

NO RIOTING; KING CARSON A REAL HERO

Five Thousand Orangemen March Today in Belfast City.

[By Special Wire to The Courier] BELFAST, Ireland, July 13.—The insistent demand of the protestant portion of the province of Ulster for exclusion from the operations of the Irish Home Rule Bill, lent added interest to to-day's celebration of the anniversary of the battle of the Boyne which was carried out here with the greatest enthusiasm.

Sir Edward Carson, the Ulster Unionist leader, rode at the head of some 5,000 Orangemen, accompanied by the usual life and drum bands and including a sprinkling of brethren from the British colonies as they marched through the city of Belfast to Drumcree, where a great open-air meeting was addressed by Sir Edward Carson and other leaders.

The Nationalist quarter of Belfast was carefully avoided by the demonstrators and on no occasion during the procession did the rival factions come into contact. So little did the authorities expect trouble that they depended entirely on the local police force to keep order, but all the military were confined to barracks as it is usually the case when political demonstrations take place.

NO VERDICT TILL LAST OF WEEK

Uncertain That Grand Jury Will Vote Indictment Against Mrs. Carman

[By Special Wire to the Courier] FREEPORT, N. Y., July 13.—Investigation of the murder on June 30, of Mrs. Louise Bailey in the office of Dr. Edwin Carman has led District Attorney Smith to form a new theory which is in direct contradiction to that brought forward by Dr. Carman that the murderer had planned to kill him and not his patient.

A charge which the district attorney has had prepared shows, he says, the identical positions occupied by Dr. Carman and Mrs. Bailey and shows only the narrowest part of the physician's shoulder could have been visible to the slayer. While an almost unobstructed view of Mrs. Bailey was obtainable. The district attorney also declared that he was positively satisfied that "the shot was fired by a person who knew every inch and intimately of the inside of the room in which the killing occurred."

Dr. Carman has asserted that he believed the slayer of Mrs. Bailey intended to kill him but because he was out of range of the revolver at the moment, he escaped.

The grand jury will continue to sit this week, but an indictment, if one is voted, charging Mrs. Carman with the crime is not expected before the end of the week.

DETROIT, Mich., July 13.—Fire early to-day destroyed the five story brick building in East Woodbridge street, occupied by the Choje-Stevens Paper Co. and several smaller concerns. The loss is estimated at \$200,000. The blaze was caused by lightning. Several firemen were caught by a falling wall, but it is believed none were seriously hurt.

SUFFRAGETTE IS SORRY SHE DIDN'T SUCCEED IN DESTROYING CHURCH

[By Special Wire to The Courier] LONDON, July 13.—Annie Bell, the militant suffragette who yesterday tried to destroy Archdeacon Wilberforce's famous old church of St. John Evangelist, Westminster, was arraigned at the police court to-day and on hearing the charge said: "The only thing I regret is that the beastly thing didn't go off."

The prisoner expressed intense pride in her act. She congratulated the woman worshipper who had detected her setting fire to the fuse attached to the can of gunpowder and said her smartness was worthy of a better cause. She advised her to become a militant suffragette.

HUERTA WILL STEP DOWN FROM THE PRESIDENCY

Game is Up and Wilson's Policy Proved Successful.

[By Special Wire to the Courier] VERA CRUZ, July 13.—To save his country from the horrors of civil war and his capital from capture and perhaps sack by a victorious army, General Huerta intends to resign the provincial presidency and leave Mexico. This statement is made by Robert Esteve Ruiz, Mexican sub-secretary of foreign affairs, who yesterday reached Vera Cruz from Mexico City on his way to Europe.

Huerta, he said, will surrender the government to Francisco Carbajal, the new minister of foreign affairs, who in turn will step aside when the time comes, for some other provisional president, wholly acceptable to the Constitution.

Just when the change will come, Esteve Ruiz said he did not know. He was convinced, however, that Huerta would lay down his power during the coming week, and it would not surprise him, he said, if his resignation were announced to-day. Carbajal, he added, was suggested as provisional president by the American delegation at the Niagara Falls mediation conference and agreed to by Huerta delegates, and the South American mediators, while the Constitutionists indirectly had construed the idea that he would be acceptable to Carranza.

PT. DOVER FIRE

Brick and Tile Works Destroyed at Loss of \$20,000.

PORT DOVER, July 13.—The Port Dover Brick and Tile Works here were destroyed by fire last night with a loss of \$20,000, on which there was no insurance. The fire is believed to have been the work of an incendiary, as the plant is operated entirely by gas, and the gas had been turned off 36 hours before. The place was a mass of flames when first noticed and only the drying sheds were saved. A lot of modern machinery had recently been installed. C. W. Barwell announces that nothing will be done this season, but that the plant will be rebuilt next year. The fire throws 18 men out of employment.

Four hundred hogs have been killed in Oxford to prevent the spread of hog cholera.

Brantford's High Credit.

The following is an extract from the Financial Post of Canada, July 11th: "Wood, Gundy & Co. were awarded two issues last week, which were not recorded in last week's Financial Post. The largest of these was an issue of Brantford straight term debentures to the amount of \$134,431. These bear interest at 5 per cent. and fall due at the end of 1933 and 1953. The price paid was comparatively high, owing to the fact that Brantford credit is exceptionally good."

SATURDAY WAS WARM ENOUGH

Mercury Went Up to 93 Degrees—Oppressive on Sunday.

As if to announce that there might be a hot time in Old Ireland on the Glorious Twelfth, the weather man let loose a heat wave over this province by which to usher in the celebration of the 12th of July.

The heat wave commenced to roll over Ontario on Saturday, when the mercury rose up to 93 degrees in the shade. By Saturday evening it cooled down to 60 degrees, but on Sunday afternoon it rose again to 89. These readings are according to the official reports at Mohawk Institute, but in some of the closed-in quarters of the city it was no doubt hotter than that.

EARL IS DEAD

WAR IS THREATENED AS RESULT OF ASSASSINATION IN AUSTRIA.

The riots in Austria which followed the assassination of the heir to the throne is threatening the peace of more than one European country. The terrible event which has thrilled Europe is another illustration of how well justified is the anxiety always present in the minds of European politicians and diplomatists about the unstable conditions prevailing in the Balkans and even in the dual monarchy itself. The various rulers, whose portraits are shown above, are lending every effort to preserve peace in the terror ridden monarchy.

ROBIN WILL HAVE MAJORITY SEVEN VOTES

So Declares the Winnipeg Telegram in Its Issue Today.

[By Special Wire to The Courier] WINNIPEG, July 13.—The Telegram this morning declares that the Roblin Government is secure, and will have a majority of at least seven. It gives the standing of parties as Conservatives 25, Liberals 19, Independents 1, in doubt 1. The Independent is F. J. Dickson, who was Johnson's running mate in Centre Winnipeg, and practically a Liberal. The Conservatives claim St. George, which the Liberals hold doubtful, and say St. Clements is doubtful, although the Liberal is leading. The Liberals claim St. Clements as certain. The Telegram says: "Of course the government will carry the three deferred elections."

The fight in these, however, will be hot. Editorially, The Telegram this morning says: "The editor of the Orange Sentinel is entitled to the credit for reducing the government's majority. It was," says The Telegram, "disturbing which the Orange Sentinel engendered. Together with the literature freely circulated among Manitoba Orangemen which caused the thousands of Conservative members of the order to vote against the government, which they had consistently supported for 14 years."

The Free Press, claiming St. George as safely Liberal, figures the standing as Conservatives 4, Liberals 22, and says the Liberals will leave no legitimate means unexplored to win the deferred elections, the first of which, Le Pas, is announced for July 30, and the second at Grand Rapids, August 17th. The rumor is published in the press that Hon. Hugh Armstrong, defeated in Portage, will run in Le Pas, where nominations take place on Thursday.

CONSERVATIVE WINS

WINNIPEG, July 13.—The Conservative party's advisers from St. George say Taylor, Conservative, defeated Sigfusson, Liberal, in that constituency by 9. This seems definite and makes the standing: Conservatives 25, Liberals 21; deferred 3.

