FOSTER & MACLEAY'S
CANADIAN

FARMER'S ALMANAC

FOR THE YEAR OF OUR LORD

1869.

Being first after Bissextie or Leap Year, and until the 20th June,
the Thirty-Second Year of the Reign of Her Majesty Queen
Victoria.

Calculated for the Meridian of Montreal, in Latitude $45^{\circ} 30' 24''$ North, and Longitude $73^{\circ} 24' 22''$ West, from the Royal
Observatory, Greenwich, but arranged so as to serve without
essential variation for all parts of the Dominion of Canada.

EDITION OF THIRTY THOUSAND.

Entered according to Act of Parliament of Canada in the year of our
Lord one Thousand Eight Hundred and Sixty-Eight, by ROBERT
MILLER, in the Office of the Minister of Agriculture.

Paper Maker, Wholesale Stationer, School Book Publisher, and Blank Book Manufacturer

Entered according to Act of Parliament of Canada in the year of our Lord one Thousand Eight Hundred and Sixty-Eight, by ROBERT MILLER, in the Office of the Minister of Agriculture.

MONTREAL.

EXPLANATION OF CALENDAR PAGES.

The Publisher of this Almanac, with a view to increase its circulation and usefulness, has for several years past, adapted its calculations for the whole country. His plan has been everywhere appreciated and is still continued. The Moon's changes are given for five different places, viz: Quebec, Montreal, Kingston, Toronto, and London. The rising and setting of the Sun are given for Montreal and Toronto. The rising and setting of the Moon are given with sufficient exactness for all practical purposes. The weather prognostications are again made according to the table of the celebrated Dr. Herschel; and for extraordinary accuracy, Miller's Almanac stands without any competition.

ECLIPSES DURING THE YEAR 1869.

- I. There will be a partial Eclipse of the Moon in the evening of January 27th. In Montreal it begins at 7.34 and ends at 9.54. In Toronto it begins at 7.11 and ends at 9.31.
- II. There will be an Annular Eclipse of the Sun on the 11th of February, but it will not be visible in any part of North America.
- III. On the 23rd of July the Moon will be partially Eclipsed, but this also will not be visible in North America.
- IV. On the 7th of August, there will be a total Eclipse of the Sun, visible. This Eclipse becomes total first at noon in Alaska, and from thence runs south-easterly. It will be discerned in Montreal at 5.9, evening, and ends 6.54; in Toronto it begins at 4.43 and ends 6.36, the greatest quantity in Canada being from 8 to 10 Digits.

EQUINOXES AND SOLSTICES.

		D.	H.	M.	
Vernal Equinox	begins.....	March	20	3 16	morning.
Summer Solstice	"	June	21	4 50	morning.
Autumnal Equinox	"	Sept'r	22	7 12	morning.
Winter Solstice	"	Dec'r	21	1 8	evening.

APPEARANCES OF THE PLANETS, 1869.

Venus will be a Morning Star, until 9th May, and from that date to the end of the year an Evening Star. Mars will be an Evening Star throughout the year. Until 17th April, Jupiter will be an Evening Star, from that date to 12 August a Morning Star, then an Evening Star to the end of the year. Saturn will be a morning Star until the 7th of March, and from that date to the 11th of December an Evening Star. Venus will not be very conspicuous until the latter part of the year. Mercury will be brightest soon after Sun-set, 1st February, 26th May, and 22th September, and in the East before Sun-rise 21st March, 19th July, and November 7th. Mars will be brightest 13th February, about Sun-set. Jupiter will be brightest 8th November, about Sun set, and Saturn will be brightest 4 June, rising about Sun-set.

Generally used throughout the Dominion.

