

SACKVILLE ASKS FOR NEXT CONFERENCE

Invitation Extended To Methodist General Body But No Decision Arrived At—Session Nearing Close.

REVIEW OF WORK ACCOMPLISHED

Special to The Standard, Victoria, B. C., Aug. 30.—The opening session of the general conference this morning revealed the fact that a very large number of the delegates, both lay and clerical had left for home. Unless the business is speedily completed the conference will find itself without a quorum. The principal reports have been passed, and there is a strong disposition to hurry the remainder.

The heated discussion of yesterday respecting orthodoxy in colleges, and the results reached are regarded by the majority as having placed the issue definitely before the church. There has been instituted a court for the trial of professors, whose teachings have been called in question. There must be the signature of at least five responsible members to the statement calling in question the teaching of any professor and action must be taken by the college board in which the professor belongs within sixty days. This it is expected will definitely settle any rumors that may arise in these vexed questions. If the committee who investigate the case decides against the professor he may appeal to the annual conference to which he belongs, if, however, he should not be a member of any conference in Canada he has no appeal. The question of systematic benevolence was thoroughly discussed last night and many interesting facts adduced.

CHOLERA SCARE HAS ABATED

Berlin, Aug. 30.—The cholera scare has greatly abated tonight. The Lokal Anzeiger prints an official statement to the effect that none of the suspects detained in the suburb of Spandau has cholera and that inquiry into the case of the house servant who died in this city last night shows almost a certainty that he was not suffering from cholera.

BOARD OF WORKS MEMBERS WERE IN COMPLIING MOOD

Yesterday Afternoon's Meeting Largely Occupied With Kicking on Part of Members--Ward Aldermen After Their Rights--West End Sprinkler Tenders Returned.

At its meeting yesterday afternoon the board of works decided to return the tenders for installing a sprinkler system on the West Side sheds, and then appointed a committee to find out whether it would pay the city to install a sprinkler. The engineer was instructed to fit up the shed adjoining the D. R. Wharf for the storage of potatoes; the tender of W. J. Thomas for a sidewalk on Marsh street was accepted; M. R. A., Ltd. and Hoyt Bros. were given permission to erect projecting signs and the construction of a number of retaining walls was recommended. There was the usual row-wow about the condition of the streets.

Besides Chairman McGoldrick there were present Ald. Jones, White, Smith, Willett, Elkin, Holder, Hayes, Sproul, Lively, Wigmore, Vanwart, Scully and Potts, with the common clerk, the city engineer, the harbor master, deputy harbor master and the street superintendent.

Tenders For New Sidewalk Tenders for asphalt sidewalk on Marsh street were opened: Magee and Co., 50 cents per sq. yard. W. J. Thomas, 50 cents per sq. yard. In reply to Ald. Jones the city engineer said there were about 300 sq. yards of work to be done. His estimate was \$150. Ald. Hayes moved that Magee and Co.'s tender be accepted. Ald. Jones thought the work should be divided. The engineer said Magee and Co. had a contract for Cranston Ave. Ald. Hayes then agreed to authorize his resolution to give W. J. Thomas the whole of the work, as he had had no contracts with the city this year. This was adopted.

A communication was received from F. P. Starr asking a refund of \$150, the cost of removing rock on Coburg street to build his house. The engineer recommended payment. Ald. Elkin asked if Mr. Starr had not destroyed the asphalt sidewalk, and if it would not be advisable to charge the damage against the house. The engineer thought the city might ask this, but in view of the fact that Mr. Starr had made an arrangement with Ald. Peters, his predecessor, he thought he should abide by it. Ald. Sproul thought Mr. Starr was entitled to what he asked for. If he had broken the sidewalk, the city could make out a separate bill against him. After some further discussion it was decided to pay Mr. Starr \$150, less the amount of damages done to the sidewalk.

The West Side Berths. A communication was received from the C. P. R., asking for berths, 1, 2, 3, West Side. It was recommended that \$1600 be spent on repairs to the sheds. A later letter asked that the berths be let for two winter tenders. Ald. Elkin said it would not be advisable to let the berths for more than one season, as they did not know what would turn up. He moved that the C. P. R. be allowed the berths for one season on the same conditions as last year. The engineer said the city was asked to strengthen the floor of No. 1 shed, though the C. P. R. was willing to make some other improvements. Ald. Elkin said the city did not get sufficient revenue from its harbor facilities to pay the interest on the bonds. He thought a committee should be appointed to consider the possibility of raising the rates on the freight passing through the sheds. Ald. Hayes moved that the whole matter be referred to a special committee to report to the council.

Ald. Elkin said that there was something wrong with the system of appropriations for ward purposes. Every time he went through his ward, he was bombarded with complaints about the streets. He was sure there hadn't been \$50 spent on his ward. Ald. Elkin said he had called attention to the need of repairs in Queens Ward. However, he recognized that the worst places had to be attended to first. Ald. Sproul moved that a report be prepared showing how much money was expended in each ward. Should Re-organize Department. Ald. Lively thought the street department should be reorganized. There should be a superintendent for each ward, with more money and double the number of men to do the work in the summer time. Ald. Hayes said there were streets in Victoria Ward that have no sidewalk. His ward did not get a fair deal.

Ald. Jones remarked that the observations of the aldermen would greatly facilitate the work of the committee appointed to investigate the workings of the street department. He was surprised at the modesty of Ald. Elkin; he would be glad to have half the amount spent in Queens applied to street improvement in Sidney. No vote was taken on either Ald. Lively's or Ald. Sproul's motions, the chairman went back into the questions raised.

The Sand Point Sprinklers. The chairman said the tenders for the sprinkler system were kicking because their deposit checks were held up. Ald. Lively said that it would not be advisable to install the sprinkler system on the road, in view of the fact that the C. P. R. had decided not to install one in the elevator. He moved that the tenders be returned. Ald. Elkin thought that if the elevator did burn down they could save the sheds, as a burning building fell within one third of its height.

Ald. Lively--We could not get a reduction of insurance rates unless the C. P. R. put a sprinkler on the elevator. Ald. White thought the insurance companies might grant a slight reduction in the rates, but not enough to pay the city to install a sprinkler on the sheds.

After some discussion, in which it was pointed out that a sprinkler could

one for \$150 and the other for \$172.72. The engineer recommended that the original bill for \$150 be paid. He thought Mr. Stewart had added compound interest. An order to pay \$150 was passed.

Strait Shore Retaining Wall. The engineer recommended the erection of a stone retaining wall on the Strait Shore road near the falls, at an estimated cost of \$300, to replace the present hemlock wall. Ald. White said the place was dangerous. The engineer's recommendation was adopted.

The engineer recommended repairs to the bridge over the so-called Raceway. He suggested connecting the mill pond with the harbor. The cost of repairs would be about \$600. On motion of Ald. Smith the recommendation was adopted.

Hoyt Bros., 106 King street, were given permission to erect an electric sign projecting over the sidewalk. A communication was received pointing out the necessity of erecting a retaining wall on the southern side of the Methodist church property, Carleton. The engineer said a concrete wall would cost about \$300.

Ald. Smith said a retaining wall was necessary to hold up the street, as the existing wall was in a dangerous condition. A motion to call for tenders was adopted.

Government Wants City Dredge. Engineer Shewen wanted to know what the city would charge per day for the dredge to work at Campobello. He wanted to authorize the engineer to hire the dredge to the government for \$50 per day. Ald. Potts called attention to the fact that though the Board of Works had rented the dredge near Reed's Point to the St. John Produce Co., it had as yet done nothing to carry out its part of the bargain regarding the fitting up of the building to render it frost-proof. The engineer said the shed had just become vacant. He wanted to know whether he would make the alterations by day's work or call for tenders. To Ald. Lively he said the work could be done quicker by days work.

