CATTLE SHOWN AT WESTERN FAIR IS OF FIRST QUALITY

Breeders Are Competing.

Many Herds That Won Prizes at Ottawa and Toronto Are Here.

The exhibition of fine cattle is one which is an abounding credit to the Western Fair. There is no exhibition in Canada, nor, for that matter in the world, which can surpass the Western in the quality of the stock shown. In places-at the Toronto Industrialthere may be more cattle entered, but in the quality, those at the Western are unexcelled. Some of the very finest herds in America are housed in the comfortable and commodious sheds which the directors have provided. While speaking of the cattle sheds it might not be amiss to mention here, one particular which is causing no little dissatisfaction among the exhibitors. They nearly all complain quite bitterly about the whitewashing which has been done there. This, it is understood, was done to disinfect the sheds after they had been used as remount stations; but the owners of cattle say that the whitewash rubs off upon their stock, and not only injures their appearance, but is positively harmful as well. The owners have said, many of them, that they will not show again under the same circumstances, but before coming to this conclusion, they should remember that it is the desire of the board of managers to do everything that they can to increase the satisfaction of exhibitors with London's great annual fair, and they will certainly remedy any existing evils.

GOOD CHAIRMAN IN CHARGE.

Fortunately for the Western Fair, and for live stock men in the districts which send their cattle to be shown here, the chairman of this department, Mr. Charles Trebilcock, is practical farmer. He thoroughly understands what the men interested in this class of exhibits want; he is perfect sympathy with them, and has the work of his department at his finger-tips. Mr. Trebilcock takes all possible pains thoroughly to satisfy the live stock men, and the very gratifying results of his efforts were never more apparent than this year. It is in large measure due to his work at the Toronto fair that the number of entries this year is as large as it is, There is one matter which at present is keeping some of the finest herds in Canada away from the Western. It has already been before the board, and will no doubt be considered by the directors again. It is the question the number of passes which shall be given to exhibitors. Many of them believe that they should get three, where they now get two, so that they would be able to get their meals away from the grounds. This has been re fused them in the past. It is for this reason that the herd of W. C. Edwards, of Lachine, the millionaire lumber-man, is not at the Western. If it is it is a matter of the utmost importance to the Western Fair, and is one which should not escape the notice of the board.

A great amount of interest is being displayed in the Jerseys-the beautiful cattle whose reputation as dairy cattle is unapproachable. The very best herds in all Canada are now at

Some of Canada's Most Noted Queen's Park. It is purely a Canadian show, no Americans being entered this year, and no visitor to the fair should fail to see the magnificent pure-bred stock shown at the north end of the sheds. Many of the most noted breeders in the Dominion are among the exhibitors. Mr. W. J. Laidlaw, of Wilton Grove, has nine head of as pretty cattle as one could wish to see. Mr. Laidiaw is an old-time exhibitor, whose loyalty to the Western is unshakable. In his herd there are several prize-winners. Messrs. Edward Edmunds & Son are two other wellknown breeders whose herd of six need no mention to anyone who knows anything whatever of well-bred Jerseys. They are especially proud of their St. Lambert breed of cattle. Among the Jerseys also will be found a particularly fine aged bull, the property of Mr. Trott, the well-known breeder. The nificent herd of B. H. Bull & Son are beyond comparison in this class. It onsists of 21 animals. Messrs. Bull & Son belong to Brampton, and they have the distinction of owning the largest herd of Jerseys in Canada. They are fine animals and are of choice breed. Both at Toronto and Ottawa, this herd won many prizes.

The Menie stock farm, of Menie, Ont., which is owned by Messrs. Wm. Stewart & Sons, has sixteen head of very fine stock, all of modern Ayrshire breed. In the Hickory Hill Ayrshire herd there are about fifteen herd, of well-bred cattle, which are owned by Mr. N. Dyment, of Clappison, Ont. Mr. W. Watson Ogilvie comes all the way from Rapids farm, near Montreal, to some 21 head of very fine imported cattle. His herd comprises a number of exceptionally fine animals. Mr. G. G. Anderson, of Sarnia, has one very fine animal on exhibition. Among the Holsteins, Mr. A. Cameron has a fine herd of ten, which he brought from Pine View farm, at Westwood, Peterboro County. Much attention is being paid to Mr. G. W. Clemons' herd of seventeen Holsteins, which were bred at Maple Hill farm, Mr. Clemons' beautiful place at St. George, Ont. At Toronto, this herd took four firsts, seven seconds, four thirds and two fourth prizes. Rettie Bros., of Norwich, have sixteen Holsteins entered. The Maple Hereford stock farm has thirteen splendid animals entered, all pure-bred and winners at Toronto of the sweepstakes first prize for herds. In this herd, there is one particularly fine cow, which not long ago was one of the herd of Shorthorns owned by Queen Victoria. The pride of the herd is a magnificent bull, a 2-year-old, which weighs 1,965 pounds. Goodfellows Bros.' eleven head of fine Shorthorn stock is considered by good judges to be one of the finest herds shown. It won four firsts and a second and the gold medal at Toronto. The herd owned by George Fletcher, of Erin, comprises thirteen head of very fine animals. One of the prizes which Mr. Fletcher thinks a great deal of is a second prize for aged bull won at the Toronto fair. Ottawa, Sept. 16.-With \$500 of his employer's money and his neighbor's wife, J. W. Martin, a farm hand of Canton, Lawrence county, N. Y., skipped to Canada on Thursday last. On Saturday afternoon about 2 o'clock the parties were located in the Brunswick Hotel by Detective Dicks. Martin was arrested and placed in charge of Deputy Marshal Millar, of Lawrence county, who had come to the city in the morning.

