General Attack Imminent.

Russian Cavalry Completes a Brilliant
Raid, Though Losing Several Hun-
dred Men Before Getting Through—
Were Forced to Leave Their Wounded
on the Field—Rojevsky is to
Force Togo's Hand by Fighting.

Tokio, May 25.—Bulletins from the
Manchurian war field yesterday after-
noon and evening indicate that the pre-
liminary stages of the long-looked-for
battle are under way north of the Sun
River. Four different points, each of
them widely separated, are touched in
the bulletins and cover the operation
of the troops up to Tuesday evening.
It is clear from one bulletin that a
considerable Russian force of cavalry
which was compelled to retreat south-
west on Monday night has not yet es-
caped from the Japanese lines. This
division was attempting to make its
way north on the right bank of the
Liao River on Tuesday morning, and at
that time was fighting at a point south
of Tatum, seventeen miles west of Fak-
uman, the headquarters of the Japa-
nese left army.

The bulletin announces that 200 dead
and wounded cavalry were abandoned
in the night across the Liao River. This
is the force composed of seven squad-
rons which last Saturday night at-
tempted to get in the rear of the Japa-
nese left army, and since has been
fighting with several detachments of
Japanese troops.

The Russian Story.
Gunhu Pass, May 25.—Engagements
are general along the entire line. Re-
connaissance in force southeast, and
southwest have pretty well deter-
mined the position of the Japanese army.
Lieut.-Gen. Rennenkampf's forces are
returning from a brilliant raid on the
extreme left. The cavalry penetrated
the enemy's lines southwest of Fak-
uman, but at a cost of several hundred
men. On the attempt to return from
the southwest three squadrons of cav-
alry were cut up and finally had to fight
their way across the enemy's lines, being
unable to carry their wounded.

Forced Japs to Retreat.
A Russian detachment of 1,500 mixed
troops on Tuesday night made a
successful attack on the Japanese
trenches built on the heights north of
Chengtu, just east of the railway,
forcing the Japanese from the north-
eastern trenches and thoroughly disclosing
their positions there. On the left flank
of the Russian army an advance by
eight Japanese battalions with three
guns was on Tuesday stopped just
south of the Village of Salshe. Fur-
ther on the extreme east a counter
force of Siberian infantry and cavalry
seized the villages of Shachou and
Szasheishou, forcing the Japanese to
retire across the Gortu River. At this
point all the Russian lines are intact
and several detachments have defeated
small columns of the enemy.

Jap Artillery Moves.
The Japanese artillery is moving up
on the centre and a general attack is
imminent. Russian cavalry reconnoit-
ering the Japanese position southwest
of the railway and twelve miles north
of Fakuman was compelled yesterday
morning to retire before a superior
force.

Chinese bandits are active on the
Mongolian border.

WILL FORCE BATTLE.

Rojevsky is To Force Togo to
Come to Sea Fight.
St. Petersburg, May 25.—Admiral
Avelan, head of the Russian Admiralty
Department, confirms the Associated
Press dispatches saying Vice-Ad-
miral Rojevsky is planning to give
battle to Admiral Togo. He con-
sidered it possible that news to the
effect that the two fleets have met
may be received any day.

"Do you anticipate a sea fight soon?"
the admiral was asked.
"Certainly. The Japanese cannot af-
ford to allow Rojevsky to reach
Vladivostok without an engagement. I
personally expect it to take place in
the near future, though I admit the
Admiralty knows nothing of Rojevsky's
strategy or plans, the Emperor
having accorded him complete free-
dom of action. In response to a sug-
gestion that Togo might intentionally
allow Rojevsky to get to Vladivostok,
contenting himself with tor-
pedo attacks while the Russians are
on their way there, and then try to
bottle Rojevsky up in Vladivostok,
Admiral Avelan smiled and said:

"The story of Port Arthur will not
be repeated. Rojevsky will try to
cross the history of the sea from To-
go. There are many ways of compell-
ing Togo to accept battle. Rojevsky
will only have to bombard one of
the coast cities to force Togo to appear
in his defence."

The Japanese Loan.
New York, May 25.—Between \$35,-
000,000 and \$40,000,000, representing
the final instalment from subscribers to
the latest Japanese loan of \$75,000,000,
recently negotiated in the United
States, was paid to the underwriting
syndicate to-day.

British Detains Russian Steamship.
London, May 25.—The British Gov-
ernment has ordered the detention of
the Russian steamship Alexomorch,
which is loading at Millwall dock for
St. Petersburg.

Bulgaria Buys Warships.
London, May 25.—The Sofia corre-
spondent of The Daily Chronicle as-
serts that the Bulgarian Government
has purchased four armored cruisers
and three torpedo boat destroyers from
the Argentine Republic for Russia.

BAD BOARDER HAMMERS HUB.

Trouble Said to Have Arisen
Over Twilight Strolls with
Lonely Wife

The Husband Kicked and True Friend
Possibly Over-ruled Objections—
Court Case Pending.

