

# The Daily Colonist

THIRTY-NINTH YEAR.

VICTORIA BRITISH COLUMBIA THURSDAY FEBRUARY 4 1897.

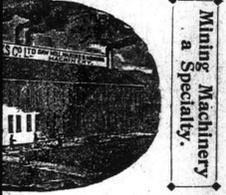

VOLUME XXXIX, NO. 15

SEE THAT THE FAC-SIMILE SIGNATURE OF *Chas. H. Fletcher* IS ON THE WRAPPER OF EVERY BOTTLE OF **CASTORIA**

Castoria is put up in one-size bottles only. It is not sold in bulk. Don't allow anyone to sell anything else on the plea or promise that it is "just as good" and "will answer every purpose." See that you get O-A-S-T-O-B-I-A.

**PERRIN'S** IS NOW PRINTED IN BLUE INK DIAGONALLY ACROSS THE SIDE WRAPPER. Bottle of the **CESTERSHIRE SAUCE.**

J. R. MACFARLANE, Mgr. Tel. 442. **RKS CO., LTD.**

Manufacturers of all classes of Machinery, Pumps, Pipe and Fittings, Brass Goods, Sheet Metal, etc. Estimates for Boilers and Boilers.

**Hotel, TRAIL, B. C.** in the Kootenay Country. Improvements. The Choicest Cigars.

**Prop.**

**STATE ORE** P. S. BAILY, Pres. Established 1880. **Sampling Works.** All grades of ability. Agents, Books, Charts, Plans, etc. Largest Works in Canada. Modern Mills and Machinery at all times ready to supply. Black Hawk, Red Single Wheel, Widows' positions for sale on Competitive Bids. Write for reference book. Address STATE ORE SAMPLING WORKS, 20 Beaver, Colo. Gold Bulletin sent.

WE CAN GIVE POSITIONS.—To persons of all grades of ability. Agents, Books, Charts, Plans, etc. Largest Works in Canada. Modern Mills and Machinery at all times ready to supply. Black Hawk, Red Single Wheel, Widows' positions for sale on Competitive Bids. Write for reference book. Address STATE ORE SAMPLING WORKS, 20 Beaver, Colo. Gold Bulletin sent.

## BRITISH CONFERENCE.

### Aid Proposed for Voluntary Schools—Christians and Mohammedans Fighting in Crete.

### Sugar Syndicate in Germany—Trouble in Uruguay—Italian Possessions in Africa.

LONDON, Feb. 1.—Hon. Mr. Chamberlain replying in the House of Commons to Mr. J. F. Hogan, anti-Parnellite, promised to consider a suggestion to profit by the presence in Great Britain of the Colonial premiers upon the occasion of the celebration of the Queen's Diamond Jubilee, by holding an imperial conference for the discussion of Colonial questions, with a view to completing work begun by conference at Ottawa some time ago, and in London recently.

The House of Commons to-day discussed a resolution of Mr. Hon. A. J. Balfour, first lord of the treasury, providing for state aid for voluntary schools. The plan proposed is that the schools should be relieved from rates and aided by grants of five shillings for each child, which is equivalent to a yearly grant of £216,900.

A Siamese made an attack upon Herr Kampenker, German minister to Siam, at Bangkok yesterday and for a time the police were powerless to check the disorder. An American engineer named Bennett placed himself at the head of the police and rallied them to another effort to disperse the mob, which was successful and the German minister was rescued.

The French chamber of deputies has adopted the article of the sugar bill fixing a surtax of five francs on refined sugar and ten francs on refined sugar.

Three Uruguayan generals have been imprisoned for attending a meeting hostile to the government. Considerable uneasiness has been caused in St. Petersburg by telegram received from the Admiralty to the effect that forty English warships, including eleven of the first-class battleships, are hovering between Beaulieu and the Dardanelles. The matter is said to be likely to receive special attention at the meeting of Count Muraviev, the Russian foreign minister, with President Faure of France.

The Journal de Bruxelles officially denies the reported engagement of Princess Louise, daughter of King Leopold of Belgium and wife of Prince Philippe of Sax-Coburg and Gotha, brother of Prince Ferdinand, with the daughter of a Siamese ruler. The princess is said to have disappeared with an Austrian captain of Hussars. Official announcement is made to the effect that Prince Philippe and Princess Louise, his wife, are now residing at Vienna.

