CONSERVATIVES RETAIN EAST MIDDLESEX

Ald. Glass Returned by Comfortable Majority Over R. G. Fisher, Who Contends That 'Thugs' Were Active Against Him—Bad Weather Kept Down Vote.

LONDON, Ont., Oct. 21.—(Canadian Press.)—Ald. S. Frank Glass of this city was elected to the house of commons from East Middlesex, in succession to the late Peter Elson, M.P.

Table with 4 columns: Name, Glass, Fisher, Maj. for Glass, Maj. for Fisher. Totals: 2063 1685 480 112

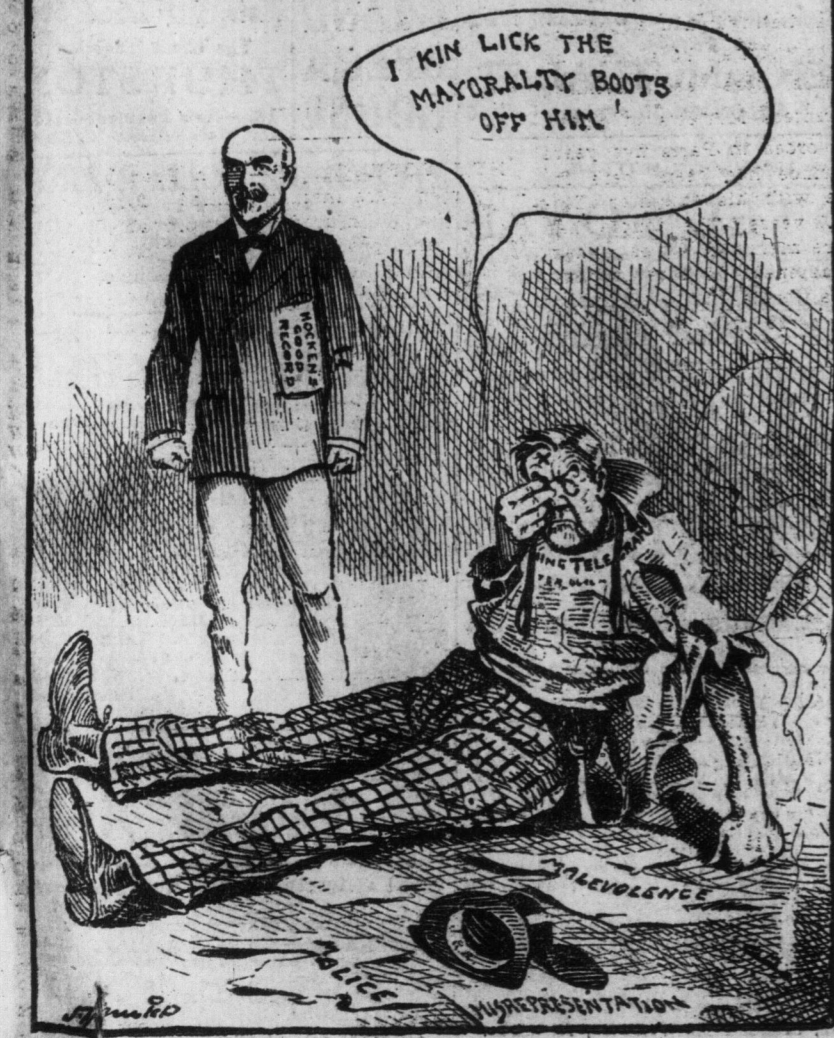

The vote was about 500 short of that needed in the riding in the general election of 1911, when Mr. Elson was given 661 majority.

MAJORITY DECREASED.

While the vote shows a decrease of 61 in the Conservative majority in comparison with that of 1911, the showing is considered quite satisfactory.

A Winning Combination. The combination of pretty girls, beautiful gowns, catchy music and pleasing comedy, is one that makes Klav and Bringer's production, "Oh! Oh! Delphine," now running at the Princess Theatre, a popular entertainment.

A CHEERFUL CONVERSATIONALIST

English Firm May Get Contract For Big Welland Canal Section

OTTAWA, Oct. 21.—(Special.)—The contract for Section 2 of the Welland Canal has not yet been awarded, but Hon. Frank Cochrane, the minister of railways and canals, who has been absent for weeks, is here today, and is considering the tenders.

GARDEN'S STAND ANTI-AMERICAN GENERAL DIAZ AT VERA CRUZ

Ambassador Page Protests Against Course of Britain's Minister in Mexico. Bloodshed Will Follow an Overly Exuberant Demonstration in Favor of Presidential Candidate.

(Special to The Toronto World.) WASHINGTON, D.C., Oct. 20.—The Mexican troubles assumed a sure enough international aspect today, the most important step being that the Mexican ambassador, Walter Hines Page, American ambassador to Great Britain, called at the British foreign office and made representations to Sir Edward Grey against the alleged anti-American attitude of Sir Lionel Carden, Britain's new minister to Mexico.

Ambassador Page informed the British foreign office the American government questioned not only the attitude of Sir Lionel Carden, but the apparently independent action taken by the British Government in extending recognition to Gen. Huerta as the provisional president of Mexico after Huerta virtually had declared himself dictator.

On the day Huerta caused the arrest of the 110 deputies, the United States, thru its officers here, admitted a serious situation was at hand and to Great Britain the United States looked for moral support.

According to reliable reports, the British foreign minister told Ambassador Page today that Britain's sympathy was with the United States, but her interests in Mexico were large financially and of wide ramifications, and because of this, Britain was forced to look to the controlling factor, and the only apparent government in Mexico for protection of Nationals and property.

LISBON UPRISING WAS NIPPED IN BUD

Ex-King Manuel's Adherents Had Prepared a Formidable Showing of Arms and Were Ready to March on Portuguese Towns, But Were Attacked and Dispersed.

(Special Cable to The World. Copyrighted by The Toronto World and N.Y. World.) LISBON, Portugal, Oct. 21.—A formidable uprising of former King Manuel's adherents was nipped in the bud this morning. Whether or not it was timed to occur at the hour the ex-king escorted his bride from the hospital in Munich to her father's home at Sigmaringen is not clear.

About 4 o'clock this morning various armed groups gathered in the neighborhood of the barracks and prisons. They were promptly attacked and dispersed, many being arrested.

Among the names given by El Mundo is that of the editor of "Dia," who is declared as one of the leaders. A large number of police were involved in the disturbances and one of the sinister incidents of the plot was the smashing of the telephone apparatus connected with the head of the police court.

A band of them then proceeded to the parliament house and ordered the republican guards to surrender, with their arms. Others proceeded to the arsenal in hope of securing arms.

Other Conspirators. El Mundo states that had the insurrection proved successful the more numerous conspirators on the Spanish frontiers led by Pizarro Conzales, were to advance northward Portugal and march upon Oporto and Lisbon.

The government, however, had full information of the entire plan and thus quelled it in its initial stages.

Telegraphic and railway communication with Oporto was interrupted today and the Oporto express was delayed five hours. Two bridges were found dynamited. Prompt steps were taken to restore both means of communication and order was restored in Lisbon tonight, but rigorous vigilance is being exercised in the suburbs. More than 100 arrests have already been made.