Calendar, Aspects, &c.
Circumcision. [frost.
 Good sleighing and hard
2nd Sunday after Christmas.
 Freezing weather, cloudy.
 Continues cold, not unple-
Epiphany. [seant.
 Whole of first part of Jan.,
 may be looked for as giv'g
 fair, cold wintry weather.
1st Sunday after Epiphany.
 Rather doubtful, cloudy, but
 storms pass over, & settle
 again, when temperature
 becomes more mild, and
 barometer indicates thaw,
 which does not continue.
2nd Sunday after Epiphany.
 Some snow or rain if the
 wind be North-west.
 Fair and frosty.
 Continues hard frost.
 Some little change, but not
 very much softer yet.
Septuagesima Sunday.
Conversion of St. Paul.
 We don't expect much snow
 this week, but rather a
 steady cold, with occasion-
 al breezes from the North.
 Month ends very cold.
Sexagesima Sunday.

JANUARY.—There are two things of which we strongly disapprove. They are two very different things, but as they are just now on our mind we will mention them together. We disapprove of storing any large quantity of vegetables under any dwelling house, for the reason that the exhalations of a cellar so stored must be very injurious to the health of the occupants of the house. A properly constructed root cellar under the barn is the very best place for many reasons. 2nd. We disapprove of stinting a cow of food because she is dry, for if you do, a poor calf will be the result. While dry the cow has two lives to support, hence the fact of her going dry, that the substance before given in the form of milk may go in the form of food for the calf. Give plenty of food to the cow in such condition, and of a nourishing quality.

											time generally.
										
											3rd Sunday in Lent.

FEBRUARY.—Concerning pruning, it is not good to do too much. Don't cut away all the low branches so as to leave the tree with a tall, slender, naked stem, fully exposed to all the excesses of heat and cold, dryness and dampness. Let a tree be allowed to have its own way, and it will be surrounded in summer with a breastwork of foliage. The lower branches and spray will break the force of the winds in winter. The objection that low branches are a hindrance in ploughing is only another reason why they should be suffered to remain. Among the many enemies of fruit trees, none are more remorseless and destructive than the plough. It does incurable mischief, by breaking roots, bruising bark, and mutilating branches. A plough ought never to pass nearer to a fruit tree than the tips of its lowest branches. Let the spade be used in loosening the soil, and removing the grass close about the trunk.

n Monday.

MARCH.—The American Stock Journal speaks very highly of the Berkshire breed of swine. These swine are black, not a very serious fault. They mature early, fatten well on limited quantities of food, and are excellent breeders. It is claimed that they are less liable to disease than any other breed, and that their flesh is the most delicate pork, while the live animal is the most hardy. They have grown to an immense size, and are a good breed for crossing with others. In England the Suffolks are considered the most profitable breed. They have most of the good qualities of the Berkshire and are not black. If well kept and taken care of they will make the best selling pork. They were until lately the leading breed in America.

Calendar, Aspects, &c.
ALL FOOLS' DAY, so called. April opens with wildness and tendencies to rain.
1st Sunday after Easter. Pleasant day for the season. Very agreeable weather. Some high winds about now, with sleety showers. Fair and not cold. Spring appears promising.
2nd Sunday after Easter. This quarter of the Moon may be looked for as bringing a wet time. Rain, and still it rains with wind. Now fairer and some frost. Never fear, spring comes.
3rd Sunday after Easter. Moon changes to-day, and there will be high winds. Rain is at hand. You may look for warmth.
ST. GEORGE'S DAY. A very pleasant day.
4th S. aft. Easter & St. Marks. We foresee a pleasant ending of this month. It has not been a very promising Moon, but since the full the days are fine.

APRIL.—Some kinds of manure are more liable to be injured by what is called firefang than others. Horse manure, if allowed to lie in considerable quantities, is apt to undergo the process of fermentation under a high heat, when it assumes a mouldy whitish appearance and becomes very light. It suffers an immense loss, so much so that its virtue is gone, and as compared with unheated manure, it will produce scarcely any appreciable effect. The fertilizing qualities, especially ammonia, are thrown off, and the mass is left inert and useless. In the management of manures, therefore, care should be taken to prevent too great a heat, by composting and forking over. Loam and muck, if mixed freely under the stables, will preserve the heap, prevent fire-fanging, and thus prove very useful. Compost the manure heap through the winter when opportunity serves.