Sir Thomas Spencer Wells, Bart., M.D., is dead. Sir Thomas Spencer Wells was the eldest son of late Mr. Well, of St. Albans, Herefordshire, his mother being a daughter of the late Mr. Wright, of Richmond, Surrey. He was born in 1818, at St. Albans, and educated at Trinity College, Dublin.

After adopting today the article of the sugar bill fixing a surtax on sugar imports, the French chamber of deputies adopted a clause authorizing the government to abolish but not to reduce when foreign countries agree to arrange for a similar reduction or abolition of the bonuses paid on sugar production.

A dispatch to the Times from Athens confirms the reports of conflict between Christians and Mohammedans in the Heraklion district of Crete. Additional details received by the Times are to the effect that the village of Galata has been burned and several inhabitants killed. Both sides, Christians as well as Mohammedans, appear to have suffered from these recent disorders. Among those known to have been murdered is Makoulakis Pasha, a Cretan judge. Arrests of Mussulmans still remain on the island, however, and the Christians have occupied and fortified their important places.

The Paris correspondent of the Standard learns from private sources that great alarm is felt in Constantinople in consequence of the approaching Ramadan, the great annual feast of the Mohammedans. Tewfik Pasha, the Turkish minister of foreign affairs, has moved his family to a place of safety, and it is reported that all of the wealthiest Turks are preparing to imitate his example.

The Daily Chronicle says that Hon. Thomas Bayard, the U. S. ambassador, is confined to his home with a severe cold. Lord Salisbury has accepted an invitation to a dinner to be given by the Princes of Wales, and the Queen has commanded Mr. and Mrs. Bayard to dine with her upon her return to Windsor Castle.

The Rome correspondent of the Daily News says that as a result of negotiations with England for the cessation of Italian possessions in northeastern Africa to Egypt it has been agreed that Italy is to temporarily retain Kasasala. The result of the election held in far-farshire, Scotland, on Saturday for member of parliament to succeed Mr. J. M. White, Liberal, who recently resigned his seat, was the election of Capt. Sinclair, Liberal, until recently on the staff of the Earl of Aberdeen, Governor-General of Canada. The polling was Captain Sinclair, 5,223; G. M. Ramsay, Conservative, 4,905; Liberal majority, 488. At the last election, Mr. White, Liberal, polled 5,159 votes against 4,718 Liberal majority, 441, showing a gain of 17 votes for the Liberals.

Thirty representatives of 161 sugar factories, in a convention held in Berlin, have formed a trust, to be known as the German Sugar Syndicate.

The Bishop Keane, formerly rector of the Catholic University at Washington, D. C., and recently appointed assistant bishop at the pontifical throne, has been appointed canon of St. John's Lateran,

## ARBITRATION TREATY.

### Comments of the English Newspapers on the Prospects of Its Adoption.

### Disappointment Expected in View of McKinley's Silence and the Senate's Attitude.

LONDON, Feb. 2.—Commenting editorially upon the Anglo-American arbitration treaty and the prospects of its adoption by the senate of the United States, the Times this morning says: "It would not be civil to associate ourselves with the vigorous language employed by the New York papers with reference to the treaty, as amended by the foreign affairs committee of the senate of the United States, but few Englishmen, however, will care to dissent from the substance of their remarks. Our faith in the treaty has been sorely tried of late years, and should they succeed in replacing this treaty by an empty sham it would be all the more to be regretted because it would retard the general adoption throughout the world of the principle of arbitration. Perhaps Lord Salisbury will be giving ratification to the treaty, but we fear for the result despite the belief of the people of the two countries in the policy of arbitration and the general desire for a treaty of this character. In the face of the silence of President-elect McKinley, we must prepare ourselves for disappointment and for either a sham treaty or none."

Commenting upon the cable statement of the Washington correspondent to the effect that there is no hope that the Anglo-American arbitration treaty will be ratified by the U. S. senate, the Daily Chronicle this morning characterizes the action of the senators as a "great wickedness." Continuing, its comment on the treaty says: "We are sure that all good men in America elsewhere who are not blinded by irrational hatred will stand staunchly by President Cleveland and the treaty."

