### CARPENTERS GO OUT IN WINNIPEG

#### Eleven Hundred Quit Work To-day—Demand to Per Cent. Increase in Wages.

Winnipeg, Man., Aug. 25.—Eleven hundred carpenters quit work today and are holding a mass meeting this afternoon. They intend to give out anything regarding their strength until they are expected, however, that nine of the firms out of about sixty have signed up the agreement offered by the strikers, which give a 10 per cent. increase in wages. Who these firms are has not transpired but if they include some of the biggest contractors it is likely that the rest will be included and that a strike will be averted. On the other hand the Master Builders claim they are practically sold in holding out against the demands of the men.

### TRAGIC TALE OF THE SEA.

#### Crew of Norwegian Barque Suffered Awful Tortures.

Victoria, Aug. 24.—Few more tragic tales of the sea are on record than that brought by the steamer Makura from Australia of the wreck of the Norwegian barque Errol, which struck the Middleton reef on June 18 and of the sufferings and tragedies of the survivors briefly reported by cable. Five remained of 22 when they were taken off so emaciated from thirst and starvation that they had to be carried. The Makura brought detailed stories of the reef, of an unaccountable search for a cache of provisions and a life boat missing in the prior to 1882, which sailing directories stated to still exist, and their final abandonment of hope, and subsequent deaths. Captain Anderson and the second mate were drowned while building a raft, while his wife and children looked on, wringing their hands. Finally after others were rescued and the remainder were weak from starvation, the captain's wife drowned her four children under the impression that the survivors were planning to return to civilization, and she followed the children into the waves.

### Evicting Strikers' Families.

Pittsburg, Pa., Aug. 25.—Evictions of strikers' families from the company's tenements resumed this morning under the protection of troops and deputies, the strikers watching sullenly. There is much bitterness against the company, and many are leaving, believing their cause lost.

### Will Seek Grant of \$50,000.

Vancouver, B.C., Aug. 25.—Vancouver will ask the Dominion government for a Dominion grant of \$50,000 for the exhibition of 1910.

### CROP CONDITIONS IMPROVED BY EACH DAY'S FINE WEATHER

#### Hum of the Binders Heard on Every Side—Harvest is Uniformly Good—Conditions Along C.P.R. in Alberta are Splendid—Belmont Farmer's Big Grain Area.

Every day shows a change in the panorama of harvest operations in the Edmonton district. Beginning a week or so ago in the fields of ripened barley, the binders have invaded the oat and wheat fields in turn, and will be working almost incessantly from now until all the grain is in stock. The many visitors to the country on Monday brought in glowing reports of the harvest season. For hundreds it was the first opportunity they have had this season of seeing the grain fields, and of verifying all that has been said, from time to time, of the prosperity which is rejoicing the heart of the farmer. The sportsman out after game stopped to see the binders at work in a neighboring field. The picnic parties, journeying into the country, marked the advance of the harvest from everyone the common topic of interest was associated with the farmers busy season.

On a Belmont farm, is one of the most extensive grain growers in the Edmonton district. He has over 300 acres in grain this year and of this has already harvested nearly 100 acres. A great deal of his oat and barley are cut and on Saturday beginning work was made in his wheat fields. Mr. Kennedy thinks this has been a most fortunate year as all grain has been cut as yet, and now sufficiently well advanced to be immune from any effects of possible low temperatures. His neighbors in the Belmont country and north into the Sturgeon district are equally fortunate in securing a splendid harvest.

Great hopes have been entertained for the crops in the Clover Bar district. By this week harvesting will be general and no better prospect could be desired. There is every indication that the entire harvest will be concluded without any deterioration of the grain by reason of a visitation of frost. In this respect the farmers of the Clover Bar district whose sown total of grain areas reach

### CAN ARREST WHITE PLAGUE.

#### Great Surgeon, Sir James Grant, Not Sure it Cannot Be Cured.

Winnipeg, August 24.—At the meeting of the Winnipeg Medical Association today, tuberculosis was dealt with by Sir James Grant, of Montreal, pointed out that tuberculosis could be arrested if not cured, although regarding its cure the great surgeon was not a pessimist. The members later attended a garden party at Government House. In the evening a smoking concert at the Royal Alexandra hospital was given with a lecture by Dr. H. A. McCallum on "Mind and its method of action in causing and curing disease."

### TO ESTABLISH A SCHOOL NEAR CALGARY

#### Rev. Dr. Grey Attending British Association Convention at Winnipeg, Purchases 2,000 Acres For This Purpose at Fish Creek.

Winnipeg, Man., August 24.—Tomorrow will see the opening of the big annual convention of the British Association for the Advancement of Science. All day prominent scientists have been pouring in, until now it is practically impossible to secure accommodation at any of the prominent hotels. The morning will be devoted to organization work. At night there will be a mass meeting in the Walker Theatre, when President Sir J. J. Thomson will deliver his annual address and Premier Roblin and Mayor Evans will voice the provincial and the civic welcome.

### SCHEME NOT ABANDONED.

Lemieux Says All Red Route Negotiations Merely Held in Abeyance.

Ottawa, Aug. 24.—Sir Wilfrid Laurier and Hon. Mealy Lemieux returned to the Capital tonight from Quebec where they have been holidaying and on Wednesday, the first cabinet meeting in several weeks will be held with Laurier, Lemieux, Murphy and O'Brien in attendance. Hon. George P. Roblin was here today but left this evening for London to attend the funeral of the late Robert Beld, of the N.W. Territories.

### NEGRO SHOTS UP TOWN

#### With Shot Gun He Wounds 29 People—Is Himself Shot and Lynched.

Monroe, La., Aug. 24.—Twenty-nine citizens were wounded three of them seriously, today when a negro named W. S. Wade, apparently actuated by revenge, waged a desperate battle with white citizens and officers on one of the main thoroughfares at the corners of Monroe. Afterward the negro, mortally wounded, was hanged out and buried. There is a feeling tonight and a race war is being feared.

### Weekly Crop Report.

The following is the C.P.R. report as secured from the regular crop correspondent at local points:  
Aurifer—All grains in good condition, cutting starts this week. Weather very warm.  
Carstairs—Fall wheat coming up nicely, cutting starts next week. Weather very best.  
Olds—Cutting in a few days, weather favorable, no damage.  
Bowden—Warm and dry, cutting barley, general cutting in a few days.  
Inistauil—No damage, weather very favorable, all crops as yet, and no frost.  
Penhold—Fine and warm all week, no frost.  
Blackfalds—No damage by hail or frost, weather warm.  
Ponoka—Weather fine, no damage.  
Millet—No damage done, fine and warm.  
Leduc—All grains in fine condition, cutting started, no damage done.  
Strathcona—Harvest commenced last week, weather fine and dry.  
Camrose—Everything in good condition, frequent showers.  
Bawlf—Crops making good showing, weather warm and dry.  
Daysland—Best week fine and hot, no damage.

### Note Mix-up in Regina.

Regina, Aug. 24.—J. C. Harrison, an insurance agent of this city, was committed for trial today on a charge of retaining a promissory note under false pretences. It is alleged that Harrison had sold one Hockney, a farmer, to sign a note for \$300 under the belief that he was signing an application for a loan. It is reported that Harrison will have Hockney arrested for perjury.

### A SHORTAGE OF LABOR REPORTED

#### Men For Construction Work and Farm Labor Difficult to Secure.

One man available for every three required is the situation in the labor market in the Edmonton district at the present time. A Bulletin representative who has been making a survey of the city this morning and ascertained that the above is about the present ratio of the supply and demand. Hundreds of men are required in the railroad construction camps on the C. N. R. and G. T. P. branch lines, others are required in the lumber camps throughout the province.

### Farm Laborers Scarce.

As a farm help, the agency stated that the wages offered by farmers are not high enough to draw the men into harvest work. Thirty-five dollars a month and board for farm work on the farm is not enough and consequently men go into hired work instead. Ten farmers inquired for men at the agency, and only six secured the help they wanted. They took from one to four men with them.

### OWEN SOUND'S LOCAL OPTION.

Anti-Temperance Forces Seem to Have a Bylaw Revaluated.

London, Aug. 24.—The local option carried three years ago last January. Strong efforts were made to repeal the law at the beginning of the year, but were unavailing. Now the anti-temperance forces are asking at Osgoode hall for a declaration that the local option bylaw is invalid.

### CHICAGO GRAIN MARKETS.

Chicago, Ills., August 24.—European buyers of grain from Uncle Sam's breadstuffs supplies, while Russia, the country of cheap labor, is allowing the buyers of Europe to name the price for wheat raised in the Czar's country. The bids received at Chicago and Duluth today for cash wheat are: No. 1 Northern, 95¢; No. 2 Northern, 1.04; No. 3 Canadian Western, 37¢; Barley—No. 3, 44¢.

### Dis Wagon Handled.

London, Aug. 24.—At the York meeting today the great handicap of 1,000 sovereigns, one mile and three quarters, a historic one sixtieth years old, was won by Mr. Morris's Bibbe, a four-year-old, who carried eight stone and started at 9 to 2. The well-backed favorite, the Earl Walker's Royal Beam, carried two pounds more, was second at 9 to 1 and P. Nelkes, 100 lbs, 9 to 5, was third. The other winners were Rossy, Shuleto, Don Jun, Moorland Lad, Athlete, Parstone, Toyenop and Pasington.

### River Gives Up Body.

Port Arthur, Ont., Aug. 25.—The body of Albert Reid, drowned in Kam river forty miles up, a few days ago, was found yesterday and brought to the city yesterday. He was 21 years of age. His home is in Prince Edward Island. He was engaged as a river driver. Interment took place here.

### Funeral of Robert Reid.

London, Ont., Aug. 25.—The funeral of the late Robert Reid, transcontinental railway commissioner, took place from his brother's residence this afternoon at 2:30 o'clock. Many prominent people were present including Hon. G. P. Grant. The pallbearers were four brothers of the deceased, James, George, Edward, Thomas, and his co-workers, Commissioners Colla McLean and Young.

