SPLENDID NEW \$48,000 NURSES HOME OPENED AT THE MIRAMICHI HOSPITAL

The opening of the new Nurses' Home in connection with the Miramichi Hospital at Newcastle, took place Tuesday and a large number of visitors took advantage of the opportunity to see this beautiful building and admire the new equipment which will mean so much in comfort for the staff of the hospital and add to the capacity of the main hospital building as well.

The building itself is a credit to the builders' art, and while all the furnishings had not arrived Tuesday, enough was there to give the visitors an idea of the excellent way in which the Home is being fitted up.

The visitors were shown through the building and then enjoyed after noon tea, served by members of the I.O.D.E. who also furnished the dining room of this institution. The medical staff is furnishing the library and Northumberland Lodge F. & A.M., the lecture room. Mr Brodie, the architect is furnishing the bedroom; the Lounsbury Co. Ltd. have furnished the living room in memory of the late Major Belyea killed in the Great War, and R. Corry Clark is furnishing a Children's Ward in memory of William A. Park, in the quarters of the main building now being vacated by the nurses.

This splendid new building has cost about \$48,000 and of this amount \$23,000 was raised at the time of the Drive and further donations were announced at the opening of \$500 from Mr. W.S. Loggie and \$500 from the Chatham branch of the Hospital Aid so the building is

now half paid for. During the afternoon the Nurses of the Hospital held a sale of fancy work which had been donated to them and augmented by proceeds from some candy they made a total of \$90

Flowers sent in by friends brought \$20 and the I.O.D.E. cleared \$50 on their tea.

The annual graduation exercises were held in the evening when two members of the Training School Miss Anna Jane McKenzie and Miss Helen Evelyn O'Brien graduated with honors after the complete three years course. The programme was as follows:—

Selection—Orchestra
Address of Welcome—Mr. G.P. Burchill.

Invocation—Rev P.W. Dixon
Address—Mr. Kenny, Superintendent of Victoria Hospital.

Solo—Miss Ferguson.
Address—Mayor D.S. Creaghan.

Pledge.
Presentation of Diplomas and Pins—Dr. R. Nicholson.

Address to Graduates—Dr. J.B. McKenzie.

Reading—Mrs. Waldo Crocker
Selection—Orchestra.
Benediction—Rev. W.J. Bate.

God Save the King.

At the close of the exercises the nurses served ice cream and candy and a pleasant half hour was spent by the audience. A Jam and Pickle shower was also held and an immense lot of these necessities were showered on the hospital from grateful friends and well wishers.

Heard News

By Radio

(Chatham Commercial)
E. N. Kuddock, a former Chatham man now residing in Hyde Park, Mass., writing to Mr. W.B. Snowball M.P. congratulating him on his election said: "About 9:30 the air was still; not a sound was in the phones when out of the clear, there came following: "Snowball was elected in the by-election in Northumberland county today."
Mr. Snowball has heard from three other parties in different parts who picked up the same radio message

Notice Of Appeal

Given in Libel Suit

Notice of appeal by The Gleaner Limited has been served upon McLehann and Hughes, solicitors to the plaintiff, in the libel suit of R. B. Hanson, M.P.; for York St. Newbury; against The Gleaner Limited. The notice calls for the appeal division of the Supreme Court of New Brunswick to hear the case at the November sitting, which opens on Tuesday, November 11th. The appeal court will be asked to upset the verdict of the jury at the recent sitting of the York Circuit Court upon the grounds that their finding was not in accordance with the evidence, as well as upon other grounds.

LUMBER BURNED AT MILL AT DOAKTOWN

Upwards of one million feet of unmanufactured lumber, in the Doaktown Lumber Company's mill yard was burned Friday night with a loss of more than \$25,000. The fire started in the end of the

lumber yard furthest away from the mill, early in the evening and burned right through the yard, destroying pile after pile of lumber ready for shipment, and it was with much difficulty that the mill itself was saved.

Black Cats

Carload lots of hay and oats are stored for the horses in Moir's stables. To keep rats and mice away cats are necessary. The stable all black to match the black horses used in Moir's deliveries.

Practically all the fifty horses are Black Beauties. Mostly they are pure black Percherons, but one

of the black ones is of registered Clydesdale pedigree.

Frank Boutilier, noted horseman takes a loving pride in the selection and care of these horses and sees that the men clean harness and wagons daily so that all teams will stay spotless.

No driver ever has to touch a horse.

REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Town Council of the Town of Newcastle was held in the Town office on Thursday, Oct 16th at 8 o'clock p.m. Present—Mayor Creaghan, Ald. Atkinson; Crocker; Dickison; MacKay, Russell and Ritchie. A request from W.E. McEvoy for exemption from personal tax on account of disability was read and the request was referred to the Petition Committee.

A communication from the Secretary of the I.O.D.E regarding children under fourteen years of age attending moving pictures without parents or guardians was read, and referred to the Police Committee.

The Town Clerk submitted a bill from the Maritime Home for Girls for \$11.67 and same was referred to Ald. MacKay to consult the County Secretary. The following bills were passed and ordered paid:—

Light and Water Dept.
Can. Gen. Electric Co. Ltd. \$54.10
T. McAvity & Sons Ltd. \$129.87
Stothart Mercantile Co Ltd. \$273.24

Public Works Dep.
C.N. Railways \$32.50
D. J. Ritchie Co Ltd. \$5.77
Wm. Stymiest \$21.61
Stothart Mercantile Co Ltd. \$173.63
Lounsbury Co. Ltd. \$1.40

Police Department.
Stothart Mercantile Co. Ltd. \$28.35
D.F. Maltby \$53.86

Fire Department
Dominion Rubber System \$72.50
Stothart Mercantile Co. Ltd. \$25.55

After a general discussion on the method of buying supplies it was moved by Ald Ritchie, seconded by Ald. Crocker and carried, that the Mayor and Ald. Dickison be a committee to procure a system of requisition forms to be used when purchases are made.

The report for the quarter ending September 30th was read and same was received and ordered filed.

Ald. Ritchie gave notice that at the next regular meeting he would introduce an amendment to By-Law No. 24 to define the nature of buildings to be erected in certain areas of the town.

On motion the council adjourned.

WOODEN LEG MAN ON NORTH SHORE?

The missing man with the wooden leg who authorities in Maine and New Brunswick have been looking for in connection with the recent series of breaks along the northern New Brunswick and Maine boundary is believed to be on the North Shore now.

Conductor P. Keenan of the Canadian National Railways said that a man answering the description of the missing member of the bandit gang got on the C.N.R. express from Fredericton to Newcastle last Saturday night and that he put him off the train at Doaktown. The man had no ticket and said he had no money, but Conductor Keenan recalled that he gave the train crew considerable trouble because of his defiant attitude. Among other things the man told them he was from Maine.

Conductor Keenan believes this is the same man who was in Woodstock jail recently and was released from there just before Maine officers arrived there looking for him.

CHATHAM FIRE SUSPECTED OF INCENDIARY ORIGIN

An inquiry was held at Chatham Thursday, into the cause of the fire which completely gutted the store and stock of Charles Farrah a short time ago. It is alleged that the fire was of an incendiary origin and it is also claimed that a large portion of the stock was removed from this store. The investigation was conducted by Hugh H. McLellan of St John, Provincial Fire Marshal. A number of fire insurance company experts were in town for the inquiry.

BE A SELF-STARTER

One of the greatest improvements of the automobile is the self-starter. Now it runs on all but the cheap s. kinds of cars, which need to be cranked by hand. This device suggests the reflection that a very large proportion of the human family require something of like nature. They lack initiative, voluntary effort; they need cranking—in the form of orders or directions, before doing anything worth while. The men and women who succeed best in life and get the most out of it, are of the self-starter class. They don't wait to be told or advised what to undertake, but proceed of their own accord to do things. The great inventors, such as Edison—are all of this sort. They are originators—not mere followers or imitators and they rank among the chief benefactors of the world. So it is in business, literature; art, the various industries and in fact all occupations. Success in each is dependent chiefly upon originality or initiative. So let every young man or woman resolve to be a self-starter.

Why Endure PILES MISERY

The weakening agony of piles robs life of its pleasure, turns days of brightness into days of misery, and brings periods of acute suffering. Overwhelming evidence proves Zam-Buk incomparable for banishing the pain, bleeding, swelling and inflammation. Mr. Al Brown, of Merritt, writes: "I hope that my testimony will reach thousands suffering from that dreadful ailment, piles. For six years I was never free from pain. No one ever spent more money in search of a remedy. A sympathetic friend gave me a part of a box of Zam-Buk to try. Its soothing power was marvellous, and I soon had a further supply of this grand herbal healer. I used Zam-Buk until the old painful trouble was gone completely." Equally successful for eczema, psoriasis, salt rheum, pimples, boils, bad legs, ulcers, scalp disease, poisoned wounds, cuts, burns, scalds, etc. Dealers everywhere sell Zam-Buk at 50c. box, 3 for \$1.25.

