FATE OF TURKEY DEPENDS ON BIG BATTLE

If Ottomans Are Defeated, Situation Will Be Apparently Almost Hopeless—Constantinople Is Cheered by Belief That Turks Are Assuming the Offensive.

LONDON, Oct. 29.—(Can. Press.)—The long awaited battle which will decide the fate of Turkey is now being fought. The army under Nasm Pasha, minister of war, and commander-in-chief, is engaged, and according to Constantinople official despatches, the operations are favorable to the Ottomans. The despatches, however, do not indicate where the chief action is taking place nor how the opposing forces compare.

It is Turkey's last chance to retrieve an almost hopeless campaign. Nasm Pasha is fighting with his back to the wall; his communications have been cut, and it is impossible for him to get fresh supplies or reinforcements.

In Constantinople the feeling of confidence is reviving. It is believed that the war minister has at last assumed the offensive. But this is by no means certain, as the battle may have been fought upon him.

Sofia despatches indicate a continued forward movement of the Bulgarians, but give no details. There is still no confirmation of the reported capture of Lule Burgas, Demotica and Drama. The Bulgarians are still fighting in the direction of Viza, in pursuance of their plan to advance to the extreme east in the direction of Constantinople. The Greeks also are marching, with victories to their credit, towards Saloniki, where a feeling of extreme anxiety is said to prevail and provisions are running short. The fact that no apparent effort is being made to stem the Greek advance to Saloniki is held to indicate that the bulk of Turkey's army there has been transferred to Thrace.

No recent information has been received of the operations around Sturt of other points to the west, and Sofia today observed a significant silence.

Diplomatic activities continue in London. The prime minister, Mr. Asquith, had an audience with the King today. No formal action has been taken or is likely to be taken until the result of the great battle is known.

BATTLE IS A SEVERE ONE.

CONSTANTINOPLE, Oct. 29.—(Can. Press.)—A late telegram received from Nasm Pasha says that the battle, begun today, is still being waged with great violence. He adds that the situation for the Ottoman troops is very favorable.

Another official despatch reports fighting yesterday and today between Uzunburi, to the east of Kirk-Kilis and Viza. Two battalions of Bulgarians were cut off from the main body and sustained heavy losses.

Fighting continues between the Greeks and Turks in the Kosal region of Macedonia. According to reports given out the Greeks are being driven back.

Despatches dated three days ago give the first news received of the position of the western army, which was admitted to be grave. It was asserted, however, that a considerable force was still concentrated at Voles, disputing the advance of the Servians and Bulgarians.

POWERS SOON TO INTERVENE

Should Turkey Be Defeated in Impending Big Battle, Action Cannot Be Delayed.

BERLIN, Oct. 29.—(Can. Press.)—The Frankfurter Zeitung prints a Vienna despatch, evidently emanating from official sources, which says:

"The time for intervention by the powers is near, whether requested or not. If Turkey is defeated in the impending battle between Adrianople and Constantinople, it would be high time for Europe to look to its interests, since the destruction of European Turkey could not be tolerated, nor could the occupation of Constantinople by another power."

CODERRE'S APPOINTMENT RING ON LIVELY CAMPAIGN IN HOCHELAGA

By-Election Is Fixed for Nov. 19, and It Is Believed Liberals Will Try Hard To Make Inroads on 1,300 Majority—Situation in Quebec Seems Clearing.

OTTAWA, Oct. 29.—(Special.)—At a meeting of the cabinet this afternoon the date was fixed for the by-election in Hochelaga division, Montreal, rendered necessary by the acceptance by Louis Coderre of the portfolio of secretary of state. Nominations will take place on Tuesday, Nov. 12, and voting on Tuesday, Nov. 19.

On Sept. 21, 1911, Mr. Coderre had a majority of over 1800, the English vote in the municipality of Westmount, which forms part of the division of Hochelaga, going almost solidly against Mr. Rivet, the former Liberal member on the reciprocity issue. The expectation here tonight is that despite Mr. Coderre's large majority at the general elections, there will be a contest. Col. George Washington Stevens, who recently resigned as chairman of the Montreal harbor board, is mentioned as a possible Liberal candidate, but it is considered more likely that a French-Canadian will be chosen to carry the opposition standard.

CHASM BRIDGED OVER.

MONTREAL, Oct. 29.—(Special.)—The French members of parliament appear to be rallying round Hon. Louis Coderre, the new secretary of state, who arrived in the city this evening, announcing that Prime Minister Borden will be here during the first week of the election, and that the premier's announcement on the naval question will form the basis of the campaign. The nomination in Hochelaga will take place on November 12 and polling a week later on November 19.

Sir Rodolphe Forget, M.P.; J. A. Barrette, M.P.; D. O. Lesperance, M.P.; S. Lavallee, M.P., and Dr. Paquette, M.P., were present. Dr. Paquette, who is considered a Nationalist, offered his services to Mr. Coderre on the spot, so it looks like a united party in Hochelaga.

A Lively Campaign.

The date of Mr. Borden's address will be announced tomorrow, and beside Hon. C. F. Doherty, other ministers will take a hand in the fray.

The statement is made here today that Sir Wilfrid, being a British party councillor, will be absolutely unable to take part in any contest after Premier Borden announces that a request is made for help by the imperial authorities.

BECKER WILL GET SENTENCE TODAY

Condemned Man Will Be Hurried to Sing Sing—Shapiro Gives Information Against Gunmen.

NEW YORK, Oct. 29.—(Can. Press.)—Charles Becker, deposed police lieutenant, will be sentenced tomorrow morning for the murder of Herman Rosenthal, the gambler. Becker will be brought before Justice Goff in the criminal court building at 10:30 o'clock. He will be told that he must die in the electric chair in Sing Sing prison.

Mrs. Becker will be present to hear her husband's fate pronounced by the white-haired justice who presided at Becker's trial.

"I shall certainly be in the courtroom tomorrow," the devoted wife said today after leaving her husband behind the bars in "Murderers Row" in the Tombs. "I shall go on the train with my husband to Sing Sing. I want to stay at his side as long as possible. I think it is my duty to do that and to be as brave as I can."

The "death house" at Sing Sing will be Becker's home beginning next Sunday, when the state plans. District Attorney Whitman does not want the responsibility of the ex-lieutenant's presence in this city when he places the "gunmen" on trial. The first of them will probably be tried on Monday. Sheriff Harburger declares he will not delay Becker's removal from the Tombs.

Confession of Shapiro.

The task of the state in prosecuting the gamblers—"Lefty Louis," "Whitney Lewis," "Gyp the Blood," and "Dago Frank"—was made less difficult this afternoon when Wm. Shapiro, driver of the "murder car," made what was purported to be a complete confession.

Shapiro was closeted with District Attorney Whitman for several hours. For days his counsel, A. J. Levy, had urged his client to tell the truth. Shapiro feigned to do so, said the lawyer, because he believed he would be killed.

Shapiro's confession and his testimony on the stand against the "murder crew" all in corroboration of what the state already knows of the movements of Rosenthal's alleged slayers the morning the gambler was killed, District Attorney Whitman believes he will have no trouble convicting the gangsters.