Ald. Lively thought the job could be done quickly by tender, even if it would take 10 days to get the tenders in. Ald. Holder thought the job would be done more satisfactorily by day's work. Ald. Potts said work done by the city was always better than that done by the contractors. Ald. Hayes said that in Toronto the city departments put in tenders for all work, just the same as outside contractors. In this way the city saved \$30,000 last year. Ald. Jones moved that the engineer secure tenders from the contractors within 3 days. Ald. Holder moved in amendment that the city engineer have the job done by day's work. Ald. H. Elkin supported this. In 15 days potato shippers would want storage facilities. Ald. Holder's motion was adopted.

DEATH FROM TYPHOID IN ALBERT COUNTY ATTEMPT AT SUICIDE

Miss Odessa Smith Of Albert Deposed Treasurer Of Biddeford Bank With Shortage Of \$300,000 In Weak State And Being Guarded.

Albert, Aug. 30.--Miss Odessa Smith, eldest daughter of Nathaniel Smith, of Albert, died this morning from typhoid fever, complicated by pneumonia. The deceased was a very estimable young lady of 19 years, a consistent member of the United Baptist church and her sad death has cast a gloom over the village today. This is the first death from the scourge of typhoid that has appeared throughout this section of the County of Albert. Another case of the same disease is under treatment at Riverside, one mile distant from Albert, the patient being Miss Olga Pearson, the eldest daughter of Isaac T. Pearson, who for a number of years was a resident of St. John West.

A third case is that of Clark Wright, a son of Mrs. James C. Wright of Howe Hill. This young man for some time was a clerk in the Bank of New Brunswick at Riverside. This is a serious case, pneumonia being threatened. It is found that the disease finds its origin in the drinking water and the board of health is having tests made with a view of definitely determining this.

SACKVILLE SEEKS

Continued from page 1. The book and publishing committee are proposing to name a small committee to undertake the preparation of a new hymn book. Some minor changes were suggested by the committee on retreat and discipline. Invitations Extended. Sackville, N. B., Ottawa and Sault Ste. Marie have each invited the conference to hold its next meeting in 1914. It is proposed to give women a membership in all the church courts but the proposition does not meet with much favor and will not obtain. The court of appeals for the next quadrennium consists of Drs. Ross, Stewart, Shorey, Manning, Langford and Messrs. Rowell, Chesley, McLaren, Briggs and Starr. This court is the final authority in appealing matter of law. The close of this conference marks a new epoch in church work, the chief items of legislation are the increasing of the number of general superintendents, the enlarging of the powers of the annual conference in missionary matters, the giving of a sum not exceeding ten per cent of the Sunday school contributions to missions and to the women's missionary society, the institution of a special court for the trial of college professors and other term members of the organization of a department of evangelism, a clear statement of the loyalty of the church to the fundamental articles of doctrine, the establishment of a college at Regina, the organization of a new college at Calgary, the institution of a special department of finance. Very much business has been done and the church enters on the work of another term with a very fine outlook. Much of the legislation was influenced by the prospect of union, which some believe to be in sight.

DIAMOND BURGLARY

Narragansett Pier, R.I., Aug. 30.--Diamonds valued at \$3000 belonging to Mrs. Louis Kaufman, of New York, were tonight reported stolen from the home of Mrs. Dr. Archibald Thomson, who before her marriage to Dr. Thomson, was the widow of the late Thomas B. Wannamaker, of Philadelphia. The burglary occurred at the Thompsons' summer home at Bass Rock village where Mrs. Kaufman is a guest, last Saturday night while the family was away. This is the second notable burglary of the season in this vicinity, the first being that of Mrs. Chase of Waterbury, Conn., having been entered earlier in the summer.

JUDGE PARKER IS ACTING FOR STRIKERS

New York, N. Y., Aug. 30.--Announcement was made at the headquarters of the striking cloak makers here today that Judge Alton B. Parker, one time Democratic presidential candidate, has been retained as special counsel for the union to seek a reversal by the higher courts of the recent decision of Justice Goff holding the purpose of the strike to be illegal in that it demands the closed shop and enjoining the strikers. Judge Parker is of the opinion that the Goff decision is too sweeping as it forbids the right of peaceful assembly and free speech. The higher court will not convene until October however. The broad effects of Judge Goff's ruling, which caused some disorder last night, became apparent today when it was announced that picketing of the factories will be stopped by the police.

SIMPLE FUNERAL OF PROF. WM. JAMES

Cambridge, Mass., August 30.--Simple services, in accordance with the ideals of the dead man, marked the funeral of Prof. Wm. James, of Harvard University, the famous philosopher and psychologist, in this city today. The services were held in Appleton chapel in the Harvard yard, and were conducted by Rev. Dr. George A. Gordon, pastor of the Old South church, Boston. President A. Lawrence Lowell, of the University, was one of eight pall bearers. The body was taken to Mount Auburn cemetery for cremation.

ENJOY A Vacation Trip

At the Expense of The Standard and New Star Do Not Delay a Moment--Get in and Win. No such Opportunity ever before Offered.

SUCCESS

Means that the fortunate ladies will be enabled to witness of great sights of a lifetime. They experience one continuous round of pleasure from the very moment they start on these grand tours, until they return to their homes. Enfolded in the warmth of the Gulf Stream they experience all the joys and pleasures of Summer as the Beautiful Bermudas, upon whom Nature has lavished all her bounties, unfolds a never ending panorama before their eyes.

Not a dull moment, not a second without pleasure of some kind. Not the smallest amusement will be missed. To our "Tourists" it will be a case of on the go all the time; and such arrangements have been made, in transporting the ladies from one place of interest to another, that they will suffer no fatigue and will enjoy the panorama constantly being unfolded, with all the comforts of travel that money and influence can possibly procure.

The ST. JOHN STANDARD AND NEW STAR will send nine women and a chaperone to New York City and the Bermuda Islands in October and every cent of expense from the time of leaving home until the return will be paid by these papers. The party will be chaperoned by a competent lady, and the contestant obtaining the greatest number of subscriptions to the STANDARD and NEW STAR will be accorded the privilege of selecting the chaperone for the party. The party will be accompanied, too, by representatives, who will look after their comfort and pleasure.

PLAN OF CONTEST--The Province of New Brunswick has been divided into nine districts, as described below. The lady in each district receiving the highest number of votes will be entitled to the splendid trip. A coupon will be printed in each issue and will entitle the holder to vote when properly filled out. Paid in advance subscriptions will be entitled to votes in proportion to the length of time subscriptions are paid.

PLAN OF NOMINATION--Any woman over 18, who lives in the Province of New Brunswick, is entitled to compete in the contest. She must be endorsed by three reliable citizens, who will vouch for the candidate's good character. Candidates may nominate themselves or their friends may do so for them. Read over the list of the nine districts, determine which one you or your friend is in, and send in your nomination. The rules of the contest are very simple. The list of nominations will soon be published and the voting will then begin. Get an early start for the trip is going to be worth while.

The main qualification to win is "stick-to-it-iveness." You can do it. GET IN AND WIN.

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N. S., writes: "For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills. That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial. They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and chapped, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c a box.

Dearness of Mr. Blobbs. Mr. Blobbs dined the other evening with some friends. When the guests were seated the host bent his head and began speaking in a subdued tone. "Eh, what's that?" demanded Blobbs who sat beside him, and who is rather deaf. The host smiled patiently and began again in a louder voice. "Speak a little louder; I don't catch what you say," Blobbs persisted. A low ripple of laughter went around the table. The host, his face crimson with embarrassment, raised his voice still higher. The poor old man did his best to hear, but failed. The host cast him an angry glance. "Hang it; I'm saying grace!" he yelled.—Tit-Bits.

