TURKISH BLACK SALVE

UNDER THE PATRONAGE OF THE HONORABLE

THIS SALVE, prepared from the original Receipt procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompsed by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encourage ment which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarily precludes their entering into any adequate public, they intend to publish, from time to time, such statements of cures as have or may occur and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success—Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows, Scalds from Steamboat explosions, or other causes, Burns, Fever Sores, Scrofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Boils, Frostbites, Wens, Chilblains, Ulcerated and Common Sore, Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm On insurances for the water of Erlet's observation of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid; or to remain as a permanent Loan, at the option of the Insurer.

In fact, it is impossible to enumerate half the comfact, it is impossible to enumerate half the comfact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve. It is very portable-will keep in any climate, and requires little or no care in its application, as it may be spread with a knife on any

substance, such as chamois leather, linen, or Sold in Montreal by S. J. LYMAN & Co, Place d'Armes; SAVAGE & Co., Notre Dame Street; URQUHART & Co., Great St. James Street ; W. LYMAN & Co, St. Paul Street, and in all the principal Cities in Canada.

Professor Johnston, a gentleman celebrated as an Agricultural Chemist and author of several works on the subject, visited North America last year, and gave lectures at several cities, in which he explained his particular theories and their Bulls on the state in which he found the Agriculture of Canada and the United States, and his account is by no means flattering. He says that in these Provinces, and in the Northern States of the by no means flattering. Professor Johnston observes, that the comparative ease with which grain is raised in the new and fertile lands in the West leaves very little inducement to the farmers in the Eastern States to reclaim their lands by adopting the improved Agricultural practice of England and Scotland, though even in the West wheat crops are neither large nor cheaply raised. I am to explain, however, that the Deputation have misunderstood His Lordship as having said that he had no doubt that, with the security which the Quebec and Melbourne Company had it in their power to give, the requisite funds might be raised in the City. The observation made by His Lordship was that, in the present state of the money market, these ought not to be any difficulty in obtaining money in the City for any work affording a really good security, and that if the present undertaking was calculated to be in-advantageous as it was represented, and as His Lordship believed it to be, it was probable that the capitalists of this country would not fail eventually to recognize its value, though perhaps it might take some time to restors the confidence which had been shaken by recent proceedings in Canada.

TORONTO, August 20, 1850. Nothing has been talked about here since Saturday but the "Toronto Road Company" swindle. seems the bargain is not yet ratified, taough to be in a fair way of being disposed of. Beaty has gone to New York to get the matter arranged with Hoople, who takes £36,000 of Stock. The £4,500 has been paid in to the Treasurer of the Company; not the Government, as I formerly supposed. The apologists of the Governnent would have us believe that the old advertisement, issued under a mistaken view of the powers of Government in reference to the matter, was sufficient publicity to justify the Government, when it became invested with new powers, to dispose of these Public Works without further notice. The fallacy of this is obvious. It had gone forth to the public that the Government had no power to dispose of Public Works to private companies. The fact had been proclaimed in Parliament by the Inspector General; but it did not become generally known that an Act was passed vesting Government with that power. The Act was not published; no advertisement invited new tenders under his new authority. The thing was considered as but in embryo. TEN YEARS STANDING!

NEW YORK, Jan. 9, 1848.

DR. HALSEY—DEAR STRIM HAVING taken your Forest Wise and Pills to remove a disease of the Liver, from which I have suffered severely for large adherent all selvents. Forest Wise and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years and, having adhered chaely to the directions which accompany the Modicines. I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wise and Pills, I had recourse to the best medical treatment, but continued to grow worse to an starming degree. Some of my friends spoke despiritugly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundre is who are desuaded from taking your excellent Medicines, in consequence or the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is that the deception used by others should be the means of disstanding many laboring under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wreteled condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cured, and had increased fifteen pounds in weight, having taken one box of the Pills and two bottles f the Wine. Would to God that every poor sufferer would avail himself of the same remedies!

"From what they have heard and seen of Halsey's Forest Wine, it is an excellent and good idedicine, and will, undoubtedly, become the leading Medicine of the day." Dr. Mott, of New York, also subscribes to the virtues of Halsey's Forest Wine, by recommending it to many of his Patients.
