

# RETROGRADE MOVEMENT OF GERMANS IN FRANCE CONTINUES; ALLIES HAVE CROSSED THE MARNE

## ALLIES, DURING FOUR DAYS BATTLE, HAVE DRIVEN GERMANS BACK OVER THIRTY-SEVEN MILES LESS THAN TEN PER CENT. HAVE BEEN REJECTED ENEMY TO CONCENTRATE AGAINST MAIN FRONT OF THE FRENCH ARMY

### British Have Crossed River Marne, Sir John French Reports, and Enemy Have Suffered Severely—No Decisive Turn Yet in Crucial Battle Which Is Being Waged, But Allies Are Daily Gaining Advantages Over the Germans Who Appear to Be Exhausted—Three Great Battles Going On Along 100 Mile Front—Most Fiercely Fought Is One Against French Centre.

London, Sept. 10, 11 p. m.—The crucial battle of the war in France has not yet reached any decisive result. Field Marshal Sir John French, commander of the British forces, reported today that the Germans had been driven back all along the line; that the British had crossed the River Marne; that the Germans had suffered severely, and that their men were supposed to be in a very exhausted condition.

Notwithstanding this report the military experts do not rush to sweeping conclusions. The military writers in the London papers repeat that from the conservative terms of the French official statement yesterday it is too early to anticipate the result of a battle extending over a front of nearly a hundred miles. Three million men is the number estimated to be engaged actively and as reserves, and three great battles at least are in progress.

Probably the fiercest one is against the French centre, between Rheims and Verdun, while the British army are contesting the second hard fought engagement against the German right. The Germans are believed to be still attacking the French right, from Verdun to Nancy.

Lesser fighting is in progress in Alsace, from which province the Germans appear to have drawn away part of their army, and the French are taking advantage of this opening.

The great battle may continue for days, when it is remembered that smaller operations in Manchuria, in which hundreds of thousands only were concerned, lasted a fortnight.

The German western armies have been fighting almost continuously for twenty-five days, and until the last phase of the campaign, on the offensive. Field Marshal French's view that they are becoming exhausted finds credence among the military experts here.

A German official wireless despatch tonight says that no report has been made public in Berlin of the events in France for the past three days.

From Holland comes the news that sixty thousand German reinforcements are marching south. These troops may have an effect upon the tide of battle, but there is reason to believe that the allied armies also are receiving a counterbalancing accession of strength.

Peking, Sept. 10.—The elements have delayed unexpectedly the Japanese advance on Tientsin.

Floods cover the country surrounding the town, and are spreading inland beyond Wei-Hai-Wei. The waters continue to rise and it is said that probably it will be months before the Japanese can begin their investment of the stronghold, which now can be reached only by boat.

### ENEMY FORCED BACK 37 MILES IN FOUR DAYS.

Paris, Sept. 10, 11.16 p. m.—During the four days battle, says an official communication issued tonight, "the allies have pushed back the Germans thirty-seven miles, and taken many prisoners and machine guns."

### WAR THEATRE EXTENDED TO AFRICA.

Bulletin—London, Sept. 10 (8.25 p. m.)—There has been some sharp fighting between the British and Germans in Africa. This is indicated by the list of casualties issued tonight. In Cameroons (Komerun), a German colony of Western Equatorial Africa, three officers were killed, four were wounded and four are among the missing.

Paris, Sept. 10, 11.22 p. m.—The following official communication was issued tonight:

"On the left wing the British and French troops have crossed the Marne between La Ferté-Sous-Jouarre, Charly and Chateau Thierry, turning the enemy who is in retreat. During the course of their advance the British forces took a number of prisoners and captured Mitralleuses."

"During the four days' battle the allied armies have, in that section of the theatre of operations, gained more than sixty kilometres."

"Between Chateau Thierry and Vitry Le Francois the Prussian guard has been thrown back."

"The action continues with great severity in the region between Camp De Mailly and Vitry Le Francois."

"In the center and on the right wing there is no change in the situation."

"On the Ormain and in the Argonne districts the two opposing forces are maintaining their positions. In the region of Nancy the enemy has made slight progress on the Chateau Salins road."

"On the other hand, we have gained ground in the forest of Champagne on both sides, but the morale and health of our troops remain excellent."

"There is no confirmation of the news published in the German newspapers of the fall of Maubeuge."

London, Sept. 10, 11.11 p. m.—A sympathy of which that assistance is but the sincere and tangible expression.

Sir Wilfrid Laurier said that so far he had not heard of a single man among his brothers across the line who was not with Britain in this struggle. This was a war to save civilization. If Kitchener wanted more men Canada would respond. This must be a fight to a finish, and arms must not be laid down until the day came when the cause had been vindicated, and right took the place of might.

### PANIC IS SPREADING IN HUNGARY

Financial Condition Bad in Austria and People Discontented—Roumania May Strike Blow at Tricky Austria.

Berlin official despatch by Marconi wireless says:

"The party board of the German Socialist party has raised a protest against the manifesto issued by the committee on the ground that suspicion is cast upon the humanity of German soldiers. This, the board adds, is calculated to influence neutral countries against Germany."

London, Sept. 10, 8.52 p. m.—General Botha, premier of the Union of South Africa, according to Reuters' Cape Town correspondent, has decided that none of the labor leaders who were deported to England during the Rand riots last January shall be allowed to return to South Africa. This action, according to the correspondent, was taken for the purpose of assuring complete unanimity and cooperation among all sections in the Union in the present crisis.

Venice, via Paris, Sept. 10, 8.15 p. m.—The Italian cruiser 'Piemonte' has been recalled home from Somaliland, east Africa.

### Vienna Puts Different Face on Matters.

London, Sept. 10 (10.17 p. m.)—"In a message received from Vienna," says a Berlin official despatch received tonight by the Marconi Wireless Company, "it is stated that the Austrian emperor continues to enjoy the best of health."

"The reports concerning Russian victories near Lemberg are characterized as untrue."

"The German emperor's vigorous protest to the President of the United States against the use of dum-dum bullets by the allies is cordially supported in Vienna."

### Belgians Destroy German Airship; Ammunition Experts Taken.

Amsterdam, Sept. 10.—A large German aeroplane was shot at St. Yven, East Flanders, resulting in an important capture.

The three officers in the machine proved to be well known experts from Krupp's, including Jacob and Schelljen, who delivered guns to the new Belgian forts a few months ago, and Von Reetz, prominent in all Krupp experiments. All were arrested.

London, Sept. 10.—A Copenhagen despatch 'The Morning Post' says that a Danish steamer which has arrived there from Stettin reports a rumor that the Russians are bombarding Koenigsberg and that several buildings are in flames.

Bulletin—Paris, Sept. 10 (11.45 p. m.)—According to a Munich report, received here, the contingent from the Berlin garrison alone has lost 42,000 men, killed or wounded, in the war thus far.

### ENGLAND COULD NOT KEEP OF WAR WITHOUT TARNISHING HER HONOR

(Special to The Standard through International News Service)

London, Sept. 10.—The following special article has been written for American by John Galsworthy.

I believe that this war is an outrage. It is a black stain on humanity and the fame of men. I hate militarism and the god of force. I would go to any length to avoid war for the material interests of a war that involved no principles in the destructing and profoundly common meaning of the phrase "national honor," but I believe that "national honor" is charged with the future happiness of man, that loyalty is due from those who are now living in peace that will come after, that civilization can only wax and flourish in a world where a faith like that is kept, that for nations, as for individuals there are laws of duty whose violation harms the whole human race in the sum, that the stars of conduct shine for the people the same as for private men, and so I hold that without tarnishing true honor or endangering civilization at present and to come ruining a hope of future tranquility.

My country could not have refused to take up arms for the defence of the Belgians' outraged neutrality solemnly guaranteed by herself and France, believe and claim in proof of the trend of events, and of the national character during the last century that in democracy alone lies any coherent hope of progressive civilization or any chance of lasting peace in Europe or the world.

If the trouble with floating mines continues.

