when the subject committee frames the exact formula, it must recognize that estimated reductions in peace time armaments should take into account the military, economic and geographical factors upon which the war-lime power depends and also the rapidity with which assistance could be afforded to a state if attacked.

Thus the admission is made at the very outset of the deliberations that reduction of armaments is an exceedingly complicated problem which cannot be solved in terms of numbers of troops and guns. Not only economic and population factors must be taken into consideration, but also, in the opinion of France and some other nations, concrete reductions must be taken of a considerable degree on the extent of the effective aid which can be rushed to a considerable degree on the extent of a scheme of mutual assistance.

The Average Woman is Discouraged With Home-Making as a Life Work Because It is the One Job on Earth That Men Neither Appreciate Nor Pay For

"WHY is the average domestic woman so discontented with her job?" a man asked me the other day. "Listen in on the conversation of any group of married women," he continued, "and you will find that the burden of their song is a lament over their lot in life. They

are complaining about how hard they have to work and the monotony of housework, and about how much trouble children are, and how much how much trouble children are, and now much extra labor husbands make cluttering up a house.

"Apparently not one of them is happy, or interested, or contented with her occupation, or sees in it anything but drudgery. Apparently none of them gets any kick out of what she is doing, or has any feeling that home-making is the greatest and most glorious career that any woman can

"Now, I am not contending that doing the cooking and cleaning and sewing and mending and baby-tending for a family is a light and pleasant pastime. It isn't. It is hard and grueling labor. But so is every other occupation by which we earn an honest living. I am not denying that housework is monotonous. So is any other labor that you do day after day, week after week, year after year. Doing stunts in an airplane, or being a vamp in the movies gets to be just as much a matter of routine as peeling potatoes and washing dishes, if you earn your bread and butter by doing them.

his wife's. He works just as hard at his occupation as she does at hers. There are no more thrills in keeping books, or selling goods, than there is in sweeping floors and cooking dinners, but he doesn't go about beating on his breast and asking people to pity him because of his job. He is darn glad he has a job, and generally he manages to interest himself in the most important job in the world. it, and think it the most important job in the world.

"Now the wife's job, making a home, really is the most important job in the world, and on its being well done depends the health, the strength, the moral well-being of humanity. She is the bulwark of the Nation and the hope of civilization, and what I can never understand is why she so seldom sees her work in this light, or gets any joy out of doing it."

TF WOMEN have small pride and pleasure in their work," I replied, "you men are to blame for it. It is because of the attitude that you take toward domestic labor. You have taught women to despise homemaking because you have made it the only work that has no reward in

making because you have made it the only work that has no reward in either appreciation or money,

"Put yourself in the woman's place.

"Could you get up very much pep and enthusiasm over doing any work for which you never got a single word of praise, or even any sign that your efforts were noticed? Suppose you put your very heart and soul, as well as your back, into your work. Suppose you laid awake at night trying to figure out how you could save your firm money. Suppose you carried on, and stuck to your post through sickness and suffering. Would you feel very enthusiastic over your job if the senior partner took all of your good work as no more than he had a right to expect, and found fault with you when you blundered?

"YET this is precisely the way that the great majority of husbands treat their wives. They have never a word of praise for the nickels their wives sweat and the bread crusts they save, but let wife once indulge in a \$20 hat, and they are never done discoursing about women's extravagance. They gobble down in silence the 999 good dinners that their wives have spent hours in preparing, but let the thousandth dinner have a little too much salt in the soup, or the roast be overdone, and they are out with their hammers and cry aloud to Heaven about woman's incompetence.

their hammers and cry aloud to Heaven about woman's incompetence.

"Now a woman's audience is her husband. He is the gallery to which she plays. She cannot seek recognition of her work outside, and if she gets no meed of approbation from him for her neatness and thrift and order, there is small incentive for her to

try to excel.

WE ALL need a little encouragement, a little appreciation, a little praise, a little recognition that our work is well done to put fresh

heart and courage into us.