VANCOUVER, July 13.—Between 1 and 2 o'clock Sunday morning half a dozen powerful gasoline launches put out from shore towards the Komagata Maru, with the evident intention of carrying the Hindus ashore. The immigration department guards in a launch close to the vessel, armed with rifles, drove the Hindus in their launches back to shore.

Cannonade Over Catholic Section

[By Special Wire to The Courier] LONDONDERRY, Ireland, July 13.—The Orangemen here began the celebration of the anniversary of the battle of the Boyne with a cannonade, during which they projected their explosives so that they burst over the residences in the Catholic section of the city. The Nationalists, believing the cannonade to be the prelude to aggressive action on the part of the Orangemen, organized for defence, but up till noon no collision between the two parties had taken place.

While the Orangemen were attending church on Sunday, and the police were busy guarding their processions, the Nationalist volunteers succeeded in bringing into the city two automobile loads of rifles.

The playmates of the little ones acted as pallbearers as follows: For Mancel Garnett, Masters R. Hussey, Wright, Smith and Surry; for Ollie Garnett, C. Myers, Walters, Elsie and Walters.

MERSEY DOCK MEN ON STRIKE

Recognition of Union and a Final Settlement of Disputes Are Demanded.

LIVERPOOL, July 13.—A strike was started to-day among the Mersey dock employees with the object of enforcing the recognition of the workmen's unions and bringing about the establishment of a joint board of workmen and employers to deal with disputes. While the strike was not general many of the power stations were rendered idle and several liners were imprisoned in the docks owing to the impossibility of opening the gates.

DIAMONDS HAD CLOSE SQUEEZE FROM ROBBERS

Six Thousand Dollars Worth in Vault in Ottawa Store.

[By Special Wire to The Courier] OTTAWA, Ont., July 13.—With a high-powered automobile awaiting their coming, two burglars made a daring attempt early this morning to loot the safe in A. McMillan's jewelry store, Sparks street, and were only foiled in the attempt by the alertness of the police. One man who gave his name as Sam Green of New York City, was arrested at one o'clock under a bed in the Windsor Hotel, which he attained by a fire escape in the rear, after having been warned in some manner that the police were on guard in the store. The Windsor abuts the McMillan store. His accomplice escaped.

Between closing time and Saturday night and noon Sunday the burglars had drilled two large holes in the diamond safe in preparation for completing the "job" last night. Mr. McMillan, however, happened in the store at noon on Sunday and discovered that his premises had been entered from the adjoining building of the Slater Shoe Company a hole cut in the wall. He immediately notified the police. There were \$6,000 worth of diamonds in the safe.

The store was surrounded by police and detectives last night and shortly after 12:30 Green appeared at a rear window of the Slater store. He raised the window and was partly through, when it is thought his companion gave him a warning signal. He darted for safety and hid in one of the rooms of the hotel, where he was afterwards found. The other burglar escaped.

This is the fifth time the McMillan store has been burglarized in eight years.

IN BAD POSITION

Coast Steamer "Canada" on the Rocks—Passengers Are Removed.

[By Special Wire to The Courier] MONTREAL, July 13.—Advices from Captain Blouin of the Coasting Steamer Canada, which went ashore yesterday at Cape Chatte, in the St. Lawrence, while she was bound from Gaspe to Montreal, indicate that the ship is in a bad situation. The fifty passengers, who may include W. and Mrs. Liddington, and two children, Ottawa, who are on the passenger list for the round trip, have been housed near the scene of the wreck, which is fifteen miles from a railway station. They will be picked up by the Gaspeian, a sister ship to the Canada, on Wednesday.

HOUSE WAS ROBBED

Paris Road Residence Broken Into and Money is Missing.

The house of Mr. Scott on the Paris Road, was broken into, during the absence of the family on Saturday night and a quantity of valuable jewelry has been stolen. Besides the trinkets there is a considerable sum of money missing and the total amount of the robbery has not yet been ascertained. Entrance was made through a window in the rear of the premises and it looks like the work of experienced craftsmen who cleaned everything up and left no trace or clue upon which the police can work.

Miss Evelyn Cox christened the huge new hydraulic dredge Cyclone, which was launched at the Polson docks, Toronto, on Saturday.

LORD MERSEY CALLED A FOOL BY ANDERSEN

Storstad Captain Very Angry at Nature of the Finding.

[By Special Wire to The Courier] QUEBEC, July 13.—A very indignant man was Captain Anderson of the Storstad when he left the courtroom Saturday, after hearing his vessel so roundly blamed for sinking the Empress of Ireland, and he was anxious to borrow the tradition which permits counsel three days in which to express opinion about the Judges after losing a case.

"I did not think Lord Mersey would be such a fool," he angrily exclaimed, "and you can say so in your paper if you like. He may be Lord Mersey, but I can tell you if he ever had any reputation he is going to lose it over this case. It is in my opinion that he was trying to find in favor of the Canadian Pacific, and you can say that too."

Will Sue C. P. R. for Damages "But," declared Captain Anderson, "don't you imagine that this thing will stop here. We people in Norway are too much interested in seeing it through. There will be plenty of work in the courts, both in Canada and Britain. We shall start a suit for damages against the C. P. R. here at once. Then we shall take action in the Admiralty Court in Britain, and that is where we shall get at everything out in the open—there will be no Lord Mersey to run things there," and the angry Norwegian strode off to lunch.

On the other hand, Mr. E. W. Beatty, general counsel for the Canadian Pacific, expressed warm appreciation of the finding. "To my mind," said Mr. Beatty, "it is an absolutely fair finding, based not only on the evidence, but upon the probability of circumstances and the condition of the surviving ship. I think that on reading the evidence and following the facts this finding will appeal to the people of Canada as an absolutely impartial and just decision. Further, as a Canadian, I must express my gratification that this great Canadian passenger-carrying concern has been exonerated from all blame for this terrible disaster. We should also be grateful to their Lordships that they so explicitly showed that the St. Lawrence route itself could be in no wise held responsible for the disaster."

LORD MERSEY NOT SURPRISED

When told of the criticisms levelled against him by Captain Anderson, Lord Mersey merely smiled, and remarked: "Ah, I am not surprised."

**Women's Institute**

The July meeting of the Moyles-Tranquility Woman's Institute was held at the home of Mrs. Wm. Osborne, St. George road. A large number of ladies were present. The meeting opened with the president, Mrs. J. Hartley, in the chair. "Music" was the subject for the afternoon.

The program was as follows: Opening music: "The Maple Leaf"; roll call, responded to by the name of some famous composer; the minutes of last meeting, read by the secretary, Mrs. E. D. Clump, and adopted.

The first number on the program was a beautiful sonata by F. W. Lawrence, the composer. His biography and a rendition of the piece was given by Miss Reynolds of Paris, in a brilliant manner, which entranced all who had the good fortune to listen to this talented and skilled musician. Miss Reynolds gave several other numbers, which were beautifully rendered.

An account of the life of Mendelssohn was given by Mrs. N. M. Clump, in her usual vivid and interesting way, which proved one of the most delightful and instructive numbers on the program. This renowned composer's music was illustrated by Miss Dora Arnold in "The Spinning Song," which was given with a touch that delighted all.

A sketch of Godard was splendidly given by Miss Ethel Greenwood, who also gave a selection by this composer in a very skilful manner, which showed great promise for the future.

Beethoven was dealt with by Miss Isa McCormick, also a splendid rendition of one of this great composer's works.

Mozart's life was sketched by Mrs. A. E. Sowden in a particularly interesting manner. This greatest of all composers was beautifully illustrated by Miss Reynolds.

An interesting outline of the life of Greg was contributed by Mrs. E. D. Clump, who also gave one of his compositions very sweetly and skilfully.

Refreshments were served by the hostess and "God Save the King" sung, which brought one of the most delightful meetings possible to a close.

**CONVENIENT ILLNESS**

Small boy (to charitable lady)—Please, mother says she's much better of the complaint you gives her quinine for; but she's awful ill of the disease wo't cured by port wine and chicken broth."