### Carry Pope's Blessing.

New York, Aug. 25.—Archbishop John M. Farley, arrived today from Rome. He brought the apostolic benediction of Pope Pius the Tenth to the Catholics of America.

### Latham Fell From Monoplane.

Rhineis, Aug. 25.—Herbert Latham fell today in his new Blythe horse power monoplane in attempting a flight today. It was an exciting and narrow escape, but he was uninjured.

Great Fire in Russia.  
Kremenchuk, Russia, Aug. 25.—A fire has been raging here for five days and is still spreading. The loss exceeds five million dollars.

### THE MARKETS

#### FARMERS' MARKETS.

Grain and Feed.  
Oats to dealers, 42 to 45¢  
Feed wheat, 38¢ per bushel  
Barley, 38¢ per bushel  
Dairy crops, \$1.25 per cwt.  
Oat chop, \$1.05 per cwt.  
Bran, per cwt., \$1.05 per cwt.  
New Timothy hay, \$12 to \$14  
Dairy Butters, 20¢ per lb.  
Dairy Butter to dealers, 15¢ per lb.  
Creamery Butter, 20 to 25¢ per lb.  
Eggs, 20 to 25¢ per doz.  
Cheese, local, 12 to 13¢ per lb.  
Stocks.  
Grass-fed Steers, 35¢ to 4¢ per lb.  
Steers 1,000 to 2,000 lbs., 3 to 3½¢  
Fat Heifers, 2½ to 3½¢ per lb.  
Medium cows and heifers, 2½ to 3¢  
Fat Cows, 2½ to 3¢  
Calf Calves, 4¢ to 5¢  
Medium calves, 4¢ to 4½¢  
Hogs, 7½ to 7¢

### TUESDAY'S GRAIN MARKETS.

Winnipeg, Man., August 24.—There was little done locally this morning, except covering by a few shorts, exporters finding some difficulty in selling. This was largely attributable to the weaker cables, which were hardly in conformity with the rather pessimistic report of European prospects in Bromhall. The fine weather and a heavy arrival of wheat, the result of new wheat also tend to unsettle the markets. All the Chicago options opened ½¢ off the previous close, September fluctuating with ½¢ range, December and May having 1½¢ range, all closing up to the opening figures. At Minneapolis the market was more unsettled and fluctuations were more marked, September and May having a range of 1½¢, May being 1½¢ lower than the opening. The settled wheat in the Dakotas, where threshing is largely suspended, for two or three days, heavy arrivals of new wheat are disturbing factors. While new wheat is arriving freely in Minneapolis and will necessarily be in demand in conformity with the amount of grain being stored in Dakota granaries, instead of the usual heavy arrivals, the market is a considerable portion of the crop for higher prices, which some exporters will find it difficult to dispose of. The Canadian weather map continues satisfactory and the demand for oats continues fair and is handled in conformity with the excellent quality and well saved. The demand for oats continues fair and is handled in conformity with the excellent quality and well saved.

### Winnipeg Options.

Winnipeg options: Wheat—August closed 1.08; October 95¢, 95½¢; December 94¢, 94½¢; May 94¢, 94½¢; August 37.37; October 34.34; December 33.33.  
Winnipeg Cash Wheat—No. 1 Northern, 1.11; No. 2 Northern, 1.09; No. 3 Northern, 1.04. Oats—No. 2 Canadian Western, 37¢; Barley—No. 3, 44¢.

### American Options.

American options: Chicago—September 97¢, 97½¢; December 94¢, 94½¢; May 94¢, 94½¢; August 37.37; October 34.34; December 33.33.  
Minneapolis—September 95¢, 95½¢; December 94¢, 94½¢; May 94¢, 94½¢; August 37.37; October 34.34; December 33.33.

Rhineis, Aug. 25.—Herbert Latham fell today in his new Blythe horse power monoplane in attempting a flight today. It was an exciting and narrow escape, but he was uninjured.

### OPPOSES ACTION OF UNIVERSITY

#### Hon. W. T. Finlay Wants Agricultural College Free From Frills of City Life.

Hon. W. T. Finlay, Minister of Agriculture, does not think that the same lines as some members of the university senate in regard to the establishment of a provincial agricultural college, is shown by an interview which Mr. Finlay gave to a Bulletin representative this morning, in his return from the South.

### STEAMERS COLLIDE OFF SANDWICH POINT

Steamer Collingwood Flamed and Sunk After Collision with George L. Craig in Detroit River—Crew Numbered Twenty-three All Made Shore.

Detroit, Mich., Aug. 25.—In a collision in the Detroit river off Sandwich Point, shortly before nine o'clock last night, the steamer Collingwood, commanded by Capt. H. J. Bassett, of Collingwood, and carrying a crew of twenty-three was rammed and sunk by the steamer George L. Craig. Five minutes later the Collingwood was in forty feet of water after Capt. Bassett had made a heroic effort to run her ashore on the American side of the river. The crew of all whom are residents of Collingwood, commanded by a diver tomorrow. No trip to Toledo. The Collingwood was carrying a cargo of 7,000 tons of coal from Lorain destined for Fort William now lies in forty feet of water with only her forward and after cabins showing.

300 EXCURSIONISTS DROWNED.

Buenos Ayres, Aug. 25.—A collision between two excursion steamers at the entrance of Montevideo harbor today resulted in the drowning of 300 to 400 persons, most of whom are children. The vessel were the Argentine steamer Columbia, carrying passengers from Buenos Aires to Montevideo, and a German steamer also engaged in the local passenger service. The German steamer was sunk so quickly that all attempts at rescue were practically hopeless.

### QUALITY THE PARAMOUNT FACTOR IN BUTTER TRADE

#### C. Marker, Dairy Commissioner, Has Something Important to Say to the Producer, and to the Trade Regarding the Dairy Butter Market.—Testifies to the Need of a Cold Storage Plant at Edmonton.

C. Marker, dairy commissioner, who is up from Calgary on business in Edmonton, gave a Bulletin representative some very interesting facts, last evening, regarding the dairy butter trade between Alberta and how that trade might be greatly improved.

### Market Prices.

"In looking over market quotations in local papers published throughout the West, I find that 'Dairy' butter is generally quoted at prices ranging from 8¢ to the per pound less than the butter made in the creameries, and while the latter is always in good demand, the former is not so well known to a buyer. A number of reasons may be given for this, but the principal one is undoubtedly that the quality of the butter is not so good as that of the creamery butter."

### How can this loss be reduced?

"How can this loss be reduced?" Mr. Marker was asked.  
"Partly through the medium of creameries and partly by improved methods of manufacture on the farm and better facilities for handling the product both before and after the marketing market. With regard to the creameries I do not mean that they should lend themselves to the unlawful practice of removing or reworking dairy butter and afterwards

### THE PERFECT CHORUS GIRL.

#### And Parents Refusal to Sanction Suit Causes Young Lord to Suicide.

Plymouth, England, August 25.—Insanity, believed to have been the result of brooding over the refusal of his parents to allow him to marry Miss Estelle Christie, known in New York as "The Perfect Chorus Girl," caused Lord Elliot, the eldest son of Lord St. Germans, to commit suicide in his father's residence. Lord Elliot was formerly in military service in Egypt and was an officer in the famous Coldstream Guards. It was on a visit to New York two years ago that he met Miss Christie.

### STEAMERS COLLIDE OFF SANDWICH POINT

Steamer Collingwood Flamed and Sunk After Collision with George L. Craig in Detroit River—Crew Numbered Twenty-three All Made Shore.

Detroit, Mich., Aug. 25.—In a collision in the Detroit river off Sandwich Point, shortly before nine o'clock last night, the steamer Collingwood, commanded by Capt. H. J. ### URNS A TARDY EYE TO STRIKE

#### U. S. Justice Department to Investigate Conditions at McKees Rocks—Peonage Charge.

Pittsburg, Aug. 24.—The department of justice of the United States has taken official cognizance of the strike conditions at McKees Rocks and tomorrow will begin an investigation of the interior of the Pressed Steel Plant. This is the result of a complaint being made against Frank N. Hoffstad and others of the company, charging them with peonage. United States District Attorney John J. Jordan, late this afternoon, received orders by wire from Washington to proceed at once in the matter. Jordan will tomorrow enter the plant.

### Three Efforts to Wreck Train.

The county and railroad authorities are responsible for the story that three efforts were made to wreck the special train coming from Scranton with another company of mounted constabulary this morning. The tracks were found cut at different points and there is no doubt that the work of some one trying to injure them.

### Debs to Address Strikers.

Eugene V. Debs, at midnight announced that at 9:30 o'clock tomorrow morning he would be at the Indian Mound to address the strikers. "I have been thrice thrice and children. I will receive bodily harm if I attempt to speak, but I will be there to make an address if I am allowed. No Pennsylvania trooper will prevent me from addressing those men. I have as much right to free speech as has Theodore Roosevelt, and I intend to exercise it."

### Debs to Address Strikers.

Eugene V. Debs, at midnight announced that at 9:30 o'clock tomorrow morning he would be at the Indian Mound to address the strikers. "I have been thrice thrice and children. I will receive bodily harm if I attempt to speak, but I will be there to make an address if I am allowed. No Pennsylvania trooper will prevent me from addressing those men. I have as much right to free speech as has Theodore Roosevelt, and I intend to exercise it."

THE MARKETS. Continued from Page One.

and the hot weather is what is needed. The market was a nervous one and changes of 1/2 either way are frequent and rapid.

CHICAGO LIVE STOCK.

