THE old newspaper definition of a good journalist was a man with a nose for news, but The London Advertiser's requirement is a man with a passion for the truth.

59TH YEAR. NO. 23427

LONDON, ONTARIO.

TUESDAY EVENING, AUGUST 29, 1922.

PRICE, THREE CENTS

BANDITS ROB ALBERTA BANK OF \$82,000

SAYS TRUSTEES IN DANGER OF LOSING PLACES

Mayor Wilson Thinks Udy and Campbell Should Refuse Premiums.

WILL TAKE NO ACTION

City Clerk Believes Members of Board Are Within Law.

That School Trustees Bryden Campbell and A. N. Udy, in accepting funds from the city of London in payment of premiums on insurance on buildings of the Western Fair Association, run a risk of being unseated as members of the board of education, is the declaration of Mayor Wilson. Although the Western Fair Association is a private corporation, the buildings used at Queen's Park are the property of the city of London, which pays the premium for fire insurance on these structures.

Trustees Udy and Campbell are both in the insurance business in this city, representing companies which hold policies on the city property. As city officials, Mayor Wilson contends that it is illegal for them to accept funds from the city, according to the declaration signed on every voucher for payment of city accounts.

Must Be Signed.

This declaration must be signed by a member of the firm, officer of the corporation, or person claiming payment, and is as follows: "I do solemnly declare that the within account, amounting to \$82,000, is correct, and I do further declare that no member of the council, or officer of the corporation of the city of London, has any interest whatever in a private capacity, directly or indirectly, in said account, or in any part of the work, goods, or materials mentioned therein, or in the money hereby claimed."

As both Trustees Udy and Campbell are officers of the corporation, and as representatives of their respective insurance companies, have an interest in the money obtained, it is contended that neither of these officials could conscientiously sign the declaration, nor could the city treasurer certify to it.

Mayor Wilson does not contemplate any action on this matter, but merely comments that in his opinion, the two members of the board of education are endangering their elected offices by accepting payments from the city.

Have No Vote.

S. Baker, city clerk, points out that as Trustees Campbell and Udy have no vote in the money paid them for insurance, they are not in danger of being unseated, pointing out that if they accepted premiums for fire insurance on city schools, whose administration is part of their civic duty, then they could be unseated without difficulty.

Another point mentioned by the city clerk is the fact that the Western Fair Association is a private corporation, and although the city pays the insurance premium on these buildings, they are really under the jurisdiction of the fair board, which body, in all probability awarded the policies for the fire insurance to the two school trustees.

PLANS BREAK DOWN.

Rome, Aug. 29.—Italy's reported plans for a rapprochement with Austria along economic lines are declared by the Messagero today to have proven abortive. The newspaper says the problem for an economic and customs union between the two nations has broken down.

THE WEATHER

FORECASTS.
Today—Moderate winds, shifting to northerly; mostly fair, with showers in a few localities; cool tonight.
Wednesday—Fine, with moderate temperature.
Pressure is low over the North Pacific States, Arizona and Quebec, and high over the central portion of the continent and off the Atlantic coast. Showers have occurred in most districts of Ontario and in some places in Quebec and the Maritime Provinces. Elsewhere in Canada it has been fair. Temperatures are normal or slightly below throughout the Dominion.

Temperatures.

The highest and lowest temperatures during the 24 hours previous to 8 a.m. today were:

	High	Low
Victoria	64	46
Calgary	74	49
Winnipeg	68	44
Pt. Arthur	68	38
P. Sound	78	54
Toronto	76	55
Kingsford	74	54
Ottawa	74	52
Montreal	66	54
Quebec	64	54
F. Point	64	42
St. John	64	56
Halifax	76	48

LOCAL TEMPERATURES.

The highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night were: Highest, 78; lowest, 44. The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 65; lowest, 58. Barometric Readings.
Monday—8 p.m., 29.27.
Today—8 a.m., 29.24.

222 Lives Lost When Chile Steamship Sinks Near Coquimbo

SANTIAGO, Chile, Aug. 29.—The Chilean steamship Itata, 2,200 tons, sank today off the Chilean coast near Coquimbo. All the passengers, numbering 150, and the crew of 72, were lost.

The Itata was a coastwise steamer usually plying between Valparaiso and Africa, according to information obtainable here. An agent said she was owned by the Nacional Vapores, which does a coastal passenger and freight trade.

GAIN CLUE TO LOCAL BANDITS

County Police Expect to Land Manor Park Robbers Soon.

Stole \$120 and Jewelry From William Tydeman.

County police today have a fairly good clue as to the identity of the three young men who held up William Tydeman, corner of Alexander and Langarth streets, Manor Park, at the point of revolvers and relieved him of \$120, a fountain pen and a tiepin yesterday afternoon.

The robbery was committed at 4:30 o'clock Monday afternoon. The three youths, who had been driving about the park in a green touring car, stopped in front of Tydeman's home. One of the trio went to his door, and when Tydeman answered his knock, insisted on going into the house. Tydeman tried to prevent his entry, but as the Manor Park resident had been ill, and was living alone, and as the stranger's two companions came to the rescue, his efforts were futile.

After subduing Tydeman, the bandits searched the house, the men threatening the occupant with a revolver. In a pair of trousers, which were hanging in a bedroom, they found \$120. They also confiscated a fountain pen and a tiepin.

Before they departed the visitors threatened Tydeman and his wife, and brough Tydeman hand and foot, and threw a blanket over him.

After twenty minutes' hard work Tydeman succeeded in releasing himself. Then he ran to the grocery store of E. Cotterill on Wharncliffe road, and notified the police.

Constables Alex. Shaver and William E. Hildre are working on the case. Tydeman's wrists were badly lacerated as the result of his efforts to free himself.

TWO DROWN WHEN RAPIDS KING RUNS DOWN LAUNCH

Accident Occurring In St. Lawrence River, Near Stanley Island, First In Years.

Cornwall, Ont., Aug. 29.—A double drowning accident occurred in the St. Lawrence River near Stanley Island, ten miles from here, last night when a motor boat containing three men ran into the Canada Steamship liner Rapid King. Of the three men in the boat, Ralph Boudreau, bookkeeper for Shields Bros., Bombay, N.Y., and John Bowen, also employed by the same firm, were drowned, while the third man, Fred Barlow, a garage man, of Bombay, N.Y., was saved.

The three men were out fishing and were on the way to Fort Covington, coming from the west, while the Rapid King was coming up. This is the first time in years that a boat has been struck by a steamer in this section.

RUSSIAN SOVIET ORDERS DEATH OF 4 CHURCHMEN

Riga, Aug. 29.—The trial at Smolensk, Russia, of 47 churchmen, charged with having obstructed the sequestration of church property, by the soviet government, resulted in four of the defendants being convicted and sentenced to death. Thirty-two of the defendants were acquitted.

SENATE CONSIDERATION, SOLDIERS' BILL, NEAR END

Washington, Aug. 29.—Senate consideration of the soldier bonus bill neared an end today, but some senators doubted that the hope of those in charge of the measure for a final vote before adjournment tonight would be realized. Half a dozen or more amendments remained to be acted upon, and in addition, a number of senators desired to deliver addresses on the bill itself, as well as the various changes proposed.

CONVICTS REBEL IN IONIA.

Ionian, Mich., Aug. 29.—State police are stationed at the state reformatory here this morning as the result of an outbreak among the inmates late last night, that was suppressed only when tear gas was poured into one of the dormitories where the rioting centered.

START WORK ON NEW WESTERN ARTS BUILDING

Workmen Break Ground For First Unit of Imposing Group.

STRUCTURE COMMENCED

Buildings To Be of Gray Stone in Gothic Style.

The dream of a great university for Western Ontario at London is actually coming true. After years of struggle against seemingly impossible odds, ground is already broken and the construction of the first unit of an imposing group of buildings which are to comprise Western University (the Western Ontario University, London) is under way. How wonderful this achievement is and its great significance are not realized by many. Western University is to be a magnificent institution, and the center of education and culture for the whole of Western Ontario.

The buildings are to be of gray stone in the beautiful collegiate gothic style. They will go down to future generations as London's work of greatest architectural beauty. The building site contains more than 250 acres, and slopes gently toward the south-east. The Midway and Thames rivers almost enclose the whole area. The grounds, make a beautiful park containing many wonderful stretches of lawns and clumps of trees, with here and there stately elms standing guard near the river bank. On a bluff is a grove of pines, while to the south of the main building is a small bush of hardwood trees untouched by the hand of man. The new buildings are being planned into the grounds without disturbing the turf levels or cutting away a shrub or tree, and will soon become a part of the landscape.

Plans are also well advanced for the construction of a gymnasium, which, it is hoped, will meet the requirements of both the men and women of the university. Western is fortunate in having as a recent appointment, Dr. George A. Smith, a graduate of Western, who has been a noted athlete, and is recognized as one of the best men in his line in Canada. Dr. Smith will assume his duties as faculty supervisor of physical education on the opening of the fall term. He intends to make Western a leader in clean sport and high-class athletics. He hopes that the university may soon lead in physical education and training.

The opinion is gradually gaining ground that the things really worth while in university life are available in as great measure in university circles in London, Ontario, as in similar circles elsewhere.

Albert Mansbridge, M.A., of Oxford, Turn to Page 2, Column 2.

BRITISH POLITICIANS TO MAKE TOUR OF CANADA

Delegates to Join Montreal Board of Trade Centennial Trip.

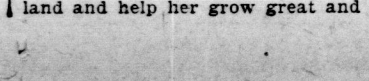

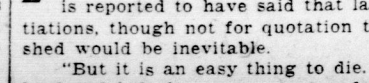

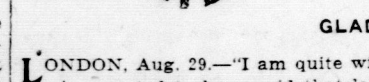

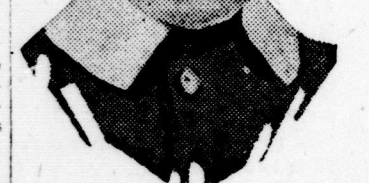

Montreal, Aug. 29.—The British parliamentary party, which is to join the Montreal Board of Trade Centennial trans-Canada tour, will arrive in Quebec tomorrow on the Empress of India, and will probably arrive in Montreal early Thursday afternoon. The special train of the Canadian Pacific Railway Company carrying the board of trade members and their guests will leave Windsor street station at midnight on Friday night. The party will be welcomed in Toronto next morning by the Toronto Board of Trade. From Toronto the party will go to Port McNicoll on Lake Huron, where the transfer will be made to a Great Lakes steamer.

SHIP SELLS FOR SMALL AMOUNT

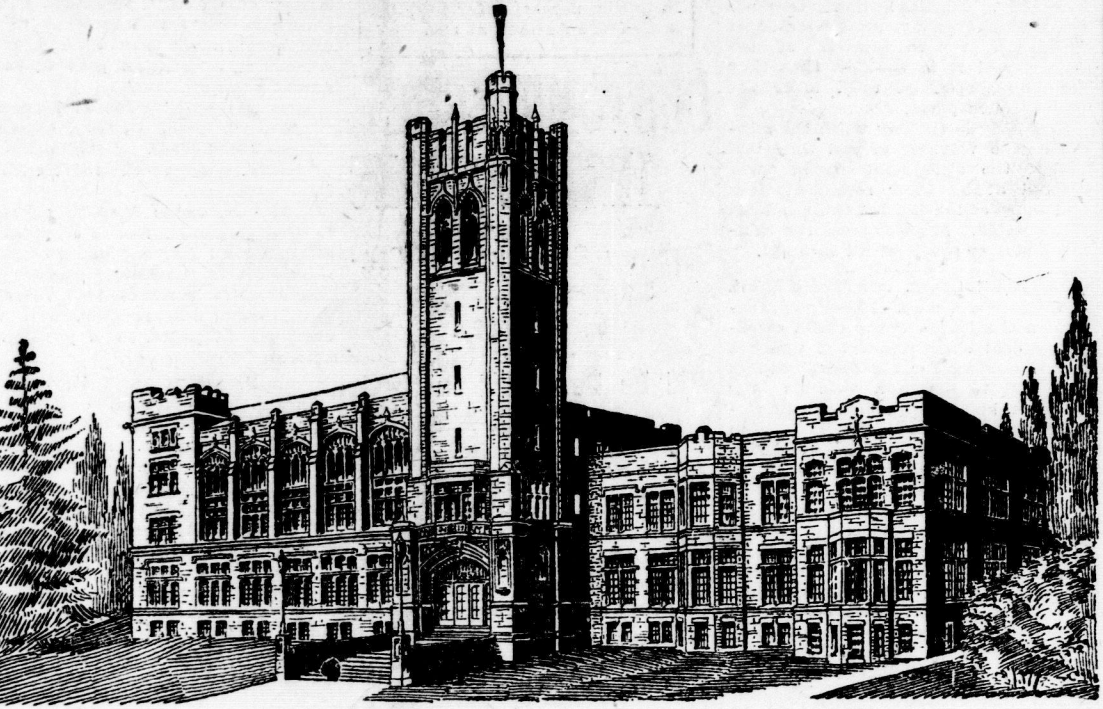

Victoria, B. C., Aug. 29.—The auxiliary schooner Leonor picked up in the Gulf of California by the old Canadian cruiser Rainbow during the war on a German suspect, was bought at public auction yesterday by W. R. Drevitt, of Victoria, for \$3,650.

Sold to pay the cost of her maintenance at this port since her arrival here as a prize ship six years ago, the Leonor fetched scarcely more than half of the sum required to take care of her expenses during that period.

Michael Collins As Boy, Youth, Army Chief and Statesman

When "Western" Towers Above Thames Banks

MAIN Arts Building of Western University to be built on the new 250-acre site, by the fall of 1923, will be of gray stone in beautiful Gothic style.

FORECAST END OF COAL STRIKE

United Mine Workers Will Meet Producers' Scale Committee.

Five Men Held On Murder Charge After Train Wreck.

Pittsburg, Pa., Aug. 29.—Termination of the coal strike in the Pittsburgh bituminous district was forecast today when the district officers of the United Mine Workers announced they would meet the scale committee of the Pittsburgh Coal Producers' Association this afternoon on invitation of the association to discuss signing a scale under the Cleveland agreement.

CHARGED WITH MURDER.

Chicago, Aug. 29.—Five men were charged with murder today, accused of wrecking "the million-dollar express" on the Michigan Central near Gary, Ind., Aug. 29, when two of the train crew were killed. Five others were held in connection with the wreck investigation and at least two more who are known were sought, according to the police.

Confessions obtained from some of the prisoners not only solved the wreck of the express, but bare a plot to wreck the Twentieth Century Limited, crack New York-Chicago train, near Elkhart, Ind., the police said. The five who face murder charges are: Joseph Papourvitch, Charles Turn to Page 2, Column 1.

SHIP SELLS FOR SMALL AMOUNT

Victoria, B. C., Aug. 29.—The auxiliary schooner Leonor picked up in the Gulf of California by the old Canadian cruiser Rainbow during the war on a German suspect, was bought at public auction yesterday by W. R. Drevitt, of Victoria, for \$3,650.

Sold to pay the cost of her maintenance at this port since her arrival here as a prize ship six years ago, the Leonor fetched scarcely more than half of the sum required to take care of her expenses during that period.

Lloyd George Reiterates Britain's Intention To Pay Debt

LONDON, Aug. 29.—Prime Minister Lloyd George this morning, in conversation with Col. E. M. House, who breakfasted with the premier, reiterated Great Britain's intention to discharge her present debt to the United States to the last farthing. Col. House told the Associated Press.

Col. House said the premier begged him to tell those at home that Great Britain was not seeking financial assistance from the United States, but desired very earnestly her continued moral support.

LOSES CROPS AND BUILDINGS BY FIRE

Dr. Fred Wood Suffers Severe Loss by Outbreak at Farm.

All the buildings, with the exception of the house, all the farm implements, and the season's crops, were destroyed in a fire on the farm of Dr. Fred L. Wood, on the Hamilton road, six miles east of the city, at midnight Monday. The damage has not yet been estimated.

It is believed the fire originated in a threshing outfit, owned by a Mr. Moore, and which was to commence operations today. The outfit was destroyed in the blaze.

Dr. Wood was notified of the fire and arrived at the farm about one o'clock. Neighbors saved the cattle before the barns were burned. The buildings were practically all razed to the ground before Dr. Wood arrived.

The loss will run into thousands of dollars, it is believed. An approximate loss has not been given yet, as Dr. Wood is out of the city today.

HOLD HOPE THAT 48 MINERS LIVE

Families and Fellow Workers Maintain Vigil at Shaft's Mouth.

Most Optimistic Estimate Is Level May Be Reached in 18 Hours.

BULLETIN.

Jackson, Cal., Aug. 29.—Volunteers of nauseating gas issuing from the burning depths of the Argonaut mine through the Muldoon air shaft led to the belief today that the men, now said to number 47, who were imprisoned in the Argonaut mine at midnight Sunday night by a fire, have all perished.

Jackson, Cal., Aug. 29.—Held in the grim grip of despair as hour follows hour in their vigil, families and fellow-workers of the forty-eight gold miners imprisoned since midnight Sunday nearly a mile below the earth's surface in the Argonaut mine today clung stubbornly to the shred of hope that their husbands, fathers and brothers are still alive, although the most optimistic hope was to reach the men within 18 hours.

