

GOOD PRICE WAS REALIZED FOR CITY BONDS

Tenders of Local Brokers for Two and a Half Million of Civic Debentures Accepted by Board of Control—Price is Better Than Par in England.

An offer of \$7,136 for \$2,500,000 of 4-1/2 per cent. bonds was accepted by the board of control last night in private session. Of the total issue, \$1,766,000 is ten years and the rest, \$805,472, for 34 years. Eight tenders were made but that of the Woods, Gundy Company and A. E. Ames was the highest and therefore accepted.

City authorities are elated because of the sale. They point out it is better than par in England and for a better price than Montreal received recently. One of the regulations governing the disposition of the bonds is that they must be sold in America, in this way the English market is kept open.

FOUR KINGSTON MEN HURT IN AUTO MISHAP

Machine Turned Turtle, Pinning Two Occupants Under It.
 Special to The Toronto World.
 KINGSTON, May 20.—When an automobile turned turtle at a curve in the road at Alexandria Bay, four Kingston men were seriously hurt. They are: Herbert and Allan Moore, Arthur K. Rousely and Allan Reid. It was a miracle they were not killed. Reid and Allan Moore were pinned under the car, while their companions were thrown over a fence.

PLAN TO DISPENSE WITH QUEEN ST. STUB LINE

Commissioner Harris plans for the construction of a street railway line east from McLean avenue along Queen street to the city limits will be dealt with at the board of works meeting on Friday. The suburban line has proven very satisfactory to the residents of the district east of Scarborough Beach. The line which it is long, and will simply be a modification to the route now covered by the King cars, and instead of stopping at the loop at the entrance to Scarborough Beach the cars will run to the city limits. When interviewed Commissioner Harris could not state when the work of construction would be started, in the event of the plans being approved by the board of works.

First Photographs of the Peace Delegates at Niagara Falls

These photographs were taken by The World's staff photographer at Niagara Falls yesterday, and are the first published in any newspaper of the delegates attending the peace conference there to settle the dispute between the United States and Mexico. Those shown are: Seated in the rear seat of the motor car, Justice Lamar and Judge Lehman of the United States; Fernandez La Regate, Senor Rodrigues and Senor Rabasa of Mexico; Sir Joseph Pope, under-secretary of state for Canada, who welcomes the delegates to Canada; Senor da Gama, of Brazil; Robert S. Rose, of the United States; Dr. Noan, of Argentina; one of the Mexican secretaries talking to Senor Algers, former Mexican ambassador at Washington; Senor Cordova of Ecuador; Geo. Vernear, press agent for the mediators; Madame de Gama, and Rev. Father O'Neil of the Peace Church at the Falls.

Peace Conference Was Opened With All Confidence of Success Speedy Termination is Expected

Business and No Frills is the Order of Day—Da Gama Brazil's Representative, is Towering Figure—Speedy and Satisfactory Settlement is Expected—Great Britain Interested.

By a Staff Reporter.
 NIAGARA FALLS, Ont., May 20.—Four men, flanked by their secretaries, sitting about a long balzo-covered table in the sunroom of the Clifton Hotel this afternoon, launched the first day's inquiry into the much-vexed Mexican-American situation.

Argentina, Brazil and the United States participated in this conference. The fifth representative, Senor de Chill, delayed by nausea, due to the protracted train journey, having asked instructions to proceed in his temporary absence.

From an international standpoint, the conference opened with much promise. Many of the frills and formalities which have sometimes cumbered the inauguration of past-time assemblies, were eliminated, and with one accord business was made the order of the day. This will evidently be the spirit of the whole session. The daily sittings will take the form of business disrepute meetings with here, however, more momentous things than merely monetary gains and losses to reckon with. The world is said to be looking to discover how the western hemisphere can handle her own imbrolios, and it is with a marked conception of their responsibility that the mediators go about their task.

Lips Are Sealed.
 For one thing, their lips are sealed to all enquiries. All day a host of newspaper men haunted the corridors of the building to intercept delegates who had an important voice in the council. Each and all, however, were impregnable in their silence. The position they take is that their opinions are for the conference alone, and the world will receive its news thru an official mouthpiece.

Already, however, circumstances have singled out the men who are most likely to make history out of the occasion. The dominant personality of the conference is Senor da Gama, of Brazil. (Continued on Page 3, Column 5.)

Farmer Murdered Two People One His Daughter, Set a Barn On Fire and Escaped to Bush

By a Staff Reporter.
 BRACEBRIDGE, May 20.—As a result of a family quarrel which arose after the marriage of his daughter to Alfred Coutermanche, a neighbor, who was living with his brother George, William Ruttan, farmer, in the Township of Ryde, 15 miles from this point, shot his daughter and her husband's brother to death and wounded the wife of the brother. Ruttan, who is nicknamed "Black Bill," escaped into the woods with a plentiful supply of ammunition, and is being pursued by a posse of fifty or sixty men under the direction of County-Crown Attorney Johnson of Bracebridge.

Pursuers Would Take No Chances

GRAVENHURST, Thursday Morning, May 21.—Chief Constable Sloan returned last night from the scene of the murder of members of the Coutermanche family, and reports that he was unable to induce the posse, which he had organized, to enter into the woods any distance. When the men of the posse heard that Ruttan had his rifle and some ammunition with him, they balked at risking their lives while he was under cover. The search will be resumed this morning.

INSPECTION OF UPPER CANADA CADETS

The Duke of Connaught inspected and reviewed the young soldiers yesterday afternoon. Principal Auden and Sir Henry Pellatt are with him.

"Black Bill" Ruttan of Bracebridge Ran Amuck After a Family Quarrel, Killed Two, Wounded One and is in the Woods Heavily Armed Followed by Posse of Citizens.

By a Staff Reporter.
 BRACEBRIDGE, May 20.—As a result of a family quarrel which arose after the marriage of his daughter to Alfred Coutermanche, a neighbor, who was living with his brother George, William Ruttan, farmer, in the Township of Ryde, 15 miles from this point, shot his daughter and her husband's brother to death and wounded the wife of the brother. Ruttan, who is nicknamed "Black Bill," escaped into the woods with a plentiful supply of ammunition, and is being pursued by a posse of fifty or sixty men under the direction of County-Crown Attorney Johnson of Bracebridge.

SOO IS TO TAKE OVER PRIVATE LIGHT PLANT

Amount Fixed by Arbitration—Much Below the Price Asked.
 Special to The Toronto World.
 SAULT STE. MARIE, Ont., May 20.—The board of arbitrators to decide the amount the City of Sault Ste. Marie shall pay the Tagona Water and Light Co. for the water and light system on Oct. 14 next, when their franchise expires, has fixed the amount at \$419,637.51. To this is to be added the statutory ten per cent., which brings the total up to \$461,601.26. The Tagona Water and Light Co.'s original figure amounted to \$724,561.03. By the settlement effected by the arbitrators, the city saved \$245,000.

BELIEVE HUERTA READY TO RESIGN

Report, Later Proven Mistaken, of His Elimination, Caused No Surprise.
 Canadian Press Despatch.
 NIAGARA FALLS, Ont., May 20.—Stimulus was given today to the report that by self-elimination General Huerta would make it possible for the mediation conference here to bring about peace for Mexico. It was announced in a despatch received from Mexico City by the Associated Press that the provisional president had authorized his representatives to present his resignation if such a step became necessary to adjustment of the trouble with the United States. Later, however, it was stated that there had been an error of transmission, and that General Huerta had said merely that his delegates have no instructions to offer his resignation.

PERLEY IS NOT CHOSEN TO SUCCEED STRATHCONA

However, He Will Attend to Accumulated Business in London.
 By a Staff Reporter.
 OTTAWA, May 20.—The fact that Hon. George H. Perley leaves next week for Europe to attend the sessions of the International Parliament Union has given rise to the rumor again that he is to be the successor to Lord Strathcona, as Canadian High Commissioner in London. The Daily Mail, World, and Standard are informed officially that there is no truth in the rumor. There is an accumulation of business at the high commissioner's office, and what in England Mr. Perley will attend to. He will also deal with the question of the site in London of the new Canadian office.

UNIONIST GAIN IN DERBYSHIRE

Former Labor Seat Lost in Triangular Contest by Narrow Majority.
 Canadian Associated Press Cable.
 LONDON, May 20.—The by-election in the northeastern division of Derbyshire, caused by the death of W. E. Harvey, a Labor member, has resulted in the election of Major Bowden, the Unionist candidate, who polled 6469 votes, as against 5155 cast for J. P. Houston, Liberal, and 2669 for J. Martin, Labor. Major Bowden's majority was 314 over the Liberal, and 2800 over the Labor, but on the combined votes of his opponents he was in a minority of 2488.

WATERS ENDORSE "NO TIPPING" BILL

Local Union Met Last Night and Wired Resolution to Ottawa.
 After a heated discussion, which terminated at a late hour last night, the Toronto waiters and restaurant employees of local 300 voted a majority in favor of the "no tipping" bill, now being promulgated by Senator Davis.

SEAT SALE TODAY

This morning, at the Princess Theatre, seats go on sale for the engagement of Henrietta Crossman, who comes here next week, in her greatest success, "The Tongues of Men," by Edward Childs Carpenter. A notable company is with Miss Crossman.

LIBERALS GIVEN NEW COURAGE BY PUGSLEY

Tactics in Opposing Government's C. N. R. Program Resemble Obstruction, Although Such Intent is Disclaimed—White Angered by Macdonald's Charge of Bad Faith.

By a Staff Reporter.
 OTTAWA, May 20.—The house spent many hours today upon the Canadian Northern resolutions. Little progress was made and the long, desultory discussion recalled the fortnight of continuous talking at the last session when the Liberals were fighting the naval aid bill. This was all the more so because then, as now, Hon. William Pugsley was at the head of the column. Adroit and resourceful as ever, Dr. Pugsley this morning began what looks like a campaign of obstruction, although more than once he protested that he did not desire to delay the committee. The prime minister was patient and conciliatory, but both Solicitor-General Meighan and Finance Minister White were inveigled into acrimonious discussions.

ELECTRIC LIGHT CO. OFFERS TO SELL PLANT

Chatham Concern Tired of Competition With Hydro-Electric System.
 Special to The Toronto World.
 CHATHAM, May 20.—At a special meeting of the city council tonight, the Chatham Gas & Electric Light Company renewed their offer to sell their plant to the city for \$410,000, plus the amount spent on capital account since the valuation of their plant was made by the hydro-electric commission. It is the intention of the city to use the plant of the gas company as a distributing station for Niagara power and to operate the gas end of the business as a public utility. The hydro-electric commission had recommended this deal to the city as the best business proposition when it installed hydro power.

C. P. R. TOWNLIN BRIDGE BLOCKS CROSS ROAD

Obstruction Discovered by York Council in Eastern District.
 After making a tour of the east end of York township yesterday, Reeve Syme expressed himself well satisfied with the conditions of the roads generally. A few bridges that are in need of repair will be attended to at once and a new bridge will be built over the Don on the side road which joins the townline near Smith's four mills. The spur is about 55 feet and the reeve hopes to have the work completed this year.

Spring Races Begin Saturday

With the opening of the spring race meet on Saturday we begin our summer outings. This season the meet is particularly attractive to the real horse followers because of the new betting system introduced last season, which eliminates all the objectionable features of the old system. It is not a very far stretch from a talk on horse races to that of hats.

Dineen Company

invite all those who will attend the races on Saturday to call and see the new silk hats. New drab shells, light color soft hats, Panamas and straws and every new style for the races wear at Dineen's, 140 Yonge street.

NEWS FROM THE CITY HALL

HOUSING PROBLEM BECOMING ACUTE

Foreigners Say They Can't Procure Fit Houses and Must Live inhovels.

MANY PLACES CLOSED

Dr. Hastings' Report Announces Twenty-Three Houses Condemned.

Housing conditions in Toronto are becoming worse, according to the medical officer of health in his April report. He states:

"Complaints are continually coming in of excessive overcrowding and insanitary houses, not only among foreigners but English-speaking families as well, who claim it is impossible to procure suitable abodes, and the best we can do in such cases under the circumstances (and there are very many at the present time) is to insist on conditions of cleanliness. When it is possible to do so occupants are forced to remove, and places unfit for habitation are condemned and placarded."

"During April we have condemned and closed up twenty-three dwellings as unfit for habitation. Of these ten have been pulled down.

"The foreign population of the city has increased considerably during the past three months, and housing conditions seem more aggravated than ever. The department has experienced considerable trouble recently from an invasion of gypsies, tribes from different countries, apparently not without means, but regardless of sanitary or clean methods of living—crowding into places, no furniture of any kind, sleeping and living like animals. Thru the efforts of the police, and aided by the Dominion authorities, we have succeeded in having the whole of this class deported."

CENTRAL STEAM SUPPLY FOR PUBLIC UTILITIES
Controller Simpson Wants Reserve Power and Heat Provided.

Very soon Controller Simpson intends to suggest to the board of control a comprehensive scheme that will supply steam from one central plant for use as reserve power by the Toronto hydro system, the waterworks, and for heating of all the downtown section. "The time is coming," he states, "when Toronto will have one central heating plant."

H. H. Cousins of the Toronto hydro, will investigate the feasibility of a central steam heating plant. He was given this authority yesterday by the controllers. The investigation will be costly.

A MYSTERIOUS TRIP.
Controller McCarthy leaves town this morning and will not return until Monday evening. He declines to make known his destination.

TRIP TO MONTREAL.
Ald. Ryding and Controller Church are in Montreal today, representing the City of Toronto at the Good Roads Congress.

CITY IS OPPOSED TO SUPERANNUATION

Controllers Sign Petition Against Enforced Retirement of School Teachers.

Mayor Hocken and every member of the board of control yesterday placed their names to the petition asking the board of education not to fulfill its intention of superannuating teachers at the ages of 60 and 65 years.