"Especially do women need to be bucked up, and when you find a husband who has intelligence enough to jolly his wife along and tell her what a help she is to him, and what a wonderful cook she is, and what a joy it is to come home at night to a well-kept home, you will not only find a woman who is a cracker jack housekeeper, but one who glories in her job.

"Another reason why women hold their job in contempt, and are disgruntled with it, is because they are the only labours who are expected to work for their board and clothes, and mighty few of us can put any punch into a job that brings in no pay envelope.

"THERE are plenty of women married to well-off men who never have as much as a dollar of their very own during their entire married lives. Some times their husbands provide them with fine homes, with good clothes, with Paris frocks, with motorcars and jewels, but they never have a penny for which they do not have to give an account. They get no money

clothes, with Paris frocks, with motorcars and jewels, but they never have a penny for which they do not have to give an account. They get no money for the twelve or fourteen hours a day work that they do in the home.

"Would any man in the world like that sort of a job? Would any man be content to work for his father without wages? Would any man be satisfied just to get his food and raiment as his whole return for his labor, and then of being spoken of as being 'sup-

THAT is why women are discontented with their job. It is because men neither appreciate it, nor are willing to pay for their work of homemaking."

Wash Face?-Yes But mind what sort of soap

Take care that you use only such soap as is made solely to protect the complexion, then always according to this simple rule.

FOREMOST skin authorities urge washing the face regularly as essential to natural complexion clearness. But all urge greatest care in selecting the kind of soap one

Risking a precious complexion to an unproved soap is a folly. The only kind of soap to use on your face is a soap made golely to safeguard the complexion. Launder and cleanse with any soap you wish. But when beauty is at stake, take care. The accepted skin care of today starts largely with Palmolive, a soap made of rare cosmetic oils, a soap made for one purpose only—to be used freely and lavishly on the skin.

The Little ifference

The difference between a good salad and an extra good salad is usually the vinegar.

Vinegar that is simply sour cannot impart flavor. Only vinegar that is flavor itself can give flavor to other foods.

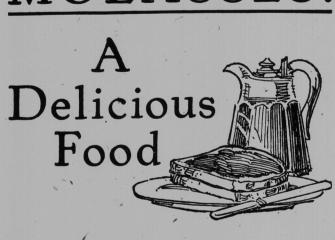

Heinz Vinegars are flavor flavor that begins with the selection of only the finest ingredients, further developed by long aging in wood which is the only true way to produce vinegar at its best. Good vinegar cannot be hurried.

Cook in a cool Kitchen this Summer

IT'S good-bye to the hot, stuffy kitchen when a Canadian Beauty Rangette is used. Just as the Electric light routed the coal oil lamp, the Canadian Beauty Rangettes make the old fashioned stoves a memory, so far as summer cooking

With the Canadian Beauty Rangette, electrically generated heat is placed where you want it and nowhere else. The quantity of heat used can be regulated as well. You turn a switch, that's all—no fumes, no flames, no smoke, no ashes, no fuel to prepare or carry, no dangers.
Cooking labors do not trespass on summer's leisure. You do not work over meals at blast furnace temperatures.

Canadian Beauty Rangettes have knocked the bottom out of Electric cooking costs. The expenditure for the largest Rangette is about half that for the ordinary Electric range, including installation. Prices for the other Rangettes and hot plates pictured here are in proportion.

Besides solving the entire summer cooking problem, the Canadian Beauty Rangettes are making friends with apartment and small home dwellers for year round cooking.

Every Rangette is strongly built, and all parts thoroughly tested. The Rangettes, though smaller than the large cabinet ranges, have cooking elements of the same style and capacity. Each element is equipped with the latest improved reciprocating switch. The top or cooking surface is of genuine, pearl-grey vitreous porcelain. Let the dealer show you the complete line.

OTTAWA, May 19-A division shortly before the house adjourned at 6 o'clock today gave the Government a majority of 15. This afternoon's division stood:

Meighen was absent from the division through illness. Pre-

ence afterwards and make any recom-mendations to the House subsequently, which they thought desirable.

which they thought desirable.