MAY.—In a recent discussion before the Herkimer County Farmers Club, Judge Owen gave his views on the influence of various kinds of feed for cows in order to the production of butter. He did not think turnips of much value in this respect—much less than potatoes, which were regarded as beneficial for a change. The best results had been produced by feeding Indian Meal—about two quarts twice a day to each cow. A number of experiments were made in preparing the meal, but the best results followed from feeding it in a dry state. With this quantity of meal and a small allowance of hay, a Holderness cow produced fourteen pounds of butter per week. The highest point reached was forty-one pounds in fifteen days, besides thirty quarts of milk in the meantime for family use.

30	Wed.	20	46	25	38	23 9	11 40				This day will be fine.

JUNE.—If you have not had time to clean up about the farm and house since spring set in, perhaps you may have time about now. One often sees about the barn yard of some farmers, old waggons, wheels, lumber, wood scattered about, logs lying by the road side, and many other things which tend to make the place present a very disagreeable appearance. Why not be tidy and clean about the premises; set things to rights; make the place look better than ever before. Then inside the house perhaps the kitchen or some other room wants a little white-wash. Perhaps the wife or daughter wants a room or two papered. Possibly the house or windows need a little paint outside or in. It pays better in the long run to do all such things at the right time. None know better than the Farmer that a stitch in time saves nine, yes even ninety-nine, and often nine hundred and ninety-nine.

JULY.—The Strawberry seems to adapt itself to a wide range of soil and location, but there are some conditions that should be avoided. For early berries, select a warm southern exposure, and plant on such a spot the early varieties. Almost any soil that will produce a good crop of garden vegetables will do for strawberries. Always avoid a wet piece of ground, peat meadow, or other low place, for on such land, though a large growth of foliage may be obtained and possibly a fair crop of fruit, the berries will be of light colour, soft, of poor flavour. On low wet lands there will also be danger from water and ice in winter. Avoid very dry ground, as the crop may be lessened by hot dry weather, and it may be cut off altogether.

AUGUST.—It is sometimes observable that fruit trees, even the varieties having well established habits of productiveness—are a long time in coming into bearing, or bear sparingly. This is an indication that the tree is receiving too high cultivation, in which case, the forces are expended in rapid growth, and in the formation of leaf-buds instead of fruit-buds. The remedy lies in whatever course tends to retard the circulation of the sap, inducing the production of flower, instead of leaf-buds. Cessation of manuring, and the neglect of cultivation will bring the tree into bearing. Other measures are sometimes resorted to, such as root pruning, pruning in midsummer, bending down the branches, etc. The two latter have been tried with good effect. Judgment should be exercised as to the causes of unfruitfulness.

Calendar, Aspects, &c.
 Changeable, but cool and pleasant for a few days.
 Windy.
 Nights cool, frosty air.
 15th Sunday after Trinity.
 Fair weather and so continues until to-day brings a change.
 High winds and showers.
 A finer day than last, and still finer now.
 16th Sunday after Trinity.
 Cool and fine, but barometer falls and you may look for a shower, which comes, but not heavily, and now is very pleasant.
 Continues fine.
 17th Sunday after Trinity.
 A changeable week.
 St. Matthews day.
 Fair to-day and fine this day, but the aspects are not on the whole pleasant.
 18th Sunday after Trinity.
 Feels like fall weather, and is wet to-day.
 St. Michael and all Angels.
 Fair and fine.

SEPTEMBER.—Onions have sold at very good prices, quite remunerative. If the maggot lets them alone, a good crop can be easily raised, and made to yield bountifully. Before the maggot nuisance was known, four or five hundred bushels to the acre was not considered a remarkable crop. Old, mellow, rich land is best. Onions are an exception to the ordinary rule, and seem to do better year after year on the same land. Manure heavily with well rotted manure. Ashes are also good for this crop. Sow as early as the ground is in condition, using plenty of seed so as to allow some plants for the maggots. It is easier and better to thin them out, than to put them in later in the season. This note may be read in March.

