Ontario's Home With Will Go

Desiring to know the "ups and downs" of the egg trade, a World commissioner called upon a firm that for many years has been actively engaged in the gathering and shipping of eggs. Our informants stated: The gradual increase of population in our cities, and the demand from the northwest provinces, has enormously increased the home production and the home consumption.

At the time the McKinley bill came into force, Canada then shipped a surplus of seventeen million dozen good prime eggs. In 1901 the surplus came down to two and one-half million eggs. Last year some dealers imported and paid the duty of three cents a dozen to the tune of over two million dozens. Then the firm's books were opened out to note the prices paid by them to the farmers and storekeepers. The time taken for comparison includes the months of April and May each year. These months are termed in the egg trade the flood time.

Year.	Price.
1900	9 1/2 to 10
1901	9 1/2 to 10
1902	10 1/2 to 11
1903	10 to 10 1/2
1904	12 to 13
1905	12 to 13
1906	14 to 15
1907	15
1908	16 to 17
1909	18 to 18 1/2
1910	19 to 20
1911	16

The United States markets have for months past ruled lower than the Canadian market. A trade circular was produced, dated August 5th. One item quoted commercial eggs 15c downwards. They cannot ship to British markets under present prices, for their agent quotes in a letter dated July 28th, the price at Liverpool, which, brought down to Canadian currency, is 18c to 19c per dozen. This price calls for free cases, and all selected eggs.

The figures demonstrate that the market price in Canada for eggs slowly rose in the ten years. Directly reciprocity was seriously taken into consideration, down came the price of eggs to 16c per dozen against the 20c per dozen paid in the same months the previous year.

In other words, Mrs. Farmer, as soon as reciprocity passes, the three cents a dozen protection will disappear, and you will go up against the competition all the year round of the cheap and early eggs of the southern states, of Kansas, of the middle states, the Pacific states.

By climate, and in the matter of feed, they have the advantage. Reciprocity will let the American hens and American farmers into Ontario's market for eggs and poultry, but you will never sell a dollar's worth in there.

All the bakers in Canada, including Brer Paterson of Brant (who made this treaty), will buy egg yolks in cans from Chicago, not the fresh and perfect eggs to be had in Canada.

Yes, Mrs. Farmer, Brer Paterson is a sly old gentleman with a fondness for smoothing over a smart trade deal by groaning on the penitent bench.

Reviewing, then, our position up to date, The World claims that it has established by exact statement, by witnesses, and by the words of those who know the facts, that reciprocity means very little for the farmer of Ontario.

We have established in answer to Sir Wilfrid Laurier's claim, that reciprocity would give the Ontario farmer a wider market, and, therefore, a higher price for his products, that, on the contrary, it would give him the competition of the American farmer and lower prices.

And we claim that we have established this to be the fact in the case of sheep, cattle, poultry and eggs and horses as well. We believe that reciprocity means a loss of from \$25 to \$50 on every good farm horse that is in the Province of Ontario to-day, and that the splendid market we now have for horses in the west would disappear with reciprocity.

We claim further that it has been positively established that reciprocity means a damage to the market gardeners and the fruit raisers of this province, inasmuch as it destroys their home market.

The only thing we have not argued, and which we are prepared in a way to admit, is that with reciprocity there would be an entrance to the American market, and a better price for our barley. The Globe claimed this yesterday, and we are not going to deny what we believe may prove to be a fact, any more than we are going to assert a thing to be true if we think it not so. The advocates of a better price for barley may make good, and The World recognizes the force of the argument, but that is all. And if we were discussing the subject between farmer and farmer, we would say that if the farmer can get a better price for his barley it is worth more to him to keep and feed it at home if his farm lay-out permits of it.

But on the whole reciprocity means the absolute destruction of the home market to the farmer of Ontario, and the home market gives him a better price, a surer market, and helps to build up his country. Reciprocity, on the contrary, builds up the American farmer, depreciates our own country, and makes us dependent on the United States.