Q.O.R. Presentation Of Prizes Canceled

Owing to the troop train accident on Thanksgiving Day, and out of respect to the officers, non-commissioned officers and men of the 48th Highlanders, the presentation of prizes of the Q. O. R. which was to have taken place this evening, is postponed until the following week, as are all social functions by the officers, non-commissioned officers and men of the regiment. The weekly parade, however, will be held as usual.

FAMOUS WOMAN DOCTOR DIED SUDDENLY

Dr. Alice McGillivray of Hamilton, Best Educated Woman in Canada and One of First Three Women to Enter Queen's, Passed Away While Driving Motor Car.

(By Staff Correspondents.)
HAMILTON, Wednesday, Oct. 30.—Dr. Alice McGillivray, a well-known medical practitioner of this city, succumbed to an attack of apoplexy while out driving in her automobile at 7 o'clock last evening on South Catherine street. Mrs. McGillivray was driving the car, and a patient who was in the car noticed her weakening and stopped the machine. A. M. Lewis, who was passing, took her to a house on Catherine street and summoned her husband, Dr. T. S. McGillivray, and Dr. Remis, but when they arrived Mrs. McGillivray was dead.

Mrs. Dr. McGillivray, who was about 40 years of age, was a daughter of Mrs. Margaret Skilton.

Besides her mother and husband, she leaves a daughter, Gladys, of this city, who is at present on a hunting trip, and a brother, Dr. G. D. Skilton of Kansas City.

Dr. Alice McGillivray was born in St. George, Ont., and was one of the first three women to enter Queen's University as a student. While there she took honors in all her classes, and on graduating she took the highest honors in medicine and was gold medalist in arts. She was made a professor and vice-dean of the Ladies' Medical College, which office she held for five years, when the college was done away with. She then went to Chicago and came here 15 years ago. She has been in practice here ever since. She was considered to be the best-educated woman in Canada. She was a member of Central Presbyterian Church and was a great charity worker. The funeral arrangements have not yet been made.

SHUNTING TRAINS ANNOY MANY RESIDENTS

People Living on Robson Street Held a Meeting to Protest and Were Advised to Take Their Grievance to City Council and Dominion Railway Board.

St. Clement's Anglican Church was put to a rather peculiar use last night, when about 70 residents of Robson street assembled in it to protest against the Grand Trunk Railway's practice of shunting freight cars at all hours of the night on switches located to the west of the street. Controller Church and Aid Robbins were present. The former grasped the occasion and did a little electioneering after he had suggested that a sub-committee be appointed to consult with the board of control in regard to the shunting annoyance. "Draw up a list of your complaints," said the controller, "and I will do all I can for you when it is presented to the council."

S. McMurray, 23 Boston avenue, one of the speakers, claimed that when the Dovercourt Land Co. sold the residents their property it assured them that the land to the west of the street would be used as factory sites, but within a year after he had built his house, down went the G.T.R. switches. Since then his family had been greatly disturbed by the continuous shunting, which made sleep almost impossible. "At three o'clock in the morning," he said, "there will come thundering by our front doors and the houses all along the east side shake as if they were about to fall."

Another complaint registered was that Messrs. Jennings and Ross, two of the residents, couldn't put down sewers, on account of the switches. Mr. McMurray said that the city had now agreed to put in these sewers, the consent of the G.T.R. having been obtained.

Winnipeg Fears Loss of Streets

Western City Will Help Toronto in Fighting Placing of Poles by Corporations.

WINNIPEG, Oct. 29.—(Can. Press.)—This city will protest to parliament against the decision of the privy council permitting private corporations to place poles on streets in Toronto, in respect of whether the city is willing to grant permission or not. The board of control authorized City Solicitor Hunt to prepare a protest to the limiting of municipal control of streets which will be sent to Hon. Robert Rogers for presentation at the cabinet meeting which has been called for the consideration of the matter.

That the decision of the privy council interferes with the control of the Winnipeg streets is the opinion of the controllers.

All the accounts of the fight pay tribute to the valor of the Servian officers and men. Lieut. Milich, commanding an infantry company, blew out his brains rather than obey a command to retire from an exposed position; whereupon his men charged the Turks, with the result that all of the Servians were killed.

The cavalry, with the king's brother, Prince Arsenic, at the head, charged repeatedly. The commander-in-chief, Crown Prince Alexander, was frequently on the firing line and entered the front while the battle was in full swing. Whenever he passed the soldiers, even the wounded cheered.

THORO INVESTIGATION INTO CAUSE OF WRECK TO BE HELD IN TORONTO

Chief Coroner Johnson Will Open an Inquest This Afternoon on One of the Victims Killed at Streetsville on Monday—Military Funeral From Armories at 2 o'Clock Tomorrow Afternoon.

Arrangements for the burial of the dead and the care of the injured Highlanders, who were aboard the ill-fated troop train returning from the sham battle at Milton, when it struck the westbound flyer at Streetsville Thanksgiving night, occupied the attention of Toronto's militia yesterday. Military men also found time, together with citizens generally, and crown officers and railway officials, to discuss the possible, probable and advisable methods of investigation of the causes of the collision resulting in those deaths and injuries.

A military funeral will be held tomorrow afternoon from the armories to Mount Pleasant Cemetery.

The inquest opened at the scene by Coroner Smith of Streetsville, on the body of Mac Murdoch, who was killed at Streetsville Tuesday evening next. Chief Coroner Arthur Jukes Johnston will also open an inquest here Tuesday upon the body of John Bannatyne.

A statement that the engineer of the "troop special" had overrun his orders and that his emergency brake had failed to work was issued yesterday by railway officials, who are conducting official investigations at Toronto and London.

It is also probable that the Dominion Railway Board will be asked to make provision regulating the construction of rolling stock, which may be used by the railways, with a view to averting or lessening the danger of cars being telescoped in collision, which was the cause of the heavy list of injuries in the Streetsville accident.

Shadow of Hops.

With the clearing of the excitement of caring for the injured comes a more accurate list of injuries, and the certain identification of the dead. Yesterday it was learned that the names of the dead, secured from a maze of double identification and rumor, were correct, while time for more thorough

examination of the injured brings the number of those whose wounds are likely to result in death down to a single man. This is W. H. Sheard, who lies in Grace Hospital with a fracture of the skull, and who at a late hour last night had not regained consciousness. Even in Sheard's condition the doctors thought that they had noticed a shade of improvement and the shadow of a hope for his life.

Hold Inquest Here.

Chief Coroner Arthur Jukes Johnston has been instructed by the attorney-general to open an inquest upon the body of John Bannatyne, which is now within his jurisdiction. Dr. Smith's inquest will also be continued at Streetsville at 7:30 Tuesday evening next. County Crown Attorney Evans of Brampton will attend for the crown, and further special counsel may also be appointed by the attorney-general's department. Coroner Smith of Streetsville, in a statement issued yesterday, resented the statement made by officers who were at the scene that he had unduly delayed the removal of the bodies to Toronto. He said that he had engaged up till the time that the ambulance train was ready to pull out in caring for the injured, and that rendering his services as a doctor he was unable to attend to his duties as a coroner until then. He declared that he felt that service to the living was of more immediate need than enquiry into causes of death.

