## WOULD RATHER KILL HIMSELF THAN GO BACK TO MIMICO SAYS A BOY WHO WAS THERE

**Cecil Rathwell of Brockville, Who Spent Five Months in the Institution, Says He Was Beaten on the Naked Back With a Trace Strap, Which Curled About His Abdomen and Cut Him Severely.**

BROCKVILLE, March 1.—(Special).—Committed to Mimico Industrial School by his parents on the understanding that he should be released whenever they chose to ask for his custody and because they believed that this would be a good way to break him of truancy and cigar smoking, Cecil Rathwell, who once more resides with his parents in James-street here, looks back with horror on a five months' stay in the school at Mimico in the summer of 1910. He told a terrible story of abuse to The World. He says that he was beaten by Supt. Ferrer and knocked down and kicked by attendants for trivial offences, and has also seen similar treatment meted out to other boys for like petty breaches of discipline.

He declared that he would rather commit suicide than return to Mimico. In his five months' stay, he said, he had suffered at least six severe whippings—"trimmings," he called them.

On one occasion he had been caught smoking a cigar, and he says that Superintendent Ferrer made him kneel with his arms resting on a chair and beat him upon the naked back with a piece of a tug strap. The strap raised great welts and weals upon his flesh, and one blow curled about his abdomen, cutting him severely. This was the only time that Ferrer beat him. On the other occasions he was beaten by other officers.

He told of a boy named Carter, committed from Ottawa, who was shamefully handled by the man in charge of the farm stock. He says that Carter let a cow get out of bounds and, for this, he saw him knocked down and kicked by the man in charge of the stock.

Struck by Keys.  
This boy makes the first definite charge of cruelty against any of the women attached to the school. He says that he experienced his first taste of school discipline from the matron employed at "Cottage No. 5," to which he was taken. He says that the woman accused him of smoking when he was changing into the prison uniform and struck him on the head with a bunch of keys.

He tells of boys being "stood out" from meals. That is for some small offence or breach of discipline, the boys were taken from their meals or the time allowed them to eat the meals shortened. He was so deprived of four successive meals. He says that he did not suffer as he "stood in" with those in close touch with the provisions department.

Take Him Away.  
He says that on one occasion when a boy's head was cut by a "foul tip" in a baseball game and he was knocked out, the other boys carried him to a guard to have his injury cared for. The guard said to them: "Take him away. I don't want him." They picked him up and carried him to the infirmary.

The boy has recovered his health and spirits and works with his father, who is a coremaker, in a foundry. He is industrious and well behaved. "No more Mimico for mine," he closed.

**JAMES BICKNELL, K. C. TO ACT.**  
OTTAWA, March 1.—(Special).—E. A. Duvernay, K. C., Toronto, who was appointed one of the counsel in the freight rate enquiry before the railway commission, which has been ordered by the government, has found it impossible to act, and James Bicknell, K. C., Toronto, has been appointed in his place.  
F. A. Morrison, Vegreville, who was appointed to associate with H. W. Whittle, Winnipeg, and Mr. Bicknell on the case, is in Ottawa consulting with the government and the railway commission on the matter.

### Hold Your Coupons

Owing to the popularity of the World's Webster Dictionary offer, and the fact that the demand has exceeded all our expectations, we have exhausted the last shipment of books, and as a consequence must ask our friends to hold their coupons until next Wednesday, when a further supply will have arrived.

### EDWARD BLAKE

Edward Blake was greater son of a great father. In sheer strength of intellect he was first of any Canadian of his time. So far as a man is the product of his university he was first of the sons of the University of Toronto. And whatever he owed to her he paid back seven-fold in devoted service. In many respects he made it what it is.

He was a lawyer of uncommon acumen and masterful in the presentation of argument. He could analyze the most complex case with surprising skill and dexterity.

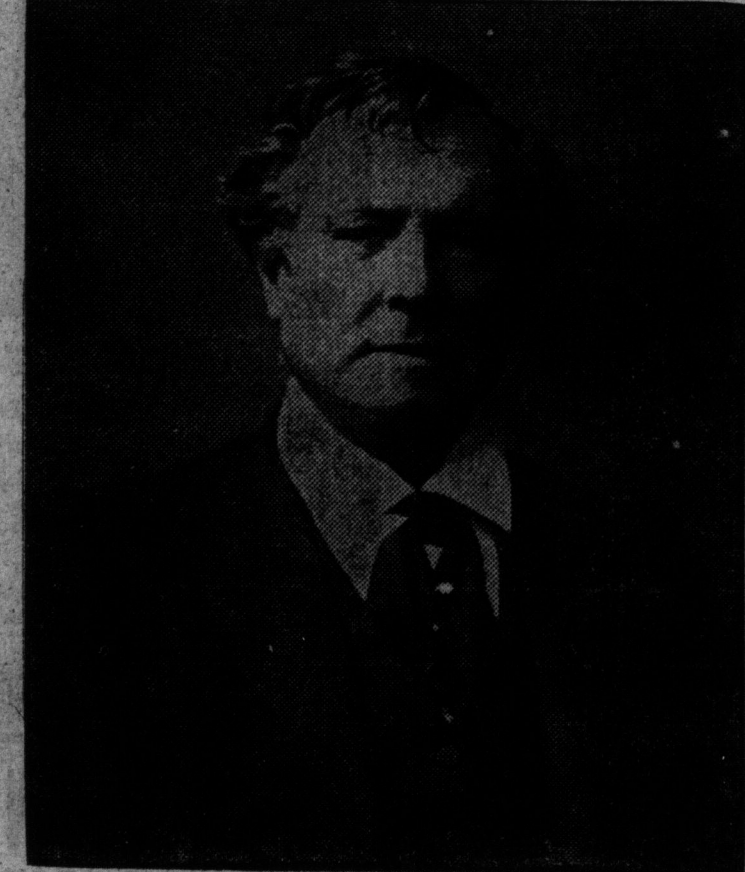

As a public man he had great qualities; but it was in politics that the weaknesses he possessed came out. He was a giant in debate, and yet there was always someone who could answer him and who could often carry the vote against him. He was strong in what is of little value in statesmanship, the discussion of constitutional questions. He once said he preferred these issues of law to questions of economics. He thought more of analyzing the contract with the syndicate that built the Canadian Pacific Railway than in getting a great transcontinental highway. He was the chiefest of the antagonists of Sir John A. Macdonald; but what he proceeded to shatter in the way of policy the Conservative chief could still carry into accomplishment. He said the Canadian Pacific must be a failure and that the National Policy was a mistake, and he hurled at these proposals arguments, inventive scorn, and what for the time seemed absolute destructive criticism—but it ended there.

His incursion into British politics as a Home Ruler was as chivalrous as it was ill-timed. It made him an absentee for twenty years from this city that he loved as his home. He was always overweighted with a sense of duty. He was so sensitive that it was said he lacked courage. His political career had much of that tragic fatality that ever followed King Edipus of the Greek dramatist. Politically he had an untoward destiny. And yet he sacrificed himself as few others did for what he thought the betterment of his country and his race. Of how few of our public men can one be so outspoken in regard to their strength and their weakness and yet leave him intact one of the very greatest of Canadians.

As a speaker he had a well trained voice, a most unusual command of language, and could pile up phrase after phrase and argument after argument until it became torrential and yet never lose the line of his argument. He was at his best as chancellor of the university. He could, off the reel, pay a compliment to fifty prize winners and phrase everyone differently. He was often sarcastic, witty at times, and could be genial when he cared to. He preferred to be serious in public. He was too serious. But so were others whose names are the glory of their nation.

## HON. EDWARD BLAKE IS DEAD AFTER A LINGERING ILLNESS

### HON. EDWARD BLAKE

Second Premier of Ontario, Former Leader of Federal Liberal Party, Member of British House of Commons, Distinguished Scholar, Lawyer and Statesman, Who Died Last Evening.

**Altho His Health Had Been Poor for Many Months, His Death was Tragic and Entirely Unexpected—He Was a Man of Great Capacity Both in His Professions and Public Life and Was a Canadian Who Brought Nothing but Credit and Honor Upon His Country.**

Hon. Edward Blake, distinguished scholar, lawyer and statesman, died at his residence 449 Jarvis-street, shortly before 7 o'clock last night. Altho he had been in falling health for a long period, his death, despite his old age, was entirely unexpected and tragic. A few moments before he expired he was carried from his bedroom by attendants and placed in a chair in his library, where he had spent many hours each day during his illness. While in a sitting position he collapsed and had succumbed before aid of any kind could be administered.

In the study at the time of death were his widow, Mrs. Hume Blake, and his daughter, Mrs. George M. Wrong. Hon. S. H. Blake, his brother, was immediately notified.

Five years ago Hon. Edward Blake became an invalid, and since that time had to be wheeled about in a chair. While in England he was seized by a paralytic stroke and had never recovered from it. It was two weeks ago he became seriously ill, necessitating his removal from the library to the bedroom. However, the indisposition seemed to last only a few days, for on Sunday he had rallied sufficiently to be taken back to the library, where he longed to gaze upon the street, with his wheel chair standing near the window. Several nurses were in attendance during the past two weeks.

Great Figure Removed.  
The death of Edward Blake means the removal of a great figure from Canadian life," said Chancellor Sir John A. Boyd. "In earlier years he was easily the leader in the profession of law, and afterwards he took an equally commanding position in political life, first in Canada and then in the imperial parliament.

"In legal life I was much associated with him, and learned how sound was his judgment, how keen his intellect, and how he raised the practice of his profession to its highest ethical level. He spared himself no trouble in going to the very pith of a controversy, and then was able to carry conviction with his incisive presentation of its merits or demerits.