GET Zam-Buk TO-DAY!

FRUIT TREATMENT FOR CONSTIPATION

Quick and Permanent Relief By Taking "Fruit-a-tives"

What a glorious feeling it is to be well! What a relief to be free of cathartics, salts, laxatives and purgatives that merely aggravate constipation and are so unpleasant to take and so weakening in their effect! What a satisfaction to know that the juices of apples, oranges, figs and prunes will absolutely and permanently relieve constipation. By a certain process, the juices of these fruits can be concentrated and combined with tonics—and it is these intensified fruit juices that correct constipation, relieve headaches and biliousness, and make you well and keep you well. "Fruit-a-tives" are sold everywhere at 25c. and 50c. a box—or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

SEEK TO ENLARGE CANADA'S TRADE

Hon. T. A. Low, Minister of Trade and Commerce and possibly another minister; accompanied by H. J. Logan, M.P. for Cumberland and J. W. Russell, tariff expert of the Finance Department will sail in December for the West Indies in connection with the proposed development of trade between Canada and those islands. Whether the acting Minister of Finance will go is problematical in view of the fact that the session of Parliament is proposed to be summoned in January and the prominent part in the arrangements which the minister of that department plays. Communications which have been exchanged by cable indicate a readiness on the part of the West Indies to negotiate a trade arrangement on broader lines than now prevail. If a new arrangement is concluded it is hoped to divert directly to Maritime ports a large part of the traffic coming to Canada via the States as well as enlarging generally the volume of reciprocal trade.

OTHER LOANS ARE BEING CONSIDERED

Completion of the \$200,000,000 loan to Germany will pave the way for other international loans aggregating several hundred million dollars within the future in the opinion of United States bankers. While a great part of this business would be for account of German industries, it was said today that France already was negotiating for \$150,000,000 and that Belgium was insistent that her demands be given immediate attention. The United States share of the German loan \$110,000,000 will be produced on schedule tomorrow in international bankers connected with the J.P. Morgan and Company group said. Financial district information accepted as true, though lacking confirmation of the Morgan house says that the banking commission for handling the German business will be in the neighborhood of five points a usual margin in transactions of this kind.

FOUND EVIDENCE OF GRIM TRAGEDY ON WRANGEL ISLAND

Nome; Alaska Oct 14—Since Russia hoisted her flag over Wrangel Island in the Arctic Ocean, north of Siberia; August 20 the Stars and Stripes have been run up on Herald Island, a smaller body of land, forty miles east; it was learned here today.

The United States claim to Herald Island was made by Captain Louis Lane, Master of the Schooner Herman which returned to Nome Sunday after making a vain attempt to reach Wrangel Island where a colony of 13 headed by James Wells of Nome was left last year to establish British possession.

The cutter Bear, of the United States Coast Guard and the schooner Silver Wave, made attempts to reach Wrangel Island this summer but the only craft known to have succeeded in doing so was the vessel Red October, which claimed the island for Russia.

The Herman lay at Herald Island two days. On the beach were found bones, believed to be those of one of the two parties of four each that were lost after the Karluk; an exploration ship of Stefansson, went down in the ice 60 miles north of Herald Island in 1914. Parts of a sled; a compass and two guns were seen with the bones.

Sidney Snow of San Francisco who went out with the Herman on two trips into the ice pack of the Arctic this summer and took motion pictures of game said that signs indicated that the party had perished had been on the island a month and that its members through out that time were unable to do anything for themselves.

It was thought here that this party must have been the one headed by Dr. Allison F. McKay a Scotch Surgeon. These men became dissatisfied and left a camp that Captain R.A. Bartlett Master of the Karluk had established on the ice where the ship went down. Dr. Allison Forbes Mackay and James Murray, British Scientists; Henry Beauchamp, French Scientist; and Stanley Morris, a Canadian Sailor; member of Stefansson's 1913-1918 Canadian Government Arctic Expedition, left Stefansson's ship Karluk after it was wrecked and attempted to make their way to Wrangel Island across the ice floes. They were never heard of after starting their attempt.

The Potato Yield 25 p. c. Greater

New Brunswick potatoes are reported as promising an increased yield of 25 per cent over 1923, with little trouble from insects or disease. The total yield has been estimated at 7,560,250 cwt. Practically no rot has been reported and the tubers are of good size and very clean. The per acre yield is up to the average. New Brunswick's estimated apple crop for 1924 has been placed at 86,615 barrels as compared with 69,292 barrels for 1923, according to the fruit and vegetable crop report for October; issued by the Fruit Branch of the Federal Department of Agriculture. Favorable growing conditions during the past month have improved the apple prospects until it appears that the total increase over last year will amount to 30 per cent. This increase is shown principally in the fall varieties. The apples are reported clean, of good color and generally more than average size. Dudley's; Wealthies and Wolf Silvers have been harvested, while the picking of McIntosh and Fameuse is in process.

AVOIDING THREE CORNERED FIGHTS IN GREAT BRITAIN

Beaverbrook Says the Conservative Die-Hards Are Opposed to the Plan.

The star publishes the following cable from Lord Beaverbrook:

To the Editor of the Star: "The striking feature of the early days of the election is the combination between Liberals and Conservatives to defeat Socialist members returned last time on minority votes in three cornered contests.

"There is no national agreement but in many local areas the Liberal candidate is standing down for the Conservative and vice versa; and so avoiding the three cornered fights of 1923. There are 70 of these seats held by Socialists and the upshot of the election will probably be decided here.

"The chief opponents of this move are the Conservative diehards who maintain that Labor profits more than Conservatism when a Liberal candidate retires; but the diehards have always been wrong in their political strategy. The Conservative party is never placed in office except against diehard's will and advice and never remain in office if the diehards gain control as the parliament of 1923 proved."

STRANGE LEASES

Some of the strangest leases in the world are to be found in England. Among those of the tenants at Hampton Bishop, in Herefordshire are particularly interesting. These leases are the remnants of the feudal system but they still hold. Under these original leases each householder must gather each year six horseloads of staves from Hay Wood, nearby. These are for penning sheep at the Hereford Fair, whenever they may be required. The tenants are very pleased to do this, since they not only are relieved of any obligation of a money payment of rent but they receive money for their sticks. It is not very much—only a half penny for each load—but binds the bargain.

MUSKRAT \$135

Made from perfectly matched choice Team Top Muskrat, giving a panel and border effect. Fancy silk lined; two inside pockets; silk cuffs in sleeves.

This Kentucky Man Wins It

Reports of weddings are apt to be written in a stereotyped fashion at least that is a complaint often made in newspapers. The brides are all described as lovely or charming or attractive—something of that sort; and a claim is that there should be a change in the matter of descriptive effort.

A reporter on the Chronicle of Charlottesville, Kentucky has gone and done it. Here's the proof:

"The bride is a woman of wondrous fascination and remarkable attractiveness, for with manner as enchanting as the wand of a sorcerer and a disposition as sweet as the odor of flowers, and spirits as joyous as the caroling of birds and mind as brilliant as those glittering tresses, with heart as pure as dewdrops trembling in a cone of violets, she will make the home of her husband a paradise of each and every one of the lovely homes of her girlhood; where the heaven-toned harp of marriage with its chords of love and devotion and fond endearments send forth sweet strains of felicity that ever thrilled the senses with the rhythmic pulsings of ecstatic rapture."

The Fall Weather

Hard On Little Ones

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless the baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make babies thrive.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

FOREST FIRES IN N.B. CAUSED LOSS OF \$52,927

Forest fires in New Brunswick for the 1924 season caused total loss amounting to \$52,927 as contrasted with \$2,875,496 in 1923. This is one of the lowest fire losses on record for any one season.

While there has been a total of 213 fires reported during the past season, 65 of which were railway fires, only in two instances has the territory covered been in excess of 1000 acres.

Timber losses on private lands are estimated at \$22,075 and 15516 crown lands while property damaged is valued at 15,342.

Squirrels Prepare For Hard Winter

A long and cold winter threat ens. This is not an official forecast of the Weather Bureau, but the prediction of self-appointed prophets who gathered in Bayport, L.I. recently to see the squirrels start to gather their winter supply of nuts.

The squirrels had long and silky fur, nature's protection in advance of a cold spell. The additional fact that they are starting at this early date to lay in winter provisions was taken to mean that winter is close at hand. The fact that the weather was, locally, too warm for baseball did not alter the conviction of the chill prophets.

HOMES THAT ARE NOT HOMES

Parents are so much on the go nowadays, the margin of time between their necessary work is so completely taken up with entertainment, sport, social activities and a thousand and one distractions that home ceases to be a home and becomes merely a stopping place.

What happens? Well, the divorce courts tell part of the story. The juvenile and criminal courts tell more of it. The school authorities are aware of many facts, and now and then they give utterance to wise counsels for parental ears.