The afternoon newspapers of London generally express great disappointment at the proposed amendments to the arbitration treaty. "The Globe" remarks that the amendments exclude every question of real importance and leaves the treaty meaningless. The "Standard" says that the senate to pursue would be to declare that the treaty had become worse than useless and declines to ratify it. The "Globe" adds: "Not only will it be over its fate, in spite of the premature cockcrow."

## THE ALASKAN BOUNDARY.

WASHINGTON, Feb. 1.—The new treaty relative to the Alaskan boundary, was sent to the senate to-day. Several senators said that the Alaska treaty settled none of the real questions at issue, and that it was a "sham" treaty. The fifth arbitrator in the case will meet within eight months. Three months additional is allowed for the submission of counter cases, so the entire arbitration will probably occupy a year and a half.

## INTERNATIONAL MONETARY CONFERENCE.

WASHINGTON, Jan. 30.—By the decisive vote of 46 to 4, the senate yesterday passed the bill for the appointment of commissioners to attend an international monetary conference.

## NEWS OF THE DOMINION.

(Special to the Colonist.)

OTTAWA, Feb. 1.—Official opinion is strongly in favor of a new Dominion ridge range on the Hull side of the city.

OTTAWA, Feb. 1.—The official report of the accident on the Intercolonial last week attributes the derailment to the work in which an express car was loaded with seven tons of copper coil just received from England.

OTTAWA, Feb. 1.—An extra of the Canada Gazette was issued to-night, bringing into effect from to-day the cattle quarantine regulations recently agreed to by Hon. Mr. Fisher, minister of agriculture, and the United States authorities at Washington, two or three weeks ago.

OTTAWA, Feb. 1.—The duty collected at this port for January amounted to \$312,507, a decrease of \$106,418, as compared with the corresponding month last year.

WINNIPEG, Feb. 1.—It is thought that twenty men of the Royal Canadian Dragoons stationed here will go to England to participate in the Diamond Jubilee.

HAMILTON, Feb. 1.—The trouble between the Sandford Manufacturing Co. and the garment makers of the city, numbering 3,500, over the proposed out in rates is growing. A mass meeting of workmen was held to-night and addressed by Edward E. Powell of Pittsburgh, organizer of the Flint Glass Blowers' Union of the United States and Canada, M. J. Keogh, of Troy, N.Y., organizer of International Iron Molders' Union, All. Jury, of Toronto, and others.

WINNIPEG, Feb. 1.—The Canadian Typograph Company notified its employees residing in Detroit that in case the alien labor bill becomes law in the United States they must move with their families to Canada or forfeit their positions.

TORONTO, Feb. 1.—The Young Conservatives this evening passed a resolution calling upon the city council to engage only British subjects.

TORONTO, Jan. 30.—(Special.)—The World says it is likely the Dominion government will shortly appoint E. E. Sheppard, the present editor of the Evening Standard, as special commissioner to South America. The World repeats the rumor that Speaker Edgar will shortly succeed Hon. G. E. Kirkpatrick as lieutenant-governor of Ontario.

## NEWS OF THE PROVINCE.

### Mass Meeting at Vancouver Asks for Railroad Connection with the Kootenay Country.

### Travel on the C.P.R.—The Automatic Can Factory—Nanaimo's Monthly Statistics.

(Special to the Colonist.)

VANCOUVER, Feb. 1.—The mass meeting of citizens in the market hall on Saturday evening was well attended, and the audience were unanimous upon the subject of the need for a direct road to the Kootenay country. The speakers were Messrs. W. J. Bower, Hewitt Bower, G. E. Maxwell, P. E. G. McLaughlin, M. P. P., J. C. McLaughlin, Thos. Forster, M. P. P., H. Bell Irving, D. G. O'Donnell and J. H. Brownlee, C. E. The last named, the speaker for the proposed road, gave some valuable information in regard to the route, having just returned from his survey through the Hope mountains. The resolution, which was carried unanimously, was as follows: "Whereas, the mining development of the southern and eastern portion of this province has reached a proportion, new towns have sprung up and are springing up every year; thousands of people are now living in this great mineral and agricultural country, and their numbers are increasing with unexampled rapidity, thousands of miles have been located and new discoveries made every day, hundreds of mines are now being developed and in operation in the great mining camps of Fairview, Round Creek, Camp McKinney, Boundary Creek, Kettle River and East and West Kootenay; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; and whereas, the promoters of the Vancouver, Victoria & Eastern Railway & Navigation Company have applied for a charter for a line of railway from Burrard Inlet to the coast cities of British Columbia, the development of this country is greatly retarded, as the agricultural lands cannot be opened up nor the enormous deposits of ore be developed without transportation facilities; THURSDAY, FEBRUARY 4, 1897.

