RECIPROCITY.

The Montreal Gazette remarks that

although Sir John Macdonald's statement

in his speech at Victoria that while

Canada is ready to conclude a reciprocity

of trade treaty with the United States

she will not solicit overtures to that

end on bonded knees, is not new, it

has the force and freshness of a

novel truth. Looking back for a score

of years there is really nothing in the

retrospect to warrant the opinion that

at any period the Americans were prepared

to meet us in a fair and friendly spirit.

For a time after the civil war our neighbors

harbored feelings of resentment if not

of positive bitterness towards Canada

because of the belief that Englishmen

had extended sympathy to the South

in that unfortunate struggle, and they

declined with brusqueness to even

seriously consider the renewal of the

then expiring reciprocity treaty. Twelve

years ago, after a lapse of time deemed

sufficient to salve the wounded feelings

of Americans, the Canadian Government

commissioned Hon. George Brown to

proceed to Washington for the purpose

of opening negotiations for a new treaty.

Mr. Brown succeeded to the extent of

drawing up an instrument, but upon its

submission to the Senate at Washington

it was rejected without even the courtesy

of serious consideration. After that

the Canadian Government could not wish

out of self-respect play the part of the

mediant and humbly beg the United

States to grant free intercourse of trade.

What was done tended rather to confirm

our neighbors in the attitude they had

assumed. Our markets were left open

to the manufacturers of the United

States, goods from that country were

dumped into Canada, and virtually there

might as well have been no customs tariff

so far as American producers were

concerned. In recent years a change

for the better has occurred. The present

fiscal policy has shut out, or at least

rendered more difficult of entry into

Canada the manufactured products of

Americans mills, but while conserving

our own interests the Dominion Government

provided by legislation for a reciprocity

in natural products, obtaining for

The British colonial delegates were

formally introduced on Friday, to Mr.

Stanhope, the new Colonial Secretary,

at the Colonial office. Sir Charles-Tupper

acted as spokesman. He congratulated

Mr. Stanhope on his accession to office,

and assured him that there had never

heretofore existed among the colonies

a stronger desire to cement their

union with the Mother Country than

there existed at the present time.

Their important questions pending

affecting Canada and Australia, and

requiring the attention of England and

earnest co-operation on her part. Eng-

land could always rely upon the cordial

co-operation of the colonies in all mat-

ters concerning her. The secretary

thanked the delegates for the honor of

their visit. He assured them he would

do his utmost to maintain the colonial

connections with Great Britain and

would never lose sight of the rights of

the colonies in any of the pending ques-

tions.

About the 1st May last, circulars

were sent out to volunteers who had

served in the North-West campaign,

asking them to make a selection of the

honorary land before August 1st. Of

5343 warrants issued by the Department

of Militia, 150 have not been re-

turned. Only 943 have been applied for

for homesteads, and the great majority

have accepted scrip. The following

shows the disposition of the warrants:

Number of land warrants from the De-

partment of Militia, 5343; scrip issued

and delivered, 3594; applications for

scrip passed and in course of prepara-

tion, 450; free homestead land war-

rants issued, 943; total, 4987; balance

unissued, 356. Of this 356 yet un-

issued the number may be accounted for

as follows: number not applied for,

150; blank militia warrants, 50; of

cases requiring special attention before

the issue of the double assignments,

166; total 356.

English politics are very badly mixed

at present. Mr. Chamberlain has de-

clared that he will oppose the Liberals

upon any subject which might have the

effect of returning Mr. Gladstone to

power, so long as the latter remains

unchanged on the Irish question. Thus,

if a characteristically radical measure

arises, Mr. Chamberlain cannot vote

against it, except at the risk of stultify-

ing himself, nor vote for it without

helping Mr. Gladstone's return. Lord

Sir John and the Knights of Labor.

At Victoria, B. C., on Saturday, Sir John

received a deputation of Knights of Labor

who presented him with an address in which

they recognized the ability and honesty with

which he had conducted the public affairs of

the Dominion and his sympathy with the

workmen, as evinced by his legislation, his

plans for the development of the country by

means of public works and by his general

policy. They complimented the Chinese

man as initial to the best interests of the

country and suggested changes in the Chin-

ese inspection law. They also proposed that

the Dominion should take the issue of bank

notes in its own hands, as the loss on bank

notes was a tax on the people, eastern bank

notes being subject to a discount, and the

Canadian bank notes being subject to a simi-

lar discount in Eastern Canada.

Sir John replied that the Chinese men-

chans here had waited on him, complaining

that the law respecting their nationality

worked injustice to them, and that he would

like the deputation to supply him with full

particulars before he left, so that he might

thoroughly understand the whole question, as

the desire of these men was to have the

labor of the country should be in the most

advantageous condition in its struggle

with the labor of the world. He thanked them

for their kind reference to himself and Lady

Macdonald.

