at outside points at 52c and 53c. This buying is done between dealers, and it is quite certain the grower could not have got over 50c for it, while in London it is eagerly picked up at 54c and 55c for choice white.

Oats came in more plentiful than was expected, and the consequence was a lowering of values on both old and new; \$5c to 86c was the closing price of new and \$1 for old.

Two or three loads of new barley came in this week, and sold at 85c per 100 lbs. The color was good, but it was deficient in weight, and had to be used for feeding purposes. We believe from the bids made that had the weight been all right it would have sold at 85c.

A few new peas came in; the price paid was 90c; they were of the early sown crops and were very buggy. We hear of a good many lots of late sown peas and they are reported as being almost free of bugs and of good color.

Rye sold all the way from 90c per 100 lbs to \$1 c5.

Eggs at the beginning of the week loeked as

Eggs at the beginning of the week looked as though they meant to go up, but owing to heavy offerings in crates the market was tradier and closed unchanged.

Butter continues scarce and is likely to be so as long as the dry weather lasts. It is doubtful, in fact, if even a week's rain could require that we are reported. doubtful, in fact, if even a week's rain could resuscitate the pastures now; they are reported as being like dried seaweed. In many parts the farmers are feeling the benefit of plenty of born fodder, which we are given to understand as about the only material substance equal to pasturage for producing milk. The close in outter was 22c to 24c for pound rolls, and 26c to

offerings of any account and an odd carcass of veal. Prices unchanged. No public sales of dressed hogs.

Wool, tallow and hides steady and no change.

Wool, tallow and hides steady and no change.

Wool, tallow and hides steady and no change.

Apples continue to come in more freely than the consumption warrants. It is hard work to sell any quantity of them, and harder still to get anything like a price out of them—36c to 75c per bag, according to quantity and quality. Peaches did not come in quite so freely as was expected at the early part of the week. Best qualities sold at 70 to 75c Tuesday and Saturday, and poorer lots at 50c to 60c.

Plums brought from 90c to \$1 15 per basket. Crab apples were 50c per bu.

Pears, 75c to \$1 50, according to kind.

Tomatoes were much lower, selling at 3c

Tomatoes were much lower, selling at 3c wholesale and 4c to 5c retail.

The rest of the fruit and vegetables was unchanged and about the usual amount of business was done in them. ness was done in them.

Hay was lower and sold at \$8 to \$8 50. Straw quiet at \$3 per load. Quotations:

Death of Mr. Frank Turton. One of the best known engineers on the Grand Trunk system died at the City Hospital yesterday, as a result of an operation for the relief of intestinal trouble. The was brought back at 1 o'clock. Mr. Turton auxiliary kingdoms with the Kingdom came to this country from South Shields, of Great Britain. This is the aim Durham, England, in 1854, and landed in Quebec. He spent a few years in the service of railroad contractors in Quebec, and then removed to Hamilton. In 1857 he came to London and entered the employ of the Grand Trunk. After a few years he was removed to the Petrolea branch and lived in Petrolea for nineteen years. About eight years ago he again returned to London, and since then has been driving in the Grand Trunk yards. Deceased was 62 years of age and leaves a widow, but no children. He was a member of the Wellington Street Methodist Church, and will be buried tomorrow afternoon at Mount Pleasant. Deceased was a brother of Mr. Robt. Turton, the well known G. T. R. driver between London and Stratford. He was a member of Eureka Lodge of Oddfellows and the Brotherhood of Locomotive Engineers. The Affairs of Stevens & Burns.

A meeting of the creditors of Messrs. Stevens & Burns, agricultural implement and brass goods manufacturers, was held at the office of the trustee, Mr. Alf. Robinson, yesterday. A statement of the assets and liabilities showed the cause of the present difficulties to be the inability of the firm to realize immediately on their customers' paper. The assets were placed nominally at about \$240,000, and the gross iabilities at \$180,000, leaving a nominal credit balance of \$60,000. The assets consist of customers' paper to the amount of \$130,000 or over, of which \$120,000 is held between the Union Bank of Winnigeg, the Bank of British North America and the Bank of Commerce. Nearly half of this sum is now past due. The plant was valued at \$95,000, and there are other items amounting to about \$25,000. The liabilities are made up of two mortgages aggregating \$38,500; bank discounts of nearly \$100,000; bills and accounts payable of \$40,000, and \$2,400 of preferred claims, including \$1,439 91 wages. It was reselved to adjourn the meeting for two weeks in order to give the firm an opportunity to arrange some of the more pressing claims and resume business without delay. Messar. M. D. Fraser, Manager Ingals (of the Bank of British North America), A. G. Rumball, A. R. Williams (Toronto) and Geo. C. Gibbons were appointed inspectors.

