Total of Fifteen American Vessels Are Believed Sunk

HAVOCWROUGHTAMONGSHIPPING WIDE SPREAD PLOT FOR ON ATLANTIC COAST; AMERICAN DESTROYERS INSEARCH OF SUBS

Many U.S. Ships Sent to Bottom Last Night; Those Des-troved May Total Fifteen, New York Hears; Coast

Anti-Seviet Cessack Forces
Continue Their Agitation
Against Bolsheviks Well Defended, and U. Boat Depredation Not to be Feared

NEW YORK, June 3.—(Bulletin).—One steamship, one schooner and two or three other vessels have been sunk off the Jersey coast by a sub-

The ships were attacked some time during the night, according to information which was received here. Details were not immediately available. The port authorities barred the departure of outgoing ships this forenoon.

It is presumed here that the submarine or submarines are now being dealt with by American destroyers.

One of the ships sunk was the Edward H. Cole, a sailing vessel. It was asserted in shipping circles that it was possible that as many as six additional vessels were destroyed, not including those known to have been sunk.

COAST IS PROTECTED

WASHINGTON, June 3.—The Na vy Department later announced that it had received an official report that three American schooners had been sunk off the coast by enemy submarines.

If the German admiralty expects to find the American ports unprotected because a great force of American destroyers has been concentrated in the war zone around the British Isles, it is mistaken, naval officials say. While the anti-submarine craft in the war z one are in large numbers, the protection of the steamer lanes on this side of the Atlantic has not been overlooked, and it is said there are adequate forces in home waters to meet them. Recurrent reports of German submarines on this side of the Atlantic have been closely examined by the Navy Department du ring the last week. Reports of one German submarine near the Virginia Cap es were current in Hampton Roads Saturday night. It was said navy flying boats, submarine chasers and other anti submarine craft in that district i mmediately went to sea in search of the rai ders.

MAY BE FIFTEEN SUNK

NEW YORK, June 3.—Informati on received at the Maritime Exchange here indicated as many as fifteen ves sels have been sunk.

WASHINGTON, June 3.—Naval o fficials said that up to the time the Associated Press dispatches, telling of the destruction of American shipping off the New Jersey coast by German subm arines were received in Washington, the navy department had no information of the presence of enemy raiders in home

The submarines undoubtedly were looking for American transports. Having been checked in the war zone, the German admiralty apparently has concluded to carry the submarine warf are to the doors of America in hope of stopping the flow of troops which will turn the balance against the Central Powers on the western battle front.

Chatham, Mass , June 3 .- A report is current on the Cape that a ship has been torpedeed off Nantucket Shoals, No official confirmation of the report is

obtainable. BAY CLOSED Providence, R.I., June 3.— Narragansett Bay was closed to out-going vessels this afternoon by order of the commandant of

the naval station at Newport.
A DENIAL
Boston, June 3.—It was stated at the office of the commandant of the first naval district to-day that there was no truth in the report that a vessel had been sunk by the submarines off Nan-

Moderate winds, fair, not much change in temperature.

tucket shoals. The office investigated thoroughly a report that a transport had been torpedoed.

The port of Boston was closed at noon to-day. Narragansett Bay had been closed earlier and every precaution against the appearance of German sub-marines on the New England coast was taken.

marines on the New England coast was taken.

Among the many reports received here to-day, was one that a German submarine, after sinking four vessels off the New Jersey coast, was captured and was being taken into New York. Local navy officials denied any definite knowledge of the matter.

Not A Surprise.

Rumors of the presence of German submarines off the American coast have been current for the past two weeks, the reports telling of one of more having been sighted in southern waters. The attack upon American shipping almost at the entrance of New York harbor is taken to mean that Germany has at last inaugurated a submarine campaign to break up transport of troops to France.

Within the last week a South American ship arriving here brught reports of the presence of two German subfarines in the vicinity of Bermuda. The reports that 15 vessels had been sunk seems to indicate the presence of a number o fsubmarines and that the enemy has inaugurated

an attack in force. Two submarines attacked the

Two submarines attacked the Edward H. Cole, according to the commander of the vessel, Captain Newcomb. They appeared simultaneously, one on each side of the vessel, and signalled the captain to heave to.

The commander of one of the submarines then boarded the schooner in a small boat, and gave the crew 10 minutes to leave the ship.

The crew took to their own boats immediately, and the German sallors then planted bombs on the vessel and blew her up.

Just before the explosion occurred, an American steamship appeared in the offing, and the other submarine gave chase. The last Captain Newcombe saw of the steamer she was making off at full speed.

The crew of the Edward H. Cole was subsequently picked up by an auxiliary naval vessel and brought to an Atlantic port last night, and then sent here by train. They were taken in charge by naval officials.

The auxiliary vessel carrying the Edward H. Cole was subsequently picked.

by naval officials.

