ENTENTE CORDIALE

Eulogized at Banquet To Canadian Premier

IN PARIS

Broader Spirit of International Friendship Fostered Amid Mingled Strains of Marseillaise and God Save the King

(Canadian Press) Paris, July 31—Amid the strains of the "Marseillaise" and "God Save the King," the premier of France and Canada last night eulogized the entente cordiale...

Premier Borden spoke briefly in French and at greater length in English. The harmonious cooperation of French-Canadian and English Canadians, he said, was a symbol and precursor of the entente cordiale between the republic and the Great Britain alone, but the British empire.

ALLEGED MURDERER HAS BEEN WATCHING HIS ARMED PURSUERS

Chances of Catching Carmel Farnham are Slender—Cannot Starve Him Out

Carmel, July 31—Though convinced that it is almost impossible to drive a man out of hiding from the vast territory of dense woods, officers today resumed the search for the missing farnham who is wanted on the charge of killing Naomi Etta Mitchell last Wednesday night.

CRUISER LINERS FOR C. P. R.

Arthur Piers in Montreal to Discuss Project—Has Already Been Considered by Dominion and Imperial Governments

Montreal, July 31—Arthur Piers, the manager of the C. P. R. Atlantic steamships, has come from Liverpool for his annual conference with officials at C. P. R. headquarters. It is anticipated that while Mr. Piers is here, the long-expected additions to the Atlantic fleet will be fully discussed with the management, and that the final details of a new fleet of cruiser liners for the Atlantic trade will be decided upon.

PLANNING TO BALK IMPERIAL NAVAL SCHEME?

Suggestion as Explanation of Lavish Expenditures Promised by Minister of Public Works

Ottawa, July 31—The political circles are not without grounds for being attached to the repeated declarations on the part of the Hon. F. D. Monk as to the necessity of the government going in for the expenditure of many millions for the improvement of harbor and navigation on the part of the minister of public works if Canada's transportation facilities are to be kept abreast of the times.

EMRESS PASSENGERS SAIL FROM NEW YORK

New York, July 31—One hundred and thirty-five first class passengers of the Empress of Britain arrived here today by special train on their way to England.

NEW VERSION TO OLD STORY OF ENOCH ARDEN

New York, July 31—A dispatch to the Tribune from Hastings, Neb., says: A new version was given the old Enoch Arden story yesterday when W. Baker, after an absence of fourteen years, returned to his home in Hastings, and found his wife married to one of his old friends. But instead of turning silently away, Baker walked in on the scene, claimed his former wife, and ousted his successor, who went to a boarding house in the same block.

THREE DROWNED

Newsmen, Prussia, July 31—Nine persons were drowned by the capsizing of a sail boat on Einfeldler Lake.

YOHHTO'S FIRST PROCLAMATION TO HIS NEW SUBJECTS

Promises to Sustain and Further Great Work Already Undertaken—Tributes to Late Emperor

(Canadian Press) Tokyo, July 31—Yohhito, the emperor of the new era of Teisel, read his first proclamation at half past ten o'clock this morning before an immense gathering of officials and representatives of all branches of the service. The emperor said: "The death of the former emperor has caused great sorrow to the nation, but the throne cannot be left empty, and the state administration cannot be neglected even for a day. We therefore immediately succeeded to the throne and will administer the affairs of the country under the protection of our imperial ancestors, and under the providence of the constitution."

SHOES WILL BE HIGHER IN PRICE

Increases of From 10 to 20 Per Cent Decided Upon by Montreal Dealers

Montreal, July 31—Another phase of the light boot problem has been decided upon by the shoe dealers of Montreal. The price of shoes is to be advanced. Manufacturers of footwear in Montreal have agreed to increase the price of shoes by 10 to 20 per cent. As the result of a general advance in the price of raw materials, the shoe makers have decided to increase the price of shoes by 10 to 20 per cent.

PARLIAMENT MAY NOT MEET UNTIL FIRST OF JANUARY

Ottawa, July 31—That parliament will not meet for the transaction of business until early in January, is said to be quite probable in political and departmental circles.

TEMPORARY COMMISSION

Ottawa, July 31—A militia order issued today announces that Major General Colin Mackenzie, inspector general of the Dominion force, has been given a temporary commission in the active militia of Canada, as major general, while serving with the government forces of this country.

ONE DEAD, THREE WOUNDED BY BULLETS—MANY OTHERS INJURED

London, July 31—Three persons were wounded by bullets and many others injured, as the result of a riot in the Victoria docks this morning. Two thousand former strikers appeared for work at the docks and were attacked by a mob of strikers. Bullets, stones and stones flew in all directions. The police were taken by surprise. Only a dozen patrolmen were present, and they were powerless to face the mob.

NEW RECORDS FOR SALMON FISHING

Quebec Amateurs Make Enormous Catches at Anticosti, Using Only Artificial Flies

Quebec, July 31—Probably one of the most unique records of salmon fishing ever established has just been reported from Anticosti Island, which is owned by Henri Menier, the French chocolate king, by a party who have just returned from the island, composed of the Hon. Adolphe Turgeon, speaker of the Quebec legislative assembly, and a non-unionist, and another of starting the trouble.

DESPERATE EFFORTS TO FIND MISSING MINERS

Unintown, Pa., July 31—After six hours continuous labor, workmen today succeeded in cutting through the 60 foot wall separating Lamont Mines No. 1 and No. 2, but found no trace of John Scanlon and John Bohack, miners caught in the mine by the flood of July 24. Their bodies are believed to be under debris in another part of the mine. It was decided today to drill from the surface into the workings at the Superbia mine in an effort to recover the bodies of 15 miners who were drowned there last Wednesday. Three big pumps have been working since the mine was flooded and have only lowered the water inches.

PRESCOTT IS TERRORIZED BY MANIA'S THREATS

Prescott, Ont., July 31—The neighborhood is in a condition bordering on panic on account of the threats of a madman now hiding in the woods in this vicinity. The maniac escaped on Sunday from the Brockville asylum, and walked along the tracks to this point. A number of men seeing that he was not sane, attempted to capture him and he then took up rocks and threatened to murder anybody who came near him. Keepers from the asylum have been sent for and a search for the lunatic by a posse underway today.

MARATHON WOODSTOCK GAME

The Marathons were supposed to have gone to Woodstock to play a game with the Colts, but they received word this morning that the game would have to be called off on account of rain. As they have no game scheduled for tomorrow, it is likely that they will go to Woodstock tomorrow morning. The Houlton Reds will be the attraction here on Friday and Saturday.

DREADNOUGHT FOR BRITISH MINISTERS' VISIT TO CANADA

Asquith and Churchill Now Expected to Come—May be Made Occasion For Imperial Demonstration

(Canadian Press) London, July 31—Mr. Churchill will decide within a day or two regarding a visit to Canada, during parliamentary vacation. There is only one consideration that might prevent his acceptance of the invitation from French-Canadian artists and literary arrangements being made, the first lord would leave during the third week in August. The Mail states it is now understood that the design submitted for the approval of the local King Edward monument committee by Philippe Hebert, C.M.G., the noted sculptor, has been accepted, and consequently the talented Canadian, whose monument of Malesherbes in Place d'Armes, in Quebec, as well as other fine monuments in Ottawa and Toronto, will soon set to work on the bronze statue to be erected on Phillips Square to the late beloved sovereign.

