W.C.T.U. CONVENTION

The 17th annual convention of the Leeds County W.C.T.U. was held in Brockville on Tuesday and Wednesday of last week. Very encouraging reports were presented.

Respecting the very important work being carried on by the Union among lumbermen, the figures contained in the report presented by Mrs. V. L. Mackie are interesting. Gananogue Union gave \$12, a large box of literature, four comfort bags; Brockville W's \$10, eight comfort bags, and a large assortment of books and magazines; Brockville Y's \$12 and four comfort bags; Athens W's \$6 and six comfort bags; Lak's Elodia Yeoman's Fund, \$5, making a total of \$45 and 22 comfort bags donated the past year.

The corresponding secretary, Mrs. C. C. Slack, reported that Leeds County has four W's, two Y's and a Yeoman's Band, the number of members 123 and 11 honorary members. Total amount of money raised during the year, \$509.98.

The attention that "conscienceless politicians" have been found to give to the question of prohibition is viewed with satisfaction by friends of the movement, and the following statistics given at this convention clearly show the strength of temperance sentiment throughout the whole Dominion:—

Ontario has 756 municipalities; 141 of these have practical prohibition, there being local option in 17 townships and villages, the Dunkin Act in 3, and 121 others without a license. There are in Ontario now 438 municipalities that have but one or not more than two licenses. This means that of our 756 municipalities only 177 have above two licenses.

Prince Edward is under total prohibition.

Quebec—More than two-thirds of the municipalities under prohibition through the refusal of commissioners to grant licenses.

Manitoba—Three-fourths of the municipalities without licenses.

New Brunswick—Nine out of 14 counties, including the cities of Fredericton and Moncton, under Scott Act.

Nova Scotia—Twelve counties under Scott Act, four counties without a license owing to strong temperance sentiment.

The following officers and superintendents of departments were elected: President—Mrs. William Johnston, Athens.

1st Vice President—Mrs. B. O. Britton, Gananogue.

2nd Vice President—Mrs. M. Dowaley, Brockville.

Rec. Sec.—Miss G. Coad, Brockville.

Cor. Sec.—Mrs. C. C. Slack, Athens.

Treas.—Miss Findley, Lansdowne.

THE TOWN HALL

A joint meeting of the township and village councils was held on Tuesday evening to consider a proposal made by the village with respect to converting the hall owned by the township into a building suitable for all public assemblies, which would be used by both municipalities. The mutual advantage that such an arrangement would confer was discussed at some length. Councillors Bresee and Cowan were disposed to favor the proposition, subject to its endorsement by the people of the township, but the yeve and Councillors Hayes and Joynt expressed a preference for selling out entirely to the village, or selling with a reservation of a council chamber and part of the land. Thus the matter rested when the village council withdrew. The township council then further considered the matter, but no action was taken.

SHOOTING ACCIDENT

Since the shooting season opened the daily papers have been filled with accounts of fatal accidents that have occurred in the woods and on the lakes. One of these dreadful occurrences took place on the St. Lawrence last Wednesday afternoon, by which Lewis Darling, aged thirteen, eldest son of Mr. Sandford Darling, lost his life. Father and son left their home, about three miles north of Lyn, to spend the day on the river in quest of ducks. Late in the day two were seen quite close to the shore, and when the father was raising his gun it was accidentally discharged. The whole load entered the son's side, killing him instantly.

The body was conveyed home and the coroner investigated the sad occurrence, but deemed an inquest unnecessary. The funeral took place on Friday; interment in the Lyn cemetery.

WILSON-DAVIS

On Wednesday last Rev. Rural Dean Wright united in matrimonial bonds Mr. William Wilson, of Ottawa, and Miss Edith Davis, a highly esteemed young lady, daughter of Mr. Henry Davis, of Yonge. They were attended by Mr. Albert Davis, brother of the bride, and Miss Lydia Baker, of Bellamy's.

A Remarkable Record

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many millions of bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by J. P. Lamb & Son.

THIS ORIGINAL DOCUMENT ENTITLED TO VERIFICATION

WHAT THE WAR TAUGHT TWO GREAT SOLDIERS

Among the masses of evidence on the tactical developments brought about by the magazine rifle and smokeless powder, the following extract from the evidence of Lord Roberts before the Royal Commission is worth quoting as a pithy summary of the Commander-in-Chief's views: Generally speaking, as a result of your very great experience from the war, have you any particular suggestions to make with regard to any branch of the service, as to improvement in organization for war or for preparation for war?

Other advance. Half a dozen private soldiers may find themselves at this spot. If they possess sufficient training to recognize the possibilities of their position, together with sufficient new discipline, initiative and enthusiasm to take advantage of it, they will creep on. They will be followed by others, and if, as a result, the enemy's line is penetrated, even by a few men, the power of their modern armament will make their flanking fire so demoralizing and effective that the position will either be abandoned forthwith, or so much attention will be concentrated on the intruders that an assault may become practicable all along the line. Seize Every Chance. It will be evident that to do this the mind of each man must be imbued with a firm conviction that the other men of his own rank, whom he does not see, and who may be anywhere within the next few miles, are also doing the same and trying to seize hold of every opportunity; in other words, active discipline on the higher plane really consists in an unalterable confidence that it also exists in others, and that the individual is not risking his life for nothing. All this means added impetus, training, and to esprit de corps.

NO MORE LANCES.

We are also, I hope, going to do away with the lance for service. It is a most inconvenient weapon when men are dismounted, and it is much in the way when they are scouting. As regards the infantry, our aim must be to encourage individuality amongst the men, and to make the company and section commanders understand that they must depend more upon themselves than has hitherto been necessary, because the moment a battalion now gets into action the companies are greatly spread out and the commander loses all control over them.

WAS INCURABLE BUT IS CURED

Joseph Boone at Work Again After Seven Years' Illness

Discharged from the Hospital as incurable, he Used Dodd's Kidney Pills with Splendid Results.

Cottle's Cove, New Bay, Nfld., Oct. 19.—(Special).—After being for seven years a hopeless invalid, unable to work, and racked by aches and pains, Joseph Boone, of this place, is back at his old work as a fisherman. It sounds like a miracle, but it is not—It was Kidney Disease was the matter with him. Dodd's Kidney Pills cured him.

It is something worth relating what Dodd's Kidney Pills have done for me, says Mr. Boone, "and I am glad to tell it. I had doctored with several doctors, and after seven months in the hospital was sent home as incurable.

Richard Quirk, who had been cured by Dodd's Kidney Pills, advised me to try them, and I did. I had doctored with several doctors, and after seven months in the hospital was sent home as incurable.

THE ANGRY TREE.

There is a kind of acacia tree in Nevada that not only is as "touchy" as the sensitive plant, but as a gardener put it, "goes very mad." It is about 8 feet tall and is a very rapid grower. When the sun sets it is ready to go to sleep, and shuts its leaves together and coils the ends of its twigs just like a pig's tail. If any one pulls that tail-well, the tree doesn't squeal, but it flutters and moves uneasily and seems to be deeply agitated.

INTELLIGENCE FIRST.

Dispersion, concealment and intelligent use of the ground are also essential to success in either the attack or defense, and this demands a high standard of individuality. There is a timid school of theorists who are eager to explain that the defense is more likely to be successful than the attack. If attacks are now on the continent of Europe, or as they were until recently in our own army, then this is undoubtedly true, but to my idea, under skilful leading, the attack has rather gained than lost by the new conditions.

When Leo Thirteenth Wept.

