[Special to The Advertiser.]

Toronto, April 29. - An air of intense interest pervaded the reception room in the Parliament Buildings today when the committee on privileges and elections started the investigation into the Proudfoot charges against Sir James Whitney and Hon. W. J.

There was a fair sprinkling of spectators, along with general cabinet ministers. Mr. W. H. Dewart, K. C., appeared for Mr. Proudfoot, along with Mr. J. W. Elliott, Hon. Wallace Nesbitt, K C., and Mr. W. N. Ferguson appeared for the other side of the case. Hon, W. J. Hanna was a looker

The proceedings consisted largely in filing exhibits in the shape of depart mental correspondence, and more less intelligent explanations of now certain papers could not be found, papers which may or may not be of

much interest. Mr. S. A. Armstrong, assistant pro vincial secretary, was the first wit-ness. He identified a number of documents dealing with the contract with Taylor, Scott & Co. Mr. Armstrong was unable to produce the original contract and other documents in connection with the matter.

The tenders and bonds in reference to the contracts for underfeed stokers were placed in as exhibits, and Mr. J. R. Cartwright, deputy attorney-general, tollowed Mr. Armstrong.

Feeling the certainty that the property-owners of London are not in favor of spending a million dollars of their money on the electrification of the London and Port Stanley Railway, and realizing that there should be an alternative proposal for municipal peration with steam, failing a lease of the road on satisfactory terms, a number of leading businessmen are discussing the possibility of organizing a company to manage the railway for the city, and to make it a paying proposition for the city.

These gentlemen feel that as far as ossible effort has been made to shut the railway companies out of securing the line, and that while London might secure all the companies and make a handsome sum out of running rights, as present there is not much likelihood of securing more than one of the roads if any at all, in case the road is elec-

Two Wounds Could Easily Be Caused by Single Blow. Says Physician.

Seaforth, April 29.—Dr. Charles Mc-Kay, a physician of Seaforth, who was called to attend Hugh Gordon, the murdered man, told at the inquest today of going with Dr. Ross on the evening of Wednesday, April 23. LONDON, TUESDAY, APRIL 29. A VOICE FROM NEW ZEALAND.

The visit to Canada of Col. Allan, minister of defence for New Zealand, will bring no grist to the mill of the Borden Government.

Before leaving New Zealand, Col Ward made a significant speech, intimating that New Zealand's permanent policy would be one of local naval development. At London shortly afterwards he said to the Empire Parliamentary Association:

"The payment of a naval subsidy would not, in the long run, appeal to the Dominion sentiment of patriotland and Canada, but they needed a minions would have a vital interest. conditions developed in the future. would not be content with merely putting their hands in their poc-

New Zealand, which bargained for the stationing of her Dreadnought in the Pacific, but permitted it to be retained miralty, now realizes that Pacific defence has the first claim, and will Canada, too, must revert to her original plan. The sheer logic of circumstances must drive her back to it in spite of the aberration of the politi-

What is going on in the Balkans? It is an interesting question to those who follow foreign affairs. While we hear of conferences among the representseems to be definitely reported of things on the late scene of conflict.

Vague and sensational rumors are fallen out among themselves and are should not eat at the expense of his fighting a bloody campaign. These rumors come from Bucharest where opinion is, of course, hostile to the alone breath we are informed that "three important battles have already been fought," or that "fighting has been in progress between Greeks and Bulgarians in the vicinity of Saloniki"; the next moment the story is that as soon as peace is made with Greece "will go direct to Saloniki as adian navy idea. soon as the conflagration breaks out.' This is not very consistent even for

Such stories, true or false, rest upon the well-known tension between Bulgaria and her allies. They have been enemies for ages and have been made friends for a time only by urgent necessity, Serb, Bulgar and Greek have intrigued for Macedonia with increasing vehemence in late years. Some rough arrangement for the division of the spoils of war, if any, was made before the opening of the recent conflict with the common enemy, and Bulgaria tries to hold her allies to the letter of their bargain. That is, Monastir and Saloniki go to Bulgaria. But the events of the war, viewed broadly, seem to justify Servia and Greece in their claims to these cities and vicinity. Servia won Monastir, which is near her territory, Greece won Saloniki, which has a large Greek trading men's compensation act. The Opposiand reaching to the Constantinople know upon which party to place the James Whitney, admits that it has done wrong; but the witness who can ers want to give some of Servia's acquisitions to Montenegro in lieu of Scutari, and threaten to restrict Greek credit to itself some months ago for gains in Albania to the minimum. But the war fever has now got into the blood of all the Balkan peoples and it may be that Europe will have to coerce not Montenegro alone. "The melting pot of the nations" keeps boiling over.

