Another Large Deal By The Frasers Is Reported Today

Acquiring Dominion Pulp Property on North Shore

Mill and 300 Square Miles of Lumber Lands — Transaction Is Said to Represent a Million Dollars — Remarkable Growth.

(Special to Times.)

Edmundston, N. B., May 7.—It is reported here on good authority that the Fraser Companies Limited will soon acquire their large holdings of the property of the Dominion Pulp Company Limited of Bathurst, that negotiations which have been going on for some time will practically be closed this week and the transfer of the property will take place at once.

The Dominion Pulp Company is now composed of English capitalists. Their property consists of a modern pulp mill with daily capacity of fifty tons, and 300 square miles of timber lands and 300 acres of agricultural land. The property is on hand to keep the mill running at full capacity for the balance of the season. It is said that another saw mill, now being erected on Magalloway Lake, York county, will be in operation before the end of the month.

It is estimated that close to 100,000,000 feet of lumber will be manufactured by the Fraser Companies' mills during the present year. Twenty-five years ago the activities of the men who now control his gigantic organizations were limited to a small water power mill located at River du Chute, Victoria, county, with an output of about 1,000,000 feet a year.

THE DOMINIONS AND THE EMPIRE

Some Thoughts in the London Times — Ideal Closer to Those Overseas Than Those at Home.

(Canadian Associated Press.)

London, May 7.—In an editorial which incenses Lord Balfour's appointment as viceroy of New Zealand, and describes it as a direct acknowledgment of the part played by that dominion in the war, the Times goes on to refer to the fact pointed out at a meeting of the Royal Colonial Institute, that only one-third of the members of the institute belong to the United Kingdom. In one sense it is undoubtedly true, as said by Sir George Perley, the editor, that those who live overseas are in those who live in the heart of the empire.

Anyone who knows the dominions will see that this is so. Over there they are often talking about the empire. Even when they criticize the conduct of its affairs by the government, even when they are most insistent of their proud status as individual nations, it is still to them a real entity of which they are just as proud to form a part. On the other hand, we in this country, are too apt to take the empire for granted just because it is the empire. The old colonial idea of the empire is a dangerous falling. The empire can only remain an empire if the heart is in it, and the limbs fulfill its proper functions.

Australian Fisher, high commissioner for Australia, warned us against the danger of what he called "letting" the dominions. We may be as proud of them and as grateful and as brotherly as we like, but we must not let them appear in a reputation for a vice, the appearance of which it is hard to distinguish from a reality.

ROSES FROM WOMAN FOR BLUEBEARD OF PACIFIC COAST

Los Angeles, May 7.—Returning to the county jail here yesterday after pleading guilty to an indictment charging him with the murder of Nina Lee Delaney, one of five "wives" he is alleged to have killed, Walter Andrew Watson found in his cell a large bunch of red roses, left, according to jail attaches, by a woman who rode in a costly limousine and who declined to give her name.

Entry into Australia of an American passport entitled "Bond Certificate for the First Loan of the Elected Government of the Republic of Ireland," has been prohibited.

Gallon of This "Gas" Good for 250 Mile Run of Automobile

Rome, May 7.—Dr. Pastico, a noted chemist, has discovered a method of cheaply producing liquid hydrogen. He says it may be used in driving automobiles, one gallon being sufficient for 250 miles, also it may be utilized in railway locomotives and in the engines of ocean steamers.

WILSON WIN WAS SURPRISE TO FANS

He Did to O'Dowd Last Night What Latter Did to Al McCoy.

Boston, May 7.—The defeat of Mike O'Dowd, middleweight champion of the world, by Johnny Wilson here last night came as a great surprise to fight fans generally for little had been heard of Wilson outside of Boston.

While Wilson has participated in many bouts against second raters in the last year and has appeared in many cities, principally in New England, last night's bout was his first against a prominent boxer. O'Dowd protested the referee's decision, saying he was at least entitled to a draw, but many of his supporters today concede that the ex-champion has no legitimate ground for protest. Hector MacInnes was the choice of O'Dowd's manager for referee. O'Dowd had stipulated that the men should weigh in at 160 but neither tipped the beam. It was announced officially, however, as they entered the ring that the bout was for the championship, and the men fought with that understanding.

Last night's battle is just another incident to be recorded in a history replete with such events where a champion has been an unknown, commonly referred to as a "set-up" and has been bested, except that this is one of the comparatively few instances where the champion has lost his title. It was much the same way that O'Dowd was known in and around St. Paul as a likely middleweight, but his name had not drifted very far eastward when he was matched to meet Al McCoy. The majority thought the bout would be one of those ten round affairs in which McCoy might be out-pointed, but would emerge still with the title. Great was the surprise when O'Dowd knocked McCoy out and won the title.

PREMIER'S NEPHEW WEDS IN CAPITAL

Miss Mary Adams Bride of A. Douglas Foster, One of U. N. B. Graduates This Year.

(Special to Times.)

Fredericton, N. B., May 7.—Miss Mary Adams of this city and A. Douglas Foster of St. John were married last evening in Christ Church parish church by Rev. A. F. Bate. The bride, who is the youngest daughter of the late John G. Adams, was grown in jade green with black tulle hat. She was attended by Miss Marjorie Murray and T. Stanger Crockett was groomsmen. The bride until recently was on the staff of the Provincial Public Works office. The groom is a nephew of Hon. W. E. Foster, premier of New Brunswick, and is a member of the graduating class this year at the University of New Brunswick.

J. C. WATTERS IN VERBAL ATTACK ON TOM MOORE

Toronto, May 7.—J. C. Watters, former president of the Trades Congress of Canada, at a meeting of the Toronto District Trades and Labor Council last night, made an attack on Tom Moore, his successor as head of the Trades Congress. He accused Mr. Moore of doing everything in his power to thwart Watters' movements as representative of the workers of the dominion at peace conference in Paris.

LAWYERS UNDER FIRE YESTERDAY IN N. S. HOUSE

Halifax, N. S., May 7.—Yesterday afternoon, in the house of assembly, the legal profession underwent a grilling and there was a spirited verbal battle between lawyers of the house and others. The debate started when J. C. Torrey of Guysboro moved that the three-months move be given a bill which provides for higher fees for barristers and registrars of deeds. The amendment was lost and the bill referred to committee.

Quebec, Ont., will start daylight saving on May 18.

BRITISH FOOD MINISTER SAYS OUTLOOK POOR

London, May 7.—The food minister, Lord Curzon, in the House of Commons yesterday said the outlook for a year regarding supplies had not been justified and it was well that the world would not be available for export.

The supply of butter promised to be only half the pre-war standard, and he could see no sign that the world's food shortage was likely materially to improve. England must still continue to get the greater part of its imported food from America, but he hoped that by the end of the year alternative sources might be available.

THROGS FOR THE KENTUCKY DERBY

Thousands of Visitors to Louisville for Big Races on Saturday.

Louisville, Ky., May 7.—Incoming trains this morning unloaded thousands of visitors, adding to the already enormous crowd waiting for the forty-third renewal of the Kentucky Derby at Churchill Downs on Saturday afternoon.

FOUR NAMES FOR BABE BORN ON CORSICAN TRIP

Return of Captain Davies, Who Has Been Arranging Graves of Soldiers on West Front.

Montreal, May 7.—The birth of a child to Mrs. R. H. Day of Regina, on board the S. S. Corsican, which docked here last night, created much excitement in the city. The baby was christened Dorothy Joan Corinne Hyman Day, the name being suggestive of her arrival during a campaign of the captain's name, Renne, and the ship's name, Corsican.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. R. F. Stupart, director of meteorology.

Synopsis: The barometer continues high throughout the dominion and the weather is everywhere fine and moderately warm. Moderately Warm.

Maritime—Light winds, fine and moderately warm today and on Saturday. Gulf and North Shore—Moderate south and west winds, mostly fair and moderately warm today and Saturday, a few local showers.

Big developments in commercial flying in Canada are promised for this summer.

Schooner Arrested. Halifax, N. S., May 7.—Action has been begun in the admiralty court against the fishing schooner Fannie Belle Atwood, by sixteen members of her crew, who claim \$200 each for salvage service rendered the vessel last month on the high seas between Liverpool, N. S., and Halifax. Yesterday Deputy Sheriff Scriven placed the schooner under arrest.

LOWEST BIDS IN GENERATION FOR HALIFAX BONDS

(Canadian Press.) Halifax, N. S., May 7.—Tenders for an issue of Halifax bonds amounting to \$1,000,000, to be used for street paving, water service and other purposes, were opened yesterday afternoon. No award was made, but the committee will report to the city council tomorrow night.

The National City Company and Harris Forbes & Company, bid \$4.11 for the ten year six per cent. bonds, but made no offer for the five and a half per cent. running thirty-three years. A. E. Ames & Company, Wood, Gundy & Co., and the Eastern Securities Co., bid \$3.99 for \$200,000 of the ten year bonds, and \$3.81 for \$200,000 of the thirty-three year issue. They stipulated that they should have an option for sixty days to take the balance if they desired.

MONTEAL COURT ANNALS RUNAWAY MARRIAGE OF 1912

Montreal, May 7.—A runaway marriage between Adjour Groulx and Alice Lalay, on May 25, 1912, was annulled yesterday by judgment of the superior court on the petition of the groom that both were minors at the time of the marriage and had had neither their parents' consent nor the dispensation of the Catholic church, which would be necessary to validate the marriage.

RAILWAY ORDER RE TRAINMEN'S WATCHES

Montreal, May 7.—The railways here have issued a general order to all trainmen not to put a thin watch on their wrists to indicate daylight saving time as the railways do not recognize it and it would in all probability be both dangerous and confusing.

LONGSHORE STRIKE OVER THE CHOICE OF CREWS

Seattle, Wn., May 7.—The longshoremen union declared a general strike against the Seattle waterfront yesterday to enforce its demands that the employers select crews from a list prepared by the union. It is said the question of wage is not involved.

AEROPLANES FOR CANADA

Toronto, May 7.—Colonel W. A. Bishop, V. C., announced yesterday that the aircraft disposal syndicate of England, of which Handley-Page is the head, had decided to ship to Canada some of the 10,000 airplanes purchased by the syndicate for disposal through the Bishon-Baker Aeroplanes, Limited.

GRAIN RATES

Washington, May 7.—The interstate commerce commission today approved the filing of reduced commodity rates on grain from Armstrong, Fort William, Port Arthur and Westport, Ont., to eastern United States points by the Canadian National and Canadian Pacific Railways.

As Hiram Sees It

"Hiram," said the Times reporter, "are you prepared to contribute to a fund for a Home for Doctors?" "Is that perilled for in that no medical act?" queried Hiram. "No," said the reporter, "but I see that a child with diphtheria was treated by faith, and I hear of a man who went after his insurance and testified that he had not engaged the services of a doctor for over forty years. You can easily see whether we are tending. The department of health declares it will not rest until we are a robust people, with no weaklings among us and no preventable diseases. The bulk of applicants for the treatment of ailments may grow. What then will become of our friend the doctor? He will not even be engaged to keep people out of the hospital for them when they are ill."

"If he's willing to write prescriptions for booze," said Hiram, "he might get along for a spell. But not for long. You ain't me won't see the time when the 'won't be no use for doctors. What 'ud a lot of 'wimmin' do if they hedn't a doctor to come in an' listen to a string of symptoms as long as your arm? An' the health department can't gimme no guarantee I won't fall off a load of hay, or get kicked by a colt, or busted up by one of them otomobiles with flare headlights on the Mash Road. If I hed a boy that wanted to be a doctor I'd tell him to go right ahead an' get through college. No health laws 'll ever stop us from hev'in' a crop of accidents an' fools 'n-o, sir."

BET MADAME IS PRETTY CROSS AT THE PRESIDENT OVER THIS

New York, May 7.—President Deschanel of France has refused to permit Mme. Deschanel to accept a \$5,000 hat offered her by 3,000 American milliners. The hat was made from material supplied by each of the 48 states and decorated with nine paradise plumes, each costing \$500.

Study of Profiteering in Industry in U. S. Statement by Former Secretary of War Labor Board—Declares Profiteering Is Great Cause of High Prices.

Washington, May 7.—A study of profiteering in American industry, made under auspices of the railway brotherhood, was presented to the railroad labor board yesterday in support of the railway workers' demands for higher pay and to refute a charge that increased labor costs are responsible for the high cost of living.

OLD HOME SUMMER PROJECT SHAKY

Financial Assistance Lacking, Says H. C. Crowell of Halifax.

Halifax, N. S., May 7.—H. C. Crowell, speaking before the Young Men's Union of the First Baptist church last night, announced that he had been compelled to give up the Old Home Summer project on account of lack of financial assistance. There is at present, however, a bill before the local legislature to create a commission which he believed would carry the project to the consummation that the whole province was now desiring.

GREENWOOD WINS

Re-Elected in By-Election for Sunderland Irish Secretary, Who Is Canadian, Has Large Majority Over Labor and Independent Labor Candidates.

Sunderland, Eng., May 7.—Sir Ham Greenwood, chief secretary for Ireland, was re-elected to parliament today in the by-election necessitated by his recent appointment to the Irish secretaryship. Sir Hamar received 22,813 votes as against 14,379 for V. H. Rutherford, the Labor candidate, and 5,065 for W. Howe, Independent Liberal.

At the general election in 1918 Sir Hamar, a Coalition Liberal, was returned by about 2,000 plurality over R. N. Hudson, the Unionist candidate. The Labor candidate in the election polled 9,578 votes. No Unionist opposed him in the present by-election.

Rebels Prepare To Attack Mexico City; Is Carranza In Flight?

