PRESBYTERIANS HOLD CHURCH UNION DEBATE

Differences of Opinion Shown In General Assembly Yesterday.

TIME NOT RIPE YET SAY SOME SPEAKERS

Others Declare Proposed Basis of Union Does Not Contain Necessary Doctrinal Points—Discussion Lively.

Toronto, June 9.—After a strenuous afternoon session spent in the discussion of church union, the General Assembly of the Presbyterian church in Canada met in quiet evening session for the discussion of the Sabbath school and Young People's Society work.

Rev. Dr. C. A. Myers, of Edmonton, was appointed assistant to Rev. Dr. J. C. Robertson, secretary of the Sabbath school and Young People's Society board. Dr. Myers will take charge of the work in western Canada and will probably make his headquarters in Edmonton.

This afternoon's session of the assembly provided a free-for-all general competition as to the correct procedure during the debate upon church union. It was after a motion by Dr. Ramsay, of Ottawa, that the time of speakers be limited to ten minutes, that the storm broke, but could not make himself heard. Dr. Serwick's protest was listened to but the vote decided the time to be limited to ten minutes.

Time Not Ripe for Union.

Walker Ball, of Montreal, opened the discussion and said he was opposed to church union, when the time came for his contribution, but he did not believe that the time had come.

"I want to ask this audience," said Mr. Bell, "after the discussion of finance we have had, what do you think of union? Is union going to help you carry out this program? When I go along the streets of Montreal shouting, 'What's the matter with old McGill?' and the answer rings out, 'She's all right,' and I want to ask, 'What's the matter with our Presbyterian church?' She's all right, but she's not going to help you carry out a united front to them. He was only allowed to speak ten minutes and he could not move any amendment at that time, but when the time came he would move that the words 'in the hope that union may be consummated with no unnecessary delay' be substituted in the first resolution of the committee on church union after the words 'and asks the other churches to continue the negotiations.'

Dr. Gunn, of Toronto, said he wished to dissociate in the most emphatic manner with those who impugned the motive of those who proposed the question, he said, was a religious question and not merely an ecclesiastical question.

For Full Discussion.

Another discussion arose at this point as to whether the speakers should take part in the discussion. Dr. Gordon, of Winnipeg, said that he would not recognize two parts in the church and that every man should have an equal chance to speak at this time, but Dr. Campbell made the floor, but Principal Murray gave way to Dr. Campbell.

A Notable Discourse.

Dr. Campbell made a notable contribution to the discussion. "It was indeed surprising," he said, "that so many ministers and elders voted in favor of the substitution of the doctrinal part of the basis of union for the confession of faith so there is wanting in it the virginal doctrine of predestination, that there is in it no reference to the covenant made with Adam and that particular election and particular redemption are not embraced in it.

There is an absence of the outstanding truth of effectual calling and the doctrinal corollary of perseverance, which have so largely entered into the domestic instruction of Presbyterians for centuries which were calculated to confer spiritual dignity upon those accepting them and which it may be historically claimed imparted life to Presbyterians and best in them a deep sense of moral responsibility. The high doctrines of 'free will and fate' which Scottish artisans have been wont to discuss when they met at the street corners had not a little to do with shaping Scottish life and character. The 'basis' does not give that prominence to the sovereignty of God. His sovereign love, as included in His purpose which characterizes the confession.

The Scottish reformers, following the Apostle Paul, the great expounder of Christ, replaced God on the

HON. DR. ROCHE MAY NOT STAY IN CABINET

Minister of Interior in Very Poor Health Likely to Retire.

POSSIBLE SUCCESSOR TO MANITOBA GOVERNOR

Arthur Meighen and R. B. Bennett, Brilliant Western Members Named as Most Likely to Get Portfolio.

Ottawa, June 9.—Word has been received from Hon. Dr. Roche, Minister of the Interior, that he expects to sail from England for Canada, on June 20.

The doctor is considerably improved as a result of his trip, but it is considered very doubtful whether he will be able to undertake again the heavy department as that of the interior. He may not resign at once, but it is thought likely that unless the department can be lightened he will be compelled to do so within the next year.

Arthur Meighen of Portage La Prairie and R. B. Bennett of Calgary are regarded as the most likely to succeed Dr. Roche if his health is such that he is compelled to drop out of politics. It is stated that Hon. Dr. Roche will succeed Lt. Gov. Cameron of Manitoba when the latter's term expires.

PROBE INTO POLICE GRAFT CONTINUES

Sergt. Duffy on Trial for Bribery—Alleged he Collected Spoils for Officer Now Doing Time.

New York, June 9.—Another of the so-called police graft trials was begun in the Supreme Court today when Peter J. Duffy, a sergeant was called to face a jury on an indictment charging him with having accepted a thirty dollar bribe from Julius Roth, a gambler, to insure protection for Roth's poker rooms in Harlem. The jury was only two-thirds completed tonight, and the case went over until tomorrow morning.

Duffy figured in the testimony of a number of witnesses in recent graft trials, it being alleged that he was collector for Dennis Sweeney, one of the four inspectors convicted for conspiracy, and now serving one year in the workhouse on Blackwell's Island.

BETTER FOR CHINA TO MAKE WAR ON RUSSIA

Peaceful Solution of Mongolian Question is Impossible and Now Best Time to Fight It Out.

Shanghai, China, June 9.—The Min Li Pao, in an article dealing with the position of affairs in Mongolia, declares that since the Mongolian question has arisen there have come into being two public sentiments, one in favor of war with Russia, and the other advocating the solution of the problem by means of diplomacy.

Those who want to go to war, continue the vernacular journal, argue that Russia, which is a very aggressive nation, will never yield to domestic protests without a backing of military force. Those who are in favor of peaceful settlement of the Mongolian question, it is stated, are of the opinion that owing to a small army and navy and lack of money it is doubtful if China can obtain redress by resorting to war.

Continuing, the Min Li Pao declares itself convinced that a peaceful solution of the Mongolian question is impossible, and that it is the better policy for China to go to war with Russia. Nothing less than war, it urges, can convince Russia that she is wrong in supporting the independence of Urad and China. The present is perhaps the most opportune time to carry on warfare, it is stated, because the revolutionaries at home and to maintain troops in the provinces, frontiers and in the jealousy of Austria-Hungary. It is more than likely therefore, the Min Li Pao remarks in conclusion, that she cannot place all her military forces in the field at once, and as a consequence, it is unsafe to predict that China, in the event of war, will not be able to defeat her.

