VOL XXXVII

KENTVILLE, TUES. 31, 1916

KENTVILLE NEWS

Major J. W. Ryan was home from Halifax from Saturday returning to his duties today.

Rev. Dr. Donahoe is now driving a handsome six cylinder McLaughlin car purchased from Parker's agents at Kentville.

Mr. George E. Graham arrived home from a trip to Boston and other places on Tuesday last.

Saskatchewan Buffalo Robes at Parker's Kentville and Canning.

Mr. A. C. Hawkins returned from Hants County, on Friday with a fine young moose which he shot with J. Knockwood as guide.

To Rent—The Methodist Parsonage, Leverett Avenue. Either furnished or unfurnished. Apply to A. A. Palmeter, Secy Board of Trustees, Kentville, N. S.

G. W. E. Herman, editor of the Western Chronicle, Kentville, arrived in town last evening. He made a round of calls on the newspapers and left later on to spend a day or so in Port Maitland.—Yarmouth Post.

The 246th Battalion has broken camp at Aldershot and last week left for Halifax where they are quartered at the Armouries. Aldershot is now almost deserted of troops. The few remaining will go out from under canvas this week.

Lessen your fuel bill by using Anti-Freeze Asbestos and Frost King Weather Strip.

T. P. CALKIN & CO.

Mrs. Adeline Mosher, widow of the late Edward Mosher left recently for Cambridge, Mass., where she will remain the winter with her daughter, Miss Nellie Saunders of that place. Mrs. Mosher keeps posted in Kings County news with the weekly visits of the Advertiser.

Mr. Harry Solomon has purchased the stock of boots and shoes from Mr. S. S. DeWolfe and tomorrow he opens a special low price cash sale of Boots and Shoes in the S. S. DeWolfe store, opposite American House. Be sure to call while this sale continues.

F. B. Newcombe & Co. are offering a few travellers samples in Ladies coats at prices very much under value. These garments were only got last week and are the very latest in style. Five New Ladies Suits only in stock two weeks will be sold at 20 per cent reduction to clear at Newcombe's.

Mr. W. J. Holloway of Halifax has arrived in town and has assumed the management of MacQuarrie's Tailoring business. He will make a specialty of both Ladies and Gents Tailoring and with his many years of experience at Halifax and Calgary will undoubtedly give satisfaction to his patrons. His family has also arrived in town.

Kentville Baptist Sunday School has inaugurated a forward movement for effective bible study and increase in membership of the school. A close contest is on between the young ladies and young men's classes for membership. These classes will include persons of any age who are able to attend church or Sunday school. On Sunday last Mr. Avarad Bishop organized an orchestra which will continue to give music for the school. The members were: Avarad Bishop, clarinet; Misses Myrtle Neary, Olivia Lamont, Master Coy Nichols, violin; Turman Bishop, drum; B. R. Bishop, trombone; Roy Walsh, cornet; Ralph Walsh alto horn; Mable Nichols, pianist. All young people not connected with other Sunday Schools are invited to attend to assist in the music and profit in the study of the Bible.

-Gurney-Oxford Prince-

Here is a sturdy, well built STOVE that the great Gurney-Oxford Foundries take special pride. In it, combines so many exclusive conveniences and such durability at a wonderful low price. Six 8 inch covers as shown, to burn coal—\$19.00.

Splendid Baking and Big Economy in Fuel—Oven is surrounded by a perfect envelope of heat by the exclusive Gurney-Oxford divided flue system.

Special reversible Grates and Fire-Box give perfect baking for many years.

We take special pride in our Gurney-Oxford Stoves. Come in and see the principal lines.

By special arrangement with the factory we will quote you new low prices that will open your eyes.

T. P. Calkin & Co.

Hardware and Plumbing.

Your New Winter Hat Now Ready

Almost every day sees new designs on display. You would be wise to make your choice now before the best are sold. There is a good range of shapes and prices, so that you can be sure of being well suited.

You may buy them trimmed or untrimmed, or we can trim them for you.

Untrimmed Hats, priced from \$1.35 up to \$4.50.

Trimmed Hats from \$3.00 to \$7.50.

Children's Felt and Corduroy Hats, 65c, to \$1.50.

Infants Knit Caps and Bonnets, 25c, 35c, and 50c.

Boys Knit Caps, red, grey or red and navy, each 35 and 50c.

WEAVER'S

Where you pay Cash and Pay Less to the Merchant Building, Weaver & Kentville Nova Scotia

Dr. A. S. Burns left this week for St. John where he joins the New Brunswick Ambulance Depot, with the rank of Captain. He will remain in training there for a while going overseas the first of the year with the Ambulance Corps. Mrs. Burns will remain in Kentville for a few weeks longer. Dr. Burns purposes resuming his practice in Kentville at the conclusion of the war and his service overseas.

Wanted—Child's High Chair and a low chair. Also Furnished Rooms to let. Apply to P.O. Box 241, Kentville

Bridgewater was saved last week from an unusual "wet spell" as seventeen packages of intoxicants were seized at the station there the week previous.

KENTVILLE NEWS

Mr. Irwing Darling and Director W. S. Blair were in Annapolis on Wednesday last.

Mr. and Mrs. H. W. Fielding who have been spending the past seven months in Boston returned to Kentville on Friday and will probably remain somewhere in the vicinity.

On Thursday last two deer were seen going across the land of Mr. A. Roder. Mr. Roy Rottler who had a gun loaded for partridge fired at one which was a fine fat one. They both trotted away for the woods.

Mrs. T. P. Courtney of Dartmouth has been spending the past week in town with her parents, Mr. and Mrs. Brenton Barnaby.

Mr. and Mrs. Harry Denison have returned from a trip to New York to their home at Digby.

Mr. Wambolt is engaged in making much needed repairs on the "Porter House."

The dance that was to have taken place at the Rink Hall on Tuesday night is off owing to other engagements.

The many friends of Mr. Kenneth Rogers, will be pleased to hear that he is recovering from his severe illness, and expects to return to Kentville in December.

Mr. Gordon Emery, the efficient clerk at McDougall's drug store, is spending a well earned month's vacation at his home in Wentworth.

Mr. Murray Dodge of the Royal Bank staff, is in Truro, assisting in the Royal Bank there.

Mr. Laurie Hiltz, who has been spending several weeks in Boston, has returned home.

Mrs. Cook, wife of Mr. Clarke Cook of West Roxbury, Mass., spent a few days of last week in town with Mr. Cook's parents, Mr. and Mrs. David Cook.