RUMORS OF SECRET FLEET FOR GERMANY

London Hears of Preparations For Squadron of Nine Battleships—Would Equal Britain's Fleet

(Canadian Press) London, July 31—The London Daily Express prints the following report that Germany is building a secret squadron in the yards for sea supremacy with Great Britain. "It is reported in armor plate circles that for some months past the firm of Krupp has been engaged in the manufacture of guns and munitions for a new squadron of nine battleships for Germany. It is understood that during the last three weeks the plates for these ships have been received from England. "The importance of this information comes in the fact that in the event of Germany forcing the pace, either for herself or for the other members of the Triple Alliance, a fresh battle squadron of nine ships could be ready within a year, or, at most, eighteen months. It is understood that the action which has been taken is a reply to Churchill's speeches on his accession to office. "If nine new ships were added to the German fleet, the comparison for 1914 would stand as follows: Germany 28, Great Britain minimum 33, maximum 41.

FINDS SENATOR GUILTY OF ILLEGAL FENCING

Warren Whitewashed in Hitchcock Report to Roosevelt, House Committee Discovers

Washington, July 31—That Senator Francis B. Warren of Wyoming is guilty of the illegal fencing in of some hundreds of thousands of acres of public lands in his home state, and that the report on the matter which was made by Secretary of the Interior Hitchcock to President Roosevelt was a "whitewash"—these two facts are the findings of a sub-committee of the House Committee on Expenditures in the Interior Department. The author of the report is Representative Henry of Missouri and the rumor is that some time before the conclusion of this session the full committee will make public its conclusions. During the past two years many charges against Senator Warren have been filed with various members of congress. These charges are to the same general effect, namely: That the chairman of the Appropriations Committee has been making use of his official position in Washington to further his own personal fortune. Another story, which has been under investigation by the House Committee on Expenditures in the Interior Department, is that Senator Warren has been purchasing his sheep on land purchased by the government at his request for a rifle range, and that the washings from the land thus used by Warren's flocks have poisoned the Cheyenne water supply, giving typhoid fever to many of the residing typhoid fever to many of the residing.

HOPES THAT PREMIER WILL JOIN HIM IN ABOLITION OF BAR

Port Dover, Ont., July 31—N. W. Rowell, K. C., leader of the Ontario opposition, has not yet despaired of Sir James Whitney's accepting his offer to join in abolishing the bar from Ontario. "I hope he will yet join with me in this great fight. I am not hopeless. I think he may do it," Mr. Rowell declared on Saturday, before a big gathering of Liberals in Orchard Beach Park here.

REPORT ON USE OF OIL FUEL IN NAVY

London, July 31—The king has approved the appointment of a royal commission to investigate and report on the means of supply and storage of liquid fuel in time of peace for application to many engines in time of war. "I hope he will yet join with me in this great fight. I am not hopeless. I think he may do it," Mr. Rowell declared on Saturday, before a big gathering of Liberals in Orchard Beach Park here.

CONTRACT AWARDED

For New C. P. R. Grain Elevator at St. John

TO COST \$500,000

Capacity Will Be 1,000,000 Bushels—Building of Reinforced Concrete—Ready For 1913-1914

(Canadian Press) Montreal, July 31—The Canadian Pacific Railway has awarded a contract to John S. Metcalf Co., Ltd., Montreal and Chicago, for the design and construction of a one-million bushel grain elevator at West St. John, N. B.

The elevator will be of reinforced concrete. It will be capable of unloading 1000 cars in 10 hours, and of discharging to any vessel at several different berths. The elevator will be electrically driven, a power plant for the generation of electric power, being included in the contract. An extensive shipping gallery system will also be a part of the work.

The elevator is to be ready for the winter shipping season of 1913 to 1914. The approximate cost is \$500,000.

AGED SIXTY, BUT NEVER SAW A CITY UNTIL LAST WEEK

And Spent His Whole Life Within Sixty Miles of Ottawa—Reckless Expenditure of 33 Cents During First Day in Town

Ottawa, July 31—John Williamson is sixty years old on next September 4th. Until Saturday last, he had never seen a train, a motor boat, an electric car, a statue and many other things. It was the first trip of the Château Laurier motor boats up the canal Saturday morning. An old man bought a ticket and took his seat in the boat. When the engine showed signs of movement the passenger got nervous. Noting this the engineer spoke to him, and gradually his history came out. Williamson is a Scotchman who was born in a little settlement called Portland. Drive to Galtoun Point, then a mile east, then turn at Fyfe's corner and drive ten miles north and you reach Portland. As the crew filed it is but 11 miles from Ottawa.

Williamson, according to the story he told the engineer is a spendthrift. When he was a boy he often heard of Ottawa, and resolved to go there. But, although he got a good salary, as salaries go in Portland, he never got enough money together to come here. Year after year something happened, and his money disappeared. Last March Williamson's wife died, and he resolved to come to Ottawa this year. He reached here Saturday, and he started in to have a good time by several electric car trips and by a motor boat trip. To the engineer of the motor boat he confessed that he was not in Ottawa half a day before he had spent thirty-three cents. "I want to see some 'images,'" said Williamson, and the motor boat engineer thinking the man wanted to see some of the figures in the Ottawa churches, took him down to the Basilica. But it turned out that the man wanted to see some of the statues on Parliament Hill, and a later trip was necessary.

REPORT ON USE OF OIL FUEL IN NAVY

London, July 31—The king has approved the appointment of a royal commission to investigate and report on the means of supply and storage of liquid fuel in time of peace for application to many engines in time of war. "I hope he will yet join with me in this great fight. I am not hopeless. I think he may do it," Mr. Rowell declared on Saturday, before a big gathering of Liberals in Orchard Beach Park here.

Are You a Snob? By RUTH CAMERON

If there is one thing on earth that I hate, it is a young person exclaiming indignantly the other day, "It's a snob." The young person had just come into contact with a newly rich friend who had used her wealth as a platform from which to look superciliously down upon some of her old friends. Hence the young person's venting against snobs. Now I wonder what the snob later would say if he knew that, in my eyes at least, she is very much of a snob. I think she would say, "The ideal! Why, how could I be a snob even if I wanted to? I'm poor as a church mouse." But she is a snob just the same. You see there are many kinds of snobbery. The snobbery at which the young person became so indignant was that of wealth. Now I think she herself is an intellectual snob. She has had unusual educational advantages, and she certainly uses them as a platform from which to look superciliously down on those who have not been so fortunate. For instance, just the other day I heard her openly express her scorn of people who could enjoy a moving picture show in the presence of several people who do count that form of amusement among their pleasures. Again, she never sees one reading a popular novel without taking occasion to remark that she has no time for such reading, and referring casually to some classical work which SHE is enjoying. Tell me, now, in the light of this intellectual snobbery, do you think the young person has any right to object because her wealthy friend often drags references to her wealth into the conversation? I know another woman whom I should call a moral snob. She was born with a heritage of high principles and she has always led an exceptionally sheltered life. As a result she has a very high moral standard and is always ready to look down upon those who are less lofty minded. She will make no allowance for a heritage inferior to her own or for a pressure of temptation which she has never known. Upon anyone who does not accept her moral standard she looks down with a snobbery that is just as blatant as that of the rich woman. To look down upon someone else for not having what you are fortunate enough to possess—whether the possession is material, mental or moral—surely that is the meaning of snobbery. And surely the man or woman who is guilty of intellectual or moral snobbery has greater reason to be ashamed because he or she has more reason to know better than the man or woman whose only advantage is that of wealth. So let's be very, very careful before we condemn snobs that we are not condemning ourselves most heavily.

