Official announcement by the G. T. P. Railway Co. On November 16th 1908, Chas. M. Hays President of the Grand Trunk Pacific Railway Co. in a letter to the Hon. W. S. Fielding, Minister of Finance, at Ottawa, stated that the divisional line between the Prairie and the Mountain Section is at Wolf Creek.

Wolf Creek is 120 miles west of Edmonton, and at the junction of Wolf Creek and McLeod River. There is no doubt about this town being a scene of activity from the start, as it will be the terminus of the G. T. P. until the two large bridges have been completed across Wolf and McLeod Rivers.

Two general stores, and a drug store are already doing business at Wolf Creek. Many more lots have been purchased for business since this property has been placed on the market. A lot on Main street will start you on the road to fortune. We still have a few lots left on Main Street.

Prices from \$50 to \$150. Terms, one-third cash, balance 3,

Discussion is ripe at the market square this week as to the lateness of the spring season. Old timers say that they have no recollection of the ice remaining on the river a slate as the first day of May. It is anti-cq ated that there will not be any ice flow this season as unbuss a spell of entities the usual spring freshet from the mountains. With out this the ice will gradually melt by the warm sun-shine during the day. Stories are told of a most remark-nable season in the spring of 1889. For thirteen months there had been only one inch of rain or snow fall and only one inch of rain or snow fall and only one inch of rain or snow fall and only one inch of rain or snow fall and only on a lew occasions did the theremore the stration, owing to the grain wanted. A price reaction was about due today, following the seven cent advance, but it would likely have eales on profit taken account develop-ed on a large scale. While there were fractional recessions in the de-state stell yards, and this, too, in sym-pathy with the abnormal strength in the cash markets today and cash hand-lers and millers volunteer the opin-ion that holders are complete masters of the situation, owing to the situation or snow fall and only on a key occasions did the theremore.