The body of Commissioner David Rees of the Salvation Army, who registered in the Empress of Ireland disaster, reached Toronto yesterday.

**GRAY HAIR BECOMES DARK, THICK, GLOSSY**

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and No-Oil Will Know.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair which faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Great preparations were made for celebrating the Twelfth of July in Ulster.

MEXICO IS STILL UNSETTLED AS TO THE OUTCOME

Carranza Will Not Recognize The Man Who Succeeds Him.

[By Special Wire to The Courier] WASHINGTON, July 13.—Mexico City was looked to to-day as the place where the next big scene in the Mexican situation would be staged. Carranza about to quit and turn over his affairs to his new foreign minister, Francisco Carbajal, hope was expressed that a way might be found peacefully to transfer the government to the Constitutionalists and avert a military contest of the capital by the Constitutional forces.

Indications were not lacking, however, that a way might be found for the transfer of power without much fighting. The impression prevailed widely in Washington that hostilities in Mexico were near an end. It is suggested that if arrangements of peace were settled upon, Carranza could enter the capital with only a comparatively small force to help preserve order.

General Villa was reported to have received a message from Carranza as a result of mediation by the South American envoys in Mexico's internal affairs would not be accepted. Carranza was quoted as saying the only thing he would accept was the surrender of Huerta and his army.

Huerta it was believed might quit Chapultepec some day this week. Automatically the new foreign minister, Francisco Carbajal, would assume the roll of provisional president. Carbajal is a man of law. He is less than fifty years old. Of an academic temperament, he never has served in the army.

MANY THEFTS

Are Laid at the Door of Young Beachville Farm Hand After Investigation.

[By Special Wire to The Courier] WOODSTOCK, Ont., July 13.—William Dunn, a 15 year old farm hand of Beachville, charged with wholesale thefts of bicycles in this city, was remanded to jail for one week when arraigned in the police court to-day.

Four bicycles known to have been stolen, were found in an old barn near Beachville, while Dunn admits he has sold many and threw away others because the names of the owners were on them. When arrested the youngster was busy tearing one of the stolen wheels apart and putting in new pieces taken from other wheels in order that it might not be identified. Dunn admitted that every time he came to the city he spent all his money at the shows or other places and then rode home on a bicycle stolen along the street. The young thief generally managed to get the best wheels.

BEACHEY SAYS ATLANTIC FLIGHT IS IMPOSSIBLE

Chicago Aviator Declares Porte's Attempt Will End in Tragedy.

[By Special Wire to The Courier] WINNIPEG, July 13.—Asked to give his opinion of the trans-Atlantic flight which Lieut. Porte proposes to make, Lincoln Beachey, the Chicago aviator, who is giving exhibition flights at the Winnipeg exhibition, said he hoped the party would be successful, but did not believe they would be. "I can see no termination to the announced attempt," he stated, "but I do not believe that it will succeed. Personally I do not believe that I would not attempt it for a million dollars, and I have spent 500 hours in the air, where Lieut. Porte has spent one hour. My predictions of failure is summarized in a few words. The enormity of the proposition has been underrated, the preparations have been entirely inadequate. Impossible for One Man.

"I do not believe that one aviator can make the flight. I do not believe that the present machine, the America, is capable of making the flight. I am convinced that the attempt, if made, will only result in giving aviation a terrible wallop in this country. "While I do not undervalue Porte's ability as an aviator, I am convinced that no one man can perform this feat, particularly a man of Lieut. Porte's unproved calibre. It is one thing to drive a machine for 10 or 15 hours over a stated course over the land, but it is an entirely different thing to drive this machine over water, over the boundless ocean, for that length of time. "I believe that the mental tension will be more wearing than the physical tax of handling the wheel. I do not believe that any man in the world can, without training, stand the terrible strain."

REPAIRING BOAT

It Will Cost \$50,000 to Fix up Collier Stordstad Which Rammed the Empress.

[By Special Wire to The Courier] QUEBEC, July 13.—Work of repairing the damage to the Collier Stordstad, which rammed the Empress of Ireland, was started on Saturday night last about an hour after the vessel entered the Levis drydock.

George T. Davie, proprietor of the dock, is supervising the repairs, and he has day and night shifts to rush the work. The ship's stem is already removed. It was ripped and torn as far down as the keel, so that the repairs are expected to cost in the vicinity of \$50,000. It is not expected the Stordstad will be able to take to sea before a month or six weeks.

HOME BOY DROWNED.

The lad was learning to swim, and ventured beyond his depth, and Mr. Tremont, with whom he lived, jumped in after him, and he in turn was nearly drowned, having to be pulled out by his wife with a pike-pole.

At the conclusion after a splendid refreshment three large motor busses conducted the party back to the city.

THE MANITOBA SITUATION.

Latest reports from Manitoba with regard to the Local Legislature indicate a very close thing.

There have been religious differences in the Province over the schools, and the claim that Roman Catholics had too many privileges in this regard.

As a matter of fact, there is no end to be gained by contending about the real cause. Perhaps it was one thing, perhaps a combination of things, and mayhap that a Government, after 14 years in office, has an almost inevitable accumulation of causes of criticism, with regard to which an opposition is exempt.

It was on April 23rd, 1900 that the country was startled by the sensational announcement that an attempt had been made to dynamite a lock on the Welland Canal.

THE PLAIN TALK OF LORD ROBERTS.

Mr. John R. Robinson, editor of the Toronto Telegram, has sent this special cable to his paper with reference to a recent memorable speech in the Upper Chamber by Lord Roberts, England's great general.

"Lord Roberts continued: 'I tried to put the facts before you in the plain, simple language of a soldier, and to show why it is morally unjustifiable and practically unfeasible to apply direct coercion to Ulster.'

"He dissected the theory that, while impracticable to initiate military operations against peaceful, law-abiding Ulster, yet if Ulster should be driven to break the law, then there was no excuse for soldiers to refuse their services to aid civil power.

"If any man knows the British army through and through it is this veteran Victoria Cross hero and winner of many battles. Under such circumstances his views are entitled to grave import and consideration.

some physical readjustments of financial machinery, as in the case of St. Louis & San Francisco, which, under restrictions of its charter, was prevented from financing through stock issues and was compelled to dangerously pyramid its bond issues.

This, then, is what regulation of railroads carried to the extreme and unbusiness-like extent of allowing a political commission to arbitrarily control rates brings the country up against. If the decision is finally to be favorable, it is reasonable to compute the loss, by delay in announcing the decision, to the hundreds of business concerns in the United States, at a million dollars or more a day in overhead expenses, which are necessarily continued but are not paying a profit.

There is some sunshine in the prospect of big crops. There is the enormous wheat estimate of 930,000,000 bushels, corn at 2,868,000,000 bushels, and equally encouraging forecasts in practically all other directions.

AN OLD OUTRAGE RECALLED

It is announced that Luke Dillon, alias Karl Dullman, was released from Kingston penitentiary on Saturday after having spent over fourteen years there as a prisoner.

The incident will not recall anything to the younger generation or newcomers but to the older set it will bring to mind one of the most extraordinary and sensational incidents which ever occurred in Canada.

It was on April 23rd, 1900 that the country was startled by the sensational announcement that an attempt had been made to dynamite a lock on the Welland Canal.

CHILD WELFARE IS IMPORTANT

In the Fight Against the Great Plague of Tuberculosis.

HALIFAX, N. S., July 13.—That the welfare of the child is to be the most important phase of the anti-tuberculosis campaign in the future, was the opinion of some of the leading physicians at the opening session of the 14th annual convention of the Canadian Association for the prevention of tuberculosis held this morning at the Technical College, and at which there was present a large representation from all parts of Canada.

The proceedings this morning were presided over by Dr. Black, of Windsor, N.S., in the unavoidable absence of Sir Adam Beck, from whom a letter of regret at his inability to attend was read.

A letter from the secretary of H. R. H. the Governor-General was read expressing His Royal Highness' hopes for the success of the convention.

The secretary's report showed that nine institutions for tuberculosis had been opened during the past year in Canada and that several others were in course of erection.

