Synopsis of Chapters Printed. In the first instalment of his story Dr. Fred. A. Cook told of the start from Gloucester on the "Bradley." of the voyage to the polar seas, and of the overhauling en route of the equipment needed for

the dash to the Pole. In a graphic manner, the discoverer wrote a story of Eskimo life that never has been excelled for human interest. He told of the home life, the tragedy and comedy that mingle in the dreary existence of the dwellers in the Arctic, and of the child-like eagerness of the natives to trade their valuable furs and ivories for the simplest things of civilization. In the second instalment, Dr. Cook describes the voyage to Etah

In the fourth instalment Dr. Cook describes the approach of the long Arctic night, which caused his party at Annotook to become very active in preparing for the dash to the Pole; as well as telling how the sledges, canvas boat and food were prepared.

and told of the gradual reduction of the party. In the sixth instalment the discoverer told of the first progress of his little party and the last sight of land, and his adventures on the perilous trip with the two Eskimos who went to the Pole with him. In the seventh instalment Dr. Cook told further of the perils encountered, including an incident in which he nearly lost his life. In the eighth instalment Dr. Cook gave a vital picture of the

Dr. McLaren to Father Roche.

Rev. Dr. McLaren, on behalf of the Presbyterian mission board, has sent the press the following authoritative reply to the recent strictures of th Roman Catholic authorities on work of the former church among the Ruthenians in the northwest.

"The work of the Presbyterian Church amongst the Ruthenians of the northwest was undertaken some years ago at the request of the Ruthenians emselves, who represented that pra themselves, who represented that practically no provision was being made for their religious needs either by the Roman Catholic or by the Greek Church. Investigation showed that they were not only being neglected spiritually, but also that little, if anything, was being done for their physical well-being or their intellectual improvement. \$340 PIANOS FOR \$235

OUR MENDELSSOHN PIANO CLUB

THIS MENDELSSOHN PIANO CLUB IS OPENED TO DAY TO ACCEPT FIFTY MEMBERS as purchasers of time-tried Mendelssohn Pianos, providing the members with exceptional purchasing advantages.

THE ADVANTAGES OF THE CLUB—A wholesale price for one piano to each member; immediate delivery of piano on membership enrolment; three years during which to complete payments; the usual manufacturer's guarantee, and, in addition, our special five-year guarantee and option of exchange, in case the member desires later to exchange for higher-priced piano.

HOW THIS MENDELSSOHN PIANO CLUB IS POSSIBLE—First, through our faith in the Mendelssohn Piano, and, secondly, through our faith in the public. The Mendelssohn Piano Company, having decided to make certain changes in the case design of a popular style, found themselves with a large number of this style piano on hand. Wishing to clear them out at once, they efferted us a cut in price to take them all. Here's where our faith in the piano and in the public is made manifest. WE BOUGHT THEM—AND AT A SAVING LARGE ENOUGH TO JUSTIFY THE CLUB PRICE.

The Club Offer.

Having decided to furnish these fine, new Mendelssohn Pianos through the co-operative advantages of a club, they will be shipped or delivered to the first fifty persons who shall be enrolled as members of the Mendelssohn Piano Club, on one or other of the fol-

accepted by and enrolled in the Club and the piano being to pay the monthly or quarterly payments until the purchase price is met. There is no interest charged; there are no extras. A fine stool is supplied with each piano, and in lieu of supplying a piano box (necessary with out-of-town members), the first tuning will be done free of charge for members within or contiguous to city limits.

As already intimated, the pianos are made by the Mendelssohn Piano Company, whose factory is located here in Toronto, and who have during the past twenty years supplied Canadian piano buyers with over 7000 satisfactory pianos. They are instruments of rich, musical tone, sweet and sympathetic to the topmost note, and responsive to the moods of the player and accompanist.

