Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- ☒ Coloured covers/
Couverture de couleur
- ☐ Covers damaged/
Couverture endommagée
- ☒ Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- ☐ Cover title missing/
Le titre de couverture manque
- ☐ Coloured maps/
Cartes géographiques en couleur
- ☒ Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- ☒ Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- ☐ Bound with other material/
Relié avec d'autres documents
- ☐ Tight binding may cause shadows or distortion
along interior margin/
La reliure serrée peut causer de l'ombre ou de la
distorsion le long de la marge intérieure
- ☐ Blank leaves added during restoration may appear
within the text. Whenever possible, these have
been omitted from filming/
Il se peut que certaines pages blanches ajoutées
lors d'une restauration apparaissent dans le texte,
mais, lorsque cela était possible, ces pages n'ont
pas été filmées.

- ☐ Additional comments: /

The copy filmed here has been reproduced thanks to the generosity of:

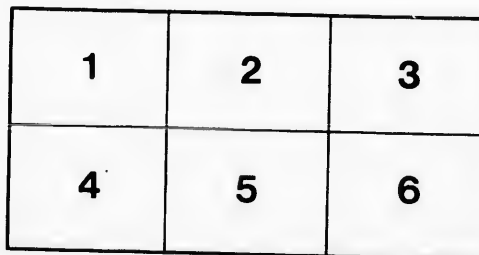

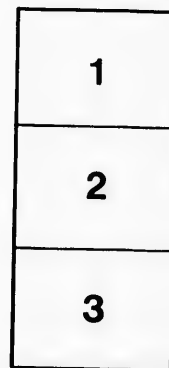

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TORONTO, ONT.

TO THE TRADE.

In issuing the Seventh Series of our Illustrated Catalogue, we consider it will be advantageous to our patrons to depart from our usual custom of publishing a separate Price-List, and have therefore combined it with this issue, based upon the **LONG-PRICED SYSTEM THROUGHOUT**, for easy reference and use.

We would particularly call your attention to the many **NEW, ORIGINAL, AND HANDSOME PATTERNS** introduced herein, suited to the wants of **EVERY SECTION OF THE DOMINION** embodying all recent improvements, carefully studied in all details, appearance, and practical use.

Our facilities for execution and delivery of goods are unrivalled, and our reputation of over thirty-two years' standing, for **STRICTLY FIRST-CLASS WORK**, will, we are assured, be greatly enhanced by the present productions.

In asking this your careful perusal, we beg very respectfully to thank our existing customers for the past most liberal support, and solicit a large share of your valued orders for the coming season.

WINDSOR FOUNDRY COMPANY.

ONT.

WINDSOR, N.B.

TORONTO, ONT

TERMS.

Nett at four months from end of month in which goods are dispatched.

Six per cent discount for cash, if paid within thirty days from first of month following date of invoice. Four per cent within sixty days, or Two per cent, within ninety days.

Interest at the rate of Eight per cent. per annum will be charged on renewals and over-due accounts.

Freight will be allowed from the amount of invoice, to the nearest railway station, or steam boat landing, on Stoves, Ranges and Hollow-ware, in lots exceeding 200 pounds.

Unless otherwise ordered, we will ship all goods at owt. risk, to obtain lowest rates, and our responsibility ceases after obtaining the carrier's receipt, "shipped in good order."

All claims for deductions must be made within seven days after the goods are received.

Goods shipped during the months of July, August and September, will date as and from October 1st, following.

**ATTRACTIVE and EFFICIENT ADVERTISING
MATTER, PRINTING BLOCKS, SHOW CARDS, &c.,**
will be supplied on application.

"WINDSOR FOUNDRY COMPANY."

WINDSOR, N.S.

TORONTO, ONT.

WINDSOR "EMPRESS" RANGE

The new *Empress* No. 1 and *Handsome* by Windsor Range, introduced for the first time this season. It is composed of the latest style, most perfectly fitted, made from new iron by skilled mechanics, fully malle hammered with file and the heavy and substantial metal.