This petition has already been signed by ten thousand people in Toronto. It reads in part: "We believe it not in the interest of schools and certainly it would be a grave injustice to those principals and teachers who have been doing their work well up to the present time and are capable of continuing to do so, and we know it is contrary to the practice of every other walk of life."

No time has yet been set for presentation of the monster petition to the board of education.

WATERWORKS HAD LARGE DEFICIT

Report Places Loss for Past Year at Over Hundred and Forty Thousand.

Alderman F. S. Spence has said the waterworks made \$16,000 for the city last year, and others have declared there was a large deficit. A report of statistics issued last night by the waterworks department shows a deficit of \$141,371 for 1913.

However, it is claimed by some that the deficit for last year should really be but \$30,000 because the \$121,479 raised by special tax last year should be applied to the stated deficit of \$141,371.22.

This and much other information is to come before the council when water rates are again discussed next meeting.

CAR CRASHED INTO TELEPHONE POLE

Motorist Badly Hurt Trying to Avoid Running Down Girl.

CHAPTER OF ACCIDENTS
Two Women Fall Downstairs, Young Cyclist Injured by Wagon.

In trying to avoid running down a woman, Lynnwood Lloyd, 54 Nassau street, ran his motor car into a telephone pole at the corner of Bloor and Grace streets, at 9 o'clock last night, and is thought to have sustained a fractured skull when he was hurled against the post. He was conveyed to the General Hospital in an ambulance, and is in a critical condition.

With him in the car at the time were George Palmer and Albert Humphrey, both of 78 McCaul street. Palmer was badly bruised and cut, but was able to go home, while Humphrey escaped injury.

HURT ON "RACER."
While adjusting the gear on one of the cars on the racer at the island yesterday afternoon, Charles Jones, an employe, had his face badly cut by another car suddenly jolting the car on which he was working. He was conveyed to the General Hospital.

FELL DOWNSTAIRS.
Mrs. Gray of 41 Poucher street, fell downstairs at her home yesterday and broke her right leg. She was conveyed to St. Michael's Hospital.

RUN DOWN BY AUTO.
S. Stagnour, 6 Elm avenue, sustained a broken right leg when run down by a motor car at the corner of Dundas and Yonge streets yesterday afternoon. He was conveyed to the General Hospital in the police ambulance.

SHOULDER DISLOCATED.
Robert Collins, while at his work in P. C. Scott's iron works, 448 East Queen street, had his shoulder dislocated yesterday afternoon. He was taken to the Western Hospital, where his condition last night was quite favorable.

SLIPPED ON GANGWAY.
While walking down the gangplank of the steamer Corona last night, a Russian, who gave his name as Chayman, slipped and broke his ankle. He was taken to St. Michael's Hospital.

YOUNG CYCLIST INJURED.
While riding his bicycle north on Yonge street near Glebe road, Albert Skidmore, age 16, was run down by one of Cole's motor trucks driven by Edgar Lasham, 20 St. Albans street at 5:30 yesterday afternoon, and may be fatally injured. The motor truck was also going north, and the front wheel passed over the lad's body. Dr. Bond attended to him, after which he was conveyed home.

INJURED HER EYE.
While in a fit of convulsions, Mrs. May Nicholson, 1 Brant place, fell down a flight of stairs and injured her eye. She was removed to the General Hospital where her condition is not considered very serious.

WILL ORGANIZE NAVAL RESERVES

Government Takes First Step Toward Training of Volunteer Forces.

TORONTO AS CENTRE

Will Be Headquarters of One of the Three Divisions.

Ottawa, May 20.—A volunteer naval reserve force for Canada will soon be an accomplished fact. An order in council has been passed by the government, and approved by the Duke of Connaught authorizing the establishment of such a force.

A sum will be placed in the supplementary estimates sufficient for this year's work and preparations for the organization of volunteers have already been made by the naval reserve department.

The first volunteer naval force to be established is at Victoria, B.C., where there has been an official organization for some time maintained by private individuals. This will receive official recognition. Admiral Kingsmill has left for Victoria to arrange details.

The Niobe and Rainbow will be utilized for the Atlantic and Pacific for training purposes, and in course of time other war vessels will be secured for training purposes on the great lakes.

Instructors from the British navy will be engaged.

The headquarters of the new force will be at Ottawa, but it will be divided into three divisions: the Atlantic, the great lakes and the Pacific. On the Atlantic coast the divisional headquarters will be Halifax, and the scope will be all along the St. Lawrence as far as Montreal.

Toronto Headquarters.

Toronto will be the headquarters of the great lakes division, which will include the Ottawa River, the upper St. Lawrence, the great lakes and all waterways as far as the Rocky Mountains.

Esquimaux will be the headquarters of the Pacific division, which will have control of all the waters west of the Rockies. There will be three systems of training available for volunteers of all classes.

For those who live near the sea coast there will be drill at home and periodical training on one of the war vessels. Volunteers of the second class will include those who live along the great lakes and waterways. They will be drilled ashore by reserve officers and special instructors.

The reserve force will include fishermen and other competent seamen. They will drill aboard ships. The annual period of drill will be 31 days, and there will be companies of one hundred men.

So many applications have been received that at least twelve companies will be organized. This is the first practical move made by the government towards training Canadians for the navy, and it is expected to be hailed with enthusiasm all over the country.

NEPHEW OF DIAZ SAID TO BE HERE

Aspirant to Mexican Presidency Believed to Be Staying in Private Hotel.

From the persistent refusal of August de Rio to be interviewed by the press or discuss the personnel of the party of six Mexicans who registered with him at the Westminister Hotel, 74 Jarvis street, it seems pretty certain that Felix Diaz, nephew of Porfirio Diaz, and an aspirant to the presidency of Mexico, is at present in Toronto.

A man who claims to know the noted Mexican by sight stated positively yesterday that he identified him while motoring up Yonge street. His description tallies exactly with portraits of Diaz.

The party arrived Monday last from Niagara Falls, N.Y., and is occupying some of the highest price rooms in the quietest hotel they could find. The only name on the register is that of Rio, but the place assigned for the address has been left vacant.

VICTORIA HOLIDAY FARES.

Special Train Service From Toronto, May 23, 24, 25

The Grand Trunk Railway System will operate special train service in connection with Victoria Day holiday traffic, leaving Toronto Union Station as follows:

Leave 7:30 a.m. May 23, for Agincourt, Markham, Stouffville, Uxbridge, Blackwater Junction, Lindsay and Intermediate stations.

Leave 8:20 a.m. May 23, 25 and 26, for Brampton, Georgetown, Acton, West Guelph, Elora, Ferintosh, Elmer, station and intermediate stations.

Leave 1:20 p.m. May 23 and 25, for Whitby Junction, Oshawa Junction, Bowmansville, Newcastle, Port Hope Junction, Cobourg and Intermediate stations.

Leave 4:15 p.m. May 23, for Hamilton, Brantford, Woodstock, Ingersoll and London.

Leave 4:30 p.m. May 23, 25 and 26, for Agincourt, Markham, Stouffville, Uxbridge, Blackwater Junction, Lindsay and Intermediate stations.

Leave 10:45 p.m. May 23 and 26, for Brampton, Georgetown, Acton, West Guelph, Berlin, New Hamburg and Stratford.

GAS FUMES CAUSE BLAZE.

A fire in the O'Keefe Brewery, corner of Victoria and Wilton, caused \$300 damage at 8:30 last evening. The blaze was started by ignition of gas fumes.

MRS. ASTOR AGAIN AT LONDON HOME
Attends Gala Opera Performance in Honor of Visiting Royalty.
LONDON, May 17.—Mrs. John Astor and her daughter Muriel have arrived from New York and are again settled in their residence, No. 18 Grosvenor square. They are spending this week-end and as Clevendon as guests of Mr. and Mrs. Waldorf Astor.

At the gala performance of opera at Covent Garden in honor of the King and Queen of Denmark, Mrs. John Astor looked very handsome in silver gray brocade with mauve orchids, a light fichu of lace over her shoulders and silver shoes.

Among the numerous other American social stars present the smartest of all was Mrs. John Ward, formerly Miss Jean Reid of New York. Her black gown was embroidered with tropical birds and foliage in raised gold thread round the figure, and her hair was dressed high with a diamond plaque at one side.

Other Americans at the opera who were conspicuously brilliant were: The Countess of Ancestor, in white brocade with heavy embroideries of silver and ruby paste, a new ornamentation from Paris, and a high spiked diamond crown and necklace with a pendant of rubies.

Her sister, Lady Alastair Innes-Ker, in clinging gown of cloth of silver, embroidered with crystals and diamonds, a giraffe of crystals and diamond tassels around her slim waste; her hair done in the high fashion of the fifties, while she wore diamond earrings almost touching her shoulders.

Lady Randolph Churchill, wearing magnificent black and gold, looked younger and brighter than ever.

Mrs. James B. Drake was in cloth of gold with magnificent rubies. Mrs. Duke does not intend to do much entertaining at Crews House just yet, and has made no definite plan for Ascot. She will give a few big dinners after Ascot, and when court mourning ends will give a ball. In the meantime she is giving small, smart dinners. Next week she will go to Paris for a fortnight.

The Duchess of Marlborough will give a big dinner party in Bundering House a week from Monday, followed by a dance, which is expected to be rather sensational in the way of costumes and the introduction of some of the new dances of the season not found on the programme of more conventional hostesses. The chief attraction will be the tango dance, which has already been seen in Paris, where it was learned by some of the prettiest and smartest women here at special classes under the direction of a French professor.

Ambassador W. H. Page's wife has resumed her Thursday afternoons at No. 6 Grosvenor square, and they are largely attended by both American and English society people.

Baroness von Andre has opened her house, 148 Piccadilly, and will soon give a series of dinner parties.

There have been a number of smart, smart dinners among American women in London this week. At one, with Mrs. Walter Burns as hostess at her beautiful house on Grosvenor street, not more than a dozen people were present, and about a dozen more came in afterward for bridge and a half-hour concert in the drawing-room.

FIRE IN BEDDING FACTORY.
Caused by a piece of steel falling into moving machinery and sending a spark to a pile of combustibles, fire did \$2000 damage to the premises of the Antiseptic Bedding Company, on Parliament street near Queen, yesterday afternoon. Two hours after the firemen had left, the flames broke out again in the building, but were quickly extinguished again.

TORIC
There's a lot of difference between Toric Lenses and Flat Lenses besides their slight extra cost. They give you extra vision and extra comfort. They are better-looking, too. Come and see us about Toric Lenses.

MOION PICTURE STORIES

Nina of the Theatre

The first of the Kalem Alice Joyce Series.

Of course, Nina had never really expected that her request for a position with the Meldon Shakspearian Company would be granted...

"Well, why don't you take a chance?" he urged. "Miss Chisholm left you on Saturday, and you need another girl to take her place..."

"I don't believe in amateurs," said Meldon dubiously. "Still, I don't suppose that it would hurt to try her out..."

"I'm Paul Kenough," he smiled, in response to Nina's glance of inquiry. "Play leads in this company, you know..."

"I was while the two were standing up in the gallery just before performance that Paul confessed his love...

"You—you haven't offended me," Paul she whispered "I love you."

"Dazed by this great happiness, Paul seized her in his arms again. Later, the two decided to be married at the end of the season...

"One thousand dollars! Just the sum needed to restore Paul's health and mean a horrible disfigurement which might cause Paul to turn from her—"

Canned Food Dangers

ALMOST every food is now preserved by canning and it is in good condition at when first cooked when it reaches the home-table, but there is still some prejudice, arising from fear of poisoning...

Canned goods should always be kept in a cool place, but they look better on grocery shelves and in window displays than almost anything else...

Whenever you open a can of anything to be eaten, empty it immediately. This caution is sounded again and again, and yet piomane poisoning is constantly occurring because food is allowed to stand in tins after they are opened...

Some Principles of Pruning

So many amateur gardeners feel the absolute need of using the pruning knife in late spring or early summer that they do not know when to prune. Do not prune.

A warning. Many shrubs, trees and vines sleep late in the spring. Just because they have not yet sent out sign of awakening is no reason in the world why you should want to test their degree of vitality with a knife...

To succeed in this latter it is absolutely necessary that the pruner know not only the needs of his plant, but also the capabilities of that plant and the best pruning time to draw out the capabilities of that plant.

To encourage development means to keep out all other unnecessary wood to prevent the growing of unwelcome shoots and to force out blooming branches. A hard lesson to learn. Then, certain shrubs and vines, those that bloom in spring and early summer, formed those buds last year...

Reason in Punishment

It is quite safe to say that every child requires punishment sometime. It is absolutely certain that some time, from some source, in some way, he will receive his share of the world's disciplines...

It is not in our power to prevent the fact that we do not wish to discipline the baby because the chief reason why we should, if we wait until we wish to the motive is degrading. What should be education becomes retaliation and neither our judgment nor our justice is to be trusted.

Any punishment that does not aim to teach some definite thing is wrong. I wonder how many busy mothers stop to think of that: When one is hurried and worried, it is easy to magnify childish misdoings and punish hastily in a way that has no relation to the fault at all.

year morning's brilliance will probably be fading at your front somewhere in the high heavens...

Pansy Guelph

"Because her clothes are smart and fine, Of course Sue's better'n me—but mine Are prettier than Elsie's, so I must be better'n she. I know!" This is what foolish Pansy Guelph, Who is a Goop, thinks to herself!!!

GRACEFUL AND CORRECT DANCING IS TAUGHT ONLY IN "MODERN DANCING" BY VERNON and IRENE CASTLE

A MARVELOUS DANCE INSTRUCTION BOOK NOW OFFERED TO ITS READERS BY

The Toronto World

The Latest and Newest One-Step

Up to the present moment by far the most popular of all dances is the One Step. There are many reasons for its popularity, the chief being that it can be learned in a very little time by anyone, old or young, who is able to walk in time to music—and, in fact, by many who cannot. Another reason is because the music is rag-time. The Waltz is beautiful, the Tango is graceful, the Brazilian Maxixe is unique. One can sit quietly and listen with pleasure to them all; but when a good orchestra plays a "rag" one has simply GOT to move! The One Step is the dance for rag-time music.