AUSTRIA SHOWS CLEAR HOSTILITY

Aim is to Check Emigration to Canada, But Not to the United States.

LONDON, Oct. 21.—(C. A. P.)—The Vienna correspondent of The Daily Mail says that the draft of a new emigration law was published yesterday. Its provisions are clearly aimed against Canada, for Austria objects less to emigration to the United States, experience showing that a large proportion of those who emigrate there never learn the language or acquire citizenship, but return after a few years with their savings.

The new law forbids emigration to countries where the emigrants' chances of earning a living are small. Newspapers have repeatedly pointed out that Canada is a "barren land," while are activity of the agencies to persuade persons to emigrate to lands from which past experience shows they do not return, is totally forbidden. A tax of about eight shillings is to be levied on emigrants to pay the expense of maintaining an emigration board to regulate the traffic.

Table titled 'In a Nutshell' showing financial figures for the Railway: What we give for the Railway \$22,000,000; Equipment worth \$18,532,995; Discounted to \$9,894,485; Cash in profits for 8 years of \$19,575,000, less allowance for extensions, improvements, etc. \$1,769,073; Total \$21,685,558.

MRS. PANKHURST'S MEETING WAS NOT GLITTERING SUCCESS

Madison Square Garden Barely Quarter Filled, Audience Being Largely Composed of Women—Leader Defends Militancy as Necessary to Wake Up Tradition-Bound Government.

(NEW YORK, Oct. 21.—(Can. Press.)—Mrs. Emmeline Pankhurst, addressing tonight in Madison Square Garden her first American mass meeting on her present eventful trip, explained why militant methods for the cause of woman suffrage are carried on in England but not in America, and defended the employment of such methods.

Preparations had been made for an overflow meeting at Madison Square Garden, but the big hall, with a seating capacity of some 12,000 persons, was scarcely one-quarter filled.

Some leading suffragettes of this country and a few "hunger strikers" from England sat with Mrs. Pankhurst on a stage draped with a tricolor flag bearing the inscription, "Resistance to Tyranny is Obedience to God." Wearing small steel-ribbed bangles signifying that their militancy had resulted in jail terms, were Miss Elsie McKenzie and Miss Mary Keegan, English girls come here to accept business opportunities and Miss Lucy Burns and Miss Elizabeth Freeman, American girls who went to England to fight for "the cause."

The government, however, had full information of the entire plan and thus quelled it in its initial stages. Telegraphic and railway communication with Oporto was interrupted today and the Oporto express was delayed five hours.

Why don't they go to the seat of the evil, she said. "Why don't they punish the customers? With no demand there will be no traffic. Give the women the opportunity to frame the legislation and there will be no white slavery. The government of the country is the biggest white slave firm we have got."

FLEETS TO JOIN IN CELEBRATION WEDS HIS WIFE A SECOND TIME

Ambassador Page Makes Announcement at Banquet in Commemoration of Trafalgar. Russian Prince and Spanish Countess, After Five Years' Divorce, Re-married in Pittsburgh.

LONDON, Oct. 21.—(Can. Press.)—The American ambassador, Walter H. Page, and the Japanese ambassador, were the guests of honor at the Navy League banquet tonight. The company included the Earl of Selborne, Earl Brassey, Baron Amptfill and several foreign and naval attaches.

The Earl of Selborne, in toasting the glorious and immortal memory of Nelson, whose victory in the battle of Trafalgar the banquet celebrated, urged the necessity of Great Britain maintaining the "two keels to one" standard, and expressed his disbelief in the possibility of any naval holiday.

Ambassador Page, after expressing his gratitude at the privilege of being a guest of honor at the anniversary of the greatest battle of England's great naval hero, quoted Nelson's message after the battle of the Nile, to the effect that he had the pleasure of commanding a band of brothers.

"In this spirit," said the ambassador, "the United States decided the fleets would gather at Hampton Roads for the most mighty and impressive naval demonstration in the history of the world. Thence it will proceed thru the canal to San Francisco."

The ambassador said he had permission to announce tonight that his majesty's government had accepted the invitation of "England's participation," he added, "will be a happy feature of the celebration of the centenary of peace, and the American admiral leading this fleet can say with Nelson, that he had the happiness to command a band of brothers."

ANOTHER SCHEME OF BLACKMAIL IS FOUND

Letters Filled With Deadly Germs Sent to Wealthy Families, Who Must Pay Highly for Serum to Prevent Disease or Become Infected With Mysterious Fever.

(Special to The Toronto World.) CHICAGO, Oct. 21.—A blackmailing with a new terror is giving the post-office secret service men a field in which to exercise their talent. He sends to wealthy families a letter filled with a million or so of deadly germs, which he alleges will infect the person opening the letter at once.

By opening this letter you have liberated 2,000,000 of healthy bacilli, propagated by myself, and without a doubt you are infected by this time, but do not become excited—my prophylactic will destroy any number of germs of this zymotic disease in the body if used by the ninth day.

"Take germ-proof envelope and leave the room, which it should be advisable to keep locked for six days." These followed a description of the disease and its symptoms: "Up to the present only about one person in a thousand recuperated after going thru all stages of this disease," he concluded.

The writer gave minute details for the transfer of the \$2500 he demands. He declares that Mrs. Steele's name was chosen from a list of 500 known to be subscribers to charity. The money he directs is to be left at the Grant monument in Lincoln Park.

The letter contained a pasty substance between the pages. It was turned over to the laboratory. The chemists found germs but cannot classify them.

SIX MEN KILLED AND MANY HURT

Double Boiler Explosion Causes Death and Injury and Tied Up Staten Island.

(NEW YORK, Oct. 21.—(Can. Press.)—Six men were instantly killed, four others badly injured, one probably fatally, and practically all of Staten Island was left in darkness and without trolley service tonight as the result of a double boiler explosion at the plant of the Richmond Light and Power Company at Livingston, N.Y.

The first explosion occurred in a small boiler and was immediately followed by the bursting of the main boiler, which wrecked the interior of the building. The cause is unknown. Until the list of employees is checked up it will not be known whether more men are missing.

SUES SIR THOMAS FOR SMASHED TRUNK

C. P. R. President Falls Foul of New Law While in Minneapolis.

(MINNEAPOLIS, Minn., Oct. 21.—(Can. Press.)—Sir Thomas G. Shaughnessy, president of the C.P.R., was served with papers in a damage suit when he arrived here today. The railroad president was just entering the office of the president of another railroad when a deputy sheriff, informed displaying a bright badge, informed Sir Thomas that a man in Chicago was bringing action against the railroad because a trunk had been smashed.

The action was unique as it was brought under a new law against the head of a foreign corporation temporarily within the state.

The Chinchilla Vogue

You have undoubtedly noticed the great popularity this season of chinchilla overcoats among classy dressers.

The chinchilla styles we are showing make their wearers distinctively classy from the refined character in modelling, textures, and rich coloring. We are showing all the popular lengths, styles, models, and shades in chinchillas, Shetlands and other rich and shaggy textures that are emphasized this season as particularly modish.