HON. GEORGE H. PERLEY TO WED TOMORROW

Ottawa, June 9.—The marriage of Hon. George H. Perley, minister without portfolio, to Miss Milly White, daughter of the late Hon. Thos. White, former minister of the interior in the MacDonald government, takes place Wednesday morning at St. John's church, Ottawa. The bridegroom is a widower with one daughter, Miss Ethel Perley. The wedding will be attended by Premier Borden and members of the cabinet.

thrones of the universe from which he had been pulled down, in the subconsciousness of Romanists, by the claims of the priest to be able to create Him in the mass. Our system makes much of God and little of Him, except insofar as he is the object of divine compassion and the subject of saving grace, having for its proper fruit spiritual humility.

Principal Murray, of Saskatoon, went into the statistics of the vote which had been taken upon church union. The opportunity presented the church today was such as had never been presented before in consummating union. The debate will be continued tomorrow.

MILITANTS SEND PETITION TO KING GEORGE

Militants Use Miss Divison's Death as Excuse for Action.

PLANNING TO HOLD BIG DEMONSTRATION

Unknown Person Pays Fines to Interrupt Sessions of Balkan Peace Conference.

London, June 9.—It had been decided that Miss Emily Wilding Davison the militant suffragette who died from her injuries received while interfering with the running of the Derby, shall be buried at her home, Longhorsey, Northumberland, on Saturday. The body has been wrapped in a suffragist banner and a suffragist badge has been placed in her coffin.

The Women's Social and Political Union is arranging an imposing ceremonial procession across London and a memorial service to be held at the headquarters of the militant organization when the body is placed on the train to be sent to Northumberland.

At the weekly meeting of the suffragettes held in a public hall in London today most of the women were mourning. A telegram was read which had been despatched to King George in the following words:

"Constitutional methods of approaching our King having failed and Miss Emily Wilding Davison having given her life to call attention to the women's passionate demands for the franchise, we ask the King to give serious attention to this appeal of women."

The fines of five dollars each inflicted by the police magistrate on Saturday on the militant suffragettes, Miss Constance Andrews and Miss Olive when they were charged with obstruction in connection with their attempt to interrupt the deliberations of the Balkan peace delegates were paid by an unknown person today and they were liberated from jail.

ITINERARY OF SIR IAN HAMILTON

Will Include Visit to Petawawa Next Week—Guest of Hon. Sam Hughes at Luncheon in Ottawa.

Ottawa, June 9.—Sir Ian Hamilton's itinerary for the month has been announced. He goes to Toronto tomorrow and Niagara on June 11 and 12. He will be at Toronto June 13th; Quebec, 14th (City corps); Petawawa, 16 and 17; Kingston, 18th and 19th; Parramatta, 20th; London, 21st (City corps); Winnipeg, 23rd; Calgary, 25th; Victoria, 27th; 28th; Edmonton and Banff, 29th; Seward, Camps, July 1st.

Sir Ian accompanied Col. The Hon. Sam Hughes to the new Connaught rifle range this morning and gave a luncheon to several officers at the Chateau at one o'clock. He spent the afternoon at the militia department.

STRANGE CASE OF POISONING IN P. E. ISLAND

Charlottetown, P. E. I., June 9.—A peculiar poisoning case is reported from Georgetown, Nicholas McLeod, and his wife went to work in a lobster factory this spring, leaving their eight months' old son in care of Mrs. McLeod's mother, Mrs. John Swallow.

The latter by mistake put a tablespoonful of gasoline in the child's milk instead of water. A doctor arrived and gave the child an emetic. He ordered whiskey and water given as a stimulant every few minutes, while he went to a drug store to get some medicine for the child which was improving. During his absence the excited and hysterical grandmother used the same cup which had contained gasoline in dip water to mix with the whiskey, consequently the child got a second dose of gasoline and died.

An inquest was held and a verdict of accidental poisoning rendered.

A BIG TRADE INCREASE FOR MONTH APRIL

Gain of Eighteen Per Cent. Over Same Month of Last Year.

OVER MILLION GROWTH IN CUSTOMS RECEIPTS

Largest Increase was in Agricultural Products Which Doubled Figures of Last—Manufactures Also Go Up.

Ottawa, June 9.—During the month of April the trade of Canada maintained the buoyancy which has characterized it for so long a time. The total trade increased by over 18 per cent, from \$59,284,480 in April 1912 to \$70,005,160 in April 1913, while the exports of domestic merchandise increased by no less than 60 per cent, from \$12,676,989 in April 1912 to \$20,580,169 in April 1913.

The imports increased from \$46,607,491 in April 1912 to \$70,005,160 in April 1913, while the exports of domestic merchandise increased by no less than 60 per cent, from \$12,676,989 in April 1912 to \$20,580,169 in April 1913. The imports increased from \$46,607,491 in April 1912 to \$70,005,160 in April 1913, or by six per cent. The duty collected increased from \$7,860,759 to \$8,463,576.

The most noticeable increase in exports is in agricultural products, which have nearly doubled, from \$5,356,313 to \$11,365,018. Manufactures also went up from \$2,691,537 to \$4,478,598.

ATTEMPTED TO BURN A HOUSE

Suffragette Creates Sensation in Court by Confession—Servant Charged With the Crime is Freed.

Doncaster, England, June 9.—While the examination of a servant girl charged with an attempt to set fire to Westfield House was proceeding to-day, May Dennis, alias Lillian Linton, who was wanted by the police in connection with the suffragette outrage last February, caused a sensation by entering the court and acknowledging that it was she who had tried to burn the house.

The servant girl was discharged and Miss Dennis was arrested. Harry Johnson, a young newspaper man implicated in the same charge, was committed for trial.

CONFERENCE OF N. B. AND P. E. I. METHODISTS

Charlottetown, P. E. I., June 9.—About forty ministers arrive here tonight from New Brunswick for the opening of the 30th session of the N. B. and P. E. I. Methodist conference tomorrow.

Tuesday and Wednesday will be taken up with ministerial sessions, when character of ministers, examination of candidates and other matters relating to the ministry will be considered.

The conference proper opens Thursday. No question of special importance clear of the regular work is likely to arise. Church union has already been well threshed out and may receive little attention beyond reaffirming the strong resolutions previously passed. The station about this year will show about thirty changes, a larger number than usual.

The total attendance of delegates at the conference will be about one hundred and fifty.

MR. HAZEN'S PLANS.