Martin admitted his identity, and waived extradition proceedings, returning to his American home with the officer on the evening train. He had \$350 of the money left, which he turned over to the local detective, who handed it to the New York State officer. The woman was allowed to shift for herself, and returned to Canton on the

same train. "I was tired of home life," remarked Martin, who is a married man, in explanation of his flight. His partner has been married about two years, and gave her age as 19. Neither she nor Martin have any children. The couple on Thursday proceeded from their homes at Canton to Ogdensburg, 12 miles distant. They crossed the river to Cornwall, and from that town

came to Ottawa. The case was reported to Deputy Marshal Millar, who traced the couple to Cornwall. There he learned that they had bought return tickets for Ottawa. Although he thought this was a bluff game, he enlisted the co-operation of the local detective department

by wire.
Detective Dicks took charge of the case, and by inquiring at the different hotels succeeded in locating the couple. When in Cornwall Martin had given fraternal delegate only. the name of Williams. In Ottawa, Admission was refused the delegates however, he reverted to his correct name. He and the woman had expended \$150 of the stolen money in purely an association of employes, and clothes and dress goods. She was considerably agitated when approached by an officer, but Martin accepted the situation in a philosophical manner.

CANADIAN TRADE CONGRESS

Eighteenth Annual Meeting of Dominion Trades and Labor Congress.

Berlin, Ont., Sept. 16 .- The eighteenth annual session of the Dominion Trades and Labor Congress opened yesterday forenoon in Berlin with an attendance larger than ever tween 150 and 200 delegates were in attendance, coming from Prince Edward Island in the east, to Vancouver in the west. President John Luft, of the Twin City

Trades and Labor Council, extended the labor men's welcome to the delegates, and Dr. Honsberger, acting mayor, the civic welcome. Greetings were conveyed by Dennis Driscoll, Boston, from the American Federation of Labor, and brief addresses were delivered by Vice-President John A. Flett, of Hamilton, and

Ralph Smith, M. P., president of the congress. The credential committee was appointed and the actual work of the congress opened in the afternoon. Questions Answered.

SECKERTON .- A woman married in 1873; had been married before to a farmer, who when he died, owned a farm, on which his widow remained; married again, and her second husband worked it till 1881; when he tired of that life, and wanting to leave, he sold at auction his half of all the farm stock. The woman bought in her share and kept on working the farm. He went away, leaving three children for whom he made no provision. Soon after that the first man's heirs sold the farm, the wife got her share and bought another farm of 100 acres. Her husband came back then and promised to stay at home and work the farm if the woman would give him fifty acres in his name. This was done, but he paid no money on it. After a few months he didn't want the farm and signed off his claim. He went away again and has given no support to his children ever since, about 20 years ago. At the woman's death, can he claim any of the farm, or the property, provided she leaves a will giving it to her children? Ans.—No. She can sell it or give it away during her lifetime or dispose of it by her will. He can will, and not having disposed of it

TECHNICAL EDUCATION

Prof. Dewar's Address Caused flore The Harvest Late-Probably Some Excitement Than Army Maneuver: .

London, Sept. 15 .- Prof. Dewar's address before the British Association has caused more excitement in England than the revelations of German military science at Frankfort-on-the-Odor or Mr. Chamberlain's conference with the complaining Boer, generals. Prof. Dewar is one of the most eminent men of science of the day, and is a great authority on practical chemistry. His tribute to the superior training of the German universities in chemical work and his demonstration that great industries have been taken away from England owing to the lack of education among the so-called educated classes have made a deep impression. It is a most formidable indictment of English educational processes, andn is enforced by a plai statement of the magnitude of the commercial losses attributable to it. Prof. Dewar's deliberate confession and specialized equipment which England could not attain without two generations of hard and intelligent work is the highest compliment which the fatherland has received for many years. Nobody supposes that progressive countries like the United States, Germany and the British colonies will stand still during the next two generations.

MITCHELL TALKS ABOUT THE STRIKE

creased-Collieries in Panther Valley Resume.

Indianapolis, Ind., Spt. 15.-In an interview over the long-distance tele- their homes in the darkness of the phone today, President Mitchell, at night by a raging forest fire, which Wilkesbarre, said: "I cannot predict swept everything before it from Riel, when the anthracite strike will be Cowlitz County, Wash., to the foot of settled. If anything is being done Mount St. Helens, a distance of 25 towards a settlement by the other side, I do not know of it. Nothing towards a settlement was accomplished at the Harrisburg conference between | ness. Gov. Stone, of Pennsylvania, the presidents of the three anthracite districts, myself and others, who have been try-ing to end the strike. We simply met and discussed the causes and progress of the strike. There is no foundation for the report that the men are to return to work on a promise that the operators will make concessions and arbitrate afterward. The miners would not return to work under such an arrangement." Mr. Mitchell declared that the men are

CONFIDENT OF WINNING, and that there have been no desertions among the strikers. "I am certainly very hopeful now that the strike will be ended in our favor," he added. The big defense fund that is being collected at the national headquarters in Indianapolis, Mitchell said, is proving sufficient to relieve the distress in the region. About 25,000 miners have left the region since the strike began, leaving about 130,000, he explained.

WHAT MORGAN SAYS. New York, Sept. 15 .- Mr. Morgan was asked this afternoon whether there was anything new in the strike "Nothing," he answered. Does any significance attach to your conference with Mr. Widener?" he was asked. "None whatever," he said. Mr. Widener said: "There has been no conference on the strike situation today between Mr. Morgan and myself, and I have no statement whatever to

OUTPUT INCREASED. Tamaqua, Pa., Sept. 15 .- The Greenwood colliery at the western end of the Panther Creek valley resumed operations today. It is impossible to learn how many men are at work. Beddall Bros. say, however, that they expect to wash about 300 tons of coal a day. Today the Lehigh Coal and Navigation Company claims gains in the Panther Creek valley. An official of this company said that it was expected that the daily output from the No. 4 and No. 12 collieries would now be increased from 1,400 to 1,800 tons a day. The leaders of the mine workers ridicule the claims of the company. They say there are no more men at work today than there were

last week. ITALIANS HELD UP. Wilkesbarre, Pa., Sept. 15.-Two Italians, John Divino and Antonio Dizzi, employed at the Old Forge mine of the Pennsylvania Coal Company at Old Forge, Pa., were held up by 50 Italian strikers as they were returning from work this morning. Both were clubbed and stoned. Several were clubbed and stoned. shots were fired, and a striker is reported to have been shot in the leg. Divino had to be removed to the Pittston, Pa., hospital. Dizzi was able to walk to his boarding house. In the Wyoming region the coal companies did not make any attempt 12 o'clock. A telegram was received to start any additional collieries. The

washeries that were in operation last week are turning out the usual amount of coal today, but all the big mines HELP FOR STRIKERS. APPALLING DEVASTATION. The first news of the devastation was brought to this city by Milo M. Dimrick, who experienced many difficulties in making the trip to send aid to the sufferers. He reached here last night. From his description the sufferng there is great and the devasta-tion is the most appalling of any that has been reported. For a stretch of 25 miles he says there are but two houses standing. The fine timber on which these people expected to realize has all been destroyed.

