Band Stand Wanted.  
The citizens feel it is due to the  
sona Band that the promised  
stand for which plans were pre-  
some time ago should be built.  
The brigade band is one of the best  
hern Alberta and it is coming to  
that they have a suitable stand in  
for the excellent music that they  
the public, now in many cases  
he mad of the street.

ROAD IMPROVEMENTS.  
The city is making extensive and much  
improvements to the main road  
to Edmonton, at McLaggan's  
For some time past after such  
the water washing over the bank  
then it away till it has now almost  
the road itself. Drains are now  
made and new culverts placed to  
off the surface water.

BOARD OF TRADE MEETING.  
Board of Trade meeting falling  
realize last night owing to the  
of a quorum. Those present  
res. Marriott, Vice-President Dr.  
Secy. Weir, F. H. Tache, and G.  
J. P. Malone, J. L. Porie. These  
important business to come up  
t, and any for consideration will  
be disposed of by the council.

## THE FINANCIAL STRINGENCY RESPONSIBLE FOR CIVIC TROUBLES

### Mayor and Aldermen Give an Account of Their Stewardship Before Public Meeting--The Tightness of Money Held to be Responsible for the Curtailment of Civic Improvements--The Question of New Telephone System Was Discussed--J. D. Blainey Strongly Criticizes the Civic Administration for Mismanagement of Public Works in Progress of Construction.

The Edmonton Opera House was packed to the doors last night at the municipal meeting called by Mayor Griesbach, at the instance of the City Council, to discuss the civic situation and to hear candidates for the aldermanic vacancy.

On motion, ex-Mayor K. W. McConahe was appointed chairman. On the platform besides Mayor Griesbach, were Aldermen Manson, Walker, and Picard and J. D. Blainey, candidate for the vacant seat. J. D. Blainey, the candidate for the vacancy in the Council, was called upon to address the meeting, but when he took the platform he pointed out that he considered it would be fairer were he permitted to address the meeting after the Mayor and Aldermen had given an account of their stewardship. The justice of the claim was acknowledged by Mayor Griesbach, and he thereupon opened the speech making, claiming however, the right to reply.

**Mayor Griesbach Speaks.**  
In opening he first referred to the financial stringency. This is a thing of which we are not ignorant, and as individuals, feel the effect. That same conditions prevail not only in the cities of Canada, but in the United States as well. It is only a few days since the city of New York offered \$20,000,000 of bonds for sale and only sold \$2,000,000.

**Mayor Griesbach Speaks.**  
In opening he first referred to the financial stringency. This is a thing of which we are not ignorant, and as individuals, feel the effect. That same conditions prevail not only in the cities of Canada, but in the United States as well. It is only a few days since the city of New York offered \$20,000,000 of bonds for sale and only sold \$2,000,000.

It was contemplated to spend about one million dollars this year in civic improvements. The meeting was held to discuss the civic situation and to hear candidates for the aldermanic vacancy.

**Alderman Picard.**  
Ald. Picard said he had come more to hear the civic questions discussed than to speak. The meeting was held to discuss the civic situation and to hear candidates for the aldermanic vacancy.

**Candidate J. D. Blainey.**  
Candidate J. D. Blainey referred to the large audience and the allusion of Ald. Picard to the city being a wagon and the Council and Commissioners as the horses.

**The Financial Stringency.**  
Discussing the financial stringency the speaker pointed out that "while there was something in the question of a scarcity of money, in the case of individuals, some men at the present time in private business are in road circumstances, while others are financially embarrassed. So might it be with cities. He would not say the council and Commissioners are not good men from a financial standpoint, but leave the audience to draw their own inferences."

**Money Wasted on Public Works.**  
The speaker concluded by stating that it was necessary to have men

of experience and men who had a grasp of the works in progress.

**Alderman Manson.**  
Ald. Manson in opening, stated that it was up to the citizens if they were not satisfied with the work done by the City Hall, to elect new men. The Council were trying to do their best and their work was not up to what the citizens wished, the citizen themselves were to blame for putting the aldermen there. And with reference to these men, who said they would dismiss the commissioners, they were not in earnest about what they said, they were simply talking "hot air."

Dealing with the telephone system he outlined his trip east about a year ago to inspect the telephone system of Winnipeg, Chicago and other cities. He said he was after examination, fully satisfied that it was the best system in the world and this was the fact that it was made by two Canadians! (Applause). Why now is there such a lull in the city? He said that on the eleventh hour, when the city had already received a telegram that part of the plant was shipped, it was on the way to install it. Was it because a certain enterprising citizen had done the exclusive right here?

**Alderman Walker.**  
Ald. Walker was the next speaker. His remark, he said, had come out pretty well in the press and otherwise. There had been considerable discussion of the telephone system and other questions. The plant had been promised last spring, but it was not yet at the city. He said that some east to look into the telephone system and the financial situation.

**Commissioners Not Competent.**  
The commissioners are not all to blame for this trouble for they don't know the difference. It is natural that a man in a law office should not know all about public works.

**Commissioners Exceed Duties.**  
The commissioners, in his opinion, had exceeded their duties. The citizen had voted upon certain streets for a street car line and these streets the Council had also endorsed. But this did not suit the commissioners, so they put off the work, apparently, till another Council was elected.

**Two Men at Soot Quarrel Over Haircut and Barber is now Dead.**  
Sault Ste Marie, Ont., August 16.—Edward Hynes, a barber here, became involved in a dispute with Thomas Ryan, a blacksmith, in the shop of the Windsor Hotel over a hair cut last night. On a challenge from Ryan the two men went outside to settle the differences.

**EDWARD BLAKE ARRIVES.**  
Montreal, August 16.—Hon. Edward Blake, M.P., arrived in Montreal today from England and leaves tonight for Toronto on the private car, Alberta.

**Centenarian Died Yesterday.**  
Port Maitland, Vt., Aug. 16.—Patrick Conover died here today, aged 100. He was in good health and had preserved all his mental faculties up to the time of his death.

Charles Auclair, of Quebec, dead, Quebec, August 16.—Charles Auclair, the well known manufacturer of this city, died suddenly today.

instance is the Isolation Hospital. In this, money had been lost to the city. It had to take over the work and is not yet completed. A third instance is the Telephone building, which drags slowly on with loss to the city, as there was no guarantee behind the contract. Had there been a guarantee behind this contract the city would have been protected, instead of now having it on their hands. But this is not all. Paving contracts, have been given out without a guarantee. On Jasper avenue eighty per cent was paid when the city did not get twenty per cent value. But this was not result in a lesson, but Nanayo avenue was done likewise.

**Works Cost Double Price.**  
We have been getting things for the city in almost every instance that are not worth half what has been paid for them. It has been said in these debates that the one hundred thousand for the telephone system, but included with the six hundred thousand for the sewer system, which is said to be the sixty thousand for the sewer system. Also included in these debates is the one hundred thousand for the G. T., which is not yet due. Surely with these sums in hand we can't yet be on the verge of poverty.