One of the Guardia Nobile (the Pope's noble guard) told me that in the year 1889 he was on duty in the Pope's antechamber the night after the dedication of the statue of Giordano Bruno—a renegade Dominican, or a great reformer, according to your politics—on the very spot where in 1600 he was burned at the stake for heresy. The Pope was much offended, felt the church had been insulted; there was even talk of removing the seat of the papacy from Rome. That plan, if it ever was seriously considered, was soon given up. The whole matter had agitated the Pope tremendously, and they felt anxious about his health. When the usual hour passed for his light to be put out, they saw more and more nervous. Eleven, 12, 1 o'clock, still that thin line of light under the door. Finally they knocked. No answer. They gently opened the door and saw the old man kneeling, weeping, at his prie-dieu. Our friend, a man of the world, had been deeply moved by that glimpse through the open door. As for me, I never saw it all.

WAGGLE TOES AND SNORE.

A Cheap but Highly Recommended Remedy for Insomnia.

Most of the mental devices for wooing sleep have failed because they have nearly always tried to resort to "local treatment." In other words, they have made a homeopathic attempt to stop thinking by thinking about something else—a process which might also be called "elimination by substitution." But thinking spontaneously or forced, draws more or less blood to the brain, prevents deep inhalations, and bars the gate of the kingdom of dreams. Any device that "stops the mind" will make one take deep, long breaths spontaneously (the invariable forerunner of sleep) may be counted upon to be a genuine remedy for insomnia. Evenly extended breathing forces is better than any purely mental attempt to win sleep. But if the deep breathing can be produced involuntarily one is sure of a passport to Nedland.

Where Kisses are Illegal.

Kisses are actionable in Southern Russia, but the many cases before the local magistrates prove that the little god of love defies law as well as locks. A kiss in the street car costs the indiscreet osculator a fine of \$3. To embrace one's fiancée in public is a privilege valued at \$2.40. A declaration of a great "passion" by postal card is subject to a fine of \$2.40.

The Public must be protected,

and the disturbing influence of such sights is assessed at a figure calculated to discourage youthful impetuosity. At Milan, Italy, 721 couples paid last year the fine of six lire (about \$1.20) for having braved the conventions and kissed each other in public places.—New York World.

Tale of a Connecting Link.

The Darwinian theory has recently received more tangible support than ever. A baby, born in Ontario, had been discovered who is possessed of a tail. The case is reported to the Indian Medical Gazette by Capt. Chatterton, I. M. S., and the infant is appearing in a newspaper sensation, and may in time, for aught that can be said, be worshipped as the god Hanuman, the monkey god come back to earth. Capt. Chatterton describes this curious child as follows: "The child had what appeared to be a tail. I made the following note at the time. The spine is apparently perfectly normal. On the lower part of the back, a small, fleshy, oval swelling, from the lower portion of which emerges a perfectly skin-covered, tail-like appendage, about three and a half inches long. This appendage is capable of a limited amount of motion. It wags slightly when the infant takes the breast. There is no evidence of any bone in this 'tail.' It feels tough and elastic. It appears to be connected by soft attachments to the sacrum. The tip of the coccyx can be felt in its normal situation, under cover of the 'tail.' All the other parts of this baby were normal. The parents absolutely refuse to entertain the idea of having the tail removed. The reason is, I think, that the fame of the baby has already begun to spread, and I have no doubt that, by judicious management, it will prove a source of income to its parents."

Flea Went Wrong.

They had been married only a few months, and the wife stood by the side of her husband looking into one of the department store windows. A handsome tailor-made dress took her fancy, and she left her husband to examine it more closely. Then she went back to him, still talking. "You never look at anything I want to look at any more," she complained. "You don't care how I dress. You don't care for me any more. Why, you haven't kissed me for two weeks."

"Indeed, I am sorry, but it is not my fault," said the man.

Turning, the lady looked at him and gasped. She had taken the arm of the wrong man.—Philadelphia Ledger.

Hamilton, Mont., Oct. 19.—Walter T. Nackson, the convicted murderer of Bonnie Buck, a six-year-old boy, was taken from the county jail here late last night by a mob and lynched.

SHOT AT FALLS.

A Bartender Mortally Shot—Hacker Arrested.

Niagara Falls, Oct. 19.—A shooting affray occurred in the tunnel district last night, and as a result it is expected that two men will die. George Follett, a hack driver in the employ of the Miller & Brumage Coach Company, went to the tunnel district last night in company with Bert Durkee, another driver.

The police were on the scene shortly after the shooting and placed Follett under arrest. He was injured men being sent to the hospital. The bullet in Menghell's arm was extracted, but the physicians failed to locate the one under the heart. Menghell afterwards died. The bullet in Durkee's shoulder was extracted.

New York, Oct. 19.—In order that John D. Rockefeller may enjoy the sunbaths for his health on the broad verandahs of his country residence at Pocantico Hill in Westchester County, this winter, the millionaire is having the two verandahs which encircle the house on the first and second floors, enclosed in glass.

Tearing Down the Museum.

Niagara Falls, Oct. 19.—This morning the work of tearing down the old museum in Victoria Park near the Horseshoe Falls was begun. It is expected that the work of razing the building will take but a short time, and that the new factory which will take its place will be commenced at once.

Child Took Strychnine.

Windsor despatch—Ida Patterson, the three-year-old daughter of Rev. Mr. Patterson, of Malabar, went into a convulsion, which lasted 30 minutes, and died. She had opened a box of tablets, which her mother had been taken during the past week. Dr. Doyle was called, but the child was dead on his arrival. He examined the tablets and found that they contained strychnine, the child having taken a sufficient number to cause death.

GLAD TO BE CO-RESPONDENT.

Capt. Lawton Will Now Have Chance to Tell What He Knows.

New York, Oct. 19.—"I am glad to be named as co-respondent in the suit for divorce brought by William Newbold Boller against his wife." This was the statement of Capt. T. E. Lawton, a promoter, who added that he would now have the right to go into court in Mrs. Boller's defence and make public the persecution to which she has been subjected, and of which the suit is the climax.

The defendant in the suit has lived ten years with a broken neck, but her affliction is apparently only in that she cannot move her head sideways and that her carriage is a trifle more stiffly erect than ordinary. In 1892, shortly after her marriage, at Denver, she was working as a newspaper reporter, and was on a ranch. She had tethered an Indian cayuse, when Mr. Boller began beating the horse, and the rope to which the animal was fastened, became wrapped around her and she was thrown on her head. She suffered a dislocation of the vertebrae at the neck and lower in the spine, and for two years was confined in plaster casts.

Mrs. Boller was Miss Naomi Sherwood and is the daughter of Sir John Woodhouse Sherwood, one of the original settlers of the Red River lands, a descendant of the family whose estate once included Robin Hood's Sherwood Forest, and on her mother's side, of the blood of Marston, who gave their name to Marston Moor.

BIG DROP OF VALUES.

Sensational Slump in Montreal Stock Market.

CREDIT OF FIRMS IMPUGNED.

Montreal despatch—There was a sensational drop in values on the Montreal stock market to-day, and in many instances prices touched the lowest on record, eclipsing the big slump in the market last June. For some weeks a clique of operators, feeling that there was little prospect of an upward movement, and believing that more money could be made on the short side, have been trying to break values, and that they have succeeded in their campaign is shown by to-day's record. Their operations have of course been helped by the weakness in New York, but in the furtherance of their efforts they have resorted to the distribution of the most audacious falsehoods, involving the credit of firms and individuals. The report was sent broadcast that leading Montreal brokers and financial institutions were on the verge of bankruptcy, and that they were obliged to throw over large blocks of stocks in order to realize. Queries from various parts of the country came to Montreal to-day asking if such reports were true. They only met with an absolute denial, but they had done their work. The market acted in a nervous manner and values broke violently. It was of course weak accounts that the bears were gunning for, and as many stop orders were reached in the course of the break, the volume of liquidation gathered force as it proceeded.

