The copy filmed here has been reproduced thanks to the generosity of:

Library of the National
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La Bibliothèque des Archives
nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BUDGET SPEECH

DELIVERED BY

HONORABLE JOHN S. HALL,

TREASURER OF THE PROVINCE,

IN THE

LEGISLATIVE ASSEMBLY OF QUEBEC,

ON FRIDAY, MAY 20th, 1892.

MR. SPEAKER,

In proposing, as I now do, the usual motion that the House do resolve itself into Committee of Supply, it becomes necessary for me to submit a statement of the financial situation of the Province.

I have at the outset, Sir, to say that I fully appreciate the honor that has been conferred upon me by my political friends in confiding to me the honorable and responsible position of Treasurer of this Province, and I appreciate fully more the consideration and confidence that has been extended to me by those who differ from me politically and by those who occupy seats on the opposite side of the House.

I can assure you, the task of enquiring into the financial position of the Province, and putting it before you in a clear light, has been no easy one, but, as in all like positions of burden, or even of despair, I have been en-

couraged by the offers of support and assistance by people of this my native Province, without regard to political bias or prejudice, and inspired only by substantial and patriotic motives for the welfare of the country.

I accepted the responsibility of the Treasurership and now relieve myself of the trust in a large measure by giving you the result of my enquiry, and invite all to cordially assist in meeting the situation.

My predecessor (Hon. Mr. Shehyn), on the 12th April, 1887, when he made his first budget speech in this House, said: "The task which I am about to undertake offers very grave difficulties of a multiple and delicate nature, and it is not without hesitation that I enter upon it."

How much more true is that for me to-day than it was for him may easily be granted from the statements and figures I will give you later on.

I took office on the 22nd December, 1891, after the dismissal of the Mercier administration on the 17th December, consequent on the scandalous revelations of corruption in connection with what is known as the Baie des Chaleurs Railway, Langlais, and other matters. That administration had at the time 48 supporters in a House of 73. The ministry to which I belong, decided on an appeal to the country, which took place on the 8th of March, and, as a result, we find ourselves supported by more than the late administration had, or, a majority that puts beyond peradventure, the questions fought out at the general elections.

There is no doubt these questions were those of honest, patriotic and economic administration, a restoration of our credit, and an absolute and unqualified condemnation of corruption and extravagance.

I have not the time to make a political speech. The moment is serious and critical for the Province, though, if we but just adopt practical measures, there is not only no fear but even radiant hopes for the future.

It is my duty, and I do not shrink from it, to state frankly and fairly, without regard to party, exactly where we are and where we stand.

Later on it will be for me, however much odium I may incur, to suggest a remedy for the situation, and it will then be for you, the members of this Legislature, to examine the situation, and to assist or condemn me.

Every one knows that the Mercier administration came into power, practically speaking, on the 17th January, 1887, with promises and assur-

ances of economic administration and general welfare for the country that it is useless to recall, and it will only be for me to give you the result of the administration to shew how disastrous it has been.

Before going into details, I may say that during the elections, on the 16th February last, in my official position as Treasurer, I delivered a speech at the Windsor Hall, Montreal, where I gave many particulars which I will be relieved of repeating to-day. All the honorable members have had a copy of that speech. I ought, however, to ask you to bear in mind three points :

1st. Our financial year is from 1st July to 30th June in each year, and when I will speak of a year it will mean that ending on the 30th June.

2nd. I will take the public accounts as prepared by my predecessor and give you the figures as they appear there.

I do not admit his classification of expenditure into that of ordinary and special. This latter is absurd and dangerous, and whatever classification there may be, the public must understand we have to provide means for what we pay or undertake to pay.

If our ordinary revenue is insufficient and we borrow money, we must not only repay it, but also the interest, and all this has to come out of earning power and our revenue.

The statements in detail in my speech of 16th February, and as seen from the Public Accounts of each year, show that this "Special Expenditure" was grossly used by the Treasurer to hide ordinary expenditure and to try and show a surplus of ordinary receipts. He also used Trust Funds and large amounts of Guarantee Deposits from Railway Companies in the ordinary cash, which we are now called upon to repay.

For the future this heading of Special Expenditure will disappear.

3rd. My predecessor disclaims any responsibility for the expenditure for 1887 and started fresh on the 1st July with all he asked for and what we call in English, a clean slate.

I presume, Sir, the House desires to know where the Province stands, and for this purpose I will tell you our position at it will be on the 30th June, 1892.

To do this I must give you a short history, and for clearness of discussion, I will divide my remarks into five heads :

1. The cash operations between 1st July, 1887, and 17th December, 1891, and the estimated position on the 30th June, 1892, or, how my predecessor dealt with all the cash received by him and what position he left for me.
2. Our Liabilities and Assets.
3. The Mercier Administration.
4. The Legacy left the Province.
5. The Year 1892-93 and the future.

I.

CASH OPERATIONS, 1ST JULY, 1887, TO 17TH DECEMBER, 1891, AND ESTIMATED RESULT ON 30TH JUNE, 1892.