RUNNING A BICYCLE WITH A SAIL.

NEW YORK, Aug. 22.-Christian Gauz, member of the Omaha Cycling Club of Omaha, Neb., has just finished a trip from that city to Brooklyn on a bicycle fitted with a ten-foot leg-o-mutton sail. The distance traveled was about 1,700 miles; 22 are charged with having participated in the actual riding days being required to acassault upon R. J. Kearney in London complish it. The sail, which was fitted west on Sunday afternoon. Donahy was into the head of the bicycle, proved of found in a London township hotel and great assistance to the rider while wheeling across the open plains of Nebraska and Iowa. In descending the eastern slope of the Allegheny Mountains Gauz was forced to cut a small sapting and trail it behind to lessen the speed of his machine. At times he was compelled to back pedal to stop the terrific speed.

CANADA'S GREAT FUTURE.

The Aim and Purpose of True

Patriotism. Our aim and purpose in my estimation ought to be to develop from this northern side of the continent a great Canadian nation. That is the policy which I have advocated for many years past and am now advocating. I submit that the policy which was adopted in 1865 by the coalition of George Brown and Sir John Macdonald should be carried out, that we should endeavor to cement and bring together the different elements which Providence has gathered upon this continent. We have here Frenchmen, Englishmen, Scotchmen, Irishmen and Dutchmen. I want to raise Confederation to the highest possibility to be attained. I am proud of my country. There is no land under the sun of which I am prouder than this little Canada, with its population of 5,000,000, and still prouder would I be if it had a population of 10,000,-000 souls. Still prouder would I be if it had a population of 20,000,000. Still prouder would I be if it had a population of 40,000,000, as it must have some time. I do not expect to live long enough to see Canada with a population of 40,000,000, but there are young men in this audience who, deceased left his home about 9 o'clock in I hope, will live to see Canada one of the the morning for the hospital, and the body great nations of the earth, one of the

and purpose we ought to keep in view, and I would appeal to these young men on all occasions to stand by the cause of their country, and from this moment to do everything they can to help it to reach the goal we have in view. Sir, is this simply a fancy, a dream; is there nothing in this outlook to appeal to the hearts of the men and women of this country? Are we to be told that we are to grovel for ever in the position in which we are today? No; I hope to see a grander day for my country. Though I do not expect to live to see it with a population of 40,000,000, I hope to see here a population of 10,000,000 before I am many years older, especially it we return to the policy of making Canada a cheap country to live in-[Hon. THE CLOTHIER.

Mrs. Boscawen, being precluded by the state of her health from leaving her own apartments, had known nothing of what had passed between Frederick and his cousin. She saw Mattie gentle, quiet, com-posed as ever, and funcied that her youngest daughter, whose temper and dis-position she had hardly so far had an opportunity of studying, was by nature silent and reserved, as she had certainly shown herself to be under the diligent supervision before mentioned. Since the parent had nothing whereof to complain, she asked no questions, and was vouchsafed no information, there being no occasion for her

to be enlightened.

At least so thought Adelaide and Julia, and they had their own reasons for reti-cence. Frederick's gallantry had annoyed them to the full as much as had its effect upon their sister, and they had been even more out of temper with their friend and gossip, Nora Hamilton, than with either; for it was Norah who, referring to the foolhardy feat, had alleged that people "talked," and that it was given out everywhere that Sir Frederick was engaged to one of his cousins. This was the more proyoking since there neither was, nor ever had been, any truth in such a state-ment, and the idea was repudiated with indignation-but it was not repeated at

"Mattie would think it did not signify what people said," averred Julia.
"Mamma would show that there was something wrong before Aunt Caroline," added Adelaide.
"We should be prevented going to

Rimmin ourselves," concluded both. And

that settled the matter.
For they liked going to Rimmin very much, if not quite so much as Mattie did; and as they came home along the shore from their walk to the village on the afternoon in question, they were in high goodhumor at the prospect of spending the even-ing there. They had thought themselves obliged to go out, stormy as the weather was, alleging that a few little odds and ends of messages, trifles that were wanted by one and another, would not be properly attended to unless they took upon themselves the task. Mattie was no good; they did not think of asking her to undertake the business; and on no account would they have out a carriage, a carriage being needed so soon again. That is to say they wanted the walk to exale some of their exuberant spirits, and to heighten the roses in their cheeks for the evening.