The government's position is in great danger because of German mines. England has repeatedly stated that she will not resort to the use of mines. After the mine sweepers free the North Sea of the obstructions, however, the strategists advise the exclusion of vessels which might plant more mines. Such action would limit the commerce of Holland, Denmark, Norway, and Sweden, cutting off Germany's source of food supply.

The British officials say there is abundant evidence that mine-layers have operated under neutral flags, and that it is the intention to keep the strictest watch over all craft in the North Sea.

### HALIFAX GIVES \$25,000 TO PATRIOTIC FUND

Halifax, N. S., Sept. 10.—The Halifax city council tonight unanimously voted \$25,000 toward the Canadian Patriotic Fund.

### ENGLAND MAY CLOSE THE NORTH SEA

German Action in Laying Mines Has Endangered Neutral Shipping.

London, Sept. 10.—There is a general discussion in London of the possibility that England may close the North Sea, blockading it completely.

### Canadian Contingent in Training at Valcartier Shaping up Well—Physical Fitness of Men Ahead of Expectations.

Valcartier Camp, Que., Sept. 10.—Organization of the Canadian expeditionary force has been conducted with such rapidity that brigade exercises were begun on Monday next. These will take up probably all next week, and then will follow manoeuvres in which the combined force will participate. The latter, of course, will mean practically the termination of the training, but it is impossible to say how long they will continue.

Every man in camp is now in possession of a new Ross rifle and other equipment, such as clothing and boots, is being issued with great haste. The camp is comparatively free of sickness, very few men being in the hospitals.

The last of the soldiers are being examined for services abroad, with less than ten per cent. of over 33,000 rejected.

The physical fitness of the volunteers greatly exceeded expectations, and as far as inoculation is concerned, it was stated by Col. Bridges, assistant director of medical services, tonight, that of the many thousand treated there were only three men in the hospital suffering from the effects. Training today was as strenuous as usual. Several battalions were taken to the rifle ranges shortly after seven o'clock this morning, and were drilled in skirmishing order until nearly six o'clock tonight, with a recess at noon of half an hour.

While the infantry was working on the ranges, two brigades of the artillery were manoeuvring all day on the vast territory located across the Jacques Cartier river.

### Belgians Near Antwerp Take the Offensive and Drive Germans Back to Environs of Louvain—British Losses 19,000 According to Casualty List—Daring Attempt of British Fleet in North Sea to Draw Germans into Fight—Fail to Find One of Enemy's Ships.

Paris, Sept. 11 (12.10 a. m.)—The fourth day of the gigantic battle to the east of Paris, which is expected to last two weeks and to decide the preliminary stage of the great war, finds the left wing of the allied armies vigorously pushing back the German right wing which had made such rapid advance southward from the Belgian frontier.

The allies are said to have forced their adversaries back nearly forty miles northeastward since the beginning of the contest. The hard struggle between the enormous masses of troops extends from near Paris to as far as Nancy, close to the Lorraine border.

An action is proceeding with the utmost violence in the neighborhood of Mailly and Vitry Le Francois, but it is very vigorous also in the centre, where both sides are holding their positions with the greatest tenacity.

London, Sept. 10, 11.35 p. m.—That the Germans are concentrating all their strength in the eastern field of warfare against the main French front, appears to be confirmed by reports which have arrived through Holland. Most of the troops left in Belgium are said to be men past the prime of the Landsturm, while 30,000 or 40,000 reserves are marching in to replace the depleted garrisons.

An Ostend despatch says the Belgian army at Antwerp has taken the offensive, and driven the Germans back to the environs of Louvain. Another despatch says the Belgians have defeated a German garrison, composed of the Landsturm at Aerichot, a short distance from Louvain.

The House of Commons voted today unanimously for a half million more recruits. The country was surprised by the announcement that 430,000 men already had been enlisted since the beginning of the war.

When the government's plans are completed the British army for the continent, and for home service, will consist roughly of the following:

Regular army, 1,200,000; territorials, 300,000; reserves, 214,000; India contingent 70,000; Canadian first and second contingents, 40,000; Australians, 20,000, and New Zealand, 10,000, making a total of 1,854,000 men.

This tremendous enrollment for a country which normally has only a small professional army, has thrown light upon the government's views regarding the duration of the war, or, at least, upon its determination to meet all possibilities.

A casualty list published tonight brings the army's losses to nearly 19,000 men, exclusive of the past three days' fighting. Yet this big toll from the small army seems in nowise to depress the country.

The news from the western theatre of war today was most scant. The German and Austrian reports minimize the importance of the occupation of Lemberg. A Vienna despatch says it was part of a strategic campaign to draw the Russians in to Galicia. Petrograd reports claim that Archduke Frederick's army lost 120,000 men; that the evacuation of Cracow had commenced and that the fall of both Cracow and Przemyśl was imminent.

The British navy has accomplished a daring, although unproductive attempt to draw the German fleet into action. A great array of squadrons and flotillas made a sweep into the North Sea for two days, penetrating into the Bight of Heligoland, but failed to discover any German craft.

### TURKEY ABROGATES TREATIES WHICH HAVE EXISTED SINCE THE ELEVENTH CENTURY

Foreigners in Ottoman Empire Will No Longer Enjoy Extra Territorial Rights—Ready to Seize on Any Pretext to Declare War.

Washington, Sept. 10.—Turkey formally notified the United States and the nations of the world today that she had abrogated the series of conventions, treaties and privileges, originating as early as the eleventh century, whereby foreigners in the Ottoman empire have been exempt from local jurisdiction in civil and criminal cases. Foreign subjects no longer will enjoy what is known as extra territorial rights, through which they have been tried by their own judges, diplomatic representatives or consuls.

This practice Turkey has removed by a stroke of the pen. Her purpose, it is declared, is to assert her independence and free herself from the domination of the great powers.

Upon the rights revoked has rested the legal status of foreign missionaries in Turkey, permitting them to maintain churches, hospitals and schools in religious freedom.

"The removal of every kind of privileges enjoyed by the powers in excess of what the general principles of international law allow is the meaning of this step."

Arustem Bey, Turkish ambassador to the United States, declared tonight "this war is Turkey's opportunity."

No intimation was given by the ambassador as to whether the action foreshadowed war on Great Britain, without whose consent in the past no such radical action would have been attempted.

Among diplomats of the allied powers, however, the belief prevailed tonight that Turkey was appealing to the nationalist sentiment of her people, and was ready to seize upon any difficulties that may arise with Great Britain as a pretext to declare war.

### THANKSGIVING DAY OCTOBER 12, THIS YEAR

Ottawa, Sept. 10.—The government has altered the date of Thanksgiving Day this year to Monday, October 12. It had been fixed for October 8, but the fact that the latter day falls on Thursday is understood to be the reason for the change.

### AMERICANS IN SYMPATHY WITH GREAT BRITAIN IN HER FIGHT

Toronto, Sept. 10.—H. R. H. the Duke of Connaught, was the guest of the Exhibition directors today, and with Sir Wilfrid Laurier, Sir George Foster and other prominent members was present at the luncheon, where he received an address.

In the afternoon His Royal Highness inspected the veterans and the Boy Scouts, and in the evening he attended the concert given by the American Aid Society in aid of the Patriotic Fund.

Seven thousand people packed the Arena at the concert held tonight by the American Aid Society to provide funds for the dependents of those who have gone to the front, and heard addresses by His Royal Highness the Governor-General, Sir Wilfrid Laurier, and Sir George Foster, and also a message from Sir R. L. Borden, the premier. The concert, which was participated in by several opera stars from the United States, cleared probably \$5,000.

our dangers at least in our sorrows. We are very near relations, coming from the same stock, and I am sure when you read the simple unaffected report of Sir John French, you will feel your blood moved, and feel proud that you have Anglo-Saxon blood in your veins."

The message of Sir Robert Borden read in part:

"By ties of kinship and common speech, by bonds of constant commercial and social intercourse, by the enjoyment of like institutions and liberties, by that consciousness of mutual respect and trust which has won between us a century's victory of peace, the country of your birth and this dominion are bound by a sympathetic friendship which is invested with a reality far more significant than any words of formal good-will could give it."

