AN ALIEN FOE LAY BROTHER AT THE NOVITIATE

Did Not Register Until After the Raid by Captain MacAuley.

[Special to The Advertiser.] Guelph, June 25.—A new feature of the controversy in connection with the novitiate was disclosed today, when it was learned that an unregistered Austrian, named Peter Bela, was one of the lay brothers in the institution at the time of the raid by Capt. MacAuley and Dominion police officers on June 7. In answer to the inquiry at the city police headquarters today, Chief Rand gave the following particulars regarding Bela.

Brought in After Raid. "The day after the raid, Bela was brought into the police office by P. Kerwin, solicitor for the novitiate, and was instructed to report on the last day of every month with the other alien enemy citizens in this district."

PROMOTION OF STAFF MEMBER EXPECTED MOVE

Vacant Collegiate Principalship May Be Filled by W. T. Mooney.

W. H. T. Mooney, language specialist of the Collegiate Institute staff, may be promoted to the vacant position of principal of the school this afternoon. A special meeting of the board of education has been called for this afternoon. It is for the purpose of dealing with the appointment of a successor to Principal G. F. Rogers and other collegial questions. It is a successor that the latter includes a predecessor as a certainty. He is endorsed by the members of the staff for the vacancy, and there is a general feeling that of the teachers of the staff should give the situation and not an outsider.

BRITISH GUNNERS DEEMATE RANKS OF TEUTON ROUT

RUSSIA BLAMED FOR WORLD WAR BY KUEHLMANN

France and England Placed Next in Order of Culprability. DISCUSSES WAR AIMS

Declares Germany Cannot Bind Herself by Pledges Regarding Belgium.

London, June 25.—Dr. Richard von Kuehlmann, the German foreign secretary, declared to the Reichstag in Berlin yesterday that Germany could not bind herself to any pledges in regard to Belgium, says a Central News dispatch from Amsterdam today.

Amsterdam, June 25.—Chief blame for instigating the war was laid at Russia's door by Dr. von Kuehlmann, the German foreign secretary, in an address to the Reichstag yesterday, in which he also dealt with Germany's war aims. France and England were named as the next powers in order of culpability.

"I believe," said Dr. von Kuehlmann, "that one can say without fear of contradiction, as the result of revelations, that the deeper we go into the causes of this war, the clearer it becomes that the power which planned and desired the war was Russia, that France played the next worse role as instigator, and that England's policy has very dark pages to show."

Referring to Germany's war aims, Dr. von Kuehlmann said: "We wish for the German people and our allies a free, strong and independent existence within the boundaries drawn for us by history. We desire overseas possessions corresponding to our greatness and wealth; the freedom of the sea, carrying our trade to all parts of the world."

Dealing with the question of Poland, Dr. von Kuehlmann said that the only way the Polish question is to be solved is by a fair and equitable settlement of the economic questions existing between Austria-Hungary and Poland. He said that the attainment of a definite result.

"I believe, however," said the foreign minister, "that before there can be general peace negotiations in Europe the zealous efforts of the statesmen concerned must be directed towards finding a solution acceptable to all parties."

Dr. von Kuehlmann went into some questions of imperial policy, referring first to Germany's relations with her allies. "In Austria-Hungary," said Dr. von Kuehlmann, "that brilliant representative of her foreign policy, Count Czernin, retired because of internal political reasons. His successor, Baron Burian, is a well-tried diplomat, whose loyalty, friendship and devotion to the alliance were assured from the outset. The personal and cordial collaboration which existed in the case of Count Czernin, and which contributed to the existing peace, will be maintained by Baron Burian. It is also to be reckoned among Baron Burian's services, Dr. von Kuehlmann said, that an interview between the two emperors occurred at main headquarters, which history will record as momentous in the development of relations between Germany and Austria-Hungary. Both the emperors, in the presence of leading statesmen, assured each other solemnly that they would not only loyally abide by the existing alliance, but that they also intended to strengthen, widen and deepen it in political, military and economic directions.

"Pursuant to the expression of the will of these two great emperors, responsible statesmen forthwith entered into corresponding negotiations. During his visit to Berlin, Baron Burian discussed the fundamental questions thoroughly in conversations with the chancellor, the exchange of views being carried on further in writing. They probably will be continued on the occasion of the chancellor's return visit to Vienna."

Friends With Bulgars. "With Bulgaria, too," continued the foreign secretary, "recent events, especially the peace negotiations, have facilitated the drawing closer of many personal and political ties. It is a matter of regret, which this country shares, that Premier Radoloff, who has been premier of our alliance, and the exalted personality of the great statesman, who wears the Bulgarian crown, are a guarantee to us that there will be no change in the policy hitherto pursued."

Dr. von Kuehlmann again went over the question of the Dobruja, which is the subject of negotiations between Turkey and Bulgaria, and added: "But there does not exist any conflict of interest between us and Turkey. Dr. von Kuehlmann announced that the peace negotiations have facilitated the drawing closer of many personal and political ties. It is a matter of regret, which this country shares, that Premier Radoloff, who has been premier of our alliance, and the exalted personality of the great statesman, who wears the Bulgarian crown, are a guarantee to us that there will be no change in the policy hitherto pursued."

Three Persons Meet Death When Automobile Hits Pole. Montreal, June 25.—Three persons were killed early this morning when an automobile crashed into a telegraph pole on Park avenue, just above Mount Royal avenue. There were five persons in the car at the time of the accident, others escaping with slight cuts and minor injuries.

According to the story told to the police by one of the injured, the car was proceeding along Park avenue at a fair rate of speed when the machine skidded and crashed into a telegraph pole, the occupants of the machine being thrown to the pavement. The victims are: J. C. Jennings, traffic chief, Canadian Pacific Railway Telegraphs, 2179 Esplanade avenue; Albert Jarvis, night chief operator, Canadian Pacific Railway Telegraphs, 2052 Hutchison street, Outremont, and a woman who has not been identified. Jennings and Jarvis were returning home after their night's work.

NEW TRIALS COMING, DIAZ WARNS ARMY. Rome, June 25.—In announcing to his victorious army the repulse of the Austrians, General Diaz, the Italian commander-in-chief, says that the fighting for the present is confined to local actions. He calls upon the army to prepare for new trials. In an order of the day to his officers and men, General Diaz says: "Reputed at All Points. The enemy who, with furious impetuosity used all means to penetrate our territory, has been repulsed at all points. His losses are very heavy; his pride is broken, glory to all commands, all soldiers, all sailors! The country understood at once that the barrier set up by your heroic valor was unshakable, and that your strength is the surest of immortal vigor. Our people and our allies will among many glorious representatives against the eternal enemy."

ENEMY NIGHT ASSAULTS ON FRENCH-FAIL. Paris, June 25.—The Germans last night attacked the new French positions in the region of Le Port, north of the Aisne, but were able to make no gains, says the official statement from the war office today. In surprise attacks in the Woevre and in Lorraine the French captured twenty prisoners.

WOODEN TOYS MANUFACTURED BY LITTLE RYERSON SCHOOL PUPILS MEAN COMFORTS AT SANATORIUM

Novel Way of Raising Money For Patriotic Causes Followed by Grade IV. Members, Who Enjoyed Work of Building New Toys.

Children of Grade IV. in the Ryerson School could scarcely wait for Monday morning this week. It would have been a keen disappointment for any one who was asked to stay at home for sickness or other reason. Every last one was eager to know how much the grade had raised on Saturday for the Byron Sanatorium for Tubercular Soldiers by a series of wooden toys.