My predecessor (Hon. Mr. Shehyn), on the 12th April, 1887, in his first Budget Speech, criticized more than severely his predecessors and my friend, the Hon. J. G. Robertson. He complained of extravagance and incompetency and asked for a small loan of \$3,500,000. If he got this he stated (as a business man) he would put the Province right, wipe out all deficits to 30th June, 1887, and march us on to progress and that (page 64 of his Speech) he would give us a surplus of \$19,693.20. He went still further and declared, on account of the increase in the timber dues made only five days before his speech, his surplus would be at least \$157,927.00 for the year 1887-88.

He complained, too, that his predecessors had so mismanaged affairs, that, as a legacy for him, there was, when he took office on the 31st January, 1887, a floating debt of \$3,388,434.22 (page 42 of his speech), but this was to be disposed of through the proceeds of the \$3,500,000 loan. He obtained what he asked, and it will now remain to be seen how he fulfilled his promise.

In my speech on the 16th February, 1892, I have given (as taken from the Public Accounts) in detail, his operations from 1st July, 1887, down to 17th December, 1891.

I have annexed hereto a statement marked 1, a summary from 1st July, 1887, down to 30th June, 1891, to show, according to Hon. Mr. Shehyn's classification, how the cash was spent, and how it was obtained to meet the expenses. It will be seen my predecessor was travelling on borrowed and trust moneys every year.

This statement shows that during this period my predecessor borrowed.....\$6,445,926 83

The proceeds of the permanent loan were..... 3,378,332 50

Balance of borrowed money through temporary loans and the use of Railway Guarantee Deposits and Trust Funds 3,067,593 83

I take the end of the year 1891, because the figures are absolute and cannot be disputed, and they will prove that my forecast as on the 30th June, 1892, which I will give later on, will not be far astray.

To make a long story short, there was, on 30th June, 1891, as follows :

Cash on hand.....	\$ 471,852 59
Less required to pay outstanding warrants.....	285,602 68
	<u>\$ 286,249 96</u>

And the Province owed :

Temporary Loans.....	2,223,333 33
Railway Guarantee Deposits.....	1,973,108 57
Trust Deposits.....	262,252 47
	<u>\$4,458,674 37</u>

In other words there was a cash deficit of \$4,222,441.41.

To some this may seem startling, but it is easily verified by the speech of my predecessor on the 9th December, 1890, before this House, and by the Public Accounts for 1890-91. In that speech (page 7), selecting from his figures, he gives us as the result for 1889-90, as follows :

Total payments.....	\$5,812,907 65
Total receipts including Trust Funds.....	3,588,920 50
	<u>\$1,723,987 15</u>

This was rather a bad showing, but my predecessor got over it, and this excess was paid from the following sources :

Cash on hand, 30th June, 1889	\$ 2,210,019 79
Less outstanding warrants.....	73,259 66
	<hr/>
Excess Expenditure as above.....	\$2,136,760 13
	1,723,987 15
	<hr/>
	\$ 412,772 98

The Public Accounts show :

Cash on hand 30th June, 1890.....	\$ 525,344 43
Deduct the outstanding warrants.....	112,571 45
	<hr/>
	\$ 412,772 98

This amount was supposed to be cash available, but on examining into the cash on hand 30th June, 1890, I find it entirely composed of Trust Funds and Deposits from Railways, and though my predecessor showed the above amount of cash on hand he had used up and we owed on the same date as follows:

Railway Guarantee Deposits:.....	\$1,916,685 98
Trust Deposits.....	261,361 27
	<hr/>
	\$2,178,047 25

all of which had been used up in the Cash generally. And, in addition, the proceeds of our Loan of \$3,500,000.00 were gone.

But, Sir, while that was the state of the Cash on the 30th June, 1890, let us examine Mr. Shehyn's own statement as to the floating debt on the 1st July, 1890.

We must remember first that he bitterly complained of having been left by his predecessors with a floating debt in 1887, yet he got his loan to pay this off and started clean on the 1st July, 1887.

Do not let there be any misunderstanding, but let me give word for word and figure for figure taken from Mr. Shehyn's own lips and his own speech in December, 1890 (pages 24 and 25).

Lawrence at or near Quebec 300,000 00

\$ 6,762,033 86

What a history, Mr. Speaker, of the late administration from 1st July,
1887, to the 1st July, 1890.

We start the year 1890-91 owing \$2,178,047.25 for Trust Money, which
have been diverted from their trust and been spent.

In three years, in addition, we have a new floating debt of \$6,762,033.86, less the above amount of \$2,178,047.25, and I have not yet come to the question of increase in expenditure or reckless administration, but which I will take up later on.

A permanent loan of \$3,500,000.00 has been effected for special purposes. It is all gone, and if members will refer to my Windsor Hall speech, to the statement at the end, they will see we still owe over \$600,000 of the debts for which it was obtained.

I have just shown you what a bad position we were in, and it seems incredible to believe the late administration were not aware of the situation. Yet, Sir, how did they act?

They run the Province still further into debt and actually obtained at the session held in November and December, 1890, authority for a \$10,000,000.00 loan, based on the following statement :

(54 Vic., Cap. 2.)

