Halifax, N.S., March 29.—The owners of the Albano, that collided with the teamer Parisian on Saturday, have libeled the Parisian for \$60,000. They also are asking for an appraisement of the Albano, alleging that in libeling her for \$150,000 the Allan Line have asked for a bond for far more than the

value of the steamer. The pumps in the Parisian's engine room have reduced the water in that part of the ship by twelve feet. It is said that the Parisian is "hogged" that she lies on a reef on the botom of the dock, and her keel has become

bent by the strain. The investigation into the cause of the collision ordered by the Dominior Government began today. Capt. Johnston, Chief Officer Collins, and Third Officer Griffiths, of the Parisian, were examined, and also Rev. Dr Kirkpatrick, a passenger. The gist of their evidence was that the Parisian was at a standstill, and that for reasons unknown to them the Albano rar them down. #### CONCESSIONS TO FINLAND

## S'and Over Until 1908.

St. Petersburg, March 30. -- The Emperor has given an answer to the petition of the Finnish Diet, asking that all imperial decrees since the one of 1899, which, it is claimed, are in contravention of the organic law of Finland, be withdrawn or submitted for the approval of the Diet. These included the military conscription act, the manifesto of 1899 placing the imperial interests in Finland under the Russian authorities, the manifesto of 1900 providing for the use of the Russian language in the principal departments, the irremovability of judges, the employment of Russians in public departments, the restriction upon the Senate's part in the administration, and the concentration of the executive power in the hands of the governor-

general.
The Emperor in his decision conthe conscription act until 1908, when whole question will be submitted to the diet, and in lieu of military service Finland will have to pay a contribution of \$2,000,000, in the same way as the Mussulmans of the Caucasus pay instead of furnishing recruits. In this Russian Admiral Comments on His Majesty's Agent Arranges matter the Emperor went beyond the recommendations of the Russian Senate, to which the question was submitted, and acted upon the advice of Prince John Obolensky, the governorgeneral of Finland, who favored a con-cession to Finnish public opinion. The Emperor also conceded the point of the irremovability of judges.

St. Petersburg, March 30. — 12:30 p.m. — In view of the present agitation throughout the country some of the newspapers are seriously alarmed at the effect of the recent pastoral address of the metropolitan of St. Petersburg, M. Antonius, as being a direct incitement to the ignorant peasants to begin a war of extermination against the entire educated class, and the papers are demanding that the metropolitan and the Holy Synod, whose mouthpiece it is assumed Antonius was, take immediate measures to counteract the effect of his statements. Prince Mestchersky, editor of the Grashdanin, denounces the sermon as the most dangerous utterance of the century, and pictures the inevitable impression produced on the ignorant religious-minded peasants of a damnation from the altar of the "Intellectuals," as being the foes of Russia, bloody wolves and followers of the anti-Christ of the west, who would destroy holy temples, place sacred bones in anatomical museums, and wean the people from their chance of entering the kingdom of heaven. Might Follow Adoption of Mr Chamberlain's Fiscal Policy.

London, March 29. - In the House of Commons tonight, Mr. Osmond-Williams (Liberal), offered a motion declaring that, in the opinion of the House, grave injury would be caused to the shipping industry and other dustries dependent thereon by the adoption of the fiscal changes proposed by Joseph Chamberlain. Both the mover and Mr. Denny, the seconder of the resolution, referred to he condition of the United States hipping and shipbuilding as an argu-

and shipbuilding would be ruined by Mr. McIvor (Conservative tariff re former), opposed the resolution on behalf of the shipping interests of Liverpool. Immediately after making his speech Mr. McIvor left the House He pointed out that United States duties on shipbuilding materials were bursed in respect of vessels built in the United States for the foreign coasting United States for the foreign coasting trade. He said the reason the United States did not build more ships was because of the higher wages prevailing in America.

n America. Mr. Rea (Radical), in responding, said that witnesses before the shipping commission at Washington had testiommission at Washington had testified that drawbacks on shipbuilding material were illusory, and he asserted that statistics showed that Great Britain was not losing her position in the

shipbuilding world. James Bryce (Liberal), declared that t was time the suspensions of ministerial vitality should cease. The only consolation for these grotesque per-formances was that the Government was making itself so ridiculous that it must be nearing its end.

Mr. Osmond-Williams' motion was adopted without division. The Opposition will have its inning on April 12, when Mr. Tuff (Unionist), will introduce an anti-home rule resolution, which, it is understood, will condemn the utterances of both Liberal and Nationalist members on home rule. It is stated tonight that the Liberals will refuse to participate in the debate of and division on the

### RIGHT **PRESCRIPTION** FILLING.

There are several important features peculiar to our prescription service. We keep absolutely everything that doctors prescribe, and there is no temptation to substitute. All our drugs are fresh, pure and potent. We buy the best always, and our prescription business is so large that nothing has a chance to get old, and our prices are always reasonable.