TERRIBLE SURPRISE. The fire came upon them in the night and entirely unexpectedly. "I had scarcely time to get to the river myself," said Dimrick, "when the flames were upon me, and if I had undertaken to save anyone else, we ferences.

would not have escaped."

While immersed in the river, Dimrick saw one of the grandest but most appalling sights of his life. "Great balls of fire would roll up like cannon balls," said he, "and then burst at a mighty roar. I have never heard a noise to compare with it." As soon as the fire had passed over him he rushed to a neighbor's house and found that the family had been driven from home and had escaped death. When morning came he set out to bring in relief. The bridges were all burned, the roads were obstructed with a few years ago, and its return by trees which had fallen across them, so that his progress was very slow.

Conference May Make It Four Years Instead of Eight.

Changes in the Order of Service Are Not Popular.

Winnipeg, Man., Sept. 14.-The Methodist general conference was in session Saturday morning from 10 to from T. F. Nellands, mayor of Van- that at Kingston, Ont. couver, inviting the general conference to hold its quadrennial session in that city.

The following telegram from Trinity Church, Toronto, to the general superintendent was read: "Proposed official on temperance badly needed, and especially in cities. Busy men have no regular time for watch on tactics of liquor traffic trade. We, of Trinity Methodist Church here, now fighting against a liquor license in vicinity, sadly feel need of an official."

An unusually delicate question is just now supended before the Methodist general conference, awaiting further discussion and solution. It is in the form of a recommendation from the committee on itinerancy and transfers, that the term of the general superintendent should be made four years, instead of eight, at at present. The eight-year term of Rev. Dr. Car-man, the present superintendent, has just expired, and the election of a new official takes place, along with other officers, on Tuesday afternoon, There is not much doubt as to Dr. Carman's re-election this time, but there are some who feel that at the end of four years honors should be divided some-

what. The matter was debated earnestly for three hours on Saturday, though the end was not reached. An amendment, providing that there be three general superintendents, the other two being the secretary of missions and secretary for education, was offered, and is before the conference. There is a report current that another amendnent, providing for two general superintendents, will be moved, with fair prospect of being accepted as a com-

Among other matters brought up was the decision to appoint a commission to consider the revision of the baptism and marriage rituals, also a decision not to change the order of church service. DISCIPLINE COMMITTEE'S RE-

PORT.

The report from the committee on discipline, presented by Mr. N. W. Rowell, Toronto, dealt with a large number of memorials. Non-concurence was recommended and adopted in several, proposing different methods of election of general conference delegates. It was decided to repeal paragraph 74 of the discipline of 1898, relative to the reception of ministers and probationers from other churches. A conference committee on Sabbath Observance was recommended and accepted.

Amendments offered that service open with a hymn instead of the Doxology and that the Lord's Prayer be used as the invocation were lost, and the item carried after Dr. Carman had suggested that the first sound of service be the minister's words, "Let us worship God." Damage by Frost.

Winnipeg, Sept. 15.-A bulletin on crop conditions in the Northwest Ter-ritories up to Sept. 1 has been issued by the territorial department. In reporting the matter to the commissioner of agriculture. Mr. Charles W. Peterson, the deputy, writes: The leading feature of the crop situation is that the harvest is late. A frost occurred at the latter end of August, which was general throughout the territories, and while reports sent to the department do not indicate that any damage has been done to the grain crops, there can be no doubt that at the time the frost occurred there was a considerable acreage of crop in a condition very susceptible to injury from this cause. There is, therefore, a strong probability that crops on heavy lands, especial ly in low situations, have been more or less affected. As indicated in the last bulletin, about 24 per cent of the grain in the principal wheat districts

large extent counteracted this defect by causing the heads to be particularly well filled. The official crop bulletin of the territories places the yield as follows: Wheat, 14,649,500 bushels; oats, 10,725,-

500 bushels; barley, 844,000 bushels.

Canada's Wealth Is the Soil.

The impetus given the country by the bountiful harvest this year is a reminder, which some politicians appear to need, that Canada is above all things an agricultural country. When the farmer is prosperous, so is the manufacturer, the merchant and the mechanic; a bad year for the farmer is a bad year for everybody. A few years ago statistics were given to show that agriculture was becoming relatively less important-that the wealth derived from the soil, while absolutely increasing, was decreasing in proportion to the total annual production of all forms of wealth in this country. The calculation will have to be revised in view of the migration of settlers to the Canadian Northwest and the certainty that millions of virgin acres will be brought under the plow within a few years. The annual product of the farms of this country is greater than that from all other sources combined-the mine, the workshop, the forest, the fisheries. Agriculture will always be our basic industry. Yet some would have us believe that the very existence of this country depends upon this or that fiscal policy, as if it created the indestructible riches of the ly enter the United States. A consoil. There are two great services a government may do for the farmer, keep his taxes down and insure him cheap transportation for his products. The prices of nearly all his products are fixed in the markets of the world and his chief concern in the fiscal policy of the country is in having it bear as lightly upon him as possible. For eighteen years our system of taxation had no reference to agricultural interests, but was designed to foster manufactures, by levying higher prices on domestic consumers, the burden of necessity falling principally on the farmer. . If population is a test, the progress of Canada distinctly slackened during that time. It was a period of almost uninterrupted depression in It isn't the thing you do, dear, and it was impossible that other branches of industry should flourish when the great foundation industry did not. The past few years, however, have been exceedingly prosperous for husbandry, and while this accompanied by a great development, a revival in lumbering and the rise of a new iron and steel industry, it is primarily to the abundant harvest and the growth of the Northwest that the present progress of the country is owing. A Liberal with more enthusiasm than judgment might ascribe this to the policy of the Government. All that the Government has done and could do has been to lighten to some extent the burden