2 CONSERVATIVES BOLT.

W. F. MacLean (Conservative, South York), who with H. S. White, the Conservative member for Mount Royal, voted with the government in the House of Commons this afternoon, stated tonight: "I voted for the motion proposed by the minister of railways to appoint a special committee dealing with administration of the Canadian National Railways because the composition thereof had been agreed upon at a conference of whips and members representing the several and members representing the several parties recognized in the House. Speaking for myself, I am anxious to keep politics out of the administration of Canada's greatest public owned service, the National Railways."

FAIR PLAY EXPECTED.

Mr. MacLean added that the people expected parliament to give this great experiment fair play and avoid any experiment fair play and avoid any suspicion of partisanship.

"If any section of the country was not represented on the committee the House would find a way of curing the injustice," he said. "The committee ought to be speeded towards its work," he added

Mr. White did not wish to make any comment on his own vote. "It was a matter of no great consequence," he said.

AGITATION" "POSITIVE

*"Positive Agitation"

THE difference between the new Hoover and a vacuum cleaner is concrete and real. You have only to see this amaz-

ing cleaner in action on a carpet, and touch that carpet with the tips of your fingers, to know what this difference is. Instantly your finger tips can feel the new Hoover's "Positive

Agitation"*-that delicate aircushioned tapping of the fabric, that swiftly sure dislodgement and withdrawal of the most deeply embedded grit.

Small wonder the new Hoover is hailed everywhere as revolutionary! It excels even the

standard-design Hoover in these

1 For the first time, it makes possible "Positive Agitation" of floor coverings. 2 By actual test, in the ordin-

ary cleaning time, it beats out and sweeps up from carpeting an average of 131% 3 It is an even greater rug-

saver; the oftener a carpet is cleaned with a Hoover the longer that carpet will wear.

4 It is virtually service-proof, every part, including the new motor, requiring no oiling.

5 It increases the efficiency of its remarkable dusting tools because of its 50% stronger

6 Its exclusive dust- and germ-proof bag is now washable.

7 Its form and finish are of startling beauty; and every new feature insures greater operating ease.

Examine the new Hoover. See for yourself what "Positive Agitation" means. And remember — only \$6.25 down makes the new Hoover yours, with the balance in easy monthly

"Save the surface and you save all" - Paint & Varnish

YES, I agree, the need of this country is development and conservation of its vast wealth.

"The eyes of the world turn to our timber, wheat, mines. Our industrial world is alive with expectation of bigger things. Yet, as you say, near seventy per cent. of Canadian property is perishing for lack of paint and varnish and the yearly losses from such deterioration exceed the losses from fire.

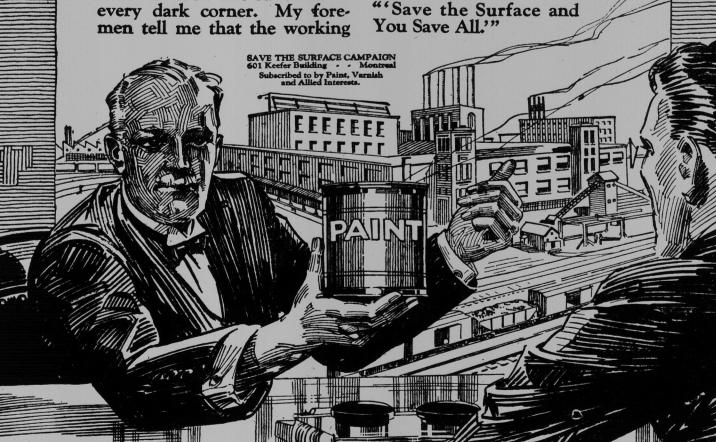

"You'd be surprised at the manifold uses for paint and varnish right in this factory. White paint is our specialty because it reacts like sunshine in

light is greatly improved through painting and not only are accidents less frequent, but our employees are brighter and more cheery. And it's a satisfaction to know that every painted surface will last longer.