IMPERIAL COUNCIL IMPOSSIBLE, SAYS LONDON EDITOR

London, July 30.—Harold Spender, "writing editorially in the Daily News and Leader" this morning on the subject of cabinet control of foreign affairs in conjunction with the dominions, points out how peace or war is now practically in the hands of the cabinet, although it is even possible that the dominions will be declared by the prime minister alone. "Therefore," argues Mr. Spender, "if the dominions were given a statutory voice they would likely possess more power than the house of commons or the cabinet." The article proceeds to speak of the remarkable change in the attitude of the British government, and then Mr. Spender says: "If Canada is to have a voice, it is clear that the other dominions must also have a similar concession. Any council of the dominions will have to be consulted on all important questions of foreign policy, and if there is any reality in the plan, the British cabinet will necessarily be obliged to accept the advice of the dominions. In that way," he says, "the supremacy of the cabinet will certainly be impaired, and so far as the British cabinet is concerned, it will be a blow which will be struck at the British parliament from which the cabinet is drawn." "Would this be a concession to the dominions?" asks Mr. Spender, and he answers the question by saying: "It is to be feared that it would make for war. The restraint on war is chiefly from the fear of the consequences of war, but as the dominions are far removed from the probable centre of any European war, they would be far less liable to those restraints. "It is perfectly natural," continues Mr. Spender, "that Great Britain should rejoice at the willingness of the dominions to help her both in defence and offence, but it is the dream of the earlier school that the British Empire should be a League of Peace."

HOUSE REFUSES TO REPEAL THE RECIPROcity ACT

Washington, July 30.—The house today refused by a vote of 127 to 107 to agree to the senate's amendment to the excise tax bill providing for the repeal of the Canadian reciprocity act. The house by a vote of 172 to 86 today refused to accept the senate's amendment to the excise tax bill, and agreed to a conference, if the senate should ask for one. By a vote of 130 to 98 the house today declined to accept the senate's amendment to the Democratic excise tax bill providing a permanent tariff commission. The bill now goes to conference with Representatives Underwood, Hull, Palmer, McCall and Payne representing the house.

TO Help Nature Shed a Bad Complexion

(From The Family Physician). Beauty devotees are enthusiastic over the beautifying qualities of mercolized wax. Perhaps nothing discovered within recent years accomplishes so much, so quickly, without harm, without detaining one indoors, and at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding, or "covering up" complexion defects, it removes them. The wax actually takes off the aged, faded, sallow or blotchy cuticle, gently, gradually, and without inconvenience. It is Nature's way of renewing complexion. When the natural process is retarded because of deficient circulation or nerve tone, mercolized wax comes to the rescue and hastens the skin shedding. The new, youthful, healthy, exquisitely beautiful face in a lotion made by dissolving an ounce of axolite in a half pint of witch hazel. This is remarkably effective.

BODY FOUND IS THAT OF MISSING NURSE

Catskill, N. Y., July 30.—The body of the young woman found Sunday afternoon in Dubois Creek, near this village, was identified this afternoon as that of Miss Dorcas J. Snodgrass, a nurse, who has been missing from the home of her sister in Mount Vernon from the home of her sister. The identification was made by Frederick Schmidt, the young woman's fiance, and by Police Lieutenant M. I. Silvertown of the same place. Many theories are advanced as to the events immediately preceding death and to the cause of death itself. Coroner Vandenberg has certified that "from the circumstances surrounding the case the cause of death was drowned." Other officials, however, although unwilling to make definite statements, are inclined to believe Miss Snodgrass was murdered. Lieutenant Silvertown does not think the murder theory probable and declared Miss Snodgrass died as the result of an accident.

LA MARQUISE DE FONTENOY

Young Man Reported to Be Heir of Historic Italian Family. Reported Engaged to American Heiress, Does Not Appear in Family Records—Who is He?

Who is the Marquis Max Strozzi—who according to newspaper accounts is on the eve of a marriage with Miss Linda Arnold, daughter of Olney Arnold of Providence, former Democratic nominee for Rhode Island governor? The young man is represented as being the heir of the historic House of Strozzi, and as the owner of the famous palace of that name in Florence. Now the present head of the Strozzi family is Don Leon Strozzi seventh Prince of Forano, and Duke of Bagnolet, a retired captain of the Italian navy, married to a daughter of the princely House of Corsini.

Don Leone succeeded to the family honors on the death of his childless elder brother, the late Prince Piero Strozzi, in 1897, and has two daughters, Donna Antonietta and Donna Beatrice, who have both already made their debut, but being without male issue, the title will at his death pass to his brother, Don Roberto Strozzi, who is unmarried, and a retired captain of the Italian navy. The two Strozzi brothers have a sister, Donna Luisa, married to Count Francesco Guicciardini, former secretary of state and cabinet minister, and their mother, Donna Antonietta, Princess Strozzi, is a "Dama du Palais" of the Emperor Queen Marguerite. This completes the list of the living members of the great princely House of Strozzi, the oldest family of the Patriarchate of Florence, its antiquity being greater than that of the medieval city itself, the name figuring at that of a family then already ancient, in the still extant records of the year 1036.

Nor does the famous Strozzi palace at Florence belong, as alleged, to the young man who is styled in the papers "the Marquis Max Strozzi." In fact he cannot possibly have anything to do with it; for when the late Prince Piero Strozzi died, five years ago, he bequeathed it to the city and the nation, being "desirous that the palace be dedicated to some noble purpose, and be maintained with the decorum due to a national monument." The article proceeds to speak of the remarkable change in the attitude of the British government, and then Mr. Spender says: "If Canada is to have a voice, it is clear that the other dominions must also have a similar concession. Any council of the dominions will have to be consulted on all important questions of foreign policy, and if there is any reality in the plan, the British cabinet will necessarily be obliged to accept the advice of the dominions. In that way," he says, "the supremacy of the cabinet will certainly be impaired, and so far as the British cabinet is concerned, it will be a blow which will be struck at the British parliament from which the cabinet is drawn." "Would this be a concession to the dominions?" asks Mr. Spender, and he answers the question by saying: "It is to be feared that it would make for war. The restraint on war is chiefly from the fear of the consequences of war, but as the dominions are far removed from the probable centre of any European war, they would be far less liable to those restraints. "It is perfectly natural," continues Mr. Spender, "that Great Britain should rejoice at the willingness of the dominions to help her both in defence and offence, but it is the dream of the earlier school that the British Empire should be a League of Peace."

Daily Hints For the Cook

PUREE OF BEANS. Soak one pint of beans overnight in cold water, drain them, cover them with lukewarm water. After two hours more soaking drain again and put in a pot with a half pound of salt pork, chopped; a small onion sliced, a minced stalk of celery and two quarts of cold water. Place where it will come to a boil in about an hour. Simmer for an hour, and then rub through a colander. Return to the fire, with pepper and salt added, stir in a teaspoonful of flour, just wetting the flour with cold water. Boil up a few minutes and serve plain or with tomato catsup. BREAKFAST STEAKS. For southern beaten steak, a cheap but juicy piece of meat is used. Cut the meat into small steaks the size of the hand. Season each piece highly with salt and pepper. Then pound each piece until it is almost literally a rag. Roll up each and dip in cornmeal. Fry in very hot lard and serve at once. For another "breakfast steak" pound a piece of round steak until the toughest fibers are broken, then rub it with lemon juice and double over. Pound it again, and sprinkle with salt. Fold it over again, and pound a third time if desired, and fold yet again. It should now be about an inch

was nicknamed Lorenzo di Medici "the Caparra" (the Pledge) because he would never give credit to any customer. The palace owes its existence to Don Palla di Strozzi, who is claimed mentioned in his will that if ever his family were to become extinct, the palace should pass to the City of Florence. The late Prince Piero di Strozzi, therefore in bequeathing it with the consent of his two surviving brothers to the city and state, was only following in his own fashion the wishes of that remote ancestor who created this great architectural marvel. The Strozzi figure in almost every page of Italian history. One of them, as Lord Rector of the University of Florence in 1408, devoted a part of his vast fortune to the collection of Greek and Latin manuscripts, and it is to him that the world is indebted for the recovery and preservation of the "Lives of Plutarch," and the "Works of Plato." Leone di Strozzi commanded a fleet of some thirty French ships which sailed for Scotland in a vain attempt to rescue Queen Mary Stuart, a short time before she fell into the hands of her cruel enemy Queen Elizabeth. Brocchi di Strozzi was assassinated on the eve of his marriage by Duke Alfonso I. of Medici, who was in love with his bride. Filippo di Strozzi was the Admiral of the French fleet who, taken in battle off the Azores by the Spaniards, was made "walk the plank" by the Spanish Admiral Santa Cruz. Pietro di Strozzi was killed as Marshal of France at the siege of Turenne, and another Filippo, perhaps the most famous of them all, lives in history as the greatest adversary of Duke Cosimo de Medici. Imprisoned by the latter, and subjected to frightful tortures, he put a sudden end to his sufferings by seizing the sword of one of the guards and running himself through the body before anyone could interfere. The above is written in compliance with a request for information regarding the young man who is staying with the Olney Arpids at Sarrasment Pier. Since no mention of the name is to be found in