King was a Whitechapel waif, one of scores who are yearly taken from the slums of London by benevolent agencies and a burning one unless there is a settletransported to this country. These children undergo a period of probation in institutions kept up by these agencies before they are sent to private homes. The boys generally go into farm work, the girls into domestic service. Many of them come from respectable stock, but many are of depraved parentage, reared in vicious surroundings, and it is a question to what extent heredity prevails over the good influences to which they are afterwards exposed. Now and then people hear of one of these "home boys" committing a serious crime and jump at the conclusion that it is a case of congenital tendency and that they are dangerous as a class. On the whole, however, the testimony is that the great majority of these poor lads are well conducted and grow up into useful manhood. The Barnardo and almilar institutions have been at work many years; many hundreds of their charges have been placed in Canadian homes, and the results do not justify a wholesale indictment of them, such as is often made. This is not saying that heredity does not assert itself in individual instances-the young man King may be an example-but it is too much to argue that the same instincts are necessarily latent in all of them. At the same time the agencies sending out these children should exercise the

In Memoriam. [Alfred Tennyson.]

Ring out, wild bells, to the wild sky,
The flying cloud, the frosty light:
The year is dying in the night;
Ring out, wild bells, and let him die.

Ring out the old, ring in the new,
Ring, happy bells, across the snow:
The year is going, let him go;
Ring out the false, ring in the true.

Ring out the grief that saps the mind For those that here we see no more; Ring out the feud of rich and poor, Ring in redress to all mankind.

Ring out a slowly dying cause, And ancient forms of party strife; Ring in the nobler modes of life,

Ring out the want the care, the sin, The faithless coldness of the times; Ring out, ring out my mournful rhymes, But ring the fuller minstrel in.

Ring out false pride in place and blood, The civic slander and the spite; Ring in the love of truth and right, Ring in the common love of good.

Ring out old shapes of foul disease; Ring out the narrowing lust of gold; Ring out the thousand wars of old, Ring in the thousand years of peace.

A Reputation and Popularity That Is Well Deserved.

PAINE'S CELERY COMPOUND

The Great Life-Saving Medicine Is Spoken of in Millions of Homes.

In every city, town and village of this North American continent you will hear Paine's Celery Compound spoken of, and you will find men and women who, through the Compound's virtues, have found health and new life. People made well and strong delight in telling others what Paine's Celery Compound has done for them. The friends who speak for and recommend nature's life-giver, do more to advance the reputation of earth's best medicine than all the newspaper notices that appear from time to time. The majority of diseases that bring misery and death can be quickly and permanently cured by Paine's Celery Compound. The wonderful medicine has a noble and bright record. It makes the rheumatic, dyspeptic, nervous, sleepless, weak, rundown and those tormented with blood diseases strong and well. If you are weak, nervous or suffering from disease that baffles your physician, test the life-giving and health-building powers of Paine's Celery Compound.

Frost in Ohio.

Cleveland, Ohio, Sept. 15 .- The Government thermometer at the weather bureau here last night registered 42 degrees above zero, the lowest point ever reached during the first half of September since the establishment of the office 30 years ago. There was a light frost, which it is believed did but little damage. Reports received at the local weath-

er bureau indicate that the frost was general throughout the state and extremely heavy in the southern part.

I kept on getting worse and worse until at last I was so weak I could scarcely stand." In these words Mr. Theodore Young, of this place, describes his condition before using Dodd's Kidney Pills. He

is now well and strong and says: "After using the first box of Dodd's Kidney Pills I was somewhat improved and when I had used four boxes I was able to go back to work, which I had not done for some time previous. I can conscientiously recommend Dodd's Kidney Pills as a cure for Bright's Disease, as had it not been for this remedy I fear I myself would never have been well again."

CHICAGO.
Chicago, Sept. 15.—Reactionary influence from Saturday's slump was at work in graims today. This was a condition somewhat unexpected, for it was generally from Saturday's slump was at work in grains today. This was a condition somewhat unexpected, for it was generally supposed that Judge Chytraus' decision in the oats case on Saturday would bring out long grains. Traders were somewhat in the dark as to whether they dare do any business in futures at other than cash prices, and as a result outside business was scarce. Business was largely in the hands of local traders, and the nearby futures were let severely alone because of their premium in general over cash prices. The further deliveries, however, seemed to have been oversold on Saturday, and because of their seeming cheapness in comparison with spring figures, prices were worked higher in most commodities. At the close September wheat, December wheat and December corn were all %c higher, September corn were all %c higher, September corn was %c down, and December oats a shade off. January provisions closed 2½c to 7½c up. Local receipts of wheat were 24s cars, 7 of contract grade; Minneapolis and Duluth reported 1,260 cars, against 903 last week and 2,411 two days last year. Primary receipts were 1,778,000 bu, against 2,915,000 bu two days last year. Estimated receipts for tomorrow: Wheat, 400 cars; corn, 470 cars; oats, 335 cars; hogs, 17,000 head.

THE FAIR HOSPITAL. The Western Fair hospital is proving of great service. Yesterday the hospital staff treated two cases, both children, one of whom had received a bad cut and the other a fracture caused by a fall from a fence. Today a case of syncope was treated, the subject being a woman from out of town. Dr. Knox Niven is in charge of the hospital today, and has as his assistants two very capable nurses.

EXCELLENT EXHIBITS.

A Wonderful Invention.