The auxiliary vessel carrying the Edward H. Cole's crew was pursued by the submarine, but escaped by taking refuge in the Atlantic port.

TWO MORE

Washington, June 3—Besides the Edward H. Cole, the names of two other ships sunk have been reported to the navy. They are the schooners Jacob 8.

COUNTER REVOLUTION IN RUSSIA DISCOVERED

Revelations

NATION IN DISORDER

Mich involves a large part of Russia, has been discovered in Moscow and Petrograd. A state of siege has been declared in Moscow, and many appropriate the control of the co of siege has been declared in Moscow, and many arrests have been made by the Bolsheviki government. Some important railway lines and junctions have been captured by mutinous Czecko-Slavak troops; while in the south the Kuban and Don Cossack districts threaten revolt. The food situation in Northern Russia is said to be serious now that the Ukraine is in German/control, and the Kuin German/control, and the Ku-ban and Don districts are being harassed by counter-revolution-

ary organizations.
BOLSHEVIKI HANGED London, June 3.—The present of the Bolsheviki commi sioners in the Don Cossack ter-ritory has been hanged by anti-soviet Cossacks, according to a Reuter dispatch from Moscow. He was the chief organizer of the Cossack movement against General Kaledines.

CONSULS BARRED
Moscow, Wednesday, May 29
The Chinese government has
formed Foreign Minister Tehitcherin that it regrets that it is unable to adunt Russian soviet consuls in China, because

the soviet government has not been recognized by China. The legation here has been instructed not to discuss the matter, but to confine itself to commercial relations. This has

Caused some surprise to the Bolsheviki government, because last January China proposed that Russia senda an unofficial diplomat to Peking, and because relations between the two countries had been very friendly.

PROTEST TO FRANCE

Moscow, Wednesday, May 29

— (By the Associated Press)

Foreign Minister Tchitcherin has protested to France against the further retention of Russian troops on the French front. The protest declares that Russia's neutrality makes it imperative that Russian soldiers be immediately removed from France.

A division or more of Russian troops have been in France since 1916. The Russians, however, never took a very active part in the fighting, and have not been mentioned in official reports recently.

BUILD RAHLWAY

recently.

BUILD RAHWAY

Moscow, Wednesday, May 29.

The Germans are building two temporary railways in northern Finland. One line runs eastward toward Kem on the Mormansk railway in Russia, and the other northeastward from a rail end in Finland toward Petoenga Bay, which is included in the strip of the Mormansk region which Russia is preparing to cede to Finland.

HUNS PUSH ECONOMIC INTRIGUE INTO ASIA

Are Buying up all Available Crops, And Placing Orders For Years Ahead—Seek Control of Roumanian And Ukrain ian Harvests

By Courier Leased Wire.

London, June 3,—The Germans steadily are pushing the tentacles of their economic control far into Central Asia where they are buying up available crops, including cotton, and placing orders for many years ahead, says the Daily Chronicle. The foundation of these developments is in the German control of Roumania and the Ukraine.

Control of the Roumanian and Ukrainian harvests would provide Germany, not only in this, but in any future war with a complete solution of her food problem, the Chronicle adds, "She would also thanks to her unlimited access tocentral Asia have little further trouble with any but tropical raw materials.

"Her eastern policy can only be undone adequately by the Allies after they have achieved victory, but more attempts ought to be made now to frustrate present developments."

been growing. By the middle of 1813 this population will be only 3 per cent. lower than it would have been without the war. Great Britain, in 1919, will have a larger population than in 1914.

Annual Gain of Population in Germany Gives Way to Serious Loss

TWO CENTS

ALLIED LOSS IS SLIGHT

German Birth Rate Declines. And Sickness Becomes Prevalent

BRITAIN IS GROWING

London, June 3. (British Admiralty per wireless press) -The drain of manpower, the fall in the number of births and the in the number of births and the loss of the population through sickness and underfeeding is felt more severely by the Central Powers than by the people of the Entente. Whereas the annual gain of population in Germany, in Austria and Hungary has given place to a serious loss peoples of the Entente have suffered a very small diminution in comparison.

Gt. Britain's total population has so far remained at about the same figures, gains balancing losses. The rate of increase has not been affected at all. As the not been affected at all. As the war grows this growing disparity in the loss of population between the Central Powers and the peoples fighting them is likely to increase. If the war goes on into next year, the population of the German Empire on which reliance was placed for the enlargement of Germany's prosperity and industry for repairing this injury to trade and commerce after the war will have lost 10 per cent of the number and a still greater proportion of its industrial

The German Empire which in June 1919 should have had seventy two millions of people will have no more than sixtymany as a whole will have five per cent less population than when the war began. Of those that have been killed the great-

many as a whole will have five per cent less population than when the war began. Of those that have been killed the greater number were men in the prime of life and energy whom Germany could lease spare. By deaths in the battle zone, the German Empire has lost at least 3.000,000 men. The birth rate has sunk to such a figure that by next year the number of births will have fallen short of what they would have been had there been no war by three and a third million of children.