Everything was made of wood, yellow dogs that moved their heads and tails in a most fascinating, life-like fashion; guinea pigs, rabbits, cats and rabbits, coat hangers, just right size for boys and girls, adorned with fancy figures and markings.

How did the wonderful hand-made toys come into existence and how they inspired? At Easter time, when "teacher" was in Toronto, she visited the Art Craft House, where she got the great idea and obtained some of the patterns.

When the children were unusually good and had their lessons up exceptionally well in the morning, they were devoted to the toy-making.

VOICE OF THE PEOPLE

A LIE ALWAYS SINFUL. To the Editor of The Advertiser: In view of the interesting statement made by a Guelph cleric on Sunday regarding the consideration of a vicarage, it might be interesting to call attention to the fact that Catholic children are, from the age of understanding, continually faced with the following question and answer in their catechism: Q.—Is it lawful to tell an innocent or peccator a lie or to tell a lie for a good purpose? A.—No lie can be lawful and no innocent who answers can be saved because a lie is always sinful and bad in itself.

How The Men Do Enjoy A

MONTSERRET "SURCINGLE"

After 18 holes—or a long, dusty ride—or a red-hot day down town—how good it feels to stretch out on the club house porch and sip a MONTSERRET Surcingle. The snappy, fruity, aromatic flavor—the satisfying coolness—bring happy rest and refreshment. As one clubman put it,—"It's worth being hot and uncomfortable just to enjoy a long, cold MONTSERRET Surcingle."

Montserrat "Surcingle"
 To make a "Surcingle", take one to two tablespoonfuls of "Montserrat" and add one bottle of Ice Soda Water, and sweeten to taste. It is delicious.

Call for it by name. Ask for one at the club. MONTSERRET may be obtained at all druggists and grocers. National Drug and Chemical Co. of Canada, Limited.

MORPHY, CURRIE AND EDWARDS TO BLAME FOR RELIGIOUS ROW

Editor of Catholic Register Discusses Guelph Issue.

SHOT HITS WRONG BIRD
 Over-Zealous Orange M.P.s Aim at Quebec and Hit Protestants.

TORONTO, June 24.—"So far as the Rev. Mr. Spence and the Ministerial Association at Guelph have any semblance of grievance at all respecting the treatment of Catholic and Protestant divinity students, they have to blame, not Catholics, but the Orange members of Parliament, Mr. Morphy of Perth, Dr. Edwards of Frontenac, Col. Currie and others, who forced Sir Robert Borden to drop the exemption of divinity students."

This is the view expressed by J. A. Wall, K.C., of Toronto, editor of the Catholic Register. "The original allegation against the Novitiate at Guelph," said Mr. Wall, "has been completely disproved. It was said that the institution was harboring defaulters under the military service act. Acting on this suspicion, the military police were instigated into making the offensive and unjustifiable raid for which the minister of militia has apologized. Now the Ministerial Association at Guelph drops the charge of harboring defaulters, and they rest their case on a complaint against the terms of the military service act."

"The one relevant point," Mr. Spence has raised, is that he and his friends are going to try to have the Government interested in the matter for a Protestant divinity student as for a Catholic. He says they don't care whether all students are made liable or all exempted, but he wants the law to apply the same to both. "What I think of Rev. Mr. Spence," continued Mr. Wall, "is that he has caused more harm than he is aware of by doing things in a wrong way. He suspected much and he acted on suspicion, where he should have made open inquiries. The one relevant point he has made is based on lack of information. When the M.S.A. was first drawn up it followed the lines of the United States act regarding divinity students. If it had passed in this form there would have been no semblance of objection."

Orange M. P.'s Work. "Protestant students would have been treated in exactly the same way as Catholic students. But certain Orange members of Parliament from Ontario would not have it. They had been reading in the newspapers lurid accounts of what Laval students had done in the streets of Montreal, and they believed that Laval students were simply students, they did not know that none of these Laval students were simply students, but were simply lawyers, doctors and journalists. But Messrs. Morphy, Edwards, Currie and the rest of the Orange group thought the exemptions of divinity students would exempt Laval students and they proceeded to embody their empty thought in legislation. They struck blindly against the exemption of divinity students, which the Government proposed."

Clause is Dropped. "The clause exempting divinity students was dropped. Then the minister of justice pointed out very clearly and very fully that the wording of other clauses exempted such Catholic divinity students as had received tonsure or minor orders, or had become members of religious communities. It was that some Protestant representatives should have proposed an amendment giving corresponding exemption to Protestant divinity students, but none of their friends on the floor of the House thought it worth while to consider the interests. The object of the Orange group has been to aim a blow at Quebec, by refusing exemption to divinity students."

BINDER TWINE IN SIGHT.
 WASHINGTON, June 24.—Mexican steel growers have entered into an agreement with the food administration to sell in this country 500,000 bales of binder twine at a price three cents below that received last year. Food Administrator Hoover said today he expects the agreement would save American farmers approximately \$6,000,000 on binder twine next year.

BRITISH FLIERS BRAVE STRONG WINDS TO BOMB AND SPY ON GERMANS

LONDON, June 24.—The official report on aerial operations issued tonight says: "In the strong winds and low clouds of June 23 our airplanes carried on reconnaissance work and artillery cooperation with the Royal Air Force. A little air fighting. One hostile machine was destroyed during the day; two of our machines failed to return."

AMERICAN MONEY MARKET ON A 7 PER CENT BASIS

Would Be Expensive to Float Canadian Loan.
 OTTAWA, June 24.—Sir Thomas White said today that the New York market was practically upon a seven per cent basis for the higher class of corporate issue securities. With regard to the suggestion that has recently been made of a large Dominion Government loan in New York as a countermeasure to the high interest rates in this country, he stated that such an issue could only be made upon a 7 per cent or 8 per cent basis, with flotation charges of three per cent. The reason for the high interest rates is financing pressure and proposals for the Liberty Loan issues and the heavy income tax which all other issues are subjected.

MAGISTRATE MIERS IS OVER ALL ESSEX COUNTY

Erstwhile Magistrate at Sandwich Has Resigned.
 TORONTO, June 24.—For some time past numerous requests have been received by the attorney-general's department to have the jurisdiction of Essex placed under one and the same police magistrate, and a request recently extended to the whole of Essex, exclusive of the county of Kent, now being appointed police magistrate for the whole county.

METHODIST CHURCH ONTARIO'S MENACE, STATES COL. MACHIN

Makes Province Most Hypocritical Class in Canada.

CABAL AGAINST DOHERTY
 Expects to Lose His Job for Speaking Out, But Does Not Care.

MONTREAL, June 24.—"There is evidence that a powerful cabal exists at Ottawa against the minister of justice, which showed its hand last week in the disgraceful and brutal raid on the Jesuit College of Guelph. The greatest menace to the peace of Ontario is the Methodist Church, which seems to make us in Ontario the most hypocritical body or class of people in the Dominion of Canada."

This was the declaration made this afternoon by Lieut.-Col. Machin, director of the military service act branch of the Ontario War Office, member of the Ontario War Office, Kenora, in an interview given at a public hearing last week. He said he realized that he would probably lose his job over the declaration, but he felt bound to express his opinion in view of what had recently taken place. Col. Machin went overseas as a colonel in command of the 94th Battalion, having refused a judgeship in order to do so, and his present position, which he says he does not expect to hold, is worth \$5,000 a year. Col. Machin's interview follows: "I have been sent to Montreal to discuss the means of handling more of the men who are being called up. At the present time there are 11,000 eligibles for call in this district. The military department has not been able to take care of them. In the meantime, the military department has been asked to be called by the G. O. C. of Montreal and Quebec districts have been asked. This has resulted in only \$3,000 under the M. S. A. being called in the province of Quebec. The fact that Ontario has called 25,000 against \$3,000 in Quebec was given out by the military department last week."