We call your attention to the splendid fitting shawl collars on our coats this season.

Before our coats were cut we went into the matter of the collars very carefully with our chief designer, and the result is one of the best-fitting shawl-collared coats ever put on the market. They have the long, soft roll, which can be moderated in length to suit the wearer, or used as a storm collar in very cold weather. Very handsome as well as serviceable. The most popular and best-selling shades are browns, grays and blues, in the various shades of each color, with an addition of other patterns so varied as to be almost beyond the writer's powers of description, but the word handsome applies to them all.

Comparison is "Justice without mercy." If you will just compare our lines with others of equal price, that's all we ask. "Oh," by the way, our price range is from \$10.00 to \$45.00, by easy stages.

CLUB TO DISCUSS FUTILITY OF WAR

Varsity Men Unite in Association Based on Norman Angell's Book.

PAPERS WILL BE READ

At Monthly Meetings and Prominent Men Will Be Billed to Speak.

International polity is the subject to be studied by a club of that name which is being organized at Varsity. The study of the subject will be carried along the lines laid down by Norman Angell in his book, "The Great Illusion." At the first meeting of this club on Thursday evening of this week at Kardova, Mr. John Lewis, an editorial writer of The Toronto Star, will deliver an address.

Mr. Lewis is a man thoroughly qualified to speak on this subject, as he was a delegate at the St. Louis International Peace Congress, and he is due to take a prominent part at the Lake Mohawk conference, which will be held shortly.

The stated objects of the club are to encourage the study of international relations, to study problems relating to the futility of means of settling international disputes without war. Subjects have been proposed which will be followed during the first year of the club's organization. The first subject is European relations and Canadian-European relations. The economic cause for war and the economic cause against war will also form a basis for the club's study during the next few months.

The Varsity men most closely identified with the organization are Arthur Duncan, Main Johnston, Paul G. Smith and Prof. C. B. Young of the science faculty.

FRESHMEN PREPARE

Victoria College freshmen are holding practice sessions daily for the annual "bob," which is due to come off at Vio on Friday night of this week. The mystery is that they have not yet been surprised by their enemies of the second year. They are planning that not all the sarcasm will be coming in their direction, and they claim that they have a program which will put the efforts of the soph and other years to shame.

MEXICO HAS BIG MINERAL OUTPUT

First Country in World for Silver and Second for Copper.

It is a fact, tho not so widely known, that Mexico is the world's greatest producer of silver. The output in 1912 was 73,022,440 fine ounces, and in 1913, 75,500,000 fine ounces, the decrease indicating the state of political unrest and the native preference for fighting rather than working.

In copper production Mexico ranks second, and is preceded only by the United States according to The Engineering Magazine. In 1911 the copper output was 136,430,331 pounds, and in 1912, 153,493,505 pounds. The output takes fifth place in output of gold and is preceded by the Transvaal, United States, Australasia, and Russia, in the order named.

SCOTLAND'S GREAT HERRING HARVEST

Year's Catch Shows a Decrease, But Prices Ruled Higher.

The total catch of the Scottish herring fishery in 1913 is 1,084,000 crans, a cran equalling forty-five American gallons, compared with about 1,200,000 crans for the 1912 season. Spring fishing brought about 150,000 crans and the summer season 930,000 crans. At an average of 180 herrings to the cran, the total number landed reaches the enormous figure of 195,120,000.

Although the year's catch shows a decrease, the average price has maintained an exceptionally high level, resulting in more profitable returns to the fishermen than the harvest of a year ago.

Taking the year's landings at the estimated average price for the year of \$3.76 per cran, the total value of the herrings landed at Scottish ports reached \$2,500,000. This substantial sum, however, does not represent the aggregate value of the "green fish," salesmen's commissions and other charges, and the fishermen on shore dependent on the fishing industry.

Allowing \$4.87 to \$6.08 per cran for shore workers (the amount generally computed by curers) in addition to the price of the fish, the grand total of the Scottish herring harvest exceeds \$15,000,000.

NO RECORD KEPT OF DEFICIENCIES

William Ferguson, at Fire Probe, Alleges Need of Administrative Officer.

SUGGESTS AGE LIMIT FOR Fire Fighters, and Physical Examination Every Six Months.

In summing up the case for the city at the fire investigation before Judges Denton yesterday afternoon, William Ferguson, K.C., stated that he thought there should be an administrative head of the fire department other than the chief, other than by telephone as to what had caused the heavy loss.

Mr. Ferguson advised that an age limit be set for firemen, and that it be rigidly enforced. He was also in favor of supplying each fireman with a map of the city, showing the locations of fire mains, stations, boxes and places where explosives were stored. Every fireman should also be required to pass a physical examination at the end of every six months.

LONDON'S HACKMEN STRAPPED TO SEAT

Recent Council Bylaw Compels Drivers to Take This Precaution.

It is announced from London that, according to new bylaws recently passed by the county council, the drivers of hansom cabs and four-wheelers in the English metropolis must be strapped to their seats.

It is explained that many hackmen have from time to time lost their lives through falling off their seats, but that such accidents have never taught wisdom to the drivers, who have always protested that they were not going to be tied like babies in perambulators. But now, writes a London correspondent to The Manchester Guardian, the county council insists, and if the men do not strap themselves to their seats they will have to pay anything up to 40 shillings. Forty shillings, by the way, always seem to be the financial limit for offences against bylaws.

SISTER OF NEWSBOY LOCATED BY MOVIES

Reporter Helps Little Merchant in Successful Search for Girl.

NORTH YAKIMA, Wash., Oct. 21.—After three years of search for his sister, Sigmund Klein, a Seattle newsboy, rang the door bell at the home of Dr. H. C. Pratt, No. 205 North Naches avenue, in this city, and it was opened by his sister, Marie, fourteen years old. Sigmund is fifteen years old.

Washington Children's Home Society, Sigmund was left to care for himself, which he did, on the streets of Seattle.

He was told by the home-finding institution that by its rules he might communicate with his sister thru the society, but that he could not learn where she was. For three years he has had letters from her, but was never able to find where she was.

His first move was to get work as an elevator boy in a hotel and to insert an advertisement in the morning paper. The advertisement attracted the attention of a reporter, who narrowed the search to the families of physicians of North Yakima, and located the girl in one of the best residential sections of the city. She had attended school last year, but had used the name of the people with whom she was living.

Reporter Helps Him. The advertisement attracted the attention of a reporter, who narrowed the search to the families of physicians of North Yakima, and located the girl in one of the best residential sections of the city. She had attended school last year, but had used the name of the people with whom she was living.

Now Sigmund has steady employment and is looking for a place where he will get his room in return for caring for the lawn, and he and his sister will both attend school in North Yakima.

U.S. GOVERNMENT'S ZEAL IN EDUCATION

School Children Will Be Provided With Most Modern Buildings.

The next generation of American public school children will carry on their studies in the most modern buildings used for educational purposes to be found anywhere in the world, according to a bulletin from the United States Bureau of Education.

The federal educational bureau is just having printed the fourth edition of the popular publication which was first issued less than three years ago on school houses in large American cities, and at the present time plans have been begun for a large new series of books.

