

FROM OVER THE MARITIME PROVINCES

The Sheffield choir has received in Montreal, as in St. John, very flattering notices. Their concert here Saturday night was given before an audience that filled every available seat in the Opera House, from dress circle to gallery. Not only was it a brilliant and artistic one, but it was also a most enjoyable one as well as being a very beautiful one.

Glady Bullock and Miss Knight. The literary programme was most successfully carried out by Mrs. Knowlton, Miss Lucy Coster, Miss Ethel Jarvis, Mr. Carrigan and Rev. W. Stewart.

Maxine Richard of the I. C. R. black and white, while working the "hot" bar of iron and the bed of the machine. Fellow workmen quickly reversed the machine but Richard's leg was badly injured.

H. A. Powell, K. C. of St. John, is in Moncton today. The funeral of Miss Beatrice Porter was held at her home on Tuesday.

Mrs. Higgins received her guests in a handsome gown of Persian blue silk with chiffon overdress and Oriental bead trimmings. Mrs. G. A. Lawson, who received with Mrs. Higgins, wore a pretty gown of black and white and black tulle.

St. Stephen, March 29—One of the most charming afternoons that has been enjoyed by lovers of bridge was the "hot" given by Mrs. E. B. Chandler yesterday afternoon.

St. George, March 30—Gordon Milne, of Providence (R. I.), was called to St. George this week on account of the illness of his father, Mr. Alexander Milne.

St. George, March 30—Gordon Milne, of Providence (R. I.), was called to St. George this week on account of the illness of his father, Mr. Alexander Milne.

INTERESTING AGRICULTURAL FEATURES FOR OUR COUNTRY READERS

HORTICULTURE

ORIGIN OF VARIETIES

How Different Kinds of Fruit Came Into Existence

"How did the varieties of fruits originate? It is a question that involves in its popular mind a certain degree of mystery and curiosity; hence, a few observations on the subject may be of general interest.

Science teaches us that like produces like. In the study of plant life we learn that a seed contains the rudiments of a plant similar to that which produced it.

All of our cultivated varieties of fruits have come from the wild or natural species. Some of the most interesting are the peaches—two distinct varieties, and each one of a different race—have been developed from a wild species.

Some of our cultivated varieties of fruits have come from the wild or natural species. Some of the most interesting are the peaches—two distinct varieties, and each one of a different race—have been developed from a wild species.

PRUNING BUSH FRUITS

One thing often neglected, or only partially done, in the home garden is the pruning of currant and gooseberry bushes.

A plan that is easily carried out is to remove each year the two oldest canes or near the ground and to allow two new, young shoots to take their place.

A very good practical strainer consists of a cone-shaped receptacle with a gauze or cotton strainer at the bottom or outlet of the vessel.

For an early supply of tomatoes, the seed should be sown in March, in the hotbed or cold frame. In about a month from planting the seedlings should be transplanted to about two inches apart.

For an early supply of tomatoes, the seed should be sown in March, in the hotbed or cold frame. In about a month from planting the seedlings should be transplanted to about two inches apart.

SACKVILLE MEN HAVE AN AMBITIOUS SCHEME

Propose to Buy N. B. & P. E. I. Railway, Put on Electric Service and Steamers to P. E. Island Points; Also Steamer Service to Fort William, Ontario, to Carry Stores and Stone.

Sackville, N. B., March 30.—The Tribune says today:—The New Brunswick and Prince Edward Island Railway, between Sackville and Cape Tormentine is about to change hands and the new owners will be Messrs. Charles W. Fawcett and Charles Pickard, of Sackville, and M. G. Siddall, of Port Elgin.

For many years there have been at intervals of more or less frequent intervals, rumors of negotiations and possible transfers of the N. B. & P. E. I. railway. One time it was a number of Halifax capitalists, another time it was the C. P. R., but the people through it all have never quite lost hope that sooner or later the road would be made part of the Intercolonial railway.

It is expected that soon after the transfer is made the new owners will purchase the battery passenger cars which will be run at frequent intervals between Sackville and Cape Tormentine. For many years the battery passenger cars which will be run at frequent intervals between Sackville and Cape Tormentine.

SOME SPECIMENS OF BRITISH EAST INDIANS

SOME INTERESTING TYPES WHO WILL FIGURE IN THE CENSUS RETURNS OF INDIA.