Wednesday.

OCTOBER.—A raw mellow apple is digested in an hour and a half, while boiled cabbages require five hours. The most healthful dessert that can be placed on the table is a baked apple. If eaten frequently at breakfast, with coarse bread and butter, without meat or flesh of any kind, it has admirable effect on the general system, often removing constipation, correcting acidities, and cooling off febrile conditions more effectually than the most approved medicines. If families could be induced to substitute apples—sound and ripe—for pies, cakes, and sweet-meats, with which children are too frequently indulged, there would be a diminution in the sum total of the Doctor's bills, in a single year, sufficient to lay in a stock of delicious apples for a whole season's use.

NOVEMBER.—About barns, should they be tight or open? There are differences of opinion. Some say the hay keeps better when the barn is open and airy. These say that the air circulating freely prevents the hay from heating and spoiling. Others say the hay will be sweeter and fresher if the building is kept quite tight, and all wind excluded. As to the comfort of animals there can be no dispute. They must suffer from loosely-jointed buildings called barns. We do not believe in allowing wide cracks or open joints even where hay is to be stowed, and should prefer to have hay stored in a tight place. But we would give the hay proper ventilation, and we believe that no barn should be built for storing hay or keeping cattle without such an arrangement as gives good ventilation.

DECEMBER.—To raise cream in winter, keep it moderately warm and add to each milking, or once a day, a little hot milk. Heat the milk almost to a boiling point;—heat it fresh from the cow. The quantity is a pint to a pailful to each milking. The effect of this is to prevent the cream from turning bitter; the buttermilk will be as sweet and fresh as in summer, and the butter will be better than without this treatment. We have this from an old experienced dairyman, who has practiced it for many years; and others have tried it successfully. It is a point that should be known, for there is much bad butter made in winter, and the buttermilk unfit to use.

THE QUEEN.

VICTORIA, of the United Kingdom of Great Britain and Ireland, &c., Queen, Defender of the Faith. Her Majesty was born at Kensington Palace, May 24, 1819; succeeded to the throne June 20, 1837, on the death of her uncle, King William IV; was crowned June 28, 1838; and married, February 10, 1840, to his Royal Highness, Prince Albert. Her Majesty is the only child of his late Royal Highness Edward Duke of Kent, son of King George III. The Children of Her Majesty are:—

Her Royal Highness Victoria-Adelaide-Mary-Louisa, PRINCESS ROYAL OF ENGLAND AND PRUSSIA, born November 21, 1840, and married to his Royal Highness Frederick William of Prussia, January 25, 1858, and has issue three sons and a daughter.

His Royal Highness Albert-Edward, PRINCE OF WALES, born November 9, 1841; married March 10, 1863, Alexandra of Denmark (Princess of Wales), born December 1, 1844, and has issue two sons and a daughter, Prince Albert Victor, born January 8, 1864, Prince George Frederick Ernest Albert, born June 3, 1865, Princess Louise Victoria Alexandria Dagmar, born February 20, 1867.

Her Royal Highness Alice-Maud-Mary, born April 25, 1843; married to H. R. H. Prince Frederick Louis of Hesse, July 1, 1862, and has issue three daughters.

His Royal Highness Alfred-Ernest-Albert, Duke of Edinburgh, born August 6, 1844.

Her Royal Highness Helena-Augusta-Victoria, born May 25, 1846, married July 5, 1866, Prince Frederick Christian of Schleswig-Holstein, and has issue a son.

Her Royal Highness Louisa-Carolina-Alberta, born March 18, 1848.

His Royal Highness Arthur-William-Patrick-Albert, born May 1, 1850.

His Royal Highness Leopold-George-Duncan-Albert, born April 7, 1853.

Her Royal Highness Beatrice-Mary-Victoria-Feodore, born April 14, 1857.