In the same period the annual number of deaths among the German civilian population has, owing to the stress and anxiety of the war and owing to sickness and disease which have been aggravated by hardships and food troubles, increased by one million over the normal. But this is perhaps to be regarded merely as weeding, and no great biologicalloss. Much of mortality among children and among the civilian population as a whole has been caused by the way in which the food supply of Germany has been mismanaged in the interests of the land holders and the farming class, and to the detriment of the poor. The land holders and farmers have prospared while the poor in the towns have gone short of bread and potatoes.

On the other hand, because of the liberal separation allowances and the high wages, the vital conditions of the working classes in Great Britain have been better since the war than when the war began. By next year, the German empire will be 7,025,000 lower in population than it would have been had the war not taken place. The vitality of the peoples of Austria and of Hungary has suffered even more. This, perhaps, was to be expected. The peoples of Austria have been had the war not taken place. The vitality of the peoples of Austria have been had the war not taken place. The vitality of the peoples of Austria and of Hungary has suffered even more. This, perhaps, was to be expected. The peoples of hustria and of Hungary has suffered even more. The peoples of hustria have been better since the war and 13 per cent. lower than if would have

The submarines undoubtedly were looking for American transports.

two or three other vessels have been sunk off the Jersey coast by a sub-

formation which was received here. Details were not immediately

available. The port authorities barred the departure of outgoing ships

One of the ships sunk was the Edward H. Cole, a sailing vessel.

as six additional vessels were destroyed, not including those known to

troyed May Total Fifteen, New York Hears; Coast

a transport had been torpedoed. The port of Boston was closed at noon to-day. Narragansett Bay had been closed earlier and every precaution against the appearance of German submarines on the New England

coast was taken. Among the many reports re-ceived here to-day, was one that a German submarine, after sink-ing four vessels off the New Jersey coast, was captured and was being taken into New York. Lo-cal navy officials denied any de-finite knowledge of the matter,

Not A Surprise. Within the last week a South American ship arriving here brught reports of the presence of two German subfarines in the vicinity of Bermuda. The reports that 15 vessels had been sunk seems to indicate the presence of a number of submarines and an attack in force.

Two submarines attacked the Edward H. Cole, according to the commander of the vessel, Captain Newcomb. They appear-

The commander of one of the submarines then boarded the schooner in a small boat, and gave the crew 10 minutes to leave the ship.

leave the ship.

The crew took to their own boats immediately, and the German sailors then planted bombs on the vessel and blew her up.

Just before the explosion occurred, an American steamship appeared in the offing, and the other submarine gave chase. The last Captain Newcombe saw of the steamer she was making off at full speed.

the steamer she was making off at full speed.

The crew of the Edward H. Cole was subsequently picked up by an auxiliary naval vessel and brought to an Atlantic port last night, and then sent here by train. They were taken in charge by naval officials.

NEWS FROM NORFOLK COUNTY

COUNTY COUNCIL'S PATRIOTIC RECORD

Review of Four Year's of War: Activities by Norfolk Council

(From Our Own Correspondent.) Simcoe, June 3rd-As the County Council will open the June session to-morrow we have considered that a general retrospect of the county's contribution to the patriotic fund and other patriotic efforts, from the county treasurer, placed in an intelligible form will be of interest to our Norfolk readers. In 1914 Coun-

To Belgian Relief fund...\$2941.35 To Local Dependents of soldiers 150.00

Total \$3121.35 And left an overdraft at the end of the year of \$4709.26. Mr. Dalton's estimate and 1914 county levy was short \$1687.91 of the regutar expenditure had war garding the possibilities of handling not broken out after the ratio was lowance.

Grants in 1915:-To the Patriotic Fund ... \$18028.65 To Recruiting Committee. 3000.00 ably pass a by-law this evening cal-

Total \$21028.65 Mr. Dalton's overdraft this year was \$20916.17 although all save \$3000 of these grants were foreseen before the rate was struck. As each of the above grants was

made it was stipulated that the funds should be provided by general levy in the next estimates. Grants in 1916:-

To Patriotic Fund\$47000.00 equipment (actual) To British Red Cross . . 7115.84

And although proceeds of the sale of patriotic fund debentures, amounting to \$75,041.70 was dumped into the treasury the year closed with an overdraft of \$691. McKiee however in reducing the 1915 overdraft above had approximately \$13000 of patriotic debenture money still in the general account. Grants of 1917:-Patriotic Fund\$60000.00 British Red Cross14230.00