"You are already assured of an instant and warm response from every Canadian heart, for the generosity of this helping hand, and you will find as doubtless you have already found, that this response will be awakened not so much by the material assistance, as by the benign and welcome

### MAINE WOODS HAS ECHO EUROPEAN WAR

Millisocket, Me., Sept. 10.—More than fifty lumbermen battled in the woods at Grand Brook tonight after an argument over the European war. One man was killed and three were injured, according to reports which came here. Grand Brook is fourteen miles in the woods.

Two Sheriffs who went to the scene with deputies are reported to be on their way here with fifty-three prisoners. The lumbermen are part of a crew of the Great Northern Paper Company. Most of them are Poles and French-Canadians.

# ANOTHER BANNER CROWD AT THE EXHIBITION YESTERDAY

### Over 11,000 in attendance—The man with the bees attracted a lot of attention— Everything moving nicely and success is assured.

and it was found necessary to have some of the judging put over until today.

This afternoon at two o'clock there will be a grand parade of the prize animals and there will be judging in several classes. After the parade there will be exhibitions of jumping by different horses and the tandem entries will be shown in the ring. This feature should be seen by everyone who appreciates good horses.

**Dairy Competition**

The dairy competition reached its second stage yesterday and will be continued this morning and afternoon. The judging is arranged as follows:

Condition of butter in churn, ten points.

Condition of butter in worker, ten points.

Making up of butter, twenty points.

Smartness and cleanliness, twenty points.

Color of butter, five points.

Texture, twenty points.

Freedom from moisture, fifteen points.

The different cattlemen and collegemen were given a chance of judging cattle and an amateur contest was conducted yesterday. The participants will write out their reasons for awarding points and the results will be announced later.

So far the exhibition has been free from any serious accident and the police report the buildings and grounds free from crooks. One visitor reported the loss of his watch. Another man dropped a roll of bills containing about \$50 but these were classed under losses and there was no idea of pick pockets in this connection. Aside from these two instances there was no record of other crime about the grounds.

The crowd present at the fair yesterday spent the greater part of its time in the grounds, but there was enough people in the buildings to make progress through the files rather difficult but all entered into the spirit of the show and persons who had their toes trampled upon excused the accident with a smile.

**Exhibitors Busy**

The exhibitors, who were giving

away free samples or pamphlets descriptive of their goods had a steady demand for these articles and fans, books, booklets, papers, war maps, and many other useful and bulky articles were borne away by the people in the crowd.

The man with the bees created a great amount of interest. He has a tent and a cage in the grounds near the main building and there he shuts himself up with the bees and keeps a serene countenance that the spectators cannot tell whether he is getting stung or not. If he is, the bees must be quite different from varieties usually met in the country. This demonstrator of bees and bee handling makes the art appear a harmless one for he stands among the buzzing bees and does not appear to mind them at all.

The pikers were again in their element yesterday and the crowd surged around their booths during the time that the fair was open. The dolls, the wheels of fortune and all the other attractions were worked to capacity by an eager and enthusiastic crowd.

The fair today should be at its best and preparation has been made for the biggest crowd of the week. Good weather has been promised and with excursions from many outside points the attendance should be up to the expectations of the management.

The doors will remain open till 10:30 o'clock tonight so that the crowd will be given a better chance of seeing all the sights on the grounds and in the buildings.

### EXHIBITION PROGRAMME TODAY

- 9:00 a. m.—Gates open.
- 10:00 a. m.—Grand parade of prize animals and judging of jumpers.
- 11:15 p. m.—Free acts before the grand stand.
- 4:30—Band concert in main building.
- Evening.
- 8:00 p. m.—Concert in main building.
- 8:15 p. m.—Free acts before grandstand.
- 9:00 p. m.—Fireworks.
- 10:30 p. m.—Doors close.

The turnstiles at the exhibition whirled merrily practically all day yesterday and more than 11,000 visitors paid their money to gain admission to the grounds and buildings. The crowd hardly got underway until after nine o'clock, but as soon as the tide swung towards the big show it was continual until well along in the evening.

Many visitors from outside points were in attendance at the fair yesterday and all were loud in their praise of the fine entertainment provided. During the early evening there was a slight fall of rain, but the weather soon cleared and at nine o'clock conditions were favorable for the grand display of fireworks. The other outdoor features were also staged.

The fireworks were of high class and the final feature, the bombardment of Gibraltar was a fine spectacle. The grandstand was crowded for this entertainment and all enjoyed themselves.

The City Cornet Band played afternoon and evening and their work was greatly appreciated. The Sons of England Band will work this afternoon and evening.

The judging of the cattle and other live stock was continued yesterday

## ENEMY TO CONCENTRATE AGAINST MAIN FRONT OF FRENCH ARMY

### Belgians Driving Enemy Towards France

London, Sept. 10, 9:30 p. m.—A Reuters despatch from Ostend says that according to soldiers who have arrived there it would appear that an engagement is in progress between the Belgians and the Germans, who are withdrawing towards France.

Rotterdam, Sept. 10 via London, 7:09 p. m.—A despatch to the Courant, dated Breda, Holland, reports that a heavy engagement took place Wednesday at Aerschot, Belgium, nine miles northeast of Louvain, when the Belgians attacked the garrison there.

As a result of the fighting the Germans evacuated the town, and the Belgians hoisted their colors and liberated 26 priests found in a church.

London, Sept. 10, 6:30 p. m.—The official information bureau issued the following tonight:

"Yesterday and today strong and numerous squadrons and flotillas have made a complete sweep of the North Sea, up to and into Hellelind right. The German fleet made no attempt to interfere with our movements and no German ship of any kind was seen at sea."

London, Sept. 11, 12:40 a. m.—According to a Perograd despatch to the Exchange Telegraph Company, it is believed that the German Crown Prince has been appointed commander-in-chief of the forces against Russia.

**Germans Repulsed in Belgium?**

London, Sept. 10, 10:07 p. m.—An Ostend despatch to the Exchange Telegraph Company says:

"According to information from a reliable source, the Belgian army at Antwerp has assumed a triumphant offensive movement, driving the Germans back to the environs of Louvain."

London, Sept. 10, 10:05 p. m.—Official Berlin despatches received here by Marconi wireless say:

"While Louvain was burning, German officers carried pictures from the cathedral to the Hotel De Ville for their protection."

"Emperor William and Prince Leopold of Lippe have exchanged cordial and sympathetic telegrams on the occasion of the heroic death of Prince Herbert of Lippe, who is the third member of the House of Lippe to fall in this war."

"According to London papers, fighting has been proceeding since Sept. 7 east of Paris, on a line between Meaux and Vitry Le Francois. Early

## BRITISH WARSHIP SEIZES VALUABLE PRIZE

### Plymouth, Sept. 10 (via London, 2:56 p. m.)—The German bark Urania, bound from Tocopilla, Chile, for Hamburg, with a cargo of nitrate valued at \$175,000, has been captured by a British warship.

## Belgians Flood Country to Keep Enemy Out of Antwerp

London, Sept. 10 (11:17 p. m.—An official despatch issued in Berlin, and received here this evening by the Marconi Wireless Telegraph Company says: "In an engagement at Corderghem, on the railroad between Antwerp and Ghent, the Belgian troops withdrew."

"The country south of Antwerp has been flooded by the Belgians, to prevent the Germans marching into the town. The area covered by the flood is seventy square miles. The water varies in depth, at different places, being from a few inches to several feet."

## GERMANS REPUSED IN BELGIUM?

**What's in this? WRIGLEY'S SPEARMINT?**

You've a right to know—we'd like to show you, in our factories—the most up-to-date, sanitary chewing gum factories in the world!

WRIGLEY'S SPEARMINT is made from the air-dried, milky sap of the Sapodilla Tree, which grows in Mexico and Central America.

This sap is boiled down into chicle, flavored with the aromatic juice of pure fresh mint leaves, then cut into the delicious, springy bars which you buy.

New machines, costing several hundred thousand dollars wrap WRIGLEY'S SPEARMINT in an inner waxed seal, then the inside pink wrapper, then the NEW OUTER WAXED SEAL that is air-tight, damp-proof, dust-proof. The same machines encircle this waxed-wrapped packet of five big sticks in the familiar band you know so well. It's as good and as clean as men, machines and money can make it.