There was a certain man walking
around the town yesterday wearing
a couple of beautiful black eyes and
carrying a few scars on his face, who
was certainly not the best looking
man yet the best hampered man that
a person might meet on such a pleas-
ant day.

And the whole cause of this man's
unhappy state is a woman—a cold,
heartless, fickle woman. He is not
the first man who has spent many a
sleepless night worrying over the
same trouble, but this is probably the
latest Chatham victim.

It came about in a very common
way—through a boarder. The man
in question is a good workman and
makes good wages. He has been
married quite a few years, and one
little girl, now about five years old,
brought much joy into the one-time
pleasant family circle. He has been
a good husband, a good provider and
up till a few weeks ago enjoyed his
home life, and held the remarkable
record of never having had a single
quarrel with his wife. This is said by
some to be a dangerous sign, as there
is nothing a woman likes better than
a quarrel with a rival of the peace
are making up again; but be this
as it may, this man in question pre-
ferred the peaceful way of ruling his
household.

A few weeks ago a man, a friend
of the first man, came into the city
and applied for lodgings with his
friend, which was granted, and here
the trouble commenced. The hus-
band worked in the daytime, and
naturally when the wife wished to
take a walk in the evening the
boarder went along, partly to pro-
tect her, and partly because he was
also fond of walking at just about
the same time in the evening. The
wife did not object to this at first.

Hubby didn't tangle for some time
and matters kept going on. Last
Monday Hubby began to suspect, and
when his wife was preparing to take
the usual walk he asked her where
she was going. This, he admits now,
was a mistake, because no woman
likes to be questioned as to her ac-
tions. He received the answer, "I
was going to call on a friend."
This story didn't sound very good to
Hubby when he saw his wife and the
boarder a few hours later strolling
up and down Lacroix street.

Then the real trouble commenced
and this trouble was the cause of
the aforementioned black eyes and
scars. The boarder had evidently re-
ceived the best of board, judging
from the manner in which he
flourished his fists. It is said that
Hubby became real angry and used
some strong language to his wife,
who was standing watching the
fight. He repeated, "I am now, how-
ever, and would like to offer apologies
to the erring woman, but he can't find
her. Neither the boarder nor the
wife have been seen since and Hubby
is becoming quite alarmed. He says
he will forgive his wife and work
just as hard for her in the future
as he has in the past if she will only
come back to him.

A warrant has been issued for the
arrest of the boarder, who is charged
with assault.

KEEP OFF

Fire Chief Pritchard wishes it dis-
tinctly understood that it is direct-
ly contrary to by-law for men who do
not belong to the Fire Department to
get on the hose wagon or truck go-
ing to a fire. The chief has been
troubled lately with men, and espe-
cially young boys, riding to the fires,
and in some cases accidents are very
narrowly escaped. The chief says the
practice will have to be stopped and
he hopes it will not be necessary to
prosecute anyone in having the nuis-
ance cease.

A DELICATE CASE

Mayor Cowan played the part of
the gallant at the Police Court on
Wednesday morning. The role suits
the genial and popular mayor and
there is no one who is more capable
of filling a part where courtesy and
pleasing address are the chief essen-
tials.

Judge Houston was spending the
holiday in St. Thomas, and when Miss
Rachael Brown was arrested for be-
ing drunk and disorderly there was
no one in the city, but Mayor Cowan,
who was capable of dealing with such
a delicate case. Mr. Cowan was
quite equal to the occasion and, be-
ing a man of considerable gallantry
and tender feelings, he was deeply
moved to see a member of the oppo-
sition. He therefore tempered justice
with mercy and allowed the unfor-
tunate Rachael to go, if she would pay
costs, which she did. This was Miss
Brown's first offense, and besides,
everyone ought to have a little lat-
titude on a public holiday.

The best sermon is that one which
prompts the hearer to do the most
thinking for himself.

LEGISLATORS GET AWAY

Closing of Provincial Assembly
on Thursday Very Quiet.

Small Attendance of Members—Only
Four Oppositionists and Eleven
Conservative "Privates" Were Pres-
ent—Speech From the Throne Ex-
presses Satisfaction With the Work
of the Session—Document in Full.

Toronto, May 25.—Lieutenant-Gov-
ernor Clerk closed the last session of
the eleventh Legislature on Thursday
afternoon. The function was in mark-
ed contrast to the opening on March
22, when thousands of people gathered
to witness an unique event in the
history of the Province. Yesterday
there were but four Oppositionists in
their seats. Messrs. Harcourt, Atkin-
son, Graham and Kennedy—while the
Government benches were also largely
empty. Hon. Mr. Hanna was the only
absent Minister, but the only Conser-
vative "full private" in the chamber
to hear the speech from the Throne
were Messrs. Bradburn, Carscallen
(Hamilton), Dr. Preston, J. J. Preston,
McCowan, Pattinson, Thompson (Sim-
coe), Smellie, Ganey, Smythe and La-
marche. Judge Sir W. R. Meredith
and Judge Hodgins represented the
bench, and President Loudon and
Prof. McCallum were there represent-
ing the faculty of the university. Four-
teen ladies graced the chamber, in-
cluding Mrs. and Miss Whitney.

