How much truth there may be in the statement we cannot say, but the news comes from a quarter worthy of fair credence that the Canadian Pacific have got control of the Toronto, Grey and Bruce railway and that they will soon take it under their management.

THE DAPHNE DISASTER

The launch of a steamer is such a familiar and frequent event on the Clyde that there was general astonishment when the news came that on such occasion there the vessel had keeled over, causing the loss of a hundred lives or more.

ARTHUR AND BLAINE

Although our republican neighbors have decidedly "sat upon" third term proposals, they appear to have no very serious objections to the honoring with a second term of any president who succeeds in making himself fairly popular.

At last the poor much-abused sparrow has found a defender. Mr. Wm R. Smith, superintendent of the Government botanical garden and president of the district park commission at Washington, a great authority on trees, claims that to the sparrow's presence is due the continued existence of some of the finest trees in Washington.

RIGID SABBATHIANISM

It is hard enough with the use of the telegraph and the common corps of associated press agents to fill a paper in the days with readable matter, but when the wire ceases to speak and the agents take a rest, the difficulty of the task is increased almost one hundred fold.

AN ENGLISHMAN'S PROTEST

IN THE SPRING TIME

Every body is troubled with annoying DISEASES OF THE LIVER

In some form, Biliousness, Jaundice, Constipation, or Headache.

The disorders which always follow the failure of the liver and bowels to perform their proper functions, are as follows: Biliousness, Jaundice, Constipation, or Headache.

Pain in the right side is a very sensitive to pressure. The pain will sometimes appear to be located under the shoulder blade.

CONFEDERATION LIFE ASSOCIATION.

PRESIDENT-SIR W. F. HOWLAND, C.D., K.C.M.G.

VICE-PRESIDENTS-HON. WM. MCMASTER, WM. ELLIOT, ESQ.

Referring to the advertisement of this association in the World of 12th July, it may be explained that the much larger sum called for by the valuation made by Francis Sherman, under the government standard for Canada, is in fact required by the valuation made by Mr. Howland on the standard of the State of New York, which is a far more liberal one than that of the Dominion of the United States.

The reason why the valuation made by this Association is so much more liberal than that of the Dominion of the United States, is that the latter is based on the value of the property as it stands, while the former is based on the value of the property as it would be if it were improved to the highest possible extent.