Militia Investigation.

General Cotton yesterday refused to make any statement as to the action of the military authorities in the matter of investigation, further than to say that they were conducting an investigation of their own. He declared that the C. B. R. could be trusted to do all that could be done by way of establishing the responsibility. He de-

USED CORPSES AS BARRICADE

In Retreat From Kumanova, Turks Were Driven to Extremities—Forces Are Disorganized.

LONDON, Oct. 30.—(Can. Press.)—The Daily Telegraph's correspondent at Kozani describes the Turkish force opposing the Greeks as entirely disorganized and incapable of offering resistance. He says that the Greek force is advancing by mule road to Verris, while the Greeks also hold the Monastir railway, and adds that if the Turks have no reinforcements at Saloniki that town will soon be in the hands of the allies.

The Greeks showed great dash and bravery in assaulting and carrying the positions in the long defile of Sarandoporo, where they suffered very severe losses.

Terrible details are reaching Belgrade, according to The Standard's correspondent there, of the retreat of the Turks from Kumanova. They tried to stop the Servian advance by making breastworks of dead bodies. Six thousand corpses were found on the road from Kumanova to Uskup, and six truck loads of petroleum had to be brought from the rear for the purpose of burning the dead.

No News, Bad News.

The Constantinople correspondent of The Standard says it is considered a bad sign by the Turkish authorities that no news has been received of Zekki Pasha's army in the north of Macedonia.

It is officially announced that the railway to Kirk Killiseh is again in operation, and that the Turks have begun the offensive movement.

The Turkish force at Velez numbered 8,000, says a Belgrade despatch to The Express. The fighting there was exceptionally sanguinary. The Turks were utterly demoralized and made a wild retreat in the direction of Monastir and Saloniki.

"LOAN SHARKS" HEAVY TOLL.

NEW YORK, Oct. 29.—(Can. Press.)—"Loan sharks" in this city do an annual business of \$20,000,000, more than 100,000 persons, including 30,000 municipal employees, being in the clutches of money-lenders, and state courts are the unwitting instruments thru which usury is collected, according to a report made public tonight by investigators for District Attorney Whitman.

TURN FROM WAR TO PROVERBS

Solving of the Proverb Pictures Furnishes Relaxation For Toronto World Readers.

The first pages of the newspapers these days are telling of the developments in the struggle now taking place between the Turks and the Bulgars.

It is only natural that the reading public should be interested in following the narration of events which may lead to the overthrow of the Turkish Empire. But after reading about this great war, now waging, the average reader looks for something with which to relax the mind—for the unusual and the thought.

AUTO MAIL CARS FOR JOY RIDES?

Party of Men and Women Seen in One on Downtown Streets Early This Morning.

Are some of the royal mail cars now being used for joy riding? This morning about 12:45 one of the red machines came along Richmond street at a nice rate of speed. Just a few doors from Child's restaurant, in a nice shadowy place, the car was brought to a stop. It could then be seen that there was at least one girl inside, and probably two. In addition to these, two other young men alighted. The driver had some conversation with them about meeting them later, and the party separated.

MAINWARING INQUEST.

The inquest into the deaths of William Mainwaring and his wife at their home in Wyckwood Sunday morning was opened yesterday in the morgue by Coroner Dr. E. B. Hardy. No evidence was taken, and the hearing was adjourned until Nov. 5, when Dr. Jukes Johnston will submit his autopsy report.

LANDMARK SOLD AT GOOD PRICE

Deer Park Hotel at St. Clair Avenue and Yonge Street Changed Hands For \$80,000.

The old Deer Park Hotel, a landmark of North Yonge street, at the southwest corner of St. Clair avenue, for over half a century, was sold yesterday for about \$80,000. The vendor was James O'Halloran, one of the family that has held the hotel since its earliest days. The purchaser is a private investor, who will hold the corner as a speculation.

The frontage on Yonge street sold at 97 feet 6 inches, with a depth of 110 feet. Part of the property is occupied by a garage, owned by W. W. Dundas. His lease is subject to the property's sale.

Originally the O'Hallorans owned 212 feet on Yonge street, but the Metropolitan Radial took 215 feet for its burns.

The hotel lost its license in the reduction of three years ago.

GYMNASTIC FEAT SAVES LIFE.

KINGSTON, Oct. 29.—(Special.)—Geo. Bews, a stonemason, fell several stories on a new building and alighted on a pile of steel girders and had a miraculous escape. He is a great gymnast and the fact that he threw himself forward and turned a somersault, alighting on his feet, saved his life.

What's the Fur Outlook?

This is about the time of the year when you are wondering what the outlook is in furs for this season and for 1913. As Mr. Dineen, the president of the Dineen Company, aptly puts it: "The outlook is not encouraging in the matter of price." "Fur," says Mr. Dineen, "is steadily growing in value all over the world; the demand is getting larger as the world grows old. My advice is to buy today if you want to save money." If the Dineen Company should run short in any line this season, it means that we would have to pay twenty per cent more than what our stock, selling now, cost us." The Dineen showrooms are at 140 Yonge street.

FAMOUS WIGAR IS IN TORONTO

Rev. J. E. Watts Ditchfield Will Give Several Addresses During His Stay in City.

Rev. J. E. Watts Ditchfield, vicar of St. James the Less, Bethnal Green, London, Eng., who is to address the men's meetings in Wyndolfe College Convocation Hall this week, arrived in the city yesterday and is the guest of Rev. Dr. Griffith Thomas at 28 Park road. Today he goes to Niagara and Hamilton and will return to the city on Thursday. His appointments are as follows: Men's meetings in Wyndolfe Convocation Hall, Oct. 31, Nov. 1, 2 and 4; Sunday, Nov. 3, St. Paul's Church, Bloor street, morning service; St. Anne's, Gladstone avenue, evening address; Grenadiers at church parade at St. James' Cathedral at 2 and a mass meeting for men at the Church of the Redeemer, corner Avenue road and Bloor street, at 4. On Monday, in addition to his evening meeting, he addresses the clergy of the deanery at their monthly meeting. Mr. Watts Ditchfield is one of the best-known clergymen in England, having achieved phenomenal success in his work in the difficult field of East London. He is just now returning from a trip to Australia, where he has been rousing tremendous interest in men's work. It gives some idea of his popularity as a speaker to men to know that he addressed six crowded meetings in Winnipeg last Sunday. All his special meetings here are for men only, and all men are welcome at all meetings.

C. N. R. IN MONTREAL

Eleven Applications for Overhead Structures Are Made.

MONTREAL, Oct. 29.—(Can. Press.)—Before the railway commission today the C.N.R. presented 11 separate applications asking for permission to cross St. Antoine, St. James, Notre Dame, St. Maurice, William, Ottawa, St. Paul, Wellington, Nazareth, Duke and Brennan streets by means of overhead structures required to connect its tunnel with the harbor front. The company also asked approval of its tunnel terminal plans, as well as the layout of its freight tracks. As all these various demands required extensive study on the part of the city, the latter's legal representatives asked that consideration of the company's diverse applications be deferred till such time as the city would be in a position to make known its mind in the matter. The request was granted.