\$74230.00 Chairman Duncombe converted the overdraft to a balance and hand of \$5278.78 at the end of the year, bettering the condition by \$6209.78 and paying out for patrio-tic purposes \$2582.19 more than was received for the 1917 debenture

It is quite possible that an oc-casional small grant may have escaped out notice but the following summary is for all purposes approximately correct:

1914 (general levy) ...\$ 31221.35 1915 (general levy).... 21028.65 (debentures) 61908.84

Total \$160288.84 It is quite clear therefore that of the \$146,685.51 derived from the sale of debentures \$136,138.84 has been spent for patriotic purposes since 6 months before the first debenture by-law was passed.
About \$10,150 of debenture funds

plus accrued interest, which the account should have been bearing, was still absorbed in the general account when the books were closed last December.

SIMCOE AGENCY

The Brantford Courier 55 Peel Street. An Excellent Local Advertising Medium Telephone 390; Nights 356-3

Strickly speaking, all payments made up to and including May, 1915, should have been provided for general levy at the time.

Aside from patriotic expenditures has taken a deal of money to finance the county during recent years, as the following receipts will show: 914 county rate \$36,700 1915 county rate 54,876 916 county rate 58,112 1917 county rate 79,407

Matters for Consideration The county council will this week:

(1) Appoint a treasurer; (2) determine and provide for the year's grants to the Patriotic fund. (3) Dispose of the Y. M. C. A appeal for funds. And (4) very prob-

ably hear from Supt. Marston. 260 miles of road on the present al-

Town Council To-night The town fathers will very probculated to provide the machinery for disciplining that portion of the public which hinders the progress the fire brigade in travelling to fire and hampers the men when they are fighting fires

Pending advice from the county council and the board of education, the estimates will not be brought down to-day. One thing is assured, the general rate will be high, but the street oiling and street watering rate will, in all probability, be less than half what it was last year, notwithstanding advance information to the contrary. The factors which compel an increase in the rate will be clearly stated when the estimates are brought down.

New Appointments

The question of the resignation of Policeman Pepper and the appointment of a successor will also be dealt with, and the statute requires that new commissioners be appointed in the place of those resigned.

TURNIPS.

This is the week to get Swede turnips planted. They do best in good loam soil that is retentive of moisture. Like most of the root during the damp, cool late fall weather and the advantage of late seeding is that they make little growth during the hot summer months. They develop a succulent tissue in the fall, however. If planted too early Swede turnips are very hable to be checked in their growth during the hot weather, developing a root

containing more fibre and lacking in quality. The turnip rows should be from 12 to 18 inches apart and three-quarters of an inch deep. They should be thinned to about three white varieties are sweeter for early use. The others need frost and can be stored in the same manner as carrots and beets.

LORD'S DAY ACT BROKEN?

By Courier Leased Wire.

Ottawa, Ont., June 3.-That the Dominion Government is "winking infractions of the Lord's Day Act was alleged at the Saturday session of the Montreal Conference of the Methodist Church by Rev. W. M. Rochester, secretary of the Lord's Day Alliance, who gave the delegates an outline of the work done during the past year. This was especially true, he asserted, in the case of condensed milk factories, which were allowed to operate on Sunday with the knowledge and connivance of the Department of Justice, although the product in one case was being entirely taken by an American

Secretary Rochester said the cir cumstances had been the subject of protest, and the reply received was to the effect that the authorities could not see their way clear to take action in the matter. He de-

clared the law had practically been suspended in this respect, but expressed the hope that something might be accomplished by an appeal to the attorney-general and even higher officials of the governtality,

ANCH

WHEN FEELING TIRED

Hood's Sarsaparilla Builds Up the Whole System-Makes Pure Blood.

That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition inviting disease. It is a Cabbage, dozen ... 000 warning, which it is wise to heed. Cabbage, head ... 010

Ask your druggist for Hood's Sarsaparilla. This old standard tried and true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new cour-age, strength and cheerfulness. It makes the rich, red blood that will make you feel, look, eat and sleep Asparagus, bunch, 2 for Fish

Be sure to get Hood's, because it is the best. There is no other com-bination of roots, barks and herbs like it-no real substitute for itno "just-as-good" medicine.

Germans Wanted Iron and Coal

TE who would gain a deeper insight into the causes of the present war might trace its origins back to the curfous distribution which nature has made of the materials of present day civilization, and if you like, more directly, to the invention of Sidney Gilchrist Thomas, a young English chemist, who spent his nights studying at the Birkbeck School, in Lon-

It was the new process for dephosphorizing iron, in smelting, that gave sudden and unexpected value to the vast iron ore beds of Lorraine and the adjacent territory. The larger part of these lay in France, or outside of Germany. If Bismarck had only known their importance in 1870! There might never have been

then a European war.