the pages of the Almanach de Gotha, or any work of reference mentioning the historic and Princely House of Strozzi, which, as I have just explained, will become extinct on the death of the two sole surviving male members, Don Leone and Don Roberto. How the young man in question can be the Head of the Family, or the owner of the Palace, as stated in the papers, is difficult to understand. It might be therefore suggested that the parents of any American heiress who be seeks in marriage should, before giving their consent, secure either from the Italian Embassy at Washington, or from the head of the Government Department of Rome, known as the Consulta, Her Majesty, whose all authentic Italian titles of nobility are officially registered, an assurance that his Marquisate finds a place among the nobiliary dignities of the Kingdom. This recommendation is made because, for some months past, a young Swiss from the Italian-speaking Canton of Ticino, has been heard of as passing himself off as a titled scion of the house of Strozzi. TO Help Nature Shed a Bad Complexion

(From The Family Physician). Beauty devotees are enthusiastic over the beautifying qualities of mercolized wax. Perhaps nothing discovered within recent years accomplishes so much, so quickly, without harm, without detaining one indoors, and at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding, or "covering up" complexion defects, it removes them. The wax actually takes off the aged, faded, sallow or blotchy cuticle, gently, gradually, and without inconvenience. It is Nature's way of renewing complexion. When the natural process is retarded because of deficient circulation or nerve tone, mercolized wax comes to the rescue and hastens the skin shedding. The new, youthful, healthy, exquisitely beautiful face in a lotion made by dissolving an ounce of axolite in a half pint of witch hazel. This is remarkably effective.

ENGLISHMEN SELL THEIR GREAT ESTATES

Panic Among Landowners Increased by Lord George's Proposal

BUYERS ARE TIMOROUS

Unwilling to Pay More Than Ten Years of Rental for Purchase—Bitterness in the City

London, July 31.—Whether or not Lloyd George has offered to offer his resignation as a cabinet minister, in order to prosecute the agitation of a single land tax, it is undoubtedly true that the second declaration has introduced new elements of desperate difficulty for the cabinet. Whether he has formed a definite plan or not, assuredly the cabinet as a whole has none on the land question. The immediate effect of his proposal on the public appears to be to enhance tenfold the panic in business and financial communities, and, above all, among the landowners. The conditions among the owners of estates even prior to the latest proposal of the chancellor of the exchequer shows a general state of alarm. This was illustrated one day recently when the newspapers published the results of four dispersal sales of great landed properties. The Duke of Sutherland sold his Shroton estate of 4,500 acres, with a rent roll of \$85,000. The total price realized was \$243,377, showing that the buyers were unwilling to pay more than ten years of rental for the purchase of the land. The only redeeming feature of the sale was that many small lots were sold to tenants. The Earl of Londesborough, the same day completed the disposal of the Salmons estate at Scarborough. The total of the prices at auction was \$98,385, but he had previously sold to tenants an amount of the property for a total of \$431,000.

FORTS BLOWN UP!

The Pride of a Nation's Powers of Defence Blown to Atoms in a Big Mine Explosion—At The Gem Today and Tomorrow—A Nation's Peril

All who cherish a fondness for the spectacular in motion pictures and who appreciate a thrilling, realistic drama, should see the two-reel production of "A Nation's Peril" at the Gem Theatre today and tomorrow. It has made a big success in other cities. There is cleverly depicted the necessity of secrecy and strength in the matter of providing coastal defence for the latest modern war equipment is shown in action and the manoeuvres are marvelous. Besides these two thousand feet of film there will be two rollicking comedies, and special orchestra music.

EARL PERCY STARTS A NEW CRUSADE

Claim Woman Suffrage Has Become Allied With Socialism

DISPLAY LIBERTY CAPS

Celebrated Fall of Bastille and Mrs. Pankhurst's Birthday Together

London, July 31.—Earl Percy is to start a new crusade against woman suffrage on account of what he calls its alliance with Socialism. He enters a weekly newspaper, called the Free Woman, as advocating free love under state patronage. From this paper he quotes a letter drawing attention to the hardship entailed on women who do not find husbands and suggesting that the state aid establishments where such women can rear their children. Earl Percy goes on to deplore the placing of such literature in the hands of girls of 15 and 16 years, a practice of which he accuses the suffrage promoters. He says the real nature of suffrage movement is now becoming revealed. What originally was a perfectly justifiable demand for the vote of women has now become a violent agitation against all law and order and a direct defiance of authority, human and divine. Earl Percy points out that at the Hyde Park suffrage demonstration on July 14 women carried poles with liberty caps on their heads and celebrated, besides Mrs. Emmeline Pankhurst's birthday, the taking of the Bastille. He says in conclusion: "To imagine that an agitation which has taken this form can be satisfied or appeased by a modified or even immediate grant of suffrage to women is to be deceived. This thing must be fought and it is for those who care for their children's welfare to fight it before it is too late."

BOYS HELD FOR DEATH OF CHUM

Youngster Dared Chum to Shoot Him and Gave Written Permission—Arranged on Charge of Manslaughter

Lawrence, July 31.—Moving pictures and especially one film showing cowboys shooting one another in the woods were the theme for the tragic death of eleven-year-old Louis Dion, according to statements made by the police today after Henry Talbot and Henry LeBlanc, each eleven, had been arraigned in the District Court on charges of manslaughter. It was Talbot who shot the Dion boy with a new rifle, after the latter had written the following permission on a sheet of paper: "I gave him permission to shoot me."—L. Dion.

LODGE TOMFOOLERY HAD FATAL END

Candidate Mistook Valise—Fired at Degree Team—Leader is Dying

Anderson, S. C., July 31.—Mistaking that part of the initiation where streams are purified and blank cartridges are expended as meaning to do him bodily harm, Furman Bagwell, a candidate, being initiated into the Woodmen of the World, rushed from the lodge-room and snatched his pistol from his coat hanging in the ante-room. He then hurried back into the lodge-room and fired three shots in quick succession at Melton Taylor, who was leading the degree team in the initiation. The first shot hit Taylor in the abdomen. The second buried itself in the hip-bone. The last shot struck Taylor on the back of the neck and glanced off. Taylor is dying.

The men were fast friends, and Bagwell acted through friendship. He will not be prosecuted.

DRESSED FOWL

The country had never looked more beautiful. It was the day of summer, and the setting sun gilded the roses and glistened on the tiny panes beneath the old hatched roof.

Little Willie, who was a town-bred boy, and had never before visited the country, occupied an old-fashioned stool beside the farmer's wife, marvelling at all around him.

By-and-by the good lady began to pluck a chicken that was destined for the next day's dinner, and the little boy marvelled the more.

"Your little boy seems to be getting along finely in school," said the farmer.

"Yes, I can't understand it, either. Everybody thinks he takes after his father."

GERMAN BARON

DOES NOT BELIEVE

IN THE WAR SCARE

(Ottawa Free Press.)

