HARRY NUNN.

Case Which Has Elicited Much Interest Among Medical Men.

History of the Case, Its Treatment and Convalescence Till Heart Disease Developed.

Dr. John L. Heron writes as follows in the Hot Springs, Ark., Daily News of Sept. 23rd: On the 26th of June I was wired to come to Halifax, Nova Scotia, to treat Harry Nunn, then ill of a malignant disease called pumphigous folliculosis or vesicula.

of the best physicians of Halifax and other parts of Nova Scotia and New York, who after exhausting all known means, had concluded as a last resource to place him in the bath, which also brought any relief to him. On examination I found him with body black like dried beef.

In this condition I had him removed from the Victoria General Hospital to his mother's house on the 4th of July, where I proceeded to treat him. I divested him of his clothing, cotton and bandages, and bathed him with a solution of potassium permanganate.

Without the aid of crutches he was able to walk four times the length of the street car line, where we took cars for a walk to the beach. He was only permitted, however, to take these baths four times. We thought it more prudent after the fourth to have the heat about a time on account of the steady improvement. He also needed that his appetite began to fall somewhat.

A couple of dozen onions seem a few for a bath, but J. R. Douglas of Albany, Or., has exhibited twenty-seven onions which together weigh sixty-five pounds, or fifteen pounds more than a bushel.

In nine years the Indian population of Tama county, Ia., has increased by thirteen. The red people there now number 394.

THE REEKER MURDER.

Chief Mate Saunders Was a Native of Sandy Cove, Digby, N. S.

An Interview With Mrs. Saunders by a Sun Correspondent at Her Home in Sandy Cove.

Digby, N. S., Oct. 6.—Wm. N. Saunders, chief mate of the schooner Olive Reeker, who was murdered on the high seas, along with Capt. Whitney, while on a voyage from Boston to Buenos Ayres, was born in Sandy Cove, Digby Co., N. S., in 1851. His father was the late Capt. Wm. Saunders, who married Miss Maria Walker of Ireland. They were among the first settlers in Sandy Cove.

Mate Wm. Saunders, after having a common school education at his home and when but a lad, went to sea with his brother, Capt. Lemuel J., in the three masted schooner, which was built at Sandy Cove and owned by the Saunders brothers, and was engaged in the West India, and South African trade. After Capt. Lemuel J. died, a few years later, William sailed before the year for a number of years with another brother, Capt. Chas. F.

When 31 years of age he married Miss Emma, a daughter of the late Shabell Eldridge. In the fall of 1895, he went to Boston and shipped out of that port in the African trade, where he was engaged until his death. He had made ten voyages, he would be absent two or three years at a time. He bought a farm, built a nice house, and had everything comfortable at the home, a good wife and three small children, one daughter, Pearl, aged 16, and two sons, Jeffrey, aged 8, and Seymour, aged 5 years.

Previous to Mate Saunders' leaving home the last time, he had a large lot of land adjoining his farm, intended to make this voyage his last, intending to farm on an extensive scale and engage in lobster fishing. He also had made arrangements with Mrs. Saunders to have the house remodeled and painted in his absence. Mrs. Saunders has the necessary changes made and everything ready to welcome her husband on his return to spend the remainder of his life with his family.

Mate Saunders was always counted a first-class officer and good seaman. He had a good disposition, was always kind in his house, was quiet, being generally content with strangers, very seldom would he ever start a conversation except with very intimate friends; always known to speak kindly when giving orders to his crew; not always bearing a heavy burden; never over-seeing a pleasure for his men to obey; that every one says of him, both those who have been shipmates with him and those who associated with him while ashore.

MATE W. N. SAUNDERS.

her brother had seen an account of it in one of the daily papers. Did you receive any news from the owners of the vessel? No; the first news I received from Boston was a despatch from Mr. Boudreau, where my husband boarded in Boston. How long did your husband board with Mr. Boudreau? Ever since he has sailed out of Boston in the African trade, about thirteen years. When did you last hear from your husband? He wrote me when he shipped, just previous to his sailing. Did he mention anything about the captain or the crew? No; he simply told me the name of the vessel and where she was bound for. Did he say that the captain had a hard name? No; when writing he very seldom mentioned the captain's name or any of the crew. I see by the papers the captain had a very hard name and that they thought at first he wouldn't go with him; but in his letter to me he did not speak of captain or crew. Did you receive any letter after the vessel sailed? No; the vessel did not call at any port.

THE SHIP FAVONIUS.

Was the Vessel Fired by Karl Karlson, the Carpenter.

After Evidence Before a United States Commissioner, He Was Sent to England for Trial.

Salem, Mass., Oct. 7.—Captain J. W. Dunham of the St. John ship Favonius, burned at sea near Penascola, Pa., on Sept. 19, who has reached home having given the details of the affair and of the arrest and trial of Karl Karlson, the carpenter of the ship, who was accused of setting the fire. The case was heard before the United States Commissioner, as provided by treaty with Great Britain, the Favonius being a British vessel, and upon the evidence submitted, the accused carpenter was held and has been sent to England with the four witnesses who testified against him for a trial. The evidence submitted at the hearing showed that the carpenter of the ship was exceedingly anxious to avoid making the voyage to Rio Janeiro contemplated. His objections to proceeding in the ship were so great that on the day preceding the sailing of the ship, he, for the purpose of securing his release, intentionally mutilated himself by cutting off, with an axe, the end of two fingers of his left hand. But this mutilation did not secure to him his release from the ship. After cutting off his fingers he requested that he be sent ashore for medical attention. Instead, the physician was summoned on board the ship, and he pronounced the defendant able to proceed in the vessel. About one hour before the fire was discovered, the carpenter told some of the crew that before that time Monday they would all be back in Penascola. A short time before the fire was discovered, the carpenter was seen to approach the forward ventilator with a large roll of alum in his hand. At 3 o'clock p. m. smoke was seen coming from the ventilator referred to. Immediately efforts were made to extinguish the fire in the vessel. Pumps down the ventilator, and hoses were out in the deck and the fire hatch taken off. Captain Dunham himself went down the hatchway and was almost suffocated by smoke. The crew worked with a will, but to no avail. There was a high swell on, caused by previous strong winds, and to prevent the ship from drifting into the harbor the anchor was let go. The ship was lowered and made fast stern while the crew were securing their efforts. Finding it impossible to save the vessel, Capt. Dunham ordered the crew into the boats and laid astern of the ship, held by a long line, intending to wait until daylight. The ship was ten miles from land and eight miles from Penascola. About ten o'clock the light-house tender Laurel, attracted by the fire, came along and took the crew on board, towing the boats astern. The ship burned for two nights and two days, and was totally destroyed in spite of water being poured into her by tugs.

KELLY PLEADS NOT GUILTY.

The Alleged Murderer of Cashier Stickney in Court.

Dover, N. H., Oct. 5.—Joseph E. Kelly, the alleged murderer of Cashier Stickney of the Somersworth Bank, was arraigned before Judge Clark of the supreme court this afternoon, shortly after 3 o'clock, and after listening to the reading of the indictment by Chief of Court Durgin, responded in a loud voice: "Not guilty." He was brought to the court room quietly by Sheriff Hines, assisted by Deputy Barker, and but very few spectators were present. The court informed Kelly that James A. Edgerly of Somersworth and Postmaster James H. H. of this city, had been assigned him as counsel. Kelly is a well known and well liked man in the town, and does not look to be over twenty years of age. He was cool and collected while in the presence of the court, and showed no anxiety after the verdict was pronounced. He is placed in the cell room for the night, and will be taken back to his old quarters in the jail.

A JEWISH WEDDING.

It was Celebrated in the Mechanics' Institute Thursday Night in the Presence of a Large Crowd. The assembly room of the Mechanics' Institute was the scene of a gay festive Jewish wedding, when Miss Rosa Kaplan and Miss Emma Hoffman were made man and wife according to the prescribed Hebrew form. Seven o'clock was the hour fixed for the ceremony and long before the clock chimed the hour, the guests began to arrive in such numbers that at the appointed hour over two hundred ladies and gentlemen had assembled around the canopy under which the happy couple were made one.

The bride, who is a daughter of Isaac Kaplan of 124 Main street, was becomingly attired in a magnificent bridal gown, and was attended by Miss Ethel Kaplan, her sister; Miss Annie Hoffman, a cousin; Miss Annie Tompkins, a daughter of the officiating rabbi. The groom was supported by Herman Kaplan and Albe Kaplan, brothers of the bride; Arthur Arkins and Joseph Eisenbrook. Rabbi Tompkins took his position underneath the canopy, which was supported by the four groomsmen, each holding a lighted candle, and after 7 o'clock. The groom also took his stand underneath the canopy and in a few minutes the bride and groom appeared, consisting of the bride, her bridesmaids and the parents of the contracting parties. They circled seven times around the groom, after which the young couple received their parents' blessing.

The groom's father spoke to his son by a few words of advice, after which the groom placed on the index finger of the bride's right hand the wedding ring. Rabbi Tompkins read in Hebrew the prescribed marriage ceremony, at the conclusion of which he handed to the groom a glass of wine, which was in turn passed to the bride, who, after touching it to her lips, passed it back to her husband, who topped the glass to the floor, breaking it. The meaning of this is that in the midst of their married life they should remember the destruction of the temple in Jerusalem. At the conclusion of the ceremony a sumptuous supper was served, after which dancing was indulged in until late hours. Duplelisses orchestra furnished the music.