His Honor drove to the park, accom-
panied by his military secretary, Capt.
Macdonald. At the entrance to the
building, a company of the Royal
Green Guards and the regimental band
were drawn up, and the arrival of His
Honor was signalled by the guard of
honor presenting arms and the band
playing the National Anthem. As soon
as the Lieutenant-Governor had taken
his seat on the Throne, the assistant
clerk read the bills passed during the
session, which were assented to, and
then the speech from the Throne was
read by His Honor. The speech is as
follows:

Speech From the Throne.
In relieving you from the labors of
the session, I thank you for the atten-
tion you have given to your public
duties, as well as for the beneficial
legislation which I have just sanction-
ed.

Since the opening of the session the
Legislature has been occupied with
its from Their Excellencies, the Gov-
ernor-General and the Countess Grey.
The evident interest taken by both
Their Excellencies in all that touches
the prosperity and well-being of the
Province and its people has been high-
ly appreciated, and the grace and charm
of Her Excellency have endeared her
to us all.

Public approval will no doubt be given
to the act amending previous legisla-
tion in the interests of our veterans.
The extension of the time within which
claims may be made was very desir-
able, and there is good ground for con-
fidence that the other provisions of the
act will bring about good results.
It has given me much pleasure to
assent to an act respecting the Uni-
versity of Toronto. The passing of this
act is the second great event in the
history of our Provincial university.
The situation had become indeed acute,
and the effect of the act will undoubt-
edly be to place the affairs of the
university on a sound, stable, and per-
manent footing, relieving all anxiety
as to its future, and by means of it
we will be enabled to do manifest
duty towards the youth of the coun-
try, and to hold our own in an edu-
cational sense, among the other com-
munities on this continent.

I have noticed with satisfaction the
interest you have displayed with refer-
ence to the possibilities which the
future may have in store with regard
to electric power, as well as the deter-
mination on your part that the inter-
ests of the Province in this very im-
portant question shall be carefully
safeguarded.

I observe with pleasure the various
amendments you have made to the
statute law, the municipal law, and the
Succession Duties Act, all of which I
believe will be found to be beneficial.
The activity in business circles, to-
gether with the increase in want of
our people, are shown by the growing
volume of private legislation. Some of
the legislation is of the most important
character and bears evidence of hav-
ing received that careful supervision
which, always desirable, has become
for several reasons very necessary.
I thank you for the liberal appro-
priation you have made for the public
service. The supplies granted by you
will be expended with economy and in
the public interest.

In closing the session I desire again
to commend your zeal in the public ser-
vice, and to join with you in express-
ing the hope that God's blessing will
continue to rest upon our country and
our people.

NEW G. T. R. TERMINUS

Kat Wai Island, Quite Close to Port
Simpson, British Columbia.

Montreal, May 25.—Hon. H. R. Em-
merson, Minister of Railways and
Canals, yesterday morning confirmed
the despatches that the island of Kat
Wai had been selected as the terminal
of the G. T. R. He said also that only
a part of the island could be expro-
riated for this purpose. The choice
of the new location, he considered,
would not severely affect the prospects
of Port Simpson's development, as the
new terminus was quite close to that
place.

doubt, is to be the man of the hour.

MR. FOY'S POLICY.

The Ottawa Citizen says: "The late Ross Government made land grants to the veterans of the South African war and the Fenian raids, but though the scrip was issued there was no land available to be taken up. A number of patriotic gentlemen sought the opportunity to get wealthy at the expense of the soldiers by buying up their scrip for a song, as the holders were disheartened at the prospect of never being able to secure the land. As the scrip made necessary the performance of settlers' duties or the payment of taxes for a number of years, the acquisition of a block of these veterans' lands constituted promising speculations, as they could be held at no cost until the influx of settlers had rendered them valuable and then sold at a good figure. The Whitney Government has turned down these harpies who banked on preying upon the necessities of the veterans. A bill has been introduced by Hon. Mr. Foy declaring that as soon as such grants pass out of the possession of the veterans to whom they were made they shall become liable for taxation and settlers' duties."

The Letter-Box

PROTEST FROM ST. CLAIR ST.