Ottawa, June 9.—Hon. J. D. Hazen, Minister of Marine and Fisheries, leaves for Montreal to-day and will return here on Wednesday. He will then proceed to St. John for the wedding of his daughter, Miss Katie Hazen.

SUIT FILED TO BREAK UP KODAK TRUST

Eastman Company Charged With Monopolizing Trade in Photo Supplies—Control 72 Per Cent. of Business.

Buffalo, June 9.—Dissolution of the so-called Eastman Kodak trust was asked in a civil anti-trust suit filed today by order of Attorney General McKeen. The federal government seeks the dissolution, by receivership if necessary, of the Eastman Kodak Company of New Jersey and the Eastman Kodak Company of New York, which are charged with monopolizing the trade in photographic supplies in violation of the Sherman law.

It is the aim of the government to obtain a division of the assets and business of the two companies controlling 72 per cent. of the business in the United States into such parts as will effectually destroy the alleged monopoly and restore full and free competition.

The petition in equity asks for an injunction forbidding the fixing of retail prices of cameras, films and other patented photographic supplies. This marks the attorney general's first application of the recent decision of the United States Supreme Court denying patents the right to fix retail prices of retailers.

STABBING AFFRAY IN NOVA SCOTIA

Miner Invites Fellow Workman to Take Walk and Sticks Knife in Him—Makes His Escape.

Inverness, N. S., June 9.—Yesterday afternoon, about five o'clock, a Belgian named Anselm Lonche, 22 years of age, met a fellow collier named Joseph McNeil, aged 22, of Central Avenue, and invited him for a walk. The two walked up Forest street about ten yards when, without warning, the Belgian drew a knife from his pocket and stabbed McNeil immediately above the heart.

The wound is serious but probably not fatal. The wound bled very freely for a time, indicating that an artery had been severed. Lonche made good his escape and has not yet been captured. Lonche has a wife and two children residing here. He is a smooth-faced man, standing about five feet nine inches, dark hair and deep set dark eyes, slightly stooped, good features.

It appears that McNeil and Lonche had a disagreement in the mine a few days ago, which probably led to the stabbing. Doctors Proudfoot and McNeil attended to the wounded man.

GUARDERS LAUNCH ANOTHER STEAMER

New York, June 9.—Cable advices received at the Cunard Line American office states that their new steamship Albatross was launched successfully at Quebec by the Shipbuilding and Engineering Company's yards at Greenock on the Clyde. This vessel is the second of the new steamers to be placed in the Cunard Line's Canadian service this year.

The Albatross, like her sister ship the Andania, launched in March, is a twin screw vessel of 13,300 tons. She is 540 feet in length, 64 feet in breadth, has a depth of 46 feet and will have two sets of quadruple expansion engines. The Albatross will have accommodation for 2,140 passengers, 520 second class cabin and 1,020 third class. There are in all eight decks, six of which have been devoted to passenger accommodation.

WAR BETWEEN BALKAN STATES IS IMMINENT

Much Depends on the Answer Bulgaria Sends to Serbia's Note.

BOTH SIDES REFUSE TO MAKE CONCESSIONS

Serbia and Greece, Prepared for Renewal of Fight, Regard Calmly Prospect of War—Council Today.

London, June 9.—A Sofia despatch to the Daily Mail says that the departure of the Bulgarian minister, accompanied by his family for Belgrade, has caused much comment.

Bulgaria's reply to the Serbian note, the despatch adds, will be to the effect that Bulgaria is not in a position to make concessions to Serbia.

London, June 9.—With both sides stubbornly refusing to make the slightest concession, war between the Balkan States is hourly becoming more imminent. If Bulgaria sends a negative reply to the Serbian note, and nothing indicates that she will answer otherwise, Serbia and Greece will proclaim the annexation of the occupied Macedonian territory, thereby establishing a definite casus belli.

The only hopeful feature of the situation consists in the belief that Bulgaria is lacking the sinews of war. Serbia and Greece are not only better situated in this respect, but also occupy superior strategical positions. These facts probably account for the calmness with which Serbia apparently regards the prospect of war.

The ambassadorial conference today discussed the question of providing Serbia with a commercial outlet to the sea. A tentative plan was adopted and will be submitted to the home governments for further consideration.

Belgrade, Serbia, June 9.—General Radomir Putnik, chief of the general staff of the Serbian army, arrived here today by special train to attend the war council which will be held under the presidency of the king.

The Bulgarian reply to the Serbian note respecting a revision of the treaty of alliance, which it is believed would be in the negative, is expected at an early date. Preparations for war continue and the hospitals are being reopened.

THREE VIEWS.

The illness of the Emperor of Japan has delayed proceedings in Nippon regarding the action of the legislature of California in adopting the Alien Land Bill of Governor Itham W. Johnson. The discussion of the relation of the Japanese to the United States in the matter of land ownership has been participated in by prominent writers on both sides of this question, and there are two very distinct sides to this question.

A recent lecture from Carlos K. McClatchy, a Sacramento editor, to the New York Times, explains the attitude of California in the following terms: "There are two questions involved: Is the legislation vitally necessary for the welfare of the state, and are alien land laws constitutional and in accord with the treaty rights of Japan?"

"Frankly, the legislation was provoked by the Japanese problem and is aimed particularly at that race. In the first place, the Japanese are a people that can never be assimilated. Their physical features and characteristics are so different from the European as to prevent merger by intermarriage, in addition to the clash between occidental and oriental temperaments and traditions."

"Of their character, the Japanese morality, or lack of it, is one of the objectionable features of their race. Hence in large numbers in California. This is not an unfounded illustration, any observant traveler in Japan will testify that a life in the house of prostitution is no bar to marriage for girls of any class. In many matters, they are tricky and absolutely unreliable."

"Such are the people whose permanent possession of some of California's best agricultural land the alienation legislation is designed to check. Chinamen, when their numbers do not threaten American standards, are well liked, but Japanese individually or collectively, are cordially disliked, not only by the white people of California, but by the Chinese as well. The Japanese today own some of the best lands in California. They are in absolute control of the section around Florin, nine miles from Sacramento, one of the richest strawberry districts in the world. Half of the fertile orchards of Placer county are also in their hands. The Japanese, George Shima, the potato king, owns or controls nearly all of the potato lands of the delta districts of the Sacramento and San Joaquin rivers. All up the rich farming section of the Sacramento valley the Japanese have large holdings—in Sutter, Yuba, Glenn, Butte and Tehama. The rich grape districts of San Joaquin county through Lodi and Woodridge, are in Japanese hands. In some of the southern counties in the raisin district of Fresno and adjacent counties Japanese are in the majority."