When Lady Turner's messenger arrived

at the Castle it was not far from, the hour when the return of the two might be looked for, and it was the knowledge of this which made all the time spent by Mrs. Boscawen in considering the question, and pointing out the errors of Mattic's epistle, one of trial to her daughter. In every gust of wind she fancied she heard her sisters' footsteps at the door; and once admitted to the deliberation, their influence was every-thing with their mother. By intuition she knew what scale it would weigh down in the present instance, and that her chance might go to the winds once Adelaide raised

her voice, or Julia her eyebrows.
But the note was written, and the man gone. Joy, joy! No one could now recall him; the walkers were coming from an opposite direction; and by the time they shade the light within her eye; none must suspect what she would bide, even from herself, if she could. At Rimmin all would division of profit. be easy, she was not afraid of betraya: once in Frederick's presence—the very thought that he was near was enough to silence and to petrify—but beforehand, an unguarded speech, a look of happiness, might attract fatal attention.

Mrs. Boscawen, however, was still alone when Mattie returned to the boudoir.

"My tea, Mattie; I am so thirsty, child," she becam plaintively. "Your sisters really need not have stayed so long. It is past five now, and getting quite dark. I don't like their being out at this hour."

"It is only dark in this room, mamma; it is quite light outside."
"Adelaide will not have been able to match my wool, I am sure." "I dare say she will; it is not a difficult

blue to get. "More difficult than you think; there are so many shades nowadays. I wish I had told her to bring another case of needles. If I should lose this needle to-night, I should not know what to do; it is my last; I have not another anywhere. Dear! how stupid of me not to think of that before, when she was actually going to the needle-shop! Now I shall have a whole evening doing

nothing-"You must just not lose your needle, mamma," said Mattie gaily. Poor child! She could not but be gay, do what she would. Everything was now in her eyes as bright as in her mother's all was sombre, and her conviction of the daylight's having lasted, and of her sisters' successful shop-ping, would have extended itself to further cheerfulness on any other subject started; she could not conjure up needles, but she could ay, "You must just not lose yours," as though such words had a charm to re-

The invalid, however, was not to be beguiled from her mood.

"I do not drop it on purpose, my dear. But you know what a sad helpless creature I am of an evening, when I have had all the worries of the day to go through; and if it should slip through my fingers, how am I to find it again? I cannot hunt it up myself, and Harrison has no eyes. If I send for her it upsets me altogether. It is rather hard that I am to be left to Harrison alone for my entire evening.'

This was to be expected; it was only wonderful that the prospective want of a companion during the hour which she spent in the sitting-room after dinner before retiring for the night, had not presented

itself as a misery before.
"I had thought to have had you, at least," pursued Mrs. Boscawen, in accents conveying, "You are not much, but still you are better than nothing." "I had been looking forward to hearing the end of the book Julia is reading to me. But I suppose, now that Douglas is gone, you will all three want to go everywhere. I shall have to give in, for I dislike, of all things, making myself a drag upon my children; but I must say, my hours of solitude are the most trying part of all my ill health."

"But, dear mamma, it happens so seldom that you have any. You know we hardly ever go out at all, and you have never ence been without one of us before.'

"You would not like it yourself, Mattie." Mattie wrs silent, assiduously bending over the tea-table, and by-and-by the benign influence of a strong and steaming cup began to appear. "My head is really better," the invalid allowed, and perhaps it was as well that the others did not come in till I could better bear their come. voices. Be sure you keep the teapot warm,

"Mamma, there is a little rose in that glass—it is not doing much good there—"

"Not doing much good?" said Mrs.

Boscawen, laughing. "What good should what good should what good should the good?" it do? What do you mean, child?"
"It would be just the thing for my

"Thank you, thank you, mamma."
"I declare, you have quite a color to-day, Mattie.

"Have I, mamma "

"You are generally pale, and this morning I fancied you particularly pale; I wondered if your head, too, ached. Now go and dress, my dear, for you will want help, and there is not so very much time. Harriston can go to you first, so as not to

interfere with your sisters."