Arriving—Latest designs in Trunks, Suit Cases and Club Bags at Parker's, Kentville and Canning.

Special Reduced Price Sale

Mens, Women and Childrens Footwear of all kinds.

Commencing Wednesday, Nov. 1st., Shoes and Boots for people of all ages.

Don't Miss This GREAT OPENING SALE. You can Save Money. Stock of DRY GOODS to arrive later.

HARRY SOLOMON

The Kentville Red Cross have shipped 331 Christmas stockings for the boys in the hospital. There were 28 stockings from Lakeville, 2 New Minas, 13 from Billtown and 25 Steam Mill. These were sent in three large shipping cases and probably represent a value of \$550 or \$600 stockings and contents. There will be joy among the wounded and sick soldier lads when these stockings are unpacked. Many stockings contained notes from the sender. Mr. P. Giffins returned recently from a trip to Boston.

A special session of the Supreme Court began in this town on Tuesday with the Hon. Mr. Justice Ritchie, who arrived from Halifax on Monday, presiding. The suit being tried is that between Dr. Miller and Dr. Messenger, of Middleton, in regard to land and drainage. Being a lengthy case, it was postponed from the court term here in September. The lawyers are W. E. Roscoe, of Kentville, for Dr. Miller, and A. L. Davidson M.P., for Dr. Messenger. A number of witnesses are being examined.—Spectator.

**NATIONAL SERVICE
BY THE PEOPLE OF
NOVA SCOTIA**

To the People of Nova Scotia:

The directors of National Service met at Ottawa recently and formulated schemes for carrying on their work. The duties of directors are in effect, to make themselves acquainted with industrial conditions in their respective districts, to consider what kinds of works are essential or non-essential to the country under war conditions, to draw out and utilize all available labor so that the largest possible number of men may be freed for military service, and to decide when called upon, whether in the interest of the country, certain men should or should not enlist in the overseas forces of Canada. To men who offer to enlist, but whose services are considered more valuable to the state in their present employment than if they joined the military forces, badges and certificates of exemption will be given.

As the basis of all effort to utilize our resources to best advantage, it is considered essential to take a census of the man power of the Dominion. The rough outlines of a scheme having that object in view were drawn up, and the director-general had conferences with the census and post office departments of the government.

The officials of these departments are now engaged in working out the details of a scheme which we hope will give us all necessary information within a reasonable time, and at much less cost than would be entailed by a regular census.

When that data is secured and classified, we should be in a position to know what man power we have, what proportion of it is essential to carry on the necessary business of the country, and what proportion may be considered available to enter the military and naval forces of Canada.

Another subject that occupied our attention was the utilization of women's labor during the war. It was believed that there are thousands of women in Canada who would gladly give their services temporarily for special kinds of work, provided they knew they were thereby releasing men for military duty. It was decided to encourage women to offer their services for such work as was suitable, and to induce employers to take advantage of such offers when opportunity arises.

With that object in view it was resolved to organize committees of women to be known as "Women's National Service boards," for the purpose of opening registers for female labor, of procuring employment for such women as offered their services, and for the supervision which would be necessary under new conditions.

It was also suggested that if considered desirable, advisory committees of prominent employers and others might be formed for the purpose of co-operation with the women's boards, and helping to secure employment for the women. The view was held that there is a large reserve of labor available if our women are asked to co-operate, and confidence was expressed that our employers would find it to be in their own interest as well as that of the country to encourage the work of the Women's National Service boards.

A number of other matters were discussed on which definite action will be taken later. Some of the directors were of the opinion that the duties of the board are too negative in scope, and that their usefulness would have been increased if authority of a more positive character had been granted to them. It was agreed, however, to exercise our present authority with the expectation that if it should prove advantageous, enlarged powers might be granted by the government.

To prevent misunderstanding it should be stated that under the regulations of the board, the work of recruiting is left entire-

ly in the hands of the military authorities, but it is the duty of the directors to co-operate with them and furnish all available information to enable them to procure the men required for military service.

The unlooked for change in the chairmanship of the board will cause some temporary delay in formulating its work, but it is expected that the directors will soon be in a position to go on with their work feeling confident that they have the full support not only of the government, but of the people of Canada.

The people of Nova Scotia have already given proof of their patriotism and self-sacrifice in devoting themselves to war work, but we can do still better by organizing our resources and co-ordinating our efforts.

The Board of National Service is a non-partisan body formed to meet the unprecedented conditions arising out of the war. It has before it a most difficult and complex task requiring the best thought of the ablest men in the country, and that task cannot be successfully accomplished unless the directors have the sympathy and co-operation of all classes of the community. I would especially appeal to the press to give us their hearty and united support, because on their attitude will largely depend the measure of our success.

The Premier of Canada has just issued an appeal calling upon every man and woman in the country to devote themselves to public service in some capacity during the crisis of the war. I feel confident that as far as our Province is concerned that appeal will not be made in vain. Those of our young men who have not yet answered the call to active service will feel impelled to reconsider their position, and those of us who have to remain at home will feel called upon to consider whether we are in our own way doing our full share of service and sacrifice. We have only to remember that all our efforts are consecrated to the task of supporting our noble boys who, for us, and for the honor of Canada, are daily enduring and dying in the trenches.

G. S. CAMPBELL,
Director of National Service
for Nova Scotia.

Hallifax, 25th October.

**CAPTAIN CUTTEN
TRANSFERRED**

The Acadia Bulletin says:— Captain George B. Cutten has been transferred to the 246th Reserve Battalion as second in command. On account of injuries received during his Yale football experience, he has been rejected for overseas service. Capt. Henry R. Emerson, who went overseas with the 6th Mounted Rifles and afterwards served with the 5th M. R., has been appointed commander of D. Company, 219th O. S. H. Battalion, the position formerly occupied by Captain Cutten.

THE COLORED BATTALION.

The 2nd Construction Battalion (colored) is energetically recruiting in Ontario in the hope that it will soon be up to the required strength for overseas service. Already more than 500 recruits have been sworn in. About 400 of them were obtained in the Maritime Provinces, where the battalion had its headquarters at Truro, N. S. It is hoped to raise two companies in Ontario. The Western Provinces, will also be recruited. The commanding officer, Lieut. Col. Sutherland, and all of the commissioned officers of the unit, with the exception of the chaplain and the medical officer, are white. The non-commissioned officers are colored. Civil engineers and contractors could not be found among the colored men and as men with such training are necessary to command a construction battalion agitation to have the commissions kept among members of the colored race was dropped. The unit is particularly anxious to get handsmen.