Principal Alfred E. Stearns of Phillips Andover Academy, is one of the latest to do this. In an address before the fifteenth annual convention of the Massachusetts Parent-Teacher Association, Principal Stearns declared that "parents of today are not on their jobs, and as a result the children suffer." The home he characterized as "the background and foundation of American life." He deplored the tendency to exalt individualism and selfishness; the unwillingness of parents to talk over with their children such matters as automobiles, joy rides; movie and reading; the neglect of discipline; the absence of home atmosphere and the omission of religious training.

Of course there are still a great many homes of the better sort. These are the bulwark and hope of the nation.

Increase In Caribou Now Apparent

Reports to Chief Game Warden L.A. Gagnon indicate that caribou are showing signs of increase this season. The animals have been protected for some years and still are being protected. The possibility is that in time the caribou will become plentiful enough to permit hunting.

Game Warden Gough of Tobique has informed the Chief Warden that he recently saw a herd of nine caribou in his territory. That was about two weeks ago and earlier in the autumn the caribou were seen in the same section. It is three years since the first were observed in the Tobique country. The increase which has been noticed is believed to be the result of breeding and not migration. This is very encouraging.

Originally the caribou returned to New Brunswick from Quebec via the Matapedia Valley. It is believed that they came from the Gaspé Peninsula.

Some years ago New Brunswick was an excellent caribou country and may be again. The animal has a migratory instinct and frequently changes its district of habitation.

A theory which is strongly supported by fact, is that with the increased number of deer; the caribou move out of the deer infested country.

Grain And Flour Rates Not Affected

The eastbound rates on grain and flour contained in the Crow's Nest Pass agreement will not be affected by the majority judgment of the Railway Commission today. The majority report specifically stating that the rates in effect on July 6 1924; are to be enforced within fifteen days of the date of this judgment. The grain and flour rates came into effect two years ago.

EXPECT HARDWOOD INDUSTRY SOON

The hardwood resources of the North Shore may, before long, be developed to an extent not thought of a comparatively short time ago. In recent months this matter has been the subject of considerable discussion in several quarters; and it is now thought probable that before long some definite move will be made towards the development of the hardwood resources of Restigouche and the surrounding country.

Such a move would take the form of an effort to interest capital in the manufacture of Furniture here. At least one party now has this matter under consideration, and it is thought possible that before long some definite steps will be taken in connection with such an enterprise.

Until recently little has been done with a view to developing the hardwood supplies of the North Shore. Of late, however, considerable activity has commenced in different quarters; and from all appearances this interest augurs well for the inception of some project which, if successful, would mean as much to Campbellton as well as to owners of hardwood lands throughout this part of the province.

Quebec By Elections To Be Held Nov. 6

After conferring with organizers and discussing the political situation in the Province it was decided by Premier Taschereau to hold the five by-elections of Quebec county; Sherbrooke; Montreal; St. Anne; Bonaventure and St. Maurice on November 6th.

In timeseaming the vacancy was only created a few days ago and it was agreed that the by election would take place next spring.

Writs for the by election will be issued Wednesday or Thursday leaving three full weeks for the campaign.

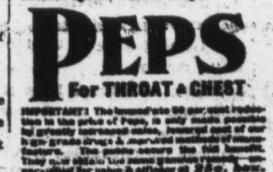

That First FALL COLD

NEVER forget this! It's the first "cold snap" catching us unawares, that finds the weak spot in throat or chest. Peps provide the best and handiest means of getting rid of Fall colds quickly and surely. Neglect adds to your troubles later on, most possibly in the shape of a bad dose of bronchial catarrh that lingers through the winter.

The first sign of hoarseness or throat irritation is evidence that you need Peps. Dissolve one or two of these pleasant infection-killing tablets in the mouth right away. Breathe deeply into throat and lungs the powerful healing and germicidal Peps medicine given off in the form of fumes. These cut the phlegm, soothe and purify the tender air-passages and destroy harmful germs that start trouble in throat, and lungs.

Peps remove the cause of coughs, colds, sore throat, bronchitis, etc. By invigorating and fortifying the entire breathing system Peps give valuable resistance against weather dangers.

PEPS
For THROAT & CHEST

IMPORTANT! The famous Peps medicine is made in the form of Peps, in only small quantities of greatly increased value, intended for use in the form of fumes, and is the only medicine that can be used in this way. The Peps medicine is the only one that can be used in this way. The Peps medicine is the only one that can be used in this way.

BETTER IN EVERY WAY

After Taking Lydia E. Pinkham's Vegetable Compound

Ingomar, N. S.—"I took your medicine for a run-down condition and inward troubles. I had pains in my right side so bad at times that I could not walk any distance. I saw about Lydia E. Pinkham's Vegetable Compound in the newspapers and have taken five bottles of it. I am better in every way and you can use my letter to help other women." — Mrs. ALVITA M. PERRY, Ingomar, N. S.

Nervous Breakdown Relieved

Toronto, Ontario.—"It is pretty hard to explain your feelings in nervous troubles. I felt low spirited, had pains in my head and eyes, always crying, and did not want to go anywhere. I do knitting and fancy work, and I would get irritable after a few minutes of work. I have been in Canada five years and have been this way ever since I came. I am taking Lydia E. Pinkham's Vegetable Compound and I sleep better and it seems to make me eat, and I must say I am feeling more jolly. I have great faith in your medicine because of what it has done for my husband's sister and she recommended it to me." — Mrs. A. SMITH, 10 Burling Avenue, Todmorden, Toronto, Ontario.

All druggists sell this dependable medicine, and women suffering from these troubles so common to their sex should give it a trial now.

Here and There

Moose hunting opened in the Province of Quebec on September 10th. Indications are that an unusually large number of hunters will invade the woods this fall and the rush for licenses is well under way.

Edward A. Patterson, mining engineer of London, England, visiting Nova Scotia, states that the mineral resources of that province are practically lying dormant and that with proper development along scientific lines, mining could be advanced to first place in the province's industries.

Calgary, Alta., is planning an artificial ice rink because of the prevalence of chinooks in the winter, but the project will not be carried out in time for the coming season. Calgary had to abandon its scheme for an annual winter carnival because it could not count on weather that was cold enough or on snow.

The members of the band of the famous Princess Patricia's Canadian Light Infantry were among the passengers sailing for England aboard the Canadian Pacific liner "Empress of France" on September 10th. Under the direction of Lieut. T. W. James, they are to play at the British Empire Exhibition at Wembley.

The Duke de Alba, 17th of that name and 10th Duke of Berwick in the British nobility, together with the Duchesses of Alba and several other distinguished Spaniards, is touring Canada over Canadian Pacific lines. Their itinerary includes Niagara Falls, Toronto, Banff, Lake Louise, Vancouver and Victoria.

Transformation for the better wrought among the Eskimos in the last 25 years is almost unbelievable, so Bishop I. O. Stringer, of the Anglican diocese of the Yukon, reported on a recent visit to Edmonton, Alta. The Bishop attributes this improvement to the influence of the missionaries and the Royal Canadian Mounted Police.

The "Calgary process," the newest method of oil refining, was examined with interest by the members of the British Association for the Advancement of Science during their recent visit to Calgary, Alta. This process has become world-famous ever since the experiments conducted at the local Imperial oil refinery proved so successful.

Thousands of Belgians are waiting to cross the Atlantic to Canada as soon as the Dominion can assimilate them, it is reported by authorities in touch with the situation. Belgium's interest in Canada is further evidenced by the visit to the Dominion of Louis Strauss, veteran member of the diplomatic corps and member of the Belgian Parliament for Antwerp, who, as guest of E. W. Beatty, Chairman and President of the Canadian Pacific Railway, is touring the country studying economic conditions with a view to stimulating Belgian immigration.

Editorial

MR. BARNJUM'S LETTER

We publish today an important letter from Mr. Frank J.D. Barnjum. Mr. Barnjum has for years devoted his great talents, his aggressive fighting spirit and his wealth to convincing the powers that be in Canada that they must put an embargo on the export of pulpwood if our rapidly diminishing supply of this essential raw material is not to be carried off holus bolus, to the United States. He tells us in his letter, exactly how much we Canadians are robbed off when a cord of pulpwood is exported to American mills instead of being kept in Canada to feed Canadian mills, to earn wages for Canadian workmen and to create customers for Canadian merchants, manufacturers and farmers.

As an argument, his letter is irresistibly convincing. It is well worth the study of any man at all concerned in the future of this country. But is it even more interesting for another announcement it contains. Mr. Barnjum tells us solemnly, that he will presently offer all his holdings in Canada for sale, because he is convinced that under our present policy, there is no future for Canadian development. It will be nothing short of a national calamity if Mr. Barnjum carries out his threat—and he is a man of his word. Coupled with the recent tragic loss of Sir William Price, it would deprive us of the two most outstanding figures in the fight for forest conservation.