EX-SERVICE IMMIGRANTS

Scheme Will Be Outlined to Board of Trade Today.

An open meeting of the Toronto Board of Trade is called for 3 o'clock this afternoon to hear an address by R. T. Scumell, honorary secretary of the Naval and Military Immigration League of London, who will outline proposals he intends making to the Dominion Government on the question of bringing ex-service men from the old country as immigrants. It is expected that a resolution will be passed concerning or making disapproval of the scheme. His honor the lieutenant-governor will occupy the chair.

POSTMEN SHOOT

H. E. Grooms Made Highest Score on Monday.

The annual matches of the Toronto Postal Rifle Association were held at the Long Branch rifle ranges on Thanksgiving Day, when there was a large attendance and good shooting. The highest score of 97 was made by H. E. Grooms, who won the special trophy donated by Postmaster W. S. Rogers. Prizes to the amount of \$40 were also won by the other competitors as follows: W. J. Keat, W. L. Hillwell, G. Ellis, S. J. Cuttle, W. F. Parrell, J. F. Gurvan, S. J. Lindsay, G. Lewis, M. Croshaw, A. H. Gordon, J. Reid. The Dominion of Canada silver and Ontario Rifle Association medals were also shot for.

CLEVER ELEPHANT WORKERS

An immense amount of labor is accomplished by elephants in the Siamese timber yards. In handling the lumber the elephant, it has been estimated, does the work of twenty-five men. Many of the big pachyderms do their work with human intelligence. They draw large logs from distant parts of the yard to the sawmill and place them without assistance just where the men can most conveniently adjust them to the saw. The elephant is lifted to a platform. The elephant first lifts one end to its place, and then the other end, after which he surveys it carefully to ascertain whether it lies just as it should. If it does not, he continues to push and work it until it is exactly right. He lifts a huge log by thrusting his trunk under it, and when he lifts he keeps it steady with his trunk. A big elephant will lift in this way a log that would be a good load for twenty men. Other elephants will at the same time be piling up boards in square, even piles. They survey them with the knowing look of the carpenter and continue to push and arrange until they have made the heap perfectly square and regular. Perhaps the most curious sight in a Siamese timber yard is that of young elephants learning to do their work. The younger walks alongside of an old one at work and learns his future trade by merely looking on as he observes the various processes. After a while he feels the stirrings of youthful ambition within him and tries his own trunk upon a log of moderate size. He lives and learns like an apprentice in a shipyard. Each elephant has its keeper, who, with his family, lives close to its stable. The elephant is as much a member of the keeper's family as is the Irishman's pig, the gentleman who pays the rent. The children play about the elephant's enormous legs, get under his body, and take hold of his trunk. When he is tired of them he pushes them gently away, but never hurts them.

SIXTY-FOURTH ANNUAL REPORT OF THE CONSUMERS' GAS COMPANY OF TORONTO

Your Directors have pleasure in presenting the Sixty-fourth Annual Report of the Company, together with the Financial Statements. The output of gas for the year has amounted to 3,119,748,000 cubic feet, an increase over the output for the preceding year, of 276,707,000 cubic feet. Twenty-eight and one-half miles of new mains and 6394 services have been laid. To meet the extraordinary increase in the demand for gas, your Directors have found it necessary to make further extensions at the Works, and contracts have been entered into for the erection of new buildings and plant at Station "B," which, when completed, will increase the Company's manufacturing capacity by 4,000,000 cubic feet per diem. It has also been found necessary to provide centrally located buildings for Stables, Garage, Pipe-Fitting Shops, etc. Your Directors have been fortunate in securing for this purpose a suitable site on Mutual and Dalhousie streets, on which the necessary buildings are now being erected. This is the first complete year during which gas has been sold at the present reduced price, and the reduction of five cents per thousand cubic feet has amounted, upon the output of gas for the year, to about \$150,000.00. The results of the year's operations are particularly gratifying when it is borne in mind that it has been necessary for the Company, in common with other large employers of labor, to meet demands for increases in workmen's wages, and the advance in the cost of materials used in connection with the manufacture and distribution of gas. The Directors have, with much regret, to report the death, during the year of two of their colleagues: Mr. John L. Blakie, the President, and Mr. James Henderson, both prominent and esteemed citizens, who have rendered valuable services to the Company. Mr. Blakie was elected a Director in 1897, Vice-President in 1905 and President in 1906. Mr. Henderson was elected a Director in 1896. Mr. A. W. Austin has been elected President, and Mr. Wellington Francis, K.C., Vice-President. The vacancy in the Directorate, caused by the death of Mr. Blakie, has been filled by the election of Mr. Herbert Langlois. The Company's Works, which are thoroughly modern, have been maintained in a high state of efficiency, and the Distribution System has been improved and extended on a carefully designed plan. The Gas Appliance Department, has fully justified its creation. The following statement for the past, as compared with the preceding year, shows:

Table with 3 columns: Year ending 30th September, 1912; Year ending 30th September, 1911; and showing an increase of 9,478 Meters and \$201,069.62 in Gas Rental.

HOPES MILITANT METHODS WILL NOT BE NECESSARY

Miss Wylie Advises Women of Canada To See Premier Borden in Order To Secure Franchise—Time To Give Women Their Just Political Rights Is at Hand, She Says.

"The time to give women their just political rights is at hand. So long as the life and soul of the nation are crushed out of the women of the country, the nation must decline. The above is the substance of the address delivered yesterday at a meeting of the Equal Franchise League by Miss Barbara Wylie of London, Eng. There is something more than just the mere suffrage that women want; it is all the privileges and benefits involved in the symbolic meaning of the vote," said Miss Wylie.

On Equal Plane. "Men and women must be on an equal plane, both socially and politically, in order to work out perfectly the scheme of humanity; but they can never enjoy this equality as long as the government persists in denying to women the right to vote."

Whether you are following the war news or not, you still have an opportunity to enter The World's Proverb Contest, now only completing the fourth week of its duration. To enter now it is only necessary to send the back numbers, the first 27 of which will be sent to any address in Canada by return mail upon receipt of 45 cents, stamps, coin or money order.

Order the back numbers and follow the contest along with the war news. It will prove just the kind of pleasing diversion that everyone desires.

Parting of the Ways. "We are at the parting of the ways," said Miss Wylie, "and unless the government soon realizes that the time has come to give women equal political rights with men, the British Empire must decline. "Until the double standard of wages is done away with, not only is the market for cheap labor kept open, but also the market of white slave traffic," said Miss Wylie. "Every woman who does not help to improve the existing conditions and help to do away with the inevitable effect of such conditions as black and white slavery, the carrying on the horrible business of selling the bodies and souls of young women for money."

With the inauguration of the right of woman to vote, the double standard of morality, in which the woman records all the blame for the crime in which the man is equally responsible will pass away, and men will begin to realize that women are human, and not creatures created to satisfy their whims and desires. "It is not a mother's duty to let her child suffer and then receive her back into her arms as a bruised and broken body; but it is her duty to press forward and help to do away with the conditions that are a menace to the moral life of that child," said the speaker.