Both Hughes and Wilson need the German-American and Irish American votes; but neither dares admit it, and the most destructive charge each can make against the other is that he is angling for them.

What does it matter whether Sir Robert Borden or Sir Thomas Tait extended the invitation? It is the man who refused it the public have their eye on. Sir Wilfrid Laurier has that bad eminece.

**THE GRAY-DORT
The Car that has captured Canada**

THE GRAY-DORT—The wonderful car that was chosen from the entire American Market as the car best suited to the needs of the Canadian business man and farmer. The powerful car, enthusiastically sought by the automobile agents from every part of Canada, as the car most worthy of the backing of their name and experience. The car that within three days completely outdid the capacity of the factory for many months ahead—an unprecedented achievement.

The Gray-Dort has Arrived Here—

Light in Weight — A Giant in Power

Nothing could give a more delightful sense of perfect comfort than the roomy, deep-cushioned tonneau. But that's not all. Look at the big, pulsing heart of the car—the wonderful Planche motor, Four-cylinders, L-head type, cast en bloc with removable head—a motor with a long stroke of 5 inches—a colossus of boundless power.

Come in to our Garage and let us demonstrate this Car to you. The Car you have been waiting for.

A. L. PELTON & CO.
Main St. Kentville, N. S.

Get Real Tire Economy!

Motoring is two things—a pleasure and a business. One might say it was used sixty per cent. for entertainment and forty per cent. for commercial purposes. Yet no matter whether you use your car to get orders or goods, your greatest economy will be the reduced cost of mishaps.

No accident ever befel an automobile but what the tires were forced to play a part in it. And no accident ever was averted but what the tires had a say in that too.

If you will drive fast,
If you will make those sudden stops,
If the city will water asphalt,
If rain will make muddy roads;

Why then—the possibility of skidding will always be with you, unless you figure on those elements of danger when you buy your tires. When you think of how to avert danger by motoring you immediately think of . . .

R. U. PARKER, Genl. Passenger Agent GEORGE F. GRAHAM, General Manager

VICTORIA CROSS FOR A NOVA SCOTIAN

Ottawa, Oct. 26.—Two Canadian soldiers, whose exploits have been recounted in the weekly communique of the Canadian "eye-witness," have been awarded the Victoria Cross, according to a cable tonight from London. They are Private and Acting Corporal Leo Clarke, whose next of kin is given as H. Clarke, 785 Pine Street, Winnipeg and Private John Shipman Kerr, whose next of kin is given as Mrs. Robert Kerr, Fox River, Cumberland County.

The Parrsboro Shore has done much for the cause of Empire. From Parrsboro, Diligent River, Fox River, Port Greville, Spencer's Island and Advocate a great number of hardy young men have gone overseas. In that district the news that one of their sons has won the highest military honor Great Britain can bestow will be received with pride and joy. Young Kerr is a son of one of the best known Bay of Fundy master mariners, Captain Robert Kerr, and to his parents and relatives the congratulations of the whole Province will be extended.

We believe MINARD'S LINIMENT is the best: Mathias Foley, Oil City, Ont. Joseph Snow, Norway, Me. Charles Whooten, Mulgrave, N. S. Rev. R. O. Armstrong, Mulgrave, N. S. Pierre Landers, Sen., Pokemouche, N. B.

"Let us never forget the solemn truth that the nation is not constituted of the living alone. There are those, as well, who have passed away and those yet to be born. So this great responsibility comes to us as heirs of the past and trustees of the future.

But with that responsibility there has come something greater still, the opportunity of proving ourselves worthy of it. And I pray that this may not be lost."—R. L. Borden

Minard's Liniment Relieves Neuralgia.

BRITAIN'S FOOD SUPPLY AND THE WAR

The rapid rise in the prices of nearly all food commodities, brought about by increased taxation, the extra cost of labor and freight, and the limited importations of many articles as a result of the shortage of boats, has called public attention to the effect war is exercising upon the food supply in Britain.

Before dealing with the problem as it presents itself to the people of these islands, it is not without interest to note that it is impossible to study the great wars of the past without realizing how they taught the nations the need of conserving their foods, and the necessity of obtaining the utmost possible from their lands.

The present canning industry, by which all kinds of meat, fish, fruits, and vegetables are preserved in airtight bottles and tins at the centres of production, and distributed fresh and fit for human consumption to all parts of the world, arose as a result of the Napoleonic wars. Being unable to obtain sufficient fresh food for his army, thru his posts before blockaded by the British Fleet—just as today we are blockading Germany—Napoleon offered a prize of 12,000 francs to any one who would devise a practical method of preserving the valuable perishable foods that were then being wasted through lack of suitable means of preserving them.

One Nicholas Appert, a Frenchman, won the prize. He conceived the idea of putting food to be preserved in glass jars, setting them in boiling water, and, when the contents were thoroughly heated, sealed the jar. From that invention has grown the modern process of canning—one of the important steps that civilization has taken in the direction of insuring mankind against famine.

It was "The Little Corporal," too, in endeavoring to mitigate the effect of the blockade upon sugar—which was fetching about \$2.10 per pound in Paris a hundred years ago—conceived the idea of obtaining sugar from the beet. He set up beet sugar factories around Lille, and it was war that gave to the industry that impetus which has resulted in its development to a point where it yields half of the world's supply of sugar. In the same way, the high percentage of arable land in France, Belgium, Denmark, Germany, and other European countries, compared with that in this country, was solely brought about through wars.

Just as the wars of the past have taught the nations valuable food lessons, so the present great conflict will, no doubt, bring about new methods in the feeding of the race as important as those introduced by the Napoleonic wars.

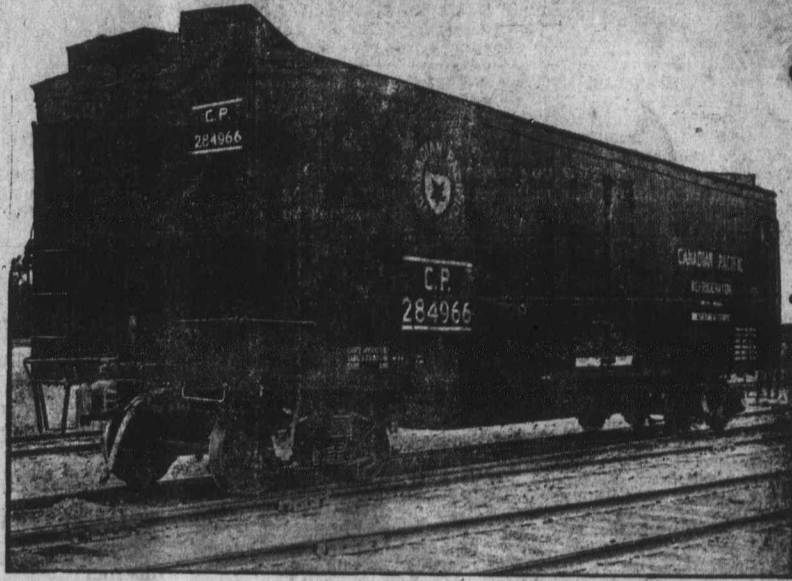

For instance, it has already been announced that both French and German scientists have devised a new synthetic method of producing protein. We have yet to learn exactly what has achieved here, but it is said that by a combination of yeast, sugar, and nitrogen from the air, the scientific chemist has secured that most important of all the elements that enter into the world's diet—protein. Examples of protein are the whites of eggs, the muscles of meats, the casein of milk, the gluten of flour, and the nitrogenous fats.

