HAMILTON, May 21.—A disastrous pitch in occurred about midnight last night on the Northern and Northwestern division of the Grand Trunk Railway. The yard engine, No. 643, in charge of Engineer Alfred Condy and Fireman Michael Smith was shuuting freight cars. It had left the Delaware and Lackawanna. The Erie, about twenty-five cars, most of which too, it is rumored, is firting quite freely with

ing to cut the New York Central out of a direct Toronto branch. As far as the Lackawanna is concerned, The World was informed by a reliable authority last night that that road would positively make a big effort to push itself into this city. It is further stated that if the New York Central and the Pew-Miller-Helm "projectorate" do not come to terms on building the road which these gentlemen affirm they are going to con-struct from Toronto to the Bridge, the Lacka-wanna will take hold of the scheme. So that between the Central, the "Coaler" and the Eric there seems to be good reason for believ-ing that one of them will come this way. were away nine or ten of the cars on the siding (some of which were uncoupled) started down the grade westward and kept on running until they got to the switch near the foot of Welling-ton-street. The switch was, of course, set for this train on the main line. Four of the truant cars left the track and stopped those that fol-lowed lowed. The yard engine, with its nine cars behind

speak. Mr. Nordheimer, however, has at last come out with a circular, but The World is unable to give it in complete form. It was only issned yesterday afternoon, is understood to be a brief document and is addressed to the shareholders of the Federal. Mr. Nordheimer requests them to suspend their judgment on the merits of the suit until the forthcoming meeting and also strongly reduests that the shareholders do not part with their provies to the gentlemen who signed Circular No. 2, but that they attend the meeting themselves and judge for them-selves. This is in brief the purport of the ex-president's circular.

After Six Years, None of the interested parties who under stand the real motive of the suit against Mr. Nordheimer have been found who will talk

about it to newspaper men. However, there

about it to newspaper men. However, there is a great deal of sympathy expressed for Mr. Nordheimer, and not a few of hus friends are sure that he will come out all right. Some of the bank will abandon the suit before it comes to trial. An interesting feature of the "Little Machine" departure from earth is recalled. It will be remembered that in November, 1884, Mr. Yark-r reported to the meeting of the shareholders that he was "happy to report" that he had obtained the advice of emment counsel on the matter and he had heen assured that the legality of the Commer-ciat Loan and Stock Company was undoubted; in connection therewith was visionary and

that all liability of the directors of the bank in connection therewith was visionary and that he would advise the wiping-out of the company and the cancellation of the bank stock held by the 'Machuma.' This was acted upon, and it was thought that the last of the 'Little Machuma' had been heard of. Now, however, six years afterwards, Mr. Yarker and the present board find out, or presume to and the present board find out, or presume to and the present board find out, or presume t find out, that the action of 1894 was all wrom and that Mr. Nordheimer is still responsibl for a portion of the Federal's losses at least,

There is an air of mystery surrounding the whole matter and perhaps the public will yet be let into a page of unwritten history in con-mection with the Federal's checkered career,

The those portions will be of pressed Cincin-nati brick, with stone dressing. There will be an elevator, the entrance to which will be on Yonge-street. The stairs will be in the rear leading from Colborne-street. In addition to that portion, the ground floor, which will be occupied by the bank officials, there will be frem 12 to 15 has and other offices. There is no doubt but hat this will be one of the finest down-town structures in Toronto. Mr. S. F. McKinnon estimates that the cost will be about 560,00.

therefore The Globe is called upon to say tha no treaty is required at all, and that Reci procity can be obtained without Canada's

brocity can be obtained without Canada's visibly signing away her commercial independ-ence. Well, we don't believe it; nor do we believe that the people of Canada can be got to believe it. The Commercial Annexation party has already, by resolution offered in Parliament, put itself on record to this effect: That while it does not go the length of Commercial Union, which is Mr. Wiman's plan, it does most emphatically sustain the plan of Unrestricted Reciprocity, and takes its stand on the same But even from this modified position the Globs now tries to withdraw, saying that no treaty giving up Canada's freedom of action is necessary, but that Concurrent Legislation will suffice to do the busines. Thus does the courage of the Commercial An-nexationists and their chief organ becomer "small by degrees and beautifully less." At first The Globe was ready to "go the whole hog" for Commercial Union. Next, prompted by the wisdom of Mr. Edgar, it was moved to controme with the concurrent to the solution of the part of the railway work and treasurer T. Gibson presented a lengthy financial statement. These officers were elected : President Statement. These officers were elected : President Statement. The constraint union. And now it is further moved say that this latter does not necessarily in ply a formal treaty, signed and sealed. Con urrent Legislation at Washington and Ottawa will solve the problem. We are surely not mis taken in taking the plain, common - sense nearing of all this to be that Cartwright and is aids, Edgar and The Globe included, have not courage enough to face squarely the ter rible practical issue of discrimination agains Freat Britain. And, what is more, we don' lieve they will ever be able to face this issue fairly and squarely, which is the identical on raised in The World's question, as yet unan

It has been remarked that The Globe has not had much to say recently in favor of th Reciprocity fad. Apparently our conten porary sees now that the thing is bound t 'peter out," and wants to be ready to "stand rom under" when the props give way.

Big Railway Deals.

There are some big railway deals in prost these days, or tolerably sure to be accom plished ere long. We refer here chiefly to those that have to do with making new con nections between the longitude of Chicago and further west. The Duluth Herald sees a tendency of railway changes towards two

main results-a combination of the Canadian Pacific and the St. Paul, Minneapolis and placed on the Long Branch route, was built at Manitoba systems on one side-and of the Grand Trunk and the Northern Pacific systems on the other. The Northern Pacific not long ago succeeded in forcing an invasion of Canadian territory; but this bold venture is not to be risked with impunity. The next thing we may expect to hear of is the invasion by the Canadian Pacific of Duluth and other territory which is highly valued by the Northern Pacific. To which we take leave to add that in such case the her a staund proper comment would be: Served them right -for the Canadian Pacific has certainly as good a right to invide Duluth as the Northern

Pacific had to invale Winnipeg. Our American contemporary evidently thinks that the struzzle between these two railway giants — the C P. R. and the Northern Pacific—is only just beginnuz.

IN THE MATTER OF SIDNEY ALEXANDER

The Malilands v. Junior Brampiess. The Maliland Lacrosse Club, the greatjunior exponent of Our National Game in the North end, has arranged a match with a junior Brampton team for the Queen's Birthday, and hope to add a victory to the many various Toronto athletic organizations will achieve for the credit of the Queen City on that day. The boys of this club intend to make the name of their club synonymous with victory this year, and should do so, what with their facilities for practice on the old Jesse Ketchum ground, complete harmony among the metubers, etc. Any of the friends of the club who would like to take in the little excursion with the boys on Friday, please send names or communicate with "Jimmy" Doame, 9 isabella street, City. The Shamrock-Torento Watch. with "Jimmy" Doane, 9 Isabella street, City. The Shamrock Terento Match. The Toronto Lacrosse Cub committee will choose the team for the match on Friday from the following players: Martin. Gavin. Schol-field, Dixon. Boyd. Boxall, Joe Ifring, Mc-Congby, Woodland. Gale, Gordon, Carmichael, McCormack, Carson, Rolls. Points. W. Hubbell will likely act as field captain for the Torontos against the Shamroots. Drynan, Jack Garvin, Sewell and McKenzle will play in later matches but not against the shamrooks.