The Rev. Alban Robichaud of the parish of St. Anne, Westport, King's county, by his lordship the Bishop of St. John. Father Robichaud will leave in a day or two for his new field of labor, and his departure will be regretted by many of his parishioners.

NOTED CRIMINAL.

A remarkable Career of a Man Now in the Hands of New York Police.

New York, Oct. 7.—The police have in their custody a prisoner who, at all the charges against him, he is true; in one of the most remarkable criminals in the criminal annals of this country. According to Chief of Detectives McCloskey, his depredations amount to nearly \$400,000, and extend all over the United States. His name is Emmet E. Gibson; he is of middle age, and bears the alias of George A. Sheard. He claims that he is a lawyer by profession, a railroad promoter by choice, and was at one time a judge in the state of Ohio, and he is a director of the Akron, Ohio, Street Railway Co., which he was declared one-time president. He is accused of having laid down bogus checks, forged bogus stocks, worthless bonds and carried on general swindling operations for a period extending back four years, and it is alleged that in that time he has succeeded in obtaining by means of various fraudulent designs and devices a sum not far from \$400,000. According to the information in railroad and hotel circles, and was identified with Luke Clark, the Chicago promoter. A spacious and well equipped summer hotel is being erected at McKel's lake, near Brown's Flat, in the parish of Greenwich, Kings county, by Capt. S. Anderson, who is well known in this city, and throughout the lower provinces. It will be called the Hotel Greenview, and will be formally opened on the 24th of May, 1898. Capt. Anderson already has on the shore of the lake a fine club house. The lake offers attractions for fishermen, and in abundance of game to be found in close proximity to the hotel.

A NATURAL HISTORY SOCIETY. The Teachers of Sussex Organized the Constitution Adopted and Officers Elected.

The teachers of Sussex and other districts in the county assembled in the Grammar school, Sussex, on Saturday, the 2nd inst., for the purpose of organizing a Natural History Society. The movement was inaugurated by Mr. King, who since becoming principal of the Kings county grammar school, has taken a deep interest in the practical study of science.

The meeting came to order at ten o'clock a. m. and Inspector Steeves was called to the chair. He briefly pointed out the object and nature of the organization. He strongly insisted on the necessity of doing something for the society, as well as receiving benefits from it. Mr. King was called on and gave a short account of the starting of the movement and read an outline prepared for organization and its workings. On motion it was unanimously resolved that a natural history society be formed.

A committee consisting of R. King, Judson Perry and Louise Wetmore was appointed to draft a constitution and by-laws. The constitution adopted was as follows:

Whereas, We, the undersigned, being interested in the study of the different branches of natural science, are of the opinion that it would be far our mutual interest and profit to associate ourselves together as a society for the object mentioned below. Therefore resolved, That we do now constitute ourselves as a society to be known as The Kings County Natural History Society. The objects to be attained by this society are as follows:

- 1st-The study of the natural history of the province of New Brunswick, and especially that of the county of Kings.
2nd-The collection and preservation of specimens of natural history in all its branches with their study and classification.
3rd-The formation of a library of scientific books and a museum of natural objects, said museum and library to be kept in the Kings county grammar school for the use of the members of the society.
4th-The meetings to be held at regular periods by the members for mutual instruction in natural science.
5th-The officers of the society shall be known as The President and secretary, treasurer, who shall be elected for the term of one year.
6th-The election shall be by a majority ballot of all members present in good standing at a date to be fixed by a vote of the society.
7th-The constitution and by-laws of this society may be amended by a two-thirds vote of the society on a month's notice.

Following this was a code of by-laws, consisting of fifteen sections. Some of the items contained in these by-laws were as follows:

The annual meeting for election of officers, etc. to be held at Sussex on the Saturday preceding Labor day in each year, and monthly meetings of the first Saturday in each month in the grammar school, Sussex. Meetings shall be called by the president or in his absence, the vice president. Members must be of good moral character, be received by ballot, and may be any one interested in and willing to help the society and must pay an initiation fee of 25 cents. Visitors may be introduced on the invitation of members.

The following persons enrolled as members: Robert King, R. P. Steeves, Eleanor Ryan, Louise Wetmore, Edith Darling, H. J. Perry, W. N. Biggar, Phoebe W. Robertson, Aaron Perry, Sue Johnson, W. A. Alward, W. J. Mills, Milton Price, J. W. Menzie, H. D. Raymond, Geo. F. Fenwick, Robt. Lucas, Zedok Hawkins, Clarence Steeves, Andrew McVey, Annie White, Alice McDougall, Harry Hamilton, Wm. Gould.

The officers for the current year are: Robert King, M. A., president; Laura Wetmore, vice president; William N. Biggar, secretary treasurer. The working committee, with the subject for next meeting in each section, are as follows: Geology and mineralogy—William Gould, W. Alward, Judson Perry; subject: Local Geology; spoken to by Mr. Gould. Entomology—Edith Darling, Sue Johnson, Andrew McVey; subject: The Grasshopper. Ornithology—Laura Wetmore, Milton Price, Eleanor Ryan; subject: The Partridge. Zoology—H. D. Raymond, G. P. Fenwick, Annie White; subject: The Squirrel. Botany—J. W. Menzie, Aaron Perry, Phoebe Robertson; subject: The Sunflower.

Chairman of executive committee, William Gould. A vote of thanks was tendered Wm. Gould for his assistance in framing a constitution and by-laws, and for his promise to supply botanical specimens throughout the winter.

HAZARD'S GUNPOWDER!

The Cleanest, Strongest and Best Gunpowder made, is used by all the best sportsmen. Try Hazard's Blue Ribbon Brand Smokeless Powder. Order your shells filled with Hazard's Powder.

HAZARD'S BLASTING POWDER is from one sixth to one fourth stronger than any other brand, makes less smoke, and is the favorite with contractors, quarrymen, and miners.

A DESIRABLE DISEASE.

An impression has prevailed among farmers that tuberculosis is a disease to be avoided and stamped out.

But since a provincial minister, a deputy minister and a member of the assembly brought in their recent assignment of Jersey's journals...

The first statement in the pamphlet refers to Bermuda. It is a typical statement and shows that in supplying that island Canada is beaten all along the line by the United States.

For instance, the United States sold Bermuda tea times as much butter as Canada, three times as much cheese, the whole of the coal, eleven times as many eggs, practically all the flour and bread, as much hay, three times as many horses, thirty times as much lumber, twice as many oaks, a hundred times as many cattle, and twenty times as many sheep.

The only thing to be accounted for is the claim that the commissioners have kept the tuberculosis stock away from the inspected cattle.

Since this almost independent disease cannot be acquired by infection, why not give the province a chance to vindicate itself among cattle countries by the application of the law of inheritance?

It seems a pity that New Brunswick herds should be left to linger in discredit while wholesome, healthy given over to reproach and distinctly non-tuberculous.

THE NEWFOUNDLAND CAMPAIGN.

Newfoundland is in the excitement of an election contest. The voting is to take place on the 28th inst. and will decide the fate of the Whiteaway government...

There is apparently a conflict of opinion about tuberculosis. Some acknowledged authority, like Mr. LeBlond, ought to be heard from.

THE EPISCOPALIANS.

Annual Meeting of the Diocesan Church Society.

Secretary's Report Reviews the Work of the Past Sixty Years.

The Reports from Parishes, the Auditor and the Executive Committee.

Fredericton, Oct. 5.—The final meeting of the Diocesan Church Society...

The report of the secretary, Rev. W. O. Raymond, was as follows: It was in the month of September, 1836, that a meeting of the clergy...

The progress of the society is displayed in the annual report, which begins with a modestly written page, but has developed into one of more than two hundred and thirty. At the same time...

During the sixty years of its existence the society has had the honor to include in the roll of its officers, life members and general friends and supporters...

Since the year 1860 the society has received for the maintenance of its home missions thirty bequests and three special donations, the whole amounting to upwards of \$94,000. In addition there have been sixteen donations and bequests in trust for special purposes...

Under which tenders are asked the supplying of mail bags. The conditions are as follows: A view to suppressing the sweating system and securing...

two lay vice-presidents, W. M. Jarvis and George A. Schofield.

Least but not least, we recall the names of the presidents of our now venerable society, and who carried it on so nobly and well, and our present bishop, whose concern for the toll-worn missionaries of the diocese, and his thought for sons of the clergy...

The report of the executive committee was read by the secretary, Rev. W. O. Raymond, and showed that five meetings had been held during the year at the society's rooms in St. John. During the year the following members were added to those entitled to benefits in the widows' and orphans' fund...

The finance committee's report for the year, submitted by W. M. Jarvis, vice-chairman, and J. Roy Campbell, secretary, showed that the bequest of the late Sir Leonard Tilley had been paid to the treasurer...

Reports from parishes and missions occupied the greater part of the day's sessions. Among the reports were the following: Rev. Mr. Sampson of St. George's church, Carleton, stated that his congregation was growing rapidly, and an addition to the church was made...

Rev. Mr. Betchou, for the parish of St. John, reported that the church was growing and that the congregation was increasing. The church was reported to be in good condition...

Moncton.—Rev. Mr. Hooper reported his candidness presented to the bishop for confirmation and admission to the office of pastor. The enlargement of the church had been taken hold of heartily by the congregation...

Under which tenders are asked the supplying of mail bags. The conditions are as follows: A view to suppressing the sweating system and securing...

heretofore supported the society in the cause of home missions. The work of the society for the year may be gleaned from the reports of the committees and boards. It is gratifying to learn that for the first time the number of communicants exceeds 8,000.