"He was a man to be admired and esteemed, and his memory will long live in Canadian history. If I may indicate one aspect of his career, which has left its mark in the development of Canada, it would be the carefulness of his argument on the constitutional questions which grew out of the British North America Act. The methods of interpretation which he presented to the court and the judges of the privy council were those which those tribunals approved of, and of greatest weight and of soundest exposition, so that in their decisions he still speaks to the attentive student and historian.

"A great man has passed, but his memory and influence will not die."  
A Distinct Shock.  
Sir James Whitney said: "Altho he is understood to have been in falling health for some time his death comes as a distinct shock to the Canadian people. A man of great capacity, both in his profession and in all matters connected with public life, he was of high principle, and earnestly devoted to the interest and welfare of the people. Altho he has been out of public life for some years, yet his death will be lamented as a Canadian who has reflected nothing but credit and honor upon his country."

The funeral will be private. Friends are requested to omit flowers.

Speaker Sprague's Tribute.  
OTTAWA, March 1.—(Special).—Hon. T. S. Sprague, the Speaker of the house of commons, who is one of the few remaining members of the house who sat in parliament with Hon. Edward Blake, expressed sincere regret at the news of the death of the eminent statesman. He said to your correspondent to-night: "I had the privilege of sitting in the house with Mr. Blake for many years, and altho we differed strongly in our views of political questions, I am delighted to say that we were the best of personal friends."

"Hon. Mr. Blake was undoubtedly one of the greatest men which Canada ever produced. He was not a statesman born to political leadership. He was a great lawyer, one of the most able I ever knew, and he brought to the consideration of all public questions the trained mind of a great jurist. He was a man of personal probity, of unsullied honor, and I have always felt that Canada lost a great opportunity when he was allowed to go over to the mother of parliaments at Westminster."

Hon. Edward Blake entered upon his political life in the first year of the century.

### EAST END MEN WILL PROTEST

Residents of Danforth Ave. Do Not Like Offers Made by the City for Land There.

As a protest against the offers advanced by the city for property, which will be eventually expropriated, about 200 indignant Danforth-avenue residents have called a meeting which will be held in Mission Hall, just east of Woodbine-avenue, on Monday evening.

In order to widen and straighten Danforth-avenue the city has attempted to buy up property at a price in the neighborhood of 19 cents a foot. At different sections about 20 feet frontage are required to put the avenue in proper condition. Residents claim that the land is worth \$1.50 a foot, and this is said to be a moderate figure. At the indignation meeting it is expected that a couple of Ward One aldermen will attend, and they will be hotly rebuffed. The residents intend to fight vigorously in the matter.

### EX-PUPILS.

Louisa-street School Ex-Pupils' Association held their tenth annual reunion in St. George's Hall last evening. Fully 300 guests were present, and the at-home was a decided success.

### LEADER REDMOND GIVES WARNING

If Home Rule is Blocked, There Will Be "Welter of Coercion and Confusion," He Says.

LONDON, March 1.—(C.A.P.)—Rt. Hon. Winston Churchill, presiding at a dinner of the Eighty Club, in honor of John Redmond, referring to Ireland's long struggle for home rule, said: "Mr. Redmond and the Liberal party, after this long pilgrimage, have reached the threshold of success. It is today of high importance that all Irishmen who have fought for the home rule cause should stand together."

Mr. Redmond said Ireland was probably the most poverty-stricken nation in Europe. Let the home rule bill be rejected and they would see if Irish people were apathetic. They would speedily see Ireland thrown back into a welter of coercion and confusion.

### H. HINDMARSH IS PRESIDENT

Old Lit Candidate Was Elected by Acclamation at Literary and Scientific Society's Meeting.

Harry Hindmarsh, a Toronto newspaper man, was elected president of the Literary and Scientific Society by acclamation last night. Mr. Hindmarsh represents the Old Lit Society, and the rival organization, the Unionists, failed to stir up any opposition to him in the shape of a candidate. But they managed to stir up considerable excitement by an attempt to disqualify Mr. Hindmarsh, claiming that his election would be a violation of the constitution. However, J. J. Gibson, the retiring president, ruled against the Unionists, and that settled the matter. Mr. Hindmarsh graduated from Varsity in 1906.

### SUFFRAGETTES LAUNCH FORTH ON WINDOW SMASHING CRUSADE POLICEMEN CAUGHT NAPPING

**Miners Having Forced Hand of Government by Threatening Business, Mrs. Pankhurst's Legions Are Determined on Like Measures—Hundreds of Valuable Plate-Glass Windows in Big Shops Shattered.**

LONDON, March 1.—(Can. Press).—Because the coal miners had been able to gain government recognition of their grievances by threatening the business of the country, the suffragettes late to-day also entered on a policy of menace to trade. And they carried it out suddenly and with an ardor that resulted in heavy financial losses, brought consternation to the merchants of the most prosperous shopping district of the city and paralyzed business at the busiest hour of the day. The police were taken completely unawares by the onslaught of the women and, before they were able to muster, the streets were covered with shattered plate glass that once had been the show-windows of stores.

It was a window breaking expedition solely, and a thoroughly organized one. Hundreds of windows in many of the most famous shops of the world and in several of the government offices and clubs were wrecked by the suffragettes. The damage done will aggregate many thousands of pounds. The losses, however, will not all fall upon the shopkeepers, as many of the show windows, especially the costly ones, were covered by insurance against breakage.

More Than 100 Arrests.  
One hundred and fifteen women were dragged to the police stations by police or excited and indignant merchants. Many others, however, escaped. All

those arrested were released during the course of the evening on bail, coupled with promises that they would refrain from further activities in window-wrecking.

Some of the shopkeepers who saw the storm coming were able to close their shutters and barricade their shop doors against the infuriated suffragettes. The trouble centred about Trafalgar Square, where the big steamship companies have their passenger offices, and the windows of several of which were shattered, and ranged along the Strand eastward and westward, and up Regent-street, Piccadilly, and Oxford-street, where are situated the fashionable jewelry and druggists' houses.

Mrs. Pankhurst's Leader.  
Mrs. Emmeline Pankhurst, the veteran of many a suffragette battle, struck the first blow. In an automobile, accompanied by Mrs. Marshall and Mrs. Tukes, she drove up to the premier's residence in Downing-street at 6 o'clock this evening. The three women quickly plumped out of the machine and drew out stones concealed in their muff. Simultaneously three missiles sped thru the air, followed instantly by still another one and four windows crashed in before the police, who are constantly on guard, could reach the women. The trio were arrested, but even while being led to the station house they managed to heave missiles thru the windows of the colonial office.

The Stage's Most Beautiful Woman.  
According to the leading dramatic critic, Miss Kitty Gordon, who is this season appearing in "The Enchantress," is the most beautiful woman on the stage to-day. It might also be said that Miss Gordon wears the famous \$100,000 Beresford necklace during her performances. That helps some.

### 70,500

The circulation of The Sunday World this week will be 70,500. This is the number of papers printed, and the steady increase in the demand justifies the statement that they will all go into the hands of readers.  
Think of it! No newspaper in Ontario, even the one-cent dailies, has such a circulation to boast of.  
Make a note of this and be sure to get your copy early. Last Saturday night the output of the presses was exhausted before the demand was satisfied.

### BIG HAT DAY.

The first Saturday in March is surely the big call for your new spring hat. The Dineen Company have on sale everything that is new and proper in men's hats—in London and New York, and some blocks you cannot buy beyond Dineen doors in Canada, such as those by Dunlap of New York and Henry Heath of London. Store open until 10 o'clock Saturday night.

DOCTORS HAD GIVEN UP ALL HOPE

"Fruit-atives" Saved My Life. RIVIERE A PIERRE, Que., May 8, 1910.

"I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia and Indigestion."

"I was treated by several doctors and they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 90 pounds, and I vomited everything I ate."

"The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. I received the Last Rites of the Church."

"At this time, a lady strongly urged me to try 'Fruit-atives.' When I had taken one box I was much better and after three boxes I was practically well again, and had gained 30 pounds."

BRITAIN FACES GOAL STRIKE CALMLY

With Million Miners Idle, Number of Factories Close, and Small Steamers Are Delayed, But Sureness of Early Settlement Keeps John Bull Serene.

LONDON, March 1.—Attempts to reconcile the opposing forces in the coal strike were suspended to-day until Monday, when both the owners and the miners will again see Premier Asquith and his cabinet colleagues.

Prime Minister Asquith, in a statement in the house of commons this evening, said that the coal owners in practically the whole of England and in the north of Wales had accepted the proposals of the government.

Over Million Strikers. Premier Asquith to-day invited the miners' executive committee to meet the coal owners, but the men declined, saying they had nothing to discuss.

McBride New Zealand's Premier.

WELLINGTON, N.Z., March 1.—(The Times correspondent states that the government having carried the adjournment motion by two votes, it probably will not meet before the end of June.

In Great Britain will follow this example to-morrow. Several hundred steamers are held up at the various ports for lack of coal, but the large trans-Atlantic lines assert that they are well provided with fuel.

Public Back Asquith. England is facing the crisis developed much more calmly than she regarded it.

### Adequate Supply of Teachers Will Soon Be Forthcoming

Annual Report of Department of Education Expresses That Belief—More Than a Million Dollars Spent in Education in 1911 in Excess of 1910.