"The loss of these lands cannot be attributed to the shiftlessness of the former owners, but to contemptible and unfair tricks. In these districts Japanese laborers first drove out white hands by the lowness of their wages, and when the orchardist had to depend upon the oriental to have his crop gathered he was met with the demand that he turn over half and sometimes two-thirds of the crop to the Japanese. In a short time he was forced to sell out to the Japanese themselves. In districts where loyalty prompted the farmers to stick together and refuse Japanese offers, one orchard would be bought at an extravagant price and those surrounding it could then be gathered in for a song, for no white people will live next to Japanese in a city or country."

of the leading European powers was extremely doubtful. The interest of Europe in the Californian land law situation has been indicated by many cablegrams of protest sent to Sacramento by banking syndicates and other parties financially interested in London, Paris and Berlin, while the Italian government has requested the government of the United States for a copy of the bill in question. Meanwhile, Governor Johnson of California, has maintained his position against all pressure that has been brought to bear upon him, whether from Tokio, Washington or Europe.

THE PROVINCES INJURED.

The unreasoning hostility of the partisan Senate to the measures of a Conservative Government apparently will cost the Maritime Provinces heavily. Echoing the objections taken by the minority in the House of Commons, the unrepresentative chamber destroyed the bill to amend the Government Railways Act. This measure was designed to empower the Government to take branch lines and add them to the Intercolonial system. The improvement of the Intercolonial by the addition of it of proper feeders is one of the things that the Maritime Provinces most urgently require, the need is felt alike by the Intercolonial and by the people living in the districts served by the branch lines. The Laurier government trifled with the question, daunting before the people the prospects of having this improvement made, and taking care to load the enabling legislation with impossible conditions. When Mr. Cochrane put through the Commons a bill which would really work, the Liberals in the Commons resisted it, and the Senate rejected it with amendments impossible of acceptance by the Government. So the measure must stand over; the Intercolonial must go without its branches, and the people without the additional service.

The serious thing about the action of the Liberal majority in the Senate is that it may imperil the whole plan of adding feeders to the People's Railway. It now transpires that Mr. Cochrane in putting his legislation before Parliament had before him several definite opportunities of acquiring lines now independent, which would be valuable accessories to the Government system. These are genuine opportunities of a fleeting nature such as occur from time to time in the business world. There is a financial stringency at present, and it is difficult to pressure the roads to be procured at a reasonable price, if the enabling legislation had passed. It was not passed, and the Government cannot now avail itself of the opportunity. As soon as the money market improves, these lines will not be so willing to sell. Private interests will not be hampered as the Government will be, and the roads in question, if sold at all in the coming year, will be snapped up by private interests. The opportunity is transferred from the Government line to private railways—a matter which possibly will not distress the Liberal party which, while in power, took such pains to destroy all prospects of establishing a national system of Government Railways.

Thus a blow is struck at the heart of the plan for the Maritime Provinces, a plan formed by the Borden Government to improve the intercolonial system. The episode is thoroughly characteristic of the use which the Liberal party is making of its temporary domination in the Senate. This party, grown arrogant with years of office, is angry at the spectacle of others exercising control over the people's business, and endeavors maliciously to spoil the work of the Conservatives—purely for the sake of spoiling.

THE POINT OF DANGER.

In his opening address, delivered before the Presbyterian Congress in the City of Toronto, John Penman placed his finger upon a vital spot. If the vanity of the Presbyterian delegates was unduly excited by the words of the distinguished moderator, who had just preceded him on the program, in which the proud intimation had been made that the Presbyterians led all the evangelical denominations in Canada in numerical strength, intellectual influence and freedom from crime, surely the words of Mr. Penman were calculated to reveal the vastness of the work yet to be done and provoke much heart-searching.

He pointed to the other side of the picture, compelled his hearers to look at the sin and shame that still abounded in America, and said: "What a spectacle this for the picked men that Japan, China, India and other lands are sending to America to examine our Western civilization. Is there any wonder that what they see in Christian America leads them to say: 'If this is what Christian religion can make of a country, we do not want it for ours.'" Undoubtedly Mr. Penman had in

mind the White Slave traffic which numbers in its ranks three hundred thousand girls and women in North America, of whom 60,000 die annually and whose places the drag-net of the white-slaver seeks to supply from all classes of society. It has been estimated by Dr. Kelly of the Johns Hopkins University that this traffic in humanity costs the United States the fabulous sum of three billion dollars annually. Conditions in Canada are not nearly so distressing; our cities are not as large as those in the United States and the administration of law is much more effective. The white-slaver is the assassin of modern civilization and his abominable traffic must be checked and eliminated from our social system; nor should a flimsy sense of modesty prevent the knowledge of these facts being brought before the public mind. Twenty-two nations, including Canada, have signed an international treaty to wage war against this great evil that threatens the human race. It is well that our religious forces as well as our legal authorities should be alive to this situation.

DIARY OF EVENTS.

HISTORIC DAYS IN CANADA

Montreal has been the scene of many riots due to political differences, one of which occurred sixty years ago today, June 10, 1853, following an anti-papal lecture by Alessandro Gavazzi, an Italian ex-priest. A number of people were killed and injured before the authorities succeeded in restoring order. Gavazzi's attacks on the church of Rome were bitterly resented by the French Canadians, and on several occasions his tour of Canada he narrowly escaped being mobbed. Gavazzi was a native of Bologna, and became a monk of the Barnabite Order at the age of sixteen. He became known as the Peter the Hermit of the Italian national crusade; and Pope Pius IX. sanctioned his political crusade. On the fall of the short-lived Roman Republic, Gavazzi escaped to England. He renounced the Roman Catholic church, and was thereafter its bitter opponent and critic. His tour of the United States and Canada in 1853 was not very successful, and while he had many supporters among the Protestants, he was denounced by the Catholics as a renegade and an "unholy priest." He died in Rome in 1889.

Other religious clashes in Montreal led it with amendments impossible of acceptance by the Government. So the measure must stand over; the Intercolonial must go without its branches, and the people without the additional service.