In view of the great census which is now being taken among 300,000,000 inhabitants in India, it is interesting to note the diversity of races the census will include in its returns as illustrated in this interesting photograph, which was taken in India for the London Sphere.

TOO MUCH LAW IN AUSTRALIA, SAYS RANCHER

That's the View of An Owner of 150,000 Sheep. He's Particularly Grieved at the Progressive Land Tax, Which Cost Him \$85,000 Last Year—Labor Government the Active Promoter of the New Tax.

Things are not pretty bad just for the men who own a lot of land, according to A. J. Simpson of New South Wales, who arrived at the Waldorf yesterday. Mr. Simpson says that since the Labor party won in the January elections there the way of the man of means has become hard, progress in the commonwealth has stopped short and the Labor members of the Commonwealth Parliament he awakes at night devising ways of separating the rich man from his means.

"Both the general and the state elections took place in January, and the Labor party carried in the states except Queensland and Queensland. McGowan, the new premier of New South Wales, is in favor of applying the progressive land tax policy to the smaller farmers as well as the big ones."

"I have about 150,000 head of sheep on my place and about eighty men employed. When election day approached they asked me to get 250 acres in order to go to vote. I took my wife and my secretary to town also for the same purpose, but what did our three votes count as against the overwhelming number of my men?"

We Have Not Pushed Our Advertising Lately. As we have been crowded to our full capacity. Changes to take place in a few days will make room for some additional students. Catalogues, first served.

COURT BROTHERS TO PAY 40 CENTS ON THE DOLLAR. At a fully attended meeting of the creditors of Court Brothers in J. Roy Campbell's office yesterday afternoon, a new proposition to pay 40 cents on the dollar was submitted by the firm, and after considerable discussion, accepted by the creditors. After making this payment the firm will be able to continue in business at the old stand and their many friends and customers will be glad to hear this announcement. It is understood that the liabilities were \$27,000 and that if the firm had gone into liquidation as much as \$15,000 would have been realized.

This white oiled paper spread under the child's plate at the table and extending a little way beyond, will protect the tablecloth from any water or liquid, especially if it is brought in sheets, and the pieces are cut and laid smoothly on the cloth. When a piece of paper is soiled it may be thrown away or burned, and a fresh piece substituted.

MARKING TIME

LEGISLATURE

House Decides That a Maximum Clip of Thirty Miles an Hour is Not Too Much, Notwithstanding Protest of Several Members.

Fredericton, N. B., March 31.—The legislature did not get down to business today for the first time since the adjournment an hour in committee. The passing of the budget will not take place until some time next week, and the government must be prepared to meet the opposition in committee. The passing of the budget will not take place until some time next week, and the government must be prepared to meet the opposition in committee.

BORDEN READS

RIOT ACT TO TORY

INSURGENTS

Must Either Quit the Party or Stop Their Intriguing

Ottawa Journal, a Warm Supporter of the Conservative Leader, Says the Mutiny Has Been Crushed, But it Hands Hot Shot to the Conspirators.

Ottawa, March 29.—The Ottawa Journal, whose editor, Mr. P. D. Rose, is a warm supporter and close personal friend of Mr. R. L. Borden, has come out with a very frank statement of the trouble in the camp, resulting from the cabal against the Opposition leader. The party's dirty linen is washed in public, and the insurgents are frankly told to sit down and behave themselves or else get out. It is apparent tonight that as a result of the rallying of his friends around him Mr. Borden has again taken heart, and is now disposed to consent to remain at the post and fight the conspirators to a finish. He does not wish to retire under a cloud, but is nevertheless anxious to take the first opportunity of stepping out with dignity and honor into a calmer and purer atmosphere.

AN OPEN CONTRADICTION AND A BLANK ABSURDITY

Senator King Shows How Reckless Conservatives in Discussing Reciprocity Agreement Have Exposed Weakness of Their Opposition—People to Be Greatly Benefited—Some Amusing Contradictions.

Monday, April 3

That the farming, commercial, and Canadian industrial interests in general are bound to be greatly benefited by the reciprocity trade agreement is the opinion expressed by Senator G. G. King, who arrived in the city yesterday from Ottawa, and who is on his way home to Chipman. "This is especially shown by the fact," he said to a reporter for The Telegraph last evening, "that the only persons who dare attack it are the capitalists, manufacturers and millers."