"Immediately the Government became concerned, and on Friday last was plainly told by Messrs. Morphy and Mewburn that unless I produced the proper question before the House and another job, I would be called for an answer. I was then called for an answer to the question of the military department could take care of them. I now propose to try to arrange with the G. O. C. of Montreal and Quebec to take care of the 11,000 at present in this district. I can do so."

DOHERTY DECLARES SON NOT ELIGIBLE FOR WAR SERVICE

Minister of Justice Answers Question of Rev. Mr. Spence.

OTTAWA, June 24.—It having been represented that Rev. W. D. Spence, minister of the Methodist Church at Guelph, had not received an answer to a series of questions addressed to the minister, regarding the Guelph controversy, Mr. Doherty this morning stated that an answer had been sent by his secretary and mailed last night. The questions were only about one hour's consideration. Mr. Doherty consented to a copy being made public. The letter, dated June 22, is as follows: "Reverend Sir,—I am directed by the minister to acknowledge the receipt this day of your telegram of the 21st inst., and to inform you that it is so that your son is not eligible for service on the 31st of December, 1917, and consequently does not come within the act, having entered on the 30th of March, 1918, and was in, as the date given in your message clearly establishes, free of any obligation whatsoever, under the law, including, of course, any obligation to submit to a medical examination, or to register in any military district."

Was Examined. "I am further to say that though under no obligation to do so, I have been in the hope that it may put an end to the misapprehension under which you have been apparently laboring, not recognizing the propriety of your message, and to serve any useful public purpose, can be added by a discussion between us, so far as he is concerned, considered closed. Yours respectfully, "E. T. TRIMBLE, private secretary."

YOU FEEL FINE

Fatigue is the result of poisons in the system, the waste matter resulting from the activities of life. The kidneys have failed to filter these poisons from the blood and you are tired. But awaken the kidneys and liver by using Dr. Chase's Kidney-Liver Pills and you soon feel fine. The poisons are swept from the system, the pains and aches are gone, and you are ready for work and for play.

GAS IN THE STOMACH IS DANGEROUS
 Recommends Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion.
 Gas and wind in the stomach accompanied by that full, bloated feeling after eating, are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and creates the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart. It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation, and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

EVERY INHABITANT IN SOME QUEBEC PARISHES REFUSED TO REGISTER

MONTREAL, June 24.—That within the county of Dorchester, Quebec, there were some parishes in which every inhabitant has refused to register was the statement today of Superintendent-Registrar Cresce of this city. "If they and all defaulting persons do not fulfill their duty within the thirty days' grace now granted by the Government," he added, "the law will deal severely with them as registrars is a public security and a duty, and must be enforced."

UNABLE TO TALK SINCE TOUCHING WIRE

MOUNT BRYDGES, June 24.—During the heavy windstorm Saturday evening a hydro wire broke in the north end of the village opposite Jerry Hill's residence. Mr. Hill took hold of it to put it on the fence and was knocked unconscious and had his hand badly burned. J. Lipsit came to his rescue and caught him by his clothes and pulled him free of the wire, then hailed a passing auto and called Dr. Woods. Mr. Hill was unconscious for some hours. He is improved now, but still unable to talk. Had no one been near at the time he would have lost his life. The village was in darkness for about an hour owing to the break.

TROUBLES OF A MERCHANT AND HOW TO STOP THEM

Movie Film and Lecture at the Y. M. C. A. Auditorium Wednesday Night.

The three-reel feature film, "Troubles of a Merchant, and How to Stop Them," will be presented for the first time in London on Wednesday night at 8 o'clock, in Y. M. C. A. Auditorium. In connection with the film, a lecture on retail merchandising will be given. All merchants and salespeople in the city are invited to attend. No charge will be made for admission. The Advertising Club and Board of Trade have secured the film and merchandising lecture through the courtesy of the National Cash Register Company, Dayton, Ohio. An expert lecturer of the Dayton company will be the speaker. The lecture has been given before commercial organizations and conventions throughout the country, and has been highly commended. Causes for losses and failures in retail business are shown, and their remedy told in the lecture, which has been prepared from the experience of the National Cash Register Company in its thirty-three years of dealing with merchants in all parts of the world.

German intrigue in all parts of the world. Much to depress and little to celebrate has been their lot, the collapse of Russia gave to the central powers a new lease of life and time was required for the American machine to gather momentum that would count heavily.

The Italian resistance has soon turned into an offensive movement against the Austrians. Germany as well as her ally receives a severe military setback. The countries seethe with rebellion, and there are many indications that the greatest blows of the war will now be struck from the Allied side.

It may be possible for the Allies to seize upon the present turmoil to bring Russia back into line, to give strength and support to those elements which seek to end the rule of purchased and traitorous leaders. The air is full of great possibilities. The spirit of Germany may hold for some time, but the signs of disintegration are evident everywhere. It is a time to look for immediate events, but to prepare for all eventualities, and to relax only with the complete tottering of the Hohenzollern system.

ON TOWARD 100,000.

RETAIL business in London continues to expand, and there was probably never a time in the history of the city when trade was in a more healthy and wholesome condition. Failures have been virtually unknown in the last three years, due in large measure to the solid commercial foundation upon which the city is built and to the district of which it is the centre. Many new concerns have opened up for business in the city, and it is a rare thing to find a store remaining empty for any length of time. New blocks are gradually losing their residential aspect, and the time is close at hand when practically all the available property on Dundas street will be filled with business blocks. The tendency comes so gradually that it may not be noticed, but those who have built new blocks or remodelled dwelling houses have had their faith justified through the rental of their property. Small stores have come in large numbers and have grown and few of the new concerns have failed to establish a place for themselves.

All these new places of business add to the city's size and standing. The city takes on new life with every ounce of new energy and enterprise put into it. This growth and forward movement is certain to continue, and within a few years of the close of the war London will have advanced to 100,000 population, with an enlarged and improved business section and with the old established retail and wholesale houses growing constantly. The United States had its awakening after the civil war, and Canada will experience her greatest growth when peace has been declared. Both from the British Isles and the United States will come a new interest in the broad opportunities to be found here. Ontario will attain a stature comparable to that of the great manufacturing states of the American republic, and in agriculture will take a position close to the front. London will be one of the first cities of the province and a united effort on the part of her businessmen will do much to prepare the way.

A BIG NEW INDUSTRY.

THE BEGINNINGS of an industry which will soon become one of the most important in this section of the province are seen in the development of Beatty Brothers factories on Chelsea Green. Before long this concern will have on its payroll at least 500 men, and it is quite possible that this number will be doubled. Large new buildings are to be erected, and London will gain all the benefits without being called on to grant anything in the way of special favors. This is the most desirable kind of industry. It depends for its existence upon Canada's foremost industry, that of agriculture, and no matter what conditions come to pass, it will be found that Canada will advance along the lines of soil development. Everywhere there is land to be tilled, and the men to occupy this land will be found.

Already this firm has large quarters on York street, and the plans for the Chelsea Green extension are such as to bring about a large advance in the value of real estate and a new chapter in the history of the eastern section along the lines of industrial growth. Such an industry will sooner or later be responsible for the addition of several thousand people to the population.