### WEDDINGS.

DeMill-Teakles.

Portage Vale, N. B., Sept. 10.—A most brilliant social event took place in this locality yesterday afternoon at 5.30 o'clock, at the beautiful home of Mr. and Mrs. Hugh Teakles, when their only daughter, Della Pearl, became the bride of Mr. Nathan Budd DeMill, son of Mr. and Mrs. Wm. DeMill, of Elgin Parish, Albert County.

The nuptial knot was tied by the Rev. C. J. Steeves in the presence of nearly a hundred and fifty guests. The wedding march was played by Miss Davidson. The bride was assisted by Miss DeMill, sister of the groom. The groom was supported by Mr. Bliss Teakles, brother of the bride.

The event took place on the lawn under an arch of autumn leaves and cut flowers, which made a splendid arch. The bride was dressed in white and wore a bridal veil and carried a bouquet of orange blossoms and sweet peas. The many and costly presents received by Mr. and Mrs. DeMill showed the high esteem in which they are held by their many friends. The bride and groom have gone on a trip to New York and other American cities followed by the best wishes of their many friends. The members of the United Baptist church and Sunday school, of which she was organist for years, presented her with a beautiful chair and address. Mrs. DeMill made a graceful reply.

Belyea-Robinson.  
A popular society wedding took place yesterday afternoon in Trinity church, when two favorites in the younger set, Miss Nora Lee Robinson, daughter of Mrs. and the late J. Morris Robinson, and John Coles Belyea, son of John A. Belyea, were united in marriage by Rev. Percy Coulthurst. The church was prettily decorated with yellow and white flowers in honor of the ceremony, which was performed at 5.30 o'clock. Only the immediate relatives of the young people were present as guests.

Miss Robinson was unattended. She was gowned in white satin, wearing a veil and orange blossoms, and carrying a shower bouquet of bridal roses. Her brother, John M. Robinson, gave her in marriage. The groom was supported by Allan Thomas, Professor Ford, organist of the church presided at the organ. The bride and groom left on the

Successful picnic in aid of British Red Cross Society — Enjoyable programme.

A splendid picnic in aid of the British Red Cross Society was held at Campobello Island on Thursday last. Heavy thunder showers accompanied by rain in the early morning threatened to cause the postponement of the event. By ten o'clock, however, it had completely cleared away and the sun was shining lovingly on the calm waters of the harbor. Soon all was a scene of activity and gaiety, accompanied by the sweet strains of music by the Lubec Brass Band. All the yachts in the harbor were dressed with bunting, the flags of the allies were everywhere floating to the gentle breeze, and in the distance the grey hull of the United States destroyer "Patterson" gave a fitting background to the brilliant pageant. The water sports began at eleven a. m., and were keenly contested. The programme was lengthy, including dinghy races, Indian canoe races, motor boat races, swimming, and high diving contests, concluded by a magnificent race between two whale boats from the "Patterson." It is needless to state that the crew of the "Patterson" were the recipients of hearty Canadian cheers when landing at the dock.

Leaving the water front the crowd wended their way to the picnic grounds at the Tyn-y-coed Hotel. No expense had been spared in decorating the grounds, which were beautiful to behold. Here delicious chowders and refreshments were served until 2.30. Then the land sports began. For two hours hotly contested races for boys and girls were carried on. A match game of base ball between the team from the "Patterson" and the "Campobello All Stars" was won by the local team. The Campobello men also won an exciting tug-of-war contest with the jolly U. S. tars.

In the evening a grand ball was held in the Inn Casino, which was largely attended. A feature of the dance was an exhibition of the Indian war dance, given by twelve members of the Passamaquoddy tribe in full war paint and feathers. The net proceeds of the day and evening amounted to nearly \$400, which were handed over to Vice-Admiral Basil Cochrane, R. N., to be forwarded to the British Red Cross Society.

Campobello Island has done herself proud of the matter, and has set a worthy example for other small places to follow. The committees in charge are to be congratulated on the excellent manner in which the events were carried out. The success of the affair, however, is in a large measure due to the generous contributions of our American summer colony, who gave both time and money freely. While the President of the United States has declared the neutrality of his government and people in the war, we of Campobello are conscious of the fact that there is no neutrality of heart and sympathy, and in that respect our American summer visitors are our allies in the truest and best sense.

In addition to the amount raised by the picnic for the British Red Cross, the ladies of the island, including the American tourists, have now ready a box of clothing for the Canadian branch, which is worth two hundred dollars.

### OBITUARY.

Allan Hill

Newcastle, Sept. 9.—Allan Hill, son of Mrs. John Hill of Williamstown, died yesterday morning, aged four years. The funeral takes place this morning. Deceased is survived by his mother and following brothers and sisters: Frank and Clifford at home; Watson of St. John, Stanley and Harry of Port Kent, Maine; Mrs. Charles Hamilton, Houlton, Me.; Mrs. Wm. Mullin, Sevegoe; and Miss Bessie at Normal School.

Harry W. Nice

Carleton people and many throughout the city will learn of the death of Harry W. Nice, more popularly known as "Bud" Nice, carman. He died at his home, 129 Union street, West St. John, at the age of twenty-nine years, leaving his wife and three children, the eldest only five years old. His parents, Mr. and Mrs. Hiram Nice, and three brothers, Frederick, John and Albert, all of West St. John, also survive.

Mr. Nice was well known as an oarsman, both in four-oared races, as a member of the Belyea crew, and as a single scull champion, having won, among other races, one against Coates and Ross at Fredericton. He was well known to all frequenters of the water front, and had a great number of warm personal friends, who regret his early death, and deeply sympathize with the bereaved family. The funeral will take place at half-past three o'clock on Sunday afternoon.

### PROBATE COURT.

In the probate court yesterday the will of Eli McBeath, liquor merchant, was probated. He gives all his property to his friend James D. Driscoll, hotel proprietor, and his sister, Martha, widow of Richard D. Lewis, in trust for the benefit of his two infant children, Hazel Marion McBeath and Leslie Spiller McBeath, and nominates them as executors. They were accordingly sworn in as such. Real estate is \$1,100; personally, \$1,200. Messrs. MacRae, Sinclair & MacRae are proctors.

### WINNIEP SUBSCRIBERS \$152,412 FOR PATRIOTIC FUND

Winnipeg, Sept. 10.—The sum of \$152,412 has been received by the Winnipeg Patriotic Fund in subscriptions and pledges. Of the amount collected over \$90,000 worth of subscriptions were accomplished by cash covering the first month. A percentage of this has already been distributed among needy families.

## ARRESTED ON SPY CHARGE

Austro-Hungarian Minister to Denmark promptly taken when he produced map—Released with apologies.

London, Sept. 10.—A despatch to the Star from Copenhagen says that Count Czecheny, the Austro-Hungarian minister to Denmark, was arrested as a suspected spy. The count, it appears, was motoring with his wife, and while some distance from the fortifications was seen to take out a map. He was placed under arrest by soldiers and taken to the fort, where his identity was established. The military chief then released him with apologies. It is expected that the Danish foreign minister will also offer an apology.

London, Sept. 10.—A superceding indictment, charging murder in the first degree, was found this afternoon against Mrs. Florence Carman by the grand jury investigating the murder of Mrs. Louise Bailey, shot down by an unseen assailant, in the office of Dr. Edwin Carman at Freeport on June 30 last.

Mrs. Carman had previously been indicted for manslaughter, and had been at liberty under \$15,000 bail. She was arraigned immediately this afternoon and committed to the Nassau county jail, without bail, for trial which will probably be in December.

## INDICTMENT FOR MURDER AGAINST MRS. CARMAN

Was previously indicted for manslaughter of woman found dead in office of Dr. Carman.

Mineola, N. Y., Sept. 10.—A superceding indictment, charging murder in the first degree, was found this afternoon against Mrs. Florence Carman by the grand jury investigating the murder of Mrs. Louise Bailey, shot down by an unseen assailant, in the office of Dr. Edwin Carman at Freeport on June 30 last.