See the Premier. Miss Wylie expressed the hope that in the inauguration of militant methods in order to obtain justice from the government would not be necessary in

LABELLING BOTTLES. The following is recommended as the best way of labelling persunshanty the bottles that are used by photographers. The labels used are of the ordinary ready-gummed kind that can be bought from any stationer, the gum being moistened with water in which a little sugar has been dissolved, about three lumps in two ounces of water. When the gum is dry, the label is brushed over with a warm solution of gelatine, ten grains; water, one ounce; and when this last is dry, is given a coat of light oak varnish. When owing to damp, there is a chance of the label coming off, one photographer has adopted the expedient of using strong tie-on labels, attached to the neck of the bottle by means of a piece of string. Another plan is to print on the bottle the name of its contents, using black varnish for the purpose; while another is to have a patch of the bottle ground or roughened, by means of a sand blast or otherwise, and to write thereon in pencil. The worst of this last method is that there is the

HUMBER VALLEY SCHEME AND THE CIVIC CAR LINES BEFORE COUNCIL TODAY

Commissioner Harris Wants a Free Hand in Order to Have Gerrard Street Line Running in a Month—Humber Valley Scheme May Be Adopted—Unconditional Annexation of North Toronto and Other Contentious Questions.

Before Council Today

Annexation of North Toronto—Unconditional.
Equipment of civic car lines—Commissioner Harris may be given a free hand to purchase land, erect barns and supply the rolling stock, at an expenditure of \$80,000.
Humber Valley Expropriations Bill—Reconsidered.
Sunday slides—Ald. McBride will move that the existing bill be repealed.
Sparkhall and Bain avenues—May be made park property.
Create Toronto Traffic Commission.
New housing bylaw.
Increase to two years the period of office of board of control.
New public fruit market.

Many items of considerable importance will come before council today in order to facilitate a settlement before the end of the year is reached.

The much-discussed and long-drawn-out Humber Valley scheme will take precedence of all other matters in order to settle it once and for all. Much discussion is expected to ensue. Many of the members of council consider that the amount of good ultimately accruing to the city should exceed minor prejudices now possessed by some. During the more recent discussions on this problem, many aldermen and Controller Cosgrove have been round to a more favorable attitude. The latter states that he is now fully convinced that the city should extend beyond the Humber in a comparatively short time, and the city should become possessed of this property while it can be had at a minimum cost.

Reduce Opposition.

The proposal to make the Sparkhall and Bain avenue property a park will tend to reduce the opposition on the part of aldermen coming from the east towards the Home Smith proposition. Their chief excuse for such opposition has been that too much attention is being given to the west, and any appropriations for park projects should go to help make up the deficiencies in this regard existing in the east.

Civic Car Lines.

The rapid equipment of the civic car lines hinged on the decision reached today. Works Commissioner Harris has communicated with the council, stating

that the power already vested in him is sufficient to enable him of giving complete satisfaction, and has asked that he be given full power to purchase land, erect barns and supply the rolling stock, at an expenditure of \$80,000.

Some Objections.

Considerable objection was made to the commissioner's request on the ground that a dangerous precedent would be inaugurated, making it possible for the heads of departments to go ahead and make what purchases they choose without permission of the members of council, who are directly responsible to the people for the administration of the civic exchequer.

On the motion of Ald. Robbins, a special committee was appointed to confer with the Toronto Street Railway Company and report to council any compromise that could be effected, but it had no authority to come to terms with the company. This committee received no support from the board of control from its very inception, and the air of concession displayed by R. J. Fleming, in his offer to run his own cars over civic lines, practically sounded the death knell of the committee. The condition of affairs in this regard is: The board of control has forwarded a recommendation to council, that Commissioner Harris be given a free hand, as he requests, which is, in their opinion, the only method to be resorted to in order to bring about a successful and satisfactory solution of a question bristling with difficulties which need careful handling. Commissioner Harris does not care whose cars run over the lines so long as the east enders obtain a service before the winter sets in.

Unconditional Annexation.

Unconditional annexation of North Toronto will also receive the attention of the council, as their jurisdiction only reaches thus far, any special terms offered to the town of the north would only be given under sanction of the legislature.

Control of Sewerage.

Control of sewerage has been making thorough investigation of the sewage problem existing in the local fruit market, and has recommended that the council go ahead with a proposition to acquire, to be entirely under civic control. It will be used for distributing purposes only.

Sunday slides will also be revived, with the exception that they will be repealed before the season commences.

WILL APPEAL TO CONTROLLERS

Deputation Will Urge That By-law for \$200,000 For Consumptive Fund Be Submitted to Ratepayers.

The board of control at 12.30 today will receive the deputation of leading business men and prominent clergymen who will urge that a by-law be submitted to the ratepayers at the January 15 election authorizing a grant of \$200,000 as Toronto's contribution toward the one-million-dollar King Edward Memorial Fund for consumptives which is now being raised. Any persons interested in the fight against tuberculosis are invited to join the deputation, as it is desirable to impress the board of control with the unanimous approval which the proposed grant has already received from all classes of citizens.

MANY RETURN TO FIGHT

C. N. R. Liner Royal Edward Has Over 250 Bulgarians on Board.

The Canadian Northern liner, Royal Edward, sails from Montreal today with more than 250 Bulgarian and Serbian reservists on board. The Bulgarians are easily in the majority, and by far the greatest number from Chicago, about 130 coming from that city, and 75 from Detroit, and 50 from Toronto.

"The Balkan war will have an effect upon immigration that will be twofold," said a C. N. R. immigration official to The World yesterday afternoon. "Not only will it be responsible for a decrease in emigration from the Balkan states, so long as it continues to need soldiers, but those Bulgarians, Serbians, Montenegrins and Greeks on this side of the Atlantic will answer the call of their country to return and fight under their national flag."

GALTONIANS IN WRECK

Several Were Bruised and Cut, But Not Seriously Hurt.

GALT, Oct. 29.—(Special.)—Several Galt people were in the railway wreck at Streetsville last night. Harry St. Clair, Oak street, was severely hurt. He had been in Toronto accompanied by his son, and at the time of the collision was at the water tap getting a drink. The impact was so terrific that Mr. St. Clair was thrown thru the mirror and received two bad cuts on the face besides injuries to his shoulder. Mrs. Hope, Holstein street, who had been visiting in Toronto with her daughter, received a bad cut on the head when she was thrown from her seat and her head was badly bruised.

T. G. Elliott, president of the Western Football Association, was a passenger on the express train, he having been in Toronto attending a meeting of the association. His injuries consist of a bruised thigh.

FINE OLD CRUSTED PORT

EXTRA EFFORTS GYMNASIUM FOR 800 IMMIGRANTS TO COMPLETE CAR LINE

Commissioner Harris Will Try to Have Civic Tracking to Greenwood Avenue Finished Before Winter—Workmen of T. E. L. Co. Arrested For Erecting Poles

Principal McKay of the technical school asked the industrial education committee yesterday for a \$2000 gymnasium building for use during the winter months at the present Central School. The building is to be 36 x 60 feet, with corrugated iron roof.