The cases are of handsome mahogany and walnut in design as per illustration). Their description and dimensions are as follows:

Height 4 feet 6 inches, depth 2 feet 3 inches, width 5 feet 1-1-2 inches, 71-3 octaves, overstrung bass, three strings in unison, patent improved repeating action with nickel-plated brackets and rail, improved iron frame, compound sectional wrest plank, three pedals with puffer or practice attachment, double fall board, continuous nickel hinges, automatic full length music desk, and ivory and ebony keys:

Toronto Polo Team Defeat Montreal By Score of 6 to 4

The Toronto polo team defeated Montreal yesterday afternoon at the Woodbine by the score of 6 to 4 in the second game of the series between Buffalo, Montreal and Toronto for the cup donated by the Canadian National Exhibition. Buffalo and Toronto have now one win aplece, and will meet in the final game Saturday.

The match was exceedingly interesting but few spectators were present to enjoy its fascination. The game was fast at all stages, and altho Montreal scored first the game looked all favorable to Toronto until the eighth period, when Montreal began to get in some fine work, resulting in a score for the visitors in the eighth, one in the ninth and another in the tenth.

FOR RADIAL RAILWAYS

to Reads Coming to Centre of the City.

In the unusual circumstances of the case of Mrs. Robinson, accused of murder and sentenced to be hanged early in November, a petition is being chrculated by Dr. Augusta Stowe Gullen asking for a new trial.

The fact that the verdict of the jury was twice given for acquittal is a substantial ground for the request, and it is the view of the petitioners that official steps should be taken at once to interest the public and to intercede for Mrs. Robinson to prevent the extreme penalty being enforced.

George Faulkner, the real estate relieved and cured simultaneonusly wit man, has made a considerable study of the radial railway question, and some of his suggestions are well worth consideration. If there were any spirit of co-operation in existence, he thinks an agreement might readily be reached by the city and the company.

Quick transit is the order of the day, and the only way to arrive at that is by tubes. This, is Mr. Faulkner's

matured conviction. It is 12 3-4 miles to Port Credit, for

example. The distance ought to be done in half-an-hour. It takes an hour and a half from Yonge-street. Three hours a day in travel is too much to lose for a buyiness man, whose time The radial roads must do better than

this if they wish to compete with the steam roads. Mr. Faukner points out that the Toronto and Hamilton Radial Company has a right of way to Ronces-valles-avenue, and thence either by tube or elevated rail to the centre of the city.

Municipal Right of Way. But a multiplication of lines in the city is not desirable, and Mr. Faulkner thinks the city should buy an pendent right of way for the three her to commit the deed was brought to trial.

The occasion was the annual meeting of the association in the People's Institute, and satisfactory reports were read by the officers. Dr. Margaret acted to maintain and keep the read in follow. Sufficient tolls would be ex-

The Grand Trunk Railway should

offer no objection to this plan, for its line to Hamilton is over-taxed now and carries all the trains the headway will permit. Relieved of the C.P.R. traffic a better suburban service could easily be inaugurated. The Grand Trunk has also in hand a plan either to depress or elevate its tracks from the Humber to Bathurst-

street. It would be possible over either of these last mentioned routes to arrange for an entrance for radial freight cars, or if this was not feasible the steam roads could be parallelled with electric lines at a greatly reduced Another ready approach to the city centre for the radials is by way of the old Grand Trunk Belt Line. This could

be joined on any side of the city by the radial roads and would afford a convenient approach.

If the radials were as eager to get an entrance to the city as they are to use their franchises as a means to compel the city to prolong the street car franchise, there would be no difficulty in arranging the matter to the satisfaction of everyone.

FIRST AND SECOND CHOICES AGAIN WIN

Richard Reed Wins Handicap at Hamilton, With Stable Companion in the Place.

Favorites and second choices again divided the card the third day of the Ham- also ran. ilton Jockey Club fall meeting. The talent had much the better of the books during the day. The attendance was fair ing the day. The attendance was fair in spite of the unpleasant weather, it being cold and windy with light rains falling during the afternoon. The usual crowd from Toronto numbered about 800.

The feature event of the day was the Royal Capadian Handicap for all ages at 6 furlongs. The winner turned out to be Richard Reed from the Bedwell stable, with his stable Mate, Right Easy, in the place. They had the race between them all the way, winning easily at the end. Martin Doyle, Sewell and Booger Red were all played heavily to win. Ganz on Hasty Agnes was crowded into the fence on the back stretch, knocked off and apparently badly hurt.

Greenvale Easy Winner. Greenvale Easy Winner.