The federal government is doing everything possible to encourage the construction of better school buildings throughout the whole nation.

Authorities are making use of the government's service in furnishing information on standard schoolhouses, both for the city and country, and if the children of the future generation do not study in the most modern and efficient buildings which can be designed, it will not be Uncle Sam's fault.

There was a surprising increase of Russian exports to the United States in 1912. The growth of this trade during the past two years has mainly resulted from a demand in America for Russian raw hides and for the cheaper grades of wool for the manufacture of carpets.

The greatest increase last year took place in the shipments of hides and skins, which showed a gain over 1911 of more than \$3,250,000.

According to the Russian customs authorities, the exports from the United States to Russia for the first three months of 1913 amounted to \$38,126,730, and the exports from Russia to the United States for the same period totaled \$1,225,225.

This Leaves the Skin Smooth and Hairless

The electric needle for removing hair or fuzzy growth is fast falling into disfavor among beauty specialists, because quicker and better results are obtained with the aid of a paste made by stirring together a little powder of salicylic acid and water.

The greatest increase last year took place in the shipments of hides and skins, which showed a gain over 1911 of more than \$3,250,000.

According to the Russian customs authorities, the exports from the United States to Russia for the first three months of 1913 amounted to \$38,126,730, and the exports from Russia to the United States for the same period totaled \$1,225,225.

When bearing the whites of eggs, be careful that there is no grease on the beater, as it will prevent the eggs from frothing.

The simplest way to clean jewelry is to dip it in a soda of castile soap. It should then be rinsed in diluted alcohol with a few drops of ammonia added. It will look bright as new.

THE WEATHER

OBSERVATORY, TORONTO, Oct. 21.—(8 p.m.)—The disturbance which passed across the great lakes yesterday is now centered near the Gulf of St. Lawrence with diminishing intensity. It has caused strong winds and gales with rain today over the greater portion of the maritime provinces. Local snow has occurred in Ontario and Quebec, and farther west it has been fair and mild.

Minimum and maximum temperatures: Victoria, 48-54; Vancouver, 48-54; Kamloops, 38-54; Calgary, 28-52; Edmonton, 28-48; Battleford, 28-50; Moose Jaw, 28-48; Qu'Appelle, 14-40; Winnipeg, 14-28; Fanny Bay, 28-34; London, 34-40; Toronto, 34-40; Montreal, 38-44; St. John, 52-56; Halifax, 30-38.

Probabilities: Great Lakes and Georgian Bay—Moderate winds; fair and cool, followed at night by increasing easterly winds, and rain.

Ottawa and Upper St. Lawrence—Fair and cool. Lower St. Lawrence and Gulf—Westerly winds; mostly fair and cool.

Maritime—Westerly winds; fair and cooler.

SOCIETY

CONDUCTED BY MRS. EDMUND PHILLIPS

The Canadian Auxiliary of the Zenana Bible and Medical Mission has issued invitations to a drawing room meeting at the Government House, on Tuesday, the 28th of October, at 8:30 o'clock.

The Imperial Order Daughters of the Empire will manage the tea room at the Canadian Fashion and Home Exhibition in the Arena this afternoon and evening, the proceeds to go towards the prevention.

Mrs. Charles O'Reilly gave the first of her two teas yesterday in her pretty new house, which she has furnished in a style which is a credit to her taste.

Mrs. R. S. Casella is giving the first of her two teas this afternoon to introduce Miss Esther Casella.

Mrs. Crozier, Spadina road, is giving a tea this afternoon to introduce her daughter.

Mrs. Wallace Nesbitt and Mrs. W. H. Beatty are in Atlantic City.

Mrs. Sam Hughes and Miss Hughes are in Paris, where they will spend the winter.

Major and Mrs. Laybourne and Mrs. Duncan, who have been spending a week at 74 St. George street, are returning to Kingston on Friday.

The opening meeting of the Women's Musical Club takes place on Thursday evening, Oct. 23, at the Toronto Conservatory of Music.

The bishop of Ontario and Mrs. Lennox Mills were in Winnipeg last week.

Sir L. Melvin Jones, who is making a tour of the west, is expected home by the first of November.

Mr. Stuart Strathy and Miss Mary Strathy have issued invitations to a regular monthly meeting in the new Central Y. M. C. A. building, College street, at 3 o'clock this afternoon.

The Toronto Alma Daughters will meet at the house of Mrs. Henderson, 308 Crawford street this afternoon at three o'clock.

Dr. Van Hise Tells What Has Been Done in Wisconsin Toward Education of the People Along Practical Lines—Correspondence Courses and Traveling Exhibits Help.

Dr. Charles Van Hise, president of the State University of Wisconsin, addressed the Canadian Club yesterday on university extension work.

In the last few years Toronto has had President Harpur, the lamented head of Chicago University; David Starr Jordan of Leland Stanford University, and President Eliot of Harvard as visitors.

Dr. Van Hise lacks the magnetism of Harpur, the impressiveness of Jordan, and the smoothness of Eliot, but he has earnestness and directness which give his words a forceful lodgment in the minds of his hearers.

Dr. Van Hise said he was familiar with Ontario, and had been thrilled with the expansion of Toronto. He was amazed and pleased with the extent of the growth of the residential suburbs.

Should Reflect Times. He found no fundamental differences between English and American universities which had been constituted on English models, but developed in different directions.

While there was absolute freedom in American universities to hold heterodox views on higher mathematics or even philosophy, it was more sensitive about what they taught on sociology or political economy.

It had gradually dawned upon Oxford that the university must not only teach, but convey knowledge to the people. The result was university extension and a greater advance in the last 40 years than in 2000 before.

On a broader basis a correspondence school was started and they had as many correspondents as residence students, or between 5000 and 6000.

A Person for Toronto. If you do for the people what the people want done, they will have confidence that you have some reason for asking other money.

The university furnished expert advice to municipalities debating Wisconsin State. Formerly debating societies were found at every corner.

That Sale of Office FURNITURE

Following up our announcement in last night's papers, we are here bright and early this morning to remind you that

The Very Best Snaps in DESKS AND CHAIRS

are to be had today before eager buyers make too many inroads into the stock. Those who come early will find

\$22.50 Flat Top Desks for \$17.90

\$30.00 Roll Top Desks for \$24.50

\$29.00 Typewriter Desks for \$23.50

\$9.00 Office Tilters for \$7.50

And a host of other equally good values for the business man. Come in this morning and see them.

The Adams Furniture Co. Limited CITY HALL SQUARE

Slit Skirts Have Virtues

WASHINGTON, Oct. 21.—(Can. Press.)—Without attempting to pass upon questions of taste or modesty, the United States Public Health Service has put its stamp of approval upon slit skirts and diaphanous gowns.

Dr. Van Hise described how the state had advanced by sums of \$25,000 the grants to their winning extension education.

Every year, he said, he had been voted \$175,000 for the last year, while in no way was any other part of the university crippled.

He had been asked by Lord Morley when in England, why Great Britain was losing ground to Germany, and he had answered that they had not recognized higher technical and university education as a public function.