Dawn today found that tense group still waiting. From the mouth of the pit from which these men have helped to take fortunes in gold at an average of a million dollars a year, came no token of hope. From it came no sign of the hell of flame and smoke and poisoned air that raged between the imprisoned miners on the levels below 4,000 feet and the workers who vainly struggled to reach them.

A portion of the main shaft below the 2,700-foot level had caved in, and workmen could remain at the 2,400-foot level to fight the flames only a few minutes at a time. The trapped men are believed to be on the 4,500-foot level and lower levels.

Canary birds told the rescue workers the futility of attempting further descents into the shafts of the Argonaut Mine, where flames have raged since midnight Sunday from Turn to Page 3, Column 2.

UNAFFECTED BY COAL SHORTAGE

G. T. R. Officials Declare Cars Sent Daily Direct to Ohio Mines.

Fuel Controller Warns Public Fuel Likely To Be Scarce.

While other railroads in both the United States and Canada are feeling acutely the prevailing shortage of coal, the Grand Trunk is one of the few roads fortunate enough to be able to obtain enough supplies to avert a tie-up of both passenger and freight trains.

Monday, 40 cars of engine coal reached Sarnia via the Grand Trunk from United States mines.

30 Empty Cars.

This coal will be distributed to different points in the London division as it can be moved. At the present time on an average of 30 empty coal cars are being sent every day to the mines at Bellaire, Ohio, for loading. Officials say that the local coal situation on the Grand Trunk Railway is improving, although at no time has it been very plentiful.

The Canadian Pacific Railway has not been affected by the shortage of coal to the same extent as other roads in the country, as before the situation became acute the reserve supplies in different parts of Canada were being constantly added to. The result was that when many railroads and hundreds of industries were on the point of being tied up through the shortage of fuel, the C. P. R. had a reserve supply that would last for some months.

In the London division alone officials estimated that there was enough coal in reserve to supply the division demands for more than six months.

Although government and union officials in the United States admit that there is every possibility of the miners returning to work within the next week or two, there is bound to be a shortage of anthracite coal during the coming winter, as the needs of the railroads and industries will be attended to first.

Have Difficulty.

J. A. Ellis, fuel controller for Ontario, in a statement issued Monday, declared that householders would probably find it hard to secure enough hard coal to last them throughout the winter, and even predicts that some will find it necessary to close up portions of their homes. The controller goes so far as to suggest that kerosene stoves and other makeshifts may have to be pressed into service.

The American bituminous mines are now practically being operated and production is again approaching normal. However there is a big shortage of bituminous coal still existing, as until a few days ago 60 per cent of the United States mines had not been in operation since April 1.

FALL MOVEMENT OF GRAIN IN FULL SWING IN WEST

Expect 2,000 Cars of Wheat To Leave Winnipeg Daily For Head of Lakes.

Winnipeg, Aug. 29.—Fall movement of grain through Winnipeg is now in full swing, for there are today being inspected 600 cars, more than double quantity of any other day this season. Value is one million and quarter dollars. Provided there are no general rains in the west to retard threshing, this should be but a fair average for daily handling of grain here, and 2,000 cars will soon be the number going daily through the lakes. The value will be nearly nine million dollars.

Threshing is now fairly general throughout Manitoba. Many crews started in to work this morning. Reports indicate that the grade of wheat is an excellent one, and that, except in southern Manitoba, weeds are no worse than in previous years, and it is anticipated there will be no large percentage of rejected wheat.

TEAM BOLTS, KILLS WATERLOO MAN

Kitchener, Aug. 29.—When the team of horses with which he was plowing a field on the outskirts of Waterloo yesterday afternoon, bolted, Clarence Heer was instantly killed. The horses were turning when they became frightened. One of them tripped and fell, carrying Heer, who had the reins about his waist, to the ground. The horse fell on Heer, crushing the life out of him.

RECEIVES BULLET WOUND FROM POLICE

Hamilton, Aug. 29.—Failing to obey a policeman's summons to halt, landed George Thatch, 31 Marigold street, St. Catharines, in the city hospital with a bullet wound in the arm.

At midnight last night Constable Booth, on James street north, noticed a man in an alleyway in the rear of Christlawa's drug store at James and Cannon streets. He investigated, and when he saw the man was carrying what proved to be two cans of alcohol called on him to halt.

TIE UP CLERKS AND BLOW OPEN DOOR OF VAULT

Robbers Cut Wires and Block Roads Leading Into Foremost.

USE MOTOR TO ESCAPE

\$12,000 and \$70,000 Negotiable Securities Comprise Loot.

Lethbridge, Alta., Aug. 29.—The Union Bank at Foremost, Alberta, on the Foremost-Weyburn branch of the Canadian Pacific Railway, was robbed by motor bandits about 2 o'clock this morning. They bound and gagged the clerks sleeping in the rooms above the bank, and after making the junior clerk open the outer vault door they blew the inner door and got away with \$12,000 cash and \$70,000 negotiable securities.

The bandits cut the wires leading into the town and blocked the roads. Five men were in the bandit party. The Alberta provincial police, under Inspector Bavin here, are working on the case.

Union Bank officials at Winnipeg head office at noon confirmed the report that approximately \$12,000 in cash had been stolen from their branch at Foremost, Alberta, early today by motor bandits.

It was stated by officials of the bank that the so-called negotiable securities are valueless, except to the bank.

This is the second big robbery in the West within 48 hours. Ten thousand dollars in cash was secured by robbers from the Killarney branch of the Bank of Hamilton, when they blew open the safe of the bank at an early hour Monday. It is believed that the bandits escaped by motor car, and they had at least three hours start over their pursuers. Telegraph and telephone wires were cut before the robbery. The police believe the gang to be the same one which has been operating recently in Manitoba and Saskatchewan.

FIND BRITISH EDUCATOR DEAD ON ALPINE ROCKS

Authorities Believe Sophia Bryant Perished After Losing Way.

Geneva, Aug. 29.—The body of Sophia Bryant, aged British educator, was found on the rocks along a short cut between the villages of Nottavert and Chamionix in the Alpine region today.

She had apparently become lost and had taken off her shoes to bathe her feet, but there was no indication of the cause of death.

Sophia Bryant was 72 years of age and the widow of Dr. William Bryant of Plymouth. She is widely known as an educational authority and was at one time a member of the consultative committee of the board of education. She was also the author of various educational, philosophical and scientific works.

15-YEAR-OLD GIRL SAVES BOY'S LIFE

Ottawa, Aug. 29.—Plunging into the water of the Rideau Canal while fully clothed, 15-year-old Melissa Pressley last night saved from drowning a young boy whose name has not been learned. Miss Pressley plunged in without hesitation.

SWEDISH "WETS" PILE UP MAJORITY OF 44,545

Stockholm, Aug. 29.—A majority of 44,545 against prohibition is shown by the unofficial tabulating of the vote cast in Sunday's referendum throughout Sweden on what are believed to be complete returns. These figures show:

Against prohibition, 942,129.
For prohibition, 897,584.
Majority against, 44,545.

FORM SHORT-SKIRT LEAGUE.

Montreal, Aug. 29.—Twenty of Montreal's smartest and prettiest girls have rebelled against the attempt to force long skirts on women and have formed a "no-longer skirt league."

LATE NEWS BULLETINS.

HARDING BELIEVES HE SHOULD HAVE POWER.

Washington, Aug. 29.—President Harding still believes that Congress should grant him immediately authority to take over railroads and mining properties, it was said today, at the White House, but has assured Congressional spokesmen that only the grimmest public necessity would move him to exercise such powers if granted.

RECEIVES BULLET WOUND FROM POLICE

Hamilton, Aug. 29.—Failing to obey a policeman's summons to halt, landed George Thatch, 31 Marigold street, St. Catharines, in the city hospital with a bullet wound in the arm.

At midnight last night Constable Booth, on James street north, noticed a man in an alleyway in the rear of Christlawa's drug store at James and Cannon streets. He investigated, and when he saw the man was carrying what proved to be two cans of alcohol called on him to halt.

DR. ALEXANDER DENIES ADVICE TO TIGHTEN UP

(Received No Instructions To Make Medical Examination More Severe.)

HEARD AT PENSION PROBE

Declares Soldiers Applying At London Received Benefit of Doubt.

OTTAWA, Aug. 28.—Answering questions by Dr. Gordon Henderson, counsel for the pensions board, at this afternoon's sitting of the royal commission investigating Great War Veterans' Association charges, Dr. N. B. Alexander, unit director with headquarters at London, Ont., said that he had received no instructions from Ottawa to "tighten up" in his medical examinations and that he was always given the benefit of the doubt when a medical examination was made.

All doubtful cases were referred to the board at Ottawa, he said. He expressed the opinion that the amendments to the pensions act passed in 1921 had little effect on the granting or refusal of pensions in his district. The examination of Dr. Alexander occupied the greater part of the afternoon sitting of the commission. Just before adjournment, Dr. N. K. Melvor, unit director with headquarters at Winnipeg, was called to the stand. Examination of Dr. Melvor will be proceeded with tomorrow.

In answer to N. B. Bowler, counsel for Great War Veterans' Association, Dr. Alexander said that when a man applied for a pension claiming that he was suffering from a disease due to military service, the first thing done was to obtain a medical history of the applicant's medical history sheet. His medical history sheet showed no indication of this disease.

Dr. Alexander said that if the disease appeared within a year after his discharge the soldier was granted a pension.

Mr. Bowler pressed him to tell what would be done with the application if it came in after the expiration of a year.

"The applicant would be required to show continuity of symptoms," said Dr. Alexander. He went on to say that the pensions officers tried to obtain medical certificates proving continuity of symptoms if the applicant failed to prove his case.

Dr. Henderson asked Dr. Alexander if he read the telegram sent out by the Great War Veterans' Association, in which they charged conspiracy against soldiers on the part of the pensions board.

Dr. Alexander replied that he had. Dr. Henderson then asked him if he knew of any proceedings in his own office which would justify such a telegram. Dr. Alexander replied that he did not. He had received absolutely no instructions from Ottawa to tighten up on his medical examination, and applicants were always given the benefit of the doubt when doubt existed. Such doubtful cases were always subject to revision at Ottawa, however, said Dr. Alexander.

Dr. Henderson asked whether or not the amendments of 1920 and 1921 to the pensions act had the effect of depriving the individuals of pensions. The witness replied that there was no difference in the effect of the act in so far as his unit was concerned. He knew nothing of any secret instructions to reduce pensions as indicated in the telegram.

Dr. Alexander said as far as he knew the 1920 amendments had not affected recommendations from his unit. He was under the impression that the pensions board had granted pensions on recommendations based on this interpretation of the act.

FORECAST END OF COAL STRIKE

Continued From Page One.

Usies, John Petroski, Albino Alessio and James Petroski. All were said to be striking shopmen. Usies, Petroski and Papourvitch were said to have confessed the wreck plot. The men are Russians, and before the strike were employed in New York Central shops.

According to the story of Usies' confession, he and his companions had attended a meeting of strikers and radicals in Chicago the day before the Gary wreck. A speaker, whose name the police said they have, admonished Usies and his friends because they had not "done much to help the strike along."

Usies and his companions, the alleged confession went on, talked with the speaker after the meeting, schemed the wreck of the express train, went to Gary that night, and upon their return were congratulated for the work they had done. The plot to wreck the Twentieth Century Limited, then hatched, according to Usies' confession, with the idea that a disaster of that magnitude would cause travelers to fear to ride trains.

Board Denies Motion.

The railroad labor board today denied the motion of W. Jett Lauck, labor statistician, that the board immediately define the principle of "a living wage" in the case of the maintenance-of-way employees who are seeking increased minimum wage rates. At the request of E. E. Grable, president of the maintenance organization the hearing then was adjourned until tomorrow morning. Mr. Grable announced that he was telegraphing President Harding and Senator Cummins, one of the authors of the transportation act, at Washington, today, asking them to present to Congress an amendment to the act which would make it mandatory on the labor board to "enunciate the principle of the living wage." The board in its present decision request declared it could not go beyond the transportation act, which prescribed the establishment of "just and reasonable wages."

NEWS BRIEFS

HANOVER.—The death occurred in Hanover on Saturday of Philip Schultz, at the age of 81 years.

CLANDEBOYE.—William Weir, who operates a blacksmith and general repair shop at the village of Buffalo in McGillivray, had his hand badly hurt in the planing machine.

KITCHENER.—Coal dealers and members of the city council have expressed themselves as being unfavorable to the buying of Welsh coal for Kitchener.

WINDSOR.—Dr. E. Bryans, Assumption street, and Dr. A. G. Walters, Ottawa street, Walkerville, both appeared in the Windsor court on charges of issuing prescriptions illegally. Both cases are adjourned.

CLANDEBOYE.—There has been a great deal of chicken stealing and petty thieving going on in this vicinity of late. It is reported that the residents are considering drastic action to put a stop to the depredations.

BRANTFORD.—The construction of the new Graham Bell School, Terrace Hill, has progressed so far that brick work has been commenced. It is expected that the new building will be ready for use early in the new year.

CHATHAM.—The city police department has declared war on all and sundry who violate the city parking ordinances. For some time city and county motorists have not been observing the angle parking on the streets in the business section, and it is on account of this that the police have commenced the campaign.

START WORK ON NEW WESTERN

Continued From Page One.

L.L.D. of Cambridge, England, president of the World's Association for Adult Education, and founder of the Workers' Educational Association, was invited last winter to visit the colleges and universities of the United States. At the end of his tour he came to Canada, visiting Toronto, McGill and Western Universities. After being here a while he said: "I perceive that there is a different atmosphere in this institution than that which usually prevails in the colleges and universities of this continent. I have visited practically every academic center of importance and have studied the greater universities intimately; I have inspected a large amount of magnificent equipment, and have seen many wonderful college buildings; in fact, I have been brought into contact with all that money can buy; but today I have to my surprise sensed the very atmosphere that prevails in the great universities in the motherland. Western you have not as yet the United States require, but have what is far more precious, namely, the atmosphere of culture. Here is where men and women may procure a real education."

To Erect Memorial. The buildings are intended to last forever. The type of architecture is so simple and so pure that it will be in good taste for all time. The main building will possess a 30-foot tower in which will be placed a memorial to the sons and daughters of Middlesex County who lost their lives in the great war. There will also be a Memorial Assembly Hall, while temporarily the library will be accommodated in this building. Comparatively few people are aware that Western University possesses exceptional library facilities.

Few universities on the continent can compare with our own Western Ontario University in this respect. The Barnett collection, and the special departmental libraries, aggregating sixty thousand volumes, provides a unique collection of books for student purposes. The library is rich in literature and history. In addition the libraries of the city of London, which have been collected largely with the needs of the university in mind, add enormously to the material available for academic training.

In addition to the library, the main building will contain the administrative offices of the university, and a large number of the non-laboratory classrooms and lecture halls. This building will have more than sixty thousand feet of floor space, and will be the center from which all student activities, so far as the College of Arts is concerned, will radiate. Near the main building, on the north side, is the new science building. This is similar to the main building in type and material. Within it will be housed the scientific departments of the College of Arts, namely: geology, mineralogy, physics, chemistry, biology, zoology, botany, entomology, and the laboratories and museums necessary for these departments. As the university grows other buildings will be erected to house these various departments, while this building will be retained for ultimate use by some one branch of national science.

Will Build Dormitories. Plans are prepared for dormitories, which will be constructed on the "unit system." It is hoped that each of the counties of Western Ontario may decide to participate in the building operations of Western University, and will provide the means necessary for a dormitory or residence, either for men or women. These dormitories will be named after the counties contributing to their cost.

For forty-four years Western University has been making its contributions to the life and upbuilding of the community. Sometimes the road has been extremely difficult, and the tasks have been heavy, but, notwithstanding the season of discouragement, considerable progress has been possible. There have been from time to time various manifestations of growth. Sometimes preparatory schools for boys and girls; sometimes a ladies college, or college of arts, law, theology, medicine, or music, occupied public attention. Each flourished for a time, or until the educational experiment fulfilled its purpose. So the process has gone on. The university has acquired experience, and has been able to adapt itself to the peculiar needs of its constituency. Today there are three strong faculties: viz. arts, medicine and public health, and an extension

TROOPS TO STAY IN NOVA SCOTIA

Militia Headquarters Receives No Request for Withdrawal of Regiments.

Miners to Decide On Acceptance of Agreement Thursday.

Ottawa, Aug. 28.—By the Canadian Press.—It seems likely that the troops which were sent to the strike areas of Nova Scotia on request of the local authorities, will remain there until after the referendum on Thursday. Militia headquarters has not yet received a request from Nova Scotia for the withdrawal of the troops, and it is thought that they are being retained until after the voting takes place.

Thursday is the day when the miners decide whether or not they will accept the agreement which was arrived at by their representatives and those of the British Empire Steel Corporation. Reports from the mining districts are that all is quiet.

CUSTOMS ISSUE INSTRUCTIONS

Currency Certificate of Consul Required Only in Given Cases.

Will Be Demanded on Goods From Germany, Austria-Hungary and Russia.

Ottawa, Aug. 28.—By the Canadian Press.—Instructions to customs and excise officers respecting the importation of goods from foreign countries whose currency is substantially depreciated, based on the amendments to the act passed by parliament last session, have been issued by the department of customs and excise. Officials are advised that the currency certificate of a consul, trade commissioner or bank, in the form previously specified, is not to be required in the following instances:

1. In respect of invoices of goods imported from a country where the currency is not regarded by the department as substantially depreciated, in which case the present authorized certificate of the exporter showing the relative value in standard currency or paper currency of the invoice is to be accepted, subject to the usual verification by the collector at the port of entry.