BELMONT PARK, Sept. 30.—Greenvale, at 6 to 1, easily won the filly end of the Matron Stakes to-day. The race was worth \$500 to the winner. On the strength of a report circulated early in the day that the filly had run away three miles yesterday morning, she went back in the betting after opening at 3 to 1. Flying Footsteps, a long shot, led to the final furlong, when Gilbert sent Greenvale into the lead and won easily by three lengths. Fair Louise was second two lengths before Indian Maid. Summary:

FIRST RACE, \$400 added, 5½ furlongs, straight:

NOVA SCOTIA AND SPELLING

Wotwithstanding the heavy artillery of conservative philologers and the lighter raillery of the scoffer, spelling reform is making steady headway. Quite a number of reputable newspapers, journals and magazines are employing revised spelling in more or less degree, and it is perfectly safe to say that the some readers may have an occasional jar.none are at all inconve nienced. Spelling is merely a matter of habit. There never has been any recognized literary standard, and the license taken by the greatest modern poets has anticipated many of the rewised versions that have elicited adverse comment. Reconstruction of the present confused system in the spelling of English words is bound to come in the natural order of things. It cannot be defended on logical or philological grounds, and were reform accomplished less than a single generation would suffice to make it a habit and to induce wonder that it had not

been long before accomplished. It is interesting to know that this year the calendar of the Normal Co!lege of Nova Scotia is published according to simplified spelling rules. Referring recently to this innovation, the provincial superintendent of education thanked the press of Nova Scotia for its judicious deliverances on the matter of spelling reform. To its support he attributed the fact that the education department, the Normal College and the University of Dalhousie had authorized their teachers and students to use at their discretion either the conventional or the improved method of spelling. This is the beginning of the official recognition of a movement against which no argument of any account has ever been offered. Before the end of the century present spelling will be regarded as archaic and the new generation will wonder why the advantage of harmonizing the spoken and written word was not earlier recognized. Nova Scotla, however, has again shown its determination to keep in the van of educational progress.

A SAD CASE.

Appeal has been made to The World on behalf of Mrs. James Robinson, the unfortunate woman now lying in Sudbury jail under sentence of death. Her case is exceptionally repulsive and at the same time unutterably sad. The details are totally unsuited for public discussion and there are also physiological and psychological features which can only be satisfactorily submitted by competent medical experts. But at the same time there are also some general considerations which can be urged for the remission in this in-

stance of the last penalty. No one could read even the brief summaries of the trial that were published without at least a measure of sympathy for the unspeakable tragedy of her position. While not necessary to extenuate the crime of which she was accused, British practice has always considered that where husband and wife are concerned, the woman must be taken as subject to his influence and that therefore hers is the lesser guilt. Opinion will not be lacking that, without questioning the propriety of the judge's action, the law in Mrs. Robinson's case was perhaps too Uterally interpreted and that greater

latitude might have been given to the versy with the British officials and the

'Monsigor Walsh, Bishop of Portland, intends, so it appears, to cause the parish of St. Joseph De Biddeford to purchase the Good Shepherd Convent.
In virtue of a law passed at Augusta by which his lordship is called the corporation soul, the bishop becomes proprietor of the properties which the parish purchases or builds.

Monsignor Walsh, who is a noted assimilator of the races, is credited with the intention of substituting the Irish Sisters of Mercy for the Canadian Sisters of the Good Shepherd and to break the contract already existing between the Canadian Sisters and the parih, in order to increase the sum per head

from \$100 to \$200. "In fact Joseph Cote writes to The Messenger, declaring that a formidable revolt will take place if this measure is carried late execution. LOT IN PORT ARTHUR IS A GOOD INVESTMENT

City is Growing Rapidly and Real Estate Values Will Steadily Increase.

One of the most interesting real estate propositions presented to the public of eastern Canada during the presem year is that of Prince Arthur Heights, beautifully situated overlooking Thunder Bay in the City of Port Arthur A. C. Jennings & Co., the wellknown real estate brokers of this city, known real estate brokers of this city, have been particularly fortunate in acquiring this magnificent block of land under conditions which have made it possible for the firm to place lets on the eastern market at figures that seem incredibly low, considering the rapid growth of Port Arthur and Fort William, and the industrial expansion which is now in progress in the Twin Cities.