The report of the minister of education for 1911, which was presented to the legislature yesterday, deals especially with the supply of teachers, agricultural training, and the cost of education. The average salary of male teachers throughout the province has advanced from \$680 to \$711, an increase of \$31. The average salary of female teachers increased from \$442 to \$483, an increase of \$41. In urban schools the average salary for men is \$1089, for women \$665. In rural schools male teachers receive an average salary of \$508, and female teachers \$431, as compared with \$484 and \$399 respectively the previous year. The teachers' union normal school training are steadily replacing those with third-class certificates. The normal schools are well attended, the number of pupils admitted in 1911 being 1034. More certificated teachers graduated last year than in any previous year. There were thirteen model schools in 1911 with an average attendance of 35, a proof, says the report, "that the superior advantages of the normal schools, with the higher professional grades they ensure, and the prospects of better salaries, attract students to the normal schools." The demand for Ontario teachers in the west continues and employment in the occupations is readily found owing to the normal training. The belief is expressed that, under existing conditions, an adequate supply of teachers will be forthcoming in a short time. The attendance of pupils in certain sections of the province is unsatisfactory and measures to increase the truancy law are recommended.

**Agricultural Courses.**  
 The agricultural courses in connection with high schools in the province, which were started in 1911, two in New Ontario. The appointment of Mr. S. E. McCready of the Agricultural College as director of elementary agricultural education and the superintendent of school gardens is expected to produce results in the practical application of agriculture in rural schools. The short courses at the Guelph College for normal trained teachers are being continued and are bearing fruit. Mr. McCready sums up the plan now in force as follows: "To promote the work of teachers in the practical application of Guelph, material is sent for gardening purposes, special grants are paid both to trustees and teachers, especially in giving by the district agricultural representatives, and the teachers assisted by bulletins, and instruction sheets."

**Million Increase.**  
 The amount spent upon public and separate schools in 1911 was \$9,848,202, an increase of about \$1,200,000 over the previous year. The legislature contributed about 3 per cent. of the total amount. The sources of the expenditures upon rural schools are:  
 Legislative grants, \$27,736; municipal grants, \$1,490,483; raised by trustees, \$1,213,815; other sources, \$323,372.  
 The total expenditure on high schools and collegiate institutes was \$1,636,166, of which \$1,048,638 went for salaries. The highest salary paid a high school teacher was \$500. The average salary for principals was \$152, an increase of \$63. The total expenditure on primary and secondary schools was \$11,000,000, toward which the legislature contributed \$51,568. The province expends over 25 per cent. of its total expenditures for all purposes on education. This is compared with 19 per cent. in New Brunswick, 23 per cent. in Nova Scotia, and 14 per cent. in Manitoba. In 1911 the legislative grants to education in New Ontario were \$190,000, and the policy of advancing money, upon inspectors' recommendations, for erecting school buildings in the north was continued. For this purpose \$7000 was spent.

**Free Libraries.**  
 The free public libraries in Ontario number 131 with an income of \$310,153. The number of readers was 143,764, and the books issued 2,753,420. To April, 1911, Mr. Andrew Carnegie contributed \$1,356,500 toward library buildings in Ontario. The first professional school for training librarians in this province was held during 1911, and was successful. The minister of education announced that during 1912 the departmental and matriculation examinations will all be held in June, so as to avoid the heat experienced by candidates last July.

**Lindsay Town League.**  
 LINDSAY, March 1.—The league hockey in Lindsay finished its schedule last night with two first-class contests. The first game the Grand Rapids defeated the collectives by a score of 2-1. The Olympians also won from the McCarty medals and the Ferbert cup. They did not lose a single game during the entire season. The players are: Newton, goal; Preston, point; Motheral, cover; Hutton, rover; Sylvester, center; Douglas and Mercer, wings; McMahon, spare.

The class of hockey played in this league this winter was entirely of average intermediate and out of the bunch Lindsay expects to find material for a first-class O.H.A. outfit for next year.

### Cartoons and Sketches

The Sunday World employs more men and ink artists than any paper in Canada. These include the well-known Sam Hunter, Canada's greatest cartoonist, Lou Skuce, an illustrator who takes second place to none, Nell Brinkley, inventor of girl studios; Bud Fisher, creator of Mutt and Jeff, and there's a host of others.

**TROTTLING RACES AT THE FALLS.**  
 NIAGARA FALLS, Ont., Feb. 22.—The new racing track that cost several thousand dollars at Niagara Falls, Ont., and which was denied a running race license last year, will see life again this coming summer when it is to be trotting track will take place. This is one of the best half mile tracks in Canada, being nicely graded on the ends with long stretches, having new grandstand with one hundred private boxes and seating capacity of two thousand chairs. A paddock for hitching and un hitching with two hundred and fifty stall on the grounds, and a street car service will be run into the grounds. The new management, Messrs. Matheson of Tillsonburg; Harry Williams, the president and A. J. Carby, secretary, are both of Niagara Falls, and will manage the track. The management will not run the meet for the purpose of gambling, but to give the people of this vicinity the opportunity of seeing the fastest light harness horses in the world perform. There will be six to two thousand dollar stakes races, with class races, also, including race each day, with amateur and gentleman's road races. This track is in the Canadian circuit and will give the largest purse ever offered in Canada. The track being a fast one anticipated records will be broken. The meet will take place July 9.

**England Wins Fifth Test.**  
 LONDON, March 1.—The test match was finally finished to-day on a hot wicket. The Australian eleven only added 59 runs to the last seven wickets, scoring 22 runs. England won by 71 runs. The scores were: England, 204 and 215. Australia, 109 and 92.

### Gives Men This Vitality of Youth

Vitality is the thing which makes successful gives men that compelling power which sends them forth eager and equipped to meet the vicissitudes of life. It is the thing which gives life and health. No matter what your age, I can give you this same vital power. I can restore the vigor you lost, no matter what early or later indiscretion may have sapped your strength. I can keep you "young" and keep you "young" from an intimate and studious observation of you that VITALITY or the lack of it means all the difference between a manly man and a half man. The man who bubbles with vitality will exert a pleasing influence upon all with whom he comes in contact; women are naturally attracted to him, as are men. Lack of vitality is a negative condition, and it even repels. You may say HEALTH BELT all right; it sends a great, glowing, health-giving current of electro-vitality into your system, and you feel that it does all the "kink" out of your back, and all the coward out of your make-up. It stimulates, no false results; just a sure return to manhood and courage. Recommended also for rheumatism, pain in the back, kidney, liver, stomach and bladder disorders. It makes you feel young and keeps you feeling young forever.

Let Me Send You This Book FREE

It fully describes my Health Belt, and contains much valuable information. One part deals with various ailments common to both men and women, such as rheumatism, kidney, liver, bladder disorders, etc. The other is a private treatise for men only. Both sent upon application, free, sealed, by mail.

If in or near the city, take the time to drop in at my office, that you may see, examine and test the Belt. No charge for advice, either in my office or by mail. If you cannot call, fill in the coupon and get the free book by return mail. It is better than a fortune for anyone needing new vigor.

What strikes one most in a walk through the Alexander & Macdonald distilleries is the cleanliness which pervades every department—a point which cannot be emphasized too strongly in connection with an article of popular consumption.

Messrs Alexander & Macdonald spare no efforts to secure purity, as far as can be obtained by hygienic conditions.

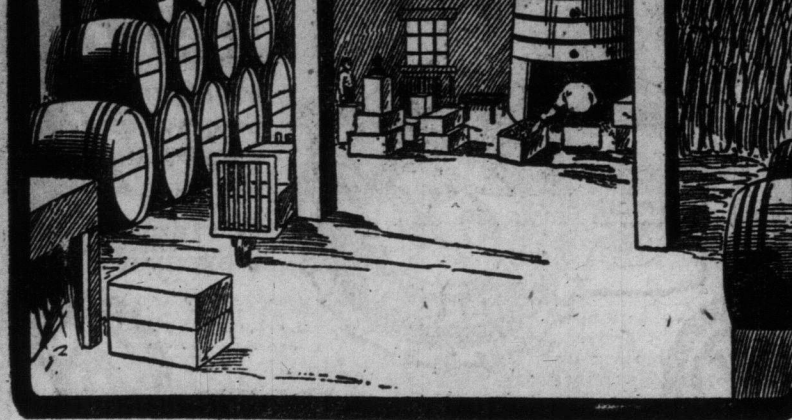

They are equally punctilious in regard to the quality of the cereals indigenous to Scotland from which their whisky is distilled.

SANDY MACDONALD is carefully bottled in the firm's own warehouses.

It is the scrupulous attention to details which has been the guarantee of high quality.

### WANTS GOVERNMENT HOUSE

C. P. R. is Anxious to Build and Sir John Gibson Must Move.

Sir John Gibson, lieutenant-governor of Ontario, may have to move out of government house before the new residence at Chorley Park is much above the ground line. Railways, it is said, are "heartless corporations" sometimes, and the rumor is that the C.P.R. wants to build freight sheds on the government house property, which it bought last year. To start the building operations, it will likely be necessary to knock down part of the official residence, and the building operations are billed to start in June. Before June 1, then, it appears that the government house will have to be vacated. But where will his honor go? Hon. Dr. Reaume, minister of public works, is rather puzzled just for the moment as to where a suitable temporary residence for the lieutenant-governor can be secured.

Leaving for His Country's Good. TEHRAN, March 1.—A telegram received here from Astrabad says that Mohammed All Mirza, the deposed

"Let every man know it." "I will preach the merits of your wonderful treatment wherever I go." "It has been worth its weight in gold to me, and I will never cease shouting its praise." Such are the messages of gladness sent in to me from patients restored to health and strength by my Electric Belt. They come daily, and nearly always after other treatments had failed.

Varicocele, Spermatorrhoea, Losses and all ailments which destroy Manhood's Vigor are cured by Dr. McLaughlin's New Electric Belt. The Free Electric Suspensory for Weak Men sends the current direct to the Prostata Gland, the seat of all weaknesses. It develops and expands weak organs and checks losses. No case of weakness can resist it.