Men who visit the Western Fair this year will have an opportunity of seeing a marvelous invention, which, even at the present time, is revolutionizing mechanical methods. It will be found at the exhibit of the Toronto Roller Bearing Company, of Toronto, in the machinery building. In this age, the invention of a power-saving device is an event of great importance to the the most remarkable inventions of the time that this company draws attention, and will be pleased to exhibit and carefully explain to all who visit their display. The roller bearings which they are showing have produced nothing short of wonderful in their saving of power. Their value will be better understood and appreciated when it is known that thhe Grand Trunk Railway Company, which never adopts a new invention until it has been thoroughly tested and proved, is now using these roller bearings, and they carry at times weights of 70 tons while in use on this system. The exhibit, well arranged and nicely equipped. The power of their roller bearings is abundantly shown. In one place ed on these bearings, which is turned by a single silk fishing line. In another place they have a shafting mounted on roller bearings, and on the shaft are three wheels-one on roller bearings, one on ball bearings, and one on ordinary brass journal bearings. The ball and journal bearing wheels turn with the shaft, while there is not enough friction to turn the roller bearing wheel, yet if it is given a turn by the hand, it will run for 20 minutes in the opposite direction. total weight of this shafting and the wheels is 600 pounds, and it is driven around by a silk thread. To show that the end-thrust on the rolls has been properly taken care of, the company has a wheel weighing 200 pounds, mounted on a perpendicular shaft. By giving this wheel a turn with the hand, it will run for 30 minutes. It is truly a remarkable invention, and with this display on the grounds, no Londoner visitor to the city should fail to see it, and understand its workings. Mr. R. J. Henderson is manager of the company and is in charge of the display. He will be pleased to show the

new invention to anyone interested.

Nordheimer's Fine Display. not fail to pay special attention to the and is a most valuable addition to any beautiful exhibit of the Nordheimer Piano Company, which may be found in the northeast corner of the main

the east entrance. The exhibit is beautifully arranged organ, has the very same quality in a large room, which is hung in a very pretty shade of green and illuminated by incandescent lights in pearly globes, which lend a soft glow ing-room, and for these is undoubt-

to the whole. Among the special features of the Nordheimer exhibit is a magnificent mahogany piano, beautifully inlaid with boxwood, and of very rich and full tone. This piano is the only one of its class in the whole exhibition and is well worth seeing and hearisg. Another elegant piano of crotched mahogany adds to the attractiveness welcome all visitors. of the exhibit, while even the regular styles of the Nordheimer Piano Com-

pany have a beauty of their own. While viewing this exhibit ask to hear the Chase & Baker piano player, which no home should be without. Nobe without music when this may be attached to any instrument and played by anyone, no matter how little knowledge of music he Skilled musicians are present to de-

monstrate the fact that the Nordheimer piano is the richest and fullest in tone and the most beautiful in style of any piano at the exhibition. Spectators of the fair cannot do better than visit the Nordheimer exhibition, where those in charge will be delighted to show their instruments to all, whether intending to buy or not. A specially selected stock in these styles will be found at the Nordheimer warerooms at 188 Dundas street, where every class of music and musical merchandise may also be pur-chased. The Nordheimer Company are giving away during fair week some valuable books of popular songs.

Blue Ribbon Tea.

One of the first exhibits to be seen on entering the palace at the western entrance is that of the Blue Ribbon Tea Company, and the sweet aroma from the brewing of the favorite beverage is one of the first pleasant sensations which the visitor has on entering. This firm has taken advantage of this opportunity of putting the merits of their goods before the people for many years, but never before have they prepared such an artistic exhibit as the one which attracts so much attention in the palace this year. Mr.

F. J. Biewett, who represents this com-

Cowan's Chocolate.

The exhibit of chocolate, cocoa and coffee manufactured by Messrs. Cowan & Co., of Toronto, in the east end of the main building, attracts much attenfamous, this enterprising firm always make it a point to occupy considerable space in the main building at the Western Fair, and this year their exhibit is more extensive and attractive than ever. Cowan's not only have one of the prettiest booths in the building, but have taken considerable time and gone to much expense in order to put before the people a very interesting display of every line or goods manufactured by them. Mr. J. B. Whaley the western representative this firm, and has charge their exhibit. The demonstrators brought to the fair by Messrs. Cowan & Co. are both charming and obliging, and are always pleased to wait upon those who call. This entire exhibit of the purest chocolate for household and other purposes has been purchased by Edward Adams,

& Co., wholesale grocers, of this city. Magnificent Pianos.

One of the most magnificent displays of any kind in the main building is the piano exhibit of Heintzman & Co., the world famous manufacturers. Their beautiful quarters were arranged and are in charge of the popular manager of the London store, Mr. J. A. Croden. No one need be told to visit this display, because it is so decidedly attractive that it cannot be missed. Mr. Croden is showing here the celebrated Harmonist, which, when heard playing, cannot be distinguished from the playing of an accomplished artist. Mr. George E. Coleman, merchant tailor, after thoroughly investigating all piano players, purchased the Harmonist, now on exhibition. The classic designs and marvelously pure tone of these pianos are well known. Mr. John Pringle, manager of the Bank of Toronto, selected one of the beautiful Duchesse style yesterday. It is one of the most classical masterpieces produced by this comcompany has a decidedly attractive pany in recent years, and is a facsimile of the special piano made for the Duke and Duchess of York for their tour in Canada. Miss Fitzgerald, of this city, selected one of the splen-did Ionic design, which has won the esteemed patronage of many of Canada's best artists. Intending purchasers would do well to visit this fine display and read future notices of their magnificent instruments.

Mason & Risch Pianos.

Immediately to the left on entering the main entrance of the palace, one sees the handsome exhibit of the Mason & Risch Piano Company, attractive both to eye and ear. The pianos are arranged as in a drawing-room, the walls hung in crimson and the hard maple floor spread with handsome

There are many beautiful instruments on exhibition of quarter-cut oak, Circassian walnut, Spanish mahogany and French burl walnut, making as a whole one of the handsomest exhibits in the building.

Among so many fine pianos it is diffi-

ult to make distinction, but unquestionably the gem of the collection is a magnificent Baby Grand in Spanish mahogany, which for tone and touch cannot be surpassed by any make.

Another feature of the Mason & Risch exhibit is an elegant Pianola, Visitors to the Western Fair should which can be attached to any piano, household since it can be played by the youngest and most unskilled musican.

A most attractive instrument to all building immediately to the right of interested in church music is the Vocalin, which takes the place of a pipe tone, and costs only about one-third as much. The Vocalin is just the thing for a small church or the drawedly the only interpreter of sacred

Competent musicians are at the exhibition to display the tone and quality of any instrument to visitors, whether intending purchasers or not. The Mason & Risch Company carry the very same class of goods at their

In the Art Exhibit.