Outstanding warrants.....	\$ 112,571 45
Temporary deposits.....	261,361 27
Railway guarantee deposits.....	1,916,685 98
Railway subsidies granted, but not yet earned.....	2,898,247 88
Debts Q. M. O. & O. Ry.....	122,364 00
Loss Exchange Bank deposit.....	27,000 00
Protestant settlement Jesuits' Estates.....	62,961 00
Estimated Special Expenditure 1890-91.....	912,183 00
	<hr/>
Less cash on hand 1st July, 1890.....	\$ 6,313,374 58
	<hr/>
	525,344 43
	<hr/>
Special Expenditure Supplementary 1890-91.....	\$ 5,788,030 15
do do 1891-92.....	115,488 71
Railway Subsidies voted November, 1890.....	558,555 00
	<hr/>
	4,400,320 00
	<hr/>
	\$ 10,862,353 00

Coming on down to 1st July, 1891, the Public Accounts show us as follows :

I only give a summary, as I will deal with the detail later on in submitting the estimates for 1892-93.

Ordinary expenses.....	\$4,095,520	45
" revenue	3,457,144	32
Deficit.....		\$ 638,376 13
Special Expenses and Railway Subsidies		1,775,874 41
Total Expenditure over Total Revenue.....		2,414,250 54

However, the late administration were not to be outdone to meet this excess of Expenditure. How did they do it? Of course they did not receive Railway Guarantee Deposits every year, but they had to raise the cash and here is how they paid this sum :

Trust Funds	\$ 14,394	19
Temporary Loans	2,223,333	33
Cash on hand 30th June, 1890, less outstanding warrants.....	412,772	98
Deduct.....	2,650,500	50
	2,414,250	54
Cash 1st July, 1891.....	236,249	96

But while there thus appeared to be this on hand, there was owing :

Temporary Loans.....	2,223,333	33
For Railway Guarantee Deposits.....	1,973,108	57
Trust Funds.....	262,252	47

1891-1892.

\$4,458,694 37

This year is started by having Cash on hand \$236,248.26, and yet owing cash for above purposes to the amount of \$4,458,694.37.

Well, Mr. Speaker, can you imagine anything more disgraceful and how serious for the Province. The Mercier administration went out on the 17th December, 1891, and this administration came into power on the 22nd of the same month, and a return has been submitted to the House, giving details of the Receipts and Payments to 17th December, 1891.

..... \$743,891 06

67
00
00
..... 526,693 67
..... \$217,197 39

Our loan of \$3,500,000.00 all gone, and \$600,000.00 of the liabilities for which the loan was incurred still outstanding. Our funded debt increased. Out of the loan of \$10,000,000.00 authorized in 1890, the sum of \$3,707,530.00 has been received and spent, and on account of both a large amount per year added to our interest charges.

We also owed on 17th December, 1891 :

For Temporary Loans.....	\$ 150,000 00
For Railway Guarantee Deposits.....	1,860,766 98
For Trust Deposits.....	265,376 65
	<hr/>
	\$2,276,143 63

And besides all this we have our floating debt of which I will speak later on.

I ask the Honorable Members to pay attention to these figures and see if it is not time for us to awaken.

THE LOAN OF \$4,000,000.00.

I will digress a little to give you a history of this loan, effected in July, 1891.

During this period, as above shown, a portion of the \$10,000,000 loan authorized by 54 Vic., Cap. 2 (December, 1890) was floated. The loan was for 20,000,000 francs, or \$4,000,000, and floated in Paris. 40,000 regular bonds of the Province for 500 francs each, bearing date 15th July, 1891, and redeemable in Paris two years from date with half-yearly interest coupons attached at the rate of four per cent per annum, have been issued. The bonds were placed on the market at 490 francs each, but a commission of 9 francs and 75 centimes on each bond was paid to the Credit Lyonnais and the Banque de Paris et des Pays-Bas for floating them. This left to the Province 480 francs 25 centimes per 500 franc bond. The proceeds and expenses have been as follows :—

PROCEEDS OF LOAN :

20,000,000 francs at 19 $\frac{3}{4}$ c. per franc.....	\$3,860,000 00
Sold at Fr. 490.25 per 500 Francs [3-95 per cent. discount]...	152,470 00
.....	<hr/>
19,210,000 francs at credit of Province in Paris 16th August, 1891.....	\$3,707,530 00

EXPENSES :

Stamps on Bonds.....	\$ 5,790 00
Printing and Engraving Bonds.....	965 00
Insurance and Freight on Bonds.....	96 50
Loss in Exchange to date.....	14,016 72
Travelling Expenses.....	8,802 24

\$29,670 46

The Province also pays a commission of one half per cent for the payment of the coupons and a commission of one quarter per cent for the redemption of the principal if the loan is not merged into and made to form part of the balance of \$6,000,000.00.

The loan cannot be said to be advantageous, but is onerous for the Province.

No business man would justify it, nor the expense of issuing regular bonds for a loan of such a short date. As to interest, the Province loses one month's advantage of the proceeds from 16th July to 16th August, when we get the money, and as a matter of fact, taking in the expenses, we are paying 6½ per cent.

There can be no question such an amount could have been obtained more advantageously from our Banks here for such a period of time.

Now it remains for me to give you my forecast for the 1st July, 1892.

There has just been laid before the House a statement of the receipts and expenditure up to the 1st May, 1892.

To avoid too many figures, I have in my hands statements, called Miscellaneous Statements, as to the position of the Province on the 1st July, 1892, and they have just been submitted to the House and are annexed hereto.