Editor of The Planet:
Mr. Editor,—At a meeting in 1903 of the City Council, Board of Trade and promoters of the Chatham, Wallaceburg and Lake Erie Railway, Mr. G. P. Schofield warned the Council in granting franchises with railway companies not to barter away all their rights or they would live to rue the day they did so. He instanced the Toronto Street Railway Company which, having once obtained franchises from that city, carried proceedings with a high hand and now almost governed or controlled the city. I would like to raise a warning hand at the present time to the excellent Council of 1905 not to give away everything the city owns to the C. W. and L. E. Railway Company. We have granted them a bonus of \$50,000 and exempted them from taxes for a period of years, have given them the right to use several of our streets and the use of Aberdeen bridge, but it seems they are not satisfied with these concessions, but want "in common parlance," the earth. Some of the officers of the company demand of the residents of St. Clair street the right to lay their tracks on the boulevard, otherwise they will expropriate the laws in front of their residences and run their line still closer to their doorways, threatening the said residents with the omnipotent powers which they possess and that if they do not allow them the use of their boulevard they will run over their front lawns. Now, Sir, we are all pleased to have the railway and do not regret the very large concessions granted them in the city, but the residents of St. Clair street want the track to be laid in the centre of the street and want the Council to stand firm for their rights. The centre of the street is the proper place for the track, and although the company will be put to considerable expense in enlarging the pavement, still this is a matter for all time and what is done now will be perpetual and no mistake should be made, which will be a matter of regret in after years. Let the Council of 1905 insist that the track shall be laid in the centre of the street or withdraw their privileges granted the company and thus preserve the boulevards of St. Clair street from everlasting destruction.

A RESIDENT OF ST. CLAIR ST.

GOOD MACHINE

There was an inspection of the city parks yesterday morning by the Park Committee, consisting of Ald. Wm. Potter, James King and W. S. Marshall. They inspected the work done by a new mowing machine just put in use at Victoria Park. This machine will cut as close as a lawnmower and makes a cut four feet wide. It is a vertical machine and can be raised or lowered, making it convenient to cut close to the trees. W. J. Miller, the caretaker, says, "It will soon pay for itself, as it will do the work in three days, which would take a man three weeks to accomplish, and by that time it would be necessary to start over again. The machine just suits me and certainly saves my back."

The committee intend to keep Victoria Park in good shape instead of allowing it to become a hay-field and an eyesore to the people.

In speaking to The Planet regarding the new implement Ald. King said, "It is the best machine I ever saw for its work, and I have seen a great many."

LOCAL LABOR TO BE SECURED

Big Delegation of Wrathful Workmen Secure Satisfaction From Radial Road

Visited Mayor Cowan in a Body and Talked Violently—Mr. Warburton Relieves Misunderstanding

Mayor Geo. W. Cowan had an interesting and busy time this morning when a delegation of city workmen waited on him with a complaint re the construction of the electric railway.

The members of the delegation claimed that a number of foreigners have been brought into the city by the railway authorities to work on the construction of the railway along the Baldoon Road while the men in the city were allowed to go unemployed. The delegation was made up of about 15 men, white and colored, and they made a very strong complaint and hinted that they intended to use violence if necessary to keep these foreign working men from usurping their rights. Things looked very threatening as the present state of affairs stood and the men spoke as if they were ready to get up in open riot at a moment's notice.

Mayor Cowan heard their complaint and said he would take the matter up at once and get at the facts of the case, telling the men to call again later in the morning.

In the meantime Mr. Cowan interviewed Mr. Warburton, general manager of the road, and found that some outside men had been brought in by the company, but these men were men who were prepared to work in the country, live in tents, and put up with what board they could secure and work on the company's road, something that the laborers of Chatham were not prepared to do for any money, and work that the company would not ask the higher class of laborers to do. In the company can get for this kind of rough labor. There are about 15 men doing this work now in Dover and they are all men who are used to this kind of inferior labor.

As a matter of fact, after the Council passes the by-laws for the company's right of way at their meeting next Monday evening, the company will start right to work with their city construction and then there will be more demand for city laborers than the city will be able to provide. The company are desirous of giving the outside laborers the work in the country and of giving the work in the city to city laborers.

It also turns out to be the case that there are not many men walking the streets of Chatham looking for work. Last week a number of men were offered work at the power house of the road and many of them refused to work altogether, and some of the others worked for one day and then quit.

Mayor Cowan explained the situation to the delegation of city laborers when they returned to his store, and they were then convinced that the railway company is not neglecting them and that their complaints will be satisfactorily overcome when the company starts its city construction.

HAVE THEY RESIGNED?

The statement is made on some authority this afternoon that Commissioners Wm. R. Baxter and Andrew McKibbin, of the West Kent License Board, have to-day tendered their resignation to the Government. Chairman Baxter, in an interview with The Planet at the time of going to press, stated that he had nothing whatever to say on the matter at the present time.

Jury Says Manslaughter.

Port Arthur, May 26.—The case of Everett West and Nic Aho, charged with murdering Nic Pathrakos at Fort William, concluded yesterday. West was found guilty of manslaughter, and Aho was acquitted. According to West, he, with Aho, came out of a dance hall and met deceased, and West being drunk, the former shoved him off the sidewalk at the same time calling him filthy names. West pulled out a pocketknife and opening the blade, made at Pathrakos, and a fight ensued. The latter being stabbed in the heart. Aho had held Pathrakos, but it was proven that he was not there at the time of the deed.