The report of the executive committee was read by the secretary, Rev. W. O. Raymond, and showed that five meetings had been held during the year at the society's rooms in St. John. During the year the following members were added to those entitled to benefits in the widows' and orphans' fund...

crease in the number of scholars attending the Sunday school under the superintendence of Miss M. Stearns, and the following staff of teachers, who have been very faithful and punctual in the discharge of their very important duties: Mrs. McKel, Mrs. Armstrong, Mrs. Simpson, Miss McKel and John Medley, Messrs. McKel and New Denmark—Rev. C. E. Matman reported: The mission field at present assigned to my charge comprises the parishes of Drummond, Grand Falls and St. Leonards. In these I have the following stations: New Denmark, Foley Brook, Uxbridge, Grand Falls and St. Leonards. What has been accomplished in the past year for the church in these five parishes is the purport of this report. I begin with New Denmark and mention first the new rectory. Through many difficulties this building was so near completion last November that we were able to move into it and enjoy more favorable quarters than we did the winter previously. The rectory was completed and valued at \$1,200. With improvements made this summer we have \$150 to pay and done the building will be free and clear. It would have been impossible to bring this project to so speedy and satisfactory a consummation had we not received much aid from many patriotic church people of this diocese, and on behalf of the parishioners of St. Augustus, New Denmark. I hereby acknowledge with gratefulness the help we have received from the important work. In the report of 1895 St. Augustus' church was said to be "good and finished." This, however, may have been a stretch of the writer's imagination, and I am sorry to say this "good finished church" has within the last year caused me much trouble. There never were any sashes in the window frames, hence last winter the names which, set in loosely kept coming out and pieces of clapboards, shingles and rags had to be put in to keep out the wind and snow. New windows have been procured this summer. But the greatest surprise was the least anticipated, which the whole church edifice was about to fall to the ground. On a close investigation I found that the church had been built on cedar posts, which were set on the surface of the ground. Not one was in the earth. I had to have a pile of a week 60 loads of stone were put on the premises by my people as their donation towards a stone foundation. It became necessary for me to buy lime and hire stone masons. A stone foundation 7 feet high has been built under the church and this will keep the church edifice secure till at least another century. The interior of the church has been beautified with a fine fresco executed by Col. Raymond of Woodstock, and in credit to the annual appropriation of the young people of the church have given a beautiful brass cross and Fr. Davidson has made us a present of a pair of fine vases. I am indebted to Miss Chapman of Carleton for two white and to Mrs. Eriestock for one purple antependium. The C. E. S. have presented us with a fine communion set, of which we were in much need and for which we are truly grateful. The spiritual work of the parish, the pastor reported to be in good condition. The condition of the other missions was hopefully described.

G. Sidney Smith, secretary of the auditor's report, and W. B. Smith the treasurer's. The amount of the general purposes fund in June, 1896, was \$66,277.35. It is now \$74,181.07, an increase of \$7,903.72. Receipts of the society during the year amounted to \$51,254.73, and the payments to \$48,778.58. The following bequests were received during the year: Mr. H. F. Stirling, \$3,000; Mr. E. H. Minchin, \$2,181; Mr. L. H. W. 1,000; Mr. C. S. Chapman, \$500; Miss Cart, \$200; Mrs. Stirling, \$1,242.22. Life membership fees from Judge Barker and Mrs. Barker, \$80; A. Porter, \$40.

Rev. Mr. Betchou, for the parish of St. John, reported that the church was growing and that the congregation was increasing. The church was reported to be in good condition...

Moncton.—Rev. Mr. Hooper reported his candidness presented to the bishop for confirmation and admission to the office of pastor. The enlargement of the church had been taken hold of heartily by the congregation...

GAS WAR BEGINS?

Group of Capitalists to Fight the Standard Oil Co?

Boston Will Soon Know if This is Correct. Standard Oil Co. Reported Bought Up. New York, Oct. 6.—The Journal and Advertiser say: A group of New York capitalists has secured control of the Massachusetts Pipe Line Co. of Boston and has framed a company known as the New England Gas & Coke Co. to take over its charter.

At an occasion of deep importance in the history of our diocese, such as the present, when the Diocesan Church Society closes its long and honorable activity, it is surely of good omen that another society, not less venerable and hardly less closely entwined with the names and members of New Brunswick churchmen, though working on a far smaller scale, is here ready to do what work may be entrusted to it, under the leadership of the Bishop. It is a society which stands emphatically upon the ancient ways, and its sympathies are confessedly more with the older than the new school of Anglicanism.

SCHOLARSHIPS AWARDED. A meeting of the Faculty of Applied Science at McGill University was held at 4:30 o'clock yesterday afternoon. The principal business was the awarding of the annual entrance scholarships and exhibitions for which examinations were held in the latter part of last week.

SUNDAY SCHOOL COLUMN.

It is much easier to tell a superintendent or teacher how to improve the school than to do it.

The Primary Union meets now every Friday afternoon at 4.30 in the Y. M. C. A. The attendance is steadily increasing and the interest deepening...

At this season of the year special care should be taken to look after absentees from our city schools. The number of families spending the summer months in the country is increasing year by year...

St. John's parish, Kings county, held one of its best quarterly Sunday school convocations on 30th September at Snider Mountain F. C. B. church.

The field secretary was present and in the afternoon expounded normal class work, urging the adoption by each school. Discussion was elicited and questions answered.

Hopewell Hill, Oct. 1.—A telephone message received here last night concerning the intelligence of the death at Wolfville, N.S. of Miss Edna Tingley...

THE TEACHERS' MEETING NOT A BIBLE CLASS. (Marion Lawrence, Toledo, O.)

The teachers' meeting falls more often because it is regarded as a Bible class than for any other reason. The teachers' meeting is a meeting to study the school and the methods of presenting the lesson.

DEATH OF GENL SUPT WM. REYNOLDS.

A letter received Saturday by the chairman of the provincial executive from B. F. Jacobs gave the sad intelligence of the death last Tuesday, at Louisville, Ky., of Wm. Reynolds.

Mr. Reynolds had been a business man, doing a large business at Peoria, Ill., when at the call of the international committee he gave up his business, a lucrative one, and entered upon the work of the Sunday School Association...

He has long been connected with Sunday school work, and was president of the international convention in Chicago in 1890. In this province he has been present at several of our conventions.

Mr. Pepper-I don't believe there was a dry drop of water on the carriage wheels on the third act. Mr. Pepper-No; but there seemed to be the usual number of dry throats.

OVER THE PROVINCE

Annual Fair of Havelock and Pettitcodiac Society.

Presentation in the Marysville Methodist Church Monday Evening.

A Reunion After an Absence of Sixty Years—Inspection of Brighton Engineers—Bathurst News.

Sussex, Oct. 3.—The funeral of the late Miss Stella Gallagher, a very worthy young lady of this place, took place this forenoon, at the Catholic cemetery, Ward's Creek road, Rev. Father Savage, P. P., officiating.

One hundred acres of land situate in the parish of Havelock, was sold at public auction this afternoon in front of the Dominion building, to satisfy a mortgage executed by George M. McCann and held by Abner Coates.

Hopewell Hill, Oct. 1.—A telephone message received here last night concerning the intelligence of the death at Wolfville, N.S. of Miss Edna Tingley...

Howard Brewster, brother of H. V. Brewster, station agent at Albert, has gone to Oshawa to take a position in the cable office.

W. F. Taylor, Mr. and Mrs. J. L. Peck, Mr. and Mrs. Archie Steeves, Mr. and Mrs. James Steeves, Mr. Lewis Hill, and J. S. Atkinson, George McLeod and James Durning of Albert are attending the exhibition in Halifax.

C. & L. Prescott of Albert are building a new house near the mill on the Crooked Creek. C. L. Peck, manager of J. L. Peck's mills on Sawmill Creek, is putting extensive repairs on the dam and generally putting things in good shape for the fall season.

Mrs. C. S. Robinson and her mill children left this week for Philadelphia to join the A. Anaces, of which her husband is captain. Mrs. Robinson and family will take their residence in England for the present.

Hampstead, Queens Co., Oct. 1.—Mrs. Mary Douglas and family moved from here to St. John yesterday morning by steamer Hampstead.

McLeod Junction, Oct. 1.—The ladies of the sewing circle prepared a birthday party for the friends of the church. Under the leadership of their organizer, I. McKinnon, the members of the choir gave a well selected and carefully prepared programme.

Sackville, Oct. 3.—The university opened about ten days ago, and the work of another year has begun regularly. The Freshman class numbers twenty-four, but a few others are still expected.

On Saturday evening a reception to welcome the new students was given by the Young Men's and Young Women's Christian Associations.

to the lake. He is doing a good piece of work.

Miss Ada Thompson of Harvey is visiting friends at McAdam. She is the guest of Mrs. J. Langley.

Partridge appears to be very scarce. Hunters only succeeded in getting a few.

A bear and cub have been seen several times a few miles east of McAdam.

Grand Manan, Sept. 30.—Aldice J. Fraser of St. Stephen paid his father a visit on the 21st inst. He came from St. John, having ridden from St. Stephen to that city on his "bike."

Some pollock have been taken out of the water around the island. Herring are scarce and line fish not plentiful.

Thomas Redmond and Henry A. Lytle were the only nominees for the office of county councillors from this parish, and therefore are elected by acclamation.

G. P. Newton, of Newton Bros., and Peter Russell, two of our leading fish mongers, have just got home from business trips to New Brunswick.