Authorized Capital, \$40,000  
Divided into 400 Shares of \$100 each

DIRECTORS—LEWIS CONNORS, President and Secretary-Treasurer.  
C. W. WOODLAND, CHARLES A. ELLIOTT, Ranch Manager.

Reference—Bank of Nova Scotia.

This Ranch is located at Sturgeon Cove, Black's Harbor, N. B., on seventy-five acres of wire-enclosed land, dry, and containing sufficient mineral matter so necessary in the production of strong, healthy foxes.

The O. K. Fox Co., Ltd., owns three pairs of silver black pedigree foxes from the ranches of Chas Dalton, Oulton, McArthur, Champion and Tuppitt; two pairs of crosses, 30 p. c. black silver; one pair blue and one female blue, and ten pairs reds. It will be seen that with the above stock the capitalization of the company is lower than any on the market today, and even on the pet basis will be a large dividend earner.

Applications for stock should be made to THE O. K. FOX CO., LTD., Black's Harbor, N. B., or to W. J. CAMPBELL, 6 Ward St., St. John, N. B.

**FOX NOTES.**

The fox business continues in its satisfactory position. The paying of dividends will shortly be the general order. Some companies have already begun to do so. The delivery of foxes upon options takes in its full swing. The Connaught Fox Co. is understood, has delivered several pairs of pups within the past week, while recently Mr. Prowse, of Murray Harbor, sent for the western part of the Island for the Ross Silver Black Fox Co. It is learned, has been largely over-subscribed.

**A Good Dividend.**  
The Provincial Silver Black Fox, Ltd., announces a cash dividend of 40 per cent., payable 15th September, and a further dividend of probably 20 to 30 per cent. to be paid after the annual meeting. This company was promoted last year by Hon. John Agnew and Mr. J. O. Hyndman, G. D. DeHollis and W. G. Agnew, who now form the Royal Investment Exchange. They also are promoting the John Agnew Fur Farm Limited, which will be a sister company to the Provincial and is meeting with splendid success.

**Fox Valuation.**  
It is worthy of note that the valuation of foxes in Prince Edward Island this year for assessment purposes already exceeds the amount of six million dollars, and yet that does not by any means cover the entire ground.

**A Valuable Armful**

**FOR INVESTORS IN FOX STOCKS**

**J. E. B. McCready gives valuable information to Boston investors.**

The following extract from an address from an address delivered by J. E. B. McCready, commissioner of industry for Prince Edward Island, in Faneuil Hall, Boston, on July 31, 1914, should be of interest to investors.

If any of you contemplate investment in the fox industry I have just a few words to say. I have not, in all my life, advised any man or woman to invest, or not to invest in the fox industry. That is no part of my business. But I am here to tell you as far as I can the truth about it. A great many people have gone into this industry and have made money more rapidly than they ever could in anything else, and I believe that the prospects for this year are at least excellent. Now before I left Prince Edward Island I received the following information from a gentleman who is indirectly but unofficially, reports of what the various fox companies will probably pay in dividends this year and it may be worth while for me to give you an idea of what their chances are, because they have been paying good dividends for some years past and we hope that they will continue to pay for years to come. There were seventy-one companies from whom I have heard in this way and of these eighty who pay 100 p. c. or upwards; the people all get their money back. Thirty-four will pay from 50 to 100 p. c. of the value of the stock. Fifty-two of seventy-one companies. All the others are expected to pay 25 to 50 p. c., excepting six which will run from 25 to 50 p. c. Now, if you know of anything that is better than that by all means go into it if you want to invest. If you should know of anything better you should do well to inquire further into the silver fox industry of Prince Edward Island. Always remember dividends are highly speculative industry in this way—its returns between different ranches are quite unequal. Of the few companies which have a small interest, one will pay absolutely nothing, the others will pay up to as high as 100 p. c. Now although these are spoken of as prospective dividends, we who know the men with whom we are dealing, who have confidence in the directors, who are interested, confidently expect that unless some serious calamity, unforeseen, should occur, these dividends will be paid. Now these seventy-one companies are practically one-third of the companies that are due to pay dividends this year. There are many others yet to be heard from. Some will pay quite as well as these; probably we have not heard from the best, but taking them all together there will be excellent returns from the fox industry in Prince Edward Island this year.

Just one word more in regard to investing. Should you choose to invest, ascertain that you have a company with good men in it and you can find companies in Prince Edward Island and with the best men in the island in it, because confidence is almost universal in fur-raising in Prince Edward Island and our best men from the Governor down, our Premier, highest in our political life, are interested in the fur industry. One-third of the companies doing business, I confidently predict, will pay to their shareholders within a few months of the date the war and stocks are tumbling in, and that means a great deal in a small community like this. It won't all go there, but you must bear in mind that the people of Prince Edward Island are the principal shareholders. They get the principal profit and largely due to that is the fact that during a time like the past year, when money was tight and commercial depression prevailed over a large portion of the North American Continent, times were never so good in Prince Edward Island as they were this year and stocks are tumbling, so plentiful, so it has been a great thing for us and we are pleased with it, and when opportunity came and I was invited here, I took it to be my duty to the island, and because it was part of my official duty to make known the value of the fox industry, and in answer to inquiry I have endeavored to make known to you the value of the fox industry, and we hope there is an attractive place in it, to make known to investors that we have this industry, and now when we are apparently on the verge of a great European war and stocks are tumbling, the fox exchange and the price of fox stocks are as firm as if there were no trouble in Europe and we hope therefore that the business which has gone so well will be prosperous in the years to come.

**HIGHER VALUES THAN LAST YEAR**

Returns made to date indicate further successes in Fox breeding.

The partial returns made to date by the different fox ranches throughout Prince Edward Island show a larger average increase and higher values than last year. Of 230 ranches last year 60 were returned as having no increase. This year 239 ranches so far reported, only 30 show no increase. The average increase per pair last year was 1.55. This year it is 1.83 with quite a number yet to be heard from. It is confidently expected that when the returns are all in the total increase will be considerably larger than last year. The average values of foxes are also higher than last year, those already returned for being between one and two hundred dollars in advance of the total average valuation for last year.

**THE HEADQUARTERS FOR FOX BREEDERS**

Different cities in Maritime Provinces are headquarters for fox concerns

While Charlottetown, Summerside, and other Prince Edward Island towns have heretofore been looked upon as headquarters for the fox business, it has, during the last year spread to such a degree that many towns throughout the Maritime Provinces are in their way, as much headcentres for fox companies as are those on the island. St. John, N. B., Halifax, N. S., Moncton, N. B., Sackville, N. B., Truro, N. S., Amherst, N. S., New Glasgow, N. S., Sherbrooke, Que., are all deeply interested in the fox industry and quite a lot of business in foxes and fox stocks is being done by the various exchanges and companies in these towns. It is safe to say that there is hardly a locality in New Brunswick, Nova Scotia or Prince Edward Island where some one is not interested in the fox business.

**FOX INCREASES AND VALUES.**

It is interesting to know at the present juncture that the partial returns made to date by the different ranches throughout the province show a larger average increase and higher values than last year. Of 230 ranches last year 60 were returned as having no increase. This year 239 ranches so far reported, only 30 show no increase. The average increase per pair last year was 1.55. This year it is 1.83 with quite a number yet to be heard from. It is confidently expected that when the returns are all in the total increase will be considerably larger than last year. The average values of foxes are also higher than last year, those already returned for being between one and two hundred dollars in advance of the total average valuation for last year.

**FUR VALUES.**

The value of raw furs marketed yearly amounts roughly to \$110,000,000, which, when cured, finished and made into wearing apparel costs in the retail trade \$350,000,000. It is not an exaggeration, therefore, that the fur farmers of Prince Edward Island have not only developed a very lucrative industry, but have drawn the attention of the world to the conservation of a great natural resource which was rapidly tending towards extinction. The fact stares us in the face that if we are to enjoy the comfort and luxury of the furs we cannot for any lengthened period depend upon the commercial exploitation of the wilds but must attempt to carry out all live on the interest of Nature's great naturalist has said, "but our descendants will starve if we attack the capital."