Full sized doors and ovens are provided, the special appliance for ventilating oven with heated air, supplying a great desideratum. This heat is taken into oven under the fire-box, and circulates through a carrying off all odors from baking. This is an entirely new application of this valuable principle rendering it the "*Best Working Range made*", as it saves more than half the usual baking in great cooked in a close oven, and renders also the food much more palatable.

Foot level opening to oven doors. Famous *Duck* Ash-grate, the best known. Very large reservoir with our special blue system, so that the water is raised to boiling point in the shortest time possible. The covers and centre pieces all have our ventilated linings and cannot warp or crack, making them practically indestructible.

Has deep ash-pot and large ash-pot. Outside oven shelf, and the base, the highest known. Best of the system and best shaped oven in fact we produce at the "*Finest Range possible to make*", as it has every convenience and is the contrivance that have been added to any range and can be moved and supplied with a complete set of fittings, for burning wood when so ordered.

It will last a life time, and will always work in any kind of chimney.

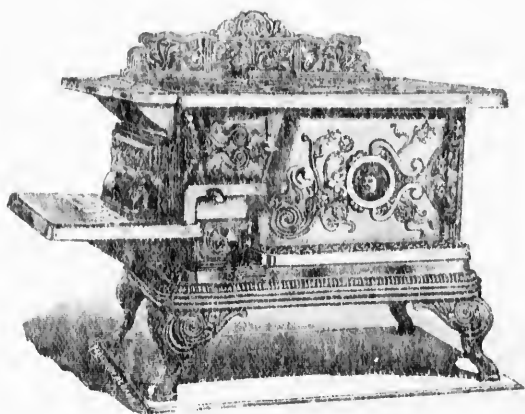

WINDSOR, N.S.

WINDSOR, N.S.

TORONTO, ONT.

WINDSOR "DELMONICO" RANGE.

For Hard or Soft Coal or Wood.

One of the most elegant Ranges ever produced, in equal measure, value, economy or beauty. The latest of the latest improvements in design.

It is of full size and very beautiful in appearance. Various proportions, valves, mechanisms and other adaptations, with full panel nickel doors, and polished exterior surfaces, in a rich and highly artistic finish.

The Reservoir is of heavy copper lined, made on an improved plan, heating the water quickly to a high temperature.

The direct draft-damper is so arranged, that the smoke and heat can be allowed to pass directly into the pipe, controlling the draft and consumption of fuel, a very great convenience when the draft is poor, chimney cold, and in warm weather when it is undesirable to heat up the kitchen.

It is provided with an excellent ash-shifter, arranged to shake and dump, with an anti-clinker grate, perfect in its working.

The ovens are properly ventilated, carrying off the odours of cooking, adding to the draft, and preventing one article becoming impregnated with the taste of any other cooked at the same time.

By removing the two covers and centre-piece, over fire-box a broiler-cover can be used for grilling purposes, thus supplying a long felt want.

WINDSOR "MONARCH."

Square Art Harbor, Base Borneo.

This is an entirely new and original designed Square Art Base Borneo, we are this season introducing, and for the greatest confidence in offering to the trade, with the highest guarantee that it reaches the heart of our ambition, is being the most complete and best stove produced. It is of the finest artistic appearance and design, with full flowing, rock and iron ornament box of the very best description. It is a solid construction on the parting ring plan, and circular line in base, for quick draft, perfect radiation, and economy in crowding the currents to the exterior.

Large, midsize, and 100 pairs. Height extends up to the bottom, and over upper the skirt. Ash-pit section of good height, with Swinging Door and base ring. The base top extending to make the Ash-pit section of structure.

Full sized Art to Stove, with artistic upper and lower. Also doors, resting in. Finishing Lateral in. Single. Each side doors.

Each Stove fitted with cover in the Water heater system. Pipe collar and cast in the wall. Large. The stop at each, for easy cleaning both Floor. Floor and Magazine with Hopper shafts.