Then most agricultural experts are agreed that as a result of the war will come the utilization of other plant products than those now entering into direct use as human food. There are approximately half a million species of plants in the world, and yet only a few thousand of them are used at all for food, while only a few hundred of these are used to any important extent. Some of the plants which we now grow are extensive food-producers, some produce food that is difficult to digest, and some give a small yield per acre.

The fact is, we are constantly developing new foods. It is only

THE A. B. C. OF RAILWAYS

WHAT IS A REFRIGERATOR CAR?

A REFRIGERATOR car is the diametrical opposite to a house refrigerator. The latter is expected to stay in one place—the refrigerator car is built especially for the purpose of moving as quickly and as often as the railway companies are permitted to move it with loads of perishable products. True, a freight car is sometimes diverted from the life for which its parentage designed it, and remaining stationary filled with goods, performs the wrongful purpose of a storage warehouse to the serious harm of other shippers and consignees who are clamoring for more cars to move freight and are blaming the railway companies instead of the public, but that happens almost entirely to its brother, the box car, and while, as Kipling states, "that is another story," its life history would differ in several essentials if the box car were always moved with the celerity with which C.P.R. refrigerator car 284966 travelled and worked usefully for twelve days in

August. The following notable performance of C.P.R. brine tank refrigerator car 284966, Toronto to St. John, N.B., loaded with fresh meat; St. John, N.B. to West Toronto, empty; is an illustration of quick handling:—

- August 18.—Order for car given by Gunn Limited.
18.—Car fully loaded, placed for loading.
19.—10.00 A.M., loading commenced.
19.—4.00 P.M., loading completed.
19.—8.30 P.M., car left West Toronto on train No. 961.
20.—In transit including usual periods occupied in being during transit.
22.—4.25 P.M., arrived St. John, N.B.
23.—Car unloaded.
25.—Car, empty, left St. John.
30.—Car, empty, arrived West Toronto.
3 Days' transit—\$21 miles loaded.
5 Days' transit—\$21 miles empty.

a little more than half a century ago that the tomato was regarded as a curiosity. Now it is looked upon as an important article of food. It is less than a century ago that the Lima bean came to us from South America, and the potato was unknown to civilization before the white man went to Peru and Colombia.

What the modern agricultural expert aims to do is not so much to increase the possible acreage under cultivation as to increase the yield per acre and improve the crops. The British farmers obtain a higher yield of wheat and other cereals per acre than do the farmers of Canada or Australia. Russia, for instance, is the greatest exporting country in the world, and with her 288 million acres of excellent wheat lands she could produce all the wheat the world needs. Yet her return is only ten bushels per acre compared with thirty to as high as forty-five bushels by the farmers of this country.

It is the same with fruits and vegetables. Not only is the yield being increased, but the products improved. It is a far cry from the little old knotted and gnarled apples of a few centuries ago to the magnificent varieties of today; and it is also a far cry from the unimproved, small, hard peach of the olden days to the big, luscious peach of the present; and in a like manner also have the potato and other vegetables been improved.

This increased yield per acre and improved products have been the results of the application of science to farming. Thanks to introduction of fertilizers, man can not only reap crop after crop from the same plot year after year, but actually increase the fertility of that soil.

The three indispensable articles in the menu of the plant are nitrogen, phosphorus, and potash, and these the fertilizer can now supply. Then synthetic chemistry is delving deeper into the mysteries of Nature's laboratories in the roots and stalks of plant world, and is gradually coming to the point where it can take the raw materials that the plant itself takes from the soil, and make foods in factories perhaps as well as Nature

makes them on the farm.

That something practical will follow, and an impetus be given to food production in this country, as a result of the war, is almost certain. Although from the commencement of the war we have had the command of the seas, our foods have steadily risen in price. The increased cost is due principally to the heavy freights that now prevail, brought about by the scarcity of ships. Naturally, hundreds of vessels ordinarily used for bringing food and other commodities to these shores have been commandeered for war purposes, while ships representing about three million tons carrying capacity have been sunk since the war began. It is the loss of these ships, by commandeering and sinking, that is mainly responsible for the high prices of foods now prevailing.

There is no doubt that one result of the war will be that we shall look more and more to our colonies in the future for the food we need. Hitherto we have been inclined to draw in a most haphazard fashion upon the whole world. Canada and Australia could supply us with all the wheat and cereals we require, and also with the chilled beef and frozen mutton we need. Fruits by the thousands of tons, too, can be had from them, as well as dairy produce, while from Newfoundland and British Columbia all the tinned fish we need is easily forthcoming. The finest preserved pineapples that reach us today come from Singapore while Ceylon and India can supply us with all the tea we want. If we could even produce sufficient food it would be temperate products, whereas we find it necessary to satisfy our appetites, with foods obtainable from tropical and semi-tropical countries.

It would have been a rude shock to many had they been told, when war broke out, that our granaries and great meat warehouses were almost empty. We could have been starved in submission in a few weeks had we not from the first the command of the seas.

Then are we justified, titanic as is the present struggle, in looking upon it, as I fear many do, as forecasting the end of wars between civilized powers?

We hope it may be so, but we cannot be certain. Who knows but what some day a combination of strong powers might not rise against us, and by submarine warfare and aerial attack—which might conceivably be developed to a very high pitch of advancement—and themselves a ble to prevent being conveyed to these shores?