Ex-Emperor Nicholas has adopted as his favorite song, "Where do we go from here?" and he gets plenty of opportunity to sing it.

One of these days the news is going to be flashed to this continent that Foch has launched his offensive. That will be a great day.

Emperor Karl sends a sword to his relative, an archduke, at the front, when what the poor man wants is a big sirloin steak smothered in onions.

It is not often prayers for wind are heard, but Saturday and Sunday nights every farmer was saying them in his own individual way, knowing that calm meant frost.

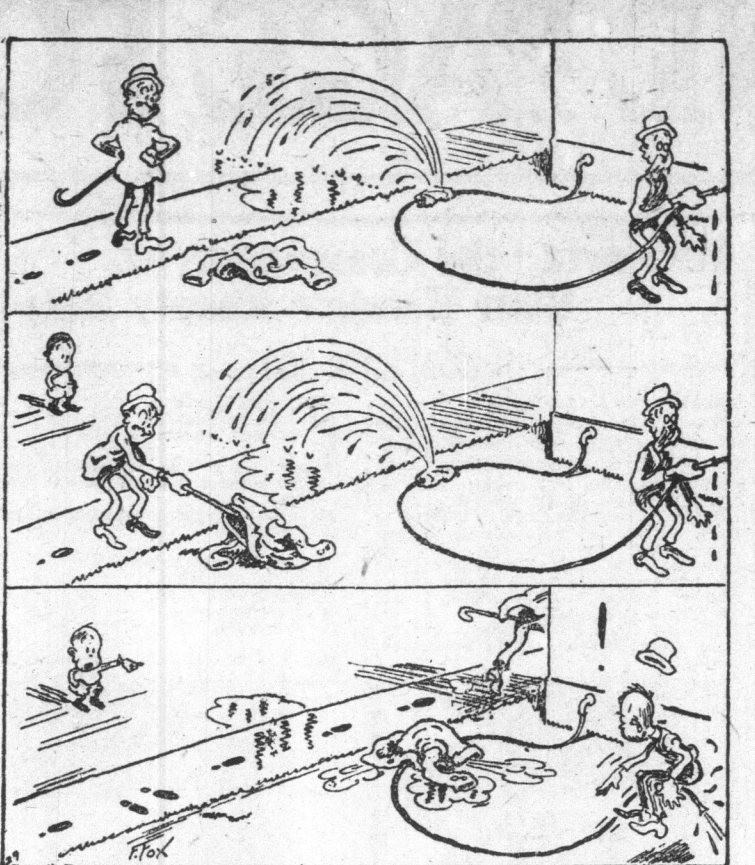

THE WORLD'S JOB.

The business of swearing in a posse of nations to round up the world's worst bad man goes on despite the German army's terribleness on the western front. Guatemala, nineteenth nation to declare war against the German empire, does not add any military strength to the Allies. Her presence in the Allied camp is a moral victory of importance, at which the central allies have ceased to be a group; they have become an empire. In the second place, the Allies have broadened their list until it comprises nations of every continent and clime. It is now the world against Germany. Precisely as a western community in the old days took arms and to a man did sheriff's work to rid itself of a horse thief, so the world today arms itself against the German. The task may be tedious and costly. The duty is inescapable if homes and families are ever to live in peace. And the issue is inevitable.

KEEPING UP THEIR REPUTATION.

Americans were ever noted for their profraternity in Europe, so that it is not any surprise that when they come up with the Huns they give them two for one in the matter of shells and bullets.

of which Cassandra, Andrew's caught immediately, and she leaned forward impudently and flatly contradicted his contention. "Then she followed up the contradiction with a tumble of words in support of her own opinion and sat speedily down again. The professor was surprised. "Well," he said, crisply, "I'm glad that at least one student in this English class thinks for herself. I was afraid you were all sheep."

On the instant the bell rang and the girls arose and passed out in chattering groups, congregating in the court outside with light-headed chatter. "We're all sheep but you, Andy, dear," sang out Edna Phray, dancing up to Cassandra delightedly. "And you are a blessed lamb, but you'll grow. I never knew you had so much spunk. When do you keep your hair?"

And the two of them strolled off together, arranging to play tennis in the late afternoon, after that day's tennis bout. The English professor patted a ball aimlessly into the net and his contemporary changed his shoes. "Guess I've a touch of spring fever," he said, watching Edna and Cassandra tightening the net three courts over. And right there the professor of English made his second mistake. "I feel," he said, "almost frivolous enough to suggest mixed doubles."

And Bill, the economics expert, waved his hand and called across to the girls: "Want to make it doubles?" The girls drew together for an instant's consultation, and then Cassandra, the student of English, changed her mind. "How do we pair off?" demanded Professor Bill. "Well," said Edna Phray, practically, "I hate English and I love economics—and I'm very temperamental."

The professor of economics grinned and moved toward the other side of the net. "But," continued Edna significantly, "I'm a tennis player just as Cassandra Andrews, even if I am a sheep."

Cassandra glanced at her stalwart young heart that leaped a mighty flame, the golden points of which shone in her eyes. She forgot everything but the game. She darted about, diving across the court and pulling out a piece of paper and wrote on it: "Give me a good drink."

The barkeep fixed him a drink and wrote on it: "Give me a good drink." The barkeep fixed him another and the stranger gulped it eagerly. Then the stranger pulled out another piece of paper and wrote on it: "Give me a good drink." The barkeep fixed him another and the stranger gulped it eagerly. Then the stranger pulled out another piece of paper and wrote on it: "Give me a good drink."

At the beginning of the third set they were again at a set point. Then the couple who had just settled down and won four straight games. They lost the next and then again, so that the score was five to one against Cassandra and the professor of English. "Easy money," said Professor Bill. "We need only one more game!"

"You can't do it," taunted the flaming Cassandra. "I've won every moment of the afternoon."

"You must—we must!" "You'll kill yourself," he protested. "What does it matter?" she said, crouching to receive Professor Bill's grasp and she swung her racket. "If one can die winning?" And she flung her racket viciously into a smashing stroke that sent the ball smashing the ball in a grey streak down the alley, and the game was won.

"Game set—and match. 'Whee!' shouted the professor of English. "Great work, Andy, old girl!" And he heard her shout the other woman's husband. The blind men are not all carrying tin cups. They are the fellows who refuse to see things as we see them.

Five times that last and deciding game went to duces, and then came the shot. The shot that stood between victory and possible defeat—and she made it, leaping high in the air, she smashed the ball in a grey streak down the alley, and the game was won.

"Game set—and match. 'Whee!' shouted the professor of English. "Great work, Andy, old girl!" And he heard her shout the other woman's husband. The blind men are not all carrying tin cups. They are the fellows who refuse to see things as we see them.

"You won't," he said. "I didn't, because you played some tennis yourself."

The next morning she slipped into her seat demurely as usual. As usual, she looked at the professor, but he didn't notice her.

"Why, you blessed lamb, you Andy Andrews," said Edna Phray, sitting beside her and shaking her by the shoulders. "I never knew you to play such tennis as that. The lamb that hunted tiger-cat," she laughed up at the two men, who stood over them, protested Cassandra feebly. "I'm all in," and then she smiled up at the professor, her professor, "but we won, didn't we?"