THE ONLY CORRECT WAY TO DANCE THE ONE-STEP IS IN

The Castle Book

The Refined Way Is Just as Easy as The Other Way WHEN YOU LEARN.

MAKE NO MISTAKE!

Filmy Tulle Favored for Summer Gowns

By Madge Marvel.

SUMMER evening wear perplexes the mind of the woman who is planning her wardrobe. With the idea of spending the next three months at some vacation resort either in the mountains or by the sea. At either place there is sure to be need for light semi-dress frocks, that need not be elaborate but should be a bit different from the daytime dresses. For there is an increasing tendency to "dress for dinner" in even unpretentious resorts and there is always some evening gown which are included in the program of the average woman.

The exclusive shops talk tulle whenever one asks for evening gowns. No one will deny the charm of tulle and it is the fabric of choice by the fashionables, but it is as perishable as it is lovely. Perhaps that accounts for its popularity, for who would want it if it were not so perishable? But for wear, the gossamer web plucked from the grass is hardly more transitory.

The tulle gown is an extravagance for the woman of limited income. But there are so many tulle accessories that even those who have to figure closely to keep within their bounds can have the delight of the note of tulle in their costumes.

Tulle butterflies are worn on the backs of evening bodices with fascinating effect, a half-dozen of them in the ballroom giving a delightful charm to the scene. The airy fabric is tied in a butterfly bow with the upper edge of the loops caught to the shoulders and the lower loops reaching below the waist and the center pulled out in true butterfly shape. Sometimes two shades are combined, as pale pink and yellow or pale green and rose, one layer over the other.

Tulle bracelets on gowns of tulle or crepe or lace are much used and are edged in narrow ruching of the same material, which gives them a "body" that keeps them in place. For those who like the neck band of which which is becoming to all women with slender throats and white skin, tulle with rhinestone slides is used and adds a certain note of distinction to light gowns.

Sashes and Scarfs. Tulle sashes on gowns of tulle or crepe or lace are much used and are edged in narrow ruching of the same material, which gives them a "body" that keeps them in place.

Useful Hints for the Housewife
By Ann Marie Lloyd

THE small afternoon tea, preceded by bridge or music or some informal program, is still the most popular means of entertaining, especially where there is somewhat limited room in the house. The menu for such affairs is simple and may be served by the maid while the hostess prepares the tea at a daintily arranged tea table or the dining room may be the scene of the service, everything being placed on the attractively arranged table and passed by the maid, while the hostess and one of her close friends preside, one at each end of the table, and serve the tea or coffee or whatever is chosen for beverage.

IS YOUR MIND IN PERFECT WORKING ORDER?

Favorite Poses of Georgie Remy.

"Concentration the Secret of Power," Says Well Known Actress.

By ELEANOR AMES

HER Mind in Order" is the text which Georgie Remy offers for the working out of a practical human drama in which all women can have a leading role.

Special arrangements have been made with Senorita Lucrezia Bori, the famous prima donna soprano, who has created a wonderful impression in Europe and New York on account of her remarkable beauty and artistic attainment, to write for this paper a series of articles on beauty. There is probably no authority her equal in giving the newest and most approved methods of attaining and preserving "the divine right of woman."

How to Keep the Neck Beautiful
By LUCREZIA BORI

Famous Prima Donna of the Metropolitan Opera Company, New York.

necks never are alluring in the low collar—though they may be very charming and graceful in the decollete costume.

How fast we learn in a day of sorrow.—H. Bonar.

To be innocent is to be not guilty; but to be virtuous is to overcome our evil feelings and intentions.—Penn.

How often events, by chance and unexpectedly, come to pass, which you had not even dared hope for.—Terence.

The problem of restoring to the world original and eternal beauty is solved by the redemption of the soul.—Emerson.

Said by Wise Men

General abstract truth is the most precious of all blessings; without it man is blind—it is the eye of reason.—Rousseau.

To reason justly from a false principle is the perfection of sophistry, which it is more difficult to do than to refute false reasoning. The proper way to expose its errors is to show that just and conclusive reasonings have been built on some false or absurd principle.—Emmons.

Secrets of Health and Happiness

History Proves Propriety of Modern Bathing Dress

By DR. LEONARD KEENE HIRSHBERG
A. B., M. A., M. D. (Johns Hopkins).

AT the thought of seashore, sunshine and the far from sad sea waves, splashes of memory come to mind of Oliver Goldsmith's "Elegy on the Death of a Mad Dog." You may recall the verse:

"A king and gentle heart he had
To comfort friends and foes;
The naked everyday he clad
When he put on his clothes."

Thomas Carlyle, who wrote "Sartor Resartus," the great Tailor Retailer, was more interested in the unclothed human form than in bathing costumes.

The human form divine, whether in the contour of an Apollo Belvedere or a Venus de Milo, is the beautifullest which God has set on human health and virtue.

All but naked tramps wherever they are in summer or winter, biding the pelting pebbles of pinching poverty or the scorching heat of the noonday sun, need have little fear of divine or earthly punishment. The badge of stamina is in the great human creature, pervert religion and ethics. These militants convert clothing into cloaks of hypocrisy and deceit.

What shame forbids you to speak, virtue and honesty bid you do. In shame and modesty there is no comfort. I will be brief and have I heard to dwell. On crimes they almost share was that too evil.

There should be no sin or shame in the nobility of the human figure. The mad mullahs of swooping morality who howl down the bathing costumes along the seashore, the fine statuary and art of the great human creature, pervert religion and ethics. These militants convert clothing into cloaks of hypocrisy and deceit.

Dear Miss Laurie: I am a young girl of 18 and have been going with a young man of my own age for about a year and a half. We went to school together and have always been good friends. He has a very peculiar disposition, and sometimes, when he meets me on the street, he speaks and sometimes he does not.

Historical Facts About Words

Equivocation, a word now applied to any evasion, was once understood to mean the calling of diverse things by the same name.

Peck at first meant a basket or receptacle for grain or other substances. The expression at first had no reference to size.

Starve was once to die any manner of death. Wycliffe's sermons tell how "Christ starved on the cross for the redemption of men."

The Blackbird

He sang to them all the summer
In his cage on the whitewashed wall;
He had no shelter at all.
He had no shelter at all.
He had no shelter at all.
He had no shelter at all.

Answers to Health Questions

J. H. E. Seymour, Ind.—I have sugar diabetes. Am 40. Sugar foods make it show after eating. Bread and potatoes do not. Is there any permanent cure for it?

Children and young people are killed by diabetes. Those above 30 need only exert sane care and they may live to the new standard of five score and ten.

As long as you are free of sugar signs when you partake sparingly of starches and sweets there is no need to punish yourself too severely.

Nowadays we allow a slightly more liberal diet than we did up to five years ago. There is no way of getting rid of it altogether.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest the letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care this office.

Advice to Girls
By Annie Laurie

Dear Miss Laurie: I am a young girl of 18 and have been going with a young man of my own age for about a year and a half. We went to school together and have always been good friends. He has a very peculiar disposition, and sometimes, when he meets me on the street, he speaks and sometimes he does not.

THURSDAY MORNING, MAY 21 SUPERANNUATION AND PROMOTION.

Walls are still arising over the retirement, at the age limit, of a number of the public school principals, and it is true that in some cases the walls are justifiable. At the same time, it must be admitted that most of the retiring principals are of an excellent type. It is not all of it, it is done from the point of view of the principals, and the pupils also have to be considered, and the teachers awaiting promotion have their rights as well. The retiring teachers have been aware of the approaching crisis in their career, and no doubt made prudent preparations for it. If they had not the prudence to prepare, in face of such a settled event, it might be doubted that they had the prudence which should characterize a teacher. The result of the retirements is that thirty-one promotions occur in the teaching staff, including the four new principalships in newly-erected schools. It is quite an arduous task to decide whether these promotions should be held back as whether some of the careers of older teachers should be prolonged. In the absence of a highly undesirable discrimination it is better that the rule of superannuation should be observed.

It is by no means certain that discrimination would work out as many would desire. A canvass of the principals of Toronto would give quite new views regarding some of the older teachers who have been in the profession many a year. It is to be presumed that the new generation of teachers is as much of an improvement on the past as the new generation of scholars, so there can be no advantage in delaying its accession.

THE DOMINIONS AND THEIR BIRTHRATE.

In an interesting paper on "The Empire and the Birthrate," read at a meeting of the Royal Colonial Institute and published in the current number of United Empire, Dr. C. V. Drysdale took the opportunity to bring, as Mr. Harold Cox remarked, "sentimental theory to the test of fact." It has long been stated as a fact, that family limitation prevails in Australia and New Zealand, and in 1911 Mr. Roosevelt committed himself to the assertion that the rate of natural increase in New Zealand is actually lower than in Great Britain, and has tended steadily to decrease; while Australia increases so slowly that, even if the present rate were maintained, the population would not double in the next century. This finding has perhaps been kept alive through the use made of it as an argument against the grant of woman suffrage. See what is happening in Australasia on that account; it is apparently the inference other nations without equal franchise are invited to draw.

In Great Britain and the birthrate has risen lately. Going on to consider the case of Canada, Dr. Drysdale states that little can be said owing to paucity of statistical information. Only Ontario has vital statistics available, and those show that its birthrate was only 23 or 23 per thousand in the eighties, and actually dropped to 19 in 1895, since when it has recovered (owing to an increased marriage rate) to about 35 per thousand, slightly below that of the Australasian dominions. But it has been accompanied by a rise in the deathrate to 14 per thousand, or to nearly the same extent. The City of Toronto, Dr. Drysdale remarks, is a most striking example of the same phenomenon. In explanation of this result, he refers to the frequent reports during the winter of poverty and unemployment in most of the large cities of Canada. Canada, says Dr. Drysdale, offers excellent opportunities for sturdy, efficient workers, and will be able to support an immense population some day. "But any attempt to crowd it rapidly with children or inefficient town-bred immigrants, will only raise the deathrate, unemployment and labor unrest."

HORRORS OF THE BALKAN WAR.

Early in the outbreak of the second Balkan war accusations that atrocities were being committed, equal in horror to those charged in former years upon the Turks began to be bandied about among the combatants and quondam allies. Of these the complaints were loudest and most insistent from the Greeks, and their detailed character was one of the reasons why European opinion leaned so heavily against Bulgaria. At the close of the war a general determination to arrive at the truth led to the appointment, at the instance of the Carnegie Peace Foundation, of a representative commission, to whom was entrusted the duty of investigating the circumstances and establishing the responsibility for the outrages if they were found to have occurred.

THE MEXICAN CONFERENCE.

Only one "Hague element" will be within the purview of the envoys, who met at Niagara Falls yesterday, and that is the condition precedent laid down by the United States if a settlement is to be reached—Hertza must go. President Wilson declared so from the moment when the Mexican dictator assumed the chair of the murdered Madero, and to that he has constantly adhered. If, as has been frequently reported, the Huerta delegates are invested with plenipotentiary powers the fact has at least considered the advisability of withdrawing from the scene on such terms as he may be able to obtain. It is said also that his envoys have already suffered so heavily at the hands of the constitutionalists, and that part of their mission may be to secure, if possible some measure of protection.

CANADA.

Lord of the lands, beneath Thy bending skies,
On field and flood, where'er our banner flies,
Thy people lift their hearts to Thee,
Their grateful voices raise;
Mourning Dominion eyes,
A temple to Thy praise.
Thy will alone
Let all enthroned,
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Almighty Love, by Thy mysterious power,
In wisdom guide, with faith and freedom down;
Be ours a nation evermore,
That no oppression blights,
Where Justice ruffs from shore to shore,
From Lakes to Northern Lights,
May love alone
For every zone,
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;
Lord of the lands, make Canada thine own;

MAN OF MILLIONS TURNS DAIRYMAN.

Patrick Cudahy, millionaire packer of Milwaukee and one of the famous family of packers, has turned dairyman. He is going to raise cattle and roses. "And you can just put it there that part of the Killarney brand," he said to a reporter.

H. E. WHITTENBERGER IS IN HOSPITAL.

H. E. Whittenberger, general superintendent of the Ontario lines of the G.T.R., was removed to the Wollesley Hospital yesterday, suffering from stomach trouble. The authorities at the hospital said night reported that he was resting well.

WHERE'S THE MONEY GONE?

Hazel Norris, a colored girl, was found guilty at the sessions yesterday of stealing money from Genero Antonio. She was remanded for sentence until Friday, when she will appear in the police court in answer to a charge of vagrancy. The whereabouts of Genero's \$285 is a mystery.

LAWYER UNGOWNED.

WINNIPEG, May 20.—The name of Percy Hagel, serving a term in prison for assisting his client, Kratzenko, to escape from custody, has been struck from the rolls of the Manitoba Law Society.

Judgment reserved.

Encouraging Report Presented to Shareholders at Annual Meeting.
INCREASE OF PROFITS
Total Assets Amount to Upwards of Nine Million Dollars.
A most encouraging report was presented at the meeting of the shareholders of the Sterling Bank held at the head office on Tuesday, and presided over by the president, Mr. G. T. Somers.
The profits were the rate of 9.90 per cent. and amounted to \$144,200, which sum, after the usual provisions, shows a fair increase over the previous year. The earnings, together with the balance from the preceding year, made a total of \$211,861, from which was deducted—dividends at the rate of 6 per cent., \$46,165; special contingent account, \$4,515; taxes, \$7,158, leaving the sum of \$154,023 for the management to carry over. The liquid position is quite satisfactory. The paid-up capital at the close of the year was \$1,184,365, and the total assets were \$9,395,618. Of this latter sum, \$7,000,000 is in the form of loans in quickly realizable form. These assets being some 43 per cent. of the total liabilities to the public, the bank's liquid position is quite satisfactory.
The principal change in the past year is the creation of a special contingent account as appropriations for paying of the cost of the new investments, etc. The statement also shows other evidences of the beneficial results of good banking.