FARMERS AND THE HOME MARKET.

The farmers of the Coast are not at present supplying the Coast cities with those articles which can be produced on British Columbia farms as cheaply and as good as anywhere in the world.

These are practical, business questions and they admit of a business answer. It is folly to attempt to avoid them. The farmers have to face them every year, and they will have to face them when it comes to competing for the supply of the larger markets to be afforded by the mining sections and by the construction of railways, which we are likely to see soon begun in this province.

WHICH IS IT?

The Columbian has opened another package of the ammunition against the local government, "not of the sort that kills." This is a worn-out job lot at which the opposition hammered last session in a vain attempt to create an explosion.

It is estimated that the spruce that will be used for the manufacture of paper pulp in the United States this year will be the equivalent of 25,000,000 feet of logs.

Our information in regard to the probable sale of the Spokane & Northern is that Mr. Corbin has been asked to name a price for the road and has the matter under advisement.

between admitting that the estimates were not intelligently framed or that the government ignored the principles of responsible government. We are not driven to make any such choice, for the estimates were intelligently framed and the principles of responsible government were respected, but under the facts as they appear upon the records of the legislature we have a right to ask our contemporary whether it prefers to be considered ignorant or malicious. Of course it is possible that it may be both.

The Toronto Globe has been giving some attention to the immediate outlook for the Trail Creek district, and accepts the statement that thirteen mines are now in a position to ship, and that forty others may become shippers during the present year.

The proceedings at last night's meeting of the Provincial Board of Health were of very great interest. Nothing comes much more closely home to the health of communities. They are especially important in the new towns, which are apt to become very unhealthy during the summer unless proper safeguards are taken.

The suggestion of the mayor that Victoria should postpone its annual holiday this year until June 30th, the sixtieth anniversary of her majesty's ascension to the throne, has several things to recommend it. In the first place Victoria would hardly like to be the only Canadian capital not to celebrate that day, which will be observed all over the empire.

The decision of the court in the case of the Consolidated Railway Company vs. the Corporation of the City of Victoria, which we print to-day, is one of very great importance, because while it stands it appears to settle the question of the city's liability for damages arising out of the Point Elliot bridge disaster.

The by-elections for the local legislature in New Brunswick show a marked disposition on the part of the people of that province to keep dominion politics out of local affairs. As a matter of fact local politics are little else than a matter of good business management, and it is difficult to see what good can come of running them on dominion lines in any province.

Not a single Northwest paper outside of Calgary has straightly commended Greenway's suggestion. The reason underlying the Calgary papers' approval is given with blushing modesty by the Tribune.

The people of Victoria have hardly yet recovered themselves in regard to the Indian famine relief fund and in consequence subscriptions are not coming in very rapidly. There have been some very handsome subscriptions and a number that are equally liberal in a comparative sense.

The City Council seem very much interested in the matter of street improvement. The citizens will cordially support any well-considered plan. Victoria needs better business streets about as much as anything else.

By the way, the suggestion that too many hacks are allowed to stand on Government street ought not to be lost sight of. The hackmen are entitled to consideration, but so also are the general public.

The Nanaimo Mail has issued a daily edition which presents a very creditable appearance.

The following announcement from the Toronto Globe in regard to the Crow's Nest Pass railway and the coal lands is of interest: "The Dominion government, if it undertakes to build the road, will also control the coal mines which the railroad will develop."

An armed conflict has occurred between Frenchmen and Brazilians on the borders of French Guiana. There is an open boundary question there, which arises from the fact that to some explorers and map-makers greatly confused the names of rivers, so that it is next to impossible to tell what was meant in the treaties made a hundred years ago.

Every little contribution to the Indian famine fund will count. Two cents will keep a man from starvation a day, and the British government says. Hence \$7.30 will keep him for a year.

The present winter has been remarkably in Eastern Canada for the small snowfall. Traffic was on wheels in Montreal during nearly the whole of January.