Canadian Pacific was the only stock that held up fairly well in face of the general break. It sold at 118-1/2 to 119 1-2 at the opening, but declined to 118-1/2 before the close. The heaviest liquidation was in Montreal Street, Montreal Power, Twin City, Scotia, Dominion Coal, and Nova Scotia Steel. There was a renewal of liquidation in Montreal Street, and the price broke from 212 to 205. As the result of heavy hammering by the bears, Montreal Power broke from 70, at the opening, to 63 3-4, the lowest price in its history, but recovered sharply to 68 before the close. Twin City declined from 83 to 80 1-2 to 80 1-2 at the opening, broke to 55, Dominion coal was another favorite target of the bears, and it broke from 67 at the opening to 59 3-4, recovering to 60. Nova Scotia Steel broke from 70 1-2 to 67, recovering to 65. Dominion Steel was neglected, the preferred selling at 26, and the common at 8. Toronto Street sold down to 89, and Toledo broke to 15. Richellon declined to 69, but recovered to 72.

LINEN TO STOP CAVALRY.

Novel Obstacles Erected by Mob in French Town.

Armentieres, Department du Nord, Oct. 19.—Strikers who pillaged linen stores have stretched pieces of linen across the streets to prevent cavalry charges. The banks have also been attacked, all the houses are closed, and the inhabitants are in a state of terror. There are troops here, but they are insufficient to maintain order.

Colonials are Ready.

London, Oct. 19.—The Post, referring to the offer of New Zealand troops for service in Samoliland, rejoices that the reports that Colonials would not come forward to help the Mother Country in time of extreme emergency, owing to their treatment at the hands of the regular officers, are unfounded.

Less of Potato.

Part Hope, Oct. 19.—John Moon of Campbellcroft, brought here to-day a potato that turned the scales at 2 lb. 2 1/2 oz. It is of the Carman No. 1 variety. Three pounds of this seed were received by Mr. Moon from the Government farm, at Ottawa, which produced five bushels of potatoes.

GAVE UP HIS SON TO BE HANGED.

And Now Makes Application for the Reward Offered.

A Strange Stand Taken by Chicago Pressfeeders.

Fifteen Sailors Rescued From a Shipwrecked Vessel.

Chicago, Oct. 19.—Armed with revolvers, deputy marshals, thirty union pressmen employed in the printing plant of R. B. Donnelly & Sons' Company, were last night guarding the building against attack from striking members of Franklin Union of Press Feeders.

The armed deputies are regular union employees of the company, all of them, members of local No. 3 of the International Printing Pressmen's Union. Besides them work non-union men and girls, who have replaced the members of the Franklin Union now on strike. It is union against union, and no serious trouble has occurred, precautions having been taken because of threats that have been made by Franklin Union members.

Home, Sweet Home.

Maone, N. Y., Oct. 19.—A big cow moose was seen in Westville a day or two ago, near the place the bull was recently shot by a man named Barton. The moose had been seen in the vicinity of the Canadian woods, within two weeks, and it is believed to indicate that the attempt to stock the Adirondacks with moose has all taken the same trail to Canada that their ancestors did 76 years ago. This fact is touched for by Chief Game Protector Rand and many old guides in this section.

What Kind of a Father is This?

Atlanta, Ga., Oct. 19.—Application was made for Gov. Torrell, yesterday for the reward of \$150 offered for the capture of Rod Carruthers, sentenced to be hanged on Oct. 18, for the murder of Henry Bryd, and who escaped shortly after receiving his sentence. The application came from the father of the condemned man, who the sheriff says gave the information which led to his son's arrest.

Rescued Shipwrecked Crew.

New York, Oct. 19.—The German steamer Verona, which arrived in port to-day from China, has brought fifteen shipwrecked mariners, taken from the Uruguayan bark, Salvador Talavera, in latitude 32.57, longitude 57.44. Captain Spiesen reports that on Oct. 8, he spoke the vessel in a sinking condition, all the masts and boats gone, the forecastle careened by the sea, and the provisions spoiled. The steamer was making 3 inches of water an hour, the wheel was broken and the vessel had fallen in the rough sea. The remaining crew before leaving removed the main hatch.

MURDER IN DELAWARE.

Girl's Death is Similar to That of Irene Cole.

Wilmington, Del., Oct. 19.—Mary Kosicki, a pretty 18-year-old Polish girl, was found murdered here this morning. Frank Smith, a Pole, who has been serving in the United States navy, is locked up at the police station on suspicion. The case is similar to that of Miss Helen S. Bishop, for which crime Geo. White, a negro, was taken from the New-castle county workhouse and burned at the stake several months ago.

Clarence Spencer, who works at the plant of the Lobbed Car Wheel Company, found the body while on his way to work at 6 o'clock. The body lay on the bank of a ditch at the foot of B street and was partly in the water. Mr. Spencer notified the police, and an investigation was begun.

The parents of the child were nearly prostrated with grief. Their home was soon filled with excited neighbors. The police reached the conclusion that the child had been attacked, and later in the day post-mortem examination performed by Dr. J. W. Bastian, the coroner's physician, confirmed this suspicion. It is supposed that the head of the victim was held under water until she was drowned.

France at His Back.

Paris, Oct. 19.—King Leopold of Belgium, who was received by President Loubet yesterday, is reported to have obtained France's support against Great Britain's view of the Congo situation. The Liberte says Russia is also behind King Leopold, and that the King will remain in Paris to talk the matter over with King Victor Emmanuel during the latter's visit to France.

TRY TO HOLD BRITISH TRADE.

Sweden, Norway and Denmark Ready to Make Tariff Concessions.

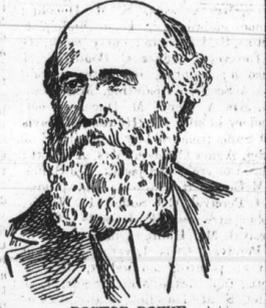

Christiania, Oct. 19.—Scandinavia is following with intense interest the development of the fiscal struggle in the United Kingdom. The exports of Sweden, Norway and Denmark are chiefly to Great Britain. England is in particular, the best customer of Denmark. Sixty per cent. of all Danish products go to England, while 43 per cent. of all the products of both Sweden and Norway also go there. Denmark's import tariff on industrial products is of a class that meets with much favor in Great Britain. Denmark therefore hopes much from British self-interest, and does not fear overmuch colonial competition. Furthermore the Danish Government is willing to adapt its tariff to British conditions.

Of the three Scandinavian countries Sweden has the highest tariff, while Norway is midway between it and Denmark. The great exports are timber, wood manufactures, wood pulp, fish, butter and condensed milk. Sweden and Norway will probably develop a preferential tariff system to hold the British market. All three are interested in free navigation, especially Norway, which does a large business with British colonies. The three countries are ready to make considerable concessions to retain the British market.

TO ATTACK NEW YORK.

Dowie and His Host Will Arrive This Morning.