2. Where the depreciation or appreciation of the currency of invoices compared with the currency of Canada is less than 1 per cent. In respect of such invoices the collector will accept entry as at present and compute the value for duty purposes in accordance with the governing rate of exchange as shown by the appraiser's bulletins.

All invoices of goods imported from a country where the currency is regarded as substantially depreciated shall bear thereon the currency certificate of a consul, trade commissioner or bank in the form specified, and until further ordered this instruction will apply to invoices of goods imported from Germany, Austria, Hungary, Jugoslavia and Russia, and to countries where the currency has no fixed standard value.

GRAIN IN STORAGE DECREASES

Ottawa, Aug. 28.—According to returns received at the Dominion Bureau of Statistics for the week ending Aug. 18, 1922, the quantity of grain in store at the different elevators shows decreases in wheat, oats and barley of 1,418,106 bushels, 819,619 bushels and 6,786 bushels, respectively. Flax and rye show increases of 7,218 bushels and 209,283 bushels.

FRENCH POLICE FRUSTRATE GENERAL SYMPATHY STRIKE

All Idle, With Exception of Taxi Drivers, Return To Work In Paris.

Paris, Aug. 28.—The elaborate plan of campaign prepared by the police appears to have nipped in the bud the general strike ordered by the extremist labor federation in sympathy with the Havre strikers and in opposition to the conservative labor federation. Cavalry today patrolled all strategic points and a police airplane hovered over the city, keeping in touch by wireless telephone with the reserves entrusted with the task of dispersing all manifestants.

ANNOUNCE FAILURE OF NEW YORK BROKERS' FIRM

New York, Aug. 28.—Failure of the brokerage firm of Edwards & Gatenby, members of the consolidated stock exchange, was announced today. About \$100,000 is involved. The firm was established on Dec. 21, 1908. It is composed of J. H. Edwards and John M. Gatenby.

EVACUATE IN ASIA MINOR.

London, Aug. 28.—The Greeks have evacuated Afium-Karahissar under the force of the Turkish Nationalist attack, says a Central News dispatch from Athens today. This important central point in the Greek line in Asia Minor was yielded in the face of superior enemy force.

department that compares favorably with that of any other university in Canada. There are one hundred and twenty-five professors and instructors and eight hundred and thirty-five students enrolled; at the present time there are three affiliated colleges. The degrees granted by the Western Ontario University are equal to the best degrees of similar character granted by standard institutions of higher education throughout the American continent. Western University is a public service institution, seeking to serve the whole community, and it hopes to make itself of value to every man, woman, boy and girl in Western Ontario who desires either directly or indirectly to get a better education.

Transmits Burial Service by Wireless to Ship at Sea

LIVERPOOL, Aug. 28.—There have been many stories of the strange uses to which wireless communication has been put on the high seas, but the Cunard liner Carmania brought in a new one on her arrival here from New York. While off the Irish coast the liner's operator picked up a message asking that the ritual for burial at sea be sent in full. The strange request came from the Canadian government steamer, Canadian Trooper, whose captain found he had no prayer book when confronted with the necessity for burying one of the firemen at sea.

FIRE CHIEFS OF DOMINION MEET

Open Thirteenth Annual Convention of Association in Chatham Armories.

March To St. Andrew's Church To Honor Departed Members.

Special to London Advertiser.

CHATHAM, Aug. 28.—Fire chiefs from all sections of the Dominion are here attending the thirteenth annual Chiefs' Association, with President Smart of Calgary presiding. It is estimated there will be close to 300 delegates in the city by tomorrow, when the convention gets down to actual business.

Among the delegates is Honorary Chief Knowles of Dundas, Canada's oldest fire fighter. Despite his 82 years he is one of the most enthusiastic members.

"Dad," as he is familiarly known to the delegates, makes a point of attending all conventions, no matter what part of the Dominion they are held in. He has served 44 years on the Dundas fire brigade, and was chief for 22 years. His position is now an honorary one.

Presented With Key.

In the armories this afternoon Mayor J. W. Harrington gave an address of welcome. He presented President Smart with a lock and key, by which action he implied that the delegates have the freedom of the city. Chief Earl of Milton and President Smart responded.

A feature of the afternoon's session was an address by Provincial Fire Marshal Heaton of Toronto, who, as president of the newly-formed Fire Marshals' Association, urged cooperation between both organizations in perfecting fire-prevention methods. Speaking of the fire menace, he declared it had increased 500 per cent in the last 20 years. Fire prevention methods and fire-fighting facilities, he thought, had kept pace with the increasing fire menace, however.

Urge Uniform Law.

Fire Marshal Heaton urged that fire prevention should be a study in all public schools. He declared that the Fire Marshals' Association will make representations to the various provincial legislatures to authorize this in the actual study, and provide text-books. The speaker also declared that his association would urge a uniform personal liability law. He appealed to the Dominion Fire Chiefs' Association to support these two movements when the time is opportune for action.

Following the opening session in the armories, the delegates marched in a body to St. Andrew's Church, where Rev. Capt. Marshall conducted a service to the memory of past members of the association, many of whom had given their lives in the performance of their duties.

WANT NATIONS NOT IN PACT TO JOIN NAVY SCRAPPING

Proposal To Extend Washington Agreement to Come Before League of Nations.

Geneva, Aug. 28.—Extension of the Washington agreement for reduction of naval armaments to include countries not parties to that accord is one of the questions to come before the council of the League of Nations, assembling here today to begin preparations for the third assembly. This will probably be recommended in a report to the council by the disarmament commission. The committee on finances has prepared a report on the position of Austria, suggesting means for her relief.

New Englanders May Have Pie For Breakfast, Say U. S. Physicians

New York, Aug. 28.—The physicians of the United States have come to the rescue of the New England pie belt and its supplementary orbits throughout the United States by their approval of "pie for breakfast," especially for the intellectual workers. And not only pie, but also hot cakes, corn pone and biscuits have received the stamp of medical approval in a survey, including the

physicians and health commissioners of forty-six states, made by the Medical Review of Reviews. A heavy breakfast, light lunch, and heavy dinner, especially for mental workers, was approved by more than 75 per cent of the list. "If people want pie for breakfast," said one medical man in Illinois, "and they live in their pie zone, don't rob them of their pie. They should go lighter on other things, however."

HEAVY RAINS DAMAGE NEW BRUNSWICK CROPS

ST. JOHN, N.B., Aug. 28.—That there are no indications of better weather was the discouraging report given out this afternoon from the meteorological observatory. Up to noon today a total of seven inches of rain had fallen since Saturday morning at four o'clock. This is considered the heaviest on record for such a short space of time.

The result of the torrential down-pour has caused havoc in low areas especially in the country, while in the city proper, many cellars are flooded. Perhaps the heaviest sufferers are the farmers, who report that potato crops as well as grain are practically ruined.

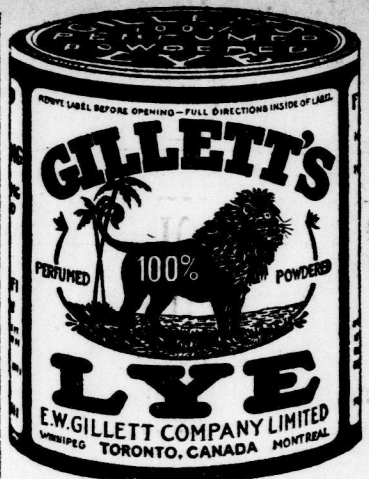

The oat crop was one of the heaviest in recent years and the rain has beaten much of it flat, and it is feared that in many cases the entire crop will be ruined.

CHAMBER OF COMMERCE SECURES NEW QUARTERS

Special to London Advertiser.

STRATFORD, Aug. 28.—The chamber of commerce which has maintained its quarters on Wellington street since its formation is moving after the first of the month to new quarters in the Windsor Block. The new quarters will be attractively fitted up.

Death claimed one of Stratford's

STEAMSHIP ARRIVALS. Shanghai, Aug. 26.—Empress of Asia (British), Vancouver. Antwerp, Aug. 26.—Melita (British), Montreal. London, Aug. 26.—Methven (British), Montreal. New York, Aug. 26.—Elizabeth, Sydney, C. B.

MYSTERY BLAST WRECKS HOME

Oswego, N. Y., Aug. 28.—Police today investigated an explosion of dynamite which last night tore off the porch and partially wrecked the home of Albert Johnson, Johnson's son, the police claimed, was for a time out on strike from the New York Central shops here, but, regrettably, three sons, two brothers and eight sisters.

Preserving?
YOU'LL be doing your preserving soon. Any day now. Are you all ready for it? Have you got your preserving kettles, your spoons and ladles, your cups and dippers, your collenders, funnels and your fruit jar filler? If not, listen to this.

Preserving Sets at Reduced Prices

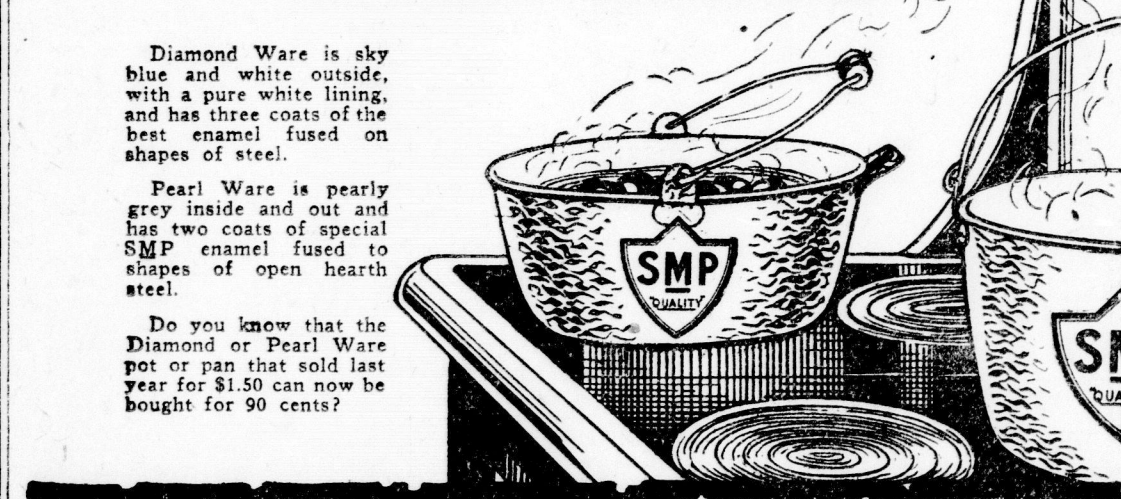

You can buy a full set of preserving utensils in beautiful Diamond Ware or Pearl Ware from any hardware merchant carrying SMP goods at a special price. Cut this ad from the paper. Take it to any good hardware store where SMP Diamond Ware or Pearl Ware is sold, and he will sell you a preserving set at the right price.

Our high grade enameled ware is wonderfully well made, very durable, absolutely clean and sanitary, and cannot absorb grease or odors. There is no possibility of tainting. Use either Diamond or Pearl and your preserves will be the most delicious you ever put up.

The Sheet Metal Products Co., of Canada Limited
Montreal Edmonton TORONTO Vancouver Winnipeg Calgary

SMP Diamond WARE or Pearl WARE

"A Face of Porcelain and A Heart of Steel"

Diamond Ware is sky blue and white inside, with a pure white lining, and has three coats of the best enamel fused on shapes of steel.

Pearl Ware is pearly grey inside and out and has two coats of special SMP enamel fused to shapes of open hearth steel.

Do you know that the Diamond or Pearl Ware pot or pan that sold last year for \$1.50 can now be bought for 90 cents?

Gas for cooking costs three times as much as hydro. Coal, wood and oil are all more expensive fuels.

Yet hydro performs every kitchen service better than the rest. It is ready for action at the touch of a button, without matches, ashes, fumes or soot.

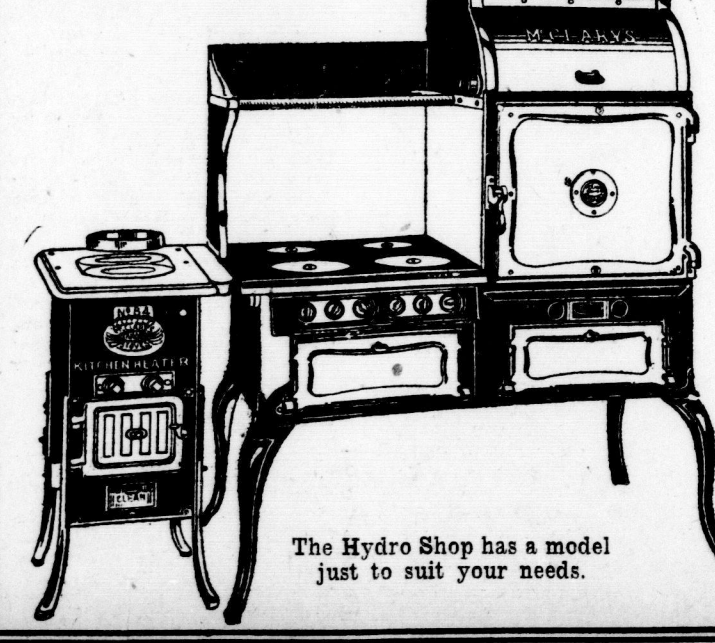

Fitted with a compact little kitchen heater to burn up whatever you care to put in it, it makes an ideal equipment with which to face the coal strike.

Special Terms Make Buying Easy
The Hydro Shop will install an Electric Range, equipped complete with kitchen heater, in your home within three days.

Pay only a small amount down and the balance from month to month at your convenience.
Don't Delay.

EXTEND COURSE AT TECHNICAL

Principal Beal Arranges For
Addition to Curriculum
This Autumn.

Building Re-decorated During
Summer Looks Like
New School.

Despite the fact that it has
seen five years' service, the London
Technical High School opens next
Tuesday with all the immaculate ap-
pearance of a new building.

During the holidays the entire in-
terior has been gone over and var-
nished, and every vestige of wear or
damage has disappeared. Even the
most casual observer could not fail
to note that the building is being
looked after with scrupulous care.

Principal Beal has announced that
every week night until next Tues-
day the school will be open for reg-
istration in the various courses, and
from the number who have already
applied, it is practically certain that
full classes will open with a record
attendance. The number is expected
to reach far in advance of the
attendance in day classes last year,
which was 661.

During the coming year, the Tech-
nical High School will be the only
school in the city under the com-
bined educational offering of a com-
mercial course. Although the regu-
lar two-year course for typists and
stenographers will still be offered,
there will be in addition a three-year
course, in which the work will be
considerably broadened out to afford
training for more particular office or
secretarial work.

The general technical course will
consist of half academic high school
studies and the other half practical
work. At the end of the second year
course enough shop work will have
been completed to allow the student
to choose one particular branch in
which to specialize for the third or
final year of the course.

According to Principal Beal, the
general technical school course is
considered particularly advisable for
girls who contemplate entering a
business or similar vocation, as it
offers them practical experience
along many necessary lines.

At the university examinations last
year it was shown that in the de-
partments of applied science and en-
gineering, the largest percentage of
successful students were those who
had matriculated from technical high
schools. Mr. Beal explained that the
technical school course in matricu-
lation, while it was fundamentally the
same course as that offered in the
high schools, and gave the student
exactly the same standing, yet in-
cluded an amount of practical work
which was of much value in the uni-
versity course of applied science or
engineering.

"For girls, also, who contemplate
specializing in domestic science," he
said, "there is practical work which
will be of much assistance in the uni-
versity household arts course."

The time table for those students
who are entering the Technical High
School under the adolescent act is
being drawn up as a regard for both
employer and employees, and is
expected to work out to the peculiar
advantage of both.

A new course being arranged is
the special one-year term to look
after those pupils who failed in their
entrance examinations.

At the end of this one-year course,
they will be entitled to enter into the
same classes, with the same stand-
ing as those who were successful in
obtaining their entrance.

To cope with the large number of
students who are anxious to register,
every available building in the school
has been converted into a classroom.

58,500 ATTEND "EX."
TORONTO, Aug. 28.—Attendance
at the Canadian National Exhibition
today was 28,500, against 55,000
for the corresponding day last year.
For the two days the attendance was
129,500, as against 120,000 for the
same period last year.

FIRE DESTROYS COTTON SHED.
Winnipeg, Aug. 27.—The cotton
shed of the Alaska Bedding Com-
pany (Simmons, Limited) was gutted
by fire last night, the damage
amounting to between \$45,000 and
\$50,000. The shed contained twenty
carloads of cotton.

London Western Trusts Sues For Recovery of Principal

IN a writ issued through
Fraser & Moore, barristers,
against the London Investment
Ltd., the London and Western
Trusts Co. Ltd., claims \$14,500
as principal, in addition to
costs of proceedings, taxes and
interest, the claim being based
on a mortgage dated April 1,
1914, between John W. G. Win-
nett, barrister, of London, as
trustee, and mortgagee, and
George M. Dobbie, of London
Township, farmer, as mort-
gagee, which the plaintiffs
allege was assigned by Dobbie
to the plaintiff by indenture
dated July 17, 1922.

Town Topics.

A THOUGHT FOR TODAY

Though thou shouldst bray a
fool in a mortar among wheat
with a pestle, yet will not his
foolishness depart from him.—
Proverbs 27:22.

