Mr. Crawford is a young person of a good deal of business experience, but was scarcely a practical millinery man on his entering business for himself in 1886. Twenty thousand dollars was invested in the concern, the larger portion of the capital being furnished by Mr. Orawford the elder, For the first year a fair trade was done, but during 1887 and 1888 no headway appears to have been made.

It became apparent at the stock taking in Jame that no substantial progress had been made, and though the assets were \$27,000 and the liabilities only \$8000 the closing of the business-was considered. It was continued, however, till now, but when the Bank of British North America, Mr. Crawford's bank er, became anxious to close its accounts with in, he decided to wind up his business. Some persons have periodical attacks of Canadian cholera, dysentery or diarrhesa, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.