Niagara Falls, N. Y., Oct. 19.—The large train carrying the followers of John Alexander Dowie, the front and centre of the religious movement, founder of the city of Zion, Illinois, and the prophet of the Zionists, are expected to arrive at Niagara Falls at 8 o'clock to-night. Just before his departure Dr. Dowie stated this his

DOCTOR DOWIE.

plans were to call the roll at 10 o'clock to-morrow morning in Madison Square Garden, the place for the army of evangelists to assemble in New York City.

In spite of the cloudy weather and threatened rain massive photographs of the "Redemption Host" were successfully taken this afternoon. The women each wore a broad silk sash of blue, white and orange thrown over one shoulder. The sight of the gathered thousands was one of the most interesting that has been witnessed at the Falls in a long time. All day long as the crowd passed and repassed each other in their walks, the salutation of the pilgrims could be heard in different parts of the city. The first one to speak says, "Peace to thee be multiplied."

ELOPES AND MARRIES.

Lockport Belle Weds a Handsome Youth.

Lockport despatch.—The city's younger society was startled yesterday by the announcement that Miss Gertrude Madden, daughter of Superintendent Robert Madden, of the Western Bell Company, had eloped with Mr. Walter Bartholomew, of Coshocton, O., and were married in Buffalo Sunday night. The young bride of 20 years, informed her father by telegraph yesterday morning of the event which made her happy, but which completely prostrated her father.

Miss Madden is a beautiful young girl. She is the youngest of six daughters. She was educated in the St. Mary's Convent school of this city, and afterwards attended the Lorain Convent at Niagara Falls, 1901. Her husband is a handsome youth. That each should have become infatuated with the other is reasonable. He has frequently been a visitor in this city. A year ago he met Miss Madden while on one of his visits here. They corresponded. He came here again last week, and on Saturday the youthful couple took a trolley to Buffalo and negotiated for the tying of the knot. On Sunday Miss Madden was as busy as a bee around the house anticipating the happy event. She went to Buffalo with her intended on Sunday night and was married.

Her father thought that perhaps she had stayed with friends when she did not return a late hour Sunday night. He did not know that they were on their way to Ohio until he received the telegram yesterday. Though nearly heartbroken Mr. Madden is willing to extend paternal forgiveness.

A daring hold-up of a street car conductor took place on King street, Toronto, yesterday morning. Car No. 422 was held up at 12:30 by two highwaymen, and Conductor Wm. Howard, of 668 Queen street west, was robbed of \$25. The car, which was on its last trip, was running to the Roncesvalles barns. There were no passengers on board.

Sir William Holland, M. P., lately returned from Canada, has issued a manifesto stating "that the Canadian manufacturers mean to protect their own market at all costs, that Canadian loyalty is superior to fiscal considerations, and that Canada is destined to become the granary of the empire. Her position is so impregnable that she needs no protection at Britain's hands."

BRITISH TREATY WITH FRANCE.

Text of the Three Articles of Agreement.

The Kronz Prince Had a Stormy Passage.

Arbitration of Anglo-Belgian Trouble in the Congo.

London cable.—The arbitration treaty between Great Britain and France was signed here to-day by Foreign Secretary Lansdowne and the French Ambassador, M. Cambon. The text of the treaty is as follows: The Government of the French Republic and the Government of His Britannic Majesty, signatories of the convention concluded at The Hague, on July 29, 1899, for the peaceful settlement of international disputes.

Considering that by article 19 of that treaty do not limit the contracting powers reserve to themselves the right of concluding agreements with the view to have recourse to arbitration in all cases in which they shall consider it possible to submit thereto.

Have authorized the undersigned to agree to the following provisions:

Article 1. Differences of a judicial order of such as relate to the interpretation of treaties existing between the two contracting parties, which may arise between them and which it may not be possible to settle by means of diplomacy, shall be submitted to the permanent court of arbitration established at The Hague by the convention of July 29, 1899, on condition, however, that they do not involve either vital interests or the independence of honor of the two contracting States, and that they do not affect the interests of a third power.

Article 2. In each particular case the high contracting parties, before addressing themselves to the permanent court of arbitration shall sign a special arbitration bond setting forth clearly the subject under dispute, the extent of the powers of the arbitrators and the details to be observed as regards the constitution of the arbitral tribunal and the procedure.

Article 3. The present arrangements are concluded for a term of five years from the date of the signature. (Signed, Lansdowne, Cambon.)

TEMPETUOUS VOYAGE.

Cherbourg, France, Oct. 19.—The North German Lloyd steamer Kron Prinz Wilhelm, which arrived yesterday, New York, experienced one of the worst passages for many years. She passed through a succession of gales, and the steerage passengers were battered down during the whole passage, except one day. On Thursday and Friday last, the furious seas compelled the vessel to reduce speed, and caused slight deck damage.

MAY BE ARBITRATION.

London, Oct. 19.—The Vienna correspondent of the Daily Mail asserts that King Leopold is going to that city to ask Emperor Francis Joseph to become arbitrator of the Anglo-Belgian differences concerning the Congo, and that the Emperor will accept, as both Germany and England have intimated that they will be content with his arbitration.

WILL CLEAN UP DEATH HOLE.

Brantford Council Determined to Remove "The Willows."

Brantford despatch.—Several residents of Eagle Place appeared before the Council last night and urged that the locality known as "The Willows," in which little Irene Cole was cruelly murdered a couple of weeks ago, be cleared of the growth of rank grass and willows. A strong case was made out, and resolutions were unanimously carried that the police commissioners give the outlying portions of the city better police protection, and that the Building and Grounds Committee be authorized to have "The Willows" as far as they extend on city property removed, and the sympathy of the Council to the Cole family was also put on record.

NEWS IN BRIEF.

Constantinople.—Prince Ahmed Bedr Eddine, a younger son of the Sultan, died of pneumonia yesterday.

Zanin.—Laredo Toledo, the insurrectionist who has been operating in Albany for some time past, has surrendered with thirty of his men, and ten guns.

St. Louis.—It is stated that by the death of Archbishop Kahn, Bishop J. J. Glennon becomes Archbishop of St. Louis, without further ceremony or formality.

Amsterdam.—Some concern is felt for the safety of the Dutch steamer Argus, used as a training ship for naval cadets. Two cruisers have started to search the North Sea for the missing vessel.

Paris.—A commission to arbitrate the strike of linen weavers at Amentieres has been submitted to a referee. After yesterday's riots the city of Armentieres appeared as though smothered by an army. The population is still in a state of terror.

It is officially announced that the Car's visit to Rome has been postponed, and it is said this action has been taken because of threatened Socialist demonstrations.

HOW HE DID IT.

Rev. Dr. Simpson Was Almost Overcome Himself.

New York, Oct. 19.—The Herald speaking of Rev. Dr. Simpson's raising \$20,000 in one day for missions, says: "Known as the Orpheus of the missionary field, Mr. Simpson never loses an opportunity of convincing than yesterday, when he not only brought tears to the eyes of his auditors, but himself was so overcome by his effort that his voice failed him three times during his sermon, and at the end was hardly audible. 'Softly,' as she is known throughout the Alliance, a poor woman, who her niece, was on her feet the moment Mr. Simpson had finished his prayer, and on her knees handed to him \$15, the amount which she has given annually for the past year. Other contributions were for sums much greater, but none elicited more enthusiasm in the tabernacle. The largest amount was from the Synagogue Institute, \$200, and there were several pledges for amounts of from \$1,000 to \$1,000.