"You won't," he said. "I didn't, because you played some tennis yourself."

too, there was a cluster of girls grouped about the professor's desk, chattering gaily. But then, what did she care? Hadn't he called her "Andy, old girl," only yesterday? And she smiled in prim superiority. And when the recitation was over he would have declined her a moment but she ignored the intention with a fine indifference and passed out with the rest. For a week she avoided him successfully, then late one afternoon he met her face to face on the campus. "And what did I ever do to you?" he demanded when she would have spoken calmly and passed on.

"You called me 'Andy, old girl,'" she said grimly, "and I've hated you ever since."

"You're not going to bite me are you, Andy, old girl?" grinned the professor of English.

She could maintain her gravity no longer and little sparks of gold flickered in her brown eyes. "I'll try not to," she murmured with a little laugh, "all right, you darling 'Andy, old girl,'" chuckled the professor. "But when he kissed her again she only clung to him eagerly. Quiet pursuit through the trees, catching her right where she'd planned he should, in a narrow and secluded path. Then after he had kissed her, she reached up and clutched his head between her hands, shaking it fiercely. "Remember," she said between her clenched teeth, "I will not be called 'Andy, old girl,' I won't love you any more if you call me that. I hate it."

ALISA CRAIG—A large crowd attended the garden party at Moray on Wednesday evening, which was given by the Maple Leaf Club in aid of the Red Cross. Supper was served from 6 to 8, after which a choice program was given, with Dr. Racey of Parkhill as chairman. Solos were rendered by Miss Elliott, Mr. Browne and Mr. Law of Parkhill. Songs were given by the school children, and comic sketches put on by the girls of the club. The Alisa Craig Orchestra, with Mr. Allison as leader, and Miss Ada Munro, pianist, furnished music during the evening. The proceeds amounted to \$139.40 for the Red Cross.

A garden party held at Beechwood by the public library board, in aid of the Red Cross, was largely attended. The program was of the very best nature, consisting of numbers by the Juvenile Pipe Band of London, with its clever little dancers, pipers, etc. They were ably assisted by the Alisa Craig Orchestra, of Dugald Gray of Parkhill was chairman for the evening.

A strawberry festival will be held at Clarendon on Wednesday evening, June 26, when supper will be served from 6 to 9, after which a program of high order will be given by the Methodist choir of London, with readings, solos, etc. There will also be other local talent. Music will be furnished by the Alisa Craig Orchestra and a large crowd is expected.

The young people of Carleton again put on the play "Valley Farm" at Goldstream in aid of the Red Cross. It was well attended. The cast was assisted by the Alisa Craig Orchestra, with Mr. Allison, leader, and Miss Ada Munro, pianist, furnished music during the evening. The proceeds amounted to \$139.40 for the Red Cross.

HARRINGTON—The packing committee of the Red Cross Circle met at the home of Mrs. Innes Sutherland and packed their summer pipes, to Hyman Hall, which consisted of 110 towels, 25 suits pajamas, 34 pairs of socks, with a total value of \$134.33.

DORCHESTER—A very enjoyable social Red Cross meeting was held at the home of Mrs. W. Cave. A very large company of supporters and friends were present, including some from Mooseey. Mrs. Sutton, the president, conducted the business part of the meeting, informing those present that the council has granted \$30 a month to the circle. They have had prisoners of war for some time, and have decided to adopt another. This circle is now out of debt, and all that is wanted is lots of workers. A splendid lunch was served, after which a collection was taken up amounting to \$27.75.

A SLUGGISH LIVER CAUSES LOTS OF TROUBLE

When the liver becomes sluggish it is an indication that the bowels are not working properly, and if they do not move regularly many complications are liable to set in.

Constipation, sick headache, bilious headache, jaundice, heartburn, water brash, catarrh of the stomach, etc., all come from a disordered liver.

Milburn's Laxa-Liver Pills are a specific for all diseases or disorders arising from a slow, sluggish, lazy or torpid liver, and they have been universally used throughout Canada for over 20 years with the greatest success.

Mrs. W. A. Harrison, 7 Poplar Grove, Halifax, N.S., writes: "I take pleasure in writing you concerning the great good I have received by using Milburn's Laxa-Liver Pills for a sluggish liver. When my liver got bad I would have severe headaches, but after using a couple of vials of your pills, I have not been bothered any more."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co.

JIMMY COON STORIES

JIMMY COON TAKES MRS. JIMMY TO A SHOW.

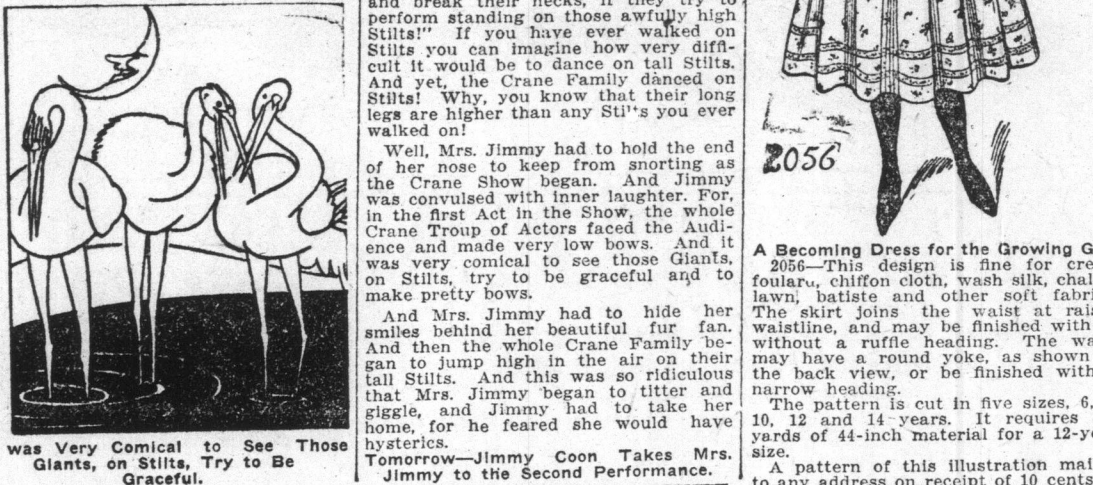

out of doors. Bess in the Spring the Crane Show comes North; and Jimmy Coon took his wife to see the opening performance, which was held not very far from Mirror Pond.

The Great Crane Show was one of the funniest entertainments ever seen under the green tents of the Great Forest. Jimmy and his wife sat in the upper balcony, in a Private Box. Jimmy didn't think it was safe to sit on the ground floor at such a big show. What made the big show so awfully funny was that every member of the Crane Family was a clown.

You know what big people the Cranes are! Why, they are taller than you are. And Jimmy Coon called the Crane Family "Giants." As the Clowns came on the stage they seemed to be walking on stilts, and break their necks if they try to perform standing on those awfully high stilts. If you have ever walked on stilts you can imagine how very difficult it would be to dance on tall stilts. The Cranes Family was united in the first act in the show, the whole Crane Troupe of actors faced the audience and made very low bows. And it was very comical to see those Giants, who were so graceful and so make pretty bows.

And Mrs. Jimmy had to hide her smile behind her beautiful white handkerchief. And then the whole Crane Family began to jump high in the air on their tall stilts. And this was so ridiculous that Mrs. Jimmy began to titter and giggle, and Jimmy had to shake her home, for he feared she would have hysterics.

Tomorrow—Jimmy Coon Takes Mrs. Jimmy to the second performance.

It was Very Comical to See Those Giants, on Stilts, Try to Be Graceful.