The Vice-Captain Wins Match at Mississauga

Forty-two players drawn by lot, played under match handicap rules, twenty-five a side, and captained by Captain Water and Vice-Captain Balfour, but the supremacy Thanksgiving afternoon. When the twentieth pair finished the result was all square. The arrival of the twenty-first pair, Messrs. Parsons and Bowell, gave the match to Mr. Balfour. The losing side entertained their opponents to a club dinner in the new clubhouse, presided over by Mr. Lorman in his happiest manner. Speeches were made by the captains, Vice-President Captive and the chairman, and it was suggested that this match be made a regular fixture for future Thanksgiving Days. The vice-captain's side was greatly

strengthened by having Miss Ada Mackenzie thereon, she "beating her man" in record style. Miss Mackenzie was given an ovation at the dinner.

There being a great number of left-handed players in the club, a match has been arranged for next Saturday, left v. right, for the dinner. The boxer contest in the morning was won by Mr. Brock Allen.

STREET RAILWAY SOCCER

The following is the standing of the Toronto Street Railway Soccer League:

Team	Play	Won	Lost
Yorkville	1	3	1
Kensington	2	2	2
King	3	1	3

Dundas	5	1	3
Yorkville play King at Jesse Ketchum Park on Thursday.			

SOCCER FATALITIES

C. O. Molyor, Irish international footballer, was fatally injured in a practice game. Allick Brady, famous forward, also died.

WOULD ROW IN THE HENLEY REGATTA

Washington College Crew Aspires to Compete in Rowing Classic.

M'GRAW IS AFTER SOME NEW BLOOD

May Get Konetchy From St. Louis and Whispered He is Seeking Joe Tinker.

SEATTLE, Oct. 21.—Taking time by the forelock, Granddaddy Manager Ralph Horst has started a movement towards the placing of the University of Washington crew even more centrally in the spotlight next year than the position they occupied this year, after their magnificent showing at the intercollegiate regatta at Poughkeepsie. There they finished close up to the winner, in third place to be sure, but after a finish that attracted the attention of every lover of rowing in the world.

Manager Horst has written to the management of the Henley regatta, England, asking what Washington should do to place it in-line for competition in the great rowing classic on the Thames next year. The Henley race is over a one and one-half miles course only, but against the stream. Hayward, Yale and Pennsylvania have had crews in the Henley, but the latter is an obstacle race. The English classic takes place shortly after the Poughkeepsie races, and Manager Horst is basing his plans on the assumption that Washington may be in the races on the Hudson next year. The continuation of the trip to England from New York would greatly limit the expense of the Washington crew. Furthermore, if the crew did not make a proper showing in the Henley participation would not be considered.

COURT UPHOLDS COMMISSIONERS

Were Entitled to Grant License Without Hon. W. J. Hanna's Consent.

AURORA LICENSE VALID

Case Put Was Not Within Meaning or Intention of Statute.

The Ontario Court of Appeal yesterday gave judgment on a test case closely affecting hard-fought local option contests in all parts of the province. Incidentally the action is settled and the judgment would show that the procedure of the local commissioners was justifiable.

As a result of the last local option struggle the bylaw was announced defeated following a recount and scrutiny of ballots. Immediately the commissioners issued licenses for the year, and the questioning of this action gave rise to an examination in the courts. It was argued that sec. 43 of the Ontario License Act required the signature of the minister on such occasions. The test question asked if this signature was required. The court of appeal decided that it was not.

CHARLIE BLOXON DIED LAST NIGHT

Burns Received Thru Gasoline Fatal.

Charles Bloxon, the six-year-old boy who was burned by a gasoline explosion at his home, 242 Earls Court, died at the hospital for Sick Children at 9:30 last night. The boy was standing watching some gasoline being poured into the stove when an explosion occurred and he was enveloped in flame. He was instantly killed in a floor rug, but although the flames were quickly extinguished he had been fatally injured.

EGLINTON

There will be a service of praise in the Eglington Methodist Church tonight and a number of well-known anthems will be rendered, including "Come Ye Thankful People to the Feast," "Ye Shall Dwell in the Land," by Stainer, and "Lovely Appearance" from Gounod's Redemption.

It would be hard to fool you on the movement because you buy by the name. Insist on the "Winged Wheel" mark on the wheels you select and you can be sure of getting the best standard of value.

"Winged Wheel" Tires have been standard since 1905. The Canadian Automobile Association has awarded them for 25 years.

THE AMERICAN RUBBER CO. OF TORONTO, LIMITED

YORK TOWNSHIP COUNCIL WON'T SUBMIT LOCAL OPTION BYLAW

Petition Properly Signed Must Be Presented Before Any Action Will Be Taken—Municipal Statutes Insufficient for Townships Adjoining Large Cities.

Rev. Thos. Pickett of Lansing addressed the York Township Council yesterday afternoon in the interests of the local option movement in the township. It had been the intention, he said, of those in favor of the proposition to bring in a petition as required by statute, but they found it impossible to get the signatures of twenty-five per cent. of the electors, as there were so many non-resident voters. They, therefore, decided to ask the council to submit a local option bylaw in the initiative according to the powers given them by the statute. At present, he said, even although there was a majority of a hundred for local option in the township if they put in a petition which was rejected as insufficiently signed, all their work would be lost. He, therefore, urged the council to set in the matter at once by submitting a bylaw.

Would Remain Neutral. Reeve Syms said that the council wished to remain neutral in the matter as any action along the lines suggested by Mr. Pickett would at once compel them to favor one side of the question. They did not want to assume responsibility in the matter, but if a petition was presented properly signed they had no other cause open but to comply with it.

It is not a question of our individual opinions, he said. "The government is responsible for the condition you complain of, and if we did as you desire those who may have invested money in business on the strength of the security accorded by the act would have just ground for complaint."

Councillor Buchanan made a strong plea for the submission of the bylaw, claiming that it would have to be dealt with next year if not now, and that the present council might as well get the matter settled.

Take no Action. A resolution that the council take no action was carried, however, Mr. Buchanan being the only member who voted against it.

Sanitary Inspector R. Barker of East York tendered his resignation, which was accepted.

A letter was received from the Toronto Hydro-Electric Commission to the effect that the work of installing lights in Swansea and Runnymede could not be carried out at present.

To See Beck. After some discussion as to what should be done, Township Solicitor J. R. L. Starras instructed to confer with Hon. Adam Beck, so that the council might be free to make new plans and a contract with a private company if necessary.

Legislation Needed. E. Green of Westwood avenue, Todmorden, complained of insanitary drainage on his street, and also wanted to know if the council had power to prevent the creation of slum conditions by owners building dwellings at the back of their lots, already built on.

We have not that power, said Reeve Syms, "but we will apply for a deputation from that section."

President Jennings of the Cedarvale Ratepayers' Association headed a larger deputation from that section. They wanted certain streets in the district graded and the hydro-electric lighting completed. Another grievance was the existence of a powder magazine in the district. It was built by the Canadian Explosives Co. in 1888, but there was a house within a mile of it, but there are now 40 or more houses in the immediate neighborhood. Children have gained access to the magazine once or twice, and those in the neighborhood are in daily terror of an explosion.

