HODGINS MAKES REPORT ON NORTHLAND INQUIRY

Admits Well-Founded Complaints Regarding Food and Accommodation, But Says Both Officers and Men Partly to Blame.

Ottawa, Jan. 29.—The report of Mr. Justice Hodgins, following the investigation of the conditions on board the troop ship Northland, has been received by the government, and is a most comprehensive one, comprising nearly 41 typewritten pages. Both officers in charge and non-commissioned supply officers returning on the Northland are adversely criticized in the report.

Must Make Good. Under the circumstances it would look as if the exportable surplus stock in Canada could only be sold to Britain at a price considerably below \$2.24 a bushel.

Under the circumstances it would look as if the exportable surplus stock in Canada could only be sold to Britain at a price considerably below \$2.24 a bushel. The government, however, is bound to see that present holders get the guaranteed price and will consequently have to make good the difference between what the wheat is worth and what it is eventually sold for.

BRITISH PARLIAMENT TO MEET FEBRUARY 11

London, Jan. 29.—The new British Parliament, according to present plans, will meet on February 11, with Prime Minister Lloyd George and Andrew Bonar Law, the government leader in the house of commons, attending. The time used in giving the oath to members will be shortened and it is expected that an hour after the session begins, both houses will assemble to hear the speech from the throne. Sir James Lowther will be re-elected speaker of the house.

Returning Soldiers

A party of 460 returning soldiers form the troopship Aquitania will arrive at North Toronto station at 10.30 o'clock this morning. They include the men already reported from H to R, inclusive, in the Aquitania list, and also the men who will help distribute these men to their homes and to the hospitals are requested to be at the station early, as many cars will be needed. Another train will arrive during the afternoon. Time of arrival may be obtained by phoning Adelaide 3180, 3181 or North 3416 and 3417.

GERMAN ARMY NOW LESS THAN 500,000

New Volunteer Force is Said to Be Unorganized and of Doubtful Morale.

Coblenz, Jan. 29.—According to estimates by the intelligence officers of the American third army, based upon reports from all parts of Germany, the organized German army now located in various depots numbers from 300,000 to 500,000 men. The reports indicate that these soldiers are of such morale that they hardly will be available for operations of any extent. The number of men in the army, reports reaching Coblenz suggest, is decreasing rapidly.

DEATH OF FAMOUS KING'S COUNSEL

E. F. B. Johnston, K.C., Passed Away Yesterday Following Lengthy Illness.

DEFENDED CLARA FORD

Figured in Gamey Case and Foster-Macdonald Libel.

E. F. B. Johnston, K.C., the well-known criminal lawyer of Toronto, passed away at his home, 64 Bernard avenue, at 8:30 yesterday afternoon, following a lengthy illness.

Mr. Johnston had been in poor health for the past two years, but he was able to attend to his various duties. On Thursday of last week, however, he took a turn for the worse, and had since been confined to his bed.

The late Mr. Johnston was born at Haddingtonshire, Scotland, on Dec. 20, 1850. He received his early education in Scotland, but came to Canada when a young man, and was called to the Ontario bar in 1880. He was created a K.C. in 1890, and was a member of the Law Society.

He has had long and distinguished legal career in this province. As a criminal lawyer he had few peers. He has been retained in a number of celebrated murder cases. He practiced his profession in Guelph and Toronto, and was a member of the firm Johnston, McKay, Cook & Grant, barristers and solicitors of this city. He has held several important public offices in this province.

He was deputy attorney-general and clerk of the executive council of Ontario for four years. Subsequently for two years he held the post of inspector of prisons. He was honorary president of the Ontario Bar Association and has frequently acted as crown counsel.

He figured in several important murder trials, being leading counsel in the Clara Ford, Hyams, Sifton, Steinhilber and many other cases. He was prosecuted for the crown the Welland dynamite, who are now serving life sentences. He acted for the Ross Gamey charges he acted for the Ross G. Government. He was counsel for the defence in the procees combine case, 1908, and in the Foster-Macdonald libel suit of 1910. His name was frequently mentioned in connection with a seat on the bench.

Other important offices as follows: Vice-president: Royal Bank of Canada, president Title and Trust Company, chairman of the Board of the executive of the Standard Life and Mortgage Corporation. He was an ex-president of the Traders' Bank of Canada, and a member of the Board of the Wellington Reform Association.