Chicago, August 24.—Kansas City had another heavy cattle supply, revealing serious crop conditions in the southwest. Local supply was very light. Good western cattle steady. Hogs 5 to 10c higher. Mixed and butchers, 7.50 to 8.25; good heavy, 7.50 to 8.25; rough heavy, 7.35 to 7.65; light, 7.50 to 8.20; pigs, 6.55 to 8.00; bulk, 7.65 to 8.10. Cattle—Receipts, 5,000; steady. Beef, 4.75 to 7.25; cows and heifers, 2.25 to 6.40; stockers and feeders, 3.15 to 5.25; Texans, 4.15 to 6.60; calves, 6.50 to 8.50; westerns, 4.50 to 6.40. Sheep—Receipts, 20,000; steady. Sheep, 3.00 to 5.00; lambs, 4.40 to 7.75.

Y.M.C.A. WILL NOT BE GIVEN OVER TO LADIES

General Secretary Ward Considers Unfeasible the Proposal to Allow Ladies Use of Gymnasium and Baths One Day Each Week.—W. Jennings Bryan to Be Here October 19.

The meeting of the board of directors of the Y.M.C.A., called for Thursday evening, September 2nd, will mean that the association is already entering on the campaign for progressive fall land winter work. At this meeting the committees to whom has been entrusted the physical, educational, social and religious work of the institution, will make their reports and will submit suggestions for the furthering of the work for the coming year.

An important matter which will require the attention of the education and social committee at once will be the reception of Wm. Jennings Bryan, who is to address the evening of October 19th. The Bulletin assumes that an attempt is being made to have the famous orator spend the afternoon and evening in the city, when an opportunity may be given to the citizens to meet the man popularly known as the Great Commoner. The details of his visit are now being prepared by the joint educational and social committees.

"In connection with the Y.M.C.A. educational classes," said Mr. Ward, the general secretary, to a Bulletin representative this morning, "there is a probability that classes will be held to teach foreigners the English language. It is surprising the number of those people who come to the building and can scarcely speak the English tongue. These classes could be held along the same lines as the French classes last winter. In addition to the language work, there will be lessons given in book-keeping and first aid to the injured.

"One item in connection with the work of the social committee is to arrange to make more use of the parlors. This is to be more of a members' room than in the past. The best magazines will be placed on the centre table and the nucleus of a library will be formed."

"Physical Culture Work." "The committee on physical culture will bring in a forecast of the work for the winter months. On this committee are representatives of the various branches of sport and an effort must be made to have them all work in harmony regarding the use of the gymnasium, the bowling alley, the swimming tank and the bath rooms."

"Is there any truth in the report that one day each week is to be given over to the use of the ladies?" Mr. Ward was asked.

"I have heard something of it, but the matter has never been brought before the board of directors, and if it were I do not think the scheme would be considered feasible at all."

Asked as to the religious work of the institution, Mr. Ward stated that the new plan of holding a Sunday afternoon conference at five o'clock, followed by a light tea, has worked most successfully. During the summer months from 40 to 50 men have attended these meetings and it was natural to suppose that the number would be greatly increased in the winter months.

"With the Boys." "The boys will be well looked after this winter in the Y.M.C.A.," said Mr. Ward. "Mr. Harlow, the boys' secretary, will soon return from the summer schools at Geneva Park and Silver Bay, where he has been in touch with the best boys' workers in America. He will have many ideas to put into practice in connection with the work among boys in Edmonton."

As an indication of the steady growth of the Y.M.C.A. in Edmonton, Mr. Ward said that 63 special issues of the Bulletin were issued this year. This is a great increase over last season. There have been over twice as many frequenters of the baths this July over last, and August will show an equally large increase. The general membership has also shown a great improvement.

Post Watson Married. London, Aug. 19.—It is announced that Wm. Watson, the poet, was married at Bath, Aug. 11 to Miss Pring of Holywell, Ireland. Mr. Watson is fifty-one years old.

Insurrectionists to Be Deported. Madrid, Aug. 26.—The minister of the interior, Senor De La Cierva, announced that he will rigidly apply to Catalonia the law authorizing the deportation and exile of offenders against public order. Five thousand troops in Galicia have been placed on a war footing and probably will be sent to Genoa, Morocco.

Alberta's Exhibit at Seattle Fair

"Undoubtedly one of the very best moves the province has ever made to secure new and desirable settlers," is the way a well known Edmonton business man, who returned on Saturday from Seattle, sizes up the Alberta exhibit at the big A. Y. P. exposition in that city.

The exhibit is located on the second floor of the agricultural building, and in spite of the fact that the space on this floor is only about half occupied, Fred W. Brown, of Edmonton, assisted by Mr. Webster, of Calgary, who are in charge of the display, are kept quite busy, even on ordinary days at the fair, explaining Alberta's great agricultural and industrial resources to visitors who apparently desire information with a view to sooner or later making Alberta their home, rather than from idle curiosity.

The exhibit is attractively arranged and cannot help arresting the attention of the passer-by. It is to some extent a duplicate of the display made at the Dominion fair, Calgary, and some eastern exhibitions last year. In the background is the famous painting, The Advance of the Wire Fence, a scene depicting a cow-boy riding up to a wire fence and finding the old trail no longer a public highway. In front of the big painting is a splendid field of real standing wheat, with prairie chickens and wild ducks flying over it, while at the other edge may be seen a beaver and a timber wolf, and specimens of Alberta's grasses and minerals. Prominent on the wall is the figure of a trumpeter, made of heads of wheat, sounding the last call to Alberta; while at other points equally unique and well executed designs are in evidence. Mr. Brown had the assistance of Mr. Bond, who did the decorating in the C. P. R. exhibit, in arranging the display.

Other Provinces Neglect Opportunity. "The fact is that the display is the province was illustrated early in August when W. E. Knowles, M.P. of Moose Jaw, visited the exposition, and in noting the attention the Alberta display attracted, expressed himself as astonished that Saskatchewan had missed such an excellent opportunity to boost her province. British Columbia is awake to the fact that Alberta has stolen a march on her, and is making every effort to have a provincial display in the city, when an opportunity may be given to the citizens to meet the man popularly known as the Great Commoner. The details of his visit are now being prepared by the joint educational and social committees."

"In connection with the Y.M.C.A. educational classes," said Mr. Ward, the general secretary, to a Bulletin representative this morning, "there is a probability that classes will be held to teach foreigners the English language. It is surprising the number of those people who come to the building and can scarcely speak the English tongue. These classes could be held along the same lines as the French classes last winter. In addition to the language work, there will be lessons given in book-keeping and first aid to the injured.

"One item in connection with the work of the social committee is to arrange to make more use of the parlors. This is to be more of a members' room than in the past. The best magazines will be placed on the centre table and the nucleus of a library will be formed."

"Physical Culture Work." "The committee on physical culture will bring in a forecast of the work for the winter months. On this committee are representatives of the various branches of sport and an effort must be made to have them all work in harmony regarding the use of the gymnasium, the bowling alley, the swimming tank and the bath rooms."

"Is there any truth in the report that one day each week is to be given over to the use of the ladies?" Mr. Ward was asked.

"I have heard something of it, but the matter has never been brought before the board of directors, and if it were I do not think the scheme would be considered feasible at all."

Asked as to the religious work of the institution, Mr. Ward stated that the new plan of holding a Sunday afternoon conference at five o'clock, followed by a light tea, has worked most successfully. During the summer months from 40 to 50 men have attended these meetings and it was natural to suppose that the number would be greatly increased in the winter months.

"With the Boys." "The boys will be well looked after this winter in the Y.M.C.A.," said Mr. Ward. "Mr. Harlow, the boys' secretary, will soon return from the summer schools at Geneva Park and Silver Bay, where he has been in touch with the best boys' workers in America. WAR TO A FINISH AT CONGRESS IN AUGUST

Two Different Factions Will Be in Conflict at Conservation Congress—One Has Roosevelt Behind It and the Other Taft—One Desires to Conserve, the Other to Spend.

Seattle, August 23.—Delegates from Utah, Oregon, California, Idaho, Montana and Colorado now in this city to attend the First National Conservation Congress, which will be held here August 26, 27, 28 say that they intend to take up the Ballinger-Pinchot fight started at the sessions of the National Irrigation Congress in Spokane, and threaten the entire matter out in this, the home city of Secretary Richard A. Ballinger.

Although officers of the Washington Conservation Association, under whose auspices the Conservation Congress will be held, will make no statements, it is understood that they are trying hard to prevent a repetition of the Spokane fight. It is the general opinion that a clash between the followers of Gifford Pinchot and R. A. Ballinger is inevitable, and that any session in which both sides endeavor to put the Congress on record for or against either the Ballinger or Pinchot policy is bound to be a stormy one.

Taft and Roosevelt Policies. In November last year when the State Conservation Convention took place here, State Land Commissioner E. W. Rose, of this State, and E. T. Allen of Portland, Government Forest Supervisor, clashed bitterly over the disposition of state lands in forest reserves, and the same forces that took sides on the smaller controversy, and who lined up for and against the Roosevelt policy of conservation as exemplified by Mr. Pinchot, are planning a fight in the National gathering, saying that at this month's congress Bristle state forces will be allied but with the same principles behind them as was the case in the state gathering. So whether the fight will be fought by outside delegates or by delegates from within the Pacific Northwest territory, the result will be the same—a fight for the survival of the Roosevelt policy or for the Ballinger policy, which by some, is said to have the tacit backing of President Taft.

2,500 Delegates to be Present. Plans are being made here to receive at least twenty-five hundred delegates to the Conservation Congress. A tentative list of speakers has been prepared, among whom are the following: Senator Chamberlain, of Oregon; Joseph N. Teal, chairman of the Oregon State Conservation Commission; W. K. Kavanaugh, and E. P. Saunders of St. Louis; Senator Dixon, of Montana; Ex-Governor George H. Maxwell, of Chicago; Hon. James R. Garfield, Ohio; F. H. Newell, chief of the United States Reclamation Service; Hon. Gifford Pinchot, chief of the Forest Service; James Arbuckle, manager of the Latin-American

and Foreign Trade Association, St. Louis; Dr. J. A. Holmes, Washington, D. C.; Dr. W. J. McGee, chairman of the Inland Waterways Commission; H. Farquhar, personal representative of Gov. Stuart, and many other equally representative. That the holding of the Congress will mark the organization of a National Conservation Association in the Northwest who have carefully followed the movement since its inauguration.