**FOX EXHIBITS.**

Arrangements have been made to exhibit silver black foxes and other fur bearing animals at the Panama exposition, the agricultural department at Washington having extended an invitation to the fox breeders of Canada to place on exhibition as many of these animals as possible. This exhibit should prove a most interesting one, as thousands will be able for the first time to see just what a high priced fox looks like.

**HOPES TO RETURN.**

Lagano, Switzerland, Sept. 10, via Paris—Prince William of Wied, the ruler of Albania, who left his kingdom last week, and came by way of Venice to Switzerland, is still at Lagano. He says he hopes to return to Albania, as ruler, when the war is over. He counts upon it already for support. He says the Italian government had warned Turkey that it will not tolerate the occupation of Albania, a seaport of Albania, by Turkish troops or Turkish subjects.

**MERCY SHIP'S CREW WILL BE MADE UP WHOLLY OF AMERICANS**

New York, Sept. 10.—Captain Russ of the S. S. Red Cross, announced this afternoon that he had succeeded in obtaining a crew composed wholly of American citizens, and that the ship would sail on her errand of mercy to the wounded of European battlefields on Monday or Tuesday next. The German crew, whose presence on the ship was the subject of diplomatic protest from the French and British embassies, was paid off today.

What a Married Man Should Do

YOU MEN who are living in so called cosy flats, maybe upstairs a few flights, you with a wife and family, do you realize that you and yours can never enjoy real home comfort and contentment until you own a home of your own away from the congestion of the city?

WHILE GLEN FALLS will eventually be a city in itself, it can never become congested, because all lots are of large size and many acres have been reserved for parks and playgrounds never to be built on, in fact almost a quarter of the entire ground area of a number of blocks have been reserved for playgrounds and with the result that all houses will be a considerable distance apart thereby affording good rear light, ventilation and greatly reducing the fire risk.

### CITY COUNCIL

#### SESSORIAL CHANCE TO AD VESTERDAY

Payments for the month of August amounted to \$182,612.02 — Water Main renewals.

The city commissioners met yesterday and transacted business of a routine nature.

Commissioner Potts was selected to represent the city at the Trades and Labor Council convention next Monday providing His Worship could not be present.

The common clerk read the record in regard to the alleged encumbrance of the street by Thomas Haley in Rockland Road.

Tenders for a new pavement and sidewalk in Lombard street and a retaining wall and sidewalk in Tower street were opened.

The commissioner of finance and public affairs reported that the payments for the month of August amounted to \$182,612.02 for all departments.

Water Main Renewals. Commissioner Wigmore recommended that the following water mains be renewed and paid for from the water reserve fund.

Adelaide street from C. A. Belyea's northward 400 ft. Kennedy street from 8 inch pipe southward 600 feet; 300 feet from Pitt street eastward, 300 feet, and also that Charlotte street from Broad street to the Sunar Refinery pipe, 1,050 feet, instead of Sydney street from St. James to refinery pipe, 1,500 feet as ordered on August 3rd.

Commissioner Wigmore was instructed to ascertain if Bach & Co would supply pipe at the figures named by them before the work broke out. If satisfactory terms cannot be arranged with them the next lowest tender is to be accepted.

A letter from W. D. Baskin called attention to the condition of the street railway rails in Ludlow street and asked that something be done in connection with the fixing up of the street.

The matter of a building encroachment on Sydney street near the Dalhousie wharf was referred to the recorder who will be instructed to have the street cleared.

The Canadian Bank of Commerce was given permission to rearrange an opening in the sidewalk in front of its premises so that ashes may be removed. Permission was granted, but it was pointed out that other concerns had openings in the sidewalk which should not be allowed.

Wm. Thomson & Co. asked that they be considered when the city was next securing insurance on its property. The letter was referred to the mayor.

### GIVE FARMERS

#### CHANCE TO AD VESTERDAY

Correspondent from Bathurst makes excellent suggestion in regard to supplementing gift potatoes.

Bathurst, N. B., Sept. 8, 1914. To the Editor of The Standard:—With reference to the local government's contribution of 100,000 bushels of potatoes would it not be well to give the farmers of our province an opportunity to contribute?

There are no more patriotic people than our farmers and they should through some arrangement to be made by the Department of Agriculture be given the opportunity. Since I have ascertained the intention of the Government to contribute potatoes I have thrown out the suggestion to some of the farmers of our province and they would be a nice thing if each and every farmer should contribute from one to ten barrels of potatoes and the response has been from every one so far that they only want the chance. In fact public meetings are already announced to endeavor to formulate some plans that the same could be effected.

If the farmers of the other counties of the province would do the same the gift of the province would be materially augmented and at the same time they would be assisting in the Empire's needs that collectively and individually every member of the Empire stands willing to assist in such trying times as the present.

From the favorable response I have had from the farmers of this county I feel safe in assuring the Government of a fair sized contribution from this county if the Department of Agriculture will have the necessary organization effected.

Thanking you for the space and trusting that this letter will be the means of bringing the matter before the farmers of our province and the Department of Agriculture. I remain, yours truly, A. J. H. STEWART.

Dear Mr. Editor:—Will you kindly insert the enclosed in your next issue and oblige. I feel sure that all that is required is to bring the matter to the attention of our farmers and that a hearty response would be given.

Yours truly, A. J. H. STEWART.

Will RAISE PATRIOTIC FUND YARMOUTH

Special to The Standard. Yarmouth, N. S., Sept. 10.—Yarmouth is to take some steps towards raising money for the patriotic fund. This step was decided upon at a preliminary meeting of the Board of Trade, President Davis of the Board of Trade, President Davis of the Boosters, President Murphy of the C.M.B.A., and several others were appointed as an organizing committee. This committee will meet next Tuesday evening to complete organization.

### NEW NATIONAL FEELING SHOWN BY RUSSIANS

American Mining Engineer says Czar drives about unattended — People enthusiastic.

London, Sept. 10.—Newton Booth Knox, a mining engineer of San Francisco, who has just reached London from Russia, relates that Emperor Nicholas may be seen motoring through the streets of Petrograd unattended.

Mr. Knox has been out in Mongolia and on his way back passed through Siberia and much of Russia. "I note a wonderful change of feeling in the Russian people since my last visit," he said today. "A new national spirit has sprung into being. I met the first evidence of this in Siberia, where political prisoners are being liberated. Tolerance is being shown toward the Jews, and there are greater liberties for all the people. I saw Emperor Nicholas driving in a motor car through the streets of Petrograd in a private personage. All classes are full of enthusiasm for the war."

### A PATRIOTIC FUND SOON IN YORK COUNTY

County to take necessary steps to look after families left behind by foreign service men.

Special to The Standard. Fredericton, Sept. 10.—A special meeting of the York County Council to take action in connection with the organization of a York County patriotic fund, will probably be called at an early date. Warden S. B. Hunter told The Standard over the long distance telephone this morning from his home at Harvey Station that he had been in consultation with members of the County Council on the matter and that a special meeting would probably soon be called.

A large number of residents of York County, broad winners for their families, have left for the front on active service, and some provision will have to be made for those who are left behind.

It is altogether likely that the County Council will make a substantial grant to such a fund and that the organization will be organized for private subscriptions with the councillors doing the active work of organization in their respective parishes.

#### "BETTY", OWNED BY MISS PROVES BEST ALL ROUND

The dog show, which was held under the auspices of the New Brunswick Kennel Club at the exhibition, finished last night and the members were delighted that the show went most smoothly and proved the most successful that has yet been held in the eastern provinces.

The best dog in the show of any breed proved to be the pointer bitch, "Betty," entered by Miss Winifred Ross, who defeated J. C. Hanna's Irish setter, "Shamus O'Brien." LeB. Wilson's wire haired fox terrier "Brier," is also a champion, and the owners of these dogs have good reason to be proud of them.

Another champion that has been made in this show is the cocker spaniel, "Sir Bonnie Kelsae," owned by L. W. Lehrle. These dogs with E. Alban Stung's Gorse Law, makes a number of champions in the local show. The work of the judges, Charles H. Mason of Fort Washington, U. S., has proved very satisfactory.