George-Frederick-William-Charles, K. G., DUKE OF CAMBRIDGE, cousin to her Majesty, born March 26, 1819.

Augusta-Wilhelmina Louisa, DUCHESS OF CAMBRIDGE, niece of the Landgrave of Hesse and aunt to Her Majesty, born July 25, 1797; married, in 1819, the late Duke of Cambridge.

George-Frederick-Alexander-Charles-Ernest-Augustus, K. G., DUKE OF CUMBERLAND, EX-KING OF HANOVER, cousin to Her Majesty, born May 27, 1819, married Princess Frederica of Mecklenburg-Strelitz, and has issue a son and two daughters.

Augusta-Caroline-Charlotte-Elizabeth-Mary-Sophia-Louisa, daughter of the late Duke of Cambridge and cousin to Her Majesty, born July 19, 1822, married June 28, 1843, to Frederick Grand Duke of Mecklenburg-Strelitz, and has a son.

Mary-Adelaide-Wilhelmina-Elizabeth, daughter of the late Duke of Cambridge, and cousin to Her Majesty, born November 27, 1833, married, June 12, 1866, Francis Paul, Prince of Teck, has issue one daughter.

Leopold II, KING OF THE BELGIANS, maternal cousin of the Queen, born April 9, 1835.

PICKING AND KEEPING APPLES.

Winter apples should be picked during the first part of October, before the high winds come on. The greatest care should be exercised in handling them, or the fruit will soon decay. It is better to pack in barrels or place them in some cool location; choose the better if they do not freeze. When very cold weather comes, they will of course need to be put into a cool cellar. All fruit keeps better in a very cool, dry place. If the cellar is warm, keep the windows open during the day. In picking apples, begin with those varieties most likely to be blown off, such as Hubbardston, Nonsuch, Baldwin, R. I. Greening, and others that are riper than the Russets, should be picked last. It is well to make three sorts; the best to be carefully packed, to be sold or kept; the second best for immediate use, while the poorest may be made into vinegar. If the vinegar is intended for family use, care should be exercised in sorting the fruit so that no decayed ones shall go into the heap. Apples keep better if not left on the tree too long. No fruit should be over-ripe to keep well. The barrels or vessels of any kind that are used in which to keep the fruit should be clean and free from all unpleasant smell. Good clean flour-barrels are perhaps the best thing that can be obtained at moderate cost. We have known good apples very much injured by improper treatment, and we therefore strongly advise our friends to be careful. Our old maxim, that "What is worth doing at all is worth doing well," will apply in this case.

of all kinds of Book, Printing and Writing Papers,

Switzerland, Letters, 26 cents per 1/2 oz.; Newspapers, 6 cents under 2 oz.—13 cents under 4 oz.

Vancouver's Island, Letters, 10 cents per 1/2 oz.; Newspapers, 2 cents each.

West Indies (British), Letters, 10 cents per 1/2 oz., if marked via New York, 12 cents via Halifax; Newspapers, 2 cents each.

West Indies (Foreign) except Cuba and St. Thomas, Letters, 22 cents per 1/2 oz., if marked via New York; 12 cents via Halifax; Newspapers, 3 cents via New York; 2 cents via Halifax.

MEMORANDA.

Prices Current and Circulars for Great Britain, to pass as such, may not be placed in envelope.

Photographs in Cases, within the Dominion, are liable to Parcel Post rates.

Samples or Seeds, including Cuttings, Bulbs, Roots, &c., pass at one cent per oz. within the Dominion, prepaid.

Letters containing Money, or Valuable Enclosures, should be registered.