WAY OF THE TRANSGRESSOR.

Young Toronto Bank Clerk Gives Himself Up in New York. New York, August 26.—Hungry, tattered and without money Wm. A. Baker, 21 years of age, who said he formerly was a clerk in the Royal Bank of Canada in Toronto, walked into police headquarters tonight and said he wanted to give himself up on the charge of having passed two worthless cheques in Linwood, Ont. He said he arrived in New York on last Monday, with a Canadian dime in his pocket and had since been sleeping in the municipal lodging-house and in parks. Recently, he had been working for a lumber merchant, upon whom he had passed two checks amounting to \$53.40, that he was wanted by the Canadian police and would be tried and sentenced if he returned to Linwood. In spite of the warning, he said, he was tired of his roving life and wished to surrender.

LUMBERMEN WANT PROTECTION

Coast Millmen Declare American Lumber is Being Dumped on Them. Vancouver, B.C., Aug. 21.—Sawmill operators of British Columbia, at a meeting of the Canadian lumbermen to be held in Hamilton, Ont., next month, will make another attempt to bring influence to bear on the Dominion government to secure the imposition of an import duty on rough lumber. A tentative decision to this effect was reached yesterday afternoon at a meeting of the British Columbia lumber and shingle manufacturers.

It was declared today by several saw mill men that the mills in this province are still suffering from a loss of trade in the northwest through the dropping of American rough lumber on that market. It is stated that the importation of American lumber into Canada is considerable and cannot be overcome because of the low rates at which it is laid down here, the buyers paying cash, which is the "dumpers" are seeking.

Has This Steamer Suffered Same Fate

Believed the Menardandra Has Foundered With 250 Souls in Same Storm in Which Waratah Perished—3,000 People Search for Lost Child—Telegraphic Privileges. Capetown, South Africa, August 23.—The steamer Menardandra is believed to have foundered with 250 souls in the same storm in which the steamer Waratah perished. Both are overdue.

3,000 Search for Child.

Stellarion, N.S., August 23.—Despite the efforts of the 3,000 searchers yesterday, Rudolf Mueller's child, which has been missing since Tuesday last, is still lost. The stomach of some small animal was the only thing found. The searchers were unable to decide whether it was part of human remains or not. An analysis will be made.

Halifax, N.S., August 23.—Frank Schurman, lumberman and merchant, of River Phillip, died Saturday as the result of carbolic acid poisoning, which the victim claimed was accidentally taken. He is survived by a wife and five children. The two eldest sons are resident in Calgary.

Chatham, N.B., August 23.—Three hundred employees of the Miramichi Pulp and Paper Mill here struck Saturday morning. Wages for several weeks are overdue. The plant is closed down. It may resume this week some time.

Rouleau, Sask., August 23.—Osmian Knudson, a Swede homesteader, living 23 miles south of here, suicided Friday on his farm by shooting himself through the head, the body being discovered by a neighbor. The Mounted Police consider an inquest unnecessary.

Belleville, Ont., August 23.—A prisoner named George Ayoub made his escape from the county jail last evening. The prisoners were in the jail yard when the jailor's back was turned, Ayoub climbed over the wall. He was awaiting sentence and was in plain clothes.

J. Pierpont Subscribes. Brantford, Ont., August 23.—The design committee of the Bell Memorial Association has awarded to W. S. Alward, Toronto, the contract for the completion of the telephone memorial to the late Hon. John Sandfield Macdonald, premier of the province, from July 16, 1867, to December 19, 1871. The statue is being cast by the Gorham Bronze Company, New York. It will be nine feet high.

Link in Across Continent Line. Montreal, August 23.—The Canadian Northern today inaugurated the new

Ontario Has a Will.

Toronto, August 23.—Donald Sutherland, director of colonization for the Ontario government, protests against newspapers making statements as to the need of men in the West. He says more men go than are needed and there are not enough immigrants coming in to fill the vacancies. Mr. Sutherland's opinion of the trouble as far as Ontario is concerned is that the Dominion government is giving homestead grants of 160 acres, while the immigrants into Ontario do not receive any.

Newfoundland Will Not Federate.

Canadian Associated Press. London, August 20.—Sir C. Morris, interviewed today, declared that the arguments in favor of Newfoundland federating with Canada were disappearing. If Newfoundland federated she would not be much the gainer.

What a Gallon of Gasoline Will Do for You

A GALLON of gasoline will run one of the efficient 2-horsepower I. H. C. Gasoline Engines for fully 5 hours. That is, you will have full 2-horsepower to turn your machines all that time. It will save you and your family all the hard work of turning the cream separator. It will pump water and grind feed for all your stock. It will saw your wood, shell your corn, turn your grindstone. It will do all these things and many more for you the same day. And for 5 hours' steady work it will cost you the price of one gallon of gasoline. Is not that getting your hard work done at a pretty cheap rate? You will have plenty of other jobs for your

I. H. C. Gasoline Engine

There is something for it to do all the time. If it is not working it is not costing you anything. When the engine stops, all expense stops. But it is ready to start up again at the same work or any other work at any moment. There are larger I. H. C. engines that consume more fuel and do more work—you have your choice of a number of styles and many sizes.

Vertical 2, 3 and 25-horsepower. Horizontal (stationary and portable) 4, 6, 8, 10, 12, 15 and 20-horsepower. Gasoline tractors 12, 15 and 20-horsepower. Famous air-cooled engines 2, 3, 4, 5 and 8-horsepower. Also a complete line of famous mowing engines from 4 to 20-horsepower, and Sowing, Spraying and Pumping Outfits and Jacks.

How much work an I. H. C. engine will do for you and how economically it will do it, you will inevitably come to the conclusion that you must have one of some kind. The International local agent will be glad to supply you with catalogues and all particulars, or write our nearest branch house for further information.

CANADIAN BRANCH HOUSES—Brandon, Calgary, Edmonton, Regina, Winnipeg, Saskatoon, Toronto, Vancouver, Victoria, Whitehorse. INTERNATIONAL HARVESTER COMPANY

WAR TO A FINISH AT CONGRESS IN AUGUST

Two Different Factions Will Be in Conflict at Conservation Congress—One Has Roosevelt Behind It and the Other Taft—One Desires to Conserve, the Other to Spend.

Seattle, August 23.—Delegates from Utah, Oregon, California, Idaho, Montana and Colorado now in this city to attend the First National Conservation Congress, which will be held here August 26, 27, 28 say that they intend to take up the Ballinger-Pinchot fight started at the sessions of the National Irrigation Congress in Spokane, and threaten the entire matter out in this, the home city of Secretary Richard A. W. Scott, school inspector, spent Saturday and Sunday in Irma.

Miss Olive Turner of Calgary, is visiting her friend Miss Margaret Clark.

Miss Jennie Reid is spending a few days in Edmonton.

A picnic to Wabamun Lake is being arranged by the settlers for Labor Day.

QUALITY THE FACTOR IN BUTTER TRADE

(Continued from Page One) The consumer is concerned. The great bulk of home made butter finds its way to the consumer through the media of (1) the local store, (2) the jobber and (3) the retailer distributor.

"One suggestion is that butter, like other commodities, be bought and sold on the basis of quality and not by weight. Any farmer or trader knows very well that an inferior quality of any commodity produced on the farm in the factory will not fetch the same price in an open normal market as will a superior article.

"In view of differences in the matter of taste it is difficult to define the word 'quality' as applied to butter so as to suit the ideas of all, but the following is generally accepted by the trade as a reliable standard, viz: 'The flavor should be sweet, free from rancidity or bitter or other objectionable taints.'

"The texture of grain should be firm and clear, free from surplus of milky brine. At this point we should say that it is unlawful to manufacture or import into Canada, to offer, or have in possession for sale, any butter containing over sixteen per cent of water.

"The color should be of the right shade, uniform throughout, and free from mottles, streaks and color spots. The salting should be just right for the requirements of the market, a good quality of dairy salt being used evenly mixed throughout the butter and thoroughly dissolved.

"Packaging material should be of good quality and the use of the pound print, full weight, wrapped in a good quality of parchment paper and trimmed neatly.

"The butter which will not likely go into immediate consumption should be packed into tins lined throughout. A smoothly finished wrap will protect the butter from moisture and parchment adds greatly to the appearance of the package.

"Co-operation will do it. The greatest danger to the dairyman has put up this butter according to the above standard could receive, for a better price than his neighbor who puts up the kind that 'speaks for itself'.

"The quality he would pay a premium for would be surprised at the price of the general improvement which would follow in a short time. General interest in the quality of the product at the time of purchase.

"Co-operation on the part of the producer and of the trade, can not fail to place our dairy industry upon a better basis, more profitable and satisfactory to all concerned.

"Would not the presence of public cold storage plants at large local centers like Edmonton tend to effect a higher average quality of butter and command a higher price?

"Undoubtedly it would," replied the dairy commissioner. "Butter should be stored in clean dry places preferably dark and kept as cold as possible. The storage stakeholder's jobber has not got these facilities and consequently his method of keeping dairy products cannot help but effect a rapid and marked deterioration in the quality and a decrease in the value and consumption. With a cold storage plant the products could stand for long periods of time such a time they are placed on the market. It would prevent the utter wastefulness which goes on every summer season and the comparative scarcity which is felt in the winter months. A cold storage plant would regulate the supply, the quality and the price of all dairy products.

FAILED TO PAY FINE. Northern Ontario Trapper Taken Back to Parry Sound. Toronto, Aug. 25—Provincial Constable Dan McEneaney returned to Parry Sound on the 5:15 Canadian Northern train last evening, having in custody a trapper, who is wanted as Parry Sound. Hooded and was arrested some time ago on a charge of having been skins in his possession. Hooded was arrested along with another trapper, and was taken to a heavy fine was imposed. The Canadian Northern then charged Hood with larceny, as he was supposed to have broken into summer resorts along the line of the railway. The grand jury, however, threw out the indictment against Hood, as he was charged with larceny. Hood was taken in charge by the crown attorney for Parry Sound, and Hood sworn out a warrant charging the crown officer with theft. The month.