FOLLY, as it grows in years,
The more extravagant ap-
pears.
—Samuel Butler.

TOMORROW'S DOINGS.
WEDNESDAY, No. 1 committee,
city council, holds meeting at city
hall, 8 o'clock.

MRS. H. QUIGLEY has taken out
a building permit to construct a one-
story stucco residence on Gordon
street at an estimated cost of \$3,800.
In all 99 building permits have been
issued at the city hall this month,
and the total cost of the work in-
volved is \$141,915.

IN ORDER that the prisoner
may be examined by a physician,
Magistrate Graydon, in police court
this morning, remanded Berleah Van
Schaik, a young bookkeeper, who has
been boarding at 217 Richmond street
for a week, after the youth had
pleaded guilty to a charge of at-
tempting an act of gross indecency.

SURFACING of the Dundas street
pavement from Ashland avenue to
the city limits with asphalt was
commenced Tuesday morning, and it
is expected that this thoroughfare
will be open to traffic in about two
weeks. New rails for the London
Street Railway Company on steel ties
are being laid rapidly, the city en-
gineer aiming to complete the job by
fair week. Grading is progressing
rapidly on Hamilton road from Eger-
ton to St. Julien streets, and it is
hoped that this paving job will also
be completed in record time.

**JOHN FLOWERS STRICKEN
SUDDENLY WHILE ASLEEP**
Employee of G. T. R. Roundhouse
Dies at Age of 58 Years.

John Flowers of 790 Colborne street,
died suddenly at his home here at an
early hour Tuesday morning.

Mr. Flowers, who was an employee
at the G. T. R. roundhouse, retired
Monday night apparently in the best
of health. He was found dead in bed
Tuesday morning, and it is believed
that during the night he was seized
with heart trouble, which resulted in
his death. He was 58 years old.

Besides his widow, Mrs. Helena
Flowers, Mr. Flowers is survived by
a number of brothers and sisters—
Mrs. Teden of West Branch, Mich-
igan; Mrs. McIntosh of Walkerville;
Mrs. Webster of London, Mrs. Taylor
of London, William Flowers of West
Branch, Andrew of Windsor, and
Alexander of London. He was a son
of the late Adam Flowers.

Funeral arrangements have not yet
been completed.

**MANY SCHOOLS REPAINTED
DURING SUMMER HOLIDAYS**
Pupils Will Witness Agreeable
Change When They Return
to Work.

When the bell rings in three public
schools of London announcing the
opening of the fall term next Tues-
day, the pupils will witness an agree-
able change from conditions last
June as a result of improvements
carried out this summer.

Capt. W. H. Robinson, superin-
tending of works in public schools,
has supervised repainting of the in-
terior of Simcoe street, Rectory
street and Colborne street South
public schools, and the change has
brought these buildings on a par with
other modern city seats of learning.

These schools were very dirty, and
the repairs and improvements car-
ried out were much-needed ones. The
results obtained during summer hol-
idays reflect credit on the work of
Superintendent Robinson and his
staff.

**HOLD HOPE THAT
48 MINERS LIVE**
Continued From Page One.

The 3,000-foot levels upward. The
birds gave their lives in warning of
the danger of the descent.

They were lowered into the shaft
by rescue workers from the state
bureau of mines at Berkeley.

The strings played out as the canary
cages were let down and were care-
fully measured. Some of the birds
came back with wing fluttering
feebly. Others were dead. The tests
showed that the descent of 2,700 feet
could be made, but that further de-
scent was perilous.

FORD LAUNCHES FIGHT AGAINST COAL BROKERS

Detroit Automobile Manu-
facturer Begins Campaign
For Principle.

DETROIT, Aug. 28.—Henry Ford,
in announcing Saturday that his
plants would be closed Sept. 16 be-
cause of conditions in the coal in-
dustry, began a fight for what he be-
lieves is a great principle, it was
stated today by an official in close
touch with the manufacturer.

Mr. Ford, it was stated, has started
what he declares is a fight against
alleged profiteering, and that he be-
lieves he is in a better position per-
haps to do so than anyone else. He
feels, it was stated, that by taking
up the fight he is doing every other
manufacturer as well as work-
men throughout the United States a
real service.

Mr. Ford denies there is a coal
shortage. The investigations of his
representatives have convinced him,
it was stated, that the coal brokers
of the country have an enormous sup-
ply of coal on hand. The Ford Motor
Company could obtain enough coal
to cover a tract ten acres square if
it would submit to being victimized
by profiteers, it was declared.

For several weeks, it was asserted,
the Ford offices at Dearborn have
been flooded with offers of coal with
delivered prices ranging from 100
to 300 per cent above the normal
cost.

The Detroit manufacturer believes
that if he yields to what he terms
"the hold-up" of the coal brokers,
as much as that coal prices will
reach an unprecedented figure. One
source close to Mr. Ford said the
manufacturer had "at the back of his
mind" a picture of workmen being
unable to buy enough coal to keep
their families warm because of the
price which the coal brokers would be
asked "unless this profiteering was
nipped in its inception."

CONTROLLER WARNS.
TORONTO, Aug. 28.—Warning
that the early months of the coming
winter may find Toronto without
adequate supplies of fuel of any
description, is contained in a state-
ment issued today by J. A. Ellis, fuel
controller for Ontario. For the first
time the controller criticized the local
coal dealers. He regrets that they
do not seem fit to order Welsh coal
and as much as they are able to carry
out their promise to fill the city's
needs with American bituminous
coal. Inability of the United States
mines to catch up with the demand,
present conditions on the railroads
and the probability of further serious
congestion are given as the reasons
for the controller's attitude.

Advices Preparations.
The seriousness of the fuel situa-
tion can be gauged by the fact that
the statement advises householders
to prepare to close portions of their
homes in order to conserve fuel. The
controller goes so far as to suggest
that kerosene stoves and other
makeshifts may have to be pressed
into service.

"About ten days ago I issued a
statement that there would be no
real emergency in the fuel situation
in Ontario if the coal dealers, the
controller goes so far as to suggest
that kerosene stoves and other
makeshifts may have to be pressed
into service."

"I am strongly of opinion, as I was
then, that it is impossible for there
to be a full supply of American an-
thraxite during the coming winter,
even if the strike ends before very
long. Ontario, therefore, like
every state in the union, must
provide some substitute
sufficient to take care of its
fuel requirements until about the
middle of December, and perhaps
even a little longer. If the anthra-
xite strike is settled at an early
date it is quite possible that suf-
ficient anthracite will then be avail-
able for the balance of the winter,
provided the railway situation in the
States also improves.

Must Conserve Fuel.
"It is true that the American bi-
tuminous mines are now practically
all being operated and that the pro-
duction is again approaching normal.
However, there is a shortage of bi-
tuminous coal to be caught up as
well as the much larger shortage
in anthracite coal, because, until a
few days ago sixty per cent of the
bituminous mines in the States had
not been operating since April 1, last.
I think there is bound to be some-
what of a congestion on the United
States railroads in moving the bi-
tuminous coal, in addition to the dif-
ficulty caused by the railway shop-
men's strike.

**MRS. JANE BROWNE DIES
SUDDENLY AT BATHURST**
Was Miss Jane Labatt of This City,
and Sister of Mrs. S. C. New-
burn of Hamilton.

Mrs. Jane Browne, widow of the
late Doctor Arthur A. Browne, of
622 Sherbrooke street west, Mon-
treal, died suddenly at Bathurst,
New Brunswick, Monday. Mrs.
Browne was formerly Miss Jane La-
batt, a sister of the late John
Labatt. She is survived by her
sister, Mrs. S. C. Newburn, wife of
Major-General Newburn of Hamilton.
The late Dr. Browne was a well-
known physician, with an extensive
practice in Montreal.

Mrs. Browne, who was nearing 75
years of age, was in a pretty good
state of health up to the time of her
death.

The body will be taken to Mon-
treal for burial.

Bench Waxes Warm When Counsel Asks Withdrawal of Assault Case

When G. A. Chisholm asked that a
charge of assault laid against his
client, Arthur Jones, an Indian, by
John Jacobs, another Indian, be with-
drawn on consent of the complainant
in police court this morning, Magis-
trate Graydon waxed exceedingly
warm.

"Certain persons are making a per-
fect burlesque out of this court," he
declared. "They lay informations
and then they want to withdraw
them. This case will proceed."
"These two men were overseas to-
gether, and they became involved in
this argument," persisted counsel for
Jones. "During the heat of excite-
ment, the complainant came to the
police. They have settled their little
differences and now they want it to
end."

Finally the court agreed to dis-
miss the charge on payment of costs.
"What are the costs?" Mr. Chisholm
asked Police Court Clerk Moule.
"Two dollars," the official replied.
"Here, I'll pay it myself," concluded
the lawyer, as he dropped a bill on
the clerk's desk.

MAY PUT SPORT IN DIRECTOR'S HANDS

**E. V. Buchanan Predicts Cre-
ation of New Civic
Position.**

The time is not far distant when
London will appoint a director of
creation, whose permanent duty it
will be to supervise athletics and
other civic recreation, according to
E. V. Buchanan, general manager of
the public utilities commission.

"Some day in the near future Lon-
don will be big enough to appoint
a director of recreation," said Mr.
Buchanan Tuesday morning. "His
duty will be to organize civic recre-
ation on a definite basis, such as
city hockey leagues in the winter,
baseball in the summer, athletics
and recreation at city playgrounds,
football in the fall, basketball and
indoor baseball, and swimming."

"There would be enough work to
keep a good man going all year
round," continued Manager Buchan-
an. "Winnipeg has a director of
recreation, and a number of United
States cities have appointed a sim-
ilar official with first-class results."

**NO DECISION REACHED ON
REPLACING JUBILEE RINK**
Understood That Arena Will Not Be
Combined With New Structure.

It has not been decided as yet to
what extent the London Curling Club
will go in the way of a new struc-
ture to replace the old Jubilee Rink
recently destroyed by fire.

At a meeting of the board of direc-
tors to be held next week it will be
decided what steps will be taken in
the matter. The proposal will then
be given to the stockholders within
the next ten days. According to
Frank Asplund, nothing can be de-
cided upon until after the meeting
of the board, but it is understood an
arena will not be combined with the
rink, as has been supposed.

Obituaries
MRS. C. S. MAHOOD.
The death occurred in Vancouver
Aug. 25 of a former resident of this
city, Mrs. Ina Mahood, wife of Dr. C.
S. Mahood of Calgary, and youngest
daughter of Mrs. I. Hodgins of Van-
couver, formerly of Craig street, this
city.

Mrs. Mahood suffered a severe at-
tack of pneumonia last March and
later went to Vancouver to recuper-
ate, and was thought to be recover-
ing, when she took a sudden turn for
the worse, and died suddenly.

She is survived by her husband,
Dr. C. S. Mahood of Calgary, one son
and one daughter, Alan and Gwen-
dolyne, 7 and 3 years old, respectively,
her mother, Mrs. I. Hodgins of Van-
couver, one brother, Thomas J.
Hodgins of Mexico City, and three
sisters, Mrs. D. G. Brison and Mrs. J.
W. Stockton of Vancouver, and Mrs.
George Gilmour of Simcoe street, this
city.

The funeral will be held in Cal-
gary.

MRS. EMILY SCHOLES.
Funeral services of the late Mrs.
Emily Scholes, who died Saturday,
were conducted Tuesday morning
from the home of her niece, Mrs.
R. Rankin, 48 Stanley street. Rev. J.
A. Aken of Ridout Street Methodist
Church conducted the services. In-
terment was made in Mount Pleasant
Cemetery.

JOSEPH HUTCHINSON.
Joseph Hutchinson, of 113 McCleary
avenue, died Tuesday morning at
Victoria Hospital. Funeral services
will be conducted Thursday from his
late residence to Mount Pleasant
Cemetery.

ROBERT MARR.
The funeral of Robert Marr, vice-
president of Elliot, Marr & Co., who
died Saturday, was held from his
late residence, 54 Beaconsfield
avenue, Monday afternoon, to Walk-
erton, where interment was made.
The services were conducted by Dr.
D. C. MacGregor, of St. Andrew's Pres-
byterian Church. Pallbearers were:
Messrs Geo. Cairncross, W. L. Under-
wood, Morrison, R. J. Donaghy, A.
McPherson and C. G. Watson.

ROBERT P. CAMPBELL.
The funeral of Robert P. Camp-
bell, who died Saturday at his home,
89 Beaconsfield avenue, was held
Monday afternoon from his late resi-
dence to the Ivan Presbyterian
Church, Lobo Township, where in-
terment was made. Brief services in
the home were conducted by Rev.
John Argue and Rev. T. Symington.
Pallbearers were: Messrs John Smith,
Arch. Carmichael, F. Nichols, J. Mc-
Vicar, L. Chapman, W. Hudson, J.
Campbell and D. Campbell. Mr.
Campbell, who was a retired farmer,
came to this city four years ago, on
retiring from his farm in Lobo Town-
ship. He is survived by his widow
and one daughter.

WILL HOLD LABOR DAY CELEBRATION

Committee Plans Big Pro-
gram of Events at Queen's
Park.

The celebration to be held at
Queen's Park on Labor Day, Monday,
Sept. 4, if expectations are realized,
will be the biggest and most inter-
esting event of its kind ever held in
the city. J. E. Secker, general chair-
man of the Labor Day committee, an-
nounced Tuesday that preparations
are practically complete, and that
many feature events have been added
to this year's program.

An innovation this year will be a
Boy Scout drill competition, in which
more than eight teams will take
part. The scout movement is again
gaining a strong foothold in London,
and it is promised that the event
will be very interesting, as well as
an instructive one.

The baby show, an added feature,
is drawing much attention, and the
entries are large. Dainty cups are
being offered as prizes. Scotch and
Irish dancing will also be one of the
main drawing cards.

For those who must be furnished
with thrills there is auto racing,
motorcycle racing and horse racing,
as well as foot and bicycle racing
and boxing.

RAILWAY EXHIBITS TO FEATURE FAIR

**C. P. and C. N. R. Secure
Space at Queen's
Park.**

The exhibits of the Canadian Pa-
cific and the Canadian National
Railways are to be a notable feature
of the 1922 Western Fair.

On the water, on its way from the
recent international exhibition,
Tokio, Japan, is the exhibition of the
C. P. R., for which space has been
secured in the Machinery Building.

The magnificent scenery along the
St. Lawrence River is exploited in the
setting which was the cause of much
favorable comment at the interna-
tional exhibition. It is being shown
with the object of arousing the pub-
lic to the wonderful advantages of
the boat trip along the magnificent
river, which is obtainable by C. P.
R. transportation.

The Canadian National exhibit in
the Horticultural Building is almost
completed. Wonderful scenic effects
have been obtained by means of
electric lighting and it is expected to
arouse much interest and apprecia-
tion. In addition to the show in the
Horticultural Building the Canadian
National is to place an exhibition
train on the Campbell street siding,
and 800 feet of extra track has al-
ready been laid for this purpose.

The train will be composed of
seven coaches and an engine, and
will show all the comforts and con-
veniences which are procurable in
the railway transportation of the
present day.

BUYS OLD BRITISH WARSHIPS.
London, England, Aug. 28.—The
Times understands that arrange-
ments have been made for sending a

ported in shipping circles that Ger-
many is finding a ready market in
Russia for scrap metal, which would
account for her keen demand for old
tonnage.

**KNOCKS FRIEND'S TEETH
OUT, DRAWS 30-DAY TERM**
Bruce Boyd Alleges He Only Put
Arms Around Complainant.

Although Robert Stewart had his
teeth knocked out, and complained
to the police that Bruce Boyd com-
mitted the assault, Boyd in police
court this morning swore he only
put his arms around the complainant.
It was Boyd's third appearance in
court within a few months, so Mag-
istrate A. H. M. Graydon sentenced
him to 30 days in the jail.

Evidence to the effect that Boyd
had been living in the same house
with him, and had assaulted him for
no reason at all, was given by
Stewart. The latter declared he and
Boyd had always been good friends.
He thought Boyd was under the in-
fluence of a drug when he hit him.

"He tried to throw my mother out
of the house. I just grabbed him
in self-defense," explained Boyd.

Londoner Grows Tomatoes Measuring 18 Inches in Circumference

J. J. FLANNIGAN, 891 Lorne
avenue, has grown some
tomatoes this summer which he
believes are of almost record-
breaking size for this district.
The tomatoes, when ripe, have
varied in size between 16 and
18 inches in circumference, and
have weighed as much as one
pound, ten ounces.

Although the largest have al-
ready been picked, there were
some on the vines, this morn-
ing, which were found by an
Advertiser reporter to be from
15 to 17 inches in circumference.
These should be fully as large
as the others when ripe.

Mr. Flannigan states he has
been using tomatoes off his
vines for several weeks now,
and had his own fruit when
they were selling down town
for 20 cents per pound. The
plants have been loaded with
tomatoes, and three or four
are to be found growing on one
stem.

**TO READ PAPER
ON CITY FINANCING**

**James S. Bell Leaves to At-
tend Ontario Municipal
Convention.**

Assessment Commissioner Stephen
Grant and Finance Commissioner
James Stephen Bell will leave for
Toronto Tuesday night, where they
will attend the 24th annual meeting
of the Ontario Municipal Association,
in session Wednesday, Thursday and
Friday.