Nearly two hundred orphans in India were provided for, \$15 being given for the support of each. One wealthy New York woman pledged herself to look out for fifty orphans at this rate. 'Sentiment and poetry will never convert the world,' said Mr. Simpson. 'We have sinned against the heathen in holding back the Gospel from them. The church is guilty of neglect, and the sin of neglect is finding its outlet.' 'Our very piety is cursed by our selfishness. The greed of gain soils the heart of the modern church. Four per cent. of the population of the country goes every year to whiskey and tobacco, and only one-hundredth part of one per cent. for evangelizing the world. The Saviour has grown cheap. The curse of Judas' money is the silver we keep, while we give the Lord the mite. How dare we go down the vale of life dancing, juggling and in gaiety, with the tragedy of the gospel before us! The gospel must be preached in every kingdom of the world. God save us from the sin of standing in the way.'

THE BARR SETTLERS.

Mostly All Settled Down Contented and Doing Well.

Ottawa, Oct. 19.—The director of the Dominion Experimental Farms has returned from his annual tour of inspection of the Western experimental farms and of the Western country generally. He says that about Saskatoon and along the road to Battleford, also in Battleford itself, many of the Barr colonists were met with. Of the 1,200 people who came out who were entitled to homesteads, about 400 have taken up land in the British settlement. The others have distributed themselves among other settlers all over the country, and have taken up homesteads in proximity to places where they could obtain employment. All those whom Dr. Sanders had the opportunity of talking to seemed satisfied with the country and most of them expected to go on their land to begin their settlement duties next spring.

There is much difficulty in obtaining lumber in many parts of the Northwest for all the new building required. A part of what is used in the Battleford district has been brought in from British Columbia, and hauled up from Saskatchewan while a part has been floated down the North Saskatchewan River in barges from Edmonton.

LONDONDERRY SUCCEEDS.

Will Retain Portfolio of Education, With New Appointment.

London, Oct. 19.—Lord Londonderry has been appointed Lord President of the Council, in succession to the Duke of Devonshire. It is understood that His Lordship will retain the portfolio of education, and his new appointment will thus make little practical difference to his position in the Cabinet.

The Marquis of Londonderry is the sixth representative of the line to bear the title. His name is Charles Stewart Vane-Tempest-Stewart, K.G., P. C., LL. D., D. L., J. P.

STEYN AND KRUGER.

Orange State Ex-President Suffers From Paralysis.

London, Oct. 19.—L. Petit Parisian states that ex-President Steyn, of the former Orange Free States, and his family, consisting of his wife and two little girls, occupy a modest villa outside of Cannes. The ex-President suffers from paralysis of the limbs, and can hardly use his hands. He is condemned to absolute rest, and receives nobody. He has had hundreds of letters, asking for an audience, but refuses all. Even his nearest friends can converse with him for only a few minutes at a time, as the effort causes nervous excitement.

Ex-President Kruger celebrated his 78th birthday on Sunday with a small family fete, the first since the war.

CLEARED THE CATHEDRAL.

St. Petersburg, Oct. 19.—Further serious disturbances in connection with the transfer of Armenian church property to the Government, occurred at Nakhichevan, Transcaucasia, October 12th. A mob took possession of the cathedral there, and drove out the elder Gossacks charged the crowd and numbers of persons were injured.

WOOLING KING MENCLIK.

Paris, Oct. 19.—The United States Government has requested the French Foreign Office to permit transports sailing from Havre and Marseilles to carry the goods that Mr. Skinner, the American Consul at the latter place, wishes to take to King Menclik of Abyssinia. The Foreign Office is disposed to offer every facility to ensure the success of the American expedition.

Serator Dandurand corroborated the report that on behalf of English capitalists he has secured an option on the Clergue Works at Sault Ste. Marie.

LONDON'S GREAT CLOCKS.

The immensity of Big Ben and the Law Courts' Timepiece.

How many of those who look up at the figure of Nelson will believe that the statue of "our greatest sailor" is three times as tall as a living man? Nothing in the world is so deceptive as distance, as a run round London with a footrule would show. Nobody, so far as one knows, has ever yet been bold to believe that Big Ben is over seven yards across the dial, that the hands are together twenty-five feet long, that the minute hand jumps seven inches every time it moves, that the five minute spaces measure nearly two yards and that each of the dials weighs four tons. You may spend a day staring hard at St. Paul's before you will believe that the bell over the dome will hold twelve tons and that the cross above it is ten yards high, ten yards above the dome and weighs a ton and a half. Yet a footrule and the dean's permission are all that you need to be convinced that these things are not what they seem.

Every one knows how impossible it is to fix the distance of a ship at sea or a fire on a dark night, when the contrast of the light with the surrounding darkness brings the vision near though the fire may be miles away. Who of all the thousands passing along the Strand today will believe that a party of workmen breakfasted in the law courts' clock before it was fixed in its place to tell London the wrong time?

States of the Country Publisher.

Here is a little old straight-from-the-shoulder talk about matters lying near to our heart. There seems to be a feeling among business men that a newspaper has no business to make money. Why not? It is the most exacting business in the world, the most trying in every way. It means long hours and the greatest care in its conduct. The newspaper has the entire public to deal with. It is criticised on all occasions. It has to deal with all the cranks in the community, and to do this successfully requires judgment and patience.

It has power, and that power, to the credit of journalism, is nearly always wielded for the public good. No question of vital concern to the home people fails to find a strong support from the home newspaper, and this, too, without remuneration. The publisher spends his money to further these projects, and the community never gives a thought to the matter of cost to him. It is not paid out of the public pocket.—Newspaperdom.

Potted Plants.

The reason some people "never have any luck with plants" is sometimes because the drainage is defective. A plant will not live in a heavy, sour, soggy soil, such as fills a pot when the drainage is not complete. This is especially true of palms, to which the stagnant moisture is sure death, but it holds true of any pot grown plant.

Papa's Joke.

"I think it is so silly to see a baby biting his toes," remarked the young mother.

"Well, I don't," spoke up the young father. "It shows that he is already learning how to be thrifty."

"Thrifty?"

"Yes; isn't he making both ends meet?"

First After Dinner Speech.

"I wonder who made the first after dinner speech?" asked the philosopher.

"Adam," replied the wise guy promptly. "As soon as he got through with the core of that apple he said, 'The woman tempted me, didn't he?'"

In the Depths.

"He's trying to get a reputation as the worst pessimist in town."

"He is the only truly trying."

"Oh, no; he's only trying to be."

"But he declares he knows it will just be his luck not to succeed."

JINGLES AND JESTS.

A Quarter For Henry.

Mrs. Henrietta whispers in her husband's bespeckled ear: "Here's a quarter for you, Henry. It will be a plenty, dear."

When poor Henry tries to argue, "Fifty cents is dear, today."

Henrietta points her finger, "Henry, not a word, I say!"

And the people say: "He's awful! All he thinks of in this life is his money—money—money! How I'd hate to be his wife!" —Indianapolis Sun.

An Inconspicuous.

"There's another thing I can't understand," said Mr. Sirius Barker as he laid down the paper and took a dyspepsia tablet.

"What can it be?" asked his wife in a well feigned tone of surprise.

"Why a woman will fuss over her husband, brushing his coat and fixing his necktie and warning him when he needs a hair cut and then rave admiringly over a football player."

Football Yell.

Raw, raw, raw!
Go, go, go!
Now off, car oil,
Spavin on my knee!
Jawbones busted,
Splices in my spine;
Won't the girls go crazy
As I wait down the line?

Philanthropic.