But the food scientist has shown us how we can guard against such a contingency, and we should be wise in noting it. Today all kinds of perishable foods can be preserved and kept fresh for an indefinite period. And just as soldiers in a fort store provisions to last them over a considerable period, so can a nation in times of peace prepare for emergencies against a possible shortage of food by the establishment of national food depots, where supplies can be kept to be used for the nation's benefit should the need ever arise. The whole question is one that calls for thorough investigation. Something should certainly be done, not only to improve and increase our present food production, but also to see that, should an emergency arise, we are at least independent for a considerable period of foreign supplies. It is a matter of national importance. Windsor Magazine

THE WATER CURE

A Swedish farmer, who lived on his wheat farm in the Clay Belt, was taken ill and his wife telephoned the doctor.

"If you have a thermometer," answered the physician, "take his temperature. I will be out and see him presently."

An hour or so later when the doctor drove up the woman met him at the door.

"How is he?" asked the doctor.

"Well," said she, "I bane put the barometer on him like you tell me, and it say 'Very dry,' so I give him a pitcher of water to drink, and now he ban gone back to work."

Just as the first hundred thousand from England saved France, so the last hundred thousand from England saved the final straw on the back of the German camel.

KENTVILLE, TUES. 31, 1916

RECORD PRICE FOR POTATOES

In the great upward march of price-increase, the traditional tuber—the omnipresent garnishment of every table in the land, is by no means in the rear rank, remarks the St. John Telegraph. Potatoes are now commanding the highest price ever paid at this season of the year. Record prices were reached yesterday in Woodstock. At Montreal there was an advance of 30 cents a bag. Maine farmers are now getting nearly 4 dollars. Some of the St. John merchants received word of a thirty-cent advance yesterday afternoon, but only the late buyers were aware of the advance. At Sackville, a point from which \$100,000 worth of potatoes have already been shipped this season, the growers are receiving 90 cents a bushel. For 90 pounds the farmers are reaping the neat sum of \$1.50. These are record prices for this time of the year.

Toronto has raised in a few days a sum well over seven hundred thousand dollars for the British Red Cross. It is a fine contribution, reflecting credit on the city, on those who worked, and on those who gave. It is, also, a noteworthy and significant fact, as the Toronto Star points out, "that anyone reading the list of large contributions must have been impressed with, that United States firms doing business in Canada were very large givers towards this fund. They gave cheerfully and handsomely and Canadians will not fail to note it."

Official announcement was made in New York on Wednesday by J. P. Morgan and Company that a new British loan by American bankers aggregating three hundred million dollars, has been arranged. It will bear interest at five and one half per cent, and is payable in two installments, one of three years and one of five years.

COST OF CHURCH UNION PROPAGANDA \$17,519.43

Toronto, Oct. 25—Rev. Dr. John Somerville, treasurer of the Presbyterian church, today issued a statement showing that the cost of the union campaign from 1904 to the present has been \$17,519.43. In 1904 the assembly had authorized the union committee to take a percentage from each church fund and that had been done.

The expense was incurred for printing and travelling expenses. For the last ballot five tons of paper was required.

HOLDING THEIR OWN

Bucharest, Oct. 29, via London—Along the Roumanian Transylvanian front the Roumanians are more than holding their own against the Austro-German armies at some points, according to today's war office announcement. Retirement of the Teutonic troops have been forced in one sector north of Compulung and the Jiul Valley, where two howitzers batteries were captured by the Roumanians.

FAMOUS GERMAN AVIATOR KILLED

London, Oct. 29—Captain Boelke, the famous aviator, during an air flight on Saturday, came into collision with another aeroplane and was killed according to a Berlin despatch received by Reuter, by way of Amsterdam. His machine landed within the German lines. On Friday Captain Boelke shot down his fortieth aeroplane.

Kentville streets are almost deserted of soldiers.

MACKEREL CATCH IS NOW NEARLY 120,000 BARRELS

The mackerel catch to date is 31,553 barrels salted and 86,872 barrels fresh as compared with 13,545 barrels salt and 64,453 barrels fresh for the corresponding period of 1915.

Believe That Greece Will Soon Co-Operate With Allies

Athens, Oct. 29, via London—The Greek government officially made it known today that following the recent visits by the Entente Ministers to the Royal Palace, King Constantine has spontaneously undertaken further to dispel Entente suspicions of his sincerity by ordering what he had previously refused to grant on the insistence of the French Military Attache, that is, the transfer of the Third and Fourth Army Corps from Thessaly, and the 16th Division from the Epirus to the Peloponnese, the Southern Greek Peninsula. In both districts only a force sufficient to maintain order is to be kept. The transfer is to begin on November 3.

Such an evidence of good will on the part of the Sovereign is taken in usually well-informed circles here to indicate a not far distant agreement for the co-operation of Greece with the Entente Allies.

Vast quantities of potatoes and dried codfish and hake are being shipped by the B. & Y. S. S. Co. every trip to Havana, Cuba. The potatoes from the Annapolis Valley, chiefly from Berwick, and the fish via the H. and S. W. Railway from Lunenburg. The potatoes bring \$4.75 per Canadian barrel and \$5 for the American barrel in Cuba, but the former is preferred to any other in the world. The Cubans also prefer Canadian fish to any other on the market. Cod, halibut and haddock caught in these waters are evidently more desirable than the fish that comes from the excellent fishing grounds near Halifax.

Friends of Lieut. L. deV. Chipman, formerly editor of the Annapolis Spectator, will be interested in a Montreal Star cable announcing—"A son has been born to Mrs. Muriel Chipman, nee Manners, wife of L. deV. Chipman, of the Canadian Infantry."

Resumes Studies in New England Conservatory of Music—Miss Marjorie Saunders, daughter of Dr. and Mrs. Louis Saunders, is to resume her studies at the New England Conservatory of Music. She and her mother left for Boston yesterday by rail. Mr. Saunders will also remain in Massachusetts during the winter months.—Herald.

Steamer Empress is making special trips at the end of each week with apples. On Saturday, Oct. 21st, she took to St. John, 13 car loads of fruit from different parts of the Valley.

In speaking of Sir Thomas White's administration of the Finance Department the Hon. George E. Faulkner, a member of the Murray government said: "Sir Thomas' department has been beyond criticism and I do not think that there should be any."

Salt mackerel taken into Boston on Tuesday by the schooner Arthur James sold at \$20 per barrel. There were 43 barrels all told, the fish counting about 300 to the barrel.