The delegation withdrew, highly pleased

with their reception, and promised to supply

the particulars he wished.

The St. John's Colonist of July 29, after

copying the reports of starvation in that

Colony, says: "Most of the people of this colony, who read

this despatch, will regard it as a 'good

sell' on the newspaper abroad. If we had a

proper regard for the honesty of the press

we would express our indignation and horror

at such monstrous falsehoods. If this thing

permitted to go on, and false news would be

so easily and so successfully spread, it would

be a disgrace to the press of the world. It

is a pity that there is no law against it, and

that the press is not more strictly con-

trolled. It is a pity that the public is not

more generally educated, and that the

press is not more generally respected. It

RIOTING IN IRELAND.

Many Persons Killed and a Great

Number Wounded.

Marital Law likely to be Proclaimed

in Belfast.

The news from Ireland for the past several

days, has not been of a very encouraging

nature. A Dublin despatch of the 8th inst.,

received from Belfast this evening, related

soldiers, some of them being on furlough,

summoned by bugle in the streets and

were despatched in haste to Belfast by special

train. A body of 200 dragoons and infantry

were sent for Belfast at four o'clock to-mor-

row morning. The police of Belfast will be

supplemented by the military.

MEXICO'S FIGHTING STRENGTH.

Able to keep in the field about a

Quarter Million Men—An efficient

organization.

Should the United States be compelled to

whip Mexico into compliance with her inter-

national obligations, the task would be a

much more arduous one than people appear

to suppose. Mexico has fought her way to

a federal constitution. She defeated the

French invading army of about forty-eight

thousand men. She speedily put down the

monarchical conspiracy to establish an em-

pire within her borders, and has succeeded

wonderfully during the last ten or fifteen

years in consolidating her political institu-

tions and in organizing a most efficient, well

equipped army.

Mexico contains at the present time a

population of over eleven millions. It is

one of the most fertile of the world, and

it is not to be forgotten that this same

land has produced some of the most famous

fighters of the world. It has produced

such a host of heroes that it is difficult

to name them. It has produced Cortez,

LETTERS FROM THE PEOPLE.

A Word from "Fireman."

To the Editor of the Farmer:
Sir—I hope the public will not be deceived by the fact that the "Fireman" has been put up for sale. The "Fireman" is a paper that has been published for many years, and it is a paper that is well known and respected. It is a paper that is full of news and information, and it is a paper that is well worth reading. It is a paper that is well known and respected, and it is a paper that is well worth reading.

We don't buy any paper, and we can only thank our friends for the "Fireman". We always try to do the good will of them and the public generally, and hope to have a large attendance to-morrow. Please give us a visit to this paper and office.

Yours truly,

The press excursion, arranged by Secretary Lagrin, will give a large number of New Brunswick journalists a chance of seeing many sections of the Province heretofore practically unknown to many of them. Should the scribbles write up the trip after the fashion of Western journalists, there is no reason why a large number of them should not have a genuine immigration boom, at an early date.

A motion to enforce the Scott Act and indirectly the officers, made at a previous meeting of the Montreal Town Council, provoked a warm discussion at the meeting of the Board on Monday. The majority of the members thought it would be unwise to proceed with the enforcement of the act, and especially to indemnify, in view of the fact that the year's term is about expiring, and money has been voted by the city fathers as required by the act of incorporation. An amendment was finally passed to the effect that if the officers in public meeting authorize the indemnification the Council would proceed. It is thought unlikely the election will take place.

EXTRAORDINARY SCENES.

At the meeting of Shareholders of the Nova Scotia Cotton Factory.

The Repeal Issue Again.

Some extraordinary scenes took place at the meeting of shareholders of the Nova Scotia Cotton Factory last Thursday.

The report showed a profit for the year of \$11,000, notwithstanding the low price of cotton, and looked hopefully upon the future.

Three hundred men are running, with 250 hands at work on full time, and the production is three per cent of the production of the Upper Province.

It was stated that the Nova Scotia Cotton Factory, the action of the Windsor and Moncton mills, but strong hopes are entertained of a new expansion of the factory.

P. P. made a violent attack on the directors. He charged them with concealing information from the shareholders, and asserted that the whole of the factory was getting on at a lower rate than outside purchasers could.

These charges were heartily repudiated by the directors, and indignantly denied by the Nova Scotia's cashier, Mr. Fyche, who did not want the details of the accounts to be made public, and asserted the whole of the factory was getting on at a lower rate than outside purchasers could.