**Bungling on the Sewers.**  
Discussing the installation of the sewers the speaker pointed out that no steps, such as water flushing, were being taken to make right joints, and he asserted that there were few tight joints in the system. No caulk has been used in the joints.

**Two Men at Soot Quarrel Over Haircut and Barber is now Dead.**  
Sault Ste Marie, Ont., August 16.—Edward Hynes, a barber here, became involved in a dispute with Thomas Ryan, a blacksmith, in the shop of the Windsor Hotel over a hair cut last night. On a challenge from Ryan the two men went outside to settle the differences.

**Charles Auclair, of Quebec, Dead.**  
Quebec, August 16.—Charles Auclair, the well known manufacturer of this city, died suddenly today.

## Are Cutting Wheat in South

### Harvesting General in Southern Part of the Province. Weather is Ideal and Spring Wheat has Ripened Well During Last Week. Threshing Will Likely Start Monday Next.

July 16.—The past three days have been ideal harvest weather in the south country, and cutting is general at many points. The spring grain has ripened well during the last week, and will be ready as soon as the farmers are finished with the fall wheat. Threshing will commence at Lethbridge on Monday next. The yield is estimated from 25 to 35 bushels.

**Through Line to the West.**  
Sarnia, August 16.—That the C.P.R. is coming to Sarnia may be set down as an assured fact by Sarnians. The line is to be extended from London first, and eventually also from Stratford. This would give the C.P.R. a fast through line from Central and Eastern Ontario to the west.

**Accuses Road of Overcharges.**  
Washington, Aug. 16.—An action was instituted today before the Interstate Commerce Commission by the Nebraska State Railway Commission against the Union Pacific company, alleging that the rate of the defendant on coal shipped from Rock Springs, Wyoming, to Nebraska points were excessive and unjust. The commission is asked to fix a minimum rate on each shipment which will be fair to the people of Nebraska.

**BONAPARTE GIVES DECISIVE REPLY**  
To Wall Street Charge of Favoritism and Prejudiced Legal Action.

Baltimore, August 16.—The News today prints an interview given to its Washington representative by Attorney-general Bonaparte, which constitutes a reply to the charge of Wall Street that the attorney-general has been treating the industrial and financial enterprises of the country with flippancy. The interview is really a statement carefully prepared by Mr. Bonaparte himself. In part he says:

**TRIVIAL QUARREL RESULTS IN DEATH**  
Two Men at Soot Quarrel Over Haircut and Barber is now Dead.

**EDWARD BLAKE ARRIVES.**  
Montreal, August 16.—Hon. Edward Blake, M.P., arrived in Montreal today from England and leaves tonight for Toronto on the private car, Alberta.

**Centenarian Died Yesterday.**  
Port Maitland, Vt., Aug. 16.—Patrick Conover died here today, aged 100. He was in good health and had preserved all his mental faculties up to the time of his death.

TELEGR

WILL REPORT ON STATES IMMIGRATION. Vancouver, B.C., August 11.—The Hon. J. G. Macdonald, Minister of Immigration, has appointed a commission to make a thorough investigation into the conditions in foreign countries in reference to emigration and the laws relating to the same. This commission consists of three United States citizens: W. P. Dillingham, of Vermont; L. C. Loring, of California; and J. W. L. Mackay, of Massachusetts. In addition, three Canadian citizens are named: J. W. L. Mackay, of Ontario; J. W. L. Mackay, of Ontario; and J. W. L. Mackay, of Ontario.

Several men were better fitted to the important position to which they were appointed. The Hon. J. G. Macdonald, Minister of Immigration, has appointed a commission to make a thorough investigation into the conditions in foreign countries in reference to emigration and the laws relating to the same.

BULLETIN CO., LTD.

DUNCAN MARSHALL, Manager.

FRIDAY, AUGUST 16, 1907.

NEGLECTED OPPORTUNITIES.

It is not the Bulletin's business to tender advice to its opponents, but it may be pointed out that intentionally or otherwise the western advocates of high protection are missing the chance of a life-time to urge the application of their economic cure-all to the industrial needs of Western Canada.

The first and primary argument for high tariff is that it encourages the establishment of industries, and thus creates a "home market" in the "protected" country.

These gentlemen have faith in the practical effectiveness of their remedy why do they not urge its adoption for developing industries and creating a home market in Western Canada?

Surely no better opportunity to test its merits could be desired. We have here an enormous country endowed with ample resources for manufacturing concerns and capable of producing all the possible requirements of a "home market."

Yet we import our manufactures from eastern Canada. Surely this must appear a crime to the protectionists. If it is foolhardy for western people to buy goods from American makers, why not also from the manufacturers in Eastern Canada?

These gentlemen are surely short-sighted publicists if they do not discern a rare opportunity for bestowing on Western Canada the alleged blessings of a prohibitive tariff.

If there be efficacy in their prescription surely we should plant a row of castor bushes along the eastern boundary of Manitoba, and collect duty on every biniker, wagon or plow and on every car load of dry goods or groceries that the eastern manufacturer tries to send into this country.

Then, according to the protectionist logic "the wilderness and solitary place" should be glad, the desert rejoice and "blossom as the rose"; the westerner's life would be a pleasant sojourn in a landscape of smoking chimneys and cabbage gardens.

Or for that matter, why go half way in a good cause? If national bisection would be beneficial why not more divisions? If international tariff walls shelter and encourage national industry why should not interprovincial treaties spread the same kindly influence over the industries of provinces?

counterbalance these in the minds of the advocates. First it would be necessary to re-adjust the whole financial system of the Dominion and secure the retrocession of the customs to the provinces. This of course would leave the Dominion without funds and the provinces without subsidies. But when did the danger of upsetting the financial apple-cart ever worry the Opposition when a Liberal Government was on board?

There would only be the beginning of the trouble, but surely the trifling difficulties connected with coercing a nation into conformity with a theory does not damp the enthusiasm of those tried cooperator. Can it be that they are deterred by any thought of what the eastern manufacturer could think of the project? Perish the suggestion!

THE REMOVAL OF BISHOP REEVES TO Toronto is the withdrawal of another of the frontier heroes of the church from the scenes of his activity. Bishop Reeves ranks with Father LaCombe and Rev. George McDougall as one of the early torch-bearers.

WORKING FOR PEACE. Andrew Carnegie is laying the foundations for a Temple of Peace at The Hague and France is laying the foundations for a condition of peace in Morocco.

A WORLDLY PILGRIMAGE. Mail and Empire: "Ply is the sentiment evoked by the movements of the wandering Doukhobors. Inspired by a religious motive, which others cannot appreciate, these poor people are restless and unable to settle down peacefully and happily."

G. T. P. CONSTRUCTION. Strange stories occasionally come out of the coast cities and people are apt to discount despatches originating there in the mid-summer season.

THE LINE EASTWARD IS THEREFORE OF most pressing necessity and promises immediate returns. Once it is completed, too, construction materials can be brought in over the company's own lines which otherwise would have to be shipped over competing roads.

SUPPOSE. Suppose the public utilities of this city were owned by private corporations and the present employees of the city were the employees of these corporations. Would the city commissioners promulgate an edict that they must not participate in municipal politics, beyond casting their votes?