Kenneth Vickery, for several years on the staff of the Bank of Nova Scotia in Yarmouth, and a short time ago sent to Kentville, has been transferred to the Bank Branch in Kingston, Jamaica. He arrived here on Friday afternoon from Kentville and spent the weekend with his parents, Mr. and Mrs. Charles R. Vickery. He left by the Prince Arthur on Sunday for New York where he connects with a United Fruit liner for Kingston.—Yarmouth Times

NINETEEN LIVES LOST

St. Elizabeth Hospital Burned at Quebec

Farnham, Que., Oct. 26—St. Elizabeth hospital, managed by the Grey Nuns, and comprised of two buildings, was totally destroyed by fire last night, and a total of nineteen lives were lost so far as known tonight. These consist of five children, eight women and six men, the buildings having been used as a home for aged people and children. Eleven injured inmates are being cared for in the convent of the Grey Nuns.

THE SALVATION ARMY CONGRESS

Commissioner T. H. Howard, the Chief of the Staff of the Salvation Army, (second in command) will conduct councils in Toronto from the 5th till the 9th of November. Delegates will be attending from the Maritime Provinces, and will leave Halifax next Thursday morning.

On Friday night, Nov. 3rd to an entertainment and Box Sale each lady will fill her box with supper for two, coffee served with lunch. Proceeds for the great purpose of assisting the wives and children of those at the front. Doors open at 7 o'clock. Admission 10c.

SAD DEATH AT PUNICO

A serious warning to promptly empty any cans of tinned food as soon as opened and not eat anything that has been left in a can, has been afforded by the sad death of Miss Sarah E. Carland the well known post-mistress and telephone exchange operator at Punico, which occurred on Oct. 18 from ptomaine poisoning. On the previous Friday she had eaten some sardines that had been left in a tin a day or two previously and suffered agony until death intervened.

The Yarmouth Telegram says: R. S. McKay, Esq., left his home at 4.45 yesterday afternoon, autoed to Arcadia, shot a fine buck deer, with a magnificent set of antlers, dressed the animal, returned home and had the carcass hung up in the short space of two hours and three quarters.

Robert Reid and family wish through the columns of the Advertiser to heartily thank the many kind friends and neighbors who labored so hard to save their home on Monday last. Special thanks is offered to the fire brigade of Kentville.

Mrs. James Toney shot a fine moose recently at Aylesford Lakes. The animal was called up by her husband, James Toney, guide.

Miss Kathlen Pineo has returned to her home at Waterville having spent several weeks at Digby.

Rev. C. W. Robbins, pastor of the Digby Baptist Church will take 15 boys from his church to the boys conference at St. John.

Lost--Between Berwick, Weston and Centreville via Kentville, a new auto tire and rim. Finder please leave at this office or notify J. T. Green, Centreville 11 ox

Rev. R. Meadows, formerly of Percup, is the new pastor at Lockeport. He commenced his duties on Sunday, Oct. 22nd and made a very favorable impression.

Reginald Rafuse, of Parker's Cove, had a narrow escape from shooting last Saturday morning without going to war. He had just come on deck from the cabin of a fishing vessel at Digby when a bullet from a 22 rifle with which a boy named Handspiker was playing on the wharf, hit him on the right side of the head, above the ear, and made a glancing wound without lodging in the skull. Rafuse came home the same day to spend Sunday and had his wound dressed by Dr. Robinson, who congratulated him on his narrow escape.—Spectator.

WOLFVILLE

Look out for ghosts and goblins tonight—Hallowe'en.

Mrs. Capt. Johnson of Halifax has been visiting Mrs. A. L. Gue.

Miss Olive Wickwire has gone to Truro to take the course at the Normal School.

Mrs. Chase of Lowell, Mass., has been visiting her parents Mr. and Mrs. E. E. Archibald the past week.

Miss Miriam Chisholm, daughter of Mr. R. O. Chisholm has entered Acadia College, members of the Freshman class.

W. C. Dexter & Co., are having a special sale of millinery for one week commencing today Tuesday.

Miss Angela Herbin, daughter of Mr. and Mrs. J. F. Herbin is a member of this year's Freshman Class at Acadia.

Lieut. Col. N. H. Parsons and Major G. B. Cutten have gone to Halifax with their Battalion, the 246th.

Farmers in the vicinity have been very busy of late gathering in the crops. The apple crop has turned out very good.

Mrs. Jacob Walton, who has been at Bangs Falls, Queens County visiting with Mr. and Mrs. John Y. Payzant, returned to Belcher Street, last week. On her return she visited relatives and friends at Halifax, Falmouth and Hantsport.

The Women's Institute of Port Williams will have their regular meeting in Citizens Hall the 2nd Thursday, November 9th, at 2.30. This meeting will take the form of a work meeting to make clothing for the destitute Belgian children. Members of the Institute and all interested are asked to come prepared with needles and thimbles to sew.

The death of Mrs. Margaret S., wife of Mr. Thomas Currie took place at Wolfville on Sunday last. She was only 29 years of age and was a daughter of Mr. and Mrs. Robert Logan of Milford, N. S. She has been ill for three years. The funeral service conducted by Rev. R. F. Dixon was held on Wednesday last and the body was taken to Milford for burial.

Mr. Ernest Bishop of North Alton, son of Mr. Edson Bishop, is one of our County heroes to give his life for his country. He went from here with C Squadron, 6th Mounted Rifles and was wounded in the same battle with young McGarry of New Ross Road. The wounds proved serious and he died soon after. A grateful County will keep his name in remembrance.

On Tuesday evening a patriotic Rally was held in the Opera House, Mayor C. S. Fitch occupied the chair and excellent addresses were given by Mr. Justice R. E. Harris and Mr. A. S. Barnstead of Halifax.

The large number present were much interested in the matter under discussion. Mr. W. H. Chase, chairman called a conference of workers to consider an aggressive campaign to collect money for the Patriotic Fund.

Mrs. E. E. Archibald, of Wolfville, who has been spending six weeks with her daughter, Mrs. (Rev.) Harvey McLeod, Washington, D. C., arrived in Yarmouth on Wednesday morning accompanied by her daughter, Mrs. W. F. Chase, of Lowell, Mass. Mrs. Archibald will remain in Yarmouth visiting her daughter, Mrs. Thomas Seeley, Alma Street. Mrs. Chase proceeded the same morning for Wolfville, to visit her father, and will return home tomorrow afternoon via Boston, Yarmouth Telegram.

**PARCELS FOR PRISONERS
OF WAR IN GERMANY**

Parcels Must Be Very Strongly Packed
The Post Office Department has been notified by the British Post Office that many parcels sent from Canada to Prisoners of War in Germany are being received in London in a damaged condition, so that frequently they have to be repacked before they can be forwarded to Holland for transmission to Germany. The British Post Office adds that in most cases the damage appears to be due to the fact that the parcels were inadequately packed by the senders.