He was deeply interested in art and had a splendid collection of modern Dutch pictures and one of the best collections of old Dutch Delft in the west end of Bay street, York, in the Toronto Art Museum. He was also a member of the York and Toronto Hunt Clubs.

He is survived by his wife, who was formerly Miss Schrieber of Barrie, and one daughter, Mrs. Harold Scamard, residing on Admiral road, this city, to whom the obituary notice of a sorrowing community will be extended in their bereavement.

TRIO OF ARMED YOUTHS PURSUED BY POLICE

Harold Staton, 22 Oak street, and Frank Castle, 165 Carleton street, were arrested this morning after a chase from King and Bay streets to York, on charges of vagrancy. Both boys were carrying revolvers, and a second charge will be made against them.

Plainclothesmen Waterhouse and McMahon saw the boys walk down a lane leading to the rear of Score's tailoring store at 77 West King street. They watched them for some time and later followed them in the lane. When the plainclothesmen they were scattered and ran. Knowing Staton and Castle had flashlights the officers took after them.

Running west on King street the two youths ran thru the lobby of the Prince George Hotel on York street. Waterhouse ran thru the hotel, while McMahon sprinted around the corner on York and caught both prisoners at the York street entrance of the hotel.

Staton and Castle were taken over to Court street station, and after they had been placed in the cells a third boy walked in to make enquiries about the two that had been arrested. Waterhouse and McMahon identified the boy and he was also placed under arrest on a charge of vagrancy. George Harrison, 6 Lima place, was the third member of the gang, who practically walked into the hands of the police.

UNKNOWN MAN IS FOUND DROWNED

The body of an unknown man was washed up on the beach yesterday afternoon at Stop 2 on the Lake Shore road. There was nothing found by the police on the body, but a watch that would form a clue to identification.

YORK COUNTY AND SUBURBAN NEWS

YORK COUNCILLORS HEAR S. A. APPEAL

Lt.-Col. Dinnick Outlines Work Done for Soldiers and Widows.

York County Council met yesterday morning at 10 a.m., but soon adjourned until the afternoon. A deputation from the Salvation Army, consisting of Lieut. Col. Dinnick, Messrs. T. Eoden and H. N. Cowan, Col. Otway, Col. Smetton, Commissioner Richards, Brigadier Morris and Major Southall, waited on the council.

In connection with the recent drive, Col. Dinnick outlined the reasons for the appeal for funds issued by the Army, and pointed out the value of the work done by the organization, but provided for the boys still "over there". The money collected were to be used to found maternity homes for the widows and to take care of the children; to look after the boys overseas until the last man returned; and to provide hostels for the men returning daily. He spoke of the prohibitive terms at hotels in comparison with the soldier's pay. The Salvation Army hostels charge \$1.05 per day for bed and three meals in an atmosphere as near that of home as possible. During the recent drive in the city the G.W.V.A. not only endorsed the ideas and ideals of the organization, but provided 100 volunteers, who made a household canvass and collected \$15,000.

The colonel dealt with the need for maternity homes, and the good work done by the organization for the people unable to afford regular hospital care. Such homes are now in operation in Toronto, and the speaker said that the Salvation Army sent members of its staff to help them accept philosophically the fact that at least a few of the stay-at-home was able to provide for himself and family those necessities on Tuesday evening, Feb. 27, to the hon. Premier Hearn assuring the sympathy and support of the government and labor was also behind the appeal. The speaker said the honor to ask the deputation to grant \$25,000 to the cause, and the council to grant \$25,000 to the cause, and the council to grant \$25,000 to the cause, and the council to grant \$25,000 to the cause.

For Orphans. Commissioner Richards addressed the meeting along the same lines, and cited cases where the Army had been of material assistance to widows and orphans of soldiers who had died. Mr. Keith commented on the value of the work done by the members of the deputation, and moved that the matter be referred to the finance committee with instructions to take the matter up as soon as possible. The motion was carried.

D. H. Ramsden submitted the following report of the striking committee: Bylaws of the committee: Messrs. Ramsden, Cornell, Cronberg, M. Garhouse, Keith, Miller and Wallace. Messrs. Ramsden, Cornell, Cronberg, M. Garhouse, Fleming, W. J. Garhouse, Graham Lovejoy, P. J. O'Connell, F. Penner, Fleming, Knowles, Macdonald, A. E. Pugsley, Ratcliffe, Stewart, T. J. and Trench. County property: Messrs. Padgett, Barker, Coulton, Foote, Jackson, Mercer and Mcintosh.