LESS "STRINGENT" THAN SUPPOSED. The money stringency was by no means restricted to Canada, New York city issued bonds for \$29,000,000, but only \$2,000,000 were taken up.

including salaries, printing, legal expenses, grants, etc. Public works, such as street improvements, chargeable against the general funds, called for \$31,894.39 more. The fire department cost \$13,225, the police \$8,644,763.75.

APPEALING TO THE CITIZENS. The money stringency is by no means restricted to Canada, New York city issued bonds for \$29,000,000, but only \$2,000,000 were taken up.

THE UKASE. The ukase of the Commissioners is defended on the ground that unless exercised the civic employees would prevent their citizenship rights by discussing municipal affairs and favoring or opposing respective candidates for aldermanic or mayoralty honors.

CRIMINAL SYMPATHY. Vancouver despatches intimate that "Bill" Miner, the escaped desperado, has many sympathizers among the people of the Coast.

A WEALTHY TROUBLE MAKER. Morocco is now enjoying its periodical appearance on the stage. It has developed a habit of stepping into the lime-light unexpectedly every once in a while and occupying a considerable share of public attention with its varied transgressions of the laws of good behaviour.

THE LONG LANE TURNS. These were the things of long ago, Mr. Trethewey can now speak as philosophically and not chafe as any of us could if we had not learned the same lessons of fate.

THE CALL OF THE WILD-EYED. No, Clarinda, You're mistaken. That insistent Voice you hear Bounding lightly O'er the prairies Like a fighborn Strong and clear Does not come from Some grand doctor Out with medicine To sell.

Caught the Cobalt Fever. Perhaps it should be stated that Trethewey got his first notion of Cobalt fever from a doctor who was a member of the staff of McGill College.

Sentenced for Murder. Ananda, Mont., August 16.—John Barbotek, murderer of John Johnson, was sentenced to twenty years in the penitentiary at Deer Lodge by Judge Winston, of this city.

for supplies of money needed for prospective public works. And if such commissioner cannot at least to some degree anticipate the money market and read the signs of the weather what is his particular calling in life?

THE BOUNDS OF HIS LIBERTY IS AN UNWARRANTABLE INTERFERENCE with his personal rights to which he should not for a moment submit.

FROM THE PRESS REPORTS THE DEALERS and consumers of Winnipeg seem to blend testimony in sweet accord that there is no beef trust.

MOROCCO SEEMS TO BE A KIND OF TOMCAT on the back fence of Europe. Its principal business in life is to provide wholesome exercise for irate neighbors.

Winnipeg Tribune: Bill Miner in Winnipeg? Nay, nay—Bill knows the ethics of his profession too well ever to think of butting in on the preserve of the Beef Trust!

There are said to be two million American silver dollars in Canada. That's nothing. There are ninety-six million Canadian dollars in New York. The difference is that while we want the Americans to take back their dollars we can't seem to persuade them to deliver up our own.

MAIL AND EMPIRE: "Because our banks are doling out money to Canadian business and are keeping 'funds on call loan in New York, it is not to be said that they are favoring American speculators and discriminating against Canadian mercantile and industrial interests."

UP TO DATE THE STANDARD OIL COMPANY have not paid that little fine.

HON. DR. McINNIS, OF BRANDON, described by a friendly journal as a "promising" politician.

MR. BORDEN NOW SAYS HE BELIEVES there will be a session of Parliament this fall. Good. He's getting informed.

Montreal Herald: "If in the United States and elsewhere the autumn sees a dangerous condition in the money market, Canada will be able to weather the storm, with little more roofing of sail than has already been done."

A RUSSIAN GENERAL HAS DECLARED that marksmanship is of very little use to a soldier in modern warfare, as he seldom sees anything to shoot at.

IT IS TO BE REMARKED THAT THE civic employees have not in the past displayed the activity in municipal politics they seem to be suspected of wanting to display in future.

Vancouver despatches intimate that "Bill" Miner, the escaped desperado, has many sympathizers among the people of the Coast.

MOROCCO IS NOW ENJOYING ITS PERIODICAL appearance on the stage. It has developed a habit of stepping into the lime-light unexpectedly every once in a while and occupying a considerable share of public attention with its varied transgressions of the laws of good behaviour.

THE LONG LANE TURNS. These were the things of long ago, Mr. Trethewey can now speak as philosophically and not chafe as any of us could if we had not learned the same lessons of fate.

Caught the Cobalt Fever. Perhaps it should be stated that Trethewey got his first notion of Cobalt fever from a doctor who was a member of the staff of McGill College.

Sentenced for Murder. Ananda, Mont., August 16.—John Barbotek, murderer of John Johnson, was sentenced to twenty years in the penitentiary at Deer Lodge by Judge Winston, of this city.

W.G. TRETHERY OWNED

The Romance of the Discobolus His Deal in the Groceries Mine Which has Made Him Famous

It is not generally known that W. G. Trethewey discovered the Cobalt mine, the capital for the development of this property, which has since been developed by the Cobalt Mining Co. Ltd. It was Trethewey who, in 1892, discovered the mine at Cobalt, Ontario.

Added interest attaches itself to the narrative when its principals are known men, and by means of acquaintance, removed from the ment of heroes which is associated with the legends of the west.

Mr. W. G. Trethewey is best known as an inventor of a "money market, Canada will be able to weather the storm, with little more roofing of sail than has already been done."

A RUSSIAN GENERAL HAS DECLARED that marksmanship is of very little use to a soldier in modern warfare, as he seldom sees anything to shoot at.

IT IS TO BE REMARKED THAT THE civic employees have not in the past displayed the activity in municipal politics they seem to be suspected of wanting to display in future.

Vancouver despatches intimate that "Bill" Miner, the escaped desperado, has many sympathizers among the people of the Coast.

MOROCCO IS NOW ENJOYING ITS PERIODICAL appearance on the stage. It has developed a habit of stepping into the lime-light unexpectedly every once in a while and occupying a considerable share of public attention with its varied transgressions of the laws of good behaviour.

THE LONG LANE TURNS. These were the things of long ago, Mr. Trethewey can now speak as philosophically and not chafe as any of us could if we had not learned the same lessons of fate.

THE CALL OF THE WILD-EYED. No, Clarinda, You're mistaken. That insistent Voice you hear Bounding lightly O'er the prairies Like a fighborn Strong and clear Does not come from Some grand doctor Out with medicine To sell.

# W.G. TRETHEWAY OF COBALT OWNED Groat Estate

### The Romance of the Discoverer of the Famous Cobalt Mine. By His Deal in the Groat Estate, He Was Enabled to Start Mine Which has Made Him Wealthy. His Career Full of Vicissitudes.

It is not generally known in Edmonton that W. G. Tretheway, the discoverer of the Cobalt mine, secured the capital for the development of this property, which has since made him wealthy by the purchase and subsequent sale at a profit of the Groat estate on the west end of the city. But such is the case. In viewing the chequered career of Tretheway the Vancouver Province says: "History repeats itself and romance is the same whether its subject is love or money. The finding of wealth is as exciting as the search for it, and the processes by which it is acquired, and when the story of an accidental find is told with the same vividness and excitement as the story of a discovery. The recital of a venture far beyond the prosy and commonplace details of ordinary commercial life."