MR. DUNSTAN ON STAND.

Gives the Bell Side—Obliging in the City of Toronto

Ottawa, May 26.—Mr. Dunstan, the local manager of the Bell Co. in Toronto, was examined at the special committee on telephone yesterday. The witness, who was called by the Bell people, gave some details regarding the contract between the city and the company. The contract was not satisfactory to the company. After the contract expired the city advertised for a plant. The Bell Co. was always willing to have good relations with the city, and he so informed all the mayors. There were 15,000 instruments in the city, and of this number 2,500 were the old Blake transmitter. There was no difficulty with the city about routes. The policy of the Bell Co. was to put wires underground. The company moved poles at the request of the city, although not under contract to do so.

As to rates, they were fixed by the head office. The Blake transmitter was not more expensive than the long-distance transmitter. New subscribers could have the Blake transmitter. The number of calls in Toronto had increased 50 per cent.

Mr. McFarlane, Montreal, general superintendent of the Bell Co., was next examined. He repudiated the idea that the company did not desire to extend the service to rural districts. The Bell Co. was anxious to have a continuous line all over British North America, but the difficulty was to get capital to do this. He cited the efforts that had been made in Ontario to give rural telephones. There were 2,000 rural telephones out of 2,500 miles of line. Mr. William Mulock: What is the lowest rate for rural telephones you charge?

Mr. McFarlane: \$15.

Mr. Chrysler: Can't you do better than that?

"No, sir."

"But if you could do it and wanted to do it, why can't you give rural systems for \$10, like some of the independent companies?"

Mr. McFarlane pointed out that where independent companies were careless in the maintenance of their lines the Bell was very careful, and necessarily the expense was greater.

Mr. MacFarlane said the Bell Co. was giving the best service they could, although it might be more expensive than that given by other companies.

Sir William Mulock: Instances of a case of Ohio, with a population of a little less than 4,000,000 people, and with an area less than two thirds that of Canada. Ohio had 981,000 telephones. Canada had 90,000 telephones.

Mr. McFarlane answered that the telephone development in certain States of the republic was extraordinary. It was a case of "dog eat dog." There would be a slump now, Sir William was not willing to accept this statement, but advanced the opinion that the lack of development on the rates charged by the Bell was due to the high rates.

Mr. McFarlane was not able to give any opinion as to the automatic system. He admitted that in the territory covered by the Bell the number of phones to 1 to 1,244 of the population. He thought that the 7th public pay stations in the rural districts offset this and were very beneficial.

ARE ORDERED DEPORTED.

Yankee Officials of Pere Marquette Who Took Canadians' Passports

Ottawa, May 26.—It was learned last night that the Government has decided to enforce the alien labor law against the persons named in Judge Winchester's report upon the Pere Marquette Railway. These employees took the places of Canadians. Those who are on the mechanical staff will be deported at once, but the officials will be given a period of grace in order not to hamper the operation of the railway.

The men ordered deported are J. E. Freath, superintendent; E. Cain, trainmaster; J. R. Gilhula, chief dispatcher; J. McManis, assistant master machinist; George, general foreman; Shosmaker, assistant engineer; Osborne, foreman of the interlocking plants and signals; O'Laughlin, private secretary of the superintendent's office, and Hunter, storekeeper, all of St. Thomas, and Edgar Britton, district passenger agent at London, Ont.

It is understood that steps already have been taken toward an appeal. Frederick Stevens, general counsel of the Pere Marquette railway, holding that the alien contract law of Canada does not apply in this case, in any case involving such skilled labor as is required by these officials.

LIBERAL GRAFTING AIDED.

R. L. Borden Upholds Mr. Bennett, But Sir Wilfrid Dodged Issue.

Ottawa, May 26.—In the House yesterday two cases of grafting by political friends of the present administration were aired. One case occurred on the Georgian Bay, where it was alleged that islands particularly suitable for summer resorts were sold at trivial prices. The lucky recipient of the "handout" being a brother of the member for North Ontario. The other was a case of scrip given to western half-breeds, then bought up by speculators, who were naturally given the proper tip and thus enabled to pull in large profits. Mr. Bennett claimed that \$140 was a ridiculous price for the island sold to Mr. Grant. R. L. Borden upheld Mr. Bennett, and Sir Wilfrid dodged the issue by claiming that the Dominion in this matter was the trustee of Ontario. In the half-breed scrip matter, Mr. Oliver replied that it had been given to non-resident half-breeds as a matter of justice. The matters were dropped after a side-sally discussion. In committee of supply, the votes on the main estimates for Indian affairs were put through, and the House adjourned at 11:40 p. m.

Scotch Coming Here.

London, May 26.—(C. A. P.)—Bruce Walker, Canadian Government agent at Glasgow, said there was a great boom in immigration in Scotland. This week the Ionian, Allan liner, takes out 340 second-class passengers, the largest number of second-class passengers that ever left this side. The third-class on the Ionian has been turned into second-class. A large number of thoroughbred cattle are being shipped this week for Biddford, P. E. I.