They did not come in until the room had been silent for nearly a quarter of an hour. They had been round the garden and greenhouse after returning from their walk, having, like Mattie, a fancy for wearing natural flowers in their hair, and they now appeared laden with fresh-scented

"Heliotrope, even," cried Julia gaily.
"I do think we manage well. Mamma, I would leave these with you, only I have

nothing else to wear." "I did remember some ferns for your glass, mamma," subjoined Adelaide. "Here they are. But where are all the flowers gone?" inquired she, in surprise. "They

were only gathered this morning.' "A marauder has carried them off. If had known you were going to the greenhouse, I might have waited to see what you brought in; but I gave them all to Mattie."

"To Mattie? What did Mattie want to do with them "To wear them to-night, as you and Julia

I tried almost every conceivable remedy, outwardly and inwardly, to cure the sore but all to no purpose. I had often thought of trying Northrop & Lyman's VEGETABLE DIScovery, so I got a bottle and when I had used about one half the sore showed evident signs of healing. By the time that bottle was done it had about disappeared and my general health was improving fast. I was always of a very bilious habit and had used quinine and lemon juice with very little affect. A Sprained Back and Its Cure. NEW ORLEANS, March 30, 1893.-I take great pleasure in recommending your valuable remedy to all suffers of Neuralgia or Sprained Back, as I consider that Pond's Extract has no equal, for it is worth its weight in gold when properly used. I have used it in my family the last fifteen years with so much satisfaction that I am never without it at home.

ALBERT WEBER, 280 Carondelet streest.

PITTSBURG, Aug. 21.-Two weeks ago

Thomas Harper, of Esplenborough, left his wife and two children (aged 4 and 2 years) in their comfortable home to spend his vacation at Mount Clemens Springs, his wife intending to visit her mother in Pitts. burg. Last night Mr. Harper returned nome. The house was found locked and Harper came to Pittsburg, but his wife had not visited her mother's home. Supposing she was at his father's, Harper remained all night. Early this morning he visited his father's, and was again disappeinted.

TERRIBLE HOME-COMING.

A Husband's Awill Discovery on Returning From a Holiday.

Harper returned to Esplen and with his father forced an entrance. The house was filled with a terrible stench. Upon reaching the family sleeping room Harper was horrified to find lying on the bed the bloated decomposing body of his wife. The eyes were bulged from the sockets and the face distorted as if she had died in great pain. The bedding and her clothing were saturated with blood. Lying upon the bed, their faces smeared with blood, and almost in the arms of their mother, the two

children were sleeping.

The children had been without food since Thursday, and were in a starving condi-

"Do you rectify mistakes here?" asked gentleman as he stepped into a drug store. Yes, sir, we do, if the patient is still live," replied the urbane clerk. Never was a druggist called upon to answer such a question after selling a bottle of Dr. Pierce's Golden Medical Discovery. Do not be copeless although you are thin and pale. In spite of a dry hacking cough, night sweats and slight spirting of blood you need not fill a consumptive's grave. Take the "Discovery" and you will soon be rid of the troubles which harass you. But do not delay. Delay may mean death, and that mistake you cannot rectify. Sold under a positive guarantee if taken in time-or money refunded,

OTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents. or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

Repetition of Job's Great Affliction.

Mr. George Henry Drew. of this city, has been in very poor health for some time. His system was completely run down, and his blood so impoverished that "boils came out all over his body"—in short, it seemed but a repetition of Job's great affliction, for no sooner did they disappear in one part of the body than they returned elsewhere with more severity, and this condition of affairs seemed to increase, although Mr. Drew had tried no end of curealls. On the 5th day of August he got one bottle of the Royal Crown Remedy and a box of Royal Crown Fills at Bark well's drug store, of which he has taken half, and last evening he called at the above store to return thanks, and in the presence of eight witnesses stated that it did him more than \$1,000 worth of good, as he had not felt as well for years, and the benefit derived from it could not be overrated, and it ought to be made known to other sufferers. It establishes throughout the entire system functional harmony, and supplies the blood vessels with a pure and healthy current of new life. The skin, after a few days' use of the Crown Remedy, becomes clear and beautiful — pimples, blotches, black spots and skin eruptions are removed, sores and ulcers soon cured. Persons suffering from Scrofula, Eruptive Dissense of the Eyes, Mouth, Ears, Legs, Throat and Glands, that have accumulated and spread, either from uncured diseases or mercury, or from the use of corrosive sublimate, may rely on a cure if the Royal Crown Remedy is continued a sufficient time to make its impression on the system.

At the Grand Opera House. One very decided improvement has been made at the Grand Opera House during the summer, which, while not visible to the eye of the audience, will add greatly to its pleasure, as it will aid in the better and more expeditious placing of the scenery and permit the use of some that had heretofore to be dispensed with. PORT STANLEY GOSSIP.