NORTH PARKDALE METHODIST CHURCH AT HOME.

A large and enthusiastic audience turned out on Tuesday evening at the annual church at home, at which the pastor, Rev. J. C. Speer, presided. Reports were read by the following: Mr. W. T. Martin, treasurer; from the Sunday School by J. M. Fernley, superintendent; from the Ladies Aid Society by Mrs. Ina Luffer, secretary; from the Women's Missionary Society by Mrs. S. G. Phelps, president; from the Senior League by C. W. Farr, president; from the Junior Epworth League by L. Spier, superintendent, and from the choir by H. J. G. Cook, leader. All the reports showed the church to be in a splendid condition, and beside that the church was in good financial condition. The quarterly offering for Monday night, a hearty vote of thanks was extended to Dr. Speer for his splendid work during the past year, which was a most successful one. A very handsome club bag was presented to W. T. Martin, who has been the treasurer for the past several years, and a very suitable gift was presented to Mrs. Ina Luffer for her excellent work during the year.

Dorby v. Hamilton Brokerage Co.—G. G. Flaxton for plaintiff. D. Drumhart, for defendant. Appeal from judgment of county court of York of Feb. 18, 1914. Action for rescission of contract for purchase of 200 shares in defendant company on ground of misrepresentation or damages for breach of contract, return of money paid, etc. At trial the action was dismissed with costs. Appeal argued and respondent agreeing to issue fully paid-up shares for \$160 of preference stock bearing six per cent. trial judgment varied accordingly. No costs.
Russell v. Klopfer—J. F. Boland for defendant. J. T. Mulcahy (Orilla) for plaintiff. Appeal by defendant from judgment of Latchford, J., of March 16, 1914. Action by assignee of John Leatherdale to declare mortgage given by Leatherdale to defendant fraudulent and void and to set aside and for an order that defendant give discharge thereof. At trial the judgment declared the mortgage void and directed the registration thereof to be vacated. Appeal partially argued but not concluded.
IMPORTANT NOTICE—CHANGE IN ROUTE OF TRAINS.
Until further notice, all Canadian Pacific trains (excepting Alliston local, leaving Toronto 6:10 p.m., and train leaving Toronto 9 a.m., for Baxter and intermediate points) for Bala, Parry Sound, Winnipeg and intermediate stations, will be operated from Toronto Union Station by Lindsay and Coldwater Junction, instead of Parkdale and West Toronto. Passengers for Coldwater Junction and north thereof should board regular trains at Union Station.
SOME BENEFITS DERIVED FROM MODERN DANCING.
Mrs. Vernon Castle, joint author with her husband, of the greatest dance book ever published, has the following to say regarding some of the benefits to be derived from the dance: "The muscles of the legs, thighs, back and arms are all more or less exercised when dancing and the necessity of holding the body erect is good when you have grown used to holding yourself in proper position to dance and you will unconsciously begin to hold yourself in proper position at all times. "Keeping time to the music as you step the pretty measures of the Hestiation or Innovation, will make you breathe in time, with deep breaths such as come when the mind is beating time and the body is following time, and every deep breath you draw is a fresh air to the beauty we all want so much.
"Any physician will tell you that health is the only real beauty, and health really does mean prettiness, for it means rosy cheeks, clear eyes and animated expression and a zest for life that has magnetism all its own, and it is health that dancing gives to us, provided we live sane lives in other ways.
"Good food, plus enough sleep, plus an occasional brisk walk and an alcohol rub and dancing, equal health and youth and of such as happiness and beauty made.
"The graceful dipping in the slow

Liquid Extract of Malt

The most invigorating preparation of its kind ever introduced to help and sustain the invalid or the athlete. W. H. LEE, Chemist, Toronto. Canadian Agent. MANUFACTURED BY 245 THE REINHARDT SALVADOR BREWERY, LIMITED, TORONTO.

MUST BOARD TRAINS AT UNION STATION.

An announcement was issued by the C. P. R. yesterday that all trains, except Alliston local leaving Toronto at 6:10 p.m., and extra train leaving Toronto at 9 a.m., run as far as Baxter, Ont., for Bala, Parry Sound, Sudbury, Winnipeg, and intermediate points, will be operated from Toronto Union Station via Lindsay and Coldwater Junction instead of Parkdale and West Toronto. It will, therefore, be necessary for all Toronto passengers to board these trains at the Union Station.
The change in the route is due to the repairs being made to the bridge at Baxter, which it is expected will take about two weeks' time, after which the change back to the former route will be made.

Golf Evans and Weber Only Yankees Left Lacrosse First N.L.U. Game At Rosedale June 13

ONLY TWO U.S. GOLFERS REMAIN

In British Championships at Sandwich, Evans of Chicago and Weber of Toledo.

SANDWICH, Eng., May 20.—The excellent playing of Charles W. Evans, of Chicago, and Harold Weber of Toledo, carried them through to victory in their respective contests today in the British amateur golf championship tournament, and they are now the sole remaining representatives of the United States for the next round.

Francis Ouimet, Frederick Herreshoff and Arthur G. Lockwood lost their matches. Ouimet and Herreshoff both made bad starts, but finished brilliantly, which caused them to be as heartily cheered as the victors.

In the fourth round tomorrow Evans will meet C. B. Macfarlane, a Scottish international, who won his way to the semi-final two years ago and was runner-up in the French championship the same year. Macfarlane is the best player that Evans yet has had to meet.

Weber is drawn with Capt. Cecil Hutchison, another Scottish international, whose record is even better than that of Macfarlane.

Ouimet's card for the round was as follows:

Outward	5544445533-42
Homeward	5544445533-41

Tubbs did two strokes better on the first nine holes and one stroke better on the second half of the journey. His card read:

Outward	5544445533-40
Homeward	5533446464-40

Frederick Herreshoff of New York beat J. R. Platt of the Royal North Devon Club by 4 up and 3 to play, but he went out in the next round.

H. Tubbs, the vanquisher of Ouimet, beat Mr. Hole by 3 up and one to play in the third round.

Weber won two matches today, defeating his opponent by 7 up and 8 to play, and his opponent in the third round by 3 up. His score going out in the morning was 36, which is considered very good, but the conditions were almost ideal. Later, Dr. Gillies of London, now one of the strongest favorites, did it in 32. Weber failed to show so well in the afternoon, and he took 39 to go out and 33 for the round.

Ouimet's defeat by the youthful player Tubbs of Littlestone was totally unexpected, and proved more of a surprise than Palmer's recent victory over Jerome D. Travers. For Tubbs is little known outside of Littlestone, which, however, is a first-class course. Tubbs was "scratched" there when he was 17 years old. He has won all the local competitions, but played in a championship match only once before.

LAWRENCE PARK BOWLING.

TORONTO WELSH BEAT THE IRISH

The Toronto Welsh won their game in the British rugby series for the Lochrie Cup last night at Moss Park from the Irish by 11 points to nil. The winners were at full strength while the losers had a weak team. The Welshmen played well within themselves and had the game in hand throughout. Score: Toronto, 11; Irish, nil.

Toronto Welsh, 1 converted goal, 2 tries, 11 points. Irish, nil.

Edward J. Davies and the game to the satisfaction of both sides.

fore, in 1910, when he was just beaten in the fourth round by John Graham, who later won the St. George's Grand Challenge Cup.

Ouimet was off in his second and third shots today. His chief weakness lay in his failure to get distance in his approaches, in which he was often short.

Evans did poor work with his wooden clubs after the first nine holes, but he improved in putting, which had been indifferent going out. Altogether, he was trapped but finished well, winning the match by 4 up and 2 to play.

Herreshoff also finished strongly in both his matches. He won handily in the morning contest by 4 up and 3 to play, but in the afternoon he could not quite make up his head against the Hon. Michael Scott, the ex-champion of Australia and France, losing on the 18th green.

All the American players are planning to enter the French championship, and except Travers will compete in the British open championship.

MILLION POUNDS FOR AIR SERVICE

British War Office Makes Big Increase for Army Aviation.

JOBS FOR EX-SOLDIERS

Will Improve Conditions for Individual Territorial by Bounty System.

A million a year is now being provided for the army aviation service. To this outstanding fact is largely due the increase of £225,000 shown in the army estimates for 1914-15.

The other chief cause of the advance is the new scheme of pay for regular officers and of promotion from the ranks, introduced last January.

The total amount required is £228,345,000, and the main items in the estimates, as compared with the same items last year, are as follows:

1914-15	Increase
Pay of the Army, £3,705,000	£ 23,000
Special Reserve, 724,000	8,000
Territorial Forces	4,308,000
Military Education	156,000
Quarters, Reservoirs and transports	1,732,000
Supplies and clothing	4,388,000
Ordnance department, etc.	621,000
Arms and ammunitions stores	1,732,000
Works and buildings	2,791,000
Miscellaneous	55,000
War Office	457,000
Half-pay etc. for officers	1,846,000
Pensions, etc., for Civil superannuation	1,977,000
Total	134,000

The total numbers estimated for 1914-15, as against 1913-14, is an increase of only 800.

The increase in the provision for the territorial forces is mainly due to bounties to men who remain in camp for the full 15 days and additional expenditure on training.

Half-a-Million More for Flying.

Nearly half-a-million more is to be spent on army aviation in the next year, the actual increase being £2,580,000. This provision, says Colonel Seely, former war secretary, in a memorandum on the estimates issued previous to his retirement, has an important bearing on any comparison between the estimates of today and those of former years. He proceeds to give a comparison, and adds that "when allowance has been made for the automatic growth of pension charges and for the million now provided for aviation, the effective cost of the army is actually less than in the year 1907-8. It is nearly 1-1/4 millions less than it was in 1905-6, and is only a quarter of a million more than it was at its lowest point since the war."

There will be a shortage (about 5,000 men at the present time) in the ranks of the infantry owing to the enormous number of men passing to the reserve and to the fact that the recruiting market has not been elastic enough to enable the gap to be readily filled. But steps have been taken to improve and modernize recruiting methods, and better results are already being obtained.

Solution of Recruiting Problem.

"It is clear to me," says Col. Seely, "that the complete solution of the recruiting problem is bound up with the question of civil employment for ex-soldiers, and a committee, with Sir Matthew Nathan as chairman, is now inquiring into the steps necessary to

"Hands Across The Sea"

If you were in London today sauntering in Piccadilly Circus or The Strand, you'd find hundreds of correctly dressed Englishmen wearing precisely the same clothes that we are building every day for the elite men of Toronto.

For Score's Clothes are blue prints of the foremost and top-notch English designs. They meet the insistent cry for "Over the Briny" style, capably and cleverly.

The cloths used are distinctive and exclusive. Our methods of cutting and fitting insure garments that absolutely conform to your individual requirements—even to the smallest details—and prices are so reasonable as to actually astonish you.

Just a suggestion—the light weight distinctively summer suit with its grace and comfort will be more popular than ever this season and we have a number of unusual fabrics to show you.

Don't be satisfied with commonplace clothes. You're entitled to something better than this. Wear clothes that show you at your best. We'll be delighted to talk the matter over with you—whether you are ready to buy or not.

MONTREAL WINNIPEG

HOPE OF THE SEAGRAM STABLE

Dark Rosaleen, b. f. (3), by Havoc—Irish Lass. The filly had her final trial at the Woodbine yesterday in company with her stable companion Sea Lord. They covered the plate distance in 2:13 3/4. Dark Rosaleen leading throughout. As the track was slow, the work was considered most satisfactory, and Waterloo looks better than ever to run second to Bee Hive.

BROADVIEWS WIN TWO CENTRAL OPENS

Green and Sneath, Underrated by Handicappers, Take Hundred and High Jump.

Last night West End held their first open athletic meet at Varsity Stadium. While there was not a big crowd, the event was closely contested. The first event was a heat of the hundred yards. The first heat brought together Green and Sneath of Broadview, with 7 and 8 handicap, and a man from the Central, who had a 10 handicap. The first two, Green and Sneath, were running in a bunch, at the 30-yard mark, finishing first and second respectively.

The second heat, Moriarty, the West End sprinter, took the measure of Cook of Central, who had three yards of a handicap. Time—10 1/4.

The third heat saw three West End men competing against each other, Hec Phillips, on 1 1/2-yard mark, finishing first. The final in this event was certainly the best sprint held at Varsity field up to date. Moriarty, after running the first fifty, began to pull down the handicap of six yards. From the fifty-yard mark to the tread, Green, Moriarty and Phillips were running in a bunch. At the 75-yard mark, Green was leading, with Moriarty and Phillips close behind.

From the fifty-yard mark to the tread, Green, Moriarty and Phillips were running in a bunch. At the 75-yard mark, Green was leading, with Moriarty and Phillips close behind.

DEATH OF A. C. MORRIS.

Arthur C. Morris, 50, died at his residence, 11A Defaware avenue, yesterday, of Bright's disease. He was born in North Wales in 1864 and came to Canada 27 years ago. He spent his first five years in this country with the Rathburn Lumber Co. at Brockville, and became secretary-treasurer of the Ontario Wind Engine and Pump Co. 22 years ago. He retained this position ever since. He was a deacon of the Dovercourt Baptist Church, and is survived by a wife, two sons, Berwin and William, at home, and one daughter, Mrs. R. Somerville, Toronto. The funeral will be held on Friday at Mt. Pleasant Cemetery.

HOMESEEKERS' EXCURSION.

NORTH BAY, Ont., May 20.—The first home-seekers' excursion to be run to Northern Ontario on a large scale has been arranged to start on June 10, when low excursion rates will be available over the C. P. R. G. T. R. and N. O.