Added interest attaches itself to the narrative in that its principals are well known men, and by reason of personal acquaintance, removed from the selection of figures which is associated with the adventures of those whom we have never seen. The rise of a friend from a modest place in life to opulence and influence is much more fascinating history than the enrichment of entire nations.

Doubtless every old-timer in Vancouver knows the name Tretheway and the old man and boys were not unknown on the streets, in business offices and in the ordinary walks of life. In common with other men, they had their expectations that something would turn up that would demonstrate the wisdom of changing fortune with the possibilities of a new country, and like many another adventurer in fortune's field, they early learned the use of the prospector's pick and accustomed themselves to the indifferent conditions of a prospector's camp. And, like a prospector, they were not to be bedded, like many another, in the favor of the fates was long delayed and the hope deferred made the more keen. It was only after high expectations and lingering hopes had died that the fickle goddess smiled upon one of the members of the family, and that William G. Tretheway, drifting with the varying winds of fortune, sailed his craftload of moderate expectations into a harbor of fortune.

To the business mind of the discoverer Mr. W. G. Tretheway is best known as at one time a capable and accomplished solicitor, and as a man of many sundry whose mental balance might be slack in its underpinning through the stress of an inventive experiment. No Westerner became more closely acquainted with the possibilities of the inventor as a class than did Mr. Tretheway, and it may have been contact with this class that led to the invention that in the end made him an inventor and a victim of cruel disappointment at last, in the same class as many of those who have failed in their capable advice as engineer, draughtsman and attorney. For, like most discoverers of the half century, he was a very simple in mechanics, he patented his own invention and then embarked upon the billiard sea of the commercial exploitation with the usual result.

The Long Lane Turns. These days of long ago, Mr. Tretheway can now speak of them as philosophically and not chafantly as any of us could if we had experienced the reverse of fortune which he experienced, for his were indeed reverses of fortune. He was suddenly ceased and good luck supervened. It was simply good luck, as Mr. Tretheway himself would say, and as any one who reads this story may well conclude.

We shall let Mr. Tretheway tell his own story, recalling its exciting passages as they are remembered, and told with aptness, without an hiatus, and with the smoothness and polish that never wavers by many to "ings."

Ties up to Grand Trunk Pacific. Broken in health through many disappointments, with shattered fortune, though not moneyless, Tretheway went to Edmonton and bought the Groat estate, for, like many another, he looked to the Grand Trunk Pacific to afford him opportunity to redeem the time. The venture was a lucky one, and after holding the estate for a couple of years the place was sold at a respectable profit, providing the capitalistic basis for fresh ventures. These came in the first mad rush to the Cobalt region, and for all the veritable horde who rushed pell-mell to that El Dorado, Mr. Tretheway was, apparently, the first to go with coolness and deliberation, fully prepared for the emergencies which might arise in an unexpectedly prolonged visit to the wilderness. He had had extensive experience in British Columbia as a prospector and knew how to prepare against evil days or any other kind of days, and he knew, as well, how to fortify himself against contingencies, such as might arise by jumping or disputed rights. He qualified himself by thorough acquaintance with the mining laws of Ontario, and right well did his knowledge serve him in the turn, which events took.

Caught the Cobalt Fever. Perhaps it should be stated that Mr. Tretheway got his first notion of going to Cobalt from conversations with a member of the staff of McGill College, for there, in the professor's laboratory, he saw the samples of ore analyzed, the processes by which deductions were made, and heard the coldly philosophical and scientific talk of the professor. There is something up there in Cobalt," advised by his friend to go and look at things, he took the chance. It matters not now that the

# ARE DEVELOPING NEW COAL MINE

### Crafts, Lee & Gallinger will be Ready Shortly to Operate Their Mine at Tofteld.

An eight and a half foot seam of coal has been struck in the mine owned by Crafts, Lee & Gallinger, which is situated near Tofteld. This seam has been located at the foot of a thirty-five foot shaft, and is the best of a number that the firm have sunk during the past few months. All the seams have been good ones, none being less than six feet in thickness. Work on the development of the mine, which is situated about a mile and a half from the station, will be begun at once. Cars are being ordered and the progress of the materials are now on the ground. It is the intention to operate the mine extensively this year, even though the G.T.P. line is not on the condition for transportation.

With the present prices of coal the mine would be a profitable one to haul for shipment to Camrose, which is only about thirty miles distant. Speaking of the progress of the grading on the G.T.P. to The Bulletin this morning, Mr. Crafts stated that work was now being pushed on the five miles east of Tofteld, and that town is itself growing rapidly and his new about seventy buildings, while others are in course of erection.

# PREVENTION OF RAILWAY MISHAPS

### Railway Commission Official in Edmonton Inquiring into Causes of Accidents.

J. Clarke, formerly of Ottawa, who was appointed last May as Inspector of Railway accidents for the Dominion, is working in connection with the railway commission, reached Edmonton last night on a tour of investigation of the west. He is accompanied by his wife, and by J. P. Doherty, the latter taking a detailed report as secretary of all interviews of the railroad officials.

Mr. Clarke, who is an experienced railroad man, has just completed an investigation of the C.P.R. main line and branches, looking into sixteen accidents more or less serious. The accidents were of different natures—collisions, rear-end and head-on, derailments, etc.

Not until Mr. Clarke's official report is made public will his findings in these cases be made known, but interviews as to whether some of these accidents did not arise from neglect of the employees, he replied that they did. In some instances the men working over time were fatigued, in others careless and reckless and occasionally inexperienced.

Will Urge Safety Appliances. "What steps do you recommend to secure greater safety?" "I shall make several recommendations: I have already made some in regard to the operation of the C.P.R. shops at Winnipeg; they are fitting out all passenger cars with two conductors' seats, instead of one as formerly. This, I believe, will save many lives. I will also recommend that when I return to Winnipeg I shall ask the C.N.R. to equip their cars with the same type of seats.

"Have you looked into the matter of rolling-stock?" "Yes, and I hope to see improvement made very shortly in this respect. They must be thoroughly equipped with safety appliances. Moreover, the great pressure of transportation has caused some neglect of the running gear of cars. There is danger of their being run on rails without the proper repairs. I shall urge greater care in this connection, though I find the shops at each division point quite busy now with repairs."

# CANADA WILL BENEFIT GREATLY

### By Visit of English Journalists Here, Says "Canada" in Editorial Comment.

"Canada," the English magazine published in Canadian interests in London, has this to say of the British journalists, who are seeing Edmonton this afternoon under the auspices of the "Canada" club. Not so many years ago the British journalists seldom even looked across the "dim strait" of wandering waves which surrounds his island, to mark the progress made by the great Dominion. In those days newspaper editors and proprietors were always facing eastward; Europe seemed to them the only source of good copy from outside their own country. Speaking of Canada and Australia were not worth two flourishes of a fountain pen. Then, as compared with new, the attention of the British journalists is now turned to the west, and the editor was "not at home" to the writer who, however, had the good sense to ask the editor to write the British public in regard to the possibilities of the western continent, and to the industrial policy.