900,000,000 BUSHELS AMERICA'S WHEAT CROP

Export to Europe Has Fallen Off Because of Good Supply From Russia—Canada is Credited With a Crop of 175,000,000 Bushels—New York Herald's Size-up of Situation

New York, Aug. 25—The Herald's weekly review of the grain situation says:— Low prices for the season thus far were made last week in the wheat market of America, under the influence of the government crop report, indicating much larger crops than had previously been estimated, the influence of fairly favorable weather for harvesting, very optimistic reports on the Canadian crop and a decided lack of foreign interest in export wheat. At the close of the week prices rallied 2c to 2 1/2c, on rains delaying harvest in the North, west and strength of wheat crops.

The government report on winter wheat was so favorable that a little doubt was expressed of the actual output resulting from the government figures owing to the complaints of damage and inferior quality of the crop in the eastern sections. The government figures on the winter wheat crop point to a total output only about 2,000,000 bushels less than the government figure for last year, but apparently 20,000,000 bushels more than was actually harvested last year, judging by the distribution and the carry over.

The report on spring wheat showed by slight deterioration in the total estimated crop was placed at 223,000,000 bushels spring and winter. Trade papers in the North-west are even more optimistic than the government report regarding the crop in the three Northwestern states and estimates 600,000,000 bushels for the three states. The government report indicated 525,000,000 bushels. Either figure will be a record for wheat crops. Some damage is admitted from various sills which wheat is heir to since July 1, particularly from too much rain, although conservative opinion does not appear to admit that the damage has been serious excepting in limited localities.

A government report from Canada was given out on Tuesday pointing to a possible crop in all Canada of 175,000,000 bushels. Such figures are considerably in excess of the crop as estimated is obtained, it will give a total output of 2,000,000 bushels, just under 300,000,000 bushels, far exceeding any previous crop. The carry over of old wheat in the United States and Canada is not far from 20,000,000 bushels, giving a gross supply for the year of approximately 2,000,000 bushels maximum.

Even if the greatest of the dairyman has put up this butter according to the above standard could receive, for a better price than his neighbor who puts up the kind that 'speaks for itself'.

"The quality he would pay a premium for would be surprised at the price of the general improvement which would follow in a short time. General interest in the quality of the product at the time of purchase.

"Co-operation on the part of the producer and of the trade, can not fail to place our dairy industry upon a better basis, more profitable and satisfactory to all concerned.

"Would not the presence of public cold storage plants at large local centers like Edmonton tend to effect a higher average quality of butter and command a higher price?

"Undoubtedly it would," replied the dairy commissioner. "Butter should be stored in clean dry places preferably dark and kept as cold as possible. FATAL FIRE NEAR SASKATOON.

Saskatoon, August 24.—A fatal fire occurred on a lone farm some nine miles west of Dundurn on Saturday night, August 22, when the homestead house of J. W. Goodman was burned to the ground and a seven months old babe perished in the flames. The details of the affair have just reached the city today and go to show that had he been working some days with J. F. Cairns. Only Mrs. Goodman and two children were at home at the time. The woman, having access to leave the house to attend to some work outside, left the baby in a cradle after lighting the fire and went to the barn. A few minutes later, on turning around, she was startled to see the house in flames, and rushed to save the child. She was too late, however, for the flames had already enveloped the cradle in which the helpless babe lay and the mother was compelled to trundle it outside the burning home and watch the fire devour her child. Corner Isbister visited the scene, but decided that an inquest was unnecessary.

POLICE EXONERATED IN ENTWISTLE AFFAIR

Report of Inquiry Into Charges Preferred by Rev. John W. Wright—Police Found to Have Done Their Duty on Every Occasion.

That Rev. John W. Wright, Methodist missionary at Entwistle, posed falsely as a heroic preacher with the gospel in one hand and a revolver in the other, and that the R.N.W.M.P. patrol of the Entwistle district was as efficient as far as the law could go, are the conclusions which are drawn as the result of the recent investigation by the R.N.W.M.P. into the Entwistle case.

In consequence of a letter sent by Rev. J. W. Wright on May 29th to Attorney General Cross, pointing out the disorderly state of affairs in the town of Entwistle and of a letter published in the Edmonton Journal on May 30th, stating that the police were not efficient in suppressing disorders in that town, the B. P. Perry, commissioner of the R.N.W.M.P. at Regina, appointed Richard B. Dean, superintendent commanding "B" division at Calgary to hold an inquiry into the charges made in the public press by Messrs. Wright and James.

Superintendent Dean opened the investigation at Entwistle on July 5th. Some eighteen witnesses were called to tell what they knew of law and order in Entwistle. With this evidence before him, Superintendent Dean found that the R.N.W.M.P. stationed at Entwistle, were entirely exonerated from the charges of inefficiency and non-observance laid against them, and that those who laid the charges were not justified in doing so.

The Wright Letter. In the letter written by Rev. Mr. Wright to the press, his first accusation was that the merchants of Entwistle sold goods on Sundays. The evidence went to show that the town was then, at the head of steel construction and that there was constant traffic back and forward. It was necessary that man and beast be supplied with provisions. The stores were the only place to stop while in the town and very often men were permitted to lounge about them on Sunday.

As to the charge that divine worship was disturbed, Mr. Wright, in his evidence, stated four instances and mentioned several parties who would corroborate his words. The "other" parties contradicted his evidence and showed that there was only very slight ground for the accusation and only after the preacher had made himself responsible to the community that they asked Dr. Riddell for his removal. This request was given that he was not wanted. The best indication was that his congregation dwindled to two or three.

The crucial point in the evidence placed before Superintendent Dean was that the merchants of Entwistle, in which Mr. Wright secured evidence for the charge of illegal sale of liquor in Entwistle, had no license. Mr. Wright's own evidence, he has disguised himself and went to the Hub Restaurant, feigning illness. He asked for whiskey and was given a bottle by the owner of the restaurant, on the advice of Mr. Marshall, the druggist. He paid \$1 for the whiskey, but the money was returned to him the next morning for charity's sake, as it was found that he had only \$2.40 in his pocket. Mr. Wright claimed that he was so well known in Entwistle that it was necessary for him to disguise himself in order to obtain evidence. He said that he had seen men with bottles in their pockets and concluded that they contained liquor.

The Immorality Charge. As to the charge of immorality in the town, he said that diseased women were in the construction camps. This was found to be based entirely on hearsay and to be untrue on the testimony of Dr. Steele, contract doctor for the G. T. P. The only occasion when Mr. Wright appealed to the police for help was a house of ill-fame kept by Mrs. Campbell. They found three women in the house but there was no disturbance and no liquor could be found. At the time Tyler had planned to raid the house and if left to himself might have effected a successful raid.

The evidence of Mr. Wright showed that he had little conception of the strength of a rumor and was not aware that to report to the superintendent was the proper course to take if he wished the police to do their duty when he thought they were not. He preferred to give publicity in the papers to the affair.

Rev. Mr. James' Evidence. Rev. W. E. James, of Wabamun, superintendent of missions for the Methodist church, testified as to the substance of a letter which he had written to the Edmonton papers supporting the letters of Mr. Wright. It transpired that he had only been in Entwistle twice in his life and that his information was all second hand. One of his statements was that B. B. Chadwick, superintendent of reformatories, had apprehended and deported to United States one, Besse, a young prostitute, and that this had been done on information laid before him by Mr. Wright. Mr. Chadwick's evidence at this point was quite in contradiction. He said that he did not apprehend the girl and did not deport her and that his attention had been drawn to the girl while she was in Edmonton from another source. The girl had agreed to go back home to Minnesota and as far as he knew was at home before he even saw Mr. Wright.

The preponderating evidence of the citizens, G.T.P. engineers, merchants and others who were inhabitants of Entwistle was Entwistle was as law-abiding a place as anyone could expect. On Christmas night there was a fight in the town but that was the only instance of unlawful conduct which had come to the attention of the citizens. A banquet

FEARFUL RIOTING AT MCKEE'S ROCK

Strikers Resort to Violence—Soldiers Disarm Them and Disperse Meeting—Street Car Service Suspended—Town Under Marshall Law.

Pittsburg, August 23.—Mike Melinka, an alleged strikebreaker, imported into the present steel car works at Schoenville, caused a panic in the big stockade late this evening, when he pulled a gun upon his fellow strikebreakers and with "Now hike for that fence, you scabs," began firing, falling a man with every shot. He succeeded in pulling the trigger four times and with every shot one of the strikebreakers fell.

Before Melinka could completely unload his revolver he was upon by about 30 of the strikebreakers and almost beaten to a pulp. So fierce did the rioting become within the stockade that the 29 constabulary assigned to duty there were unable to quell the uprising and the members of the state constabulary were forced to hasten to their rescue.

In a dying condition, Melinka was put out of the big gate and allowed to lie in a solitary confinement until one of the troopers called for the ambulance from the Ohio Valley hospital. The injured man was taken there but he probably will die before daylight.

Street Car Service Suspended. Pittsburg, August 23.—At ten o'clock tonight President J. D. Calley, of the Pittsburg Street Railway Company, on whose cars the rioting broke out, suspended street car service into the strike district until such time as Sheriff Gumbert and the constabulary could be organized. Calley declared the lives of passengers are not safe on the strikers' road and he has ordered the stopping of all wheels on the Nevilles Island and the Schoenville lines.