Lawn Tennis

The Dufferin Tennis team played off their return fixture with the Delhi club on Saturday, and returned one point down, winning three encounters in the singles, losing two and meeting defeat in the two doubles. They, however, were four points to the good on the previous games and they now stand three points better than their opponents of Saturday. The complete score was as follows:

H. V. Gould, Brantford, L. Crystals, Delhi, 6-0, 6-4.

To The Editor

MR. HAM'S LETTER  
Brantford, July 11th, 1914.  
Mr. John Spence;

Sir,—In regard to your letter appearing in the city papers of July 10th, it is very good for evasion, insinuation and subterfuge, as well as for misstatement of facts. I took the trouble to call on P. C. Tyrell last night. He informed me that you and Ald. Hollinrake called at the police station one day previous to your writing the letter and asked him if I said certain things which he affirms I did not say; after which you took away his report which every policeman turns in at the Police station, that you have not yet returned that report, though he has asked Ald. Hollinrake if he was with you for same, and that most of the statements you made were not in the report as stated in the papers of July 8th when said report left his hands. So if your other statements are not worth more than this one they are not worth my time bothering with.

You ask me whether enquiries as to the car of mystery do not lead up to a man high up in the Reform party. As you ask me to be frank my answer is emphatically "No!" Your car number is the only one we have. You say that Brock Lane is as "light as day." This sounds funny as Alderman Brag, who was in Brock Lane that night when asked what he was doing there said he was there in his capacity as Alderman, to see if they did not need more light.

In paragraph seven, sir, you fail to state you were in the city throughout the day being seen in your car in different parts of the city, the last report I have being about five in the evening, and the next time being somewhere near ten. That must have been a flying trip to Port Dover.

You inquire that I have made false charges in my letter of the 9th. I stated facts. If you think the statements are false you know the remedy, but if you want more I will give you one. I have better ones, but I am saving them. On the afternoon of election day one of my supporters brought a couple of foreigners up to report in Sub-division 21. It was found that they did not have a vote in that sub-division. When returning to the car they were taken hold of by you and one of your supporters and you tried to get them into your car which, of course, my supporters objected to. You were unable to carry

out your object and they went with my supporters to the proper poll and voted. What you wanted to do with them had you got them into your car I cannot say, but I think it was certainly undignified and incorrect for a Mayor of a city to act so, and even Mr. Brewster's supporters sneered at you as you drove away defeated in your object.

In paragraph eight you state your conduct has been free from party politics. How about this? There is an Armenian missionary in this city, who is well thought of, wherever known, boarding at the Y.M.C.A., who states that at the time of the registration he went to the Court House to interpret for a foreigner who was working for the city, whose registration was appealed. You were there. You asked the missionary to ask this man for whom he was going to vote. He stated he did not know. You said to tell him if he wants a job he's got to vote for us, meaning Brewster. Now, sir, if this statement is true, and I believe it, then I say that your action is what I call mis-using your position as Mayor for party purposes, and I advise you that such action is strictly incorrect.

Paragraph nine. Mostly subterfuge and a cowardly desire to shift responsibility for your own shortcomings on to the shoulders of the paid officials of the city. Sir, I have never charged or insinuated that any of them were neglecting their duty. What I say is this that there is a lot of improvement work that the citizens want done this year, that city officials say that for some reason cannot be accomplished. Now, sir, I say it is your duty as Mayor to see that the necessary by-laws are passed and the money raised to carry out this work, and if the officials need more help in order to get the work through you should see that they have it, in order that the work may be proceeded with and the employment given to citizens I remain, Yours truly, who badly need it.

In conclusion, sir, I would say the election is over. During the campaign I treated your slanders and attacks with a proper contempt and you appear to be very sore as a result and felt bound to start a controversy in the papers. You wanted information

It may be that I will have to go so far as to publish some records from the Registry Office. However, whether I do this or not remains altogether with yourself. Hoping this letter will satisfy you, JOSEPH H. HAM.

ACCEPTS CALL BACK TO HIS HOME PROVINCE

Rev. C. W. Rose Read His Resignation at Park Baptist Church.

At the morning service at Park Baptist Church yesterday Rev. C. W. Rose the pastor read his resignation to the congregation and a special meeting has been called for Wednesday evening to consider the same. Rev. Rose has accepted a call back to his home province. He came to Brantford from Yarmouth, N. S., and he will become first pastor at the First Baptist Church, Amherst. The charge is a most important one and the church has historic associations. The father of Sir Charles Tupper, was pastor there for 32 years and it was there that Canada's great statesman received his training. Mr. Rose will have as assistants two other ministers.

Mr. Rose's Resignation

The resignation read by Mr. Rose follows: July 12th, 1914. To the Members of Park Baptist Church, Brantford, Ont. "Grace to you and peace from God our Father and the Lord Jesus Christ. For you I have the Shepherd's love and care. If I thought it in the best interests of the Kingdom of God, I would be ready to spend many years here as pastor of this church and in touch with the religious life of this city. In my judgment, this, in some respects, is one of the best churches in our Baptist convention, and this one of the best cities in the Dominion. I have greatly enjoyed the years spent here, they have been among the happiest of my life. When I first entered upon my work I had no thought of ever receiving such general and hearty support, or such a place as I have reason to believe has been accorded both in the church and city. At some future time I shall have an opportunity to speak of our appreciation of all that you have done to make our work prosperous and our hearts happy.

In view of these statements, you will be surprised to hear that I have decided to resign, and this I now do, the same to take effect at the close of the second Sunday in September. By that time I sincerely hope, that you will have chosen one of the many good men in this convention, or elsewhere, to be your pastor, so that there may be no interruption to the work. Since this decision a design has been reached after careful consideration of all that it means, and is now believed to be the will of God, I ask you to accept it as final.

During the last fourteen months, three strong Eastern churches, where I have been known for most of my life, have, through committees, urged me to consent to calls being extended. The First Baptist church in Amherst, N.S. was the last one to take this action. Last Thursday evening the church extended an unanimous call, having been assured after weeks of deliberation on my part, that I would consider favorably such action. The church in Amherst has over 1,000 members. It is centrally located in a rapidly growing town of about 10,000 people. There is a great opportunity for work among men, and that has always strongly appealed to me. The church has sought me whole heartedly and given me every reasonable assurance of support in the kind of work which appeals to me most. Though it pains me to do so, I feel that the time has come when I should be released, and so make request. Yours in the bonds of Christian love,

C. W. ROSE, Pastor.

REV. WHITELAW ON HOME RULE

A Striking Sermon in Which the Present Measure is Vigorously Attacked.

At Balfour St. Presbyterian church last evening, Rev. J. M. Whitelaw preached on the subject "Home Rule in Ireland," taking for his text John 17:21.

In a masterly address he recalled the history of the Home Rule Movement showing that Gladstone's grand idea of Christian union had brought the scheme to life. In approaching the Vatican on the subject the Church of Rome had asked as a price negoti-

Home Rule in Ireland. Gladstone died, his idea not realized.

The present government, leaving out all the Christian element had, at the request of the Church of Rome, brought in another Home Rule Bill. He quoted from Bishop Dolan's famous statement wherein he stated that Home Rule in Ireland meant that the state would be in complete subjection to the Church of Rome.

He spoke of the years of unwavering loyalty of the Protestants of Ulster to the Empire and prayed for their success in holding Ireland for the Empire and maintaining civil and religious liberty.

Referring to the terrible shadow of civil war hovering over the Empire he asked for the prayers of his people for "peace with honor and liberty."

Clements, who in over a quarter of a century of entrance work, has never had a pupil fail whom she recommended, are to be congratulated.

Preventing a Business Slump

IF DURING September, October and November manufacturers and merchants were to suspend their selling aggressiveness, as represented by their newspaper advertising, autumn business for them would be very, very dull. When selling energy is reduced, business slumps.

The slump in summer business which many firms experience is due mainly to a collapse of their own efforts to keep business up to its usual level. The public does not eat less in summer than in the autumn; it merely changes its diet.