"We painted the floors last week. It had become apparent that there was considerable overhead underfoot. No end of saving there!

"I am a firm believer in the

slogan of the paint industry: "'Save the Surface and You Save All."

SACKVILLE, May 19—Regents of Mount Allison adjourned tonight at 7 o'clock after being in tonight at 7 o'clock after being in session all day. At the morning session Rev. William C. Ross, well known throughout the Maritime Provinces for his splendid work among young people and for his outstanding record as an athlete, was appointed principal of Ladies' College. He agreed to accept the position for one year in succession to Rev. Dr. Wigle, who is retiring after nine years of faithful, efficient and successful service. This afternoon plans for a memorial library, to be built of stone, were submitted to the board by a committee preto be built of stone, were submitted to the board by a committee previously appointed. The recommendation of the committee to ask for tenders and to proceed immediately with the erection of the library building on the site facing Main street to the southeast of the McClelan School of applied science was adopted after careful consideration. The structure will be in tudor style and will undoubtedly prove a splendid addition to Mount Allison's plant. Rev. William S. Godfrey, Campbellton, was chosen physical director for the university while Rev. Norman M. Guys of Bermuda, a brilliant scholar, was appointed to the chair of economics

Reports of heads of university, ladies' college and the academy were submitted and proved eminently satisfactory. From the standpoint of aliance, quality and ability of students and highly successful work accomplished, the year 1926 will stand out as one of the most important years in the history of Mount Allison institutions.

Those present at the meeting were the following: Rev. Dr. Borden, An-

napolis Royal, chairman; N. T. Avard, Joggins, secretary; E. A. Smith, Rev. C. E. Crowell, Halifax; Rev. George F. Dawson, Sussex; E. E. Hewson, Dr. F. Dawson, Sussex; E. E. Hewson, Dr. J. W. McConnell, Amherst; Rev. Dr. Rogers, J. T. Burchell, Sydney; John M. Trueman, Truro; Col. F. S. Moore, Charlottetown; R. C. Tait, Shediac; Rev. George M. Young, Chatham; Mrs. B. C. Borden, Annapolis Royal; Hon. C. W. Robinson, Dr. George J. Oulton, Moncton; H. A. Powell, E. R. Machum, Saint John; Mrs. J. O. Calkin, Mrs. J. Congoleum Art-Rugs

Mean Fewer Worries for Busy Mothers

Look for this Gold Seal

In the minds of millions of women this Gold Seal, pasted on the face of the pattern, stands for floor-cover-ings of proved satisfaction. It iden-

tifies the genuine, guaranteed Con-goleum Gold Seal Floor-Coverings.

A home where the family can have the iolliest kind of a good time—and yet everything be in apple-pie order in two jiffies! That's the home every mother of small children longs for.

Congoleum Gold Seal Rugs not only make such a home possible, but they are economical and beautiful as well.

Waterproof and

Sanitary These modern floor-coverings are waterproof through and through and absolutely sanitary. No matter what's spilled on them a damp mop makes their firm, smooth surface clean in no time.

It assures you of superior quality, known value and perfect satisfaction. They cling tightly to the floor without a single fastening, yet never have a ruffled edge or corner to trip unwary feet.

Another feature of Congoleum Gold Seal Art-Rugs is the variety in their artistic patterns and the beauty of their color-combinations. They provide designs to set off

suitably the furnishings of every room in the house.

Very Inexpensive and Durable

Congoleum Rugs are wonderfully durable, yet very low in price. They range in size from the 18 x 36-inch mats to 9 x 15-foot room-size rugs.

It is never any trouble for

your home-town dealer to show you his assortment of these beautiful, practical rugs. Drop into his store and see for yourself why careful shoppers regard them as Canada's biggest floor-covering value.