Contradict Themselves.

"It has been attacked by the Conservatives but their arguments rather than hurt head strength to the movement. Their very admissions were against themselves. They go into the country and they tell the farmers that their day has passed, for following the ratification of the tariff arrangement, American produce will flood the market. Then they go to the consumers and tell them that they will be able to get nothing in the line of produce, for as a consequence of this same movement, the farmers will be shipping everything into the United States. An open contradiction and a blank absurdity."

"In West Toronto, where the opposition is most strenuous, the fact that an association as an inevitable result. Yet, if these same people had their own way, there would not be a subsidized steamer coming to St. John. Conditions would be exactly the same as they were before the Liberal administration took a hand, and the American ports would be reaping the benefits."

Sir Edward Walker's Weak Argument.

Speaking of some of the articles affected, Senator King referred to the discussion which he had with Sir Edward Walker over the lumber question. "Like many others, Sir Edward advanced the argument that the removal of the duty of lumber would be the ruin of the lumber industry in British Columbia. Yet the fact remains that the duty on lumber imported into British Columbia was removed

more than eighteen years ago by the Conservatives themselves. The only way in which British Columbia is affected is that it gives the lumbermen of that province a chance to ship their lumber into the States free of duty.

"Again, it is argued that the fruit growers will be affected. Take the people of Nova Scotia. Today they are shipping the most of their apples to the Old Country, and their strongest competitors there are the Americans. Well, surely, if they can compete with the Americans in a foreign market, they ought to be able to compete with them in the home market."

"The manufacturers are very little affected. The only reduction is that of two and a half per cent. on agricultural implements and this reduction is made at the request of the western farmers. So far as the fishing interests are concerned, it is generally conceded that the benefit in this regard will be tremendous. In the case of grain it is merely the opening up of a third market, and one which Canada may or may not have had for years."

"Those in opposition to the agreement are constantly crying that Canada does not have to look to the United States. At the same time they overlook the fact that the Americans, if they wanted to, could of their own accord place lumber, grain, or anything they so desired on a free tariff, and at the same time impose a high tariff on goods which we find it almost necessary to import from them. If they need our grain and lumber so much as the oppositionists say, there is nothing then to prevent them from getting them, since all they have to do is remove their own duty. Also, if they wanted to resort to spiteful methods, they could place a duty on cotton which would mean a death blow to the city or more cotton mills in the dominion."

Compliment to Liberals.

The senator referred to the compliment the Conservatives paid to the Liberals by crying: "We are getting along well enough, and it is better to leave well enough alone."

BRITISH SCHEME TO REVISE CALENDAR

Bill Before Commons to Cut Out New Year's Day So That a Given Date Shall Fall on Same Day Each Year—Would Make Christmas Day Always on Mondays and Easter Sunday April 14.

London, Mar. 31.—The British government is taking into consideration the views of the commercial community of the kingdom on the question of revising the calendar so that a given date shall always fall on the same day of the week. Inquiries will be set afoot by the board of trade, which is supported in the matter by the foreign office and the home office.

The action is taken in consequence of an invitation from the Swiss government to take part in an international conference. This invitation is in turn the result of a proposal approved by an international congress of chambers of commerce sitting in London.

The proposal of the calendar reforms are that the first day of the year shall be a bank holiday called "New Year's Day" which shall not count of the week, the month or of the quarter.

This leaves for the rest of the year 364 days. This number divides exactly into four equal parts of ninety-one days each, and into fifty-two weeks of seven days each. Each quarter would thus contain exactly thirteen weeks. According to the proposal scheme it would be divided into two months of thirty days each and one month of thirty-one days.

Starting then with the year 1911 Easter Sunday and all the so-called movable feasts fixed and dates dependent upon them would be altered. Inquiries will be set afoot by the board of trade, which is supported in the matter by the foreign office and the home office.

A WARNING TO FARMERS ABOUT THEIR MANGEL AND BEET SEEDS

Permit me to intimate to your farmer readers that to order to bridge the danger of partial failure of their mangel and beet crops, they will this year need to be particularly careful to ascertain the percentage of seed balls capable of producing sprouts and to adjust their seeders accordingly.