THE CANADIAN PRESS.

There is no reason to believe that in the long run, the agricultural interests will be benefited by the present movement, but also the greatest, when viewed from the amount of capital invested in it; the gross value of its annual product of the industry which the provincial government derives from it; the number of people engaged in or supported by it or the relative importance which it bears to the general commerce and affairs of the province.—News-Advertiser.

The object of the government in removing the quarantine was to encourage immigration from the United States. A great many desirable immigrants have been hindered from coming to Canada by the quarantine which affords an absolute bar against bringing their cattle with them.

A HOME MARKET.

The legislative obstacles which restrict our commerce with outside countries so far as the importation of goods is concerned, and which will restrict many of our industries, are now half way met for years to come.

ALL WANT RAILWAYS.

The Halifax Board of Trade wants the International railway extended to Montreal. The government is resisting about fifty suggestions for increasing the public debt to one for curtailment of the expenditure.

AS TO JUDICIAL CRAVES.

In Privy Council cases there is but one opinion expressed, and necessarily the committee must decide beforehand what this shall be. It might not be a less trouble than the bench would give enables them to give now.—Toronto Star.

THE ENLARGEMENT OF MANTOBA.

Not a single Northwest paper outside of Calgary has straightly commended Greenway's suggestion. The reason underlying the Calgary papers' approval is given with blushing modesty by the Tribune.

BY WAY OF VARIETY.

"You have an iron constitution, haven't you, Fudge?" "Well, I started out with one, but the world has used me so roughly that I found it necessary to substitute brass."—Chicago Record.

"I had to wait for a long time before I could get a taxi-cab. I had to wait for a long time before I could get a taxi-cab. I had to wait for a long time before I could get a taxi-cab."—Chicago Record.

"What a distinguished-looking man!" "Yes, but I never saw him. He was on the bench."—Chicago Tribune.

GOLDEN DAYS TO COME.

With Modern Methods of Mining and Railway Communication, Williams Creek Will Boom.

Gold Commissioner Brown Tells of the Needs and Progress of the District That is His Home.

Gold Commissioner John Brown, of Barkerville, has been so long identified with the administration of the mining laws in Cariboo, as to seem almost part of the famous old district himself, in spending a ten days' vacation in Victoria, where he has many, many friends.

"Cariboo," he said last evening, "is to-day in a more flourishing condition than it ever was before, as regards mining development. On my way out from Barkerville I passed no fewer than fifty teams bound inward with hydraulic mining, other mining apparatus and supplies."

"I am well aware that in some respects the time is not favorable for financial development, and that claims are numerous; but I feel confident that the people of British Columbia will not be backward in doing what can be done. Especially I hope that it will be recognized that while large donations, if they only 50 cents, or even 25 cents, are too small to be offered, in one sense, a sum contributed by, for instance, twenty different persons, is of more value than if the same sum were given in one direction, because indicating a wider area of sympathy."

Of course the effective aid of the churches which may be expected, and it may also be thought advisable that meetings be convened at all the chief centres, where accurate information could be given as to the causes and extent of the rigorous distemper in India, which we cannot forget, may have had indirectly, the result of, in a sense ministering to the prosperity of Canada.

On the whole, the season has been fairly productive, although owing to the shortage of water in the fall, many of the claims were unable to make a clean-up. Some succeeded partially; but there were others that were not able to wash out a dollar.

The famous wagon road into Cariboo, although it was not the best highway in the province, is not a sufficiently modern avenue of communication to maintain the development of the Cariboo country to progress as it should.

By the way, the suggestion that too many hacks are allowed to stand on Government street ought not to be lost sight of. The hackmen are entitled to consideration, but so also are the general public.

A BROADWAY SENSATION.

New York, Feb. 3.—James A. Bonner, a negro, employed by a window cleaning company, fell from the window ledge of the seventh floor of a building at the corner of Broadway and Bleecker street to-day. Bonner and another colored man were at work on the windows of the floor designated. Bonner had just completed polishing the outside of the window and shouted to his co-worker to raise the sash and assist in the operation.

ROSSLAND'S MINES.

ROSSLAND, Feb. 3.—(Special.)—The drift from the Snow Shoe-Southern Belle tunnel has a splendid face of ore at present. It is of very high grade in copper, running about 20 per cent, and carrying a fair gold value.