THE PASSING DAY

One of the most glaring of recent examples of "the law's delay" is the case of Porter Charlton, confessed wife murderer. It was three years ago today, June 10, 1910, that the body of Mary Critchenden Scott, Cassin Charlton's wife, was found in a trunk sunk in Lake Como, Italy, where the woman and her 20-year-old husband had been spending their honeymoon. Charlton was arrested, and for a time it was thought that he, too, had been murdered. Constantine Ispoloff, a Russian, was arrested on suspicion of the murder, and was released. On the 23rd Charlton was arrested in Hoboken, N. J., as he was leaving a steamer. He made a remarkable confession, in which he admitted that he had killed his wife, placed the body in a trunk and cast it into the lake. Charlton was locked up in the Hudson county jail, and since then a remarkable legal battle has been waged to prevent his extradition to Italy. Solitary imprisonment is Italy's punishment for murderers—a punishment that in most cases means insanity or death.

Knights of Pythias to the number of three-quarters of a million throughout the United States and Canada, will observe Memorial Day today in accordance with the supreme lodge statute which sets aside "the Tuesday following the second Sunday of June in each year" as a day for honoring the dead of the order. All subordinate lodges will hold exercises in tribute to the memory of departed brethren.

THE HUMAN PROCESSION

BUCKLE, FORMER EDITOR OF "THUNDERER," 59 TODAY. George Earle Buckle, one of the most distinguished of British journalists, will begin his sixtieth year today. For over a quarter of a century he was the editor of the London Times, succeeding Thomas Chenerly as the chief of the Thunderer's staff in 1854.

Brooklyn will celebrate today—perhaps—the birthday of its great explorer, Dr. Frederick Albert Cook. The intrepid hero of the gumdrop dash passes his forty-eighth milestone today. While his claims in regard to the discovery of the North Pole have been thoroughly discredited, Dr. Cook still has many supporters who hold that he was more almost against than shining, and who refuse to believe that he was guilty of a deliberate hoax.

I HAVE SEEN BEAUTY. I have seen beauty where the bells of Spring Lifted against the morning's food-ing gold. Embroed as with divine appareling, Haloed and aureoled.

I have seen beauty where the Summer slopes. In rose and flaming poppy dipped away. To the valleys hung with sunset, like rich hopes. At the decline of day.

I have seen beauty where the Autumn winds Spread their resplendent arras to the breeze. Wherefrom the sense gained new beatitudes. And undreamed harmonies.

I have seen beauty where the winter skies Pulsed with the pale auroras from the pole. Above wide fields that to the wondering Were like a stainless scroll.

I have seen beauty in the gleam and glow. Upon the earth, in the enshrining air. Till deep within my heart of hearts I know. Beauty dwells everywhere. —New York Sun.

Too Cheap. The class at Kirk had been reading the story of Joseph and his brethren. The minister to examine the lads. The replies to all his questions had been quick, intelligent, and correct. Such as—"What great crime did these sons of Jacob commit?" "They sold their brother Joseph." "Quite correct, and for how much?" "Twenty pieces of silver." "And what added to the cruelty and wickedness of these two brothers?" "No answer." "What made their treachery even more detestable and heinous?" "Then a bright little fellow stretched out an eager hand. 'Well, my little man!' 'Please, sir, they sell him over cheap!'"

FIFTY PRIZES.
\$2.00 in gold, plus the amount paid with the winning solution. These prizes may each be worth \$7.00.

The following table shows what the first and second prizes will be worth, including dividends according to amounts paid in on subscription.

ON THE FIRST PRIZE.		ON THE SECOND PRIZE.	
\$1.00 wins	\$140.00	\$1.00 wins	\$ 95.00
2.00 wins	180.00	2.00 wins	115.00
3.00 wins	220.00	3.00 wins	135.00
4.00 wins	260.00	4.00 wins	155.00
5.00 wins	300.00	5.00 wins	175.00

THE PROBLEM

The problem is to count the circles. Every circle is complete and intersects or touches one or more other circles. There are no parts of circles or shams or deceptions of any sort in the puzzle. In the event that no one counts the exact number the prizes will be awarded for the nearest correct solutions. Accuracy and patience are the main requisites for arriving at the correct or nearest correct count. Those who display these qualifications to the best advantage will solve the puzzle best.

How to Enter

This contest is restricted to people residing in the Provinces of New Brunswick and Nova Scotia.

A payment on subscription to The St. John Standard of from \$1.00 to \$5.00 entitles the contestant to submit a solution of the puzzle. The amount of money paid in will cover the subscription price for the paper according to the regular rate, whether the rate be for city delivery or by mail.

AS MANY DIFFERENT SOLUTIONS MAY BE SUBMITTED AS THE CONTESTANT DESIRES UPON MAKING AN ADDITIONAL PAYMENT WITH EACH ONE, BUT NOT MORE THAN \$5.00 CAN BE PAID WITH ANY ONE SOLUTION.

It is not necessary to pay the same amount with each solution if more than one be submitted.

As the main prizes have an added value according to what is paid in on subscription with the winning solutions, contestants should familiarize themselves with the DIVIDEND schedule before sending in their subscription and solutions.

Remit by check, money order, registered letter or in 1 or 2-cent stamps.

Whatever is paid, whether on one or a number of solutions, will apply on a continuous subscription to The Standard. Solutions unaccompanied by cash subscription will not be registered. This contest is open to both old and new subscribers within the territory designated.

DECIDING TIES

In case there are ties, as many prizes will be reserved as there are contestants tied before any prizes are awarded for less correct solutions. For instance, if ten people tie on the correct solution, they would receive the first ten prizes, and those having the next nearest correct answers would receive the remaining prizes.

If there should be more ties than there are prizes offered a second puzzle will be presented. No money will have to accompany the solution of the second puzzle. The second puzzle will be practicable and solvable.

In the event of ties on the second puzzle, a third will be presented to those that have tied. The second and third puzzles will be used only in case of ties. Their purpose will be merely to decide ties, so that in the event there is a tie, the prizes can be awarded without having to divide them or without resorting to chance.

However, only three puzzles will be presented, and in the seemingly impossible event of still another tie, the prizes will be equally divided. If there are no ties, there will be only one puzzle.

AS TO DIVIDEND PRIZES.

Same will be divided between those who have the correct or nearest correct answers. ALL DIVIDEND prizes will be divided pro rata according to the amount paid in by the winner.

For example, if there are two contestants who tie having the correct or nearest correct answer, they will divide the first and second prizes of \$100.00 and \$75.00, giving them \$87.50 each, and will also be entitled to DIVIDEND prizes, which is forty times the amount paid in for the first prize and twenty times the amount paid in on the second prize, the two tying will then be entitled to divide sixty times the amount they have paid in, making thirty times the amount paid in on their subscription.