The summer apparel worn by the average man and woman differs from autumn or winter apparel only in weight and kind, not in extent or variety. The common needs of man remain fairly uniform the year round.

The way to keep business up in summer is to keep up the selling pressure as faithfully then as at other seasons, and to keep open the channel of communication between seller and buyer—the channel of newspaper advertising. You can obtain helpful advice on advertising free of cost and without obligation by consulting the Business Department of THE COURIER.

## Sox Fell Down Against Ottawa On Saturday

### After Playing Two Brilliant Games, Brantford Hits Pace Which Has Kept Them Around Last Place—Score 8-1.

Ottawa copped the third and final of the series with Brantford Saturday by 8-1, just when a large crowd of fans had collected in the expectation of the Red Sox making a clean sweep of the three games with the champions. There was one factor between Brantford hopes and their realization and that was Fitcher Shocker.

Ottawa's big lead having spoiled things, while Shocker's great pitching completely stopped Brantford. The Senators failed to do any crabbing to amount to anything.

### Game by Innings

On the other hand, runs which Ottawa had failed to gather on Wednesday or Thursday seemed easy picking in the Saturday feature. When Nickel, the elongated Brantford heaver was sent in, a good thing went wrong, and Nickel lasted one round only, during which time Ottawa gathered four runs. Two strikes, a double and a home run proved the big fellow's undoing. Rogers' line to right went for two bases, and was a tremendous drive, while Lage put the ball right over, for a homer. At this stage Eddie Taylor replaced Nickel and the game proceeded merrily for the full nine innings.

**First Inning**  
Ottawa—Bullock walked, after fouling off several. Smykal forced Bullock at second, Nickel to Thrailkill. Shag was hit by a pitched ball. Rogers doubled scoring Smykal and Shaughnessy. Lage hit a homer over right field scoring two more. Taylor was sent in to pitch and Nil singled past third. Dolan was out Taylor to Ivers. Nil went to third on a wild pitch and scored on a doubtful hit to short. Shocker was out Roth to Ivers. Five runs, five hits, no errors.

**Second Inning**  
Ottawa—Bullock was out Roth to Ivers. Smykal got a hit to third. Shaughnessy was out for running off the line, McParlin at the plate, reversing Luah's decision. Rogers was out Roth to first. No runs, one hit, no errors.

**Third Inning**  
Ottawa—Lage beat out a scratch hit to third. Nil sacrificed, Taylor to Roth. Dolan was out Roth to Ivers. Roth making a fine play. Powers flied to Roth. No runs, one hit, no errors.

**Fourth Inning**  
Ottawa—Shocker flied to Roth. Bullock was out short to first. Smykal flied to Nelson. No runs, no hits, no errors.

**Fifth Inning**  
Ottawa—Shag was out Thrailkill to Ivers. Rogers flied to Lacroix and Lage was out to Deneau. No runs, no hits, no errors.

**Sixth Inning**  
Ottawa—Lage walked, Roth struck out. Thrailkill struck out. Lamond was safe on Smykal's error. Lacroix was safe on Smykal's error.

**Seventh Inning**  
Ottawa—Shag was out Roth to Ivers. Rogers was out Taylor to Ivers. Lage doubled. Nil singled scoring Lage, and stole second. Dolan walked. Long made a fine running catch in left on Powers. One run, two hits, no errors.

**Eighth Inning**  
Ottawa—Shocker was out short to Ivers. Deneau replacing Taylor in the box. Bullock walked and stole second on Lamond's throw. Smykal struck out. Shag was safe on Nelson's error. Bullock scoring. Shag stole second but no one covered and advanced to third. He was caught coming home. One run, no hits, two errors.

**Ninth Inning**  
Ottawa—Rogers was out Roth to Ivers. Lage got a scratchy hit. Nil flied to Taylor. Dolan was out Deneau to first. No runs, one hit, no errors.

**Tenth Inning**  
Brantford—Deneau flied to Shaughnessy. Ivers was out Nil to first. Roth got a single past third. Thrailkill struck out.

**Summary—Stolen bases, Bullock, Shag and Nil. Sacrifice hits—Nil and Dolan. Two base hits—Lage and Rogers. Home run—Lage. Innings pitched by Nichol 1 2/3, by Taylor 2 2/3, hits off Nichol 2, runs 4. Struck out—By Shocker 7, by Deneau 1, bases on balls, off Nichol 1, off Taylor 3, off Shocker 1. Wild pitch—Taylor. Left on bases—Brantford 5, Ottawa 7. Umpires Haut and McParthen.**

## Sporting Comment

Manager Deneau left Saturday night on a scouting trip to Detroit and Toledo, and may not be in the game to-day at London. A new outfielder, Krantler, from Detroit, will report to the Red Sox however, and the new acquisition, it is said, will add both speed and hitting ability to the team. While at Detroit, Manager Deneau will interview Barney, and endeavor to get him to report. The Rubes' trip to Toledo may result in his securing a couple of real good ones, but he would make no announcement prior to his departure on Saturday.

The London Free Press this morning prints a story of Toledo and Youngstown replacing Brantford and St. Thomas in the Canadian League. It is pretty early to talk about such changes, and it doesn't help the league any at present. It is Brantford's misfortune to have a second division team two years in succession and it follows that talk of the franchise being removed crops up. Come to look at it, the failure of the magnates to provide Brantford with a real team should not be mistaken for failure of the crowd to go daffy over a tail-ender.

The Hamilton players can evidently play Sunday ball. They lost two on Saturday and won two games at Erie Sunday.

Brantford is in last place to-day as a result of the Sunday victories of Hamilton and Peterboro.

At Rochester on Saturday, 1750 people paid to see Rochester and Toronto play. It looks as if the international this year were due for a real crash.

Deneau will probably send big Nickel right back to pitch against London to-day.

Gabby Ivers said in a moment of reflection that he can account for five games Brantford lost because he was in right field. "It wasn't errors I made," said Gabby, "because sometimes I wasn't charged with errors. It was because I didn't know how to play the outfield."

Next Monday Toronto comes here for the first time this year. Three double headers on three days may be staged by the Red Sox. At any rate two double headers will be played.

Visiting teams to Brantford say that the Red Sox has about the best pitching staff in the league. At that the Brantford pitchers have not been responsible for a big percentage of the games lost.

President Barrow of the International League has issued a long statement pointing out that the Federal League is having financial troubles as well as the International. Barrow says that the International magnates even if they lose all their coin will stick it out.

It takes St. Thomas to beat London. The Saints drove Bobby Heck from the mound Saturday.

Petes Defeat Beavers.  
PETERBORO, July 13.—Errors and inability to hit belting with men on bases gave Saturday's game to the locals by the score of 6 to 0.

Saints Defeat Tecumsehs.  
LONDON, July 13.—The Tecumsehs could not make it unanimous with St. Thomas on Saturday afternoon, and as a result the bill was divided. The first pastime was taken by the skyrocketing Saints, 8 to 6, while the sun session went to the home folks 5 to 1. There was nearly 4,000 folks in the stands and on the sward.

Eric Wins a Pair.  
ERIE, July 13.—Eric took both ends of a double-header from Hamilton Saturday, winning the first 7 to 5 and the second 9 to 3. Both teams fielded loosely and hit hard. Eric, however, bunched hits to better advantage behind Hamilton's errors and was never in danger of being beaten.

Emmeline Released.  
LONDON, July 13.—Mrs. Emmeline Pankhurst, the militant suffrage leader, who was arrested on July 8 at the offices of the Women's Social and Political Union, was again released from Holloway jail on Saturday.

Hamilton Wins Two.  
ERIE, Pa., July 13.—Hamilton played in better form yesterday while Eric took a decided slump, both at bat and in the field, the visitors winning both ends of a double header, 12 to 4 and 3 to 1. In the first game Hamilton drove Brown to cover and hit Fitzpatrick hard, also successive home runs by Dudley and Barrett featured. In the second game Shears kept Eric's hits to well scattered to be productive of many runs.