Mobilization of Troops at Juarez Is Continued Numerous Reports That President Is Leaving Capital Await Confirmation — Rumor Also That He Seeks Compromise.

El Paso, Texas, May 7.—Mobilization of troops believed to be intended for use in a concerted attack on Mexico City continued today at Juarez. Authentic information regarding the numerous reports of the flight of President Carranza before the spread of the revolution was awaited. According to the reports here concerning the departure of Carranza, his son-in-law went to Vera Cruz several days ago to prepare for the president's coming.

Military headquarters at Juarez last night, however, denied a story that the headquarters had received a telegram announcing that President Carranza had left Mexico City for Vera Cruz yesterday.

T. R. Beltram, commercial agent of the Liberal constitutional party at El Paso, is authority for the statement that Carranza had been forced to seek a compromise with the revolutionary forces. General Calles, commander of troops in northern Mexico, told the Associated Press correspondent yesterday, however, that he did not believe the revolutionists would consider any proposal until actual conditions upon which a compromise would be made were outlined.

A BIG PRICE FOR A TACK

Doctor Awarded \$25,000 Damages for One He Swallowed—Still There and May Be Disastrous.

New York, May 6—A verdict of \$25,000 damages caused by a tack in a bowl of soup was awarded to Dr. Moritz D. Spitzer, 225 East 14th street, in a suit against the Childs Restaurant Company.

The verdict was given in Justice Finch's part of the supreme court. The evidence showed that Dr. Spitzer ate the soup in a Childs restaurant at No. 42 East 14th street on Dec. 28, 1915, and that the tack is still in his abdomen. Two of the witnesses were in France during the war, and their testimony was not available until now.

Dr. Spitzer said he first felt a tack in his gums, then a sharp pain in his throat as he swallowed. He found another tack still in the plate of soup, he said, and showed it to the manager of the restaurant, who was at a loss to explain it. X-ray photographs, showing the tack in the abdomen, were part of the evidence.

Physicians said the tack might remain for years without doing any harm, but might at any time necessitate a serious and possibly fatal operation.

WIDOW CONTESTS WILL OF G. E. THYME

Dedham, May 7—An attempt to break the will of the late George E. Thyme of Brookline has been started in the Norfolk Superior Court, civil session, before Judge Brown and a jury. Mrs. Lisette W. Thyme of Brookline, the widow, who, out of her husband's estate of \$125,000, was willed only the income from \$10,000, which goes to the Massachusetts General Hospital on her death, is contesting the will.

Mrs. Thyme alleges that her husband was of unsound mind at the time the will was drawn and that he was under the influence of Mrs. Margaret Madden of 145 East 84th street, New York city. Mrs. Madden, who for fourteen years was a maid at the Thyme home, was given \$5,000 by the will. All the other property was given to charitable institutions, most of them German societies in New York and Boston.

Mr. Thyme was eighty-four years old at the time of his death and was a retired jewelry case manufacturer. Mrs. Thyme was his second wife.

X-RAY NOW USED IN EXAMINATION OF WORKS OF THE OLD MASTERS

London, May 7—Examination of old masters is the latest use to which the X-ray has been put. The results, as Maj. G. W. C. Kaye demonstrated at the Royal Institution, are important.

He showed two pictures by Dutch masters, one representing the Madonna and another the Crucifixion. In the former the Madonna appeared to be looking at something which was nonexistent on the canvas, but radiograph examination proved that the missing something was a child, which a former owner of the picture had evidently disapproved and had painted out.

In the second picture a woman in an attitude of prayer was discovered to have been painted over what was in the original the figure of a man in monk's garb.

SUGAR-GROWING BIG GOLD MINE

Havana Is Becoming City of Palaces—Values Are Soaring.

New York, May 7—Sugar land in Cuba costs fifteen times as much now as it did before the war, according to Leopoldo Dotz, Cuban consular-general to America, who arrived on the Ward Line steamship Mexico from Havana. "A tract of about thirty-three acres of sugar land, which formerly sold for \$1,000," he said, "now brings about \$15,000. The present prosperity of Cuba is reflected in the prices. A sugar mill at Camaguey, valued before the war at not more than \$5,000,000, was recently sold for \$14,000,000, and still more recently it changed hands again for \$17,000,000. "The city of Havana is becoming a city of palaces, with values multiplied

Most of the new homes cost from \$5,000 to \$1,000,000. Rodman Wanamaker bought a residence for \$1,000,000 which was formerly valued at about one-tenth of that. This is a fair sample of way prices have been going up."

The closing meeting of St. Lu girls' branch of the W. A. was last evening and an enjoyable sup was served to the members. Mrs. McIntyre, diocesan treasurer, on behalf of the branch, presented to Miss Be Harris, the president, a life members certificate and a gold membership

EVERLYN NESBIT SUES AGAIN.

Seeks Property Claimed by Husband in Summer Camp.

New York, May 7.—Everly Nesbit has filed suit in the supreme court against her husband, Jack Clifford, to recover personal property valued by her at \$4,000. The property consists of household goods, books, a large motor boat, a row-boat and a canoe and several novels by Russian authors. The property is said to be at a summer camp in the Adirondacks occupied by Miss Nesbit and her husband. She brought suit for divorce against him after he had sued her in New York county.

SHABBY TREATMENT.
To the Editor of The Times:
Sir,—On April 23 last a letter was received by the local office of the employment service of Canada from H. Herford, Ottawa, stating that the office would be closed on Saturday, the 24th inst., but that salaries would be paid until the end of the month.
Seven days' notice was given the returned men in that office one, at least of whom had successfully passed the senior civil service examinations immediately on his return after four years of service in the ranks of an infantry battalion in France.
William Fox, secretary to the Civil Service Commission, in his reply to one of the men who asked what prospect there was that he be placed in another department, stated that he would be kept in mind for a position at a salary of \$960 or considerably less than he had been receiving. In other words, this man passed his examinations and yet did not receive as favorable treatment from the commission as other men who did not pass. This service has not yet been paid the money they earned for the month of April.
This is hardly creditable to the Dominion of Canada.
Thanking you, Mr. Editor,
PERCY J. STEEL.

MEMORIALS TO CANADIAN DEAD

Ottawa, May 6.—On eight different battlefields in Europe memorials are to be erected to Canada's fighting dead. The total cost of the work is estimated roughly at \$1,500,000. The committee has selected eight sites for the memorials. In Belgium, sites at St. Julien, Crest Farm, Passchendaele and at Hill 62, Observatory ridge have been accepted as gifts from the Belgian government. A site at Bourlon Wood has been accepted as a gift from Comte De Francoeurville, Mayor of Bourlon, and four other sites, at Hill 145, Vimy, at the cross roads of Dury, at Courcellette and at Hospital Wood between Caix and La Chesnel have been acquired by the committee at a total cost of \$1,500,000.

COTTON WAGES MATTER IN ENGLAND SETTLED.

Manchester, May 7.—The wages dispute in the cotton trade, which involved 400,000 operatives, has been settled. The operatives have been granted an increase of 28 1/2 per cent with an additional ten per cent to mate card-room workers. The agreement is to last twelve months.

AIRPLANES FOR FISHING.

The U. S. navy department will cooperate with the menhaden fishermen who plan to utilize airplanes to assist them in spotting huge schools of the fish to the extent of allowing the aviation field of the naval base at Hampton Roads, No. naval aviators will be employed in the work of scouting for the fish, but all of the government's data collected on hundreds of flights of the Virginia coast will be placed at the disposal of the fishing concerns.
The menhaden fishing industry is one of the largest on Chesapeake Bay. There are fifteen or twenty large factories engaged throughout the year in converting the catch of a fleet of twenty-five or more trawlers into oil and fertilizer. Hundreds of men are employed, including experienced fishermen and seamen who annually catch scores of thousands of menhaden.
The aviator will fly out in advance of the fishing fleet, circle in great arcs covering hundreds of square miles and signal by wireless when he sights the schools. As plans progress more aviators and more fishing trawlers will be employed, and where the gregarious menhaden are now scooped by the ship they will then be caught by the ship load.

EDUCATION.

That education should be regarded as of national as well as of local and state importance is a conviction which is spreading in the United States. At a recent meeting of the Harvard Teachers' Association a federal department of education with a secretary of education in the president's cabinet was favored by most of the speakers. President Judd of Chicago University expressed the general view in the following extract from his address:

"The department of education, if it is to be effective, must be endowed with power to help and even to compel backward States to act for the improvement of education. What we need in this country is a national insistence on improvement in the States. We do not feel confidence at the present time in state educational organizations. We are not content to let the different sections of the country go on without answering to the nation. Our plain duty is to create a national department which will be something more than a passive witness of what goes on in the States, something more than a recording and auditing agency."

"We have reached the stage in the evolution of our American school system when narrow, local control and support, and even centralized state control, must be supplemented by a broader national participation in educational organization. A national educational agency should be created which can encourage and compel progressive improvement in local schools. To this end the national department should be endowed with supervisory powers. These powers should be made effective by legislative enactments which will compel the States to show full grounds for all federal funds apportioned to them. The powers conferred on the department should be made so explicit as to remove all possibility of arbitrary domination by the secretary of education or his agents, but they should, on the other hand, be explicit enough to make clear the obligation of each state as a party to the national policy. The federal department of education thus created should include the bureau of education, the federal board for vocational education, those divisions of the department of agriculture that deal directly with public schools and such other divisions of the federal departments as full and explicit conference shall show to be directly related to public schools."

Canada hopes that much benefit will result from the great educational conference held in Winnipeg, which recognized that there was need of infusing the national spirit more effectively into our educational system. There are perhaps obstacles here which will be less easily surmounted than in the United States, but there can be no question that federal aid is necessary to achieve the most satisfactory results. It has been too much the tendency to permit localities to have good or bad educational facilities as pleased the generosity or the selfishness of the people. A system that would bring education to all, and at the same time foster high ideals, and a true national spirit from coast to coast, should be the aim of governments, provincial and federal.

THE WAGE PROBLEM.

As wages advance beyond a certain point the amount of available employment is reduced. It is therefore a question as to what extent labor will eventually profit by rising wages and shorter hours. For example, in the building trades in Chicago the demand is for ten dollars per day for an eight hour day, but it is announced there will be a curtailment of fifty per cent. in the amount of building activity, and this will sharply affect other lines of business and those employed in them. Since increased production would tend to lower prices, it is by no means clear that higher wages, shorter hours and lessened production will solve the worker's problem. For this reason it would seem that the men who have gained their point in Chicago will not be any better off at the end of the year, while many other people, because of lessened employment and general business will be worse off. The class which really suffers most is the salaried class, which is unorganized and must merely look on while prices advance much faster than salaries. There must be an end of the industrial strife which divides capital and labor into opposing camps and brings the greatest suffering to those who are not directly a party to the dispute. Organization of what is termed the middle class is suggested as a remedy, but the struggle would still go on. The greatest trouble is the class-consciousness already existing and which prevents capital and labor from getting together.

Five new steamers have lately been added to the Canadian Merchant Marine. The vessels of this growing fleet have only two winter ports on the Atlantic, unless they use American ports. St. John and Halifax should be their winter ports, and the ports should be equipped to handle their traffic. What does the government propose to do about the ports? Another winter port is being constructed.

FORESTS THAT PAY.

We hear a great deal these days about waste of forest wealth and the need there is for a policy of nation-wide conservation. Forestry is a paying business in some countries. Note, for example, this paragraph from an exchange:

"The Swiss, among other European peoples, solved the problem of a continuous supply of lumber years ago. Zurich, in Switzerland, has a 2,800-acre communal forest, regularly renewed by scientific forestry methods, which yields the community some \$20,000 a year, or about \$7 an acre. The annual 'crop' of trees goes mainly for firewood. This forestry not only safeguards agricultural lands against damage from the elements, and benefits the climate, but it also affords a direct, well-paying business."

Of course it will be many years before such a necessity arises in America as has caused European countries to adopt so progressive a policy, but we are wasting our resources year by year, and cannot afford to go on pursuing that course. It is quite possible to get a large return from forest areas without stripping them bare; and it is also possible to prevent a great annual waste through fire. The paper shortage has directed public attention to this subject in a very special way, and made it clear that carelessness and waste in cutting timber means great future loss to the country.

They are having a Boys' Week in New York, and thousands of boys are engaged in track meets and other activities while the attention of parents is directed to the importance of giving the boys opportunities for proper development. On Tuesday the streets in front of every school were closed to traffic from 1 o'clock while the boys held track meets under police protection. This is a recognition of the right of the boys to a chance to play. In the matter of playgrounds and recreation spaces New York has expended millions of dollars.

It seems safe to say that St. John is to have a great modern hotel, conducted by a corporation owning many hotels of the first class, and in a position to bring business as well as to take care of it. The need is obvious, if the city is to be placed in a position to accommodate comfortably the traffic of all seasons of the year. Today the city does not even boast of a public dining hall large enough to accommodate a big banquet. Such a dining hall and an auditorium for great meetings and conventions are very much needed.

Two straightforward utterances have been made by British statesmen this week on the Irish question. Baron Birkhead has asserted that in no conceivable circumstances would the government concede the demands of the Sinn Fein, and Premier Lloyd George has declared that the government will take no official notice of agitators in the United States who are interesting themselves in Irish affairs for political purposes. Mr. Bonar Law adds that demonstrations for such a purpose do not represent the real sentiment of the American people.

MERCHANTS FROM ENGLAND TO TOUR UNITED STATES

Will Make Study of Department Stores — Twenty in the Party.

New York, May 7—(Canadian Press)—Wireless messages of welcome to an incoming party of twenty British merchants aboard the liner Celtic were sent yesterday by Secretary of Commerce Joseph W. Alexander and the National Retail Drygoods Association. The merchants, who will be guests of the association on a six weeks' tour of the United States, come commissioned by the British Board of Trade as representatives of the Drapers' Chamber of Trade of the United Kingdom, to study department stores.