Mr. Bell will read a paper on "City
Financing" at the open forum to be
held Thursday morning. Although
City Clerk S. Baker is scheduled to
address the open forum of the asso-
ciation Wednesday morning on
"Courses for Municipal Officers at
the Universities," he stated Tuesday
morning, that illness in his family
will prevent him from attending.

Thursday morning, F. G. Jackson of
Oxford Center, clerk of East Oxford,
will read a paper on "Introduction of
Hydro Power in Rural Districts."
Several other municipal officials from
Western Ontario will deliver ad-
dresses at the meeting, and it is ex-
pected that several motions will be
introduced urging the Ontario Leg-
islature to amend certain laws on
municipal administration, and collec-
tion of taxes.

Mayor Alfred Maguire of Toronto
will welcome the delegates to the
Queen City Wednesday morning, and
T. L. Church, M. P. of Toronto, pres-
ident of the Ontario Municipal Asso-
ciation, will act as chairman at all
meetings. The city of Toronto will
entertain the delegates at luncheon
Thursday, and the meeting will be
concluded Friday by an address on
"Co-operation Between Municipalities"
by Mayor H. W. Wilson of
Windsor, and election of officers.

Miss Mary Grant of London, clerk
of London Township, is a vice-presi-
dent of the Ontario Municipal Asso-
ciation.

**BRICK STREET ACCIDENT
RESULTS IN LAW SUITS**
Leslie Cox of Goderich, S. D. Daw-
son and Wife Issue Writs
Against Guy Mann.

Two writs for damages have been
issued against Guy Mann of Lambeth
as a result of an auto accident in
June.

J. Leslie Cox of R. R. No. 1, God-
erich, has issued a county court writ
against Mann for unstated damages
for injuries alleged to have been re-
ceived by himself and his motor car
as a result of a collision at the cor-
ner of Brick street and Wharfedale
road, which the plaintiff claims, was
due to neglect.

Samuel D. Dawson and his wife,
Amelia Dawson, of Westminster Town-
ship, who were passengers in Cox's
car, have jointly issued a writ for
damages for injuries alleged to have
been received when the two cars col-
lided.

Both writs were issued through
Frank H. Curran, barrister.

**DR. PERCY BANGHART IS
ILL AT ST. JOSEPH'S**

Although he is still seriously ill,
physicians in attendance at St. Jo-
seph's Hospital are confident that Dr. Percy L. Banghart,
who underwent an operation for ap-
pendicitis at St. Joseph's Hospital
Monday, will come through nicely.

The operation itself was success-
ful, but the last word received was
that although indications were fav-
orable, Dr. Banghart was still very
ill.

**YOU CAN BUY THEM
WEDNESDAY MORNING for
\$2.98**

**3 New Original Fashions
For Fall**

NUMBER ONE—Patent Colt, Wide Strap
and Buckle Slipper, with Fawn Elk Apron
and Strap; fall weight soles, slightly ex-
tended, medium pointed toes and Cuban
heels; sizes 2½ to 8.

Reviewers at Work.

THE whole political situation in Canada is being reviewed and ultra-reviewed, if such a phrase can be used. During the summer period there is nothing very definite in sight, and political writers are plying their wares on what might have been, what was not and what may be.

A writer in *The Nation* seems to take for granted that political rumors all have more or less truth in them, for on some of the most persistent he proceeds to build up quite a story, and then in part scrap it. For instance, he takes the rumors of amalgamations at Ottawa and Toronto as follows:

But almost simultaneously come ominous rumors from Ottawa to the effect that some fifty of these agrarian members contemplate an alliance with Hon. Mackenzie King, the Liberal prime minister, and that two of the National Progressives will go into Mr. King's cabinet. Should this merging of Liberals and Progressives take place, it would probably be a bodyblow at the whole agrarian movement in Canada as far as political action is concerned. There are also repeated rumors that Mr. Duff, Ontario Farmer premier, is contemplating a reorganization of his party, either swallowing the Liberals, or consenting to be swallowed by them. Very significant is it that latterly he has abandoned the name United Farmers, when speaking of his party, and is using the less specific title of Progressives.

Now, there is nothing new in any of these rumors, and they have been made and denied until they are so warped that they couldn't lie straight between a row of well-regulated yard sticks. The political leaders most concerned have either denied or ignored most of them. There is nothing at all to indicate, for instance, that the agrarians from Western Canada have any idea of going in with the King government. As long as that body can sit at one side and carry home to the west such things as the reduced grain rates, and the makings of a wheat board whenever the western provinces care to make it operative, they have very little to worry about, and would have trouble in doing more for their constituents were they absolutely in power. In fact, Eastern Canada, which is almost solid to a man in its support of the government, did not have such a victory to take home to its constituents.

The whole talk of a merger between Progressives and Liberals is well-nigh approaching a state of the impossible. It would mean, in fact, the bringing into existence of a new political organization in Canada, as it is not possible that a mutual working basis, looking to permanency, could be arrived at between the two parties concerned. They are on the same path in many ideas, but far removed in others, and political traditions and ideas do not bend very readily, or if bent, they do not stay where they are put.

Free traders from the west have to include men from British Columbia who are willing to support free trade in agricultural implements, but who want protection for the fruit markets and for the lumber and fish business; the Progressive from the prairies wants American fruit to come into that territory free of duty, while the Progressive from British Columbia can secure election only on the understanding that he favors a tariff wall to fence off Western Canada as the selling ground for a good deal of British Columbia fruit.

The writer who reviews the situation in *The Nation* makes use of some ideas that have been worked until they are threadbare and ready for the rag bag. In his own words, "He enjoyed (referring to the premier) less than an absolute majority of the house, and at any moment a combination of Progressives and Conservatives could have brought about his defeat." All of which is both true to fact and positive rubbish at one and the same time. If any man ever tried to bring the two parties together to throw down the government, it was Hon. ARTHUR MERRILEY. He would have been ready to state publicly that N. P. stood for "Nice Progressives" had he been able to tie the Conservatives and Progressives together in a vote that would have floored the King ministry. The danger in numbers was there, but the views were so diametrically opposed that the chance of fusion between Progressives and Conservatives was not a serious contender in the situation. Then the same writer tells us that LOMER GOUIN, the strong man from Quebec, is dictating this and that, and on this he builds up a little chain of circumstances in the attempt to make it known that the 65 from Quebec are apt to crack in the middle any time.

As a matter of plain fact, MACKENZIE KING is premier of the Dominion. He was voted to that office on Dec. 6. He has organized and brought together a body of capable executives, and things are going nicely at Ottawa, and the next session will see him in a stronger position. The critics have done their worst, and he has stood it all and retained his leadership and strengthened his position.

THE REAPER—PAST AND PRESENT.

Nearly \$10,000 a Room.

WHY is it that hotel rates are higher than they used to be? Well, let's take the case of the new Statler Hotel that is being built in Boston. It will have cost, when completed, over \$9,000,000, and there will be about 1,100 rooms in the place, each with a bath. Had there been 900 rooms it would have brought the figures to a total of \$10,000 per room. Of course, there are other sources of revenue for hotels outside of their rooms, such as dining-rooms, billiard rooms, special services, and rents for offices, etc., but in the main the rooms are the backbone of the business. There are other hotels, some of them fairly modest, where it is figured that it has cost \$10,000 per room to build and equip the place in such a way that it will be classed as a first-rate place to stop by the fastidious and highly-spoiled traveling public.

Now, let us take \$10,000 a year. The interest on this, at a very conservative figure, would amount to \$600 per year. The taxes would add another substantial item, and depreciation would, of course, have to be taken into consideration. In all the total would not be far removed from \$1,000 a year. That room has to earn that amount before the hotel can make money. It has to pay its share of the general overhead charges of the hotel as well. Then, take away from the earning power of that room the days or nights when it is empty, and the high rates that some of the hotels have to charge is still further explained. Building costs have much to do with it in the first place, and other things crowd in as well, and it all means that as long as there are \$10,000 rooms in hotels, the people who patronize them are going to pay at the \$10,000 rate, or the hotelkeepers will lose money.

The Work of Lawyers.

IS IT a fact that the average individual regards the lawyers as a class as men who make a lot of easy money, and to whom the collection of fees is the greatest thing in the world?

The *Los Angeles Times* cites a number of prejudices that are very common, but contends that it is a fact that very few clergymen's sons turn out to be rakes; pawnbrokers and money-lenders have been guilty of many foolish acts of generosity; prohibitionists do not, as a rule, wear long coats or long faces; many Englishmen are unmethodical and many Irishmen take life too seriously; some sailors can't dance hornpipes; some hotel managers are not bonifaces; some poets make money, and so on through a lengthy list.

So perhaps the most ingrained popular misconception deals with the ancient and honorable profession of the law. Its members are not of necessity hard, cold and calloused. The emotions of a lawyer are not always feigned or artificial. Every lawyer does not regard his client merely as a source of revenue. A resolution adopted at the annual meeting of the American Bar Association is a fair answer to the superficial criticism that would place the ban of being mercenary and cold-blooded on the successful lawyer. This resolution reads:

"No man or woman, however humble, ought to be able to say in any American community that justice is too expensive for the poor. We therefore urge that in every community the members of this association volunteer to aid, without fee, the worthy poor who are being oppressed, defrauded or otherwise wronged and who have not the means to employ counsel."

Neither the churchman nor the physician could go further than this in a practical effort to lighten the burden of the unfortunate. Charity is alive in the courtroom and the police station, no less than in the hospital and the church.

This resolution, to offer their services gratis where the occasion calls for such service, received the hearty

approbation of the American Bar Association. Its individual members were endorsing publicly a principle already established by many in their private practice. The cloak of the law covers a multitude of kindnesses.

Whenever in some cause celebre the enormous fees charged by the big legal lights in the case are recorded publicly, many whose lives are consumed in hard work for small pay are piously indignant over the exactions of the legal profession. Agitators seize such examples to declare that only the rich can afford to buy justice.

Yet there are hundreds of poor people who have been aided and helped in difficult situations by lawyers who could demand almost any price they cared to ask for their help and who have given that help in these cases, actuated by the purest sympathy, with no thought of pecuniary reward.

But these incidents never get into print. Agitation doesn't fasten on them. The man who gives the fruits of his brains, trained by long and hard study and work and experience, to relieve the want of others, is performing a nobler service to humanity than the individual who deals out cold cash without investigation or writes his name in large letters to some well-accredited charity.

LITTLE TISERS

One thing about feeding the youngsters on for supper, you can tell where they are in the dark.

The coal supply at our house works out on the old plan that nuthin' from nuthin' leaves nuthin'.

Well, inside of the next few days the mothers will at least know where the children are during the hours between 9 and 4.

TISERS d.l.f.:-jac0.1m cm f wytaoo
A vacation means swatting sand flies at the lake instead of smiting mosquitoes at home.

And now a western writer tells us that some men are born liars, others acquire the habit, while others get married and drift into it.

Getting back to normal? Well, we should say so. Here's *The Wheatley Journal* with an announcement of a chicken pie social on Sept. 4.

It's hard to say which would be the worst to happen to a circus, the giraffe with a sore throat or a seventeen-foot snake with the itch.

One chap drove his car into a garage at a summer resort to get it fixed. After paying his bill he says the place has one mechanic and six accountants.

Anthracite miners and operators have not come to an agreement yet, probably because they haven't succeeded in getting the jacks far enough under the prices.

Down Tennessee way they find out they have nominated a dead man for Congress. In some places they are not so smart, and don't make the discovery until after election.

After all it's not much use for a man to know that he's right if he doesn't go ahead and act on it. When he reaches that stage he's no better than a bump at the end of a culvert.

If there is too much confusion by reason of the Tory party in Canada using the name Liberal-Conservative, why should the Liberal party not take the name Reform, and stay with it? A Reformer means more than a Liberal. It is in this day and age that Reformers are going to save civilization. Why not take the name Reform party, and then live up to it?

Thrashing operations are different

to what they were a few years ago. There is no more hand feeding, no more hand-cutting, and no more working on a stack in many cases. The grain still comes out at the same old place, and the dust around the premises is also a mark that we can use to spot the operation as a real honest-to-goodness thrashing affair.

It will be highly interesting to have the grain grower of the west tell us two months from now how much better he is off for a reduction of about 6 cents per bushel on carrying charges on grain, and the elimination of speculation through a grain board. A dollar and cents statement will be very enlightening, and will, as well, establish whether the advantage is as great as was anticipated.

It is a fact that although life saving is taught many places, very few know what to do in case of drowning accidents. Only a few days ago a woman was taken from the water at a summer resort on Lake Huron, and no one seemed to have sense enough to take the water out of her. Fortunately a doctor was on the grounds and he was brought in a car. Once on the scene, he was able to go ahead and do successful respiration work. There must have been from twenty-five to thirty people around at the time, but not one of them possessed a working knowledge of life saving.

JEST

MINISTERIAL REPORTEE.

Father Kelly and Rabbi Cohan were the best of friends. They were guests at a banquet one evening at which ham was served. Father Kelly smilingly whispered to Rabbi Cohan:

"Rabbi, when are you going to lay aside that old stuff and eat ham?"

The Rabbi smiled back and whispered:

"At your wedding, Father Kelly."

AN ARDENT ADVOCATE.

She (sentimentally)—Do you think marriage is a failure?

Furniture Dealer (practically)—Good job, no! I made \$2,500 last year on perambulators alone.—*London Weekly Telegraph.*

HUNGRY.

Housewife (to beggar)—But your story has such a hollow ring.

Beggar—Yes, mum; the natural result of speaking with an empty stomach.

INFREQUENT CASH REMITTANCES.

"Are you enjoying London?"

"Very much."

"Is your husband coming across?"

"At irregular intervals."

GIVE IMAGINATION REIN.

"You have given me Scotch whisky, I asked for Irish," complained the irate imbiber.

"Never mind," said the publican. "I gave you Irish. (practically)—Good job, no! I made \$2,500 last year on perambulators alone.—*London Weekly Telegraph.*

Our Own Country

PEACE RIVER COUNTRY.

Q.—What and where is the Peace River country?

A.—The Peace River Country is approximately 240 by 300 miles in area, in Northern Alberta and British Columbia, where there are 45,000,000 acres of good land on which settlement is progressing steadily.

RAILROAD MILEAGE ACROSS CANADA.

Q.—How many miles are involved in a continuous railway journey from Sydney to Vancouver?

A.—A railway journey from Sydney to Vancouver covers 3,853 miles. The distance from Sydney to Dawson City by rail and sea would cover 5,383 miles.

WHALING INDUSTRY.

Q.—What is the extent of Canada's whaling industry?

A.—Canada's whaling industry in 1920, in all Canada, represented nearly 500 whales caught, worth half a million; mostly on the Pacific coast.

25 YEARS AGO TODAY
HERE WE HAVE ITEMS OF LOCAL AND DISTRICT INTEREST
AS RECORDED IN THE ADVERTISER OF 1897.

August 29, 1897.

Right Rev. Dennis O'Connor, Bishop of London, held confirmation services in St. Christopher's Church, Forest, on Tuesday morning. He examined the confirmation class of eleven, and found all candidates well instructed, and congratulated their pastors, Revs. Kennedy and Hogan, and themselves on their efficiency.

No. 2 committee of the board of education met last night and passed the following recommendations to the board: That Miss Wright be appointed assistant in the afternoon kindergarten at St. George's school. That Miss Ethel Cannon be transferred to Wortley road from Queen's avenue. That Miss McDermid be assistant at Victoria afternoon kindergarten. That Miss Wyatt be assistant at Queen's avenue afternoon

kindergarten, and that Miss Clara Brenton be assistant at the new kindergarten, King street.

Mr. Chas. Glass, this city, leaves shortly for Manitoba, and will be gone six or eight weeks. He will superintend harvesting operations on his farm, 200 miles from Winnipeg. He expects a crop of 2,500 bushels of wheat.

Rev. W. M. Walker, of South London, occupied his father's pulpit in the Baptist Church at Tavistock last Sunday, preaching very acceptably. The congregation over which he presides in South London is now engaged in the erection of a costly new church.

Miss Helen and Mr. Wilmer Fitzgerald of London are the guests of their cousin, Miss Una McKinn, of Ingersoll.

BEWARE OF SMALLPOX

BY DR. R. H. BISHOP

Have you allowed him to go unprotected against smallpox?

Smallpox has few terrors for our generation, because few of us have seen the ravages which it used to make before the discovery of vaccine. We are becoming careless. We put

off getting vaccinated and having our children vaccinated. This growing carelessness will result in many deaths from smallpox some day.

Vaccination is not a dangerous process. During two years of the war, 3,000,000 persons were vaccinated in this country without a single death.

Since vaccination is the only sure prevention of smallpox, it is essential that one should be vaccinated early in life. A baby should be vaccinated during its first year and again at the age of ten. After two successful vaccinations, immunity usually lasts a lifetime.

However, if one is exposed to the smallpox, and has not had the disease, he should be vaccinated at once unless he has undergone the treatment within the preceding five years.

LIVES 37 YEARS IN LIGHTHOUSE ON LYAL ISLAND

John McKay Receives Imperial
Long Service Medal From
King George.

HOLDS SPLENDID RECORD

Honored by President Cleve-
land For Saving American
Sailors in 1886.

Special to London Advertiser.

WARTON, Aug. 28.—Thirty-seven years of faithful and efficient service as lighthouse keeper at Lyal Island, six miles out in Lake Huron from Stokes Bay, were rewarded today when James Malcolm, M.P., pinned on John McKay's breast the imperial long service medal. Mr. Malcolm came up from Kincardine for the presentation, which took place at the home of John Macaulay, where a number of Mr. McKay's friends were gathered.