I have already referred to Statement No. 1, as giving a synopsis of the Cash operations, and Receipts and Expenditures from 1st July, 1887, to 1st July, 1891.

The Statement No. 2 shows you the Receipts and Expenditures from 1st July, 1891, to 17th December, 1891, and the position of affairs when I took office, and to this I will refer later on.

Statement No. 3 gives you information as to the Ordinary Receipts for 1891-92.

My predecessor's estimate was	\$3,602,835 70
To 17th December Receipts have been.....	1,545,159 63
Estimated for balance of year.....	1,867,168 36
	<u>\$3,412,327 99</u>
for a shortage or deficiency of.....	\$ 190,507 71

It will be seen the great deficiency is in Crown Lands, but after enquiry into the working of this Department it is not surprising. Recklessness, and violation of all rules of conduct are too mild to describe it, and the conduct of one official under the eye of the ex-Commissioner will explain anything. Mr. J. B. Charleson, the Chief of the Bushrangers and everything else, by his own hand, without an Order in Council, remitted and wiped out Timber dues during the year to an extent of about \$100,000.00.

Statement No. 4 shows the estimates of expenditure of my predecessor in the first column, then in the other columns the amounts expended to 17th December, and the amounts required to 30th June, 1892.

The increase is not surprising. The late administration were continually submitting to the House short appropriations and meeting the deficiency each year by Special Warrants and Supplementary Estimates. Any one can easily verify this by examining the Journals of the House each year to see the warrants and then the Supply Bills in the Statutes to see the Supplementary Estimates.

Mr. Shehyn's total estimate for the expenditure (not including repayments of Temporary Loans and Trust Funds) for the year 1891-92, was.....\$5,385,476 17

While the Revised Estimates show that the total expenditure will be.....6,479,068 10

Showing an increase for the same service of.....1,093,591 93

as follows:

and increased by \$330,870.47, viz:

Paid under contracts, and for which there was no appropriation or vote, though my predecessor must have known the money would have been wanting:

Montreal Court House extension.....	\$180,000 00
Jacques Cartier Normal School.....	111,380 62
McGill Normal School.....	6,580 00

nd for Commission Culture Beet Root.....	\$297,960 62
Royal Commissions.....	14,909 85
	18,000 00

\$330,870 47

Proceeding further and taking Statement No. 5 there will be found a statement gathered from the foregoing showing as a summary the expenditure and revenue to 30th June, 1892, as follows:

Deficit of Ordinary Revenue, to meet Ordinary Expenditure...	\$1,044,800 79
Excess of Special Expenditure over Special Receipts proper...	642,453 82
Railway Subsidies and claims of Q. M. O. and O. Ry.....	1,165,636 64
Repayment Railway Guarantee Deposits.....	231,070 14
Total estimated excess of Expenditure over Revenue.....	<u>\$3,083,961 39</u>

As I have shown you above, the similar excess

on 1st July, 1890, was.....	\$1,723,987 15
on 1st July, 1891, was.....	2,414,250 14

It will be seen the march and growth of the Mercier administration was sure but rapid.

In the above summary for 1st July, 1892, the receipts from loans are not included but only the expenditure and the ordinary revenue and what is called in the Public Accounts "Special Receipts."

Coming to the position of the Province on 1st July, 1892, it must be borne in mind that during the year 1891-1892 there was received and put into the general funds \$3,707,530.00. Out of this there was repaid \$2,073,333.33 of the \$2,223,333.33 of temporary loans outstanding on the 1st July, 1891, and the balance of the loan, without any regard to the purposes for which it was contracted, went into the ordinary cash to meet all wants.

This, of course, relieved the Province of the pressing wants and ordinary needs and satisfied the result of gross and reckless expenditure.

Taking now the summary at the end of Statement No. 4 annexed. I have already given you the total receipts from all sources including the loan and given you the expenditure at 17th December, 1891. We had the nominally, cash in Banks \$893,491.27. This summary shows the estimate from 17th December to the end of the year, as follows, and including receipts :

Ordinary Expenditure.....		
Special.....	\$ 2,353,892	
Railways and Q. M. O. & O. Ry. claims	502,335	
Repayments Railway Guarantee Deposits.....	839,781	
	119,667	
Receipts from 17th December to 30th June:..	\$ 3,815,676	
	1,867,168	
Cash 17th December, 1891.....	\$ 893,491 27	\$ 1,948,508
Less Guarantee and Trust Deposits.....	356,791 68	
		536,699 5
Cash to be provided for above all revenue to 30th June, 1892.	\$ 1,411,808 9	

The situation is therefore one that requires attention and it is evident the Province must now awaken to the moment.

FLOATING DEBT 1ST JULY, 1892.

I will not go into much elaboration about this but will give you what is most immediate.

Cash deficiency above	\$ 1,411,808 95	
Temporary Loans contracted by my predecessor and unpaid.	150,000 00	
Railway Guarantee Deposits.....	1,741,097 83

.... 1,833,300

\$8,530,798

I have not included in this a number of claims, Petitions of Right, and other matters not immediate but sufficient to show the necessity of some prompt and resolute action.

This gives you then the position of the Province on 1st July, 1892,

(1) Floating debt of.....\$ 8,533,978 67

(2) Of this there is..... 3,302,906 78

a cash deficiency comprising the above three items.