Electricity is an external application. By the infusion of a current through the suspensory into the weakened parts, every nerve and tissue is affected by it. They are immediately strengthened with the new life, they expand and develop with each application until complete vigor and strength are restored.

Every day we have evidence that the weakling has no place in the busy, bustling life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter, and this the weakling lacks. Look about you and see the successful men of to-day; it matters not whether they be a merchant, lawyer, with head erect, eye clear, strength in his every movement, he is ready to tackle any problem with that enthusiasm which en- sours success.

I can make just such men of weaklings. I care not how long they have been so, nor what has failed to cure them. Let them wear my Dr. McLaughlin's Belt every night as I direct, and in place of the weak- nered, debilitated being will show you a strong man—full of vigorous life, with head erect, eye clear, strength in his every movement, he is ready to tackle any problem with that enthusiasm which en- sours success.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for twenty thousand weak men, and every one of them had spent from \$50 to \$500 on drugs before he came to me as a last resort.

Now, what does this mean to you, dear reader? It simply proves what I have been telling the public for the past twenty years—the only way to restore strength is by electricity. Drugs will not.

Dear Sir—Some time ago I purchased one of your Belts, and after wearing it for thirty days I am pleased to say that I feel like a different man. I am still wear- ing the Belt, and find myself getting stronger every day, and I must say that I would not be without it on any account. With pleasure I wish to recommend it to any person suffering from lame back or kidney trouble. Yours truly, S. CRAIG.

### Revolt in the N.H.A.?

All is Not Peaceful

Montreal Fans and Players Sick of Way Things Are Being Run—Said to Be Forming New League.

OTTAWA, March 1.—Next year may see an upheaval in the N. H. A. Already there are signs of revolt, and the first murmurs of the storm that is to come, in Montreal a great many of the hockey fans are tired of the Lichtenhan-Kempdy combination, and it is whispered that a new team is already in process of formation. One of the old stand-ys of the Wanderers is said to be on the ground floor, and he is also said to have secured the necessary financial backing to put the scheme thru.

The present Wanderer team would join the new club in a body could they secure a franchise, or, rather, jump from the old league and join the new one, the N. H. A. was Quebec, a Toronto team, the M. A. A. and the new club. This would make a five-team league, leaving out the Cana- dians and the Wanderer franchise, and allowing them to go ahead and form their international league with that new trophy.

Some of the local hockey men have heard rumors of this move, and they claim that it is only what they expected, the fans and the players in Montreal being sick and tired of the way in which things are being run.

Tied Up Again. In the Business Men's League at the Toronto Bowling Club last night the News again evened up with Eaton's for the top by winning all eight games from St. Lawrence, Limited. The News were right on edge in the first two games, putting in counts of 922 and 911 respectively, the latter being the second highest game of the season, while a poor-third game easily robbed them of the banner total of the season. St. Lawrence also showed their class in the first game when they totalled 888. Croft for The News was high roller for the night with the big total of 638, and featured with a 230 count in the middle game. Manager Gordon almost split honors with Croft, finishing with a 288 total, or only ten pins

down, while Eddie Jordan for St. Lawrence was high with 546. The scores: St. Lawrence—888, 887, 886, 2661; News—922, 911, 888, 2721; Croft—638, 637, 636, 1911; Eddie Jordan—546, 545, 544, 1635; Totals—3155, 3154, 3153, 9464.

Australians Have a Chance. LONDON, Feb. 2.—Australia made a splendid recovery in the last inning of the fifth and final test cricket match with England. The hot light and rain handicapped the batsmen yesterday on the Sydney grounds, but in spite of this the Australians have an excellent chance of winning the match.

Requiring 222 runs to capture the match, Australia scored 138 for the loss of three wickets, and now require 110 runs with seven wickets to fall. When play ceased Tuesday England had scored 208 runs for nine wickets. With the resumption of the match yesterday the final English wicket fell for 215 runs, making a total for the two innings of 253, and putting the English side 393 runs behind on the match. Rain to-day prevented the resumption of the match.

Up-to-date Industry—Self-lighting Cigarettes. A company has been formed in Montreal, which is manufacturing several brands of "self-lighting" cigarettes, which have been placed on the market in Montreal since last December with such favor that the demand far exceeds the output at present time. The company has purchased the exclusive Canadian patent rights pertaining to the self-lighting cigarettes, secret formulas and machinery. The cigarettes can be lighted in any wind, rain, snow, etc., where no match could be lighted, and the demand is now so great and the price of the cigarettes is so high that thousands of men in all walks of life are restored to full manhood. Do not delay, but consult me to-day.

\$3.50 RECIPE FREE FOR WEAK MEN. Send Me A-1 Address To-day—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excessive, unbalanced diet, or the follies of youth, that has cured so many worn and nervous men, right in their own homes—without ever leaving them. I am convinced it is the best acting combination for the cure of deficient manhood and vigor failure ever put together.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the best acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence. So that any man, anywhere, who is weak and discouraged with repeated failures may stop struggling himself with harmful patent medicines, secure what I believe is the quickest acting restorative, and build up their own strength—without ever leaving their homes. I will send you a copy of this "splendid" recipe in a plain, ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this. I send it entirely free.

A KEYNOTE FOR THE NATION. Canada has added another jewel to the royal and imperial crown in the supremacy in the musical world attained by Dr. Vogt and the Mendelssohn Choir of Toronto. Some of our citizens may not quite appreciate what an immense honor this is, and it is to be regretted that there is a keener and more general sense in the great cities of New York, Chicago and Boston of the vast conquest by which Dr. Vogt and his choir have captured the musical world than in their own home.

It was a sight to make Canadians proud to see and hear the spontaneous enthusiasm, the intelligent appreciation, and the freely worded recognition of their faithfulness and consummate art. Practical men of affairs occupied in the great business interests of the eastern cities also expressed astonishment at their admiration for the public spirit which existed in Toronto, so that out of an enrollment of 234 there were 230 voices in the travelling choir, and only one employer who had failed when Canadian patriotism called.

Very great sacrifices were made and no great art exists in which sacrifice has not had its place. Those who have contributed to the sacrifice may proudly and proudly take their share of the glory, and there is enough glory to suffice for all. Even in the greatest human triumph there are always tears. Among the bay leaves to-day there is a spray of cyress.

There is a message for Toronto and for Canada in the work and the achievement of the Mendelssohn Choir. They have set a standard and raised an ideal for other nations than their own. They have elevated the art of the empire. What Canadians have done in this they can do in other ways. But only by similar means, by sacrifice and not by indulgence, by devotion and discipline and obedience, and by disregard of merely material aims, joining together in whole-hearted accord for a selfless purpose. The art of the Mendelssohn Choir at its highest stands like one of those God-named mountains, Tacoma, Fujiyama, Chomolungma, set on the earth, but uplifted, white-peaked, ineffable.

Ideals may be established in other directions than that of music, or than of art of any kind. They may be realized, so that our cities and our country may be known for the doing of good work. Mr. Stock of Chicago, the conductor of the Theodore Thomas Orchestra, declared that the singing of the Mendelssohn Choir had been an incentive and an inspiration to him. With such a criterion there is much besides that we ought to do the best that can be done.

Dr. Vogt, who has been the leader in this perfect achievement, has struck a keynote for the nation.

BRITISH COAL STRIKE. By giving official endorsement to the demand of the miners for the establishment of a minimum wage, the British Government has thrown the weight of its authority in their favor. In default of the alignment of the objecting owners with the majority there have already expressed their willingness to accept the principle, it will be enacted by parliament and this will initiate a movement in legislation of which it is difficult to forecast the end. So momentous may be the consequences in other lines of industry that there can be little doubt regarding the pressure being exerted to bring about a private settlement. Submission will be a bitter pill for the mine owners to swallow, but sooner or later they will realize that the old order has changed and that some more equitable division must be made of the wealth that is earned.

Like all European countries, Britain suffers from the long tradition that gives the rights of property priority over personal rights. The owner of the surface, whose title is not otherwise restricted, can assert an exclusive claim from the centre of the earth to the heavens above. Large revenues are thus derived from mineral royalties and remain unaffected by change of prices. The mines are naturally subject to local conditions such as proximity to important markets and ports, and transportation availabilities. It may be the case that the average return on mining capital is only about seven per cent, but averages are often wholly misleading without the details upon which they are calculated. In Britain, as in the United States, the current is running strongly towards nationalization of the enterprises and industries that are

basic factors in the internal economy of the country. IMPROVEMENTS AND TAXES. On Tuesday the City of Seattle, in the State of Washington, holds its municipal election and incidentally will vote on the question of adopting the single tax system. It has been noted by the phenomenal expansion of Vancouver, where it now governs, but only after a period of progressive approach when each step in advance proved its value by the test of experience. In Seattle two proposed amendments to the city charter have been submitted. One proposes the gradual shifting of taxation from improvement to land values—the other, if it is carried, will abolish all taxes except on land values. Both proposals and especially the latter are being bitterly opposed, because it is recognized that it will put an immediate end to the holding of land for speculative profits.

Vancouver has profited immensely by the exemption of improvements from assessment for taxation. Instead of being held back proprietors have been encouraged to make the best use of their land sites or if they are not prepared to do this themselves they are compelled to dispose of their properties to those who will. Productive capital will naturally prefer a location where enterprise is not penalized for the benefit of some who are holding valuable locations in order to reap a harvest where they have not contributed. Seattle may or may not accept the single tax amendment, but unless the experience of the cities that have adopted it is belied, Seattle will have to fall into line in order to hold its own with them. No one has yet explained why the improvers of a city should be taxed more heavily than the speculators.

