That's Ayer's. The same old sarsaparilla as it was made and sold by Dr. J. C. Ayer 50 years ago. In the laboratory it is different. There modern appliances lend speed to skill and experience. But the sarsaparilla is the same old sarsaparilla that made the record-50 years of cures. Why don't we better it? Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement. Of course, if we were making some secret chemical compound we might But we're not. We're making the same old sarsaparilla to cure the same old diseases. You can tell it's the same old sarsaparilla because it works the same old cures. Ford's Farewell.

Flees to Port Huron and Londoners Mourn His Departure.

A Slick Game That Failed to work Throws Ford in the Pit He Dug for Others - Failed to Pay His Rent and Took Everything in

Sight. The American Candy Kitchen is no more, and the cook and the scullery maid have fied. J. M. Ford, the cook, started business a couple of months aso on Dundas street, in one of Mr. G. T. Hiscox's stores, where he prospered, too much, at any rate, for his Ford failed to pay his rent, and after moving some of his goods a seizure was made. The candy maker was

andlord and several other parties. somewhat of a theatrical turn of mind, and indulged in amateur operservices of Prof. W. Baldwin, the contortionist, Thomas Considine, the Misses Small and others, and gave performances at the asylum on Thursday and Friday evenings of last week.

By this means he secured quite a little theater paraphernalia in the way of street or the secure of stage costumes. Baldwin's outfit was worth \$75, Considine's worth in the neighborhood of \$15, while the Misses Small lost pretty dresses. All these things were safely packed in Ford's trunks, who had engaged Baldwin at a salary of \$25 per week, but told him he would not be required for week or so, and the contortionist went away to Ingersoll. The balance the goods were taken away after seizure was made, and Thursday night, Mrs. Ford, with the adroitness of a Molly Pitcher, went unhesitatingly to the till and abstracted its contents, amounting to some dollars. The

goods, meanwhile, had been taken to station, examined by Col. Jacks, and after being sworn to by the Fords were checked through to Port Huron. Considine, not knowing anything was wrong, was induced to accompany them to "Sarnia." Here is where Ford spoiled the game he had been working so well. On the train he gave Considine a commercial ticket good for 31 miles, bearing the name of Calahan. Ford handed this to Considine, telling him that he would be able to "work" the conductor, and to aid him in this Ford gave Considing the checks five trunks, with instructions to sing a song to the conductor," and say that he (Considine) was short of cess baggage; that he had five trunks, and wanted to get to Sarnia. Consti-

dine took the checks, but was surprised to see "Port Huron" on them instead of Sarnia. He saw through the little game at once, which was to give him the slip at Sarnia. There Ford saying she inted her property, and that a young

tellow in London had stolen the checks. Baldwin came from Ingersoll last night, and he, with Considine, left for Port Huron to secure their property, and they both vow dire vengeance on Ford. From correspondence found in the store, Ford did business thought, might be taken, without furnished to the store of the stor in Ottawa, Hamilton and Toronto. An ther comment from him, as satisfactory account for \$30 from a Toronto confectionery house was also left on a file. Ford was a photographer, too, and had some good cameras, but took

the precaution to abstract the lenses from them. Considine says that when Ford left the store he had between \$300 and \$400. A wheel of fortune is alleged to have been among his ef-

What Agents and Prospectors Have to Say of the Various Mining Properties Now Before the Public.

The Rosslander, Feb. 16, says: A new syndicate of Rossland and Ontario men has resently been formed and has bought nine valuable properties in this district. The company has been incorporated under the name of the Canada Mutual of the Canada Mutual Mining and Development Company, and has an authorized capital of \$2,500,000. The properties which have been taken over by this company include the following: The Minnie, which is situated on the northeast slope of Red Mountain, at the head of Center Star Gulch, adjoining the Blue Elephant and Big Trout; the Beaconsfield, a south-belt claim, situated near the Maydower; and the group known as the Little Giant, which includes the Copper King, Little Vittle, Tillie H., and Little Giant all on Lockout Monn. and Little Giant, all on Lookout Mountain, and within a short distance from Trail. Each of the claims owned by this company, has splendid surface showings. The company intend to start up three camps at once, each with a large force of men, and to push work as fast as possible. As soon as the required machinery will be placed on each of the various properties. It is also the intention of the company to acquire and develop property in other districts. A cash consideration of \$52,000 was paid for the above properties. G. A. Pounder will be the Rossland manager, M. O. Tibbets will be the Toronto manage and E. F. Kendall at Rat Portage.

The annual report of the directors

having been read, the president, in moving its adoption, stated that he was pleased to be able to say that the year had not been marked by any serious individual losses such as he had had to refer to at the last annual meeting. The business of the company had been carried on upon the same lines as had been followed in the past, and the results, as shown in the statements submitted, were, he thought, upon the whole, as favorable as the most santhe comparatively small falling off in the premium income of the company was such as might naturally have been looked for under the circumstances. o Investors...

The COLORADO GOLD MINING AND DEVELOPMENT COMPANY, in presenting their guaranteed stock, offer an investment yielding three times what the Savings Banks pay, just as secure, with every prospect of a much larger dividend and an opportunity of increasing the value of your investment many times over.

This is an opportunity seldom offered, and worthy of the serious consideration of those looking for an absolutely safe, yet profitable, investment,

So confident is the Company of its position and future profits, that in subscribing for the number of shares desired it is not necessary to pay the full amount down unless you wish, as we will accept 25c per share, leaving the balance to be deducted from dividends declared until the stock is fully paid for.

We believe the cash and stock dividends declared within the next two years will more than return the present cost of the shares, leaving the fortunate holder with his stock at no cost to himself and greatly enhanced in price

The body of ore in sight in our Kern County property is enormous in quantity, and by reducing the cost of mining and milling to less than \$2.50 per ton, as the improvements about to be undertaken will do, should enable the Company to pay dividends of three times the present rate. There is no guess-work about this, for our product being gold never varies in value, and knowing the cost of production enables us to estimate our profits with an absolute certainty impossible in any other business.

Send for our prospectus, It will interest you and Is worthy of a careful perusal, showing, as it does, a company conducted on a business basis, and the most successful of its kind in the Dominion to-day. Personal interviews invited.