# ROCKEFELLER A PITILESS MONSTER

### His Brother, Frank, Has a Story To Amaze the World—People Will Stone Him.

New York, Aug. 16.—Frank Rockefeller's denunciation of John D. Rockefeller as a "monster, merciless and pitiless in his cold, inhuman passions," comes as the startling climax of a sensational headline read between his brother and the "Canada" club. "I will be ready to tell a story that will amaze the world," he said, "the true history of my father's life, and the country will be too warm for its richest man."

"It will not be safe for John D. to appear in the streets of any American city," he said, "for the people will stone him. Nothing but flight to some foreign land will save his life when the whole world knows the truth. Frank Rockefeller's starting arraignment of his brother came out as a result of a chance remark by Dr. H. H. Biggs, a Cleveland physician, who said a few days ago that John D. Rockefeller had "actually luskusky," should "outlive his father, now 94."

# POISON GIVEN BY MENTAL PROCESS

### Is Said by Mrs. Eddy to Have Caused the Death of Her Husband.

Concord, N.H., Aug. 16.—Counsel for the "Next Friends," have agreed to the suggestion of the masters who are inquiring into the incompetence of Mrs. Baker G. Eddy, the Christian Science practitioner, to accompany two alienists to Pleasant View to make "tests" of her mental condition. Mr. Streeter, Mrs. Eddy's counsel, objected, but will consult with his client before the next session of the hearing on Tuesday, and it is possible that he will then agree to the proposition of the masters. Calvin A. Frye, Mrs. Eddy's secretary, was in court this morning.

Poison Mentally Administered. Depositions were read by J. J. Kelly, attorney for the "Next Friends," in which Mrs. Eddy was alleged to have written that her husband, who died in Boston, was the victim of accidental poisoning, mentally administered, and that she had held an autopsy to prove the fact. She also wrote, according to the letters read in court this afternoon, to her son Geo. W. Glover, warning him to beware of mental mal-practitioners in Boston and of their vile work.

# GERMAN LEADER STUDIES CANADA

### Prominent Editor and Statesman Tours This Continent to Study Conditions.

Winnipeg, August 16.—Winnipeg has at present a distinguished visitor in the person of Dr. Theodor Barth, a member of the German Reichstag and for many years past the recognized leader of the Radical Liberals, the Berlin Nation, of which Dr. Barth was the organ of intellectual liberalism in Germany and had a world-wide reputation.

Dr. Barth has been touring the North American continent for some months and is now studying Canadian conditions. He has already visited British Columbia and the other western provinces and is now looking into matters in Winnipeg. On Monday he proceeds eastward, Dr. Barth is a guest at the Royal Alexandra.

# AMERICAN BANK PRESIDENT HERE

### Declares Edmonton Has a Future Few Cities Have—Will Bring Money Here.

Saturday's Daily. W. J. Mooney and M. J. O'Malley, of Langdon, N.D., were visitors at the city yesterday. The former is the owner of the W. J. Mooney State Bank in Langdon, and president of both the Citizens' State Bank in Sisseton, N.D., and the Citizens' State Bank in Wakes, N.D. Mr. O'Malley is president of the Langdon Lumber Co. Both gentlemen were here to see the city whose fame and future is an everyday topic of conversation in Langdon, and in every other North Dakota town. They came to spy out the land for themselves. And what they saw impressed them so favorably that Mr. Mooney has purposes returning next month at the head of a party of eastern men, representing Vermont Savings banks, which have money to invest.

"I believe," said Mr. Mooney, in an interview with a Bulletin representative, "that a great city is in the making in Edmonton. The institutions with which I am connected have \$1,000,000 in loans at 7 per cent. on farm property in Langdon. On city property security the rate of interest is 8 per cent. In Edmonton I have received credit assurances that the loans will bring 10 per cent. on gilt-edged securities. This being the case, I will be my business to induce the clients of our banks to place their money here. There is absolutely no question in my mind as to the future of Edmonton. It is sufficiently distant from Winnipeg to be entirely free from the possibility of being overshadowed by the importance of the western metropolis. Besides this it has the natural resources of a great city, the railway facilities essential to its development, and furthermore is the natural seat of many important centers, but the great north country. To that country Edmonton is as Minneapolis and St. Paul are to our city. Without wishing to offend the citizens of Calgary, I must say that in my opinion that city cannot possibly have the future Edmonton will have. I have traveled somewhat, and have witnessed the foundation, and watched the development of many important cities, but the progress of Edmonton surpasses any thing I have ever seen."

"As you consider the value placed on real estate in this city too high?" "Decidedly not. I think inside city property is a bargain. I have seen a block of Mount Lawn, a subdivision which was recently sold to two North Dakota men, for \$100,000. I have seen my purchase. I think I could not have secured a better investment in suburban property."

Mr. Mooney recently returned from a trip to Egypt and the Holy Land. He says that Cairo is experiencing a marvelous boom, a result of the construction of the Assouan dam on the Nile. Farm property in the vicinity of Cairo is selling now for twenty acres before this dam was built and an irrigation system made possible, for no selling for \$50 per acre. Many English people are going into Egypt. "The fact is," said Mr. Mooney, "the whole world is booming despite the financial depression. Even the little Jerusalem is in the throes of a real estate boom. Property outside the city walls is selling now for twenty times as much as ten years ago."

Speaking of the crop in North Dakota, Mr. Mooney said that wheat was now being cut, and that the harvesting of wheat would commence next week. There was a great dearth of farm laborers, the condition being similar in that respect to that which prevailed in the Canadian West.

Mr. Mooney and Mr. O'Malley were taken over the city by Messrs. Magrath and Hart.

# CHICAGO LIVE STOCK

Chicago, Ill., Aug. 16.—Cattle receipts were 3,000, market steady but slow. Hogs receipts about 14,000; market strong to 5c higher. Sheep receipts about 5,000; market weak.

# Gasoline Oil Tank Exploded

Janesville, Wis., August 16.—Several thousand gallons of gasoline in the Standard Oil Company's tank at Broadhead, Wis., exploded this afternoon, destroying the tank and causing a panic in the town. A passenger train was nearby when the explosion occurred, but no one was injured.

# Movements of Sir Hibbert

Montreal, Aug. 16.—Sir Charles Hibbert Tupper and Lady Tupper of Vancouver are at the Windsor, having just returned from Halifax. They will be joined here by their son Reginald, of the British navy, who was a passenger by the Empress, and will proceed to British Columbia.

# ON THE SIDE.

Minimum ..... 43  
Barometric pressure ..... 29.85

## LOCALS.

Thursday's Daily.  
At the police court yesterday afternoon J. A. Morton was sent up for trial to the supreme court. He was also fined \$10 for carrying a concealed weapon and the revolver was confiscated.

A petition against the action of the license commissioners in granting a license to the Yale Hotel, has been lodged in the supreme court. It is at the instance of J. D. Haynes, president of the Temperance and Moral Reform League of Alberta.