The score—  
First Game  
Eric ..... 00001102—4 8 4  
Hamilton ..... 141040200—12 15 4

Second Game

## ONE SIDED SCORES IN FOOTBALL LEAGUE

### Paris Ran Up Nine Goals on P. S. A.—All Scots Defeat Duffs and Tutela Beat Holmedale Tigers.

Paris 9, P.S.A. 1.  
Scots 6, Duffs 0.  
Cockshutts 5, Wanderers 0.  
Tutela 4, Holmedale 1.

Prolific goal scoring marked the games in the Brantford and Paris league on Saturday when the victors netted twenty-four of the twenty-six goals scored, the average per game being six.

The greatest surprise was sprung in the Scots and Duffs match when the champions sustained their first league defeat of the season. They never got going and the Scots saw to it that they did not get a chance. The magnitude of their score was principally due to the excellent work of their new centre forward, Jones, who is perhaps, the best in the league. He has certainly strengthened the Scots attack.

Tutela sustained their unbeaten certificate when they met the Tigers, who although they put up a good brand of soccer were unable to score more than once. The teams were not at full strength but weakness on one side was equalized by weakness on the other. It was a good fast game and the Paris boys were worthy winners.

The Wanderers got the worst of a five goal argument with Cockshutts; when they never pierced the goal once. Weakness in the forward ranks was apparent. Cockshutts were due for a revival and they did well.

Paris provided a pretty strong team against the P.S.A. boys, who as usual played with enthusiasm and did not seem discouraged by their reverses. The score was 9-1 against the Congregationalists and they must be credited with being good and plucky losers. Reports of the games follow:

**Paris 9, P. S. A. 1.**  
The above teams met at Recreation Park on Saturday in a League game. The whistle blew for the kick off with the P.C.A. facing the sun. Directly after the start the Paris boys took the ball up the field and placed it inside the net. From this onward, they had nearly all the best of the game, putting five goals in during the first half. Half time was called with the P.S.A. still unable to pass the Paris backs. After the interval play recommenced and with it the Paris boys recommenced scoring. Once or twice the P.S.A. drew near the Paris goal but those backs were hard to beat. However, the ball was returned to the Paris goal by a lovely shot sent in from right wing and after a little passing in front of the goal mouth, Billy Parr scored the "Brotherhood's" one and only goal. It was thought that this would put more go into the P.S.A., but try as hard as they would, they found it impossible to get by the backs. The Paris lads still kept their shooting boots on, putting in for shots at the goal all the time. Once a fine shot was sent in to the Paris' custodian, and the crowd waited almost breathless to see if it would get past him, but he saved in fine style. After this the play was nearly all down at the P. S. A. end and by the "ish" of the game the Paris boys had net four more goals by F. Riches, who was in goal for the P.S.A.

**Notes of the Game.**  
The score certainly was high but without Knowles and Illsey it would have been three times as high. You want to put in a few more like that one, Billy.

The P.S.A. had a reserve goalkeeper, Hunt, who was picked, but he was unable to turn out.

Stick to it, P.S.A., next year you'll be able to show them something.

**Tutela 4, Tigers 1.**  
The above teams met in a league encounter at Tutela park on Saturday when Tutela added to their string of victories by defeating the Tigers, 4

goals to 1, before a fairly large crowd selected to play with the sun at their backs. Neither team was fully represented, Tutela being minus both their regular backs and goalkeeper, but it was a good game, nevertheless. The Tigers kicked off and the first 15 minutes saw both goals visited, but the shots were weak, neither teams showing good football. From this, play settled down and the Tigers seemed to have the best of matters, and Coburn secured the first goal of the match for them. From the regular and pressed the Tigers defence, resulting in Collett scoring a goal, this evening matters up. Play continued fairly fast until the interval, Scanton being called on several times to save, which he did in good style.

The second half was better than the first, the players using more judgment, and at times the combination of the Tutela forwards had the Tigers defence nonplussed, but Scanton in goal was playing a stellar game and saved many difficult shots. However, Tutela's perseverance was rewarded when Collett again beat the goalie with a fine shot. Play was now getting fast, and the Tigers bested Gore, the Tutela goalie, several times but were unable to increase their score. Tutela again pressed, and Collett who played a splendid game throughout, again beat the defence and scored, performing the "hat" trick. Tutela's fourth goal shortly before time. The Tigers tried hard but were unable to reduce the Park boys lead.

**Notes**  
H. Collett was easily the best man on the field, his three goals were all good ones.

The Tigers are all workers, but their eagerness at times caused their undoing.

Joe Scanton played a great game in goal for the Tigers.

**Scots 6 Duffs 0**  
On Saturday last at Agricultural Park the Scots gained a decisive victory over last year's champions by winning out by six clear goals. Jimmy Morrow won the toss and put Duffs to play against a fair wind, also a strong surge, were matched Saturday for a twenty-round boxing contest on July 28, at Vernon. They are to weigh 125 pounds.

**RIVERS VS. LEACH, JULY 28.**  
LOS ANGELES, July 13.—Leach Cross, of New York, and Joe Rivers, of Los Angeles, were matched Saturday for a twenty-round boxing contest on July 28, at Vernon. They are to weigh 125 pounds.

STRATFORD July 13.—Until the fifth, Coose, the Woodstock pitcher, was again something of a puzzle to the local W. O. B. L. batters Saturday afternoon. But in that frame the homesters got to him and a series of two sackers and triples netted five runs and put the game on ice. Stratford continued to touch Coose in the remaining innings, and this fact, coupled with a number of bonehead plays, enabled the locals to increase their lead, the score at the close being 10 to 4. Sharp pitched steadily, tricky ball all the way, never weakening. Agnew, late of Guelph, was behind the plate for Stratford and he made a fine impression with the fans. Brundage, Hackbush and Nunns were heavy with the willow, hitting hard and often. The line-up:—

NEW WIRELESS DEVICE FOR OCEAN LINERS

Interest keener than usual attended the recent arrival at St. Lawrence ports of the Canadian Northern liner "Royal George" because, during the passage across the Atlantic a series of demonstrations had been given of the possibilities of a new wireless aid to navigation. Through the genius of Marconi, during the last few years the narrative of a workaday world has been given daily to the passengers on most of the steamships ploughing the seven seas. The Italian inventor gave the air a tongue. Now in the new wonder—the Marconi-Bellini-Tosi System—has been added literally a wireless eye. The new device is classified as a "direction-finder" in motion, or in other words, on coast line or high seas, within a radius of fifty miles, and to indicate for the guidance of the navigating officers the exact relation of the ship to those in terms of latitude and longitude. Its sphere of usefulness, even in the present experimental stage, is to assist the captain during "thick" weather in maintaining a clear course in the travelled ocean lanes, and passing points, and in making ports.

Like many inventions useful to mankind, this wireless finder is remarkable for its simplicity. Although one of Marconi's engineers, Signor Emilio Ichino, came out on the Royal George to make the tests, its operation does not require an expert and any of the bridge officers can obtain a bearing as easily as with a compass and just as conveniently, the instruments being set up in the chart room.

The device is not bulky. The "detector" box, which is the medium for locating the wireless stations, is but large enough to hold two small switches and a graduated dial fitted with a readable indicator. Connected with this cabinet is the telephone box, differing from others in that it is equipped with a crystal of carborundum which translates the wireless into a signal intelligible to the ear of the operator. There are two receivers fastened to the ear of the operator by metal straps going over the head. Then too, the device differs from the ordinary wireless apparatus in the aerials, according to Mr. David Sarnoff, contract manager of the Marconi Wireless Telegraph Company of America, who in addition gives the following description. "Instead of being composed of several straight parallel wires, the aerial of this new system consists of two large wire triangles, which are so arranged that they cannot receive a message at the same time with the same strength. If one of them receives a message, the strength of the other does not receive it at all; and if both receive it the message is always stronger over one than over the other. The position of the sending station is determined by the strength of the message as it is received over each triangle. These two wires are connected to the finder box by two switches. On this box is a dial marked in the degrees of a compass with a moveable indicator. Half of this dial is affected by a message coming over one of the other triangle, so that the indicator is moved accordingly. When the current is at its strongest the indicator points to the direction of the sending station. To determine the point on the dial at which the message is strongest the operator moves the indicator first one way and then the other, noting the points at which the current disappears. The mark midway between these two vanishing points gives the direction of the message."