Under Martial Law. With the whole town at McKee's Rock practically under martial law, with state troopers thoroughly rounded up and holding up every person met on the streets, the constabulary, with special train filled with additional troops, state constabulary and state police, are in the situation in the strike zone tonight. There have been no outbreaks today, because the state constabulary have taken over the McKee's Rock stockade and has kept everybody moving. Trooper John C. Smith died at the Mercy Hospital in Pittsburg this morning, and the death roll six, four strikers and Troopers Killeh and O'Donnell are dying in different hospitals and the death roll seriously injured numbers 17.

Tons of Weapons Taken. It is claimed that weapons to the extent of a ton's weight were taken from the McKee's Rock stockade in the vicinity of McKee's Rock today. These weapons will be all confiscated by the state constabulary. Sheriff A. O. Gumbert today. Gun stores of Pittsburg are exercising great care in the sale of guns and shotguns. It is thought that three strikers were killed in the general rioting last night and their bodies were found in the Ohio Valley hospital.

Dragging the River for Bodies. So persistent is the rumor that the police ordered a most rigid search of the river bottom with hook and line that no bodies were found. Fifty men are missing from inside the big stockade, but it is thought they all escaped in a party during the excitement last night.

At nine o'clock tonight the total arrests at McKee's Rock were under arrest were brought to the jail at Pittsburg tonight.

Soldiers Disperse Strikers' Meeting. An effort to hold a meeting of the strikers on the Indian Mound today was prevented by the mounted troopers. Several of the troops went up to the mound where a few dozen of the strikers were meeting and ordered them to disperse and go home. Two of the leaders appeared anxious to debate with the troopers.

"If there is one of you fellows left here in one minute we will blow you out of you, so you had better start something by sticking," said one of the troopers as he started his horse on a lunge for the strikers and then shot him down over the hill. They soon scattered the crowd. It was openly announced by the troopers that if they caught any one trying to hold a meeting on the hill they would begin shooting as soon as they could get within gun range and let the coroner do the rest.

Troopers Looking for Trouble. Members of the strikers complained bitterly that the troopers had threatened to kill 15 strikers for every trooper killed, and the way in which the mounted men went after every one today indicated that they were looking for trouble and would shoot on the least provocation.

Dr. Robert Hanover, one of the prominent physicians of McKee's Rock, was seriously beaten by a trooper this morning while standing on the street talking with some friends. The troopers approached and ordered the party to disperse and go home. Dr. Hanover hesitated and the trooper dropped him with his mace. The physician was taken to a hospital, where his condition is serious.

CHICAGO TIE-UP OF CARS

Strike of Street Railway Employees Imminent. Chicago, Ill., 23.—Clashes between the traction presidents and officials of the car men's unions marked the joint conference held today to see if some ground could be found upon which peace in the present street railway fight could be based.

The strike is certainly a long one, as the city looms bigger than ever. Another session will be held at 11 o'clock tomorrow morning.

When adjournment was taken nothing had been made any compromise offer of submitted any figures for the consideration of the strikers. At times did the debate become that Walter L. Fisher, in whose offices the conference was held, was forced to interfere.

The most sensational clash was between President John M. Roach, of the Chicago Railway company, and President W. D. Mahon, of the car men. This was caused by Mahon recalling the first offer made by President Roach to the employees for a new wage scale based on length of service according to that first offer an employee after 20 years would receive 28 cents an hour, after ten years 29 cents and after 15 years 30 cents.

"Following it to its logical conclusion, an employee would be paid 41 cents after 25 years, 42 cents after 30 years and 43 cents after 35 years and then by jumps of one cent until he reached 60 cents a century," said President Mahon. "We do not want to wait a century for an increase in wages, we want it now."

While speaking, President Mahon frequently pounded the table in front of him, and his force to emphasize every word he said. "That offer I made is better for the employees than your proposition," said President Roach, "I believe in respecting the old men, while you believe in sacrificing their interests for the men who have just given up."

Reference to arbitration made by President Mitten, of the Chicago city railway company, was not answered by either side. The speaker said that after that he said "There is nothing to arbitrate at the present time. I will submit it to the unions. It will be rejected."

REDUCTION IN FRUIT RATES

Department of Agriculture Obtains Concessions From Steamship Co. Ottawa, Ont., Aug. 23.—Last year the dairy and cold storage branch of the department of agriculture arranged to have one cold storage chamber reserved on four steamers sailing weekly from Montreal to London, for shipments of early apples and tender fruits. The concession was made on the earnings of the whole space.

This move proved so successful that similar arrangements have been made for the present season with the result that steamers will sail from Montreal, alternately to Glasgow and London, and the sailing dates, as already mentioned, will cover fruit packed in boxes only.

TO VISIT WINNIPEG

Governor-General and Party to Spent Week in Prairie Metropolis. Winnipeg, Aug. 23.—Word has been received that the governor general and Lady Grey, with their household, will spend a fortnight in Winnipeg from October 1 to 15. It is stated that owing to the growing importance of Western Canada the governor general should spend a portion of each year in the western provinces. This year's regal party will occupy the houses of Hon. Colin Campbell and Hon. Robert Borden, lent for the occasion and situated near each other.

CAMPBELL FURNITURE CO. The Store of Quality EMPIRE BLOCK, EDMONTON The Reliable Store Corner of First St and Jasper Avenue. GREAT CASH BARGAIN SALE It will well repay our country customers to pay us a visit while this sale lasts. Everything at less than eastern prices.

Your house or barn needs painting. You lose money in the value of your property every day you leave them unpainted. Let us tell you how little it will cost you to paint, and thus properly protect your house or barn. We ask you to send us their measurements and we will give you an expert estimate. You will find when you see how low this cost will be, that it is not economy at all to let them go unpainted, exposed to rain and climatic changes. We will tell you also why it is wise to do your painting with Stephens Paints—paints made by Western Paint Specialists with twenty-seven years' experience—paints that combine the exact amount of Manitoba Linseed oil (acclimatized), with the exact amount of pure pigment required to withstand both the blistering heat of 100 degrees and the cracking cold of 40 below. You will show your wisdom when you protect your buildings with Stephens Paint—"The Paint with the long life." Chown Hardware Co., Edmonton, Alta.

whose body was hurriedly taken away by his pals. Dr. Davidson was dragged from a street car by the men and struck several blows in the mouth. He started to run across the bridge in the meantime jerking a Colt automatic revolver from his right sleeve and drawing another pistol from his left hip pocket. He started firing into the crowd and with the first shot the fire was returned. Most of the bullets went wide of their mark, but the strikers' aim proved more effective and the doctor fell to the ground, pierced by two bullets. By a lucky stroke the electric battery which the explosive was connected failed to work and those who were handling the mines were driven off and the nitro glycerine, enough to blow up the whole town, was captured. Women Aid in Riot. After the searchlight had been ruined the strikers and their friends poured from their homes and from that time until late this afternoon the town of McKee's Rocks was a bedlam. It is estimated that more than a score of persons were taken to different hospitals suffering from injuries inflicted in the riots. The Ohio Valley hospital is filled to overflowing and more than a dozen injured were brought to the Pittsburg hospital today. Bombs Were Used. About 600 women virtually owned the town of McKee's Rocks for hours today. Near the restaurant where the troops eat they made a murderous attack this morning on Lieutenant Smith, of the state constabulary, and about twenty troopers. The women fought like demons and seemed absolutely reckless, pressing close to the troopers and hurling every kind of missile at the men and the horses. On account of their sex, Lieutenant Smith and his men hesitated to use force against them and contented themselves with trying to force them back along the street by urging the horses against them. Lieutenant Smith says one of the women hurled a lighted bomb under the horse of one of the troopers, but the missile failed to explode.

SPORTING NEWS

BASEBALL. IRISH BROTHERHOOD. Heinech, the August star, did the heaving for Brandon day's game. He did not show good form which he showed in last appearance on the field. The Irishmen made many good deliveries as the August star. Smith's shots and drives, which bunch them as well. The game started brightly. Heine got first on a fielder's error. Seaton and Brown scored the second innings which was the fourth hit of the evening Stanley.

Heine made sure of winning game in the fourth inning. He hit which scored Rogers and who had both drawn bases on in the fifth inning. Heine's fifth run. Seaton scoring on a two base hit. Kelly, McGee, Heine and his partner, who were rather nervous, only making but Sterling and Smith hit. Heine had shown much promise, scoring by failing to connect Heine's curves.

Two fine catches by Parker fielded and a grand throw by McGuire were features of the evening. On account of the score by innings. Edmonton. Summary: Brandon. Two base hits, Seaton; sacrifice hits, Sterling, stolen base, Sterling, Moriell, Rogers; strike out, Moriell; Smith 2; bases on balls, 1; Smith 3; double plays, Borden; McGee, Moriell, Grogan; pitcher, Kelly; time 1:27; umpire, Veale.

LEADERS TAKE TV. Medicine Hat, Aug. 21.—The game trouble in walking a today's double. In the afternoon White did great ball until the ninth, and one single in the eighth of the eight hits which were him during the game. He is clean singles out of four that the evening. In the eighth inning, in this inning, Campbell, steady, heady game for the Hat fall being very effective. The strike was 8 to 5 to the evening 11 to 5.

Afternoon game. Summary: run, Zimmerman, Zwickler; sacrifice hits, Borden; Zimmerman, Zwickler; stolen base, Harper; sacrifice hits, Borden; bases on balls, off Spore 2; off Spore 2; bases on balls, 1; umpire, Grimes.

Evening game. Summary: hits, Wilson, Zimmerman, Borden; sacrifice hits, Borden; Harper; sacrifice hits, Borden; Harper; sacrifice hits, Borden; bases on balls, off Spore 2; off Spore 2; bases on balls, 1; umpire, Grimes.

MENELI DOES GREAT W. Lettbridge, Aug. 21.—McNeil did a fine game for the team but fanned nine only allowed and no runs. Chick was in hero with a home run and a starling strike out by Taylor and a hand catch of O'Hare's drive out. The game was disgraced by Taylor and O'Hare's error.

Summary—Evening runs, Lettbridge; sacrifice hits, Borden; sacrifice hits, Borden; bases on balls, off Spore 2; off Spore 2; bases on balls, 1; umpire, Grimes.