The delegation is headed by F. W. Cook, of F. W. Cook Limited, of Dudley, Worcestershire, Britain, and Birmingham, chairman of the Drapers' Chamber of Trade.

The Housing Problem. Fredericton, N.S.—Some families were not able to secure houses May 1 and the civic authorities are trying to place them in temporary quarters until other arrangements can be secured.

LAP OF SPRING.

The spring was slow in coming, I thought 'twould ne'er appear; but now the bees are humming, and jays and things are here. Before the dawn of Easter warm days betokened spring; I ground my spade and gressed her, and started gardening. I cried, "The winter season is buried in the past; and spring, which has no fleas on, has come to stay at last. Farewell to winter weather, which bores me and annoys, so let me get together, and sing of vernal joys." Alas, on Easter morning old winter had returned; and from its solemn warning a lesson I have learned. Hereafter I'll be cautious about announcing spring; for people come and I will admit that in the arctic regions the blizzard works have quit. Oh, Easter was a hummer, and winter had its fling, and I will wait till summer before I look for spring.

THE TRUE BIBLIOPHILE.

What is a bibliophile? Mere lover Of Whatman page and Meane-made cover, Of crushed levant whiereound doth hover

A rare aroma? Whose bookcase, double-locked, affords Such ancient treasures bound in One has suspicions that it hoards An S.M. Homer?

What is a bibliophile? Mere seeker For finds to make all rivals meeker— Now down in Ann Street, now in Blecker,

That some neglected shop may show A fine opened, pristine Poe, Flanked by an unfoxed Folio, With provenance?

What is a bibliophile? Mere sifter For Treas, Derome and Payne? A buyer Of Incunabula by wire, Or tall Bodoni?

Who, in his dreams, of sales doth rave, To others' bidding still a slave, And oft to many a bookish knave Who claims him crown?

These things I do not hold as gaud; But must one, as a bibliophile, Be captive on a treasure trove, And live as I live as I live?

"Better better not to hoard or spend, Better to borrow books—or lend— And know, like Field's o'er-tipped friend, Their insides only."

Give me the man who's always finding His heart in books, in the binding, With threads of love about it winding— A book no longer;

Who laughs with Lever, smiles with Spouts "rare Ben Johnson," or with Sam Learns to despise the great world's sham, And so grows rosiner.

Ah! though you have all Rosinantes Were ever drawn for billicie Cervantes, And all the text of all Dantes, "Will little profit"

If you shall feel not in the Knight The paths of his human plight, Or share not in the Stygian-sight The terror of it—

LIGHTS REVEIN.

The Explanation. She—Sometimes you appear really manly and sometimes very effeminate. How do you account for it? He—I suppose it is hereditary. Half of my ancestors were men and the other half women.—Dallas News.

Just Preparing. The Sunday school teacher was astounded to see one of her small pupils sitting on a young's seat and holding him tight to the ground. "Why, Johnny," she exclaimed, "didn't I tell you not to strike anyone until you had counted 100?" "Ain't hit 'im yet—sixty-five—seventy—seventy-eighty."—Harper's Weekly.

"Witness," asked the attorney for the defense who was trying to prove the temporary insanity of the prisoner, "is it this man's habit to talk to himself when alone?" "Just at this time" returned the witness, "I don't recollect ever being with him when he was alone."

A few weeks ago the mayor of Los Angeles slipped away from business and made a personal tour of "Sonora town" to get a line on conditions there. During the tour his eye was caught by a truck in a shop window and he stepped in to purchase it. The proprietor was just about to close up and, in fact, had already taken his eye into the back room. As he had to bring it back in order to make change he called his young son and, perching him on the counter, whispered in his ear to keep his eye on the customer. A moment later he returned with the change and the boy hurried out. "He didn't steal anything, daddy; I had my eye on him every minute."

In a collision between an auto and a load of hay the driver of the latter was projected into the village road on his head and lay there semiconscious until two occupants of the more speedy vehicle lifted him out of the dust and started to carry him toward the sidewalk.

"Shall we take him into that undertaker's place there, or to the drugstore farther down the street?" asked one of the burden-bearers.

The victim raised his head with alacrity and vociferated: "Take me to the drug store first, you darn fool!"

ROTARIANS AND GARDENS.

Last year there were nearly 200 returned men working vacant lots in Toronto, 15 of them at Withrow Park. The Rotary Club has conducted the enterprise for four years to the satisfaction of many soldiers with large families and small back gardens at home. About 250 acres of vacant lots is cultivated, divided into 45 gardens, 40 feet by 100 feet. The Rotary Club provides free seeds and, as the land is free, it costs the citizen nothing. George Baldwin, head of the movement, estimated that the vacant lot produce was worth \$50 to \$100 to the producer, and declared that the cost of living today called for higher production juts as much as during the war. The Rotary Club, he said, still needed vacant lots for the supply, as applicants doubled the supply.

CAN IMPORT LIQUOR.

Ontario License Ruling on Summer Residents.

Those having summer homes in Ontario, whether they be citizens of the United States or Canada, are entitled to import liquor from Montreal to such homes in the same way as persons permanently domiciled here, according to a ruling made by the Ontario license commission, which are charged with the administration of the Ontario temperance act.

Chairman Flavell said that the owner or tenant of a summer cottage would be entitled to store liquor in such dwelling, and if he did not wish to take it, he might have it stored in a place care taker in charge, but he could not legally remove the liquor to the caretaker's dwelling or any place other than his own private home.

United States citizens owning cottages at Crystal Beach on Lake Erie, a Grimsby or Lake Ontario, in the vicinity of Windsor and elsewhere in Ontario, have been making inquiries as to the legality of importing liquor to their summer residences.

POLAND'S AMBITIONS.

(New York Evening Post.) If the Polish campaign against Soviet Russia is only a manoeuvre in the prolonged peace discussions with Moscow, if its purpose, as asserted in some quarters, is to force Lenin to a more compliant attitude with regard to Poland claims, then it can be only said that the methods adopted by Warsaw far outrun the objective. By opening up a war in defence of Ukrainian independence Poland has opened up an entirely new issue. It has begun a war which cannot be terminated on the Dnieper, but which involves the existence of Russia as a whole.

The new issue has come to the front with startling suddenness. Last winter there was the fear of a Soviet "drive" in the spring, and the Polish army was brought to the front for the event. The spring drive did not come off. Fighting did not break out over the question, apparently of peace discussions should be conducted. Suddenly the issue broadened. Poland addressed demands to the Soviets calling for the restoration of the Polish boundaries of 1917, together with absurdly extravagant economic and financial concessions. It was certain that the Soviet government would not consent to such sacrifices in territory and to permit the Poles to establish themselves in Moscow when striking distance of Smolensk.

But the separation of Ukraine from Russia, for which the Poles are now fighting, is a still more vital question. Within the Ukraine Russia cannot live. Every faction in Russia has recognized that fact, Bolshevists no less than monarchists. Denikine destroyed his chances of victory by diverting his attention from Moscow last summer and began fighting with Petlura. The procedure was suicidal but the motive behind it every Russian can understand and sympathize with. Ukrainian independence, even if it should be respected by a victorious Poland, means the utter dismemberment of Russia. For Lenin to consent to such a step would be to arraign against himself the forces of Russian nationalism which have so conspicuously helped him to victory against Kolchak, Denikine and Yudenitch.

If the new war is to go on until Ukraine is liberated, then we have a war to the death. That is a ghastly prospect which the civilized world cannot tolerate. Allied pressure should be brought to bear at Warsaw to check an adventure threatening dire consequences and undertaken without due cause. Full autonomy for the Ukraine is assured under any Russian regime. Separation of the Ukraine from the Russian regime will tolerate.

WHAT WOMEN MUST DO.

(Toronto Telegram.) "The measure of a civilization is its care of its children. All the progress of the race is made on the little feet, not the big ones!"

This was the point which Mrs. Jane Ripplin emphasized most at the Big Sister luncheon. "Look to your little girls," was her beseech, and at the conclusion Mrs. Sidney Small echoed it by declaring this was now an outstanding duty.

"I've yet to see the reformatory that reforms," declared Mrs. Ripplin in urging women to look after the young girls. Moral disintegration is so slow that it is almost hopeless to save the confirmed class. The reclamation of a first case is simple, but others are almost helpless save by a straight religious appeal at a psychological moment.

"This is a work that's got to be done by women who were in rocking chairs before the war. Some of them got out of them during the war and they should never get back again."

So said Mrs. Ripplin in urging the necessity of more protection of our girls. "One day," said she, "women aren't going to be children. They're going to reach down a hand to the women who have snatched society a bit. Women are going to be more loyal to each other. Have you ever contemplated the fraternity of man?"

That the detention home for juvenile delinquents should be used as a place of observation and inquiry was the advice given to the Juvenile Court Committee in the City Hall today by Mrs. Jane Ripplin, noted social service worker, Philadelphia. A juvenile court should be looked upon as a court for good people, not bad. Preventive social work, she declared, should become as important as preventive medical work.

The Mission Band of Carmarthen rect church gave a fine concert in the school room last night under the direction of Miss Stella B. Brier. The following took part: Gerald Milley, Hilda Clark, Hazel Hayman, Harold Green, Margaret James, Christian Mercer, Bessie Vay, Maizie Edmondston, Gladys Frindle, Doris Brindle, Lillian Foster, Stella Fox, Hazel McBeath, Margaret James, Ethel Brindle, Jean Hoyt, Alice Orr, Bertha Hoyt, Freda Hoyt. The sum of \$40 was realized.

The Y. P. S. of Centenary Methodist church staged a two-act comedy, "Sally Lunn," last evening. The entire cast took their parts well, under the direction of Miss Laura Baxter, to whom much credit is due. The following took part: Miss Elizabeth Good, Allison Cushing, Miss Nan Powers, Arnold Young, Laura Baxter, Miss Star McAlister, John Chisholm. Those taking part in the chorus were the Misses Mildred Wilson, Alice Young, Jean McAlpine, Sally MacDonald, Blanche McColgan, Marion Terry and Horace Britain, Arnold Young, John Chisholm, Ellsworth Field, Reginald Brown and Laurence Manning. Miss Hilda Brittain was accompanist.

At the annual meeting of the Women's Missionary Society of the Queen square Methodist church held last night a life membership was presented to Miss C. E. Pratt, Mrs. C. W. Dickinson, being president, made the presentation, being ably seconded by the first vice-president, Mrs. E. Blizard. The election of officers resulted as follows: President, Mrs. C. W. Dickinson; first vice-president, Mrs. E. Blizard; second vice-president, Mrs. T. O. Dale; recording secretary, Miss T. O. Dale.

RECENT WEDDINGS

At Grand Falls on Monday morning last the wedding of Miss Rose McCluskey and Charles Bohan of Bath was solemnized in the Catholic church by Rev. Fr. Joyner. They will reside in Bath.

RECENT DEATHS

J. Herbert Hughes died on Wednesday at his home at Sea Dog Cove, aged forty-three years. His wife, three children, a brother and two sisters survive.

Mrs. Gompers, wife of Samuel Gompers, president of the A. F. of L., is dead in Washington.

At Maple View, Victoria county, William P. Flanders died on April 21 at the age of ninety-three years. Death was caused by shock following upon the breaking of his leg. For a number of years Mr. Flanders and his brother John conducted the Farmers' Hotel in St. John.

DR. MACLAURIN LEFT

A \$60,000 ESTATE.
The will of Dr. Richard C. MacLaurin, late president of the Massachusetts Institute of Technology, who died on Jan. 5, was allowed by Judge Lawton this week in the probate court at East Cambridge. His wife, Margaret A. P. MacLaurin, is appointed executrix and has given a bond of \$90,000. President MacLaurin's estate is valued at \$60,000, all personal property.

COMBATING LABOR SHORTAGE

(Toronto Globe.)
At least twenty tractors have been purchased by farmers during the last year within a radius of ten miles of the city of Peterboro, says Geo. A. Gillespie of that neighborhood, while A. A. Knight, agricultural representative of Victoria county, said that the same was true of a like area about Lindsay. According to the agricultural representative of Lennox and Addington, C. C. Main, twelve machines have been sold by one dealer in Napanee this spring.

Mr. Gillespie further said that at least five per cent of the dairymen in the Peterboro district have installed milking machines, while Mr. Main claimed the same for Lennox and Addington.

Another factor noticed in this general direction is that three-horse outfits are commonplace sights on Ontario farms today. But for the changes in this respect, the reduction in general farm production would be greater than it is.

MUST PRACTICE LESSON TAUGHT IN GREAT WAR

Lord Shaughnessy Says More Production and Less Waste Is Solution.