Because of the climatic conditions in 1909 and 1910 in European countries from which we obtain our mangel and beet seeds, practically all the available supply this year is low in percentage vitality. Our Canadian seed merchants have done what they could to procure seed that would conform to the provisions of the Seed Control Act, which fixes a standard of vitality for good mangel and beet seed of 90 per cent of the seed balls, and 100 sprouts from 100 seed balls. This is commonly known as mangel seed, really a fruit containing from three to six small seeds; and the law is that when the percentage vitality falls below two-thirds of this standard for mangel seed, then the seed must be labelled, showing the actual percentage of balls and sprouts capable of being produced from the seed. All the seed inspectors in the field have been notified to pay particular attention to the quality of the mangel seed exposed for sale; but the information and punishments to seed merchants resulting therefrom will not protect users of mangel seed this year.

There is no need for any farmer to reduce the area intended for planting to mangel and he will suffer no danger from crop failure provided that he will take the trouble to determine the percentage of seed balls capable of germinating and increase the amount of seed per acre accordingly. In the case of mangel seed that at least one-half more mangel seed than usual will have to be sown this year to secure a reasonably good stand of plants. Farmers should give the preference to mangel seeds put up by reliable firms and not hesitate to procure seed of their favorite varieties from bags or packages on which the percentage of vitality is brandied, even though that percentage would seem to be rather low.

GEO. H. CLARK,
Seed Commissioner.
Ottawa, March 25, 1911.

WHAT ALCOHOL DOES TO THE SYSTEM

Alcohol has a profound effect upon the central nervous system. There are two theories with regard to its action. By some it is considered a stimulant, but it is thought always to cause depression. Small amounts of alcohol may bring about an increased sense of liveliness and a general feeling of well-being which is most noticeable when the lights are bright, and the company congenial. Larger quantities induce incoordination of speech and movement, whereas still larger quantities result in complete anaesthesia, which may be fatal to the individual. For the first few minutes after taking alcohol, it has been found that a larger quantity of physical work may be performed. This is followed, however, by a period of depression during which the quantity of mechanical energy which may be expended by the individual is greatly reduced. The sum total of the effect is very decidedly to reduce

OBITUARY

James R. Ross.

Saturday, April 1.

Many learned with regret yesterday morning of the death of James Richard Ross, of Charlton, son of Elijah Ross, the veteran seaman. Mr. Ross was only 29 years of age and won an enviable reputation in aquatic sports, having taken part in several regattas, and excelled as an amateur single sculler. And he was known as a "clean sport" which means much in the athletic world, and signifies that he was, every inch of his powerful frame, an honorable man.

He had been ill about six months, having contracted tuberculosis, and passed away yesterday morning about 5 o'clock. He leaves his wife, who was Miss Pearl Gibbons, his bride two years ago; his father, and one sister, Mrs. W. Beatley, of West St. John.

Mr. Ross was an active member of Ludlow street Baptist church, and also belonged to the "Bible class" connected therewith. He was also a member of Granite Rock Division, S. of T., and of Tilley Lodge, G. T., besides being corporal No. 2 Co. Garrison Artillery, No. 8 Battery, and also a member of the "G. A. R.," of the funeral tomorrow, in which Major Smith's company will take part.

Mrs. W. J. Kelly.

Saturday, April 1.

Many friends will regret to hear of the death of Mrs. W. J. Kelly, wife of W. J. Kelly, of the J. C. R. baggage department, which took place at 7:30 yesterday morning. The esteemed lady had a host of friends who will share the sorrow of her surviving relatives.

Two sons, two daughters and three sisters survive her. One son, W. D., is in the C. P. R. service in this city, and another, M. A., is in New York. There are two daughters, Alice and Mary A., at home, and three sisters, Mrs. George Maxwell, Mrs. J. Daley and Mrs. Nickerson, Mr. Kelly and his family were highly sympathetic of a very large circle of friends and acquaintances.

Mrs. George E. Jones.

Saturday, April 1.

The death occurred at her home, 44 First street, yesterday of Mrs. George E. Jones, who was only 27 years of age and was a daughter of John Neary, of this city, and leaves besides her father and sister, Mabel, a husband and little daughter.

Postmaster F. A. Stevenson.

St. Stephen, March 31.—(Special)—The death occurred here tonight of F. A. Stevenson, postmaster at St. Andrews, in the 65th year of his age. The deceased was taken to Chipman hospital about two weeks ago. He was a member of the Knights of Pythias. The interment will take place at St. Andrews.