April 21.—Jesus Transfigured.—Mark 9:2-9. Golden Text: This is my beloved Son; hear ye him.—Mark 9:7.

3. Verses 4.—Would you say or not, and why, that the spirits of the dead are sometimes seen and conversed with today?

Golden Text: God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.—John 3:16. Thus art the Christ, the Son of the Living God.—Matthew 16:16. am not ashamed of the gospel, for it is the power of God unto salvation to every one that believeth.—Romans 1:16-17.

GOD GAVE HIS ONLY BEGOTTEN SON.

We may not understand fully the meaning of the expression "his only begotten Son," but though we may not fully comprehend these words, we may be able to apprehend them so as to get some intelligent idea of their meaning. God, of course, has begotten an uncountable number of men, for he is the father of us all. "It is he that hath made us, and not we ourselves." Jesus, however, is the only son begotten by God directly, without any other instrumentality than Mary. We learn from the words of the angel, spoken to Joseph, the husband of Mary, that Mary's wife had conceived Jesus through the direct influence of the Holy Spirit. This is the only case of a child born in this way, and thus Jesus is the only begotten Son of God.

Dear Miss Grey—Will you please tell me what will remove grease spots and fruit stains from a blue sergeote crepe? Can sergeote crepe and nixon be washed successfully? I have a pair of white shoes that have the toe-cap damaged just slightly, but otherwise are as good as new. Was wondering if patent leather toe-caps are ever worn on white shoes. Hoping have not bothered you too much. I am, yours truly, M. D. Ans.—I do not think you would find

home efforts very satisfactory. Best take the garment to a cleaning establishment.

2. It is claimed that both fabrics may be laundered successfully, but personally I have never tried. Has any reader done so with good results?

3. Best consult a shoe repair man as to what can be done.

Dear Miss Grey—I am a high school girl, and I should be very glad to correspond with "A High School Girl."

Ans.—"J. A. M.'s" address has been forwarded. Hope your correspondence may prove of mutual interest and benefit.

Use Sterilized Needles.

"Peony"—I. Should advise opening the spots with a sterilized needle; remove the contents and dab well with peroxide. No doubt as the blood clears these will cease to trouble you.

Ans.—There is no law at all in Canada against your having your cakes iced. Restaurants and confectionery shops are now restricted to a certain extent, but this does not apply to cakes iced and eaten at home. Of course, the food control board asks people to consume sweets wherever possible. Might say that whipped cream is being used in place of sugar icing by some folks.

BANKING AND FINANCE.

The statement made by the Canadian finance minister to the effect that he had obtained from the capital issues committee of the United States, permission for the issue of certain Canadian securities in New York, and the hope he expressed at the same time for a satisfactory outcome of the exchange situation, have not yet had an appreciable effect upon the price of New York funds in Canada. At the close of last month the quotation was 19-32, and since that time the price has strengthened. It is anticipated, however, that the more drastic prohibition of the importation of commodities not regarded as essential and increased exports of manufactures, will, in due course, bring about an adjustment of the trade position. During the present month Canadian maturities in the United States are negligible, but during the next three months the aggregate will be \$36,000,000. Exports of gold amounting to \$4,000,000 were recently made to the United States.

In the securities market there has been a very ready absorption of municipal and provincial issues, and at prices much better than those obtained in the early part of the year. One of the principal reasons of this is the fact that the local market was withdrawn, the best offer being on the basis of about 6-7/8 per cent. Other issues are pending which will make the total amount offered during June higher than usual. In many cases municipalities have offered their securities to their own citizens and the quantity absorbed in this way has been considerable.

The April bank statement showed marked increases in cash resources and deposits, but commercial loans declined as is usual at this season. There was a decided increase in loans to municipalities, which stood at \$55,385,000 as compared with \$36,000,000 at the close of April a year ago. They will, however, be reduced by the proceeds of issues about to be made. With a view to retiring some of their maturing obligations which are secured by arrears of taxes, municipalities are prosecuting the collection of these taxes with greater vigor. The total deposits of the banks including those of the Provincial and Dominion Governments, amounted at the close of April to \$1,840,000,000, or \$23,000,000 in excess of the figures of the previous month, and \$184,000,000 more than at the corresponding period a year ago. The requirements of the Dominion Government during the next few months, or until the next loan is issued, will, it is estimated, be fully \$200,000,000, and formed the subject of discussion at a recent meeting between the bankers and the finance minister. The proceeds of the last loan, as indicated by the bank statement, are almost exhausted.

The exportation of gold has been prohibited except under license.—Commercial Letter, Canadian Bank of Commerce.

SHORT TERM NOTE INVESTMENTS.

There are many short-term note investments in the market that cover a wide range of interest yield, and degree of safety. Some of the likeliest of the foreign investments are the Treasury notes and only war conditions have depressed these issues. A very well thought of investment in the Dominion of Canada is due in August, 1919. The war may end before they mature and the Dominion might then have credit sufficiently strong to not be compelled to ask holders to extend or refund them. They can be bought at 95 1/2 to yield 8 per cent. Large investors and institutions in the United States own these notes. Then there is the city of Quebec 6s which do not mature until April, 1920. The city has good credit here and in London, and these notes can be bought at 97 to yield 6.25 per cent. They are classed as a good short term purchase, and are likely to carry beyond the next return of peace.

The province of Quebec in which the city of Quebec is situated has 5 per cent notes, also due in April, 1920, and which can be had at 96 to 97, to yield 6.00 to 6.75 per cent.

Short term issues of the Government of Norway, Argentina, the French Government and the Government of Newfoundland can be purchased to yield from 5.50 per cent in the case of Norway, to 7 and 8 per cent for the others.—New York Financial World.

SAVINGS BANKS AND LIFE INSURANCE.

LIFE INSURANCE AND BANKING ADVERTISING SHOULD GO HAND IN HAND.

The thrift that induces a man to build up a savings account in a bank and to make sound investments is similar to that which leads him to insure his life as liberally as he can for the benefit of his dependents. Indeed, it is probably fair to say that the man who insures his life shows more foresight and shrewdness than he who merely saves from his current income. Certainly his thrift is more truly unselfish and altruistic.

But there is no quarrel between life insurance and the savings account. They often do go hand in hand, and they should do. In their advertising the bank and the insurance agent will cooperate, as they have successfully in a number of instances. Save in a savings account to get ready to meet your life insurance premiums when due. When you, as a beneficiary, receive life insurance money, deposit it in a savings bank instead of risking it in uncertain ventures. This is the kind of reciprocity that ought to be practiced in savings and life insurance advertising.—Bankers' Magazine.

SAVING, A MATTER OF HABIT.

Successful saving is a matter of habit. A habit is formed by repeating an action until it becomes automatic—repeats itself without effort. Habits of mind are formed by a certain kind of thoughts until it becomes second nature to that particular kind of thoughts. Thinking a great deal about achievements helps people to achieve, unconsciously their energies are directed where their thoughts lead them. But dreams of success come true only when backed by actions which give those dreams a practical turn. The kind of actions which curb spending and compel saving, and doing it again and again, until it becomes a habit. "Ability" to save is first of all a habit, and then saving constantly until the habit is formed. SUCCESSFUL SAVING IS A MATTER OF HABIT.—Budget in the "Art of Saving."

GERMAN ECONOMIC SITUATION.