New York, May 7.—"Increase production and waste less" is the advice tendered by Lord Shaughnessy in a review of the present day outlook, published in The Wall Street Journal. "It should be our prayer," says Lord Shaughnessy, "that contraction be not swift, and that price correction be orderly and spread over a long period. "History will repeat itself, as it did after the American revolution, after the civil war, and after the great European wars of olden times," continues the statement. "There can be no real liquidation of wages until commodity prices are lowered. It was true a year ago and remains true now. We must increase production and decrease wasteful consumption. In other words, we must reverse the industrial processes necessitated in both Canada and the United States by the war. The war consumed more men, more food, more clothing and more raw and wrought material than all the wars since 1760, though it left mankind richer than ever before. I believe in the royal but yet unwoven fabric of good-will. Produce Natural Deflation. "On the broad, strong, and I hope, the willing, back of these two countries rests the chief task of producing more and wasting less. The United States, through its reserve system, and Canada, through its branch banks, can hasten this process through judicious conservation of new credit. But a broad concerted pro-

programme of contraction in either country would still be a congestive stricture. We have no such programme or formula here. It is the task of the farmer, merchant and manufacturer, and finally of the consumer, to co-operate with the bank to produce natural deflation. After the warning against the dangers of too rapid contraction, the statement proceeds:— Getting Best Settlers. "For the past fiscal year Canada has a favorable trade balance of \$221,000,000. Our current commercial debt to the States is the one drawback. Perhaps American immigration more than compensates for that disparity. In time it

will be overcome. Both countries have thrived on adverse as well as favorable trade balances. I believe ours has come to stay. We have enough land to provide for all the immigrants we receive. Over 100,000 men, women and children have come in the last twelve months, half British and half American. We are getting the best class of settlers on the earth. "With mounting surplus of products and goods for sale, Canadian merchants, exporters and bankers will hold their own in every market. "We have labor troubles up here. The constant succession of new labor demands is our daily food. They are the natural outcome of the war. It is his-

tory repeating itself. The workmen must be fed and clothed after a war as well as before it. War stricken Europe itself is not innocent of the same fantastic craze to spend, which sends automobiles, jewelry, art works and artists over all the seas in all directions. Misery spends to forget it has so little, and prosperity wastes, perhaps, merely because it has too much and seeks a new sensation.

Pensions System Corrupt. "The American soldier's demand for a \$2,000 bonus has its counterpart in the Canadian's claim for \$2,500. Canada has provided for her soldiers, their widows and children. She has fitted them for occupations and has supplied the occupations. They have been given honorable precedence in all positions, private as well as public. Our richest farm lands, with funds to finance them, have been theirs for the asking. We hesitate to comply with a demand which would dim a record as illustrious as the classic glory of ancient Greece, and would entail a greater final cost on them than any possible benefit. For ourselves, we feel no man who has lived long enough to remember the expanding corrupting pensions system built up out of the civil war would care to see the experiment tried here.

Summer Clouds. "We all have our present cares and troubles. Aside from the singular fact that we are doubtless much better off with than without them, every thinking man should have foreseen them. They are the phenomena of bygone reconstruction areas again passing in view. These summer clouds will soon disappear. But we must be brave enough and true enough meanwhile to impose some further moratorium on our individual interests. That lesson of the great war we need to practise a little longer."

FARMERS LAUGH AT POTATO BOYCOTT Say They're Scarce — Asked \$7 a Bag in Hamilton Yesterday.

Hamilton, Ont., May 7.—Farmers are asking \$7 a bag for potatoes here. They laughed at the women's potato boycott, and predicted that prices would go still higher, saying potatoes were scarce.

Halifax, Ont., May 7.—With the arrival of the first boat of the season here on Wednesday the people expected to be able to obtain potatoes, but the 200 bags on board were destined for Pittsburg by way of Toronto. The mayor wired the Board of Commerce asking what should be done to end the potato famine here. It is said that two potato speculators secured more than 2,000 bags before navigation opened, yet the people of this town cannot get potatoes.

PUBLIC CAN BRING THE PRICES DOWN

Selfishness the Chief Obstacle, Whether in Regard to Clothing or Other Things.

(Christian Science Monitor.)

There is perhaps nothing more curious in the whole economic battle of today than the fact that those who claim to be suffering from the effects of present conditions, have the victory in their own hands at any moment they choose to achieve it. Two things alone stand in their way. First, a want of organization; second, their own selfishness. Now the first of these obstacles is not a serious one. In only the last few weeks its immateriality has been proved by the rapidity with which what are known as the Overall Clubs, in the United States, have organized themselves without, if the paradox may be permitted, any organization at all. There is, indeed, no question that if those who clamor against existing economic conditions were serious enough, the want of organization would present no obstacle at all to their success.

The real obstacle is a quite different one. It is the selfishness of those concerned, expressed very largely in their disinclination, even for a little while, to do without certain luxuries which are not necessary to them, and certain so-called necessities which could easily be dispensed with for a season. The Overall Clubs have supplied the whole world with an object lesson, which it may take to heart with advantage to itself, for there is not the slightest reason, except its own vanity, why, by a deliberate abstention from new clothes and expensive clothes, it should not settle the question of clothing in, as it were, a night.

The truth about the clothing difficulty may be easily summed up. There is not enough fine woollen cloth in the world today to go round. There is wool in abundance, wool to spare, wool awaiting and bursting out of the warehouses, and covered down in tarpsaulin on the wharves. But this wool cannot be made into fine cloth for want of machinery, and, owing to the destruction of the war, this machinery cannot be had immediately, indeed it is calculated that it cannot be had for perhaps two years.

With respect to coarse cloth, it is somewhat different. There is machinery for supplying some of the demand for this, but the demand is in the main, a negligible one, because of the insistence of the public on the fine cloth. What follows is extremely simple. When a limited amount of cloth is short in the market, the popular demand being entirely in excess of the supply, the price is forced up by the public itself in its insistence on obtaining something other than the heads of its neighbors. It is here that the selfishness of the public comes in, and, in coming in, places its hands on those who, for their own ends, are only too willing to force up the price of cloth. Even in countries, such as England, where the government takes as its motto the surplus profit on wool, there is no check on this action, and this for the very simple reason that the government is not a profiteer, with the result that the higher the spinner sells, the larger becomes its own profit in the transaction. Consequently, that some form of compulsory savings be inaugurated and applied to all classes. One of our chief troubles today, Mr. Minot claims, is our failure to recognize that the steady accumulation of capital is a prime essential of all civilization and progress. Every form of human activity is dependent on it, yet we have treated its accumulation as a purely voluntary matter, with the result that a small portion of our people provide it all, or nearly all. Naturally enough, when a relatively small proportion of the people get possession of what is a prime essential of existence, they exercise an influence which is out of all ratio to their numerical strength. The remedy, according to Mr. Minot, is not to restrict the accumulation of capital, not to discourage it, nor yet to have the government take it away, but rather to force everybody to become a capitalist, just as we compel every one to become a taxpayer. Ten per cent. of every income is the amount suggested as the annual contribution to the nation's supply of capital. The action of the government would be limited to seeing that this percentage was annually deducted from income and duly invested somewhere, leaving to every individual full discretion in the selection of his particular investment. A plan of this sort, he believes, would yield savings amounting to nearly four billions per year. To the objection that the present cost of living is so high as to preclude the wage earner from doing anything of the kind, Mr. Minot retorts that wages would have to be adjusted upward, as they have been from time to time for other reasons. But he believes that the increase of capital and the greater feeling of independence on the part of the wage earner, would ultimately bring the cost of living down. At any rate, the proposal is rather startling in its novelty and at least affords us a theme for discussion.

ness plays into the hands of the selfishness of the dealer whom it proceeds to blame. If the public would resist the temptation to buy, if the public would be content to reduce its demand for sugar, at a very slight inconvenience to its own appetite, if it would altogether refrain from the candy store, the sugar question would be settled in an afternoon. As it is, it is perfectly childish of it to blame the dealers for raising the price of sugar and sugar, when the demand of its appetites, or to demand that the government should reduce the sale of sugar to the makers of candy, when the public is not compelled in any way to purchase candy. So the whole question turns and turns in its own vicious circle, for clothing and sugar are but two items in an innumerable host of commodities, enormous numbers of which are subject to the same so-called law of supply and demand.

GASOLENE REPORT.

While foreign countries consume only one-half as much petroleum as the United States, they hold seven times as much oil in the ground, as is shown by figures of the United States Geological Survey, announced on Tuesday. Foreign countries are now using about 200,000,000 barrels of oil yearly, and at this rate have resources sufficient to last 250 years.

Figures for the United States show that this country has only an 18-year supply with an annual production of 400,000,000 barrels. In other words, the United States is using up its own oil supply fourteen times as fast as the rest of the world.

Investigation by geological survey experts of the world's oil resources, show that, not counting oil to be obtained from shales and other retortable materials by distillation, the supply of recoverable petroleum is at least 60,000,000,000 barrels. Of this, 45,000,000,000 barrels is regarded as oil "in sight" as shown by drillings. The remainder is oil which it is believed will be found in other regions in which geological conditions are favorable but where no producing wells have been drilled.

Of this 7,000,000,000 barrels are believed to be left in the United States and Alaska. The remaining 53,000,000,000 are in foreign countries.

The supply is said to be about equally divided between the old world and the new, but as in the case of coal it is believed more oil will be developed north of the equator than south.

Warning of the probability of a shortage of gasoline before the end of summer as a result of the disproportionate increase in gasoline production and the number of automobiles in use was given in a statement Tuesday by the bureau of mines.

EVERY MAN HIS OWN CAPITALIST.

In the current issue of the Harvard Graduate Magazine, Laurence Minot sets forth a plan for making capitalistic by compelling every man to become a capitalist. In other words, he suggests that some form of compulsory savings be inaugurated and applied to all classes. One of our chief troubles today, Mr. Minot claims, is our failure to recognize that the steady accumulation of capital is a prime essential of all civilization and progress. Every form of human activity is dependent on it, yet we have treated its accumulation as a purely voluntary matter, with the result that a small portion of our people provide it all, or nearly all. Naturally enough, when a relatively small proportion of the people get possession of what is a prime essential of existence, they exercise an influence which is out of all ratio to their numerical strength. The remedy, according to Mr. Minot, is not to restrict the accumulation of capital, not to discourage it, nor yet to have the government take it away, but rather to force everybody to become a capitalist, just as we compel every one to become a taxpayer. Ten per cent. of every income is the amount suggested as the annual contribution to the nation's supply of capital. The action of the government would be limited to seeing that this percentage was annually deducted from income and duly invested somewhere, leaving to every individual full discretion in the selection of his particular investment. A plan of this sort, he believes, would yield savings amounting to nearly four billions per year. To the objection that the present cost of living is so high as to preclude the wage earner from doing anything of the kind, Mr. Minot retorts that wages would have to be adjusted upward, as they have been from time to time for other reasons. But he believes that the increase of capital and the greater feeling of independence on the part of the wage earner, would ultimately bring the cost of living down. At any rate, the proposal is rather startling in its novelty and at least affords us a theme for discussion.

URGE DEVELOPMENT OF OUR RESOURCES

Urging scientific development and utilization of federal and provincial resources, the Canadian Labor Press, which is the official organ of the Allied Trades and Labor Council of Ottawa, and has the endorsement of the Hamilton District Trades and Labor Council, the Hamilton Building Trades and Labor Council, and the Kitchener Twin Branches of the Trades and Labor Council, says in a special article: "Association between science and industry gave Germany a strong position in the commercial world before the war. Association between science and industry will help to make Canada economically independent, create new wealth to meet war obligations, and so foster industrial development that new avenues of employment will be provided, and of employment will be assured of steady work at good wages. In their own and in the national interest, Canadian trade unions could well devote to the development of primary processes of manufacture in Canada, would attract capital, stimulate industrial progress, and provide the labor market. (Pursue) an question that adequate provision of facilities for scientific research should be one of the dominant considerations of governments, of agricultural organizations, and of industrial workers in Canada today. There should be joint action to determine and develop the best forest and mineral resources of the country, and generous appropriations for the encouragement of agriculture and improvements of farm methods. The net federal debt is now nearly \$1,900,000,000. In five years the per capita debt charge upon every man, woman and child in the Dominion has risen from \$48.40 to nearly \$210. Science can be made to pay the bill. There is in the forests and in the minerals of the vast areas of Quebec, in the fisheries of the maritime provinces and the Pacific coast. But the value of all this natural wealth of Canada if its resources could be scientifically determined and utilized."

LIBERALS CAUCUS ON THE FRANCHISE BILL

Ottawa, May 7.—(Canadian Press)—Liberal members of the commons held a caucus yesterday to discuss the remaining clauses of the franchise act. The caucus went very strongly against the proposal to disenfranchise enemy country aliens for ten years and a committee was appointed to draft a line of action for the party when the bill comes up for third reading.

LABOR REPORTED SCARCE IN MAINE

Men on Drive Getting \$5 a Day—Heavy Demand for Hotel Help.

(Bangor Commercial) Labor is scarce in Bangor at the present time, although wages are higher than last year, men on the drive receiving \$5 a day. The drive's crews are all in the woods now and park patrollers will be the next crew to leave.

The scarcity of woodmen in Bangor this year seems to be due principally to Canada, after they were through as plenty of liquor could be found there. The typical woodman spends much of the winter in Canada, where he has worked all winter in the woods went on liquor during the period between finishing of the winter lumbering and the spring drives. If he cannot get liquor in Bangor he is going where he can get it and that is what a large number of woodmen have done this year.

Mill hands are scarce this year also, although the very best of wages are being paid, that is from \$8 to \$4.50 per day. The demand for labor and help for summer hotel work this year is very great and the outlook is not very good as labor for this kind of work is scarce at present and promises to be scarce throughout the summer. A number of the best hotels this year will take inexperienced girls for waitresses and pay them first class wages which makes an excellent opportunity for a large number of ambitious girls, but even with this feature, it is not expected that there will be nearly enough girls to supply the demand.

The same situation applies to the spring and summer sporting camps. In spite of the fact that the prices charged at these camps this year will be very high, there will undoubtedly be a large patronage at these camps and of course this will require a lot of help. But at the present time it is impossible to supply the demand. The larger hotels are offering \$30 a month to waitresses, which is \$2 more than last year. The sporting camps pay a little more, averaging from \$5 to \$7 a week. Of course the girls are dependent on the tips for their money and this forces the smaller hotels to pay bigger wages than the larger ones.