Printing and contingencies: Messrs. Stewart, Anderson, Crocker, Eiland, Mitchell, R. W. and Whitmore. Equalization: Messrs. Whitmore, Wells, Wallace, Trench, Ratcliffe, Foote, Cronberg, Coulton, Fairbairn, J. M. Garhouse, Jackson, Keith, Lovejoy, Knowles, Miller, Padgett, Pugsley and Ramsden.

The report was adopted. The following resolution, moved by Mr. Wells, and seconded by Mr. Keith, was carried. That the constabulary and magistrates of this county be and are hereby requested and required to take stern and stringent action in the matter of the strike of the constabulary, by imposing such penalties as will tend to the betterment of the county, and to the satisfaction of the public, and to the satisfaction of the constabulary, by imposing such penalties as will tend to the betterment of the county, and to the satisfaction of the public, and to the satisfaction of the constabulary.

NEWMARKET The slow sale of Newmarket's municipal wood supply is responsible for the cut in price today. Wood previously sold at \$15 per cord can now be bought for \$12, another kind has been reduced from \$14 to \$12, and limb wood is now sold at \$8 instead of \$9. The above prices include cost of delivery in Newmarket.

FAIRBANK As an indication of the progress made in the North Fairbank and Fairbank districts, despite insufficient transportation for the large body of residents in that section of York Township, a branch of the Canadian Bank of Commerce will be opened at the old Fairbank Hotel, North Dufferin street, in the near future.

HODGINS'S REPORT ON NORTHLAND

(Continued From Page 1).

troops, who has served for over two and a half years thru campaigns which included St. Eloi, Regina Trench, Vimy Ridge, Hill 70, Passchendaele, and also of his staff, and it is a question whether, after the war experiences I have referred to, it would be fair to ask any officer to take the position if it is to be other than as he viewed it, and as needing activity and concentration. The report goes on to state that the conducting party for the Northland was hurriedly made up, only two of its members having had any previous experience. Also as a result of the pressure, the various military district officers had no opportunity to get acquainted with the personnel of their units before sailing. To these two causes much of the consequent confusion and want of discipline was due.

"A lack of co-operation and the workings of a faulty system, together with the shifting of responsibilities on the part of the officers, are held responsible for the disaster to a degree to the discomfort of the voyage. Some of the sections in which the returning men were quartered were in a state of confusion, others had space to spare, involving inadequate feeding facilities and disagreeable living conditions consequent upon the rough weather conditions, which caused sea-sickness in the sections where the soldiers were required to both eat and sleep. The difficulty of correcting conditions of this kind, the finding proceeds: "In short, on this head, I am compelled to find that there were well-founded complaints, both of temporary shortage of food and sometimes of badly cooked food and that there were only spasmodic attempts to remedy the cure—the effort depending upon the persistence of the complainant, or the presence of the ordinary officer, or the willingness of the ship's steward to assist.

Lack of Management. Speaking generally, the chief steward's department, the orderly officer in charge of each military district, and his a.c.o.'s and the officer conducting troops, when the conducting staff would seem to afford sufficient force to tackle these difficulties. None of them managed to do so. "In the matter of the supply of fresh water, and the report holds the supply to have been adequate, closer attention should have been given and the most advised as to when the water was available, the supply having to be turned off at night owing to the danger of freezing.

The refusal early in the voyage to allow the men the use of the promenade deck, a privilege later accorded them, also drew criticism. It was pointed out, as is the lack of discipline prevailing on the troopship. The report says that no ill-feeling between officers and men existed, and that the Polish claims. In the afternoon the Czech-Slovak delegates gave their views on the question of the industrial basin in Silesia, situated between Bohemia and Poland.

On Christmas Day. The men were bitterly disappointed on Christmas morning. A hurried dinner was prepared and eaten in great discomfort owing to the fact that all the tables were encumbered with bedding, etc. "It is unnecessary to discuss this matter, full details of which were in evidence, but it is felt that full credit should be given to the British and French delegates who were present at all present at the conference. Many valuable suggestions have been made, and it is felt that full credit should be given to the British and French delegates who were present at all present at the conference.