MADE IT THREE STRA. Calgary, Aug. 21.—Calgary's three from the Maroons and even been scared yet. The game was a minor league affair and finished up her last average afternoon game Standridge was the head but was put in to finish the game. Standridge was the feature of the game. In the evening there was no starling strike out by Taylor and a hand catch of O'Hare's drive out. The game was disgraced by Taylor and O'Hare's error.

Summary—Evening runs, Lettbridge; sacrifice hits, Borden; sacrifice hits, Borden; bases on balls, off Spore 2; off Spore 2; bases on balls, 1; umpire, Grimes.

EDMONTON NEWS

LOCAL

All Saints Sunday school will be resumed next Sunday afternoon at three o'clock after two months vacation. At the present time there are no cases of any kind at the Isolation hospital, and the city is reported very free of all kinds of contagious disease.

PERSONAL

John Morris is spending a few days in Vegreville. Rene Lemarchand has gone to Camrose on business.

Robert Mays has returned from Banff and the coast. Judge Beck of this city, is visiting in Los Angeles.

A. Cristall has returned from a short trip to the coast. John White, of Calgary, is a visitor in the city at present.

A. A. Archibald and bride returned on Sunday from the coast. Peter Gunn, M.P.P., Lac St. Anne, is spending a few days in the city.

Inspector Worsley leaves this afternoon on a month's trip to Eastern Canada. Warden McCauley, of the Edmonton penitentiary, is spending a few days at Tofteld.

Miss Holdsworth has returned from a three weeks' trip to Calgary and Banff. J. W. Hermiston, R. S. Burns and E. Primmer were guests of Ledue Friends Sunday and Monday.

Dr. Whittaker, Chas. Miller, A. C. Gillespie and F. Wang spent the holiday at Mundare. Jos. Driscoll, clerk of the District court, leaves today for Mundare on his vacation.

E. L. Ferris returned Sunday from a vacation trip to Banff, Laggan, Field and through the Arrowhead lakes. Sergeant Tidbury, of the city police force, is spending his holidays at White Whale Lake on a fishing expedition.

J. McQueen, of Dundas, Ont., is a guest of his brother, Rev. D. G. McQueen at the latter's home on Fourth street. W. C. Hoeg, government land guide has returned from locating a party of American settlers in the Padie River district.

Walter Quinn, representative Canada West, the magazine published in the interests of Western Canada, was in the city yesterday. K. W. McDonald, Dominion Lands agent, has gone to Vegreville and from there will make a tour of inspection of the Onion Lake district.

Wm. Bailey, former accountant of the Union Bank here and now manager at the branch at Grassley Lake, Alta., is spending a few days in the city. St. George Jelliet has returned to the city from a vacation, during which he visited the cities on the coast and the Bohemia, Vancouver and San Francisco.

Premier Rutherford left last night over the C.N.R. for Winnipeg where he and Lieutenant Governor Bulyea will represent the Province at the annual meeting of the Association of British Settlers. Rev. David Parrie, of Washington, Ont., who conducted the services of the First Presbyterian church for five weeks during the absence of the pastor, Rev. D. McQueen, left the city yesterday afternoon on his return to the coast.

Mr. and Mrs. O. H. Anderson and Miss Hazel, of Wetaskewin, are commencing their musical tour, during which they will sell for Canada. Miss Anderson has finished her musical education and has been given a gratifying success that she will appear behind the footlights to entertain American and Canadian audiences.

Miss Edith R. Lytleton, a resident of New Zealand, is in the city at present, preparatory to leaving for the north country to gather material for literary work. Her past efforts in the line of novel writing have been done under the name de plume of G. B. Lancaster. Miss Lytleton is accompanied by her sister and will leave for Lassa, Slave Lake this week. Mrs. Turnbull, wife of T. M. Turnbull, manager of the Canadian Bank of Commerce, met with a painful accident at Fort Saskatchewan Monday afternoon. While stepping from a car she missed her footing and fell between the car steps and the platform, breaking a small bone in her left ankle. She was brought to the city on a special car and taken to her home on Sixth street.

EXCURSIONS TO FORT. The twin excursion to Fort Saskatchewan Monday, on the part of McDougall Methodist Church and the Presbyterian Sunday schools of the city was enjoyed by nearly 1,500 people. With delightful weather and the crowd in the best of holiday spirits, the Fort town scored again as a most desirable spot for Edmonton pleasure seekers.

McDougall Methodist Church made the trip by water on the new passenger boat "The City of Edmonton." Over 500 passengers got on board at the two landing places, one at the foot of Sixth street and the other below the bridge, and a delightful run was made in a little over two hours, and on arrival at the landing stage the excursionists proceeded to the picnic grounds in the rear of the Mounted Police Barracks, where several hours were spent in novelty races, ball

games and other sports. Alex. B. B. chart, superintendent of the Sunday school, had charge of the day's proceedings. The return trip was begun at five o'clock and Edmonton was again safely reached at ten o'clock in the evening.

The Presbyterian Sunday school reached Fort Saskatchewan by two special trains, which conveyed over 800 people, the great majority of whom were Sunday school children. Recreation of the usual picnic order was found on the exhibition grounds. Mr. S. Short, head of the sports programme and had a list which insured a good time for all the youngsters and the "grown-ups" as well.

In addition to the Sunday school picnic, the Sons of England conducted a very successful outing at Fort Saskatchewan, which was attended by some 300 members.

A trip through the country at this season of the year could not be more enjoyed by all. The fields showed ripe for the harvest and gave ample indication that this year will be a successful one for the entire farming community. Regardless of the holiday for the townspeople, few farmers look and feel any less busy worked hard all day long in the harvest fields.

SHOOTING IN THE SUBURBS. Complaints have reached the police of dwellers in the outskirts and people who go out on shooting expeditions charging firearms within the city limits. A few days ago Chief Loney made a tour to the district in the vicinity of Hayswood and found two men firing at targets within fifty feet of two main roads. He warned the men who expressed astonishment at learning that they were guilty of violations of the law. He stated that the reason for his visit against all who are found shooting within the city limits.

AN ATTEMPTED SUICIDE? Dr. Hsiop received a telegram from Athabasca Landing on Sunday calling him there on an emergency case. He was unable to respond but succeeded in securing Dr. Allan, who went north Monday morning by automobile, arriving at the Landing the following evening. Dr. Allan, who was alleged to have attempted suicide by the coast, the Grand Union hotel, Louis Benoit, who cut his throat at noon on Sunday. The cause was not clear, but he has a very slight chance to recover unless he is removed to Edmonton, and it is likely he will be returned here when Dr. Allen returns. Benoit is believed to be insane.

C.P.R. IN POULTRY BUSINESS. A. W. Foley, poultry superintendent, leaves this afternoon for Calgary, where his services will be required in connection with the laying out of a poultry plant at Camrose, where the C. P. R. is establishing a provision farm. This farm, when in active operation, will supply the produce of the C. P. R. dining car service.

CAR RIDE AND CAMP FIRE. The Young Ladies' Circle of Westminster church is making a car ride to Strathcona on Tuesday evening, August 31st, leaving the church at about half past seven o'clock. At the end of the car line some of the featured games will be played and lunch will be served around the camp fire. Each lady will bring a dish for lunch for two and tea will be provided. Tickets are being sold by the ladies of the circle and will also be available at the cars.

DUCK SEASON OPENED. Duck season opened Monday and large numbers of sportsmen went south over the C. & N.R. and east over the C.N.R., as well as to all the ponds and sloughs around Edmonton that are reached by trail, in search of game. As the season is at least two weeks earlier than last year the ducks are reported very small and few sportsmen secured any large specimens. No casualties have been reported in the Edmonton district, despite the large number of ducks that were in use on this annual holiday.

WILL APPEAL THE CASE. It is probable that an appeal will be entered by A. Chisholm against the conviction and a fine of \$100 registered against him at the police court yesterday for the Bohemia, Vancouver and San Francisco. The ground for the appeal is the claim that the view taken of the bylaw by the magistrate would make it ultra vires of the city. Mr. Chisholm recently put a plate glass front in a one-story wooden building adjoining his brick block at the corner of Jasper avenue and Fourteenth street. He had previously asked the council permission to make the change but was refused.

IMPRESSED WITH VANCOUVER. H. Milton Martin has returned from a trip to the coast, where he spent several weeks ago with Judge Beck and other Edmontonians. While at the Seattle exposition Mr. Martin was particularly impressed with the effective advertising that Vancouver is doing and especially the World newspaper of the city is doing at the fair. The advertising value that Vancouver is obtaining from the fair is only second to that of Seattle itself for more than three quarters of the visitors see both cities. Mr. Martin is of the opinion that the fair will not be a financial success, and he thinks that attendance does not come up to the expectations of the promoters.

MOONLIGHT EXCURSION. The Citizens' Band, having secured Mr. Walter's new pleasure boat, "The City of Edmonton," will hold a moonlight excursion up the river next Monday evening, August 30th. A splendid musical programme will be rendered by the band, which is at present in full strength. The band has arranged to have a good piano on board, and some of the foremost vocalists of the city will sing. They will undoubtedly be the most pleasurable trip of the summer. The excursion may be indulged in to a limited extent. As a very large number have signified their intention to be present,

which both, as capitalists and citizens of the Empire, they were so much interested in. Both he and Mr. Macrorie would return to the old country with a single story, that of the unlimited possibilities of Western Canada and the development already realized.

"The solidity of your city has greatly impressed me and augurs well for its future," said Mr. Macrorie. "We have never seen such an expanse of fertile country as that which lies along the line of the C.N.R. between here and Winnipeg. Every acre of the land served by this great system seems to be fit for crop raising."