There is no disposition on the part of ability, to discuss a question without the Liberal members of the Ontario dealing in personalities and infusing Legislature to harry the Whitney Government during the present session, although they have plenty of opportunities, of which they will later avail sarcastic things about Mr. Sifton, Mr. themselves. The Conservative party Bourassa, and Sir William Mulock, but pursued a negative course in Opposition, declaring against nearly every important measure emanating from the Liberal party. The new Government finds little or nothing to change and is obliged to confirm legislation which which he was a member refused to ac-Mr. Whitney and his followers in former Legislatures more or less vehemently opposed.

Mr. Preston, of South Brant, scored the administration Tuesday, in a goodnatured vein, by citing a few of these inconsistencies. In 1900 there was a bye-election in Welland, and there was considerable feeling in the town of Niagara Falls over the tardiness with which electrical development was proceeding on the Canadian side. The Ontario Government was accused of hampering the development by exacting onerous terms from the company which had acquired the only franchise granted up to that time. Mr. Whitney, Mr. St. John and Dr. Pyne, addressing a meeting at Niagara Falls, in behalf same thing," he adds, "but I do not of the Conservative candidate, catered to local sentiment by denouncing the at all say that I will ever do the same "restrictions" imposed by the Government upon franchise-holders; Mr. may arise after this." Why? Because Whitney going so far as to say that the people in 1896, 1900 and 1904 "de-Niagara power should be "as free as air." He would allow anyone to harness Niagara for commercial purposes free of cost. Fortunately for the Province, the Government refused to throw away these priceless privileges, but granted a limited number of franchises under conditions which will yield a handsome public revenue, and guarantee that no more water will be diverted than is needed, at the same time reserving power sites for the use of the public, if the municipalities or the Provincial Government should at some future time deem it expedient to enter policy of coercion; therefore, he doesn't into the business of generating power. The State of New York adopted Mr Whitney's idea by making a present of the falls to a group of corporations. said to be a trust, which threatens to drain the cataract dry. Development has been slower on the Canadian than on the American side, but the State of New York is repenting at leisure its improvident policy, while the Province of Ontario is reaping a handsome profit from concessions which its neighbor ernment which was angling for the flung away. Mr. Whitney has no intention of redeeming his promise, and would probably prefer not to be reminded of it, now that he is in a position of responsibility and no longer "as free as air."

Mr. Preston was also inconsiderate enough to remind the present Provincial Treasurer of his attempt, while financial critic of the Opposition, to cut the succession duties in half. Conservative members of the Legislature and Conservative newspapers have fulminated against these duties calling them confiscation and plunder, but the Whitney Government will doubtless find a pretext for maintaining them. The right-about-face of the Conservative party on the question of railway taxa- But what about paying newspaper tion was likewise adverted to by the member for South Brant. In the last session the Opposition supported the assessment bill, which enabled municipal ues to impose greater taxation or rail ways. Subsequently the Opposition, in the hope of trapping the Government, offered to vote for the Pettypiece bill, an entirely different measure. The Opposition has since become the Government, and is in no hurry to pass the Pettypiece bill or deal with railway

taxation in any other form. It is not pleasant for the new Government to be confronted with these things, but the Opposition is entitled

## Mr. Foster on the School Question

There has been much curiosity as to he manner in which Mr. Foster, who lent his efforts toward coercing Manitoba into restoring separate schools in 1896, would pose as a champion of provincial rights today. It seems impossible for Mr. Foster, with all his

needless venom into his speeches. He is disputatious rather than augmentative, and his effort yesterday was characteristic. He said many biting and any arguments he advanced were incidental. He defended his attitude in 1896, holding that the Federal Government was constitutionally obliged to grant remedial legislation, but he did not explain why the administration of cept the compromise offered by the Government of Manitoba and afterwards accepted by Sir Wilfrid Laurier. "Whatever may be said about what took place in 1896," he said, "I approached that question and the Govern of which I was a member approached it against the wishes of many of our best friends, not because we thought we had a political cinch in prospect, not at all; but knowing that in all probability we were going down to our political death, but doing it because we thought we were under a constitutional obligation." But Mr Foster is not now the unbending constitutionalist he was in 1896. "Under

legislation." Harken to this: "And I make bold to say that as long as grass grows and water runs I do not feel disposed to go against that will, three times expressed, of the people of this country. In plain English Mr. Foster says that the Roman Catholics of the country, the 41 per cent, refused to back up the Conservative Government in it propose to risk "going down to political death" for the constitution or anything else. This is reminiscent of Sir Charles Tupper's naive confession that he counted on Quebec to return him to power in 1896, and that Quebec having failed him he washed his hands of the school question. The difference between Mr. Foster in 1896 and 1905 is that he was then a member of a govthe member of Parliament for North Toronto, where the Orange lodges are

# Red Rose

Because it is tested by skilled tea tasters.