Reeve Syms said that the company had already received instructions to remove the magazine, and had agreed to do so, but the clerk would write to them again.

With regard to the other complaints, he said the council were doing all they could, but were hampered by lack of proper legislation, as existing statutes referring to township councils did not provide for the problems which cropped up in a township adjoining a big city.

"Well, we don't want to be annexed, although we may be forced into the city by sheer necessity," said Mr. Jennings.

"Whether the city takes you in or not," said the reeve, "we intend to get legislation to force the city to supply suburban districts in the township with water, and we will be in a posi-

STREET ACCIDENT IN WARD SEVEN

Boy Injured While Cycling—St. John's Church Plans Big Harvest Social.

Shortly after 12 o'clock yesterday as John Barker, a 16-year-old boy, living at 101 Cooper avenue, was riding his bicycle along Dundas street, opposite Heintzman avenue, the wheel skidded on the slippery pavement and the lad was thrown towards the sidewalk, narrowly escaping being run over by a passing motor car and striking his head against the curb. He was picked up in an unconscious condition by Constable Parke (225), and carried into the Owl drug store nearby. Here his injuries, fortunately not serious, and consisting chiefly of a gash on the left temple, were dressed, and Barker was able to walk home.

The heads of the various organizations in connection with St. John's Church are preparing for their annual harvest social in the parish house on Thursday evening. The social will be a congregational affair and is intended to enable the newcomers to the parish—to meet the members of the congregation and learn about the several working church societies.

While crossing the street in front of west bound Dundas street car No. 1184, about 4:10 yesterday afternoon, an Italian laborer, Antonio Vittozzi of Clarendon street, was struck by the fender and knocked down. A large crowd quickly gathered, and for a moment it was feared that the man was seriously hurt, but his injuries amounted to only a few severe bruises, and the man limped away.

The postponed athletic sports of the Inter-Church Association are to be held on Saturday afternoon at Lambton Park. Thirteen events are to be contested, including a five-mile Marathon.

Last night was gala night at Victoria Lodge, A. F. and A. M., when the members entertained their brethren of Mimico Lodge.

Great improvements are taking place at Baird Park at the corner of Humboldt avenue and Keele street, a large number of shade trees having been planted and tons of sod laid. This winter the place will be utilized as an open-air skating rink.

Terribly burned about the face, arms and body, Henry Seville, 50 years of age, of 22 Westmoreland avenue, and Robert J. Laidlaw, 25 years of age, of 254 Campbell avenue, were conveyed to the Western Hospital in a serious condition in Bates and Dodge's ambulance at 6 o'clock yesterday. The men are both Canada Foundry employees and received their injuries by the blowing out of the plugs in the oil tank, near which they were working. The discharged oil, which flew over the men, was ignited by the furnace nearby, enveloping the men in a sheet of flame. Fellow-employees extinguished the flames on the persons of the two men, while the fire brigade were called in to fight the flames in the workshop. About \$150 damage was done to the building.

Work was commenced yesterday on the improvement of the Weston Fair grounds. The race track will be altered from a third to a half mile distance. The council and fair board are spending \$800 and the Toronto Driving Club, who have the use of the grounds, have agreed to spend \$1000 on the grounds.

The annual Thanksgiving supper of Weston Methodist Church will be held on Thursday, Oct. 28, under the auspices of the Ladies Aid Society. A good supper and program will be provided.

The Earls Courts beat Wychwood on Saturday last 5 to 2. The game, which was keenly contested, was played on Dufferin street grounds.

The Earls Court play Waverley's next Saturday afternoon at Wellington Park, Spadina and Front street, and another good game of football can be seen on Saturday next on the grounds, Lappin avenue, near the Standard Sunlight Works. It will be played between Overseas and Parkdale.

The building activity, so noticeable on holidays in the North Earls Court district was almost absent on Thanksgiving Day, owing to weather conditions. The damp, drizzly atmosphere kept the people indoors. The great

question in the minds of the Earls Court people is, how soon will the city council begin to heat the cars? They cannot commence too soon to please the regular morning and evening travelers.

MIMICO. The condition of John Storz, who was injured at the roundhouse on Monday, is reported improved. The doctors attending the Italian Giovanni Golardo, who was stabbed a month ago, following a dispute about \$2, now hold out hope for his recovery.

OAKVILLE. An action has been entered against the town by Mrs. George Harwood, whose husband met his death by electrocution. Mrs. Harwood is suing for \$10,000 on behalf of herself and family.

Ball bearings have been used in a railroad car in real service in Sweden. London has a fireboat which throws ton and a half of water each minute. Very expensive theatres are being used in London and Berlin for moving pictures.

Earls Court.

Important—A missing friend and relative department will be added to the Earls Court budget three times weekly, viz., Monday, Wednesday and Friday.

MILNE—Wanted to know the whereabouts of George Thomas Newsome Milne, who left home, Wood Hey, Rock Ferry, Cheshire, over 50 years ago. He is supposed to have gone to Canada. Enquirer, his sister, Polly Scott (nee Milne), 212 Park road, Birkenhead, England.

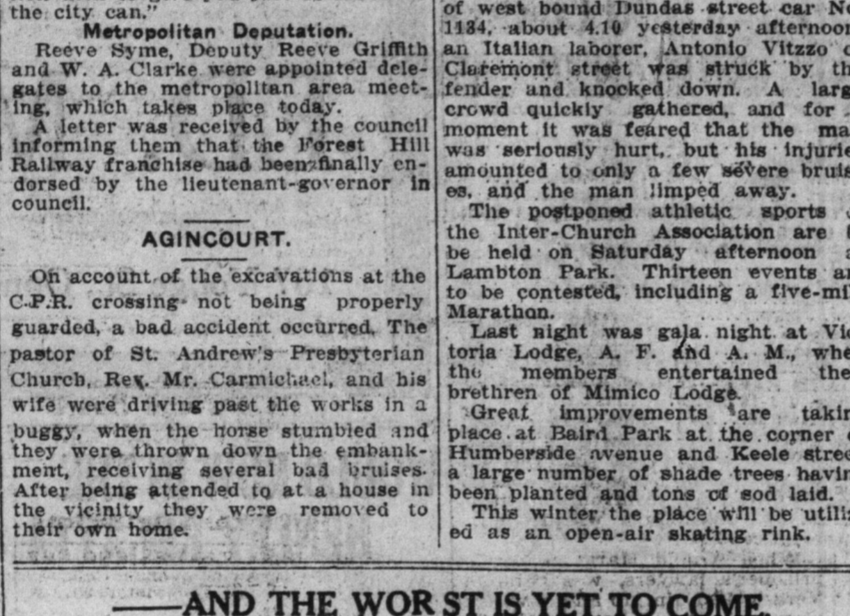

WILLIAMS—Wanted to know the whereabouts of William Martin Williams. Last heard of on board of the steamship Ambriz, sailing from the port of Liverpool, in the year 1874. Enquirer, his sister, Miss K. Williams, Letter call office, care Lloyds, 110 Waverley road, Liverpool.