CONGRESS MAY ELECT THE NEXT PRESIDENT. The popular demand for Theodore Roosevelt may compel him to stand as an independent candidate should President Taft be nominated at Chicago for the power of federal patronage. The Southern States are largely represented in the Republican convention, although the Republican party does not really exist in that part of the country. Should Colonel Roosevelt be defeated, also the choice of the Republican States, he would be impugned to appeal from the convention to the people.

With Taft the Republican nominee, Bryan or Wilson the Democratic nominee, and Roosevelt running independently, it might easily happen that the candidate would secure a majority of the electoral votes, in which event the election would be thrown into the house of representatives.

This would create an extraordinary situation. In electing a president, the house votes by states. The thirty-seven members from New York, or a majority of them, could only cast one vote to which the State of New York was entitled, and might be counterbalanced by the solitary member from Delaware casting the one vote to which his state would be entitled.

Now the present house by which stands as follows: Democrats 21, Republicans 22, with the delegations a tie from the States of Maine, Nebraska, New Mexico, and Rhode Island. As a majority of all the states is necessary to a choice, evidently no one could be chosen except as a result of some compromise, difficult to forecast, and all the more so, because the choice must be made between the three candidates who received the highest number of votes in the electoral college.

There are two cases of an election by the house. In 1800, Thomas Jefferson and Aaron Burr received the same number of electoral votes, and Jefferson was finally elected by the house after considerable intrigue. In 1824, Andrew Jackson had a plurality but not a majority of the electors. The house, nevertheless, elected John Quincy Adams, largely through the personal efforts of Henry Clay, Jackson never forgave Clay, and the bitter enmity generated by their quarrel vexed the people and the politics of the United States for half a century.

Dr. Vogt had no civic reception on his return from his triumphant tour. He does not influence votes. He only controls notes.

To-day evidently there are in authority some still infatuated with the notion, as Burns puts it, that: "The fear of hell's the hangman's whip To hand the wretch in order."

CHRISTIAN SCIENCE LEGAL? Jury Unable to Agree in Trial of a Practitioner. NEW YORK, March 1.—(Can. Press.)—The jury in the case of Willis Vernon Cole, the Christian Science practitioner, charged with practicing medicine without a license, was unable to agree on a verdict to-day after deliberating an hour and a half and was discharged. It was said that the jury stood eight for acquittal and four for conviction.

Samuel Untermyer, Cole's counsel, who argued that his client was only practicing his church's tenets when he healed, offered to prove by fifty or more witnesses the curing by Christian Science treatment of cases of disease given up by physicians, but Cole, however, was allowed to testify that he had successfully treated a dog, whose owner then became a Christian Scientist. There will probably be a second trial.

DICTIONARY OFFER BEST EVER MADE

The instant popularity into which the remarkable Webster's New Illustrated Dictionary sprang when The World offered it to the public at such astonishing figures has steadily increased. A large number have already been disposed of at The World office.

As expected, the style No. 1, the limp leather bound edition, is the most popular. Every one should be willing to take the trouble of clipping six coupons from The World for the purpose of obtaining so fine, so comprehensive, so up-to-date a volume of information as this one is.

THE BOUNDARY SETTLEMENT. Editor World: Much comment has been indulged in in regard to a report for Ontario on Hudson Bay both before and since the award of the Dominion Government. All parties seem to be imbued with the one thought that there are only two possible ports on Hudson Bay—one at Nelson, Churchill and the other at Repulse. This is a doubt to the fact that these ports were given to early explorers and because they are at the mouth of large rivers, but may I suggest that there may be more suitable places for ports within the Province of Ontario if the government would make explorations with a view to the Nelson river, with a port in the year deposit debris into the bay, creating shoals which extend for thirty miles from which extend for thirty shifting and are a danger to ships. Even by continuous dredging a sailing ship would be difficult to keep clear. The river is so turbulent that ships would be washed out of the harbor and breakwater was so placed as to shed the flow of water outside. The cost of an ocean port at Nelson would be enormous and Churchill is only a few miles from the mouth of the river. At Cape Henrietta Maria, which is about as near the ocean as Nelson or Churchill, the water is deeper, there are not the shoals and rapids, and a harbor could be made. From this point would soon be in the deep water and the bay and in the early spring could open up the shelter of the islands and mainland of Ungava as Hudson did three hundred years ago. The Hudson Bay Company's choice, Fort Churchill, is not a suitable port because they are their trading posts, but fresh water terminals of large rivers, which served the Indians and trappers which only means of transportation. "The canoe; but I do not know that the Government is looking for a port for the benefit of Indians and fur traders. I fancy that they are to build a railway to a place which will open up the country and develop a sea port which can be in communication with all parts of the world. If this is the policy of Ontario why does not Sir James Whitney or Mr. N. W. Rowell suggest it? Why Government and settling the miserable harbors of Churchill and Nelson, only suited to trappers and the Hudson Bay trade? Develop New Ontario. Learn something about what we've got and exploring and get rid of the old spirit of wanting ports which belong to another province. The Dominion Government has given us access to both Forts Churchill and Repulse if they desire it; but I fancy that if they are needed for Ontario they would be better in the hands of the province than in the hands of the Dominion Government. I have indicated a prospectors eye got above James Bay and discovered mineral which I fear they will not—the port question would very soon be settled. J. B. Spurr, Aurora.

Aged Men's and Aged Women's Homes

The World has received the following communication from C. E. Edmonds, chairman of the advisory board of the Aged Men's and Aged Women's Homes: "The article on the front page of this morning's World headed, 'Salaries and Wages Reach Large Amount.' It costs \$250 to care for 32 men and \$419 to look after 29 women at Belmont-street home, in addition to maintenance."

The three homes mentioned above are managed by a board of trustees who give freely of their time and means. Last year a special appeal to the public was made to enable them to carry on the work and, to say the least, most discouraging to find that you, without first investigating the matter, should allow a statement to be made that is calculated to injure the homes that mean so much to the aged and feeble-minded.

Dr. Bruce Smith said recently, in speaking of our homes, "There is not in the Province of Ontario an institution, government or private, that is better managed or more economically managed than these."

Assuming that you want to be fair and just, may I ask that you or a representative of your paper will meet me at the Industrial Refuge, corner Belmont and McCurrum-streets, at 3 p.m. to-morrow, Saturday, and if possible bring the city solicitor and any other who wish to be enlightened? After you have seen the class of people we are caring for and realize what is being accomplished, I feel perfectly satisfied you will conclude that the homes are not over-stated, that extravagance has no part in their management, marvelously efficient relief has been secured from the Industrial Refuge laundry, and see the absolute need that exists for collectors going through the city soliciting personal subscriptions. If you will help us to do away with this we will forgive and forget to-day's unkindness and accept your article as a blessing in disguise.

With reference to "Light on the three lists of salaries being asked for," the board would like an opportunity of showing to all the citizens that it is possible just how much is being accomplished for such a small outlay.

The work of the board is purely humanitarian, with the hope of reward. Do you not think this spirit ought to be fostered rather than crushed? I sincerely trust you will give me an opportunity of showing you something to-morrow that will warm your heart towards the Belmont-street homes and induce you to feel that your article to-day is justified and to do what you can to offset it. Your truly, C. E. Edmonds, Chairman Advisory Board.

Before Middleton, J. A. Hutchings v. Goodfriend—J. A. Hutchings, K.C., for defendant. An action for alimony. The husband owned the usual stock in 1909. He was attacked by paralysis and became and still is utterly unable to work. Unable to continue the work of the farm, the plaintiff, with the husband's concurrence, rented the farm in fall of 1909 and moved into Ganouague where by means of the plaintiff's solicitor the assistance of the plaintiff's husband, the husband, however, remains with his dependents. The plaintiff has done nothing to support her husband and has a right to be maintained by her husband. I think his conduct amounts to a desertion and that he has no right to take up his own residence in a place where his wife cannot go, and the tell her to maintain herself. The most I can give the wife under the circumstances is one-third of the net income of the farm, say \$50 per annum. This should be paid her quarterly. I do not think that any allowance should be made for arrears. The wife is also entitled to her costs and I feel sure that the plaintiff's solicitor will not feel aggrieved under the circumstances when I fix costs at \$75. I do not desire that any allowance should be taken which would be a sale of the farm. This allowance to the wife must be regarded as a temporary arrangement which she may have for an increase of allowance. At present there is nothing to indicate that if the husband is unfortunately restored to the farm, he will not make a home for his wife.

The Shredded Wheat Company has achieved a world-wide reputation and intellectual standards in higher moral sense to enlist their friendly co-operation rights. That the company's work has reached a most successful consummation was fully evidenced by the delightful entertainment recently given by the employees of the Shredded Wheat Company in the auditorium at Niagara Falls. The program, of a most varied character, was carried out without a hitch, and included a demonstration by the Shredded Wheat Company's Red Cross Emergency Corps, a number of large manufacturing items, and chosen members of the company's choral society, and several well executed dances in every class. The good understanding which exists between this company and its employees cannot fail to add to the success of their business. Do You Realize All That This Announcement Means?

A "Different" Store. A new standard of clothes value. An opportunity for men to dress right without extravagance.

IN many other cities, "FIT-RITE" high-grade tailored clothes are already established... Toronto has had to wait for a "FIT-RITE" store until we could find a favorable Yonge Street location...

The FIT-RITE line has a wide price range—suits and overcoats selling at from \$15 up to \$35. Whatever price you pay, you get value—great value—for every dollar you expend in this new and "different" store.