What is needed is an immediate embargo on the export of pulpwood—which will automatically stop the threatened export of Frank Barnjum

WRIGLEYS
After Every Meal

It's the longest-lasting confection you can buy—and it's a help to digestion and a cleanser for the mouth and teeth.

Mr. Frank J. D. Barnjum Will Leave Canada

To the Editor:

After spending the best part of the last three years, since my retirement from active participation in business, together with a very considerable fortune in trying to arouse Canadians to a sense of their duty in connection with our fast-vanishing forest resources, I have about arrived at the conclusion that the cause of forest preservation in Canada might as well be abandoned. I realize that the public is keenly interested but I find that an insurmountable stumbling block appears when it comes to the politicians and exploiters who can see nothing beyond their own petty interests and to whom the public welfare is a joke.

When I see the cold-blooded indifference displayed by the government at Ottawa, it makes me ashamed of my Canadian citizenship. I have decided, therefore to offer every acre of land, my pulp mills, farms, houses and whatever other property I own in Nova Scotia to the first buyer who comes along and to join in the exodus to another country. I am so disgusted with recent revelations that I do this notwithstanding my conviction that timberlands will double in value within two years. When

the interests become fully aware as to just how small the remaining supply really is there will be a panic in timberland prices, but nothing will compensate one for living in a country in which he has entirely lost all faith of its future.

I am convinced that the government, after paltering with this issue for many months has no serious intention of dealing with it in the only way possible to bring relief, and that no restrictions will be imposed upon the shipment of unmanufactured wood from freehold land so long as there is a tree left in Canada.

Personally, I have no desire to live in a treeless country; a condition which Canada is fast approaching and when I look around and see what other countries are doing for the preservation of their forests while Canada is doing nothing, there seems to be no good reason why I should.

But before departing from the land of my birth I want to leave a few serious thoughts with my fellow countrymen.

The present combination of politicians, exploiters and American gold are running and ruining Canada today. This combination is too powerful for the people, in their present apathetic state to cope with. If the people really knew what was going on behind the scenes, it would lead to a revolt. The members of the government, although paid by the people, are not their servants but their autocratic masters. Even the Bible speaks of "the servant when he reigneth." The interests of the people are subservient to theirs; they must retain power regardless of its consequences to the country. When a by-election is on the word is passed around that it must be won no matter at what cost. Immediately Ottawa is depleted of its great galaxy of orators who proceed to the scene of action. Between their eloquence, their cajoling, their intimidation and their campaign funds the poor voter has little chance to exercise his intelligence. The spectacle is so humiliating to red blooded Canadians that it is small wonder that the exodus from Canada in the past year is the greatest in the history of the country.

Disunion is being predicted with regard to the forest resources of Canada and I shall challenge the Government to reveal

the true situation.

Do the public know that an aerial survey of the territory north of the St. Lawrence and east of the Saguenay has revealed the astounding fact that that whole territory is seventy-five per cent. burnt?

Do the public know that in the Province of Quebec alone, between six and nine million acres were burned over during the single season of 1923, instead of the three million acres as announced by the Government of that province (which God knows—sufficiently appalling) and that despite this perfectly colossal shrinkage in our standing supply, exports of raw wood go on unchecked?

Do the people know that the very existence of the great pulp and paper industry is threatened, not only through the premature exhaustion of its raw material supply—but through ruinous competition brought about by the furnishing of cheap raw material to its competitors in the United States.

Do the people know that while Canadian mills have been reduced to operating at 80 per cent or less of their capacity, American mills owing their existence entirely to imported Canadian wood, are running 100 per cent and upwards?

Do the people know that there is not a pulp company in Canada that is making any profits—many being already in the hands of a receiver—or that the paper companies, if they were charging of adequate amounts for depreciation and depletion of their timber limits through insects, fungi, fire wind and cutting would be running at a loss?

Do the people know that pulp wood exported to the United States cost the Americans only \$9.77 per cord while the wood used by Canadian mills cost the Canadian manufacturers \$13.33 per cord? (These figures are both taken from the report of the department of Trade and Commerce.)

Do the people know that a cord of wood leaves in Canada a matter of \$10.00 while a cord of wood unmanufactured into paper enriches the country to the extent of \$50.00 to \$60.00?

Do the people know that our wood-using industries are second only to Agriculture as revenue producers and that the failure of the pulp and paper industry alone would bring this country close to bankruptcy?

Do the people know that the only measure that can possibly stabilize this industry today is an embargo on the exportation of its raw materials?

Nature is proclaiming on every hand that this continent has already been over denuded of forest cover. This is seen in the alternate floods droughts, vast forest fires; tornadoes; late and early frosts and consequent failure and loss and damage to crops. In other words—Nature's equilibrium is being upset by the ruthless hand of the exploiter.

An expert witness to this condition is Gene Stratton Porter, one of the greatest Nature students on this continent who says: "With the cutting of our timber has come a change in our winters; weeks of drought in summer and destructive cyclonic windstorms; winters alternating from a condition so open as to freeze prematurely forced fruit and grain and winters so springingly cold that the fruit trees are killed outright."

The even temperature and the rains every three or four days which we knew in childhood are things of the past. Summer in these days means to scorch for weeks at a stretch with unrelieved heat; and in the same state in

which I was born it has become necessary for overhead sprinkling systems in order to grow their garden vegetables; while windmills and irrigation are becoming common

"In my childhood my father planted grain with the same certainty of having a full crop that he had of having alternate day and night. Today the farmer on my land has no more idea whether he will get a paying yield from the wheat, corn and potatoes that he puts into the ground than he has as to whether the next cyclone will blow his house into the lake or pass a few yards on the other side of it.

We, as a nation have already the most wanton and reckless waste the world has ever known, changed our climatic conditions and wasted a good part of our splendid inheritance. The question now facing us is whether we shall do all that lies in our power to have the comfortable living conditions for ourselves and the spots of natural beauty that remain for our children. Small as the supply now is, it is vastly in excess of the remaining stand in Canada, consequently this warning applies with double force to this Dominion.

I have no ambition to figure as a lone crusader. I have done what I could to call attention to conditions and to bring about an improvement. If the government is so indifferent to the country's necessities and so derelict in

its own duties, there is no earthly reason why I should continue to exhaust my strength and give of my means to try to force upon them something they apparently do not want. This is why, after much careful consideration and much searching of spirit I have

PERSONALS

Mrs. Robert Bell is visiting friends in Amherst, N.S.

Mr. Harry McLean of Campbellton spent the week end in town.

Miss Margaret Dunn spent the week end in Chatham.

Mr. Cecil Murray, of Newcastle, spent the week-end in Bathurst, the guest of Mr. Freeman Eddy.

Mrs. J. D. Lyon of Millerton attended the Anderson-George wedding in Sackville last week.

Miss Florence Murphy left last Sunday for Brooklyn, New York where she will enter St. Mary's Hospital as a student nurse.

Mr. and Mrs. Joseph Wright returned to Boston on Friday after spending their honeymoon with relatives in Chatham and Newcastle.

Mrs. Robert Hewson of Toledo, Ohio and Mrs. George Bates of Boston, Mass.; were recent guests of Mrs. Robert Bell.

Charles Morris and Edward McEvoy enjoyed a few days of last week hunting on the Little South-west Miramichi River.

Mr. and Mrs. James Shanahan of Nelson have returned from their honeymoon and have taken up their residence in Nelson.

C. E. McWilliam who spent his vacation with his parents Mr. and Mrs. G. F. McWilliam has returned to Toronto.

Mrs. Robert Flemming of Glass, N. C.; who has been visiting relatives on the Miramichi returned home on Wednesday.

Joseph Nevin, James Murphy; Deibert White and Rex Murray have returned from the western wheat fields.

Mr. and Mrs. E.H. Sinclair were recent guests of Mr. and Mrs. A. G. Putnam, Sackville.

WEDDINGS

GREGORY-ROBINSON
At Toronto, Oct 4th, Miss Gwen-dolyn T. Robinson of Newcastle was united in marriage to George F. Gregory, St. John; by Rev. W. J. Mustard, of the Havelock Street Presbyterian Church.

PATTERSON-RUSSELL
The marriage of Miss Edith Clara Russell youngest daughter of the late William John Russell and Mrs. Russell of Newcastle, N.B.; and John Patterson of Douglastown, took place quietly at the Presbyterian Manse on Thursday evening Oct. 9th at 8 o'clock the ceremony being performed by Rev. Wm. Girdwood of Redbank.

The bride looked very attractive in a dress of log-cabin brown crepe-de-chene with hat to match. The witnesses were: Mr. Elmer Woods and Mr. Fred Gray of Douglastown. Following the ceremony a delightful supper was served at the home of the bride to only immediate relatives. The young couple will reside in Newcastle for the present.