Now, if one paid \$2.00 and the other paid in \$5.00, the one paying in \$2.00 would receive thirty times the amount paid in or \$60.00 as his DIVIDEND prize, while the one paying in \$5.00 would also receive thirty times the amount paid in, or \$150.00 as a DIVIDEND prize.

This same rule and example will be followed throughout in the awarding of prizes in case of ties.

SPECIAL ATTENTION

While the winning of the prizes does not in any measure depend upon the time the solution is sent in, it is best to begin counting at once and send in your solution as soon as you have finished. There is no limit to the number of different solutions you may send in. A solution, once submitted, cannot be changed.

All those entering the contest will be required to abide by the ruling of the Contest Manager. In the event of any questions arising the Contest Manager, if he deems wise, can appoint a committee to assist him in deciding them, and those who enter the contest do so with the understanding that such decision will be final. All charts on this page are the same.

Contest Closes Saturday, June 14, 1913

Always use the solution blank and read it carefully before filling out. Write your name and address plainly.

\$1.00 up to \$5.00 on your subscription allows you one solution, but \$5.00 on your subscription gives you one solution and five times as much in dividends. An additional payment of \$1.00 up to \$5.00 entitles you to another solution. Remember, that the more you pay on your subscription the larger will be your dividends should you win one of the dividend prizes. Study the first prizes and dividends offered and send in your solution today.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

NEWSPAPERS ON SITUATION IN MARKET

(F. B. MURPHY & CO.)

New York, June 10.—Herald—Securities are actually selling below intrinsic values.

Worlds—There have been unmistakable signs that the force of the reaction has been spent and that the market is selling down to the low levels of the year.

Commercial—All investment markets are now swamped with undigested securities, including new bond issues of a high class, which are quoted at tempting prices.

American—Is the Wilson administration to smash business? It has come perilously near doing so.

Sun—While the outlook is not at all attractive, many bargains await the discriminating cash purchaser in Wall Street at this time.

Times—Borrowing should be kept at the minimum when the markets are already overcrowded with issues for which a final place has not yet been found.

WILKIE COMPLIMENTED ON RAPID DEVELOPMENT

Dr. Smith, of New Brunswick, arrived in Wilkie this week accompanied by W. H. Turnbull. Dr. Smith is a large property holder in Wilkie and made his first visit to this place on Monday. After making a careful investigation concerning the surrounding district tributary to the town and looking over the prospects and conditions locally, the doctor stated that he had received a very pleasant surprise and that the opportunities afforded the town surpassed his previous estimation and expressed great satisfaction at the superior class of business and residential property which has been erected. The Publicity Commissioner spent considerable time with the two gentlemen greatly interested in the future welfare of Wilkie. Mr. S. McCutcheon, of Toronto, and Mr. C. C. McKahn, of Colorado, these gentlemen are travelling the west and have visited many points but stated to the Press representative that Wilkie has buildings of which they may be justly proud. These gentlemen were taken over the new Tramp-Lake school (Wilkie), and were

Your First Count in Puzzle Contest May Be Wide of the Mark—Keep Counting.

Only five days more and the circle contest, which will determine those among the Standard's readers who are eligible to win the gold prizes offered, will close. The test of accuracy counting the puzzle chart now appearing will close Saturday night, June 14.

Many who sent in an answer during the earlier stages of the contest are now going over their figures and some are sending in additional solutions, which prove that they are not sure that the first count was absolutely correct.

A little chap came into the office yesterday with an air of stolid determination and planting himself in front of the contest editor's desk said: "Say, boss, I counted them over. There's 113. When do I get the money?" This little chap had hardly left when a gentleman entered with three solutions to the puzzle which he wished to register. He remarked: "Since you've been running that puzzle we have done nothing else at our house. I've spent several hours over it and enjoyed it, too."

Security Behind Bonds—As shown above the assets of this Company amount to over three times the amount of bonds issued.

Thus, taking in the two most important features of a safe investment, we can strongly recommend these bonds to intending investors.

G. T. P. THROUGH FREIGHT WILL BE HERE NEXT YEAR?

Continued From Page Three.

All in all, it is without a special act of the legislature. Those having wharf rights might sue for damages.

Com. Schofield said he would have favored having the city build the blocks, but the only tenant would be the Norton Griffiths Dredging Co., as the other companies had their own blocks. At the end of the five years the city would own the blocks. They only took up a small part of the slip.

As regards the legal aspects, he had consulted the recorder, and thought the agreement would meet all objections. It was important that the dredging company have blocks and be in a position to proceed with the work at Courtenay Bay. From information he had just received the G. T. P. would be bringing through traffic here in the summer of 1914.

The recommendations carried, Com. McLellan dissenting on the ground there might be legal difficulties.

Com. Schofield reported that he had failed to get tenders for the construction of the sheathing on the northern wing of the east side ferry piling, and was authorized to proceed by day's work, paying \$3 a day for labor and \$10 for scow hire, the same to be charged to bond issue.

Com. Schofield was also authorized to purchase 8,000 feet of 4 by 6 pine at not more than \$41.50 per thousand; washers, bolts and creosote not to exceed \$200; and also birch sheathing at an estimate cost of \$4,750 for the northern wing of the east side piling only. He said it had been proposed to have the work done in the daytime, but business men had objected to having the ferry boat sent to Reed's Point, and probably they would have to do the work in the evening.

St. Mary's Band wrote that they were willing to take a share of the grant for band concerts.

Notice was received that E. M. Olive and H. M. Alexander had been elected members of No. 1 Salvage Corps.

A communication was received from the Board of Trade urging the importance of giving effect to the town planning act. It was referred to the committee of the whole.

D. R. Jack wrote that a delegation from the Loyalist Society wished to interview the council in reference to the financial conditions which have existed that the commissioners met every day at noon.

Council adjourned.

CLOSING STOCK LETTER.

(J. C. MACINTOSH & CO.)

New York, June 10.—The course of the principal stocks of the world reflected a continuation of liquidation. The unsatisfactory conditions in South America were one of the causes of disturbance abroad, but the chief factor in all markets appeared to be a natural readjustment of the extended financial conditions which have existed for a long time past.

The decline in our stocks naturally reflected the general depression, and the course of prices today reflected the process of elimination of these. There was a very narrow market for the so-called specialties, many of which have recorded pronounced declines. The standard list was also under more or less pressure from the outset, and while part of the weakness in these issues was due to confident bear manipulation, a good deal was the result of further heavy liquidation. The continued heaviness and total lack of rallying power that is being displayed by the market from day to day is very depressing, and until something happens either in the way of some specific stimulating development or of a further decline that is pronounced enough to compel investment attention, there seems no likelihood of any sustained recovery of prices.