Prince Arthur Heights is within a ten minutes walk of the business section of Port Arthur. Situated as it is on an elevation it presents an excellent view, pure air, and unexcelled

dollar invested there may be said to dollar invested there may be said to be the whole security of the Dominion of Canada, for Fort William and Port Arthur are national in location, and their growth has been always in harmony with the general expansion

of the Dominion as a whole.

A. C. Jennings & Co. have presented Prince Arthur Heights to the public in a quiet, dignified and reasonable manner. They have endeavored to quietly explain the situation and hundreds of pamphlets on Port Arthur are dreds of pamphlets on Port Arthur are being sent out telling of the industrial, commercial and residential conditions of the place. They have pointed out that a lot purchased at Prince Arthur Heights now at \$100, in payments covering a period of two years, should be worth from \$300 to \$1000, when the final payment falls due. Certainly there seem to exist very good reasons in support of 'Mr. Jennings' contention that this is an exceptional chance to make money by the natural rise in real estate values, in the City of Port Ar-

Port Arthur-Fort William

Population 32,000

The Twin Cities are destined to be one of the great Canadian centres of population. Their position at the head of inland navigation makes their position of national importance.

To have faith in Canada is to have faith in the future of Port Arthur. Great fortunes have been built up by judicious investment in the real estate of growing cities.

PRINCE ARTHUR HEIGHTS

We again direct your attention to

This is an ideal residential block on a beautiful plateau overlooking Thunder Bay, where converges the inland lake marine in Canada in moving the traffic of the west to the seaboard. Here are located the greatest grain elevators of the world. Three great transcontinental lines of railway converge with their immense traffic. Miles of freight sheds have been erected. Great industries are springing into life. A fine street car system is doing a growing and profitable business. Splendid water powers have been developed and are delivering electrical energy for commercial uses. Other water powers are coming under development, and the cheap electrical power available will be unlimited. A half-million-dollar hotel is in course of erection. A great shipbuilding plant is being installed to employ hundreds of skilled artizans. The thrill of conscious expansion permeates all lines of business. The Twin Cities constitute one of the best commercial centres in Canada.

Send to-day for application forms and booklet telling all about Port Arthur and Prince Arthur Heights.

Simple to Create Demand It is entirely simple to create a demand, and keep it growing, for some-thing good at a fair price. If you have a mail order article your distribution need not worry you, for practically it is under your own roof.

Then your problem after the ques-tion of manufacture is settled, involves 'copy" and the selection of advertising media, and proper follow-up literature. Get some advertising agent who has the reputation of integrity, and who is serving a list of high-grade clients. You cannot afford, if you are a begin-ner in advertising, to risk your judgown, and you cannot afford a cut-rate man at any price. You may ask, "How did the right kind of agent ever get ahead?" An agent who understands his work, who has the right enthusiasm and understanding, will "do things" in the advertising world and gain excelclients, in spite of all the abstacles that flesh is heir to. He does not need any help. He helps himself. You'll find him already established. There are many in New York. If the merchant, or the ordinary business man, or the manufacturer, has

A Few Basic Rules No two advertising problems are exactly alike. And there are a few basi principles by which the advertise may classify nearly everything and fix rules for himself which he may fol-

In New York, headquarters for an immense number of mercantile enter-prises, (where most of them could market half of their product and where the majority of them overlook it), the advertiser can introduce his goods with the newspapers alone with ease on a moderate appropriation. MIGHTIEST BATTLESHIP

Neptune is "the Last Word" in Men-'e-War-Unsinkable by Torpedo.

Neptune, Great Britain's eighth battle-ship of the Dreadnought class, or her eleventh, including the three battle-ship cruisers, was successfully iaunch; ed here to-day by the Duchess of Al-bany. The bulkheads of this super-dreadnought are so heavily armoured that experts consider her practically

The Neptune was commenced at Portsmouth, Jan. 9, of this year. She has a displacement of 20,250 tons, length 510 feet, and beam 8@freet. She is consequently ten feet longer and two feet wider than any of her pre-decessors. She exceeds the Dreadengines of 24,000 indicated horsepower, giving a speed of 21 knots an hour. The Neptune has been described as "the last word" in battleships. Her ten twelve inch guns will be of the new fifty calibre pattern, which has a greater range and penetration than the twelve inch guns now in use, and in addition she will carry four inch guns for repelling torpedo attacks. SURE SIGNS OF A BULL MARKET.