We therefore appeal to you, Mr. Farmer, and Mrs. Farmer, that Sir Wilfrid Laurier and his advocates have not made good. Their case has failed. They are using the question of reciprocity to cover up something else.

Registration to Open on Aug. 30

Fate of Would-be Voters in Newly Annexed Districts Will Be Decided To-day.

A meeting of the board of registrars for the city was held yesterday noon, Judge Denton being appointed permanent chairman, and Fred Irwin clerk. The dates of registration were fixed for Aug. 30, 31, September 1, 2. The dates for appeals were not definitely decided. In all probability these will be Sept. 7, 8 and 9.

At noon to-day the board will meet again to decide on the question of the plans of voters in the annexed districts of the city. Communications on this point will be opened with Ottawa.

The board seem to favor registration, but there is no well defined clause in the Manitoba Suffrage Act dealing with the point in question, and the Representative Act is likely clearer. If there is to be no registration in the newly-annexed districts of the city, as Sir Alan Aylesworth states, it will mean the disfranchisement of thousands of voters.

A. H. Birmingham, Conservative organizer, says that such an action would affect many classes of people, as there are many citizens living in shacks which are not assessed \$400, and therefore cannot get the franchise except by registration.

OTTAWA LIBERAL CONVENTION.

OTTAWA, Aug. 9.—The Liberal convention to-night selected H. B. McGivern, the old member, and Ald. J. A. Pinard as their standard-bearers at the general elections. Mr. McGivern was selected by acclamation and Ald. Pinard on the first vote. It is doubtful if the latter will ever reach the polls.

CAPT. WALLACE FOR CENTRE YORK

Choice Unanimously Made at Enthusiastic Conservative Convention—Stirring Anti-Reciprocity Speeches by Hon. Geo. E. Foster, Hon. A. B. Morine, W. F. Maclean and Others.

Captain Tom Wallace was unanimously renominated as candidate for Centre York by a crowded meeting of Conservatives of the riding, held in the Labor Temple yesterday afternoon. The greatest enthusiasm prevailed throughout, and there was a ring of confidence in the voices of all the speakers.

In returning thanks to the convention, Capt. Wallace, in a forceful speech, pointed out how absurd was the lure of the American markets, which is being held out to the farmers of Ontario. The United States, he said, was the greatest exporting country in the world; the Canadian farmer needed protection from them as well as the Canadian manufacturer. Their export trade had been built up behind heavy protection. He was convinced that free trade with the United States would be bad for the Ontario farmer, who would suffer from the competition of his more powerful neighbor, but he was also strongly convinced that, even if the Ontario farmer thought he might make some extra profit by reciprocity, he would vote against the pact if he believed it to be bad for Canada as a whole.

Not Playing Politics. Capt. Wallace did not oppose reciprocity because Borden and the Conservatives did, but because he believed it to be a bad thing. Under reciprocity the farmers here would not be getting a bigger market, but would be losing a good one. Prices were higher in Toronto than in any part of the States.

CAPTAIN TOM WALLACE.

There are 21,000,000 horses in the States, and 2,000,000 in Canada. The price there is lower than here. How then for example, would the live stock trade be helped by reciprocity? Capt. Wallace asked. He declared that the Conservatives were on the winning side this time, and he concluded with an appeal to those present to support him to the utmost, by constant work against reciprocity. There was a storm of applause at the conclusion of the captain's speech.

Hon. A. B. Morine warned his audience to beware of the gifts of the Greeks. The gifts in this case came in the form of an offer from President Taft. The reason Taft wanted reciprocity was to get the support of the Conservatives.