Contestants Enjoy Seeing Old Friends In the Race for Votes in Bermuda Contest

Weak Spots in Districts Showed Signs of Gaining Strength Yesterday--Some Women Writing to Distant Friends to Secure Subscriptions--Bright Women Taking Advantage.

Continued from page 1. And remember, the number of votes resulting from the getting of only a few subscriptions is going to make a difference in the way the big race will end—the race for popularity and the delightful trip. Therefore, it behooves every contestant so to act while the contest is on that when the voting is over she will not realize to her sorrow the truthfulness of that saying: "Old all and words of tongue or pen, the saddest are these, it might have been"—might have been that she had won the race, instead of her competitor. We wish to point out again the great help which may be derived from a proper distribution of letters which The Standard and New Star is ready to supply all contestants. Come in and get a supply and distribute them among your friends. Your friends will be only too glad to give you their votes and help you to win one of these trips. And think of the honor of winning! The race is exhilarating, exciting, and outside of the educational advantage of a trip of this sort, it is a splendid training for a lady. There will be representatives besides the chaperone with the party to look after the pleasure of the ladies, and every convenience and comfort will be provided to make the trip a memorable one. Experienced guides will accompany the party. This trip might as well be yours. You don't know whether you can get votes unless you try, and it costs nothing to try. You have everything to win and nothing to lose, and you have the privilege of withdrawing at any time you wish. Could any offer be more satisfactory?

HARVEY M'GOY IS VERY MUCH ALIVE

Well Known Race Driver, Reported as Having Dropped Dead Yesterday, is Alive and Well in Fredericton.

Fredericton, N. B., Aug. 30.—With his friends worried over persistent reports to the effect that he had dropped dead on the Bangor (Me.) race track yesterday, Harvey M'Goey, the well-known race driver, arrived from Bangor last night in the best of health and his friends are breathing easier. Harvey is all right and very much alive. He will return this evening to Waterville, Me., where a horse following circuit of fairs are racing this week.

At Bangor yesterday he heard a sensational report to the effect that eight horses and four groomers of the racing stable of the veteran Boston driver, Frank Fox, had been killed in a railway wreck in New Hampshire. The report lacked confirmation, and it is hoped it is untrue.

FELL MILE DOWN SHAFT; WAS UNHURT

Calumet, Mich., Aug. 30.—One of the most remarkable escapes from death in the annals of the Lake Superior copper industry occurred yesterday at the Red Jacket shaft of the Calumet and Hecla mine, when Mike B. Sunrich, a timberman, in stepping from a repair cage to the main cage, fell into the shaft. He fell 150 feet before he grasped the rope, saving himself from a fall of a mile to the bottom of the shaft. His hands were badly burned on the wire rope, but otherwise he was unhurt. Sunrich was dangling from the cable when rescued.

MANY TRAINMEN ARE STILL OUT OF WORK

More Than 100 G. T. Railway Men Who Went on Strike Have Not Yet Been Taken Back.

Montreal, August 30.—Some one hundred employees of the Grand Trunk who answered the strike call nearly two months ago, are still out of positions, notwithstanding that the strike has been settled for several weeks. The majority of these are freight conductors, whose former places are still occupied by the men who took positions as strike-breakers, with a three-months' engagement. The unemployed men are still receiving remuneration from the strike fund.

A number of those out of positions are passenger conductors, who in the days previous to the strike almost invariably had charge of trains carrying railway officials on inspection trips.

SAINT JOHN, WEDNESDAY MORNING, AUG. 31, 1910

MR. A. F. BENTLEY, M. P., OBSTRUCTIONIST.

The Standard today prints two pictures representing sections of the road to St. Martins near Fairfield about eighteen miles from this city. At the first glance, judging by the piles of pulp-wood, stacked high on either side, and encroaching on the thoroughfare, it might be supposed that this was a logging road built for some lumberman's convenience. The pulp-wood, it is true, has been piled where it is for a lumberman's convenience, but the road is a public highway, and the one most used between this city and St. Martins. The lumberman is Mr. A. F. Bentley, M. P., one of the representatives of the people of St. John county in the local legislature, and presumably elected to look after the welfare of his constituents. The piles of pulp-wood, which extend along either side of the road in no less than four places, and which have already caused one accident, are a rather striking monument to the fact that the safety and convenience of Mr. Bentley's constituents are of very small account where his own interests are concerned.

Mr. Bentley owns some timber limits in this district, and the pulp-wood has been piled where it now stands since last March to save the expense of hauling. If Mr. Bentley has his own way, it will probably remain there till next winter when he can get it out at little expense to himself. He has been notified to remove the obstructions by Mr. John McDonald, Jr., secretary treasurer of the Highway Board for the Parish of Simonds, and by Mr. John Robinson, special road commissioner for the district, but has paid no attention. He will remove the wood, he is reported to have said, when he finds it convenient to haul it.

The pulp-wood is piled high on either side of the road at intervals extending over half a mile. There is of course no possibility of teams passing one another, and in several places there is barely room for one vehicle. One of the wood piles is over 100 yards in length. Should two teams, going at a fast clip, happen to meet some dark night between these walls of timber the result can be imagined. Mr. Arthur Rankine, a farmer in the neighborhood, recently had his carriage broken in collision with the obstruction, and the residents generally along the road are not slow in expressing their opinion of Mr. Bentley and his lumbering activities.

Mr. Robinson, the road commissioner for the district, has a special grant to repair this road from Loch Lomond to the parish line and much has been done in the way of improvements. As long as Mr. Bentley obstructs the road, as he is doing, nothing can be accomplished on these particular sections. Mr. Bentley is delaying work for which the Telegraph, the opposition organ which supports him, has of late been so loudly clamoring. As a lumberman he may have few superiors, but as a representative of St. John County, who has the interests of his constituents at heart, he stands convicted as untrustworthy and a dismal failure.

THE UNIFICATION OF DIVORCE LAWS.

The members of the International Law Association which has been meeting in London, contributed some interesting information on the subject of divorce during a discussion of the report of a committee on divorce jurisdiction. The association is in favor of a unification of laws relating to the subject, so that divorce should be recognized, not only in the country in which it is obtained, but in all civilized countries in the world. The present chaotic condition of divorce laws among nations has frequently given rise to odd complications and unusual situations, not in fiction alone, but also in practice.

The report of the association's committee on divorce jurisdiction stated that there were several marked characteristics of similarity in various judicial systems. In most countries there was no distinction between husband and wife as to the grounds for divorce, the law of England and Belgium and the Mahometan law of Egypt being conspicuous exceptions to this rule. The causes of divorce varied in kind and number. In several Continental countries mutual consent was a cause of divorce under various restrictions. They did not go as far as this even in the United States. However liberal the law was there, there was not a single cause for divorce in the United States which could not be duplicated on the Continent of Europe. In the United States there were millions of aliens settled, who brought with them their own ideas of the law of their own native country, and these ideas became in time common law, and subsequently became enacted into practice. The causes of divorce varied from one in England to 12 in Sweden. Among the other recognized causes for divorce in the various European countries were habitual drunkenness, habitual criminality, condemnation to penal servitude, desertion, and infliction of grievous injuries.

A lighter turn was given to the discussion by the remark that going elsewhere, they found the loquacity of the wife was a cause for divorce in Formosa, and the discovery of a previous wooing on the part of the husband where there had not been refusal or acceptance by the other lady, in Algeria.