The public are warned, therefore, that parcels for Prisoners of War, unless they are very strongly packed, will probably arrive in such a condition as to be of little or no use to the recipients.

Ordinary thin cardboard boxes, such as shoe boxes, and thin wooden boxes should not be used; nor does a single sheet of ordinary brown paper afford sufficient protection. Even where proper materials are used, it is important that the contents should be tightly packed so as not to shake during transit. The following forms of packing are recommended:

- 1—Strong double cardboard or strawboard boxes. Those made of corrugated cardboard and having lids which completely enclose the sides of the box are the most suitable.
- 2—Tin boxes such as are used for packing biscuits.
- 3—Strong wooden boxes.
- 4—Several folds of stout packing paper.

The British authorities advise that parcels for Prisoners of War in Germany must not be wrapped in linen, calico, canvas or any other textile material. Parcels posted in Canada for Prisoners of War in Germany which have not been adequately packed by the senders will not be forwarded but will be returned to the senders, as the British Post Office has notified the Department that parcels which are inadequately packed must be returned to the senders.

**CANADIANS PRAISED
BY CORRESPONDENT**

New York, Oct. 25.—A correspondent of the New York Times writing from the British front in France, says in part: "As I with several others worked my way past this endless chain of barbed wire, we came in view of the Canadian division, which had been in the fighting line and was now returning for rest. The day before a German in a hospital had said to me: 'The Canadians are fine fighters and brave fellows, and so are the Australians.' He had been fighting against Canadians at different intervals, he said, for many months."

"This Canadian division went along the road whistling, singing and mud-stained. They were fighters, and no doubt of it, as were also those Scotch troops we met later at the point on the road where there was a veritable hillock of empty shell cases."

**KAISER ARRIVES ON SOMME
TO DIRECT COUNTER-
ATTACK**

Paris, Oct. 24.—La Liberté's correspondent on the front in Northern France says that the growing intensity of the bombardment between the Ancre and the Somme indicates that the Germans are preparing for another attempt to remedy a situation which is becoming more critical for them each day. Emperor William, adds the correspondent, has even been reported to be at Bapaume personally overseeing the preliminaries for the formidable counter-offensive in view for which the German army on the Somme front is said to have received strong reinforcements in infantry, and more especially in artillery.

Let Canadians work and save and thus help bring victory—Sir Thomas White.

CANADA CREEK

The marriage took place at Berwick on Oct. 21. of Nettie Ella May Baltzer second daughter of Mr. Hiram G. Baltzer, and Mr. George Baltzer of Waterville Kings Co. N. S. Mr. Watson Graves, Morden, visited friends here recently. Mrs. W. Coffell who has been spending a few weeks here has returned to her home in Blomidon.

HIS MASTER'S VOICE

Missing his dog Jet, a Brookline man telephoned to a neighbor's. Yes, the dog was there; he and the children were enjoying a romp. The owner asked that he be sent home, and hung up the receiver.

Ten minutes later, as doggie had not shown up, the owner telephoned again. The reply was that they had tried to send Jet home but he would not go. Bring him to the telephone," was the request. Jet was placed on a chair, and the receiver held to his ear "Come, Jet Come Jet!" called his master, and Jet jumped off the chair and made for home.

FEARS OF THE FUTURE

The domestic cat had not usually been highly valued as a producer of fur but times have changed for it is now announced that New York dealers in fur are ready to pay from 15 cents for a plain common cat skin up to \$1 for maltese skins and twice that sum for a perfectly black skin. It is said that at one auction in New York recently 17,000 cat skins were sold at the range of prices above indicated.

"Young man, did you kiss my daughter in the hall last night?" said the girl's mother sternly. "I thought I did," said the young man promptly. "But really you look so young that I can't always tell you and your daughter apart."

The impending storm did not burst. It is estimated that there is enough waste from the sawmills of the Southern States alone to produce 20,000 tons of paper per day. The waste from Canadian sawmills is undoubtedly in proportion. Investigations are being made by the Forest Products Laboratories, in both Canada and the United States, with a view to the development of methods for the commercial utilization of this waste. Considerable progress has already been made in sections where local markets are readily available.

The total estimated value of this year's crops in Prince Edward Island is \$11,135,838.

HORSE GOODS

Minard's Liniment Cures Burns, Etc.

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (not sub-Agency,) on certain conditions.

Duties—Six months residence upon cultivation of the land in each of three years. A homesteader may live with nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price, \$3.00 per acre.

Duties—Six months residence in each of three years after securing homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

Settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The art of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G.,
Deputy of the Minister of the Interior

GREAT REVIVAL SERVICES

The great revival meeting being held in New Glasgow, in a building seating 2,500 people purposely erected for these gatherings are coming to a close.

Up to October 23 there were announced 685 converts in the three weeks 425 conversions and 222 prayer meetings. The evangelists, male and female, conducting these meetings prove themselves speakers of much ability.

In the Daily Mail, of London, England, the suggestion is made by a correspondent that Canada, Australia, New Zealand and South Africa be each authorized to establish a regiment of Guards.

There was 62 Scott Act cases in Newcastle, N. B., in nine months; fines were over \$5,600.

THE LIFE AS YOU MAKE IT

To the preacher life's a sermon,
To the joker, it's a jest;
To the miser life is money,
To the loafer, life is rest,
To the lawyer, life's a tail,
To the poet life's a song
To the doctor, life's a patient
Who needs treatment right along,
To the soldier, life's a school,
Life's a good thing to the grafter,
It's a failure to the fool,
To the man upon the engine,
Life's a long and heavy grade;
It's a gamble to the gambler,
To the merchant, life is trade,
Life is but a long vacation
To the man who loves his work;
Life's an everlasting effort
To shun duty, to the shirk,
Life is what we try to make it—
Brother what is life to you?

20 AUSTRIAN BATTALIONS CUT TO PIECES

Petrograd, Oct. 24—Twenty battalions of Austrian infantry that took part in the attack against Russian forces at Kiribaba, in the Carpathians, were cut to pieces in the fighting of October 21, according to the reports received here. The 81st Regiment of infantry was almost completely annihilated. Out of one regiment of 850 men there were only 160 survivors.

Grazed on the forehead by a bullet, he never faltered; his arm broken in two places by a machine gun missile, he took command of his company and led the gallant Nova Scotians on and on through a storm of shot and shell in the final gallant charge on Courcellette, and then fell with a bullet in the breast. Such was the brilliant record of gallantry which has won for Lieut. Arthur G. DeYoung, of Dartmouth, the coveted Military Medal.