The work of Miss Florence Woodman, several of whose pictures have been hung at the fair, is attracting an unusually great amount of attention, and is certainly worthy of special notice. Among the more notable pieces are "Yellow 'Roses," "Peaches and Brass Kettle," and a portrait in oil. Among Miss Woodman's paintings, which were awarded first prizes at the Toronto Exhibition were "Grief" (figure), "Pink Roses," and a still-life piece. In all, Miss Woodman took five prizes at the Industrial and eleven at the Western Fair. She is a pupil of Miss Florence Carlyle, and much of her work in oils, water colors and china is to be found in many of the artistic homes of London. Miss Woodman undoubtedly has a brilliant future before her.

TALES OF LONDON TOWN

-Alf. Delamater, who is well known in this city, is the manager of the "La Voyage en Suisse' Company. The weekly meeting of Wellington

Street League last evening was in charge of the literary committee. An interesting address was given on the influence of the religious paper.

-Rumor says that the president of the Erie Tobacco Company, whose factory was burned down at Kingsville recently, is desirous of rebuilding in London. The company gives employ-ment to 300 people and has a capital of \$300,000.

-Miss Charlotte Carmichael, who has just completed a post-graduate course at the New York School of Exphysical culture (Swedish) and elocution at her studio, 326 Dundas street. Miss Carmichael makes a specialty of physical training for young girls, and has also arranged for evening classes. GAVE SUPPER TO MR. COX.

The members of the St. John's Athletic Club last evening gave a supper to Mr. A. B. Cox, who recently returned from a trip to the old land. The affair proved a most enjoyable one. POLICE COURT.

Six months in the Central prison was the penalty imposed upon John C. Finnell, found guilty last week of stealing a girl's watch and money. He was unable to furnish proofs of his previous good character, and the address he gave in Cleveland proved to be a false one. Several drunks were fined or remanded.

A FAIRY TALE, SAYS ALD. COOPER.

Ald. Cooper was greatly annoyed at the fair grounds this morning about the story which was in circulation yesterthat he had been refused admission to the park. He says that he was not near the grounds on Sunday and cannot understand how such a story could originate. .

CHALLENGE TO ATHEISTS. In the course of his sermon on Sunday evening, the Rev. Mr. Howson, of the Askin Street Methodist Church, challenged any atheist in London to meet him on debate on a public plat-

form. Mr. Howson believes that every professed atheist, no matter how strongly he may deny it, has felt at some time in his life that there is a FUNERAL OF MRS. BEATTIE.

Mrs. Andrew Beattie was buried yesterday at Pond Mills cemetery. The He was content to let this small detail funeral was held from her late resi- take care of itself while he devoted dence, Westminster, and was very largely attended. Rev. EXCITEMENT IN THE EAST END. Once a year Queen's Park is the scene of industrial activity and ex-citement, and this week will be no exception. A few minutes' walk from the check for \$1,000. buildings is the new survey, "Home-Hurst," which has just been surveyed into choice home building ject, and I am willing to give you a lots, and is creating considerable excitement among home winners. The ask for, but on one condition only." fair comes once a year, but the opportunity to get lots in this survey at subdivision prices only occurs once in a lifetime. It is understood that negotiations are now pending for the purchase of a piece of land adjoining the 'Home-Hurst" for the erection of a furniture factory. If arrangements are another factory will be added to the east end, which is fast becoming the popular location for the

A RELIGIOUS CENSUS. At the meeting of the Ministerial Al-Hance yesterday a committee consisting of Revs. J. G. Stuart, C. C. Owen ing of Revs. J. G. Stuart, C. C. Owen, T. S. Johnston and C. T. Scott was appointed to consider ways and means of taking a religious census of the city, so as to inform the alliance to what extent a non-church-going population exists. The matter of regular public service at the hospital under the direction of the alliance was left in the hands of the hospital committee and the chaplair. The only religious service present held at the hospital is that

Successful Opening at London Opera House.

A large audience greeter Rowland & Young's Bijou Comedy Company at the London Opera Company last night, the occasion being the opening of the house for the season. The bill was "Dad's Girl," and its presentation afforded the audience general satisfaction. The company is a well-balanced one, and the different roles were given their proper value. Among those worthy of mention were Messrs. Young and Rowland, Wm. Dyer, Joseph Bills and Miss Marjie Adams. Between the acts clever specialties were introduced. The leading lady, Miss Marjie Adams, was presented with a beautiful bouquet of roses. During the week the following plays will be presented: Tuesday, "Fogg's Ferry"; Wednesday matinee, "M'liss"; Wednesday night, "Under Marriage Licenses issued at above ad-Two Flags"; Thursday, "Golden Giant Mine"; Friday, "Monte Cristo"; Saturday matinee, "Wanted—A Wife"; Saturday night, "Uncle Josh."

"Le Voyage En Suisse" at the New Grand.

"Le Voyage et. Suisse," at the Grand Opera House last night, failed to please the large audience which assembled to view it. The piece itself is like the other Hanlon Bros.' productions, a meaningless but entertaining hodgepodge of music, specialties, pantomime and illusions. The company is a good one, but the presentation failed because of the apparent inability of the house orchestra to play the musical accompaniment. So futile were their efforts that the company's musical director, Carl Hand, finally dispensed with their services, and played the music on the piano alone. Another point of complaint was the stage management. The company carry four trained stage hands, but the settings are so many and so complicated as to require the assistance of capable local hands. This assistance the company's men failed to get from the local staff, and the result was anything but satisfactory to either company or audience. A distinct improvement must be made before the show can hope to please patrons during the week's engage-

"SAN TOY" NEXT WEEK. "San Toy," the melodic operetta, will be seen at the Grand, Thursday, Sept. It will be presented by the Augustin Daly Musical Comedy Company, the pioneer organization in this line in America. The company producing "San Toy" is very much the same as that which made such a decided hit last season. Among its members are Elgie Bowen, Nellie Lynch, Isobel Hall, Norah Lambert, Sam Collins, George K. Fortesque, Hobart Smock, Joseph Canto, Sarony Lambert, Nagle Barry

WINFIELD SCOTT STRATTON. Colorado Springs, Col., Sept. 16 .-William S. Stratton, the Bonanza min-

Sunday night.