With regard to methods of divorce, one of the most remarkable was in Egypt, where the husband divorced his wife by repudiating her verbally or in writing, and the divorce might be revocable or irrevocable. He could not take her back again, however, until she had married someone else and had been repudiated by this interloper husband. Dr. Gaston de Leval, legal adviser to the British Legation, Brussels, explained the difficulties an English girl might involve herself in by marrying a foreigner under certain circumstances. Supposing that a Belgian of 20 years, making a false statu-

tory declaration in pretending that he was of age or had obtained his parents' consent, married in London an English girl, and the very day of the marriage he took her to Belgium or to any other place. If, after a few weeks, or months, he wished to repudiate the girl, and confessed the whole story to his father, and the latter believing, perhaps rightly, that the young English girl knew perfectly well that the boy's parents would have refused their consent, and that he was under age, wanted the marriage to be declared void, if he brought the case before an English court, he would not succeed, such marriage being valid according to English law, the lack of parental consent not invalidating the union; if he brought the case before the Belgian court, or the French court, or any other Continental court, the marriage was sure to be declared void, and then, what would become of the girl?

Mr. R. B. D. Acland, K. C., read a paper contrasting divorce in Canada and in the United States, which had been prepared by Prof. F. P. Walton, Dean of the Faculty of Law, McGill University, Montreal. He said that in Canada the ancient view of marriage as a lifelong union of a man and woman still held the field, whereas in the United States marriage was coming to be regarded as a contract of a much less permanent character, which might be terminated without much difficulty by either party. It would appear that divorce had now become a primary necessity of life in the Republic, while in the more steady northern half of the Continent it remained the luxury of the few. As the American statistics showed, there was something in the air of the West which stimulated married persons to seek for freedom. Of the seven and a half millions who inhabit Canada, six millions had no possibility of divorce except by an Act of the Dominion Parliament. The number of these Acts was increasing faster than the population, but their total number was so small and such a vigilant eye was kept upon them by the Senate that there was at present no cause for any alarm.

In Canada they had no South Dakota, which for a long time was the "Gretna Green up-to-date" of the United States, furtive divorces having now become essential to the happiness of the community, than runaway marriages. Such cases as Haddock vs. Haddock, in which it was admitted that a man might have one lawful wife in Connecticut and another in New York, had no parallel in Canada. During the 40 years in which Canada had slowly been compiling a beggarly total of 431 divorces, the States of the neighboring Republic had dissolved 1,274,341 marriages.

THE HIGHWAYS.

The St. John Telegraph says of Maine, whose roads are in nearly as bad shape as ours were before the old government were voted out of power, that—

In the year 1909 the State of Maine spent \$275,000 on state roads, \$115,000 of which was repaid to the various towns by the state. A stretch of more than eighty miles of permanent highway was constructed, and the highway commissioner says the day is near at hand when the Maine Legislature will undertake the construction of a system of trunk roads, gridironing the state. One of these trunk lines would run from Kittery through Portland, Lewiston, Augusta and Waterville to Bangor, a distance of 185 miles.

In New Brunswick our government spend about \$70,000 on the country roads of the province, which is much more per mile than the State of Maine pays, the highway mileage in Maine being very much larger than ours. The \$115,000 of Maine's expenditure of \$275,000 went into building, repairs and maintenance of state roads running through the towns, leaving \$163,000 for the so-called state roads leading to towns and villages; and nearly the whole of this amount was spent on about eighty miles of road, on what is called permanent work. Other States, and our own province adjoining in the last two years, have taken the lead of Maine in good roads, and now our neighbors, particularly those in the eastern part of the State, are beginning to appreciate the value of first class highways. It is not what they spent in 1909, however, that we will find where their interest lies. It is in 1911 that we will find something to watch for, for the people have become much interested.

The Telegraph quotes Mr. Logan Waller Page, director of public works in the national department of agriculture: "The advantages of good roads are felt by every citizen, whether he lives in the city or the country, and by every enterprise whether it be agriculture, manufacturing, or mining." He adds: "All are more or less dependent on the common highways as an avenue of the commercial transportation, and in proportion as these highways are improved so as to facilitate transportation are they benefited thereby. These benefits have been carefully compared and estimated in dollars and cents, and so enormous have they been thus demonstrated to be that they represent a convincing argument to any thinking man of the importance and necessity for road improvement."

What Mr. Page says is absolutely true; and it applied five, ten and fifteen years ago with just as much force as it applies now. When the old government's friends were putting the greater part of the highway appropriation into their pockets instead of upon the roads the importance of the highway was just as great as now. Good highways were always a valuable asset. But the Telegraph supported and endorsed the crowd who squandered the money voted by the legislature to make and maintain good highways. Its complaint today in its criticism is of conditions for which it is responsible.

The question of permanent highways has engaged the attention of the Hazen government since its accession to power, and we have no doubt that a very progressive policy in this respect will be announced before long. But in the meantime, the damage of twenty years of dishonest administration of Mr. Hazen's predecessors has first to be in some measure repaired if the people of the country are to enjoy even a measure of the privileges to which they are entitled.—Frederick Gleason.

CURRENT COMMENT

(Regina Standard.)

The wide-awake and somewhat ironical postmaster down at Stoughton has promulgated the following rules for the benefit of his patrons and that you may exact what you may exact. No letters given out until they have been received. If you don't get a letter or a paper on the day you expect it, have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere, and he likes to hunt for it just to please you. If your friend doesn't write rave at the postmaster. He is to blame. If he tells you "No," put on a grievous look and say there ought to be some. He is probably hiding your mail for the pleasure of having you call for it. Ask him to look again. If you are buying stamps make him tick them and put them on, that's his business.

(Toronto World.)

The Globe states that the "Rainbow" has mounted two "very wicked-looking guns." The Peace Society should protest against this early start in a career of crime. And The Globe knows editorially that we should avoid the very appearance of evil. An effort should really have been made to get guns that at least looked virtuous—so as to harmonize with the Globe and the government.

THE LITTLE HAPPENING

I have a curious happening to tell:
It came to me today all strange and bright—
It came just like a picture flashed in light.

I played beneath the Big Trees in our Road—
I bent to kiss the roses by the wall—
And just that Then—they weren't there at all!

I caught my breath because I knew that I
Was somehow different—somehow far away—
And oh! the Happening!—all real, like Day!

A high brown cliff above the sea,
The water leaping up at me,
The smell of hot, wet sand,
A queer light on the land,
A long beach all stretching gray,
And big black ships that sailed away!

An old man walking there,
With this, wild-tossing hair,
His shadow, black, close-following,
His lips apart, fast-whispering,
His head sad-hanging, low,
His step so tired, slow;
He walked, he stopped in front of me,
He looked for long far out to sea.

And oh!
Just when I near remembered that
Just when I thought I knew that old man's face—
I stood beneath the Big Trees in our Road,
I saw their branches, laced all out and in.

I kissed and kissed the roses by the wall—
It seemed, almost, that it had never been.
Laura Campbell.

GOOD STORIES

Looking more needy and seedy than ever, Sir Percival Larkcash strode into his son's costly tailor's. The proprietor welcomed him with a beaming countenance.

"Ahem," choked Sir Percival, Bart. "My son informs me that you have permitted him to run a bill here for three years. Is that correct?"

"It is, Sir Percival," fawned the proprietor.

"Well, I have come—"

"Oh, pray, Sir Percival," oozed the proprietor, bowing and kowtowing before the noble bart. "I assure you there is really not the slightest hurry."

"Quite so," returned the impeccuous baronet, serenely. "And, as I was saying, I have come to order a suit of clothes myself."—Answers.

NEW HOME FOR CONNAUGHT

Report from Ottawa That Rideau Hall is to be Replaced by Expensive Structure on Fine Property.

Ottawa, Aug. 30.—The official residence of the governor general in this city has long since outlived its usefulness, and now that the Duke of Connaught is coming to Canada as governor general, it is rumored that the government has decided to erect a new Rideau hall, and indeed have plans well under way.