Both the Marconi engineer, Signor Emilio Ichino, and the captain of the Royal George expressed themselves on arrival at Quebec as highly pleased with the experiments which had been made on the voyage. The instrument had been accurate to a degree in detecting the compass direction of other stations, whether on shore or on other vessels. They had been able to ascertain the compass position of Cape Race, Cape Ray, Father Point and the ships Columbia, Calgarian and Sicilian. The Columbia had been 63 miles away, the Calgarian 52 and the Sicilian 18. Both men were confident that neither wind, wave or fog would affect the accuracy of the new wireless device.

The Canadian Northern, since the inauguration of its Atlantic steamship service, has established a reputation for experimentation with new ideas calculated to improve ocean navigation. It was first to employ a relay of operators to secure continuous wireless service. Later it enabled Professor Barnes of McGill, Montreal, to test a device for the detection of ice at sea. Since that time one of its captains has conceived and developed a highly efficient device for the launching of small-boats-at-sea. Now it is the Marconi-Bellini-Tosi system.

Henry Clay of Windsor has been appointed Registrar of Essex County.

The Man Without A Country

And after some fashion Nolan said so. And they all fell to kissing him and wanted to rub his nose with them. But he could not stand it long, and, getting Vaughan to say he might go back; he beckoned me down into our boat. As we lay back in the stern sheets and the men gave way, he said to me: "Youngster, let that show you what it is to be without a family, without a home and without a country. And if you are ever tempted to say a word or to do a thing that shall put a bar between you and your family, your home and your country, pray God in his mercy to take you out of instant home to his own heaven. Stick by your family, boy. Forget you have a self, while you do everything for them. Think of your home, boy. Write and send and talk about it. Let it be nearer and nearer to your thought the farther you have to travel from it, and rush back to it when you are free, as that poor black slave is doing now. And for your country, boy," and the words rattled in his throat, "and for that flag," and he pointed to the ship, "that she bids you, though the service carry you through a thousand hells. No matter what happens to you, no matter who flatters you or who abuses you, never look at another flag, never let a night pass but you pray God to bless that flag. Remember, boy, that behind all these men you have to do with, behind officers and government and people even, there is the country and your country, and that you own it when you belong to your own soil. Stand by her, boy, as you would stand by your mother if those devils there had got hold of her today."

I was frightened to death by his calm, hard passion, but I blundered out that I would, by all that was holy, and that I had never thought of doing anything else. He hardly seemed to hear me, but he did, almost he said so to me when I was of your age."

"I think it is this half confidence of his, which I never abused, for I never told this story till now, which afterward made us great friends. He was very kind to me. When we parted from him in St. Thomas harbor at the end of our cruise I was more sorry than I can tell. I was very glad to meet him again in 1830, and later in life, when I thought I had some influence in Washington. I moved heaven and earth to have him discharged. But it was like getting a ghost out of prison. They pretended there was no such man and never was such a man. They will say so at the department now."

There is a story that Nolan met Burr once on one of our vessels, when a party of Americans came on board in the Mediterranean. But this I believe to be a lie or, rather, it is a myth, well known, involving a tremendous blowing up with which he struck Burr—asking him how he liked to be "without a country."

After that cruise I never saw Nolan again. I wrote him but at least twice a year, for in that voyage we became even confidentially intimate; but he never wrote to me. The other men tell me that in those fifteen years he aged very fast. And now it seems the dear old fellow is dead. He has found a home at last, and a country.

Since writing this I have received from Danforth, who is on board the Levant, a letter which gives an account of Nolan's last hours. It removes all my doubts about telling this story.

To understand the first words of the letter the nonprofessional reader should remember that after 1817 the position of every officer who had Nolan in charge was one of the greatest delicacy. The government had failed to renew the order of 1807 regarding him. What was a man to do? Should he let him go? What, then, if he were called to account by the department for violating the order of 1807? Should he keep him? What, then, if Nolan should be liberated some day and should bring an action for false imprisonment or kidnapping against every man who had had him in charge? The secretary al-

ways said, as they so often do at Washington, that there were no special orders to give and that we must act on our own judgment. Here is the letter:—

Dear Fred—I try to find heart and life to tell you that it is all over with dear old Nolan. The doctor had been watching him very carefully and yesterday a picture came to me and told me that Nolan was not so well and had not left his stateroom, a thing I never remembered before. He had let the doctor come and see him as he lay there, the first time the doctor had been in the stateroom, and he said he should like to see me. Oh, dear, do you remember the mysteries we boys used to invent about his room in the old Intrepid days? Well, I went in, and there, to be smiling pleasantly as he gave me his hand, but looking very frail. I could not help a glance round, which showed me what a little shrine he had made of the box he was lying in. The stars and stripes were triced up above and around a majestic eagle, which he had painted a whole globe, which his wings overlaid. The dear old boy saw my glance and said, with a sad smile, "Here, you see, I have a country." And he pointed to the great map of the United States as he had drawn it from memory and which he had there to look upon every night and large letters. "Oh, Danforth," he said, "I know I am dying. I cannot tell you anything more, stop, stop! Do not speak till I say what I am sure you know—that there is not in this ship, that there is not in America, a more loyal man than I. There cannot be a man who loves the old flag as I do or prays for it as I do or hopes for it as I do. There are thirty-four stars in it now, Danforth. I thank God for that, though I do not know what his name are. There is not in America a more loyal man than I. I know by that that there has never been any successful Burr. Oh, Danforth, I tell you something—tell me everything, Danforth, before I die!"

Ingham, I swear to you that I felt like a monster that I had not told him everything before. Danger or no danger, delicacy or no delicacy, who was I that I should have been seeing the tyrant all this time over this dear, sainted old man who had years ago expired in his whole manhood? His life the madrest of a boy's reason. "Mr. Nolan," said I, "I will tell you everything you ask about, only where shall I begin?"

Oh, the blessed smile that crept over his white face! And he pressed my hand and said: "God bless you! Tell me their names," he said, and he pointed to the stars on the flag.

"Well, I told him the names in as good order as I could, and he bade me take down his beautiful map and draw them in as I best could with my pencil. He was wild with delight about Texas, told me how his brother died there. He had marked a gold cross where he supposed his brother's grave was, and he had guessed at Texas. Then he was delirious, he said, he had suspected party because he had never been permitted to land on that shore, though the ships were there so much. "And the men," said he, laughing, "brought off a good deal besides furs." Then he went back—heaven, how fact—he signed out, "tell me—tell me something—tell me everything, Danforth, before I die!"

**ORANGEMEN LEFT FOR ST. THOMAS**

**Brantford Had a Real Parade This Morning—Celebration Today.**

The old familiar strains of "Boone Water," "Orange Lily," and other Ulster tunes were heard in the streets this morning when local Orangemen paraded through the principal streets of the city to the T. H. and B. railway station where they left at 9 o'clock for St. Thomas to take part in the celebration there to-day of the anniversary of the Battle of the Boyne. The members of the two local city lodges, Nos. 297 and 742 formed in marching order on Dalhousie St. in front of the Temple Building. The lodges first met in their respective rooms at 7 o'clock where the annual business meeting of the lodge took place for the Orange year dates from July to July and not from January to January. Several new candidates were initiated in each lodge, and it is considered a distinct honor to be initiated into the secrets and mysteries of the initiatory degree on the morning of the annual celebration of the Battle of the Boyne.

The morning broke over the city, as many another Orangeman's day has broken, dull and dreary, but the elements have tested the fidelity of the followers of King William many a time and have never found them shirking the annual "walk."

