A World reporter was sauntering along Queen street west yesterday afternoon looking into the shop windows and ruminating over the cruel fate that deprived him of wealth sufficient to purchase the many pretty things he saw there. This feeling grew upon him as he walked on and reached its clims when he came oppo ite the dress making establishment of Miss Phenix at 415 Queen street west. In the window was a large doll attired in a bridal costume of exquisite beauty, and the reporter fell in love with the dear little thing at first sight. The lady replied in the negative adding with a pleasant French accent that she had merely made the costame to show what she could do in the dressmaking line. The material in the little dress is of brocaded and plain cream colored satin, and it is made up with that artistic and skilful hand so peculiar to the French. All the little girls in the west end covet with longing eyes the beautifully dressed doll, and no wonder for it is attracting the attention of the town. What Miss Phenix can make for a doll she can make in equal and even superior style for figures in the firsh, and she is gradually drawing about her a large portion of the fashionable trade of the city.

INHUMANITY OF BRITISH TROOFS DENIED.

Major General Havelock Allan has published a letter denying that the English as soldiers slaughtered wounded Egyptians.

Dr. James Wilmot Hunter, jr., of the village of Stouffville, out on the Nipissing railway, sued for the hand of Miss Ida Dougherty, a young lady of 13, and daughter of Reeve Dougherty of the same village. The lady received the doctor's attentions with a degree of favor that gave the young sawbones the assurance that he was "the best man." However Mr. Doughtery, the young lady's father, did not look apon Mr. Hunter was a suitable person for his daughter. Last summer while Mr. Doughtery and his wife were in the city for three weeks waiting on a sick relative Dr. Hunter was a light of the lady and the prisoner's death.

ALEXANDRIA, Oct. 13.—Upwards of 3000 persons have lodged claims amounting to £6,000,000 for losses sustained after the bombardment of Alexandria.

Mr. Broadley, an English barrister, has

an information of perjury against Dr. Hunter, allegting that his consent was never given. Hunter was duly arrested and committed for trial of perjury. The above facts carae out in evidence yesterday at the trial. Mr. E. Irving prosecuted and Mr. N. Murphy of this city and Mr. Blain of Urbridge defended.

Mr. Doughtery denied ever having gave I'da his permission to marry Hunter, but when the young lady took the stand she he said to her: "If you persist in going with Hunter you can go, and I never want to see your face again." She further testified that she told her lover of this and of other ill-treatment and they decided to get married in spite of all human agencies. Miss Doughtery was the only witness for the defence.

SAN FRANCISCO, Oct. 13—A train arrived on Tuesday with two thousand sick and idealed Chinamen who had become useless for work on the Southern Pacific railway. Some hoodlums attacked them with clubs and stones, the assault being kept up some time. The helpless wretches could do nothing, but officers finally arrived and arrested the ringleaders. None of the Chinamen were seriously hurt.

Mr. Murphy in addressing the jury appealed to the sentiments of the twelve geatlemen. It was a case of true love, which, the learned counsel remarked, "never did run smooth." Mr. Murphy further held that the prosecution was a windictive one and should never have been brought into court. SATURDAY MORNING, OCTOBER 14, 1882

Liberalism has made another important step in advance by the new compulsory education law in France which applies to all between six and thirteen years. Well said the jesuit St. Philip Nei, "Let me teach a child till his tenth year and you may teach him what you like afterwards." The him what you like afterwards." The own share." Free ch republic has recognized the fact that educ tion must be the basis of the free state and that clerical control of the school saps the growth as well as the liberty of conscience. The sacred book cannot but be vulgarized and degraded by school use, and there are many passages which do not necessarily imply impure suggestions when read under religious associations, which are entirely objectionable when read in a schoolroom by boys and girls. Can we hope to see the abolition of separate schools if this practice, wisely abolished by such a representative christian as the late Dr. Ryerson, prevails throughout the nation. It is time that we in Ontario should be on our guard against the effort about to be made to introce once more into our school rooms the book which is the armoury of all sectarian warfare, which book the various churches, however opposed in their interpretation of its teaching, are about to unite in order to increase the influence of clericalism. The as a school book is, we believe, opposed to the truest interests of religion, re-intro-