HAMILTON NEWS Hamilton, Jan. 28.—A mass meeting will be held in Burlington tonight to discuss the radial situation. Two small fires were reported today, one at 73 Augusta street, the other in a barn near the Strand Theatre. Kenneth Service was instantly killed when he accidentally stepped backward into the elevator shaft at the Pure Milk Company plant. His home was at 53 South Park street.

System Needed. "I find that the necessary accommodation in sections C and E was inadequate to seat or accommodate the troops quartered therein, necessitating long and trying waits, short rations and cold food, and that this condition was aggravated by the way of the going to the galley by way of the upper deck for each cupful of food, and that even where able to find seats, the other conditions were present to the same degree as in C and E. "I find that neither in regard to the berthing nor messing was any systematic attempt made to grapple with the problem.

IMPOSTORS WEAR SOLDIERS' BADGES

Complaints Made That Men Falsely Claim Overseas Service.

During the past two weeks several complaints have been received that men wearing returned soldiers' badges are passing themselves off as having served overseas, and who say that they have applied for financial assistance from the Soldiers' Aid Commission and that they were refused. These men, however, when pressed for more explicit information, have given rather vague answers. J. Warwick of the commission has explained that they must be careful in making loans to all who apply. If the man can produce his discharge certificate and other papers and seems to be worthy of confidence and is in real need the commission gladly gives assistance. At the present time there are scattered throughout the Province of Ontario 143 branches of the Soldiers' Aid and each one of these branches is in charge of a man who has been appointed by the head office of the commission at 116 College Street. These offices act as employ-

ment bureaus for soldiers in their district and also give assistance to soldiers' dependents the same as the Toronto office. When the Military Hospitals Commission went out of existence last year the Soldiers' Aid took over its vocational training work and also its relief work. In the other provinces of the Dominion this is now controlled by a federal commission, but in this province the work is divided between the federal and provincial governments, the latter undertaking the principal share. It has no connection with the Soldiers' Civil Re-establishment Commission or the Soldiers' Re-patriation Committee of Ottawa, which has a general supervision over all the work of getting the soldiers back into civil life. All the names of the returning soldiers are first received by the Soldiers' Aid Commission, who after alphabetically tabulating them, turn the list over to the military. The offices of the commission throughout the province are occupied with the names of the men who are returning to their centres as well. Vocational training is also under the supervision of the Soldiers' Aid Commission, and is given to soldiers whose disabilities are such as to hinder them from returning to their former occupations. The training is given on the condition that the men will take the entire course and will follow up the trade later on. A scale of money allowances is paid the men while they are in training.

SOON NO JOBS LEFT FOR ACTUAL FIGHTERS

"If the government does not bring back the men who saw service in France and Flanders pretty soon there will be no positions left for them, as they will all be taken up by civilians and others," said Mayor Church yesterday. "The first contingents of men are nearly all over there yet, and those that did the actual fighting. The munition workers and low category men, and almost everybody else has had the right-of-way on the transport. If it takes a year to demobilize 300,000 Canadians it would take 25 years to demobilize the British expeditionary force of eight millions at the same ratio. The artillery also should not be needed in Germany and brought home." Preference. Preference should be given to the men who did the actual fighting. Officers are returning in large numbers, notwithstanding that the minister said they should stay with their men and be the last to come home. It is worth noting that the officers could get home on leave during the war, but the privates and men had to stay there and see the war thru, and are not home yet. Ottawa blames the overseas authorities and the admiralty for the condition of boats, and now they are taking off the Olympic, the Mauretania and the Aquitania. These boats should be left on until all the Canadians are home, and I do not understand what the overseas authorities are thinking

TORONTO TERMINALS MAY LAY PIPES

Judgment Given Lays Stress on Non-Interference With Viaduct. The city solicitor yesterday received from Sir Henry Drayton, chairman of the Dominion Railway Commission, a judgment granting the application of the Toronto Terminals Railway Company for the right to lay steam pipes on Scott street from the Toronto Electric Light plant to the new Union Station for the purpose of heating that building. Sir Henry says: "The statutory rights of the Toronto Electric Light Company were challenged. With this question I have nothing to do; it cannot add to them nor detract from them. The Toronto Electric Light Company is not a party to the proceedings, and the question as to whether or not the Union Station Company can obtain the necessary heat and light from them is entirely a question for that company. It, however, says it can." Cannot Forecast. "Looking at the plan apparently the company's stack would not, of necessity, be destroyed, but the furnaces

WOMEN'S INSTITUTES.