The talk of war between Germany and England is merely being stirred up by political interests. I do not think that Germany would take the first steps in an attack on England. For what reason would we make war on England, only for pleasure?

This was reassuring information given by a real German baron, who is staying at the Chateau Laurier. Baron von Bising is the name of the nobleman, and though he signs himself from Berlin, Germany, his baronial acres are situated in Silesia, a small German province.

The baron is touring Canada from coast to coast and will return by the United States. One thing the baron doesn't believe in is the German war scare, and he was very emphatic on this point.

TO ORGANIZE ONE HUNDRED MUNICIPALITIES

Growth of Alberta Reflected by Activity of Department of Municipal Affairs

THE SINGLE TAX

Has Operated Satisfactorily in Rural Districts and Towns—Edmonton's Experiments With Municipal Ownership

Edmonton, Alta., July 30.—More than a hundred agricultural communities in the province of Alberta will be organized this year under the Rural Municipality act, passed by the last legislature and effective in 1912. The department of municipal affairs has so far received requests for petitions to organize municipalities, and it is announced that elections will be held in 33 localities this month and that plebiscites may continue to be taken until November.

Charles Stewart, minister of municipal affairs, announced in Edmonton today that the affairs of all local improvement districts in the province, whether or not they are to be organized, must be wound up the coming fall, when an official audit will be made of the books of the authorities. Any balance shown on the debit or credit side will be taken over by the new organization.

The new system provides that taxes shall be levied equally upon all rateable land in the municipality according to the assessed value of each land. The assessment plan is based upon the following provision in the Rural Municipality act: "Land shall be assessed at its actual cash value as it would be appraised in payment of a just debt from a solvent debtor, exclusive of the value of any building erected thereon or of any other increase of value caused by any other expenditure of labor or capital thereon."

The question of taxation is dealt with entirely by the council of the rural municipality. The new act fixes the limit to taxation for municipal purposes at 10 mills on the dollar. It is not expected that a rate will be levied to exceed 88 per cent, and in many cases the rate levied will not exceed 83 or 84.

With a view to encouraging the cultivation of farming lands, the province at the same time discouraging the speculative holding of large acreages, several important amendments will be brought to the attention of the next legislature. One of these is a recommendation that the present refund of 25 per cent of all taxes on cultivated land be increased to 50 per cent. This, it is believed, would have the effect of driving the speculative speculator out of the field. Other amendments will be based upon the actual experience of municipalities when the act comes into operation next January.

The act provides that every municipality shall, insofar as is practicable, comprise an area of 18 miles square or 324 square miles, and all municipalities shall be laid out on a uniform plan, as the conditions of the system of the dominion land survey and the physical features of the province will allow.

The minister of municipal affairs may sever any portion of a municipality and annex the same to any adjoining municipality, or may withdraw from any municipality any area hereafter established as a village under the provisions of the village act, passed by the legislature in 1907.

John Ferris, deputy minister of municipal affairs and ex-commissioner of Alberta, made the following statement at the government building in respect to an act to be passed by the legislature in 1912, which will change the present system of taxation in the rural districts of the province and the province lands. No taxes are levied on improvements or personal property. This method of assessment is a fair one and is satisfactory to the farmers. In fact, any change to a system of taxation whereby improvements or personal property are assessed would be strongly opposed by them.

We have found no demand for the tax system being changed so that taxes would be levied on improvements and personal property.

Edmonton, the most northerly city of the 50,000-class on the American continent, is not only successful with the single tax system, but also has a satisfactory plan of municipal-owned public utilities, operating street railway and telephone lines, water works, electric light and power plants. The municipality has plans to install a gas plant costing \$700,000, and also has experts at work making test holes in the vicinity of Edmonton for natural gas wells.

The City of Edmonton owns and operates 40 miles of street railway lines, a water distributing system of 90 miles of mains and an electric and power plant of 5,400 k. w. Three hundred and fifty thousand square yards of paving, estimated to cost \$1,200,000, will be laid this year. At the beginning of 1912 the city had 217,429 square yards of paving. Improvements in the next two years will cost \$5,000,000.

The municipality owns two industrial sites of more than 200 acres in the southern and northern parts of the city, where factory sites can be leased on long terms on a lease showing 6 per cent on the cost. The business tax has been abolished. Electric light and power and water for manufacturing purposes are sold at a minimum cost.

The tax assessments this year amount to \$123,000,000, exclusive of exemptions, and it is anticipated that the rate will be about 12 mills on the dollar, as compared with 13.7 mills in 1911.

The Cossar Farm

G. C. Cossar, the owner of the big farm at Lower Gaggetown for training Old Country boys in agricultural life, arrived in the city yesterday and is optimistic over conditions. Mr. Cossar has been engaged for two years in bringing boys from Scotland to New Brunswick. He had twelve boys with him, and Mr. Gilchrist, the provincial immigration superintendent, was able to find homes for five of them and the remainder will be taken to the Cossar farm at Gaggetown. He has sent fifty Scotch boys to this province this year.

MORNING LOCALS The sewerage board of Lancaster intend taking legal action after October 1st against all residents who have not complied with the by-law ordering connections to be made with the sewer. The sewerage system has been completed some time ago and residents are not making connections with it. The next field meeting of the Natural History Society will be held on Saturday at Moncton, the summer home of Arthur Thorne. Bookboards will leave the museum at 9:30 a. m., and members are requested to hand in their names on Friday on earlier, at the museum, so that accommodation may be provided. Roy Clayton, the twelve year old son of J. P. Clayton, superintendent of Ferry Hill, was thrown from the back of a horse on Sunday evening and seriously injured. Dr. L. A. McAlpine, who was summoned, fears concussion of the brain. The children of the Centennial and Harriet L. Allison supervised playgrounds were the guests yesterday of F. G. Spencer at his theatre the Lyric and Unique. The children were in charge of the teachers and thoroughly enjoyed themselves. The kindness of Mr. Spencer is greatly appreciated. Fred Shonoman, a ship laborer, fell in the hold of the schooner A. B. Hartigan, which was severely bruised. He was able to walk to his home. Harold Clayton, of this city broke his arm at St. Paul's Sunday school picnic at Westfield yesterday. The boy scouts who were in attendance rendered valuable first aid, until Dr. W. E. Bowyer arrived. The injured lad was brought to the city.

SPECTATORS WILL ALL BE SEARCHED FOR WEAPONS Montgomery, Ala., July 31—When the case of C. Walter Jones, assassin of S. B. Allen of Greenville, Va., is called in the criminal division of the city court today, none of the witnesses or spectators in the court room will carry concealed weapons. If Sheriff Horace Hood can prevent it, Jones, held since July 16 for the alleged murder of Sloan Rowan, a passenger on a Western & Alabama train at Lowndes County, Ala., is under arrest. Half of the hundred witnesses are from Lowndes County. Judge Brown has not specifically announced approval of the sheriff's proposal. Not only will no one carry a weapon into the court room, said the sheriff last night, but none will enter who cannot be searched, and extra deputies will be on duty. Within the square mile which constitutes the City of London, the yield from the income tax is nearly \$10,000,000.

In view of her popularity in this city, the following taken from the New York Mirror will be of interest to the friends of Miss Robson, who appears here at an early date.

It is another evidence of the same easy-going temperament that Miss Robson chooses homely recreation. It would be impossible for her to waste time absolutely.

The conversation turned back to the days when Miss Robson was in Daniel Frohman's Stock Company at the old Lyceum Theatre.

PROJECT TO RECLAIM NINETY ACRES FOR INDUSTRIAL SITES

Plan Submitted by Engineers For Extension at Ballast Wharf—Cost of More Than Million Would be Safe Investment

The plan suggested by the mayor and later taken up by the Board of Trade that an extension of the Ballast wharf might be built to provide accommodation for another industry, has been mandatorily advanced.