A MISUNDERSTANDING

The Planet has been informed that an erroneous interpretation has resulted from its report of Chairman Sifton's statement at the Bothwell meeting of the East Kent License Board concerning the tavern at McKay's Corner. When the chairman spoke of a dive it was evident to all who heard him that it was no reflection on the morality of the place. The allusion was to the fact that gambling had been reported and that the tavern had been utilized as an evening congregating place for farmers' sons and others and that its influences had not been helpful. No reflection, other than that was cast upon the proprietor or his home.

FOREIGNERS SENT BACK.

Eighty-Four Were Not Allowed to Land at Montreal.

Montreal, May 26.—Eighty-four immigrants infected with trachoma were deported yesterday morning and sailed back to England on the steamers Athenia and Lake Erie. Not one of them escaped, although continual efforts were made by their friends in the city to procure their freedom.

To Be the Banner Crop.

Winnipeg, May 26.—Yesterday's railway crop reports show a record of healthy crops throughout the west. The wheat is growing vigorously and blessed with plentiful rains and desirable warm weather. The wheat now stands from 2 to 3 inches high, while a few points advise the grain as high as from 6 to 8 inches. Every indication points to 1905 being the banner crop season in the history of the west.

Boy Fatally Killed.

Peterboro, May 26.—Wilson Cowling, only son of Thomas Cowling of Cavan Township, was fatally kicked by a horse which he was feeding in the stable. The animal's hoof splintered the boy's skull. His parents were on the road, remembering him to the hospital here when the lad died.

London, May 25.—A somewhat lively scene occurred in the House of Commons yesterday afternoon when Charles Devlin asked the names of the constables who threw Higgins, J. \$2,000 MORE

Phil. H. Bowyer, M. P. F., Secures a Second Grant Towards Rond Eau Park

Supplementary estimates brought down in the Provincial Legislature on Friday contained an additional \$2,000 for work on Rond Eau Park. This amount will be devoted towards "lumbering." It is the intention to remove the mature timber in the forest, making room for the younger trees. The forest will in future be managed on principles making for its preservation. The trees taken down will be cut into lumber, some of which will be used in the construction of a new wharf and in other necessary improvements. The balance will be sold, also the cordwood. The revenue derived from these operations will all be spent in improving the park.

SUDDEN STROKE

Robert Riddell, one of Chatham's oldest machinists, was taken suddenly ill with heart trouble this morning about two o'clock.

Mr. Riddell was feeling quite well when he retired but he is now in a very critical condition. His throat has become paralysed so that he cannot speak and his brain is also affected. He has only spoken a couple of words since he was taken ill and he has no use whatever of his left side.

Mr. Riddell rallied a little during the night and was somewhat better this morning, but he was taken worse again at noon to-day and now does not recognize anyone and seems to be gradually sinking. His many friends will be sorry to hear of his dangerous illness.

COOL WEATHER
 Causes Much Distress to Throat and Lung Sufferers
 Clear Frosty Morning Air Only Stimulates Lungs that are Healthy

GRAVE DANGER
 Observes Dr. Slocum, if a cold is allowed to run, La Grippe, Pneumonia, or Bronchitis is sure to follow if "Psychine" is not taken to prevent its progress.
 Don't experiment with cheap cough mixtures or like decoctions, which at best can only temporarily relieve, until you are forced to your bed from which you will arise feeling no more easy victim for consumption. This is the second year when people are started on the rapid road to the consumptive's grave, declares the eminent Lung Specialist.

PSYCHINE

(PRONOUNCED SI-KEEN)

will rid the system of all tuberculosis poison and build up weak and wasted bodies with healthy tissue. "Psychine" is a tonic and it creates strength, gives you a ravenous appetite and produces healthy flesh.
 In cases of obstinate coughs, pains in the lungs, sore throat, headache, pains in the limbs, extreme weakness, you cannot afford to do without "Psychine." It is prepared expressly for all diseases of the lungs and bronchial tubes, and if you have the least sign of a cough, sudden chill, shivering, cold feet or depression, procure "Psychine" from your druggist.
 If your druggist hasn't "Psychine" in stock, write Dr. T. A. Slocum, Limited, 179 King Street West, Toronto, Canada, and a sample bottle will be sent you promptly.

Cupid and the Recruits.
 "Cupid is one of the best recruiting officers that Uncle Sam has," confided one of the sergeants attached to the recruiting headquarters. "Back of nearly every enlistment there is a woman in the case. Lovers quarrels chase a lot of fine lads into the service. Your romantic youth gravitates to the recruiting office after a serious break with his sweetheart as naturally as a duck takes to water. It seems to him the most fitting way in which to sacrifice himself when love's young dream is apparently dispelled. Way down in his heart he nurses the idea of making his erstwhile innamorata sad, and it's the army or navy, with the possibility of death in battle, for him. Again, other first class material is recruited by the desire of young fellows to sport a uniform before their girls. In such cases Cupid does his recruiting through vanity. But in both ways he manages to fill up big gaps in the ranks of Uncle Sam's fighters."