The Nervous Invalid

Far Greater Sufferer Than Man With Broken Leg

Both Mind and Body Are Restored by the Use of

Dr. Chase's Nerve Food

There is no suffering so keen as that which arises from diseases of the brain and nerves. Physical pain is intermittent and can be relieved, but when the nerve cells become feeble and wasted, mind as well as body is affected, and all is blackness and discouragement to the sufferer.

The man with a broken leg has the sympathy of all who know him, but the man who is broken in mind as well as body by nervous exhaustion is told that he only thinks he is sick. Since the cause is in the condition of the nervous system, it can be removed by the use of Dr. Chase's Nerve Food, which goes directly to the formation of rich blood and the restoration of the feeble, wasted nerve cells.

LARGE TEXTILE MILL FOR GUELPH

Company Now Negotiating for Site in East End—Will Employ Many Hundreds.

GUELPH, March 1.—It was learned to-day that two more factories are privately negotiating for locations in the east end of the city. One is a textile concern, and rumor connects it with a present factory that may be taken over and enlarged into one of the largest textile plants in Canada.

With the construction of the C.N.R. radial thru the city, entering at the east and traversing the main section of the city, and these new factories, the whole eastern part of the city has been given a tremendous impetus.

There is a feeling of loneliness or something missing if the head of the house does not bring—or the newsboy fails to deliver—a copy of Canada's most popular weekly publication, The Sunday World.

In this week's Art Section will be found a selection of views depicting current events, and people who are in the public eye at the present moment. These pictures are of absorbing interest and include a series of views of the big Motor Show now in progress in the armories at Toronto.

There is a bunch of the Australian Boy Scouts, who are visiting this continent, and the picture shows them as they are on the way to The Outlook office to call on Colonel Roosevelt; a magnificent picture of the state party on its way to open the present session of the British House of Parliament; the man who caused all the trouble in Persia, Mr. W. Morgan Shuster, who, with his wife and two daughters is pictured in this issue, and an unpremeditated pose of Winston Churchill and Lord Haldane, the British ministers who have been much in the public eye recently, owing to the strained relations with Germany and the home rule meeting in Belfast, Ireland.

There is a page of interesting pictures from St. Catharines and another from Hamilton.

Local pictures include the choir of the Parkdale Baptist Church, ice cutting on Grenadier Pond; Dr. Orr and the staff of the International Exposition, and the four McMurty boys of Jameson avenue.

Owen Sound is also represented in this issue by a group of officers of the I.O.O.F. Lodge No. 189. There are also a number of entertaining theatrical pictures, a view of the street strike in Lisbon, Portugal, which will remind you of our readers of former street car troubles here in Toronto.

Do not forget the Comic Section, which interests the grown-ups as well as thousands of juveniles. It is funnier than ever, and contains all the popular features.

Remember, The Sunday World consists of five sections, several of them printed in one to four colors. The contents are sufficiently varied to interest everyone.

This paper is admitted to be the best week-end publication in Canada, and the equal of any foreign newspaper. For sale everywhere for five cents per copy.

Rough on the Major.

Captain Jinks was giving a party, and had arranged a nice little toast list in deference to the presence of Major Cluener, an aide after-dinner speaker. The latter was attended by his wife, a very deaf old lady, who was much attached to him. As the gallant officer was to reply to the toast of "The Ladies" his wife, knowing his fondness for children, judged that it would suit him admirably. At the last moment, however, the major's subject, unknown to Mrs. Cluener, was changed to "The Ladies." But it made no difference to the officer, and his sparkling speech delighted the company.

A lady congratulated the major's wife upon her husband's brilliant effort. "Oh, Mrs. H—," she replied, "you don't know how fond the major is of them. I've seen him with two or three on his lap at once."

"Oh, Caroline!" gasped the major, who had overheard the conversation. "Just teasing the life out of the poor dear things," the innocent lady continued. "Every chance he gets he's sure to have them in his arms, or be romping with them. Knowing his loving nature, they'll come to him when they won't go to anyone else." And the major fell back in his chair with a groan.

One Day More

ABSOLUTELY THE LAST CALL

FREE PANTS TO-DAY

This is positively the last chance of the season. Get your order in early. There are thousands of yards of cloth from which to choose.

You have the choice of any cloth in the house for the Trousers you may choose

Our sale two weeks ago, at which we gave away with each spring suit or overcoat a free pair of pants, was a big success. Owing to the crowds which attended, we feel that there were many disappointed customers who failed to get their orders in. The sale was better than we had anticipated. It was so unexpectedly large that we were unable to handle the people.

It has always been our endeavor to satisfy and please. In order that everyone should be satisfied and no one disappointed, we are going to hold one more big FREE PANT SALE TO-DAY.

JUST ONE DAY MORE FOR A FREE PANT SALE, SO THAT EVERYONE WILL BE PLEASED

During the week we were besieged with customers anxious to know if we would put on the sale for just another day. Even long-distance phone messages came to us Monday after the Sale asking about this. We admit being taken by surprise and were not prepared to handle the fearful business of Saturday last, so the management has decided to have another sale TO-DAY.

Your Absolute Choice of Any Cloth in the House, Made-to-Order Suit or Overcoat and An EXTRA Pair of Trousers

Ours is a great and growing business in a great and growing country.

Crowding values into price is our continued effort. Volume brings results.

This will positively be the last and final sale of the season. There are more new designs, styles, weaves and patterns which had not been unpacked for last week's sale and will be on view To-Day.

One more day of Trousers given away free with every suit or overcoat made-to-order. Come early and avoid the crush. Best cloth ever offered in Canada at any price.

WARNING TO THE PUBLIC—We called your attention last week to the fact that The Scotland Woolen Mills Company has no connection with any other tailoring house doing business in Canada or the United States. We have one branch only in each of the following cities: Toronto, Detroit, Cleveland, London, Winnipeg, Hamilton, Calgary, Edmonton, Regina, Saskatoon. The Toronto branch is located at 139 YONGE STREET. We pointed out last week that our remarkable success has led others to copy our methods of advertising. At that point we are pleased to be able to say they have been obliged to rest. They may imitate our methods, but they cannot duplicate the goods we handle, because they are our own in design and weave, and go direct to you from the mills. We are the original mill-to-man-made-to-order \$15.00 tailors.

VICTORIA ST. EXTENSION MAY GO TO ARBITRATION

Board of Control of the Opinion That Cost May Not Be So High Was as Expected—Toronto Electric Light Co.'s Poles Are Being Removed From the Streets as Quickly as Possible.

At their meeting yesterday morning the board of control decided to ask the council to refer the matter of the Victoria-street extension back to the works committee for further consideration. The committee at their last meeting recommended that the proposed extension be postponed indefinitely on account of the exorbitant prices asked for the properties, but the board thought that arbitration proceedings might prove the cost would be nothing like what was expected.

Mining Market Is Drifting And Fails To Make Headway

Porcupine Stocks Subjected to Apathetic Speculation and Prices Rarely Move—Cobalts Show Small Gains.

World Office. Friday Evening, March 1. The Porcupine stocks continued to drift along in an even channel in the mining exchanges again today, trading being of restricted volume in the main, with price changes so small as to attract little or no interest. On the whole the market showed a slightly easterly trend, the measure of firmness in evidence yesterday not being maintained. The apathetic manner in which trading was carried on was fully exemplified in the fact that transactions in the usually favorite Porcupines were of small volume, while the less prominent stocks—either made no appearance whatsoever in the list of sales, or else were dealt in to the extent of only a few small and broken lots of shares. There were no new developments over night calculated to have any effect on sentiment, and as the outgoing interest in the market was at a low ebb, the list was left pretty much to its own devices. The higher quotations of the previous session attracted some scattered profit-taking sales, but the bear interest did not force its hand, and such reactions as were shown were limited to small volume. Hollinger sold up to \$11.25 for a small lot early in the day, but failed to hold the advance, and at the close he was bid at \$10.90. "Red" was easier at \$3. a new low level for the stock. Porcupine Central and its sister issues held their record prices without any difficulty. In the cheaper issues the speculative movement was so small a proportion as to produce any material price changes. "Dome Extension" was the leader in the trading, but it was evident that the market was still disposed to sell the market, for the stock recorded a small fractional decline, apparently owing to its own weight. Crown Chartered was weak below the bid price, by striking out the last bid price.

START MINTURE MILL ON FIRST OF MARCH

Officials Present For Trial Run on That Day - Power Plant at Full Capacity.

Porcupine, Feb. 28.—(From Our Own Man Up North).—Altho the McInture stamps were ready for a trial run on Feb. 28, power was not turned on as the officials who are to witness the opening of the first stamp mill will not arrive before March 1. The short delay now makes it possible for the constructors to complete the tank and table work by the date set for the real running of the mill.

DIAMOND DRILLS AT HUGHES PROPERTY PORCUPINE, Feb. 28.—(From Our Own Man Up North).—Diamond drilling started on the north-Hughes Mines property on Feb. 28, and the first hole was put down to a depth of 38 feet. Several thousand feet of drilling will be done in an effort to locate what is known as the "Mulholland lead," known to lie directly to the west of the Hughes property.

HOLLINGER WILL BE READY ABOUT LAST OF APRIL. Meanwhile 700 Feet of Underground Development Per Month is the Pace Set.

Porcupine, Feb. 28.—(From Our Own Man Up North).—Seven hundred feet a month of underground work is the pace now set by the Hollinger claim on the north-Hughes property. It is to hold the lead in development work unless near competitors double the machinery capacity and working force. Drilling in the vein now cut, cross-cutting to other known leads, and sinking to lower levels continues at the advanced development rate which Manager Robins intends to continue during the balance of this year. This means that 5,400 feet of rock-cutting is to be done in the 5,400 feet now accomplished.