The search for the world's greatest store of gold was cut short by the death of Winfield Scott Stratton, Colorada's bonanza king. Up to the time of his death Mr. Stratton was to procure legislation against the liquor traffic, he spoke hopefully of the future and expressed the opinion that the spending \$50,000 a month in sinking a prohibition of the traffic was the shaft into the heart of Battle Mountain. Colorado, in order to lay bare the mother lode of precious metal this work been successfully consummated the son of a poverty-stricken boat builder, himself for many years a carpenter, would have died unquestionably the richest man in the world. Two Young Ladies Lose Their Pittsburg, Pa. Lives While Boating.

Toronto Woman Badly Burned-Three Fishermen Missing.

Port Hope, Ont., Sept. 16.—One of the saddest drowning accidents in years happened here last night, when Miss Annie Hadden, daughter of Capt. James Hadden, and Miss Annie Trewin, daughter of Mr. Trewin, of this town, lost their lives while boating outside the harbor. There were four young ladies in the boat at the time of the accident—two Misses Hadden, Miss Flo Embleton and Miss The young ladies were apparently trying to make a landing at the steps on the east side of the east pier when the accident happened. All were standing upright in the boat hold-ing on to the edge of the pier, when the boat shoved out, precipitating all four into the water. John Fox, a young man, who was close by, managed to rescue two of them, but before he could get the remaining two out of the water they were drowned.

He looked surprised at thus finding himself upon a highway, while a little way below him he espied a horse and carriage drawn up upon one side of it, under the shade of a large tree.

There was a lady sitting in the carriage alone, and leaning back among the cushions as if either weary or ill.

The horse was very restless, for the files were worrying him, but though the lady held the reins and spoke to him soothingly from time to time, he was still very impatient.

Thinking that his assistance might be required. Rich advanced and saw that the lady was evidently an invalid.

She had very dark, glossy hair, large.

"The files are very troublesome," Rich

observed, stepping up to the horse and brushing several of those tormentors from his sleek coat.

"Yes, they have troubled him ever since we started this morning. We are since we started this morning. We are traveling in our carriage, because I am not able to endure the fatigue of a public conveyance. But what a lovely little basket you have there! and where did you find those rare lichens?" she asked, her eyes brightening as she caught sight

of Rich's treasures.
"I gathered them on the mountain side, "I gathered them on the mountain side, and they are very pretty, I think." Then he added, as the horse became still more restive: "There is a weed that grows along these mountain roads that will keep the flies off. May I get some and put it in the bridle?"

"Yes indeed do if you are willing to take the trouble," she responded, eagerly. "I have suffered all the morning to see our poor Prince in such torture."

Wild knocked out Paddy McMahon also in the first round of a hurricane bout. All were local men.

The men entered the ring at 9:35. seconds for Carter were "Bob" Armstrong and "Kid" McPharland, for Ryan, Harry Peffers and Bartley, of Binghamton. Geo. Siler, the veteran Chicago referee, was introduced as the official for the main bout.

Round 1-The gong called the men to the center of the ring at 9:37. Carwhich on a reef south of Cardiva ter at once began edging Ryan into the Island (one of the Maldive Islands in corners. Carter swung left twice and was blocked. Ryan swung right hard on the ear and followed with left on ered. Part of her crew has been the neck. Carter did not seem disturb-brought to this port. The captain and ed, and tried right for the head Prop ducking. Carter put a heavy right over Ryan's heart, and "Tommy" swung both hands to the head. Carter missed two vicious right swings and kept boring in. Ryan First Attempt opened at odds of 6 to 1, jabbed a right to the face and put right on the body. It was a very fast

> Round 2-Carter came up bleeding slightly at the mouth from the effects of Tommy's jabs. The "Kid" went in with heavy swings for the head and body and he evidently hurt Ryan every time he landed. Ryan put a right on heavy, and Carter seemed somewhat bewildered, but they clinched and fought away. Carter put a stinging left on the jaw. Tommy laughed and danced back. There was a world of force in every blow that Carter struck. Ryan was clearly Carter put a heavy left on the solar plexus, and Ryan complained that the blow was low. Carter put 1, 3. They finished the round as if it was the last minute of the bout, swinging heavily for the head.

Ryan took his corner tired and Carter was groggy. Round 3-Ryan put all his force in a right over the kidneys and then sparred away. Carter chopped Tommy on the jaw. Coming out of a clinch, Carter forced Ryan about the ring, hitting heavily, but not well placed. Ryan was tired, but using great generalship. Carter put right and left on the head and uppercut with right. Ryan fought back like a wildcat. A glancing blow from Ryan's left to the head nearly sent Carter down. They were mixing savagely for a time. Ryan was weathering the storm the better of the two, and while tired, smiled at his friends over Carter's in the closing clinch. Round 4-Ryan began jabbing and playing for the body. Carter tore in the with heavy swings, and made Ryan les: fight. Repeatedly Ryan ducked just inside blows that would have ended the fight. Tommy sent the Kid's head back with a left jab, and a little later slapped him twice smartly over the eye with the left. Ryan began

from cuts on the face. Just before the close a left to the jaw stopped Carter for a moment. Round 5-Carter went right into his

man, and, although banged up about the face, made the fighting. In the opening scrimmage a left to the jaw staggered Carter. Ryan put a low left on Carter, but the claim of foul was not allowed. They were soon mixing hotly again, and Ryan's ring generalship showed all through the exchanges. Carter's heavy smashes were blocked or ducked, and Ryan opened up the cut over Carter's eye. Ryan was stabbing his man very rousty in the face as the round closed, but a heavy right to the body and a left to the head worried Ryan a bit. Both sent heavy right swings across, and Carter took his corner very tired and his face crimson with the blood from his cuts. Round 6—Ryan came up with right to the stomach. Ryan put right and left to the face. Carter seemed to be losing his steam. Carter put left on the head and right on head, but Ryan jabbed him repeatedly in the face, and catching him napping floored him with a heavy right to jaw. Car-ter got up with the count of nine, dazed, and Ryan, watching his opportunity, put another heavy right on his bleeding countenance, and Carter fell heavily again. Once more he gamely struggled to his feet, but another heavy right to the jaw sent him flat on his face on the floor of the ring, and Referee Siler assisted the knocked-out man to his feet and led him to his corner.