UNITED STATES HAS DEER TO GIVE AWAY

The United States Department of Agriculture, through the Forest Service has some thousands of deer to give away according to a recent announcement. These animals are part of a large herd of mule deer estimated at over 30,000 head found in the Kaibab National Forest in Northern Arizona on the northern side of the Grand Canyon of Colorado. This area was set aside as a national game preserve by President Roosevelt in 1906 in order to preserve the deer

OBITUARY

W. WOODBURY WILLISTON
Another familiar figure which for over eighty years lived at Bay du Vin and shared its busy life was laid to rest in the old cemetery down by the sea on Sunday October 12th, the superb burial service so old, yet ever new being read by Rev. C.W. Nichols. The funeral was one of the largest ever seen in Bay du Vin. William Woodbury Williston was the son of the late William Williston of Bay du Vin and his wife Elizabeth Hains of Cork Island.

Mr. Wood had been in poor health for some time, and passed away on Friday evening Oct. 10th. Three brothers survive. Phineas Henry C. and Thomas H. He was twice married; his wife formerly Mrs. Katherine Taylor Mills survives him. By his first marriage to Miss Mary Jane Sinclair of Chatham, four sons Bernard Wishart, Livingstone and Rae and two daughters, Mrs Stephen Smith and Miss Jennie, D.N. are left to mourn the loss of a loving father.

He deceased had been keeper of the Upper Fox Island lights for over thirty years, retiring on a pension over twenty years ago.

herd which at that time was threatened with total extinction because of illegal hunting.

Under the protection of forest rangers, however the deer have increased in numbers to a point where the entire herd is threatened with starvation and prompt efforts must be made to reduce it to a number that can be supported by the vegetation on the Kaibab Plateau.

To accomplish this the Forest Service desires to give away as many deer as possible. The expense to the applicant will be crating and transportation charges, a sum estimated to be about \$35 per animal. Young animals only will be shipped. The estimated weight of one animal crated is 250 pounds. Shipments will be confined to east of the Sierra Nevada and Cascade Mountains as the introduction of mule deer into regions already inhabited by a subspecies would result in a herd very inferior to native stock.

The Kaibab Plateau is in a sparsely settled region cut off from the rest of Arizona on the south by the almost impassable Grand Canyon of the Colorado River. On the other sides it is surrounded by semi-desert areas across which but few deer attempt to pass. Consequently the deer herd in the Kaibab Forest is limited in food supply to the vegetation found only on the plateau; says the bulletin. Officials of the Forest Service fear that the winter will take a heavy toll if the herd is not reduced immediately.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears when the Blood is Enriched.

The urgent need of all who suffer from indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food taken. In this condition some people foolishly resort to purgatives, but these only further aggravate the trouble.

New strength is given weak stomachs by Dr. Williams' Pink Pills because these pills enrich and purify the blood. This is the natural process of giving strength and tone to the stomach, and it accounts for the speedy relief in stomach disorders that follow the use of Dr. Williams' Pink Pills. The appetite revives, food can be taken without discomfort and the burden and pains of indigestion are dispelled. Miss Mollie Averill, Cleanwilliam, Man; proves the value of these pills in cases of this kind. She says: "Some years ago I had a terrible attack of stomach trouble. My stomach rejected all food and I could not even keep down a light custard. I tried some tablets recommended for dyspepsia, but they did not do me a particle of good. Then I got medicine from a doctor but with no better results. By this time I had changed from a robust, healthy girl to a complete skeleton, losing flesh daily. Then my parents asked me to try Dr. Williams' Pink Pills and I began their use. After taking them for a short time I began to feel better and continued the treatment until I was completely restored to health. Since, on some occasions when I have felt the need of a tonic, I turn to Dr. Williams' Pink Pills and they never disappoint me. Most members of our family have at some time taken the pills with good results, so I now always recommend them to all in need of a reliable tonic."

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

FIRE LOSSES DROP FIFTY-FIVE PER CENT

A most encouraging example of what can be accomplished by coordinated effort in the prevention of fires is contained in the report issued by W.K. Keelson, Director of Insurance of the Canadian National Railways, on the result of the prevention week campaign on the lines of the National System in Canada and the United States. This report shows that during that week only three fires were reported on the whole of the 23,000 miles of the system, that caused losses in excess of \$10,000. This contrasts with 11 fires during the corresponding period last year. Mr. Keelson in his report says:

"During and immediately prior to fire prevention week approximately 3000 agents of freight and passenger stations, located at points which can be but seldom visited by the insurance department's inspectors, made a self-inspection of the buildings under their charge and prepared a report on forms which were designed both with the object of calling to the agents' attention those fire hazards which are the most common source of fire, and the best means which might be taken to prevent or combat them, and also, to furnish the company with information as to the condition of these buildings."

"It should be a matter of encouragement and satisfaction to the officers and employees of the Canadian National Railways to know that during fire prevention week only three fires, causing losses in excess of \$10,000 were reported on the entire Canadian National system, including the Grand Trunk Western Lines as contrasted with 11 fires during fire prevention week in 1923. When the size of the Canadian National System is taken into consideration this is about as near to a 100 per cent. record as it is reasonably possible to attain."

"While the company with the assistance and cooperation of the officers and employees, has been endeavoring to develop its fire fighting resources, the matter of preventing fires has not been overlooked, and as evidence that the effort put forth in this direction is now starting to pay dividends, it may be mentioned that the fire losses for the first six months of this year amount to \$197,659 as contrasted with \$405,418 for a similar period, last year a drop of 55 per cent."

"This reduction in fire losses was not confined to any particular section, but was general over the entire system. It is accounted for largely by the removal of many fire hazards, the installation of safety devices and fire fighting apparatus, and a greater appreciation on the part of employees of the more common forms of fire hazards."

CHARGED WITH STEALING AUTO

Wm. Boucher was arrested at Nelson Wednesday, by Chief of Police Peter Coughlan, charged with the theft of a Ford car the property of Charles Cook of Dalhousie. He was brought to Chatham and lodged in the lockup. The chief was able to make the arrest as the result of information received from a Newcastle garage, stating that a car answering the description of the one stolen had been taken there for repairs. Boucher was found in a boarding house at Nelson. He had taken a job at the Fraser's Co's mill there. The owner of the car was communicated with and Boucher will be taken to Dalhousie for trial.

CANADIAN POTATOES BARRED IN ENGLAND

Officials of the provincial Department of Agriculture are investigating an unusual situation which has arisen in connection with a consignment of 10,000 barrels of potatoes to England. With the consignment ready for shipment and steamer space already booked, the shipper's attention was drawn to the existence of a ban against the importation of Canadian stock into England hitherto unknown here and which was drawn to his attention by the officials of the steamship company.

This matter was immediately referred to the Provincial Department of Agriculture and the Federal Department at Ottawa. A reply has been received from Ottawa, stating that import of Canadian potatoes into England is being barred on account of the Colorado beetle, a destructive pest, against which precautionary measures are being observed to prevent its appearance in England.

This regulation appears to be one of recent origin as officials of the provincial department were ignorant of its existence. The matter is being taken up with Ottawa in the meantime.

As at present situated, the shipper stands to lose a considerable amount, unless the shipment can be forwarded, according to the plans which had been completed.

Beaverbrook Will Represent Univ. of N.B.

Lord Beaverbrook is to represent the University of New Brunswick at the ceremony which will celebrate the coming of age of the University of Leeds, England. Dr. C.C. Jones, Chancellor of the University of New Brunswick received an invitation to attend or have some representative attend. It being impossible for the Chancellor or some member of the faculty to attend, Lord Beaverbrook, who is an honorary alumnus, was selected. He will deliver an address on behalf of U.N.B. at the ceremony which will take place this autumn.

The University of Leeds although one of the youngest of the English universities, is world-famous for its advancement in science, particularly that applied to industry. Its textile and chemical departments are particularly highly developed. Although the university was its present name and establishment only in 1903. Previous to that year the institution was known as York and was on a small scale.

Public Auction

I will sell by Public Auction on Wednesday, October 29th; (sale to start at 10 a.m.) at the residence of the late Ernest Hutchison, Douglastown, N.B., all the household furniture contained therein.

The furniture is most complete in every respect and consists of: Bureaus, Tables; Chairs; Dining Room Suites; Mattresses; large Mirrors; Pictures; a lot of China and Glassware; Wardrobes; China Closet, Desks; 1 double-seated Waggon; 1 single-seated Waggon; several sets of Harness and many other articles too numerous to mention.

Everything will be sold. Terms made known at time of sale.

If weather is unfavorable, sale will be held on first fine day following.

GEORGE STABLES

Scott's Emulsion, the great strength-maker, serves millions of children and adults regularly. Why not you?

Scott & Bowne, Toronto, Ont.

