#### Morning Hymn.

New every morning is the love Our waking and uprising prove; Through sleep and darkness safely brought, Restored to life, and power, and thought.

New mercies each returning day Hover around as as we pray; New perils past, new sins forgiven, New thoughts of God, new hopes of heaven.

If in our daily course our mind Be set to hallow all we find, New treasures, still, of countless price, God will provide for sacrifice.

Old friends, old scenes will lovelier be,

As more of heaven in each we see; Some softening gleam of love and prayer, Shall dawn on every cross and care. eVe need not bid, for cloistered cell.

DAVIS' PAIN KILLER.—I have used the medicine known as Perry Davis's Pain Killer in my family for the last twelve months, and have great pleasure in testifying in favor of its very valuable properties. I would not on any account be without it. During the existence of the cholera last year, I used no medicine of any sort but the Pain Killer, although myself and average members of my family and the public generally, that having removed used no medicine of any sort but the Pain Killer, although myself and several members of my family were attacked by it severely, and I am happy to say that the Pain Killer was equal to every emergency—it was both a preventive and a certain cure. of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs the natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the decangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by shiniar obstructions and decangements of the natural functions of the body, they are rapidly, and many of them surely, curely the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than say one remedy I can mention.