The area to be reclaimed is indicated on the accompanying plan by hatched lines, and covers about 93 acres. Starting from the harbor end of Broadway, the line of harbor line runs in a southerly direction for a length of 1,500 feet, almost parallel to the main channel of the harbor.

The cost of the entire reclamation is estimated in round figures at \$1,200,000. While these figures may seem high, the opinion is expressed that the investment is undertaken by the city of St. John or by private enterprise, the city would be able to recoup its investment in a comparatively short time.

The filling in behind the retaining wall would be done by utilizing the millions of cubic feet of spoil to be removed by the dredges which will be at work in Cochrane Bay during the next few years.

NEWPORT LEADER TO RETIRE FROM SOCIAL WHIRL

Mr. Stuyvesant Fish in Blunt Speech Gives Her Reasons—Same Old Dinner; Same Old Dances

Newport, July 31—Mrs. Stuyvesant Fish handed out a social social pliers today which she called the "Summer colony from end to end."

She made a blunt speech without notes. The front porch of the Casino was her rostrum and many of the leading residents of the fashionable colony made up her audience.

There was no social whirling, but Mrs. Fish calmly gazed on a semi-circle of astonished faces. Her auditors, after the first pang of surprise, crowded around her and urged her to change her decision and remain the rest of the season.

The recognized social leader was obstinate. She stuck by her edict, and Mr. Fish, who had strolled with her to the Casino at noon, approved his wife's stand.

For weeks gossip had had it that Mr. and Mrs. Fish were discontented with the social whirl here. Mr. Fish did not attempt to keep secret that he had long ago tired of the social routine.

And those electrified by the speech were Lola Robinson, Mrs. Herman Oelrichs, Mrs. Pembroke Jones and Mrs. Royal Phelps Carroll. There were many others whose names are conspicuous in society.

The speech of Mrs. Fish, coming from one of her popularity and standing, was a rude shock.

Her going will be a blow to gaiety. In all things worth while Mrs. Fish has for years been the dictator. She has come to be known as the "social machine."

CATTLE INDUSTRY AND ITS EFFECT ON COST OF LIVING

Despite High Prices Raises Make Profit of Only \$3.90 a Head—New Land Policy Needed

Altitude records are being broken by the price on meats and because of the scarcity of leather leading shoe manufacturers are predicting that the cost of shoes is to ascend to heights that would make even a Swiss mountaineer dizzy.

Further, stockmen of the west have been worried and confused for years over the price of their stock. The price of their stock has been steadily declining for a number of years.

The cost of producing beef in the middle west during the winter of 1911-1912 is shown by the following table:

Table showing costs of producing beef in the middle west during the winter of 1911-1912. Items include: Cost 1,000 pounds feeding steer at \$5.00 per cwt., Cost 60 bushels corn at 60 cents, Cost 200 pounds oatmeal at 30 cents, etc.

CONDITIONS NORMAL IN JAPAN DESPITE DEATH OF MIKADO

Tokyo, July 30—The era of Taisho, great righteousness—has commenced. The era of Meiji—intelligent administration—closed with the accession of Yoshihito.

The death of Emperor Meiji, while causing widespread grief, has had small effect on normal conditions here. There has been a remarkable absence of demonstrations of any kind, and aside from the closed banks and commercial houses, the shops and stores are open as usual.

LESSONS. "There are many valuable lessons to be learned from defeat," replied Senator Sorghum; "but they aren't any good unless you can teach them to the other fellows, which are called lessons."

NO MORE DANDRUFF, FALLING HAIR, SCALP ITCH

Men and women—do you want a splendid head of luxuriant hair free from scalp itch and dandruff?

Do you want hair so bewitchingly radiant that it compels the admiration of all who see it?

Do you want a scalp so immaculately clean and bright as a newly-minted coin? Do you want to use a hair-dressing that will surely prevent baldness, that always refreshes and invigorates and makes your hair head feel fine?

Then spend 50 cents this very day and get a bottle of PARISIAN Sage at any drug store or toilet goods counter. Use it as directed and you will never care to use ordinary toilet again.

\$2,400,000 A YEAR IS ESTIMATE OF POLICE GRAFT

Further Confessions in Rosenthal Case—\$2,000,000, Price of Murder—Becker May Tell of Those Higher Up

New York, July 30—Swoon statements tendered to show that the annual graft collected by high police officials in New York city from gambling houses and other legal resorts has amounted within the last year to \$2,400,000 are in the hands of District Attorney Whitman tonight.

The statements were made to the district-attorney today by "Bald" Jack Rose, self-confessed graft collector for Police Lieut. Becker, head of the "Strong Arm Squad," who tonight began his second day of incarceration in the Tombs prison, as an alleged instigator of the murder of Herman Rosenthal, the gambler.

Mr. Whitman, it was learned, has the names of the other three police officials whom Rose has named and his further efforts in this most sensational "police exposure" that New York has ever seen will be directed toward strengthening the evidence which points against them.

Incidentally, Webber today admitted to the district-attorney that \$2,000,000 was the sum which he received to pay the men who actually fired the shots which killed Rosenthal.

Mr. Sullivan, counsel for Jack Rose, made a statement tonight, in which he took up the matter of a confession by Rose with Mr. Whitman early last week, and Friday afternoon I came to a practical understanding that my client would tell all he knew if promised immunity. Rose held out and refused to entertain any proposition for a confession until the men who should have stuck to his deserted him. When he found himself without friends, without help, he decided that he should be made the "goat."

FIVE STORY VAULT AT WASHINGTON TO HOLD \$2,000,000,000

Washington, July 31—A steel ribbed, destructible five story vault, sunk in the earth beneath the United States assay office in New York and capable of holding two billion dollars in gold, is planned by Secretary McVeigh of the treasury department. This project—the largest vault in the world—required the sanction of congress and has already received a favorable report from the house committee on appropriations.

Looking into the future, it is believed the vault is a necessity for the nation's wealth. Gold is purchased by the United States government at the rate of \$100,000,000 a year. This treasure, stored in gold certificates are issued, is distributed to the country over in the vaults of the treasury, sub-treasuries, mints and assay offices. Within a few years it is estimated the entire storage capacity of these buildings will have been consumed.

NO NAVAL BASE FOR JAPANESE

Washington, July 30—That the Monroe doctrine forbids the United States to permit any foreign nation to acquire a naval base at Magdalena Bay or other similarly situated point on the American continent, is understood to be the substance of a report to be made tomorrow by Senator Lodge, to the senate committee on foreign relations.