Holdon—I tell you what, Harry, I wish I had enough money to relieve all the distress among the poor people of this town.

Somer—A generous wish!

Holdon—You see, if I had all that money I'd be able to live like a fighting cock all the rest of my life.

Automobile Features.

There's the auto face, and the racer's back,
With its queer, altitudinous curve,
And the mobile tongue, in the middle
lung,
And the scorching motor nerve.

Too Suggestive.

Quads—Funnymen tried writing his jokes on the typewriter, but had to go back to his fountain pen.

Space—What was the matter with the typewriter?

Quads—The bell rang too often—Manila American.

Also Hints.

Every dog has his little dog,
But that's all right;
'Tis not for the horse to say him
nigh!

He has his night.

Blood Tells.

Ethel—Oh, you dear little foggie, you!

Mary—I think he's horrid.

Ethel—So do I, but Jack says he's got a dandy pedigree.

Sewing the Wind.

A rash and rambunctious rascal
Tried to whistle a popular tune,
But he blew out his teeth, both above and
beneath,
And is taking his food with a spoon.
—Life.

She Knows.

"Been bowling 'em dead," he explained when he came in.

"Bowling up, I should judge," reported the up to date wife.—Chicago Post.

Noise No Merit.

Lead mouthed words are mostly useless;
Try to make a pleasant face.
People dance to little riddles,
Never thinking of the bass.

Composite.

Guest (in Chinese restaurant)—This is what you call chop suey, is it, John?

What is it made of?

Proprietor—Ev'lyting.—Chicago Tribune.

Voicing a Want.

Oh, for a lodge in some vast wilderness,
Some boundless contiguity of wood,
Where, with an ax and just a little stream,
A fellow'd be some ten cords to the good!
—Minnesota Times.

A Threadbare Compensation.

"She isn't at all handsome."

"But she's very good."

"Dear me, that's what they always say."—Cleveland Plain Dealer.

Proverb Revised.

"All things come for him who waits."
Is a proverb raising laughter.
They never come to those who wait,
But to those who chase right after.

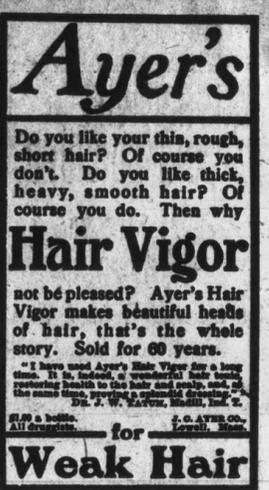

Accompaniments.

"Don't you dislike the smell of gasoline that goes with an automobile?"

"Not so much as the smell of arnica that goes with it."—Washington Star.

What Harts Most.

Who tells malicious lies of us
Is bad enough, forsooth,
But far more maddening is the cuss
Who tells malicious truth.

Williams preached a Thanksgiving sermon—text, Psalms 116, verse 12—which was well appreciated by all who heard. The pulpit was nicely decorated with flowers and grain, the walls and windows showing sheaves of grain. The service was well attended. H. S. Mott, the science master of Newburgh, spent Thanksgiving with J. A. Bell. W. A. Hanton, the teller at the Merchants Bank here, has been transferred to the branch at Souris, Manitoba. His successor is Mr. Alwyn Forneri, of Gananoque. We regret to lose Wallace but wish him success in Manitoba. R. A. Whitney, the popular manager of the bank, returned after spending a holiday in Belleville. During his absence, H. D. Lewis, of Athens, came to Delta to manage the bank. H. D. Knox, the popular commercial traveller, Beachburg, representing Henry Skinner & Co., of Kingston, spent a holiday with his old friends here last week. Mr. Frank Bolin, of Lynn, is at present visiting Mrs. Geo. Morris. Miss Ruby Stevens went to Newboro to visit her relatives. Walter Beatty, M.P.P., and Geo. Sawyer returned home from New Ontario where they have been surveying. The South Leeds Agricultural Society met in the secretary's store for the transaction of business last Saturday. Miss Victoria M. Bell, the popular assistant teacher of Portland school, spent Thanksgiving holidays with her parents. We were glad to hear that she is doing well at teaching.

An Old English Inn.

The Haven Inn, an old hostelry at Hook, near Basingstoke, England, was built in 1653 and still retains its quaint old half timbered work, overhanging gables and small windows. The house gained a wide notoriety in the latter part of the eighteenth century during the American war of independence through being the residence and place of capture of the famous "Jack the Painter," who roused the whole country in 1776 by his deliberate attempts to fire drydocks and shipping. He succeeded at Portsmouth, where \$300,000 damage was done; also at Bristol, but was foiled at Plymouth. So great was the scare that in response to a reward of \$2,500 offered by the government for his capture the whole country was on the alert, and he was run to earth and captured in this interesting old house and eventually hanged and gibbeted at Portsmouth. His real name was James Aitken.

Von Moltke on Whist.

A German magazine published the subjoined anecdote about Moltke: "Did you, your excellency, play whist when you were in France?" asked Herr von Bennigsen of the great battle thinker one evening over a rubber. "Every day, when it was possible," replied Moltke. "We played half farthing points, so that at worst the players could not lose more than a shilling." One day Count Berthous was his partner. "Why, my dear count, did you play spades?" said Moltke, in a sharp and serious tone. "I had an idea, your excellency, that you wanted spades." "But my dear count, one does not play whist according to ideas, but according to rule," replied the field marshal, shaking his head.

INTERNATIONAL LESSON NO. 1V. OCTOBER 25 1903.

David's Joy Over Forgiveness—Psalm 51.

Commentary.—I. Confession and forgiveness (vs. 1-5). 1. 2. Blessed.

"In the Hebrew this word is plural and an exclamation, thus, 'Oh, the blessedness!' Only a forgiven man can know the delights of pardon."

Transgression is a going out of the way, passing a given boundary, doing what is prohibited. Forgiveness is a going back to the way.

Lifted off so that the pardoned sinner is eased of a burden and enjoys pardon. Sin—Missing the mark, falling short of the goal. Sin is the transgression of the law. It is covered—Sin makes us loathsome, filthy, and abominable in the sight of God, and utterly unfit for communion with Him.

Count, "does not require for sins the debt of punishment," but pardons them. No guilt—No deceit, no false estimate of himself, nor insincerity before God.

3. When I kept silence—Before I humbled myself and confessed my sin. It seems that David before Nathan came to him had been exceedingly tortured in his conscience on account of the crimes he had committed (2 Sam. xi. 27; xii. 1, 6). My bones waxed old—My spirits failed and the strength of my body decayed.

4. Thy hand—God's correcting hand whereby he scourgeth his children, bringing a remembrance of guilt. My moisture is turned—There is a spiritual drought when the soul is in anguish, instead of refreshing seasons from the treasury of the Lord's love. Selah—This is used in Hebrew poetry and music to indicate a pause; to emphasize the truth and express a devout response of the heart unto God.

5. I acknowledged... Thou forgavest—It was after much anguish and struggling that David was brought to confession, but his reward was abundant, for mercy was extended.

6. For this—Because the Lord had so graciously answered his prayer, every one that was Godly, should be encouraged to pray in a time of trouble. Isa. lv. 2. "Because Jehovah has proved himself so ready to hear, even the sinner, the pious are urged to cry to Him before some sudden flood of temptation has made them lose His presence; so shall the great waters in which the psalmist sank, be prevented from ever reaching them."