Lodge 742 was in charge of W. M. David Lyle and Secy. Secretary A. B. Lee; while old 297 was directed by W. M. O. A. Uptgrave and Secretary A. Beale. Members from Oshweken, Burford and Mt. Pleasant and the surrounding district came into the city early and swelled the ranks of the parade. The procession was headed by the Oshweken band, the L. O. L. No. 742, the newly organized fire and drum band of No. 742, under the direction of Wm. Fuller, and L. O. L. No. 297 and the Victoria Mills band brought up the rear.

After parading through the principal down town streets, the procession headed to the T. H. and B. station down Market streets, where the members boarded the train for St. Thomas.

**With the City Police**

Although there was a large number of cases upon the list this morning, there were none of them serious offences.

Drunks made up half a dozen, and they got off with light fines.

William Howe was charged with being disorderly at the instance of P. C. Stanley, who arrested him on Market street, but the charge was not upheld and Howe was dismissed.

The little fracas on Pearl street during Saturday night was investigated when Andrew Novak and Simon Chanpura were up on a charge of being disorderly. Muraka also laid a charge of assault against his companion, and after hearing both sides of the story, Magistrate Livingston found that it was a case of six and half a dozen, and he dismissed both cases.

Alvin Steppen was on the list for nonpayment of his board bill, but as he is paying as best he can, the case was further adjourned.

John Sears will be charged with nonpayment of wages on Wednesday when Robert Miller will be the complainant. This case was held over from to-day's business.

Extreme heat continues in the Western provinces.

**HAMILTON CHURCH DEALS WITH HUNTER**

**Will be Given Opportunity to Explain His Conduct at Goderich.**

[By Special Wire to The Courier]  
HAMILTON, July 13.—Hamilton, and especially the congregation of St. John's Presbyterian Church, were interested in a peculiar way in the trial of the Goderich bribery case, J. B. Hunter, who was given such a severe castigation by the magistrate who heard the case, having been recently appointed organist of St. John's Church. The session of the church met at the conclusion of the morning service yesterday to deal with the situation. A letter was read for Mr. Hunter, stating that the description of him given in the despatches from Goderich on Friday was not a true presentation of his character and asking for an opportunity to show exactly the kind of man he was. The session and the music committee agreed to give him the opportunity he asked for. He came here highly recommended and presided at the organ at yesterday's services. Over the long distance phone the statement published in the Toronto papers and attributed to him was read to Police Magistrate J. Kelly, and he was asked for the facts of the case. He said: "I won't say that I used those exact words. It may be set forth a little nicer than I put it, but the statement is substantially correct."

**ALARM WENT OFF**

**Bank of Montreal Burglar System is a Very Impres-sionable Affair.**

In the new branch of the Bank of Montreal at Brantford, they have a most elaborate burglar system in connection with the vault. If a midnight visitor should even so much as sneeze automatic chaos would reign unconfined.

Shortly after midnight on Saturday the neighborhood was aroused by the sounding of the alarm. The police rushed up and so did several citizens. Still the noise went on and it was only when the manager and accountant could be secured in order to open the door and re-set the cause of the disturbance that the sweet dove of peace consented to flutter once more over the premises.

The cause was not crackmen looking for microbic bills but from a far more innocent agency.

A clerk residing on the premises went down for a drink of water from the ice cooler. He carried his coat on his arm and that article touched the combination thus setting off the hullabaloo.

**FIRST MEETING**

**Ex-Mayor Hartman is Chairman of the Street Railway Commission.**

The organization meeting of the Brantford Street Railway commissioners was held this morning in the committee room of the City Council. All the members, C. H. Hartman, W. R. Turnbull and A. K. Bunnell, were present. Mr. Hartman was elected chairman, and it was arranged that all correspondence will temporarily be looked after by Mr. Bunnell, and all business communications should be sent to him, but addressed to the Brantford Street Railway Commissioners. As the exact date of taking over the railway was not yet known, the commission merely elected the chairman, and adjourned.

**THREE IN ROW**

**Fire Alarms on Saturday—Damage at Children's Shelter.**

It is an old saying and certainly a true one that fires never come single in Brantford but generally, indeed all ways in groups of three or four, one close upon the heels of the last.

This ancient saying was once more verified here last week when after the Schultz Factory blaze on Thursday night, two alarms were turned into the Central Fire Station Saturday afternoon, one following very close on the other.

On Saturday afternoon at 1.20 the firemen were summoned in response to a telephone alarm to the corner of Wellington and Charlotte streets, where a good sized grass fire was found in progress in the rear of the Gould, Shapley and Muir factory. The blaze was soon extinguished by the chemicals.

**Shelter on Fire**  
Hardly had the men arrived back at the station from the grass fire when at 2.20 they received a telephone alarm that the Children's Shelter, corner of Chatham and George Streets was on fire. On arrival they found the large attic of the shelter ablaze and going pretty bad. Smoke and the attic along with the intense heat outside was like an oven. By the use of two streams, one from the outside and one up through the inside the firemen were able to conquer and extinguish the fire in the attic. It is not thought the loss will exceed \$50. The cause is thought to have been spontaneous combustion among a lot of packed dry goods stored in the attic.

**WILL AGAIN BE JUDGE AT GALT POULTRY SHOW**

J. H. Minshall, Brantford Expert, Chosen—Exhibition Brings Approval.

GALT, July 13.—At a large meeting of the local poultry association it was decided to again engage J. H. Minshall, Brantford, as judge. The gentleman is well known through the continent as an expert in all varieties of poultry and pet stock. Much satisfaction was expressed, and the holding in of the forthcoming show of the Ontario branch of the American association, announcement of which first appeared a week ago in the Advertiser. The recognition carries with it several costly medals and cups.

He was taken to Hotel Dieu. His chances for recovery are good.

**CHOSE SLOWER ALTERNATIVE**

PITTSBURG, July 13.—Charles Wagner, who last Monday gave Mrs. Susan Thornton the alternative of drinking slow poison with him or being shot to death, died to-day in a southside hospital. Mrs. Thornton with whom Wagner was infatuated, but could not marry, chose the poison believing her chances were better than if she were killed at once. She died yesterday in the same hospital.

**BALLOON RACE RESULT UNCERTAIN**

**They First Encountered Calm and Then Terrific Wind Storm.**

[By Special Wire to The Courier]  
ST. LOUIS, July 13.—The San Francisco "1915" piloted by E. S. Cole of St. Louis and his aide, R. E. Emerson of Springfield, Mo., early today was the only balloon not reported landed in the national elimination race which was begun here Saturday afternoon. The balloon was last heard from passing over Dahlgren, Ill., at 8 o'clock yesterday. It had been in the air 15 hours then, but according to a note dropped at this point, five hours had been spent in a calm. The San Francisco "1915" was then headed for the east.

Of the seven which landed yesterday six had not covered 200 miles. Their progress was hampered first by the lack of strong air currents at any altitude, and later by terrific storms which the balloonists encountered miles above the earth.

The Goodyear, piloted by R. A. D. Preston of Akron, Ohio, made the best record of those reported down yesterday. Preston and his aide, M. D. Tremblin, also of Akron, landed at Constance, Ky., somewhat more than 300 miles from St. Louis on an "air line." As soon as the San Francisco "1915" reports its landing the Aero Club of America will begin at New York compiling the official distances covered by each contestant.

The pilot of the balloon which landed furthest from St. Louis will be the United States third representative in the international race to start from Kansas City next October.

**TEN DROWNINGS NEAR NEW YORK**

**First Real Hot Sunday Drew Thousands to the Water Front for Relief.**

NEW YORK, July 13.—The first hot Sunday of the summer drew thousands to the waterfront for relief with the result that ten drownings were reported to the police during the day and night. Two young boys died in sight of thousands in Prospect Park, Lake, Brooklyn, through the capsizing of a boat.

More than 150,000 persons, many of them mothers with babies were held at Coney Island until early morning because of a blow out of a transformer which supplies power to the trolley cars and elevated roads running to the beach resort. The accident happened at ten o'clock and not a wheel turned until one o'clock this morning. Police reserves were called out to control the anxious crowds that thronged the stations. Thousands of persons sat or slept on the beach front until daylight.

**E. W. COX'S FUNERAL**

The remains were placed in the family vault in Mount Pleasant cemetery.