MONTREAL'S NEW HARBOR

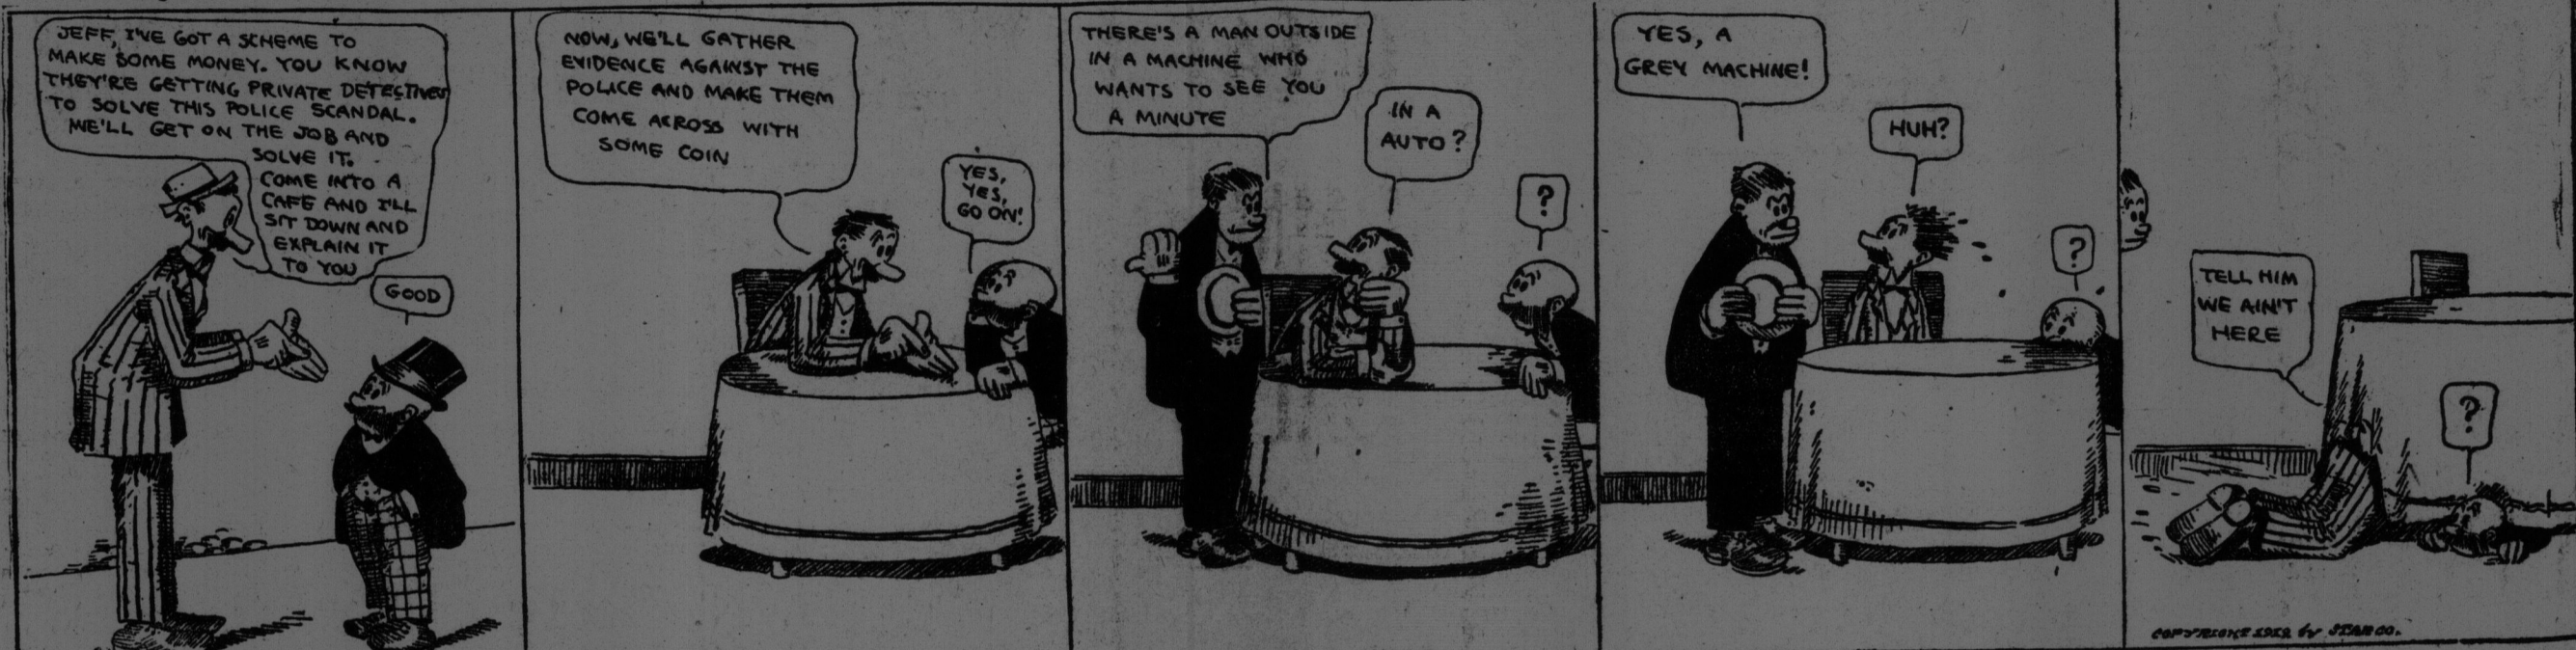

Montreal, having accomplished her harbor and the channel for five-thousand-ton ships that led to it from the open sea, stood still for half a century and admired her works along the water-front. They were impressive. Much-travelled folk were not slow to say that she possessed one of the handsomest harbor fronts in the world, with its gay show of shipping, its broad, stone-walled quay street, and back of that, the line of sober, serious limestone buildings, much given to domes and cupolas. It was all impressive and in its way beautiful. But it was growing obsolete.

Then Montreal awoke. Two new trans-continental lines were being driven across western Canada. If she did not take care the bulk of their traffic would not come to the wharves of the chief city of Canada. It would go rushing by rail down across the United States or to new harbors below Quebec.

Montreal harbor is still too new in its adolescence to have given full evidence of its value, but only last summer the Canadian Pacific liner Mount Royal discharged 4,200 tons of general cargo and took on 9,500 tons, also of general cargo, all in fifty-three hours. The average time taken in European ports, as shown by carefully compiled statistics, for the loading and unloading of a 10,000 ton cargo is fourteen days. Montreal handled 15,750 tons in a little over three days and feels that her new port measures up to the first test.

Marathons Split Even

The Marathons won and lost on the Marathons grounds yesterday afternoon, when they met the Fredericton baseball team in a double header. The first game went to the visitors by the score of 10 to 5, but the Greeks tightened up in the second contest and won by the tally of 4 to 0. The second contest only went for five innings in order to allow the Fredericton boys to catch their train.

White Four

The Marathons did not score until the sixth inning, when they had a batting rally, and got six men across the plate. It needed five hits to do the trick. O'Brien, Pinkerton, Riley, Fryor and Winter played well, while the home team, while Leehey, Callahan and Hoyt started for the visitors.

LOCAL NEWS

POLICE COURT.
One lone prisoner was arraigned in the police court this morning. He is charged with drunkenness and was remanded.

COMMISSIONERS' MEETING.
At the meeting of the City Commissioners this morning the time was devoted to the public safety department. Commissioner Wigmore presided in the absence of his worship the mayor.

PLUMBERS DEFEATED MASONS.
The Plumbers' team took the Masons' nine into camp on the Marathon ground last evening, defeating them in a fast game of ball by the score of 3 to 1. Harold Brooker was the battery for the Plumbers and Sprout and Price for the losers.

BUILDING LOTS SOLD.
The sale is reported today of five or six building lots in the subdivision of Alexandra Heights in Lunenburg. The purchaser is a Boston lady and her intention is to build during next spring. The sale was made through Messrs. J. J. & R. Rive.

PATIENTS IMPROVING.
The condition of Walter Crosby, who was injured in a motor boat accident on the river on Sunday last, was somewhat improved at the hospital this morning. Patrick Trainor, who was injured by falling over the South Wharf still continues to improve.

AMATEURS MAY TRAVEL.
The St. John amateurs who played Men and Women at the Opera House here this season with much success, have received a tempting offer to play at Charlottetown in the near future. They have not decided whether or not they will accept the offer, but they say they may go to Halifax during the month of October.

A PRESENTATION.
A great number of friends of Fred Fowler gathered last evening at the home of Miss L. H. Byles, Victoria street, and tendered him a surprise party. During the evening Mr. Fowler was presented with a handsome travelling companion. He has been employed for some time with the C. P. R. here, and will leave at the last of the week for Calgary, where he has accepted a position.

INTERESTING THE CHILDREN.
It was a pleasing sight at the Aberdeen playgrounds last evening to see a group of eager children gathered around Miss Poulis, who told them stories and kept them deeply interested, despite the attraction that drew others to the swings and slide. Story telling is one of the special features of playground work in American cities.