In his brief address, Mr. Malcolm reviewed in a very complimentary manner the nature of the services and hardships that were Mr. McKay's lot as an officer of the department of marine and fisheries covering his long period of service. In October, 1884, Mr. McKay received his appointment and remained in office till he resigned in April, 1921. The highest possible praise for his efficient services is that, despite the changes in the political party in power at Ottawa his services were retained.

Survivors' Patronage List.
The appointment was until recent years on the patronage list and the various inspectors had returned such excellent reports regarding Mr. McKay's services that no pretext could be found on which his resignation could be demanded. It was a life of

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea, dysentery, colic, cholera, cholera morbus, cholera infantum, or any other looseness of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

Mrs. Roy Keith, Charlton, Ont., writes: "I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one-half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children."

Price, 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.—Adv.

GIRLS! LEMONS BLEACH SKIN WHITE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and skin bleach because it doesn't irritate.—Adv.

aches and pains

Pain is Nature's signal that something is wrong, and unless it is quickly righted it may easily become serious.

If the aches are in the joints and muscles Absorbine Jr. will relieve the pain quickly and restore the tissue to its former healthy condition.

Swellings which so commonly accompany pain are quickly reduced by a brisk Absorbine Jr., rub.

81.25 a bottle at most drug stores.

BATTLING BEFORE CITY OF CORK

Last Engagement Before Death of Michael Collins.

DUBLIN, Aug. 28.—Here are Irish Free State troops ready for action as a landing expedition neared the shore at Cork. This action resulted in the capture of one of the few remaining strongholds of the rebels. This strategy was one of the last acts performed by the Free State troops under the command of Michael Collins, recently slain near Cork.

many hardships for a number of years, one that few of the present generation will appreciate. In the earlier years, all provisions had to be purchased at Southampton and transported by sailboat.

For only four months of the season did Mr. McKay have any company on the island. His wife and family were with him in the summer months, but in the stormy weather of early spring and late autumn he was always alone on the island. For three seasons in recent years he was alone for the entire season. There are horrors to such solitude which would drive most men insane in time, but being of strong mind and body, Mr. McKay survived and is today very hale and hearty.

King Sends Letter
Accompanying the medal is a letter from the home office, London, signed by the secretary, stating that he had been commanded by the King to forward the medal in recognition of Mr. McKay's services.

Mr. McKay is also the proud possessor of President Cleveland's gold medal for life saving. In 1886 he and James McDonald of Bayfield saved the entire crew of the American vessel, Iowa. The Iowa had become waterlogged and had been drifting for a week in cold November weather when they sighted it drifting off Greenock Point near Stokes Bay. They succeeded in rescuing the entire crew, who were exhausted by exposure. Four of the members of the crew had suffered so much from frost that both their legs were amputated in Detroit on their return there. These men were so weakened from exposure and their operation that they did not survive.

Awarded Gold Medals.
In recognition of this service both of the rescuers were awarded gold medals by President Cleveland. Mr. McKay is also the proud possessor of a pair of field glasses presented to him by the department of marine and fisheries for saving a number of lives when a sailboat capsized in 1887. He and two others were at Southampton purchasing supplies when a sailboat containing a number of youths bound on a camping trip capsized in Lake Huron just a short distance away from the town. He and his companions hastened to the scene and succeeded in rescuing the entire party.

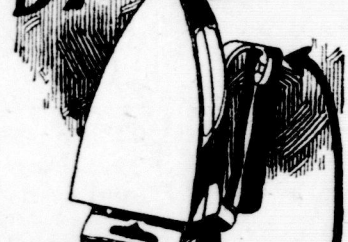

2 MEN HURT WHEN TEAM CRASHES THROUGH BRIDGE

CLARKSBURG, Aug. 28.—A serious accident happened here today. While a team of horses with a load of logs was crossing the Clendenan bridge it collapsed, precipitating the load, two men, Mathews and Goldsmith, and the team, fifteen feet into the river. Fortunately the river at this point is shallow, but Mathews was pinned under the logs with only a portion of his face above the water.

A number of men soon gathered and after hard work released him from his perilous position. Drs. Moore and McCallin were soon on hand, and are doing all in their power for him. Goldsmith was taken home with an injured leg, but the wound is not considered serious. The team was eventually released without serious injury.

"For the Home"

Hotpoint

It Rests the Wrist

When using the Hotpoint Electric Iron the thumb rests on a firm projection, thus entirely eliminating the tense grip, and severe strain on the wrist obtained by using the old style irons.

The Hotpoint Iron maintains its hot point, no matter how damp the clothes may be. Its mirror-like finish causes it to glide over the heaviest material with the slightest exertion.

EXPRESSES VIEW ON PARTY FUTURE

Lord Salisbury Believes Conservatism, Properly Led, Can Command Majority.

LONDON, England, Aug. 28.—(By Canadian Press).—Lord Salisbury is the latest prominent politician to contribute his views to the discussion being carried on by the Daily Telegraph as to the future of the English parties. Last week Lord Salisbury expressed the opinion that some kind of coalition would be necessary for a certain time. Lord Salisbury disagrees with him on this point.

Lord Salisbury expressed the belief that conservatism, if properly led, could command a majority. His party program is very hazily sketched. He indicates that the "labor policy is directed to recognize the status of the worker and protect his industrial and political freedom without disturbing the confidence of capital."

INDIAN OFFICERS COME TO CANADA

VICTORIA, Aug. 28.—Two hundred men recruited from the ranks of British military officers in India will ultimately settle in British Columbia, according to Major J. Clark, representative of the British Columbia government, who reached here today on the S.S. Empress of Russia.

He was accompanied by two prospective settlers and more are to follow soon.

EXPECT NO CONTEST IN COUNTY OF SHERBROOKE

SHERBROOKE, Aug. 28.—It was officially announced this morning that the provincial election in the county of Sherbrooke will be held on September 14 to fill the vacancy caused by the appointment to the bench of J. H. Lemay.

Nomination day will be September 7. It is not expected that there will be a contest, but that Dr. Ludger Forest, the Liberal candidate, will be elected by acclamation.

FAMOUS ARTIST PASSES.
RICHMOND, Va., Aug. 28.—Arthur Dawson, internationally known artist, and a resident of this city for the last year, died here last night, aged 65 years. He was born in Crewe, England.

THE VALUE OF CHARCOAL

Few People Know How Useful It Is In Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature. But few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug, but a simple, natural substance that effectively absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking and after eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion, it whitens the teeth and fortifies the gums as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges, they are composed of the finest powdered Willow charcoal, in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being sweetened to be smooth and palatable. The daily use of these lozenges will soon result in much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit. Many physicians advise Stuart's Charcoal Lozenges to patients suffering from gas in stomach and bowels, and to clear the complexion and to get the breath, mouth and throat. Charcoal is also believed to greatly benefit the liver, and to cleanse the blood. It is the fact that doctors should of the ordinary charcoal tablets.—Adv.

"Mother Why Not Try The Newer Form Of Iron"

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable all the Time and Looking So Haggard and Old?

"The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks just fine. The doctor said she had a healthy rosy-cheeked woman without iron. Good physicians have strongly emphasized the fact that doctors should prescribe more of the newer form of iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking patients. When the iron goes from the blood of women the roses go from their cheeks, and strength and vitality from their bodies. This newer form of iron like the iron in your blood and like the iron in certain green vegetables, is highly recommended to thousands who wish quickly to increase their strength, power and endurance. It is surprising how many people suffer from iron deficiency and do not know it. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much of what you eat, your food merely passes through you without doing you the proper amount of good. You don't get the strength out of it, and as a consequence you become weak, pale, and sickly-looking just like a plant trying to grow in soil deficient in iron."

COUNCIL TO DEBATE CITY WATERFRONT CONTROL

TORONTO, Aug. 28.—The battle to decide whether or not the city will maintain control over its own streets and waterfront will be fought out in the city council chamber tomorrow.

The agreement has not been changed as a result of the conference of the engineers of the three commissions which have been conferring and it will go before the members of the city council some time today.

SAID HE COULD NEVER BE WELL

"Fruit-a-lives" Restored Him To Health.

159 Avenue Pius IX, Montreal.
"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine, but I did not improve; and finally he told me that I could not be cured."
"At this time, a friend advised me to try 'Fruit-a-lives.' After taking two boxes, I was greatly relieved; and this fruit medicine made me completely well. My digestion and general health are now splendid."
"GASPARD DUBARD."

Fifty cents a box, 6 for \$2.50; trial size, 25c. At dealers or sent post-paid by Fruit-a-lives, Limited, Ottawa.—Adv.

RACE RIOTERS SET CHURCH ON FIRE

Threaten Colored Porter For Alleged Attack On Texas Girl.

WICHITA FALLS, Texas, Aug. 28.—More than 500 persons who surrounded the Electra, Texas, city hall, threatening John Love, 25-year-old negro porter, for an alleged attack on a white girl, thinned out today after three incendiary fires directed at negro-owned property.

Mayor Calvert issued a statement that the girl alleged to have been attacked could not be found, that there was no definite evidence a girl had been attacked, and that there was nothing definite against Love. The mayor said the entire affair would be investigated and charges would be preferred against those who fired the negro restaurant, church and residence.

The attempt to burn the negro Baptist Church was made during the services and the building was packed. As the sparks began to fly among the members the mob outside was heard to cry, "Down with the blacks!" This was the first intimation the congregation had of the trouble. They escaped through the windows and doors and none was seriously injured.

REPORTS NO DECISION IN HYDRO-RADIAL DEAL

TORONTO, Aug. 28.—Mayor McGuire announced today that nothing had resulted from the conferences

between the engineers of the provincial hydro, harbor and transportation commissions regarding the hydro radial right-of-way along the Toronto waterfront, and that consequently the city council would, at a special meeting tomorrow, endeavor to settle the whole matter by passing the agreement between the city and the provincial hydro commission providing for a six track right-of-way.

R. J. YOUNG & CO.

WOMEN'S HOME AND MAGAZINE PAGE

Personals

Capt. Ivan W. Hunter and Thomas Bell left for Detroit Monday.

Miss Irene Love is visiting her mother at 23 Bruce street for a few days.

Mr. and Mrs. O. A. Sharp and daughter Madeline have returned home from their summer home at Leamington.

Professor W. J. Patterson, M.A., of this city, spent several days in Portage la Prairie on his way to British Columbia.

Dr. Donald McEachern and Mrs. McEachern are guests with Mr. and Mrs. E. S. Little, Smith street.

Miss Emily A. McLaughlin, superintendent of nurses at Harper Hospital, Detroit, is visiting Miss Margaret McDermid, 700 1/2 Waterloo street.

Mr. David R. Cathro, of Indianapolis, Ind., who has been visiting his sisters, the Misses Cathro, 935 Waterloo street, returned home Saturday.

Mrs. Herbert Glass of Calgary, who has been a visitor in the city, leaves for her home Wednesday morning. She will spend a few days in Toronto, visiting friends.

Mr. and Mrs. Whitlock, Hamilton road, returned from Glencoe after attending the funeral of their nephew, Mr. Watterworth, who was killed by lightning Friday.

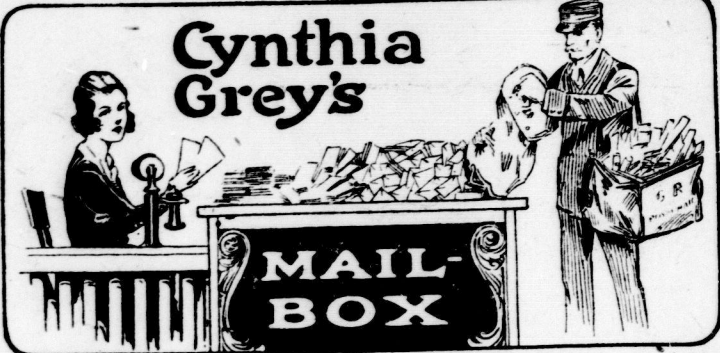

Mr. and Mrs. E. Jones and son Jack, accompanied by Mr. and Miss Sawden, motored from Toronto, and are guests with the former's parents, Mr. and Mrs. John Jones, Horton street.

Daniel Black and son, Donald Stuart, Canada Life Insurance agents at Dutton, are taking the boat trip from Detroit to Cleveland and back to Port Huron. From there they will motor to Detroit.

Lady McLaren Brown has accompanied Mrs. C. E. Neill to Canada, sailing from England Thursday last. Lady McLaren Brown will remain in Montreal with Mrs. Neill until about the middle of September, and will then come to London to visit her sister, Mrs. E. B. Smith.

A jolly party took place on Friday evening at the Nephewin-Gregory, Lake Rosseau, Muskoka. The party included fifteen or more Londoners who are spending their vacation in Muskoka. A wicker roast took place in front of the large grate fires in the reception room, followed by a sing-song, when the rocks around Gregory fairly rang with the echoes.

Mrs. Madge Macbeth of Ottawa has been in Calgary lately on her way to Banff, where she will join some nine or ten women writers, who, with a large party of journalists and authors, will make the trip to Lake Windermere over the new highway in time to attend the Thompson centennial celebration and memorial dedication which will be held there Aug. 30 and 31. Mrs. Macbeth was a visitor in London last year. The guest of her cousin, the Misses Macbeth, Central avenue.

MAIL-BOX RULES.
1. Write on one side of paper only.
2. Sign name and address.
3. Inclose stamped envelope when asking for patterns, recitations, etc.

SUCH NICE LONDONERS.

Dear Miss Grey—Would you please send me Mother of Eight's address, as I have some clothing and shoes I think she can use? It is pitiful the letters you receive asking for help. Do you think you could get away up here to visit our peach farm? They will be on in about a week—that is, the Crawfords. Then our Elberts will be a few days later. We would just love to have you if you could rough it (just eat off oil-cloth and such like, you know how). We live up here in peach-picking time. I would like you to see the celery gardens, too. They look fine. Let us know if you will come.

We have such a lot of nice people from London that come up here for peaches every fall. Q.E.E.

Wouldn't I just love to tuck away all the letters in a drawer, put a sign on my desk: "Will be back in a few days," pack my week-end bag, and come to your farm. But that would never do, would it, Boxes? I can just hear all the scoldings I would get for not answering the letters. But you could write us and tell us all about the farm. That would be the next best thing to visiting it. I have never seen celery.

WITH THE BRIDES
BOWES—MURRAY.

Olive H., elder daughter of Mr. and Mrs. James H. Murray, Ingersoll, Ont., was married to Mr. Wilbur Morton Bowes, B.A., son of Mr. and Mrs. Edwin Bowes, Ingersoll, Saturday afternoon. The ceremony took place at the home of the bride's sister, Mrs. H. E. Bowes, Telfer street, Winnipeg. In the presence of immediate relatives. The bride, who was given in marriage by her father, was becomingly attired in a gown of ivory, embellished with satin and lace, and carried a bouquet of Ophelia roses. Rev. E. F. Church of Port Rouge Methodist Church officiated. After the ceremony a buffet luncheon was served, after which a short honeymoon trip, the bride's going-away costume was of navy velvet with white and sand-colored duvetyne. On their return, Mr. and Mrs. Bowes will reside at the Bell-Rose apartments, Wolsley avenue, Winnipeg.

garden, so that would be a real treat for me. Did you think I would be too fussy to eat off oil-cloth, Q.E.E.? Not I. I would just love to live that way for a few days. It is good of you to offer to help Mother of Eight, when you are in the midst of the busy season. I am mailing you her address, and she will be so pleased to receive the clothes.

FOR WEARY WILLIE.

Dear Cynthia—Here comes another note to the Mail-Box. This is my first, and here's hoping—eh? Well, haven't we had a wonderful summer? I think it is just glorious. I saw in this morning's paper where Weary Willie was asking for help. I have an old robe sweater (in color)—it isn't old—that I am sure would give her a whole winter's wear.

What do you think of my writing? Doesn't it put you in mind of some hen scratching? Inclosed find mite for cat. My, hasn't the fund grown! What do you think of my writing you such a long note? Am mailing sweater. May I call again?

SUNSHINE.

If you haven't already mailed the sweater, please wait until you get Weary Willie's address, and send it to her direct. If you send me a stamped addressed envelope, telling me who you are, I will send her address. It is good of you to give the sweater to her, and she will be more than delighted to receive it. Now, you know we were just writing. You write a very good hand, Sunshine. Certainly you may call again, and just as often as you wish. Many thanks for the generous mite.

WON FIRST PRIZE.

Dear Miss Grey—As I saw in the paper where you wanted my address I thought I would write right away. Would you please send me Buxton address?

I think Calamity Ann's idea is very good, also Tetten's. Don't you? I have a little apron to give away that hasn't been worn much. It would fit a girl about four or five years old, and could be worn as a dress.

I took first prize at the Canadian games for best dressed girl in Highland costume. I cannot send a mite this time, but will send one soon. I remain, A SCOTCH LASSIE.

Thank you for sending in your address so promptly, Scotch Lassie, and in return I am sending you a uskiss. If any of the Boxes would like the little apron Scotch Lassie had so kindly offered, they may have her address from the Mail-Box. Congratulations on your Highland dress. Which plaid do you wear, Lassie?

CHUBBY FINDS IT HOT.