J. W. Showers, of Bellingham, Wash., the advance agent of a party of twenty Washington territory farmers, who have decided to locate in Alberta, was a caller at the immigration hall yesterday. Mr. Showers intends spending ample time seeing the agricultural sections of northern Alberta, and will in all probability explore the Peace River country during his stay. The party are mostly married men with some means, who wish to locate close to one another, and it is possible will migrate into Canada before the snow flies.

Friday's Daily.  
Whist riding up Second street yesterday, Miss Hall was thrown from her pony. She was not seriously injured.

Edmonton bank clearings for the week ending yesterday again passed the million mark, the figures being \$1,004,677.33.

A skating and fancy dress carnival is announced for Monday night at the Thistle roller rink. Six costume prizes will be given, along with two for fancy skating and three for the racing events.

The Canadian Club had intended to entertain the visiting British journalists at luncheon, but as they are only to be in the city a few hours it was found to be impossible, and the idea has been abandoned.

W. E. Wilson, of the Northern Hardware Company, had the misfortune to step on an upturned nail while at work in the warehouse on Wednesday, and the injury will keep him off work for a week.

James Aitken, night watchman at the Ostrander Hotel, had his shoulder broken yesterday afternoon when he was delivering a trunk. His horse, becoming frightened, ran away with the rig, which belongs to the Ostrander livery. Aitken suffered in the accident.

The Hudson Bay Company forwarded yesterday to Athabasca Landing four loads of potatoes. The potatoes were destined to fill the shelves at trading posts to the north. The loads in the Landing have not yet arrived, and there is now little difficulty to be met with in freighting.

On account of the very wet season, Mr. McPherson has arranged to play his big "Uncle Tom's Cabin" company at the Edmonton opera house, instead of under their tents. They will be here but one day, giving two performances, afternoon at 2 and night at 8 Monday, August 26.

Crops in the Lesser Slave Lake district, said a resident of that county to the Bulletin today, are much farther advanced than in this vicinity. Farmers there are looking for 35 bushels to the acre of wheat, oats and barley are equally promising, and the outlook is of the brightest.

The committee of the Civic Improvement Society held a meeting on Wednesday afternoon, when it was decided to hold a horticultural show within the first fortnight of September, the date to be decided later. A committee was appointed to get up a prize list and to secure a hall for the purpose. The society wants to secure a membership of 150, in order to secure the full government grant.

The return made by Caretaker Brunelle to the Interior Department at Ottawa shows that 293 people were accommodated at the city immigration halls during the month of July. The new arrivals were not as heavy as the previous month, but the stay of the average arrival was seven days, as compared with four days for June. Forty of the July comers were kept at the hall for three weeks waiting for their household effects, which were side-tracked at Winnipeg.

The Caledonian Club held its regular meeting last evening in the Mechanics Hall. Eighteen new members were enrolled. Arrangements were made for the picnic to the Great estate on Civic Holiday. The parade will start from College avenue, at one o'clock and horses will run for those who prefer to drive out. A good program of athletic events is drawn up confined to members of the club and an enjoyable time is anticipated. J. A. Eyrle delivered an address to the club on the life and work of the late Sir Walter Scott to mark the 125th anniversary of his birthday. The pipe band made a things dirk. Songs were rendered by Messrs. Graham and Newick, violin selection by Mr. T. Irving; Scotch reading by Mr. Parker.

Thursday's Daily.  
These details were before the police court this morning and were each given the usual fine. In an assault case last night the defendant was fined \$5 and costs.

The department of agriculture has issued its first poultry bulletin. Advanced methods of Poultry Farming. The bulletin is a copy for districts and may be secured by application to the department.

There has come the notice of the Bulletin a very pretty poem composed by Mrs. Addie J. Hubbard, of 8th street. It is to be sent to Cleveland, Ohio, for a family reunion at the latter part of August. This is Mrs. Hubbard's eighth year as poetess of that occasion and she is a clever writer.

Downie's "Uncle Tom's Cabin" will appear in the Edmonton Opera House on Monday, August 26th, at noon and night. This is Andy Mc-

terday, accompanied by J. K. Ward, of Lawton, Oklahoma. He found the lure of the west too much for him and will become a permanent resident of the prairie country in the Lloydminster district. They intend going extensively into farming and have brought along three carloads of stock and effects.

MEETING OF NATURALISTS.  
Thursday's Daily.  
The meeting held last night in the Mackay avenue school to organize a local society of naturalists was well attended in spite of the unfavorable weather. Some of those who spoke during the evening were Dr. Bevell, the new provincial bacteriologist, Mr. Harrison Young, Mr. Fie and Mr. Halkett.

Mr. Andrew Halkett, naturalist of Marine and Fisheries Department, Ottawa, gave a brief address upon the fauna and flora of this district, elaborating upon the mollusks, starfish and other specimens of sorts collected at Hastings and Cook's Lakes.

He dwelt at some length upon the character of the prairie limits of vertebrates, illustrating the subject by the pectoral and ventral fins of fish. Various other specimens, small rodents, frogs and the larvae and pupae of insects were shown by the speaker and commented upon.

At the conclusion of his address, Mr. Halkett outlined the system and scope of field naturalists' clubs, and an earnest discussion ensued as to the organization of a club of this sort in Edmonton.

A committee was appointed to draft a constitution for the proposed society and arrange for the next meeting. The committee will meet at the residence of Mr. Harrison Young on next Tuesday night.

A FINE FAIR.  
The opinion held by outsiders of the Edmonton provincial exhibition well stated in a letter received by Secretary Mountfield from E. K. Strathy, manager of the Union Bank in Lacombe. The letter is as follows:

"Dear Sir,—I am in receipt of the two medals, viz., championship light show and Hackney stallions. These medals are very fine indeed and are a credit to the directors of the exhibition. Needless for me to say, I appreciate the honor and wish your exhibition every success.  
"Yours truly,  
"E. K. STRATHY."

DISCHARGED ACCIDENTALLY.  
The seventeen-year-old son of Rev. A. D. Macdonald, of Ottawa avenue, met with an unfortunate accident yesterday afternoon. While examining a loaded revolver in his room the revolver was accidentally discharged and the bullet entered the lad's knee.

Making no outcry and without a word to startle his two sisters who were in the house at the time, he plucked set out himself to find a doctor. He slipped down a back stairway to the street and then, his walking was painful he went some distance unaided to a doctor's office. The ambulance was ordered there and the young fellow taken to the Public hospital, where it was discovered that the bullet had lodged in the bone near the knee. An operation will shortly be made to remove the bullet. The young fellow is resting easily at the hospital. His father is now out at Lamont conducting his ministry.

LIQUOR CASE AT LANDING.  
Before W. Leslie Woods, J.P., Athabasca Landing, a charge against J. Gaston, hotelkeeper, was heard during prohibited hours, was heard recently, and the case dismissed for want of sufficient evidence.

ACTING BUILDING INSPECTOR.  
W. Soper, who has been connected with the city warehouse for some time, has been temporarily appointed building inspector and this morning reviewed Mr. Blayney, chief of the department for alderman. Mr. Soper has previously been under the supervision of Superintendent of Stores Hillman.