7. 8. Hiding place—City of refuge, protection against enemies. Preserve me—Surround me as with a wall; enclose me within, songs of deliverance—The free spirit poured forth songs of praise and thanksgiving on all occasions, thus admitting no place for evil words or thoughts. Instruct these great sinners—Give to a humble, pardoned soul, securing his development in the ways of righteousness, God himself being teacher. I will guide—Exercise the most watchful, accurate and personal care. See every need, being so familiar with every disposition, that nothing shall escape due attention.

9. As the horse, etc.—Do not be stubborn or rebellious, like the horse or mule. Bit and bridle—That is, by harsh and forcible means. Our reason and wisdom ought to do for us what the bit does for the mule. Else they will not come near. The R. V. gives the correct rendering. Without bit and bridle the animals referred to will not stay within reach.

10. Many waters—Sin and misery go together. Those who are insubordinate God will curb and chasten by affliction, both to humble them and show them His power. Mercy—The compass—He shall be surrounded with mercy, as one is surrounded by the air or by the sunlight. He shall find mercy and favor everywhere, home, abroad, day by day, night; in society, in solitude; in sickness, in health; in life, in death; in time, in eternity. He glad... rejoice—How wonderful that such exultation should follow such iniquity and remorse! "There must be sincere sorrow, full confession, earnest prayer, simple faith, and honest purpose to cease from sin."

Touchings—We cannot hide our sins from God. We cannot find peace by putting a cover over our sins. God is faithful to us when we are trying to hide from Him. The consolation God puts upon a sinner is a great blessing. When we open our hearts to God he changes our groanings into singing, so that our mouths declare His wonderful works. The safest place to hide is in the Lord, for no enemy can harm us then. Our best school days are spent in learning God's ways, and having Him as teacher.

PRACTICAL SURVEY. A sense of guilt always attends a willful infraction of divine law. Conscience will keep quiet when the soul has transgressed and crossed the boundary line into the forbidden field of moral purity. With such an environment the spirit of man hears senseless voices, and hears him say "that his sin is ever before him." The soul was created to move in a straight line of rectitude, never veering in the least from the mark of holiness. Sin is a deviation from this line, and consequently misses the mark, as the word literally means. What a distortion when an upright soul stoops down to walk in the crooked ways of ungodly sinners! With such the way of peace is forsaken and the light of joy gone out into the darkest night of soul distress.

David had been guilty of transgression, sin and iniquity. Under the oppression of guilt his "bones waxed old," and in excessive pain of conscience he was "trembling all the day long." All the sorrows of his life were dried up like the "drouth of summer."

A concealment of sin, after it is committed, adds to the soul's agony. It is when David "kept silence," before God, that "his guilty secret wore away his life's foundations."

Smothered convictions, like an inward fire, will consume the happiness of the soul, and it will pine away under the concealment of its iniquities. "Sin cannot be hidden from the eye of God as long as man is unwilling to bring it to the light of day. Paradoxical as it may sound, the only way to hide sin is to bring it to light."

"The confession of sin is the divine method of obtaining forgiveness. 'If we confess our sins, He is faithful and just to forgive us our sins' (1 John i. 9). After one year of intense suffering from the pangs of guilt, David confessed his sins to Nathan, but more especially unto God. How stubborn is the human will that man will not immediately confess to God when conscious of having sinned against Him! For weary months the guilt had haunted from the painful sense of "bloodguiltiness" and that God had hidden His face from him. Strange that he did not at once cry out, "Have mercy upon me, O God! blot out my transgressions" (Psa. li. 1).

The forgiveness of sin is an act of God. The Jews rightly reasoned in their hearts, "Who can forgive sins but God only?" (Mat. ix. 2, 3). The Psalmist, in his address to the Lord, said, "Thou forgavest the iniquity of my sin." It was a long time before David met the conditions of God's pardoning mercy, but there is no indication of any lapse of time between this period and that when the Lord graciously forgave his sin.

The soul's forgiveness is sometimes led to believe that God is delaying the gift of pardon, and spends many days and nights in fruitless efforts to gain peace. God has but one time set to save sinners, and that is "now." The very moment the soul truly repents, confesses its sins, and believes on the Lord Jesus Christ, it is abundantly pardoned, and receives the spirit of adoption as one of God's children.

The joy of forgiveness is the greatest joy that ever entered into a human heart. It is so great that its influence is felt in heaven. There is joy in the presence of the angels of God over one sinner that repenteth." (Luke xv. 10). David's "roaring" was changed by pardon into a "shout for joy." He then exclaimed, "Blessed is whose transgression is forgiven, whose sin is covered." The word "blessed" in the original is plural in form, and according to good authority should be translated "blessednesses." There is more than one blessing that attends pardon of sin—there are multitudes of them. "He will multiply to pardon" (Isa. lv. 7, margin). The soul that had been tormented by hearing the voice of a guilty conscience is made "to hear joy and gladness" (Psa. li. 8), and the heart may just as readily refer to the finding of forgiveness as to the finding of Jehovah.—Hurlbut.

Great waters—"In this case there may be a particular allusion to the interview between the sinner and punishment, during which the confessions and importunate petitions of the sinner may avail to arrest the judgments which must inevitably follow."

11. Many waters—City of refuge, protection against enemies. Preserve me—Surround me as with a wall; enclose me within, songs of deliverance—The free spirit poured forth songs of praise and thanksgiving on all occasions, thus admitting no place for evil words or thoughts. Instruct these great sinners—Give to a humble, pardoned soul, securing his development in the ways of righteousness, God himself being teacher. I will guide—Exercise the most watchful, accurate and personal care. See every need, being so familiar with every disposition, that nothing shall escape due attention.

12. As the horse, etc.—Do not be stubborn or rebellious, like the horse or mule. Bit and bridle—That is, by harsh and forcible means. Our reason and wisdom ought to do for us what the bit does for the mule. Else they will not come near. The R. V. gives the correct rendering. TO BANISH THE FRECKLES. The use of soap and water is one of the latest complexion fads, and it is especially directed against the freckles.

Freckles, by the way, are not fashionable. The up-to-date poet or novelist never mentions them. His heroines may be permitted to have a becoming coat of sunburn—a sun-kissed skin, he calls it—but that is all. The freckle is banished, or, rather, it is every woman's duty to try to banish it.

To get rid of freckles there have been women willing to undergo even the torture of having their face peeled off by the use of caustic, and then to be repainted with a new skin. This process requires time to remain in seclusion a month or more nursing their faces. Such heroism, though, is infrequent.

The average woman is timid about applying strange acids to her face, and it is probably for that reason that the soap and water cure is destined to be a success. You can't see a freckle without feeling a little bit of a vogue. Another feature in its favor is cheapness.

It is necessary only to invest in a camel's hair face brush and a cake of soap, and you are ready to go. These, together with plenty of hot and cold water, represent the equipment required.

At a luncheon party in the hotel restaurant the other day a party of women just back from the country were discussing the subject of complexion. One of them was badly freckled, and consequently in quite an unhappy frame of mind.

"Now, look at Mary," she exclaimed in an aggrieved tone. "I don't see a spot of any kind on her skin, and yet she looks so much better than I do."

Mary met the sustained and curious glances of her friends with a smile as disinterested as any she could give. It's nothing but a faithful devotion to the soap and water cure."

"You mean face steaming?" asked one.

"Not at all. This is a never-fading remedy. I wonder you haven't heard of it, for all the complexion specialists are advising it."

"Use water just as hot as your face will tolerate. Make a lather of the soap and scrub with the camel's hair brush five minutes. Nothing less than five minutes will answer, and be sure to use your soap and brush every day. The time is up when you have been scrubbing about one minute."