TO. ONT.

WINDSOR, N.S

TORONTO, ONT.

Feed, protected with inside cover and appropriate Gas-escape. Poke-holes arranged at front and sides. The newest form of duplex and centre-slide Grates are provided. Dust or Check Damper and Nickel Shaker Handle.

An improved system of hot-air circulation is given from section to section of the four-corners, with escape at top, the air being taken from the under-side of Stove. Corner-columns form continuous architectural pillars.

Nickel Pedestal surmounted by handsome Bronze-figure as shown on pages 58 and 59. Fancy open-work Cover to swing off on Water-heater. Ornamental Nickel Foot-rails. Bands, Cornice, and Tea-kettle Attachment.

The whole forming, without doubt, the HANDSOMEST, MOST COMPLETE AND EFFECTIVE ART PARLOR BASE BURNER EVER OFFERED. EACH STOVE IS PERFECTLY MOUNTED AND GUARANTEED.

No. 21, also made with a capital Oven, on the two-flued plan.

No. 23, is converted into a Double-heater, with eight-inch Pipe-collar, immediately above parting ring on both sides.

Self Feeding, Base Burner.

For Hard Coal.

This Stove is a direct draft, although being only 4 ft. high, it stands its own as a first class heating and capital Base-burner. It is made with a double top for heating two rooms, as by taking a pipe to an upper storey, it acts as a furnace.

WINDSOR "IMPERIAL."

SURFACE-BURNER.

In presenting our new Surface-Burner this season, we are satisfied that it will take the leading rank among stoves of its kind, as every detail in construction, mounting, smoothness of castings, and beauty of design, as well as its merits as a heater, are carefully provided for. We have endeavoured to embody every improvement that would add to its success in a practical, as well as ornamental way.

In many Stoves of this class, the flue does not extend around the base, but simply on the sides, and connects thence directly with back-flue, while in the Windsor "Imperial" the flues go down between the lining and sheet-iron, around the entire body of Stove, to a Double-bottom in the Base, and thence by a Return-flue to Exit. This arrangement gives the full benefit of radiation in front, as well as at back, a very important point in purchasing a Surface-Burner Heating Stove.

The ornamental features of this Stove, aside from the Art Castings, consist of elaborate Tile in connection with Nickel, viz. three Tiles in the Urn, two in Mica Door-jamb, and one large oval Tile with Nickel Panel over Door, and Nickel Foot-rails.

Each Stove is provided with a spacious Oven on top, with Rack, a very convenient arrangement for Heating Water, Baking, etc.

The Ash-pan is extremely large, (an important feature). The cleaning arrangement perfect, consisting of Flue-plate under Ash-pan, and Check-dampers both front and back.

Don't overlook this SUPERB STOVE, as in pushing it, you will be certain to get the NEWEST IN DESIGN, RICH AND STRIKING IN ORNAMENTATION, A MOST POWERFUL HEATER, EASILY CONTROLLED, ECONOMICAL IN FUEL, AND A STOVE BOUND TO LEAD ALL OTHERS.

WINDSOR, N S

TORONTO, ONT.

WINDSOR "HUB" SINK.

PATENT SANITARY TRAP AND SELF-LOCKING COUPLINGS.

The construction of the Trap prevents the accumulation of any sediment or solid substances and is practically self-cleaning, making it entirely free from the unpleasant odors emanating from the ordinary Trap.

It is never necessary to lift the Strainer, for the Scouring-toggle thoroughly cleans every portion of the Bowl or Trap. With this Trap, no sediment or grease can possibly collect on any of its surfaces if the Strainer is revolved occasionally. This is true of no other Trap made.

The Trap is held firmly in place by a Brass Screw, so that servants cannot remove it and carelessly lose spoons, forks, etc., down the pipe.

The Pipe can be quickly connected without soldering, by our Improved Coupling, making a perfect joint.