Dear Miss Grey and Boxes— I have read with interest your column, and have now decided to write to your Mail-Box. There certainly are some most interesting letters. Whenever I have

RECEIVED TETTEN'S SONGS.

Dear Miss Grey—I am coming again to tell you I received the songs from Tetten and like them of them. There are many long, interesting letters in the page these days, aren't there? School will soon be starting again. I go to high school. Here is a recipe for Quaker Oats Sweet Bits: One cup sugar, 2 eggs, 2 teaspoons baking powder, 1 tablespoon butter, 1 teaspoon vanilla, 2 1/2 cups Quaker Oats (uncooked). PLUM BLOSSOM.

I guess you are the first to receive songs from Tetten, aren't you? Yes, the letters are quite interesting just now; the hot weather does not seem to make any difference to the enthusiastic Boxes. I will print your riddles later, when there is more space. Thank you for the recipe.

WAS TOO LATE.

Dear Miss Grey—This is the first time I have called to see you. My uncle has taken The Advertiser as long as I remember, so you see I am well acquainted with the Mail-Box. I see where Happy is offering a green heather jersey coat. I will be glad if I can get it. There are a lot like myself who find it hard to get along. Hope I can have someone next time. I am a SNOWDROP. I don't like to disappoint you, but I am afraid the coat offered by Happy is given away by now, as there were numerous requests for it. To obtain the best results, when writing for clothes offered by a Boxite, send in a letter to be forwarded to the person offering the articles. Don't give up hope, watch the Mail-Box closely, and you may see another coat offered.

MISSED HER LAST LETTER.

Dear Miss Grey—This is my second letter to your corner. My other letter was never in print. You certainly have a large family, and newcomers all the time. I'd just love to have a correspondence through your page, about 18 or 19 years old. I dance, skate, and do about everything else. I am a girl 18 too young to have boy friends? What do you think of my writing? Pretty bad, isn't it? Wishing your page every success and hoping some of the Boxes will write to me. I'll answer them. Hope I've not taken someone's penname.

CURLY TOP.

Are you sure, Curly Top, your last letter did not appear some place in the paper, as I remember hearing from you before? As you are so anxious to receive some correspondents I sincerely hope you will not be disappointed.

a few spare minutes I pick the paper up and read the letters. My mamma also finds them very interesting.

This is my first letter to your Mail-Box, and I hope you find it quite satisfactory.

We are having very hot weather lately, aren't we? It seems as if we are going to have our hottest days in August.

I hope, Cynthia, I will be able to do better next time. Anyone who would like to correspond with me can do so. My age is 14 and my name and address are in the Mail-Box. Hoping to see this letter in print, CHUBBY.

TO CAN CORN.

Dear Miss Grey—I wonder if any of the Boxes can give me a recipe for ripe cucumber pickles, also recipe for canning corn, and I wonder if any of them know of anything that would remove liver spots from the skin? I would greatly appreciate any advice given on this trouble. I have not sent in my promised mite to the hospital fund, but it is coming later on. Thanking you, LADY NAPOLEON.

Can corn the same day as picked. Remove husks and silk. Blanch the ears in boiling water 10 minutes. Plunge quickly in cold water. Cut the corn from the cob. Pack solidly in jars. Add 1 level teaspoonful salt to each quart, and sufficient hot water to fill the jars. Place rubber and top in position (cap and tip tin). Sterilize 4 hours in hot water. Remove jars. Tighten covers. Invert to cool and test seal. Wrap jars in paper to prevent bleaching, and store. Here is a sweet pickle recipe: you did not state which kind of cucumber pickle you wished. I will make a strong brine, soak small cucumbers in it two days. Near water three days. Drain and cut in chunks; simmer in weak vinegar two hours (pint of vinegar to a quart and a half of water). Measure pickles before cooking. To one gallon of pickles add: 3 pints vinegar, 4 pounds brown sugar, 2 ounces stick cinnamon, 2 ounces allspice in cloth. Cook up vinegar and pour over pickles; pour off, repeat and pour over again. Do any of the Boxes know of anything to remove liver spots from the skin?

WHO IS HE?

Dear Miss Grey—In answer to one of your Boxes who is Lancashire Lass, could you forward me his address, as I see he is from my home town; and I am sorry I have not received Lone-some for Blighy address as yet. But I can thank you for my Lancashire Lass, and I have written to her. I inclose mite and am pleased to see the fund is going big every week. I remain respectfully yours, M. H.

I have sent you Lancashire Lass's address. I was quite excited when I saw you had the same names, and was thinking maybe I had found a long lost relative. Let us know if he is a relative. Thank you M. H. for the inclosed mite for the hospital fund. Yes, it is growing lately, isn't it?

Developed in the season's latest popular shades, style, quality and workmanship guaranteed. Smith & Lessey, entrance through Brick & Dundas, 188 Dundas—Advt.

AUTUMN MILLINERY.

appointed. No, you are not too young to have boy friends at the age of 18. Your writing is just a little careless, Curly Top. I know by your pen-name that you have curly hair, and you ought to be very thankful, especially if it is bobbed. I am always meeting young girls with bobbed hair, who are wishing for curly locks. There are either complaining that the rain has taken every bit of curl out of their hair, or they have just received a new burn on the ear, or back of the neck.

WANTS TO KILL CRICKETS.

Dear Miss Grey—I am calling on you again, but must not stay long, as I will worry you when you are so busy. It was a young lady and her mother that I am acquainted with, who used to use iodine for getting, and both are much improved, but as getting grows slowly, it takes time to cure. I do not believe L. O. L. has had a mosquito bite lately, or we would hear her yell trouble. What will drive away or kill crickets? How is my writing?

As before, WANDA.

No, L. O. L. has not mentioned her mosquito bites for quite a while now. Maybe she has tried all the remedies offered, and found one of them satisfactory. Usually what will help one person has no effect on another. I know of nothing that will keep crickets away. Don't you like them around? Or have they gotten into your house? A cricket on the hearth is a sign of good luck, you know, although I have heard recently that they eat your clothes. You write a very neat hand, Wanda.

S. F. P. DEMAND GROWS.

Dear Miss Grey—This is my first letter to your Mail-Box. Daddy has taken The Advertiser for nearly eight years. We all enjoy the Mail-Box corner very much. Mamma is a very busy woman, as she has five of us to wash, iron, cook, etc., for. I am 13 and in Senior IV class at school.

ORPHA B.

Now for a little help. We would like very much to get the S. F. P. and am sending shipmaster.

ANS.—The stocking foot pattern is on the way to you, Orpha B., and many thanks for the generous hospital mite.

For the mother must be kept busy taking care of her family. She will find the stocking foot pattern a great help in keeping her little ones in stockings.

T. I. P.—I have forwarded your letter to Happy. I thought it would be more satisfactory. Thank you for remembering our hospital fund with a mite.

WILL EXCHANGE SLIPS.

Dear Miss Grey—This is my second letter to your splendid page, and I feel rather shy, so would you please let me sit beside Calamity Ann? I want to say that I think her idea is a very good one, and here I am ready to speak for one of the cook books as soon as they are published.

Miss Grey, would you please send me Tomboy Taylor's address, as I noticed that she wanted some correspondents. I am going to high school now and

Western Ontario Women's Activities

Address News For This Column to The Editor of Women's Page.

BIRCH WOMEN'S INSTITUTE.

The Birch Women's Institute held their annual garden party at the home of Mr. Jas. Walls, Friday evening, August 25. During the early part of the evening an exciting ball game was staged, between St. John's and Birch, which was won by St. John's. Supper was served on the lawn by the institute ladies, followed by an excellent program. Mr. Kelly, ventriloquist, of Toronto, fascinated and amused the audience. Miss Madeline Roy, girl pianist, of Lambeth, was much appreciated, and her wonderful talent, foreshadowed another coming artist. Miss Donna Jones, also of Lambeth, gave an excellent exhibition of dancing, including the hornpipe, the shawtweeds, and the gypsy dance, all of which were greatly appreciated. The Imperial Orchestra of Birch, provided music during the forepart of the program and intermission. Miss Irene Walls, L.L.C.M., sang "Love Is a Merchant," accompanied by Miss Olive Shaddock of Ilderton. Mr. A. L. Hodgins, M.P., acted as chairman. The proceeds will go toward the fund, which is being raised for the improvement of the local cemeteries.

HOLDS GARDEN PARTY.

A very successful garden party was held Thursday evening last on the lawn of Mr. John Morrison, under the auspices of the Ladies' Aid Society of the Yarmouth Center Methodist Church. A chicken pie supper was served by the ladies in the early part of the evening, during which an excellent program of music was supplied by an orchestra.

Following this, a program was enjoyed, the following artists taking part: Miss Sybil Hignam of London, reader and impersonator, gave several enjoyable numbers. Miss Ida Patrick, music substituted for Miss Ida Patrick, attend. Piano selections by Miss Myrtle Charlton were greatly enjoyed, and Mr. A. Campbell sang a number of delightful solos.

Rev. L. Bartlett acted as chairman, and \$140 was the splendid sum realized.

Mr. and Mrs. Ellis Keenleyside of Vancouver, B. C., and their son, Mr. Hugh Keenleyside, M.A., Ph.D., of Clark University, Mass., are the guests of Mr. and Mrs. P. E. Carmichael, Highlands, Oxford street.

NOTTINGHAM LACE CURTAINS, A PAIR

have passed for the third form.

I wonder if any of the readers of the Mail-Box have any white or pink geranium slips I could get? I have some plants which I would gladly give slips off to anyone wishing them. They are all geraniums.

I will close, wishing the Mail-Box every success. "EDE."

Ans.—There will be quite a few chairs drawn up around Calamity Ann's. I think you take the honors for being the most popular Boxite. Anne, I hope you won't have to get an extra large size for your fall creation. I am mailing you Tomboy Taylor's address. Your name is on file in case it is asked for, re geranium slips.

COMPLEXION.

People who dislike the effects of soap on the skin often find oatmeal.

SURE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads, and that is to dissolve them. To do this get two ounces of peroxide powder from any drug store, sprinkle a little on a hot, wet sponge, rub over the blackheads briskly, wash the parts, and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that find their way into the pores of the skin. Pinching and squeezing only causes irritation, makes large pores, and does not get them out after they become hard. The peroxide powder and water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.—Advt.

The RED HOUSE MYSTERY

by A. A. MILNE

"The announcement at breakfast went well. After the golfing party had gone off, we had the morning in which to complete our arrangements. What I was chiefly concerned about was to establish as completely as possible the identity of Robert. For this reason I suggested to Mark that, when dressed, he should go out by the secret passage to the bowling green, and come back by the drive, taking care to enter into conversation with the lodge-keeper.

"In this way I would have two more witnesses of Robert's arrival—the lodge-keeper, and secondly one of the gardeners whom I would have working on the front lawn. Mark, of course, was willing enough. He could practice his Australian accent on the lodge-keeper. It was really amusing to see how readily he fell into every suggestion which I made. Never was a killing more carefully planned by its victim.

"He changed into Robert's clothes in the office bedroom. This was the safest way—for both of us. When he was ready, he called me in, and I inspected him. It was extraordinary how well he looked the part. I suppose that the signs of his dissipation had already marked themselves on his face, but had been concealed hitherto by his mustache and beard; for now that he was clean-shaven they lay open to the world, from which we had so carefully hidden them, and he was indeed the wretched which he was pretending to be.

"Wonderful! I said to myself. 'Nobody could possibly guess.'

"I peered into the hall. It was empty. He hurried across to the library; he got into the passage and made off. I went back to the bedroom, collected all his discarded clothes, did them up in a bundle and returned with them to the passage. Then I sat down in the hall and waited.

"You heard the evidence of Stevens, the maid. As soon as she

keys—yes, that was clever of you, but I think I was cleverer.

"I deceived you over the keys, Mr. Gillingham, as I learnt when I took the liberty of listening to a conversation on the bowling green between you and your friend Beverley. Where was I? Ah, you must have a look for that secret passage, Mr. Gillingham.

"But what am I saying? Did I deceive you at all? You have found out the secret—that Robert was Mark—and that is all that matters. How have you found out? I shall never know now. Where did I go wrong? Perhaps you have been deceiving me about the keys, about the window, even about the secret passage. You are a clever man, Mr. Gillingham.

"I had Mark's clothes on my hands. I might have left them in the passage, but the secret of the passage was now out. Miss Norris knew it. That was the weak point of my plan, perhaps, that Miss Norris had to know it. So I hid them in the pond, the inspector having obligingly dragged it for me first. A couple of keys joined them, but I kept the revolver. Fortunately, wasn't it, Mr. Gillingham?

"Goodby, Mr. Gillingham. I'm sorry that your stay with us was not of a pleasant nature, but you understand the difficulties in which I was placed. Don't let Bill think too badly of me. He is a good fellow; look after him. He will be surprised. The young are always surprised. And thank you for letting me end my own way. I expect you did sympathize a little, you know. We might have been friends in another world—you and I, and I and she. Tell her what you like. Everything or nothing. You will know what is best. Goodby, Mr. Gillingham.

"I TOOK OUT MY REVOLVER AND SHOT HIM."

a murder could be intended without any more preparation than the changing into a different suit in which to escape. The thing was too childish. Also, if Robert was to be murdered, why go out of the way to announce his existence to you all? I began to feel now that Robert was an innocent only; that the plot was a plot of Cayley's against Mark—either to get him to kill his brother, or to get his brother to kill him—and that for some inexplicable reason

Modish Ruffled Dance Frocks

SEVEN layers—count them—seven! And more than that, if you want them. The ruffled dance frock—never entirely out of fashion for girls and young women—has billowed into popularity once more.

The newest dance frocks are shown in several shades of green which are

expected to be fashionable all winter. Other new colors are mimosa, tiffin, wallflower and tangerine. Nickel gray is still another coming favorite. The many-flounced dance frocks are shown chiefly in chiffon and are usually very simply made. The model sketched shows a new sleeve that is graceful and becoming.

Radio Radiations

BY THE RADIO EDITOR.

THE first toll broadcasting station has been opened in New York. Its antenna stretches atop a skyscraper in the lower part of the city. Its call number is WBAY.

The opening of this station by the American Telephone and Telegraph Company was looked forward to for a long time. It was expected that the company would make some announcement of its policy of toll broadcasting. But all it issued was a statement of generalities.

However, it has been gratifying to radio listeners to hear the quality of tone reproduction of this and similar stations constructed by the Western Electric Company. Stations of this type are now in use in Detroit, Boston and Newark, N. J. Many more are scheduled for installation all over the country.

More to Come.

According to the original plan of the telephone company, WBAY is to be the first of 12 or 15 toll broadcasting stations to be erected in various parts of the country. These are to be followed by 100 or more additional centers if the first group proves successful.

The installation of these stations has been held up pending legislation at Washington which would permit the operation of the toll broadcasting sets on a band of wave lengths different from those now used by private broadcasting stations.

Should the plans of the telephone company work out, the country will

be assured of a first-class chain of broadcasting stations. At first, the company will supply the programs. But after the stations have been in operation for a few weeks, they will be opened for use to any advertiser providing high-grade entertainment for the public.

High-Grade Talent.

Only strictly high-grade entertainment will be acceptable to the telephone company. The name of the advertiser, in all probability, will merely be announced as the benefactor. It is expected that the rate charged will be \$50 for a 15-minute period at any one broadcasting station.

Service of this character will also be open to national advertisers. At the hours when most broadcasting is done, a great number of long distance telephone lines are idle. These will become available at a low rate for the interconnection of two or more broadcasting stations. Thus, through the offices of the national advertiser, an artist of national repute may perform at a given hour for several million listeners.

RADIO PRIMER.

HARMONICS—Waves having frequencies which are multiples of the fundamental frequency of a circuit. The result is the transmission not only of the predetermined wave length, but of others related to it. This often causes interference, especially on shorter wave lengths and at nearby receiving stations.

THE RACE DOWN THE MOUNTAIN SIDE WAS THRILLING TO WATCH. HE HAD NEVER TRAVELED SO FAST. FLIP SEEMED STARTLED TOO, AS HE RACED ALONG BEHIND THE FAST RUNNING HORSES.

ARRIVING AT THE DUGOUT THE AREA ALL DISMOUNTED AND HID THEIR HORSES BEHIND THE TREES. THEN THEY ALL HURRIED OUT OF SIGHT THEMSELVES. JACK SEES THE STRANGE HORSEMEN IN THE NEXT CHAPTER.

between the first and second lodges. Robert, then, had been in the house; it was a put-up job between Robert and Cayley. But how could Robert be there without Mark knowing? Obviously, Mark knew too. What did it all mean?

"When was this?" interrupted Bill. "Just after the inquest—after you'd seen Amos and Parsons, of course?"

"Yes, I got up and left them, and came to look for you. I'd got back to the clothes then. Why did Mark change his clothes so secretly? Disguise? But then what about his face? That was much more important than clothes. His face, his beard—he'd have to shave off his beard—and then—oh, idiot! I saw you looking at that poster. Mark acting, Mark made-up, Mark disguised. Oh, priceless idiot! Mark was Robert... Matches, please."

"Yes," said Bill thoughtfully. "Yes... But wait a moment. What about the 'Plot and Horses'?"

Antony looked comically at him. "You'll never forgive me, Bill," he said.

"What do you mean?" Antony sighed.

"It was a fake, Watson. I wanted you out of the way. I wanted to be alone. So," he smiled and added, "Well, I knew you wanted a drink."