Montreal's Heavy Bank Clearings. MONTREAL, March 1.—Bank clearings in Montreal in February made a new record of \$18,608,824. The extra day, of four days' business, did not detract from the total, but the volume of business was so large that the volume of the month, the total would still have been a record one.

Winnipeg Grain Market. WINNIPEG, March 1.—The local market was exceedingly active today, and the pressure on new hay. The close was higher for May and less for July. Receipts were exceedingly strong, and prices were in demand and prices advanced. Receipts were under the normal 25 cars being in sight for inspection.

**RIB OUT SHARP DANCE IN TORONTO MARKET**

**Stock Established New Record Price For This Year—Increased Dividend Rumer.**

**World Office.**

Friday Evening, March 1. Rio sold up to a new record for this year. The stock advanced to the highest price the stock has ever touched. In the Toronto stock market to-day. At the top quotation attained during the session, 115-3/4, the shares showed an advance of a point from yesterday's high figure, and a gain of two full points over the low level of the week. The advance was held almost in its entirety throughout and at the close bids were put in at 115 3/4.

Slightly enough, traders were not disposed to advance any explanations for the sharp upturn in the security. London, as usual, was reported to be in this market, and this was borne out by the higher quotations on the stock received over the cable by brokers having New York wires. Just west of the old country was buying the shares to-day when a couple of days ago the stock was almost going begging across the water. It is somewhat hard to say. The market is, however, that investors and speculators are fully cognizant of the fact that it is only a matter of time until the shares will carry a larger dividend, while it is to be presumed that certain parties are confident that the larger dividend will not be as long withheld as some people imagined. Meanwhile around its present price the stock affords a fairly remunerative investment yield.

The upward swing in Rio did not have the expected reflective effect on the general speculative list, falling to inspire any appreciable feeling of buoyancy in other sections of the market. From Sao Paulo, its sister issue, did not show any material responsive action, the stock holding within easy distance of the previous day. On the afternoon board the price got up a fraction to 134-1/2 and closed there.

Some of the industrial shares showed a slightly firmer undertone, but this was accepted as due to specific causes, and was not applicable to the market as a whole. Mackay preferred and Spanish River pulp secured advances. Iron City was firm at its recent advance to 107-1/4, the highest price attained this year; Mexican Light and Maple Leaf common were both inclined to ease.

**Horse Market.**

The following are the average prices being bid for horses at the sales held in Toronto: Draughts, \$225 to \$275, and a few up to \$300; general purpose horses, \$175 to \$225; sires, \$100 to \$150; serviceable sound, \$75 to \$125.

**Manager Smith Resigns.**

J. Herbert Smith, manager of the Horse Exchange at the Union Stock Yards, has resigned after four years' occupancy of the position. Mr. Smith is widely known, and his resignation has been somewhat surprising. He is leaving the position in order to enter a wider sphere of business enterprise, and the best wishes of his many friends will follow him in his new venture.

**Sale Calendar.**

Auction sale of 200 head horses at the Union Stock Yards, 11 a.m. Wednesday, March 6, 1912. Auction sale of 100 head horses at the property of J. H. Talbot, Lot 5, Con. 2, York Township, March 23, 1912. D. Beldam, auctioneer.

Auction sale of 25 pure-bred and 10 high-grade Holstein cows and heifers, the property of George Forester, Gormley, Ont., on March 19, 1912. Auction sale of cattle, horses, swine and farm implements, the property of John Wedrick, on rear Lot 2, East York, on Tuesday, March 5, 1912.

**QUEBEC RAILWAY SOARS**

**Sir Rodolphe Forget on the Floor**

**Makes Heavy Purchases —**

**General Market Listless.**

**MONTREAL, March 1.**—A remarkable recovery by Quebec Railway, another stock by Rio de Janeiro and a demand for Montreal and Union Bank shares at higher prices were the features in the trading on the Montreal stock exchange to-day. The market generally showed little life, and the month opened with no indications of a change from the dull and listless conditions which existed thru the greater part of February. Even Steel at the moment appears to be dropping back into the rut.

Quebec Railway made a record movement for any stock on the Montreal list in the closing minutes of the afternoon session. Yesterday it was weak and sold at 45 3/4 in the first part of the transaction, showed a recovery to 49 3/4. It was offered this morning at 49, but there were no buyers. The stock suddenly became active in the afternoon, and after selling at 49 in the first transaction, moved up to 50, at the latter level 225 shares changing hands. It closed at 57-1/2, a net advance of 3-1/4 points over yesterday's close, and 11 3/4 points over yesterday's low price.

Sir Rodolphe Forget was on the floor and it was his bidding which sent the price up towards the close. The erratic movement of the stock recently is explained by the fact that while a large element on the street is bullish on dividend prospects, there is practically no floating supply of the stock, and the bears have little opportunity to go short. Rio was the most active stock of the day, and was in good demand.

**Liverpool Grain Prices.**

**LIVERPOOL, March 1.**—Wheat—Wheat nominal, futures strong; March 7 1/2-5/8. Corn—Spot steady; American mixed, new, 48; old, 47; 1/2-1/4. Barley—Barley, 48-49. Flour—Winter patent, 2s 3d. Hops—In London (Pacific Coast), 9/10 to 11 1/2s.

**Total Live Stock.**

The total receipts of live stock at the City and Union Stock Yards for the past week were as follows:

|        | City | Union | Total |
|--------|------|-------|-------|
| Cattle | 1792 | 1881  | 3673  |
| Hogs   | 3006 | 1847  | 4853  |
| Sheep  | 283  | 415   | 698   |
| Calves | 215  | 14    | 229   |
| Horses | 63   | 328   | 391   |
| Total  | 3269 | 2685  | 5954  |

The combined receipts of live stock at the City and Union Stock Yards for the week were 17,184 head, a decrease of 71 head, or 0.4 per cent. Hogs and calves, and an increase of 221 head, or 2.5 per cent. In comparison with the corresponding week of 1911, there was a decrease of 72 calves, 1264 hogs and 54 calves, but an increase of 383 sheep and horses compared with the corresponding week of 1911.

At the Union Yards the above figures show an increase of 10 head of calves, 123 sheep and 113 horses, but a decrease of 72 calves and 4 calves. When compared with the same week of 1911:

**Market Notes.**

There was a decrease of 1784 cattle this week and no material increase of prices took place. In part a decline in receipts. In part a decline in prices, as the market was well attended by a sharp advance of 250 cents in the price of live stock, but the only change this week was a little more activity. With prices strong at Monday's quotations, throughout the deliveries of cattle next week be heavy, with no export demand, we look for lower prices.

There was a decrease of about 600 hogs, and prices have advanced from 18c to 25c per cwt.

Other classes of live stock remained about stationary as regards value.

**FARM PRODUCE**

The Liverpool market closed on the wheat 3d to 1/4 higher, Berlin wheat closed 1/2 lower, and Budapest unchanged.

**Winnipeg Inspection.**

The Liverpool receipts of wheat to-day graded as follows: No. 1 northern, 11; No. 2 northern, 81; No. 3 northern, 61; No. 4 northern, 81; feed, 8; rejected, 10; no grade, 15; winter, 10; C.W. 4; extra feed, 20; No. 1 feed, 21; No. 2 feed, 8; no grade, 8; rejected, 3; barley, 20; flax, 2.

**Argentine Shipments.**

The weekly Argentine shipments, with usual comparisons, follow:

|           |           |           |           |
|-----------|-----------|-----------|-----------|
| Wheat     | 1,278,000 | 2,098,000 | 2,338,000 |
| Corn      | 1,000,000 | 1,000,000 | 1,000,000 |
| Soy beans | 1,000,000 | 1,000,000 | 1,000,000 |

The chief items of the week is 4,800,000 bushels against 5,800,000 bushels a week ago, 2,800,000 bushels a year ago, and 4,000,000 bushels two years ago. Corn now, a week ago, nil; a year ago, 315,000 bushels, and two years ago, 23,500 bushels.

**ST. LAWRENCE MARKET.**

Receipts of farm produce were 400 bushels of grain in total of bag and a few lots of dressed hog.

Wheat—Two hundred bushels sold at 80c.

Barley—Four hundred bushels sold at 80c.

Hay—Fourteen loads sold at \$23 to \$24.

**Shortage in Liverpool Stocks Gives Boost to Wheat Market**

**Bullish Trend of European News Brings Another Sharp Upturn in Prices—Corn and Oats Follow Suit.**

**CHICAGO, March 1.**—Wheat shot upward today impelled by news that the stock on hand in Liverpool was not enough to last two weeks. The market closed strong, 1-3/8 to 7-3/4 over the figures of twenty-four hours before. All the other leading staples also reacted sharply advance—corn 1c to 1-1/4c, oats, 3-3/8c to 4-1/4c, and hog products 1-3/4 to 1-5/8c.

Latest trading left wheat at the top-most point of the session and nearly 4c up in two days. The fact was bars of offerings at the start, speculators almost unanimously plunging on the bull side because of the unexpected strength of prices at Liverpool. The English market was excited not only in regard to the scantiness of immediate supplies, but on account of the small share of world shipments to United Kingdom ports and by reason of the fact that Argentine forwardings amounted to less than half what European had expected from the South American country for the week.

A decided drop in receipts northwest of Chicago emphasized the situation, regardless of 20,000,000 bushels added to recent radical estimates of the American farm reserves, the total was still the lightest since 1905.