"After the scrubbing rinse off the soap with very hot water, using plenty of water, and then splash with cold water and continue that until the skin feels quite cool. That is all."

"To get the best effects the face should be scrubbed both night and morning for several weeks. Lastly, I have taken the scrubbing only in the morning, but I kept it up faithfully twice a day for nearly three months."

"The trouble with some women is they expect almost instantaneous results, and, becoming discouraged after a week or two, give up the treatment altogether. Judging from my experience, I am firmly convinced that the soap and water is the best complexion lotion on the market, and the very best freckle reducer extant. And I mean to stick to it."

MY POOR OLD BACK. If you suffer from backache you can stop it in a few hours by the application of one of the "E. L." liniments. The rapidity with which they cure pain of every kind has earned them the name of Electric Liniments.

No More Patent Leathers. N. Y. Press. Most merchants will sell anything if there be profit in it. Not so one of our leading manufacturers of shoes. For philanthropic reasons only and to his considerable loss, he has recently taken patent leather shoes off his list. "Patent leather is practically air-proof," he says, in defense. "It prevents the foot from breathing and is the direct cause of untold misery. I shall no longer be a participator in the production of corns and those awful enlargements over the metatarsophalangeal joint of the great toe, known commonly as bunions, or inflammation of the bursa."

Eyes and Nose ran water.—C. G. Archer, of Brewer, Maine, says: "I have had catarrh for several years. Water would run from my eyes and nose for days at a time. About four months ago I was induced to try Dr. Agnew's Catarrhal Powder, and since that time I have not had an attack. It relieved in ten minutes." 50 cents.—17

Life. S. E. Kiser. To-day a dreary desert, With not a hope in view, To-morrow flowery meadows, That soft winds murmur through.

To-day a wind-swept ocean, Unfathomed and wreck strewn; A singing brook to-morrow, With gladness in its tune.

To-day a pit of evil, Befouled and dark with hate; A castle fair to-morrow, Where Love shall sit in state.

To-day a farce; to-morrow, A tragedy—sooth, More wonderful than fiction, As simple as the truth.—S. E. Kiser.

Wholesale trade at Montreal is in a healthy condition. One of the most satisfactory features, next probably to the large increase in the demands in the West and other portions of the Dominion, is the fact that the manufacturers have no surplus stocks to offer, and that no concessions are being made by first hands in prices of staple goods. The grain movement at all the principal points of the country is larger now, and remittances from country retailers are expected to improve shortly. Railway traffic is heavy.

Business at Toronto is fairly active in spite of the fact that the weather is somewhat too warm to expect much increase in the sales of heavy goods. V. Luss's stall goods are fairly well held. There is a better demand for money now that the grain movement is larger and rates are a shade firmer.

Business at the Pacific Coast has been only moderate the past week. The volume of business since the first of the month is larger in many departments than last year. Customs imports and bank clearings indicate a generally good outlook for trade is promising.

Trade is brisk at Winnipeg, and through the west generally. The grain movement is increasing rapidly, and the railway rates are lower and advantage is being taken of the ease of navigation to rush out the grain. Railway traffic is heavy. The trade outlook is satisfactory. Payments are improving.

Trade at Hamilton this week, as reported to Bradstreet's, is fairly active. The weather is the best since the weather. Shipments continue quite large, the sorting demand from various country trade centres being good. Values are firm, and the outlook for business is promising.

London wharf trade this week has been moderately active considering the weather conditions that have prevailed. Values are firmly held in most lines.

There has been a good demand at Ottawa for reasonable lines, and retailers have taken considerable quantities of goods. The wholesale trade is very firm on values and confident of the market for any stocks they may have on hand at the moment.

Earl of Denbigh. New York Sun.

The Earl of Denbigh and Desmond, who is in command of the Honorable Artillery Company of London now visiting this country, comes from a long line of ancestors. His family name is Fielding, and he was baptized Rudolph Robert Basil Aloysius Augustus. His titles are as numerous as his names, for he is Viscount Fielding and Baron Fielding, and Lord of St. Liz in the peerage of England, while in Ireland he is Baron Fielding also and Baron Callan, but greater than all these is the Earl of Denbigh. The earl has served with distinction in the British army. One member of the family was the distinguished novelist, Henry Fielding.

A CHICAGO ROMANCE.

Merchant by Day, the Ricks His Life by Night.

Chicago Sunday American.

There is a millionaire in the Chicago Fire Department. His name is Henry Scott, and although he owns an elegant home at 228 Ashland Boulevard he eats and sleeps at the engine house and works with the firemen when they are called to save a burning building.

Fire-fighting is this millionaire's fad, his recreation. He has made a life-work of saving lives. Why? Because on the eve of his marriage his sweetheart was burned to death in a terrible fire. This strange man's identity was revealed by his heroic work at the big Standard Furniture Company's fire, where he risked his life to save a comrade. His is one of the strangest and saddest stories ever written.

With an ample fortune which he gratefully gives to his wife, a magnificent residence for his home, every luxury with which rich men find recreation at his command, Henry Scott, of 288 Ashland Boulevard, President of the Slatter Manufacturing Company, was and works as a fireman in the Chicago department.

In the dormitory on the upper floor of Hook and Ladder Company No. 27 station Henry Scott sleeps in one of a row of plain iron cots, with an electrically furnished apartment at his Ashland home as vacant.

For three years his identity has been kept a secret, but during the great twenty-four hour fire at the Standard Varnish Company's plant he dashed into the oven-like building and carried out an unconscious comrade after two other men had been killed to get through the wall of flame that hemmed in the injured man. Chief Mueham was asked the brave fireman's name. He hesitated.

"I've kept the secret long enough," he cried at last. "That man was Henry Scott, the merchant. He's the bravest man in the department. He's won that fairly, and I'll tell it."

The whole story came out—how Scott has worked with the men of Hook and Ladder No. 2 for three years, how he has hidden his identity and followed or led his comrades through scores of bad fires.

"It's a fad, an odd sort of recreation, you know," said Mr. Scott, when asked why he preferred a fireman's life to that of a millionaire. "Other men who have always possessed stables, their automobiles, or any one of a half dozen other fads. I—well, I have fire-fighting."

"Why did I take this up? Well, the life of a fireman has always possessed a peculiar fascination for me, and since—the sad occurrence of a few years ago, when my sweetheart lost her life in a fire at Nashville, I have wanted to get through the wall of flame that hemmed in the injured man. Chief Mueham was asked the brave fireman's name. He hesitated.

"I've kept the secret long enough," he cried at last. "That man was Henry Scott, the merchant. He's the bravest man in the department. He's won that fairly, and I'll tell it."

There is a great demand for certain popular books, especially some volumes lately purchased, and it is very desirable that these be returned to the library promptly.

He Learned a Great Truth

It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by J. P. Lamb & Son.

Pushing Up Business

By pushing down prices is the one way to succeed so long as merit is not sacrificed. We think we have attained "the golden mean" by keeping up quality in pianos and giving prices a gentle push downwards. You won't think it—you'll know it when you see and hear our instruments and learn our prices.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat. No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic. "I was ill for four months with catarrh in the head and throat. Had a bad cough and raised blood. I had become discouraged when my husband bought a bottle of Hood's Sarsaparilla and persuaded me to try it. I advise all to take it. It has cured and built me up." Mrs. Helen B. Pollock, West Liscomb, N. S.

Hood's Sarsaparilla Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.