WE INVITE YOU TO COME AND INSPECT OUR STOCK whether you intend purchasing or not. We would like to make your acquaintance and any information you may wish in any particular, we will be glad to furnish it.

This PRETTY POINT d'ESPRIIT FINELY TUCKED NET WAIST with prettily trimmed front, only \$2.98. We are showing a large range of waists in Lawn, Linen, Net, Allover and Silk, in all colors, in the latest fall styles and at the lowest possible prices.

FALL SKIRTS. A nice fine Panama Skirt, like illustration, at \$5.55. Other prices from \$3.75 up to \$9.00.

LADIES' FALL SUITS. A special line of these in Cheviot and Venetian, all wool, at \$12.95. They come in a large range of colorings, and are nicely tailored.

A large assortment of finely tailored suits, in the leading styles, at prices up to \$20.00.

LADIES' FALL COATS. These were imported direct from Berlin, Germany, the fashion centre, and have the very newest touches of style to them. Since the removal of the tariff, German goods can be sold at 25 per cent less than formerly, which enables us to sell these coats at a very low figure.

When we mention \$7.75 and 8.50 for good heavy winter coats in seven-eighths and full length style, you will have an idea of the low prices prevailing.

The \$7.75 is made from a good piece of Cheviot and lined to the hips. The \$8.50 is made of whale serge in dark gray and is very attractive in appearance.

Other prices up to \$19.90.

The Eucharistic Congress

In Two Parts
E. W. Thomson in Boston Transcript

Part II.
"God is everywhere," replied the Greek priest. In this Father Fortescue agrees, as of course, all Christians do. It is not easy to perceive that they are not pantheistic.

But they contend, also, that the Deity became incarnate as Jesus Christ, and that the Spirit is specially localized in various buildings, objects and materials consecrated to His worship. They are not less but more inclusive than modern scientific pantheists. The latter must hold that their vague creed is the more purely spiritual. If they were not usually averse from all harshness in controversy, they might declare the Roman Church more materialistic than any of the others.

It may have been long reflection on the question of "How can we best rally the world's multitudes to new ideals of pantheism, and to new belief in personification and localization of God" which caused the poor woman's vision to be seized as indicating the right way. There would be no Protestant-like fighting the enemy with his chosen weapons.

The Lord's Supper.
Educated St. John, whose real religion is largely the religion of kindness (if one may testify who lived there eleven years), is also so Unitarian, so spiritualistic, so pantheistic, and so agnostic that it is not improbable that many readers of The Standard have never tried to ascertain what the Roman Church means by the Holy Eucharist.

Perhaps all know that it consists in the first place, of bread and wine, which is partaken of in all Christian communions, except the Quaker and Bookbinder, some by way of commemorating the last paschal supper of Jesus with His disciples. What occurred at the meal is recorded by Matthew, Mark, Luke and Paul to the Corinthians. The day was that preceding His crucifixion. "As they were eating, Jesus took bread, and having given thanks blessed and broke it, and gave to His disciples, and said, 'Take, eat; this is My Body which is given for you, the new covenant of My Blood.' In the same manner also He took the Cup after they had supped, and having given thanks, gave it to them, saying, 'Drink ye, all of this, for this is My Blood of the new covenant (or, the new covenant of My Blood), which is being shed for you and for many, in the remission of sins. Do this as often as you drink, for a Memorial of Me.'"

The Roman Church, like many of the Protestant, holds that the Eucharist was not only to the disciples present, but to all followers of Jesus forever; that the bread and wine were not symbols, and that commemorative duty consecrated bread and wine forever become essentially Body and Blood of Jesus. Essentially a word of somewhat vague meaning, Catholic theologians avow that the "accidents" of bread and wine remain, in appearance, texture, smell and taste. Transubstantiation is alleged, but the transmuted substance is, so far as the present writer can perceive, regarded as being changed not materially, but spiritually, notwithstanding all expressions that devotees may employ to signify change to blood and body. The Real Presence alleged is often the Real Presence of Christ as a Spirit.

What the Eucharist is.
True, Catholic theologians often employ phrases which appear to insist that real blood and body are present after consecration of the elements. But if their words be critically examined a susceptibility to more than one interpretation will usually be found in them. How large a doubt of substantial change in the elements was intimated by Very Rev. Vincent McNabb, prior to Leicester, in saying:

"After deep thought there is seen to be, not an objective impossibility of being, but a mere difficulty of thinking, for the mind soon recognizes that the change which takes place in the sacrament is wrought in the subconscious region beyond the senses. And the chemists of today are there to reassure us that if substantial changes do take place—which is not unlikely—they are wrought in the ultra-sensitive regions, and are not observable or measurable by any apparatus." He goes on to show that the Eucharist is founded on "the analogy between matter and spirit."

Does the Church affect to believe that these sayings are understandable by human reason? Not a bit of it. If the thing could be so understood it would not be the blessed Mystery. The Orthodox Fathers declared "the manner of transubstantiation, the Eucharist is a test of orthodoxy." To believe in it "Faith is required, not a blameless life, not intellect."

The present pope calls it "the ineffable mystery." Monsignor Parkinson testifies, "Science cannot examine it, nor philosophy explain it, nor theology fathom its wonders."

All in All to the Clergy.
In none of its aspects can the Eucharist be presented without the intervention of aid of priests. It is described as "all in all to the clergy." "It is the very life of the church as a body, and of each of her members. It is the great test of orthodoxy. It is in the church what the sun is in the physical world. It is the centre of the sphere." As the pope is head of the church which exists to convey to the laity the benefits of the Eucharist, "these (are) the two generative dogmas of Catholic life—the eucharist and the papacy." Loyalty and attachment to his holiness, the blessed Virgin, and the eucharist, are described as the three "roses of the elect."

A special glory of the present head of the church, Pius X., is to have peculiarly promoted worship of the eucharist, and of the papacy, by his solemn decree of June, 1905, Sacra Tridentina Synodus, "a document which filled with the most intense joy the church militant, suffering and triumphant, and which, as the fabled hell into fury," so observed Cardinal Vives y Tuto, the pope's right hand, in a letter read at the congress of 1908.

The Degree of Daily Communion.
This famous decree supersedes all previous prohibitions against frequent communion. "Even daily communion is allowed to all the faithful who are not in mortal sin, and who approach the holy table with a pure heart, and without any worldly motives. Deliberate venial sins, of course, to be abstained from, and all affection to them renounced, but even these are not to be held as obstacles to frequent and even daily communion, but only mortal sin, the sacred congregation declaring that those who communicate daily are certain by degrees to overcome their venial sins, and get toward recovery. It is not, therefore, he may venture to call in the all-merciful Healer of Souls? Or that he is so sick that a daily visit from the Physician is not to be thought of? It is not, therefore, in the most critical cases that the doctor makes a point of no account omitting his daily visit?"

In short his holiness in printing eucharistic works, appears to be moved by the very spirit of Jesus, whose purpose was to save sinners, rather than to give new satisfactions to the righteous. The decree of 1905 is a death-blow to the old, which Father Scannell regards as having somewhat influenced Catholic thought until recently. Also—though this is not stated by any Catholic authority—it appears probable that the document indicates a desire rather to check than to promote what Protestants have called Mariolatry, or the worship of the virgin Mary, not by suppression, but by particular encouragement. The work of Christ as symbolized or embodied in the holy eucharist. Again, the modern tendency to feminism would seem to affect the sacred congregation and his holiness, the Sacred Congregation of the Real Presence has long been peculiarly dear to nuns, though declared somewhat a novelty in the clergy of late years, a Priests Eucharist, whose purpose is sanctification through constant adoration of the Real Presence and daily communion, has enrolled multitudes of the clergy, and includes apparently over 80,000 in the states, last year. It had 80 directors in America and but three in England.