ALL OVER BODY

Mrs. Bruce Weaver, Coboconk, Ontario, is rejoicing over her complete recovery from a severe case of skin disease from which she suffered for 10 years. Through sympathy for other sufferers she has issued a statement telling how, after four doctors and numerous medicines failed to help her, she finally tried the Ovelmo combination treatment and found the blessed relief she sought. "I was sick in bed," she says, 'tortured day and night with the eczema which had spread all over my body. Ovelmo brought about my complete recovery. I cannot praise it too highly."

Mrs. Wcaver is but one of over 35, oo0 former sufferers who have issued similar statements of results obtained from this remarkable treatment, which

Claims Heirship to Estate in Britain as Scion of Old Family

HAMILTON, Ont., May 19.—If the claims he is now pressing in England are recognized, Albert Langley, a painter, of this city, will fall heir to more than half a million dollars.

Langley declares himself to be a direct decendant of an aristocratic British family dating back to the era of Plantagenet times. He says the estate of Agecroft Hall, near Manchester, is in reality a part of his property. Recent reports were that Agecroft Hall had been purchased by a United States millionaire, who proposes to transport it for reconstruction in Vir-

silver robes of state. Bob Pearson as the comic king and handsome Alan in Murray as a gallant ambassador of his most puissant majesty, the King of France, suitor for the hand of the fair princess, were capital, lending added luster to this clever playlet.

The ensemble singing was exceptionally good, some new songs being introduced with excellent results, notably the gypsy "Loughing Song," "Rakin' in the Hay," and the chorus work in "I Want Someone to Love Me," "Starlight Maiden" and the catchy "Collegiate" was of a very high order. Bob Anderson brought down the house with his plaintive query, "Why Am I Always a Bridesmaid?" and in "I'm Tickled to Death I'm Single," an old favorite, he registered another hit.

OFFICERS of the Army and Navy Veterans' Association, Halifax, under whose auspices the Yale Okun-Roy Mitchell bout will be staged in Halifax, announced that at the request of the New York heavyweight, they had advanced the date of the battle for one week, from next Wednesday night until May 26. In a wire received in the city yesterday Okun asked for more time in which to prepare for his fight in Halifax, notwithstanding the fact that he defeated George Cook, the Australian heavy, at Madison Square Gardens on Friday night.

Great Progress Being Made On Preliminary Plans

OFFICIALS in Holland have and nounced that the Olympic Games of 1928, so far as competition is concerned, will open on June 20 with soccer as the attraction and will close on July 23 with the finals in swimming, boxing and gymnastics. It is expected that the formal ceremonies preceding the actual opening of the festival will start on June 18 and con-

tinue through June 19.

Reports from Amsterdam indicated that great progress is being made in the preliminary plans. All finances, the officials have announced, when been taken care of through the offer of a loan from the Government in case loan from the Government in case funds are needed. As things now take shape that loan will not be required, but it gives a background of thorough stability that is bound to have an effect on the number of entries to be received. For a time it had been thought it would not be possible for Holland to stage the games, the report that the Government was opposed to them having gained wide opposed to them having gained wide publicity, but all that has been changed and the executive committee assures all that everything will move along without delay of any kind. The Northern countries are taking a keener interest in the games now than

John Wright's Volume Antedates J. Murdock's Pilgrim's Progress

While the "The Pilgrim's Progress," printed in 1692, and owned by J. Murdoch of Saint John, and referred to the other day, is a rare volume, John Wright of First street, this city, has an older book, which undoubtedly is one of the oldest in the province. His book is the King James version of the Bible and in the volume is also the Anglican Prayer Book. This volume was published in England, presumably Oxford, in 1634, during the reign of

Ward and came into the hands of Captain John Charters by purchase, in Dublin, in 1805. In 1832 the volum was purchased by George Kerr, grand father of the present owner. Mr. Kerr was then living in Scotland and brought the Bible with him when he Troubador orchestra in attendance. came to New Brunswick, settling at The book is bound in leather and is in good state of preservation, except that a few leaves are missing.