"In the autumn of 1911, I suffered with a continual pain in the back. As a druggist, I tried various remedies without any apparent result. CLOSING LETTER ON COTTON MARKET

(F. B. MURPHY & CO.)

New York, June 9.—We have had very much the same sort of a market as towards the end of last week—nothing—"a little more so." The weather man showed the expected rains over Sunday, which following recent scattering complaints of droughty conditions seemed favorable although in some localities the precipitation was pretty heavy and just to show how quickly the talk can swing from one extreme to the other, a few scattering reports were received of excess rainfall from the eastern belt. There was buying of July against sales of new crops; and some 10,000 to 20,000 bales of July shorts were covered by Wall Street brokers. Liverpool was a buyer of early new crop deliveries which sold some 9 to 10 points net higher. Above 1125 for the new crop offerings increased during the afternoon and slight reactions occurred but the action of the market showed a considerable buying power on moderate setbacks.

BANGOR LOST TO GREEKS

Yesterday afternoon the Marathons defeated the Bangor team by a score of eight to five. The game was a good one with the exception of the fifth inning, when the Bangor pitcher blew up and, with hits and errors, the Greeks managed to get no less than six men across the plate.

The umpire was one McCann and, while his intentions may be good, his decisions are bad and he got into a great deal of comment during the game. In fact he stood upon abuse from players who, from the Bangor bench and from the field, called him numerous insulting names and one of the Bangor managers was heard to remark that he would never again allow his team to play in a game that McCann was umpiring.

The game went along smoothly until the fifth inning, when ten Marathons went to bat. O'Brien opened by getting a base on balls and went to second on Little's sacrifice to the pitcher. Black was hit by a pitched ball. Watt slashed the ball to left field for two bases and scored O'Brien and a bad throw by Tewhey to third allowed Black to score and Watt to reach third. Bien singled to left and scored Watt. Bien then stole second. Waterhouse reached first on LeBrun's error. Riley singled to right and Bien was thrown out at the plate. Nolan hit safely to short scoring Waterhouse and putting Riley on third. Shanley was next to bat and slashed a hit to right field which scored Riley and Nolan. O'Brien came to bat for the second time in the inning and fled out to left field and retired the side.

In the second inning with one out Bangor started in and made three runs. Mayo singled to center. Hammond hit to third and forced Lambrey out at that bag. LeBrun singled to right, scoring Mayo and placing Hammond on third. Tewhey kept to the good work by planting a nice hit into right field, which scored Hammond and LeBrun. Tewhey, however, was not satisfied with his good work, as he tried to steal second but was thrown out. This retiring the side, Bangor handed the Greeks a run in this inning when, with two out, Watt was hit by a pitched ball and stole second. Bien hit to Tewhey on short, who made an error which allowed Watt to score. Waterhouse singled to right and Bien was put out going to third.

In the seventh inning with one Bangor man out, Falcott hit safely to center. Gerard drew a base on balls. Perley went out, second to first. Lamorey hit a nice single to right field which scored Falcott and Gerard. Mayo hit out to third and retired the side.

In this inning Nolan beat out a hit to third and stole second. Shanley beat out a hit to third which placed Nolan on third. Mayo threw badly to second in an endeavor to catch Shanley, who was stealing, and the ball threw allowed Nolan to score the eighth and last run for the Greeks. The sides were quickly retired after this.

Gerard was the pitcher for Bangor and, with the exception of the fifth inning, pitched good, steady ball. He was hit for 13 safe ones for a total of fifteen bases which, in itself, was enough to win the game. The Greeks also played the best game, having only one error and that was made by Waterhouse in the eighth inning, but the little shortstop made up for that error during the game as he played splendidly, making some beautiful stops and he also led his team in batting, having three hits to his credit. Waterhouse is improving daily in his work.

Shanley was steady throughout the game, although Bangor touched him in for seven singles and the visitors only made two singles off him in five innings. They made three in the sixth and two in the seventh.

The following is the box score and summary:

ENGLISH POLO TEAM OVERWHELMS AMERICANS IN FIRST DAY'S PRACTICE

POCKETING THE AMERICAN TEAM SO THAT FIVE FREIGHTS COULD MAKE A GOAL.

In the first practice game between the English polo team and a team made up of Americans the Britishers rolled up a score of twenty-one goals, much to the chagrin of the home players. However, the best American material was not in the saddle, and although the Englishmen seemed to be carrying everything before them in this scrimmage, the spectators were not disheartened in the least by the irresistible onslaught of the English on their first day out. The above picture shows how some of the goals were made. Pocketing the opposing players is a favorite trick of the British challengers.

STEALER CLYDE MILAN

The American League base-running contest will be rather lopsided unless something happens to stop Clyde Milan, who is grabbing nearly a sack a day. As his record last year was 88 for the season, he is likely to excel it this year.

His prominent rival, Ty Cobb, got a late start, and will have to hustle to acquire anything like as near as Milan.

THIS DATE IN RING ANNALS

1904—Joe Walcott, the "Black Demon of Barbados," was knocked out by Young Peter Jackson in the fourth round at Baltimore. The former welterweight champion, who had earned the title of "Giant Killer" by knocking out Joe Chynski, a good heavy-weight, put an end to his ring career by accidentally shooting himself through the hand, while showing off his cannon at a party. After that he fell an easy victim to Young Peter Jackson and other second-raters.

—Harry Lazarus defeated "Dreadnought" Horrigan in 97 rounds at Point Abino, Can.

1912—Jack Dillon knocked out Eddie Stanton in 4th round at New York.

MONCTON OUT FOR PRO. BALL

Moncton, June 9.—Moncton is to have semi-professional ball this summer. That was definitely determined at a meeting of the executive of the league tonight. It was decided to engage three professionals, one for each team in the league. Teams in league will be Shamrocks, Trojans and Maple Leafs, and the league will open next Saturday with a benefit for the hospital. Maple Leafs and Shamrocks will open league. Thirty games will be played and if the league proves a success more professionals will be engaged.