ENDORSEES CHILDREN'S AID.  
Among the strongest supporters in Edmonton of the idea of a children's aid for this city is W. J. Gray, owner of Crafts, Lee & Gallinger. Mr. Crafts has given a great deal of attention to this scheme and is strongly of the opinion that there is a necessity for some means of looking after neglected children in this city.

He says that numerous instances of destitution in the cases of children have recently come to his attention. In this line there is an opportunity for work by the Daughters of the Empire, the Hospital Ladies' Aid, W. C. T. U., Society of Prevention of Cruelty to Animals and other kindred societies.

All that would be necessary at first," said Mr. Crafts, "would be to secure a few rooms with a competent person in charge and as the movement grows, as it surely will, plans for a larger building can then be considered."

'BUS BREAKS DOWN.  
About midnight last night a bus from the Great West Livery, while returning with a party from Glover Bar, broke down near the southern terminus of the bridge. After a wait of a few minutes a car was secured and the disabled axle temporarily tied up till the city was reached.

A DISGRACEFUL STREET.  
The south end of McDougall street, from the corner of Jasper to the hill, is daily becoming in a more dangerous condition, and it is impossible if a concrete drainage can be found in any part of Alberta, either town or country. Hundreds of visitors to the city, hauled in the buses through this quarter, have formed the worst impressions of Edmonton which are never completely blotted out. As it is now the part in front of the Grand View is almost impassible, and one bus at least this morning had a narrow escape from being overturned.

## Strathcona Locals

Thursday's Daily.  
Mr. and Mrs. H. G. Clark left yesterday on a trip to Banff.

Mr. and Mrs. T. J. Tipton left yesterday on a visit to the coast. M. A. Weir, a prominent resident of Hamilton, Ont., was a visitor to Strathcona yesterday. Mr. Weir comes to Strathcona to see his brother to Mrs. James Tough, wife of the prominent Hereford stock breeder north of Edmonton and a cousin of James Weir, secretary of the Board of Trade.

Excellent progress is being made on the construction work of the addition to the Strathcona Hotel. The walls are nearly completed, and the inside work will begin in a few days.

W. R. Long, of Earlsfort, Minn., is in the city on a second trip, after a previous visit fourteen years ago. Mr. Long is amazed at the growth of this section during his absence.

The new premises of the Dominion Bank at the corner of Main and Whyte are being fitted up this week, and will be opened next week.

Mr. and Mrs. Edmund T. Baines leave next week on a holiday trip to Cooking Lake.

The hospital picnic and races to have been held yesterday at the fair grounds was postponed till to-day on account of the rain.

The union meeting in the Baptist church last night, was disappointed in the absence of Rev. Dr. McQueen, who was expected to read the text of the Bible society, who was detained by a two day storm in Ontario. A union prayer meeting was held instead, conducted by Rev. Dr. McQueen, and addressed by Rev. Mr. Marshall.

The Ladies' Hospital Aid picnic at the fair grounds yesterday afternoon proved very successful. Owing to the best condition of the track, the horse races did not take place.

The additions to the Strathcona Hotel, consisting of the new kitchen and dining room, will be practically double of its former capacity.

Rev. J. C. Bowen will preach the first of his special Sunday evening sermons in Baptist church next Sunday night. The subject is "Friendship."

AN EXHIBIT FOR THE EAST.  
The Strathcona Board of Trade are arranging an exhibit of the products of the Strathcona district to the Toronto Exhibition and the Dominion Fair at Sherbrooke, Quebec. The exhibit will include the products of the district, which is a mixed farming district, should have a display separate from that of the entire province and distinct from the south which is a ranching and fall wheat country only.

J. L. Fort has now a collection which will be put into effect at once. This will greatly lessen the din and noise that has prevailed here in the past, often to the bewilderment of newcomers.

C. P. R. MAN HERE.  
C. E. McPherson, general passenger agent of the western lines of the C. P. R., was in Strathcona yesterday. Mr. McPherson, who was here to look into the bus service between the two cities, says he found no great cause for complaint. Some passengers got into the wrong bus, and had to pay, but this was not into effect at once. This will be provided plenty of accommodation. Mr. McPherson says the summer travel on the western lines of the C. P. R. this year exceeded that of any previous season.

ALBERTA KNIGHTS OF PYTHIAS.  
Judge J. G. Tipton returned on Sunday from a trip to Montreal, where he was attending a meeting of the Advisory Board. The board consists of Judge Tipton, Strathcona, chairman; E. P. P. Cochrane, Lehighville; J. D. Williams, Didsbury; H. M. Vincent, Calgary; Robert Hocker, Edmonton; Col. E. H. Millman, St. Paul, general organizer. If the order was also present.

The business transacted was principally that of the board and included steps to advance the province of the order in Alberta. At present Alberta lodges are working under the jurisdiction of the Grand Lodge of Manitoba, but an effort will be made to increase the membership to one thousand so that the order may be able to arrive this autumn. It is hoped this point can be reached by the time the next Grand Lodge meets in Moosejaw next year. It was shown at the Grand Lodge meeting in Brandon in June last that for the year previous Alberta had shown a higher percentage of increase than any other province in Canada, or any state in the union. The order is increasing very rapidly.

WILL INCREASE WATER SUPPLY.  
Wednesday's Daily.  
There was a lengthy session of Strathcona city council last night. The members sitting till after eleven o'clock. The most important business of the evening was the decision to this fall increase the water supply of the city by deepening the wells, etc., at the power house. The cost will be over \$7,000.

There were present the Mayor and Aldermen Rankin, Elliott and Crawford. Communications.  
The Alberta Portland Cement Co., of Calgary, by letter quoted prices on a car of cement at the rate of \$3.60 per barrel. Sacks were valued at 10 cents each, and upon their return nine cents apiece would be allowed. The letter was filed.

Robertson & Dixon, Edmonton, wrote asking that proceedings against Jos. Herold for alleged contravention of a city by-law be stayed pending a reply to the communication they had sent to Rutnerford, Jamieson & Mode.

A letter from the Canadian General Electric Company inquired regarding a reostat that was to be returned. Mr. Kelly, city electrician, and stated some time previously that it had been shipped and the letter was turned over to him.

J. W. Tipton wrote asking that a \$10 fine handed in twice with his police court returns be refunded. The finance committee will deal with the matter.

George A. Simpson & Co. wrote asking for sale of the securities offered for sale. The secretary-treasurer was instructed to reply.

R. W. Lendrum asked that the lakes to the south of Strathcona be drained, as they were a nuisance and now within the city limits. The matter was referred to the public works committee.

A lengthy letter, from the Mayor

## Strathcona Locals

Thursday's Daily.  
Mr. and Mrs. H. G. Clark left yesterday on a trip to Banff.

Mr. and Mrs. T. J. Tipton left yesterday on a visit to the coast. M. A. Weir, a prominent resident of Hamilton, Ont., was a visitor to Strathcona yesterday. Mr. Weir comes to Strathcona to see his brother to Mrs. James Tough, wife of the prominent Hereford stock breeder north of Edmonton and a cousin of James Weir, secretary of the Board of Trade.