Dr. W. A. Wickwire.

Halifax, N. S., March 31.—Dr. W. A. Wickwire died this morning aged seventy-two years. He was for 27 years chief medical officer of this port and retired from the position about ten years ago.

Mrs. James Paton.

Charlottetown, March 31.—(Special)—The death occurred in Charlottetown tonight of Mrs. James Paton, after a long illness of creeping paralysis.

His father was keeper of St. Paul's Island, a lonely rock on the Cape Breton coast. He was appointed to the position on the death of his father, who was in charge of three generations of the family. The burial will be at Baddeck.

Mrs. G. J. O. Betz.

At her residence, 114 Winter street, Saturday, Mrs. G. J. O. Betz, beloved wife of C. J. O. Betz, and daughter of the late Israel Mowbray, of St. Andrews, passed away, leaving besides her husband one brother, J. P. Mowbray, of St. Martins, and one son, Mr. J. O. Betz, who is in the military service. The body will be placed in the receiving tomb in Fernhill until interment in the spring at St. Martins.

Ichabod Lewis.

Salisbury, N. B., April 1.—Ichabod Lewis, one of the oldest and best known residents of Mount Edge, Salisbury, passed away very suddenly at an early hour this morning. He retired Friday night in his usual health. About 2 o'clock Saturday he was taken suddenly ill and died in less than an hour. Mr. Lewis, who was a prominent contractor and farmer, survived by his wife and four children, Messrs. Fred and Irene Lewis, who have been doing considerable contract work during the last three years on the National Transcontinental railway, are sons of the deceased. His wife, Mrs. Lewis, is settled in the Canadian west. Mrs. Douglas Lutz, of Steves Mountain, and Mrs. Alfred Beckwith, of this village, are daughters of the late Mrs. Lewis. He was a member of the Mount Edge United Baptist church, and took an active interest in temperance work. He was about seventy-one years of age.

Mrs. Charlotte Hood.

Monday, April 3.

After an illness of about two weeks Mrs. Charlotte Hood, daughter of Captain Rufus C. Cole, died in her home last evening, aged thirty years. Pneumonia and heart trouble caused her death. She is survived by one daughter, Maie, twelve years of age, two brothers and three sisters. The brothers are H. W. Cole, of H. W. Cole, Ltd. in this city, and H. L. Cole, of Kentville (N. S.). The sisters are Mrs. Campbell, wife of Dr. Campbell, of Lynn (Mass.), and Mrs. Edward Alken, of Lowell, and Mrs. Charles Fraser, of Moosejaw.

William E. Vroom.

News of the death of William Ezra Vroom, of the firm of Vroom & Arnold, which occurred suddenly in the general public hospital Saturday afternoon, will be received with very general regret throughout this city and province. Mr. Vroom suffered from an attack of paralysis on Friday and was taken to the hospital for treatment.

He was born in Granville Ferry, Annapolis (N. S.), on March 30, 1837. He was a son of Mr. and Mrs. Frederick L. B. Vroom, and a great grandson of John

Vroom, an united empire loyalist, and entered the employ of A. Gilchrist, a dry goods merchant. He was also for a time identified with a mining venture in Albert county, and later, was chief clerk in the Bank of New Brunswick for the late Hon. John Robertson. In 1869 he formed the existing partnership with R. H. Arnold. During the first year they were in business in Montevideo, South America, and later in St. John, where they engaged in the marine insurance business, later taking up fire insurance and establishing a record as one of the most reliable firms in the city.

In 1864 Mr. Vroom married Miss Sarah G. Bond, who survives him. He also leaves two daughters and three sons: Mrs. E. L. Simonds, of Montreal; Mrs. Wm. Neilson, of British Columbia; John P. Vroom, of Kaslo (B. C.); G. Heber W. M. K. Vroom and Fred L. B. Vroom, of New York.

In politics he was a life-long Liberal and held a high place in the councils of the party for many years, filling the responsible position of treasurer of the Liberal Association in St. John, a position for which he was especially fitted by his sterling integrity. Mr. Vroom was a thirty-second degree Mason. He was a member of the Church of England.

Miss Emily Edgson.