PREPARING FOR CONFERENCE

Special Meeting of Board of Trade Council Today

West Indies Delegates Expected to Pass Through St. John—Planning for Entertainment Here and Matters to Be Submitted to Meeting.

The board of trade, which has been in communication with the Trade and Commerce Department, Ottawa, relative to the approaching West Indian conference at Ottawa, received a letter today from Sir George Foster in which he stated that he did not know exactly when the West Indian delegation, composed of representatives from the various West Indian administrations, would arrive in Canada, nor the exact route by which they would arrive. It was his hope that they would come by the R. M. S. P. steamer some days previous to the opening of the conference on May 31. He was trying to arrange that they would have a day or two at Halifax, St. John and possibly Montreal, before reaching Ottawa. He thought it would be a good plan for the board of trade and commercial people to welcome these visitors, secure an interchange of views and make their acquaintance. He further suggested that the board of trade should submit memoranda to him covering such subjects as cable communications, transport facilities, trade relations, associated tariffs, methods of testing sugar and such other topics as they might desire the conference to consider. The council of the board of trade, with Mayor Schofield in attendance, met this morning to consider the request of Sir George Foster. It was the general expression that everything possible in the way of a welcome and in the furnishing of information should be given the West Indian visitors.

D. W. Leidingham, a representative of the R. M. S. P. service, has been requested to ascertain whether the delegates are on their way to Canada, the number in attendance and the probable date of arrival. The secretary was also instructed to secure information from business people interested on the subjects to be laid before the conference and it was decided to ask the co-operation of the city authorities and that of the various city organizations in providing a fitting welcome for the visitors. There are two steamers from the West Indies due to arrive here before May 31. One is expected about May 11 and the other about May 25. At this writing it is not known by which steamer the delegates will arrive.

WATER OFF IN CHARLOTTE AND KING TOMORROW

Work of Connections Necessitates Cutting off Supply, Advises Commissioner.

In carrying out an examination of part of the old twelve-inch main that is being removed from King street, the city engineer remarked this morning that its condition was much worse than he had expected to find it. He pointed out in several places where the pipe was worn to about three-eighths of an inch. The work of jutting in the new valves at the foot of King street to connect up the new 18-inch main has occasioned the shutting off of the water from a portion of King street. Commissioner Jones announced this morning that the cutting off supply from all the north side of King street and both sides of Charlotte street between King and Princess streets, would be closed off tomorrow morning to allow for further connections being made.

FAREWELL TO POPULAR CHIEF

Fine Gifts Presented Today to H. C. Grout

Remembrances From Officers and Assistants of C. P. R. New Brunswick District, With Tribute to What He Has Done.

A presentation of interest took place this afternoon at C. P. R. headquarters, King street, when the officers and assistants of the New Brunswick district assembled to bid farewell to H. C. Grout, who until recently was general superintendent, and is now officiating in a similar capacity in the Ontario district. He was made the recipient of a magnificent old style tator sterling silver service, and a well equipped automobile lunch van. The silver service was suitably engraved in old English and rested on a mahogany tray silver lined. Among those present were Mrs. Grout and family, J. H. Boyle, superintendent of Brunswick Junction; V. A. Haislett, manager of the Fredericton, Grand Lake and the New Brunswick Coal & Railway Company, members of the divisional staffs at Brownville, Woodstock, McAdam, and officials from the various terminals. Telegrams of regret were received from J. R. Gilliland, superintendent at Woodstock; C. C. Kirby, district engineer, and others.

The presentation was made by N. R. DesBrisay, district passenger agent and was accompanied by the following address:

The officers and assistants of the New Brunswick district have assembled here to bid farewell to Mr. Grout, and God speed. These little tokens we ask you to accept, not for their intrinsic value, but for the good feeling which accompanies them and as little mementoes of your sojourn in the land of the Loyalists. From the time of your appointment as general superintendent until your departure extremely friendly relations have existed between all of the departments. It was so marked that it was a matter of comment in other districts. During the war the responsibilities placed on you were far greater than any one could really comprehend unless in close touch with the inner workings of the system, and your promotion to a larger field can be taken as an indication of the company's recognition of your executive ability. Although glad of your promotion, extreme regret is felt by all at your departure from this district. It is needless to say you have our best wishes for continued success and prosperity.

Although not so directly noticeable, a large share of Mr. Grout's successful administration in this district can be attributed to Mrs. Grout, who has at all times displayed a very particular interest in the personal welfare of the members of the staff of the New Brunswick district and their families and in community work generally. It is again regretted that we say farewell to Mr. and Mrs. Grout and family with deep regret. As what happens with the turning of the wheels of progress, "The King is dead, Long Live the King," Mr. Woodman, who through unavoidable circumstances, it is to be regretted, is not with us to join in the presentation, comes to this district from the far west, not including a short period in Montreal, with an enviable reputation in railroad circles, and the assurance is given him of the same hearty co-operation from all which has been such an easy matter to extend to Mr. Grout.

Mr. Grout warmly thanked all for their kind sentiments expressed and for the magnificent remembrances. Last evening Mr. Grout was a guest at a dinner held in his honor at the Cliff Club, of which he was a member. V. G. R. Vickers, formerly general manager of the Dominion Express, was also present.

FOUR MORE ARE REPORTED

Provincial Constables Have Spaces Taped and Put Stop Watch on Speeders.

Four more alleged speeders have been reported by the provincial constables and their cases will come before Magistrate Adams on his return home. The cars reported yesterday were numbered 1159, 1174, 3510 and 3701. One of the constables said this morning that at several places in Rothesay avenue they have measured the distance between poles and a stop watch was used in checking the speed rate of cars. He said that while the rate of speed allowed by law would permit the cars to cover the distance between poles in about fifteen seconds, some of the cars reported yesterday made the distance in five and six seconds.

WM. McCALLUM FALLS INTO HOLD OF THE MONTCALM

William McCallum, of 135 Water street, a longshoreman, working on the S. S. Montcalm, fell into the hold of the steamer at 11:50 this morning, injuring his hip and bruising his face. He was taken to the Emergency Hospital and given first aid, and then sent to the General Public Hospital for X-ray examination.

POLICE COURT

Hugh Patrick, an agent of the Metropolitan Life Insurance Company, appeared before Magistrate Ritchie in the police court this morning on a charge of having misappropriated funds belonging to the company. He was represented by William M. Ryan and H. H. McLean, Jr., appeared on behalf of the plaintiffs. The case was set aside until Monday morning at eleven o'clock. A case against Thomas and Albert Connell and Charles Ritchie, who are charged with breaking into the home of J. R. Ross, Sandy Point road, was continued. Harold D. Peacock testified, after which Detective Biddiscomb asked for a postponement until Tuesday morning in order to secure another witness. Daniel Roop, who gave his age as nineteen, walked into police headquarters a little after one o'clock this morning and asked to be put up for the night. He was allowed to sleep in one of the cells and this morning was summoned before Magistrate Ritchie, who ordered him sent below until his case could be investigated.

A Man's Comfort

Solid comfort, isn't it, when you come home from a day's work, tired to the bone but satisfied with what you have done, and sink into a big armchair with a good book and a pipeful of your favorite tobacco? You're pretty apt to stay right there the whole evening.

And if, standing somewhere near there is a well appointed smoking stand, so that you can keep your pipe going without having to get up, and at the same time keep from spilling ashes on the floor,—why, you're just that much more comfortable.

We can give you the equipment for just such an evening,—the big chair and the smoking stand,—at as reasonable a price as you'll be apt to find anywhere.

The rest depends on you—and whether your pipe draws.

Plebiscite Here On Prohibition Will Be In July, Says Premier

Announcement Made in Fredericton Today—Not More Than Two Questions, is Report.

(Canadian Press.) Fredericton, May 7.—Announcement made by Premier Foster this afternoon that the plebiscite on the provincial prohibition law now in force as a measure in New Brunswick will be held in July. He said the date had not yet definitely been decided on but that it would be announced at least a month before polling and that the questions to be submitted would be announced at least a month before the date of the plebiscite.

It is the desire of the government that the questions should be plain as possible and there will not be more than two questions submitted, said the premier, who intimated that the questions already been definitely decided upon, though announcement is being withheld until the date of the plebiscite is made.

A special despatch to The Times says the plebiscite will be early in July.

J. D. P. Lewin, barrister, of St. John, has been appointed a member of the commission for ten years, thus completing the board.

CONDENSED NEWS

According to advices in Ottawa, Sir Robert Borden will be back in Ottawa next week.

Telephone Gagnon, sentenced to the penitentiary for life, left the Quebec jail this morning for St. Vincent de Paul.

He was allowed to see his wife, who is sentenced to be hanged on Oct. 1.

The peace treaty with Turkey will be handed to the Ottoman delegation on next Tuesday in Paris.

The British government considers the action taken by the Japanese in Siberia is not of a nature requiring the approval of the Allies, so Bonar Law said in the house of commons yesterday.

Holland will not resume trade with Soviet Russia until the League of Nations acts in regard to resumption of relations with the Bolsheviks, so the foreign minister announces in parliament at The Hague yesterday.

It is reported that an armistice has been concluded between the Russians and Japanese at Vladivostok.

A tag day for the S. P. C. A. in Montreal yesterday netted about \$10,000.

A board of conciliation under the Lemieux act will probably be appointed for by the Montreal Trades Union on next Wednesday in connection with their demands for higher wages.

It is said that Germany's presidential election will probably be held late in August, and that President Ebert will not seek re-election.

WOULD PAY UNION WAGES IN PRISONS

To Industrialize These Institutions Is Aim—Abolish "Chain Gang."

Abolition of the "chain gang" and the "repensible contract system" are two of the outstanding objectives of the campaign now being waged throughout the United States by the Committee on Prisons and Prison Labor, under the leadership of Adolph Lewisohn, president. In place of the present system, which is regarded as barbarous and inhuman, industrializing prisons is advocated by the national body.

The old method, according to the organization, is the cause of the best interests of society and has a tendency to break the morale of inmates. It is also pointed out that prisoners are frequently rendered unfit for restoration to the outside world, and more often than otherwise upon their discharge they go back to crime.

Industrializing prisons involves placing out marketable products. Wage scales, according to the plan, would be fixed by union wage standards prevailing in the vicinity of prisons. Inmates would be obliged to provide for dependents, if they had any, and the cost to the State for their maintenance would be deducted from their earnings. It is not the purpose to have the goods they manufacture compete in the open market. The plan is to have the Federal market through the United States and the American Federation of Labor has also endorsed the project.

CARDINAL O'CONNELL HAS AUDIENCE WITH POPE

An Associated Press despatch from Rome, May 5, says—

Cardinal O'Connell of Boston today had a private audience with Pope Benedict lasting more than half an hour.

The Pontiff evidenced paternal interest in the United States and declared that he had been delighted by the reports of the progress of the Catholic church in that country. He expressed deep gratitude to American Catholics for their generosity to him in the present circumstances, when the Holy See is chiefly dependent on Americans for assistance.

The Pope made Cardinal O'Connell the bearer of the Apostolic benediction to the various institutions in the archdiocese of Boston, and especially to the League of Catholic Women. He wished them success in the work they had undertaken and declared that in addition to the actual good they had achieved their example was a most useful one and already had been followed in other places even in Europe.

Pleasure was expressed by the Pontiff that Cardinal O'Connell would remain in Rome until the beginning of June. He requested the cardinal to visit him frequently.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

MUSICAL COMEDY SEASON HERE

A. K. Munde to Bring Attractive Company to the Queen's Theatre Next Week.

By referring to the Queen's Theatre advertisement on our amusement page today, theatre goers will receive a pleasant surprise. Music lovers have long been waiting for a good musical company and it looks now as if their hopes were about to be realized. The fact is that Mr. Munde is sponsor for the excellence, for those who were patrons of the Happy Half Hour will easily recall the excellent songs he had there in the Bennis, Malcolm and LeRoy and others. The H. H. H. was then noted for its singing, and no doubt the present company which Mr. Munde is bringing will become equally well known.

Among the members of the company will be the California male quartette, who will create a furor. Miss Elizabeth Teter, who possesses a beautiful soprano voice of great range, is the prima donna. Miss Charlotte Smith the contralto, is the possessor of a wonderful rich voice. Miss Gladys Fidgeon, who will play soprano parts, is going to become a big favorite, and her singing will be a feature. Miss Belle Perrin the ingenue, is another member of the company that will be admitted to the circle of favorites. She is a mezzo-soprano. The company will make their first appearance on Monday evening next.

SEE FANNIE RICE AT OPERA HOUSE

Musical Comedy Star Has Surprise for Local Patrons—Lots of Comedy and Good Music Assured.

The new vaudeville programme at the Opera House tonight will surprise the local patrons, which will undoubtedly be made a decided hit. Another act which should make a popular hit is that of The Fenwick Girls, who will appear in a carefully arranged harmony singing duet. Fanny Rice and Bradley should be well received in their novelty dancing offering; while Frank Garfield will entertain with comedy songs and stories. In addition, the company have an act which promises to be teeming with clever feats and comedy gags. It is an acrobatic offering "A Night Out." In addition there will be another episode of the motion picture series, "Lightning Breech."

UNIQUE TONIGHT

"Who's Your Servant?" Filmed Form of Drama Which Thrilled New York City.

Julian Johnson's play which started New York during its long run at the Princess Theatre has been filmed by the Unique Theatre for two days, starting today. It is the most working and vivid study of that most treacherous of criminals, the plotting house servant, which ever has been seen on the screen.

GRAND FALLS CASE

(Special to The Times.) Fredericton, N. B., May 7.—Attorney General Byrne has conferred with W. P. Jones, K. C., concerning the case of Newman Clark, who is held at Grand Falls on charge of the murder of Phoebe Bell. Clark is still weak. Advice received by Mr. Jones are that it may not be until the end of May that he will be in a fit condition for a preliminary examination to be held.