SUCCESS OF THE BRITISH INSUR-ANCE SCHEME.

When the British Chancellor of the Exchequer introduced his state insurence measure, he was met with a storm of disapproval. When it was arried by Parliament, every possible effort was made to hamper its operaions. The medical men protested that their pay would not be sufficient, and refused their services; employers inlignantly declared that they would not 'lick stamps' for the insured; benefit ocieties were very dubious, and in ome cases actually opposed; even the employees who were to be benefited by

OLD EUROPE LEADS. [Montreal Gazette.]

A London newspaper records the fact that the parcel post system has been in operation in Germany 1782, and that packages weighing up to 110 pounds are carried. As United States only adopted the system this year, and as Canada is only considering it, it seems that old Europe, which is often looked upon as slow by fast America, really leads this continent in some important matters.

Former Champions Were Shut Out by

Two to Nothing. [Special to The Advertiser.] Ingersoll, April 29.—What has seldom happened during the history of the Town Soccer League, occurred last night, when the Ellis Furniture Factory team took the measure of the champion Noxons by the decisive score of 2 to 0. The result was the big surprise of the season, although it was Glen Struck Out Thirteen Upper known that the furniture men were strong. However, their most sanguine supporters never dreamed of a shutout. Brilliant football was witnessed throughout the contest, which was always exciting. Towards the close of the game, the Ellis team introduced splendid combination, and their rushes were very effective. Both goals were scored in the final period. The crowd was large, and both teams received plenty of encouragement. The victory for the Ellis team will do much to intensify the interest in the remaining games of the schedule.

LACROSSE COMMISSION FORMED BY COAST CLUBS

Meeting Will Me Held in Winnipeg to Draw Up Rules Governing All Lacrosse in Dominion.

[Canadian Press.] New Westminster, B. C., April 29. A national lacrosse commission for Canada is now assured. At a meeting of the British Columbia Lacrosse Association last night, after a somewhat stormy discussion as to whether Con Jones and Lionel Yorke, who went east for the Vancouver and Victoria clubs, were vested with authority to act for Westminster in the negotiations there. The meeting settled down to a consideration of whether the commission was unanimously desired, and it finally became the opinion that it would be in the best interests of the national game. The verbal arrange-ment for a lacrosse commission made by delegates to the east, for one man each from the D. L. A. and B. C. L. A., to meet in Winnipeg to draw up rules for the government of the game, after appointing an independent third gentleman to act as chairman, was approved. The name of Mr. Isaac Pit-blado, K. An Abject Surrender. The workers whose vital interests were at stake were confident that Sir James Whitney was big enough to fulill the obligations he owed to the great mass of the people of the premier province. They believed he would prove equal to the occasion and they did not expect him to make such a lamentable exhibition by abjectly surrendering to he Manufacturers' Association.

PHILLIES PROTEST GAMES AT NEW YORK

Claim There Was a Big Hole Behind Pitching Box on the Polo Grounds,

Boston, April 28 .- A formal protest of the games played on the Polo grounds, New York, April 23 and 24, between the New York and Philadelphia teams of the National League, was filed by telegraph with President Lynch of the league by President Locke of the Philadelphia club

The protest is based on the claim of the Philadelphia players that there was a hole in the ground back of the pitcher's box at the Polo grounds on those two days. "This," President Locke says, "is a violation of the playing rules, section 2, rule 9, which says that the ground must slope gradually from the pitcher's box to the bases on either side. The hole was filled in for the game of April 25." The protest is based on the claim of

He was thinking of Joe Montgomery now, as he had thought of him many times since he draw himself up out of that merciless yellow flood into which the handy man had flung him. Evelyn looked at him wonderingly. His virtues, as well as his vices, were things beyond her comprehension.

The door opened and Moxlow came into the room. At sight of him Langham's dull eyes grew brilliant

"I thought you would never get here!" he said.

"This is too bad, Marsh!" said his law partner sympathizingly, as Evelyn yielded him her place and withdrew to the window again.

"Where's Taylor?" asked Langham abruptly.

"He had to go to the jail. He was leaving the house as I got here," replied Moxlow.

There was the noise of voices in the hall, one of which was the colonel's, evidently raised in protest, then a clumsy hand was heard fumbling with the knob and the door was thrown open, and Joe Montgomery slouched into the room.

"Boss, you've got to see me now!" he cried.