During these hot weeks when all the world are conspiring to accelerate the pattering steps of the hero of the scythe and hour glass, the sojourners by the lake shore have resurrected an amusement dear to our hearts in the days ere we had renounced our allegiance to Santa Claus or become infidels with regard to the "good people." Taffy pulls are the order of the day, or, to speak more correctly—night, for it is then that mammoth fires, before whose brightness the moon hides her diminished head, are kindled on the beach, and the givers of the feast sally forth into to the road. They also completed arrangements for the trip of the City Council to Cleveland on Thursday. The council will go by the Lakeside and return on Saturday.

—The following regulation for the better protection of salmon and trout has appeared. ting priestess, with cup and spoon (the insignia of office) in hand, surveys the progress of events, and when all is ready gives the signal for the "saccharine

elongation" to begin. But if the "fair sex" has arrogated to itself masculine prerogatives in the matter of apparel, the lords of creation have set sacreligious foet in a hitherto sacred feminine demain, for not long since a club of hospitable bachelors were hosts at one of these feasts of reason and flow of soul, and escaped with no more than the usual number of burns. Speaking of these pioneer poachers on

feminine reserves naturally leads us to say a few words with regard to their immediate neighbors, a club of gentlemen equally conspicuous for their versatile talents and shining raiment, and rejoicing in the sanguinary name of "White Caps." Let it not be supposed, however, that the "snowy robes" with which they dazzle the eyes of the unsophisticated villagers are never doffed in the privacy of their vertained about 200 of his friends from this anda for garments of less conventional, though more airy cut. There flowing robes of Greek design and rich brocades of eastern pattern are permissable, and add materially to the picturesque appearance of their domicile. To gaze on the "White Caps" as they recreate at the Port one served. The party returned on the regular would scarcely suppose that they held exalted stations in the neighboring metropolis. Why, we have seen the austere dignity of the rightful M. P. unbend so far as to allow him to disport himself in the watery element in a manner both "graceful and swan-like." We have seen a musician who has held many an audience spellbound by the magic of his art listen with evident relish to the strains of some itinerliam Caven Barron, Mr. and Mrs. Chas. B. ant darkey minstrel. We have seen an apothecary of renown who spends his days in concocting antidotes to all the physical ills that flesh is heir to, put himself in a fair way of being his own best patron, in consequence of his reckless onslaught on a veal pie, whose dimensions might have baffled the combined efforts of the Black Knight and his convivial compiano playing. Mr. John Marshall sang in splendid voice "The Village Blacksmith." We have seen—but stay, why should we divulge the secrets of a place where we are all "men and brothers"? There comes to our mind an ancient proverb which tells us by whom a little occasional nonseuse is best enjoyed, and perhaps the wisest man is he of whom it may be written: "He was never so old that he failed to enjoy the games and the sports that he loved as a boy."

LA PARRESEUSE. An Unpleasant Surprise.

Widowed Papa (to his 16-year-old daughter)-Effie, did you know our housekeeper was going to be married? Effie-Is she, really? Well, thank for tune, we'll get rid of the disagreeable old thing at last. Who is she going to

marry? Papa-Me. Half Rates to Washington, D. C., and Return Via Pennsylvania Railroad.

For the biennial encampment of the Supreme Lodge and Grand Encampment of the Knights of Pythias of the world, to be held at Washington, D. C., Aug. 27 to Sept. 5, inclusive, the Pennsylvania Railroad Company will sell, from Aug. 23 to 28, inclusive, round trip tickets to Washinton and return at the rate of a single fare for the round trip. These tickets will be valid for return passage until Sept. 6, with a further extension of time until Sept. 15, obtainable by depositing tickets with joint agent at Washington or or before Sept. 6. Excursionists also have the privilege of returning from Washington either via Short Line or Philadelphia, stopping over at Baltimore and Philadelphia within limit of their return tickets.

This arrangement will afford a rare opportunity for the public to visit the national capital. Side trips can be made from Philadelphia

to Atlantic City and return for \$1 75, to New York and return for \$4. For tickets and space in sleepers apply to ticket agents or B. P. FRASER, district passenger agent, Buffalo, N. Y.

Only one marble statue of the human figure with eyelashes is shown. It is the sleeping Ariadne, one of the gems of the Vatican, and was found in 1503. Take care of the dollars and the world