The man who sings well gives most of his attention to the women in an audience.

DR. S. GOLDBERG.

The possessor of 14 diplomas and certificates, whose methods other Detroit specialists try to imitate.

CURE NERVOUS DEBILITY, VARIOUS STRICTURES, EARLY DECAY AND WASTE OF POWER, BLOOD AND SKIN DISEASES, AND ALL CHRONIC TROUBLES

WRITE IT It is impossible to call, write for a Question Blank for Home Treatment. I have the most perfect system of Home treatment known to medical science; many are cured by mail who otherwise would be unable to take advantage of my expert skill and wonderful success in curing. Consultation Free. All dealings strictly confidential. All inquiries for Canadian patients sent from Windsor, Ont., all duty and transportation charges prepaid.

DR. GOLDBERG, 208 Woodward Avenue, Suite 211 DETROIT, MICH.

Ever since leaving Detroit many years ago, I have frequently called attention to the fact that while some specialists advertise 25 or more years' experience, they do so for advertising purposes in order to mislead the public; the founders of these institutes are dead; while the present owners could buy the furniture and the right to practice under the old name, they could not buy their predecessors' brains.
 How many of you have paid you hard-earned dollars to these concerns with the expectation of receiving services from specialists who have 25 or more years' experience, but when you called at their offices you were treated by some other doctor than whose picture you saw in the paper? And how many of you saw the same doctor more than once, but each time a different one? Remember, I am doing business on my own reputation and each time you call you see me personally.

NERVOUS DEBILITY

The Latest Method Treatment is a heaven-sent boon to nervous sufferers. There are scores and hundreds of persons suffering from severe nervous disorders resulting from overwork, hurry, worry, impatience. They suffer from headaches, loss of memory, mental depression, strange nervousness, dizziness, faintness, restlessness, constant indecipherable fear, forebodings, sleeplessness, weakness, trembling, heart palpitation, cold limbs after fatigue and exhaustion. In this class of cases almost immediate relief is afforded by my treatment. The use of narcotics and poisonous, stupefying drugs is done away with, and permanent cure accomplished.

BLOOD POISON

If you have traces of it you are in constant danger until cured; you cannot tell how soon the poison will affect the organs of the body; have you sore throat, ulcers in the mouth or tongue, copper colored patches, sores breaking out, sore bones, hair falling out, itching skin, etc. Call and see me as I give you a written guarantee to cure you by my LATEST METHOD TREATMENT, without mercury or potassium, and remember:

not one penny need be paid until you are cured.

CONFIRMATION

A Large Class of Candidates Con-
firmed by Bishop Williams in Christ
Church Last Evening.

Bishop Williams, of London, the new Bishop of Eborac, paid his first official visit to Chatham last evening, when he conducted confirmation in Christ Church. There was a very large congregation present to witness the ceremony, which was very solemn and impressive. There was also a very large class of candidates for confirmation and it was a very pretty and pleasing sight to see the girl candidates who were also becomingly dressed in white, receiving the bishop's blessing at the communion table.

The Bishop made a very favorable and lasting impression upon both the congregation and the candidates. His address to the class was on the first commandment, "Thou Shalt Love the Lord Thy God with all Thy Heart, Soul and Mind," and impressed upon each candidate the importance of having the Love of God in their hearts.

"Good acts do not necessarily make good men," said he; "it is the nature of the good acts that strengthen character. There are professional duties that we are forced to do and the doing of these are not make themselves excellent, good things. There is no credit in refraining from doing wrong because we are not expected to do wrong. To say that a man during his life did no harm is to say that his life was a failure. We must not only refrain from doing wrong but we must also do good to man."

"If we have the love of God in our hearts we will love what he holds dear. May this first confirmation be the controlling motive of your life, for it is only such parts of life as spring from the love of God that will be your own abiding possession for time and for eternity."

The Bishop closed his able address by pointing out the help which is given to nourish this love for God, such as the reading of the Bible and the communion.

The Bishop had a kindly word for each one of the candidates as they came forward for their certificates after the service.

The following are the names of the candidates: R. H. Fraser, C. H. Gilchrist, W. Singer, S. M. Head, James G. McKean, L. M. Taylor, E. A. Cape, A. G. Boulton, F. G. Bonnell, G. H. Wilson, J. A. Channing, A. S. Falls, A. E. Carlett, P. S. Boulton, T. W. Poole, Wm. De Baun, Misses D. M. Wood, Jesse K. Wilson, Roslyn McMan, Phyllis Eberts, Helen Ruspini, Marie Thomas, Ann Jewiss, Olive Mahler, William Singer, Hazel Singer, Grace Moore, Marjorie Edgington, Edith Hall, Josephine Buchanan, Bernice Goodall, Agnes I. Wilson, Kathleen Hennessey, Mrs. Loyd, Mrs. Lane, Mrs. Bennett, Mrs. Gilbert, and Miss Addleton.