NOTICE TO OWNERS AND TRAINERS.

Horses must not be exercised on Saturday, May 23, Monday, May 25, and Saturday, May 30, after 2 o'clock, and after the sixth race on those days until their royal highnesses the Duke and Duchess of Connaught have left the grounds.

W. P. Fraser, Secretary.

PLATERS RECEIVE THEIR FINAL PREPS

Dark Rosaleen Shows the Most Impressive Trial—More Arrivals.

The feature at the Woodbine yesterday morning was the final work of the plate candidates, and it looks as if the field will not be overly large. There was the usual number of clockers on hand, and all of them will have some of the "candidate" ones in their minds for the opening day.

The Seagram string were given their final preparation for the big event on Saturday, and Harry Littlefield was much pleased with the work. Dark Rosaleen and Sea Lord worked together. The fractional time for the plate distance was: One-eighth in 12 1/4, one-quarter in 1:17 1/2, three-quarters in 2:13 1/4, one mile in 3:48 1/2, one and a quarter in 5:32 1/4, one and a half in 7:13 1/4, and two miles in 12:11 1/2. Golden Jug, Charron and Smithfield, the two-year-olds, worked a half-mile in 1:12 1/2, 37 1/2, and the half in 1:11, quite easily.

Willie Martin's Mediator worked seven-eighths in 1:12.

From the Gladings barn, Harry Bassett and all the two-year-olds were schooled at the barrier. AM Bass worked a half in 50 1/2, and Ondranias a half in 51 1/2. The rest of the stable had exercise gallops.

Tippecanoe and Christalwaga worked a mile very easily in 1:45 1/2. Beau Cheval and Double Bass worked the plate distance, first mile in 1:45 1/2, and 1 1/4 miles in 3:12 1/2. Lady Curzon and John Thompson did a half in 52 1/2, 55, 57 1/2, and three-quarters in 1:20.

Gallagher Bros. of Lexington, Ky., arrived from Louisville with a string of twelve, all shopped in good form and looking in the pink of condition. The string comprises the following:

Howdy Howdy, b. c. (a), by Oary—Synorina.

Rash, b. g. (6), by Hastings—Lady Rayon.

Hoffman, b. g. (a), by Isidor—Arrowgrass.

Jurty, b. c. (3), by Marisanta—Belle.

Daisy Platt, chf. (4), by Marisanta—Black Banner.

Sourire, b. m. (6), by Rock Sand—Sourire.

Hugh, b. c. (2), by Marisanta—Nooga.

Lupin, chf. (2), by The Scribe—Ruby Ken, b. c. (2), by Contester—Ordoletie.

Vogue, b. f. (3), by Peep O' Day—Clara Rye.

Clyda, chf. (3), by The Scribe—Mary Greenwood.

W. Andrews arrived with the stable and will do the riding. All the horses were galloped the first morning after arrival.

Lewis Garth arrived yesterday with a good string of fourteen. He shipped from Gimco. His horses all look well. Also W. T. Anderson arrived from New York with a nice string.

EATON'S

On Sale Today

Straw Hat Season Opens Thursday

Choose Your Hat From the Greatest Selection Ever Assembled Here.

PANAMA HATS, in telescope, negligee and fedora shapes, semit and split straw boaters and sailors, many featuring the new high crown—in fact, everything that you could desire in a straw hat is here—in all sizes and at all prices.

It's safe to say that if the weather is fine, the Woodbine lawn Saturday will show a sea of straw hats, and by Monday, Victoria Day, straw hats will be in universal use. Don't wait for the rush. Come Thursday and select from an assortment that includes every new style at whatever price you like to pay. Selection so large that we have only space to feature Panamas. It's to be a big Panama year, and we're ready with a great assortment of this cool and comfortable form of straw hat. A brief description of the various lines:

PANAMAS AT \$3.95—Choice of three distinct styles with low, medium or high crowns; made of fine evenly woven fibre, of rich creamy color; soft and pliable. Can be folded up in a very small parcel for convenience in travelling, etc.

PANAMAS AT \$4.95—Negligee and telescope styles, in natural or bleached color. All are light in weight and are in neat shapes. The bleached hats are almost pure white in color, and are certainly beautiful goods in every way.

PANAMAS AT \$6.00—A splendid assortment of both English and American blocks, in negligee, fedora and telescope shapes. The telescope styles are favorites with young men. These are in natural or bleached color, and trimmed with bows at back or on the side. The fedora shapes are especially suitable for large men. In a moderately large shape of pure white Panama braid.

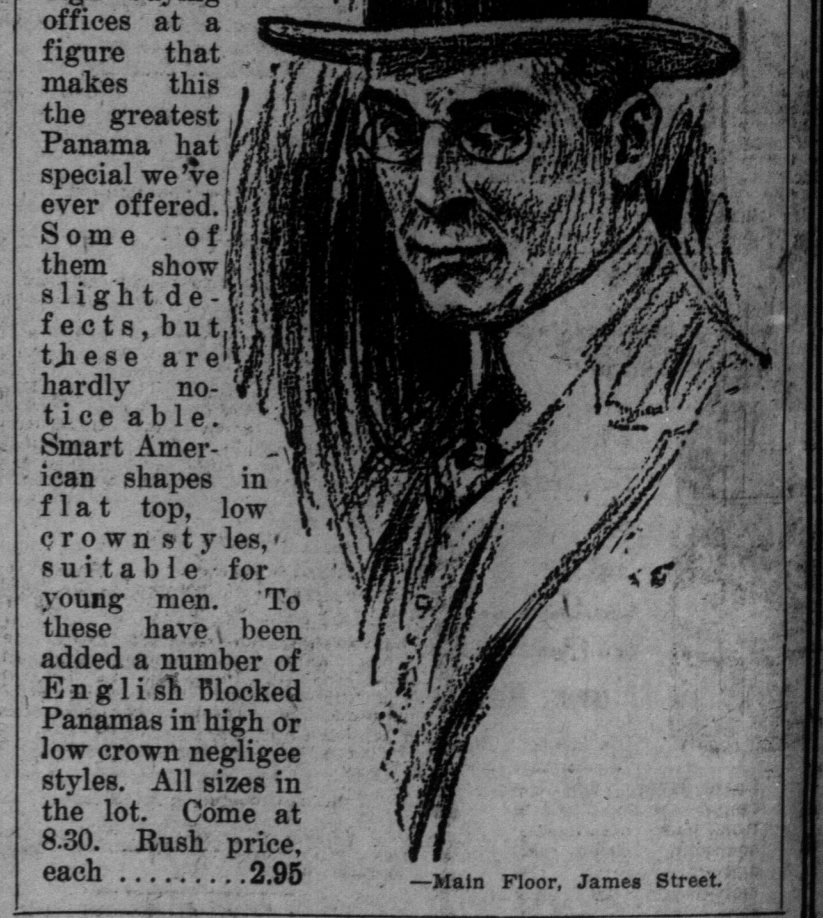

PANAMAS AT \$7.00—English blocked negligee shapes of very fine braid, in natural color, in large shape with soft pliable brim that can be turned down to suit wearer's fancy. At this price, there are also two exceptionally dressy New York blocked hats in white, bleached color. One in low crown, flat top shape; the other in a very neat telescope shape. Both have soft brims.

PANAMAS AT \$8.00—Very dressy American hats, in telescope shape, with neat pencil edge rim and crown of medium height. Made of fine, even, pure white braid.

PANAMAS AT \$8.50—A rather large shape, in a bleached white, English negligee style of very fine quality and very light in weight.

Panama Hat Special Extraordinary!

200 Only Sample Panama Hats for Men, Hardy Two Alike, Thursday, 2.95

It's a remarkable collection of hats that was picked up by one of our foreign buying offices at a figure that makes this the greatest Panama hat special we've ever offered. Some of them show slight defects, but these are hardly noticeable. Smart American shapes in flat top, low crown styles, suitable for young men. To these have been added a number of English Blocked Panamas in high or low crown negligee styles. All sizes in the lot. Come at 8.30. Rush price, each 2.95

ENGLISH DERBY NEXT WEDNESDAY

Yankees Have Several Entries, But Little Chance—Why Some Colts Start.

LONDON, May 20.—Until Sunday's big race at Longchamps, in which Herman B. Durvee's colt Durbar failed to get a place, Mr. Durvee was thought to have a better chance in the Epsom Derby, which is to be run on May 27, than any other American. But Durbar was unplaced in the pools for colts and that makes his chances look bad for the Derby.

Other Americans having entries for this year's Derby are Richard Croker, John E. Madden, Louis Winans, August Belmont, J. E. Widener, W. Astor, L. McCreery, Harry Payne Whitney and Charles Carroll, in whose name run the horses bred by Clarence H. Mackay and himself at their stud farm in France. Their four entries are colts by Mollater out of American mares.

Madden and Winans have five entries, respectively by Ogden or Star Shoot, and all bred in Kentucky. Croker's entries are by his 1907 Derby winner Orb, whose best colt this year, Flying Orb, has turned poorer. Whitney entered two by Broomstick, out of Jinks and Sandra, and one by Harburg, but this last, named Syoset, was sent back to America last fall after running once here and finishing back in the bunch. Syoset is out of Mineola. Two of Belmont's three entries are by Rock Sand, Black Poplar is out of Black Walnut, and Don de Rocca is out of Donna de Oro. The third Belmont entry, Dramatiste, is in France.

CONFESSION OF GUNMAN BARRED

Becker Defence Given Staggering Blow by Justice Seabury's Decision.

Canadian Press Despatch.
NEW YORK, May 20.—Charles Becker will not be benefited by the confession alleged to have been made by "Dago Frank" Cirofici shortly before the gunman was executed in the electric chair at Sing Sing prison for the part he played in carrying out the plot to murder Herman Rosenthal. "Dago Frank," in the so-called confession, was quoted as saying he had never heard the name of Becker mentioned in connection with the conspiracy that resulted in the killing of the gambler. Justice Seabury refused to admit testimony concerning the alleged confession into the record, and his ruling

was a great disappointment to both Becker and his counsel. Justice Seabury explained his action by saying that the alleged confession had not been made in affidavit form and sworn to, and had not been made to anyone authorized to take a deposition from a dying man. Justice Seabury further declared he was also influenced by the fact that it was not permissible to admit testimony dealing with incidents that occurred a long time after the commission of a crime. He quoted a number of legal opinions to show upon what grounds he had barred the so-called confession. There are but two more witnesses to testify for the defence. They will have told their stories and been excused from the stand before the conclusion of the proceedings tomorrow. The case undoubtedly will be completed before the end of the week. It has not been decided whether or not Becker will go on the stand after the last witnesses tomorrow. SAME OLD STORY. The 17 employment agency cases due to come up at the police court yesterday were adjourned, despite the presence of numerous witnesses.

O'Keefe's

GOLD LABEL ALE

SPECIAL EXTRA MILD ALE

Drink them in the Spring for their tonic qualities. Pure malt is a great body-builder, and in the Spring, when the vitality is at its lowest ebb, the system needs the mild stimulation and tonic qualities of O'Keefe's Ales—malt in its purest form. Take a glass of O'Keefe's daily and be safeguarded against spring colds and weather changes. Order a case from your dealer today.

O'KEEFE BREWERY COMPANY, LIMITED, TORONTO.

Get on the "PEERLESS" LINE

LIVE RUBBER WEARS LONGEST

This man doesn't try to make an impression on the sidewalk. He feels that if he can leave the jolt out of his daily stride he is going to add mileage to his years.

And with this New Dunlop "Peerless" Heel he gets live rubber, uniform quality and a frictioned canvas plug which prevents slipping and never comes out.

Also makers of "Comfort" Heels.

LACROSSE SCHEDULE.

HASTINGS, May 20.—A meeting of the different towns represented in group No. 18 of the intermediate series of the O. A. A. was held here today when the schedule was arranged as follows:
May 23—Campbellford at Norwood.
June 2—Peterboro at Peterboro, Havelock at Campbellford.
June 10—Peterboro at Hastings.
June 12—Norwood at Havelock.
June 17—Campbellford at Hastings.
June 19—Havelock at Peterboro.
June 26—Peterboro at Norwood, Hastings at Campbellford.
July 3—Norwood at Peterboro.
July 5—Campbellford at Havelock.
July 15—Havelock at Hastings.
July 15—Peterboro at Campbellford.
July 22—Havelock at Norwood.
July 23—Campbellford at Peterboro.
July 27—Hastings at Havelock.
July 31—Norwood at Hastings.
Aug. 5—Peterboro at Havelock, Norwood at Campbellford.
Aug. 12—Hastings at Norwood.
The following officials referees were appointed for this district: Norwood, A. Kemp and Dr. Sutton; Campbellford, W. Cantor and T. Dinesen; Peterboro, L. H. Roe and C. H. Nadoor; Peterboro, L. McCoy and K. J. Dillon; Hastings, T. A. Coughlin and F. McCarthy.
They also drew up the schedule of junior group No. 20 of O.A.A.A. as follows:
May 30—Norwood at Havelock.
June 6—Havelock at Hastings.
June 12—Hastings at Norwood.
June 20—Havelock at Norwood.
July 10—Norwood at Hastings.
July 17—Hastings at Havelock.

POLO CHALLENGES.

LONDON, May 20.—Baron Wimborne's polo team, which challenged for the international polo trophy, now held by the Meadowbrook Club, today won its final test match, defeating Walter Bucumasters' four at Ranelagh by 7 goals to 6.

CRACK MOTORCYCLE RIDERS COMING.

Joe Martineau, the fast Montreal motorcycle rider, has wired the Toronto Motorcycle Club that he will be here to compete at their big meet on the holiday afternoon at Exhibition track. This rider, including Gardner, the half-mile world's champion, brings together six of the fastest riders on the continent. This is the greatest number that have ever met at one motorcycle meet in Toronto, and with the track banking the fastest racing ever seen on any track in Canada will be furnished.

