## 

## THE COURSE OF STTUDY.

This is extensive, systematic and thorough. For the purpose of securing the advantages of method and regularity, and at the same time accommodating different Classes of Students, there are Three Courses of Instruction.

## prinamy course.

Thic First, or Primary Course, includes

| Geography, | Parsing, |
| :--- | ---: |
| English Grammar, | History, | Arithmetic,

History,
First Lessons in Composition and Penmanship.

## IITERART AND SCIENTYIFIC COURSE.

The Sccond, or Literary and Scientific Course, includes Algebra,

Geometry,
Trigonometry, Plane and Spherical, Mensuration of Superfices and Solids, Mensuration of Heights and Distances, Rhetoric,
Logic,
Moral Philosophy,
Intellectual Philosophy,

Political Economy, Evidences of Christianity, Natural History, Natural Philosophy, Chemistry, Geology, Mineralogy, Astronomy, \&c. \&c.

The Third, or Classical Course, includes in addition to all the Studies of the First and Second Courses,
Latin Grammar and Exercises,

Latin Reader, Cæsar, or Sallust, Virgil's Eneid and Bucolics, Cicero's Select Orations, Horace, Cicero de Oratore, Liry, and Tacitus,

Greek Lessons,
Greek Grammar and Exercises, Jacob's Greek Reader, Greek Tostament, Homer's Iliad, Greca Majora, Eschines and Demosthenes De Corona, sc. \&ec.

Roman and Grecian Antiquities and History, Ancient Geography, \&c. \&e.

## GENERAL EXERCISES.

Public Declamation from all the Students once in two weeks.
Composition " ". " " " A portion of every Sunday is devoted to the united Study of the Sacred Scriptures under the direction of the Chaplain.

## TERMS, VACATHONS, \&c.

The Academical Year will commence on the last Thursday in June, and will be divided into Three Terms. The First to be Thirteen Weeks in length; the Second and Third, Fifteen Weeks each.

## FACATIONS.

Two Weeks between the First and Second Terms; One Week between the Second and Third Terms; and Sis Weeks succeeding the Third Term.

Examinations at the close of each Term. The Annual Poblic Examination at the close of the Third Term,

## BXPENSES.

For Board, Washing, Fuel, Lights, \&cc., and Tuition in the
Primary Department-For First Term, - . . $\quad$ £7 10 0

Or-For the Academical Year,
Additional Charges will be made for Tuition in the higher
Departments, but the expense for Board, \&c. and Tuition, $£ 30$ per annum. will in no case exceed
Ten Shillings per week will be charged to those who remain during the Vacations,
Cor The amount of the ordinary expenses for the Term must be paid in advance.

Each Pupil should bring with him-Not less than three suits of clothes eight day and three night shirts; six pair of stockings; two or three pair of shoes ; two hats or caps ; also, a cloak or over coat ; an umbrella, combs and brushes; and a Bible, with marginal references.

Parents are particularly requested to sind every article marked with the namb of the Pupil in full.

## REMARES,

All who design to become Students in this Institution should enter, if at all possible, at the commencement of a Term, as the regular Classes are then organized; pupils, however, will be received at any time.
The only pre-requisites for admission to the Primary Department are a good moral character, ability to read and spell, and age sufficient to enable the Pupil to prepare regularly for recitation,

The time which will be occupied in either Course will depend upon the capacity and industry of the Student.

Classes will be formed at the commencement of each Term, in such studies as may be required in each Course.
Certificates will be given at the close of each Academical Year to such Students as may have passed satisfactory examir nations in all the studies of either course.
Persons who may not wish to pursue either course regularly, will be allowed to enter any of the classes in order for which they are qualified.

Whenever it may be requested by a sufficient number of Students, classes will be instructed in French, Book-Keeping, Land Surveying, Navigation, Analytical Geometry, Calculus, \&c. \&c.

The Institution will be furnished as soon as possible with Maps, Globes, Astronomical and Philosophical Apparatus, scc. \&c.

Lectures will be delivered upon the different branches of Natural Science, \&c.

Every effort will be made to secure cheerfal diligence in application to study. The object will be not only to instruct, but to educate; not only to impart useful knowledge, but to fix cood habits. No reasonable exertions will be spared in
giving a thorough and symmetrical training to all the mental and moral powers, and in avoiding the too common error of cultivating the intellect at the expense of the heart. The course of training will be directed, as far as possible, to the formation of an intelligent, efficient, and manly character, suited to the duties and responsibilities of active life.

Every reasonable precaution will be used to preserve a healthy state of moral feeling. It is determined that no one shall continue in the Academy whose character and habits are found to exert an influence unfavourable to good morals or good order.
The government will be strictly parental. The Governor and Principal will reside in the same Building with the Students. Daily records of scholarship and conduct will be made with great care.

Parents and Guardians are earnestly adoisec that lads should be furnished very sparingly, if at all, with spending money. Money sufficient to meet incidental expenses may be lodged with the Governor and Chaplain of the Institution, or with some other responsible person.
Sackvile is a retired country village, pleasant and healthy, and easy of access from all parts of the Lower Provinces.

The Academical Building is elegant, spacious, and comfortable, and delightfully situated.