Shipping Experts To Go With Low To West Indies

With the sole purpose of holding out to the West Indies "the big hand of friendship" a trade delegation consisting of Hon. T.A. Low, Minister of Trade and Commerce H. J. Logan M.P. and several experts in tariff and shipping numbering altogether 10 or 12 will leave Halifax within the next few weeks and after spending the winter in the south will return to Ottawa about February 1st, according to a statement made by Mr. Logan in addressing the Halifax Commercial Club.

The delegation, Mr. Logan stressed aims solely at creating of better relations between the two countries. Mr. Logan spoke of the vast possibilities for increased trade and deplored the fact that we have but two trade commissioners among 1,000,000,000 people whereas the United States has over 70.

He expressed disagreement with the rulings of the civil service commission which require trade commissioners to be under 32 years of age and university graduates. He said he would rather have as a trade commissioner a well experienced commercial traveler than a university graduate hung with gold medals who was not otherwise qualified for the position.

Mr. Logan sharply criticized the present agreement relative to steamship service between Canada and the West Indies. While a bi-weekly service of 10 knots had been promised in the agreement, the boat he sailed south on last winter did not travel seven knots and the Government itself was advertising sailing but every three weeks.

"If we had violated a treaty with a foreign country," declared Mr. Logan "as we have violated our trade treaty with our brother Britishers, it would be almost cast in bell."

Mr. Logan remarking that he was for freer trade with the West Indies closed with an appeal for whatever will strengthen the good will and stimulate trade between the two countries. The United States has been concerned about trade knowing that the trade would get ships, while Canada has thought about the ships and forgotten about the cargoes.

Do Your Children Grow Fast Enough?

Are They Sturdy, Healthy, and Strong, or Pale, Weak and Run Down?

Growing children need a great deal of food, and sometimes they will not eat the kind of food that they need for strength—then they become thin, pale, and run down.

This condition of undernourishment can be corrected by taking **Father John's Medicine** which does contain just the food elements such children need, and that is why so many children gain weight regularly while they are taking this old-fashioned family medicine.

Father John's Medicine is an expertly blended preparation of cod liver oil with other ingredients in such a way that its food elements can be easily taken up by those who are weakened and run down. Your friends and neighbors know its value. Thousands of mothers depend upon it to keep their children well and strong.

DECLARATION OF R. L. CALDER, K. C.

Montreal, Oct. 6.—"I think the people of Canada might do many more foolish things than take such action as would let the government know that it is the servant of the law and not its master." This was the declaration of R.L. Calder, K.C., Crown Prosecutor in the course of an address delivered here this evening. "Too many people in politics today," he continued "are content to lash the rudder to the mast and let the ship go right ahead, right or wrong. The first step in practical politics as I see it" he said "is to make all governments realize that the people are masters until they cast their ballots. After that they become mere servants while their masters do not even try to do what they bound themselves to do."

Governments today, argued Mr. Calder, were carried on not by kings, but by the civil service, in other words by Babus and bureaucrats, the permanent officials of the service. He instanced cases in which the effect of a statute of King Edward I—that to sue the Crown for redress of wrong was a matter of privilege—had helped such bureaucrats to circumvent according to law, but utterly discordant with modern ideas of right.

Under the same law, he said here were today about 50,000 returned soldiers in Canada simmering with indignation, because the promises made to them when they were needed at the front had not been implemented, and this same ancient statute was used as a reason why the Crown should refuse to carry out its promises.

Mr. Calder discussed Canada's immigration policy, starting with Howe and the ideals of Confederation, which he considered had led to the emigration problem with the cultivation of the idea that Canada only began west of Fort William. He urged that it was a mistake to bring in Hebrideans, "with their hereditary love of the sod," and plant them on the prairies. They could be pumped in he said, but they would also go out and so the whole thing would mean failure as far as the country was concerned. "If you want to make population" he declared "fill the east until it overflows into the west and then you will get a population throughout the country that is used to our needs and can sell them."

GASOLINE PRICES

Gasoline has taken another drop. This will be good news for all those using the somewhat precious fluid. It is difficult to understand with but a trifling charge upon gasoline for entering Canada, there should be such a difference in the price in the United States and this country. Transportation has no doubt something to do with it, but water transportation for gasoline is very reasonable and it might be well for the Automobile Association to investigate on behalf of car owners, just what is the reason for the difference.

A recognized favorite with Everybody, when once tried

A TEA OF UNUSUAL FLAVOR

West Hastings By Election On November 25

The by-election in the federal constituency of West Hastings, Ont will be held on November 25; writes for the by-election having been issued. Nominations will be held on November 11. The vacancy in West Hastings resulted from the resignation of G. Porter growing out of his charges against Hon. James Murdock in connection with the failure of the Home Bank.

Ex-Mayor, Charles E. Hanna of Belleville has been nominated by the Liberals.

D. E. Galloway Assistant Vice President, C. N. R.

Montreal, Oct. 14—D. E. Galloway has been appointed assistant vice president in charge of a number of subsidiary companies of the Canadian National Railways. Mr. Galloway has been succeeded as chief assistant to the President; Sir Henry Thornton; by L. V. Hummel; formerly assistant Chief of Transportation.

The subsidiary companies which will come under Mr. Galloway's charge and the officers of which will report directly to him are:—Montreal and Southern Counties Railway; Niagara; St. Catharines and Toronto Railway; Niagara; St. Catharines and Toronto Navigation Company; Toronto Suburban Railway; Toronto Eastern Railway; Oshawa Railway; Thousand Islands Railway and the Rail and River Coal Company.

Mr. Galloway is a native of Hamilton and joined the Grand Trunk Railway in a clerical capacity in that city in 1901.

A Finer, Stronger FURNACE

The Improved Cumberland is beautifully built of smooth, flawless castings, from the same material used in Beaver Brand Enamel.

It is the heaviest furnace on the market as well built stronger to last longer.

The Pipeless Model is the last word in a heating plant for homes, halls, churches and similar buildings. Burns hard or soft coal or wood. Easiest and most economical to operate.

Send for informing circular.

Watchmen Who Never Sleep

Top left—Shows how they guard the approach to the Kelso (Lower Pass); right, the passage through the Pass itself, and the Pailser Tunnel (below).

Comparatively few of the thousands of miles of railroad in Canada are electrified, but there is no railway organization which does not rely to a greater or lesser extent on electricity as an aid to efficient operation and service. Electricity plays an important part in all of the great Railroad Shops through the country. Some trains and cars are operated by power directly transmitted or stored in batteries. Bridges are operated, and a thousand and one electrical devices are in constant use which beside being labor saving do away with the human element which might make for inefficiency. Numbered among these are the automatic Block Signals which one finds distributed along the line of the Canadian Pacific, and notices particularly in the Rocky Mountain passes where they are more urgently required.

To the average layman an automatic signal is just a signal, and the general public is only interested in it because it gives added protection, or rather eliminates possible danger from the portion of track which it governs. To the railroad official it is more. It acts as watchman against broken rails, open switches, a fouled track or any

other obstruction. Through a circuit in the rail this is accomplished, and if the circuit is broken, for the reason that another train is occupying the block, or that there is an open switch, a broken rail, washout or other obstruction, then the train approaching the signal may not pass. And while it awaits a through signal, trains following in the rear may not approach for the reason that they are also stopped by an automatic signal which will not release them until the preceding train has passed from that section of the track which they desire to enter. A perfect system. No electrical circuit—no through signal—no train may pass.

The value of this system in the Rockies can hardly be over-estimated. Not only is labor saved, but the company is able to ensure absolute protection.

PRINCE OF WALES AT JASPER PARK

During his trip over the line of the Canadian National Railway to the Pacific Coast, His Royal Highness the Prince of Wales paid a visit to Jasper National Park, Alberta, the largest national park in the world. The lower left-hand picture shows the Prince chatting with Colonel Wynand Rogers, Superintendent of the Park, beside Jasper's famous totem pole. In the circle on the right he is seen meeting Major Ritchie, who commands the Royal Canadian Mounted Police in the district which extends from Edmonton to Hualah. The Prince of Wales is Honorary Colonel of this famous police force. At the top is a general view of Jasper Park Lodge on the shores of Lac Beauport, which the Prince visited, and where he was entertained by officers of the Canadian National Railway.

NEW LAMP BURNS
94% AIR

Beats Electric or Gas
A new oil lamp that gives an am-
azingly brilliant, soft, white light
even better than gas or electricity,
has been tested by the U.S. Govern-
ment and 35 leading universities
and found to be superior to 10 or-
dinary oil lamps. It burns without
odor, smoke or noise—no pumping
up, is simple, clean, safe. Burns
94% air and 6% common kerosene
(coal-oil).
The inventor, J. M. Johnson, 244
Craig St. W., Montreal, is offering to
send a lamp on 10 days' FREE trial,
or even to give one FREE to the
first user in each locality who will
help him introduce it. Write him
today for full particulars. Also ask
him to explain how you can get the
agency, and without experience or
money make \$250 to \$500 per month.