About six hundred delegates are expected to be present at the annual meeting of the Women's Institutes of Ontario, which meets on Tuesday afternoon, Feb. 4. The superintendent, George Putnam, will give his annual address and there will be brief addresses on Serbian, Belgian and French relief, also an address on experiences overseas by Rev. C. C. Fidgeon. The subjects of "Houseing," "Canning Centres," "Medical Inspection in the Schools," "Thrift Stamps," and the "Hot Lunch for Rural Schools," will be among those discussed.

DEMOLIZING R.A.F.

F. P. Hambly, chairman of the board of education, has received an application from the commanding officer of the Royal Air Force, for the use of the new Jesse Ketchum School building until the end of February. The letter states that the demobilization work there requires a month longer than was recently expected. The application will be dealt with at the board meeting on Thursday evening, Feb. 7.

STILL HELPING SOLDIERS.

Seldom, even in war days, were the headquarters of the Women's Patriotic League more busy than they are now in connection with the shower for the destitute Serbians. Yesterday two women were busy at knitting machines turning out socks in long lengths like sausages. A third woman stood by one of the machines ironing the product as it came from the knitter and cutting every sock from its nearest neighbor. Still another was busy recording the donations in a great book, which was simply plethoric with records of offerings. Great cases set out ready packed and closed, while loud hammering told that others were still under way. Cases are going out at the rate of five daily. About two thousand blankets have been acquired thru the "shower," also quilts, warm clothing, cases of soap and other needs. The workers hope that donations will come in rapidly for the remainder of the week, as it is the hope to close by the end of the month. The Queen Mary Needlework Guild, co-operating with a number of societies, is responsible for the success of the undertaking.

WOMAN ON JUVENILE COURT.

The United Women Voters of Toronto have passed a resolution asking that the city council appoint a man and a woman to the juvenile court, pointing out that in Vancouver, Calgary and Montreal women had proved very successful as judges.

of it. Apparently they are not supposed to be worth bothering about in any way. The chief aim seems to be to keep them off of the streets, and locked up in some institutions. Of course, we will admit that after they are sentenced to a reformatory they get all sorts of chances to reform, and make themselves Christians, but it just so happens that we do not believe in that brand of reforming. Telling a prisoner how well and happy you feel in your religion is not going to make them any better. And for that matter it is quite safe to say that not one girl in a thousand cares whether you are happy or whether you are not.

definite periods, it should be she. In the latter institution, the Mrs. O'Connor may be an excellent woman, still we feel that she should not have any jurisdiction over a prisoner. What right has she to open the doors to one woman when there might be a dozen in the place who are entitled to be out? The same applies to Father Bench. There is no doubt but what both Father Bench and Mrs. O'Connor are good people in their own line, but that should not extend to timing the length of prisoners' sentences. Also, there should not be so much secrecy about the Home of the Good Shepherds. It is not a convent, but an institution for the reforming of girls handed over by the government authorities. It should be open to the view of the public. That is not the case. It is doubtful whether a police officer would be allowed to trespass beyond the inner door, let alone one not in authority. The Mercer Reformatory is open. You can go thru and see for yourself what is being done to help the prisoners. Nothing is concealed from your sight, and if you have a suggestion to make it is open to the authorities. You could find a better audience than Mrs. O'Sullivan, who is the superintendent. Also when the mother superior of the Good Shepherds told The World on Tuesday that she did not have any idea how many prisoners were in the house at the time, she must have been making it up, either that, or she misunderstood the question. The mother superior like the superintendent, could not help knowing how many women were in the place. As for prisoners being given music lessons, that is quite too absurd. The government may be wonderful, but it is not that generous, and the persons in authority in the institu-

tions are too busy getting their rest after the hours of laborious work are over to be annoyed with even the thoughts of music. Of course, the women may be permitted to go into a recreation room now and again where there is a piano, but if they cannot amuse themselves, the music will be rather conspicuous by its absence. Let us get away from all the "dream" stuff, and deal in hard facts. Look the situation in the face as it is, and not as the officials would like you to think that it is.