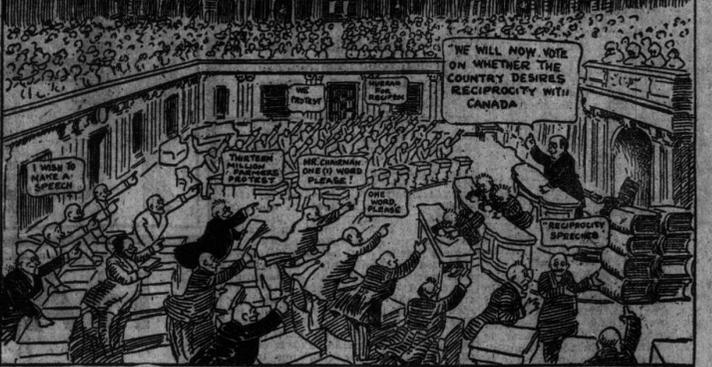

WILL OPPOSE R. L. BORDEN IN HALIFAX

Liberal Candidates Are A. K. McLean, Provincial Attorney-General, and Dr. A. Blackadder of The Canadian Recorder—Big Fight in Prospect.

HALIFAX, N. S., Aug. 9.—The Liberal convention for Halifax City and County to-night nominated Hon. A. K. McLean, attorney-general for Nova Scotia, and Dr. E. Blackadder, editorial writer of The Canadian Recorder, as candidates for the house of commons to oppose R. L. Borden and N. L. Crosby, who will be nominated by the Conservatives to-morrow.

Mr. McLean stated in accepting that he had contemplated retiring from politics some time in the future, but that this intention was now abandoned. He said the statement that he had been offered the solicitorship of the Canadian Northern Railway was erroneous, for no such offer had been made. Mr. McLean will in a few days resign the attorneyship and his position in the provincial government. The Conservatives of Pictou, in a convention held at Westville to-day, nominated A. C. Bell of New Glasgow, who will have as his opponent the present member for Pictou, E. M. Macdonald.

WHICH IS THE BETTER WAY?

The U. S. decides the reciprocity treaty by legislative debate.

Canada decides it by direct vote of the whole people. —From The Chicago Tribune.

Western Crops Are Delayed By Bad Weather

Lack of Warmth and Real Steady Sunshine Hinders Harvesting Operations and Favours Damage From Frost or Rust.

WINNIPEG, Aug. 9.—Lack of warmth and real steady sunshine is responsible for many late reports to the effect that it will be another two weeks before harvesting is general throughout the west. Cutting has commenced with a vengeance in many districts, but speculation still varies as to the probable average yield, even where cutting is under way.

In several districts, it is claimed by crop specialists, that cutting will not commence for three weeks or possibly a month, but the consensus of opinion is to the effect that the harvest will be in full swing within a fortnight. Rumors and denials of damage to crops continue to flood the city, but all are equally lacking in authenticity. Another big instalment of eastern harvesters is expected within the next two days.

WEATHER VERY UNFAVORABLE.

WINNIPEG, Aug. 8.—The weather map attracted a good deal of attention on the floor to-day. The general opinion was that it was about as bad as it could be. Rain has been general over the entire west and the temperatures were still low. About 66 was the average high point of the day, and the mean in several cases in Saskatchewan and Manitoba and on the Calgary-Edmonton line was no more than 38 or 37.

At these temperatures at attack of frost is imminent, and during the day, the weather favors the rust. To-day, however, the prophet says temperatures will be higher.

Honey is Seven Cents or Less in the States.

Reciprocity journals have been laying great stress on the claim that with the advent of reciprocity the bee keeper of Ontario will get better prices for free entrance into the American market. Here is a letter from a leading honey house of the Pacific States. It shows them ready to sell carload honey in any amount at 7 1/2 cents and lower prices for inferior qualities. If you have been read it over, and see what you will get for your honey against the competition of the Pacific and other states of the union:

OGDEN, Utah, July 14, 1911.—Another honey season is upon us. While it will be some weeks yet before we will have any to offer from Ogden, we have connections in California, which enable us to quote white extracted at 7 1/2 cents per pound, and light amber at considerably less. We can give you either straight or mixed cars. Should you be interested at these prices, we will send samples. All our honey is in square five-gallon screw top cans, two to the case. We make a specialty of the carload honey business. Do not buy elsewhere until you get our further prices and samples. Blackman & Griffin Co.