Twenty years ago a mission to East Africa was founded by the universities of Oxford, Cambridge, Dublin and Durham; a considerable sum of money was subscribed, and a bishop Dr. Mackenzie and Rev. Mr. Burish were sent out to the river Zambesia place to which attention had been called by S. Livingstone. Bishop Mackenzie and Mr. Burish were accompanied by the sisters of the former and the wife of the latter; the ladies being furnished with an elaborate outfit of Saratoga trunks, and pretty summer dresses suited to a country like equatorial Africa, where however the prevailed in paradise before the discovery of figleaves. Among other things presents of plated jewelry were sent for the native chiefs, who unhappily did not possess the chiefs, who unhappily did not possess the garments necessary for the utilization of destroyed by late summer frosts.

Bishop Mackenzie and poor fever stricken; the ladies, after bitter experience of the horrors vice in drawing public attention to certain of an African swamp, returned home on American publications of doubtful purity board H. M.S. Gorgon, one of whose officers was the present writer. Bishop Steen, a medical doctor succeeded to the control of the mission. We received a letter from him, dated Zanzibar, several years ago. He was energetic and self-sacrificing, too good a life to be thrown away in missionary work, which experience seems to show is unsuited to the working powers of the protestant church. BOOK REVIEWS.

Vice Versa is an unusually clever extravaganza of schoolboy life. Mr. Bultitude, a rich London merchant, in saying good-by to after the holidays. He gives utterance to

his son who is about to return to school after the holidays. He gives uttersace to the wish that he were once more a school-boy, and having inadvertantly become possessed of a talisman which carries his wish into effect, he takes the outward form of his son Dick, while Dick becomes changed into middle-sged man of business. The old gentleman salventures at school are most smwing. Filip is a California romance in Bret Harte's best style. As usual there is plenty of humor, with a strongly drawn sketch of human nature in the rough.

\*\*BYSTANDER\*\* AND THE IRISH QUENTION.\*

(To the Editor of The Werid.)

Sin: Henry George the apostle of land nationalization, is now on his way home to America, after a year's sojourn in Ireland where he has been "spreading the light" to good purpose. During his sojourn there he lectured on the land question in Dublia, Belfast, Cork and other leading places, travelled through the wildest and most disturted portions of the island, and was brought into close intercourse with the land league element. On every opportunity be enforced, both by speech and pea, the radical doctrine of the land for the whole peeple, laving special stress on the point that to give compensation to the owners would be to inflict injustice upon the general community. Everywhere in Ireland he was cordially and enthusiastically received, and his departure from Dublin en route to the first of the word of a barquet at which such representative Irishmea as T. D. From the Ottawa Free Press. Laws relating to social contracts, cially contracts having reference to the in tercourse of the sexes, are necessarily sur ceptible of wide and varied interpretation The complexity of modern life is so great that no two sets of circumstances are ever exactly alike. Hence arises a difficulty of ination that demands nice poise of judgment in dealing with special cases. Marriage is a much more serious ques tion for a woman than it is for a map. The preliminary steps to the

land. Here are the professor's words:

"Let him (George) propose to the Irish land leaguers to make their farms the common property of the human race and he will get a few slugs in his body for his own share."

The reception of Henry George in Ireland has signally falsified this prophecy. How much weight should be attached to the views, however brilliantly expressed, of a gentleman who is so little acquainted with the ideas and sentiments of the Irish as to venture on such a prediction? If, however, it be urged in Bystander's defence that George did not propose to make Irish farms "the common property of the human race," the professor must stand convicted of presenting a caricature of George's doctrines. He can take which horn of the dilemma he pleases.