When he had finished, North cast alsat glance about his cell and passed out of the door between the two men. They walked the length of the corridor, descended the stairs, and entered the jail office. Langham's glance dwelt for an instant on the handy man, then it shifted back to Moxlow.

"Stop the execution!" he said, and Moxlow thought his mind wandered.

Minority Will Fight. The minority of the House will make a fight on some of the provisions, realizing, however, that with an immense majority of Democrats in the House the bill may go through unal-tered by the opposition to it. Whatever amendments are agreed to by the Democrats will be voted upon later as a whole, when the bill is reported to the House as a formality, from the committee of the whole House, the parliamentary status of the House consideration at this time

Consideration in the House itself will be brief, the chairman of the "committee of the whole House" simply reporting the adoption of the bill "with sundry amendments" by the committee and a very quick consideration of the bill and the amendments in gross, will be followed by the fina passage of the bill, and its forwarding to the Senate.

Representative Underwood, of Alabama, the Democratic leader, said to-day that he hoped and expected that the bill would be passed by the House this week. He added that unless currency legislation should be taken up the tariff bill could be safely passed both Houses of Congress and signed by the President, and Congress could adjourn by July 1.

Many members of the House, who have not spoken in general debate, will talk under the five-minute rule beginning today, on the bill.

Secretary Bryan replied-"I am sorry ut I cannot answer as fully as you might like. PRICES ON MARKET WERE EASIER TODAY

Hay, Straw and Oats Were in Abundance, and Rhubarb Plentiful.

Not more than fifty farmers attended the local market today, but as the offerings were confined to hay, straw, oats, dressed hogs and vegetables the prices of the most of these were easier than those which prevailed on Monday. Some fifteen to twenty loads of hay were sold this morning, and the prices

ranged from \$11 to \$13 per ton, and the average selling price was \$12. Only a few loads of poor quality were sold at Straw, of which four or five loads were purchased by the buyers, was quoted at the same prices as prevailed during the

last few days of last week, \$7 to \$8 per Oats, which have been offered in larger quantities than usual, were easier, the extreme quotations being \$1 15 and \$1 20 per ewt. The most of the sales were

Dressed hogs, of which a large quan-ity were sold, were firm at \$12 50 and Rhubarb was very plentiful, and the

average price was 60c per dozen. to

ACCUSES BANKERS

(Continued From Page One.)

Stem roller tactics began to show themselves early in the committee this morning. G. B. McCurdy, probably the most aggressive member of the com-mittee, on the question of gaining reforms in the act, had an amendment to offer, providing that copies of shareholders' bylaws should be available to shareholders. The amendment was consented to without a vote, Chairman Ames took occasion to ask the views of the committee as to whether when clauses had passed they should be considered passed or whether further amendments should moved whenever members pleased. Mr. Rhodes, of Cumberland, rose to the occasion. "We are taking up all

sorts of time in picayune matters," he declared. "We talk about shareholder bylaws. The average shareholder does not know the difference between a by-law and a phrase from the Bible. He his hand. He did not say anything knows about as much about banking more, but he had told of holding his as a cow does of the moon. Let's get down to work. Cockshutt Protests.

Mr. Cockshutt, of Brantford, also rose and protested againt the submission of amendments after a clause had once been considered finally passed. "What do you mean by finally pass-

ed?" asked Boyce, of Algoma. A Western member rose, "You aren't going to save any time by action of this sort," said Mr. Craney, of Sas-katchewan. "If you stop a man from speaking now he will say what he has to say somewhere else. He will say t in the House if he cannot say it here. I for one will anyway." No vote was taken on this motion,

and the committee proceeded. "Another victory for you, McCurdy," said a member when the committee consented to having the word, "Detailed" in the clause regarding the bank's statements of profit and loss, Mr. Mc-Curdy declared that the present state-

ment meant nothing. At the end of the year, he said, bank directors should be called up to give an account of their stewardship, and this account should be as far as possible so complete that shareholders may be able to form an opinion as to whether the directors have or have not been faithful stewards. ment carried. Tax for Circulation. Time to Paint

These pleasant days are a favorable time to paint. With good weather, a good surface, a good painter and good paint, you are sure of success. Whether you paint now or later, don't risk the

paint. You can't afford to take , chances on made-by-guess paint or the cheap unserviceable kind. We have been in the paint business for years.

We know paints - good bad-indifferent-and in all our experience with all kinds, under all conditions, we've never seen a paint to equal Lowe Brothers "High Standard" Liquid Paint.