Child Communicants.
Children are now allowed to be daily communicants. The decree says "The frequent reception of the Holy Eucharist is recommended, even to children who have once been admitted to the holy table. They must not be prevented from receiving it frequently, but on the contrary, must be exhorted to do so, the contrary practice obtaining in some places being hereby condemned." It would seem that children who may become daily communicants are to have a patron saint in the person of a child of four years. "She died in an Irish convent of the Order of the Good Shepherd, on the day of the Feast of the Purification, 1907, after marvelous sayings, wonderful patience, and intense suffering. For three months she had the happiness of receiving holy communion daily. . . . Favours have already been granted at her intercession. . . . It seems a signal to be given to our very dear of the pleasure given to the Heart of Jesus by the extension to children of the Daily Communion Decree." And the decree is described as a signal to be given to the clergy more closely than ever before with the spectacle of the procession of the Eucharist and open-air mass

in Montreal on Sunday, Sept. 11, will doubtless be of a splendor most memorable. From that of London, 1908, all the elements of ecclesiastical ceremonial were eliminated, as illegal in Great Britain. Yet, shown as it was of the splendor which would have been conferred by rich vestments, costly banners, torches, incense and silken canopies, the spectacle of that vast array of clergy, with prelates, bishops and princes of the Church, was a stupendously imposing one. In Montreal the whole paraphernalia of Catholic magnificence will be displayed, and a population mostly sympathetic and whose demonstrations of respect, admiration and worship will not be the least interesting accompaniment of the gorgeous affair.

WOODSTOCK SMOTHERS DOVER TEAM

Woodstock, N. B., Aug. 30.—Woodstock had another easy victory over the combined Dover-Foxcroft team in Houlton this afternoon, the score being 16 to 5.

It was an all-round slugging match, Woodstock getting eight scores in one inning. Three baggers were common and Neptune of Woodstock got a home run. Peabody was effective but did not work hard. An excursion to the game went to Houlton from here.

A meeting of the boat owners of the R. K. Y. C. will be held in the city room on Thursday evening at 8 p. m., to consider the advisability of holding yacht races in the harbor during exhibition. A full attendance of those interested is requested.

PASS RESOLUTION ON DR. STEWART'S DEATH

Ministers of City in Session Pay Tribute to Memory of Distinguished Scholar and Divine.

At the regular session of the Saint John Methodist Preachers' Meeting, held in the parlor of the Centenary Church, August 29, 1910, the Rev. Dr. Wilson in the chair, the following resolution was unanimously adopted: Whereas, it has pleased the Great Head of the Church to take unto Himself our honored friend and brother, the Rev. Charles Stewart, D. D., this meeting records its deep sense of loss that has been sustained by the church of which he was so distinguished a member and minister, as well as by those of other communions, and also to give expression to its high appreciation of his many and varied gifts and powers, of the loftiness of his ideals, of the faithful and effective manner in which for so many years he discharged the important duties of his position as the instructor and guide of our rising ministry; of his intimate knowledge of and profound reverence for the Word of God, and of the powerful influence he exerted by his irrefragable life. In such a life there is a summons to service, and an inspiration to labor, and its hope and prayer is that the call may be responded to and the inspiration be experienced by all to whom have been committed the ability to bless their age and race.

And further, that a copy of this resolution be given to the press and also forwarded to the family of the deceased.

Signed on behalf and by order of the meeting,
JACOB A. HEANEY,
Secretary pro tem.

THE SAFETY OF "FRUIT-A-TIVES"

MAY BE TAKEN FOR YEARS

The Ideal Remedy For Young and Old

Nature's gifts do us good, it used judiciously. We eat bread from babyhood to old age without ever tiring of it. We drink water, year in and year out, with the greatest benefit to our health. So, too, we eat fruit in season and are better for the change of diet. This is true, because such things are the natural foods and drinks of mankind. It is for this reason that "Fruit-a-tives" may be used for years in correcting some ill of the body. As is well known, "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes.

Just as fresh fruit may be eaten at every meal, so "Fruit-a-tives" may be taken every night for 20 years or more with the greatest benefit. The absolute safety of "Fruit-a-tives" has been a great factor in its success. Those who suffered with chronic troubles such as Constipation, Dyspepsia, Rheumatism, etc., naturally take a number of boxes of "Fruit-a-tives."

As they became better, they found that instead of being compelled to increase the dose, as in most medicines, they were decreasing it, and gradually taking fewer doses.

50c. a box, 6 for \$2.50, or original box, 25c. At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

The line of march was first to the Baptist cemetery and then to the Church of England and finally to the old Protestant cemetery where rest the honored dead of the Order.

The ceremony was quite impressive and by the blending of the ladies' voices who helped with the singing, made an impression not long to be forgotten by the people of the community.

The members reformed ranks and marched back to their hall where their regulation dress with full regalia.

LITTLE MOVEMENT IN STOCK MARKET PLAY WAITING GAME IN WALL STREET

New York, August 30.—The demand for stocks shriveled up today and prices were allowed to drift aimlessly. The party in the speculation which has been attempting for several days past to move prices, grew discouraged over the lack of response to these efforts.

Today there was an astir on the London discount market and a rise in the rate of the Bank of England discount rate was considered less likely.

UHLAN MAKES BRAVE START BUT FAILS TO BREAK RECORD

SIX CARLOADS OF HORSES WILL ARRIVE TODAY

TRAP SHOOTING RESULTS AT PORT ELGIN

Uhlán

Readville, Mass., Aug. 30.—A couple of American harness handicap Derbys, two minor events and an unsuccessful attempt of C. K. G. Billings to drive his big black gelding, Uhlán, better than 2:01 to a wagon, marked the opening of the grand circuit today at Readville track. Bob Douglas, a local horse, won the \$10,000 trotting Derby from scratch. Alleen Wilson, another Boston entry, also from scratch, captured the Derby for pacers while Uhlán was beaten by 1 3/4 seconds by old Father Time. Both the Derbys were won in poor time, and the officials apologized for sending Uhlán over a slow track and against a heavy breeze, yet the crowd enjoyed the sport for the weather conditions seemed superb. The two handicap events absorbed attention after Uhlán had fallen down and the sight of the big fields as they came sweeping down for the wire in the start of each race, was exhilarating. The pacing division was started first, and 11 horses pranced about at the various marks which ranged from

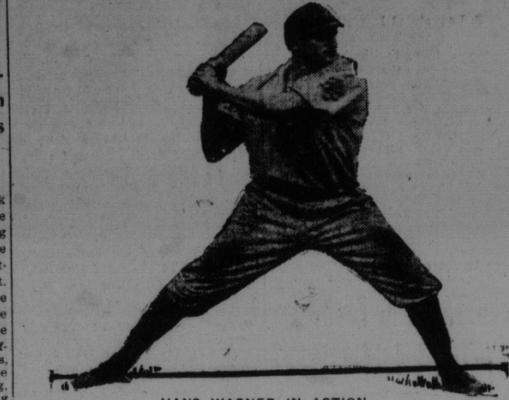

66 to 870 feet behind the wire. At least the starter caught the horses all facing right and the flag fell. Alleen Wilson was moving forward when the signal fell, and Cox sent the black mare flying through the field, getting into fifth place at the wire. Northern Spy in it. The gray gelding, Volead, made the pace to the half, but a break gave Northern Spy a chance to come up. Then Cox sent Alleen Wilson into the lead and shaking off all pursuers, won easily by six lengths. The trotting division was then lined up, with 14 horses at the marks. Sonoma Girl and Bob Douglas at scratch 360 feet behind the wire and the other horses strung out a couple of hundred feet ahead. Alta McDonald had Bob Douglas moving nicely when the flag fell and in the dash for the wire the first time, the Ponkapog horse shook off half a dozen rivals. Jim Ferry led the field at the wire, with Major Wellington close up and Allee Roosevelt half a length in the rear. At the half Bob

Douglas caught the leaders while Major Wellington, the favorite, broke badly. It was all Douglas to the turn into the home stretch when Cox challenged with Oxford Boy Jr., and Sonoma Girl and Allee Roosevelt, also came up. Bob Douglas had three lengths to the good at the wire, while the other three finished under the whip, with Oxford Boy Jr., beating out Allee Roosevelt for second place, while Sonoma Girl was a close fourth. Uhlán aroused great enthusiasm by trotting the first quarter in 23 1/2 and the half in one minute flat. When the 3/4 was reached in 1:30 1/2, there seemed a chance, but the pace was too swift and exhausting and the last quarter was made in 32 seconds. The 2:10 pace was taken by Lady Isle in straight heats, although the first one was in a driving finish. Gamar captured the 2:08 trot without effort. Walter Cox was the hero of the day, winning two races and getting second in the big trotting Derby.