ANTI-ACCIDENT
CAMPAIGN IS WAGED

By Large Industries in the
United States
Accidents and their prevention are
causing grave concern in American
industries today and unprecedented
efforts are being made to prevent
them. Of the 41,000,000 persons em-
ployed throughout the United
States at present some 2,500,000
meet every year with more or less
serious accidents. As a result of
these accidents a total of 227,000,
000 working days were lost last
year. If the average pay of \$4.50
a day be multiplied by the total,
it will be seen that the loss to
wage earners alone in a year
totals over \$1,000,000,000. In
other words the lost time caused by
accidents in a year is equivalent to
that lost by over 750,000 men out
of employment for an entire year.

To reduce the loss caused by ac-
cidents many great industrial plants
have organized elaborate campaigns
of education and devised highly in-
genious systems for safeguarding
their employees. This unique war-
fare is waged relentlessly day and
night with increasingly gratifying
results. In the Bethlehem Steel
plants for instance with their 70,000
employees covering many trades, the
number of accidents has been re-
duced by nearly one-half during the
past eight years. Accidents to the
eyes of workmen which were
numerous in the past have been
practically eliminated. It is inter-
esting to find that the largest num-
ber of all accidents comes from
slipping or tripping in the work or
from handling materials or tools.

The programme includes safety in-
spection work, promoting safety cam-
paigns, stimulating live interest in
safety work and the maintenance of
worker's safety committees. Over
5,000 workers have been trained
under the supervision of the medi-
cal staff, in accident prevention and
first aid work. Each year over
1,000 men are given this training.

Well-equipped medical depart-
ments are maintained and first aid
stations are established at all im-
portant centres in addition to
hospitals. Members of the first aid
units raise a small flag by their
posts in the mills or shops where
they may be working. In the case
of an accident the flag indicates
where first aid assistance can be
had until such time as a
doctor can be called.

RADIOGRAPHS TELL STORY

One of the most effective methods
of safety work is the custom of
taking photographs and obtaining
descriptions of every accident.
From these photographs striking
posters are prepared illustrating
graphically just how the accident
occurred with all possible realism.
The poster or illustration is usually
in two parts showing the scene be-
fore and after the accident, and
stressing the example which result-
ed from carelessness. The name of
the injured workman accompany
the pictures and no details are
omitted which will help to drive
home the lessons of the accidents
to other workers. Charts and vari-
ous forms of circulars and other
literature reporting accidents, and
drawing the lesson they teach are
prepared and circulated throughout
the plants weekly.

ATTRIBUTES LOSS OF

KENT AND HALIFAX
TO RAILWAY POLICY
Prince Rupert; Oct 14—The Gov-
ernment's Railway policy had lost
it two by-elections in the east Pre-
mier MacKenzie King told a large
audience here; yet that policy
would be rigidly adhered to. Sir
Henry Thornton and the directors
of the Canadian National Ry. Co.
would continue to have as free a
hand in running the system as
President Beatty had with regard
to the Canadian Pacific Railway.

CONSERVATIVES
AND LIBERALS JOIN
FORCES IN VOTE

London Oct 8—Great Britain's
first Labor Government virtually
came to an end at 11 o'clock to-
night when by a combination of
Conservative and Liberal votes the
House of Commons carried a mo-
tion demanding that a select com-
mittee of the House investigate
the action of Attorney General Sir
Patrick Hastings in withdrawing
prosecution in the case of the Com-
munist, James K. Campbell acting
editor of the Workers Weekly
charged with inciting His Majesty's
forces to sedition.

The Government declined to ac-
cept the motion and treated it as
a vote of censure which if adopted
by the House would involve an ap-
peal to the country against Parlia-
ment's verdict. The debate was
sharp and exciting and after it was
closed the Opposition wanted to
drop Sir Robert S. Horne's motion
of censure and vote on Sir John
A. Simon's amendment calling for
an investigation. On the Govern-
ment's refusal to accept this course
the House divided on the question
as to which it should vote on. By
a vote of 359 to 198 it was decided
to vote on the Simon amendment.
This was equivalent to the defeat
of the censure motion and the
Simon amendment became the sub-
stantive motion and was carried 364
to 198.

Announcement of the figures was
received with loud cheering and
counter cheering. The Prime Min-
ister, Ramsay MacDonald immedi-
ately arose and said "In view of
what has happened Mr Speaker I
move that the House do now adjourn."
This was agreed to unanimously.

The Premier will see the King to-
morrow and ask for a dissolution of
Parliament. It is understood how-
ever, that the Government has decid-
ed to carry on until the Irish boun-
dary bill is safe and the boundary
commission appointed.

Throughout the final scenes the
excitement rose to the highest
pitch; jibes and retorts were flung
across the House and some of the
members indulged in singing. Up
to the end there were rumors of
manoeuvres to avoid defeating the
Government but if, as appeared not
improbable from the tone of some
of the speeches, there was some
disposition on the part of the Op-
position to reconsider their tactics
they had seemingly committed them-
selves too far to recede.

THE REAL REASON

Parents are talking a lot these
days about the carelessness and the
irresponsibility of children. As a
matter of fact the trouble with most
children is careless and irresponsible
parents.

ECZEMA

WAS LARGER THAN
LAST YEAR'S RECORD

The consensus of opinion among
hotel keepers, garage proprietors
and others interested is that
the number of American tourists
during the season just past was
larger than last year's record.
Some even place the total for 1924
as nearly double that for the pre-
ceding year. Merchants report
that the volume of business done
with the traveling public is not
nearly so great as it was four or
five years ago although some of
them say that this year was a
considerable improvement over 1923.
Tourists formerly bought many ar-
ticles here; clothing and especially
fur and wool articles predominating.
During the past three or four years
there has been less busi-
ness done in these goods.

Bakers Increase
Price Of Bread

Bakers' bread has gone up a cent
a loaf in price and is now retailing
at 13 cents instead of 12; as it
has for some time past.

Fine for catarrh
when melted in a
spoon or snuffed
up the nose and
vapors inhaled.

Head and Chest Colds
Relieved In a New Way

A Salve which Releases Medicated
Vapors when Applied Over
Throat and Chest.

Inhaled as a vapor and, at the same
time absorbed through the skin like a
liniment, Vicks VapoRub reaches im-
mediately inflamed, congested air passages.
This is the modern direct treatment for
all cold troubles that is proving so popu-
lar in Canada and the States where over
17 million jars are now used yearly.
Splendid for sore throats, tonsillitis,
bronchitis, croup, head and chest colds,
catarrh, asthma or hay fever.
Just rub Vicks over throat and chest
and inhale the medicated vapors. It
quickly loosens up a cold.

VICKS
VAPORUB
Over 17 Million Jars Used Yearly

The bakers state that the in-
crease is due to the rise in the
price of flour which has followed
closely on the increase in the
price of wheat which has been
world wide. It is said to be pri-
marily due to the reported small-
ness of the crops in this country
and in other wheat producing areas.

Genuine
BAYER
ASPIRIN
Insist on BAYER TABLETS OF ASPIRIN
Unless you see the "Bayer Cross" on tablets you are
not getting the genuine Bayer product proved safe
by millions and prescribed by physicians 24 years for

Colds	Headache	Neuralgia	Lumbago
Pain	Toothache	Neuritis	Rheumatism

Safe → Accept only "Bayer" package
which contains proven directions.
Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocet-
saler of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known
that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets
of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Assuring Your Business

A policy of advertising is a policy of life
assurance, and the protection thus secured is
well worth its annual cost.

Old customers die or move away—they
must be replaced.

Old customers are subject to the influence
of temptation—they may be induced to divide
their custom—to do some of their shopping
at a competitor's.

New comers to this community will
shop with you—become regular customers—
if they are invited to do so.

Your competitor's advertising is an in-
fluence which must be offset if you are to
maintain your trade.

Not to advertise regularly to the read-
ers of the UNION ADVOCATE is to leave
your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of
advertising. You owe it to yourself to get the
most for your money, the best goods and the
best service. And if you find that your in-
clination is to shop where you are invited to
shop rather than to continue to be a customer
of the shop which never solicits your good-will
you need have no compunctions of conscience.

**Shop Where You are Invited
to Shop**

Local and General News

PULPITS EXCHANGE

Rev. L. H. MacLean of Newcastle and Rev. Thos. Harrison of Black River exchanged pulpits on Sunday.

APPOINTMENT GAZETTED

The appointment of Hon. J.P. Byrne, Attorney General of New Brunswick, to a Judgeship of the King's Bench division of the Supreme Court of New Brunswick was announced in the Canada Gazette last week.

HARVEST FESTIVAL

A Harvest Festival will be held at St. Mary's Convent on Oct. 28-29 and 30th. Each evening from 5 to 7 o'clock a supper will be held and immediately following supper each evening an Auction Sale of farm products and household effects will take place. The public is cordially invited. See advt. elsewhere in this issue.