Any further information will be supplied by The World.

Metropolitan Deputation. Reeve Syms, Deputy Reeve Griffith and W. A. Clarke were appointed delegates to the metropolitan area meeting, which takes place today. A letter was received by the council informing them that the Forest Hill Railway franchise had been finally endorsed by the lieutenant-governor in council.

AGINCOURT. On account of the excavations at the C.P.R. crossing not being properly guarded, a bad accident occurred. The pastor of St. Andrew's Presbyterian Church, Rev. Mr. Carmichael, and his wife were driving past the works in a buggy, when the horse stumbled and they were thrown down the embankment, receiving several bad bruises. After being attended to at a house in the vicinity they were removed to their own home.

AND THE WORST IS YET TO COME

BAPTIST RALLY AT BRAMPTON

Young People's Union of Guelph District at Annual Meeting.

The Baptist Young People's Union of Guelph District held their annual rally in Brampton Baptist Church yesterday. There was a large delegation present from Berlin, Stratford, Preston, New Hamburg, New Dundee, Galt, Guelph, Acton, Georgetown, Cheltenham and Snelgrove. Two sessions were held, afternoon and evening. The afternoon session was taken up with the general business of the district, a B.Y.P.U. workers' conference, led by Rev. A. Ward, B.A., of Brampton, and an address by Dr. W. J. McKay, editor of The Canadian Baptist, on "Personal Evangelism."

The evening session opened with a song service led by Mr. Albert Pequegnat of Stratford, after which the report of the nominating committee was read and the president-elect introduced.

Social Service. Rev. A. L. Brown, B.A., of Memorial Institute, Toronto, gave an excellent address on "Social Service," outlining the work being done in the slums of Toronto, and exhorting the church to rise to the opportunities that are theirs and follow out the injunction of the Master, "They will be done on earth as it is done in heaven." Owing to the inability of Prof. Farmer of McMaster University to make train connections, Rev. R. Burns of Belfast filled the gap and delivered an inspirational sermon on "Work."

Next year's rally will be held at Preston Springs and the following year at Guelph. The following officers were elected: Honorary president, Rev. W. Hudson, Guelph; president, B. C. Schutte, Berlin; treasurer, H. Watson, Georgetown.

OIL EXPLODED TWO MEN HURT

Oil Pipe Burst in Canada Foundry Bridge Shop Last Night.

Terribly burned about the face, arms and body, Henry Seville, 50 years of age, of 22 Westmoreland avenue, and Robert J. Laidlaw, 25 years of age, of 254 Campbell avenue, were conveyed to the Western Hospital in a serious condition in Bates and Dodge's ambulance at 6 o'clock yesterday. The men are both Canada Foundry employees and received their injuries by the blowing out of the plugs in the oil tank, near which they were working. The discharged oil, which flew over the men, was ignited by the furnace nearby, enveloping the men in a sheet of flame. Fellow-employees extinguished the flames on the persons of the two men, while the fire brigade were called in to fight the flames in the workshop. About \$150 damage was done to the building.

WESTON. An announcement has been made by the officials of the Young Men's Club to the effect that boxing will be prohibited in the club rooms. Although there was no disorderliness at a boxing exhibition held a few weeks ago the officials have decided never to lease the hall again for that purpose.

Work was commenced yesterday on the improvement of the Weston Fair grounds. The race track will be altered from a third to a half mile distance. The council and fair board are spending \$800 and the Toronto Driving Club, who have the use of the grounds, have agreed to spend \$1000 on the grounds.

The annual Thanksgiving supper of Weston Methodist Church will be held on Thursday, Oct. 28, under the auspices of the Ladies Aid Society. A good supper and program will be provided.

The Real Secret of Successful Brewing

Not one man in a hundred thousand can become a successful brewer.

The qualifications required to make a successful brewer are inherited, not acquired.

The brewer who supervises the brewing of *Hontigsbier* inherits his ability from generations of brewers—all men who have been leaders in their art.

Give a brewer, possessing these qualifications, the best equipped and most modern of brewing plants, and combine with it the finest materials, and there can be only one result—*Hontigsbier*—the finest lager that it is possible to produce.

If your dealer cannot supply *Hontigsbier* order direct from us.

Real Estate News
QUEEN AND VICTORIA
LANE LEASE BOUGHT

Peace Foundry Company
Sell to Furniture
Concern.

The Reliable Furniture Company, Limited, have taken up the lease of the Peace Foundry Company on the east corner of East Queen street and Victoria lane. These are three years for the lease for which \$2400 was paid, being the annual rental of \$800 a year. The lot is 28 feet on Queen street by 16 feet on Victoria lane. A substantial building is on the property.

FARNHAM AVENUE
RESIDENCE SOLD

No. 40 Farnham avenue has changed hands, Jennie B. Challenger selling the house to Ida Nudel. The lot has a frontage of 27 feet on Victoria lane, 135 feet 8 inches. Assessments amount to \$4850, of which \$2200 is placed on the house.

HIGH PRICED HOUSE
HAS CHANGED HANDS

The large residence at 30 Rowanwood avenue, on the northwest corner of Thornwood avenue, has been bought by J. G. Greay for \$19,750. The lot is a big one, having a frontage of 60 feet on Thornwood and 117 feet on Rowanwood. An assessment of \$10,000 is placed on the house, and the land is assessed at \$50 a foot on the Thornwood, and \$10 a foot on the Rowanwood. The house was owned by George S. Crawford.

VALUABLE ELM ST.
FRONTAGE BOUGHT

The property at 48 Elm street has been sold by Emma C. Warren, the purchaser being David Frushtman, at \$7000. The property is next door west of the Y.W.C.A. building and has a frontage of 19 feet 4 inches. The depth is 83 feet and the assessment of the land is at the rate of \$100 a foot, while the building is assessed at \$2700.

ELM AND CHESTNUT
SOLD, THEN RESOLD

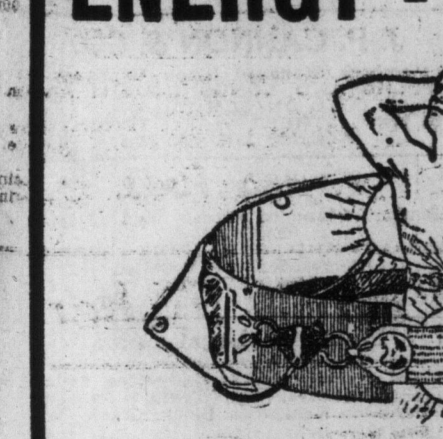

Two sales have recently been made of the northeast corner of Elm and Chestnut streets. The first deal was the purchase of the property by Graciano Maz from Max Ruhn for \$15,000, and second transaction from Maz to Domenico Izzo. On Elm street there is a frontage of 50 feet 9 inches and on Chestnut street 120 feet. The assessment, which is based on the Elm street frontage, is at the rate of \$75 a foot, or a total of \$3750. The stores on the property are assessed at \$5000.

MUST GIVE NOTICE
OF VISITS TO U. S.

Canadian Militia So Advised in Order Issued at Ottawa.