A good name, good health, a good companien and a bottle of Hagyard's Yellow Oil are among the first requisites for human happiness. Yellow Oil cures rheumatism, sprains, lameness, bruises, burns, frost bites, croup, sore throat and all pain and inflammation.

Orin Caelin. 49 Pearl street, Buffsio, N. Y., says: I tried various remedies for the piles but found no relief until I used Dr. Thomas Eclectric Oil, which entirely cured me after a few applications.

This painful disease that so often cripples for life, arises from poison circulating in the blood, and often from an excess of acid. Inflammation is developed in the muscles, ligaments and joints, by colds, damp clothing, etc., liminents are serviceable to relieve, among many, Hagyard's Yellow Oil is preferable. To eradicate the rheumatic poison from the system, nothing can surpass Burdock Blood Bitters.

That the great city will ere long be hardly recognisable by its former denizens, all the world has heard. The visitor passing up the Thames now finds his eye gratified by the many handsome edifices retently erected. As he reaches the tamous Victoria Embankment, there rises over him on the right hand the new Times office, and on the left hand the new tower-crowned works of Messrs. James Epps & Co., both phases of Italian architecture. It may be said that these two buildings are types of the far-reaching business energy of the nineteenth century, for it has resulted from such means that these two establishments have brought themselves to the fore, and that the annual issue of each has come to be estimated by millions. During the last year the number of copies of the Times issued is estimated at 16, 276,000, while the number of packets of Epps' Cocca sent off in the same period is computed at 14, 749,695. The latter is a large total, when it is borne in mind that in 1830 the consumpsion of cocca throughout the whole kingdom was but 420,382 lbs., there then existing no preparation of it such as this, which by the simple addition of boiling water would yield a palatable drink. Events have their effects upon tashion and the anticipated arrival of Mrs. Langtry has brought out a preponderance of English styles, in drawing rooms, and on the promenade. The Egyptian war is to be credited with another style in vogue quite a number of suits having been fashioned a la militaire. One really sensible introduction is the English walking boot with low broad heels.

A stinging sensation in throat and palate called heartburn, and oppression at the pit of the stomach after eating, are both the offspring of dyspepsia. Alkaline salts like carbonate of soda may relieve but cannot remove the cause. A lasting remedy is to be found in Northrop & Lymans Vegotable Discovery and Dyspeptic curs. Catarrh of the Bladder. Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Buchupaiba." \$1.

Catarrh-A New Mode of Treatment. From the Weekly (Toronto) Mail, Aug. 24.
Perhaps the most extraordinary success that has

been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of two by the Dixon treatment for catarrh. Out of two
thousand patients treated during the past six
months fully ninety per cent have been cured of
this stubborn malady. This is none the less startling when it is remembered that not five per cent of
patients presenting themselves to the regular practitioner are benefited, while the patent medicines
and other advertised cures never record a cure at
all. Starting with the claim now generally believed
by the most scientific men that the disease is due to
the presence of living parasites in the tissue, Mr.
Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is
practically cured and the permanency is unquestioned, as cures effected by him two years ago are
cures still. No one else has ever attempted to cure
catarrh in this manner, and no other treatment has
ever cured catarrh. The application of the remedy
is simple and can be done at home, and the present
season of the year is the most favorable for a speedy
and permanent cure, the majority of cases being
cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street
west, Toronto, Canada, and enclose stamp for his
treatises on catarrh.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND. Is a Positive Cure

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History. Elizabeth Grafton who has been wanted for some time on a charge of larceny, was captured yesterday at Yorkville. The grand jury at the last quarter sessions brought in a true bill against her but she could not be found. The offence was a theft of money from her mother. It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it. Both the Compound and Blood Purifier are prepared at 333 and 235 Western Avenue, Lynn, Mass. Price of either, \$1. Six bottles for \$5. Sent by mail in the form of pills, or of lozenges, on receipt of price, \$4 per box for either. Mrs. Pinkham freely answers all letters of for either.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness and torpidity of the liver. 25 cents per box. No Sold by all Druggists. (1) Factory at Stanstead or Ontario.