In an article on Germany's financial condition, in the Magazine of Wall Street, Mr. Frederick W. Gehle says:

"The German and Austrian people are accepting the paper of their Governments on the assumption that it is backed by wealth in hand or to be acquired, and it is here that the whole sum and substance of Germany's war finance finds its source. Having piled up in less than four years a combined indebtedness that reaches the appalling total of 50 billion dollars, having flooded the length and breadth of Central Europe with its billion-dollar irredeemable paper money, and having saddled obligations upon their citizens that will require henceforward more than five million dollars yearly to maintain—in other words, having committed their citizens in a manner that in the ordinary way of thinking would be ruinous—the German leaders have convinced these citizens that nevertheless all is well. How? By promising that wealth will soon be taken from their enemies to wipe the slate clean.

"Since yourself for a moment in the position of the German people, and judge that position from their point of view. Germany is laden with debt, her public obligations equal a full third of her wealth, her paper money is vastly inflated, her apparent legacy of the war is overwhelming. Ah!—but offsetting all is the great Hindenburg's promise of victory to come, and his pledge of vast annexations and tremenda indemnities.

"Germany is plunging over the brink of ruin and bankruptcy, self-hypnotized by her cry, 'Annexations and Indemnities!' The eager gambler who plays for big stakes is no more insane than Germany. With him, too, the end must justify everything, or all is lost. Germany's whole main trust is coasted on no provision against defeat. Victory only is considered; loss is counted on to offset the blood and iron cost of the war, indemnities are relied on to make up the money cost.

WHAT IS A PESSIMIST?

"A pessimist is a man who, if he has to choose between two evils, chooses both."—Dr. Hollistree, Ph. D.

WALL STREET CONDITIONS.

With the promise of an unprecedented wheat yield of 200,000,000 bushels and a record cotton crop; with business in war requirements stimulated to one hundred per cent capacity of the industries capable of handling that production and other lines so satisfied with present turnover as to be indifferent to new opportunities for expansion; with the farming community enjoying big crops and big prices; with wages adjusted to the higher cost of living; with railroads handling larger tonnage at increased rates; with the call for skilled and unskilled, greater than the supply, the outlook for stability in general business conditions is most promising, and it is little wonder that the stock market has been running along on the up-grade with such apparent indifference to war activities. Everyone is busy, and confidence in the future both as to the outcome of the war and the future of business is universal from the Atlantic to the Pacific. It has been amply demonstrated that there is a plenitude of money in the country to take care of loan subscriptions and other contributions to the necessities of the war and better than all, is the spirit of the people toward the detestable, and expressed wishes of the president and his coteries of advisers which already include the brightest and best of American brains. Where such magnificent teamwork, as we see in action in the United States today, is at work at 100 per cent efficiency, where such unanimity of purpose is distinctly discernible along all lines of organization, development and achievement among those departments of activity for war purposes and industrial expansion, including preparation for after the war trade, a continuance of prosperity is all but assured, and these conditions must sooner or later be reflected in a very marked advance in the price of good dividend-paying securities. In fact, we feel almost like hazzarding the prophecy that before the summer is over we shall see the stock market doing with the best of an appreciation of present economic conditions which is now only repressed and restrained for the want of two or three old-time leaders like Governor Flower and James Keene, H. H. Rogers and E. H. Harriman. General inflation is not particularly to be desired because of the aftermath that always follows any movement that exceeds legitimate bounds, but under present accumulations of wealth in comparatively few hands, inflation to a greater or less degree, must come, because accumulated power, whether it be physical or financial strength is always seeking an opportunity to expend itself, and present yields on good securities will not escape the attention of the intrepid holders of large financial control.

Land in Alberta Pays For Itself in One Year's Crop!

HERE'S AN 'EXCEPTIONAL' OPPORTUNITY FOR A PROGRESSIVE FARMER.

160 ACRES Good Fertile LAND FOR \$1,600

ONLY \$10 PER ACRE. WORTH \$25 PER ACRE.

Why farm old worn-out land when with no more work you may have the growth of a splendidly paying crop from the virgin soil? Here's an opportunity for a good thrifty farmer to get a farm of 160 acres near the Canadian Pacific Railway and the town of Dunmore, Alberta, for \$1,600. Only \$500 cash payment. Why not go where the crops grow something worth while harvesting, where they cut 40 bushels to the acre instead of our crop of 15 to 20? The cost of putting in an acre of wheat is no more in Alberta than in Ontario, but what a difference in the crop!

This quarter section being the N. E. 1/4 of 24-11-4, W. of 4th Mer., has been placed in our hands for immediate sale to close. The price, \$10 per acre, is ridiculously low for land anywhere in the three great wheat-producing provinces. If you are interested don't delay making up your mind to have it at this price.

If you have been watching our advertisements you have seen some great land bargains offered. This is one of them that will be taken up quickly.

The British Colonies Transportation Company, Limited, has been formed to acquire and operate a fleet of vessels on the Atlantic Ocean to trade between Canadian and American ports and South Africa, West Indies and South America. At the present time the Company has contracted for three new ships, now nearing completion, two of which should be delivered next August and the other in the following month. Two of the vessels are about 1,900 tons each and the other about 2,000 tons carrying capacity. The first two are three masted, approximately 121 feet overall, 35 feet beam, and 12 feet 6 inches hold, while the largest is four masted, 216 feet overall, 33 feet beam and 18 feet 6 inches hold. Provision is made so that auxiliary power can be installed after the war. These ships are equipped with all engines for handling pumps, hoisting cargoes, sails and anchors, and generating electric light. They are worth over \$450,000, and are built to Lloyd's highest classification, having a rating for thirteen years.

The Preference shares are preferential both as to assets and cumulative dividends at the rate of 8% per annum and are redeemable at 110. The Company's charter provides that 10% of the net earnings shall be used annually in the redemption and cancellation of Preference shares, thus reducing the amount outstanding yearly. It is estimated that at the end of four years at least one-half of the Preference shares will have been redeemed through the operation of this Sinking Fund, thereby greatly enhancing the value of the Preference and Common shares. The first dividend on the Preference shares is to be paid on November 1st, 1918. Thereafter Preference share dividends are to be paid quarterly.

Owing to the shortage of tonnage and the tremendous amount of freight awaiting shipment to and the growing trade with South Africa and other southern ports these ships are assured of a steady business at very remunerative rates. All freight charges are prepaid, which tends to assure dividends and the economic operation of the Company.
On the basis of contracts which can now be secured it is confidently expected that these ships will earn in twelve months operation over \$300,000 net. After providing interest and Sinking Fund on \$300,000 of Bonds to be issued in part payment for the said ships and the Preference dividend and setting aside the amount required for redeeming Preference shares the balance of earnings should show approximately 30% on the Common stock. The Bonds are redeemable annually over a period of four years and the amount to be paid off in the first two years will reduce the bonded indebtedness nearly 75%, so that the equity for the Preference and Common shares increases yearly, and at the end of four years there should be nothing ahead of the Preference shares.

The management of the Company will be in the hands of successful and experienced men versed in the handling of ships, having a thorough knowledge of ocean transportation matters, and will be of great value to the Company in keeping the fleet profitably employed. They will have the support of Directors who are successful businessmen and whose connections will be valuable in regard to securing cargoes.

\$8,000 BUILDING FOR NEW CHURCH IN KNOLLWOOD PARK
Presbyterian Council Decides To Build It.
CANVASS IS STARTING
\$3,000 Will Be Secured From Other Church Members in London.