**Corn and Oats Soared.**

Corn made another high record for the crop, going from 70 3/4c for all months. The weather map showed unseasonable cold and suggested necessity for heavy feeding of farm stocks. Other causes lay in the smaller receipts and the wheat bulge. Altho the wind-up was off somewhat on profit-taking, the level nevertheless was the dearest in over two years. May fluctuated from 85 3/8c to 79 1/4c, closing firm with 1 3/4c to 1-1/2c net advance, at 79 1/2c to 76 1/8c. Cash grades were strong.

The fact of a new high record on the crop was duplicated in oats. Throughout the market displayed much activity as well as strength. Sympathy with other grain furnished the basis. Outside limits reached for May were 53 7/8c and 53 3/8c, with the close at 53 1/4c, a gain of 1-3/4c to 5-8c since last night.

Investment demand and the bullish influence of grain more than offset as far as the provision trade was concerned the big receipts of hogs.

**Northwest Receipts.**

Receipts of wheat in cars at primary centers were as follows:

| Week Ago    |     | To-day, ago. ago. |      |
|-------------|-----|-------------------|------|
| Chicago     | 114 | 84                | 114  |
| Duluth      | 9   | 17                | 19   |
| Minneapolis | 113 | 462               | 193  |
| Winnipeg    | 414 | 1048              | 1048 |

**European Markets.**

The Liverpool market to-day on the wheat 3d to 1/4 higher than yesterday, and corn 3d to 1/4 higher, Berlin wheat closed 1/2 lower, and Budapest unchanged.

**Winnipeg Inspection.**

The Liverpool receipts of wheat to-day graded as follows: No. 1 northern, 11; No. 2 northern, 81; No. 3 northern, 61; No. 4 northern, 81; feed, 8; rejected, 10; no grade, 15; winter, 10; C.W. 4; extra feed, 20; No. 1 feed, 21; No. 2 feed, 8; no grade, 8; rejected, 3; barley, 20; flax, 2.

| Soy beans | 1,000,000 | 1,000,000 | 1,000,000 |

**CHICAGO GOSSIP**

**Unexpected Strength in Wheat Pitt—General News Bullish.**

J. P. Bickell & Co. from Logan & Bryan:—Unexpected strength developed in wheat at the outset to-day. The local trade at first was sold out, and possibly a little overdone on the set break yesterday. English cables explained strength in due to prospect of moderate world's shipments and less than a fair increase headed for U. Kingdom ports, decrease in Liverpool stocks for the week, and supplies there only sufficient for two or three weeks' needs. There is improved demand for cash wheat at Minneapolis at increased premium. It was a big chirping market all day, and feeling is bullish.

Erickson Perkins & Co. (J. G. Beary) wired the following:—Wheat—The market opened at a sharp advance over last night's close and ruled strong throughout the session. The general trend of the news was of a bullish character, both foreign and domestic. An estimate by The Modern Miller of resources in farmers' hands places them at 11,947,000 bushels, compared with 13,811,000 bushels a year ago. We consider the long side of the market by far the safer, but look for sharp fluctuations, which will give us weak spots at times, and on such advocate purchases.

**BROKERS:**

J. A. MORDEN & CO., 433 Confederation Life Chambers, Toronto.  
A. J. BARR & CO., 43 Scott Street, Toronto.

The Company's property consists of 240 acres of patented and proven OIL-BEARING LAND, situated in King's County, California, east of the croppings. In this particular location, there are dry holes. Many companies in Coalinga have the same capitalization or greater than that of the Dominion Oil Company, have control of only 20, 40 or 80 acres, and even these companies are making big money for their shareholders. Compared with them, the holdings of the Dominion Oil Company are immense, and when developed and producing oil, should be worth Millions of Dollars. The Company's well has been drilled to a depth of 2480 feet.

The Canadian Coalinga Company, which adjoins the Dominion Oil Company's property on the north, have their well down about 3000 feet, at which depth the oil came in, and is now producing 7500 barrels per day, which means an income of \$8,250.00 per day, and their stock is selling at \$20.00 per share. This well is only a short distance from the one now being drilled by the Dominion Oil Company. Mr. G. W. Warner, who has charge of the Dominion Oil Company's development work and who is without doubt one of the best authorities on oil, predicts that will from 400 to 600 feet further drilling, the Dominion Oil Company will strike the same flow, and he believes that the Company will get an enormous flow of the light oil, for which there is a ready market at from \$1.10 per barrel up.

The Directors of the Dominion Oil Company are all shrewd, practical and successful business men, noted for their integrity. They stand for Honest Effort, Honest Purpose and Capable Management, and their selection of the 240 acres in the Coalinga Oil Field, which is said to be the greatest oil field in the world, manifests their judgment. From this field over 1,250,000 barrels are being produced per month. In the south field, where the Dominion is located, the oil is of high gravity, is being of the finest quality, and commanding \$1.10 per barrel at the well, and is acknowledged the Money-Making Marvel of the Age.

There are now being offered for public subscription 100,000 shares of the Treasury Stock at 50c per share, which will leave 400,000 shares still in the treasury. It will be the aim of the directors to maintain and keep as large a treasury balance as possible in both money and stock available to meet at all times any and all contingencies that may arise, and thus effectively safeguarding the investments of all shareholders.

If you would join one of the most progressive and promising California Oil Companies, let us have your subscription to-day for a block of this valuable stock. The stock of the Dominion Oil Company for development purposes is what we offer and what we sell you. Experts have pronounced the property as in proven territory. It has competent management, small capitalization, large acreage, no debts, fine equipment, unlimited market for the oil, and all in all is a business opportunity that rarely comes to the individual investor more than once in a lifetime.

The right is reserved to return all subscriptions received in excess of the allotment to be sold, or to increase the price without notice whenever developments warrant it. With these facts and statements before you we solicit your consideration and co-operation by inviting you to join in helping to develop a great property that will be an honor and credit to corporate enterprises. Our faith is strong that this is a proposition worthy of thought and investment, and that it can soon be made a property of tremendous earning power.

The stock is now selling very rapidly, and as this is an investment of an exceptionally meritorious nature, you cannot afford not to investigate. Write Us at Once for Prospectus and full particulars of the Dominion Oil Company, which will be mailed to you without any obligation or expense on your part.

**RIGHTS OF THE COMPANY**

This Company has purchased the Canadian Patent Rights pertaining to self-lighting cigarettes, secret formulas, and the right to use all special machinery required in their manufacture.

The factory is modern and fully-equipped, having a capacity to manufacture 250,000 cigarettes per day.

**SELF-LIGHTING CIGARETTES.**

The chief features in these new cigarettes are—

- Their convenience and practicality. They can be lighted in wind, rain or snow by merely drawing the end of the cigarette lightly across the igniting surface on the box.
- Their superior quality and flavor. They are manufactured from the finest selected Turkish Tobaccos, by expert operators.
- The additional cost of manufacturing the self-lighting cigarette is so small that it enables the Company to sell them at standard prices, viz: 10, 15, 25 cents per box of ten.
- Self-advertising—They immediately attract the attention of smokers everywhere and create their own sale.

**GREAT DEMAND**

Although the cigarettes have only been on sale for a short time in Montreal, and in spite of the fact that no advertising has been done, the demand has been so enormous that the Company has been unable to fill the orders now in hand.

**NO COMPETITION.**

The Company is absolutely without competition in this new field of manufacture, having the exclusive Patent Rights throughout the Dominion.

**THE CONSUMPTION OF CIGARETTES IN CANADA**

According to the statistics of the Federal Government for the year ending June 1st, 1911, the output of cigarettes was 581 millions, an increase of 150 millions over the previous year.

**A PERMANENT AND PROFITABLE INVESTMENT**

After careful calculation it is estimated that if the Company sells only 10 1/2 million cigarettes per year, it will yield a net profit of 20 per cent. on the entire capitalization of the Company. From present indications the sale will greatly exceed this amount. It is a well-known fact that Tobacco Companies are paying no dividends.

**ALL SHAREHOLDERS ON EQUAL BASIS**

There are no bonds or preferred stock, all stockholders sharing alike in the profits.

**FIRST PUBLIC SUBSCRIPTION**

We are authorized by the Company to offer a limited number of Shares at \$5.00 each, payable in two equal instalments, viz: 50 per cent. at the time of Subscription the balance 50 days thereafter.

All shares reserved for Montreal. Quebec subscribers within a few days.

A limited number shares having been reserved to be offered in Toronto, Province of Ontario and elsewhere.

There are no promotion shares, every share having been fully paid for at the rate of \$5.00 each. The balance will be in a permanent fund.

Those desirous of making an immediate, profitable and permanent investment, which should return at least 20 per cent. if not more, per annum, because capitalization is small and the profits large and immediate, should send in their application either by letter or on our special form, without delay.

All payments and cheques to be made to the order of the "INVESTMENT TRUST CO. LTD." Montreal, Que.

Application for Subscription, Prospectus and samples of Cigarettes can be made through the following Agents:

**Importance of the Mantle Section**

A man chooses his tailor because he believes him to know how to cut a suit properly, to fit it well, choose styles, and modify them to suit the conditions of wear. The same rules should be applied to women's tailoring. We offer each of these points as a reason why you should give us the honor of serving you, and will guarantee that you shall be more than satisfied. The new spring goods will be a more than convincing argument for our plea that you look over our stocks and tell others about them. An attractive dress is shown among our new goods, made of rich moesaline silk. The collar is made of tiny knife pleatings finished with a smart self bow. Short sleeves to match waist, trimmed with self, one piece and ornamented with jet buttons. The skirt hangs gracefully from the self belt, which is fastened with a metal buckle. Colors are navy, tan, cadet, and black. Specially priced 18.50

**The New Suits for Women**