Proposition Approved.

The proposition was approved and a sub-committee appointed to secure the necessary appropriation. The new building will also be utilized as a lecture hall and assembly room.

Assistant Registrar.

The appointment of an assistant registrar for the technical night classes at the George Street School was authorized, and an assistant to the teacher of millinery at the technical school, Cut Stone Hare.

Men Taken in Charge.

The men were taken in charge and escorted to Agnes street police station, from which place they were released. William Hardy, the foreman, was let on the street.

Private Meeting.

A private meeting of the board of control was held in the mayor's office to discuss the situation regarding the Toronto Electric Company's pole-erecting propensities and the city's position. The injunction served upon the city was read and among the conclusions arrived at was that it only prevented them raising poles in the ground and did not cover the prevention of the company erecting them.

In Order to Give Head Room for Motor Buses.

The mayor has recommended that the Yonge street subway be increased from 14 to 18 feet. The fact that buses will not run up Avenue road is sufficient to make it advisable to keep the head room of the subway at that point at the proposed height of 14 feet.

A Public Scandal.

"It is a public scandal the way people are handled at the Union Station; people are congested more at the Toronto stations than cattle are at Montreal." This is the complaint of Controller Church, who fought for enforcement of his train on Saturday night. Parks Commissioner Chambers reported to the board of control yesterday morning that his department was only responsible for the grading and sodding of the proposed University avenue boulevards, and their completion depended upon the main roadway under the commissioner of works, who states that the work will be completed early in the spring.

Four Thousand of Them.

Right on top of the statement of George F. Baer, that at 70 he feels more at home in the city than in the woods of the West, the fact that at 70 years of age he is in active service today more than 4000 employees who are between 50 and 70 years of age. It is admitted that railroads demand efficiency first, and that neither "pull" nor sentiment would keep these 4000 men at work unless they were doing what they are paid for doing in a manner satisfactory to their employers, superintendents and their directors. Moreover, as soon as an employee of the Pennsylvania Railroad, or of many other railroads, finds he is failing to apply for a pension, and gets it. There are on the pay roll or in the pension list of the Pennsylvania Co. nearly 500 men who were retired after they had given to the corporation 50 years of honest and faithful service.

FOOD FOR REFLECTION FOR LIBERAL LEADER

Results of By-Elections in East Middlesex and Waterloo Commented Upon by Sir James Whitney, Who Says They Were Gratifying, But Not Surprising.

On being asked if he had any comments to make on the results of the by-elections, Sir James Whitney said: "First of all, my colleagues and I desire to thank the electors of East Middlesex and North Waterloo for the quiet unmistakable verdict of approval of the general policy of the government, which they pronounced yesterday. It was, indeed, gratifying, but not surprising, considering the situation. 'Be sure you are right; then go ahead and do things,' was the motto of the lamented David Crockett, if my memory serves me. We have acted on this idea from the beginning of our public services, and possibly that fact furnishes one of the reasons for the many evidences of the people's approval which have come to us.

"The means that we have used with regard to his great crusade in favor of banishing the bar was certainly astonishing. When a political leader evokes a new and startling policy, involving issues of great seriousness and importance, the people do not expect to see him run away from the issue he has created, and refuse to call out his army to meet the enemy. On the contrary, they expect to see him at the head of his army fighting, it may be a losing battle, but still fighting undismayed and with confidence in the result. They certainly do not expect him to practically desert his own army and appear himself under a nondescript banner which stands for neither principle nor, indeed, for anything tangible. Then, again, his apparent persistent determination to protect and keep open the liquor stores of the province, did not meet with approval. Considering the condition of the Galt party in East Middlesex today, and also the condition of Mr. Rowell's particular temperance following there, I suspect that the results and consequences of his remarkable leadership in this matter will afford him food for reflection for many days.

DEATH OF GIRL NEAR WHEAT LINE STILL MYSTERY WILL SAVE TIME

Agnes McKissock After Leaving Toronto Appeared Fearful of Being Traced to Woodstock.

WOODSTOCK, Oct. 29.—(Special.)—Four hours were taken up this afternoon by Crown Attorney Ball and Coroner Dr. McKay, this city, in an effort to throw light on the mysterious death of Agnes McKissock, the young Scotch girl who died on Oct. 21, presumably from self-administered strychnine, but although two witnesses were called and put thru a searching examination, the case is still as big a mystery as when it was first taken up. An adjournment was made until next Friday afternoon.

Expected to Be Married.

John Quirk, for whom the girl worked, stated that the girl previous to her visit to Toronto, was most cheerful and left his place saying she was going to be married. When she came back from Toronto, she appeared to be nervous and depressed, and Quirk thought she had been disappointed in a love affair.

Both Bottles, the Witness Said.

Both bottles, the witness said, bore the same label as the one on the bottle which the McKissock girl had.

HYDRO BRANCHING OUT.

The proposition was approved and a sub-committee appointed to secure the necessary appropriation. The new building will also be utilized as a lecture hall and assembly room.

HALF A DAY CUT OFF BY C. P. R. LINE BETWEEN PORT NICOLL AND BETHANY JUNCTION.

The Canadian Pacific Railway are this fall putting in service the new wheat line between Port Nicoll and Bethany Junction, thus cutting down by nearly half a day, the time formerly required to bring wheat thru from the west to Montreal. The wheat route used up to now was a distance of 184 miles between the upper lakes steamers and Bethany Junction, as compared to the new route which is only 86 miles. By the route used up to this fall, a number of severe grades were encountered which necessitated the use and expense of two engines to the single train, where by the new route one engine is sufficient.

Sand and Gravel Worth Millions of Dollars.

One of the largest sand and gravel pits in the United States of which comparatively little is written is the production of sand and gravel. In 1911, according to a report by E. F. Furchard, just issued by the United States Geological Survey, the production of sand and gravel amounted to 86,846,950 short tons, valued at \$21,158,883.

GOOD ROADS TO BE MAINTAINED

Commissioners Instruct Engineer James to Secure a Staff of Men to Keep Them in Good Shape.

Yesterday the good roads commission instructed Engineer E. A. James to secure a staff of men to maintain the ten good roads in the Toronto system. Some of these men will be at work today, keeping the water off the roads, preventing the wearing of ruts, and generally keeping them in their present good shape. The cost is provided for in a maintenance fund voted by the city and county.

Public Lecture in German.

The first of a series of eight lectures in German to be given in the physics building of the university will be held this evening. These lectures are upon a variety of subjects—art, literature, philosophy, forestry—and are intended both to conserve and stimulate an interest in German. Those who can understand German will find them helpful, both from the standpoint of the language and of the subjects discussed. They are open to the public. A nominal admission charge is made to cover the necessary expenses in connection with the lectures. The illustrated lecture to be given this evening by Professor Van der Smislen is on old German paintings.

LITTLE ALFORD AND BLACK CAT

Win Unfinished Races at Dufferin Park While Tuesday's Events Must Be Finished Today.

The third day's racing of the Toronto Driving Club's meeting for the trotters and pacers, drew another good crowd out to Dufferin Park yesterday. There were four races down for decision on the card, two unfinished races from the day before, the 2:16 trot and the 2:30 pace.