IN MEMORY OF MR. AND MRS. J.P. BURCHILL

On Sunday morning at the 10 o'clock service of Holy Communion in St. Paul's church the rector dedicated to the Glory of God and in loving memory of the late Hon. J.P. Burchill and his wife Eliza Bacon Burchill, a new and handsome altar; it being the gift of their children and manufactured according to designs from the Archdeacon.

I.O.D.E. RUMMAGE SALE

The annual Rummage Sale of the Lord Beaverbrook Chapter I.O.D.E. will be held in the Town Hall on Saturday, 25 inst. Doors open at 1:30 p.m. Many valuable articles of clothing, etc. will be on sale and the public is cordially requested to attend. Anyone having donations will kindly communicate with the Regent, Mrs David Ritchie.

A RECORD

Mr. John Cluston of Lower Derby aged 86 years and always a staunch consistent Conservative, and a man who has never defaulted in casting his vote since he was 21 years of age, had the pleasure on Tuesday, October 7th to again go to the polls and deposit another good Conservative vote for Hickey. We hope he will be spared for many years and will be privileged to continue depositing good Conservative ballots for many years to come.

DECLARATION DAY

The official majority of W.B. Snowball, Liberal, over C.P. Hickey, Conservative in the Northumberland by-election was 639.

This was established at the declaration day proceedings held at the Northumberland County Court House here on Saturday by High Sheriff W.A. Skidd who was returning officer in the election.

The proceedings were uneventful and consisted only of opening the boxes and tabulating the returns which totalled as follows:—
W.B. Snowball; Liberal.....6222
C.P. Hickey5583

Majority for Snowball 639

PRESENTATION

At the last regular meeting of Derby Lodge, No. 12; I.O.O.F. a very pleasant feature, at the close of the meeting was a presentation of gold coin to Brother and Mrs Raymond Vanderbeck. Mr. Vanderbeck has been one of the oldest and most outstanding figures in the Lodge, occupying the position of Financial Secretary for a great number of years. The presentation was made by the N.G. on behalf of the Lodge, to which Mr. Vanderbeck very feelingly replied thanking the members for their kind and appreciated gift. The remainder of the evening was spent in music and games.

MARRIED

At the Manse, Redbank on Oct. 1st 1924; by Rev. Wm. Girdwood, Harry H. Ford of Whitney, N.B. and Maggie M Allison of Boom Road.

THE APPEAL BENCH

The Appeal Bench which will hear the appeal in the case of R.B. Hanson M.P. vs The Gleaner Limited will be composed of Mr Justice Grimmer of the Appeal Division, and Mr Justice Leblanc and Mr Justice Byrne of the King's Bench Division. The other members of the bench cannot sit because of connection with the case.

HELPED AT FIRE

A party of American sportsmen composed of J.S. Dickerson, Louis J. Ehret and Arthur Flynn who had been on a hunting trip on the Bartholomew River, arrived at Doaktown last evening during the progress of the fire at Elwood Burt's mill. They hastened to the scene of the fire and worked hard to assist in saving Mr. Burt's property.

HARVEST FESTIVAL

Be sure to attend the Harvest Festival in St Mary's Academy on Oct. 28th, 29th and 30th. The inner man will be bountifully supplied for and a grand opportunity for procuring the winter farm produce necessities will be offered each night after supper, at an auction sale.

TO HOLD CONFERENCE

The clergy of the Deanery of Chatham will meet in session in Chatham on Wednesday, and Thursday of this week. The Rev. Dr. Hiltz, chief executor of the Church of England Board of Religious Education and Rev Canon Vernon, Sec'y of the Church of England Special Service Conference will be present on Thursday afternoon and conduct a conference for the clergy and Sunday School workers.

FUR COAT FASHION SHOW

On Thursday, October 22nd the Lonsbury Co. Ltd will have a fur coat exhibition at their store, held by one of the best known fur manufacturers of Montreal. This exhibition will consist of Seal, Kat, Coon and Persian Lamb; all coats in the latest style. If you are thinking of buying now or at some future date, we would be very glad to have you call and see this beautiful array of coats.

THE SITUATION IN GREAT BRITAIN

As It Appears to Winston Churchill and Lord Beaverbrook.

London, Oct 16—I saw Mr. Churchill last night, he is contesting what is normally a perfectly safe Conservative seat, there is however, the same opposition from local Diehards who say he has changed his coat twice. Mr. Churchill is convinced that he will win and I am sure he is right. He is also confident that the Conservatives will obtain a sweeping majority. In the Conservative ranks he includes some twenty seven Liberal candidates who are standing with the Conservative support, many of these voted steadily with the Conservatives in the last Parliament when they were known as "Hogbinites" because they followed Mr. Hogbin, the member for North Battersea.

Mr. Churchill expects that in the next parliament they will be known as Winstonians. He thinks a great number of these Liberal Conservatives will be returned to Westminster. I think a great many of them will be defeated.

BEAVERBROOK

PRESBYTERIAN CONGREGATIONS ASKED TO VOTE

Toronto, Oct 18—Every Presbyterian congregation in Canada is to be asked to vote on whether it will enter the United Church of Canada or stay out of the Union.

Provision is to be made for the placing of Unionist ministers, who happen to be in anti-Union churches and who decide to follow the main body of their denomination into Union.

These were two of the important declarations at the meeting of the joint committee on Church Union at the Metropolitan church, last night in regard to the former, Rev J.A. Woodside of Ottawa who has been deputed to assist congregations in the taking of their votes after December 10 next, said that it was likely each congregation would be asked to vote so that the Unionist minorities everywhere would get a chance to declare themselves and to go out, if they desired into the nearest church of the United Church to them.

All ministers are to be urged to declare soon and publicly, their intention to serve in the United Church. Strong congregations are asked to support two ministers where possible, in order to aid in the placing of Unionist ministers who, through the changes to come may be left temporarily without pulpits. In cases where the congregation is not financially able to do so, there will be aid given by a special fund.

ORDINATION OF MR. W. R. ASHFORD B.A.

The Presbytery of Miramichi convened in St James church, Newcastle, Tuesday evening for the licensure and ordination to the Christian ministry of Mr William Ray Ashford, B.A. Rev. Wm. Girdwood, Moderator, presided. Rev. Roland Davidson conducted public worship, preaching an instructive and eloquent sermon whose theme was the renewal and enlargement of life through Jesus Christ. After a brief statement of the steps leading to the service of the evening the Moderator conducted the impressive ordination service in which by the taking of vows, prayer and the laying on of hands, Mr. Ashford was solemnly set apart to the ministry of the Gospel. Rev J.H.A. Anderson addressed the newly ordained minister in fitting terms speaking of the ministry as a calling, a programme of service and a venture of faith. Rev. Dr. Harrison addressed the congregation upon the Marks of the Prosperous Church emphasizing the spiritual life, attendance at public worship, unity of purpose and sacrificial loyalty in support of her work. Mr Ashford is a Newcastle boy, the son of Mr and Mrs. John H Ashford, and was educated in Mt. Allison University. He has served in the mission fields both east and west and has now accepted appointment for one year under the Board of Home Missions in Burns Lake, Presbytery of Cariboo, British Columbia. The Presbytery of his home community ordained him at the request of the Home Mission Board, and after enrolling his name granted him his certificate of transfer to the western Presbytery. The other members of Presbytery present besides those named above were: Revs. L.H. MacLean and F.W. Thompson, ministers and Messrs James Falconer, and Charles Campbell, elders.

WINTER COMING

Residents of the Miramichi were given their first intimation of winter this morning when they awakened and found the ground covered with a light fall of snow.

I.O.D.E. RUMMAGE SALE
The I.O.D.E. will hold a Rummage Sale in the Town Hall on Saturday Oct 25th. Donations are requested by the chapter and anyone having articles to give will kindly communicate with the Regent, Mrs David Ritchie.

YOUR KIND ATTENTION
Have you paid your subscription to "The Union Advocate?" If not please do it today, while you have it in mind; or you may forget about it again. It is so easy to forget about the little things

For Flavor

More Eggs, pratts
Poultry Regulator
Plenty of eggs, winter and summer; don't let your hens loaf or just be boarders. We GUARANTEE your hens will lay more eggs, or your MONEY BACK from your dealer. We will send you a copy of PRATT'S POULTRY BOOK FREE. Write for it TO-DAY.
PRATT FOOD CO. OF CANADA, LTD., TORONTO

Don't ruin your floors by washing them!
Try a can of Old English Brightener. It's the only preparation that takes away that dusty, dull appearance without injuring the finish. It's the perfect cleaner for any floor—waxed, varnished or shellaced and for woodwork, furniture and linoleums. It leaves a light, protective coat of wax which polishes beautifully and makes the finish last twice as long. Get a can today.