W. F. Woods has also put up his mill and is doing fine work. Mr. Woods does a rushing business, both in his own mill and in the planer, which he put in his saw mill, in great accommodation to the public.

Havelock, Oct. 1.—Pinch district lodge convened with Beacon Star lodge, Springfield, yesterday afternoon. Subordinate lodges were well represented.

Havelock, Oct. 1.—Pinch district lodge convened with Beacon Star lodge, Springfield, yesterday afternoon. Subordinate lodges were well represented.

Havelock, Oct. 1.—Pinch district lodge convened with Beacon Star lodge, Springfield, yesterday afternoon. Subordinate lodges were well represented.

THE NIBBLING SIN.

LITTLE INQUIETIES THAT ASSAIL THE EASY-GOING HEART.

The Vice of Gambling, Which Begins in a Small Way and Increases by What it is Fed Upon The End of Gift Enterprises and Stock Gambling.

Rev. Dr. Talmage on Sunday discoursed from the text: Isaiah 7, 18, "Woe unto them that say that sin is as it were with a cart rope."

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character. But there are other transgressions than these which nibble at the heart.

I speak to you of the sin of gambling. A cart rope in strength is that sin, and yet I drink more strength to draw you into the snare of the devil than any other sin. You know how much of the influence of the devil is in the sin of gambling.

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character.

Now you acknowledge that it is a cart rope which you want to know what it is. There is in many a disposition to nibble at the heart.

When a young man makes up his mind to live beyond his income, he is in a position to nibble at the heart.

Oh, how many have gone down under it! Look at those men who were once highly prospered. Now their foreheads are blacked by a tongue of flame that will never be quenched.

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character.

Generally the money leaks silently from the gambler's till into the gambler's wallet. I believe that one of the main pipes leading to this sewer of life is not a significant fact.

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character.

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character.

would have allowed them to freeze to death upon their steps. But no faith in a charity which, for the sake of relieving present suffering, opens a gaping hole in the wall of the future.

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character.

THE PRESBYTERIANS

Rev. Mr. Mullin of Stanley Appeals from Presbytery.

After a Brief Discussion the Case Was Referred to a Special Committee.

Next Meeting in Halifax—Lively Discussion on Establishing a Mission in Corea.

Moncton, Oct. 6.—The first session of the Presbyterian synod of the Maritime provinces was held here to-night, when the retiring moderator, Rev. Alex. Falconer of Truro, preached an admirable sermon from the text, Luke 17th and 18th: "Lord, increase our faith."

There are some inquiries that only nibble at the heart. After a lifetime of this work, the main things which are respected and honored. These virtues have not strength enough to gnaw through a man's character.

OTTAWA.

Ottawa, Oct. 5.—The supreme court opened this morning, Justice Taschereau presiding, all the judges except the chief justice being present. The election appeal in the Resignation case having been settled between the parties, was withdrawn from the docket. The Quebec list of appeals was taken up.

Considerable speculation is being indulged in here as to whether the government will receive a fairly favorable offer for the Atlantic mail service. The departmental advertisement states that the government is not under obligations to accept any offer, and should the price asked be in excess of that now being paid...

Ottawa, Oct. 6.—The fire which has swept over the southern portion of Russell county is the most disastrous ever experienced in this section. The Canada Atlantic train, got through the burnt district today. The engine report the extent of destruction and the damage to the passengers.

Col. Donville, M. P., and his English associates in the York and Bonny company passed through Ottawa today en route to the Pacific coast. They travelled in the government car Barnstable.

TELEGRAPHIC NEWS.

Montreal, Oct. 8.—A somewhat severe rain took place on the city and district Savings Bank today. It began in a branch bank of the previous evening on account of a foot story started by some one. The bank promptly met all demands, and in the afternoon Mayor Wilson Smith and Justice Oulmet addressed the people in the bank, the former advising them to go home and try to find a reason for showing themselves such fools.

The Star's London cable says: Hon. Mr. Pelling was busy with the Journalists yesterday, and the result is seen in the papers today. In the Chronicle interview, Mr. Pelling makes an important disclosure of Canadian policy. He says that though the present tariff falls short of his free trade intentions and ideas, tariff lowering is most harassing to trade. Hence no material changes will be made next season.

and it is not likely we shall depart from it."

We declare Canada's willingness to meet the reciprocity proposals from Washington always, but would not exclude discrimination against England, which is quite impossible. The imperial sovereign was not, so pleading declared, a very practical question at this moment.

Montreal, Oct. 10.—Dwight L. Moody opened a series of evangelistic meetings in St. James Methodist church on Saturday. The services Sunday and today were very largely attended. At the Saturday meeting he pointed out that twenty-six years ago that day he lost his home in the Chicago fire. He suggested a collection for the Pacific coast, under command of Lieut. Commander Smith. The sailors were sent west on the Canadian Pacific at once.

Montreal, Oct. 11.—The annual meeting of the Molson's bank today, president Macpherson referred to the necessity of a bank carrying a large amount of available securities, as evidenced by the serious run on the city and district savings bank. This was fortunately over; deposits were being made in large numbers.

Toronto, Oct. 6.—The lumbermen met today and decided to go on with the campaign to compel the Ontario government to impose restrictions on the sale of lumber lands to United States operators. The government refused to do anything as regards the old licenses until they had expired.

Toronto, Oct. 7.—The Evening Telegram's London cable says that immediate despatch from London names the date for the nine months' term as 18,978 British and 5,302 foreigners.

BRITISH COLUMBIA. Vancouver, Oct. 7.—A private cablegram from London announces the death of Hon. Donald Fraser, ex-member of the British Columbia legislative council and prominent in the affairs of the colony for several years from 1858.

THE PRESBYTERIANS.

(Continued from page eight.)

Halifax, Oct. 8.—The twenty-second annual session of the Presbyterian of the maritime provinces was brought to a close today at 10 o'clock, the members having at 11 o'clock left for the east. The quick departure was due to the fact that the M. B. train was to be a model business organization.

The report of the widows and orphan fund committee, submitted by Dr. Patterson, was read and approved. The fund had a balance of \$1,223.33 and expenditures \$4,292.29 leaving a balance of \$3,061.04. The committee recommended an increase of the allowance to widows of \$5, bringing it up to the highest class and of orphans from \$2 to \$3.

THE LOBSTER LAW.

Portland, Me., Oct. 11.—It is supposed that certain people down the bay have for some time been violating the lobster law by surreptitiously boiling the fish and sending the meat to market out of the shell. About 5,000 pounds of lobster meat is disposed of in this city every week, and the dealers figure about six lobsters to a pound of meat. It has been decided to make a test case of the legality of selling lobster meat without first showing that the lobster was the property of the dealer. The outcome of the case will be watched with the deepest interest by both the general public and the fishermen.

ALBERT DEATH.

Albert, N. B., Oct. 10.—Wm. Coughlan, the oldest inhabitant of St. John, died at his home here at 3.30 p. m. today at the age of eighty-four years and five months. Funeral on Monday at 3 p. m.

MANCHESTER, ROBERTSON & ALLISON, St. John, N. B.

Manchester, Robertson & Allison. SPORTING MATTERS.

AQUATRO.

Halifax, N. S., Oct. 8.—The double scull race between Lynch brothers and Johnston and McKay was won by the Lynchs. It was witnessed by over six thousand spectators. The Lynchs rowed in their new boat built by Warren Toronto. Referee Ross started the crews at 4.20 o'clock. The Lynchs got away first and were soon in the lead. They went off at great speed and at the quarter mile were a length ahead. They continued to gain and were leading but two lengths at the mile. They reached the turn in 9.05, but lost considerable time in the spring in one of the rowers dropping, causing Mark Lynch to unshackle his oar. Both crews got around almost together. The Lynchs struck forty to the minute and squared for home in fine style. They gained rapidly on their opponents.

THE TURF.

Glens Falls, N. Y., Oct. 8.—At the mile track of the Northern Horse Breeding and Training Co. today, John R. Gentry and Robert J. will be the pacers in the mile in the faultless style in 2.08. This was done after the pair had been sent a mile in 2.11 and before the close of the day's sport, Gentry, with a running mate, paced a mile in 2.08.4. The big event of the day was postponed from yesterday, but the heavy rain had not affected the track to any extent. Three thousand people filled the stands and they remained to the last moment notwithstanding a cold south-west wind which was blowing across the track.

BASE BALL.

Boston Presented With the Pennant. Boston, Oct. 4.—The Boston base ball club was formally presented with a pennant as national league champions at the Tremont theatre tonight. Mayor Quincy made the presentation speech and Manager Selig appeared in behalf of the club, the members of which, together with the Baltimore team, occupied all the boxes of the theatre. The theatre was crowded with friends of the players and ardent followers of the game, and received a warm welcome when they took their seats. At the conclusion of the second act of May Irwin's play, The Swain, Mr. Quincy, Mayor Quincy and Manager Selig appeared before the curtain, and the former in a few words presented the pennant.

RHE TURF.