The Iron Colt has made a big discovery. In excavating near the shaft for a foundation for its machinery plant, a large body of fine looking ore was uncovered. The showing looks like the first discovery at Crown Point, which was then one of the biggest surface showings in the camp.

The customs collections at the port of Nelson for January were \$31,971.47, made up as follows: Roseland, \$11,054.22; Trail, \$10,261.80; Kaslo, \$6,061.56; Nelson, \$5,710.94; Waukena, \$239.95; Ryker's, \$40. The exports for the month were: Ore, \$258,779; matts, \$416,727.

NEWS OF THE PROVINCE.

Important Farmers Meeting at Duncan—Agriculture for Nainimo—Budget of Alberni News.

ROYAL CITY CHURCH TROUBLES—Fishermen Catch an Eagle—\$800,000 Worth of Matte.

THE FAMINE FUND.

The local fund for the relief of the famine sufferers in distant India has already reached the creditable total of \$438.50, and there is every indication that the people of Victoria at least will lay the eggs, and says that great interest is taken by the sound fanciers in all exhibitions arranged by their brethren on this side of the line.

GOVERNMENT HOUSE.

OTTAWA, January 27, 1897. Mr. DEAR LORDS: I have the honor to acknowledge the receipt of your telegram of the 26th inst., and in reply to inform you that the Government has decided to grant the sum of \$100,000 for the relief of the famine sufferers in India.

The annual meeting of the Nanaimo Rifle Association was held in the office of Mr. George E. T. Pittendrig last night. P. L. Simpson has returned by the Alberni stage from a month's prospecting trip to the West Coast. He and a fellow prospector worked their way up from Victoria along the coast, prospecting as they went, and meeting with very encouraging success.

NANAIMO.

NANAIMO, Feb. 3.—A proposal is on foot to form a battery of artillery, and it has been very well received. The annual meeting of the Nanaimo Rifle Association was held in the office of Mr. George E. T. Pittendrig last night.

It is reported that the Duke of York hydraulic mine had its first big clean-up on Sunday, and the result was eminently satisfactory, a large return of gold being obtained.

DUNCAN.

DUNCAN, Feb. 2.—A special meeting of the Cowichan Agricultural Society was held on Monday at the Agricultural hall, Mr. Robert Musgrave, vice-president, occupying the chair, and about forty members being present.

WELSON.

(From the Nelson Tribune.) T. M. Gibson, of Kaslo, went to Ainsworth on Wednesday to arrange for the immediate beginning of work on the Black Diamond and Little Donald.

The shipments of ore and matts from the mines and smelters of West Kootenay for the month of January will, in all likelihood, aggregate over \$800,000 in value.

Development work on the Lone Star mine in the Slokan is being pushed ahead steadily by Bob Shiel for the Hansard Mining Company. Latterly a number of quartz stringers have come into the tunnel, carrying more or less galena.

When the Monoway on Friday she will not

ANNEXATION AND RECIPROCITY. John Charlton is home from Washington. It is announced on behalf of the government that he was entrusted with no mission.

FOREIGNERS AND OUR MINES.

Somebody has told the Seattle Post-Intelligencer that a movement is on foot in this province that will crystallize in a bill to be passed at the coming session of the legislature to prevent anyone from acquiring title to a mineral claim in British Columbia unless he is a British subject.

THE LOCAL POLITICAL SITUATION. Our friends of the local opposition seem to have made up their minds that the seat on the left of Mr. Speaker are quite as comfortable as those on the right, and will do very well indeed for the next two sessions.

THE ARBITRATION TREATY.

The fate of the arbitration treaty is uncertain. Unhappily for the cause of civilization the senate of the United States has of late years degenerated to a degree that has deprived it of the confidence of the nation and the respect of mankind.

THE CANADIAN PRESS. THE PROVINCIAL FINANCES. We think it will be found that the government of Hon. J. H. Turner will have every reason to congratulate itself on the legislative success of the country, upon the result of last year's operations.

DOMESTIC SMELTING.

Whether foreigners shall or shall not be allowed to file mining claims in British Columbia is a matter of no very great importance. The legislature should enact that no one but a British subject should be allowed to take out a miner's license, not very much ingenuity would be necessary to enable a foreigner to become in point of fact the owner of a mining claim.