Prince Rupert, who had not won a heat before, marched off with the first heat after a half-raising finish with The Undertaker and Little Alford. In the sixth heat Little Alford stopped the first heat on the eighth pole, showing great speed. He stood a terrific drive from Tracy, but responded gamely to the stallion of The Undertaker and Prince Rupert. The former heat-winner got a very bad drive from Peters, and from this way he won the first heat he certainly looked the best.

In the 2:30 trot, which was unfinished, Midnight Oro, a bad actor, was much the best, and if he acts well today he should settle the race in one heat.

In the 2:16 trot and the 2:30 pace, a class field scored down for the word, with Clara Paul the favorite, Roy Sims, who lay in a third position till the stretch, pulled out a win handily from Clara Paul. In the next two heats Clara Paul held off the pace till the three-quarter pole was reached, when she showed a terrific burst of speed and romped away from her field to win handily.

The 2:30 pace and the 2:30 trot will be called for today at 2:30.

In the 2:16 trot, it took three more heats to get a winner. Roy Brook took the first heat after a great finish. The Black Cat took the next heat, but the holder declared. The next heat went to Black Cat, who was returned the winner of the race.

The Big Four Bicycle Races Tonight, Arena

Donald McDougall of the New York A. C., the world's amateur champion cyclist, has a big task on his hands at the Arena cycle meet when he attempts to beat stout stayers like Gordon McMillan, Walt Andrews and Scotty McMillan. The latter two are the boy's wonderful jump on end enabled him to clean up all the local riders in scratch events here a week ago, but in this event he will have to pit his speed and staying powers against three of the best juniors Canada ever produced, who, in addition, have a lot of speed to back them up. This race looks like the tid bit of a superior class of amateur events. There are over sixty entries, and as the Big Four program calls for 24 heats and finals and a ride against the Canadian mile indoor motor cycle record, the public should get a good night's entertainment. Popular prices prevail.

Victoria Club Quoter Beat Ohio Champion

Great Victory for Walter Carlyle Over W. Small at Buffalo.

Walter Carlyle of the Victoria Quoter Club won the big quoter match at Buffalo from W. Small, the Ohio State champion, by a score of 63 to 61 for a purse of \$90. The match was played on the grounds of the Black Rock Club at Black Rock. There were 300 quiet fans present to watch the game, which was a good one. Carlyle played his usual game and got a good lead on his opponent, when he missed the pin, and the Ohio State champion started the fireworks by running up a big score on the Toronto man, but Carlyle got busy again and took the lead. Then it was the Victoria boy all the way to the finish. Both men had a lot of rosters to give them encouragement. The members of the club who went over with Carlyle were: C. Bell, the president of the club, and W. Cross, B. Cornish, W. Smith and W. Kitchen.

Baseball Notes

The Athletics left Philadelphia Monday for Cuba, where twelve games will be played. Among those who will make up the team are Bender, Coombs, Plank, Moten, Collins, Barry, Baker, Sprink, Oldring, Murphy and Lapp.

The story goes that Dan Mosler, out-fitter of the Washington Senators, has made a wager with Clark Griffith, manager of the club, that he will not use tobacco in any form next season. Griffith says he will be glad to pay if he loses, as he believes that smoking affected Mosler's batting this year.

The final game for the city amateur championship will be played Saturday between the crack Eaton team, and Dominion champions of West Toronto. Each team has now won a game, and both are ready to go or die in the final game. West Toronto fans are sure the favorites can trim Eaton on their own grounds, and are eager to run out in large numbers to help them do it.

Games and Referees For Saturday Soccer

Mineral Springs to Try Again

INDIANAPOLIS, Oct. 29.—Following the announcement from Hammond, Ind., that racing would be resumed at the Mineral Springs race track, now that the state militia has departed, Thielstetwite, the governor's secretary, stated today that no action would be taken to prevent racing until the return of Governor Marshall the last of the week. A number of horses are at the track, where the owners say they intend to winter them. The governor's secretary said the troops may be returned to Porter as the state administration is determined that racing and gambling shall not be resumed.

WILL ALERTS DO THE TRICK?

Hamilton Papers Very Sweet on Their Own Ontario Union Team—A Few Views.

With the Tigers out of it and the Big Four title pretty well decided in favor of Ottawa, the next big question in football circles concerns the Alerts and their ability to triumph over the T.A.A.C. team of Toronto, and thus bring the Dominion final to Hamilton on Nov. 22. The test will come on Saturday next at Britannia Park, when Manager Marriott will send his gallant team of Alerts to meet the Toronto team in grand array, with instructions to run up as big a score as possible and settle all questions at the one time. The Toronto team is a husky lot. They defeated Parkdale, 21 to 5, and then journeyed to Ottawa on Saturday last, holding the collectors to a tie game. This was a pretty good bit of work and enough to impress the Alert followers with the fact that it is not all over yet—Hamilton Spectator.

Manager Marriott is pretty well satisfied with his team as it stands today, but he is taking no chances on accidents, keeping some of the players out, and when he has had the game well in hand at Rosedale he pulled Becker out and sent in Stowe to qualify. Bridgess, Ireland and a couple of other juniors will be placed in one of the remaining two games, as they have all shown by their work with the juniors this year that they are ripe for senior company.

The Alerts are not doing any crowing, but they feel satisfied that they will have no difficulty in settling the championship of the O.R.F.C., and that they meet the Toronto Club. Marriott will spring a couple of surprises before the game, as he will come next Saturday, when Marriott expects to have Pfeiffer, who turned out a couple of Tiger practices, don a garnet and grey uniform. Pfeiffer is in good shape and will be able to jump into the game without delay.

The addition of Pfeiffer to the team will give the Alerts the complete old Tiger scrimmage, which was recognized for years, with McCarthy at centre, and Stowe at half on the other side, as the greatest trio in the game, and they are all good men yet. These three will form one of the heaviest and strongest string-ups in the game. They are all great defensive players and are exceptionally good for their men.

Spence will be alternated with Pfeiffer. He is the junior who was selected to fill Pfeiffer's vacancy, and as he has done so well that he could not very well be overlooked. He is a valuable man, too, as he can play either middle or outside wing.

It would not be surprising if one or two more men appear with the Alerts. Pfeiffer's decision to turn out with them. The first serious misfortune to be suffered in the garnet and grey camp is the loss of Bud McLeod, the promising young Ontario, who has been given a couple of chances with the seniors this year, and who showed signs of developing into one of the great running backs in the game.

Marriott was banking on him in case of accident to either Becker, Carr or Leckie, but it is said he will never be able to don a uniform again, as he is suffering from heart disease. His condition is said to be serious, and such that he cannot attend the games at all.

Nearly everyone who has seen the Alerts play admit that their win line is the best in the country, and with the exception of the ends, so strong that a change could not be made for the better. Fitzpatrick and Fisher are both improving, but they have yet to show their mettle in a grueling game. Finlay is one of the classiest wings in the country and makes an ideal roger, as he can stop back on the half line in an emergency—Hamilton Times.

Mississauga Golf.