World Office

Thursday Evening, Sept. 30. Dominion Coal came into prominence at the Toronto Stock Exchange to-day. C.P.R. was also active and higher. The rise in these issues, and a small decline in other stocks which have had a good advance, is the surest evidence of what is termed a bull market. The market as a whole is thoroly consistent with outside conditions, and further upward movements can only be governed by the extent to which outside speculation comes into the market. Holders of stocks can profitably sit tight until the buying power now in force shows some indication of having spent itself.

TOO FREE WITH REVOLVERS Dominion Coal Company Police Fire

on Harmless Crowd. cial).-After a shooting affray between strikers and Dominion Coal Company

mine, is the seashore, and along the cliffs facing the sea appear small seams of coal. These are of little or no economic value. From these seams, boys and poor people had been digging some coal and carrying it away in horse.

The land is included in the Dominion Cog 200 Coal Company leases, and the officials had forbidden digging coal from these seams. Along this headland is a favorite resort of idle persons. Two boys were seen taking a bag of coal from the cliff, and four policemen armed with revolvers, proceeded to arrest them. Acrowd gathered about the policemen and commenced teering them. The police fired first in the and the second then into the crowd. One man had his car shot off. The wounded men were charge of "unlawful as-

145 CARS AT CITY YARDS

Trade Quiet at Tuesday's Prices-Sheep, Lambs, Calves and Hogs Steady.

The three railways reported receipts of live stock at the city market on Wednesday and Thursday as being 145 carloads, consisting of 2590 cattle, 2564 hogs, 2500 sheep and lambs, 143 calves, and 1 were of the common to medium class.

Trade was quiet, but steady, the good quality butchers, and feeders, being really picked up as there were plenty of buyers for both.

Prices, as a rule for butchers' cattle, were much the same as on Tuesday, as will be seen by the many sales given below.

Mill feed-Manitoba bran, \$21.50 to \$22 per ton: shorts \$24.50 to \$25, track, To-ronto; Ontario bran, \$22 in bags. Shorts, \$2 'No sales of export steers were reported, but a few bulls sold at \$4.25 to \$4.60.

Butchers. Ontario flour-New wheat flour for export, \$3.90 to \$4, outside.

Geo. Rowntree, who bought \$20 cattle, for the Harris Abattoir Co., quoted prices as follows: Steers and helfers, \$4 tq \$5.15, with a few prime quality at \$5.40 to \$5.50; cows, \$1.50 to \$4.10. Over 400 of these cattle were from the northwest. St. Lawrence sugars are quoted as follows: Granulated, \$4.85 per cwt., in barrels; No. 1 golden, \$4.45 per cwt. in barrels. Beaver, \$4.55 per cwt., in bags. These prices are for delivery here. Carlots 5c less. In 100-lb. bags prices are 5c less. Stockers and Feeders.

Harry Murby reports good to choice quality feeders as being in demand at good prices, while common quality stockers and feeders are cheaper. Mr. Murby, who handled a large number during the week, reports prices as follows: Best steers, 900 to 1000 lbs., at \$4 to \$4.50; steers, 800 to 900 lbs., at \$3.25 to \$3.76; best stockers, \$3; common stockers, \$2 to \$2.25.

Milkers and Springers.

There was a steady trade for all good

J. P. Bickell & Co., Lawlor Building, report the following fluctuations on the Chicago Board of Trade: There was a steady trade for all good quality milkers, and springers at prices ranging from \$55 to \$65 each, but not many brought the latter price.

Receipts of veal calves were not large. There was little change in prices, being reported as selling from \$3 to \$7 per cwt., but there are few calves that reach \$7 per cwt., the bulk of fair to good quality sell from \$5 to \$6 per cwt. Sheep and Lambs.

Hogs.
Selects sold at \$8.25, fed and watered and \$8 f.o.b. cars at country points. Dealers quote the market easy, with prospects of still lower quotations.