More About Sheep and Cattle

The Globe of yesterday attempts to answer the signed statement of H. G. Whaley, the well-known commission dealer on the Toronto live stock market, published in The World the day preceding.

The Globe pretends that the sheep invasion is an invasion of inferior sheep, and that Mr. Whaley does not know what he is writing about. We will leave it to the farmers to judge, and we simply present to them this morning a further statement from Mr. Whaley, in answer to The Globe's contentions of yesterday.

Toronto, Aug. 9, 1911. For comparison on the price of sheep between Americans and Canadians, I give the following sales: On July 31 we sold American sheep as follows:

- Puddy Bros. 200 sheep, weighing 108 lbs., at 5c
- Park, Blackwell Co. ... 39 sheep, weighing 116 lbs., at 5 1/4c
- J. Anderson 100 sheep, weighing 109 lbs., at 5 1/4c
- Fowler Canadian Co. ... 100 sheep, weighing 106 lbs., at 5 1/2c

The same day we sold all our Canadian sheep at 3.80c to 4c. These are actual sales made on the same market the same day.

For the quotations on heavyweight lambs and handy weight lambs, I refer you to any Buffalo paper that has quoted the live stock market for the last year. You will find that they made a difference that would average \$1.00 per cwt.

We did not have enough Canadian lambs on the Buffalo market last season to give a fair comparison. The heavy Canadian lambs, however, would not bring any more than the heavy American lambs. This is not only true of the Buffalo market, but any other American market. It is a very rare occurrence to sell Canadian lambs to be killed in Buffalo. The bulk of the Canadian lambs that were sold in Buffalo were sent to the New York and eastern slaughterers, and Buffalo butchers handled very few Canadian lambs.

About all the Canadian sheep that went to Buffalo were always sold in bond for export. There is very little demand for Canadian sheep for slaughter, and at the present time if they could be sold at all they would not bring over 3c to 3 1/4c at the outside. The sheep and lamb trade is lower here this week, but we are still able to sell Canadian sheep at 3 3/4c to 4c.

The prices I gave you on stockers and feeders are correct, just as we sold them the last year we had any Canadian cattle on the market. Cannot give you any quotations for this year, as there has been no Canadian cattle shipped on the Buffalo market this year for sale.

Canadian sheep and lambs sold here all last year at higher prices than they would bring in Buffalo. The same is true so far this year, which should be truth enough that the home market is the best market, with the English market for any surplus they may have for extreme heavyweight sheep and lambs.

Yours truly,
H. G. WHALEY.

SAVES \$400 A YEAR. TO HONOR CLIFFORD.

On Yonge-street among the retailers there is joy over the public power policy. One prominent retailer told The World yesterday that public power would mean to him a saving of \$400 a year for lighting. The Governor General's Body Guard will assemble at North Toronto Station at 6:45 p.m. Saturday, to honor the home-coming of Private Clifford, the Bisley hero. Lt.-Col. Fleming hopes that there will be a full parade.

T. E. L. LINES UP FOR STRUGGLE WITH HYDRO

Sir Henry Pellatt is President and Canadian Northern Interests are Well Represented on New Directorate—R. F. Pack is Manager, Succeding H. H. Macrae.

Stiff competition with the hydro-electric commission is darkly hinted at by the officials of the Toronto Electric Light Company the first meeting of which reorganized enterprise was held yesterday, and a new board of directors elected.

No new policy has been outlined. We shall continue to do business as we have done in the past, said Sir Henry M. Pellatt, who was re-elected president of the board, to The World. "We merely intend to go ahead, as we have in the past, to get as much business as we can. We want to get along as well as possible with the public," said R. F. Pack, who was appointed general manager in the place of H. H. Macrae, who resigned from that position to assume the management of an insurance company.

The following shareholders were elected directors for the ensuing year: Sir Henry M. Pellatt, R. C. Brown, Hon. Geo. A. Cox, R. J. Fleming, D. B. Hanna, Z. A. Lash, K. C. Sir Wm. Mackenzie, H. H. McCree, G. A. Morrow, Frederick Nicholls, E. R. Wood. Mr. Pack, the new manager, has been in the employ of the company for the past twenty years. He was born in his life in Toronto. For some years he has been secretary of the company.