Tea tasting can well be called one of the fine arts. A man who can taste several hundred cups of tea a day, and, by his keen senses, detect the slightest difference between them, and who, blindfolded, can tell where each and every tea was grown, not only the country, but the particular district, and often the very plantation -such a man is the professional tea taster.

The head man in my tea room, Mr. W. R. Miles, is a master in his profession. He learned the business in London, Eng., and is a tea taster by right of birth, as both his Father and Grandfather were tea tasters. It came natural to him and he is recognized as one of the

best judges of tea in America. He and his assistants do nothing but taste the teas,

and superintend the blending. RED ROSE TEA is the result.

### AGAINST MONROE DOCTRINE

German Press Object to the Policy of President Roosevelt.

Berlin, March 28. — An active cru-sade against the Monroe doctrine has been revived by the German and especially by the Pan-German press. The Ultimate Choice in Pianos. All knowledge is the result of experi-

lives until our earthly career is closed, we are constantly, unceasingly, experimenting, for it is only in this way we reach the ultimate good in anything. He who enjoys good music, good painting, good literature, has attained his capacity for enjoyment by experiment while even our gastronomic likes and The Whole System Is Polluted dislikes are the result of experience. The man of musical taste selects his and Undermined - Consumption piano by experiment; he hears all the standard makes and finally chooses an instrument that has the best tone, the most even touch, and the most durable construction. Keepers of a Disorderly House Get Their Deserts - Two Frequenters Go Down.

Joseph Woods, who pleaded guifty to charge of keeping a disorderly house, received a lecture from the police magistrate this morning that was probably one of the most deservedly severe that has been handed out in a long time. Woods was first asked to plead to the charge of selling liquor after hours. The crown attorney, however, stated that while he believed Woods to be guilty of the charge, he had no evidence to offer against him. The magistrate therefore dimissed the charge. Woods stated that he had nothing to say why the sentence of the court should not be passed upon him in regard to the other charge. The magistrate stated the man's position clearly. He was making his livelihood by the most disgraceful method possible, and he had brought his wife down as low as he was. Under the bylaw he would fine him the heaviest amount possible, which was \$50 with an option of spending 21 days in jail. His wife was fined a like amount, but was

able of. He is shifter than ever, and his Dyspeptics Should Begin Right by Using Smith's Triple Cure.

> The first point in the treatment of dyspensis is to remove the cause - to cure the catarrh which causes the dyspeptic condition. When your stomach is strained from overwork, when you eat too much and too often, you must provide relief by removing the burden. Chronic dyspepsia or indigestion in the majority of cases is due to catarrh of the stomach. Smith's Triple Cure cures dyspepsia because it cures catarrh wherever located. Its use is the first step toward a cure. Begin right by first removing the cause. Smith's Triple Cure will always do this because it takes off the strain; it puts the stomach and digestive organs in a healthy condition. It cleans the mucous membranes and keeps them healthy, so that catarrh cannot exist or find lodgment. The mucous membranes protect the interior of the body just as the skin protects the outside. As long as the mucous membranes are healthy and clean everything works right -digestion and assimilation are normal. Now, suppose the mucous membranes become congested, ulcerated, can-kered and covered with foul secretions. You know the gastric glands and functions would soon become diseased. Catarrh and dyspepsia would soon rob your system of vigor and your nerves of strength. Now use Smith's Triple Cure and note the change. The mucous membranes soon lose their congested, angry and thickened appearance and the ulcers and can-ker heal. That's the first step toward curing dyspepsia and catarrh. Smith's Triple Cure will do this for a dyspeptic or catarrhal stomach, will remove the cause, make the digestion natural and healthy, enrich the blood and establish harmonious action of the digestive organs. All dealers sell Smith s Triple Cure, price 50 cents, each package a full two weeks' treatment, containing four separate

## DEATH OF A CLERGYMAN

Rev. P. W. Jones, of Oll City, Succumbs After Two Months' lilners.

An old and respected Methodist minister, Rev. P. W. Jones, of Oil City, died yesterday afternoon after an illness of about two months. Death was due to hemorrhages attendant upon a general break-up of the system. Mr. Jones was born in Copenhagen, Elgin County, 65 years ago. For the past 38 years he had been one of the most valued members of the London Conference of the Methodist Church. He is survived by his wife, two daughters and two sons. The funeral will be held at 8 o'clock on Saturday morning from the parsonage in Oil City.
