founded on principles of Communism of salvaging the havoc which this Russia has attempted

It was in 1916 that the Non-Partizan League came into partial con-illusioned and the cost in money and trol of the administration of the State when it elected Lyan J. Frazier, at that time a practically unknown man, to the Governorship. The successes won in 1916 were enlarged in 1918. when the new "reformers" gained control of the Legislature. The members immediately proceeded to enact legislation putting into effect the extraordinary industrial programme to which they were pledged. These laws were endorsed by popular referendum and the State was launched upon a campaign of extravagance.

The frenzied finance of South Sea Bubble days, although not of the same magnitude, finds a parallel in the early years of the None Partizan movement. First of all the Bank of North Dakota was inaugurated under State contyol, which became the sole de-pository of all State funds and the sponge from which could be squeezed the money for the enactment of one wild scheme after another.

To-day it is admitted that this State Bank is insolvent, and the shareholders, who are the people of the State, are unwilling that the proceeds of further bends shall be wasted to support the enterprises which had their origin in the disordered minds of a few extremists. The State Bank was unable to meet its cheques several months ago and the State is behind in its salaries. The Non-Partizan Chain Store Company is in the hands of a receiver. The Home Building Association has scores of foundations dug and houses half finished to stand as a monument to the excessive folly of its leaders. Work has been stopped on leaders. #### THE TRUTH TO THE TAXPAYERS

LADIES AND GENTLEMEN,-

Believing that the best policy to place before the taxpayers is the TRUTH, and that the present is not the time to consider improvements, which can only be carried out by further taxation or increasing the Municipal debt by further loans, I propose placing some facts before you.

The revenue of the Council last year was \$379,682, expenditure \$377,236, leaving a balance of \$0,457.

The estimated revenue this year is 6350,507.50, expenditure \$349,736.24, leaving a balance of \$861.26.

The yearly interest paid on Municipal loans is over one-fifth of the total revenue of the Council.

The Civic Board in the spring of this year further increased the debt of the municipality when they raised a loan of \$150,000 at 6 p.c. interest per annum, and through their misconceived policies and blunders they have left us a yearly heritage of a further debt of \$9,000 payable in interest.

If you do not want further taxation, or a recurrence of the wasteful expenditure of this year, vote for me, and I will do my utmost to protect your interests and thereby effect certain economies in the present revenue that can be used for the improvement of the city.

### Those Dreary Offices.

Many clarks die young. Much attention has recently been rawn to the prevalence of lung-disease anicag office-workers. The conditions under which clerical work is done, however, are constantly improving, and though there is a good deal other thing I do is to send for all modern high buildings provides, the

most desirable offices. Airless rooms are a great evil, and the importance of at least some gleams and selling points at home before I of sunlight for the sedentary worker must not be overlooked. The north room which gets no sun, and badlyventilated, cellar-like offices where her desk, "I always keep this full of artificial light has to be much used had failed to "use post cards. My husband laughs at my are not only bad for the health of the my bean" as the post card shopping but he thinks it's workers but bad for the employers as well. Good work cannot be maintained by those whose days are spent under unhealthy conditions.

The fault is not always with the surroundings, however, for often the clerks themselves object to having the windows open, and where many are employed there is the natural difficulty of suiting the tastes of all.

Every experience shows that, the dreary, airless office ought to be avoided-but unfortunately the business sections of most cities were built before the relation of surroundings to physical health and mental activity over 15,000 persons were killed or in the end it is worth while. #### The Greatest Industrial War in History.

In these days of industrial unres the labour wars are nothing compared to those which were inaugurated in Russia early in December, 1905, which for disastrous consequences completely overshadowed anything of a similar kind in the history of the world. These great upheavals in Russia were how ever, political strikes rather than in dustrial ones, a circumstance which added greatly to their intensity. The one which broke out in 1905 involved. more than a million workmen, and began with the railways, Moscow and St. Petersburg being completely isolated from the rest of the world. Famine stalked abroad, not only in those two cities, but throughout the country Other workers followed the railway men and the gas and electric lights went out, and the water supply ceased Incendiarism was rife and shops

results. It was the first full awakening of the slumbering Russian people, and marked a great forward step in the political life and thought of the masses who inhabited that great empire. Recent happenings there have proved that the people lack intellignce, else the Bolshevists would never have obtained the power they hold, for the masses are worse off to-day than they were under the most autoeratic of Czars.

#### Moose Propagate in Newfoundland.

(By Jack Pot in Sydney Post) Recently I had the pleasure of a chat with R. P. Whittington, proprietor of the Log Cabin, Spruce Brook, Newfoundland. This delightful summer resort is located in the heart of the hunting and fishing district, about six hours run from Port aux Basques When the war broke out Mr. Whitington packed his bag and sailed forth on the Great Adventure. Last summer the hostelry was re-opened. and, while the patronage did not equal that of the olden days, many friends found their way to the commodious

and restful cabin. Mr. Whittington tells me that guides coming in from the Gaff Topsails report sighting a bull moose, cow and calf at the summit of the ridge. Four of these animals were imported from New Brunswick a number of years ago and have propagated rapidly. A close season of indefinite duration pro-

tects them. The Spruce Brook, Log Cabin is much more comfortable than many of the hotels in large cities. It has 17 bedrooms, 2 sun parlors, smoking, dance room, baths, and other modern conveniences, and, perhaps of more importance, the rates are right-\$3.50

Georges Lake, immediately in the rear of the hostelry, is ten miles long and in places a mile wide. Great gamey trout abound in the waters ready to be hooked by the first bait ropping in their vicinity. Two miles away is the fam Harry's Brook, without doubt one of

the finest salmon streams in the col-Mr. Whittington says that great herds of caribou are trekking south