NO AGREEMENT RE FAIR.

LONDON, May 20.—A specific denial of the repeated assertion that Great Britain's attitude in regard to the Panama-Pacific Exposition at San Francisco was due to an agreement between her and Germany, was given today in the house of commons by Francis Dyke Acland, parliamentary under-secretary for foreign affairs.

DUKE INSPECTED COLLEGE CADETS

Complimented Officers and Members of U.C.C. Unit on Their Appearance.

Under the command of Major Barker, Q.O.R., the Upper Canada College Cadet Corps were inspected by H.R.H. the Duke of Connaught on the college oval yesterday afternoon. After the march past his royal highness made a short address, in which he complimented the officers and men on the very smart and soldierly character of their work.

CLAIMS HEAVY DAMAGES.

Alleging that the driver was negligent when a hydro truck knocked him off his cycle and injured him, J. A. Copland is suing the city in the assize court before Mr. Justice Sutherland and a jury for \$10,000 damages for injuries sustained. Counsel for the city urge that the auto driver was blameless in the matter.

FIRES RAGING IN OTTAWA VALLEY

Villages Above Hull Are in Danger of Being Wiped Out.

Canadian Press Despatch.
OTTAWA, May 20.—Bush fires are raging with increasing strength throughout the Ottawa Valley, and if rain does not come soon or a high wind should arise, some of the villages along the Pontiac line, above Hull, will be in danger of being wiped out. The full force of fire rangers employed by the railways, lumbermen's associations and the railway and conservation commissions are doing all in their power to prevent the fires from spreading. Reports were current in Ottawa this morning that No-nimiquing camp, a summer resort in Algonquin Park, owned by the Grand Trunk, has been wiped out. These reports Grand Trunk officials here pronounce unfounded. Serious fires are raging in the bush six miles east, four miles north and eight miles west from the Grand Trunk's Highland Inn, Algonquin Park. A thick pall of smoke from the fires in the district is hanging over Ottawa. It is so thick that one cannot see half way across the Ottawa River from Parliament Hill.

SEE, THE THERMOMETER IS SIX DEGREE'S HIGHER THAN IT WAS YESTERDAY.

IT'S THE SAME OLD STORY. THE ST. LOUIS AMERICAN LEAGUE TEAM IS SINKING A LITTLE LOWER IN THE PERCENTAGE COLUMN EVERY DAY.

AND I GUESS IT WILL CLIMB HIGHER EVERY DAY FROM NOW ON.

HUH?

CLIMB HIGHER NOTHING! IT WILL DROP A LITTLE LOWER EVERY DAY AND FINALLY FINISH IN LAST PLACE.

IT'S BEEN GOING UP FOR THE PAST HALF HOUR.

AW, IT'S JUST WHERE IT WAS LAST NIGHT. NO GAME SCHEDULED FOR THIS MORNING.

YOU FELLOWS BEAT IT!

THE LITTLE SHRIMP MUST OWN STOCK IN THE CLUB.

REAL ESTATE NEWS

TENDERS LET FOR LEASIDE CONTRACTS

Waterworks and Sewage System Under Way — Other Improvements to Follow.

Tenders have been let for the waterworks and the sewerage system of Leaside, said one of the officers of Davidson & Macrae, to The World yesterday. "This work alone will run into a hundred thousand dollars, and will be supplemented by the expenditure of \$50,000 on roadways, pavements and other general improvements. There is quite an activity in Leaside real estate, and, of course, the coming of the Canadian Northern street will augment the enquiry for the property."

SANDERSON'S SCOTCH Mountain Dew
Positively THE FINEST WHISKY IMPORTED

SEVERAL DEALS IN NORTHERN TORONTO

One Realty Company's Transfers Total Over Eighty Thousand Dollars.

Among the recent sales transacted by the Saxon Co., the following are of considerable interest: Fifty feet on Vinc avenue, sold to R. C. Bustard as a factory site, for \$9,000; five houses on Grace terrace, Moore Park, for \$22,750; No. 19 Grace terrace, to Mr. Sharpe for \$775; the corner of Lillian and Soudan, which is 50 feet by 150 feet, to Thompson Brothers, for \$4500; 24 Glen road, to R. E. Connor, for \$10,500, and 307 feet on Grace terrace, to P. E. Peterkin, for \$16,000.

HOSPITAL TRUST MAKING RENEWALS

Lease for Widmer Street Property Taken Out for Nine Houses.

Leases of the Toronto General Hospital property in the West Adelaide and Widmer streets vicinity, are expiring. One of the most recent renewals is taken out by Charles Bayley, on from 7 to 25 Widmer street. For this property a rental of \$2499.84 will be paid annually for 21 years. There is 175 feet frontage with a depth of 86 feet. Assessments amount to \$25,000, of which \$17,700 is placed on the land.

PROSPECTS BRIGHT FOR GOOD CROPS

Kent County Farmers Complete Seeding and Report Progress in Work.

Special to The Toronto World. CHATHAM, Ont., May 20.—Reports from all over Kent county are to the effect that the farmers of this district have little complaint in connection with the crop this year. The recent rains kept the farmers back considerably with their work, but the seeding is now almost completed and the spring work is progressing favorably. The acreage of wheat in Kent county is considerably reduced this year on account of the low prices. In some places the wheat was killed by the wet weather and had to be plowed under and the fields sown with other crops. The tobacco crop in Kent will be much lighter on account of the trouble with the buyers and the low prices offered for the crop.

There will be a large acreage of sugar beets. The acreage of corn will be greater this year than ever before created by the annual corn fair.

Clover meadows have been killed outright in many territories.

The present indications are that the fruit crop will be the best in years, especially apples and peaches. Along the ridge the crop of peaches will be unexcelled.

In Orford, Howard and Harwich the bean crop will be as large as ever. This is a great bean growing district and the indications are that there will be a bountiful crop.

DR. G. J. MUSGROVE NAME CANDIDATE

Conservatives of Niagara Falls Riding Make Nomination for Legislature.

Special to The Toronto World. NIAGARA FALLS, Ont., May 20.—Dr. George J. Musgrove, Niagara Falls, was nominated candidate for the provincial house at a convention of the Conservative Association of the new riding of Niagara Falls here today. Resolutions were passed endorsing the Whitney and Borden governments, and favoring the continuation of the Niagara boulevard thru Bridgeburg and Fort Erie. Addresses were delivered by Dr. Musgrove, the candidate; Dr. E. E. Elson, Thomas Bette and H. P. Slater. The following officers were elected: President, ex-Mayor Charles C. Cole; Niagara Falls, vice-presidents, William Wilson, Bertie Townshend; W. J. Hawley, Fort Erie; William Carr, Niagara Falls, and A. Simpson, Willsborough Township; secretary A. Bridges, Stamford Township, and treasurer, W. McKenzie, Chippawa.

DEATH CAME SUDDENLY TO PROF. KIRKPATRICK

Special to The Toronto World. KINGSTON, Ont., May 20.—A telegram from Toronto, N.S. this evening to Principal Gordon announced the death of Prof. Alexander K. Kirkpatrick of Queen's University, who died from acute appendicitis. Prof. Kirkpatrick had been engaged by the Dominion Government for marine engineering works in the past few weeks. He was a native of Kingston and graduated from the Royal Military College in 1880.

LAST OF DONNELLYS SUMMONED BY DEATH

Special to The Toronto World. ST. CATHARINES, May 20.—The last surviving member of the Donnelly family, which was wiped out in the tragedy in Biddulph Township, Ontario, that was followed by one of the most celebrated trials in Canada thirty years ago, is dead, in the person of Patrick Donnelly. For many years he was a hotel proprietor.

FALL WHEAT KILLED, SMALLER ACREAGE

Bulletin Issued by Statistics Office — Clover and Hay Meadows Suffer.

Special to The Toronto World. KINGSTON, May 20.—That a score or more Kingston people have been healed by prayer is the claim of Earl W. Clark, who is conducting a special service for members of the "Apostolic" faith. The most conspicuous case is that of the five-year-old son of Mrs. E. E. Vallier. The lad's arm was paralyzed until Sunday night. Mrs. J. Found, suffering from varicose veins, was cured, and many others cured of rheumatism, it is claimed.

BLAME MILITANTS FOR BRUSH FIRES

One Encircled Royal Pavilion at Aldershot and Soldiers Fought It.

Special to The Toronto World. ALDERSHOT, Eng., May 20.—A great brush fire, believed by the authorities to have been caused by militant suffragettes, encircled shortly after midnight the royal pavilion in Long Valley, where the King and Queen Mary are in residence. It is the centre of a great army of British troops. The entire camp was alarmed and several battalions of infantry and regiments of cavalry turned out to fight the flames.

WIN ACTION AGAINST AUTOIST.

CAR HIT AUTOMOBILE, FIVE PERSONS KILLED

Special to The Toronto World. COLUMBUS, Ohio, May 20.—Five persons were killed near Ashville, 25 miles south of Columbus, today when a Scio Valet tractor car struck an automobile at a crossing.

HOUSE PROROGUES AMID CONFUSION

Socialists Refused to Cheer for Kaiser and Hooted His Majesty.

Special to The Toronto World. BERLIN, May 20.—Scenes of great confusion and uproar marked the closing session of the German Reichstag today. The members of the Socialist party, instead of retiring from the chamber immediately before the usual cheers for the emperor were called for, remained and kept their seats, from which they refused to rise.

Such is Claim Made by Conductor of Services.

Special to The Toronto World. CHICAGO, May 20.—"No toleration; no regulation; no recognition." This is the suggested slogan of the Presbyterian Church to be presented to the tenth general assembly which convenes here tomorrow. In the report of the special committee on white slave traffic, the report estimates that there are 100,000 prostitutes in the United States and a far greater number are in Canada. Contributing factors in this condition are the fashioning dances, the theatre, literature and ignorance. The principal remedy suggested is the enlightenment of the public.

A Gas Iron Saves Work Time and Money

The I. M. E. "Ironing Made Easy" Gas Iron has the heat under perfect control. No smoke, no dirt, no fuss. You can do your ironing or pressing in any room which has a gas jet. Do your dressing where you do your sewing just as well as in the kitchen or laundry. The I. M. E. Gas Iron heats in three minutes, and stays hot—a gentle heat for light fabrics, or intense heat for wet goods. Handy, convenient, simple to operate. Far cheaper than heating irons on a hot plate or gas range. Costs only one cent for three hours' steady ironing. Come in and see these operated, or telephone for our representative. Each iron is complete with 6 feet of tubing, and will be connected to fixture ready to use. Total price \$3.50—50 cents down, balance in monthly payments with your gas bill.

TORONTO FROM THE SKY

PICTURED FOR THE FIRST TIME

RIGHT in line with THE SUNDAY WORLD idea of reproducing the most graphic and interesting photos to be obtained is the series of seven unusual pictures in next Sunday's paper.

These pictures would be really remarkable even if they were not the first made of the roof of the city. But The Sunday World has accomplished something that very few newspapers in the world have accomplished—the taking of pictures from an airship. Every photo is clear, in some the buildings are as distinct as if the photographer had carefully set up a camera and painstakingly photographed the objects. Sunday World staff men snapped these unique pictures from an aerial yacht speeding sixty miles an hour 500 to 3300 feet over the city.

The Finance Minister on the C.N.R. Guarantee

In opening his speech in the house of commons on May 18 on the resolution regarding the Canadian Northern Railway guarantee, the Hon. W. T. White, minister of finance, outlined the railway situation in Canada, the history of the Canadian Northern, and the circumstances preceding the submission of the resolution. Apart from the controversial parts of his speech the following excerpts present the grounds on which the finance minister justified the government's policy in accordance with the public interest.

Hon. W. T. White (minister of finance): What is the position today? The Canadian Northern Railway Company comes before the government in a condition of affairs in which \$42,000,000 is required to maintain the system, and they ask for a guarantee sufficient to produce an income of \$42,000,000. I desire to point out that this is the actual position. There is no financial statement which has been laid before the government. The Canadian Northern Railway System requires \$42,000,000 to maintain the system. The government of Canada provides the guarantee of 4 per cent. bonds by guarantee of \$42,000,000, which may be expected to realize in the neighborhood of \$42,000,000. The question, therefore, is whether we shall allow it to go into liquidation. Let us consider for a moment the railway system as a whole. It has main lines extending from Quebec to Vancouver. It has branches in almost every province. It has the constituent and subsidiary companies specified in the schedules to the act, exceeding, I think, thirty in all. It includes express, telegraph, steamship, land and tunnel and 7000 miles of railway and when it is completed it will represent 10,000 miles. Upon this system some \$50,000,000 of securities have been issued, and it is today confronted, as I have said, with the necessity of obtaining further aid from the government of Canada or a receivership. A system so vast and so important as the Canadian Northern Railway System necessarily involves itself with the vital interests of the country and we find in the interests of the country, rolling stock, telegraph, supply, and manufacturing establishments, all dependent in some measure, and some in large measure, upon the continuance of the immense activities of this system. The Canadian Northern Railway System has received some \$20,000,000 in subsidies, has received in guarantees some \$10,000,000 from the federal and provincial governments, and has raised in the neighbourhood of \$10,000,000 in its own securities. Almost every province in Canada has pledged its credit in connection with the securities of this system, and therefore we have the situation that, in the event of the interest which they have in this system, the Dominion and provincial governments and the industrial and other establishments which are vitally interested in this company and its system being maintained as a going concern, the interests of the Dominion and provincial governments and the industrial and other establishments are vitally interested in this company and its system being maintained as a going concern. Of its securities there are hundreds of millions upon the London and European markets. The securities of the Canadian Northern Railway System are of the highest quality. The government has determined, is whether this system, which is on the verge of liquidation, shall be allowed to default on its securities, or go into the hands of a receiver. I say that no thinking man in Canada can answer that question in the affirmative. The Canadian Northern Railway System, with its express, telegraph, steamship, land and tunnel companies, shall be allowed to go into the hands of a receiver. I say that no thinking man in Canada can answer that question in the affirmative. The Canadian Northern Railway System, with its express, telegraph, steamship, land and tunnel companies, shall be allowed to go into the hands of a receiver. I say that no thinking man in Canada can answer that question in the affirmative.

million of Canada has given no less than \$50,000,000 of guarantees in connection with it, and between the Dominion and the provinces the people of Canada have paid over \$20,000,000 in subsidies. I say that, having regard to this vast and complicated system, with its ramifications extending in every province of Canada, with the pressing demand of the west for extensions to the newer districts, with all these conditions, it is unthinkable that the government should allow a system such as this to go into the hands of a receiver, if it can be saved. It is a question of the interest of the people of Canada. For months past the Canadian Northern situation has troubled the money market of London, affecting adversely the sources of supply of capital needed for our many enterprises. It has hung like a cloud over the business situation in Canada, just recovering from the terrible financial experience of last year. The most severe financial depression that we have ever known in our time we are now emerging from, and in the future we are going to have the full activities of the nation resumed. As we have reason to expect, on the experience of the past year, that the business sense of the government will approve the proposals of the Canadian Northern, it is the duty of a government to attempt to solve this most difficult problem.