For it was directly due to the fact that the great ore deposits of Europe lay in this territory, while the larger coal deposits were in the Ruhr district and roundabout, in Germany that the present conflict was precipi-tated. Germany's industrial greatness, her vast manufactures, the astonishing rise of her export trade within forty years, were all pivoted upon her huge possessions of coal, just as this is the key to the industrial greatness of the United States. It was almost wholly her possessions of coal and iron that made England

would have never had the wealth nor the factories with which to wage the mightiest war in history. Already her more foresighted economists are pointing out that unless one of the fruits of this war is the ore fields of France, it will be for Germany bar-ren of its greatest possibilities.

In the Nineteenth Century Mr. J Ellis Barker, author of "Modern Germany," has an important article summing up the coal and iron resources of the nations and their probable in-fluence upon future development. Pointing out first of all that not only reserve. All must be sold as Mrs. Edmison is leaving the city. Terms spot cash.

Nrs. J. H. Edmison, Proprietress.

W. J. Bragg, Auctioneer.

Auctioneer.

Export cattle, choice \$14 to \$14.- sage it daily into the face, neck, arms and hands. It naturally should be found in the face, neck, arms and hands. It naturally years the consumption of coal in the world has increased more than sevenfold, he takes note that while at the outbreak of the war England and Germany were producing about equal amounts of coal, their potential resources are quite unequal.

So far as present knowledge extends, the coal reserves of Germany are not less than twice those of Great Britain, and more than half those of all Europe. But he neglects to point out that this balance may soon be disturbed by the development of the coal resources of Russia. If the Russian fields should become Germany's possession or available to Germany her predominance would be still

more increased. When we turn to the comparative resources in iron, very much the same condition holds. The actual or known reserves of Germany are nearly three times those of Great Britain and surpass those of any other European country. France is her only notable rival. While the coal output and

resources of France are almost negligible, her iron ore holdings are enormous, practically equal to those of Germany. But they all lie close to the German border, and the first thing that Germany did was to seize this region and hold it The districts occupied by the German troops yielded France two-thirds of her coal and 90 per cent, of her iron.

Germany likewise seized the iron beds of Luxembourg and Belgium, of Poland and Western Russia. She has also practically monopolized the iron exports of Sweden, She thus possesses to-day, to all intents, a full two-thirds of Europe's iron, and potentially at least nearly as much of its coal. In natural resources Germany is to-day by far the most favored industrial nation of Europe. These are facts which must be squarely faced.

The Patient Parisian.

The real key to the French character is not merriment; it is patience. This has probably always been so, and if the French have at times shown themselves rebellious, it is probably because they have been subjected to great wrongs from their rulers.

During the war the Parisians have shown more than their customary wait and suffer. Having always heard the French describing always heard the French described, as a restive people, I was much impressed by their patience during the mobilization and by the calm of the Parisians when the first bombs were dropped. It was believed the city would be shelled within a few days. I then saw literally tens of thousands of them stand in line morning, noon and night outside the railroad stations waiting to buy tickets. It was not the fact that some of them wanted to get away. tickets. It was not the fact that some of them wanted to get away that surprised anybody, but the fact that such a mass of humanity could stand in line so long when there were thousands ahead and when for hours there would be no sign of advance. It must be that the French have had a special training from their bureaucratic form of government; they seem to be willing to wait forever for a man in uniform. When I saw those interminable lines filling the whole of Quai d'Orsay outside the Orleans station, I thought of the impatient crowds at Coney Island or at the Manhattan end of the Brooklyn Bridge getting home from an ordinary day's work or amusement.—John N. Anderson, in Century.

Germans Improve Tanks. The Germans are said to have introduced certain improvements in tank construction, designed to give heavier protection against artillery. The crews are also able to close the machines hermetically when passing through gas clouds.

The Salvation Army is entering upon a \$2,000,000 war campaign. across the border,

THE TARIFF.

The Toronto Globe makes the protest that this is not the proper time to raise the Pariff issue in Canada. It makes that declaration because of an alleged "big protectionist campaign" about to be launched in Canada. Whether that is the case or no, has not yet been made manifest, but the fact was made clear during the recent session of the Dominion House that many members, notably those from the west, considered that there should be tariff changes to the extent of removing the duties on farm implements. Mr. W. F. Cockshutt, M. P., led in vigorous protest against any such step. He declared that there had been a tacit agreement in connection with the formation of a Union Government that during the war period the tariff showed be kept out of the political arena and in this he was undoubtedly correct. This is most emphatically not a time for any such tinkering either one way or the other. The main job for Canadians is to do their best on behalf of helping to win the war and matters calculated to arouse domestic controversy should be absolutely left alone.

FULL CONFESSION.

By the time that all the questions which will be asked on registration hay are answered, the government will be in possession of a pretty full confession of the past history and present abilities of most of the residents in the Dominion.