St. John, N. B., Oct. 8.—Seven thousand people from this part of the state saw Star Pointer and Joe Patchen go against their own records at Williams' mile track today. Star Pointer turned the track in 2.01.4 against a strong head wind, blowing from the west. Gentry and Robert J. were the fastest mile ever made by Pointer. Patchen started out well, turning the half in 1.08 flat, but a second running horse, which picked him up at the three-quarter mile, became uneasy, and secured him, and he finished the mile in 2.04. Time by quarters each horse: Pointer—30.1-2, 1.00 1-2, 1.50 1-2, 2.01 1-4. Patchen—31, 1.00, 1.50 1-2, 2.04. McCoy and Carvill Sign Articles. Fredericton, N. B., Oct. 7.—McCoy and Geo. Carvill signed articles today for a matched race here between Calendars and Speculation on Tuesday next. Spec is here and in going fast. McCoy says his horse is in better condition than ever before. The event excites great interest and a big open race to follow soon is proposed. A fight has been asked to enter.

work he had done previous to this, was a great performance. Robert J. was then sent along. He finished the first quarter in 30 seconds, the half in 1.00, the three-quarters in 1.33, and the mile in 2.04.4. The wind interferred greatly in the trials and but for this the record would undoubtedly have gone much lower. In the 2.18 trotting and pacing in which there were five starters, Gentry won in three straight heats. Gentry and Robert J. will be shipped tomorrow to Hagerstown, Md., where they will appear at the state fair. They will go from there to Nashville.

RICHIBUCTO.

Annual School Meeting—Hon. Mr. Emerson Makes One of His Usual Trips Before an Election. Richibucto, Sept. 11.—The annual school meeting was held on Saturday, an unusually large number of ratepayers being present. John T. Calk was selected as chairman. The report of the auditor shows the district to be in a flourishing condition. A balance of nearly eight hundred dollars is now on hand. In six years the standing debt has been reduced from twenty-five hundred dollars to twelve hundred and fifty. Another bond of two hundred dollars will be paid shortly. An assessment of twelve hundred dollars was voted for school purposes for the next year, and the trustees were instructed to have the same raised by a rate of five per cent. of interest on the standing debt, which is now five per cent, reduced to four. Allan Haines, the retiring trustee, was unanimously re-elected. The trustees and the secretary, R. W. Beers, were freely congratulated on the splendid condition of the school affairs. W. D. Carter was re-elected auditor.

Richibucto division, No. 24, held a bean supper and entertainment in the Temperance hall on Thursday evening. A goodly sum was realized, which goes towards repairing the hall. Charles K. Short and Mrs. Short of St. John are guests of W. W. Short. Rev. Donald Fraser, late of Hampton, will be inducted into the pastorate of St. Andrews Presbyterian church at Kingston on Thursday afternoon.

Rev. Wm. Lawson and family returned on Friday from a trip through Nova Scotia. Hon. H. R. Emerson, accompanied by James Barney, M. P. F., was on an excursion through the northern and western part of the county on Friday and Saturday. Mr. Emerson always makes a similar trip before every election, and this time he has been as fruitful in promises as ever. From ten to fifteen from bridges are to be built at once. Mr. Emerson was quite surprised to find the unpopularity of some of the members in particular and the administration in general.

There was a collision on the Dalhousie railroad near Openpen some time ago in which forty persons were killed and many wounded. The railroad at once admitted that it was to blame, and instead of fighting claims for damages has appointed a committee to settle with the claimants what will be fair compensation, so as to avoid having the claims brought into the court.

OVER THE PROVINCE
Mining Operations to be Carried on in Albert County.

Albert District Meeting, I. O. G. T., Annual Meeting and Election of Officers.

News from Elgin, Northesk, Salmon Creek and Hampstead.

St. Stephen, Oct. 7.—So far as heard from, the county elections on Tuesday have resulted as follows: St. Stephen—J. Macromagale and J. S. Maxwell, no opposition.

Dufferin—W. McLean, 23; Levi Foster, 23; elected; G. F. Hannah, 19. St. James—W. Douglas, 20; Andrew Mann, 18; elected; W. Forsyth, 14; W. E. Maxwell, 4.

St. David—William Smith, 17; G. P. Beach, 16; elected; Geo. Hyslop, 10; Robert Smith, 7.

St. Andrews—Wm. Snodgrass and Geo. McVat, no opposition.

Grand Manan—Peter P. Russell and H. B. Fraser, no opposition.

St. George—James McKay and H. V. Dewar, no opposition.

LePres—R. Mawhinney, 55; S. Stafford, 33; elected; J. Silvers, 25.

Dunbarton—J. A. Calder, 36; W. Matthews, 14; elected; W. Patch, defeated.

Company K of Calais tendered a largely attended reception to Dr. Ohas. E. Swan, mayor of the city, who has just completed fifty years of successful and valued medical practice on the border.

The town council of St. Stephen has this summer laid new sewers on King and Princess streets, and is now constructing one on Elm street, from which a new road will be opened through to Main street. C. N. Vroom is the contractor, and he has done his work in a thorough manner.

The council has also laid a lot of asphalt sidewalks and is preparing to extend the electric lighting of the street. Bears are reported plentiful in Charlotte county this fall. At De Wolfe Corner on Sunday morning, two young ladies en route to church met a large one and made a hearty retreat until Bruno disappeared in the woods.

D. M. Gardner, the well known proprietor of the Border City hotel in Calais, died on Wednesday morning after a protracted illness. He was sixty-three years of age and in every way an excellent citizen.

There is some talk of the schooner Orozimbo, just thoroughly repaired at Calais, being fitted for an expedition to the Klondike in charge of Captain Edward Clifton Hill.

A strike is on at the brick mill since Monday, when fourteen girls employed in the spinning room went out against a cut in their daily wages from eighty-four cents to seventy-eight, six cents. If they return to work and earn cannot be got from other mills, about half of the Milltown factory will have to shut down next week.

The manager states that if the strike does not prevent the prospects are excellent for the factory to run with a full crew all winter notwithstanding published statements to the contrary.

October 5.—Albert Kelstead, aged two years and three months, son of James Kelstead of Ward's Creek, was buried this morning in the Sussex cemetery. Rev. Mr. Hamilton conducted the funeral ceremonies at both house and grave.

October 5.—The fair of the Sussex and Studholm Agricultural society opened here in the Aberdeen rink this morning under most favorable conditions. The exhibit of farm produce and other menagerie was very large and is highly creditable to the farmers and their wives and daughters who are represented. This afternoon awards were made on the field grain, roots and fruit exhibited. The judges were E. E. Freewelling and A. D. Wemyss.

October 5.—A misprint in the items of Sept. 20th make it appear that Constable Irvine arrested Shepherd Morrill. Instead of Constable Washburn, Dunbar, is receiving hearty congratulations on the arrest. The sheriff, deputy sheriff and several others had made two trips in search of Morrill, but were unsuccessful. It was the opinion of the supreme court which opened here on Sept. 28th Morrill was tried and sentenced to three years in Dorchester penitentiary. A thing which is occasioning a great deal of annoyance and loss time and annoyance has been going on for the last year or two. It is that the judges who preside at the county and supreme courts do not arrive until the day on which court opens, and as the train does not reach here until between three and four in the afternoon, the day is almost gone. In the meantime the grand jurors and witnesses lose their time and hotel expenses, and the petit jurors are paid for time not occupied. Something should be done to avoid this loss and nuisance.

The government surveyors have lately been looking for a chance to bridge the Tobique at the Narrows so that it will serve in place of both the bridge and the ferry, and the one which was swept away from Rowina by ice last spring. The proposed site is about a mile above one bridge and two and a half miles below the other, in the banks on the north side of the Tobique are so precipitous and rough that it is difficult to build roads. It is intended if this bridge is built to make one an old road, which formerly was used along the bank of the old site of the Rowina bridge, although this road was very hard to keep up, and also to build a new one across from the bridge to North Lily. It is said that this arrangement will be satisfactory and effect a saving, although some are uncharitable enough to say that it is an election ploy.

The Andover Agricultural society

have purchased of the recent government impoundment one pair of each of the Shorthorn, Ayrshire and Holsteins, three cotswold sheep, one Lincoln and Shropshire and one Leicester. These will be sold to the members, probably on the 15th inst, the day of our exhibition.

A local in today's Sun states that "Mrs. E. H. Hoyt and family have moved to St. John and that Mr. Hoyt has resumed his duties as his business and the post office is transferred." The latter part, referring to Mr. Hoyt is without foundation, as Mr. Hoyt intends remaining here.

Elgin, Oct. 6.—The beautiful weather of the past week has enabled the farmers to harvest their crops successfully.

A number of the friends of G. M. Killam met at his residence on the evening of the 4th to celebrate his fiftieth birthday. A very enjoyable time was spent by all present.

Warren H. Colpitts, who was operated upon for appendicitis in the general hospital, St. John, is reported very low. Grave fears are entertained of his recovery.

James W. Robinson is about moving to the property lately owned by Deacon Phares Constantine.

J. B. Babkir is building a fine residence on his farm in Midland.

Mrs. R. A. Smith left for St. John yesterday morning to see her brother, who is very ill.

Miss Mary Horsman and Miss Carrie Dymart, who have been visiting friends in Elgin, left yesterday for Boston.

The annual fair of the Elgin Agricultural society will be held on the fair grounds, Elgin Corner, on Wednesday, Oct. 13th. The ladies of the Baptist church will provide one of their justly celebrated dinners.

The directors of the Elgin Trotting park will present a full programme of sports in the afternoon.

Rev. Frederick Todd, who has been visiting his son, Rev. H. C. Todd, leaves for his home in Lubec today.

S. C. Goggin is putting a new gravel roof on his store.

LeBaron Goddard has built a verandah to his house, which adds much to the appearance of his dwelling.

John O'Connor, who has been very ill with gangurene of lung, is slowly improving.

John Hanlon, who has been suffering from blood poisoning owing to a kick he received on the leg from a horse, is recovering.

Hopewell Hill, Oct. 7.—The new thoroughbred stock purchased at the recent sale of the Elgin Agricultural society, arrived by rail on Tuesday in charge of W. A. West, secretary of the society. The animals are much admired.