The golf season at Mississauga wound up on the holiday with a contest against Colonel Boney. The colonel defeated all comers, Mr. A. H. Baird, Mr. R. H. Coleman tying each two down.

In the afternoon the annual tournament was held, in which a large number participated. The driving competition was won by Mr. J. H. Forester, the approaching and putting by Mr. George J. Webster, and the putting by Mr. J. H. Forester.

In the championship flights, Mr. John Godfrey and Mr. Fred Hollis, both eminent members of the legal profession, will play off during the week the final in the third flight. Mr. Bruce Langmuir won the second flight. In the first flight, Mr. George J. Webster, who from Mr. G. Mackenzie.

The course will still be open for play, but on temporary grounds.

How to Wash a Bean Pot.

To thoroughly cleanse the utensil in which Boston baked beans are cooked put two or three generous tablespoonfuls of salt soda into the pot and pour in hot or cold water; set the cover in place, letting the water come up over the cover to the very top of the pot. Let stand over night, pour out the water, and with clean cloth (not the towel) and hot water wash thoroughly, rinse several times and wipe dry. Burn the cloth (to save cleaning it). With this procedure the bean pot may be made immaculate in less than five

WRECK INVESTIGATION INTO CAUSE OF WRECK

Continued from Page 1.

clared that Col. Sam Hughes, minister of militia, had ordered all the trains to be stopped...

Many believe that the wreck forms a legitimate and urgent subject of inquiry for the Dominion Railway Board...

General Superintendent J. T. Arundel, who visited the scene of the wreck upon the train that left out from Toronto, said yesterday that all men and despatching officials connected with the wreck had been examined...

The facts are, said he, that Engineer Hart, in charge of the military train, had been given orders to cross the bridge at Streetsville Junction...

The general opinion of railway men as to the cause of the accident, which is corroborated by the story of most of those that were in the wrecked military train, who say that they felt two distinct shocks and a draw as if of heavy braking...

Quartermaster Hutchinson of the 4th Highlanders, who saw the collision, also criticized the nature and quality of the care. He said: "Immediately after the collision I ran to the door of the car and called out that there had been an accident..."

Officers Meet. A meeting of the officers of the 4th Highlanders was held at Col. Robertson's office in the Canada Life Building yesterday afternoon...

Care for Families. The families of the injured will be cared for by the officers and members of their corps. Pte. Foote, who is in Grace Hospital, has a large family...

Private Murdoch, the other of the dead, is a Canadian by birth. He was 24 years of age and was employed as a car checker by the G.T.R. His father died some years ago, and his mother, who has since remarried, now lives in Prince Albert, Sask., where news of her son's death was wired to her yesterday morning.

Did Good Work. The officers of the 4th Highlanders pay glowing tribute to the work done by Miss Annie Morrison of Mimico. Miss Morrison was a passenger on another train. When the wreck occurred she at once offered her services...

Station House. The station house at Streetsville, where the wreck occurred, was closed for several days. It is now being repaired and will be ready for use in a few days.

Brakes Faulty. The general opinion of railway men as to the cause of the accident, which is corroborated by the story of most of those that were in the wrecked military train, who say that they felt two distinct shocks and a draw as if of heavy braking...

Unsafe Cars. Quartermaster Hutchinson of the 4th Highlanders, who saw the collision, also criticized the nature and quality of the care. He said: "Immediately after the collision I ran to the door of the car and called out that there had been an accident..."

STRENGTH FOR THE AGED.

In the morning of life, when the vitality is at its height, when the veins are coursing with warm, rich, red blood, when the tissues are firm and strong, the digestion unimpeded, it is comparatively easy matter to keep up bodies in that state of good repair.

Then it is that you need a tonic—something to build you up, to bring back to your blood its rich warmth, to restore firmness to your worn-out tissues and give you that feeling of radiant strength that the aged as well as the young may enjoy.

WHEAT MARKET RECORDS A FURTHER DECLINE

Chicago Pitt Shows Dull, Draggy Undertone—Big Receipts Affected Sentiment—War News Not Inspiring to the Bulls.

CHICAGO, Oct. 29.—Blizzard conditions expected to interfere with farmers' deliveries northwest brought about an upturn today in wheat, but failed to prevent weakness later, owing in the main to bearish cables. The close was easy, 1/2 to 3/4 under last night. Corn finished 1/2 to 3/4 down, oats 1/4 to 3/8 decline.

Stormy weather in the spring crop belt would have had greater effect on the wheat market were it not for assertions that country elevators were filled, and that the movement to terminal centres would not be hindered much, if at all, by considerable buying, however, resulted from reports that large quantities of wheat in North Dakota have not been shocked. Heavy increase of the European visible supply counted in a decided manner against the bulls, the total having been lifted to nearly the same level as a year ago.

Corn Decidedly Weak.

Unexpected weakness developed in the corn trade. Hushing returns were said to indicate yields in excess of anything ever before obtained. There was general unhappiness in which a prominent speculator was supposed to have had a large part. The October option at one time showed a loss of 4c. Cash grades were feeble.

Northwestern Receipts.

Receipts of wheat at northwest points, with usual comparisons, follow:

Year	1915	1914	1913	1912
Chicago	188	176	153	150
Minneapolis	961	968	723	723
Winnipeg	961	968	723	723
Duluth	519	483	395	395

European Markets.

The Liverpool market closed bid to 1/4d lower on wheat, and bid to 1/2d lower on corn. Endages closed 1/2 higher on wheat, Berlin 1/4 lower.

Canadian Visible Supply.

The visible supply of wheat in the Dominion this week is 14,820,000 bushels, an increase for the week of 2,850,000 bushels, 1,920,000 bushels, an increase of 461,000 bushels. Stocks of wheat in Port Arthur and Fort William this week are 8,840,000 bushels, which compares with 8,300,000 bushels a week ago.

European Visible.

Wheat this week 2,850,000 bushels, against 2,850,000 bushels last week, an increase of 1,850,000 bushels. Last week's increase was an increase of 3,448,000, and last year an increase of 1,700,000 when total was 8,600,000 bushels.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Oct. 29.—The market opened with a duller undertone and prices unchanged to 1/2 higher. The fact that America displays steadiness in the face of the very heavy receipts, is causing nervousness here. Later heavy profit taking developed and prices declined. The very favorable weather and crop news from Argentina together with an expected increase in the visible supply here and private forecast of continued large world's shipments led to a poor demand for forward shipment. Spot markets were easy with little opening week, and private reports of general pressure in continental markets. Corn opened steady, unchanged, later declining 1/2 to 1/4 in sympathy with wheat, and less steady cargoes. The decline was checked by the firmness of Buenos Ayres and the stealer American cables.

ST. LAWRENCE MARKET.

Receipts of farm produce were 1000 bushels of grain and 18 loads of hay, 8 to 12c.

"Complete" Best Describes Our Showing of Men's Suits

The newest and most approved models and fabrics for this season are represented here in garments that signify the highest standards of ready-to-wear clothes. Well dressed men prefer Simpson Clothes for their distinction of style and perfect good taste. And yet the prices are no more, often indeed less, than those asked for commonplace garments. A visit of inspection will prove this to you.