Eight new directors. Out of the eleven members of the board of directors, eight are new. Of last year's board the following are not

SIR HENRY M. PELLATT.

on this year: W. D. Matthews, H. P. Dwight, W. R. Brock, Thos. Wainwright, L. Goldman, Samuel Trees, Hugh Blain and the late S. F. McKinnon. Of last year's board Sir Henry Pellatt, Hon. Mr. Cox and Mr. Nicholls still hold their positions.

After the meeting of the shareholders, directors' meeting was held and the following were elected: President, Sir Henry M. Pellatt; first vice-president, D. B. Hanna; second vice-president, H. H. Macrae.

The resignation of Mr. Macrae, the late manager, was formally accepted at that meeting. It was rumored some time ago that Mr. Fleming would take over the management of the company, but that report was discredited. Instead, Mr. Fleming is now a director.

The franchise of the company has about eight more years to run. It expires in 1918. The street lighting contract expired in December last, but was renewed until September. When the franchise permitting them to do business in the city expires the city must either renew it for 20 years or buy them out at a figure fixed by arbitration.

The capital of the company is \$4,000,000, the par value of the shares being \$10. The new concern, which took over the company, purchased shares from the old shareholders for \$135 each, making the purchase price \$5,400,000.

The New Directors. Sir Henry Pellatt is senior member of the firm of Pellatt & Pellatt, stock brokers; Mr. Brown is an electrical engineer, who took a prominent part in the construction of the Electrical Development Company and other projects; Hon. Mr. Cox is president of the Central Canada Loan and Savings Co. and other corporations; R. J. Fleming is manager of the Toronto Railway Co.; Mr. Hanna is vice-president of the C. N. R.; Mr. Lash is a member of the firm of Blake, Lash, Angin & Cassis; Sir William Mackenzie is president of the C. N. R. and a host of other enterprises; Mr. Morrow is vice-president of the Dominion Securities Corporation; Mr. Nicholls is managing director of the Canadian General Electric Co.; Mr. Wood is managing director of the Central Canada Loan and Savings Co.

LOOK YOUR FURS OVER.

In another month you will likely look over your stock of furs for the winter. About that time you will find the furriers almost swamped with work. VERY CLOSE VOTE ON THE VETO BILL IN UPPER HOUSE

The Lords Spend an Uncomfortable Session Over Disputed Measure—Severe Criticism of Asquith—Vote Will Likely Be Taken To-day.

LONDON, Aug. 9.—A counting of heads of the different factions in the Lords, the "Die Hards," the "Surrenderers" and the "Ministerialists," has shown the possibility of a vote so surprisingly close that the prospect is to say the least, a very narrow one.

Should the bill be thrown out its next coming to the upper chamber will be in the company of a battalion of new barons strong enough to swamp any combination of Unionists.

Lord Salisbury asked Viscount Morley if the King gave assurances to the government that he would create as many peers as they desired, without reference to the number required to pass the veto bill.

JUST ASSESSMENTS.

Chairman Drayton and his colleagues on the court of revision have made a good point for the people and should be supported in their stand for fair play for the great assessed.

KING AND PREMIER.

Mr. Asquith had no difficulty in defeating the vote of censure introduced by Mr. Balfour, who was worsted in argument even more decisively than in the division lobby.

WHY THE ASSESSMENT DEPARTMENT.

The proposed procedure is radical and quite foreign to the usual rate methods. The assessment department does not agree with the view that everybody should be assessed the full value of his property.

THE PLAN OF EXEMPTING A PERCENTAGE.

The plan of exempting a percentage of the values and assessing at 75 to 80 per cent. instead of 100 per cent. beats hardest on the poor man.

MEANWHILE THE COURT OF REVISION.

The court of revision has made its stand for fair play. The taxpayers who want to pay their own taxes and no one else's and the taxpayers who want to pay their own taxes and not have other people paying a share of them.