(3) There is also for the future the obligations and, as is evident from the foregoing, an enormous excess of Expenditure over Revenue giving, as will shew you later on, notwithstanding our reductions, a deficiency in annual Revenue of about \$1,000,000.

As the Railway Guarantee Deposits are large and impose a large annual obligation on the Province, it is time something should be done to prevent possibility of such large sums being diverted and used for ordinary purposes.

The following are the amounts which will be payable, each of the following years by the Province, from the 1st July, 1892, for the guaranteed interest coupons on Bonds of Railway Companies which have made deposits to secure this guarantee and payment, the amounts being paid in two half-yearly payments each year ;

--	--------------

In repaying the above amounts, in the Public Accounts, the interest on the Guarantee Deposits is charged against the Public Debt, as interest on deposits and the repayment of the Principal is entered under the head of Repayment of Railway Guarantee Deposits.

II.

LIABILITIES AND ASSETS.

Coming now to the Liabilities and Assets of the Province, the reckless conduct of the late administration is more marked and the new burdens imposed on the Province are easily seen and, I am sorry to say, being felt.

On 31st January, 1887, my predecessor, when he took office, had these made up and they are to be found in Statement 6 annexed.

I have had these made up for 30th June, 1891, and Statement 7 shews the details.

Statement 8 shews them as at 17th December, 1891.

A summary is as follows:—

30th January, 1887:

LIABILITIES	\$22,143,447 65
ASSETS.....	10,754,280 54
NET DEBT.....	<u>\$11,389,167 11</u>

30th June, 1891:

LIABILITIES	\$33,581,877 84
ASSETS	11,139,553 30
NET DEBT.....	<u>\$22,442,324 04</u>

17th December, 1891:

LIABILITIES	\$35,849,230 18
ASSETS	11,561,191 98
NET DEBT.....	<u>\$24,288,038 20</u>

Increase in 4 years.....	<u>\$12,898,871 09</u>
--------------------------	------------------------

As the Assets and Liabilities on 1st July, 1892, will be approximately the same as on 17th December, 1891, I will now give these Liabilities and Assets on this latter date in full.

APPROXIMATE STATEMENT of the Liabilities and Assets of the Province of Quebec, at the 17th December, 1891, based upon official reports furnished by the different Departments, but not including a large amount of disputed claims, nor those arising out of Letters of Credit or Acts prior to this date, nor amounts due to the Province from the Municipal Loan Fund, nor from municipalities for other matters.

LIABILITIES.

Funded Debt outstanding.....		\$25,209,873 33

Advances to various parties.....	138,348 02	
Estimated amount due as Quebec's share of interest on Common School Fund by Ontario.....	145,352 69	
Quebec Court House Tax, under 45 Vic., chap. 26, and 48 Vic., chap. 15.....	90,000 00	
	200,000 00	
	<u>\$11,561,191 .98</u>	
Excess of Liabilities over Assets at 17th December, 1891.....	24,288,038 20	
	<u>\$35,849,230 18</u>	

An examination of all these shew that our Assets have not increased. The main difference is in the cash on hand.

The net debt has more than doubled.

A comparison of some of the Liabilities shews as follows and indicates the increase :

	30th Jan., 1887.	17th Dec., 1891.
Funded Debt.....	\$18,155,013 33	\$25,209,873 33
Temporary Loans and Deposits.....	729,227 67	408,243 25
Estimated Deficit current year.....	370,842 00	496,723 67
Railway money Subsidies.....	579,732 25	3,147,910 99
do lands do converted.....	1,084,328 50	1,144,325 90
do do do unconverted.....	464,100 00	1,759,800 00
Railway Company Guarantee Deposits.....		1,860,765 64
	<u>\$21,383,243 75</u>	<u>\$34,027,642 78</u>

The most of these items shew at 17th Dec., 1891, practically a marked burden in these few years on our Public Debt and interest charges.

Our funded debt has increased \$7,054,860.00, and consequently our interest charges are increased over \$350,000.00 annually, a serious inroad on our ordinary revenue, which has to pay it.

III.

THE ADMINISTRATION OF THE LATE GOVERNMENT.

In my Windsor Hall Speech, I went rather fully into this to shew the reason why the Province was in the position it is. I could dilate on this for days and hours only to prove the recklessness and the want of care and even the corrupt expenditure, but I will now submit to you a tabular statement taken from the Public Accounts, since 1885-86, and with the forecast for 1891-92. This shews also the revenue.

You can see at a glance the extraordinary way in which the expenditures went on increasing year by year, and how little regard was had with respect to the revenue.

increased.

All the items have gone on increasing enormously, and this, in violation of all the promises laid down by my predecessor in his speech of 12th April, 1887. He complained bitterly of the expenditure of his predecessors in Public Works, and to his friend, the Honorable Mr. McShane, the expenditure in this Department was now confided, with the remark made by Mr. Shehyn that he would have "an opportunity to exercise his vigilance."

Look at the figures while he remained in office and see how the vigilance was exercised. Bad and all as his administration was of Public Works, those of his successor and the ex-Commissioner do not show any better or any business application.