In order to familiarize themselves with the nature of the inquisition Brant Woman's Institute met Friday of Toronto, Toronto, Ont.; Mrs. L. of Wounds Received in Air Raid

NOBLE LIFE CUT SHORT

(From Our Own Correspondent. Paris, June 3rd- The profound sympathy of the entire community will be extended to Mr. and Mrs. Robert Baldwin, their very sad bereave ment, a cablegram received yesterday announcing the sad in-telligence that their daughter, Miss Dorothy Baldwin, had died from wounds received on Friday during an air raid of the Canadian Military Hospital in France, Nursing Sister Dorothy Baldwin was eager to do her duty in hospital work among the wounded heroes fighting in this great cause of freedom, and left Paris some 18 months ago. By her own request she was transferred to the Canadian men who had eft her own native country. She was attached to No. 2 Military Hospital that was bombed Friday last, when so many of the helpless soldiers as also the heroic nurses in their efforts to save the men lost their lives. The late Sister Baldwin was born and educated in Paris and was a member of St., James' Church. She is the first Sister on the Roll of Honor from that Church to fall a martyr in the performance of her duty. Feeling reference was made by Rev. Mr. Adamson to her death, and at the close to her death, and at the close of the service "The Dead March in Saul" was played, the congregation reverently standing during same. She leaves to mourn her loss besides her parents, one brother overseas and a brother out west, as also a sister at Hespeler,

The late Miss Baldwin was an exceptionally fine type of

an exceptionally fine type of womanhood and kindly sym-pathy, and her large circle of friends will learn of her death

with heartfelt sympathy.
The Paris branch of the North study the questions which they will be called upon to reply to, and the following summary, for male and female registrants, covers the whole range.

GIRL'S COAT.

Coats for young girls show more fitted lines this season than last, for most of them are belted and many have yokes of some kind. A very charming style is shown in No. 8736. It has a straight shoulder yoke across the front and back, and the lower section of the coat is gored so that it fits the yoke without gathers, It is not the least bit narrow looking, however, for it widens toward the lower edge and hangs in full ripples. A tiny roll collar and cuffs of moire silk add a smart touch. The coat may hang straight, or, if preferred, the narrow, stitched belt run through bound slots may be used to draw it in at the waistline. ,

The girl's coat Lattern No. 8736 is cut in five sizes, 6 to 14 years. As on the figure the 8 year size requires 2% yards of 36 inch or 1% yards of 54 inch material, with % yard 36 inch contrasting

Hands of Germans

The following word regarding Flight Lieut. W. A. Moyle, of the R.N.A.S., reported missing on March 22 last, has been received by the young man's parents. It was written to Lt. Moyle's brother, C. F. Moyle and forwarded by him from France:-

you must know how busy they have kept all the flyers during the last enemy offensives and consequently I have hardly had time to think. I wonder if you ever heard your brother speak of me, for I have been with him as his Flight Commander in Seaplane Defence Squadron since Nov. to the end of January, during January I was C.O. of the S.D.S., when it changed names to No. 13 when it changed names to No. 13 Squadron and your brother was awfully anxious to come and join me because we were down at the big war, and he was not very happy up on the coast As there was not enough doing in the fighting line for him. I knew him awfully well and was ever so proud when I finally managed to have him discharged from No. 13 Squadron and come down and join our oublit. Everyone fully anxious to come and join me down and join our oubfit. Everyone here was glad to receive a full-cut Canadian, into our midst and everything was happy when the enemy began their attack all along the line. Of course the fighting flyers were immediately sent off to attack all enemy trenches and any advancing troop or transport. This is awfully dangerous work, as you can guess for a scout and resulted in a great number of our boys being forced to land on the other side of the lines. At about 3 p.m.

A pretty wedding took place at her home, Harris street, Galt, of Miss Ella McLean Meikleham, Miss Ella McLean Meikleham, and vicinity of St. Quentin the flight met a large numer of enemy scouts and Mrs. Robt. Meikleham, and Mr. James Kersell, of Hamilton, eldest son of Mr. Andrew Kersell of Galt, the knot being tied by Rev. M. B. Davidson. The guests present were only the immediate friends and relatives of the two families. The bride wore a travelling suit of blue wick, never returned; but there is some chance that they may have got bride wore a travelling suit of blue serge with legborn hat and carried a bouquet of lilies of the valley. After the ceremony a dainty wedding luncheon was served.

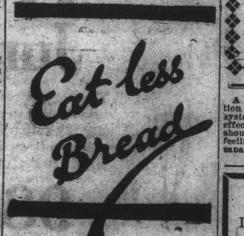

Many costly and beautiful gifts testified to the esteem of their many friends, some of whom sent their presents from far-off cities in Canada and United States. On retrning from a short trip Mr. and Mrs. Kersell will reside at the Lyndhurst Apartments, King street East, Hamilton.