After the service a reception was held in the Sunday school room and quite a number took advantage of the opportunity of meeting the new Bishop.

\$75,000 FIRE AT LONDON.

Disastrous Blaze Caused By a Rocket
Eats Up Value.

London, May 25.—At 2 o'clock yesterday morning fire in the Dymott Baker Co.'s planing mill, a box factory, in less than two hours consumed the factory, together with a part of the London Machine Tool Co.'s plant to the east, over a million feet of lumber belonging to the Dymott Baker Co. piled across the street; three M. C. R. cars, containing \$50,000 worth of machinery, which were on the street between the mill and the lumber, and \$30,000 worth of hardwood lumber stored in the yard of Tumbler & Jones, builders, in rear of the tool company's works. The loss will be fully \$75,000, with about \$50,000 insurance. Of the loss \$12,000 is sustained by the machine tool company, and from \$30,000 to \$35,000 by the Dymott Baker Co. The Dymott Baker Co. Central mill is responsible to the Dymott Baker Co. for their loss on machinery. The fire is supposed to have been caused by a rocket.

JEWS FIGHT AT WARSAW

Eight Are Dead, 100 Are Wound-
ed, 19 of Them Seriously.

Bundites Began Work of Reform, and
the Respectable Element Turned Out
to Demolish the Property of the Dis-
reputable Classes—No Pillaging, But
the Destruction of Property Has
Been Absolute.

Warsaw, Russian Poland, May 25.—
The Jewish disorders here Wednesday
night arose from an attempt of the
Jewish Socialist organization, called the
Bund to purge the Hebrew district of
Warsaw of all disreputable persons.
The Bundites with the view of expell-
ing their undesirable co-religionists
commenced to wreck disorderly houses,
fences, and other resorts. The fight-
ing spread to the surrounding streets,
continued until midnight and recom-
menced yesterday morning. The Bund-
ites have been permitted to carry on
the work of destruction without any
interference on the part of the au-
thorities. Fourteen of those wounded
Wednesday night are reported to be
dying.

Eight Killed; 100 Wounded.
The disturbances continued all day
and were still in progress late last
night. Eight persons have already been
killed and 100 wounded, 19 seriously.
The damage to property has been con-
siderable. There has been no pillag-
ing, but the destruction of the furni-
ture in the houses has been absolute.
The mob, armed with axes, smashed
the doors and windows and brought
the furniture out on the streets, where
they broke it into small pieces. The
owners of the furniture, in attempting
to save their belongings, were attack-
ed, beaten and even killed. Late last
night, a mob of about 100 persons, of
which Cosacks formed the bulk, at
two points, wounding four persons.
The police did not interfere actively
during the day.

The affair is a conflict between the
respectable Jewish social classes and
the disreputable Jewish element. The
report is that the respectable Jews,
tired of hearing the members of their
race called opprobrious names, resolv-
ed, as the police were receiving bribes
for protecting disreputable houses and
persons, to take the matter into their
own hands. Another report has it that
Jewish roughs, in the guise of mem-
bers of the Bund, were levying black-
mail upon shopkeepers.

Extraordinary scenes were witness-
ed last night when the crowds vis-
ited the better section of the city and
demolished apartments filled with cost-
ly effects.

The affair was carefully organized.
The leaders were supplied with the ad-
dresses of the owners of disreputable
houses and scarcely a single resort in
Warsaw escaped destruction.

The Caucasians Escaped Again.
St. Petersburg, May 25.—The most
grievous news regarding the internal
situation, and of the renewal of hos-
tilities between Armenians and Mos-
lems, in the southern Caucasus, has
reached St. Petersburg.

The man who was driven to de-
struction had to walk back.

must be a bad thing—to be without.

- BRISCO'S -

Only 75 Acceptable Men.

Chicago, May 25.—The strike did not
spread to any great extent yesterday,
and there was little disorder. Mayor
Dunne and Chief of Police O'Neill did
not meet with the response expected
when they called for 1,000 volunteers
for additional policemen. About 100
men responded and 75 of these proved
acceptable.

Ottawa, May 25.—The writ for the
bye-election in Levis was issued yes-
terday. Polling, if necessary, will take
place on June 15, the same day at

Fire in Temagami.

Toronto, May 25.—Reports have been
received at the Parliament Buildings to
the effect that forest fires have been
raging in the Temagami district and
along the Temiskaming Railway. The
fire was started accidentally by Italian
laborers cooking their meals about 71
miles from North Bay. It spread west-
ward toward White Bear Lake. Had
the wind been in the other direction
the forest reserve could not have es-
caped.

Barnard Girls Coming.

London, May 25.—One hundred and
two girls, under the auspices of Dr.