MAKE WAY FOR LADIES.
A lady who was compelled to stand, and who saw another lady standing with a baby in her arms at the King Square band concert last evening, while two benches beside them were filled with men, asks the Times why this should be. It would not be if the men were a little more thoughtful. Perhaps a policeman could be detailed to see that this is the rule in future, unless the man is old or infirm.

COMMERCIAL LEAGUE.
In the Commercial League series this evening the Bats & Bets' Grays' Sweets will line-up against T. H. Estabrook's Roses. Both teams will have a good line-up and a fast game is expected. The game will be played on the Barrack Square. Maher and Lawlor will be the battery for the Bats & Bets' Grays' and Rowley for the Roses. The game will be called at 7 o'clock sharp. H. R. Henderson will umpire.

CANADIAN CLUBS.
While in Fredericton yesterday, Horace A. Porter, secretary of the St. John Canadian Club, endeavored to see Dr. W. S. Carter in connection with the meeting of the Federation of Canadian Clubs which will be held there on September 18 and 19, but was unable to find the chief superintendent. The programme, however, Mr. Porter says, has not been drawn up and it will be some little time yet before it is.

SAILORS ARE SCARCE.
Sydney Post—Captains of steamers arriving at Sydney declare that not in many years has it been so difficult to obtain crews sufficient to man their ships as at present. Whether it is the wages paid or the fact that there are fewer men engaged in the business of sailing nowadays than formerly that is responsible for the scarcity is difficult to say, but the fact remains sailors are very hard to obtain.

MONEY IN PEARL DIGGING.
The Chatham Gazette tells of thousands of dollars worth of pearls being taken from clams at the clam beds in the Tobique river. Some years ago Thomas O'Brien found a pearl that sold afterward for \$700, and a party of Shelburne people who have been at work are said to have secured one that sold for \$900. The Gazette says that while the work has gone on quietly it has leaked out that last season's operations yielded some thousands of dollars.

HEBREW PLAY BALL.
A group of young Hebrews, whose politeness clearly indicated that they were not picked up on the streets of St. John, called on the Times this morning. They desired to state that on Hazen Avenue Park the Young Athletics were defeated by the Pond Street Stars by a score of 12 to 1; also that the battery for the winners were Garson and Regor, and for the losers Goldberg and Holtzman. An error by Garson was described as the feature of the game, but there may have been others. Nobody batted the umpire.

STEEPLE JACKS AT WORK.
The work of a steeple jack on the chimney of the Cornwall Cotton mill was watched yesterday afternoon by many people, and the daring acrobats made by spiking one ladder into the chimney, climbing it and then spiking another from the head of the first ladder, was as good as a circus feat to most of the spectators. The jacks are the two White brothers, who have been doing similar work throughout the province. They came out to New Brunswick about eight years ago from Scotland, where they had established a reputation in the trade in the large cities. They make their headquarters at Miramichi.

WOLGAST AND McFARLAND WILL MEET SEPTEMBER 10

Milwaukee, Wis., July 31.—"Ad" Wolgast and Puckey McFarland have been matched to fight ten rounds at New York, September 27. Papers will be signed at once, as McFarland is satisfied with Wolgast's offer to let him weigh in at 145 pounds at three p.m. the day of the fight.

Toronto, July 31.—The expected announcement that coal would go up 25 cents a ton in Toronto on August 1, has been made, and the retail price will be \$7.50. There will be other advances later in the season, says

FREDERICTON PLANS BIG DISPLAY FOR ST. JOHN EXHIBITION

Board of Trade Will Have Industrial Exhibit—Lots of Entries For Live Stock Department

That Fredericton business houses and manufacturers will be well represented at the big fair here in September, was made evident by the cordial reception of Horace A. Porter, secretary and manager for the St. John Exhibition Association, who returned from the capital yesterday. Though everybody was pretty well taken up with the preparations for their Old Home Week, the merchants and manufacturers showed a keen interest in the exhibition here. Mr. Porter discussed with Fredericton men the outlook for their "Made in Fredericton," and Board of Trade exhibit, and appreciation seemed to be general of the advertising Fredericton would derive from the scheme. As soon as the Old Home celebrations are over the business men of the capital will take up matters in connection with the exhibition here.

While it is early yet to make comparisons with former seasons, present indications are that this year's show will be a fine one. A look into the manager's office this morning showed a big batch of entries. The live stock show is expected to exceed anything in some years. Enquiries are pouring in from live stock breeders and farmers all showing a great interest and asking for entry blanks. Many of these are new, not having exhibited here previously.

READY TO CARRY HERBERT CASE TO PRIVY COUNCIL

Montreal, July 31.—J. Lefebvre, counsel for Eugene Herbert, one of the principals in the famous marriage annulment suit, announced this morning that he was ready to carry the case through the privy council if his client was willing. Mr. Lefebvre pointed out that he has already entered an appeal against the decision of Judge Charbonneau, quashing the annulment of the marriage, by Judge Laurendeau. The hearing of this appeal comes up before the court of revision in October. If appeals are to be continued through to the privy council financial assistance will have to be given Mrs. Herbert. She is at the present time out of the country, though her lawyers say they can easily secure her attendance when her case comes up.

WILL PROSECUTE VICTIMS' FRIENDS FOR TRESPASSING

Moncton, July 31.—(Special)—C. O. Posa, divisional engineer of the Grand Trunk, was in Moncton today and instructed E. A. Rath to start prosecutions against the persons who were with Chas. M. Steed, who was killed on Saturday afternoon last while running a gasoline trolley on the G. T. P. It is alleged that they had no permit to run the trolley over the road.

ACCIDENT TO TRAIN AT UNION STATION

As the Montreal train was pulling into the depot today at noon the rear wheels of the last car were run onto the wrong track, caused by the switch closing too soon. Several passengers were in the last car, and had the train been going here, doubtless several would have been injured. As it was the car was later lifted one side, the front wheels being lifted from the track. The accident caused some delay and a great deal of inconvenience to the crowds coming home to dinner, as the train was lying across Mill street.

MONTREAL INDUSTRIES TARETATED BY STRIKE

Montreal, July 31.—Unless the iron foundries of the city grandly defy a ten per cent wage increase, employment from Saturday labor, and a change from piece to time work, one hundred pattern-makers declare they will walk out tomorrow morning, and stay out until their demands are granted. Twenty manufacturing establishments in the city will be affected.

DEATH OF JOHN GOOD

(Special to Times)
Moncton, N. B., July 31.—John Good, a well known and respected citizen, passed away at his home, Robinson street, about twelve o'clock last night in the eighty-seventh year of his age. Mr. Good was quite active for a man of his years, had been in failing health for the past year, but death came quite suddenly and unexpectedly. He was a native of Millstream, Kings County, but had resided in Moncton since 1880. About 1882 or 1883 he entered the service of the I. C. R. here and had been employed there continually up to about three years ago, when he retired under the provident fund act. The deceased was an active member of the Reformed Baptist Church and laid the corner stone of the Moncton church twenty-three years ago. He is survived by his wife, four sons, Alfred of the I. C. R., Moncton; Seth of Boston, William of Killians' Mills, Westmorland County, and Cyrus F. of St. Stephen, and two daughters, Mrs. Allan Goughlan of Cambridge, Mass., and Mrs. Alphonse of St. John. The body will be taken to Millstream and the funeral will probably take place Friday morning.

WEDDING OF INTEREST

Montreal, July 31.—The marriage of the Hon. P. S. G. MacKenzie, Quebec's provincial treasurer, to Miss Catherine Penfold, daughter of the late Jaffey Penfold, of Montreal, for many years manager of the Bank of British North America, is to be celebrated this evening at the residence of the bride's mother, at Melbourne, Que.