Many friends in the city and Fairville will regret to hear of the death of Miss Emily G. Edgson, daughter of Mr. and Mrs. Charles T. Edgson of City Line, West End. Miss Edgson, who was highly accomplished young lady, had been teaching in the Fairville school for some time, during which she made herself very well known to her pupils and their parents. Owing to poor health she went to Europe last year in the hope that the change might be of benefit. She was the only daughter. Her father is employed in the customs service.

Mrs. Bernard Quilty.

The death occurred at her home, 188 St. John street, West End, on Saturday, Mrs. Bernard Quilty, after a brief illness. She was thirty-four years of age and leaves besides a husband, who is a highly accomplished young lady, a husband and three young children. She was a daughter of the late John Dineen, of Charlton, and was a life-long resident of the west end of the city. She was a woman of fine character, and was held in high respect. Her death will cause sincere regret to a host of friends. Her husband is the employer of the C. P. R.

Mildred E. Hicks.

Monday, April 3.

Yesterday at her parents' home, 18 St. Andrews street, Mildred E., second daughter of Mr. and Mrs. Thomas E. Hicks, died, aged eight years and nine months. She was introduced to the world by a brother, who died by two young sisters and a brother.

LEGISLATURE CUTS SPEED OF AUTOS

(Continued from page 1.)

stock to borrow \$100,000 for the permanent improvement of streets was also agreed to.

The house went into committee with Mr. MacLachlan in the chair and agreed to an amended bill to provide for a plebiscite on the proposed hydro-electric power company for the government for St. John; also a bill relating to the closing up of streets in St. John and six the assessed value of the White Candy Company, St. John.

Important Meeting Last Night of Executive of Fish, Forest and Game Protective Association--The Action Taken.

Monday, April 4.

An important meeting of the executive of the Fish, Fowl and Game Protective Association of New Brunswick was held last night in the board of trade rooms. Petitions were received from Gagetown, several points on the Tobique and from the net fishermen along the harbor against the proposed Hankshaw dam on the Shogomoc river above Fredericton. It was claimed that the building of this dam would have the effect of killing the salmon fishing here. This, it is estimated, is now worth between \$40,000 and \$50,000 for the annual season of six weeks, and 125 families are dependent on this for their living. A telegram was sent to the government opposing the building of this dam.

A resolution was also passed opposing granting any special fishing or hunting privileges on the Lepreux river or its tributaries to the proposed Hydro-Electric Company. It was said that this company were desirous of obtaining these rights, and if such were granted, no one would have the right to fish in any part of the lakes and streams of the province, and the ground without a permit from the company. The executive made it clear that they are not in any way opposed to the proposed dam on the Lepreux river. Another meeting is to be held soon.

JURY FINDS CITY EMPLOYEES WERE TO BLAME

Result is Samuel Ferguson's Relatives May Bring Action for Damages

VERDICT REACHED LAST EVENING

Coroner Tells Members of Jury They Have Caused No End of Trouble Through Irregularity—Only Two Witnesses Examined at the Inquest

Last Night.

The inquest into the death of Samuel Ferguson, who died in the General Public Hospital as a result of injuries received from falling from the McLeod warehouse several weeks ago while doing carpenter work for the city, was brought to a close last evening. The jury returned a verdict which they held that the accident was due to want of care on the part of city employees. The inquest took place in the police court and was presided over by Coroner Berryman.

J. King Kelly was present in the interests of relatives of the deceased. Only two witnesses were examined last evening, their evidence having been taken at a previous hearing.

Dr. Warwick testified that Ferguson died as a result of injuries which he received by falling from the warehouse. Wm. McAulay, wharf bulker, said he was unable to give any details as to how the accident occurred. Although he was working near the warehouse at the time he did not see the accident take place. In addressing the jury Coroner Berryman complimented them on being the most irregular jury he had ever had to deal with. He referred to the fact that the inquest was held in the police court and that the result had been a miscarriage of justice.

The following is the text of the verdict: "We find that Samuel Ferguson, late of St. John, West, while working on the McLeod warehouse, received injuries as a result of being struck by a falling derick, and that he later died in the General Public Hospital as a result of those injuries. We further find that the derick was owned by the city and that the death was due to want of care on the part of city employees having charge of the derick. It is understood that the relatives of the deceased are taking legal proceedings against the city."

Monday, April 3.