In the event of Clark being sent up for trial before the king's bench division for Victoria county, his case will not be heard until September.

MONTREAL MARKET.

Montreal, May 7.—The local market opened fairly strong this morning with the new Abitibi the leader. A large volume of trading was done in this issue in the first hour. It opened at 65, which was half a point higher than last night's close. Dominion Steel, which was yesterday's big leader, weakened during the early part of the first session, falling off a point and a half. Atlantic Sugar, in small trading, fell a point to 90.34. Spanish River held strong at 86, as did also Rioridan at 122. Steamships Preferred was off fractionally at 847.8. Other issues were about steady.

TWO MORE VICTIMS OF THE SPEEDING CAR.

Not only is the human element of the city living in daily mortal dread of the ascendancy of the modern automobile, but animal life is also having its distressing times, and two young ones of more or less prominence have fallen prey recently to the onward strides of civilization.

Last evening a valuable collie pup was struck by a car which witnesses say was exceeding the speed limit at the corner of Clarence and St. Patrick streets. The wheely passed over his body and he died a few minutes later.

On the previous evening a very motherly looking tabby, enjoying her evening stroll, ventured on to the pavement in Charlotte street, near Trinity church. Her existence from that moment was a mere matter of time. A car struck her, she was hurled into the gutter, and with a few spasmodic twitchings of her hind legs, she lay the ghost.

ARE DELIGHTED WITH THEIR NEW HOMES

Mayor Schofield accompanied Commissioner Bullock in a trip around the new development of city property in Lancaster, known as Park place, and other city lands in that vicinity.

Mr. Bullock said this morning that three owners had already moved into the new houses on the West Side and that two others would take over in a few days. He said that there were still seven houses waiting for owners, three detached and four semi-detached. Those who have already taken possession, he said, had expressed themselves as being delighted with their new homes.

C. W. N. KENNEDY DEAD.

Winnipeg, May 7.—C. W. N. Kennedy, one of the best known real estate men and financial men of Winnipeg, died yesterday at his home near Lockport.

Great Britain is reported on the eve of negotiations with Soviet Russia, says a Moscow wireless message today.

Reports that Kiev has been lost by the Russian Bolsheviks, are denied in a Moscow telegram.

LOCAL NEWS

NOW THE NORTH END.

Tipperary Hall has been engaged and next week a mass meeting of North End people will be held to form an improvement league and make a great boost for playgrounds. C. F. Stevens has a site and a plan for playgrounds to submit to the meeting.

STREET WORK.

The MacAdam street surface work being done by the public works department has been completed in the block in Sydney street between St. James and Britannia streets, and work is now being carried out on the piece between St. James and Broad streets. The work will be continued to the foot of Sydney street.

THE DIGBY BOAT.

While the Empress is laid up for repairs in Kennedy's slip, workmen have been engaged in making minor repairs to the landing stage at Red's point. The fact that the overhauling of the steamer is being done in St. John this year instead of sending her to Halifax has occasioned considerable satisfaction here.

DAM BROKEN.

A portion of the dam in Newman's Brook at the mill pond below Newman street, which was built to provide a skating rink last year, has broken away with the heavy spring pressure of water. It is understood that the city took it upon themselves to keep this dam in repair and Commissioner Thornton is arranging for necessary work to be done as soon as possible.

MRS. SIMON ANDERSON.

The death of Mrs. Nellie Anderson, wife of Simon Anderson, occurred this morning at an early hour at her residence, 17 Sewell street. She was a daughter of the late Denis and Hannah O'Leary and leaves her husband and two children, Timothy, to mourn. The funeral will take place from her late residence on Sunday afternoon at 2:30 o'clock.

UNION SQUARE FOUNTAIN.

A start will be made next week on the foundation for the fountain to be erected by the Women's Council in Union Square, head of Brussels street. The work of water connections will be placed. The public works department will also lay a fifteen foot strip of concrete sidewalk at the approach to the fountain.

WEST SIDE WORK.

The sewer of the new grain conveyor to No. 15 berth has been completed and a start has been made on the runs on both sides of the tower.

In the event of the high spring tides, the city has been unable to determine the amount of repairs necessary to put the face of the berth in good shape. It is expected that this will be done and the work of repairs started by May 20.

MRS. REBECCA WILLIAMS

Friends of Mrs. Rebecca Williams, widow of James Williams, will be grieved to hear of her death, which took place early this morning at the home of her granddaughter, Mrs. Frederick Baker, 287 Guilford street, West St. John. She formerly resided at Centerton, Kings county, N. B. Of a loving and kindly disposition, she leaves many friends in both places. Mrs. Williams was eighty-six years of age and leaves to mourn her daughter, Ella, one granddaughter, Mrs. Frederick Baker, and one grandson, Chester Catlin of St. John. Interment will be at Long Reach on Monday on the arrival of the steamer D. J. Purdy.

BURIED TODAY.

The funeral of Mrs. R. S. Cowan was held this afternoon at 2:30 from her late residence, 44 King Square, Rev. F. S. Dowling officiating. Interment was in Fernhill.

The burial of Arthur W. Lingley took place this afternoon from his late residence, 195 Market Place, W. E., to Cedar Hill. Rev. W. R. Robinson was the officiating clergyman.

The funeral of Mrs. Esther E. Ervin was held this afternoon from her late residence, 383 Ludlow street, W. E. Funeral service was conducted by Rev. James H. McFarlane, and interment was in Fernhill.

The funeral of Louis Smith, 51 Magazine street, was held this morning from St. Peter's church. Rev. Dr. Scully celebrated requiem high mass. The pallbearers were six nephews of the deceased, Lewis and Edward Adams, James Smith, Joseph McAuley and Gerald and Joseph Jeffrey. Joseph Smith, a brother, came from Boston to be present at the funeral. The floral tributes were numerous and beautiful, among them being a large wreath from the dock staff of the Furness Steamship Co. Interment was in the new Catholic cemetery.

IN CHAMBERS.

Before His Honor Judge McCowen in chambers this morning argument was heard upon an application for a summons for directions for an accounting in the case of James P. Byrne vs. James H. McFarlane. The question was as to whether or not on a summons for directions an application could be made for an order if at the time of taking out the summons was not supported by an affidavit. It was said in behalf of the defence that if there were a preliminary question to be tried it should be heard before an order to take account should be made. His honor found that there was a preliminary question and under H. W. Robertson appeared for the plaintiff and W. M. Hyatt for the defendant.

CASE TO DETERMINE COMMERCE BOARD STATUS

Ottawa, May 7.—A reference to the supreme court of Canada to test the power of the Board of Commerce to order retail clothes of Ottawa to sell only at a profit which is reasonable and just in the opinion of the board is being heard today. The court is asked to judge whether such an order is within the power of the board and whether the machinery of provincial courts can be commanded to enforce it.

SECRETARY OF NEW YORK BASEBALL CLUB DEAD.

New York, May 7.—Harry L. Sparrow, secretary of the New York American League baseball club since 1915, died suddenly at his home here today. He was in his forty-fifth year.

Hubbub Among M.P.'s At Ottawa Today Over Income Tax

System is Rapped—Commissioner Defends it and Gives Out Some Interesting News About Men's Money.

(Canadian Press.) Ottawa, May 7.—Vigorous criticism of the Dominion income tax system in its present form was voiced at a largely attended meeting of members of the commons today. Among complaints voiced by Dr. Cowan of Regina, Levi Thomson of Qu'Appelle and other western members were in making minor repairs to the landing stage at Red's point. The fact that the overhauling of the steamer is being done in St. John this year instead of sending her to Halifax has occasioned considerable satisfaction here.

OPPOSITION TO LICENSING MONTREAL CLUB

(Canadian Press Despatch.) Montreal, May 6.—Considerable opposition developed today when the case against granting a license renewal to one of the most prominent Liberal Clubs in Montreal, was argued before the license commission. Evidence showed that there was much quarrelling at the club of evenings and waiters employed at the club said that their instructions were to sell gin, brandy and whiskey to anyone who called for it. A member of the club disclosed that free cards were given out admitting non-members and that he had seen men go into the club sober and leave it drunk. The case was adjourned in order that books, minutes and by-laws of the club might be examined.

FANNIE HURST DEFINES MARRIAGE

How to Be Happy Though Wedded, Her Theme—Conventional Conditions Productive, She Says, of Unrest in Many Cases.

(N. Y. Evening Post.)

Fannie Hurst, novelist and short story writer, will celebrate tomorrow the fifth anniversary of her marriage on May 5, 1915, to Jacques S. Danielson, pianist. Mr. Danielson is in Boston, but is expected back for the anniversary. Miss Hurst—who says she was born Fannie Hurst and expects to die Fannie Hurst—in announcing the marriage yesterday explained that she and her husband entered into an agreement from the beginning to work out their matrimonial salvation along lines of their own and that for this reason they had decided to keep their marriage secret until it had survived the "five-year acid test."

When asked this morning if she had made the statement in all seriousness that nine out of ten of her married friends were only stoically enduring their misery, and in that case, if she would name them for possible interviews, she insisted that her affirmation was not for rhetorical purposes, but was her real conviction. But she would not specifically name her friends.

"Oh, yes," she affirmed, unhesitatingly, "of course I meant that. In fact, I should prefer to change the proportion to ten out of every ten. They are all chafing under the restrictions of the marriage relation—the traditional marriage. Why shouldn't they? Look at the limitations that the actual ceremony imposes. Yes," answering an unspoken question, "I was married that way myself, as regularly as possible."

"But think of the restrictions that are placed on the individual by marriage, and then you will not wonder that it is not a success. It means now a surrender of personality and independence for both parties. Imagine," Miss Hurst's face expressed her horror of the revelation she was making, "any one asking you, 'To whom were you talking today?' and things like that, yet that is something I have overheard time and again."

"I am not a pessimist," affirmed Miss Hurst, "yet I see unrest everywhere today among married people. Men pulling and straining at their bonds and women restive and unhappy. As an institution marriage has not worked out well and the rebellion against it is widespread."

Perhaps the escape from unhappiness and restive misery was not so prominent in Miss Hurst's thought when planning her arrangement of two independent households and complete freedom of life for herself and her husband as the fear that the ordinary arrangement might prove detrimental to her creative powers. She expressly stated that she had accepted the idea of separate studio apartments and absolute freedom in her married life as a solution for the problem of how marry and not become "sedentary," a "fathend" and limited in creative output. Yet naturally, the question occurred to the interviewer as to how successful such an experiment would be if the husband and wife were not financially independent so that there was no need for any pooling of resources.

Some way the conclusion that the last word in the matrimonial situation had been spoken was impaired by the realization what such an apartment as Miss Hurst's implies in earning capacity and income. There are married people living under the old regime of "seven breakfasts together each week" who are not able to deduct enough from the family income for Pekinese dogs, Oriental rugs and all the artistic accessories and furnishings that grace Miss Hurst's establishment. When questioned as to this phase of the two-household problem, Miss Hurst was willing to admit that economic independence was quite necessary for the plan as she had adopted it.

I said that this working out of the problem was only for highly specialized professional people," she explained, patiently. "But with the new economic status of women which is fast approaching, the idea can have a wider social scope and prove helpful to a larger and larger number of households."

Asked whether this social unrest, this threatened disintegration of families that Miss Hurst sees constantly about her, is accountable for the plots of much modern fiction, as well as the motifs of many recent dramas, Miss Hurst answered in the affirmative.

"Of course, the fiction of any period must hold up a mirror to that time," she said earnestly. "Literature today naturally reflects present day conditions, or it would not be vital. The chemistry of all the forces of the age that we live in seeps into us—we can't invent conditions ourselves and then write about them. This unrest and dissatisfaction with marriage under the present conditions is so widely felt that it must be reflected in fiction or drama that is truly representative of today or concerned with problems of the modern man and woman."

Yes," Miss Hurst paused reflectively, "I should certainly say that this wrong interpretation of marriage and the revolt against it is responsible for much modern fiction."

As congratulations came pouring in over the telephone and visitors arrived in person with their felicitations, Miss Hurst, whose becoming costume was hurried like the spring that does not arrive this year, looked much more like the conventionally accepted idea of a bride than that of a married woman already distant five years from the wedding ceremony that has proved no hindrance on her creative output or no barrier to her development of her own life in the terms of individuality and independence. As the demonstrator of a theory, Miss Hurst must be acknowledged to have won, and it is doubtful if she would have revealed the secret of her successful solution of how to be happy though married if, as she says, some one else was not about to make the revelation on his own account as in interesting news item.

FIRM GIVES TEACHERS BONUS OF \$100 EACH

New York, May 7.—Each of the 270 school teachers and superintendents in the Green Point section of Brooklyn have been allotted a bonus of \$100 by the American Manufacturing Company for their faithful attention to the children of the company's employes.

AN ENJOYABLE DANCE

A very enjoyable masquerade dance was held last evening by the employes of the New Brunswick Telephone Company, Ltd., in their recreation hall, Chipman Hill. The first prize was awarded to Miss Nellie McCavour and Miss Nan Monahan, who represented a bride and groom, the second prize went to Miss M. Butler and Miss F. McKiel, who were dressed as Hiram and Hannah. The consolation prize was won by Wesley Colwell. Previous to the dancing the following programme was very much enjoyed: Piano duet, Miss Wheaton and Miss Colwell; reading, Miss Dickerstater, Miss Good, Miss Good, Miss Nugent and Miss Wheaton. Following a delightful programme of dances, refreshments were served and the gathering broke up about midnight. The affair was in charge of the following committee: C. D. Fitzgerald, chairman, J. R. Brown and N. R. Betts, Misses H. Driscoll, M. Morrison and G. Travers.