Wick, never returned; but there is some chance that they may have got down safely on the other side of the lines airight—no one knows.

If am ever so glad to have known your prother; for we were such good friends and I always thought how brave he is. If we only had a few more fellows like him to help us win the war in the air we should be alright. And I would feel much better if you would convey to your parents my most sincere sympathy. If you hear anything further or if

further, please let me know. Black and Navy Taffeta Silk Skirts, smart styles and all sizes. \$7.95 Very sincerely yours, Raymond Collishaw. Major C.A.F., No. 203 Squadron, 10th wing.

CANADIAN ARMORED CAR THAT SURVIVED THE BIG RECENT

BATTLES—The driver of one of the Canadian armored cars of the Motor Machine Gun detachment painted chevrons on his car, one red, and three blue. The figures belonged to a French Punch and Judy show, which was found on a street during the retreat. Nearly every car driver fastened a figure on his car, but this was the only one which survived the battles. The picture is a Can-adian official.

ORCUTT AND LEE OUT. Games Staged Under O. B. . A. A. Rules—But May be .

the Last

Loose hitting and ragged fielding were much in evidence at Agricultural Park on Saturday afternoon, in both city league games, as a result of which encounters Pratt and Letchworth are now tied with the Cordage for first place, and Verity's and the Motor Trucks repose on an equal basis in the storm cellar. The games were played under O. B. A. A. regulations neither Orcutt nor Lee participating. Whether or not the league will remain in affiliation with the amateur association is a matter to be decided by the managers of the four

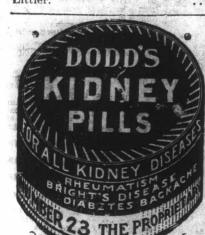

Pratt and Letchworth scored one each in the first and second frames, but things looked black against them when the Cordage came back in their half of the second and by a determined rally shoved no less the American league is under way than six runs across the plate, adding three more in the third. P. and L. scored three in the fifth and five according to averages released Sat-more in the seventh, annexing their urday, passed George Sisler, during more in the seventh, annexing their last three in the eighth, after the Cordage had scored once more in their half of the seventh. The fielding was ragged on both sides, but particularly so on the winning team, particularly so on the winning team, Stuart and Slattery each having no less than three errors chalked against them. Powell and Symons featured

with home runs for the winners. Verity's and Motor Trucks started on even terms, each scoring twice in the first inning, and once in the second. The munition men donned their batting togs in the fourth, and when the dust had subsided, six tallies had been added, and the game safely stowed away. The

RUTH STILL LEADS AMERICAN LEAGUE **Burns Passes Sisler in Drive**

Chicago, June 3. - A drive for second place batting honors in with Burns, the Philadelphia firstbaseman leading the attack. Burns, been out of the game because of ill-ness. Sisler continues to show the way to the base stealers with sixteen. McInnis of Boston tied his team-mate, Shean, for honors in sacrifice hitting with 13. Philadelphia still leads in home run getting with six.

Some diseases give immunity from another attack, but rheumatism

If any disease needs curing early it is rheumatism, but there is scarcely any disease that physicians find more difficult to treat successfully. Wednesdays and Saturdays theretism threfore it is worthy of special notice. Medical authorities agree that the blood becomes thin with alarming rapidity as rheumatism develops. Maintaining the quality of the blood is therefore a reasonable way of preventing and combating rheumatism. That it works out in fact is shown by the beneficial ef-fects which follow the treatment of rheumatism, acute, muscular, and ar ticular, with that great blood tonic,

Dr. Williams, Pink Pills. That thousands of people who have taken Dr. Williams' Pink Pills for their rheumatism have been cured is a fact beyond dispute. That erity's 2 1 0 0 0 0 8 14 3 rheumatism does not return as long Summary—Two base hits, John- as the blood is kept rich and red is on. Bell. Croley. Struck out by equally true. If therefore, you are suffering with rheumatism in any form you should lose no time in giving Dr. Williams' Pink Pills a fair

trial. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NO CHANGE YET As far as the Dominion Police in Military District No. 2 are concerned, no change has been made in their status and they are carrying on their work as heretofore in rounding up defaulters under the Military Ser-vie Act. It is understood that th's district is not to be interfered with in so far as turning the control of the police over to the military au-thorities. After the order had gone into effect putting the Dominion Po-lice under the control of the military authorities all over Canada, a last minute message was received in Toronto to disregard the order, with the result that Capt. Tom Flanagan's men are going ahead as before.