Ottawa, Oct. 22.—(Can. Press).—The current militia orders announce the following with regard to troops from this country visiting the United States: "All applications for permission for troops to visit the United States must be forwarded to the officer commanding the division or district concerned in sufficient time to admit of the application reaching his majesty's ambassador at Washington, not less than 30 days before the date of the visit. Officers commanding divisions and districts are to be kept advised of all such quarters any application which does not comply with the above instructions. Care must also be taken to ensure that the port at which entry to the United States will be made is stated in the application."

ENERGY - AMBITION

I can take one like you and pump new energy into your body while you sleep, and in a few weeks you will be transformed into a giant of strength and courage. Energy is but electricity, and if you lack energy, you need electricity. Wake up your drug fiend, and let your reason prevail. Your experience with drugs teaches you that you must cast them aside and look for a natural method. When your health failed it seemed inherent by nature for you to look for some magic cure—something that you could take into your stomach to do the work of your digestive organs, bowels, liver and kidneys. The first dose brought you relief, but with each succeeding dose you found the effect lessened, until you are now down and out, a perfect invalid, for you have allowed drugs to do the work of your vital organs, and without them you are even in a worse condition than when you began. If you feel tired and stupid, with no ambition to get out and hustle; if you have spent of despondency, and a desire to give up the fight, you need new energy. The race is to the strong, courage, strength and ambition, three elements in the make-up of a successful man. My Belt is an appliance for infusing a powerful, but soothing, current into the body without the least shock of unpleasant sensation. You can use it two to eight hours every day and waste no time—you need not be conscious that you are taking treatment. It is cheaper than a course of drugging.

BANKING MONOPOLY
HITS SMALL TOWNS

Detroit Banker Claims American System of Small Institutions is Best. Money More Plentiful And Interest Rates Lower South of the Border Line. Although money is none too plentiful in the United States it can be obtained more readily and at a lower rate than is the case in Canada. Such was the statement made by R. W. Smylie of the Peoples' State Bank of Detroit regarding the banking system in operation in the Dominion of the Queen's Hotel last night. The reason for this, he said, was to be found in the difference between the banking systems of the two countries. In the Dominion the banking business was in the hands of a few banks with the branch bank system in operation. The result was what might be described as a money monopoly. In the United States the banking law was such as to open the way for the establishment of the small bank, and competition instead of monopoly was the result. It meant that money could be obtained at a lower rate of interest than would be the case if the Canadian system were in operation there. He considered the branch bank system detrimental to the growth of the small towns, especially in times of money shortage. Under this system the banks took the money from the branch for the purpose of making large loans in the big centres, and the merchant or manufacturer wishing for capital in the small town had difficulty in obtaining it as a consequence. Under the United States system, which permitted independent banks throughout the country, the wants of the man wishing to make a moderate loan were well looked after and a greater business activity in rural districts and small towns was the result. In regard to the currency law, he considered that Canada had a far superior system to that of the United States, but that the new currency legislation being put thru by President Wilson was soon to equal matters in that respect.

OFFICER SCORED
BY JUDGE MORGAN

Riot Resulted in Jewish Colony When Constable Logie Acted Hastily. A VERY NOISY WITNESS Crown Attorney Greer and Jew Engaged in Shouting Contest. "I think that the policeman acted most improperly and extraordinarily. It was a hideous blunder on his part. There was no necessity for him to take the woman by the arm. She could not speak English, but he had a good interpreter there, and if he could not then get her address he could have gone to her home and got the name and address from friends who could speak English. I have no hesitation in saying that he discharged his duty in a very improper manner and showed surprising lack of judgment." Thus said Judge Morgan when Constable Logie, who was charged with the duty of arresting a woman named Vera Tchebernik, was called upon to give evidence in the criminal sessions late yesterday afternoon. The case was one in which four Jews from West Toronto were charged with assaulting and obstructing him in the performance of his duty. From the evidence it appeared that the half of the West Toronto Jewish colony had been mixed up in the case. Seldom does County Crown Attorney Greer raise his voice in anger when examining witnesses. But yesterday was an exception. One witness became excited in the box and jumped up and down, while he shouted at the top of his voice. Mr. Greer did not get him to agree with anything. He pointed the finger of accusation at Constable Logie, and after each question and answer, he would flash his eyes, fix a relentless gaze on the constable and shout, "And Mr. Logie's cannot deny it!" Finally the court attorney grew weary. He tried in vain to check the flow of words and at length started shouting, too. Judge Morgan was nearly deafened by the din. After numerous other witnesses had been heard, it developed that a Jewess had bought a meat on Sunday at a Jewish butcher shop on Sunday at 211.—(Can. Press).—Mrs. William Harwood, her two small sons, eight and three, and her mother, Mrs. Frank

UNABLE TO CORNER
"WOMAN IN CASE"

Vera Tchebernik Says She Assumed Burden of Guilt for Money Gain. KIEV, Oct. 21.—(Can. Press).—Vera Tchebernik continues to be the most prominent figure in the trial of Mendel Beilis for the murder of Yushinsky, the Christian boy who was found killed in a cave in March, 1910. The woman sits with a sphinx-like expression in front of the witness stand and is never at a loss for an answer when confronted with those giving testimony which implicate her. When Arnold Margolin, one of the prisoner's lawyers, was called today, Vera looked him up and down and declared she would not testify. Margolin testified that Vera, when she was asked how she explained the systematic statements of the numerous wounds on young Yushinsky, answered that Pridkho had studied medicine. The lawyer asserted that Brusakov, the journalist who investigated the murder, had told him he had discovered at the time when he interviewed Vera Tchebernik, that she was carrying a bottle of poison. The journalist asked her why she had it, she replied: "Got it not knowing whether you would torture me or not." Vera Tchebernik promptly denied this statement in court. Margolin discredited the story of the alleged offer of a reward, but Vera Tchebernik reasserted that she had been promised \$20,000, a foreign passport and other things if she would take the guilt of the murder on her shoulders. Margolin told the court he considered Brusakov's information useful, inasmuch as it was brought about the lifting of a corner of the veil and revealed something of Vera Tchebernik's criminal activities, which hitherto she had so well concealed.

WILL WATCH NEW
TERAULAY SERVICE

Transportation Experts Will Not Be Prematurely Appointed by Railway Board.

HALT WILL DO NO HARM

Winter Would Prevent Construction of New Lines, Even if Ordered.

The action of the Toronto Railway Co. towards the relief of downtown congestion is under the eye of the Ontario Railway Board. The appointment of an expert to grasp the possible remedies of bringing working Toronto traffic from business in the restricted hours mean while stands in abeyance. Any further action of the board will follow a careful survey of the working out of the new route on Teraulay street. "Before we make the appointment we desire to see how this new route will serve," said Chairman McIntyre last evening. He referred to the hope of Manager Fleming, voiced before the board, that considerable relief would follow the construction of this new artery to drain the downtown streets. The delay in gaining expert advice will not be material in view of the approaching winter. Any actual construction, even if ordered, could not be carried out. Moreover, the advice gained will not necessarily require months of study, because of limited areas under consideration, and the facilities of investigation that both city and company have volunteered.