CONGRATULATES BANK ON FIFTIETH BIRTHDAY

Annual Meeting of Merchants' Bank Held in Montreal Yesterday.

MONTREAL, May 21.—The annual meeting of the Merchants' Bank, held at the head offices here yesterday, in the presence of a large number of directors, Sir Thomas Allen presided. The fact that the bank had earned during the year 9.18 per cent. on its average capital of \$13,548,100, and congratulated them on the anniversary of the establishment of the bank. The chief item on the agenda was the reserve fund upon an equality having the paid-up capital had also been increased. He said the directors were arranging for the establishment of a holding company for the bank premises.

DEVICE PROMOTES SAFETY ON TRAINS

Grand Trunk Installs New Cars Contrivance to Prevent Telescoping.

By order of the president, E. J. Chamberlain, the Grand Trunk and Pacific Railways are building into each of their passenger cars a new safety device. This is declared by experts to represent the most notable advance that has been made in construction in modern times. It will make telescoping of cars in accidents practically impossible. The device holds the body of the coach to the body of the coach to the car, so that the two cannot become detached by sudden shock. The detachment of the superstructure from the heavy steel truck and the consequent telescoping has been responsible in the past for most of the injuries to passengers in railway accidents. The Grand Trunk has enjoyed an enviable reputation for its safe carriage of passengers and the officers of the company believe that with the introduction of this latest improvement, combined with the reinforcing of the vestibules of the passenger coaches which has been going on for some time past along with the provision of a high tension buffing device in the trucks to assist in absorbing sudden shock, there will be a still further diminution in the small percentage of travelers hurt. In adopting this new device it has been the object of the railway to provide for the traveling public the very greatest assurance of safety that could be obtained by mechanical ingenuity. Hitherto the only means provided to prevent the body of the car from moving forward in the event of a collision was the two-inch king-pin. But with the increase in the weight of passenger coaches some strong consideration of adjustment between truck and body was found to be necessary. After a considerable investment in the development presented to Mr. Chamberlain, he has approved a device that appears to have solved completely the problem of preventing separation of body and truck. This device is not at all intricate, indeed simple and strength giving. It consists of a heavy steel car locking together the truck and body by heavy flanges at top and bottom. These two keys are separated and spread apart by the

Richard Ivens, J.P., the president of the club, gave a short address during the intermission. He explained the objects and the aims of the Overseas Club.

HYDRO-ELECTRIC POPULAR.

GALT, May 20.—The Galt Hydro-Electric Commission today announces a reduction in the price of electric lamps of five cents each. As instancing the growth of the system it is stated that during 1913 the local commission purchased from the Ontario Hydro-Electric Commission 13-922 lamps. There are only three places in the hydro-electric chain which exceeded the purchase of Galt in 1913. Hamilton of 5,554; Port Arthur, 5,614; and London, 15,181.

GREAT DAMAGE TO CROPS IS FEARED

Loss of Many Million Bushels of Wheat From Pest Probable.

CHICAGO, May 20.—Despite heavy selling to realize profits, the wheat market today advanced to the highest point thus far recorded on the crop.

According to one authority the prospect today was for a cut of 100,000,000 bushels in the 1914 wheat harvest, compared with the extreme figures a month ago. Conditions on which these estimates were based were described by a leading expert in Southern Illinois as follows: "More than 40 per cent of all the stalks have the little white larva of the Hessian fly deposited just above the first joint. In some of the fields there are as many as 100 grubs on the stalk. Wheat cannot mature properly now and there is an irreparable loss of many million bushels."

Provisions developed no action of importance. Interest was dwarfed by excitement regarding wheat.

ST. LAWRENCE MARKET.

Receipts of farm produce were fifteen loads of hay.

TAKING OF PROFITS CHECKS ADVANCES

Toronto Market Reaches the Stage of Backing and Filling.

BRAZILS SELL LOWER

Bread Drops Back When an Attempt of Distribution is Made.

Signs of wavering were present in the local market yesterday, due possibly to realizing by those with profits. The recent advance has provided a temptation to realizing and the infrequency of these opportunities has excited the desire.

The pressure on C.P.R. and Brazilian was stronger in London than on this side. Brazilian held over party here, tho at a reaction of a point from Tuesday's best price.

Mackay common and General Electric were the strongest issues, but neither made gains of consequence. Bread common made a little higher level early, but distribution started and the price backed to 31.

In all the speculative issues dealt in a process of backing and filling constituted the day's operations, and it could only be said to the credit of the market that recent advances were fairly well held.

STRONG CASH POSITION

Gain in Profits Shown in Peterson Lake Statement.

A particularly strong cash position is revealed in the statement issued of the Peterson Lake Company. Cash on hand amounts, according to the statement, to \$209,245. Accounts receivable are \$338,777, royalties \$23,000 and ore to the extent of about \$18,000. Total quick assets thus amount to \$255,742.32.

Profits for the year amounted to \$167,377. This is a gain of \$71,622. This is especially satisfactory when it is noted that depreciation on the equipment of 30 per cent. on the buildings of 50 per cent. was written off. A balance of \$259,916.53 is left to the credit of profit and loss account. The shareholders' annual meeting will be held May 28.

ENCOURAGING REPORTS ON THE STEEL TRADE

Steel Plant to Run Full Time - Railways Order More Cars.

Orders have been received by the Pencoyle Steel Works to run full time. For some months half time has been the order. This is considered encouraging. A million dollar plant is to be erected by the Sharon Steel Hoop Co. on 100 acres of land recently purchased. These items are of importance because the steel trade has been more depressed than any other of late.

Good crop prospects are said to be responsible for the expectancy of big business. Further strengthening in confidence is reported by Dun & Bradstreet. The Union Pacific has ordered 900 freight cars. The Chicago and Northwestern has ordered 300 box cars. An aggregate of 17 locomotives has been ordered. A contract for a municipal plant which will require 6000 tons of steel, has been awarded to Chicago. Structural steel shows the most improvement.

An indication of better times is reported by Iron Age. Cotton consumption is slightly larger than a year ago. Foundry operations are on a 50 to 60 per cent. basis.

MONEY AND EXCHANGE

Glazebrook & Cronyn, exchange and bond brokers, report exchange rates as follows: Buyers, Sellers. Counter. N.Y. fds., 1-16 dis., 1-32 dis., 1/4 to 3/4. Mtd. fds., 1/2 dis., 1/4 to 3/4. Ster. 60 d., 1-7-32. 1/2 to 3/4. 30 d., 1-7-32. 1/2 to 3/4. Cable tr., 3-15-16. 91-32. 10 1/2 to 10 3/4.

DULUTH EARNINGS

The Duluth-Superior Traction Co. comparative weekly statement of gross passenger earnings for month of May, 1914. 1st week \$24,994.29 2nd week \$23,928.21. 3rd week \$24,137.61 4th week \$23,138.79. 1003.82 4.3 date. 454,864.44 419,424.52 35,529.92 8.5

RECEIVES ASSAY REPORT

W. H. Giddens of the Exchange St. Investment Co. states that the result of an assay received from Henry Carver, Ph.D., of Boston, from one taken from the "Little Hollinger," purchased recently by a syndicate of Boston investors.

BANK CLEARINGS

Bank clearings yesterday were \$7,135,430.

THE ROYAL BANK OF CANADA INCORPORATED 1869 Capital Paid Up \$11,560,000 Reserve Funds 13,575,000 SAVINGS DEPARTMENT Accounts may be opened with an initial deposit of One Dollar. Interest is credited half yearly. JOINT ACCOUNTS An account in the names of two members of a family will be most convenient. Either person (or the survivor) may operate the account.

Will Sir Thomas Accept?

It is rumored that Sir Thomas de Shaugnessy will be asked to become a member of the board of the Dominion Steel Corporation. The vacancy caused by the death of Senator Cox will probably be filled by the appointment of a Torontonian.

FOREIGN EXCHANGE RATE STILL RISES

Further Exports of Gold From New York Are Fore-shadowed.

STOCKS WERE DULL

Declines in Missouri Pacific and Western Maryland Were Features.

NEW YORK, May 20.—The session on the stock exchange today was devoid of interesting developments. Trading was dull and professional and the monotony of the movement was only relieved by heaviness of such issues as Missouri Pacific and Western Maryland, whose affairs are admittedly unsatisfactory.

The shares and bonds of these companies fell from one to five points. Chesapeake & Ohio, New Haven, American Smelting and some of the utilities, including People's Gas and Consolidated Gas, were intermittently heavy, but net changes especially among the leaders, were negligible.

In its broader aspects the real feature of the day was the further rise in the price of gold. Demand starting advanced to 488.55 and cables were quoted at 489, indicating a continuance, and an increased scale of recent gold exports. Brokers reported a more persistent demand for our metal from Paris and Berlin, and the enquiry from the latter centre is popularly believed to be for Russian account.

Crop Reports Doubtful. Further unofficial advices of an untoward character dealing with the crop outlook were received, but were accepted with some reservation. Conditions in the steel industry were reported to be practically unchanged, except for significant buying of pig iron which is assumed to presage an increased demand for the finished products in the near future. The copper metal markets at home and abroad were working toward betterment, but local buying continued cautious.

Foreign markets were not unlike our own. London manifested sluggishness and drooping tendency, with some weakness at Paris and Berlin.

PRICES CONTINUE AT FORMER LEVEL

Fluctuations in Montreal Market Narrow and Irregular - Brazilians Fell.

MONTREAL, May 20.—Except for a further advance in Quebec Railway securities the local market was devoid of any feature of interest today. Quebec Railway common after holding steady around 15 to 16 1-8 in the morning, jumped to 17 at the afternoon and finished at the best with a gain of one point on the day. The company's bonds concurrently rose 1/2 to 5/8. About 1,800 shares stock and bonds to a par value of \$17,000 changed hands. These totals represented about half the day's business in both shares and bonds.

The general level of prices showed only slight changes from the close on Tuesday and Wednesday's market in turn left off. Fluctuations throughout the day were very narrow and inclined to irregularity. C.P.R. was firmer at 124 1/4 to 124 1-2 and finished at the latter price with a gain of 1-2. Brazilian on the other hand fell 3-4 to 7-8 and closed only slightly better at 78 1-8 bid. Power sold unchanged at 222. Iron unchanged at 22 1-2. Laurentide at 120 1-4 and Toronto Ralls at 132 3-4 were each 1-4 up. Packers rose 2 1-2 to 128 1-2.

Richelleu at 38 ex-dividend held at the equivalent of the previous day's close. Scotia was 1-2 lower at 61 1-2 and Textile 1-2 lower at 74. Hollinger continued to show some improvement, selling at 16 1-8 and finishing 16 1-4 bid with no stock offered.

Total business 2,824 shares, 863 rights, 1,600 mines, and \$5,000 bonds.

PROGRESSING FAVORABLY

Having returned from the company's property at Cobalt, Col. Alex. M. Hay, president of the Trestway Mining Company, is optimistic regarding the immediate prospects of the mine. "Everything is progressing favorably," he said. "Work has begun on our new lease of 120 acres, and we are good prospects of getting something. The old mine is doing well." Col. Hay addressed the members of the Standard Stock Exchange last evening at their regular dinner.

BANKS OPENED

There was a net gain of twenty-one branches made by the Canadian chartered banks during the month of April, leaving a total of 3,157 branches, of which 3,068 are in Canada.

NEW YORK COTTON

Erickson Perkins & Co. (J. G. Beatty, 14 West King street), report the following fluctuations in the New York Cotton Exchange. Open High Low Close. Close. QUEBEC, May 20.—Bank clearings for week ending May 17, 1914, as follows: Corresponding week last year, \$5,059,401.

ORE RECEIPTS

The Consolidated Mining and Smelting Company of Canada, Limited, reports ore receipts at Trail Smelter for week ending May 7th, 1914, as 6,469 tons, and from October 1st, 1913, to date, 115,651 tons.

Manitoba, Protected Area

HAVING been instrumental in the passing of a law making it prohibitive to publicly sell shares, the Utilities Commissioner of Manitoba has made it a difficult matter to dispose of oil shares there. Before the bill was introduced, a certificate must be obtained from him, and this calls for an investigation. Unless the promoters have put sufficient money into the enterprise to carry it along regardless of outside money, a certificate will not be granted. Private sale can be conducted, but even systematic canvassing cannot be done. It is, therefore, to be expected that when capital is exhausted in the Calgary district for the promotion of oil companies, Manitoba will be passed and Ontario and points east will be asked to deal in oil shares.

POPULAR STOCKS FEATURE EXCHANGE

Hollinger and Big Dome Show Strength in Irregular Market.