CAREY STOPPED GAP. One Heroic Episode In Great March

The more we hear about Brigadier General Sandeman Carey and the scratch force which he picked up from nowhere to stop the German host, the more certain it appears that this is one of those occurrences which P.C. this is one of those occurrences which 783 happen once or twice in each great 609 war and keep poets and painters and 538 orators busy for a good many years 522 afterward. There was nothing between the Germans and Amiens extend that paint and be bad tween the Germans and Amiens except Carey, at that point, and he had to improvise something more. By telephone, by messenger, by flag signals, he got hold of everybody around—labor battalions, "sturdy, middle-aged men," electricians and prietary medicines is the large numbers of "an infantry her of prominent people who every-

ences in the British reports to "Amer. with Taulac Mrs. Stone said the fight, and not until several days after did Pershing begin to send reinforcements to the allies. The Amer-

motto, "First to fight."

The middle-aged man, who has been feeling a little out of sorts since this war began, elbowed as he has been into a corner, had his innings on the Luce, if he never does again. Those labor battalions, past the fighting age in theory, were among the men who stopped the gap on the Luce and saved the British army, who kept

everywhere may throw out his chest a little; Mars has taken a moment to vindicate him. There is something old-fashioned about that picture of Carey himself, "careless of danger," riding along the hastily made lines "giving an order, here and shouting a word of encouragement there to

urdays commencing June 1st.

Connecting train running through
to Port McNicoll will leave Toronto
2 p.m. Saturday, June 1st and each
Wednesdays and Saturdays there. erals sitting at a telephone five miles off. Carey not only stopped the gap on the road to Amiens, but, with his middle-aged laborers turned volunteers, his gunners armed with rifles, and his own cheery gallops down the lines, he for a moment made this glaringly unnatural war seem nor-

mal again. The utilization of a common variety of fungus for the manufacure of ink, now both costly and scarce, has been proposed in France. The ink-yielding fungus, which is often found growing in clusters where decaying vegetable matter exists in rich, damp soil, is sometimes called the "inkstand," or the "ink bottle," because of the fact that when it decays a black liquid is produced. Its cap is elongated and bell-shaped, white at first and covered with a shining powder, later turning to gray with small brown scales on its top.

A French scientific journal says that extensive experiments in the production of indelible ink from this fungus were made by French bo-The utilization of a common var-

fungus were made by French bo-The fungi are simply placed in a pottle or other container. After standing for a day or two they change to a black, pulpy mass, which, on being filtered through a folded cloth, yields a deep black or brownish lnk, not unlike India ink. The addition of a small quantity of gum arable and a little of the essence of cloves is said to improve it and preserve its

fluidity.

The ink consists of a liquid in which are suspended the minute spores of the fungus. For this reason it can be readily identified by means of a microscopic examination. As it is also indelible, it is peculiarly valuable for use in writing of wills and other documents which are sometimes subject to fraudulent alterations.

Mrs. Martin Stone Was For Years Associated . With.

middle-aged men," electricians and signallers, members of "an infantry training achool near by." machine gunners hurriedly armed with rifles, engineers, and "fifty cavalry men to do a little scouting." With this force Carey stopped the gap in the British line for nearly six days. He improvised a staff as he went on, "officers learning the ground by having to defend it and every man from enlisted men to brigadier jumping at each job as it came along." s it came along."

Francis E. Willard founder of the Early in the fight there were refer- W. C. T. U. In relating her experience

icans fighting shoulders to shoulder with the French and British." No who has been relieved as I have to American force was identified as in do what they can to help others;

icans referred to so mysteriously were part of that strangely mixed force that Carey drummed up from the became so bad that I had to take to void. They were engineers, who at Carey's call picked up rifles and merged themselves in his motley corps without orders from anybody. The least little noise would upset me and I was not allowed to see anyone it was the same thing that happened at Cambria. They were not many I had passed through the great San It was the same thing that happened at Cambria. They were not many, but history will never tell the story of the battle of Picardy without telling the story of the battle of the place where Carey fought. It is perhaps only luck, but at Cambria and on the Luce the engineers have won from the marines the right to the motto, "First to fight."

The middle cred. centre of a whirlpool. My stomacl was so weak and my appetite so poor that I hardly ate a thing, and what little I forced down soured and formed gas that pressed up into my throat and in my chest and made me so hoarse that it was an effort to speak. I also suffered much pain in

men who stopped the gap on the Luce and saved the British army, who kept Hindenburg out of Amiens and perhaps out of Paris; "strong as oxen and mighty bruisers at close quarters," records the correspondent. It is a little ironical; not good enough for ordinary fighting, on them was unexpectedly laid the burden of extraordinary fighting. Not good enough for a skirmish, they were good enough to hold the bridge like Horatius; they were good enough for convinced my that it was just what I needed, and my first bottle put me Horatius; they were good enough for Thermopylae. The middle-aged man everywhere may throw out his chest second buttle and am in splendid

ileasantness afterwands. Tables is fast helping me to overcome my troubles and I feel that I am est-