SPORTOGRAPHY BY "GRAVY"

A punch to the jaw, such as brought the McCarty-Pelky battle to a tragic end, has won more heavy-weight championship battles than any other variety of blow. When Jeffries took the crown from the bald pate of Bob Fitzsimmons in the eleventh round at Coney Island, fourteen years ago yesterday, it was a right swing to the jaw that turned the trick. Rube Robert had won the title from Corbett with a terrific right swing to the jaw, followed by a right to the heart and a left to the solar plexus. Corbett dropped Sullivan for the count with a succession of stiff punches to the jaw and face. The old Roman acquired the title by knocking out Paddy Ryan with a terrific right swing to the jaw. Jim Maco won most of his battles with punches to the jaw, face and neck. Tom Sayers won the championship from Perry, the Tipton Slasher, with blows to the jaw. Tom King nearly killed John Heenan with punches to face and jaw.

Jack Johnson won a majority of his

bouts with a right uppercut to the chin, but he depended on punches to the stomach to wear his opponent down. Indeed, that has been the favorite method of all heavyweights. Merciless battering of the body is the preliminary to the knockout punch to the jaw in most championship battles.

The story of the Fitz-Jeffries bout of fourteen years ago illustrates this point. The account by rounds contains such items as these: "Jeffries landed on body. Jeff put right to arch, followed by a right to the heart and a left to the solar plexus. Corbett dropped Sullivan for the count with a succession of stiff punches to the jaw and face. The old Roman acquired the title by knocking out Paddy Ryan with a terrific right swing to the jaw. Jim Maco won most of his battles with punches to the jaw, face and neck. OUTSTANDING POINTS PRESBYTERIAN

Greatest Church Gathering in Canada. Eloquent Sermon by Rev. Dr. J. A. Yesterday.

Rev. Dr. J. A. Morrison was heard in a strong sermon in the Fairville Presbyterian church on Sunday afternoon and again in the Carlton Presbyterian church in the evening. At the afternoon service Rev. Dr. Morrison welcomed back, on behalf of the congregation, James Scott, the official delegate of the church to the Presbyterian Congress in Toronto.

For the basis of his sermon Rev. Dr. Morrison took the same text which Moderator McQueen preached from at the Congress, Zacharia 4 and 6, "Not by might, nor by power, but by My Spirit, saith the Lord of Hosts." When speaking of the tide of immigration coming to Canada some interesting statistics were read by Rev. Dr. Morrison. The immigration to Canada during 1912 was 355,804, distributed as follows:

British Columbia	56,817
Manitoba	43,585
Alberta	48,586
Quebec	63,189
Saskatchewan	119,908
Maritime Provinces	18,573

Continuing, the speaker drew attention to the valiant men from the Presbyterian church in Canada during the past thirty-eight years, since 1875. The following table shows the gratifying increase:

1875	1913
Synods	4
Presbyteries	32
Congregations	706
Home Missions	2,289
Communicants	88,228
Sunday School Teachers	7,139
Officers	27,615
Missionary Contributions	\$173,065
Total giving for all purposes	\$85,672

At present there are 10 Foreign Mission Fields with 27 Canadian workers and 794 native helpers. In his sermon Rev. Dr. Morrison said—"The greatest gathering of Presbyterians ever held in the world, and one of the greatest religious conventions ever known in the history of evangelical religion, was held last week in the City of Toronto. There was no Presbyterian hall large enough to house the vast assemblage of 4,000 delegates, so recourse was had to the Massey Hall—built by the vast monies of a prosperous Methodist Origin of Congress.

How did it all come about? Well, there were various conditions that precipitated the congress movement. It remained for Andrew S. Grant, a Presbyterian minister of Yukon fame, a graduate of the Montreal Presbyterian College, himself a man of Napoleonic ideas and vast wealth, to crystallize the idea of a mass gathering of Presbyterian pastors and their wives with one end in view, to draw attention to definite form. Grant's ideas and Grant's purse stood behind the whole affair. Of course, other men had ideas and vast wealth, which were drawn upon for the honor of the biggest church congress known to Canadian history, will abide with Grant of the Yukon.

He is a big man and whole-hearted Christian—a man of many gifts. He is a reverend by call and the ordination of his church—a medical doctor by the diploma of old McGill; a preacher of mighty power and in the world of affairs a man to be reckoned with. To Revitalize Church. He got it into his head that the church needed to be revitalized. The vastness of the present opportunity for Christianizing the world needed to be brought home to it. That men and women working in far away lone outposts of the church needed to be given a chance, just for once, of participating in the whirl of church programs and policies; that these things and much more of benefit to Canada and the world can be accomplished by massing the most inspirational gathering, and he made good.

Free transportation over special trains of sleeping cars was furnished by Grant and his friends to all the hundreds of delegates. Free hotel and home hospitality was provided for them one and all by the citizens of Toronto.

Free use of the Toronto Street Railway was generously granted by that company. Everything was free and delegates all liked it and entered heartily into the programme.

Great Gatherings. For several days great gatherings were held morning, afternoon and night in the Massey Hall with its seating capacity for 5,000 people, but this was not the only place where the people gathered. The Hotel Windsor, the Hotel Macdonald, the Hotel St. Charles, the Hotel St. James, the Hotel St. John, the Hotel St. Peter, the Hotel St. Paul, the Hotel St. George, the Hotel St. Andrew, the Hotel St. Patrick, the Hotel St. Nicholas, the Hotel St. Basil, the Hotel St. Valentine, the Hotel St. Lawrence, the Hotel St. Mark, the Hotel St. Luke, the Hotel St. John the Baptist, the Hotel St. John the Evangelist, the Hotel St. John the Apostle, the Hotel St. John the Disciple, the Hotel St. John the Baptist, the Hotel St. John the Evangelist, the Hotel St. John the Apostle, the Hotel St. John the Disciple.

MAIL CONTRACT. SEALED TENDERS addressed to the Postmaster General will be received at Ottawa until Noon on Friday, 22nd July, 1913, for the conveyance of His Majesty's Mails on a proposed Contract for four years, six times per week each way, over Rural Mail Routes No. 1 from Fredericton, N. B. from the 1st October, next. Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Fredericton and at the Office of the Post Office Inspector at St. John. G. C. ANDERSON, Superintendent, Post Office Department, Mail Service Branch, Ottawa, June 6th, 1913.

GREATEST HEADACHE CURE IN THE WORLD

Tortures of Chronic Dyspepsia Cured by "Fruit-a-tives."

Shanley, Ont., Sept. 23, 1910. "You certainly have the greatest Headache Cure in the world. Before 'Fruit-a-tives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders. One of your travellers called on me when I had one of my raging Headaches and had my head almost raw from external application. He insisted on my trying 'Fruit-a-tives.' I did so with what I would call amazing results. They completely cured me and since then (nearly six years ago), it is only necessary for me to take one occasionally to preserve me in my present good health."