Money Orders on the United Kingdom.—The Canadian Money Order Offices also draw upon all the Money Order Offices in England, Ireland, and Scotland, and the Channel Islands, for any sum up to £10 sterling, and grant as many Orders for £10 sterling each, as may be needed to make up the amount to be remitted. The terms are as under:—

On Orders up to £2.....	25 cents.
On Orders over £2, and up to £5.....	50 "
" " 5 " 7.....	75 "
" " 7 " 10.....	\$1.00 "

Money Orders on the Lower Provinces.—The Canadian Money Order Offices draw also upon all Money Order Offices in Prince Edward Island and Newfoundland. The Orders, like those of the United Kingdom, are made payable in Sterling money, and for sums up to £10 sterling. The terms are:—

For Orders up to £5.....	25 cents.
For Orders over £5, and up to £10.....	50 "

The Money Order Post Offices are furnished with lists of all the Money Order Offices in the Dominion of Canada, the United Kingdom, Prince Edward Island, and Newfoundland; and the postmasters are instructed to afford every information in their power, in respect of the places upon which they draw, together with any other information relating to such issue as the intending remitters may desire.

The Stamp Acts.

These Acts impose a duty on every promissory note draft, or bill of exchange, not exceeding \$25, 1 cent; not exceeding \$50, 2 cents; less than \$100, 3 cents; not less than \$100, if executed singly, 3 cents per \$100 or fraction thereof; if executed in duplicate, 2 cents per \$100 or fraction thereof on each part; if executed in more than two parts, 1 cent per \$100 or fraction thereof on each part.

Any interest payable with the note at maturity must be counted as part thereof. The duty is to be paid by bill stamp, on which the date is to be written, or by using stamped paper. Bank notes, checks, and money orders, are exempt. These Acts impose heavy penalties for violation.

administrators, co-partnerships, accounts, mortgages, awards, dower infants, idiots, lunatics, and their estates, waste, specific performances, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal, or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses, to administer justice in all cases in which there is no adequate remedy at law. *Chancellor*, Hon. P. M. Vankoughnet, D.C.L. *Vice-Chancellors*, Hon. Oliver Mowat, and Hon. John Godfrey Spragge. *Master*, Andrew Norton Buell.

COURT OF COMMON PLEAS.—This Court has the same power and jurisdiction as a Court of Record, as the Court of Queen's Bench. *Chief Justice*, Hon. W. B. Richards. *Puisné Judges*, Hon. A. Wilson, and Hon. J. Wilson.

HEIR AND DEVISEE COURT.—*Commissioners*, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. These duties are to determine claims to lands in Ontario, for which no patent has issued from the Crown in favor of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant to \$400; and to all bail bonds and recognizances of bail given in the County Court to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, criminal conduct, or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers to the amount of \$200, subject to an appeal to Chancery.

COURTS OF QUARTER SESSIONS.—*Chairman*, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction.

INSOLVENT DEBTOR'S COURTS.—By the "Insolvent Acts of 1864 and 1865," 27 and 28 Vict., chap. 57, and 29 Vict., chap. 18, provision is made "for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors, and for the punishment of fraud." In Province of Quebec, this enactment applies to traders only. In Province of Ontario, to all persons whether traders or non-traders. In these Courts, the County Court Judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade."

TERMS OF THE COURTS.

APPEAL TERMS.—Commence on the second Thursday next after Hilary, Easter, and Michaelmas Terms.

constantly on hand or made to order by H. MILLERS

LAW TERMS.—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins third Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November, and ends Saturday of the second week thereafter.

GRANBERY TERMS.—*Examination Terms*—From first Tuesday of February to the Saturday after second Tuesday of April; and from first Tuesday of September to the Saturday after first Tuesday of November.

HEARING TERMS.—From fourth Monday in April until Saturday of the following week; and from third Monday in November until Saturday of the following week.

COUNTY COURT TERMS.—Commence on the first Monday in January, April, July, and October, and end the following Saturday.

TABLE FOR FORETELLING THE WEATHER.

THROUGH ALL THE LUNATIONS OF EACH YEAR.

This table and the accompanying remarks are the result of many years' actual observation; the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom found to fail.