M. M. Tingley returned on Saturday from the Woodville, Kings Co., where he has spent the last two months, superintending the construction of the bridge over the Nepesic.

Indications are now that mining operations throughout Albert county are being carried on in the near future to a greater extent than for many years past. Mr. Hoyt, manager of the company now operating the manganese mines at Dawson settlement, has purchased the property situated at Waterside and Elgin, and will also operate for this mineral at Chemical Road. At all of these localities the prospects are considered good. At Dawson a very large vein has been struck, and it is estimated that it is worth over \$300,000.

At New Horton is a very promising copper mine, in which H. J. Bennett and others are interested, including Sir Charles Tupper. The quartz veins there also show satisfactory indications of silver. It has also been learned that the company operating at Dawson have in contemplation the purchase of the well known Albert county mines, which have been closed for several years. Albert county is undoubtedly rich in mineral resources, including gold, copper, coal and manganese, and capital and push are all that is necessary to develop an industry which would be beneficial and far-reaching effects would be surprising. Mining development in Albert county was materially retarded some years ago by several operators who took out leases and failed to carry on the work with any system. It is probable now a period of mining activity is near at hand, and this should be a boon to the county, especially so as the lumbering business is evidently in its decadence at least for a period.

Wm. C. Pines, the venerable magistrate of Albert, was taken quite ill last week, but is now, I am glad to be able to say, improving. Squire Pines is in his eighty-fifth year, and is probably the oldest justice of the peace in the county in active service.

At the last regular session of Golden Rule division, S. T., the following resolution of condolence was adopted: "Whereas, in the wisdom of Divine Providence one of our esteemed members, sister Edna Tingley, has been called to rest, that we, the members of Golden Rule division, express our appreciation of the high religious and moral character of our deceased sister and our sorrow and regret at her early death, and also that we extend to Bro. J. B. Tingley, father of the deceased, and his family, our sincere sympathy in their deep affliction."

A copy of this resolution was forwarded to Capt. Tingley.

Considerable interest is being evinced in the coming councilors' election. One ticket for this parish has already been formed, consisting of Geo. W. Barber and Captain Benj. Carter.

Dr. L. Chenevix left on Tuesday for Cambridge, Mass., to take a post-graduate course at Harvard. Levi Downey, a well known resident of Demolsele Creek, is lying seriously ill, with inflammation of the lungs at his home at that place all gathered.

Mrs. Stuart, wife of the police magistrate, has gone to visit relatives.

The infant daughter of Captain and Mrs. A. G. Dixon of Hopewell Cape, died on Monday of this week.

This hay crop, which has been a very abundant one, is about all gathered.

Northesk, Oct. 5.—The oat crop in the barns and the various threshers are doing their work faithfully. Potatoe planting has commenced and promises a poor crop, which will raise their value very materially.

Carpetmen are now busily engaged

working at Frederick White's new house.

Thomas Johnstone purchased a pair of fine matched horses this week.

Mrs. Harvick Mitchell is delighted over the birth of a young son.

Addington professor of Whitneyville and Miss McLaughlin have a little South West were united in marriage by the Rev. J. D. Murray. The ceremony was performed at the residence of Peter Russell, on the 24th ult.

Alexander Harris is improving in health. The girls' mill at Red Bank has begun work. Mr. Sullivan has made great improvements on his barn.

Rev. J. D. Murray left on Monday to attend the synod, which meets in Moncton this week. Mrs. Murray is visiting friends and relatives in Yarmouth, N. S.

A very auspicious event occurred at the residence of Robert Parks of Red Bank, when his daughter, Mabel, was given in marriage to James Sherard of Allison. The happy couple were made one by the Rev. J. D. Murray. Mrs. Parks giving the bride away. Miss Mabel was elegantly attired in a suit of blue, with white trimmings, and a chignon. She looked extremely handsome in her pretty toilet as she blushingly received the well wishes of her numerous guests. Miss Jessie Parks of Derby was best attendant and the groom was supported by Percy Parks, brother of the bride. After the ceremony between twenty and thirty guests sat down to a sumptuous repast. The bride was the recipient of much good wishes, and presents. We wish the young couple many happy days.

Crowds of men are going to the woods to get ready for winter operations.

John Russell of Newcastle and Addie McVatish of Southesk were married at Newcastle on the 4th by Rev. W. Atkin.

Yesterday was the election of councilors for the St. John's ward. The candidates were William Jones, David Whitlock and Michael Ryan. Jones and Whitney were the men elected.

John Brander left for the woods last week. Mrs. Sweeney and McDonald returned to the city, the guests of Mrs. McKay of Stratford.

Mr. Cain is still in ill health. Mrs. Somers is slowly improving.

R. P. Whitney is finishing the Baptist church in the woods. It presents a fine appearance in its white coat of paint.

Hillsboro, N. B., Oct. 5.—Albert District Lodge, I. O. G. T., held its annual session at Sherbrooke yesterday.

The session was presided over by the visiting brother, Rev. M. Gross, who was prevented from being present on account of illness, Mariner R. Steeves occupied the chair. At the afternoon session, District Secretary of Alice A. Teasdale, youngest daughter of Rev. J. J. Teasdale, the popular pastor of the Methodist church, and Fred M. Lettney of Digby, which was celebrated at 4.15 this afternoon in the Methodist church, in the morning, was beautifully decorated for the occasion, the work of young lady friends of the bride. The communion rail was decorated in maple leaves and was berries. The altar was almost hidden behind decorations of green and bar-berries, about which were tastefully arranged palms, ferns and other potted plants. The large mirror on the front of the organ featured in smiles.

Ralph Jones and bride arrived home the other day from St. John. They appeared out at the meeting held in Adams' hall, Upper Greenwich, last Sunday night.

The woodcock Willie Maud was at the house yesterday discharging coal for F. C. Stultz and W. J. Cheyne.

Rev. Gideon Swine, F. C. B. minister of Pettodiac, and wife, are the guests of Rev. Geo. W. Foster and wife. They are on their way to Fredrickton for a general conference, which convenes this week.

Woodstock, Oct. 7.—An interesting and somewhat exciting case was tried at Andover on the occasion of the session of the circuit court, there last week. It was the Queen v. Sheppard Morrill. It appeared on the trial that on the evening of the 10th of February last there was a dancing party at the house of Charles Cochran, in the parish of Drummond. Among the guests were the prisoner and his brother Douglas Morrill, both of whom are regarded as outlaws in the county. They brought the whiskey bottle in their pockets, which they passed around freely and very early in the evening a large number of the men present were more or less under its influence.

As one lady witness put it, nearly all the men present except the unfortunate man Tompkins, who was the son-in-law of the prisoner, had been drinking. Very little dancing was, or could be, indulged in. The Morrill brothers took charge of the house, and what was intended to be a pleasant party was pandemonium.

About ten o'clock a fight was in progress in the kitchen between the Morrills and some of the guests. The Morrills, who were in the room with his wife and most of the ladies, and the more sober of the men, went out to quell the disturbance. Sheppard Morrill had his flat raised to strike a man. Tompkins caught hold of his head and threw it into the fireplace, where it landed with a bang. Douglas Morrill then struck Tompkins in the face, who then let go his hold on Sheppard and grasped Douglas by the throat. Sheppard then struck Tompkins with a stick, and Tompkins fell back, making a wound six inches long and one inch deep at the deepest part. A warrant was immediately issued for his arrest, but the officers of the law were unable to arrest him until he was taken to the trial. He went fully armed and threatened to destroy any one who attempted to capture him. The prisoner is twenty-two years old, tall, slender, straight as an Indian, and was fairly well dressed in a blue looking fellow. He was accompanied at the time by his father, a brother (not Douglas) and his 15 year old wife, whom he had recently married, and he usually did everything, by carrying her off in spite of the protestations of her parents. The prisoner was found guilty and was sentenced to three years in the penitentiary.

Fredericton, Oct. 8.—About eight hundred people witnessed the marriage of Alice A. Teasdale, youngest daughter of Rev. J. J. Teasdale, the popular pastor of the Methodist church, and Fred M. Lettney of Digby, which was celebrated at 4.15 this afternoon in the Methodist church, in the morning, was beautifully decorated for the occasion, the work of young lady friends of the bride. THE WEEKLY SUN.

ST. JOHN, N. B., OCTOBER 13, 1897.

BANK NOTES AND OTHER NOTES.

Included in the debt of Canada is an issue of Dominion notes to the extent of \$3,000,000 to \$5,000,000. The law requires that some gold and some guaranteed debentures are to be kept in the treasury as security for this issue.

The banks desire to float all the notes they can, for it pays to borrow money from the people without interest and lend it to the public at bank rates.

Naturally the banks would like to have the monopoly of the note issue. At the sixth annual meeting of the Bankers' Association, held this week at Niagara Falls, Mr. F. Wolfenstein, Thomas, the president, in his address, took strong ground against government banking.

Mr. Thomas assumes that "one of the functions of banking is the emission of a circulating medium," and that this is not a function of the government. The whole question hinges round this assumption.

Whatever may be the merits of the controversy between the bankers and the government, there is one circulating medium concerning which they might agree. A large part of the "paper money" in circulation is the issue of United States banks, or treasury notes, or silver certificates.

THE CANADIAN LOAN. Mr. Fielding is well advised in offering the new Canadian loan at 2-1/2 per cent, and there is very little doubt that he will float the bonds at a good figure.