PARRELL PRESENTATION

A pleasant time was spent on Wednesday evening when about twenty-five friends of Miss Clara Barton assembled at the home of Miss Madeline Wetmore, 140 City road, and presented to Miss Barton a beautiful pendant and bracelet. Games and dancing were indulged in until an early hour and refreshments were served. Miss Barton will leave in a few days with her parents for their new home in California.

LIVING COST UP SEVEN PER CENT.

Board Announces Average Four Month Increase—94.8 Per Cent. Increase Since 1914.

The average cost of living in U. S. communities rose seven per cent. between November 1919, and March, 1920, according to a preliminary announcement made by the National Industrial Conference Board. This makes a total increase of about 95 per cent. since July, 1914, and an increase of 21 per cent. within the last twelve months. These figures are the result of the board's sixth survey of changes in the cost of living in the United States.

Increases between July, 1914, and March, 1920, in the cost of each of the five major items making up the family budget were as follows:

Food, 100 per cent.; shelter, 49 per cent.;

clothing, 177 per cent.; fuel, heat and light, 49 per cent.; and sundries, 83 per cent. This makes the average increase during this period 94.8 per cent.

During the last four months, since November, 1919, the increase were as follows:

Food, 4.2 per cent.; shelter, 8 per cent.; clothing, 17.9 per cent.; fuel, heat and light, 7 per cent.; and sundries, 4.6 per cent. Based on these estimates the average increase during this period amounts to 6.9 per cent.

The board announced that the information on which these estimates were based of retail dealers in clothing and food, and from brokers and others in close contact with the real estate situation.

In estimating changes in the family budget as a whole each of the major constituent items must share according to the expenditure for each by average wage-earning families. A number of reliable investigations, including some by the United States Bureau of Labor Statistics, have shown that before the war annual expenditures were apportioned approximately as follows: For food, 43 per cent. of the total; for shelter, 18 per cent.; for clothing, 13 per cent.; for fuel, heat and light, 8 per cent. These shares or weights were used by the board in estimating increases in the cost of living since 1914.

"Quotations on which the food estimates are based," says the Conference Board's report, "were furnished by more than 2,000 dealers in fifty-one cities. Average food prices in March were no higher than in February and were six-tenths of one per cent. lower than in January. Since November, 1919, they had, however, increased four per cent. and since March, 1919, the increase was 14 per cent.

"In January, 1920, sugar cost 224 per cent. more than the average price in 1913, which has been accepted as representative of pre-war prices; and potatoes were 218 per cent. higher. These were the most sensational price advances up to that time.

"The rent increases refer to changes in rents for low and medium priced houses. Steam heated apartments and other expensive dwellings showed greater rent advances.

"Rents have gone up in all sections of the country and in cities of every size. In New York, Detroit, Cleveland, Pittsburgh and Los Angeles the increase was apparently over 50 per cent.; in Philadelphia, Boston and Baltimore, on the other hand, it was not more than 40 per cent. The same variation appeared among the smaller places. In the majority of cities the average rent increase since November, 1919, has been small, and in a number of places there has been no change."

countryside until Whithy became a place of pilgrimage from far and near. It was here, in 664, was held the famous Synod of Whithy, at which Oswy of Northumbria "settled the fate of western Christianity," after so masterful a fashion. It was here, Caedmon, the herdsman poet, according to Bede, sang of "all the great events in sacred history, from the creation to the day of doom." And it was from Whithy, still in Saxon days, that Bosa went out, and, after him, John, to become Archbishops of York.

After this early period, however, about which so much, actual or traditional, appears to be known, the abbey "enters the mist." For the next five hundred years, it is only possible to gain, here and there, a very uncertain glimpse of its story. The picture, moreover, is always much the same, some invaders running his ships into the mouth of the Esk, swarming up the steep sides of the cliff, and laying waste. The Picts and Scots, the Danes, the King of Norway, in the days of Stephen or the second Henry, who entered the harbor, and in the words of the chronicler, "laid waste everything, both within dozes and without," all carried out the usual work of destruction. In the early days of the thirteenth century, however, was begun and finished the beautiful building, the ruins of which are to be seen today.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

After the dissolution of the monasteries, in 1539, the abbey came into the possession of one Sir Richard Cholmley, who paid Henry VIII for it no less a sum than £380 8s. 4d. With the abbey went the manors of Eskdale and Uglebarby, with "all their rights, members and appurtenances as they formerly had belonged to the Abbey of Whithy." And so for a time, the story of Whithy Abbey becomes the story of the Cholmleys, and, notably, of that most worthy of men, Sir Hugh Cholmley, the defender of Scarborough against the Parliament in the Great Rebellion, and had belonged to the Abbey of Whithy. For, indeed, Sir Hugh set a great example of what a lord of the manor should be and do. Not only did he put the Abbey house in thorough repair and live in a "handsome and plentiful fashion," but he was forever caring for the needy of the town, and setting himself to secure for the townspeople all manner of betterments. He provided them with a market house and a new bridge across the Esk, and he undertook a special journey up to London in order to make sure of some improvements in the harbor. Finally, after the Civil War,

SAVE A LOAF at Every Baking

COMBINED with its great nutrition and enticing eating qualities, FIVE ROSES is the acknowledged flour for economical baking.

It actually saves flour and the money that that flour costs. This on account of its bigger yield due in turn to its glutinous strength and water-absorbing capacity.

Exactly how much it will save you depends upon how much baking you do, and upon how much bread you make at one baking. Read what thrifty housewives write us, in the margin. It points the way to patriotic economy.

You know how much FIVE ROSES flour you can bake in a year. By saving a loaf at every baking, figure out for yourself how you can reduce your own High Cost of Living.

FOR SALE—HOUSEHOLD. The Boston Red Sox are again in the lead in the American League and are putting up a good brand of ball. The dopsters who picked them for cellar honors must be having some misgivings. Pittsburgh are closing in on Cincinnati for leading honors in the National League. Although Mooney Gibson has only a mediocre collection of players, he is making a good start as a major league manager. Detroit won another game yesterday making three out of seventeen starts. Once their batters get a line on the heat they should start getting their upward climb and leave the cellar for weaker aggregations. That champions should take no chances with second rates is apparent, judging from last night's bout in Boston when Mike O'Dowd had reason to doubt his crown to Johnny Wilson. Not one man in a hundred would have conceded Wilson a chance to defeat the champion, but it was a case by a joint effort of the city league, probably about May 20. In the meanwhile players are praying for warm weather in order to get in condition for the hard grind. FINE ATHLETIC FIELD FOR SUSSEX (Sussex Record).

Through generosity of Senator George W. Fowler, coupled with that of merchants and citizens of Sussex, our town will without a doubt, in the near future, be in possession of one of the finest and best equipped athletic fields in Canada. Senator Fowler was approached a short time ago by a joint committee from the Sussex Amateur Athletic Association, G. W. V. A., and Boy Scouts in regard to leasing from him a tract of land adjoining "The Willows," to be used for athletic grounds. Senator Fowler agreed to lease the ground at a very moderate figure and would himself subscribe yearly to the athletic association one-third of the sum asked for rental.

During his visit to Sussex last week he proached a short time ago by a joint committee from the Sussex Amateur Athletic Association, G. W. V. A., and Boy Scouts in regard to leasing from him a tract of land adjoining "The Willows," to be used for athletic grounds. Senator Fowler agreed to lease the ground at a very moderate figure and would himself subscribe yearly to the athletic association one-third of the sum asked for rental.

The town council, at a recent meeting, passed a resolution exempting from taxes any property acquired by the Sussex Athletic Association, so the tax bill will also be eliminated, making the first year a free one in every particular so far as the grounds are concerned. The second year a small rental will be charged and the third year will revert to Senator Fowler's first offer. The athletic association can purchase the property if it desires to do so for \$6,000, with twenty years to pay, and of that sum Senator Fowler will donate \$1,000. The committee measured the field this week and came to the conclusion that a five lap to the mile cinder track could be easily made, with plenty of room for baseball diamond, tennis court, etc. The ground is now quite level and will not require a great deal of filling or grading.

Following Senator Fowler's generous offer, the committee appointed for the purpose have been calling on our merchants and citizens soliciting subscriptions to raise funds to put the field in shape, and build the cinder track, etc., and already in the vicinity of \$1,000 has been subscribed.

ing address on public health matters, for which he was tendered a vote of thanks moved by Miss Dodge, seconded by Miss Barbour. The matter of affiliation with the Local Council of Women was again brought up for discussion and by a majority of one on motion of Miss Alward, seconded by Miss Wales, it was decided to join. Misses Alward, Sherwood, Crowley and Dick were appointed delegates to the council. The association decided to be responsible for fifty tickets for the approaching concert under the auspices of the G. W. V. A. Thanks were expressed from Major H. H. Donnelly for greetings on behalf of first contingent men at the Ypres anniversary, and from Mrs. H. Lawrence for aid given in needy cases. A vote of 80 was passed to help a convalescent girl in medical treatment. Many other needy cases were voted grants. Miss Upham reported as convenor for the Seniors' Mission canteen and her report was received with much applause. A resolution of sympathy was ordered sent to Miss Brock, ex-president, in her bereavement. Miss Barber reported as convenor of the ticket committee to help the anti-tuberculosis society. Miss Alice Fairweather presided at the meeting, which was well attended.
SOME 500 OR 600 ON STRIKE IN MONCTON
Moncton, N. B., May 7.—With an additional number of journeymen carpenters, masons, plasterers, plumbers, etc., going on strike yesterday, it was estimated that between 500 and 600 men were out last night. At a meeting of the building trades council J. A. Macdonald, of Amherst, was chosen as the strikers' arbitrator. It was said the builders' exchange will meet today to appoint a committee to meet Mr. Macdonald.

IN PARLIAMENT
Marine Estimates Under Fire Yesterday

Hon. Hugh Guthrie on Classification of Department of Militia — Pensions Matter Out of Order.
(Canadian Press.)
Ottawa, May 7.—Yesterday in the House of Commons a bill to provide for the standardization of interchangeable parts of agricultural machinery was introduced. There was further discussion in committee on the franchise act and progress was reported. Some estimates of the marine department were passed. Wm. Duff of Lunenburg said the men on government steamers were the poorest paid in Canada. Hon. Mr. Ballantyne said they would receive an increase under the civil service re-classification. Papers in reference to the ice-breaker J. D. Hazen were promised. A. T. Lezer of Kent urged more pay for lighthouse keepers. Mr. Ballantyne said they would benefit under re-classification. R. W. Wigmore, St. John, accused the maritime Liberals of wasting the time of the house and delaying the estimates. Mr. Duff put in a plea for the Nova Scotia coastwise trade which sought better facilities for sending help to steamers in distress. Mr. Ballantyne told Dr. Chisholm of Inverness that the new range light asked for on the Inverness coast could not be built for reasons of economy. Dr. Chisholm and Mr. Duff both protested that this was not a good reason for leaving the matter open to appointment. Hon. Hugh Guthrie, minister of militia, said that a classification of the department of militia and defence had been submitted to the civil service commission. In every case where a returned soldier held a position which it was proposed to make permanent, his name had been submitted for appointment. With regard to the other positions, it had been suggested to the civil service commission that these positions should be thrown open to competition, thereby giving returned soldiers an opportunity of obtaining the appointment. That 151 employees, of whom 108 are temporary employees, constitute the staff of the civil service commission was set out in an answer today to a question of H. C. Hocken of Toronto West. The payroll of the permanent staff shows \$65,120 a year and of the temporary staff \$87,970, a total of \$153,094 for the last year. The speaker ruled out of order a statement of Hume Cronyn of London, chairman of the parliamentary pensions committee, on Colonel Peck's resignation from that committee and the circumstances surrounding the incident. The whole matter will likely be debated within a few days. In the senate the bill to confirm the government's agreement for the purchase of the Grand Trunk Railway was reported from committee. A special committee reported recommending the investigation of the whole question of steamship service to the Magdalen Islands. Senator Robertson announced a pension scheme for the employees of the national railway system as soon as the various lines were consolidated. The trust companies act and civil service insurance act received third reading.

ENGINEERS IN ANNUAL MEETING

G. G. Murdoch Succeeds C. C. Kirby as President — Encouraging Reports.
At the annual meeting of the St. John branch of the Engineering Institute of Canada last evening officers were elected and reports for the year submitted. The financial report and the report of the retiring secretary, A. R. Crookshank, were encouraging, while much interest was taken in the report of C. C. Kirby, retiring president. F. G. Goodspeed read a paper on "The Improvement of Navigation in River Estuaries," which was well received. Reports were submitted from G. M. Hatfield for the employment bureau, G. G. Murdoch for the town planning committee, A. Gray for the concrete in sea water committee, and H. Bennett for the civic centre committee. Mr. Kirby's reports on legislation and harbor committee were read. The following were elected and took office last night for the ensuing year: Chairman, G. G. Murdoch; secretary, treasurer, H. F. Bennett; executive committee, F. P. Vaughan, the balance of the committee being the retiring chairman, C. C. Kirby, and C. O. Foss and G. G. Hare.

KILLING OF BABY IS CHARGE AGAINST BOY

Bradford, Pa. May 6.—Leo Kelly, aged sixteen, was arrested yesterday charged with the killing of ten months old Kelly Gemmell, daughter of Mr. and Mrs. Oliver Gemmell. The police say Mr. Gemmell had reprimanded Kelly, who is the adopted son of James Gemmell, brother of Oliver. According to the police, the boy, a few minutes after the scolding, removed the baby from her crib, took her into another room and killed her. Authorities said that Kelly has twice been in an insane of an institution for feeble minded.