Women prisoners in Ontario are not getting a square deal, and they never will while they are being locked up in places where ordinary people are not allowed to go. Clear away all the mystery, and let the sun shine in for a change. Make the reform system one which will be talked of the world over. It can be done, but not while the government allows its eyes to be bandaged, and keeps its hands tied behind its back. We trust that Mr. Greer will shake this case to its foundation, and he has the speed to do so if he only will.

BAPTIST CONFERENCE CALLED. S. J. Moore, Prof. J. H. Farmer and Rev. Dr. John MacNed, pastor of Walnut Road Baptist Church, yesterday issued an official call for a two days' conference in Toronto on a definite forward movement as a denomination. The delegates from Ontario and Quebec to the recent interprovincial convention are called upon to attend. Great money-raising campaigns for Baptist funds will be proposed. The convention will be held in Jarvis Street Baptist Church on Tuesday and Wednesday, Feb. 25 and 26.

West Toronto G.W.V.A. held a delightful social at St. Julian Hall, Bloor street and Lansdowne avenue, last night.

DENONCES RAILWAY BOARD

Mayor Church very hotly criticized the Ontario Railway and Municipal Board for action yesterday afternoon. "All they do," said his worship, "is to draw their salaries and adjourn hearings. Several municipalities have demanded their reorganization and the dismissal of the members. They have allowed the Toronto Street Railway to trifle with the public for years. Over \$100,000 was spent by the board's order in securing experts and not an extra car is on the streets. The board is a farce."

COMPETITIVE SCHOOL PLANS

Conditions for the competitive plans for the new schools on Glen Grove and Glenholme avenues are to be reported by Superintendent Bie to the property committee of the board of education at the regular meeting of the committee at the administration building this afternoon. Action is also to be taken in the report made two weeks ago by Chief Inspector Conroy on the overcrowding of certain schools.

LABOR NEWS

W. C. Hagen, business agent for the International Union of Machinists in Toronto, again emphasized yesterday afternoon the need of lessening the hours of work in the skilled trades in order that the largest number of men might be employed under the best circumstances, thus remedying the present situation of employment in Toronto and other large industrial centres. This was the direct result of the request of the machinists, he said, for the six-hour day for the eight-hour wage. James E. Miller, secretary and business agent of the International Brotherhood of Railway Clerks, Freight Handlers and Station Employees, was of the opinion that the principle itself was extremely sound, but that the six-hour schedule was too radical for present consideration. He believed that there were no measures which were radical in themselves, but that the time for bringing them into consideration was the factor which made them apparently radical. "What was obvious to me today was not only possible to improve, but was carried into effect with the greatest ease, thru the medium of that evolutionary process of thought which education alone could attain. It must be remembered, said Mr. Miller, that the employer needed education at least as much as the employe, and the former was the harder man to educate because of his assumed ideal of might as the first consideration in the employer's session. There could be no doubt that radical measures, that is measures brought up for consideration before all parties were sufficiently educated to digest them, would defeat their purpose. Progress and thorough organization is the slogan of the Painters and Decorators' Union, returned soldiers being induced to consider the benefits accruing from organization. At the last session of the local union 16 new members were organized, half of this number being returned soldiers. Canadian musicians are organized to the extent of 64 locals. The majority of these musicians are the favorites of the playgoers, practically all the bands of theatres in certain sections of the Dominion being represented at the Trades and Labor Congress of Canada. Five more factories have been added to the influence of the silversmiths' union. Forty-five new members were initiated at Tuesday's session. Street railwaymen will hold a mass meeting on Friday at midnight to solve the problem of the recent award of the board of conciliation, which granted them at the best an increase of only two cents an hour. BELL TELEPHONE FINANCES

Few companies are in a better position than the Bell Telephone Company. The following facts have been culled from the reports of Finance Commissioner Bradshaw.

Authorized capital \$30,000,000. Subscribed and paid-up capital 18,000,000. Capital not issued \$12,000,000. During the war the stock has sold as high as 150, and is now lower than 120.

Bonds may be issued up to 75 per cent. of the paid-up capital. Bonds already issued \$11,149,000. Bonds which may yet be issued \$2,251,000. The bonds are quoted on the exchange at 91 and 94, and consequently yield about 6.3-6 per cent. They sold as high as 105 in 1910. They carry interest at the rate of 5 per cent. and are highly favored by investors.