## BEAVERS TAKE TWO GAMES FROM MILO

Brownville, Sept. 7.—The C. P. R. Beavers got back into old time form today defeating Milo the league leaders, in two fast games. Both James and Fischer for the Beavers pitched gilt edge ball, each allowing only five hits, and were each entitled to a shut out game. Milo not scoring an earned run in either game. The Beavers hit hard and often finding Fowles in the morning for 9 safe hits and winning the game in the 10th inning by heavy hitting with only one down.

Frank O'Toole, brother of the famous Marty O'Toole, pitched for Milo in the afternoon and was found for 12 hits.

Milo was regarded as the best ball team in this section of the State, being composed entirely of professional ball players, including five men from last year's Boston Reds team.

This makes five consecutive league games won by the Beavers and moves them from last to second place in Piscataquis County League, which stands as follows:

Team	Won	Lost	P.W.
Milo	3	3	769
C. P. R. Beavers	5	0	571

## Wash your clothes with GOLD DUST

Good soap washes clothes well—if you use enough elbow grease, but Gold Dust washes them more thoroughly—and with little or no rubbing. Gold Dust saves half your time, and spares your poor back.

Another great advantage of Gold Dust—use any kind of water you like. Gold Dust softens the hardest water and makes it soft as rain water.

Gold Dust is just a vegetable-oil soap in powdered form, with other cleansing ingredients added to make it work more thoroughly and quickly than soap ever can.

**AROUND THE CITY**

**No Word Yet.**

Simeon Jones, Jr., has not yet received definite word regarding the fate of his brother, Captain Jones, who went with the English forces to France, and who was reported missing a few days ago.

**Took Germans Away.**

Detective Duffy, of Halifax police department, was in the city yesterday He returned to Halifax with two German reservists, who are to be held there. Mr. Duffy was a former St. John boy, and was a cousin of the late Policeman O'Leary.

**At Valcartier.**

A letter received in the city states that No. 8 Field Ambulance Company which left St. John for Valcartier recently is now known as No. 1 Company. Dr. J. L. Duval of St. John west has been given command of section one of this company. The boys are all well and happy, the letter says, and wish to be remembered to St. John friends.

**Soldiers for Halifax.**

Fifty-nine men from the 71st York Regiment in command of Captain W. J. Osborne of Fredericton with Lieutenants Benjamin Wade of Penniac and Alva Good of Fredericton passed through the city last evening from Fredericton for Halifax where they will help to garrison that city. Twenty-nine of the men came originally from St. Stephen. The men formed up in the train shed last evening and marched to the Halifax express.

**Provincial Appointments.**

Ralph Brooks has been appointed a revisor for the parish of Southampton, York county. Louis Eford of St. Marys, and William J. Phipps have been appointed Justices of the peace. James O'Brien has been re-appointed a member of the board of school trustees, in St. Stephen. Cyril O. Dupuis has been appointed deputy registrar of deeds in the county of Westmorland in place of Patrick Hebert, who resigned. Neill McQuarrie has resigned as stipendiary police magistrate for the district of Andover and Perth, Victoria county.

**LAST RUSH TO SAVE STEFANSSON PARTY MARoonED IN ARCTIC**

Ottawa, Sept. 10.—Two expeditions have gone in search of the missing thirty men of the Karluk, Stefansson's vessel, which was wrecked in the Arctic Ocean, on September 4, the United States revenue cutter, Bear, started from home on her second attempt to reach Wrangell Island, where the sailors are believed to be marooned. Capt. Bartlett has gone with the Bear.

The second boat, the Corwin, has been chartered for the trip by Jafet Lindenberg, the founder of Nome and a personal friend of Stefansson. Lindenberg has wired the naval service department that he has provided the Corwin, which is a trading vessel with a first class crew, a party of hunters, an outfit of dogs and a number of skin boats. The boat is provisioned for a year.

This is the last rush before the winter ice closes in that northern sea to reach if possible those Karluk men who have been missing now for nearly a year.

The Mary Sadie left Hershell Island, on August 11 for Banksland to establish depots for Stefansson should he succeed in landing there from his floating island of ice.

**HON. MESSRS. HAZEN AND MORRIS AND MR. FOWLER ON INSPECTION TRIP**

Special to The Standard.

Newcastle, N. B., Sept. 10.—Hon. J. D. Hazen and Geo. W. Fowler, M. P., visited Newcastle this afternoon and were entertained and shown round the new bridge, wireless station, etc., by the Conservative committee and other prominent citizens. Hon. Mr. Murray also came today and with Hon. John Morley and other down river to inspect the oyster beds.

**LET US RECOGNIZE AN IMPERIAL LEGION WHERE**

Its object is to help the men at the front and their families at home.

The Standard has received a communication respecting a proposal to organize an "Imperial Legion," with a request that it may be published. It is as follows:

Organized by O. C. Imperial Legion, Headquarters St. John:

No. 1—Motto: "Pro Rege et Patria."

No. 2—Organization: The Imperial Legion is organized for the purpose of enlisting all and every one, who though unable to give personal service in the field are willing to stand the test of their patriotism and devotion to the Empire, by volunteering to join the "support" for the aid of sick and wounded soldiers, and the mothers, wives and children of the brave army who are freely making the great offer of their lives for King and country.

No. 3—Qualification: (a) Any one can enlist in the Imperial Legion who is willing to give up something for the Empire.

(b) It is not necessary to abstain absolutely. You can give up in whole or in part anything you select. Something to eat, drink, or to wear; cigars, cigarettes, sugar, candy, the theatre or bridge, and devote a part of the total amount saved to the Imperial Legion fund.

(c) No amount is too small. No amount is too large. The qualifications requisite are, the desire to assist and the strength and courage to make sacrifices.

(d) No one can become an active soldier of the Imperial Legion unless they are willing to make some sacrifice and devote all or part of the amount saved by their self-denial to the service of King and country; but donations will be gratefully received from any one who may desire to contribute.

No. 4—Officers: Following regulations will govern the appointment and promotion of officers: Any one enlisting 5 soldiers will be appointed corporal; an enlisting 10 soldiers will be promoted to sergeant; 15 soldiers to lieutenant; 20 soldiers to captain; 30 soldiers to major and 40 soldiers to colonel.

No. 5—Honorary Rank: Any one contributing \$100 or over will be appointed an honorary colonel of the Imperial Legion.

No. 6—Support and Reserve: To enable the men at the front to do their best they must be conscious of a strong "support" and "reserve." All cannot be in actual touch with the enemy, but do not be a coward and shirk your duty. Bailiff. Every one has a place. Cavalry, artillery and infantry, each have a special post on the line of battle. The army service corps, army medical corps and signallers, all have their allotted duty in a campaign. You have yours. If you cannot serve on the field, answer the trumpet call, enlist in the Imperial Legion and form a strong "support" and "reserve" to put heart and courage in the men on the firing line.

No. 7—Enlistment: Report for duty at once. Remember a very little effort may accomplish much. Your assistance may aid in winning a battle; your neglect may cause the loss of a life. Are you willing to disregard this opportunity to prove your loyalty? Are you willing to accept the responsibility of neglect? The great Napoleon once quoted:

"For want of a nail the shoe was lost. For want of a shoe a charger was lost. And for want of a rider a battle was lost."

If you cannot furnish a rider, at least you can supply a nail. Think it over carefully and decide quickly and loyally.

No. 8—Service Rolls: Service rolls will be forwarded to recruiting officers who will enroll a squad, or troop, in their district.

Note—Please mark these orders and send to a patriotic friend.

**LET US RECOGNIZE AN IMPERIAL LEGION WHERE**

Its object is to help the men at the front and their families at home.

The Standard has received a communication respecting a proposal to organize an "Imperial Legion," with a request that it may be published. It is as follows:

Organized by O. C. Imperial Legion, Headquarters St. John:

No. 1—Motto: "Pro Rege et Patria."

No. 2—Organization: The Imperial Legion is organized for the purpose of enlisting all and every one, who though unable to give personal service in the field are willing to stand the test of their patriotism and devotion to the Empire, by volunteering to join the "support" for the aid of sick and wounded soldiers, and the mothers, wives and children of the brave army who are freely making the great offer of their lives for King and country.