Mr. Fielding is well advised in offering the new Canadian loan at 2-1/2 per cent, and there is very little doubt that he will float the bonds at a good figure.

pioneer in this movement. In 1844 this country led the way in cutting the rate below four per cent. The loan floated in that year by Sir Leonard Tilley was, we believe, the first 3-1/2 per cent loan obtained by a British colony.

The man who is so unfortunate as to be elected mayor of New York will have the appointment of more than 60 officials having salaries of \$5,000 or over, and ranging up to \$15,000. It is said that the civil list of the new city will contain the names of 25,000 officers, with salaries aggregating \$9,000,000.

There is a good deal of amusement in Montreal shipping circles over a bad break made by the premier when he spoke in that city the other day. Sir Wilfrid said that nine-tenths of the exports of Canada to Europe went by way of United States ports.

Mr. Blake is calling for another Canadian subscription to the home rule funds. The call may be successful, but the strife which now prevails in the various factions of the home rule party in parliament does not encourage contributions.

THE FAST LINE CONTRACT. The official announcement is made that Messrs. Petersen and Tate, contractors for the fast line steamship service, have at last paid over to the government the forfeit money of \$10,000, and given the required guarantee of a like amount for the fulfillment of their contract.

The Montreal Herald endorses the suggestion that the head office of the Intercolonial railway should be removed to Montreal. Mr. Greenshield of the Drummond railway is one of the owners of the Montreal Herald.

TUBERCULOSIS AND CONSUMPTION.

The valued Telegraph remarks that tuberculosis is the same disease as consumption and says that no effort is made to isolate consumptive people or prevent their coming into the country.

IRISH OBSERVANCE

Of Sixth Anniversary of Death of Charles Stewart Parnell.

Flowers Brought from All Parts of Ireland and Placed on His Grave.

No Union Jacks, but Lots of Stars and Stripes in Yesterday's Procession.

Dublin, Oct. 10.—Today is the sixth anniversary of the death of Charles Stewart Parnell. Five thousand nationalists paraded the streets to the bleak Glasnevin cemetery, where they heaped high the grave of their famous and lamented leader, with flowers from all the counties of Ireland.

The procession started from St. Stephen's green at one o'clock, led by a mounted guard of honor of Irish National Foresters, immediately followed by the York street brass band, which preceded the march.

Mr. Blake is calling for another Canadian subscription to the home rule funds. The call may be successful, but the strife which now prevails in the various factions of the home rule party in parliament does not encourage contributions.

M. Patenotre, French ambassador at Washington, has been promoted to the post of ambassador to Spain. The form of the announcement is rather unpleasant to United States pride, but the Spanish office is considered the highest in dignity.

THE MONTECALM ENDORSEMENT. The Montreal Herald endorses the suggestion that the head office of the Intercolonial railway should be removed to Montreal.

ARRESTED AT HALIFAX.

Teller of the First National Bank of Wallingford, Conn., Arrested at Halifax.

Wallingford, Conn., Oct. 11.—Word was received here tonight of the arrest in Halifax, N. S., of William A. Trask, treasurer of the Borough of Wallingford and teller of the First National Bank of that place.

There were more than thirty bands around the procession, and every county brought more than its quota of smaller towns, had representation in county or town officials, clubs, societies or other organizations.

Back Mistletoe will repair on Quinlan's schooner for Buenos Ayres. Sch. James E. Woodhouse, of Ellsboro, to load plaster for New York. The schooner was docked at the Custom House wharf to load for London.

MARINE MATTERS.

Back Mistletoe will repair on Quinlan's schooner for Buenos Ayres. Sch. James E. Woodhouse, of Ellsboro, to load plaster for New York.

MANCHESTER'S TONIC

Condition Powder.

A Preparation put up by qualified Veterinary Surgeons and compounded from the purest drugs and Medicines to be obtained in without doubt the most powerful and useful medicine.

York Herald says: Buenos Ayres advises that British ship Kingsport, previously reported ashore on Oriz Bank, is being repaired.

The British barkentine Robert Ewing was at the residence in the harbor yesterday. The Ewing is bound for Port Daniel, P.Q. to Greenport, L.I., and her cargo consists of iron ore.

Sch. Etie, Hasewood, Gladys, and Adelaide, bound from Sydney, C.B. to this port with coal, were at La Have yesterday.

There were more than thirty bands around the procession, and every county brought more than its quota of smaller towns, had representation in county or town officials, clubs, societies or other organizations.

DR. WILLIAMS' PINK PILLS

CURE WOMAN'S ILLS.

A SAFE, SPEEDY AND EFFECTIVE BLOOD BUILDER AND NERVE RESTORER.

Bright Eyes, Rosy Cheeks and Elastic Step, Follow the Use of This Unrivalled Health Giver.

WEAK AND EASILY TIRED.

From the Moncton Transcript.

One of the happiest couples in Notre Dame, N. B., is Mr. Will. Colborne and his wife. For the cause of so much happiness they were indebted in a great measure to Dr. Williams' Pink Pills, by which Mrs. Colborne was quickly cured of the most stubborn malady. This is how Mrs. Colborne tells the story of her illness and cure: "When I was three years old I had an attack of inflammation of the lungs from which for a long time I did not wholly recover. I was ever a weak and delicate child, very languid and the least exertion fatigued me. I was extremely nervous, my appetite was never good and my nights frequently sleepless. Growing up I felt my affliction less severe and as time went on I married. Shortly after my marriage all my old symptoms came back in an aggravated form. I could eat nothing and could not sleep at all. My blood became thin and weak and I felt dull and spiritless. I had no ambition and the thought of moving about was distasteful to me. I was so easily fatigued, that the exertion of walking up stairs almost overcame me, and I suffered from an almost constant bilious headache. My husband became alarmed at my condition and called in a doctor, though nothing beneficial resulted. I continued to grow worse and acting on the earnest counsel of friends, I procured six boxes of Dr. Williams' Pink Pills, and I began taking them according to directions. Almost immediately a change in my appetite became keen and I ate my food with a relish. I began to sleep well and the color came back to my face. I became strong and ambitious and could do my usual household work. All the tired feeling disappeared so that I felt like a new person. I have not since felt the least symptoms of my former trouble, nor have I any fears that I shall. I consider Dr. Williams' Pink Pills a great blessing to mankind, and I strongly recommend them to all."

NERVOUS DISORDERS CURED.

From the Amherst, N. S., Sentinel.

The rugged and the strong do not appreciate, to its full extent, the blessing of perfect health. It is only those who have passed through a trying illness, who feel that health is a treasure to be prized more than silver or gold. Among those who have experienced the truth of this is Miss Sabra Rector, of West River Hebert, N. S. This lady has passed through a trying and wearisome illness, from which a happily relief was found through the medium of a medicine that has brought health and strength to thousands of others, and whose medicinal virtues will work equally good results in all cases where it is given a fair trial. Miss Rector says: "I feel it is my duty to recommend Dr. Williams' Pink Pills, as they have done wonders for me. About two years ago I became very bad with a complication of diseases. I was suffering with indigestion, biliousness and the resulting nervous disorders, such as sick headache, loss of appetite and flashes of heat and cold. I began doctoring and although I had the best of care I seemed to grow worse every day. I slept but little and when lying down would grow so hot and suffer from a sensation of smothering that it was necessary to arise. Then the other extreme would come and I would shiver with cold. There was no improvement in my condition. I was not able to do any work and the house and even the exertion of moving about would tire me out. If I attempted to walk any distance or hurried in the least I would gasp for breath and could scarcely speak. I had a very poor appetite, and food I ate did not seem to agree with me or furnish needed nourishment, and I also suffered with a severe pain in my side and back. During this time I tried many remedies, but they gave me no relief whatever. I had become so weak, and my system was so run down that my life was a burden to me. At this stage my attention was directed to Dr. Williams' Pink Pills and I determined to give them a trial. After using four boxes I felt so much better that hope and encouragement came to me once more. I continued the use of the pills and found myself steadily gaining. By the time I had used four boxes more I had fully regained my health and strength and I am not only able to do my full share of household work, but also to attend to my Sabbath school class and other church duties. I look upon Dr. Williams' Pink Pills as a priceless boon to suffering humanity."

the genuine pills, purchasers should not ask for Pink Pills but for Dr. Williams' Pink Pills for Pale People, and see that they are put up in a package the wrapper around which is printed with red ink on white paper and bears the full trademark "Dr. Williams' Pink Pills for Pale People." Inside the wrapper are Dr. Williams' directions for use. Pay no attention to any dealer who claims to have "the same thing under another name," or something else "just as good." In case of doubt it is better to write (enclosing price, 50 cents for one box, or \$2.50 for six boxes) to the Dr. Williams' Medicine Company, Brockville, Ont.

Ladies' Ailments.

Many women suffer in silence for honorable reasons. They alone know the pains which afflict them—continuously or at regular intervals. Aching backaches, headache, prostration; irregularity of vital functions; the change of life; weakness easily accounted for. All these things have been cured by Dr. Williams' Pink Pills. They cannot harm the most delicate girl or woman of advancing age.

Read the cures.

A WORD OF CAUTION.