Among Famous Runners Coming for Big Meet are Ten from Anhart Stables--Names of Some Owners.

The real work at Moospath Park commenced yesterday when a force of workmen were put to work scraping and going over the track, and if the weather man will be good until Saturday the course will be at its best. Six carloads of horses will arrive here this morning from Montreal and more are expected to-morrow. While the management expect to have some difficulty in placing the thoroughbreds, they say they will be able to take care of all that ship for the meeting. Some of the best horses in training are in the lot which unload this morning, the largest stable being that of H. C. Alhart and Co. with ten head. It will be remembered that a representative of this stable met with what looked like a fatal accident at the late meeting here—Ramble. This good four-year-old, however, is rounding into shape again but will hardly be able to go to the post at the coming meeting. Amongst the owners and horses that are new to the local followers are: J. C. Rousse with Congo; Pocahontas, Ed. Keck and Jim Brady; J. Miller, a New York horseman, with John A. Munroe and Blue Crest; W. R. Hall with Master Lismore and another high-class performer; J. Jones with the smart youngster Isabel Cassie, who has been racing around the New York tracks; H. E. Yorke with Melton Beauty, considered one of the best fillies on this circuit; Blair Moeck with Gerymander, one that was almost unbeatable at Jacksonville; C. Wise with Maurice Reed, Easy Life and three others; C. S. Orrison with Sabo Blend and two others; Geo. Morton with Giovanni Reggio and Jubilee Juggins; and many of the local favorites such as Dr. Young, Niblick, Judge Dundon, Eita May, Yankee Lady, Haymarket, Love Cure, Tangle, Autumn King Sir Walter Rollins and others that were in the limelight at the previous meeting. Altogether they are a much better lot and in far better condition, and the meeting will not be many days old before new marks will be established at the various distances. The officials for the meeting are expected to arrive tomorrow, while a number of jockeys and followers come in today. The best riders at the late meeting at Dolanpark Park will be the favorites at the coming meeting. The effect that about twenty of them had left last night.

HANS' BATTING BOOSTS CHAMPS

HANS WAGNER IN ACTION.

The Pittsburg demon batsman, Hans the Terrible, may not have his thoughts turned automobileward, like Snodgrass, Cobb and LaJolie, but he sure is coming up from behind like a forest fire. Wagner's performance against the Philadelphia pitchers, when in seven times up he made seven hits and a sacrifice fly, for a total of 16 bases, is the season's record. His hits included two home runs, three two-base hits and a single. With Wagner's return to batting form the National League champions have been slowly but surely drawing nearer the Cubs. When Wagner slumps the Pirates slump, and when

he cuts loose the team climbs. If the champs continue their spurt the finish of the race in the old league promises to be close enough to deserve the appellation "hair line decision." Unlike most great hitters, Wagner does not chop at, or "meet" the ball, but takes a good healthy swing, as the photograph plainly shows. The old Dutchman has been wallowing the ball as hard as ever lately and up to the 25th inst., his average was .322 and it has been somewhat increased since then. He is now in third place among the batters of the National League, with Fred Snodgrass, the New York find, and Sherwood Magee of the Phillies, the two leaders.

KENT RETAINS CHAMPIONSHIP RENFORTH O.A. OPENING ON LABOR DAY

Latest News of English Cricket --Tydesly Heads Batting Averages --How the Other Counters Stand.

The cricket season in England is on the wane and in the county championship Kent has again demonstrated that she possesses the best eleven in the competition. Out of twenty-two matches played the Hop County has won eighteen, lost two, and drawn two. The position in the county championship which this season is determined by the percentage of wins to matches played is as follows:--

A meeting of the Renforth Outing and Athletic Association was held last evening in the new club house. The committee who are preparing the programme attending the celebration on Labor Day, report that they were meeting with much success in their work, and that it is expected to make the celebration a memorable one. The work on the building is now practically complete, and everything will be in readiness for the opening on Monday. The celebration will consist of water sports of all kinds, and will be on a larger scale than anything heretofore attempted by the club.

CANADIANS PICKED TO WIN

Montreal Swimmers Have Made Wonderful Progress During Past Year and Threaten to Take American Titles.

Boston, Mass., Aug. 29.—The outdoor swimming season of 1910 will go down in history as one of great reversals and unexpected surprises. The defeat of Handy by the 17 year old McGillivray, at the former's own game distance swimming; the victory of the veteran Truelsenbach at 70 yards over the best sprinters of the east; the sudden ascension to world supremacy of the youthful Heber in back stroke swimming and of McDermott at the breast stroke created a stir. But the real sensation was caused by the totally unforeseen defeat of America's leading representatives in some of the races for the Canadian titles. George South, of the New York A. C., second only to Daniels as a 50 yard swimmer and among the best 100 yard men in the country, yet he could do no better than tie with Gordon in the 100 yard race. L. E. Goodwin is Daniel's closest rival at the quarter mile, and he was led home by 40 yards at this distance by 16 year old George Hodgson, of the Montreal A. C., the fine time of 5m. 59.25s. The previous record, made by Daniels under more favorable conditions stands at 5m. 54.15s. Montreal Men Better.

Just as these two begin to startle the aquatic fraternity by their speed the announcement comes from Daniels that he will probably have to retire permanently from the competitive field because of business pressure. This may mean Canada will win several American titles shortly, particularly as Stanley King, of the Montreal S. C., and George Wilson, appear to be developing quite as rapidly as Hodgson and Johnstone. Godwin frankly admits that he met his superior in Hodgson and he adds that he believes the youngster will have Daniels' records before the end of another season unless the latter bests himself. He also believes that Johnstone is better than 60s. for the 100 indoors, and it looks as if Canada would have to be reckoned with in all future American meets. Americans are seeking in vain for the cause of the sudden improvement. The explanation of it may possibly

AROUND THE CITY

District Orange Lodge. St. John District L. O. L. will meet in the Orange Hall, Germain street, this evening.

Mayor Frink is Back. Mayor Frink returned to the city yesterday after an absence of 48 hours, during which nothing of importance happened. Acting Mayor Hayes however, was very glad to be relieved of his duties.

In The Court House. Hearing in the case of Sealy vs. The National Clothing and Manufacturing Company was continued in the county court yesterday afternoon. This is a suit for damages brought by Isaac Sealy formerly a travelling salesman with the defendant company, of which J. Reubens is manager, for wrongful dismissal. D. Mullin, K. C. appeared for the plaintiff; J. B. M. Baxter, K. C., for the defendant. Two witnesses were heard during the afternoon and the case was adjourned until this morning at 10 o'clock.

Returning Suburbanites. The indications are that the suburbanites who have been living in the country during the summer will return to the city earlier this autumn several reasons for this, but the principal one is the early opening of the Dominion Exhibition. Now that the city schools have re-opened after the vacation, there is already a movement from the country to the city, and in a short time the summer residents will all be back in town.