WILLS AND BEQUESTS

Lieut. Felix Oliver Boite, who was killed in a battle while serving with the Third Battalion in France, left an estate valued at \$20,825, of which he bequeathed \$5,000 to his cousin, John Y. Drivas, 151, new street, and his brother, Augustus Armour Boite.

His widow, Mary Jane Lawrence, and two children will inherit the balance of the estate. Lawrence died March 17, 1917, leaving \$10,127. He died intestate and by law the widow will receive one-third, and the children two-thirds.

Elizabeth Archer, who died Jan. 5, left her entire estate, valued at \$3,787, to her husband, James Archer, Mimico, whose death it will pass to her son, James H. Archer.

Gunner Gordon Stockley, who died of influenza in Halifax, while on his military service, left his estate of \$34,000 to his mother, Mrs. J. Stockley, who lives in Newfoundland.

A will made in 1901, Isaac Ashcroft's estate of \$620 to his daughter, Mrs. Elizabeth H. Toft.

Hydro to Experiment in Effort to Secure Better Illumination.

That an improved system of street lighting was badly needed in Toronto, was the consensus of opinion expressed at a conference held in the office of Property Commissioner Chisholm yesterday morning which was attended by H. H. Cousins, general manager of the Toronto Hydro-Electric system.

The exhibition will take place in a section of long street north, and in Avenue road. It is understood that in place of the tungsten lamps which are in use at present a new type of nitrogen lamp will be adopted, should the test prove satisfactory, and a lamp globe will be substituted for the tungsten globe which is not so heavily frosted and which is possible so as to give the maximum amount of light over the same distance.

BURIES HER LOVER WHILE HUNS SEEK

Thrilling Situation in "The Greatest Thing in Life."

How to hide her sweetheart, with the Hun walking upstairs, and he too injured to move further is one of the exciting situations Jeanette Peret has to face in "The Greatest Thing in Life." D. W. Griffith's latest Artcraft picture which is showing at the Allen Theatre this week. Dainty Lillian Gish has the stellar role. He was too heavy for the slender girl to carry, and her aged aunt couldn't help much. All about here were sacks filled with sand protecting the family from the Hun bombardment. The idea of the picture was to show the girl, until only his face was visible. But he must breathe or he would smother while the Germans were making their search. But discovery meant death for all. Then he winced, something under him was hard. He started to remove it. In his hand he held a cigar holder that he carried always. Instantly the plan was completed. A handkerchief with a square remove for his mouth was put over his face. The stem was placed between his lips. Then all was covered, with just the rim of the holder visible in the sand. The Germans looked but did not see it. They threatened, bullied and produced and poked but found nothing. At last they left and Mon. Le Bebe was safe. Not for long however. The affairs of Mon. SKY-BLUE LEGISLATION TO PROTECT INVESTORS

It is understood that the Ontario Government is considering the advisability of the enactment of "sky blue" legislation to protect the investors from the province from the unscrupulous promoters of unsafe stocks. The proposition now under consideration is the appointment of a government board or individual who shall investigate all corporations which are asking for the privilege of floating stocks and report to the Government upon their stability. Similar legislation is now in force in several states of the union. The removal of the restrictions placed upon the sale of stocks by the minister of finance during the war and the possible flotation of a large number of new stocks has caused the provincial government to give consideration to the matter. In addition there are about 1,000,000 holders of Victory bonds in this country, and it is feared that a large number might be induced to exchange their safe investment for stocks alleged by their promoters to yield a far larger return, but which should later prove to be worthless.

SHOP BREAKERS SENTENCED

William Gillespie, George McLeod, James Matthews, Thomas Cooper and Ernest Tomlinson appeared before Judge Winchester in the criminal court yesterday, charged with shopbreaking during the police strike. Among the places broken into were the H. A. Wilson, Co., Percy McBride, Harold Tucker, and the Jaeger Co., where numbers of sweaters, gloves, ties and other articles were stolen. Also more than \$800 worth of goods has been extracted yet the police succeeded in recovering very little of the loot. One of the boys, McLeod, was in uniform, and he was sent down for two months. Gillespie received two months, Matthews one month, Tomlinson two months and Cooper, who was proved to be innocent of theft, but guilty of receiving, was let go on suspended sentence.