Hollinger and Big Dome were the features on the local mining exchange yesterday. The former was very strong, selling up to 18 1/2. At the close the figure was bid. Very little stock is appearing, the liquidation of the Anglo-French syndicate being completed. There is considerable short interest due to the fact that selling took place when Big Dome started to go down. Big Dome sold up 45 points to 102.0. A big jump would be realized if shorts should attempt to cover. New York was an active buyer. Jupiter was easier. Iron sold down 12 1-4. Further reaction would prove tempting. Porcupine Vipond will be central to the market. It is being anxiously awaited. Vipond has been a popular favorite in the past. Owing to the statement issued on Peterson Lake, the same was steady around 40 to 40 1/2. That which has been over-expected exploration will be continued. Important results are looked for, due to the stage of development reached at both number one and two shafts. Domestic sold at 41 3-4. An issue of 100,000 shares of treasury stock has been made at 50 cents a share. This is extraordinary when the stock is around 43 on the market. It is evidence that the issue is well thought of. Generally the market was irregular. Development at Cobalt and Porcupine are of a satisfactory nature, however, and a good market is expected in the near future.

Random Notes on the Mining Stocks

It is reported that the plant of the Knappes-Johnson property, Porcupine, has been installed and will soon be at work. Sinking and cross-cutting will be commenced. The shaft is about 100 feet level and is said to be in good ore. Operations of the Hollinger Gold Mines for April were very successful. It is expected that a new record for tonnage will be shown for the month. Profits will be around \$125,000. Statistics compiled by A. A. Cole, mining engineer for the Timiskaming and Northern Ontario Railway, show that 48 per cent. of the freight carried on the government railway has to do with mining. Operations underground have been started by the owners of Porcupine Vipond. It is reported, and a busy summer is looked forward to. It is stated that the Preston claim may be purchased by a syndicate associated with the Pet.

MANITOBA BARS OUT OIL STOCKS

Public Utilities Commissioner Demands Assurance of Standing of Companies.

CANADIAN Press Dispatch. WINNIPEG, May 20.—There will be no Calgary oil stocks of the speculative kind sold in Manitoba, Judge Robson, public utilities commissioner, has refused stockbrokers who rushed down from Calgary, permission to sell their stocks in this city or province. His sole aim is to protect the public. No Calgary oil stock of any kind will be sold in Manitoba until the corporations who wish to place it on the market satisfy Judge Robson that the stock is for a bona fide sale. They must not only satisfy the judge that the stock is outside the realm of speculation, but, in addition, they must submit to him a financial statement showing that the

FARMING, LIVE STOCK, HORTICULTURE AND EVERYTHING OF FARM INTEREST

DEFINITE COURSE IN CROP ROTATION

To Be Successful, Crops Must Follow Each Other in Specified Order.

HAS ADVANTAGES

Different Plants Consume Different Ingredients in Soil—Change Economical.

Crop rotation means a certain rotation of crops, which regularly repeats itself each time the course is run. It really means further that the crops follow each other in such order as to ensure each having such supplies of plant food of such a character as to add in securing good returns from each particular crop.

There are several reasons why a regular crop rotation is beneficial: 1. All plants do not consume the various elements in same proportions. In this respect they resemble animals. Some, for instance, will often prefer

phosphoric acid and potash in a soil while others require more nitrogen. Some are large consumers of nitrogen, while others make a heavy draft on phosphoric acid. They also have varying capacity to extract the different elements from the soil. The same soil, one crop being able to obtain for example, a sufficiency of phosphoric acid and potash in a soil while another, which requires more of these elements, is unable to extract the quantity it needs.

It is then evidently an advantage, after producing one crop, to follow it with another, whose demand upon the soil will be different. Plants differ in manner of growth; farm crops differ widely in their system of root growth. Some plants, like wheat and barley, have very shallow roots and naturally feed near the surface; others, like alfalfa, have very deep roots and draw their food supply from great depths where other plants could not reach it, thus greatly enlarging the area from which food can be obtained.

It is the object of the farmer to draw upon the soil for the food which his crops need as largely as possible. For these reasons a rotation should include a deep-rooting crop as well as shallow-rooting crops; the former will take from the soil food the farmer cannot reach, and thus the farmer can draw upon the soil for the food which his crops need as largely as possible.

Among the most important reasons for the success of deep-rooting crops may be mentioned the field root crops, clovers and alfalfa. Among the shallow-rooting crops, cereals, grains, Indian corn and onions. Beans, peas and potatoes send their roots to medium depths.

2. Plants differ in manner of growth; farm crops differ widely in their system of root growth. Some plants, like wheat and barley, have very shallow roots and naturally feed near the surface; others, like alfalfa, have very deep roots and draw their food supply from great depths where other plants could not reach it, thus greatly enlarging the area from which food can be obtained.

3. Rotation improves soil. When a variety of plants is grown the soil receives different treatment for each crop, so that the faults of one year are likely to be corrected the next, and for this reason the soil is kept in much better physical condition.

4. Rotation economizes labor. Where a regular rotation of crops is practiced it is possible to use labor throughout the year and does not all come at one season. For this reason it is possible to secure better and cheaper help than if only a few crops were grown.

5. By using a rotation containing a legume the nitrogen content of the soil is increased. All our common crops, except the legumes, must take the nitrogen they need from the soil, while the legume is harvested to often leaves the soil richer in nitrogen than before its growth; after the decay of the stubble and roots the nitrogen becomes available to the following crop.

As nitrogen is one of the most costly of the elements of plant food, it must be clear, therefore, that an important

TURN TO FARMING FROM REAL ESTATE

Bursting of Bubble in Vancouver Has Beneficial Effect on Production.

MANY NOW LAND POOR

Merchants, Lawyers, Mechanics Talk of Putting Vacant Land to Use.

VANCOUVER, May 19.—The full effects of the world-wide financial stringency and business depression have been felt in Vancouver. In no city of the world has the land speculation bubble burst so completely and so early. The whole population was engaged in the purchase of land, and the merchants, lawyers and mechanics were just as eager to get rich buying Vancouver real estate as French or British capitalists.

Some got in on bed-rock, others at the pinnacle of the boom; some bought on margin, unable to carry out their contracts, have lost, but the vast majority are holding on, borrowing, stalling, economizing, to meet their obligations and save their property. The whole population of Vancouver is, consequently, property poor. Ninety per cent of the laborers working in the city are property owners. Each owns a building lot or two, or even more, with a shack or a modest house.

All have property. Merchants, mechanics, lawyers, doctors, accountants, and even clergymen were in real estate and are now pinching themselves to meet their obligations and save their property. The whole population of Vancouver is, consequently, property poor. Ninety per cent of the laborers working in the city are property owners. Each owns a building lot or two, or even more, with a shack or a modest house.

Advantages of the fence, its durability, and its suitability for various purposes.

CATTLE VALUES ABOUT STEADY

Sheep, Lambs and Calves Very Firm — Hogs Were Higher.

Receipts of live stock at the Union Stock Yards on Wednesday were 2 cars, comprising 489 cattle, 1832 hogs, 546 sheep and lambs, and 534 calves.

There was a quiet but steady trade for cattle at prices about the same as on Tuesday, one load having been sold at \$4.00 and few 4-d cutters. The cow trade was not as good as on Monday and Tuesday, but bulls sold about steady prices.

Stockers and feeders sold at high prices, steers, 750 to 800 lbs., having been sold at \$7.00, and stockers, 500 lbs., each, at \$6.75.

Calves were more plentiful but prices were not lower, selling all the way from \$5.00 to \$7.50.

Milkers and springers were scarce with prices very firm again, selling all the way from \$5.00 to \$7.50.

Receipts of sheep and lambs were light, but there was no reduction made in values over Tuesday's sales.

Spring lambs especially are very firm, choice hogs at \$7.50 and good at \$7.00. Hog prices were generally higher, increased in value from 10 to 15c per cwt.

Choice steers, "loads", at \$8 to \$8.25; good to choice, at \$7.50 to \$8; medium, at \$7.00 to \$7.50; common, at \$6.50 to \$7.00.

Stockers and feeders. The market for stockers and feeders held about steady. Choice steers, 800 to 900 lbs., sold at \$7.25 to \$7.50; good to medium, at \$7.00 to \$7.25; common, at \$6.50 to \$7.00.

Choice hogs, 200 to 300 lbs., sold at \$7.50 to \$8.00; medium, at \$7.00 to \$7.50; common, at \$6.50 to \$7.00.

Spring lambs, 100 to 150 lbs., sold at \$7.00 to \$7.50; good to choice, at \$6.50 to \$7.00; common, at \$6.00 to \$6.50.

Calves. Receipts of calves were larger but prices were light, not enough to supply the demand. Prices were very firm at \$5.00 to \$6.00, and one extra quality Short-horn springer brought \$125.

Veal calves. Receipts of veal calves were larger but prices were light, not enough to supply the demand. Prices were very firm at \$5.00 to \$6.00, and one extra quality Short-horn springer brought \$125.

Sheep and Lambs. There were 345 sheep and lambs reported on sale. Prices were firm. Sheep, 100 to 150 lbs., sold at \$7.00 to \$7.50; good to choice, at \$6.50 to \$7.00; common, at \$6.00 to \$6.50.

Spring lambs, 100 to 150 lbs., sold at \$7.00 to \$7.50; good to choice, at \$6.50 to \$7.00; common, at \$6.00 to \$6.50.

Calves. Receipts of calves were larger but prices were light, not enough to supply the demand. Prices were very firm at \$5.00 to \$6.00, and one extra quality Short-horn springer brought \$125.

Veal calves. Receipts of veal calves were larger but prices were light, not enough to supply the demand. Prices were very firm at \$5.00 to \$6.00, and one extra quality Short-horn springer brought \$125.

Sheep and Lambs. There were 345 sheep and lambs reported on sale. Prices were firm. Sheep, 100 to 150 lbs., sold at \$7.00 to \$7.50; good to choice, at \$6.50 to \$7.00; common, at \$6.00 to \$6.50.

Spring lambs, 100 to 150 lbs., sold at \$7.00 to \$7.50; good to choice, at \$6.50 to \$7.00; common, at \$6.00 to \$6.50.

Calves. Receipts of calves were larger but prices were light, not enough to supply the demand. Prices were very firm at \$5.00 to \$6.00, and one extra quality Short-horn springer brought \$125.

TENDERS FOR ALLAN WATER RIVER WOOD LIMIT

TENDERS will be received by the undersigned up to and including Wednesday, the 15th of July next, for the right to cut ties from Spruce, Balsam, Balsam or Jack Pine, Poplar and White-pine trees seven inches and upwards in diameter, two feet from the ground, sufficient to supply the preserving plant for a period of twenty-one years from unoccupied, unsold and unlocated lands of the Crown tributary to what is known as the Allan Water River, tributary to the Grand Trunk Pacific Railway in the District of Thunder Bay.

Tenders shall state the amount they are prepared to pay as bonus in addition to the crown dues of \$2 per thousand feet board measure for anything not manufactured into ties, and for ties at the rate of 50 cents, or such other rates as may from time to time be fixed by the Lieutenant-Governor-in-Council.

Such tenders shall be required to erect within the limits of the territory covered by the right to cut ties, or at some other place approved by the Lieutenant-Governor-in-Council, a preserving plant.

Parties making tender will be required to deposit with their tender a marked cheque payable to the Honorable the Treasurer of the Province of Ontario for \$10,000, to remain on deposit as security for the carrying out of the contract by the tenderer.

The highest or any tender not necessarily accepted. Parties tendering as to description of territory, capital to be invested, etc., apply to the undersigned. W. H. HEARST, Minister of Lands, Forests and Mines, Toronto, Ontario, 27th April, 1914.

PUBLIC NOTICE

NOTICE is hereby given that a by-law was passed by the Council of the Corporation of the City of Toronto on the 14th day of May, 1914, providing for the issue of "City of Toronto General Consolidated Ordinances" to the amount of \$17,000, to be drawn from the City of Toronto Treasury by means of a 34-inch water main from Main Pumping Station, College street, and that such by-law was registered in the Registry Office for the Eastern Division of the City of Toronto on the 18th day of May, 1914.

Any motion to quash or set aside the same, or any part thereof, must be made within three months from the 14th day of May, 1914, the date of the first publication of this notice, and cannot be made thereafter.

W. A. LITTLEJOHN, City Clerk, City Clerk's Office, Toronto, May 14th, 1914.

GRANBY DIVIDEND

Granny has declared the regular dividend of \$1.50 per share, payable June 15 to stock of record May 29.

ELECTED TO EXCHANGE

John A. Livingston has been elected to membership of the Standard Mining Exchange.

MAKE BIG PURCHASE

Lee, Higginson & Co. are reported to have purchased \$10,000,000 United Fruit Co. four-year five per cent notes.

IN AND OUT OF TOWN

J. B. Tyrrell, M.E., has gone to British Columbia to inspect mining properties.

Col. Alex. M. Hay, president Tretwell Mining Co. has returned from Cobalt.

Charles Menzies, mining engineer, has returned from an inspection trip of Gowganda properties.

NO CHARGE MADE TO THOSE WHOSE LAND IS HUNTED OVER BY HUNT CLUB

George W. Beardmore, M.P.E., always active in the interests of the farmers over whose lands the Toronto Hunt Club hunts, announces that he has secured the services of Wire In, a thorough station, for the benefit of the farmers about Toronto. Mr. Beardmore makes the following conditions of service.

1. Only farmers over whose land the Toronto Hunt Club shall have the privilege of breeding to this horse free of charge.

2. More than one two mares will be accepted from any one farmer, including horses owned by any of his family living at home.

3. The right is reserved to refuse the services to any mare when it is deemed advisable.

During his racing career Wire In won a great many races. He is a horse of excellent bone and conformation. Those desirous of breeding to him can make arrangements with Alfred Payne, the huntsman, by writing him, care of Box 5, Toronto Postoffice, or telephoning Beach 17.