Take again the Administration of Justice, which has run up from \$178,000 odd to \$695,000, and this in the face of Mr. Shehyn's pledge, and let me give you his own words taken from the same speech when he complained of enormous expense in 1886, and he there said: "My honorable friend the Premier (meaning Mr. Mercier) is giving attention to this important question, and I am satisfied that he will not fail to deal satisfactorily with it when he shall have the necessary time at his disposal after the session."

The same thing was said about Agriculture and Crown Lands, and yet, see the humiliating position in which the Province is left to-day.

I will give but one more quotation from his speech, and then the public will judge:

"Lastly, our well-defined policy, one of the principal features of our programme, is to exercise the strictest supervision over the expenditure of the public moneys, to closely watch their outlay, to control all the expenses, and to conduct the business of the Province as the business of our best managed financial institutions and great commercial houses are conducted, and according to the rules and the practice observed in those institutions.

"This is the end we have in view. To attain it, however, we must necessarily take time to seriously and thoroughly study all the details of our administrative organization so as to avoid doing anything that may not be in keeping with prudence and that will not produce solid and lasting results. I am quite convinced that, by acting with discernment and in accordance with the principles of a wise administrative economy, we shall succeed in materially and permanently reducing our ordinary and controllable expenses.

Now I give you the statement.

COMPARATIVE STATEMENT of Payments and Receipts of the Province of Quebec, for the fiscal years 1885-86, to 1891-92, inclusive.

EXPENDITURE	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92. (ESTIMATED)

TREASURY DEPARTMENT,
Quebec, 26th April, 1892.

6. Our annual revenue does not exceed an average of \$3,500,000.00 and we have an enormous annual deficiency and excess of expenditure over revenue to face.

7. We have to provide on 16th July, 1893, for the redemption of the loan of 1891 of 20,000,000 francs.

V.

1892-1893 AND THE FUTURE.

The estimates of expenditures have been put before you for the year 1892-1893.

In the first place, I will give you an estimate of our revenue. I may say at the outset, our sources of revenue are few.

We have the subsidy and interest on trust funds from the Dominion of Canada, payable half-yearly. These come under the terms of the B. N. A. Act, sec. 112, 36 Vic., cap. 30, and by 47 Vic., cap. 4, Canada, and now amount to about \$1,278,952.80. In addition, we have the interest on the price of the Q. M. O. & O. Railway, amounting to \$367,908.07, or forming a total of \$1,646,860.87.

Then, we have our Crown Lands, which are a valuable source of assets, and yield us at present in the neighborhood of \$750,000.00 per annum.

Apart from these two sources of revenue, any other source of revenue is obtained by a tax or license direct upon the people. We have, on this way, a further source of revenue from the Licenses, direct taxes on Commercial Corporations, from Law Stamps, from the Common School Fund, and from Casual revenue. However, the source of revenue does not increase very rapidly, and I will give you, as an illustration, the total receipts for the fiscal year 1890-91 as these receipts are known and definite.

RECEIPTS FOR THE FISCAL YEAR 1890-91.

Dominion of Canada	\$ 1,278,952 80
Crown Lands	742,544 62
Administration of Justice.....	236,094 48
Percentage on fees of Public Officers.....	10,473 62
Licenses.....	586,206 14

Legislation	\$ 5,440 08
Lunatic Asylums—Contributions from municipalities and paying patients.....	8,138 60
Official Gazette	24,351 26
Public Buildings—Rents	762 17

Interest on deposits in Banks and on Advances	32,357 11
Premium, Discount and Exchange.....	2,884 44
Interest on the price of the sale of Q. M. O. & O. Ry.....	367,908 07
Refunds	10,841 91
Total Ordinary Receipts.....	\$ 3,457,144 32

TRUST FUNDS.

Teachers' Pension Fund.....	\$ 4,758 66
City of Hull Sinking Fund. ..	140 36
Marriage License Fund.....	6,759 00
Public Officers' Security Deposits.....	1,000 00
Return of Advance to Protestant Hospital on account of the price of Leduc Farm..	12,649 02
Railway Guarantee Deposit.....	2,500 00
Temporary Loans.....	278,520 00
	2,223,333 33
Total Receipts from all sources	\$ 5,974,146 67

I have already given you in the Miscellaneous Statements which are annexed, the receipts which, of course, are only estimates for the year 1891-92, amounting to \$3,412,327.99.

I now give you in detail what are the Estimates of our receipts for the year 1892-93.

ESTIMATED RECEIPTS 1892-93.

Dominion of Canada:

Subsidy under B. N. A. Act.....	\$ 959,252 80
Interest on Trust Funds.....	72,539 32
Special Subsidy under 47 Vic., chap. 4...	127,460 68
Interest on Railway Subsidies under 47 Victoria, chapter 8.....	119,700 00

Interest:

Interest on price of sale Q. M. O. & O. Ry.	370,000 00
do on loans and deposits	25,000 00

\$ 1,278,952 80

Administration of Justice:

Law Stamps.....	\$ 170,000 00
Law Fees.....	6,000 00
Building and Jury Fund...	10,000 00
Municipalities, for maintenance of prisoners.....	10,000 00
Gaol Guards—Montreal and Quebec	4,000 00
Fines.....	500 00
Montreal Gaol.....	8,000 00
Montreal Court House.....	3,500 00
High Constable's Fees, Quebec.....	500 00