A few unscrupulous tradesmen—their cupidities excited by the great reputation of Dr. Williams' Pink Pills—make up or buy in the wholesale market ready-made, cheap pills, colored pink, which will do no good, and which are sold as substitutes for Dr. Williams' Pink Pills. Such pills are a fraud. The recipe for Dr. Williams' Pink Pills is known only to the Dr. Williams' Medicine Co. All substitutes are therefore useless. Be sure of having none but

Among the remarkable cures which have followed the use of Dr. Williams' Pink Pills is that of Mrs. N. Godose, a well-known resident of Annapolis Station, N. B. Mrs. Godose says: "For five years I was a sufferer from a most peculiar trouble which seemed to be the skill of several physicians. The first symptoms of my trouble cannot characterize better than by calling them blind spells, as my head would get so bad that I could not see and blindness would come over me. Then I would grow faint and dizzy and could not walk about. My hands and arms would become perfectly numb and would sometimes remain in this condition for days. Latterly the attacks grew more frequent and more severe. I became so nervous and run down that life indeed was a burden to me. My appetite was very poor and I could not eat. I was a regular medical treatment made no improvement in my condition, so my friends strongly urged me to try Dr. Williams' Pink Pills, and at last I consented to do so. I had only been taking them a short time when there was a decided change for the better in my condition. I continued their use and every day my nerves seemed to grow stronger. I gained in flesh and I felt like a new woman. I know the load of misery from which Dr. Williams' Pink Pills have

relieved me, and I am more than grateful and will never lose an opportunity for saying a good word of his grand medicine."

DEPRESSING HEADACHES AND WEAKNESS.

From the Alexandria News.

Another voice in Olengary county is willing to swell the chorus of praise to the restorative value of Dr. Williams' Pink Pills. In the township of Lancaster lives Mrs. Rory McCrimmon, the wife of a well known farmer. Years ago she became subject to severe headaches, intermittent in occurrence and more or less painful in character. The advance of time saw no improvement. In the spring of 1894 her ailment assumed a more serious form, depressing headaches and extreme weakness. In this condition she consulted one of the best physicians in the vicinity, and after numerous visits and much improvement. Before the summer was gone, with the hope of obtaining better results, a visit to Cabotville Springs was made. The visit lasted about three weeks, but, unfortunately for Mrs. McCrimmon, there was no discernible improvement arising therefrom. By this time the fame of Dr. Williams' Pink Pills reached her, and she was seized with a desire to reach in their worth. The experiment was only made upon and faithfully carried out, until she looked for results came. The persistent headache, which defied the skill of doctors, has vanished, lost vigor is recovered, and the general health so completely restored that Mrs. McCrimmon has been able to work and go about with comfort, as she had not been able to do for years. Unmistakably Dr. Williams' Pink Pills did for her what other things failed to do. Since the first use of the pills Mrs. McCrimmon has taken them herself to advantage. Money spent in the purchase of health cannot be ill-spent.

SUSSEX FAIR.

The Attendance Large at the Horse Show.

The Awards Made by the Judges—Some Additional Information About the Exhibits.

Sussex, Oct. 8.—The attendance at the fair last evening was very large and Messrs. McCully, Beer, Langdown and Hubbard were kept busy by interviewers and exhibitors, and the refreshment room attached was well patronized. The music rendered by the Sussex band was highly appreciated. The exhibits of furniture, agricultural implements, carriages, dairy utensils and wearing apparel were small and few of them were of local manufacture. Some of the harness and horse findings, tin ware and boots and shoes by Sussex manufacturers were very creditable, and so were the Montreal woolen goods shown by McKay & Co.

J. E. Shipp of Sussex, who has a continental reputation, made a fine show of pork, hams and sausages, and in the department of fancy work, Miss Ivy Roach showed some beautiful paintings in oil and water colors, for which she was awarded the first prize. Several paintings by Miss Alice White were also much admired.

Miss Jessie Ewing showed some beautiful lace and Mrs. McCully some crochet work which everybody admired. There were shown assortments of embroidered slippers, and sofa pillows and table cover and pin cushions and toilet sets that made the bachelors present, with their comfortable boarding houses, very sad, and inclined their minds toward reformation.

Dr. Jasper J. Daly showed a large collection of rare coins, medals, birds' eggs, etc., and Dr. S. H. Langstroth a large case filled with native and foreign birds. These gentlemen and the ladies were largely instrumental in making the exhibition the grand success it proved to be.

This morning the horse show opened on the ground that yesterday was occupied by the cattle. The exhibit was a fine one and the following are the judges' awards:

DRIVING HORSE.

Best stallion, 4 years—1st, H. N. Arnold.

Best stallion, 3 years—1st, H. R. McMonagle; 2nd, H. N. Arnold.

Best stallion, 2 years—1st, E. O. McIntyre; 2nd, H. N. Arnold.

Best gelding or filly, 3 years—1st, E. O. McIntyre.

THE JERSEYS

Brought from Quebec Province May be Taken Back.

An Interview With W. A. Reburn and His Opinion of the Government.

Quebec Authorities May Not Permit Re-entry of Cattle Into Province.

Fredericton, Oct. 8.—W. A. Reburn of Quebec province, the breeder of the Jerseys purchased by the provincial government, is still in the city, and purposes remaining till he gets a definite statement from a dominion veterinarian and Hon. Mr. LaBrosse. Mr. Reburn, talking to a member of the Sun staff, said he had been misrepresented in despatches to St. John papers as having said that there was no agreement as to health certificates being a condition of purchase. So far from that being the case, he entered into an agreement to give a certificate with each animal, and would have done so had the vendor commission given him time to secure the services of a veterinary. The order for shipment to make connection with the balance of the importation came at a time when the resident dominion veterinarian was absent, but so confident was he of the health of his entire herd that he sent the cattle along, the sale being contingent on an examination by a dominion veterinarian after their arrival at Fredericton. Despite all that has been said Mr. R. is far from satisfied, and is now in correspondence with the Hon. Mr. Fisher, minister of agriculture, on the subject. His proposition to the government is on the face of it a fair one. He wants the secretary for agriculture to select the animal that is alleged to show the strongest signs of tuberculosis, kill it and have the remains examined by a dominion expert. If the result justifies the suspicion of tuberculosis he will abide by the consequences. If no evidence of this disease is found, then the government shall pay for the cattle.

Mr. R. says he is a breeder of Jerseys with an established reputation, and this is the first occasion on which the health of his herd has been called in question. It is a matter of vital importance to him, and he is not prepared to accept the opinion of any man, though a full and complete investigation has been held.

HE OWNED THE SHIP.

A Seaman of the James Nesbith Placed Under Arrest.

New York, Oct. 11.—Before the full rigged ship James Nesbith moored at her dock today in Brooklyn, it was known that she has on board a man in iron, who had tried to commit murder. But it was not known that she was on the high seas that this would be murderer practically owned the ship, anchored on Friday last off Staten Island, and it was reported that they experienced trouble on board. When the big boat lay alongside her dock today, Joseph Marean, an able-bodied seaman was taken from the iron in which he had been since Sept. 14th and marched before United States Commissioner Oakes. He was held until Saturday for examination. He appeared perfectly sane and quiet. On Sept. 14th when the vessel was sailing under a fair wind, Marean went out of his mind. He started to slash around with a big knife. Chief Mate Greenen, a nifty old man, ordered Marean to go below and received a stab wound for his trouble. The sailing master went to the chief mate's assistance and also got a severe cut. Marean then went for the fourteen sail on deck. They all disappeared from the companionways and in a short time Marean had the deck to himself. He ran up and down howling at the top of his voice. The officers and crew secured arms and returned to the deck, where they approached Marean on all sides and made a concerted attack upon him. Several members of the crew today bear traces of the struggle that ensued and several of them said it was a wonder that Marean did not kill somebody instead of seriously wounding two men.

"I can't help thinking I've seen you somewhere before," said the man with the brown leather valise, who was waiting for a train. "My friend," replied the man in the valise, "I am the man you are waiting for a train. Don't make any effort to help it. It's too hot for the exertion. Let it go at that." And he sauntered on—Chicago Tribune.

THE NEW LOAN.

Some Particulars Given of the New Loan to be Floated in London.

The Scene of the Recent Fire—Tents Erected by the Militia Department.

Ottawa, Oct. 10.—After considerable lobbying between London and Ottawa the deputy minister of finance last night received particulars of the proposed new loan. The rate of interest, as anticipated, will be 2-1/2 per cent. The minimum offer which will be considered is \$21 for each \$100. The duration of the loan is fifty years. The last loan of Mr. Foster's was for two and a quarter million pounds at three per cent. at a minimum of \$5. The average price realized was \$71-1/2. It is generally considered the conditions of the London market today are favorable for good prices.

Over eight hundred Ottawa people visited Casselman and South Indian today, a special train being chartered for the occasion. The proceeds going to the relief fund. A detachment of the Dragoon guards and city police proceeded to the scene of the recent fire by early morning train and after a hard morning's work erected a large number of tents. Contributions to the relief fund are coming in from all parts of the dominion in a most gratifying manner. Premier Laurier promised to attend the citizens' meeting here tomorrow night.

There was an amusing incident at the King's Daughters' convention yesterday. Efforts were being made to get the convention journal out of debt. Different cities each guaranteed advertising. Halifax offered to take a page. The president, Mrs. Davis, of New York, in great astonishment, asked if Halifax meant it; could a small city like that afford it; whereupon a bright little Quebec woman quickly rose and said Halifax is no mean city; that the United States had to send their warships there to be docked, as none were large enough in their own country. There was a big laugh at Mrs. Davis' expense.

LOCKHART'S HORSE SECURED.

St. Stephen, N. B., Oct. 11.—Deputy Sheriff Wm. Robinson made a capture at a farm near St. Stephen today of the horse stolen recently from Mr. Lockhart of Salisbury. The thief was with the team, but made good his escape to the woods.