It is stated that the British have not lost a gun in the whole Somme offensive; and it is probable that this is the only offensive in the war that can boast of such a wonderful record.

Gasoline is going down, according to reports from New York, its wholesale price being reduced to 22 cents a gallon. The reason given for the reduction is the heavy increase in production of crude oil.

Daily Echo:—Mr. C. H. Cahane, K. C., is bringing his son, Captain Cahane, of the Canadian Engineers, to New York for special treatment. Captain Cahane was severely wounded in the spine.

The man who sleeps in church doesn't always dream of heaven. Sweden is now an armed camp with 300,000 men ready to take the field at a moment's notice.

The season for shooting deer opened on the 20th, and will close on the last day of the month.

A German light cruiser has been torpedoed in the North Sea by a British submarine.

BABY'S EYES WORTH \$25,000

California Court Gives Judgment Against Midwife

San Francisco, Oct. 24—The value of a baby's eyes was fixed at \$25,000 here today by Judge Frank J. Murasky in Superior Court, who gave judgment for that amount to the parents of Mary Rubic, 1 year old, against Mrs. Amalia Razuouli, a graduate midwife. It is alleged that the midwife failed to care for the baby's eyes properly at birth and the child is blind.

"A pair of baby's eyes are priceless," said Judge Murasky. "No amount of money that this or any other court could give, no matter how large the amount would compensate for the loss of this baby's sight."

TO REGULATE PRICES

London, Oct. 24—Replying to a question in the House of Commons this afternoon, Walter Runciman, president of the Board of Trade, said he might soon ask Parliament to confer additional powers on the Board of Trade with a view to checking any preventable rise in food prices.

FORD PAYS WOMEN SAME AS MEN

Long Branch, N. J., Oct. 24—Henry Ford, of Detroit, tonight announced that he has established the women workers in his automobile plants on the same basis as the men, which is understood to mean that his women employes will receive a minimum wage of \$5 per day.

Col. Hugh Clark, M. P., member for North Bruce, has been appointed secretary for the department of external affairs.

Notice to Subscribers in Arrears

Claims for unpaid accounts are pressing us and it is necessary to raise a large sum of money at once. To pay our accounts promptly and save legal expenses, we must collect all our outstanding subscription and printing accounts.

All subscription accounts over two years in arrears will be handed over immediately to a magistrate for collection at the rate of \$1.50 per year and his costs. As several bills have been sent out and no notice taken of them by many who are in arrears we cannot add further save the magistrate's letter and added cost remittances due for over two years should be mailed us this week, or a letter or card forwarded to us stating that postage to those accounts. To some further time is required and when account can be paid in full. We will listen to any reasonable request for time where a distinct time for payment is promised.

The cost of producing our paper has about doubled the past two years and we cannot longer allow subscribers to remain in arrears.

SUBMARINE USS SAID TO HAVE BEEN SUNK BY STEAMER STANLEY

(Boston Globe)

Capt. W. G. Tudor, of the British steamer Hochelaga, which arrived today from Louisburg, Cape Breton, stated that before he left Nova Scotia the persistent rumors were current that the German U boat 53 had been sunk off Sydney, N. S., by the Canadian patrol boat Stanley.

He said he heard the rumor several times but he was unable to verify it.

"Before I left Louisburg I was told by a shipping man that I need not worry about the German submarine," said Captain Tudor.

"This man said the U-boat would not bother any more British vessels because she had been sunk by the Stanley."

Capt. Tudor said that no mention had been made of the fact of Capt. Rose and the crew of the German submarine.

While this report could not positively be confirmed it was generally certified in Nova Scotia.

According to the rumor the submarine was caught and sank off the port of Sydney a few days after her raid on shipping off Nantasket Lightship, Oct. 8.

The German was apparently lying off the Nova Scotia coast waiting for troopships out of Halifax when the Stanley, which was on patrol duty, pounced upon her and before she could submerge, sent the Kaiser's undersea boat to the bottom.

Captain Tudor said he could not vouch for the truth of the story, but he felt that he absence of any recent news of the submarine and the entire cessation of her activities on this side of the Atlantic would apparently strengthen the belief that the story is true.

The officers of the Hochelaga said that whether the rumor was true or not, shipping interests in Nova Scotia felt easier and the officers and men on vessels leaving port had not that dread of attack that they felt before.

One of the crew of the steamer in reply to a question regarding the reported loss of the German submarine, said that it was impossible to secure information from the Naval authorities and they are the only ones who could confirm the story.

TWELVE GOLDEN RULES

- and without slamming it.
1. Shut every door after you.
 2. Never shout in the house.
 3. Never call to persons upstairs or in the next room; if you wish to speak to them, go to them.
 4. Always be kind and polite to servants if you would have them the same to you.
 5. When told to do or not to do a thing, by either parents, never object, but obey cheerfully.
 6. You may tell of your faults and misdoing, but not of those of your brothers and sisters.
 7. Carefully clean your shoes before entering the house.
 8. Be prompt at every meal hour especially so in the morning and cultivate the habit of early rising.
 9. Never sit down at the table or in the parlor with soiled hands or disheveled hair.
 10. Never interrupt any conversation, but wait patiently your turn to speak.
 11. Never reserve your good manners for company, but be equally polite at home and abroad.
 12. Let your first, last and best friend be your mother.

MORE VICTIMS OF TYPHOID

(Yarmouth Post)

The typhoid fever epidemic at East Pubnico which we referred to on several occasions was a little more widespread than reported to us. We were told there were only fourteen victims but we heard today that there were twenty. One of them was taken sick at Antigonish.

WEDDING BELLS

Parker-Wood

A very pretty Twilight Home wedding took place at the residence of Mrs. J. Wood, Belcher Street, when her youngest daughter, Miss Alice Wood, a popular trained nurse was united in the holy bonds of matrimony to Mr. Lorne Parker of Medford, on Wednesday afternoon, Oct. 25th at 5.30.

The bride, who was given away by her brother, Mr. Charles Wood, was attired in a gown of cream crepe de chene with satin trimmings looked very sweet and charming; and under an arch tastily decorated for the occasion the wedding ceremony was performed by Rev. J. D. Hull, B.A., Rector of St. John's Church, Cornwallis. Many useful and handsome gifts bore testimony of the high esteem in which the bride and groom were held.

After the ceremony a dainty luncheon was served, and later Mr. and Mrs. Parker left for points east for a short honeymoon.

We wish Mr. and Mrs. Parker much joy and happiness in their future home at Medford.

Just received a shipment of Castor Oil and Resin.