NO U.S. HEGEMONY.

When the smaller of two contiguous nations is flouted by the larger to enter a trading pact on terms involving a mutual preference, in which they alone participate, the question of motive becomes of exceptional importance.

SAME OLD COMMERCIAL UNION.

Globe editorials have a familiar ring to those who read the paper during the commercial union campaign. There was little concealment then of the ultimate annexation design in view.

What any corn needs is the soothing influence of Putnam's Painless Corn and Wart Extractor, which in twenty-four hours lifts out every root, branch and stem of corns and warts, no matter how long standing.

changed its centre of gravity from the empire to the continent.

The United States claims the hegemony of the whole continent, but so long as Canada remains an integral part of the British Empire, that hegemony is incomplete. The republic cannot interfere with the Dominion, or include the Dominion within the scope of the Monroe doctrine while the empire is strong enough to protect its integrity.

THE WHITE PLUME WOBBLERS.

Sir Wilfrid Laurier in 1907: "Canada to-day is not in favor of reciprocity. There was a time when Canadians, beginning with myself, would have given many things to obtain the American market, but thank heaven, these days are past and over."

CANADIAN RECIPROCIITY IS A DOUBTFUL ISSUE

So Declares Sir Wm. Mackenzie—Issue Being Fought to a Finish Before Electors.

CHICAGO, Ill., Aug. 9.—Sir William Mackenzie, president of the Canadian Northern Railway, in an interview here to-day stated that he thought Canadian reciprocity was a doubtful issue.

Reciprocity is being fought to a finish in Canada, he said. "The outcome is problematical. The idea of annexation has become so strongly attached to the treaty proposal that its defeat is highly probable."

Sir William was in Chicago with a party which will tour the west. In the party were Sir Edward Ward, London; Baron Bryon von Pessant, Berlin; and Sir Donald Mann, vice-president of the Canadian Northern Railway.

Commercial Reports

Wheat Market Declines With Realizing, But Closes Strong

Prices Break Early on Profit-taking, But Regain Losses—Crop Damage Reports Still Coming In.

CHICAGO, Aug. 9.—While awaiting the government crop report, wheat prices took profits to-day, and fell in prices to more than when the Washington figures turned out to be better for the bulls than had been looked for, but came too late to have an influence before to-morrow's quotations were 1-1/8 to 1-3/8 down from last night. Corn would be unchanged to 1-8 higher; oats 1-8 to 1-4 down, and hog products ranging from 3c advance to 17 1-2 to 1-2 cent.

The surprise which the government report gave the wheat market was in the lowering of the spring crop condition from 73.8 last month to 58.9 on Aug. 1, suggesting a loss of 35,000,000 bushels. To many dealers this showed a recovery rather startling, although a private authority this morning predicted a condition percentage of 60.5. A source of additional information, however, was the knowledge that spring wheat had been damaged other since Aug. 1, when the official report was completed. During exchange prices were lifted by advice of a dealer and widening injury was feared. The market was steadied also by news of export business from New York. Unloading on the part of the shippers, the reached proportions great for the market to sustain.

Government Crop Report Renewing Selling on Wall Street

INVESTORS BY SPECULATORS' HOLDINGS.

World Office
Wednesday Evening, Aug. 9.

The Toronto market has not yet freed itself from nervousness. The unexplainable break in New York stocks last week, the Canadian election campaign, and want of assurance on the crops are matters which are making prospective buyers timorous, and until these are brushed aside as factors of little importance to real values, the market will remain dull, if not weak. To-day's business was significant of one thing, and that is that in some issues there is buying of a character that spells a certain advance when conditions are again propitious. The market has about reached the stage when investors begin to take up shares thrown over by speculators.