Colonel Marshall last year retired from his command of the Duke of Wellington's 38th and 69th Regiments. He went through the Zulu war of 1879 in South Africa and held a command in the British army in the recent Boer war. He is a staunch advocate of conscription and stated to the Bulletin that in his opinion the time was not far distant when compulsory service would be found necessary in Britain and throughout the Empire. It was being forced upon England by Germany, and how the British parliament failed to recognize the fact was beyond his understanding.

"Conscription does not interfere with the commercial or agricultural well-being of Germany; neither would it with that of England or Canada."

AT IMMIGRATION HALL. The returns for last week at Immigration Hall show that 28 immigrants put up at the hall and that 238 interviews were granted during the week. Of those who arrived, 15 were from Ireland and 4 from Poland; 10 from the United States, 10 from the Dakotas and Michigan; 9 were from Germany, 6 from England, 4 from Ireland and 4 from Poland; 10 from Eastern Canada. Immigration Agent Webster states in his report that all are such as will make good homes for themselves and that they like the country.

IRON POLES ON JASPER EAST. Iron poles for carrying the street car wire on the Jasper avenue extension now being paved will be placed in position in the course of the next few days. These poles will be placed in the centre of the thoroughfare similarly to those already in use and will tend to give the street a neat and tidy appearance as further west.

A few minutes before three on Tuesday afternoon, the Canadian division of the city watchmen for some time had been now being taken down to Jasper and laid along the street preparatory to erecting the poles.

THREE STATIONS AT CAMROSE. Rene Lemarchand has returned from Camrose, where he secured information in regard to the G.T.P. and C.N.R. railroad operations in the town. To the Bulletin he states that the G.T.P. is securing right of way in the western section and that the C.N.R. is securing right of way in the eastern section. The C.N.R. station will be on block 12, between the Canadian division stations in the town at different points, the G.T.P. west and the C.N.R. north.

FORESTERS GROWING. F. S. White, of Calgary, provincial organizer for the Canadian Order of Foresters, is in the city this week on general organizing work. Mr. White says the order is growing steadily in this city. The Canadian Order, No. 1260, which was established in Northwood three months ago, now has 25 members. There are two chapters in Edmonton at present. At Lloydminster the membership in the order has increased from 19 to 58, and new courts have been organized all along the line. Mr. White goes to Stony Plain for the week, but he returns to Edmonton to build up the local courts.

GERMAN COLONIZATION SCHEME. S. Britton Foster, director and general manager of Robins Limited, of Toronto, one of the largest real estate firms in the Dominion with branches in Buffalo, Hamilton and New York was in the city yesterday in connection with the Dominion scheme of settling large colonies of German farmers in the Canadian West. The Robins company will open branch offices in Edmonton, Calgary and other western centers. Mr. Foster was looking for a Jasper area location for the company. J. R. Nelson, who for many years was in charge of the C.P.R. now associated with the company, in his German emigration scheme.

SURVEYING H.B. RESERVE. Two blocks of the unsubdivided portion of the Hudson's Bay Company's reserve, bounded on the east by the street, west by Eighteenth street and south by Jasper avenue, have been surveyed by Driscoll and Knight and will likely be placed on the market shortly by the Hudson's Bay Company. The Hudson's Bay Board have been negotiating for one block as a school site, but have not yet come to terms. There is a possibility that the south of Jasper may be secured by the local government as a site for the new government house.

AN ADVOCATE OF CONSCRIPTION. Colonel Hastings Marshall, of London, England, and John Macrorie, of Edinburgh, British capitalists, who are interested in the development of the Canadian Northern Railway system, and who were the guests of Wm. Mackenzie on the recent trip which the president of the C.N.R. made over the line from Port Arthur to Edmonton, returned to the city Monday from their visit to the coast. They were accompanied by Miss Macrorie and Noel Marshall, of Toronto, president of the Standard Fuel Company and a cousin of Colonel Marshall.

Since leaving Edmonton a week ago the party spent several days at Banff and returned to Vancouver. Noel Marshall, who is a director of the Canadian National Exhibition, which is to be opened at Toronto on Monday next by Lord Charles Bessford, wishes to be present on the occasion of the opening and the party left Edmonton yesterday evening at nine o'clock over the C.N.R. for the coast. He is the guest of the Bessford family at the luncheon on the C.N.R. at Banff. "If I were twenty years younger," said Colonel Marshall to the Bulletin yesterday afternoon at the Alberta Hotel, where the party were guests. "I would be seriously tempted to seek my fortune in the Canadian West. They had come to Canada, he said, to see for themselves the country in

patrons are requested to secure tickets early, as only a limited number of 900 are being sold. Tickets may be secured from the agent at the band or at Archibald's drug store.

LORD STRATHCONA TO VISIT CITY. Premier Rutherford has wired a cordial greeting from the province to Lord Strathcona now on his way to the west. He has also extended an invitation to him to visit the capital of the province which the high commissioner has accepted. The date of the visit has not definitely been decided but will be arranged in the next few days. The premier will meet Lord Strathcona at Winnipeg this week.

AT IMMIGRATION HALL. The returns for last week at Immigration Hall show that 28 immigrants put up at the hall and that 238 interviews were granted during the week. Of those who arrived, 15 were from Ireland and 4 from Poland; 10 from the United States, 10 from the Dakotas and Michigan; 9 were from Germany, 6 from England, 4 from Ireland and 4 from Poland; 10 from Eastern Canada. Immigration Agent Webster states in his report that all are such as will make good homes for themselves and that they like the country.

"We have never seen such an expanse of fertile country as that which lies along the line of the C.N.R. between here and Winnipeg. Every acre of the land served by this great system seems to be fit for crop raising."

Colonel Marshall last year retired from his command of the Duke of Wellington's 38th and 69th Regiments. He went through the Zulu war of 1879 in South Africa and held a command in the British army in the recent Boer war. He is a staunch advocate of conscription and stated to the Bulletin that in his opinion the time was not far distant when compulsory service would be found necessary in Britain and throughout the Empire. It was being forced upon England by Germany, and how the British parliament failed to recognize the fact was beyond his understanding.

"Conscription does not interfere with the commercial or agricultural well-being of Germany; neither would it with that of England or Canada."

AT IMMIGRATION HALL. The returns for last week at Immigration Hall show that 28 immigrants put up at the hall and that 238 interviews were granted during the week. Of those who arrived, 15 were from Ireland and 4 from Poland; 10 from the United States, 10 from the Dakotas and Michigan; 9 were from Germany, 6 from England, 4 from Ireland and 4 from Poland; 10 from Eastern Canada. Immigration Agent Webster states in his report that all are such as will make good homes for themselves and that they like the country.

IRON POLES ON JASPER EAST. Iron poles for carrying the street car wire on the Jasper avenue extension now being paved will be placed in position in the course of the next few days. These poles will be placed in the centre of the thoroughfare similarly to those already in use and will tend to give the street a neat and tidy appearance as further west.

A few minutes before three on Tuesday afternoon, the Canadian division of the city watchmen for some time had been now being taken down to Jasper and laid along the street preparatory to erecting the poles.

THREE STATIONS AT CAMROSE. Rene Lemarchand has returned from Camrose, where he secured information in regard to the G.T.P. and C.N.R. railroad operations in the town. To the Bulletin he states that the G.T.P. is securing right of way in the western section and that the C.N.R. is securing right of way in the eastern section. The C.N.R. station will be on block 12, between the Canadian division stations in the town at different points, the G.T.P. west and the C.N.R. north.

FORESTERS GROWING. F. S. White, of Calgary, provincial organizer for the Canadian Order of Foresters, is in the city this week on general organizing work. Mr. White says the order is growing steadily in this city. The Canadian Order, No. 1260, which was established in Northwood three months ago, now has 25 members. There are two chapters in Edmonton at present. At Lloydminster the membership in the order has increased from 19 to 58, and new courts have been organized all along the line. Mr. White goes to Stony Plain for the week, but he returns to Edmonton to build up the local courts.

GERMAN COLONIZATION SCHEME. S. Britton Foster, director and general manager of Robins Limited, of Toronto, one of the largest real estate firms in the Dominion with branches in Buffalo, Hamilton and New York was in the city yesterday in connection with the Dominion scheme of settling large colonies of German farmers in the Canadian West. The Robins company will open branch offices in Edmonton, Calgary and other western centers. Mr. Foster was looking for a Jasper area location for the company. J. R. Nelson, who for many years was in charge of the C.P.R. now associated with the company, in his German emigration scheme.

SURVEYING H.B. RESERVE. Two blocks of the unsubdivided portion of the Hudson's Bay Company's reserve, bounded on the east by the street, west by Eighteenth street and south by Jasper avenue, have been surveyed by Driscoll and Knight and will likely be placed on the market shortly by the Hudson's Bay Company. The Hudson's Bay Board have been negotiating for one block as a school site, but have not yet come to terms. There is a possibility that the south of Jasper may be secured by the local government as a site for the new government house.

AN ADVOCATE OF CONSCRIPTION. Colonel Hastings Marshall, of London, England, and John Macrorie, of Edinburgh, British capitalists, who are interested in the development of the Canadian Northern Railway system, and who were the guests of Wm. Mackenzie on the recent trip which the president of the C.N.R. made over the line from Port Arthur to Edmonton, returned to the city Monday from their visit to the coast. They were accompanied by Miss Macrorie and Noel Marshall, of Toronto, president of the Standard Fuel Company and a cousin of Colonel Marshall.

Since leaving Edmonton a week ago the party spent several days at Banff and returned to Vancouver. Noel Marshall, who is a director of the Canadian National Exhibition, which is to be opened at Toronto on Monday next by Lord Charles Bessford, wishes to be present on the occasion of the opening and the party left Edmonton yesterday evening at nine o'clock over the C.N.R. for the coast. He is the guest of the Bessford family at the luncheon on the C.N.R. at Banff. "If I were twenty years younger," said Colonel Marshall to the Bulletin yesterday afternoon at the Alberta Hotel, where the party were guests. "I would be seriously tempted to seek my fortune in the Canadian West. They had come to Canada, he said, to see for themselves the country in