DEACON DUBBS" REPEATED TO-NIGHT:

The third presentation of "Dead Dubbs" by the B.I.S. players attracted another crowded house last evening despite the unfavourable elements, and the performance was, if anything, better than the two preceding ones. The specialties by Misses McGrath, McCarthy and Miller (2); Messrs. Jardine, Trapnell, Wallace and Hickey were so thoroughly enjoyed that all had to respond to encores. The roles assigned to the various players were very faithfully portrayed. Misses Viguers, Horan, McGrath Ryan and McCarthy earned new laurels, as Messrs. #### UNJUST TAXATION

Taxation is the one great burden that every House-owner and Tenant is greatly concerned about. Many are continually at their wits end to know how to meet it, in fact, we are being bled white with taxation to-day, more particularly Unjust

I have been approached by scores of voters the past fortnight concerning the new Assessment—the City's Form of Taxation. Properties are being rated at a time when values are temporarily inflated. This tax is being unjustly levied. I have
heard of cases in which the taxes are about to be increased anywhere from 10 to 250%, others to remain as before. Why such
discrimination? I have yet to learn of them being reduced; is
it because Householders elect to keep their homes clean and
bright and take delight in decorating the exterior, thereby beanbright and take delight in decorating the exterior, thereby beautifying their locality and the city in general, that they are a mark to be fleeced for more taxes? The system is rotten, rot-

We are politely told by the Civic authorities that such is the Law; therefore you will agree with me that the Law should be amended. I pledge myself that with your help, that is, the help of every House-owner and Tenant in the city, that is, the help of every House-owner and Tenant in the city, that I will move an amendment to it. Voters just think of it, wages and salaries being throttled down and city taxes soaring skywards. Are you going to stand for it. You have the means: show your disapproval by voting for

# Fishermen! Here's the Boot for You-"Excel"!

The Fishermen's Friend

All fishermen know from experience what happens to ordinary boots when used in fishing. You've seen how salt water seems to take the life out of rubber and how the uppers crack and the seles wear through in a surprisingly short time.

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets.

The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the leavers of rubber and fabric together so that they are

layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the dryingout action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wearproof, because they are made like an Auto Tire, with 8 plies of rubber and fabric welded by tremendous pressure into a "tire-tread" sole that rivals an automobile tire for toughness and durability.

These are exclusive features of "EXCEL" boots The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible, shows how "EXCEL" boots are reinforced at every point of strain. There is not a single feature but what has been proved necessary and desirable by tests of severest use. Your own experience will tell you that a boot with these features simply must be a better boot.

Study this picture. Learn these features. Remember them when you compare "EXCEL" boots with ordinary boots. And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained.

"EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

OVER TWO HUNDRED MEMBERS

AND GUESTS SPENT ENJOY-ABLE TIME.

(Halifax Morning Chronicle, Nov. 25)

The Rotary Club "Ladies' Night" at

the Green Lantern last evening was a

great success, the attendance being

unusually large. Everyone seemed to

be inspired with a certain spirit of

gaiety which was positively infectious,

even the Boy Scorts, enjoying the

At seven o'clock sharp, over two

hundred members with their wives

and friends assembled on the third

floor where the luncheons are usually

held, from which point, they proceed-

ed in chain gang fashion to the lower

portion of the building, where dinner

was served, and general vocal competi-

tions took place between one half of

the room and the other, led by Col. J.

L. Ralston and Mr. Fred Guildford,

respectively, everyone joining in the

choruses. During dinner boxes were passed around among the ladies and

gentlemen respectively, from which

tickets bearing numbers were drawn.

one again paraded to the third floor,

where each person proceeded to find

the individual wearing a ticket bear-

ing the number corresponding to his

or her ticket. When this was finished the partners joined in a grand march

around the room. All the ladies and

gentlemen with numbers from one to

fifty, were then lined up, the ladies on

one side, and the gentlemen on the

other, and a clothes pin race follow-

ed, which caused no little excitement,

the ladies winning the first, and the

A selection was then rendered by a

mixed quartette, followed by initia-

tion stunts in which a number of new

members participated, much to the de-

light of the spectators who watched

the unfortunate gentlemen in question,

make a flight in an airship, jumping

out at a high altitude to fall mangled

on the floor from the great height of

six inches, with the exception of one

gentleman who jumped out from the

altitude of one foot. This was followed by a song by Mrs. Ralph Elliott and

Mrs. Jack Harrison. Then came a few

stunts in the form of tight rope walk-

ing, six ladies and six gentlemen per-

forming, the conditions being that the

rope had to be viewed through the

wrong end of a pair of field glasses

which proved much more difficult than

it appeared, although the rope was

liferally on the floor, so that there

was no danger of falling any great dis-

tance as in the case of the airship.

"On the Road to Mandalay" was then

sung by Mr. Fred Guildford, "Less

Than the Dust" by Hugh Mills, a vio-

lin solo by Mr. Ian Williams, and cor-

net solo by Mr. Charles Butcher, and

a selection by the Serenaders Orchestra, led by Mr. Joe Mills.

When the musical programme was

at end, the Serenders Orchestra open-

ed up a jazz bombardment that immediately set some two hundred pairs

of feet in motion, and old and young alike were carried away in the swing of the famous old dance "Paul Jones,"

some of the older members seeming to

gather additional momentum from the melodious strains of the "Serenaders,"

who were at their best throughout the

evening. The dance closed at midnight with Auld Lang Syne and God Save