If the new Moon, the first quarter, the full Moon, or the last quarter happens.	IN SUMMER.	IN WINTER.
Between midnight and } 2 in the morning. . }	Fair	{ Hard frost, unless the wind be S. or W.
— 2 and 4 morning.	Cold, frequent show'rs	Snow and stormy.
— 4 and 6 "	Rain	Rain.
— 6 and 8 "	Wind and rain	Stormy.
— 8 and 10 "	Changeable	{ Cold rain, if wind be west; snow if east.
— 10 and 12 "	Frequent showers	Cold, and high wind.
At 12 at noon, and 2 P.M.	Very rainy	Snow or rain.
Between 2 and 4 P.M. . .	Changeable	Fair and mild.
— 4 and 6 P.M.	Fair	Fair.
— 6 and 8 " }	Fair, if wind N.W.	Fair and frosty, if wind north or north-east.
— 8 and 10 "	Rainy, if S. or S.W.	Rain or Snow, if S. or S.W.
— 10 and midnight.	Fair	" " " "
		Fair and frosty.

Observations.—The nearer the time of the Moon's change to noon or midnight, the more nearly will the result accord with the prediction. It is also said that less dependence is to be placed on the Table in winter than in summer.

WALL PAPERS! WALL PAPERS!!

PAPER HANGINGS,

WINDOW SHADES! WINDOW SHADES!!

NEW AND ELEGANT DESIGNS,

FOR 1869.

I am now making these GOODS a leading feature in my business, and have lately so perfected my arrangements with the Manufacturers in Great Britain, that my customers if they prefer it can have these orders shipped direct from the factories. The wall paper can be had either by the piece or done up in assorted bales from 400 to 500 pieces at from 4½ cents to 50 cents per piece.

ROBERT MILLER,

IMPORTER AND WHOLESALE

STATIONER,

MONTREAL.

[1869.]

CANADIAN SCHOOL SLATES.

THE public in general, and all parties interested in

CANADIAN MANUFACTURES,

will please take notice, that these beautiful Slates are now being manufactured by THE DANVILLE SCHOOL SLATE COMPANY, at GANSONVILLE, NEAR DANVILLE, PROV. QUEBEC, and are taken from a vein of Slate discovered in the Quarries now being worked by THE DANVILLE SLATE COMPANY, and which they are now offering to the public in the confident belief that, on one trial, they will be pronounced superior in touch, durability and finish, to any articles heretofore produced.

A moment's trial with the pencil will demonstrate the peculiar qualities and superiority of this article over any other now known.

All orders addressed to the undersigned, who has been appointed their General Agent, will receive prompt attention.

ROBERT MILLER,
MANUFACTURING STATIONER,
MONTREAL.

CARTER'S COMBINED WRITING AND COPYING INK.

THIS Combination Ink has been awarded the highest Premiums over all others in New York, Boston, and Baltimore, and is pronounced by the most celebrated Chemists the best ink ever offered to the public.

It is used by many of the largest Commercial Houses, Banks, Railroads, and other Corporations, and gives perfect satisfaction.

It possesses the following advantages over other inks, viz:

- First. It flows freely from the pen, and does not thicken by exposure to the air.
- Second. It will give a perfect and instantaneous copy.
- Third. It will not mould.
- Fourth. Being equally as good for Copying as for Book-keeping, it entirely does away with the use of two kinds of ink.
- Fifth. It is more permanent than common ink.
- Sixth. The color, when first written, is a beautiful dark green, but in a remarkably short time it changes to a BRILLIANT JET BLACK—not a breakable black.
- Seventh. It is admirably adapted to the most delicate writing, and makes a permanent mark.

This Ink is warranted to flow as freely as Stephens', Arnold's, or any other Writing Fluid now in use; to give as perfect a copy as any Copying Ink; and not to mould.

ROBERT MILLER,
Agent, MONTREAL.

Mr. _____

DEAR SIR,

In presenting you with this our "FARMER'S ALMANAC FOR 1869," we would respectfully call your attention to our large and well selected stock of