The Paving Investigation. Owing to the absence of the mayor the Main street investigating committee has held no sessions for the last few days. The mayor is anxious to have a report ready for the meeting of the council on Monday, but some of the other members of the committee are of the opinion that the amount of evidence that has to be gone over will render this impossible. It is expected the committee will get together today and decide upon a course of action.

Locked His Mother Out. A domestic embarrassment which led to a temporary separation, was caused by the action of Mr. McMullin, J. C. of Main street yesterday. The youngest of one and a half years ally pushed the door of the kitchen door when his mother was in the backyard and the division of the family was effected. The cries from within indicated that the little fellow related of his rash act and was anxious for reconciliation. The high cost of living prevented a telephone call to the head of the house, but an extension ladder, borrowed from a neighbor, was sufficient for a successful assault on the barricaded house.

Last Evening's Fire. An attempt at cremation on the dump near Elm street to conceal the crime of poisoning, was the cause of a fire which gave the nearby residents considerable apprehension. Last evening, Company No. 5, of the fire department with the aid of 13 joints of hose attached to the Elm street hydrant, spent some time in extinguishing the smoldering fire which had made progress around the edge of the sawdust and debris dump. The charred body of the large dog owned by the elderly Mr. Davis indicated the circumstances connected with the origin of the fire.

Band Concert Tonight. The Carleton Cornet Band will play at Seaside Park tonight. The programme is as follows: March—Jawa, by Barnhouse. Songs of the Empire—(Air) C. J. Hayes. Waltz—Merry Widow, Hayes. Scene and Air from Verdi's Attila—(Air), Hayes. March—Explorer, Fred Jewell. Selection—A Night About Town, Hayes. Overture—Sincerely, by J. D. Bernard. Song—Mary Tour A Big Girl Now—March—Show World, by J. J. Richards. God Save The King.

To Play in Boston. The members of the Sadie Calhoun company, who have been appearing in the Nickel will leave this morning for Boston, where they will appear in one of the Keith theatres for a time. The company is composed of Miss Sadie Calhoun and George Lund, who were seen to advantage in the local production of the Lion and the Girl, and F. Gledrey Kenney, of this city, who is well known in local entertainment circles, and who recently resigned from the Royal Bank staff to enter the dramatic profession. Mr. Kenney has taken a prominent part in all the local dramatic productions for the past five years, and has made many friends here who will extend best wishes for his success.

EVERYTHING IS READY AT THE BIG FAIR PLANT

Grounds and Buildings Were Never in Such a State of Preparedness -- Up to the Exhibitors Now.

It's up to the exhibitors now. Everything is in readiness at the Dominion Exhibition buildings as far as the responsibilities of the executive go, and it is purely a matter of expediency before the week-end. The closing of the Sherbrooke Fair will bring hundreds of show people to the "Pike" location, and bills of lading for exhibits are already in hand from the same city indicating that numerous displays made there will be repeated here.

The demand for space keeps up. Yesterday afternoon Manager Good received applications from two American houses, and one in Ontario. The American requests came from Chicago and Boston. While the general outline of the exhibit groups is already decided upon, it is probable a belated boom for space will tax every nook and cranny on the spacious floors. Some intending exhibitors—an experience every show year—leave off making formal application for entry until the last few days, and then they are forced to take what chance may offer.

A very busy little man in connection with the Exhibition since early in the winter is seen to enjoy a respite from a strenuous campaign. This is J. Leonard, the architect, who has done all the draughting in connection with the new structures. Much of the work was originated by this young citizen and in other branches he was ably collaborated with by members of the executive. The buildings designed and closely followed by him during the process of erection are the new cattle sheds, pigery, sheep pens, grand stand, and wing to the main buildings.

Awarded Contract. James H. Pullen has been awarded the contract for gilding the tower clock on Trinity church. The Tilley Monument. Word was received yesterday that Philippe Hobert, the Canadian sculptor, will arrive in the city on Thursday from Montreal, and if the weather is fine an effort will be made to have the Tilley statue placed on the pedestal that afternoon. The unveiling will take place on September 8th as already arranged.

A Popular Wedding. A wedding of much interest to many friends will take place at 3 o'clock this afternoon in St. George's church, Lower Caverhill, when David W. Ledingham, of this city, and a member of the staff of Messrs. Wm. Thomson & Co., will be united in marriage to Miss Mary A. Caverhill, daughter of Mr. C. L. Caverhill. Mr. and Mrs. Ledingham will reside in this city.

O'Brien-Pottle. A quiet wedding took place last evening at the residence of Early O'Brien, when George Caldrige, his only son, was married to Miss Lizzie Pottle. The ceremony was performed by Rev. Wellington Camp, pastor of Leinster street United Baptist church. The bride was attended by Miss Annie Simpson and the groom was supported by George Simpson. The bride was gowned in silk mercerized lawn with trip Mr. and Mrs. O'Brien will reside at 8 Crown street.

Sir Robert Perks Coming. According to despatches to the evening papers, Sir Robert Perks, the British shipbuilder, who it is said, is interested in the construction of a dry dock in St. John, is expected in the city this week. Mayor Frink, when seen last evening, said he knew nothing of the proposed visit of the British capitalist beyond what appeared in the papers. George Robertson of the Imperial Dry Dock Company also stated that he had received no information that Sir Robert intended to visit St. John.

EXCELLENT SEATS FOR MELBA CONCERT

Despite Yesterday's Great Rush There are Still Good Seats for Premier Musical Event of Season.

Notwithstanding the great rush yesterday morning at the opening sale, there are still good seats remaining for Saturday evening at the various prices, and while this is a fact, none should miss the greatest social and musical event of local history. Parties from outside the city writing for reservations should be close each of their orders cannot be filled. Melba will arrive in the city Friday evening.

Will Wed at St. John. Dr. W. R. Wilkes, of this city, who recently graduated from the Baltimore, Md., Dental College, will be married at St. John tomorrow to Miss Minnie Barriere, of this city. After a short honeymoon trip Dr. Wilkes will practice at Fairville, N. B. His many friends in this city will join in congratulations.—Frederick Gleaser, August 30.

He Rang Off. W. S. Wilson of the Dominion Geological Survey, is at the Royal. Mr. Wilson, who spent some time here last summer, collecting fossils, will spend about a month in St. John and vicinity looking for fossil plants and other specimens. He is a native of New Brunswick, and well known in this city. When asked last evening whether he would make a collection of the specimens of concrete taken out of Main street, Mr. Wilson rang off.

Leon The Great. Leon The Great, or as he is more commonly called the Great Leon, successor to the famous Kellar, will be seen at the Queen's Rink from September 5 to 16th. Leon is beyond question the greatest living magician today. He is being brought to St. John at considerable expense, but it is the belief of his manager that he will have the whole town talking after he is here twenty-four hours.

Lamous Diving Girls. The Annette Killervane Diving Girls who are coming to the St. Andrews Rink on September 3 to remain until the close of the Exhibition, include in their number Miss Louise Binard and Miss Dorothy La Nelle. Both of these young ladies are noted swimmers as well as dancers. They have many rewards to their credit and are likewise the possessors of many medals. It might almost be said that they have spent over half their lives in the water, and might justly be called sea nymphs.

SPECIAL LABOR DAY EXCURSIONS Dominion Atlantic Railway will issue excursion tickets for Labor Day, Monday, Sept. 5th, on Sept. 2nd, 3rd and 5th, good to return Wednesday, Sept. 7th. Special excursion to Digby and return. Round trip tickets will be sold to Digby and return on Monday, 5th Sept., via R. M. S. Prince Rupert, at \$1.50 for the round trip.