A new church costing \$8,000 will be built in Knollwood Park. This was decided at a meeting of the Presbyterian Council last evening.
"If we can raise \$2,000 for the purpose of entertaining 500 delegates to the general assembly, and then fall down on the same amount for the aid of the real work, our Christianity is not properly balanced," said J. H. Laughton, in reference to the proposed building.
It was finally decided to canvass the Presbyterians of the city for the sum of \$3,000 for the building fund, and to go ahead with the work as soon as the arrangements can be completed. Committees were appointed to superintend the canvass. David Ross, Rev. D. C. MacGregor, A. S. MacGregor and John Moore were chosen to wait on Geo. M. Reid to ask him to act as convener of the canvassing committee.
The following were appointed to this committee: David Ross, Lieut.-Col. W. M. Garshore, W. C. Allen, John Macpherson and John S. Moore. The committees will report back to the council in two weeks.

There was considerable discussion preceding the concrete action of the meeting. That there is great need for a new church edifice in Knollwood Park no one denied. The amount of work which would be called for rather staggered some of the members. The first estimate of the building was \$6,000 to \$10,180. When these figures were presented to the building committee some time ago that body decided there was no use in calling the council together after some consideration some specifications were cut out and the price brought down to \$7,912.
This was presented to the council by Rev. James Mackay, convener of the building committee. The question is whether the customary 31-1-3 per cent would be added to the tender before the building was completed was raised by Rev. D. C. MacGregor. He was assured that the amount for the tender would be increased to 31-1-3 per cent. The seating, of course, will be extra, it was pointed out the building at Knollwood Park was also discussed. Estimates had been prepared, and it was found that the cost would be \$1,000. This is more than the building is worth, it was thought. This proposition was readily discarded.
There was some uncertainty as to why the balance left from the entertainment fund of the general assembly had not been turned over to the building fund, as had been passed by a former meeting of the council. Rev. J. C. MacGregor explained that at some of the sessions had not raised their allotted amount it was decided by the finance committee that the balance should be returned to each church in proportion to its allotted amount. This explanation was accepted. The opinion was expressed, however, that the committee should have referred the question to the council before taking this action.
It was expected that the contracts would have been let, but the council decided to secure the amount as soon as necessary. The canvass will be completed as early as possible. The work will be rushed in order that the building may be ready for use by fall.
J. H. Laughton presided over the meeting, and R. D. Millar was present as secretary of the Presbyterian Council.

QUERIES REGARDING MILITARY SERVICE
Send in Your Problems and They Will Be Answered From Official Information by The Advertiser.

A. M. H. Q.—I was married in January, 1918. My husband was drafted May 14—Will I get \$25 separation allowance every month, and do we receive our pay every two weeks?
2. To whom should I apply to get half his wages and the separation allowance?
A.—You are entitled to it. You will get the separation allowance every month, and the assigned pay every month also.
2. He must assign you \$15, and may assign up to \$20. Apply to the district paymaster, if after reasonable delay district he signs up, no pay arrives.

L. I. T. Q.—I am in B2 and farming. The local tribunal has refused me exemption, subject to re-examination. My employer has appealed. If the traveling medical board should sit far from here, can I be compelled to re-examine, before my appeal is over, and if exempted for several months, will I be re-examined before my exemption expires?
A.—It is not clear just what is meant by "subject to re-examination." Any exempted man is liable to be re-examined at any time the registrar may desire. It is unlikely that you will be examined until your appeal is decided, unless you have been ordered to do directly before a medical board before the decision is rendered.

BOTHWELL. Q.—I am 22, was placed in E last fall, re-examined in May and placed in A2, and told to wait till called. Can I go to the city for a day or two by carrying an exemption certificate without being detained by the military police?
A.—Yes, if you have your exemption certificate, you may go where you like, until called.

WARDSVILLE. Q.—Do the boys in the 19-year-old class have to register under national registration law, the same as other people?
A.—Yes, unless they are on active service in the army or navy.

SAYS CITY WILL BENEFIT GREATLY BY ROAD SCHEME

Ontario Minister of Public Works Expresses Surprise at London's Attitude.
MAKE WHOLE CITY PAY
No Need of Paving Streets on Frontage Basis, Declares Hon. Finlay Macdiarmid.

"London is the only city in the province of Ontario which has raised objection to the suburban road scheme, and it is because of the district most benefited," declared Hon. Finlay Macdiarmid, Ontario's minister of public works, who was in London Tuesday.
The minister pointed to the fact that London is surrounded by a rich farming area, and may be entered from four sides. He believed that the suburban roads would bring many people into the city to trade here.
It was pointed out that a strong objection to the scheme was that to pave the streets in the city, which lead to the country, would practically legislate the people on these streets out of their homes. Mr. Macdiarmid said that this was a problem easy to get over. The charge could be placed on the city at large. He did not consider such a road a local improvement like a sidewalk in front of a man's house. A road would be to the benefit of all, and should be paid for by the whole city. Mr. Macdiarmid said that the roads in London would readily adopt the scheme when it came to better understand it.
The minister had a few words to say for his fish business. He said that since the department opened the whole-house in Toronto it has sold 400,000 pounds of fish. The demand had increased wonderfully and the use of fish also. He pointed to the fact that, for example, it had ordered 200 pounds a week, and then gradually increased until it was taking 1,000 pounds a week. The northern lakes had turned out wonderfully, said the minister, and all ready stores in connection. The roads of Lake Nipissing was a real find.

EMPLOYMENT BUREAU STILL REPORTS GIRLS READY FOR SERVICE

Farmers and Fruit Growers Need But to Apply for Help.

The following letter received from the director of the woman's farm department of the Ontario Government employment bureau at Toronto, advised that there are still women and girls in this province anxious to help in the great scheme for greater production throughout the country. A year's trial has proven that women are not only capable of farm labor of many kinds, but are so adapted as to become experts at this form of work. Farmers in Ontario need no go without labor as long as women are willing to help. The letter follows:
"The women's farm department reports still many girls being placed on mixed and dairy farms in districts where one or more were placed in the early spring. One farmer writes: 'Yesterday Mr. — called to see how he could procure new milk cans. He said: 'Do you think it possible for a number of girls to be put to work in the West, and thrash by the bush?' The girls who are here now can do machinery, and almost everything the ordinary man can do."
This letter came from a district that two months ago was afraid to try girls on farms at all.
Two months has seen a great change in the attitude of the farmers in many districts of Ontario to the farmerette. The women's farm department now has difficulty in finding enough experienced girls to fill the country's need.
"A number of women experienced in outdoor work are still available during the summer months. A few women have applied for work in butter factories, but as the girls have no cash in their pockets, they are unable to do so."
Several girls are now doing successful cheese box factory work, while one drives a truck and delivers the boxes. A number of girls are now having milk routes satisfactorily.
"Fruit growers, truck farmers, mixed and dairy farms, and even some of the larger farms, are now calling for women's farm department help."
Miss McRoberts is the district representative in London, and application may be made through her also.

FOOD LAW QUERIES
The following query has been received regarding the necessity of a license to serve meals for midday dinner.
A lady has five in family and two boarders, and intends taking from four to five meals for midday dinner. Would she require a license, if so, what is the charge, and where can it be obtained?
ONE WHO WANTS TO KNOW.
Referring the query to James Gray, local representative of the publicly department of the Canada Food Board, reports that a license is required by the number of meals served daily. This can be obtained from the license department of the Canada Food Board, Ottawa, and will cost \$2. "If you do not take more than eight for dinner with the two boarders, you will not need a license, as you would be serving only fourteen meals outside your own family." You must, however, observe the regulations in regard to the serving of meats, etc." Mr. Gray says.