WHAT POTATO THRIVES BEST IN ONTARIO?

The Ontario Department of Agriculture will conduct on a wider scale than ever during the coming season the two-fold program inaugurated a year ago of producing a high standard of seed potato and making a survey to detect diseases. Reports of experiments conducted during the past summer indicate that two varieties of potatoes, the Irish Cobbler, early seed, and the Green Mountain, have produced exceptionally well, and there is now much discussion as to the variety best adapted for general use. Seed of these two varieties were planted in experimental plots in northern and southern Ontario and New Brunswick, and the results when the yields from all sources were combined show that the Irish Cobbler averaged 142.1 bushels to the acre and Green Mountain 164.4 bushels. It is estimated that 16,000 bushels of this certified seed were obtained in northern Ontario, and this amount will be used in old Ontario for seed this year. An extensive survey of 32 counties in the southern part of the province was made by the inspectors of the department to detect diseases common to the district. It was found that an average of 15 per cent. had the more serious disease of leaf roll and seven per cent. affected with mosaic. The average for the two diseases was 22 per cent., but they were found to be more prevalent in certain communities, as in Haldimand 29 per cent. of the crop was found to be affected, Welland 61 per cent., Peel 51.5 and York 25.4 per cent. Experiments are now being conducted in an effort to find a remedy for these diseases. The department believe that the

Chairman Suggests Company and City Enter Into Arbitration Now.

Representatives of the Toronto Railway Company who appeared before the Ontario Railway Board at the parliament buildings yesterday morning to explain why they had not carried out the order of the board, issued in 1917, to place more cars on the street in order to complete the completion of certain statements. Chairman McIntyre, apparently resisted with the contention between the City of Toronto and the Toronto Railway, suggested that as this was the day of armistices that the company and the city enter into arbitration now to take over the system instead of in 1921.

D.L. McCarthy, who appeared for the railway company, did not encourage the suggestion, and pointed out that the first move was up to the city, but he would submit the matter to his clients. J. S. Fairly, for the city, did not think that the company would do anything, but he would place the suggestion before Commissioner Harris and Mr. Bradshaw, who could take it up with the board of control if they so desired.

Training the Invalided Soldier

WHEN the first Canadian casualties were announced every heart in Canada thrilled with the thought—"What will the country do to help these men overcome the handicaps they have suffered?"

Since that day Canada has been quietly developing a wonderful organization to help restore the strength and earning capacity of her invalided soldiers.

This work is in the charge of the Department of Soldiers' Civil Re-Establishment. It is divided into three classes.

Ward Occupations.

Soldiers who, on account of their injuries, are confined to wards or to their beds in hospitals are taught handicraft work of various kinds. This work is not meant to train a man in work by which he could earn a living. It is encouraged rather because it diverts the soldier's mind from his disability, and gives him light exercise. In this way it assists wonderfully in the soldier's recovery.

Occupational Therapy.

This work is conducted in hospitals. It is intended mainly to help in the cure of the patient. But it often serves as the ground-work for a course in Industrial Re-training. The following gives some idea of the breadth and scope of the subjects taught in these classes:—Mechanical drawing, woodworking; boot and shoe repairing, machine shop practice, gardening, poultry raising, civil service instruction, book-keeping, stenography, telegraphy.

Industrial Re-Training.

When a man is so injured by war service that he cannot follow the occupation or trade that he worked at before

enlisting, the Department trains him for a new occupation.

For this work, use is made of Technical Schools and Universities at fourteen centres throughout the Dominion. Here primary training is given by specially planned courses. This helps a man begin his actual re-training work intelligently.

Most of the re-training is given in actual factories and shops. Hundreds of large and small concerns have co-operated whole-heartedly in this work—placing at the disposal of the Department, without charge, their equipment and the services of many of their staffs.

Ninety-five per cent of those who have been granted "Industrial Re-training" courses by the Department have been successful in becoming self-supporting in a new trade or occupation.

These benefits are given by the Department to ex-members of the Canadian, British and Allied forces living in Canada, who come within the classes for which these benefits are provided.

During the period a man is being "Re-trained" he and his dependents are granted adequate pay and allowances.

To any one interested in the work of this Department information will be gladly given on application to—