395,000 00

Registration Stamps.....	212,500 00
Licenses (Net revenue).....	17,000 00
Crown Lands.....	500,000 00
Taxes on Commercial Corporations (Net revenue).....	768,150 00
Percentage on Fees of Public Officers.....	140,000 00
do on renewals of hypothecs.....	8,000 00
Legislation.....	300 00
Official Gazette.....	3,000 00
Maintenance of Insane.....	25,300 00
Rents of Public Buildings.....	10,000 00
Contributions to Pension Fund.....	1,000 00
Casual Revenue.....	7,500 00
	2,000 00

1,694,750 00

\$ 3,368,702 80

There may be some receipts from Repayments of Advances, Municipal Loan Fund and Quebec Fire Loan, but it is impossible to give any definite estimate or one that could be relied on. For instance, the Estimate for 1891-92 for the Municipal Loan Fund amounted to \$25,000, yet only \$3,000 have been so far received.

It will now be seen at a glance that our ordinary revenue is in round numbers \$3,400,000. These figures may be exceeded in the Crown Lands receipts, if the business season is good and the lumber trade flourishing. Keeping in view our obligations arising from our floating debt, I now come to the next and most serious part of my remarks, and that is for next year and the future.

EXPENDITURE 1892-93.

In the Estimates that have been laid before the House, you have already had a Summary of the probable expenditure and a comparison with 1891-92, but at risk of repetition, I will give you these again as follows :

SUMMARY OF ESTIMATED EXPENDITURE FOR 1892-93 AND COMPARISON WITH 1891-92.

	1892-93.	1891-92.
Public debt.....	\$1,696,433 12	\$1,470,626 96
Legislation.....	198,339 60	292,115 20
Civil Government	253,507 54	272,140 50
Administration of Justice.....	623,355 00	695,355 00
Public Instruction.....	386,460 00	415,656 98
Agriculture, Colonization and Emigration	222,019 25	311,946 85
Public Works :		
Ordinary.....	\$ 106,720 36	
Extraordinary.....	375,600 00	
	<hr/>	<hr/>
Lunatic Asylums and Charities.....	482,320 36	159,360 45
Miscellaneous.....	355,725 00	422,812 05

Railway subsidies and Q. M. O. & O. Ry.		1,180,915 62
for letters and acts.....	1,052,821 19	1,165,636 64
To provide for settlements prior to 17th		
December, 1891		72,831 89
	<hr/>	<hr/>
	\$5,582,178 06	\$6,843,855 82

An examination of this statement will show you to a certain extent the determination of the present Government with reference to an economical administration and a retrenchment of the various services, and yet maintaining the efficiency of the Public Service. The task of doing this has been more than difficult, but the Premier and my colleagues have gone to the work energetically, and with the few months at our disposal I have no doubt the public will appreciate our labours. As a commencement we show to you and to the public a reduction in all expenditures in one year of \$1,261,677.76, and I may say to you that with a little more time we will make a still further decrease by proper and judicious control of the expenditure.

The following are the services in which the decreases are shown.

These are items of ordinary expenditure, so that the reduction is permanent, and an annual one.

Legislation :

The reduction here is \$93,775.60, but of this there is about \$65,000.00 for general elections, so we should only claim credit for.....

Civil Government.....	\$ 28,775 60
Administration of Justice	18,682 96
Public Instruction	72,000 00
Agriculture, Colonization and Immigration	29,296 98
Public Works, Ordinary	89,927 60
Lunatic Asylums and Charities	52,640 09
Miscellaneous services	67,087 05
	73,260 86

Total reduction Ordinary Expenditure.... \$ 431,621 14

Honorable members will observe that the Special Expenditure in 1891-1892 of \$1,180,915.62 disappears entirely.

As against this, however, we have a certain number of items which used to be generally included by my predecessor in Special Expenditure, now included under the heading of "extraordinary" in Public Works, but only amounting to the sum of \$375,600.00. Now, taking the average of special expenditure under our predecessors it was at least \$650,000.00. A very large portion of this was really ordinary or current expenditure. Take this in round figures at \$250,000.00, and add it to the \$431,621.14 above, we show you an annual reduction of \$681,621.00.

I may repeat, Sir, that we can still further make honest reductions in all the services I have just indicated, and as we have brought Legislation within about \$18,000.00 of what it was in 1885-1886, we feel we can do more with this and certainly the same with the other services, but it all wants to be done in an organized way, so as not to impair the efficiency of the services.

The honorable members will find in the Miscellaneous Statements annexed to this, a detail of the payments estimated for the year 1891-1892, but I now give you for general information a detail of the payments of the fiscal year 1890-1891. These are fixed and known and subject to no dispute. I give them so that you may compare our policy with a year with known data.

This shews :

Total Payments 1890-1891	\$ 6,150,669 69
do do 1892-1893	5,582,178 00
Reduction	\$ 568,491 69

This apparently would be at first an unfavorable comparison, but as will be seen from the estimates for 1892-1893, we have to pay for charges on Public Debt and for Repayment Railway Guarantee Deposits imposed by our predecessors, \$202,829.38 more than in 1890-1891. For Q. M. O. & O. Ry. claims, and Railway Subsidies, consequent upon the enormous grants in the fall session of 1890, we have to pay at least \$100,000.00 more. So that as regards 1890-1891 we show :

Reduction as above	\$ 568,491 69
Charges for interest and Railway Guarantee Deposits ..	202,829 38
Railways	100,000 00
	\$ 871,321 07

To give you details, the expenditure of 1890-91 was as follows :

PAYMENTS OF THE FISCAL YEAR 1890-91.