U. S. FARMERS LEAVING LAND

High Wages and Rate of Exchange Given as Reasons.

(Toronto Globe.)
Farmers in the United States are finding the task of making a living even more irksome than those located on this side of the line. Agricultural labor there is scarcer than in the eastern provinces of the dominion on account of the higher wages being paid in the cities and at the mines in that country than in our own, and the present deflated currency of the United States has had a tendency to drive U. S. farm produce off the markets of the country in which it is produced.

In regions near mines and factories, says the Country Gentleman, a great many of the farmers have gone to the other places for higher wages and shorter hours, leaving the farm to the women and children. All over the country also many small farms are being abandoned.

the owners having gone to work on the railroads.

Disastrous to Production.

In both cases, continues this agricultural authority, the result is certain to tell on production, and if the country is bound to support a double population in town and shop and a half population on the land, then it will have to pay more instead of less for its living. Few farmers are so tied to the land as to make it impossible for them to leave or be driven off, and at the present time thousands are being forced to accept one of these alternatives.

Exchange is so adverse to the countries of Europe that not a carload of U. S. beef was sold in the chief markets of Germany, France, Belgium or Denmark during the last week in March. Not only is the foreign trade of the United States being destroyed, concludes the Country Gentleman, but European countries, owing to the advantages of exchange, are actually shipping farm produce across to this side of the ocean. Danish butter and Irish potatoes were sold on the New York market recently.

ARRESTED IN ENGLAND ON CHARGE OF BIGAMY.

Winnipeg, May 7.—Jos. Kirk, wanted in London, Eng., to answer a charge of bigamy, was arrested yesterday in Winnipeg on a requisition of the home office, London.

RAG PICKER HAD FORTUNE OF \$10,000

Chicago, May 7.—Max Spiegel, a poor rag-picker, was arrested at the request of his wife because he told her he was going back to Russia, where he could get a drink. She did not know anything of his financial condition, except that they were very poor and lived miserably.

The police officials did not understand the difficulties of his domestic life. They did not ask any questions, but searched his tattered clothes.

In the lining of his cap, coat, trousers, boots, shirt and vest they found layers and layers of soiled, ragged old second-hand \$10 bills. The poor rag-picker's fortune consisted of about \$10,000 in this tattered currency.

Judge Newcomer took charge of his affairs. He ordered \$6,000 placed in the bank under a joint account, so that Mrs. Spiegel could draw what money she needed. The rest, he decreed, should be invested in a mortgage.

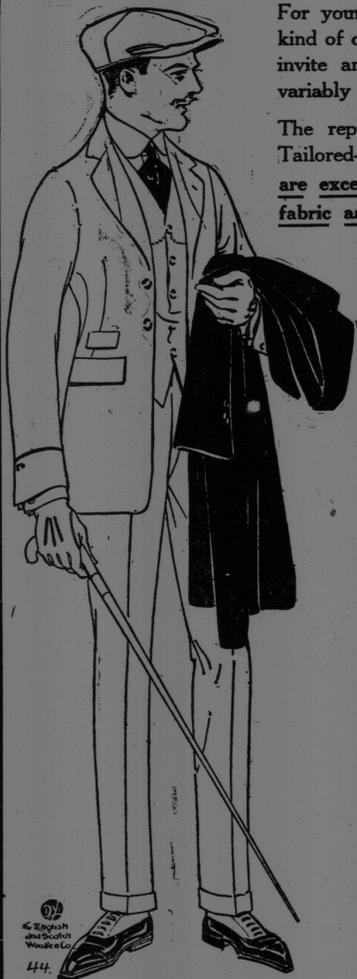

"You stay here and take care of your family," he said to Spiegel.
Reports Root Invited.
London, May 7.—The London Times says that Elhu Root has been invited to make the presentation of the St. Gaudens statue of Lincoln from the American to the British people in June.

Widower With Five Weds Widow With Same Number of Children
Westfield, May 5.—When the marriage of Mrs. Mary Mahak of the Southwick road and Urban Selan of McKeesport, Penn., took place it made a home for ten children. Mrs. Mahak was a widow with five children and the bridegroom had five of his own to care for. Mrs. Mahak has conducted a twenty-acre farm on the Southwick road since the death of her husband and has raised her family there. Mr. Selan has been engaged as a horseshoer in McKeesport. With the large families each felt the need of a helping hand and the union resulted. Mr. Selan will assist in the management of the farm here while continuing with his work as a blacksmith.

Famous Sprinter Dead.
London, May 6.—Rustin Miller, a famous English sprinter, is dead in his forty-first year. He served in the war as a captain in the Essex Regiment, and was badly wounded in Gallipoli. Between 1902 and 1908 Miller won the Essex County 100-yard championship five times and once ran a dead heat for first place with H. Sutton Harmer. With three yards' start from Arthur A. Day, he won a 100-yard handicap in 9.4 seconds.

THE RING. Wins Championship.
Johnny Wilson, of Boston, defeated Mike O'Dowd, champion middleweight of the world, in a twelve round, staged in Boston last night. Wilson knocked O'Dowd down in the fourth round and had the better of eight, two went to the ex-champion and two were even. The referee awarded his decision in favor of the Boston boy, who was carried from the rink by admirers. O'Dowd protested the decision claiming he should have had a draw.

Did Not Want Substitute.
The proposed bout between Mike McTigue and Billy Kramer, which was to have taken place in Halifax last night did not materialize. Kramer claimed to be sick and sent a substitute, who was not acceptable to the promoters.

Bartfield Saves Mother.
New York, May 6.—Soldier Bartfield, a Brooklyn boxer, writes from Sneyth, Poland, where he went to bring his mother and sister to this country. He says the country is in a deplorable condition and all one sees for miles is graves.

Brennan's Victory.
Rochester, N. Y., May 6.—Bill Brennan of Chicago outfought Ole Anderson of Tacoma here tonight in a ten round bout. Brennan hit Anderson most at will after the fourth round, but could not land a knockout blow. Brennan weighed 135, Anderson 136.1-2.

THE CYCLE. In Amherst.
Amherst News: Some bicycle riders are figuring on taking up the speed and distance game this summer. There is material in Amherst, both developed and latent. Before the war the town was a regular hot bed for the bike men. After a while the sport deteriorated. Now the pedal pushers are anxious to have the game revived. If the quarter mile track on the athletic field was only in shape, the bike artists could have a good summer's sport.

London, May 6.—A Scottish League Association game played today resulted in a win for Albion over Lanark by a score of 3 to 2.

THE TURF. New Bridgewater Track.
Bridgewater, N. S., will have a new half-mile race track ready by the fall. Work to put the track in shape was begun a few days ago, and by the time the exhibition season comes around, it is expected the town will have one of the most up-to-date tracks in the province. Great things in the harness game are looked for and it is reported that several fast horses will be imported who will not only race their ponies on the

Evers as Coach.

Boston, May 7.—The signing of Johnny Evers, former National League player, as coach of the Boston College baseball team, is announced. He will take charge at once.

Said to Have Jumped.

Toledo, May 7.—Pitcher Willis of the Columbus Club of the American Association, has jumped the club, according to an announcement made by Manager William Clymer. He said the pitcher's whereabouts are not known.

Gets Release From Sox.

Cleveland, May 7.—Paddy Livingston,

veteran major league catcher, has arrived at his home here after having secured his unconditional release from the Boston Red Sox.

The Stuggers.

Toronto, May 7.—A Globe despatch says:

Yesterday's major league games did not bring about any marked changes in the honor list of batters, except that Deubert has been ousted from the National League roster by George Burns, slugging outfielder of the New York Giants, and Wheat of Brooklyn has moved into third place, ahead of Kroh of Cincinnati. Young Lebourveau, the Phillies sensation, gained materially on Hornsby of St. Louis for the leadership.

The French-Canadian recruit increased his average from .375 to .400.

There was no change in the order of the first five in the American League. The batting race in the Johnson circuit is very close. Weaver of Chicago leads the star quintette with twenty-four hits, while Jackson of the same team has twenty-three. Speaker and Sisler each have twenty-two, and Johnson of Cleveland twenty-one.

Border Baseball League.

St. Croix Courier: Enthusiasm is running high these days in local baseball circles. At a meeting held in Calais on Thursday evening last the St. Croix League was reorganized. The five teams which composed the league last year were strongly represented, and all seemed eager for the season to open. Ed Chase was unanimously elected president and Mr. Dow of Woodland secretary.

An invitation, open for one week, was extended to Eastport to join the league and have a representative at the meeting on May 6. The down-river boys have always had a strong team, and it is to be hoped that they will see their way clear to coming in. In any event, the fans are assured of a good summer of baseball. Already requests have been received from outside teams asking for dates and some strong aggregation will be seen in action on the local diamonds this season.

ATHLETIC

Woman Killed at Meet.

Bowling Green, Ohio, May 7.—While attending a school field meet, in which her son was a participant, Mrs. F. Mahie, forty-six, mother of three children, was killed yesterday when a bullet said to have been fired from a starter's pistol struck her in the chest.

Want Government Transport.

New York, May 7.—Members of the American Olympic committee will appear before the house committee on military affairs in Washington next week to plead for the use of a government transport for the United States team to compete in the Olympic games in Antwerp.

According to a statement commercial steamship travel conditions are such that it is doubtful if a representative United States team can be sent to Belgium unless government assistance is obtained.

NOW FOR DRIVE ON THE FLIES

Bangor to Launch Campaign Against Deadly Germ Carriers.

(Bangor Commercial.)
Dr. H. D. McNeil, full time health officer, is after the worst offenders on his list likely to interfere with the discharge of his duties and which are arriving in swarms, the flies. Bangor is soon to begin an anti-fly movement.

Dr. McNeil in talking with a Commercial representative Tuesday says that he is about to launch a campaign against flies. In his recent address at the Bangor Chamber of Commerce, Dr. McNeil absolutely refused to give the results of the multiplying of the stupendous numbers of flies by the still more stupendous numbers of germs they carry and left the figures fairly buzzing in the minds of his hearers.

From the state board of health Dr. McNeil received on Tuesday a circular which is a part of the campaign against flies. In his recent address at the Bangor Chamber of Commerce, Dr. McNeil proposes to put Bangor on the war map of the fly fight and he is asking everyone to help him by at least reading the following:

Don't allow flies in your house.
Don't permit them near your food—especially milk.
Don't buy foodstuffs where flies are tolerated.
Don't eat where flies have access to the food.
Flies are the most dangerous insects known to man.

Flies are the filthiest of all vermin. They are born in filth, live in filth and carry filth around with them. They are maggots before they are flies.
Flies are known to be carriers of millions of death-dealing disease germs. They leave some of these germs wherever they alight.

Flies may infect the food you eat. They come to your kitchen or to your dining table, fresh from the privy vault, from the garbage box, from the manure pile, from the cuspidor, from decaying animal or vegetable matter, or from the contagious sick room with this sort of filth on their feet and in their bodies, and they deposit it on your food, and you swallow filth from privy vaults, etc. If you eat food that has come in contact with flies.

Flies may infect you with tuberculosis, typhoid fever, scarlet fever, diphtheria and other infectious diseases. They have the habit of feeding on tuberculous sputum and other discharges of those sick with these diseases, and then go direct to your food, to your drink, to the lips of your sleeping child, or perhaps to a small open wound on your hands or face. When germs are deposited in milk they multiply very fast; therefore milk should never be exposed to flies.

Fight Flies.
Screen your windows and doors. Do it early before fly time and keep screens up until snow flies.
Screen all food, especially milk. Do not eat food that has been in contact with flies.

Screen the baby's bed and keep flies away from the baby's bottle, the baby's food and the baby's "comforthor."

Keep flies away from the sick, especially those ill with typhoid fever, scarlet fever, diphtheria and tuberculosis. Screen the patient's bed. Kill every fly that enters the sick room. Immediately disinfect and dispose of all discharges.

Catch the flies as fast as they appear. Use liquid poisons, sticky fly paper and traps.

Eliminate Breeding Places.
Sprinkle chloride of lime or kerosene over contents of privy vaults and garbage boxes. Keep garbage receptacles tightly covered, clean the cans every day, the boxes every week. Keep the ground around garbage boxes clean.

Sprinkle chloride of lime over manure piles, old paper, old straw and other refuse of like nature. Keep manure in screened pit or vault if possible. Manure should be removed at least once a week.

Pour kerosene into the drains. Keep sewerage system in good order, and repair all leaks immediately.

Clean cuspidors every day. Keep five per cent solution carbolic acid in them all the time. Get rid of sawdust boxes used as cuspidors—destroy them—they are unsanitary.

Don't allow dirt to accumulate in corners behind doors, back of radiators, under stoves, etc.

Allow no decaying matter or any sort to accumulate in or near your premises.

Flies in the home indicate a careless housekeeper. Remember: No dirt—no flies.

Canadian and American Railways Iron Out Trouble Over Freight Trucks.

New York, May 7.—The New York Evening Globe prints the following Washington special from its correspondent, Frank J. Taylor:

Representatives of Canadian and American railroads, in session here, have ironed out the differences over delivery of freight cars, which were largely responsible for the recent famine of newspaper among New York and other eastern newspapers.

The acute situation was brought about by the failure of the American roads, due to strikes and bad weather, as well as alleged carelessness, to return cars to the Canadian roads. As a result, Canadian officials placed an embargo, refusing to allow more of their cars over the line.

The difficulty was prevented from becoming a delicate international dispute by the prompt action of the Canadian Railways Association, which sent C. P. Riddell here to confer with the officials of the Car Service Commission of the American Railways Association.

Following several conferences between Riddell and W. C. Kendall, chairman of