Excellent progress is being made on the construction work of the addition to the Strathcona Hotel. The walls are nearly completed, and the inside work will begin in a few days.

W. R. Long, of Earlsfort, Minn., is in the city on a second trip, after a previous visit fourteen years ago. Mr. Long is amazed at the growth of this section during his absence.

The new premises of the Dominion Bank at the corner of Main and Whyte are being fitted up this week, and will be opened next week.

Mr. and Mrs. Edmund T. Baines leave next week on a holiday trip to Cooking Lake.

The hospital picnic and races to have been held yesterday at the fair grounds was postponed till to-day on account of the rain.

The union meeting in the Baptist church last night, was disappointed in the absence of Rev. Dr. McQueen, who was expected to read the text of the Bible society, who was detained by a two day storm in Ontario. A union prayer meeting was held instead, conducted by Rev. Dr. McQueen, and addressed by Rev. Mr. Marshall.

The Ladies' Hospital Aid picnic at the fair grounds yesterday afternoon proved very successful. Owing to the best condition of the track, the horse races did not take place.

The additions to the Strathcona Hotel, consisting of the new kitchen and dining room, will be practically double of its former capacity.

Rev. J. C. Bowen will preach the first of his special Sunday evening sermons in Baptist church next Sunday night. The subject is "Friendship."

AN EXHIBIT FOR THE EAST.  
The Strathcona Board of Trade are arranging an exhibit of the products of the Strathcona district to the Toronto Exhibition and the Dominion Fair at Sherbrooke, Quebec. The exhibit will include the products of the district, which is a mixed farming district, should have a display separate from that of the entire province and distinct from the south which is a ranching and fall wheat country only.

J. L. Fort has now a collection which will be put into effect at once. This will greatly lessen the din and noise that has prevailed here in the past, often to the bewilderment of newcomers.

C. P. R. MAN HERE.  
C. E. McPherson, general passenger agent of the western lines of the C. P. R., was in Strathcona yesterday. Mr. McPherson, who was here to look into the bus service between the two cities, says he found no great cause for complaint. Some passengers got into the wrong bus, and had to pay, but this was not into effect at once. This will be provided plenty of accommodation. Mr. McPherson says the summer travel on the western lines of the C. P. R. this year exceeded that of any previous season.

ALBERTA KNIGHTS OF PYTHIAS.  
Judge J. G. Tipton returned on Sunday from a trip to Montreal, where he was attending a meeting of the Advisory Board. The board consists of Judge Tipton, Strathcona, chairman; E. P. P. Cochrane, Lehighville; J. D. Williams, Didsbury; H. M. Vincent, Calgary; Robert Hocker, Edmonton; Col. E. H. Millman, St. Paul, general organizer. If the order was also present.

The business transacted was principally that of the board and included steps to advance the province of the order in Alberta. At present Alberta lodges are working under the jurisdiction of the Grand Lodge of Manitoba, but an effort will be made to increase the membership to one thousand so that the order may be able to arrive this autumn. It is hoped this point can be reached by the time the next Grand Lodge meets in Moosejaw next year. It was shown at the Grand Lodge meeting in Brandon in June last that for the year previous Alberta had shown a higher percentage of increase than any other province in Canada, or any state in the union. The order is increasing very rapidly.

WILL INCREASE WATER SUPPLY.  
Wednesday's Daily.  
There was a lengthy session of Strathcona city council last night. The members sitting till after eleven o'clock. The most important business of the evening was the decision to this fall increase the water supply of the city by deepening the wells, etc., at the power house. The cost will be over \$7,000.

It Pays To Be Right

AND there is no place where it pays better than in the harvest field.

That is one place where mistakes are especially costly. To come successfully through the season to the harvest time, and the final of just reward because of inferior or imperfect harvesting machines is unfortunate, indeed. You may make sure of success by buying a Deering binder.

The Deering is designed and constructed with a view to efficient and long continued service. It meets fully the most exacting demands of the grain grower.

Should the grain be tall or short, light or heavy, standing or down and tangled, the Deering will harvest it all cleanly and without loss.

Being made in four sizes—5-6, 7 and 8-foot—the Deering binder meets a wide range of uses.

The wide-cut binder is especially valuable to the large grain grower, being of unusual capacity.

CANADIAN BRANCHES: Calgary, London, Montreal, Toronto, Ottawa, Regina, St. John, Winnipeg, International HARVESTER COMPANY OF AMERICA, CHICAGO, U. S. A.

amount of wild passing. Both sides neglected to place the ball even when several players were uncovered. Elliott scored the first goal after 12 minutes' play. Edmonton nearly scored a minute later when "Mule" Malony started up the field and lost the ball. Parsons saved the net, however, diverti.

In the second quarter Strathcona showed better form and tallied three times. Percy Main scored for the first one after a pretty bit of combination work. time 15 minutes. Main scored again after 15 minutes' play. Thirty thirds later Elliott got the ball well out and scored it past Jepson after a good run.

Darkness prevented high class playing in the third quarter. Edmonton could not negotiate the Scotia defence and missed several promising chances. The scoring in this quarter was as follows: Christie, 2 minutes; Hamston, 10 minutes; Christie, 12 minutes.

This ended the game. Only three fifteen minute quarters were played. W. McFarlane, Edmonton, was referee. Wood was the only man ruled off. He dropped his stick and attempted to play the ball with his foot.

If Strathcona wants to win out at Calgary next week, they will need to check closer and pass more accurately. On their showing last night the Calgary bunch easily excel them in both these departments.

QUIET IN POLICE CIRCLES.  
An unusual absence of crime both big and small is reported in the city police and mounted police circles. In the local police court for the past week drunks have been almost the only offenders, and from the headquarters of the R. N. W. M. P. at Fort Saskatchewan the report of the absence of crime throughout the district are of the same gratifying nature.

BIRTH.  
RICHARDSON—In Edmonton, on Aug. 14th, to Mr. and Mrs. W. G. Richardson, 501 Fraser ave., a son.

Money to Loan.  
Private money to loan on improved farms. Cash advanced upon proof of title.

EDMONTON.

LOST—Fawn Lac Ste Anne, one brown mare, white star on forehead, forelock, and part of mane out short; no visible brand; about 100 lbs. This mare was sold to T. G. Stinson, Government Timber Inspector, by Garriep and Lessard, Edmonton. Finder please notify Martin Desjardis, Lac Ste Anne P.O. \$10 Reward.

The game started at 7.33. The first quarter was remarkable chiefly for the

ROOF for the Years to Come

Just one roof is guaranteed in writing to be good for 25 years as a really good roof. That's a roof of "OSHAWA" GALVANIZED STEEL SHINGLES.

Put them on yourself—common sense and a hammer and nails does it. The building they cover is proof against lightning, fire, wind, and snow. They hold fast because they're made better, and of better material. Write for more facts about ROOFING RIGHT. Address: 305 The PEDLAR People, 1000 Shawinigan Ave., Shawinigan, Que.