No. 3—Qualification: (a) Any one can enlist in the Imperial Legion who is willing to give up something for the Empire.

(b) It is not necessary to abstain absolutely. You can give up in whole or in part anything you select. Something to eat, drink, or to wear; cigars, cigarettes, sugar, candy, the theatre or bridge, and devote a part of the total amount saved to the Imperial Legion fund.

(c) No amount is too small. No amount is too large. The qualifications requisite are, the desire to assist and the strength and courage to make sacrifices.

(d) No one can become an active soldier of the Imperial Legion unless they are willing to make some sacrifice and devote all or part of the amount saved by their self-denial to the service of King and country; but donations will be gratefully received from any one who may desire to contribute.

No. 4—Officers: Following regulations will govern the appointment and promotion of officers: Any one enlisting 5 soldiers will be appointed corporal; an enlisting 10 soldiers will be promoted to sergeant; 15 soldiers to lieutenant; 20 soldiers to captain; 30 soldiers to major and 40 soldiers to colonel.

No. 5—Honorary Rank: Any one contributing \$100 or over will be appointed an honorary colonel of the Imperial Legion.

No. 6—Support and Reserve: To enable the men at the front to do their best they must be conscious of a strong "support" and "reserve." All cannot be in actual touch with the enemy, but do not be a coward and shirk your duty. Bailiff. Every one has a place. Cavalry, artillery and infantry, each have a special post on the line of battle. The army service corps, army medical corps and signallers, all have their allotted duty in a campaign. You have yours. If you cannot serve on the field, answer the trumpet call, enlist in the Imperial Legion and form a strong "support" and "reserve" to put heart and courage in the men on the firing line.

No. 7—Enlistment: Report for duty at once. Remember a very little effort may accomplish much. Your assistance may aid in winning a battle; your neglect may cause the loss of a life. Are you willing to disregard this opportunity to prove your loyalty? Are you willing to accept the responsibility of neglect? The great Napoleon once quoted:

"For want of a nail the shoe was lost. For want of a shoe a charger was lost. And for want of a rider a battle was lost."

If you cannot furnish a rider, at least you can supply a nail. Think it over carefully and decide quickly and loyally.

No. 8—Service Rolls: Service rolls will be forwarded to recruiting officers who will enroll a squad, or troop, in their district.

Note—Please mark these orders and send to a patriotic friend.

**CAMERON OF LOCHIEL TO COMMAND BATTALION OF HIGHLANDERS**

London, Sept. 10.—Great interest has been aroused at Inverness and elsewhere by the recruiting campaign of Cameron of Lochiel for a new battalion of Cameron Highlanders, to be commanded by himself. In the course of the campaign, the statement has been made that the Seventy-Ninth Cameron Highlanders of Canada had offered as a body, 500 strong. Sir Douglas Cameron, lieutenant-governor of Manitoba, and Sir Donald Mann have charge of the organization and transportation of the regiment in Canada, while E. R. Cameron, of Ottawa, registrar of the Supreme Court of Canada, who has been here on a visit, has been assisting in organizing in London. The recruiting has been approved of by both the Imperial and the Canadian authorities. The regiment was organized more than a century ago, and has a splendid record. Cameron of Lochiel is convinced that many Highlanders in the east and west of Canada would readily join, if a fair inducement was offered, but the suggestion is made that the Canadian government might render this possible.

**Rare Musical Treat.**

Mr. Christian Kriens, celebrated Dutch violinist-composer, will be heard in Centenary Tuesday, Sept. 22nd. Proceeds in aid of free kindergarten.

The value of a low capitalization as a producer of dividends is emphasized in the new advertisement of the Victor Fox Co., published elsewhere. Incidentally stress is laid upon the high class foxes they have. Altogether the Victor proposition looks good.

**Secretary of the Board of Trade Kept Busy Receiving Relatives of Soldiers — Will Provide Necessities.**

The officials of the Soldiers' and Families' Patriotic Fund have sent out letters to all the near relatives of the men who have started to the front, requesting that they get in touch with the committee and state their needs, so that an investigation might be made. As a result of this letter, the secretary of the Board of Trade was kept busy yesterday receiving members of soldiers' families. Most of those who believed they should be given consideration in the distribution of the patriotic fund, said added Mr. Connors, "Digby has built up quite a fleet of off-shore fishermen and they have done well. According to reports, some of the Digby fishing vessels made big money last year; in fact some vessels stocked enough to pay for themselves during the winter. Where Digby has made a success there is no reason why St. John, or say St. Andrews should not do equally well. Some years ago St. John had a few fishing vessels, but they were rather small, and probably did not do very well, as their operations were confined to the Bay of Fundy. That is a disadvantage to carry on the fishing business on a successful basis are vessels of from 100 to 150 tons, capable of working on the banks on the southern coast of Nova Scotia in the winter time. Most of the American vessels make their trips to the lesser banks by logging off the coast of Nova Scotia. The Digby vessels also make their catches on Brown, L'Anse and Cape Sable banks.

"Vessels can be built in this country as cheaply as in Gloucester, and there should be no difficulty in managing them. Many of the best skippers running fishing vessels out of Gloucester or Boston were at one time fishing out of New Brunswick ports on the Bay of Fundy or from Nova Scotia.

"Today there is a big market for fish in Canada, at certain seasons of the year some of the fish dealers in St. John have to import fish from the States, paying duty on their consignments. This is a condition we should strive to abolish. Vessels running from the Banks on the south shore of Nova Scotia can reach St. John almost as quickly as they can get into Digby, and from here to the big markets of Montreal and Toronto is a shorter haul than from Digby. St. John should be a fishing port of considerable importance, but it will not be so until the local fish dealers wake up to their opportunities.

"Speaking of the sardine fishing this season Mr. Connors said his company had been able to get enough sardines to keep his factory fairly busy, but the company had been obliged to pay the fishermen from \$15 to \$20 per net. This is a condition we should strive to abolish. **SAYS ST. JOHN COULD BE A FISHING PORT**

Lewis Connors Points to Possibilities of Industry — Should Be Success Fish Merchant.

"If St. John wants to establish a new industry its business men should take up the question of organizing a fleet of off-shore fishermen," said Lewis Connors, of Connors Brothers, Black's Harbor, who is at the Dufferin Hotel.

"If I had any money to spare I would put it in off-shore fishing vessels," added Mr. Connors. "Digby has built up quite a fleet of off-shore fishermen and they have done well. **OBITUARY**

Charles H. Oulton

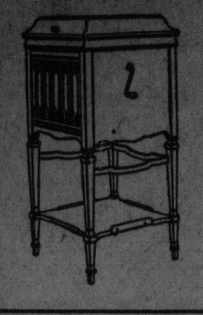

Mrs. F. A. Estey received word last evening of the death of her brother, Charles H. Oulton, in Philadelphia. Mr. Oulton was a son of the late Thomas E. Oulton of Westmorland county. He was formerly a resident of St. John but had been in Philadelphia for a number of years. He is survived by four sisters, Mrs. F. A. Estey and Mrs. C. F. Clarke of this city; Mrs. C. Knapp of Sackville and Mrs. Freeman of Joggins Mines, N. S. The late Judge Oulton of Sackville and the late G. A. Oulton of St. John were brothers.

**Strangers.**

A visit to the city was not complete without a call at F. A. Dykeman & Co.'s store. They are displaying all their new fall importation and are making an extra strong bid for new trade. Their enlarged premises and increased stock necessitates this. Strangers ought to ask to see their beautiful silk wares which are being sold at \$1.98 and which are worth \$3.50. Their assortment of ladies' ready made dresses of all wool serges and other material is very attractive. The prices run from \$3.75 to \$15.00 each.

**Edison Diamond Disc Phonographs**

We would like to have every visitor call at our Phonograph Dept. and hear the new Diamond Disc Phonograph, Mr. Edison's latest and greatest invention. The tones it reproduces are beautiful. The absence of surface noise and metallic sound is very apparent. The diamond does away with having to change needles which is a wonderful improvement. The records are double faced and will play longer, size for size, than any other make, owing to the extremely fine thread.

Make it a point to hear these instruments whether you want to buy or not.