THE END.

SHORTBREADS

$\frac{1}{2}$ cup butter $\frac{1}{4}$ cup brown sugar
1 $\frac{1}{2}$ cups flour

WORK butter and brown sugar together until creamy. Then work in flour gradually until all is used.

Put on a slightly floured board and work until smooth and easy to roll out. Roll to one-half-inch thickness and cut with a small cutter and place a nut meat in the center of each round.

Bake in a very moderate oven until slightly colored. This will take about one-half hour. Or this mixture may be rolled out to a quarter-inch in thickness, cut in rounds and put together in pairs with jam between.

Bake as before in a moderate oven for 35 minutes. If a hole be cut in the top piece the jam will show through and make a prettier cake.

BASEBALL AND GOLF SPORTING NEWS

REIS ALLOWS PACK BUT THREE HITS, WINNING 8-1

Red Collins Nicked For Thirteen Hits in Painful Clusters in First Game of Series.

EDDIE REIS pitched superb ball against the Wolves yesterday, allowing them but three hits, and whiffing nine Knollmen during the process of ironing out an 8-1 victory.

If Red Collins was saved to send in against the Tees he would have been a hot dog too long, for the Tees pounded him for a hoodoo total of thirteen knocks in painful clusters, and kept him in doubt very long as to what his afternoon was to be, as they nicked him for two runs to start off with, singles by Stimpson and Butler, Malmquest's sacrifice and Schaefer's single past third base turning the trick.

Collins wanted Gadsby to start the second, and Boyle crashed one past Simon and crippled Cliff Hegedorn on the left. Richardson sent down a sacrificial choice, but Gadsby was at third ahead of the ball and the run-wayers creaked with the lead. At this interesting juncture Eddie Reis shut-down at Bill Whaley almost on the line between first and second. Gadsby dashed home with the crack of the bat, and the converted Wolf outfielder with zest entered into a game of tag with Richardson Buck Boyle slipped round third home on the unsuspecting Bill.

On the Other Side.

Meanwhile, on the other side of the page, every Wolf batter had the customers' thumbs up. The first to break the spell was the first to break the spell. Reis had cast over his pay roll, and he smote a single hard by centre in the fifth. This caused as much jubilation among the Wolves as a winning streak of ten.

WAIT A MINUTE, EDDIE!

Victories would create in Boston at either park. Simon got in the road of an under-sea shot, and this made it look like quite a crowd of Wolves on the bags. Reis herewith thought the thing had gone quite far enough, and struck out two and made Tate pop up.

They did get a counter in the sixth, a pointed, brief proceeding. Collins had no sooner walked than Hegedorn hobbled out and smacked a double into centre field. Again Malmquest whiffed one and popped out the last two. Simon got the third Wolf hit, a single to middle in the seventh, but only three more Wolves saw the plate that frame.

Loitering On Runways.

In these intervening frames there had always been a couple of Tees loitering around the bases and making trouble for Collins, but in the seventh he couldn't get the lid on. With two gone and Butler who had singled hotly through the box on first, Schaefer was dead-headed. Churry, who had struck out twice, looked like a good prospect, but he wasn't. Mister Knoll's area. The portly Wolf manager had no sooner got set and his breath back when Gadsby increased the voltage and tripped. Knoll turning around with glove-shaded eye as he ran to follow the course of the ball in the tall grass. This was three runs, and Gadsby came in when Wire booted Boyle's bounce. Boyle stole second and Richardson walked, but Reis made the third out by whiffing.

Stimpson and Butler both singled to start the eighth, both ending up on third and second, on two perfect throws from the outfield to third and then back to second. They succumbed there, as Malmquest grounded out. Schaefer struck out and Churry was a groundout.

Knoll drew a walk to start the ninth, but it only prolonged the game. Gadsby, as Simon struck out, Wire flied out and Knoll was caught at second on Tate's choice.

The score:

Bay City	A.B.R.H.P.O.A.E.
Hegedorn, s.s.	3 0 0 0 0 0
Harris, r.f.	4 0 0 0 0 0
Whaley, 2b.	4 0 0 0 0 0
Knoll, c.	4 0 0 0 0 0
Simon, 3b.	3 0 0 0 0 0
Wire, lb.	4 0 0 0 0 0
Tate, i.f.	4 0 0 0 0 0
Gadsby, s.	4 0 0 0 0 0
Collins, p.	2 1 0 0 0 0
Totals	32 8 0 13 27 3 0

Score by innings: R.H.E.
Bay City 000 001 000-1 3 2
London 220 000 40x-8 13 0

Summary.

Two-base hits—Malmquest, Hegedorn, Churry.
Three-base hit—Gadsby.
Sacrifice hits—Malmquest, Richardson.
Stolen base—Boyle.
Double play—Hegedorn to Whaley to Wire.
Hit by pitcher—By Reis (Simon).
First base on error—London.
Left on bases—Bay City 5, London 9.
Bases on balls—Off Reis 3, off Collins 6.
Struck out—By Reis 9, by Collins 8.
Time—1:45.
Umpire—L. Fyfe.

ANOTHER 'PEG' SPRINTER BREAKS TRACK RECORD

WINNIPEG, Aug. 28.—Laurie Armstrong of the North End Club, who chased Cyril Coiffe as close as his record-breaking century at Calgary recently, set up a new Canadian record and equalled the world's mark for the 50-yard dash at the police sports here Saturday afternoon. He covered the distance in the remarkable time of 3.2 seconds. He also equalled the Dominion record of 3.5 seconds for the 100-yard sprint. The two races were put on specially for the local crack to go after the short distance records.

Cyril Coiffe, who has decided to accept the invitation to run at the Toronto exhibition, was unplaced in the handicap events, but was clocked in the 100 yards at 4.5 seconds.

Likes His Work

TOM PHILLIPS.

It isn't so much to win the spectators' plaudits that big Tom Phillips of the Washington Americans' pitching staff plays ball for all he's worth. It's rather from pride in excelling in a sport which he loves for itself.

WALLACEBURG IS PEEVED AT O.A.L.A.

Decision Favoring Tilbury Protest Means Withdrawal of Teams.

WALLACEBURG, Aug. 28.—The Wallaceburg Amateur Athletic Association have today received notification from the Ontario Amateur Lacrosse Association to the effect that the decision of the executive regarding the junior lacrosse game, Tilbury vs. Wallaceburg, played on July 1, cannot be changed.

This decision was protested by Tilbury on the ground that Wallaceburg had not in their possession the necessary certificates. This fact was not noted by Wallaceburg owing to the fact that the affidavits of birth, which had been duly completed and forwarded by mail, were lost in the mail, and a very strong point in favor of Wallaceburg, which does not appear to have been taken into consideration by the executive when they were asked to reconsider their decision, is that when the second lot of affidavits were forthcoming and necessary certificates were forwarded to Wallaceburg, it was found that such certificates covered every man who played in the protested Tilbury game, and they were all eligible to play junior lacrosse.

This final decision of the executive has caused somewhat of a sensation in the sporting circle in this town, and the feeling is very strong that owing to the extenuating circumstances pertaining to this case, Wallaceburg should have been allowed to replay this game with Tilbury. It is also understood that the majority of the Tilbury team were not at all in favor of protesting the game and were willing to allow Wallaceburg to go into the semi-final.

To the juniors this comes as a very hard blow, as they have since the Tilbury game (when Wallaceburg won 12-1) carried everything before them and their enthusiasm was running very high.

It is almost certain that Wallaceburg will immediately pull both their teams, intermediate and junior, out of the Ontario Lacrosse Association, which will in all probability result in at least three other teams following suit in this group, as the general feeling of these teams is very much in favor of Wallaceburg over the drastic measures which have been suggested to them.

Such action as this by the association will do more harm than good to the interests of sport and it can be safely said that during the past season in this town lacrosse has led the way, and no other town can claim bigger gate receipts for home games, which have at all times passed well over the three-figure mark.

AMERICAN ASSOCIATION.

Minneapolis 4, Milwaukee 5.
Indianapolis 6, Louisville 5.
St. Paul 5, Kansas City 4.
Only three games scheduled.

GENIE ANGRY.

WEINICKE BLANKS FLINT VEHICS 3-0

Hams Maintain Margin With Easy-Going Flinters.

HAMILTON, Aug. 28.—Walks to Dugray and Graef Weinicke's sacrifice, a single by Stutz and Hunter's double in the third inning gave Hamilton three runs and a 3-0 verdict over Flint this afternoon. Weinicke and Scheiberg indulged in a pitching duel which the Hamilton pitcher deserved to win. He struck out ten, passed two and allowed three scattered hits. Scheiberg was also stingy with hits, permitting only four, but his wildness was costly. He passed seven. Stutz's fielding and Hunter's hitting were the features.

The score:

Hamilton	A.B.R.H.P.O.A.E.
Gray, 2b.	2 1 0 1 0 0

SAINTS TAKE BOTH.

BRANTFORD, Aug. 28.—Port Huron took both games of a double-header with the Saints here today. Timely hits, including homers by Brown, Ghoulait and Ashley, won the first game for the visitors. The second was a classy pitcher's battle between Winters and Hixenbaugh, and the hits were few. It was a clean cut game up to the sixth, Prysock being called out when run down at the plate in an effort to tie the score.

BASEBALL RESULTS

Experience of Scotch Italian Counted Heavily.

NEW YORK, Aug. 28.—Johnny Dundee, veteran Italian pugilist, successfully defended his "world junior light weight title" tonight, receiving the judges' decision after a 15-round contest with Vincent "Pepper" Martin of Brooklyn.

Martin was a willing fighter, but was no match for Dundee's experience. Dundee was fast, and he attacked the Bay City man's head and body as he sagged. The first blow in the round, a sharp left to Dundee, sent Martin to his haunches. When he came up, Dundee started a right and left handed attack to his head and body. It was Dundee's favorite method of attack throughout all of the rounds, Martin caught Dundee on the chin with a wild swing now, and then the Italian always returned these blows and immediately put the knockout in danger.

The whole contest was nothing more than a boxing lesson for Martin. Dundee was never in danger. Dundee entertained the crowd in the early rounds with his famous habit of bounding off the ropes and coming at his opponent with head down and full of fight. Invariably these tactics fooled Martin and he responded to punching exchanges in which he was worsted.

Martin weighed 130 pounds, and Dundee 124½.

YOUNG'S BIRD WINS CLOSE RACE FROM STONEY POINT

Winner of Flight From Windsor receives Ross McKay Trophy.

SHOCKER LOSES 11-INNING STRUGGLE

Shawkey Is 2-1 Victor and Yanks Win Three.

NEW YORK, Aug. 28.—New York Americans increased their lead over St. Louis to a game and a half today, defeating the Browns in a thrilling 11-inning pitching battle 2-1. The victory gave the Yankees winning games out of the four-game series.

Shocker, who won the first game of the series, found a stubborn opponent in Bob Shawkey, who pitched one of the best games of his career and finally triumphed over his former rival from St. Louis.

The score:

R.H.E.
St. Louis 000 010 000-1 4 0
New York 010 000 001-2 8 0

Shocker and Severed, Shawkey and Schang.

SOX SPLIT TWIN.

PHILADELPHIA, Aug. 28.—Chicago and Philadelphia split even in a double-header today, the Sox winning the first game 5 to 3, but dropping the second 7 to 2.

The wins were won by Hasty, which sent two runs across the plate and placed another runner on third, enabled the White Sox to win the opener. The home team, led by Schaefer and Miller, the latter's 17th, and a double by McGowan, accounted for all the local runs in the second contest. The score:

First game: R.H.E.
Chicago 100 031 000-5 11 0
Philadelphia 023 002 000-3 11 0

Second game: R.H.E.
Chicago 100 000 000-2 11 2
Philadelphia 023 002 000-7 11 0

WILSON TAKES STAND IN HIS OWN DEFENSE

Former London Pastor Claims Fellow-Prisoner, Herbert Cox, Committed Suicide.

HEARD HIM CRY FOR AIR

Claims He Was Stooping Over To Loosen Collar When Officers Appeared.

LOS ANGELES, Calif., Aug. 28.—Herbert Wilson, former London, Ont., minister and alleged mail bandit, today took the stand in Judge John Perry Woods' court and attempted by his own testimony to absolve himself of the charge of slaying Herbert Cox, upon which he is now on trial before a jury.

The accused man admitted that together with Eddie O'Brien and Cox, he attempted to escape from the county jail on April 9 last. In graphic detail he recounted the events which occurred on the "bridge of sighs" and presented in his own behalf the theory of Cox's suicide.

Says Cox Was Leader. Wilson said that Cox, not himself, was in reality the leader of the attempted jail break. When the three gained the "bridge of sighs," he asserted, he was sent by Cox to the platform below as "look-out."

He remained there, according to his story, until O'Brien and Cox had sawed through two bars and the jail screen between themselves and freedom.

Then he helped to boost O'Brien through the aperture, thus made, but himself remained on the bridge. Then, he declared, he heard two shots from the courtroom, which told him that the escape had been discovered. He said that he remained where he was, but that Cox ran to the platform below and then there was heard a third shot.

This shot, he contends, was the suicide of Cox. Wilson himself then descending, he says that he stepped over Cox's body and hearing him cry for air, stopped to loosen his collar. It was in this attitude that deputy sheriffs saw him and by his explanation Wilson hopes to controvert their testimony that he was trying to throttle Cox.

At this time, Wilson went on, he was penned upon the bridge by the deputies, who came from the courtroom on one side and the jail on the other. His recapture and that of O'Brien followed, and Cox was removed downstairs into the jail, where he died a few minutes later.

TRADE PACT WITH BELGIUM PLANNED

BRUSSELS, Aug. 28.—Negotiations for an economic agreement between Belgium and Canada are expected to open here in the near future, it was said today.

CANADIAN EXPORTS OF PULP AND PAPER DROP

MONTREAL, Aug. 28.—Canadian exports of pulp and paper in July showed a decline from the previous month's figures, the total value of the exports being \$9,738,352, compared with \$10,534,876 in June. Exports in July of this year, however, were greater than in July, 1921, when the value was \$8,666,556.

Exports of pulpwood in July were 90,965 cords, valued at \$946,946, compared with 75,897 cords in June, valued at \$815,155.

For the first four months of the current fiscal year there is a considerable increase in the value of pulp and paper exports over the like period of 1921, the total value for 1922 being \$35,286,317, compared with \$30,331,249 in 1921.

LAST WEDNESDAY HALF-HOLIDAY SALES TOMORROW

The significance of this announcement will be appreciated by those who have profited by these morning sales during the summer months. Every department manager in this store knows that this is their last opportunity of the season for price-slashing for these weekly events, and their final efforts will be appreciated by thrifty buyers after a perusal of the sales listed below. Plan to spend the whole forenoon in this store tomorrow. The aisles should be filled at the opening hour.

We close at 1 P.M. on Wednesday

Half Holiday Wednesday

Tomorrow will be the last summer half-holiday for this year. The conclusion of our Wednesday morning sales and many season end offerings will be found in different sections not listed here.

32-Inch Gingham, 27c

This is truly the best opportunity in Gingham we have seen this season, and a staple fabric such as Gingham is always in demand, always useful for house wear and children. There is about a thousand yards, and all good wanted patterns, made by a good British maker; the popular checks of blue, pink, mauve, fawn, etc.; also a lovely plain Chambray to make up with them; colors are shades of blue, green, mauve and brown. Don't miss the Gingham sale. Many have been looking for just such an offer. See window display; 32-inch... 27c yard

ITALY ALARMED AT JUGO-SLAVS MOVE

Concentration Along Austrian Frontier Is Creating Anxiety.

ROME, Aug. 28.—The concentration of Jugo-Slav troops along the Austrian frontier is causing serious anxiety to the Italian government, which is determined to prevent the reoccupation of the Klagenfurt basin.

Foreign Minister Schanzer clearly stated in the recent conference of premiers in London that Italy had the full support of the Austrian government in this situation. In fact, the

HEMORRHOIDS

Declares Canadians Must Choose Between Real Fidelity and Free Love

MONTREAL, Aug. 28.—Strong warning against making divorce easy in Canada was uttered by Rev. Byron Stauffer of Toronto, in preaching in St. James' Methodist Church yesterday, the attitude of the preacher being that divorce should be granted for one reason only, and that the lead given by the United States in dissolving married couples for incompatibility of temper and minor differences between married couples must end ultimately in the destruction of society upon its present basis.

In part Mr. Stauffer said: "The people say we want reform in

foreign minister expressed a desire that if the situation should require it, the Italian army be permitted to intervene in Austria for the maintenance of order. France proposed intervention by international gendarmerie. Great Britain did not interest herself in the question.

No decision having been reached at London, a conference of the Italian ministers has been called for Tuesday to discuss in what proportion Italy might intervene militarily in

BELIEVE LONDON YOUTHS RESPONSIBLE FOR THEFTS

Special to London Advertiser. ST. THOMAS, Aug. 28.—The arrest of Lewis Roberts, 15 years old, and the issuing of a warrant for his elder brother George both of London, will, the authorities believe, end the epidemic of thieving which has been giving trouble at Port Stanley this summer.

Several times during the last few months reports have been received of clothing and valuables being stolen from the L. and P. S. bath-

house. Inquiries were made by Chief William Hammersley of the company, and although he had very little information to assist him, he succeeded in catching the accused with \$34.39 and a gold watch, which it is alleged, have been identified by W. J. Charles of London.