Public Debt	\$1,271,506 33
Legislation	281,078 74
Civil Government	269,660 07
Administration of Justice, including Police	570,078 61

By giving you this, it will afford an opportunity of comparison between these payments and between those mentioned in the Miscellaneous Statements annexed and with Expenditure set forth in the Estimates now before the House, to show in what way the present Government have redeemed the pledges they made before the electors and which they think absolutely necessary for the benefit and welfare of the Province.

The serious point, however, is that on an examination of these expenditures in the Estimates just submitted to you for 1892-93, as compared with the Estimates of Receipts, I have put before you, the showing is as follows:

Total Estimates 1892-93 in order to fulfil obligations.....	\$ 5,582,178 00
Total Estimates, Receipts.....	3,400,000 00
Deficiency, or Excess of Expenditure.....	\$ 2,182,178 00

If, however, we deduct from this Excess the amount included for Railways, \$1,000,000.00, it will be seen that the total deficiency for the rest of our Expenditure will be \$1,182,178.00, in which is included \$375,600.00 of extraordinary expenditure in Public Works. This, in addition to the floating debt of the Province on 1st July, 1892, is what we have to meet in the future.

On looking at the item of expenditure under Public Debt and Repayment of Railway Guarantee Deposits, it will be seen that by adding these two together, we have, as a first charge on our revenue, the sum of \$1,696,483.12 to meet next year. In taking the list of Railway Guarantee Deposits, I have given above, it will also be seen this amount will not be much reduced on this account for at least six years to come.

Turning back to the year 1885-86, the charge in connection with our Public Debt only amounted to \$977,760.32, so that we have in these past

four and a half years to meet an increase of \$718,672.80 in our fixed charges. Taking, however, this fixed sum and deducting it from our revenue, the result is as follows:

Ordinary Revenue, say.....	\$ 3,400,000 00
Charges for interest and on Public Debt, &c., 1892-93.....	1,696,433 12
Leaving a balance of.....	\$ 1,703,566 88

which is a very small amount left for the ordinary services of the administration, apart from our obligations for Railway Subsidies.

There is but one course open, and that is to bring about equilibrium between our receipts and expenditure and avoid new obligations. To arrive at this we must for some years to come increase our revenue, and this means increased taxation. It is useless and idle for us to think the Province can go along any further without taking means to pay our obligations. My predecessor got over all his difficulties by making loans and using Trust Funds, but this we have now to stop, if for no other reason than that the Province should not resort to further borrowing.

There can be no question that, since the elections, our credit has been very much restored, and our bonds on the English market have increased in value. We must maintain this position and make it still better, but we can only do this by showing that we have resources and means of revenue to meet our obligations. There was a time when the public were aware that the Dominion subsidy did not exceed our interest charges. There was probably a feeling that no matter what our ultimate sources of revenue might be, as long as the Dominion was paying us a subsidy, they would not see our bonds or our credit fail, because the Dominion had enough in its hands to pay our interest charges and save our credit. Under these circumstances borrowing was easy.

Now that time has gone, and we find that our interest charges more than exceed the amount of the subsidy payable by the Dominion.

Let us now rely on our resources and meet the difficulties by our own means and energies.

No doubt we can still make and will make further reductions in our expenses, and with our Public Debt. The items on Legislation, Civil Government and others will decrease.

We are now giving \$55,725.00 in charities. Many people will be disappointed this year in not having their applications granted, but the

Government, in view of an increase in our burdens, had to cut down and refuse many, and those we have granted were only under special circumstances and because they had relied on the grants. I may state, however, that the next Estimates will shew a reduction of most of these items, and there will only be allowed to remain those of a public or general character.

Returning to the question of Ways and Means, and speaking in the best interests of the Province and our credit for some years, we must look for an increased revenue in the neighborhood of \$1,000,000.00 per annum. It is idle and useless to hide the difficulty imposed by our predecessors. It is a question of our constitutional existence. To meet it, it is but a little help from all. To go on at present we cannot. We must be practical and there is no doubt of the future. We have the finest Province in the Dominion, we are rich in lands and minerals. The St. Lawrence passes throughout its entire length, and is the great highway of communication from the West, not only of Canada but of the United States to Europe. The commerce of the Dominion and the great railway systems are centered in our midst, and what we have to do is to take advantage of all these.

It may be that some of the remedies we will have later on to suggest may throw a large amount of odium upon the Government, but, Sir, with the examination that has been made, I feel that we are right, and no matter what may take place to-day, history will sooner or later write upon its pages that we have acted patriotically and wisely.

With these explanations, somewhat tedious perhaps and lengthy, I ask the cooperation of all the members of the House to examine the Estimates and be prepared later on to meet the Government in the measures that will be brought down to put our Province straight.

I now move, Mr. Speaker, that you leave the Chair, and the House resolve itself into Committee of Supply
