

The Weekly Monitor

ISSUED ON WEDNESDAY, At Bridgetown, Annapolis Co., N. S. M. K. PIPER, Proprietor and Publisher J. L. DEVLIN, Editor and Manager.

TERMS:—\$1.00 per year, allowed at \$1.00 if paid strictly in advance.

WEDNESDAY, OCTOBER 21st, 1903

—In a recent issue we referred casually to the fact of one pocket

captains being fined one dollar in the St. John police court for having in his possession

improperly packed or marked apples. In that article we noted

the seeming contradictions of the case. Today we publish some correspondence

that throws additional light on the subject. The packer of the apples, Mr. C. E. Inglis, contends that the fine

was wrongfully imposed, and in this contention he is supported, not only

by the testimony published to-day, but by the opinion of the many who know

him to be a man of sterling integrity. As the case stands, however, it re-

sembles best into a question of whether the apples were up to the standard

required by the mark XXX, or whether the inspector at St. John knows his

business. For the sake of the fruit-growers themselves it is to be

hoped that the inspector will be able to see the fruit marks and enforced according

to the strict letter of its interest and meaning, but at the same time believe

it possible that a conscientious packer may become the victim of ignorance

over official errors on the part of an inspector. The following is the section

of the fruit marks act bearing on the question at issue:

"No person shall sell or offer, expose or have in his possession for sale, any fruit packed in a close package,

upon which package is marked any designation which represents such fruit

of No. 1, or XXX, finest, best or extra good quality, unless such fruit

consist of well-grown specimens of one variety, sound, of nearly uniform size,

and free from decay, worm holes, bruises and other defects."

—The Alaskan Boundary Commission has reached an agreement.

While the treaty is not yet generally concurred before the commission met

that Canada's case was a foregone conclusion and that the English mem-

bers of the Commission would take sides with the United States for the

sake of securing a settlement and retaining the friendship of that nation.

Such has been the actual outcome. The case of the United States being

endorsed with the solitary exception of the Portland Canal, which has been

declared as Canadian territory. While Canadians cannot but feel that their

rights have been sacrificed, they nevertheless have come to realize that a

peaceable manner. This now leaves a clear field for negotiating a commercial

treaty with our neighbors and a strong sentiment has of late undoubt-

edly grown up in that country in favor of more generous trade relations.

If, however, further negotiations are likely to follow in the same line as

the Alaskan Commission, Canada had better keep clear of them. Uncle Sam

has always shown a disposition to take all he can get and give nothing.

—War between Russia and Japan seems threatening. It is to be con-

fined to these nations along its actual occurrence would be of little mo-

ment to western nations. England, however, is in line of Japan and France

stands in the same relation to Russia; while all the nations seem to

have a craze for old china that might lead them into such acts if the two

former get into a scuffle over Manchuria.

—Bad weather, wars and rumors of wars, industrial troubles, all the public and private ills that flesh is heir

to, are now explained if not ameliorated by the discovery that there are

"spots on the sun."

Young Men's Christian Association.

GYMNASIUM CLASSES OPEN.

The gymnasium classes at the Y. M. C. A. begin this week. The business

men's classes are held Mondays and Fridays from 7 to 9. The young

men's classes will be Monday evenings at 8 o'clock and Friday evenings at

8:20. Boy's classes Tuesdays and Saturdays, 1 to 3.

The shower baths with hot and cold water are now in first class shape and

are a great luxury. The special basket ball night will be Wednesday evenings after prayer meeting.

Y. M. C. A. MASS MEETING.

Next Sunday Mr. W. M. Kingston, a prominent railroad Y. M. C. A. worker and speaker from St. John,

will address a mass meeting at the Y. M. C. A. Hall, at 3:45. Women as well as men are invited. Miss Beck-

with will sing. The orchestra will assist in making the music attractive.

In spite of the rain a fair sized audience gathered to hear the strong ad-

dresses given by Rev. A. D. Archibald of the Y. M. C. A. last Sunday, on "Some Elements of Strength."

Foreign Market Report.