CAUSE OF DISASTER.

The explosion was caused by an accumulation of gas catching on fire from the lamp of a miner who was going to work. This in turn fired six kegs of blasting powder that had been knocked down all of the brattices for a quarter of a mile back towards the mine entrance, thus cutting out the air from the men imprisoned in the

There was a small gas explosion in the mine Sunday last, and Mine Superintendent Stuart had cautioned the men not to attempt to work again until the air had been tested by a safety lamp, but they disregarded his orders and went in.

A party headed by Mine Inspector Cooper attempted a rescue this morning, but was driven back by the want of air. It is now learned that coal is burning and there is no hope of extinguishing the flames until a Batteries-Wiltse and Robinson; Orth new air passage can be built to the point of the explosion.

In June, 1899, nothing having been done, Mr. Bartran charged the city in the police court with the offense of common nuisance, and fourteen witnesses were examined, but objection was taken by Mayor Rumball and the city solicitor that the city could not be prosecuted except by indictment. Mr. Bartram contended that the examination in the police court was preliminary to indictment. Mayor Rumball then, on behalf of the city, obtained a prohibition from Mr. Justice Ferguson to the po-lice magistrate. The high court sustained the order for prohibition. No action to repair the street having been taken since Mayor Rumball left the chair, Mr. Bartram applied to the attorney-general to direct an indictment by the crown counsel at the present assizes. The attorney-general referred Mr. Bartram to the amendment to the code which provides that an indict-ment may be preferred when the charge has not been sent for trial by a magistrate, either by direction of the attorney-general or by order of a judge of a criminal court, and he preferred that the judge should determine the question; hence the present appli-

PE-RU-NA IS A HOUSEHOLD SAFEGUARD.

No Family Should Be Without It.

ERUNA is a great family medicine. The women praise it as well as the men; it is just the thing for the many little catarrhal ailments of childhood.

The following testimonials from thankful men and women tell in direct, sincere language what their success has been in the use of Peruna in their families: Louis J. Scherrinsky, 103 Locust street, Atlantic, Iowa, writes:
"I will tell you briefly what Peruna

has done for me. I took a severe cold, which gave me a hard cough. All doctors' medicines failed to cure it. I took one bottle of Peruna and was well. "Then my two children had bad coughs, accompanied by gagging. My wife had stomach trouble for years. She took Peruna and now she is well. "I cannot express my thanks in

words, but I recommend your remedy at every opportunity, for I can comscientiously say that there is no medicine like Peruna. Nearly everyone in this town knew about the sickness of myself and family, and they have seen with astonishment what Peruna has done for us. Many followed our example, and the result was health. Thanking you heartily, I am," L. J. Scherrinsky.

Mrs. Nannie Wallace, Tulare, Cal., president of the Western Baptist Missionary Society, writes:

"I consider Peruna an indispensable article in my medicine chest. It is twenty medicines in one, and has so far cured every sickness that has been in my home for five years. I consider it of special value to weakly women, as it builds up the general health, drives out disease and keeps you in the best of health."—Mrs. Nannie Wallace.

Peruna protects the family against coughs, colds, catarrh, bronchitis, catarrh of the stomach, liver and kidof catarrh of the bowels as it is a case of catarrh of the head.

At hinge and hasp assailed the gate;
A dozen with a crowbar wrought.
Until, if you'd been there, you'd thought
The thing was coming tumbling down

Till, yielding to the elves' attack,
The gate flew open, bang-ker-smack!
The Brownies poured into the park
And overran the buildings dark.
They viewed the pumpkins and the corn,
And, sure as ever you were born,
One elf, more agile than the rest,
From grand stand roof the band addressed.
At last they tired of the sport.
And well they did, trust my report;
For in the east small darts of light

FACTS FOR

One of the things which a business man should ask himself with reference to advertising before he sends it to the newspaper is the very important one "Is it true?" Does the advertisement represent the store in its proper light? Do the articles have the qualities claimed for them? Will the purchaser find any reason for complaining of the honesty of the merchant, if the goods are bought and taken home for use: There are many important things which ought to be considered in this matter of writing an advertisement, but the truthfulness should stand out conspicuously as a feature of the merchant's talk.

The Waggoner Ladder Co., Limited. As at the Toronto Exhibition this exhibit excites great interest. It is situated at the south end of the "Midway" and its tall and short ladders form a striking object. These Waggoner extension ladders are made to pull up with a rope to double height, and, being reinforced with steel wire, combine lightness, strength and handiness in an extraordinary degree. Their growing popularity is shown by the fact that their sales at Toronto were more than double those of last year. Farmers, painters, tinners, applemen, etc., should not fail to see this exhibit. Mr. Henshaw, who is in charge, is glad to show the goods. Visitors are invited also to call at the factory, corner York and Colborne streets, city.

THE MOST POPULAR PILL.—The pill is the most popular of all forms of medicine, and of pills the most popular are Parmelee's Vegetable Pills, because they do what it is asserted they can do, and are not put forward on any fictitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate nor gripe, and they give relief in the most stubborn cases.

The Peruna Medicine Company, Columbus, Ohio:

Gentlemen-"l am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy.' Very respectfully,

George H. White.

Peruna is an internal, scientific, systemic remedy for catarrh. It is no palliative or temporary remedy; it is thorough in its work, and in cleansing the diseased mucous membranes cures

the catarrh. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

The jury suit of Doan vs. Taylor, in | Serious Loss of Life Resulted From Forest Fires in the West.

> Portland, Ore., Sept. 16.-Twenty lives have been lost, and it is roughly estimated that property worth \$1,500,-000 has been destroyed during the past week by forest fires in Oregon and

Many more persons are missing, but it will not be known how many are dead until reports from remote districts come in. The estimate of the property loss does not include standing timber, but covers sawmills, houses, barns, shops, cordwood and farm implements. Thousands of acres of timber have been burned over. The fires have nearly burned out, and this morning the smoke cleared away so that the sun was visible most of the afternoon.