Market Nervous and Unsettled Further Liquidation Looked For

Government Report Causes Uneasiness on New York Exchange—Toronto Market Reaches Hopeful Stage

NEW YORK, Aug. 9.—In its salient features to-day's stock market was largely a repetition of the preceding days. Prices continued to fluctuate, with a tendency to further liquidation, after which they recovered only to again decline. The undertone was uncertain at best, and clearly reflected the various agencies, agricultural, commercial, industrial and political which are now such compelling factors. There seems to be increasing doubt in banking quarters regarding the revival of general trade in the fall, and the labor situation, particularly in its application to the transportation companies, is looked upon as a large on the financial situation. There were no definite developments in this latter connection during the day, but advances from various sections of the country pointed to the possibility of a further recovery. The market was held up by the news of the strike of the Pullman porters, and the fact that the railroad companies in this matter is quite clear, namely, to meet the issue without hesitation or equivocation, even to the extent of equipping new equipment.

Other noteworthy news of the day from the head of one of the largest railway systems in the country. The Canadian Pacific announced that it had decided to issue \$100,000,000 of common stock and some convertible bonds. The stock, it is assumed, was not intended for immediate use, but rather as an emergency measure. Should the company engage in any new financing this year it will be necessary to issue a large amount of which is available for this purpose.

The market fell into a state of apathy during the early afternoon when prices declined to yesterday's low level, and in some instances were further depressed. The publication of the government report to-day attacked the market, but were not very aggressive, the market dropping from its high level to a level not far above the level of the previous day.

Returns of the crop report were in some respects more disappointing than those reported last week. The corn condition as of August 1 was 69.9, compared with 80.1 a month ago; spring wheat was 69.8 against 73.8, and oats fell off over 10 points. The wheat condition as of August 1 was 81.2, which makes the latest official estimate over 11 points under the average. The indicated total crop acreage on to-day's figures is 4,821,000,000 bushels, against 2,956,450,000 last month, and last year's final yield of 3,126,713,000. The indicated spring wheat crop is 1,000,000,000 bushels, a decline of 1,000,000,000 bushels from last month.

The crop figures were followed by another raid on the market, which sent Union Pacific under yesterday with sharp declines in the grain carriers. The decline was orderly at first, with little indication of bear propensities, but in the last few minutes the selling gathered such huge proportions that prices crumbled away to the lowest level of the present movement. There were faint rallies, which failed to arrest the fall to any appreciable extent, and the closing was extremely weak, with the short interest in complete control of the situation.

LONDON MARKET.
LONDON, Aug. 9.—Money was easy, but discount rates were firm to-day. Hot weather and strict news restricted business on the stock exchange, and price movements were narrow. Home sales and raffia were weak, but cotton and foreign shares closed steady. American securities were quiet and featureless during the forenoon. In the early afternoon prices declined on fears of a strike on the American roads, but the market hardened in the late trading, and closed steady.

ANOTHER LONDON HOLIDAY.
LONDON, Aug. 9.—The stock exchange here will be closed Saturday, Aug. 12.

ON WALL STREET.
Erickson Perkins & Co. had the following: Stocks broke quite sharply on the government grain report then rallied moderately under supporting orders and short covering. The showing for corn, oats and spring wheat was very poor, but seriously enough just about what the grain market had been predicting. One authority had predicted about 70 for corn. In reality it was 69.9 per cent. The report is disappointing, but not so bad as the news is out. It will be a relief from the anxiety which has overhung the market for more than a week. Stocks may rally a bit further on the evening; then they are likely to react again on their own weight. We should continue the same cautious policy with reference to stocks, reducing holdings on all bulges. People will now look forward to the adjournment of Congress. Stockholders bought a little on this when it comes.

Chas. Head & Co. to R. R. Bondard: The government report showed a falling away in spring wheat condition of 14 per cent. in corn of 10.4, in oats of 2.1, while winter wheat was slightly less than last year's total. While this report is not favorable, it is about met expectations. The bears sold during the absence of the report and prices reacted to the lowest point for the day, after which a rally on support took place. In the last quarter hour a savage drive was carried to bring down a point or more, making new records on this movement, but there was some attempt to cover in a few of the leading specialties, causing fractional rallies at the close. We still look for further liquidation.