Cable advices from London, Liverpool, Glasgow and Manchester report

a most active demand for American and Canadian apples. There are over

two hundred thousand barrels of American and Canadian apples landing

there this week. The demand is excellent and the prices are slightly in ad-

vance of those last week. Baldwins, Greenings and Northern Spies are

selling at \$2.50 and \$4.50 per barrel. Ben Davis and Seeks are selling at

\$2.25 and \$4.75. Fancy Kings are in great demand and are selling from

\$4.00 to \$5.50. Golden Russets \$4.00 and \$4.50. These prices are for perfectly

sound fruit. Slack and slightly moulded bring from 50c. to \$1.50 less.

My mail advices to have to-day speak more encouragingly of future

markets, as there is such a complete failure of the apple crop throughout

Great Britain, and in fact the whole continent of Europe.

Buyers from France, Belgium and Prussia are in frequent attendance at

the Liverpool and London sales. It really looks as if it were going to be

a bumper year for the American farmer who has apples. Five apples packed

in the hall here last Sunday, I re- sulted to one half more proportionately than the above prices for barrels.

A heart-attack mother, sister and brother are the remaining members of the family. The brother is Mr. Thomas A. Beckler of His Majesty's Bechtel for the port of Annapolis. —The funeral, which took place at his brick residence on St. George street, was very largely attended by sympathizing friends. The service was conducted by Rev. H. Fair Words from Late Visitors. J. M. Foster and Stephen Foster have returned from a visit to Bridgetown, Annapolis County, Nova Scotia. While there the county fair was in progress and Mr. Foster is enthusiastic over the display of fruit, which he says is the finest that he has ever seen. They brought back with them samples of the Nova Scotia apples, which bear out the descriptions they give of the fruit. These seldom, and their way into the American markets on account of the high tariff rate, which is about prohibitive. The county fair is interesting, and while apples in this city are 35c and 40c a dozen, they are but 18c in a dozen, and the finest cuts of steaks from native killed steers retail at about a third. Mr. J. M. Foster made a day's trip while in Nova Scotia to the trout fishing brooks, and while the season is too far advanced for the best results, was successful.—Truro Herald News.

A Travelling Man's Opinion of Canadian Trade in the West Indies.

Among the passengers on the S. S. "Carnegie" when she arrived from the West Indies this week was a well known wholesale grocer of St. John, J. B. He had been away six weeks and visited Bermuda, the Windward Islands, Trinidad and Demerara. Asked what he had seen of the trade with the West Indies he said that he had seen more of it than he had seen in many times it was and in others it was not.

He said that at every place he visited he saw more or less Ogdive's Flour, which he recognized quickly because of the purple hoops. Ogdive's Flour is now one of the best known articles on the West Indies market and is making new friends every day. It is probably the best bread flour produced in the British Empire at the present time.

Prominent Citizen of Annapolis Dead.

The death of Mr. Milledge Buckler, one of the most prominent and highly respected citizens of the town of Annapolis, occurred at his residence on Oct. 15th, after a very brief illness.

The deceased was one of those kind and free hearted, but unostentatious men, helping, giving and saving for the poor, yet refusing to let his hand know what his right hand did.

Only the recipients of his bounty knew the largeness of his heart. The large number of poor colored folk that came to see the deceased when shrouded for his tomb said through their tears, "He was our best friend." A flower for several years as to a councillor. He owned a controlling interest in the Annapolis Brick Manufacturing Company's plant and works, of which he has sixty-three and one half acres and capable as a business man to succeed and in making the brick business a stirring industry, giving employment during the season to about fifty men.

The father of the deceased and former manager has been dead a number of years. A brother and sister have also gone, the latter not a year since. A heart-attack mother, sister and brother are the remaining members of the family. The brother is Mr. Thomas A. Beckler of His Majesty's Bechtel for the port of Annapolis. Besides these he leaves a widow, a step-daughter, the late Mr. Dimock Wiltman, of Round Hill, and three children, the youngest but a year old the day of his death, as well as a large circle of friends to mourn his early demise.

The funeral, which took place at his brick residence on St. George street, was very largely attended by sympathizing friends. The service was conducted by Rev. H.
